DUKE AND DUCHESS OF MARLBOROUGH WORRY OVER THEIR SICK SON

Divided Parents May Be Reunited in Common Anxiety Caused by illness of Lord Ivor Churchill.

London, June 9.—Both the Duke and Duchess of Marlborough are very anxious about the health of their second son, Lord Ivor Churchill, and there are those who say that this common anxiety may be the cause of reuniting the divided parents. As a matter of fact, neither of the Marlborough boys promises to be very robust, but the second boy (Lord Ivor) will probably have to spend his winters abroad for some years to come. His father, whose best characteristic perhaps is his interest in his son, is seriously worried about the boy, whose illness began with adenoids and has now developed into lung trouble.

SUSPENDED FROM THE RUSSIAN DUMA

Social Democrat Deputy Disciplined for Making a Speech Which Mocked at Religion—Socialists Protest.

St. Petersburg, June 9.—The Duma last night voted the suspension for fifteen sittings of M. Tobekeidze, a social democrat deputy from the Caucasus, for a speech that mocked the Duma regarded as a mockery at religion. During the course of a debate on the question of support a new school, M. Tobekeidze introduced the subject of iron painting. He declared that orthodox Russians believe in the miracle-working properties of the iron; hence artistic improvement in design would be useless. From a rational point of view, he continued, an iron is merely symbolic of a pagan form of religion. The incident created a great tumult in the house and the Socialists left the hall in a body as a protest against the suspension of the member.

TURKEY INVITING TROUBLE ON THE PERSIAN FRONTIER

St. Petersburg, June 9.—Special despatches received here indicate a serious situation on the Turkish-Persian frontier. Turkish troops, which hitherto have been massed on the Russian side in the vicinity of Erzerum vilayet are in full movement towards Persia. Detachments already have invaded Persian territory. The Turkish occupation of the district of Azerbaijan, west of Urumiah Lake, has been carried out in a systematic manner, and the method of administration of this territory is similar to the administration in regularly annexed territories, which would seem to indicate that the Turks mean to remain permanently. Bodies of Turkish regulars, who have followed in the wake of the Kurdish tribesmen, have commenced to collect revenues.

THE TIMES NEW REPORTER

EVIDENCE OF LOYALTY. The John along the line of the I.C.R. between the John and Sussex are said to be patronizing the Sussex train more than ever this summer. They have discovered that in this train is the car that was built for the Prince of Wales (now King Edward VII) more than forty years ago. As it has already passed the age of the average healthy car, it may some day come to the end of its useful life. Assuming that it did so, what could be more soothing to a man with a broken leg than to point to it with loyal pride and exclaim: "I had that leg broken in the wreck of the car that was built for the Prince of Wales. Or what more inspiring epithet could be engraved on a tombstone than this: Sacred To the Memory of JOHN JAMES JIMMISON, He was killed in the car that was built for the Prince of Wales. ANGLERS AND HAWKS. When Mr. Hiram Hornbeam was told this morning that Charles Baillie had gone out after trout in the dusk of the evening, and had caught a night hawk with his fly, the man from the Settlement snuffed contemptuously and said he supposed St. John folks thought that was a great thing, although there were so many night hawks around here that anybody could get a line on one of them without any trouble. "I was fishing," said Hiram, "I was fishing out to the Settlement last week and I ketch'd a big perch. Jest as I pulled em up over the bank a big fish-hawk swooped down and grabbed him. The perch stuck his bristles up like a porcupine and the fish-hawk couldn't let go. I got 'em both. Well, good-day."

"He did not wait for me to consent. He fairly lifted me from the ground into the blackness and seclusion of the cottage. It was all done in less time than it takes to tell. A moment later I heard my husband go raging down the road, and then I knew that my life was saved. Mind you, it was altogether too dark to see my rescuer. It would have been impossible to strike a light. I stayed for some time until I regained my composure, after which I made up my mind to return home again. It would never do for people to think that I had been kidnapped, and, besides, there were other considerations. I would go back home again and give my husband one more chance, especially as I had a friend in the house in the person of Luigi Silva, who had followed me on my marriage. At the same time, I did not forget the dictates of prudence. It might be still necessary for me to seek an asylum, and my instinct told me that I could trust the man by my side. On the spur of the moment I implored him to take care of my jewels for me. He demurred for a time, but when I told him that I was a perfect stranger to me, then, finally, he consented, at the same time taking from his pocket a card which he said contained his name and address. And thus the strange interview ended, thus we parted, never to meet again till that fatal night we came together in Fitzjohn Square. I know the story sounds incredible.

"Not to me," said Mrs. Delahay, sadly. "Nothing could be incredible to a woman who has gone through what I have. But go on. You went back home again, after entrusting your jewelry to a perfect stranger whose face you had never seen."

"Indeed, I did. And he should never have known one another even if we had met. I went back to the villa, and afterwards we returned to our estate. But it was not for long. A month or two later my husband was found dead in bed, and it was proved beyond question that he had been poisoned. Then began the trial, and I sometimes marvelled that I remained sane. For four years that torture lasted, and then, at length, I was free. I was in so strange and morbid a condition that the sight of a human face was hateful to me. I wanted to go off and live on some distant island until I recovered my nerve and strength again. I succeeded at length in finding the place I led a life of absolute seclusion in a little cottage high up in the Swiss Alps. I had taken a certain amount of money with me, but I woke up to the fact one day that my means were exhausted. You must know that I did straight away, as soon as the last trial was finished, and that all those years I never saw a single face that was familiar to me. But the end of that period I was quite my again. I felt a strange longing to go into the world and see what life was like once more. Besides, there was my child to consider."

"Your child?" Mrs. Delahay cried. "This is the first time you have mentioned a child. Do you mean to say that you could part your own flesh and blood in that callous way?"

The Countess's expression hardened for a moment.

"She was his child as well as mine," she whispered.

"Well, what of that? I fail to see that it makes any difference. Your husband might have been a passionate man, but apart from that, everybody spoke exceedingly well of him. He was immensely popular. He was clever and generous. He had hosts of friends—I know that through an English nobleman, who was greatly attached to the Count. Everybody spoke well of him."

"Oh, I know, I know," the Countess said, with a bitter smile. "The catalogue of his virtues was trumpeted high enough at the trial, and I was no more than an inhuman wretch, not fit to live,

Sick all the Time with Kidney Trouble

4 BOXES CURED HIM

Mr. Whellam was a mighty ill man this spring. He had been ailing for almost a year. Sharp pains in the back and through the hips. Dull headaches and dizzy spells. Appetite poor—nothing seemed to taste right.

Finally, an old friend told him about a friend who was in just that condition and who was cured by GIN PILLS.

Mr. Whellam tried them and you would not know him for the same man now. That worried, strained look about the face is gone. His eyes are bright—his complexion rosy. He enjoys what he eats—has gained in weight—and sleeps like a top.

He had kidney trouble. GIN PILLS practically gave new kidneys—healed and strengthened these vital organs—scotched the bladder—and freed the system of uric acid that was poisoning him.

Broad Cove, C.B., July 6, 1925.

I received a sample of your GIN PILLS last fall. They did me a great deal of good. In fact, they are the best kidney medicine I know of. A neighbor of mine has tried them and they did him more good than all the Doctor's Medicine he took in three months. I will not forget to mention that your GIN PILLS have been to me.

OBITUARY

William Hazlitt, Sr.

The death occurred at Whitehead, Kings county, on the 2nd inst., of William Hazlitt, Sr., aged 87 years, a life long resident of the parish of Kingston. He was a son of Ralph Hazlitt who came from the county of Tyrone, Ireland, and New Brunswick in 1820-1821, and first established himself on what is now known as the "Great Farm" in Hampton village, where the subject of this sketch was born. Five or six years later he purchased a large tract of land in Hampton and removed his family thither. Later he enlarged his holdings by the purchase of another farm near by. It was on this farm that William Hazlitt, Sr., lived from the age of five or six years until his death. Of his brothers and sisters but one survives, Mrs. Mary, wife of St. John West. At the death of Ralph Hazlitt his landed property was divided between his three sons, William, Andrew and James, all of whom have passed away. Andrew's farm is now owned by Charles Hazlitt, and James' by his second wife, who provides for his widow during the remainder of her life and for his sisters during their minority. William Hazlitt, Sr., leaves by his first wife (Margaret Pendergast) one daughter and two sons, Mrs. Hannah, of Hampton, Boston, Ralph, St. John and William Jr. of Whitehead. By his second wife (Margaret Coy) he leaves four daughters, one son, Mrs. Leona Cain, of the North End, Maud of St. John, and Ronald, Pearl and Edna, at home.

William Hazlitt, Sr., was a good husband, a kind father and respected neighbor. He was not ambitious to acquire wealth or to be known as an over-achiever, but his name was known all over Kings county, and no one had aught to say of him, while many had reason to be proud of his kindness of heart and many charitable deeds. He was buried on the 6th inst. in St. Paul's church yard and by the side of his youngest daughter, Florence, who died 11th December last.

Conditions on the Kennebecasis have greatly changed since the late Mr. Hazlitt's youthful days. Then there were few if any frame houses in his section of the parish of Kingston; the roads were better, the cattle trails, farming was conducted in a most primitive fashion, and to market their produce the farmers had to go to St. John in canoes or row boats, and this involved a good deal of labor and some danger, for Kennebec Bay, extending twelve miles or so above Boar's Head is in places five to six miles wide and at times is almost as rough as the open sea as far as Hampton had no recourse but to brave the discomforts and dangers of the trip in order to exchange their produce for household and other necessities. Some of those voyages, by stress of weather were prolonged for several days and some of them ended in disaster. The late Mr. Hazlitt never met with any serious mishaps afloat or ashore. He was born under a fortunate star as is evidenced by his long and in nowise seriously clouded life, and no one will ever be heard to say that his life was marred by any serious misfortune. He was free in speech and fixed in opinion.

Some of the dwellers along the shores of Kennebecasis in the old time were tinged with superstition and talked of phantom boatmen who infested the bay and goblins and pixies who roamed about on nights, playing mischievous pranks upon belated travelers by water or by land. Witches were also talked of who played mischief with the milk pails and egg-baskets. One old resident told me many years ago how as he was once rounding the point of Boar's Head, a goblin clambered into his boat, seized a quart bottle of gin, drew the cork, swallowed it, and disappeared. He was so startled by the feat that he fainted, and when he came to himself it was broad day and his boat was stranded on the shore of one of the Brothers Islands, near Millidgeville. If I doubted the veracity, the parrot said he would show me the bottle which the goblin left in his boat.

The late Mr. Hazlitt never met any of these unearthly visitants. He was a practical man who "saw his duty and did it," and as such he will be remembered.

Fashion Hint for Times Readers

THE SUMMER GIRL'S FAVORITE MOTORING GARB.

Many of the rubberized motoring coats are of checked taffetas in the fashionable shades of gray, blue or tan, with white or black blockings. They are modelled on sacque lines, with the fullest about the shoulders taken up by deep darts concealed beneath bias-cut arm-seam bands resembling tiny boleros. They are both single and double breasted, and fasten with large boue or fabric-covered, metal-bound buttons. Long, wide sleeves are deeply plaited into the armholes and again at the under side of the wrist band, which is covered by a deeply pointed cuff. Square-crowned matching willows have wonderful views, and are kept in place with bordered chiffon or waterproof silk veils.

PLAYS AND PLAYERS

MERRY WIDOW AT THE NICKEL

Nodding their heads to the contagious rhythm of the Merry Widow Waltz, as played by the Nickel's big orchestra, house after house of perfectly delighted people saw the farcical picture "The Merry Widow Waltz" last evening, and it was purely and simply a case of laughing to music. As the irresistible strains of Franz Lehár's dance writing filled the big auditorium the excellent Edison film of the funniest picture was unrolled on the curtain, telling the story of a man who saw a production of "The Merry Widow" and went almost dizzy over it. The other pictures, Neighbourly Neighbours and A Parent's Devotion made up a remarkably fine programme. Mr. Cairns scored another success in Arthur J. Lamb's newest song "Sweetheart" and Miss Wren was fine in the bit-rol of Missy, "Top of the Mornin' Bidget McCue." The returns hot from the wire last evening were a pleasing feature. Today's matinee will undoubtedly be another bumper like yesterday's.

HOWARD AT PRINCESS

The Princess was crowded to the doors last evening with an audience that left singing the praises of the wonderful Howard, the most perfect of all the actors who does apparently impossible feats with his voice. As one gentleman said in leaving the hall last evening people lost sight entirely of the fact that Howard was doing the talking, so interested did they become in the performance of the little dummies and the bold major. The wee McGreggor caught the audience with his plaintive little cry of "I canna see." Mr. Howard covered his eyes. Howard will present an entirely different sketch this evening entitled, "In the Doctor's Office." In the wee McGreggor carries on a flirtation with the telephone girl. The public are asked to remember that Howard changes every evening, so they can attend every night and see and hear something new. Wednesday, Thursday, Friday and Saturday Uncle Tom's Cabin, a most attractive motion picture, will be shown afternoon and evening. Mr. Howard will appear at the Saturday matinee and give a special performance for the children.

FAUST, FRIDAY AND SATURDAY

The drama of "Faust" will be presented in the Opera House on Friday and Saturday with Mr. Chas. S. Silk, the young actor, in the stellar role. Mr. Silk has portrayed this part of Mephisto for over six years, and has made a great success of it. The newspaper press of the country all speak in the highest praise of his clever work in this part, and he has surrounded himself with a good acting company. The production and electric effects are all carried by this company and all together go to make a first class production of the celebrated play.

TWO SUPERVISED PLAYGROUNDS

The playgrounds committee of the Women's Council met yesterday afternoon in the King's Daughters' rooms, with Miss Mabel Peters in the chair. There were present Mrs. D. McLellan, Mrs. D. P. Chisholm, Miss Leavitt, Dr. Parks, Mrs. Woodman and Miss Reid.

It was reported that the committee had a little more than \$350 in the bank, and would receive \$300 from the city. Last year's expenditure was between \$700 and \$800. The question of raising funds was discussed at some length. A. M. Belding, on behalf of the Every Day Club, tendered the use of the club's grounds for supervised playground work during the

There is still a doubt whether or not the Winter street grounds will be available this summer, but if they are a playground will be conducted there also.

The committee would like to have grounds in the north end, but none suitable seem to be available. The committee have entered upon the season's work with enthusiasm, and hope to do much more than was possible last year. It was decided to provide some new equipment.

Arrangements were completed on Saturday for the berth for the Neptune rowing club boat house. The house is about ready to be put in commission for the summer, and as soon as the approaches are ready, the season will be opened, probably at the last of this week. Members may obtain their season tickets now from the treasurer, Mr. Fred E. Hanington.

KILLED IN EXPLOSION OF A CHEMICAL ENGINE

Hamlets, Man., June 8.—This morning Lorne Baker lost his life and Arthur Hesterman and several others narrowly escaped. An old building, which had been placed on the commons at the west of town for the purpose of testing a new chemical engine, was set on fire. An alarm was given and the team drawing the engine and firemen were coming up Main street at top speed when one of the cylinders exploded.

HENHOUSE BURNED AT POKIOK LAST NIGHT.

It was only a hen house but two alarms were sent in by some one when it was found to be afire about 10 o'clock last night. The building was in the Pokioik road on a high rock overlooking the river some distance back from Bellevue avenue. It was owned by James H. Sears. Though the water was turned on from one stream, the house was completely destroyed within an hour and valued at about \$150. Insurance to the amount of \$25 was carried by the Anglo-American Insurance Company.

ROBBED NINE WOMEN IN AN HOUR

New York, N. Y.—A thirteen-year-old girl succeeded in breaking all records for picking pockets in this city. Using a baby sister of five, carrying a Teddy Bear, as a shield, she opened the purses of nine shoppers and stole over \$1,000.00 in cash and ten diamond rings in a little less than sixty minutes. However, she was caught and is now in jail.

MISS MABEL KNAPP

BURNING ITCHING ECZEMA CAUSED MANY SLEEPLESS NIGHTS.

Miss Mabel Knapp, of 247 Wolfe Street, Peterboro, Ont., says: "Eight months ago small white blotches and pimples broke out on my hands. To keep from rubbing and scratching was impossible as the itching was intense. This caused the pimples to break forming matted sores between my fingers and spreading to the joints of my fingers. My hands were actually in a raw state. I suffered cruelly being awake night after night with the burning, itching sensation and pains which followed. For months I could not bear my hands in water and did very little work about the house. Various remedies were tried still the disease was not checked and I was now almost discouraged when a statement in the newspaper made by some person who had been cured of a similar disease by using Zam-Buk caught my attention. I obtained a box of Zam-Buk and began using it. Each application brought great relief. It checked almost instantly the burning and itching and soothed the pain, and soon banished all inflammation and swelling and in about three weeks from commencing with Zam-Buk, I was cured of this dread disease."

A Young Girl's Room and Its Furnishings

In planning the decorations and furnishing of a girl's room it should be remembered that it should be dainty and suggestive of the tastes of the young girl who is to be its occupant. There should be no appearance of heavy luxuriance; everything should be simple and inexpensive, having an air of charming simplicity so delightful in a room where a young girl sleeps. The room should be papered with some attractive paper of a shade not too dark. A soft tone of green or some other neutral shade would be in the majority of rooms, the most attractive. Above this have a flowered frieze, which should be the keynote for the decorations to be added later. It is wise to use a plain paper, as there are so many photographs, pictures and plaster casts, as well as other possessions, that she will wish to retain, a great many of which would not harmonize with a paper of very marked pattern or vivid color.

FINANCIAL PANIC HAS LEFT NO GREAT WRECKS
Cheering Conditions in the United States Continue and the Crop Situation is Especially Encouraging--Bache & Co. Discuss the State of Affairs.

New York, June 8.—The effects of the panic are wearing away—no grievous sore spots have been left. There are no vast wrecks, the scene of misery and devastation while the disaster was at its height, succeeded by crumbling ruins over which the grass will gradually grow. The industrial concerns that yielded to the first withering fury of the storm are gradually reviving and re-organizing, as, for instance, the Westinghouse Electric. Banks that succumbed have sent a remarkable amount of money to the trust company, the closing of which in the first days of panic from its very magnitude sent a shock around the world, has not only effected a resumption, but has anticipated by months the first two of its extended payments to depositors. In the mercantile world, failures for a time were averted and volume of liabilities increased, but these are now beginning to fall off, and in May were \$7,000,000 less than in April. Labor has suffered little decrease in scale of wages. The number employed has been cut down, but the reports of hardship have been singularly and unexpectedly circumscribed. The winter is over and bread has been plentiful, and the prospect of a strike has been avoided. There is a spirit of contentment and hopefulness here. We have never before had a panic with so little aftermath of pain, of broken credit and despair. The country was sound; the panic was caused as far as possible by the panic of the world, and the panic of the world was caused as far as possible by the panic of the world.

CONDITION OF CANADIAN TRADE

Very Little Change but the Outlook is Considered Generally Good.

(Montreal Witness.)

Very little change is to be noted this week in the volume of general trade conditions in eastern Canada, but according to reports from Winnipeg and other western distributing points, there is a marked increase in the demand for staple goods there, and cash payments appear to be the rule. The condition of the crops, which means so much to Canada at all times, and more especially this year, is a naturally of paramount interest to all sections of the Dominion. A big crop safely gathered means easy money, and perhaps a complete recovery from the set-back experienced by the country during the past six or eight months; while a crop in Manitoba and the provinces which are making a start and struggling to establish themselves in a new and it means present success and an earnest of safety and solvency for some time to come, at least. To the east, where the manufacturers and moneyed interests are largely centered, a big crop, successfully harvested, will bring a resumption of activities in practically every line of manufacture, in transportation and in the stock markets. Several of the leading industrial and mining companies report a favorable increase in their output for the month of May, and particularly is this noticeable in the figures published this week by the Dominion Iron and Steel Company, which show a total output of castings and rolled manufactures far in excess of the corresponding month last year. The Dominion Coal Company also reports a good month's business, as shown by the increase of tonnage over May, 1907. In nearly all the mining districts, especially Cobalt and British Columbia, the same news is told of increased output, and more satisfactory returns. One unfavorable condition, however, in the situation, is the continued heavy decrease in earnings of the leading Canadian Railways. On the other hand, the steamship companies are not complaining, and are evidently satisfied under prevailing conditions with the amount of business offered since the opening of navigation. The trouble which has existed in certain labor centres is quietly passing away, and with the conclusion of the provincial political struggles in Quebec and Ontario trade is expected to assume a livelier gait.

Caseo, N.S., June 8--(Special).

The finding of an overturned sail boat this afternoon in Squid Cove in this harbor, tells another tale of the loss of another life. This time it is a young man, Thomas Deland, about twenty years of age, unmarried, a family living on the island beach and going in the direction of the sound found the overturned boat. The body has not yet been recovered.

PLAY THE GAME IN SOCIETY LEAGUE.

St. Josephs and St. John The Baptist Make It 3--3 Both Pitchers Receive Good Support--Best Game Yet in League.

A tie game was the result of last night's contest on the Shankrock grounds when St. Josephs and St. John The Baptist struggled for six innings and broke even. The game was fast from the start and the large crowd, both Donovan and McGuigan, the opposing pitchers, showed up well, and kept the hits down.

St. Josephs opened well by getting two runs in the first inning and added another in the second, but this added their scoring. St. John The Baptist made one in the third and tied the game in the sixth and last. Harris came to bat with two men on base and sent out a safe one which scored Cross and J. McDermott. Harris did not reach home and the game ended a draw.

The score by innings was:

St. Josephs	1	2	3	4	5	6	7	8	9	Total
St. John The Baptist	0	0	1	0	0	2	0	0	0	3

SHRUBB AND LOGBOAT

New York, June 8--Alfred Shrub, the English professional distance runner and holder of the fastest running records from 1/4 to 11 miles, arrived here yesterday on the Caronia. While here he will engage in a series of professional races, and will try to induce Tom Longboat, the Indian, to run him a match for a response sum.

On board the Caronia Saturday Shrub ran a match of four miles against a four-man relay. The race took place on the lower deck of the ship, which is seven laps to the mile, but the spectators did not show him fair play and he quit after covering 3/4 mile.

A SCHOONER HERE FROM THE COAST OF ICELAND

The Danish three masted schooner Fred, Captain Gorgensen, arrived in port yesterday, from Stykkisholm, Iceland, and will load deals for Limerick, (Ire.). But few ships from the land in the far north find their way to St. John and a Telegraph reporter went in search of the captain for news. The Fred was found lying at Dick's Wharf, Lower Cove, and Captain Gorgensen quickly responded to a hail. With him was P. Sargent, the mate, who the captain explained was a native of Iceland and ready to answer any questions.

As to the voyage the captain said they left Stykkisholm, a small town on the coast, on May 8 and made a good passage. Several icebergs were passed. In some way the Fred had her port bow slightly damaged, but otherwise there was nothing of interest. Captain Gorgensen said the Fred had sailed to Iceland with a cargo of Scotch coal for which there was a considerable demand. Many vessels touched at the island with coal and salt in the summer and left with fish and oil in September and October.

FIRE IN CHARLOTTE CO

A telephone message from Oak Bay, Charlotte county, tells of the destruction of Arthur Cameron's barn, near Lower Tower Hill at midnight on Sunday. Mr. Cameron had recently purchased the farm from Robert Smith and had taken possession.

About 12 o'clock the family were awakened to find the barn on fire, though how it caught no one knew. Nothing could be done as by this time the fire had gained such headway. One horse and all the cattle owned by Mr. Cameron, as well as his farm machinery and some hay stored in the barn, were destroyed. The loss is estimated at \$1,000.

How to Be Beautiful

To have a soft, smooth skin, free from eruptions and pimples, the blood must be healthy and pure. Ferrone invigorates enfeebled blood, and cleanses it of all impurities and poisons; it brings color to the lips and cheeks, brilliancy to the eyes, whitens the teeth and sweetens the breath. No tonic compares with Ferrone in rapid action and permanent results. Try it. Price 50c at druggists, or N. C. Polson & Co., Kingston, Ont.

SAFETY BOARD TAKES IT NOW

Question of Making School Buildings Safe Turned Over to Civic Board by School Trustees.

At a meeting of the board of school trustees last night it was decided to send to the safety board for further instructions Architect F. Neil Brodie's estimates of the cost of the changes in the schools recommended by the common council's committee. It was also decided to accept the terms offered by A. A. Wilson, in behalf of the trustees of Leinster street church, for the lease of the rooms in the building for one year. By these terms the board will pay a lump sum of \$800 for rent, care and heating. They will also pay the water assessments on the property over and above \$25, which the church authorities agree to pay. The board will also, if required, put fire escapes on the building.

Those present at the meeting besides the chairman were Messrs. Coll, Bullock, Russell, Nase, Keefe, Day and Mrs. Skinner.

Mary A. Gilliland, of Silver Falls, applicant for place on the teaching staff. This was referred to the application book. Letters were received from Ida A. Northrup and Frank S. Morrison, accepting the positions of teachers of manual training and domestic science respectively. Stella S. Payson, teacher of grades III and IV in Victoria school, asked for a refund of three months salary lost on account of illness. The chairman and Mr. Coll were appointed to consider the case, with power to act.

Paulina P. Fox, teacher of grades V and VI, in Douglas avenue school, applied for a year's leave of absence to enable her to attend the U. N. B. This was granted without pay.

T. M. Burns, secretary of the board of health, wrote regarding the condition of the Leinster street school. This was referred to the buildings committee.

D. Mullin, K.C., sent in a bill for \$22.50 for legal expenses in connection with the transfer of the Mrs. Pearce property to the board. This was ordered paid.

A. A. Wilson wrote relative to the Leinster street school. The terms outlined already were submitted and were accepted.

The chairman suggested that it would not be wise to take the rooms for more than a year at a time as he is anxious that they may have a new building on the Weldon lot before long.

A vote of thanks was passed to Mr. Bullock for his donation of flags to the board.

Mr. Bullock asked if it was the intention of the board that the new issue of debentures they are contemplating would carry sinking fund.

Mr. Coll informed him that hitherto it had not been the custom to make the issue carry sinking funds. He agreed, however, that it might be done.

It seemed to be the opinion of the board that it would be wise to create a sinking fund for the contemplated issue of debentures.

On motion of Mr. Coll the chairman was authorized to sign a check for \$120 for the Johnston property in Spring street.

The buildings committee were given power to make the necessary repairs to the schools during vacation.

Mr. Russell announced that he had talked with J. H. Doody about his plumbing business there and Rev. Dr. Kierstead, of education. The bill, it was claimed, was absolutely correct. The clerk had made a mistake, he was further said, in copying it. A new bill was made and forwarded to the board explaining the items.

SENSATIONAL ATTACK ON FRENCH GOVERNMENT

Henri Rochefort Says Police Do Not Wish to Solve Recent Murder Mystery--Says Parisians Are Menaced by Mafia.

Paris, June 8--Henri Rochefort, editor of the Patrie, whose bitter enmity to the Clemenceau government is well known, insinuates in the Patrie that the police do not desire to solve the mystery of the murder of Adolphe Steinhil, the noted painter, which occurred more than a week ago. Yet, he says, he could solve the mystery in an hour if permitted to do so. He asserts that the alleged robbery of the Steinhil house never occurred.

"The government deceives itself," he continues, "if it imagines that this affair will die out. It attracts more interest than many sensational crimes. After the mysterious death of M. Felix Faure, the president of the republic on the day on which the decree for the revision of the Dreyfus affair was to have been presented and which he would have refused to sign after the pretended suicide of M. Gabriel Syveton on the day before he would have been acquitted of assaulting War Minister Andre, and now after the strangulation of Steinhil by three men and a woman who did not even carry away a spoon, Parisians are menaced by a sort of Mafia."
