### THE ROSE OF ROSTREVOR.

O! who is the maid, with the dark laughing eye,  
Whose bloom doth the rose and the lily outvie,  
With the sunny bright smiles and long silken hair,  
Say, who is the maid,—the divinity fair?  
She is the young beauty the pride of the land,  
Though Erin's fair daughter no wealth can command,  
The cynosure here in the maze of delight,  
'Tis the Rose of Rostrevor—the star of the night!

How lovely her form, and how gentle her air!  
The warriors in crowds about her repair:  
See the noblest of all doth proudly advance  
And prevails on the maid to join in the dance.  
How graceful her movements in gliding along,  
Unconscious of love, in the glittering throng!  
She listens, smiles, blushes, and heeds the soft tone,  
And ere morning the Rose of Rostrevor was gone!

Say, who is the gay, dandy, flattering thing  
By folly and fashion pursued on the wing?  
Her cheek boldly flushed, ever restless her eye,  
Rude, flaunting in manner, suppressing a sigh?  
Attractive her air,—to the world hath portrayed  
The look of one fallen, discarded, betrayed!  
Like a weed on the whirlwind, withered and tossed,  
'Tis the Rose of Rostrevor, degraded and lost!

Who art thou, wretched woman, pale, wan, and poor,  
In poverty begging a crust from each door,  
To banish gaunt famine, and hunger assuage?  
Thy skeleton form, with a heart ill at ease,  
To rest from the night storm thine uncovered head,  
Socks refuge and shelter beneath the cold shed,  
She sunk on the ground, with a faint hollow moan,  
And the Rose of Rostrevor's sad spirit had flown!

### TRUE AND FALSE MATERNAL LOVE.

(Translated from the German of Heine.)  
For half a century, education has been regarded as a science in Germany, and many of the first minds have been devoted to it, as a science, that yields to none in importance and interest. It claims the best efforts of the ablest of men. In consequence of this, we find depth combined with simplicity, in their works on this subject, which we meet in no other, and which give an air of freshness to an old topic, and even to old thoughts. We have formerly made some extracts from Heine's Physical Education. We recently met with a passage on the evils arising from false management of the childish temper, which contains some striking thoughts.

He observes that 'a selfish parent cannot educate a child aright; and that this selfishness often conceals itself under guise. "The mother, too often, merely loves herself in her child." Does this merit reproach? We are asked, "Is it not a lovely trait of natural affection, and is not the mother thus bound to the child by the strongest ties? Is it not a provision kindly made, to strengthen her in enduring that great amount of care and toil which are necessary in training up her little one? There is some similarity in this feeling; but it has not the truth of instinct, which leads an animal to take care of its young in the same manner. The animal has no vanity; while a mother who only loves herself in her child, is vain, in reality, as when she looks at her own person in the glass."

'And this vanity leads to evils which never result from the instinct of animals. A vain mother will make a plaything of her child,—a course which lays the foundation of every species of evil. She educates her child to be vain, and vanity is the cause of all human misery.  
'After all, perhaps she does not love her child; for not infrequently, vanity is stronger than natural love; the passion overcomes the instinct. This mother should not love herself in her child; she should love her child as herself, even more than herself,—and every true mother does this. But even this love will lead to evil results, if it is nothing more than the natural affection which exists in animals. She will regard her child only as a possession,—a good,—a treasure. She will always hold it as such, and will think of nothing but to keep this treasure. She will give the child what it needs, and what it does not need; for such love cannot give enough. It is shielded from all that can hurt it, or give it pain, at least in the opinion of the mother. In this way, it is first encumbered, then contracts bad habits, and finally it is spoiled for want of discipline; for what would give it more pain than discipline?

We have often observed the effect of discipline in forming and strengthening the bond of union, between the parent and the child, the pupil and the teacher; but we have never seen it so happily explained, as in the following remarks.  
'The child thus spoiled, is in peculiar need of discipline. This is, in truth, the only means of removing a barrier which would separate them more and more widely. The obstinacy and self-will which result from such management, will inevitably divide the child from the parents, for it is only by submission to the opinions and wishes of the parents, that the child is united to them. Indeed, these feelings put it in opposition to its parents. Where this is the case, the closest and most intimate bond by which parents and children can be united,—the bond of faith and trust,—is broken; and then the ties of affection must be dissolved. The child acquires confidence only in himself. He learns his power, for his will is always gratified; and his parents do as he chooses. Thus he learns to govern his parents, but not to love them; he loves only himself.

'Is this blind love in the parents something unapproachable—a mere fancy? No; it is, unhappily, a thing of daily occurrence. Every where there are parents who hang on their children with idolatrous love, who suffer them to want nothing, who satisfy all their desires even before they are expressed, and thus train them up to be undisciplined, selfish, lordly beings. Such parents have a miserable reward; for the very children thus miseducated, are often the cause of their greatest suffering, and sometimes bring down their gray hairs with sorrow to the grave, and perhaps hear them call down curses on the parent that betrayed them to ruin by indulgence.  
'This is false affection,—the mere shadow and pretence of love. The only true maternal love is that which seeks the ultimate good and happiness of the child, even at the expense of immediate suffering; which will administer a nauseous drug, or painful punishment without hesitation, if it is necessary to save the child from greater suffering or greater evils.

**BANKS OF NEWFOUNDLAND.**—The banks extend over a space of 40,000 miles, and are from 30 to 45 fathoms below the surface of the ocean. The shoals are inhabited by innumerable tribes of muscled and clams to which it is a favorite residence, as they can easily bury their shells in the soft sand. They have enemies to contend with. The cod fish resort to this coast to prey on them. They keep a constant watch, and swim about a foot above the submarine sands. When a muscled opens its shell, it is immediately seized and devoured. At other times the fish do not wait. They are provided with a horny protuberance round their mouths with which they burrow in the sand, and capture the muscled in his shell. The fish-

ermen, of various nations, French, English, and Americans, who resort to those banks, take annually from 8 to 10,000,000 fish. On opening them, they find the remains of 20 or 30 muscled in each. Sometimes the muscled shells are found either wholly or partially dissolved. The first care of the fishermen, after taking their station, is, to ascertain the depth of the water. The lines must be regulated so as to lie on the bottom, where the fish are always engaged in this species of submarine war.—*Boston Journal.*

## WILLIAM PITT.

Blackwood's Edinburgh Magazine for last month gives the subjected account of the younger Pitt's perseverance, as minister, against a majority in the House of Commons:

"The lofty perseverance of the minister was among the great qualities which gained this most memorable triumph. He fought the opposition for eleven weeks alone; and during that time he never allowed the most dexterous of his antagonists to gain the slightest advantage over him. He was never betrayed into a rash expression, never inflamed into unbecoming wrath, never entrapped into undue disclosure. He sat, night after night, the same imperturbable depositary of Government, suffering the storm to rage on until it was his pleasure to check its ravages. But when he rose, he poured out the same torrent of eloquence, which dashed and withered his enemies; at 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Speculation in Stocks and real property is more general and extravagant than it has been before, for many years, in all our principal cities. Gambling spirit is apt to prove epidemic, and becomes violent in proportion to its spread. It seizes on men in all sorts of circumstances, diverting them from the regular pursuits and hopes of industry, and stimulating them to risks by which their minds are kept in extreme agitation, and all their means exposed to sudden and ruinous vicissitudes. We are told by intelligent gentlemen who have been lookers on, of late, at Boston, New York, and in our own city, that multitudes are now prominent and desperate dealers in the stock and other speculation markets, of classes and ages, callings and positions in life, that formerly were never seen nor expected, and themselves never thought of, acting, in such scenes. Small tradesmen, shopkeepers, clerks of all degrees, operatives of town and country, members of the learned professions, students in the offices, beginners in the world without capital or with a little, all frequent the exchanges and the auction grounds to try their fortunes as with the lotteries. They chase bubbles and money to spare. We scarcely need add that this diffuse excitement, subject as it is to rumourous and various chances of the day or hour, is unfavorable to productive industry, to steady habits, and sure aims, and to morals which are always more or less in danger: when indeed, what cupiditas.—*Philadelphian Gazette.*

LONDON, April 21.

**POLICY OF THE NEW CABINET.**  
We have received, at a late hour this afternoon the following address from Lord John Russell to his late constituents, on accepting office in the new ministry. It will be seen that it embodies the line of policy of the Melbourne administration, and as such must attract attention:—

TO THE ELECTORS OF THE SOUTHERN DIVISION OF THE COUNTY OF DEVON.

GENTLEMEN.—The acceptance of an office under the Crown renders it necessary that I should again appeal to the judgment of the independent and public spirited body by which I have been already three times elected.

Since the last of those elections, a period short in time, but important in events and fruitful in consequences, has elapsed.

Placed, however undeservedly, at the head of the largest and most powerful opposition which was ever united against a Minister of the Crown, I have endeavoured to make the influence which that proud position gave me conducive to the interests of the country.

The attitude assumed by the late ministers and their professions in favour of reform, to which many, in deed, the greater part of them, had always, been hostile, offered a tempting occasion for invective and crimination. I have endeavoured, as far as possible, to avoid that course. The ministry of Lord Melbourne had contemplated large, and, as I believe, necessary improvements in our institutions in church and state; it was my first and main object to see that these reforms were not endangered or obstructed in the progress by the late ministry.

In conformity with these views, Lord Morpeth proposed and carried an amendment to the Address to the Crown, in which the policy which restored to the people the right of choosing their representatives, and which provided for the emancipation of all persons held in slavery in his Majesty's colonies and possessions abroad, will, with the same enlarged views, place without delay our municipal corporations under vigilant popular control, remove all the well-founded grievances of the Protestant Dissenters, and correct those abuses in the church which impair its efficiency in England, disturb the peace of society in Ireland, and lower the character of the establishment in both countries.

With respect to the Municipal Corporations, the report of the Commissioners, which has since appeared, has abundantly confirmed the opinion of the House of Commons. It is clearly proved by experience, that self-elected Corporations tend to violations of trust, pervasions of justice, the abuse of charitable funds, political jobbing, and the injury of the communities for whose benefit they were established.—The true remedy for these evils, in my opinion, was to adapt the principle of free election, known to our ancient laws and established in the reform act, to our municipal corporations. In this principle Lord Stanley and all the members of Lord Grey's ministry concurred. The late ministry, on the other hand, confined themselves to a vague declaration of their willingness to consider the reform and reform the abuses.

We likewise declared that we desired to remove all the well-founded grievances of the Protestant Dissenters. In conformity with this declaration, I voted for an address to the crown, praying for the grant of a charter to the London University, where the conscientious Dissenters might obtain the literary honours which at Oxford and Cambridge are exclusively confined to those who declare themselves members of the Church of England.

With respect to the marriages of Dissenters, Sir Robert Peel has introduced a bill founded on a liberal and just principle; but I fear that if it were to pass in its present shape, Protestant Dissenters would still feel that the line drawn between them and the members of the church tended to lower them in public estimation. Some alteration in the bill may, perhaps, remedy this defect, but the establishment of a civil register of births, deaths and marriages would afford the best and truest solution for all the difficulties of this subject.

In regard to church rates, the agitation on religious subjects of which these rates are the constant occasion, makes it in every way desirable to abolish an impost which is at once a grievance to Dissenters, and an injury to the church.

With respect to the Church of England, Sir Robert Peel did not hesitate clearly to declare his intention to correct its acknowledged abuses. The opinion which I declared to you in 1832 that the revenues of the Church of England were not too large, but that they ought to be more equitably distributed, seems no longer to be disputed. The application of this principle must be regulated by caution, but not endeavoured by a lurking desire to keep alive the seeds of abuses which we profess to destroy.

With regard to the Church of Ireland the case is widely different. I refused to assist in making perpetual sinecures where the clergyman and his clerk week after week, and year after year, formed the whole of the congregation. Besides the general injustice and glaring absurdity of this system, it is easily proved that the maintenance

**PUBLIC NOTICE.**  
THE high repute and extensive sale of ROWLAND'S MACASSAR OIL, throughout the world, has induced adventurers in order to gain a trifling more profit, to introduce "spurious imitations" into America—injuriously to the Hair, instead of the ORIGINAL.—To prevent such Imposition, it is necessary to Notice, that each bottle of the Original is enclosed in a Wrapper, which has the Name and Address in Red, on *Lace-work*.

A. ROWLAND & SON, 20, Hatton Garden. And counter-signed, ALEX. ROWLAND. —All others are Counterfeits.—Particular attention to this Caution is necessary, as the Proprietors cannot be responsible for the serious injury resulting from the use of false imitations.

This faithful assistant of nature has, from intrinsic worth alone, acquired the high and distinguished patronage throughout Europe; and, with rank, fashion, and discernment, supersedes all preparations of pressed similar import. Rowland's solely genuine Macassar Oil elicits a luxuriant growth to the head of fine silky hair, and insures the continuance of it in plenty and beauty to the remotest periods of human life. This celebrated Oil ranks pre-eminently with the most distinguished Ladies as a conservator of personal attraction, preventing the hair from falling off and turning grey, and sustaining it in graceful ringlets, in pristine decoration, during many hours, while the fair possessor mingles in the dance and promenade, or enjoys the recreations of equestrian exercise and aquatic excursion,—thus realizing an important convenience in lengthened duration of head-dress.—Price 3s. 6d.—7s.—10s. 6d.—and 21s. per bottle.

ROWLAND'S KALYDOR. A mild and innocent production, powerfully efficacious in exterminating Eruptions, Tan, Pimples, Freckles, Redness, and all Cutaneous Imperfections; produces a soft and healthy skin, and juvenile bloom to the complexion; preserves it from the heat of summer; affords soothing relief in cases of Sun Burns, Stings of Insects, or any Inflammations; and is warranted perfectly innocuous to the most delicate Lady or Infant.—GENTLEMEN, after Shaving, will find it ally the irritating and smarting pain, and render the skin smooth and pleasant.—Price 4s. 6d. and 8s. 6d. per bottle, duty included.

ROWLAND'S ODONTO, or PEARL DENTIFRICE.—Is recommended by the most eminent of the Faculty, as the mildest, yet most salutary and efficacious Dentifrice that was ever discovered, (forming an efficient VULNERABLE WHITE POWDER, composed of the ingredients the most pure and rare.) is a never-failing Remedy for every disease to which the Teeth and Gums are liable: it eradicates all deleterious matter; at the same time healing, strengthening, and firmly fixing the Teeth in their sockets—ultimately realizing a beautiful set of *very Teeth*—and operate on the Gums as an ANTI-SCORBUIC, restoring and sustaining their healthy appearance; and gives fragrance to the breath. Price 2s. 9d. per box, duty included.

ROWLAND'S ESSENCE OF TYRE. For changing Red or Grey Hair, Whiskers, Eyebrows, &c. to Black or Brown. Price 4s.—7s. 6d.—10s. 6d.—and 21s. per bottle.
