SHAMROCK FIRST OVER Line In Deciding Race

Wind Dropped and Race Held Off Until 12.30—Resolute Favorite But Betting Light

Sandy Hook, N. J., July 26.—The fifth international yacht race, which will determine the fate of the America's Cup, was postponed today at 11.30 o'clock for fifteen minutes.

At 12.15 p. m. signal given for start at 12.30 of the boat race. Shamrock leading across the line.

Sandy Hook, N. J., July 26.—Wind conditions made postponement necessary. In trying out her sails, Shamrock fell into a soft spot and had to signal for a tow. Resolute's tug, Harry G. Lytle, came to the challenger's aid and gave her a tow back to the lights. She carried masts, stays, jib, No. 2 jib, topsail and chubtop sail.

Resolute, which the regatta committee announced would receive from Shamrock her usual time allowance of six minutes and forty seconds, worked about with the same sails, except for a staysail and No. 2 jib, topsail and chubtop sail.

Indications point to a slow race in light airs.

Shamrock passed over the starting line at the Ambrose channel lightship at 12.30 official time, and her rival followed at 12.31.25, after the starting signal had been sounded at 12.30.

At 12.45 Shamrock still leading.

FOUR INJURED WHEN TRAIN AND AUTOMOBILE CRASH

Accident at St. John's, Que.—Chauffeur Only One of Party to Escape Without Hurt.

Montreal, July 26.—Four persons were injured, one probably fatally, when an auto, containing five persons, was struck by a freight train on the St. James street crossing at St. John's, Que., last night.

The occupants of the car were thrown out and landed some twenty-five feet away. The machine itself was badly smashed.

The victims are—Miss Dora Malboin, twenty-four, displaced left leg; Miss Eugenie Gagnon, twenty-one, of Verdun, fractured leg and badly cut about the face; O. Letour, fifty, of Foster, Quebec, severe automobile injury; and Joseph Letellier, of Lasalle, chauffeur of the automobile, escaped injury.

The party were returning from Berni, where they had spent the day, to St. John's to catch a train.

ARMED BANDS SEIZE LIQUOR

Windsor, Ont., Stirred by New Form of Violence in Rum Running Exploits—One Man Badly Beaten.

Windsor, Ont., July 26.—Despite all efforts made to check rum running and the law prevailing on the border, a startling, new form of violence has developed, and for a second time in twenty-four hours armed bands made a raid early Sunday morning on the home of a Sandwich township farmer and carried away liquor after threatening death to any one who interfered.

The first attack was made at dawn on Friday morning, when five handbills in a powerful automobile, attacked the home of Albert Mfoche; but after an exchange of shots with Mfoche and his son, were driven off before the provincial police, who had been sent for, arrived.

On the second occasion an attack was made by seven bandits, who drove up to the home of El Gerard in a high-powered car, just as he and two hired men were getting ready to go to market, and held them at the point of revolvers while they ransacked Gerard's cellar and carried away a barrel of whiskey and a case of gin.

In spite of the guns, Gerard attempted to defend his liquor and was badly beaten by the thugs. Later with his head in bandages, Gerard came into Windsor and reported the outrage to the police.

ARREST MADE IN TRUNK MYSTERY

Roy Millan Taken by Police in Chicago—Two Mothers Think Victim Is Daughter.

Chicago, July 26.—Roy Millan, twenty-nine years of age, said by the police to be the alleged slayer of Eugene LeRoy, wanted by the Detroit police as the alleged slayer of the woman whose mutilated body was found in a trunk shipped from there to New York, was arrested last night in a local hotel.

The arrest was made on an anonymous tip police say and Millan was taken to the detective bureau for questioning.

Police found a trunk in Millan's room. It corresponded in description with the one in which the woman's body was found, they say.

Birmingham, Ala., July 26.—Expressing fear that E. Leroy, whom he named in his statement to the police here in connection with the investigation of the Detroit-New York trunk murder mystery, might take vengeance on him, A. Tatum, a linotype operator of Birmingham, continued to remain at police headquarters here last night. No charge has been placed against Tatum and although he has been at liberty to leave headquarters he has remained there since relating his story Saturday afternoon. Tatum repeated his assertions that he believed the murdered woman to be Katherine Jackson, Starville, Miss., but again denied any knowledge of how she met her death.

Montreal, Que., July 26.—Mrs. J. C. Butler, of Sale City, near here, yesterday telegraphed New York police for a description of the body of the young woman found there in a trunk shipped from Detroit. Mrs. Butler said her telegram was actuated by a belief that the woman may have been her daughter.

The description of the dead woman, as contained in press dispatches, Mrs. Butler said, corresponds closely to that of her daughter, who she asserted, left Valdosta since in June and has not been heard from since.

Boston, July 26.—Mrs. Jos. Kincher, of the Hyde Park district, announced last night her intention of going to New York today to view the body of a woman found in a trunk in the fear that it may be that of her daughter.

The girl, who was fourteen years of age, and according to her mother, looked much older, left home on March 25 and has not been heard from since.

LATER

Bulletin—Chicago, July 26.—Efforts to connect Roy Millan, a former actor, with the mysterious Detroit trunk murder, failed today when Patrolman Trumbull, of the Detroit police department, was unable to identify Millan as the missing Eugene LeRoy.

COMMON COUNCIL

Crowd Carries Off 'Shingles' Car of Liquor Attracts Public Attention Before Police Arrive—Another One Is Guarded.

A petition was read at this morning's council meeting from residents of Millidgeville and patrons of the bus service from Adelaide street to the ferry Maggie Miller asking that Roy Glasgow, who operates the motor conveyances to be exempted from taxation on his small car.

The question of installing sewerage was discussed. Commissioner Jones suggested that it be left to the Lieutenant Governor in Council to deal with as they were receiving a tax. After some discussion Mayor Schofield said that the by-law relating to the matter would have to be carried on. Motion of Commissioner the letter and petition were filed.

Duncan G. Fagan, city chamberlain, appeared before the meeting and said that under the assessment law he will have to advertise next Monday property for sale on which taxes have not as yet been paid.

The question of installing sewerage and water to vacant lots on Douglas avenue were further discussed. Commissioner Thomson said that unless they were made before permanent permission was laid owners should not be permitted to build on the lots.

Commissioner Bullock said that he wanted a bogus check in payment for the fact as well as name. He spoke about the terrible condition of the street and the fact that it was a nuisance to the city. He proposed to prohibit speeding one should be placed there to give a premium to the driver instead of putting a man on the street for time elapsed while one car was stuck in the mud.

Commissioner Jones said that if the council would favor a bond issue he was willing to go ahead with the work. It is expected that definite action will be taken in the near future regarding this matter.

A letter was read from A. Gray, chief engineer of the department of public works asking the city to sign an agreement whereby the government would not be held liable for damages to wharves owned by the city during dredging operations. This was accepted and the Mayor signed the said agreement.

Hon. J. D. Reid Says There Is Room in Canada for Both Railways.

Vancouver, B. C. July 26.—Frankly admitting that the Canadian Pacific Railway with its twenty thousand miles of track, 200,000 tons of ocean shipping and its chain of great hotels, was the example par excellence of a well conducted company, Hon. J. D. Reid, minister of railways, who arrived here Saturday night from the north, stated that he had set himself the task of making the Canadian National Railway the equal in service and efficiency of the great sister railway system.

"We are not rivals of the Canadian Pacific Railway in anything but a friendly sense," he said, "but my view is there is room for two great railways in Canada and that is better for the people and for the development of Canada than there should be two competing systems."

The minister indicated that the personnel of the management would remain largely as is at present, the heads of the concerns representing the Canadian National co-operating with the management.

Shamrock First Over
Line in Deciding Race
(Continued from page 1.)
When the boats passed beyond Lightship, Shamrock had increased her lead slightly.

At least report both boats were moving slowly. The wind was puffy and indications were that the race could not be concluded within the six hour limit.

Early Reports
Sandy Hook, N. J., July 26—A brisk "jacksy" breeze about twelve knots came out of the northwest early today, roused out the surface of the sea, untroubled by Saturday's storm, and provided fine wind conditions for the final contest between Shamrock IV, and the American defender Resolute for the America's cup.

With the wind holding from the northwest, a run of fifteen miles seaward and back to windward holed was indicated.

Sandy Hook, N. J., July 26—Charles E. Nicholson, designer of Shamrock IV, still insists that the present races have been little more than trial races, for money is at stake in all future America's cup races, the contenders should be manned entirely by a crew from the same country.

Resolute's crew is said to be made up largely of Scandinavian sailors.

Should Sir Thomas fail today to win the race, and lose the cup, he suggests that the Irish enter the challenge in a series of races, with the Resolute and Vanitie alone, for cups offered by local yacht clubs.

It has also been suggested that all three yachts be sailed by professional skippers.

Sir Thomas is said to have spent approximately \$1,000,000 in his latest attempt to lift the cup and yachting will assert Sir Thomas IV, in the interest of yacht designing, should have further back of competition with Resolute and other sloops of United States design.

As a member of the New York Yacht Club, Sir Thomas can enter Shamrock in the club's races.

Betting Light.
New York, July 26—(Canadian Press)—Betting this morning on the final race for the America's Cup is 3 to 1 on Resolute with few takers. Even money is offered that the defender will win, first regardless of her time allowance.

Sandy Hook, N. J., July 26—Shamrock after getting up her mainsail, took a tow at 8:35 a. m. and headed for Ambrose Channel Lightship. Resolute meanwhile had got her big cloth up, ready to drop her mooring buoy.

As the morning wore on the wind began to haul into the east, and Shamrock, after rounding the Sandy Hook light, dropped her tow and headed for Coney Island.

Jersey weather sharp figured that the wind might get into the southeast by noon, the time set for the start, which would give the yachts a beat to windward a run home.

Wind Dropping.
Sandy Hook, N. J., July 26—After tending the wind of Sandy Hook Point, in order to determine what topology to carry, Captain Burton signalled for a tow again. The wind was probably not more than seven or eight knots in strength from the east at this time and prospects for a fast race were not so bright.

Resolute dropped her moorings at 10:15 and sailed away toward the point. A tugboat steamed along awaiting a call for a tow.

Resolute took a tow and both yachts sailed by club hoist to the starting line.

Earl Thompson, famous Canadian hurdler, who will represent Canada at the Olympic games, was here today after making new Canadian mark for the 120 yards hurdles at the Olympic trials, Montreal.

IRELAND
Dublin July 26—At Newport, Tipperary, Saturday night, a gang of men sheared the hair from a girl because she was keeping company with a policeman. Exasperated at the outrage, soldiers and police turned out and burned the houses of all the principal Sinn Feiners, causing them to fly for their lives.

Two coast guard stations in the Bearhaven district were raided yesterday, in one of the raids, at Ballygarrett, Chief Officer Sawing and Petty Officer Brown were killed.

Washington, July 26—(Canadian Press)—At a reception given last night by Eamon De Valera in honor of Archbishop Mannix, of Melbourne, Australia, the Irish "President" said he believed the Irish would be willing to make peace with Great Britain on certain terms. He said:

"I have already indicated my belief that the Irish people would be willing to accept British anxiety about the future in so far as that anxiety is legitimate or genuine by agreeing to a stipulation much as that of the first article in the Platt amendment.

"I have no hesitation in recommending such a course to the Irish people, and if peace were signed on such terms I would immediately resign my position as president of the Sinn Fein movement."

The Platt amendment was incorporated in the constitution of the Cuban republic as a condition precedent to the withdrawal of United States troops from Cuba and the recognition of Cuban independence by the United States.

London, July 26—Sir Horace Plunkett, writing to the Times, on the subject of labor's Irish conference with Premier Lloyd George, says that the British people must be reminded of two reasons why the Sinn Fein peace-maker, asked for by the premier, is "not on the bridge between two extremes."

The first reason, says the writer, is that until recently anyone putting himself in the position of peace-maker between the government and the Sinn Fein would have been summarily jailed without charge or trial, and secondly, because the Irish people have lost all faith in the promises of the British government.

Sir Horace Plunkett said before the Irish tragedy is wistfully deplored by the rejection of the minister's offer. "It would be well if the British people ponder these two things carefully."

Referring to the labor leader, J. H. Thomas, Sir Horace points out that speaking for the British people, Mr. Thomas would at least be heard with respect.

Dublin, July 26—Arthur Griffith, the Sinn Fein leader, describes as an invention reports that authoritative statements have been made to negotiate with Sinn Feiners for a settlement.

EASTERN CANNERIES WAS LOSING VENTURE
(Frederick Gleason)
The Eastern Canning building and property on York street, which was formerly occupied by the Scarles Provisional, Limited, has been purchased by H. J. Morgan, who recently sold the Pine Grove property at Douglas for the York Municipal Home.

The sale was completed by D. W. Oils as assignee, but he declined this morning to name the purchase price. It is understood, however, that the property is valued at \$25,000 for assessment purposes this year, the amount actually paid was not in excess of \$14,000. There is a three story building of concrete and wood fitted for stores and factory purposes, with rights of way to both York and King streets, and it is understood Mr. Morgan has bought with no plans except investment.

With the sale of the property Mr. Oils said this morning it would not be long now before the affairs of the Eastern Canning, Ltd., are wound up. The remaining assets will be sold next Saturday and it is expected the creditors will not realize over 30 or 35 cents on the dollar, while the shareholders will get no return. The liabilities are said to have amounted to over \$80,000.

ST. JOHN'S GREATEST MERCANTILE EVENT ALL THIS WEEK

St. John's Greatest Mercantile Event, which is Oak Hall's Annual Mid-Summer Sale will continue all this week to offer hundreds and hundreds of real bargains to the buying public.

Even the inclement weather of last Friday and Saturday could not keep the people away from Oak Hall, especially Friday night when the entire store was so rubbed that it was quite impossible at times for Oak Hall to give that efficient, intelligent service they at times endeavor to give, although their selling staff was more than doubled.

GROCERY REPORT FROM THREE CITIES OF THE DOMINION

The following comment on the market situation as regards food stuffs appeared in Canadian Grocer last week—

The feature of the market this week is the large advance registered on sugar. This advance is due to the fact that refineries are now working on high prices and some refineries are of the opinion that the peak prices have now been reached.

The market for general commodities continues to rule with a firm undertone. Some lines have advanced while others show indications for advancing. Business in both wholesale and retail circles is reported comparatively quiet.

Toronto—The feature of the market this week is the advance of 88 cents registered on sugar. The sugar market was considerably easier during the past week and exports from Cuba have greatly increased, showing a tonnage far in excess of any one week during the past year.

The feature of the market this week is the advance of 10 cents per pound. Pure mustard is up five cents per pound. Cigars have advanced, also confectionery, ice cream, salt, cigarette papers, kitchen bouquet and sweet pickles.

The tea market is showing a firmer tone both on low and high grades. Sockeye salmon is quoted higher. Dried fruits are quiet with lower quotations on currants. The rice market is in an unsettled condition. The corn market is easy. Vegetables and fruits are plentiful and quotations are lower.

Fresh meats are steady. Butter and eggs are firmer and quotations are higher. Lard and shortening are easier and quotations have receded.

Montreal—There is a very firm tone to the market this week despite the fact that business is rather quiet during the summer season. There has been an advance this week of one cent on both butter and eggs. Fresh fish are a little dearer since the catch this year on the eastern coast has been rather poor. Lard is a little cheaper on some brands. Pure lard has been reduced one cent a pound by some manufacturers. Vegetables and fruit are in very good supply and some

A DANGER SIGNAL—TENDER AND BLEEDING GUMS

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhea are dangerously diseased. For not only the teeth are affected, but Pyorrhea germs seep into the body, lower its vitality and cause many ills.

Pyorrhea begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the poisonous germs that breed in pockets about them.

Four out of five people over forty have this disease. But you need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhea away by using Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

cheaper this week. The crop of home-grown produce is very good this year and still lower prices are expected through the week. Cereals are firm except for a feeling of uneasiness among the trade about rolled oats. There is no change, however.

Toronto's Nabobs Use Veterans Cremy Flavors

When the manufacture of Non-Alcoholic Tube Extracts was begun in St. John in December, the promoters promised they would take the name of St. John through to the Pacific Coast on another National Product. They are MAKING GOOD. Above is shown a photograph of the

ROSEDALE GOLF CLUB Toronto's most exclusive sport organization. Members of this club are now using the new PROHIBITION Flavors in their cakes and ices. One of the first orders placed in Toronto was for a Gross of Assorted Flavors going to this Club.

We are happy to announce, also, that St. John Wholesalers have recognized Veterans' Cremy Flavors as an established household commodity and are prepared to supply all retailers who prefer not to handle the bottle flavors, now classed as "Liquor" under the interpretation of the Prohibition Act by the Supreme Court of New Brunswick.

THE CITIZENS INTERESTED.

The dispute between the New Brunswick Power Company and its employees about the one-man car has reached a stage where the citizens must step in to take notice. The company gave as a reason for introducing the one-man car their desire to keep down the fares and at the same time give a better service.

THE HOTEL PROJECT.

It will interest citizens of St. John to read the following from the Maritime Merchant on the new hotel project. It says: "Projects for big hotels are still on foot at Halifax and St. John. Just what measure of progress has been made to date we do not know, but we think that the St. John project is farther advanced than that of Halifax; for it is understood that quite a large interest in the enterprise has been taken by the C. P. R. Halifax is hoping that the same thing will happen here, because of the C. P. R.-D. A. R. connection.

SUGAR.

The price of sugar's truly vicious—we're rationed at the place I board, the little socks the grocer dish us cost more than trolleys can afford. They give us many a far-fetched reason why sugar-calls for so much kate; but little does their logic reason our coffee, tea, or home brewed acid.

INDIAN FUR SALE.

A recent fur auction sale held in Montreal—the attempt to bring back to Canada a trade in which the nation once led the world—recalls the first fur sales that ever took place here. It was in the days of the great Samuel de Champlain, who was very anxious to keep the wealth of the fur trade in the hands of the King of France.

Pride in the Appearance of the Auto Is a Social and Business Asset

A dirty, dusty, dingy motor car is apt to reflect a careless and slipshod driver. No man of ambition and standing in his community wants to create such an impression.

You realize that dust, grime and grease are fatal to the costly finish, which the car had when it was first out of the showroom. But you cannot afford to risk an ordinary soap. One application of such a soap may ruin the finish for all time—leaving the surface pale, dull and smoky. But the purpose of

EXCELO AUTO SOAP

is to clean cars. It is made from pure vegetable oils and contains no alkali. Quickly removes grease, stains and dirt leaving the surface on which it is applied lustrous and bright. Guaranteed absolutely harmless. In Tins, 5 lbs., net \$1.50.

Purdy, Montreal; Dr. Edward Montgomery, dentist, Boston; and William A. Montgomery, also resident in New York. The funeral will take place on Tuesday from Pallville station on arrival of the Boston train.

YOUNG MAN DROWNED

YOUNG MAN DROWNED
 Carl Evans Loses Life at Saints' Rest - Unsuccessful Attempt to Rescue Him.

A drowning accident occurred last evening at McLaren's Beach, West St. John, when Carl Evans, assistant purchasing agent of the Atlantic Sugar Refineries, was drowned at Saints' Rest. Although a plucky attempt to rescue was made by E. P. O'Leary of Fairville, the young man sank before help could reach him and up until a late hour last night his body had not been recovered. The unfortunate young man went to Seaside Park yesterday with Charles Campbell and W. R. Darbison and while there Evans decided he would like to have a dip in the three-acre bath at Saints' Rest, but Evans was the only one who ventured into the water. His cries for help were first heard by young Campbell and in a short time a crowd gathered, but as there were no boats or means of rescue available the attempt was difficult. Carl Evans was a son of Richard Evans, a rancher of Dinault, Alberta, and he leaves a sister, Mrs. Spurgeon Marr, Millerville, York county.

TWO TRAGIC DEATHS

TWO TRAGIC DEATHS
 Two tragic deaths took place in New Glasgow, N. S., on Saturday. Lester Harris, a young man who fell in the water, had been to New Glasgow and returned to Stellarton. He was walking across the train yards to his home. The body was found in the morning with both legs cut off.

The body of Daniel McInnis was found in an alley with a gash in the head. McInnis was seen earlier in the evening lying on the sidewalk on South George street. Officer Nicholson of the C. N. R. force was called. He found four men lifting McInnis. The officer asked them if they knew where he lived and they said they did. Thinking McInnis was intoxicated and that the men were taking him home the officer let them take him away.

It was later found that the address given by the four men was not McInnis' residence. An inquest will be held.

Walter Cairns, aged twenty-two, and a woman yesterday of Charlottetown, were drowned yesterday at Hickey's wharf, P. E. I., while in bathing. Cairns was unable to swim, but he waded into the channel and it is presumed the current took him off his feet.

Albert Murphy, aged sixteen, died at the hospital in Halifax on Saturday night as a result of injuries received when he fell under a freight train and had his limbs badly mangled. He was on his way home from work at the sugar refineries and attempted to board a moving freight when he fell under the wheels.

Several liquor raids were made near the international boundary during last week, which in money value amounted to about \$20,000. THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JULY 26, 1920

MRS. M. E. SMITH, prominent Tampa, Florida, woman, who says, thanks to Tanlac, she is now able to walk around without the help of a cane after eight long years of suffering.

"I am so glad my health is being restored after suffering for over eight years with indigestion and rheumatism that I feel like telling everybody about Tanlac," was the enthusiastic statement made recently by Mrs. M. E. Smith, one of the best-known and most highly respected women of Tampa, Fla., residing at 800 Morgan street.

"The rheumatism from which I had suffered for years even before I had stomach trouble, pained me worse than ever and until recently I was not only unable to walk without the use of a cane, but I was so weak at times I could hardly get out of bed. I tried many medicines but nothing helped me and I almost despaired of ever getting any better.

"Then Tanlac came along. In just a few days after I began taking this grand medicine, my appetite began to improve and in only a short time I was able to enjoy my meals and everything seemed to agree with me perfectly.

"My rheumatism is so much better and I have so much more strength I am now able to walk all about the house and up and down the stairs without my cane. Friends who have become so accustomed to seeing me walk with my cane are astonished when they see me now walking around without it.

"I will always praise Tanlac for what it has done for me."

Tanlac is sold in St. John by the Ross Drug Company and F. W. Munro; by G. W. McKay, Beaver Harbor; Willard J. Colwell, Evans; C. V. Parsons, Highland; John F. Mesher, Debec; O. D. Hanson, Lepreau; E. L. Conley, Leonardville; N. H. Johnson, Clarendon Station; and by the leading druggists in every town. (Adv.)

By "BUD" FISHER

Panel 1: Jeff is looking at a sign on the wall. "MY WORD! THAT WAS A REALISTIC DREAM, AND THE SUBJECT WAS SUCH A TIMELY ONE, TOO!"

Panel 2: Jeff is talking to Mut. "LISTEN, JEFF OLD DEAR, DO YOU BELIEVE IN SIGNS?"

Panel 3: Mut replies. "I CERTAINLY DO, MUTT! WHY?"

Panel 4: Jeff explains. "WELL, I JUST DREAMED THAT YOU LOANED ME A FIVE SPOT. WHAT IS THAT A SIGN OF?"

Panel 5: Mut looks thoughtful. "THAT?"

Panel 6: Jeff looks at a sign on the wall. "OH, THAT'S A SIGN YOU WERE DREAMING!"

DESIRE TO STICK TO THEIR KHAKI

British Officers Oppose the Proposed Return to Scarlet Uniforms.

London, July 26.—The war office has decided to restore scarlet as the full dress uniform of the army. The plan is now attacked by a noted military expert, Major-General Sir Frederic Maurice, in the Daily News. The general writes:

"I have been trying to test the opinions of those who have to wear uniforms on the question of the re-introduction of some form of the old full dress. It is commonly assumed that the change is advocated by the old regular officers, but I can find no evidence of this among those of them who are still serving."

"At a recent gathering of regular officers I took the opinion of twenty-one who had worn scarlet tunics and may have to wear them again, and I found that nineteen of them were in favor of keeping khaki as the full dress of the army. The old regular officer will, in fact, be much harder hit in his pocket by the change than will the ranker, for the grant which the war office proposes to make to those who have received commissions since 1914 is liberal and should cover the initial expense, but the officer who was serving before the war will get nothing."

"The slim subaltern of 1914 does not often find when he goes to his tailor in 1920 that his waist measurement is what it was, and most men, when they take their tunics out of camp, will find some difficulty in buttoning them. This will mean a new tunic at double the pre-war price, and without official help to meet the cost; so that from the narrowest and most personal point of view there is ground for asking, is it worth it?"

"The idea that a scarlet coat will help

recruiting is laughed at. Many regular officers believe that it will have the exactly contrary effect. The modern soldier hates waiting time over spit and polish, and a full dress means hours of work with button-stick, brass polish and blouses, the real soldiering of the pre-war sergeant-major. When he goes out for a walk he wants to be reasonably comfortable, but if he is in the office of what he is doing, if he puts his elbow on a dirty bar or leans against a gray counter he has to send his coat to the tailor's shop and pay for having it cleaned.

Would Cost \$15,000,000.

"The pleasure of ogling nursemaids in a fancy kit does not compensate for its disadvantages, and I believe it to be an illusion that full dress of the old type is popular with the men. Recruiting will be helped by giving the soldier while he is serving the chance of fitting himself for civil life when he leaves the army, and by finding for him an assured position when he has taken the chance. The worst enemies of the recruiting sergeant are the unemployed ex-servicemen and the man who through no fault of his own has suffered from the war."

"This brings me to one of the arguments against spending money on scarlet which appeals most strongly to the serving soldier. He knows that there are today thousands of soldiers out of work, thousands of disabled and thousands of widows who are in dire distress. He knows also that the sum of \$15,000,000, even if its expenditure were spread over a term of years, at the war office proposes in the case of the new uniforms, would go a very long way to relieve this distress."

"The prime minister tells deputations of ex-servicemen that we simply cannot afford to do more than has been done for those who have suffered fighting for their country, and says, as is the case that we are doing more for the sufferers than other countries."

"These statements convince no one

throughout the world and on that ground alone it should be the soldier's dress of honor."

WILL BE SENT BACK TO RUSSIA

(Canadian Press Despatch.)
London, July 26.—Santti Nuorteva, secretary to L. C. A. K. Mestens, so-called "Soviet ambassador to the United States," who was arrested recently here, will be returned to Russia at his own request. He will travel by way of Esthonia, according to official information.

Nuorteva was returned to London recently from Denmark, through a misunderstanding. The various authorities declare they never had any intention of handing him over to Finland.

RUSSIAN SOVIET FOR NEGOTIATION

London, July 26.—The Russian Soviet government has notified Great Britain that it is willing to meet the leading Allies for a peace conference in London, but as a preliminary to such a conference it demands the surrender of General Wrangel, the anti-Bolshevik commander in the south, under a guarantee of personal safety, according to the Daily Mail.

LIQUOR SEIZURE

Callouses and tender soles

will usually be found to indicate trouble with the arch which runs across the ball of the foot. Pains at the place where the finger points in the illustration above are also indicative of the same trouble.

When the cross-arch of the foot becomes weakened, one or more of the metatarsal heads (first joints of the toes) is apt to become depressed below the others, throwing the whole structure of the arch out of balance and usually impinging or squeezing some of the delicate nerve fibers. The result may be merely soreness or it may be pain of the most intense sort.

Callouses upon the ball of the foot nearly always indicate a condition such as described above and are due to the contacting with the shoe of that part of the arch which is normally out of contact and is not designed to bear weight.

Dr. Scholl's Anterior Metatarsal Arch Supports

are scientifically designed to support this cross-arch naturally, and they are capable of such adjustment as will give extra support to any particular metatarsal head which may tend to depression. If you have trouble of this nature, or, indeed, any foot trouble, we recommend that you consult a graduate Practitioner (foot specialist) in any shoe store selling the Dr. Scholl's Appliances. His services are always free and he knows all about them, but, nevertheless, take advantage of this service.

REVIEW OF BIG LEAGUES

New York, July 26—Brooklyn continues to lead the race in the National League despite a little slump last week. The Robins lead, however, was not cut down to any extent because Cincinnati, the runner-up team, lost three games during the week. The relative positions of the two teams was not changed yesterday.

The New York Giants had a successful week in the west and for a day occupied fourth place. The Giants, who Chicago and St. Louis are having a nip and tuck race for the honor of bringing up the rear of the first division, all three being within striking distance of Pittsburgh which occupies third place. Boston fell behind during the week and Philadelphia although having a tight hold on last place, improved its percentage.

The close race in the National League may be noted from the fact that only about 100 points separate the first six clubs.

New York and Cleveland are furnishing plenty of excitement in their battle for the leadership of the American League. The Indians took the lead early in May and were displaced for a day by the Yankees the week of July 4, and again for a similar period last week. They regained first place by defeating Higgins' men Saturday. Both teams won their games yesterday. Speaker's team is still in bad shape for lack of good pitching, while New York is winning games consistently by heavy batting.

Chicago maintains its place behind the leaders. A similar situation to that in the National League exists with three clubs—Washington, St. Louis and Boston—fighting for fourth place. Detroit and Philadelphia have little chance to improve their positions, although the Mackens last week won a majority of their games for the second time this season.

Montreal Games. Montreal, July 26—Week end baseball results were: Independent League. Cecreants & Lechini 2. Montreal 7. Royal Canadians & City League. St. Arsenio 9, Lechini 2. Indians & Athletics 2 (eighth innings).

MORE ADVANCES IN HARDWARE PRICES

(Hardware and Metal, July 24.)

A heavy list of advances has again been made on the price of many hardware commodities. Few low prices for a reversal of this condition in the near future, the tendency still being for higher prices. Washing machines and wringers have sharply advanced by a revision of the list prices. Coal tar, ash sifters, files and shagbuns, grinders, screw drivers, floor wax, wrought nipples and couplings, paint and varnish brushes, carpet sweepers, saws, cutters, axle grease, steel valve, chemical cloths and chemicals, dash lanterns, power horse clippers and parts, Canada plates, galvanized and black sheets, paper bags, toilet paper, finished rats and set screws, builders' hardware, copper clout nails, trolley barn door hangers, grub hose, cross bars, carpenter's bars, cotton wrapping twine and tub stands all have higher quotations.

Little relief has been offered the great scarcity of raw materials, great difficulty being experienced in securing freight cars. In many localities shippers are required to procure a permit for each car and are required to load the car the same day as received or else the car is passed to someone else on the waiting list.

Business is quiet, although jobs are well satisfied with the volume accorded them for this season of the year, which is the in-between period. Summer lines are still moving well. Collections are very satisfactory.

RAINS IMPROVE CROP PROSPECTS.

Winnipeg, July 26—Recent rains have assured very good crops, even though there should be no more rain before the crops are out, and Norman Lambert, secretary of the Canadian Council of Agriculture, Saturday.

The field husbandry department of the Manitoba Agricultural College reports no rust damage has been caused in Manitoba.

Similar reports regarding rust have been received from Winnipeg and many western points.

TURK GENTLEMAN AND SAVAGE, BOTH

Rulers Like Father Who Can Control Only by Beating, Says Miss Kelly.

New York, July 25—Here in America you hear all sorts of contradictions about the Turk. One traveler reports that the Turk is a gentleman, another that he is a savage. Both are right; he is a gentleman and a savage. The people of the village is as decent a man as the Lord ever made. The ruling Turk is like a father who cannot control his children and therefore beats them."

Miss Elizabeth Kelly, industrial worker under the Near East relief fund and former professor of home economics in the Turkish village of Aleppo, Miss Kelly went to restore their cloth and rug weaving shops, and returned here on the Lafayette. She was interviewed at the Hotel McAlpin.

"Too Many Armenians." "The ruling Turks" she continued, "massacred the Armenians because there are so many of them that he cannot control them and get rid of them. He is savage and cruel, but it is spasmodic, unplanned cruelty. The work of the Armenian is to get rid of the Turk. The Armenian has developed during the war is the work of the German. One sees German influence everywhere."

"When we worked reached Aintab last July the city was still under British occupation. The French, who received the mandate over Silesia at the peace conference, took over in October. The Turkish people there was troubled. The Turk by that time had reasoned himself around to the idea that he had no more to lose. He was wrong and that he did not propose to be punished.

"Both Turk and Armenian are hostile to the French mandate. The American Y. W. C. A. workers who were killed by the Turks were killed in the belief that they were Frenchmen. The Turks were very friendly to me, the governor commended me to my little shop, where he talked freely of politics and matters of diplomacy.

"In December, a fourteen-year-old Turkish boy was killed by a drunken French soldier. This was the beginning of the trouble. To make matters worse, the boy was a grandson of a saint. All the shops were closed and there was great excitement. Then we heard that an Armenian had been killed down in the Turkish quarters. After that there were constant disturbances and constant rumors that there would be a massacre.

Not a Loom in Motion. "I had set up my shops for weaving, embroidering and rug-making, and sold looms on the installment plan to the workers. Aintab is the Fall River of Silesia, in the heart of the weaving district, but when we reached there not a loom was going. Children as old as 14 were on the streets stark naked, and men and women had only a single rag for clothing. According to our system, a worker stayed in our shops only a short time, and as soon as possible we helped him to establish himself in independence. Our average number of workers was about 200.

"It was the custom throughout the city at that time to impress the Turks with the value of their work. I wanted to impress the Turks that we were not afraid, and several times paid my workers double to keep my shop open. I inaugurated what I called 'free drills,' which were really guarantee drills, in which I assigned a definite place to each worker, fronting a secret door, which they did not know

LIFE WAS A MISERY TO HER

Says this Woman Until Relieved by Lydia E. Pinkham's Vegetable Compound.

Owen Sound, Ont.—"I suffered for ten years with female organic trouble, neuralgia and indigestion, and was weak and had much bad pain. I could hardly walk or stand up at times. When I would sweep I would have to go and lie down. I could not sleep at night, and would wander around the house half the time. I tried everything but nothing did me any good, and the last doctor I had told me he never expected me to be on my feet again or able to do a day's work. One day one of your little books was left at my door and my husband said I should try a bottle of Lydia E. Pinkham's Vegetable Compound. I thank God I did, for it cured me, and I am now well and strong. I think there is no remedy like the Vegetable Compound for anyone who has my troubles, and have recommended it to my neighbors. You can publish my letter for the benefit of those I can't reach."

Last Chance to See Highly Entertaining Week-End Performance Featuring Mammy's Juvenile Revue—New Programme for Tuesday.

The week-end performance at the Opera House will be concluded this evening so all patrons who have not as yet seen the feature vaudeville attractions should make a point of doing so. One of the most pleasing offerings is that of Mammy's Juvenile Revue in which eight clever kiddies present "A Night in Kibland." In addition there are Merrick and Wing, in a high class vocal and piano offering; Mona Herbert, "The Musical Chef," with his great assortment of musical instruments; Solly Brilliant, a great comedy blackface entertainer; and the first episode of "The Third Eye," a new motion picture serial.

Rhea, Estelle Irving of the Juvenile Revue is a piece of the late Sir Henry Irving, and is considered to be one of the best juvenile toe and ballet dancers on the stage. She is 12 years of age and last season was featured with a prominent New York musical production.

The new programme for Tuesday, Wednesday and Thursday will be as follows: Interesting episode of "The Third Eye," featuring Jack Dempsey, champion heavyweight pugilist of the world; Consuela and Nevada, in a sensational serial novelty; Haskell and Butler, in a musical and harmony singing offering; The Juvenile Revue, in an entire change of programme, with all new songs, dances, etc.; Plunkett and Romane, in songs, chat and dancing; Billy Curtis, a blackface comedian.

DELIGHTFUL DAY ALONG THE RIVER
There were more small craft than ever on the St. John river as far as Brown's Flats yesterday than on any previous Sunday this summer. On the banks all along shore were picnic parties who went up in motor boats and a number of sailing yachts were also out along the lower reaches of the river. Last evening from eight till after ten o'clock there was a procession of small craft down the main river, with quite a number out of the Kennebecasis. With reluctance did the excursionists leave the lovely shores to return to the city.

Wild raspberries are now plentiful. There is also a good crop of hazel nuts this year, the first for a number of years. Blueberries are reported a heavy crop in the places where they are usually found.
For several hours last evening the street from the Power Boat Clubhouse to Main street witnessed a steady procession of people who had arrived from river points.

VISHART STREET EXTENSIONS ARE DISCUSSED
Report Presented by Commissioner Jones—Await Deed-ing of Street to City.
A proposal to extend the water main and sewerage to Vishart street, North End, evoked a lengthy discussion at a committee meeting of the common council this morning. The matter was taken up recently and this morning Commissioner Jones submitted the following report regarding the matter:
"Repeated requests from residents of Vishart street have been made to this department for water and sewerage facilities. I have been informed that twelve or fifteen families who live in that locality are obliged to carry water for domestic purposes from the free hydrant on the main street, in some instances from 800 to 500 feet. This task in summer is irksome enough but during the winter season the experience of some of these people are very trying, and in some cases great hardships are imposed, especially on those residing farthest from the source of supply.
The residents of Vishart street are experiencing the trials of many of our citizens who plan and build their homes on solid rock foundations and are for years deprived of water and sewerage facilities because of the excessive cost the city has to face to provide them. Accession to this must be delayed as the funds of the city are not sufficient to meet all such demands and it is just natural that residents of Vishart street are heard to bitterly complain of their condition.
If Vishart street were graded, or if we knew just where the final grade will be, we might perhaps take a chance and not place the pipe as deep as we are estimating, but in view of the probability that it may be many years before the street is graded it is not wise to expose the pipe to frost. I have estimated the solid rock at 910 cubic yards at \$10 per cubic yard and you will therefore see from this that the excavation is the heavy end of the estimate.
"Vishart street is a private street. Not until the commissioner of public works decides to grade this street do I think it would be justified in doing this work, the expense of which must be met by a bond issue."
Commissioner Thornton said that if it was a matter of grading the street the commissioner of public works should immediately take the matter in hand. In reply, Commissioner Frink said it was brought out that Vishart was not a public street and that it was therefore not his duty to grade it. He said he would send the road engineer there to get the proper grades and make up an estimate of the cost.
It was brought out that there were a number of streets, especially in the north end of the city, which are not being graded by the city. Commissioner Thornton said it was time the city took steps to take them over.
Commissioner Bullock said that any street in the city where fifteen families could not have water and sewerage facilities should have reference to the mill pond and said that he had seen evidence which indicated that it was not conducive to public health.
Commissioner Frink said that the practical way was to find out the owners of Vishart street and have the street graded to the city. This was unanimously agreed upon.

R. M. A. TAKE UP HOTEL PROJECT
Decide to Open Subscription List—Another Meeting on Wednesday.
Various organizations about the city are taking a hand in the new Champlain hotel project, realizing what it will mean to the city to have an up-to-date hotel. A meeting at ten o'clock a meeting of the St. John branch of the Retail Merchants' Association of Canada was held in their rooms, 49 Germain street, with the president A. M. McLean in the chair. Everett T. Jones acted as secretary. Another meeting will be held on Wednesday morning at ten o'clock which will be addressed by members of the Commercial Club hotel committee. It is gratifying to see the different bodies in the city getting behind this proposition and, it is to be hoped, pushing it to a successful conclusion.
