## FIRE IN WORCESTER, MASS., \$100,000 LOSS

### Five Firemen Hurt by Falling Glass and Smoke

### BURNED TO DEATH

### A Porter Lost His Life in Connecticut Hotel—Priest Commits Suicide—Sixty-One Persons Drowned in Maine During the Summer

Worcester, Mass., Sept. 22.—A property loss of from \$75,000 to \$100,000 resulted from a fire which broke out early today in the Chase Building, a ten story structure on Front street.

Two firemen were temporarily overcome by smoke and three others were badly cut by falling glass.

The fire originated from some unknown cause in the rooms of the Worcester Automobile Club, on the seventh floor of the building.

The flames burned out the fifth and sixth floors and the tenants on the lower floors suffered a heavy loss from water. Surrounding property was threatened for a time, but after a hard fight of three hours the fire was brought under control.

Greenwich, Conn., Sept. 22.—Joseph Christopher, a porter, was burned to death in a fire here early today, which destroyed the servants' annex of the Elms Hotel. The fire is supposed to have started on the third floor in the room occupied by Christopher. His charred body was found in the ruins after the fire. The Stewart woman jumped from a second story window.

The gutters in the hotel proper left the building with whatever clothing they could catch up at the moment and thus attracted the attention of the firemen in fighting the flames, keeping them back from the main building.

Madrid, Sept. 22.—Father Novedo, a professor in Aquin College, blew out his brains today when overtaken at Loria by the stroke of a woman with whom the priest was said to have eloped.

Portland, Me., Sept. 22.—Sixty-one persons, all but seven of them residents of Maine, lost their lives by drowning in the waters of this state during the summer just closed. Of this number sixteen perished in June, twenty-four in July and eighteen in August. Most of the drownings were due to canoe, boat or bathing accidents, but there were several of unusual circumstances.

### AN UNUSUAL TYPE OF STEAMSHIP LAUNCHED

### Designed for Carrying Molasses, Bulk Petroleum and General Freight in the Cuban Trade

Boston, Sept. 21.—A steel steamship of unusual type and named the Currier, was launched at the Fore river yards, Quincy yesterday. The Currier is being built for a Cuban manufacturing concern, and is named for the family of Guy Currier of Boston, whose daughter christened the ship.

The Currier is a single screw steamship and especially designed for the molasses, bulk petroleum or general freight trade, a combination rarely met. She will be 370 feet long, 32 feet beam, 22 feet 6 inches draft and a dead weight of 6,200 tons.

The machinery will be six and the body will be divided into five double tanks. A general cargo hold will be fitted forward and aft, these, and wing spaces at each side can be used for general cargoes. The Currier will have two steel masts, each rigged with four five ton derricks to handle merchandise.

### OFFICERS ELECTED BY SOVEREIGN GRAND LODGE

Atlanta, Ga., Sept. 21.—The Sovereign Grand Lodge of Oddfellows, has elected: Grand sire, John B. Cockerill of Indiana; grand secretary, John B. Goodwin of Baltimore; grand treasurer, M. R. Muckle of Philadelphia.

### CHOLERA IN ITALY TRACED TO GYPSIES

Washington, Sept. 22.—The recent cholera epidemic in Italy was traceable to the debarkation at Brindisi of a band of Russian gypsies. The origin of the infection is described by Surgeon H. D. Goddard at Naples, in a report to the state department. Surgeon Goddard reports that the gypsy wanderers, after coming from Transilvania, the primary focus of the epidemic, washed their clothing in vessels which were used later as water buckets. Many of the gypsies became violently ill and the disease began to spread to districts surrounding Transilvania.

### THE WEATHER

Fresh westerly to north westerly winds, fine and cool today and on Friday.

## TRIPLE ALLIANCE AGAINST TURKEY

### ROME, Sept. 22.—It is asserted in diplomatic circles here that during the recent festivities at Cetinje, when the Montenegrin ruler assumed the title of King, elevating his country to the rank of a kingdom, an offensive and defensive alliance between Montenegro, Bulgaria and Serbia was signed. Each of these nations is pledged by the terms of the treaty to give military aid to the others in case the sovereign rights of any of them are attacked by Turkey or Austria.

### SITE OF AUSTRALIA'S CAPITAL DECIDED BY A FORMER CANADIAN

Melbourne, Aug. 21.—The struggle over the site of the federal capital has developed several remarkable features. The vote in the senate, which was a result of a split in the government party, the majority secured sufficient support to poll eighteen votes in the senate, which number thirty-six members of all parties.

A fierce fight followed for the old vote. There were angry scenes in the caucus and members of the cabinet were attacked by their own supporters. Finally Premier Fisher was obliged to appeal to the minority to withdraw their opposition and break the deadlock but they declined to do so.

Excited lobbying followed on both sides and finally the Labor malcontents obtained a desired majority by persuading Mr. Fraser, a former Canadian member of the cabinet, to assist them. Then the government forces concentrated their efforts upon Fraser with such success that they won him over. Nothing daunted the insurgents kept the debate in the senate going all night in the hope of winning back the necessary member and holding the majority.

The debate terminated in the morning after a nineteen hour sitting. Fraser voting for the government amendment, naming Yass as the capital which was passed. The government thus secured defeat which would have been followed by the resignation of the Labor ministry. The minority, however, is angered and will seek an early opportunity of meeting the ministry.

Hon. Simon Fraser was born near Hopewell, Nova Scotia on Sept. 21, 1834. He went to Australia in 1852 and is an aquater with large pastoral interests. He is a delegate to the Colonial Conference in Ottawa in 1894.

### EXPULSION OF ORDERS

### Decree Against Portuguese Monks Being Carried Out

Lisbon, Sept. 22.—It is believed that King Manuel's appointment of sixteen peers, all supporters of the present Liberal cabinet, will afford sufficient new strength to the government to avoid the necessity of a dissolution of parliament and new elections which the Republicans declare would mean revolution. Dr. Alpoim, chief of the progressive dissidents, recently told His Majesty that unless he insisted upon the Liberal government enforcing political and financial reforms, the monarchy was doomed, and a republic inevitable. The government continues its campaign against the Jesuits, and is proceeding with the expulsion of other religious orders which re-entered Portugal after the issuance of the decree of 1901, but which are not devoted to the work of charity or teaching, as provided in the decree. The newspapers state that the monks are fleeing to the mountains for refuge.

### MAY ESTABLISH A FINNISH COLONY IN BRITISH COLUMBIA

Vancouver, B. C., Sept. 22.—It is intimated that the government of Finland is likely to encourage the establishment of a Finnish colony in this province, probably in the Kootenay fruit district. Mr. Lindberg, a fruit inspector, and Mr. Cruetz, an expert horticulturist, have been investigating conditions in the fruit districts on behalf of the Finnish government and have despatched samples of soil and fruit for examination. If conditions are considered favorable the settlers will begin to arrive some time next year.

## HEARTRENDING SCENES IN INDIANA TRAIN WRECK

### Town of Bluffton Staggered by the Blow, Many of its Prominent Citizens Among the Dead—Graphic Description of the Scenes Following the Accident—An Investigation Being Held

### Queen's Own Rifles Praised for Their Marching—Compulsory Service for Youths of the Empire—Steamer Royal Edward Breaks All Records

Fort Wayne, Ind., Sept. 22.—With the death of Frederick U. Jones, of Warren, Ind., in a hospital here today, the number of dead in the interurban disaster yesterday afternoon near Kingsland, Ind., was increased to forty. Jones was a son of C. C. Jones, president of the Warren Bank. Two others, Miss Margaret Terholt and F. A. Patten, both of Bluffton, were in a critical condition at a local hospital.

Investigation of the cause of the wreck, which claimed the lives of forty people, most of them enroute here to visit the Allen county fair, will be continued actively by A. A. Shans, Indiana railroad commissioner. It is expected he will reach some definite conclusion before the day is over.

Arrangements for funerals of the victims are in progress. It is expected that in most cases will take place tomorrow. The funeral of the late Mrs. Jones will be held at 10 o'clock tomorrow at the residence of her mother, Mrs. A. A. Shans, of Bluffton. It is expected he will reach some definite conclusion before the day is over.

The Ontario government's window display of peaches is the chief object of interest to Strand passersby who have been heard to express doubts that the peaches have been grown in Canada. The retailers are asking and getting, for small ones, 12 cents, and for the larger ones 18 cents. Norton Goddard, who arrived in Bristol on the steamer Royal Edward, said yesterday the idea that there is any free-trade "I can give the lie direct. Canada would laugh such a notion to scorn."

Mr. Griffiths will urge the formation of Imperial Leagues to bring the possibilities of Canada home to those unable to seek information themselves.

The Royal Edward broke all records. London, Sept. 21.—The Prince of Wales will probably tour the world next autumn visiting the principal dominions.

Prerona, South Africa, Sept. 21.—After all it is probable that Premier Botha will resign. Hull will remain in office and unless a strong substitute other than Merriman be found General Botha will retire and a majority of the members of the cabinet are likely to go with him. Only the more resolute members would stay with Merriman, who is expected to be asked to form a government, if necessary.

## CHATHAM MAN ASSAULTED IN BOSTON

### KILLED HIS WIFE IN A FIT OF JEALOUSY

### Patrick Hynes in Hospital With Fractured Skull

### UNPROVOKED ATTACK

Boston, Sept. 22.—(Special)—Patrick Hynes, about 50 years old, who has lived in lodging houses around town for some time, was assaulted in front of 315 Atlantic avenue about 7:30 o'clock last night and is lying at the Relief Hospital from a fracture of the skull.

John P. Hewson, aged 24, of 282 Ferry St., Everett, foreman for a trucking firm, is under arrest on the charge of assault on Hynes. It is alleged that Hewson's blow caused Hynes to fall so that he struck on his head. It is said Hewson was being assisted by a friend to get on a car. A crowd gathered. Hynes stood on the curb stone, saw witnesses, and Hewson looked around and asked Hynes who he was looking at. Hynes made no reply.

Hewson is charged, breaking away from his companions, with a rush at Hynes and struck him.

Patrolman Ives, of Station 2, arrested Hewson and also looked up his companion as a witness. Chief Inspector Duggan went to the hospital and secured a statement from the injured man.

Hynes is said to be a native of Chatham (N. B.), where he has a daughter, who is believed to be his only relation.

Cleveland, O., Sept. 22.—An hour after he had been arrested and confined in the county jail for shooting a young woman, whose identity is unknown, P. W. Yates, who is believed to be from Detroit (Mich.), committed suicide by hanging himself in the wash room of the jail today.

The shooting, which caused Yates' arrest, took place in the grill room of a road house at Rocky River, just west of this city, early today, following a day and night spent in riding about the city in an automobile and in visits to wine rooms.

A quarrel resulted in the man drawing a gun and firing at the girl. She was hurried to a hospital and is in a serious condition.

Yates had considerable money on his person.

New York, Sept. 22.—An opportunity will be given the Carnegie Hero Fund Commission to award a medal to Patrolman Christian Klai for saving a life in the home of Andrew Carnegie, founder of the fund. While working inside of a huge tank in the basement of the Carnegie house, George left was overcome by the fumes of turpentine and Klai was summoned to the residence. Entrance to the tank could only be gained through a small hole near the top. Klai had a hard task pulling the man out. Klai was almost overcome by the ten minutes required, with the air supply cut off. Klai was almost overcome. He could hardly stand when he was dragged outside.

### SARDINE FISHERS TO GET INCREASE

### Fish Scarce and Cannery Are Forced to Accept the Terms Offered

The probability is that the sardine fisherman who meet here some days ago, with reference to the decrease from 810 to 88 and 88 per hogshead by the cannery, will have their demands accepted to and will get the 88 rate. A prominent local fish dealer is authority for the statement. A number of boats from the canneries are now in port and it was said that there is little chance that it is a matter of 88 or nothing. The fish for the past week have been, it is said, very scarce.

### TO ATTEND THE PRISON CONGRESS

### WHAT THE YOUNG TURKS ARE DOING

New York, Sept. 21.—What the Young Turks party is doing in the Ottoman Empire was described by Professor Richard Gottlieb, who has the chair of Semitic languages in Columbia University. Professor Gottlieb has been abroad more than year, having charge of the American School of Archaeology at Jerusalem. He said:—

"Of course the task before the Young Turks is a formidable one, in view of internal difficulties caused by the regime which they have overthrown, and in view of the external difficulties caused by the ambitions of neighboring powers."

"In the last thirty-five years the Ottoman Empire steadily has gone down. If there is every prospect that they will raise their country to the status of a European Power."

## GERMAN SOCIALIST PARTY GROWING

### Now Has a Paying Membership of 720,000—Annual Congress Opened

Magdeburg, Sept. 21.—The annual congress of the German Social-Democratic party, which was formally opened last night at this morning, is being held at the Hotel Bebel, the German Socialist leader, was present. Questions to be discussed are: the relations between the party and the Social Democrats and trade unions and the Kaiser's recent speech. Statistics submitted to the congress showed that the party has 720,000 paying members of the party. Of the 397 members of the Reichstag, 50 are Socialists, while there are 186 socialist deputies in 19 legislative assemblies of the states of the empire, and more than 7,500 socialist members of borough and district councils. During the year, 44,000 Socialist meetings were held in Berlin. The Socialist organ, the Vorwarts, has a daily circulation of 461,000, paying \$20,000 annually to the Socialist treasury. There are two successful weeklies connected with the Vorwarts, while in other parts of the country there are 75 Socialist daily papers, 70 of which are paying a profit.

The aggregate Socialist vote in the 70 elections for members of the legislative assembly in Saxony was 341,000 compared with 129,000 last year.

### DOCKBOARDS PROSPEROUS

Winnipeg, Man., Sept. 21.—Peter Veregin, the leader of the Dockboards, during the past week has received a number of orders for the Grand Trunk Pacific, which is building a line from Yorkton to Canora. The community has a million bushels of oak to sell, and has spent in British Columbia three hundred thousand dollars in acquiring twelve thousand acres, and in building four sawmills.

"There was a very large increase in the circulation of the Times-Star yesterday. Not only was there a greatly increased street sale, but dealers ordered increased supplies and a number who had not previously had this paper sent in orders. This large increase in circulation makes the Times-Star by far the best advertising medium east of Montreal in the afternoon field."

### MAKES A PLEA ON BEHALF OF BURGLARS

### Secretary of National Probation League Does Not Believe in Safeguards of Lock and Keys

Chicago, Ill., Sept. 22.—Henry Neil, secretary of the National Probation League, does not believe in lock and key to keep out burglars, and has had all such safeguards against the intruders removed from his residence.

"If the right hand of fellowship were extended to burglars instead of the kick and threat, the world would be better. The penitentiaries would be emptied in a short time and there would be no need of lock and key, bolt and bar," said Mr. Neil.

### AN ECHO OF THE RUSSO-JAP WAR

### Owners of British Ship Suing for Insurance on Vessel Seized Off the Coast of Japan

Washington, Sept. 22.—An odd tale of adventure, including an essential part an unusual insurance risk, is to be laid before the Supreme Court of the United States next month when that tribunal will be asked to decide whether an insurance company is liable on a policy taken out on a voyage from San Francisco to Vladivostok during the Russo-Japanese war.

The vessel in question was the British ship, M. S. Dollar, late in 1904 it was desired to send the steamer to Vladivostok with a cargo and in order to protect the owners from loss by capture they took out a policy against this peril with a British insurance company, Ltd., a Maritime institution. The vessel was seized off the coast of Japan about four days sail from Vladivostok and subsequently condemned.

It is contended by the insurance company that it is not liable because the vessel not only carried papers showing Vladivostok as the destination, but also another set of papers showing Mito, Japan, as the destination.

The circuit court of appeals for the ninth circuit decided that the company was liable. On account of the conflict of law on the subject the supreme court will be called to direct the circuit court of appeals to send the case to it for review.

### THE TIMES' NEW REPORTER

"I'll have you reported!" shouted Jamesey's blunder. "You're a wart!" calmly rejoined the clerk. "A what? What do you say?" gasped Jamesey. "You're a wart," repeated the clerk—"an old seed wart."

"To be thus designated by a mere youth was so great a shock to Jamesey's feelings that he was unable to make any reply. He merely stood and stared while the clerk finished his task and re-entered the store. "I never had such an experience," he said to the Times new reporter. "He said,

"I was a wart. What are we coming to?" The new reporter explained that Jamesey had brought the trouble upon himself. He had not been interested with the clerk when the latter was performing one of his duties. There is an agreement between the city fathers and the merchants that the latter shall sweep enough paper and other rubbish upon the streets to keep the look and basket brigade busy picking it up. To stop the practice would be to dislocate the whole civic machinery.

"I owed from this standpoint Jamesey admitted that he had been indiscreet, and he therefore promised to apologise to the clerk."

There have been in all 108 actions entered by the Alliance, so that there are 72 still awaiting hearing.

**INQUEST UNNECESSARY SAYS THE CORONER**  
 Decides After a Visit to Lepreaux That John Simms Died From a Gun Shot Wound, Self-Inflicted

An aged hermit trapper, after seven years of a lonely life at Lepreaux, where he owned a small cabin, was found dead yesterday at that place, by Edmund Boyle, a young lad who used to carry him food. The man's name is John Simms, who is known quite commonly as the "Lepreaux Trapper." Little is known of his life previous to coming to Lepreaux seven years ago, but he is thought to have come from Nova Scotia, where he is known to have a son and daughter living in Liverpool, Dr. Berrymann has decided that an inquest will be unnecessary, evidence of suicide being too strongly apparent. The coroner said this morning that he considered that the man, who was between 80 and 90 years of age, had pulled the trigger of his double barreled gun with his toe, and allowed the charge of one barrel to strike him full in the face, as one barrel of the gun was found to be empty, and the man was lying in a semi-prone position with his feet outstretched, and body half reclining against some boards which formed the walls of his crude shack.

The hut was a small one, about 12 feet square, and was situated about twenty-four miles from the city, a few yards from the road, near "Dial's Crossing." The hermit was in a pitiful condition from the effects of the charge of powder, his whole face from his chin upwards, being carried away, and parts of his head being scattered about the floor. The strange man had made arrangements for a funeral to be held, in case the man's relatives in Nova Scotia, with whom attempts are being made to communicate, do not hear from him.

**SHORTER HOURS FOR SALE OF LIQUOR IN VICTORIA, B. C.**  
 (Victoria Colonist.)  
 By the passing of the new liquor regulation bill the city council on Monday night shortened the time during which hotel bars, saloons and restaurants may sell liquor. Hereafter the closing hour will be 11 o'clock on each night except Sunday, when the bars must be closed 11 o'clock. The opening hour will be 7 o'clock in the morning. Hotels and restaurants may, however, serve on Sundays liquor with meals to bona fide hotel guests.

The new measure also provides for the closing of bars on Christmas day as well as on days fixed for the holding of elections for mayor or aldermen. It incorporates the provisions of the recently passed new provincial act in so far as they apply to municipalities. Card playing, dice, lottery, raffles, sweepstakes or sale of lottery tickets or sweepstakes tickets are prohibited upon any licensed premises. Bars in restaurants must not at any time be closed by means of doors, curtains, screens or other device.

The above are practically the only changes of importance from the old law. It is provided that hereafter all bartenders shall, as a requisite for his employment by a licensed keeper of a bar, have in his possession a statement in writing giving his full name and address and the name and occupation of every employer with whom he had been employed during the preceding two years.

**LITTLE CHANGE IN LUMBER MARKETS**  
 With the trans Atlantic shipping season drawing to a close, freights have stiffened somewhat though the market on the other side is very dull, a condition that has been in for the past month. The better freight rates however, caused by the scarcity of tonnage a situation that generally obtains about this season of the year. Most of the steamers that engaged in the deal trade are at this time on their way to other ports, as in most cases their insurance prohibits them from coming to bay ports after the first of September, except at a prohibitive rate. It is estimated that the production in New Brunswick for 1911 will be slightly less than this year. This will be particularly so as far as northern parts are concerned. The lumber market continues wretched and very poor hope of bettering the situation this year. There is plenty of work to be done in spite of the fact that much of it is in places where it will be well nigh impossible to get vessels to call. Careful work in voice-building and tons production.

**EASTERN S. S. CO. HAVE GOOD YEAR**  
 Boston, Sept. 21.—The Eastern Steamship Company is having a materially better year than the fragmentary monthly income account of gross and net has indicated, and there is every reason to believe that for the full fiscal twelve months to end December 31, share profits will not vary materially from the 9 per cent earned on the \$3,000,000 of stock in 1909.

Up to August 1, 1910, net profits were \$142,335, compared with \$176,094 a year ago, a decrease of \$33,759. This decline was due in a large measure to the charging of expense of operation for the current year, certain repairs (or renewals), including two new boilers for one of its largest steamers, instead of to an extraordinary repair fund, to be apportioned each year during the life of such renewals.

August net profits are understood to have equaled last year's showing of \$223,000 net. It is expected that the company will show a profit of the entire year, so that the company will go into September with net profits for the stocks after deduction of interest charges, of about 7 per cent. September should add about \$100,000 of net profits and October about \$150,000. November will do well to break even, while December is expected to show a loss of \$40,000 in net.

TORIES CANNOT AGREE

The division in the Conservative party is not confined to the question of the tariff or the navy.

Western Conservatives do not see eye to eye with those of the east regarding a high tariff.

Quebec Conservatives especially do not agree with Mr. Borden's views on the navy.

There is now another dispute. The Toronto World, in a sensational article, calls upon Canada to stand clear of the United States.

and have nothing to do with reciprocity. It pictures the conditions of affairs in the United States as one of financial, social and political disorder.

and sees no hope ahead for that unhappy country. This is no time, according to the World, for Canada to be talking about closer trade relations with the United States.

"Stand clear," says the World, "let us mind our own business," and thus assuming the role of prophet, the Toronto Conservative journal says: "Sir Wilfrid Laurier goes to his finish when he goes to Washington, but he seems bent on going. Let him go if he must."

It is the way of the Toronto World to sound a loud alarm at irregular intervals, and no one will be surprised at the present outbreak. Sometimes its enemy is the C. P. R. Sometimes it is the Toronto Street Railway Co., or other corporations.

The World is not to be taken too seriously. Its picture of conditions in the United States, for example, is not a true one. The people of that country have serious problems to solve, but they appear to be fairly well qualified to prevent anarchy or the dissolution of the union.

In any case, Canada by trading with them on more advantageous terms would not suffer. This is the view of that stalwart Conservative journal the Victoria Colonist, which protests against the shortsightedness of those Conservatives who would utterly oppose reciprocity.

The Colonist goes further, and warns the leaders of its party that there is great danger in their attitude with regard to the preference. We quote from the Colonist: "The Liberal party has been in power in Canada for fourteen years, and will remain in power during the life of this parliament at least. This party has remained in power because the people have supported it. We do not think it worth while to inquire into the reasons for this support, and we may be very sure that the people of the United Kingdom will not trouble themselves to do so. All they will have in mind is the fact that this party whose policy and practice are alleged to be hostile to the United Kingdom and favorable to the United States has been kept in power year after year by the votes of the people of Canada, and that the only way in which the natural results of this—namely, the disruption of the Empire—can be prevented is by a preference on Canadian wheat. We tell these over-enthusiastic Imperialists that that way danger lies, not danger in Canada, for Canadians pay no attention to such misrepresentations, but danger in the Mother Country."

GETTING INFORMATION

The Royal Commission on Industrial Training and Technical Education is now in session in Montreal. Referring to the Conservation Commission, and that of which he is a member, Dr. James W. Robinson thus aptly described the purpose of the two:

"The other commission was appointed to determine what we do really own; what are Canada's resources. We have been appointed to ascertain how best we can gain the ability to use these resources."

Dr. Robertson stated that the Commission had already heard six hundred witnesses under oath, and had heard the views of employers of labor, large and small, and of the men whom they employ. They were looking into the question of educational institutions and were told by the manufacturers and workmen alike that there was in Canada a great lack of technical training.

Canadians were as intelligent as any other men, but were handicapped by lack of technical training. The commission, he said, were also anxious to learn how men spent their leisure hours. On this point he said:

"They can not remain efficient if they don't spend their leisure in gathering health. We want also to look into the

housing problem. No matter how able a man may be, if he lives in a house badly ventilated and insanitary, he cannot compete with the man who inhabits a well ventilated house which has been constructed on hygienic principles."

At the meeting of the commission yesterday, a diversion was created by two ladies, who entered a complaint on the score that women were not represented on that body.

Dr. Robertson remarked that they would gladly welcome the views of women, but one of the ladies protested that as men have not the same viewpoint as women there should be a woman on the commission itself.

The two ladies were members of the Women's Suffrage Association, and were clever enough to know the value of a good advertisement for their cause.

The Public Utilities Commission is the most distinctively ornamental creation of the Hazen government.

The circulation of the Times-Star took a long leap upward yesterday, a fact shared by advertisers should not overlook.

The first steamer to engage in the Cuban potato trade for the present season is now in port. It is expected that this trade will assume large proportions.

Its development is due to the fact that the federal government sent a trade commissioner to Cuba and that some enterprising gentlemen put a steamer on the route between St. John, Boston and Cuba, and established the fact that under proper conditions a good trade could be built up.

The provincial government came in later, and gave some assistance.

The Times yesterday quoted from an exchange account of the language dispute which has caused so much difficulty in South Africa. Mr. Hertzog has been the head of the movement which seeks to force the Dutch language upon the English-speaking children in the schools, and he was taken into Premier Botha's cabinet.

It is now stated that the premier will dispense with the services of Mr. Hertzog, and that in so doing he would remove one of the great causes of prejudice between the races. But there is also a rumor that Botha will resign. The situation appears to be greatly strained as a result of the elections.

The people of Ottawa have been much disturbed of late over the character of the attractions on the Midway at the Central Canada fair in that city. The newspapers have been devoting considerable space to letters of indignation and to editorials on the moral aspect of some of the shows. It appears there was very careless supervision, and that some of the so-called attractions were of the sort that does not commend itself to respectable people.

The Dominion exhibition at St. John was more free than usual from objectionable features, but there is still room for improvement. Some of the fairs could very well be dispensed with, and particular care should also be taken that the tent shows are not too suggestive of some of the cheaper side shows of a poor circus.

If Mr. T. P. O'Connor accurately sizes up the situation, the Conservative party in England is badly rent by dissension as the Conservative party in Canada. Mr. O'Connor states that the high tariff party in England are greatly displeased with Mr. Balfour, whom they respect to be rather lukewarm in his devotion to the cause. On the other hand the Liberal party appears to appeal to the people. Mr. O'Connor expresses the opinion that the tide is going against the tariff reformers, and that if they force Mr. Balfour into refusal of the reasonable compromise on the Home of Lords question, thus bringing on a general election, they will again be defeated. Some things that have been happening outside of England have had rather bad effect upon the fortunes of the high tariff party.

In the United States there is a decided movement in the direction of freer trade. In Canada the west has declared itself in favor of tariff reduction. This general tendency is not overlooked by the people of England, and has its effect in weakening the appeals of the tariff reformers.

Mr. J. T. Willison, editor of the Toronto News and Canadian correspondent of the London Times, has been touring the west and was interviewed the other day in the city of Victoria. Mr. Willison is not a demonstrative man, but he admitted that the optimism of everybody whom he met in the west had made a strong impression. He is reported to have said that British Columbia will be the richest province in the west and the greatest in the Canadian confederation. Mr. Willison was also impressed and gratified by the extent to which street railways, electric light and other public services are being taken up by municipalities, instead of being given over to private concerns. The movement, he said, was not making as much headway in older Canada as in the west. Mr. Willison declares himself of the opinion that western members of parliament should visit Western Canada at least once in every two years. That country is so large and growing so rapidly that only by frequent visits can the eastern man keep in touch with the immense progress that is being made and will continue to be made.

MOTHER AND CHILD

Airy fairy Lillian, What a naughty thing to do, By noon had read a Laura Libbey paper novel through.

By four o'clock another Tale of love and passion trite She had devoured, and on the third Was well along by night.

But in the kitchen, Lillian's Mother toiled with dish and spoon, Endeavoring to work, and get A lunch for dad at noon.

She's washed the dishes, scrubbed the floors And mopped each bed by four, And even ironed every waist That lovely Lillian wore.

Thus every Laura book That lovely Lillian reads, Is built on nasty love affairs, And mother's noble deeds.

The first night after dinner the young husband hovered around the drawing room and, in the end, managed to occupy the piano stool instead of a chair. So he did the second night. And the third. And every night after.

"I don't understand, my dear," said the young wife, one evening, "why you always sit at the piano. You know you can't play." "Ah," replied the young husband, "neither can anyone else, my love, while I am there."—Answers.

"THE OLD SCRATCH" How the Evil One Came to Be Regularly Known As "The Old Scratch."

One of the many familiar names of his as a mischievous spirit is "The Old Scratch." It is so called because of the fact that he scratches so disagreeably that people thought it worse than the evil of death. The devil of olden days kept on scratching all the time not only disagreeably, but he considered very unhygienic in polite society. To cure the scalp of dandruff effectively, use Newcomb's Herpicide. It kills the dandruff, creates the dandruff which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very delightful and effective hair-dressing. Sold by leading druggists. Send 10c in stamps for sample to the Herpicide Co., Detroit, Mich.

SOME CHRISTMAS GOODS PROMISE TO BE DEAR

Dried Fruits up 25 per cent.—Raisins and Currants High Too

(Toronto Telegram.) All Christmas goods will be dear this year. "Christmas goods" will cost something. Wholesale men are anxious and retail men are nervous, and the quotations being made to them, will be bought this year at least 25 per cent. higher than they were last year.

Sulfur raisins, which last year cost fifteen shillings per hundredweight, are now being quoted at forty shillings. What sold last year retail at three pounds for a quarter will sell this year at 20 cents a pound. Currants at this time last year were quoted at 10 shillings per 100 pounds. This year they are quoted at 20 shillings. No currants will be bought this year at less than 10 cents a pound. What applies to currants applies to prunes, which are a very poor crop, and prices are up 20 per cent.

Low-grade teas are 2 1/2 cents per pound dearer than this time last year, and, if the heavy demand for this kind of goods keeps up, prices to the consumer must advance about five cents a pound. Shelled walnuts and almonds will be 20 to 25 per cent. higher than a year ago.

Enquiry among the fruit men in this city elicits the information that the apple crop throughout Ontario is the smallest in nineteen years. Exporter men in many districts are not opening their factories, because there is no stock procurable. With foreign fruits scarce and dear, high prices for these goods seem inevitable.

I suffered terrible pain and was gradually getting weaker. In 1905 I came to Canada and suffered with Summer Complaint. I was recommended to take Dr. Fowler's Extract of Wild Strawberry so I bought a bottle (but had no faith in it) and it completely cured me. **AWAKENING OF SCIENCE**

To the Value of Fruit—What is "Fruit-a-tives?"

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ohio after years of patient was discovered a process, whereby the medicinal or bitter principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained.

"Fruit-a-tives" is the only medicine of the world made in this manner. It is a section of the Dominion over their good health to "Fruit-a-tives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-a-tives" is daily proving its inestimable value as a medicine in cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuralgia, Rheumatism, Kidney and Stomach Troubles.

Seemingly every bone was broken by the fall. Capt. Brown used to drive Red Wilkes himself in the small circles of western Pennsylvania, Ohio and West Virginia. His mark was 2.10-14. **AMUSEMENTS FOR OURSELVES AND OTHERS**

**NICKEL**

Today the Nickel's musical programme is announced, will be entirely changed. Mr. Myers will return to those fine modern ballads in "You're the Ideal of My Dreams," and the Macbrady Children will present still further novelties as follows: (a) Little Leah will sing "Dance Me To Sleep in Dreamland;" (b) fancy dance, and (c) Scotch reel by both girls. The picture programme, as presented last night and to be repeated today, pleased every body seemingly, judging from the applause and hum of favorable comment. The leading one of these pictures is "The Emigrant," a sermon film by the Biograph Company, and the others are European stories with fine moral teachings contained therein. Tomorrow the Nickel will have a new line of pictures and on the first three days of next week the first authentic motion pictures of the great eucharistic congress in Montreal will be shown afternoon and evening.

**THE LYRIC**

The Norton Lane Company, which will be the vaudeville attraction at the Lyric Theatre for the balance of the week, are undoubtedly the best combination appearing in a play, which has been seen in St. John this season. Every member of the company is said to be an artist of worth and each one is seen to advantage in the very funny sketch entitled, "Betty's Haul" which has been written especially for Miss Norton who will be seen in the leading role. The story is a very clever newspaper yarn, and the situations are claimed to be extremely laugh provoking. Three real big picture features will be shown. For the first three days of next week an animated showing of the greatest religious demonstration the world has ever known will be given by the Eucharistic Congress at Montreal, and is said to show in exact detail the many impressive and inspiring ceremonies explicated. This will be presented Monday, Tuesday and Wednesday of next week.

**DODD'S KIDNEY PILLS**

Should a woman wear wool, cotton or linen next to her skin? This is a question that has been brought up many times, and it seems finally decided that linen best answers the purpose. Many physicians are in favor of either cotton or linen. Cotton, on the other hand, asks only an opportunity to dry, and then does it as rapidly as possible. The best plan in cool weather is to wear cotton or linen, if one can afford it, next to the skin, with woolen outer clothing. The wool excludes moisture and cold, while the cotton absorbs the perspiration rapidly, and dries even more quickly. This is done without chilling the body.

The St. Peter's have one more game to play with the Clippers, but owing to the fact of their playing the St. John's yesterday Manager McBride has declined to continue the series, thus leaving St. Peter's champions for the season of 1910-11. Yesterday's score was:

Little and Joe Woodman, manager of Langford, had another talk yesterday regarding a match between Sandy and Langford, but Sandy wanted six weeks to get ready for such a bout, so the pair of heavyweights were not matched.

**Assault on Mayor Gaynor**

Gallagher Still Smarting From the Blows "Big Bill" Edwards Administered at Time of His Arrest

**Special Correspondence of The Times**

New York, Sept. 20—Although six weeks have passed since he tried to kill Mayor Gaynor on board the Hamburg-American liner at its Hoboken pier, James J. Gallagher, his would-be assassin, is still smarting under the trip-hammer blows with which "Big Bill" Edwards, the former Princeton football player, belabored him on that occasion. Several of the blows have developed painful abscesses and have given the prisoner much discomfort in the last two weeks. In the hope of relieving him, the prison surgeon at the Hoboken a few days ago had him taken to the infirmary, where he operated on one of them. If he never got any other punishment for his crime than the beating administered to him by Edwards, Gallagher feels that he has already atoned for his crime. His body is still covered with black and blue marks from his abdomen up, and he fears he will carry to his grave the scars of the scourging to which he was subjected at the hands of New York's massive Street Cleaning Commissioner. Of late he has grown very penitent, and hopes Mayor Gaynor will plead with the court to be lenient with him when it comes to determining his sentence. While the mayor is disposed to forgive the man for the attempt on his life, regarding him as the misguided disciple of a pernicious political system and to this extent irresponsible, the prosecuting officials of Hudson county feel that to show mercy to Gallagher in this case would establish a dangerous precedent and help to encourage other criminals harboring imaginary grievances, to take law into their own hands. Believing this to be a good opportunity to check the further exhibition of the incendiary spirit that animates such as Gallagher, a demand is made to be made that he receive the maximum punishment allowable under the penal code which is twenty years. As Gallagher is now over fifty years of age, it is practically condemning him for life, it being extremely improbable that he will ever leave the place once its doors have closed behind him.

**AFTER SUFFERING TEN YEARS**

Cured by Lydia E. Pinkham's Vegetable Compound

Marjorie N. J.—I feel that Lydia E. Pinkham's Vegetable Compound has given me new life.

I suffered for ten years with serious female troubles, inflammation, ulceration, indigestion, nervousness, and could not sleep. Doctors gave me up, as they said my case was hopeless. I was in despair, and did not care whether I lived or died, when I read about Lydia E. Pinkham's Vegetable Compound; so I began to take it, and am well again and relieved of all my suffering. Mrs. GEORGE JORDY, Box 40, Maritton, N.J.

Lydia E. Pinkham's Vegetable Compound made from roots and herbs, contains no narcotics or harmful drugs, and no-day holds the record for the largest number of actual cures of female troubles, and thousands of voluntary testings, false on file in the Pinkham Laboratory at Lynn, Mass., from women who have been cured from a most severe form of chronic inflammation, leukorrhea, irregularities, displacements, fibroids, neuritis, rheumatism, indigestion, and every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

He was a New Yorker visiting in a South Carolina village and he sauntered up to a native sitting in front of the general store, and began a conversation.

"Have you heard about the new manna in which the planters are going to pick cotton this season?" he inquired.

"Don't believe I have," answered the other.

"Well, they have decided to import a lot of monkeys to do the picking," rejoined the New Yorker. "Monkeys learn readily. They are thorough workers and obviously they will save their employers a small fortune otherwise expended in wages."

"Yes," ejaculated the native, "and about the time this monkey brigade is beginning to work smoothly, a lot of you fool Northerners will come tearing down here and set 'em free."—Everybody's Magazine.

**de FOREST CASE GOES OVER TO OCTOBER 4**

Harry W. de Forest the Only Witness Heard At This Morning's Session of the Chancery Division

The case of Tilley, assignee of the Harry deForest, Limited, vs Harry W. deForest and J. Harvey Brown was resumed this morning before Chief Justice Baker in the Chancery Division at half past ten o'clock. Shortly before twelve o'clock the defendant closed his case and October 4 at 11 a. m. was set for argument of counsel.

M. G. Teed, K. C., appeared for the plaintiff, D. Mullin K. C., for the defendant, deForest, and A. A. Wilson, K. C., for the defendant, Brown.

The defendant Harry W. deForest was the first and only witness this morning. Examined by Mr. Mullin the witness said that the Boston branch of the business was in a flourishing condition. When he arrived in St. John from Boston just prior to the winding up of the company a detailed statement of the assets and liabilities of the company was prepared by Auditor Corbett. This statement was received in evidence. Witness said that L. P. D. Tilley suggested that the company go into liquidation. Mr. deForest said that the high quality of Union Brand Tea was due to his personal skill and attention. He also claimed that the trademark covering this brand was personal trade mark. Witness said that when the company took over the tea business conducted by him absolutely nothing was said about the trademark.

Mr. Mullin then took up the question of the counterclaim. Mr. Teed objected on the ground that as this was a suit for specific performance the matter of the counterclaim was not involved. His Honor took the same view but permitted Mr. Mullin to go into the matter. Witness then explained about an item of over \$600.

Mr. Wilson objected on the ground that the matter of the counterclaim was not involved.

His Honor took the same view and Mr. Mullin withdrew the counterclaim.

Cross-examined by Mr. Teed, witness admitted that he treated the mark as the property of the company. He said he did not for a moment take the use of the trade mark away from the company.

This closed the case.

Adjournment was made until October 4 at 11 a. m. when argument of counsel will be presented.

Yesterday afternoon Mr. deForest, Chas. Howell and Noel F. Sheraton were examined.
