Messrs. Tweedie and Aitken,
Champion Quoits Looking
For Opponents.

GAMES AT BUSHVILLE.

Among The New Devotees of
Quoits Are Mr. D. G. Smith
And Mr. J. E. Petrie.

Premier Tweedie and Mr. R. T. D. Aitken hereby challenge any two quoit players on the Miramichi to a match on Saturday next. This is official.

On Saturday last Messrs. Tweedie and Aitken trimmed everything in sight at Bushville and by everything we mean everything.

Mr. Tweedie is said to be in great form and with the rub down in the bath every morning combined with the 'rub in's' he gets at the hands of the same fresh opposition editor he'll soon be able to stroll down the pike as the king of 'quoits'.

A friend of Mr. Tweedie's, Mr. D. G. Smith, editor of the Chatham Advance straggled up to Bushville on Saturday also and attired in a natty costume took a hand in one or two matches. Mr. Smith would do better if it said if he wouldn't stand in front of the quoits.

Those from Chatham at Bushville on Saturday were: Premier Tweedie, Messrs. R. A. Lawlor, D. G. Smith and Tapper.

Newcastle's representatives were Messrs. R. T. D. Aitken, W. S. Moore, J. E. Petrie, A. A. Davidson, W. A. Park and R. Cory Clarke.

Mr. Petrie, like Mr. Smith was a newcomer and acquitted himself very creditably indeed.

One of the principal contests of the day was that of Messrs. Aitken and Moore against Messrs. Lawlor and Park. The two last named gentlemen being natives of Douglastown represented that town while the others upheld the honors of Newcastle. The first struggle resulted in a victory for Newcastle by a score of 21-12. The second match also went to Newcastle, score 21-19.

Another interesting match was the singles in which Mr. J. E. Petrie was victorious with a score of 21. Mr. Clark got 14 and Mr. Tapper 4.

Other scores were as follows:—
Lawlor and Tapper—21. Petrie and Moore—7.

Smith and Tapper—21. Davidson and Petrie—13.

Tweedie and Aitken—21. Davidson and Petrie—13.

Tweedie and Aitken—21. Park and Clarke—15.

Tweedie and Aitken—21. Lawlor and Clarke—29.

Lawlor and Aitken—21. Moore and Tapper—13.

Petrie and Clarke—21. Park and Moore—29.

Part of John Connell's Harness Eaten And He Had To Hitch Up With Spruce Twigs.

It was smiling John Connell who dropped into the sanctum Saturday afternoon. John had one of his irascible stories up his sleeve and it didn't take him long to get loose.

"You know I had a party down fishing last week," he began. "Well when we reached the Esclapelo Lake bridge we decided to go the rest of the way by water. We took the horses out of the wagon and hitched them to the boats. There were whiffle-trees and traces attached to the boats so the harness was left in the wagons at the place of debarkation. We were gone about three days and upon my word when we got back to the wagon hadn't three quarters of the harness been eaten by bears. We didn't see the animals at it but we saw their tracks all about and sure as anything if we had been away a day longer the whole gear would have been eaten. As it was the only parts left were the bridles and we had to hitch up with spruce boughs and twigs."

THIS RUMOR IS
UTTERLY FALSE.

Woman From Alms House Did
Not Die On Her Way To
Newcastle

EMPHATIC DENIAL GIVEN

Advocate Investigates Story
Which Has Been Persistently
Circulated

For several days a rumor has been in circulation to the effect that a woman had given birth to a child in the County Alms House and had shortly afterwards started for Newcastle with her new born babe, but had died on the road. This report was so persistently circulated that the Advocate took pains to send a representative to the Alms House in the hope of having the matter satisfactorily cleared up.

Yesterday when a reporter for the Advocate saw Supt. Kirby of the Alms House the latter declared the story to be without the least foundation. He had also heard the rumor and was considerably annoyed.

He stated that the woman, whose name was mentioned in the case was still an inmate of the Alms House. On July 12 she had given birth to a child and had been attended by Dr. John Benson of Chatham. Both the mother and child are now in a healthy condition.

Those responsible for the circulation of this unfortunate rumor should be dealt with by the proper authorities.

Supt. Kirby has only been in charge of the Alms House since July 14th. When a reporter for the Advocate visited the institution yesterday the hands about the place were engaged in house cleaning. Supt. Kirby is evidently a believer in cleanliness and is taking pains to have his institution thoroughly clean.

Mr. Kirby appears to be the right man in the right place and the Commissioners are to be congratulated on securing his services.

There are now twelve women and twelve men confined in the institution.

IT'S A FINE WALK
GENERAL VERDICT

Granolithic Sidewalk 120 Feet
In Length Costs \$90 And Is
Pronounced Capital

A granolithic sidewalk to the length of 120 feet has already been laid in this town and is pronounced a capital piece of work.

As soon as the walk in front of Mr. George Stables' building was completed work was immediately commenced on the walk in front of Mr. Dennis Ryan's property adjoining that of Mr. Stables. This is also completed and yesterday a 31 foot granolithic crossing was laid across the street at Mr. Ryan's corner.

Superintendent Waddell informs the Advocate the total cost of the walk now laid is \$90. Of this sum the property holders are responsible for half.

An effort is being made to have the whole of the side of the square now partly done entirely covered with granolithic.

It is likely the Council will meet in special session and determine what is to be done with the business side of Castle street. The sidewalk there now is in a disgraceful condition.

A delegation off To get Better Freight Rates For Pulp and Sale May Follow.

The Chatham Pulp mill may pass into the hands of American capital within a few days. Premier Tweedie, Mayor Murdoch and George Watt, representing the Board of Trade; R. B. Crombie, the Bank of Montreal; E. R. Vickery, the Dominion Pulp Co.; and Warren C. Winslow, K. C. formed a delegation which left for Ottawa on Monday to wait upon the Minister of Railways to discuss freight rates, chiefly as affecting the Pulp industry. The delegation is to meet a prominent paper maker from Massachusetts, who contemplates purchasing the Maritime Sulphite Pulp Co.'s property. The delegates will also present other matters to the Minister affecting the interests of Northumberland county.

Sportsmen.

"The coming season will be a banner year for big game in the County of Northumberland." Such was the statement made to a reporter for the Advocate on Saturday by Mr. John Connell, the famous Bartibogue guide.

Mr. Connell declares that both moose and caribou are far more plentiful this year than for many seasons past and he predicts a great season for the hunters of big game.

Mr. Connell also states that deer are very plentiful this year. He saw two the other day while with the Horn party on the Tabusintac.

CITIZENS RESPONSE
TO ADVOCATE'S CALL

Almost The Required Amount For
Town Bands Has Been Subscribed
But More Should Come.

A number of public spirited citizens have responded to the Advocate's call for subscriptions to the town bands and now nearly the required amount \$25, has been handed into this office and it is altogether likely that within another week a sum far in excess of the above amount will be subscribed.

For the benefit of those who did not see the Advocate's announcement last week we wish to state that for the sum of \$12.50 each of the two town bands will give an open air concert in the square every alternate Wednesday evening for eight weeks and the Advocate has opened a public subscription in order to obtain the necessary amount. Likely the amount subscribed will exceed \$25. The additional sum, if any, will be equally divided among the two bands.

The first concert took place last Wednesday evening when the C. M. B. A. band under the direction of Prof. Bush rendered a fine program of music to the delight of hundreds of citizens. The C. M. B. A. band under Mr. Bush's guidance has been greatly strengthened and improved and should now rank as one of the foremost of musical organizations in the Province.

This evening the Orange band will turn out and as in the past will no doubt give an excellent account of itself.

This band has just procured three new instruments at a cost of \$172, viz, cornet, baritone and bass.

It is up to the citizens to come along and subscribe to this fund and aid the Advocate in its efforts to furnish the people with a pleasant evening's entertainment once a week during the hot summer weather.

The following subscriptions are acknowledged:—

DOGFISH PEST

Mr. Turgeon Declares Pest Has Fallen Heavily On His Constituents.

DESIRE ANNIHILATION.

But Fishermen Do Not Want to Turn Into Butchers Themselves.

Ottawa, July 10.—In the Commons to-day there was a further discussion of the dogfish pest. R. L. Barton, Mr. Copp, of Digby, Mr. Sinclair, of Guysboro, Hon. Wm. Ross and Mr. Roche, all urged action to destroy this pest, and suggestions were made relative to the commercial use of the fish, and a bounty for catching them. The minister of marine said the department was seeking to solve the problem.

Mr. Turgeon, for the Acadian French fishermen of Gloucester said that the pest had fallen heavily upon his constituents. They wanted the dogfish destroyed, but did not want to turn into dog fishermen themselves. They thought the government should undertake a campaign of destruction. Before the Halifax award, the American fishermen, with heavy and large seines, had depleted the Canadian mackerel fisheries. He thought if this could be done by Americans with mackerel, the Canadian government could do the same thing to the dogfish.

The reduction works might be a good thing, but while they were being built the fisheries would be destroyed. The government should undertake a campaign at once. At least \$25,000 should be devoted to the work immediately.

The Tennis Girl Again Discusses Many Matters of Interest to The Fair Sex.

"HATLESS GIRLS"

Good Crop of Summer Girls Down River—Unattractive Bathing Suits.

It may be a fashionable thing for young ladies to go about without hats, but it is not altogether comfortable or attractive.

The Chatham young lady who walked to Newcastle the other day to attend a wedding would make a tremendous fuss if she had to walk that far to her own wedding.

I am told that the down river crop of summer girls is unusually good this season. What a pity there are not more night excursions.

A report from Paris is to the effect that golden hair is the fashionable thing for girls just now. There are one or two pretty Miramichi girls who will be right in it.

I was not very favorably impressed with the cut of some of the bathing suits I noticed down river the other day. There is a vast room for improvement.

Here are a few splendid rules for the reduction of flesh.—Avoid all starchy and sweetened food, all cereals, vegetables containing sugar or starch, such as peas, beans, corn, potatoes, etc. Have your bread toasted, sprinkle it with salt instead of butter. Milk, I regret to say, is not pure and good, is fattening. Skim milk may be drunk. Hot water is an excellent substitute for other liquids. Add a little of the juice of lemons or lemons to it. If you choose, limit your sleeping hours to seven at the outside. No naps. You must take exercise.

If you cannot walk at least five miles a day, and do not wheel, go to one of the institutions where mechanical massage is given. Several of my correspondents report excellent results from this method of getting the vigorous exercise they require. The system is thoroughly wholesome and not expensive. In reducing flesh the one fact to recollect is that fat is carbon—oxygen destroys or burns out carbon. You must consume the carbon by the oxygen you take through your lungs. The more exercise the more oxygen and consequent destruction of fat by the healthy method of curing obesity.

The more starch and sugar you eat the more carbon to burn away.

Individuality is the keynote of the twentieth century, and women's fashions are no exception to the rule, says a writer in the Boston Sunday Post.

A dozen quite different styles and silhouettes are simultaneously in vogue.

This was forcibly illustrated at a recent fashionable function, where three pretty girls were seated at the same table.

One girl wore an 1830 gown of organdie with Pompadour roses and the dearest little 1830 poke bonnet, its scoop filled with tiny red rosebuds.

Another in the group wore a hat of the new "Continental" shape, with its three-cornered crown.

One of the charming picture hats of chip, decorated with a single long plume adorned the head of the third in the trio.

The girls looked equally smart. One was impressed with the idea that each had taken advantage of her day of individuality and had chosen her costume to suit her own particular style.

THE TOWN KICKER.

A Few More Kicks by The Advocate's Own Special Kicker.

SCARCITY OF MECHANICS.

Plea for a More Suitable Train Service.—A Question That Remains Unanswered.

The laying of a gentlemanly side-walk on an almost unfrequented side of the square and allowing the most frequented street in the town to remain without one does not appear to the Kicker.

It is said that Mr. Foley finds it difficult to secure sufficient skilled workmen to rush his hotel to completion before winter. All our own mechanics are so busy that Mr. Foley was compelled to go to the suburbs—Chatham and Tracadie to supply his demand.

"Why were the electric light wires strung along pleasant street between the Post Office and the Waverly corner?" Well I'm sure I don't know. But I will undertake to give some sort of a satisfactory answer before the date of next civic election.

Continued on page 5.

It has come to my ears, remarked Miss DePlane, that you said my face would make a man climb a fence.

Yes, that's what I said, replied the diplomatic man, but, of course I meant if he happened to be on the other side of the fence.

The woman who for some reason or other has been obliged to defer her shopping until now will be rewarded by finding in the shops beautiful material greatly reduced.

Should she require that invaluable garment, a negligee or wrapper, wash silks and aldatross cloths are offered at low prices.

Simple and becoming is a pale blue or pink albatross negligee made with its long skirt fitted to a yoke which is not to be visible.

Choose Valenciennes by the yard in all-over to cover the yoke and drop over the sleeve tops.

Edge the bottom of this shoulder collar with an edging to match, and trim it with a quilled ribbon ruching of the same shade, for a heading.

Trim the collarless neck with a turnover frill of lace.

Make the sleeves, elbow length and gather them into a band, upon which a double frills of lace will make a becoming finish.

The bottom of the skirt should have several three-inch tuck, press-flat.

Least expensive of all materials are the cool sheer printed lawns, in dainty Dresden flower designs, in rose stripes, in sprigs all of one color, and to be found in the palest shades of such colors.

These make very pretty negligees to slip on of a morning.

Have the sleeves wide and flowing, and use frills of the material or wash lace for trimming.

An inexpensive frock for home making requires about twelve yards of material.

Allow three founces for the skirt trimming, spaced off to the knee, and edged with narrow lace. Skirt the top fullness in close rows, yoke deep.

Make a shoulder collar of the material, and after cutting it out baste on rows of the insertion cross-ways—leaving a space the width of the lace between each row.

Cut the muslin out underneath these insertions.

Trim edge of collar with frill of material or lace.

This collar finish is sufficient if a St. Cecilia neck is desired, but if a high neck is preferred, add a band of insertion as high as needed and edge with lace.

Make a pretty girle of ribbon. An extremely modish treatment for these muslin frocks is to trim them with bands of insertion, joining waist and skirt by a belt of the insertion, and fastening at back with small lace buttons and loops.

This Princess effect of joined waists and skirts is most fashionable this season, and is seen in many of the French gowns.—The Tennis Girl.

Constant Dread of Paralysis

Left arm got numb—Doctors said nervous exhaustion—Remarkable cure by Dr. Chase's Nerve Food.

Mrs. CHAS. S. CRAVEN, North Gower, Ont., writes: "I do not hesitate to recommend Dr. Chase's Nerve Food and would not begrudge fifty dollars for the good it has done me. For six years I suffered with severe pains in my right shoulder and numbness in my left arm. No tongue can tell what I suffered. The doctors said the trouble was from the nerves but their medicines proved of no avail so I resolved to give Dr. Chase's Nerve Food a trial. After using six boxes of this medicine my health was so great, I improved that I got more and I used in all twenty-eight boxes with the result that I am completely cured. I do not feel that I can use strong enough words in recommending this medicine to all who suffer as I did. Dr. Chase's Nerve Food 50 cents a box. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box of his remedies."

A MARVELOUS THEATRICAL "JUMP"

Arrangements were definitely perfected in New York yesterday by Mr. John C. Fisher and the transportation companies involved whereby The Silver Slipper Co. will close their Manhattan Beach, New York, engagement on Saturday night August 20th, and open in Yarmouth, N. S., Monday, August 22nd, and then to Halifax for the balance of the week. This daring and comprehensive movement is without parallel in theatrical history. A twelve hundred mile rail and water route in thirty six hours establishes a new record in the amusement world. This marvelous feat of transportation is only feasible by the employment of special trains and steamers. As soon as the curtain drops on the last performance at Manhattan Beach, the scenery, costumes, etc., will be transferred to the three N. Y., N. H. & H. R. 60 foot baggage cars, and when loaded will be hauled by special locomotive over the Long Island Railway to Brooklyn, where the cars will steam to the Harlem terminal of the N. Y., N. H. & H. R., where a special engine will be in waiting to take the cars to Stamford, Conn., where they will await the other portion of the train, consisting of three twelve-section Pullman sleepers, bearing the company, who will leave the Grand Central Station in New York at one A. M. At Stamford the two sections will be consolidated and then run direct to Boston, where they are due to arrive Sunday morning at 8 o'clock.

Immediately upon arrival at Boston, a special engine will be in readiness to switch the baggage cars to the wharf of the Dominion Atlantic Railway's steamer at Boston, where the effects will be put aboard, leaving Boston Sunday, August 21st, at 2 P. M., arriving at Yarmouth at 6 A. M., Monday August 22nd, playing there that evening, and then running special over the Dominion Atlantic Railroad to Halifax, arriving there at 1 P. M., August 23rd, and playing the balance of the week. All the promenade and main deck, also special staterooms of the steamer 'Boston' have been secured.

BATHURST.

Of late several parties of American anglers, wishing to reach their rivers on the North shore of the Bay Chaleur, the Bonaventure and Cascapedia for instance, having made arrangements with the steam boat owners ahead, have got off the train at Bathurst and gone across the Bay from here, thus saving at least a day which is quite a consideration to busy men to whom every day of their holidays count.

It seems to us if this method of reaching the Quebec side of the Bay was always available and was advertised nearly all the tourists from the States who go there during the summer season would be only too glad to take advantage of it. On Saturday last two gentlemen from Boston who were on their way to Bonaventure, learning that they could reach their river by this means, made arrangement by wire, and getting off at Bathurst were soon on their way by steamer.

During the past week great numbers of grise have appeared in the Nepisiguit and other North Shore rivers, and the anglers are having good sport with these little fish on light rods. In this connection we are glad to notice that nearly all American anglers are discarding heavy tackle and taking up the use of smaller rods. Years ago even eighteen foot rods were thought none too heavy for salmon fishing. Now one seldom sees a rod of more than fifteen feet used and many anglers prefer rods of thirteen or fourteen feet, finding they can kill the heaviest fish with light tackle, as long as their lines are of sufficient length and their leaders are reliable. We are glad to see this improvement, which besides being more sportsmanlike, shows that the day is coming when every angler will probably take an interest in the preservation of our fisheries.

Already enquiries are coming from many sportsmen regarding hunting in our northern forests this fall. We were in hopes that the Provincial government would take into consideration the advice given by so many experienced hunters that killing moose by means of calling should be abolished. It is the opinion of the best authorities on such subjects that very few years are required to see the end of our magnificent hunting if calling moose is allowed, and the sooner the subject receives the attention it requires the better. Of course the revenue which hunting licenses give our impoverished government is just now an object but there is such a thing as killing the goose that lays golden eggs, and it is doubtful if the moose will long survive this means of hunting.

The Episcopal congregation at Clifton, Gloucester county, intend holding their usual summer picnic on Wednesday next, and as usual no doubt, a large number from Bathurst will attend.

The death of James Gammon took place at the residence of his brother-in-law Mr. Richard Miller on Saturday morning last, and the remains were interred in the Methodist burying ground on Sunday. Although Mr. Gammon has been seriously ill for several weeks his many friends and relatives in Bathurst hoped he would recover owing to his fine constitution, and his rather sudden taking off at the end was a surprise to them. Mr. Gammon was a man of quiet habits, and belonged to a family which is very much respected in Bathurst. He himself had many sincere friends who will miss him.

The County Court, Judge Wilkinson presiding sat during the first of last week, one or two important civil cases being tried. The case of Ferguson vs. White was an interesting one, ending in a verdict for the defence, the only criminal case. In the docket was arranged between all parties interested and withdrawn with consent of the Court.

ST. JOHN EXHIBITION.

From numerous and conclusive indications, this year's Exhibition from—17 to 24 September—will be the best yet. The demand for floor space has been altogether unprecedented and has cleared out everything save one or two emergency locations. This demand is wide-spread which demonstrates the interest taken by manufacturers generally in this section of the Continent. The public spirit for which St. John is noted, has been very generously extended to the support of the Exhibition Association. To this has been added the hearty co-operation of the Dominion and Provincial Governments. Through the kind efforts of Mr. F. W. Hudson, Dominion Live Stock Commissioner, mounting paper will be supplied free of charge to all New Brunswick School Children entering for the Wood Competitions. Already, several hundred entries are in; teachers and pupils alike have taken up the matter enthusiastically. Entries may be made at any time, and entry forms will be supplied free on application to Manager Hubbard, St. John N. B.

Mr. Fred. G. Spencer, whose name is associated in the public mind with the bringing of Madam Nordica, Miss Jessie MacLachlan, and other high class musical treats to the provinces, has just returned from a tour through the principal amusement centres in America. He has been away selecting for the Exhibition Association the very best amusement features available, at an expenditure greatly exceeding that of any previous year. His tour has been eminently successful. The aggregation secured by him will, undoubtedly, prove the most interesting and attractive ever seen here. It includes Adie's Lions, the most successful and thrilling show of the year, indeed, the most popular one seen in recent years.

Strengthening and Health Giving as

FERROZONE

Ferrozone is noted among physicians for the prompt manner in which it brings strength and vigor. It increases the appetite, keeps digestion in perfect order, and restores vitality. That every particle of food eaten is sure to nourish and invigorate the body. You will sleep peacefully, feel tired as if you had not used Ferrozone, because it strikes at the root of any disease that may be working in the system.

Mr. Anthony E. Tompkins of Montreal writes: "I have found the greatest satisfaction in using Ferrozone, and consider it the best tonic made. I was all run down a few months ago, and in a very poor state of health. I took a few boxes of Ferrozone and was so proved at the rest. Ferrozone drove away that dull heavy feeling, and put my system in splendid order. I am never nervous or sleepless and have a hearty appetite. This is all due to Ferrozone, which I recommend in the strongest way possible. If you feel the need of good stimulating tonic just try Ferrozone. Price 50c. per box or six boxes for \$2.50. Sold by all druggists by mail from The Ferrozone Company, Kingston, Ont. Be sure and get Ferrozone today—it assures health."

But, protested the fair maid after the engagement had been duly ratified, this is the same ring you gave Edyth three months ago when you were engaged to her.

Mr. T. R. Sloan, President of the American Industries Company, under date of April 11, 1904, writes in part as follows:—

The board of Directors have authorized the sale of 142,478 shares of the 7 per cent. cumulative preferred stock, the balance, 102,522 shares to remain in the treasury.

The proceeds of the 142,478 shares sold to you are to be applied to further improvements and acquiring additional property and the erection of a custom smelter in North Carolina for the treatment of copper ores.

American Industries Company is the consolidation of the following mines:—Lelia, Granite and Safe-guard (Gold) Oregon; Maxatauney, Magnesia Springs, Superior, Empire, Excelsior, Marietta, (Iron) Pennsylvania; Maxatauney, Excelsior and superior (Orchre, Umber and Sienna Deposits) Pennsylvania; Cornwall (Copper) North Carolina; Placer Washing, Eureka, Emporia (Gold) Georgia.

The gold ores (free milling) assay from \$2.00 to \$97.00 per ton. The iron ores assay from 40 per cent to 55 per cent. metallic iron, and yield a profit of \$1.00 to \$1.50 per ton. The milling of ochres, umbers and siennas now net a profit varying from \$2.50 to \$3.50 per ton.

The smelter when completed will show a profit of over \$50,000.00 per annum.

The Union Advocate,
ESTABLISHED 1867.
NEWCASTLE, JULY 27, 1904.

NOW OR NEVER.
Some sort of public action should speedily follow an article which the Newcastle Advocate directs attention to the neglected grave of the late Hon. Peter Mitchell.—St. John Telegraph.

The Advocate regrets to announce that its suggestion has not met with any substantial response. When Mr. Mitchell was at the zenith of his career and in a position to turn duce into the coffers of his so-called friends the Advocate would not have made an appeal on his behalf in vain. But let us reconcile ourselves to the belief that this is an age of ingrates. The Telegraph quotes the Advocate's article and adds:

The Advocate deserves praise for directing attention to this matter. It by no means exaggerates either the worth of the dead or the forgetfulness of the living. The grave of this great son of New Brunswick should be marked by a fitting memorial. We know it will be said that his work is his best monument, and that is true. But the living should mark their appreciation of that work and leave for other generations a visible tribute to him who wrought well.

The Halifax Morning Chronicle has discovered that Dundonald's real family name is Blair. Really, no wonder Laurie fired him.

ADVANCE'S SILLY NONSENSE.

The Advocate is of the opinion that the resources of the County of Northumberland have not been developed as rapidly or as well as they should have been. We endeavored to point out a week or two ago the advisability of energetic action on the part of our Boards of Trade with the hope that our wealth of forests be brought to the attention of the world's capital so that we might, in all likelihood enjoy a more substantial industrial growth than has been witnessed. We predicted at the time that our observations would be greeted in some quarters with sniffs and sneers. Such has proven to be the case—at least in one quarter. The Chatham Advance endeavors to amuse its readers with allusions of its own special brand of humor in an effort to hold the Advocate's honest endeavors up to ridicule. We will say right here and now that we want nothing at all to do with "cheap" people whose arguments are made up of coarse invective or silly things. But it was ever thus with Chatham papers.

"Don't be too easily pleased by a" is Madame Sarah Grand's advice to girls. The distinguished actress of "The Heavenly Twins" lived in a New Brunswick

IT'S NOT NECESSARY.

Dundonald continues to talk and political hacks continue to talk again him. Meantime the opening in the vast Canadian wilderness—prosperity is by the way and the country is safe from an armed invader. It is to those who in this tiresome country could might employ more usefully

in other directions. At all events we do not pay our representatives at Ottawa to wrangle constantly about such small matters in the hope of advancing the interests of their respective parties. We must add, however, that we have no complaint to lodge against Northumberland's representative on this score.

The Chatham Advance attempts to ridicule the Advocate because this paper, through a typographical error omitted the letter "i" from the well known phrase "intuitive genius." It ought to be up to the Advance to leave a few "i's" out of its own editorial columns.

A CHAMPION OF CARNEGIE.

A writer in the New York Evening Post under the nom de plume of "Investigator" extracts from the editor of that journal the information that Carnegie received three hundred million dollars from the United States Steel Corporation for his holdings at the time of the formation of the Morgan and Schwab scheme and that a year or two before he offered substantially the same holdings to the Frick Syndicate for one hundred million dollars. The editor of the Evening Post attempts to justify Carnegie's course in the following words:—

"A man has a right to ask what price he chooses for his own property, especially if he is not hawking it about the market, and if some one else begs him to make a price."

Of all the estimates of Carnegie's character the one tacitly supplied above is perhaps the truest.

A Nova Scotia murderer, when about to be sentenced for his crime the other day, exclaimed to the judge:—"Your Lordship, you have a political gun loaded with legal shot," and drawing his coat aside from his breast continued, "Oh, shoot! I'm ready!" The judge did as he was bid. It's really a good thing that justice has a chance to shoot too sometimes.

NOT BY LONG ODDS.

The Chatham Advance goes to great pains to show that Chatham is the most populous town on the North Shore. It quotes McAlpine's Gazette—whatever that is—to show that Chatham has a population of 6,000 Bathurst 4,100 and Newcastle 3,000. Its authority seems really a good one. We do not propose therefore to dispute the claims of the Advance that Chatham is the most populous town on the North Shore. How could we? But we do dispute the assertion of the Advance that Chatham is the most important town on the North Shore or in other words the chief town. Now that the Advance has shown us clearly and unmistakably that Chatham is the most populous commercial town on the North Shore it seems to be up to that paper to show us how it is the chief or most important town.

The Sydney strike is over. The men return to work at the rate of wage in force prior to the strike. This is a rather inglorious outcome for both sides as was predicted would be the case.

roue or the lifetime. Now and again a poor unfortunate inmate gets thirty days, while thousands of his like go unmolested. Occasionally a seduction case creeps into court, nevertheless, thousands break the sixth commandment at their own sweet will, until they are brought to bay by an enraged father or jealous husband or lover. No, we need not be in the least surprised at the abundance of crimes of a homicidal nature.

Roosevelt and Parker—two sausage links made from the same capitalistic dog.

ONLY ONE PLUM.

The strike settlement was brought about through the good offices of W. L. MacKenzie King, deputy Minister of labor, to whom the union extended a formal vote of thanks this evening for his intervention.—Sydney Despatch.

Well, well! Those Sydney strikers must be a warm bunch. They thank a man for bringing about their own defeat. Seemingly the strikers get nothing, except their old jobs. But it's an ill wind that blows nobody good! John Moffat, leader of the strikers gets a labor nomination for the Commons. Perhaps that accounts in part for a "settlement."

SHOULD BE BUT.

At present the Intercolonial carries pulp from St. John to Montreal cheaper than from Chatham to the same place, although Chatham is 160 miles nearer. This unfair discrimination is one of the things in the way of running the pulp mill successfully, and should be removed at once.—Chatham World.

There are a multitude of factors to be taken into consideration by a railroad in determining freight rates and among them may be noted the question of competition, the competition of markets, the advisability of developing certain industries along the lines of the railroad as well as the question whether the freight cars carrying traffic in one direction are likely to be hauled back empty or loaded.

CAPITAL DOES IT.

"Canadian politics are becoming more under the domination of rings of capitalists. The Grits have their own peculiar clientele the Tories have theirs."—Globe and Mail.

The Gazette should not be blind to the fact that everything and everybody, nowadays, are controlled by capital. Even the Gazette is controlled by capital.

Inspector Menzies Resents Accusation of Corruption in His Office

SCOTT ACT IN NELSON

Inspector Starts This Year With Nine Prosecutions out of which Two Perjury Cases Came

To the Editor of the Advocate:

Will you kindly allow me space in your paper to answer the "slander in the dark" who attacks me under the name of "Temperance"?

I have not been accustomed to give very much attention to parties who are ashamed of their names; but as this insidious slander has taken advantage of circumstances over which I have no control, I am compelled to answer it. I have not, I repeat, named any person in my report, and I have not, I repeat, named any person in my report, and I have not, I repeat, named any person in my report.

Nelson has a lot of fine gentlemen, but the most difficult I have had to cope with since I have been in the office, and I have no one to whom I can refer for a shrunk from it or to whom I can refer for a shrunk from it or to whom I can refer for a shrunk from it.

Last year, acting under the Scott Act, I could bring to bear on the subject, the advice of counsel, and leading temperance people, I sought to express the chief traffic by taking the profit out of the business in direct and this was not a starting or commencing a fully proven by the fact that I took sixteen fines out of Nelson during 1903, and would up the year with two of the most persistent offenders in goal.

This year I started nine prosecutions against parties in Nelson for violation of the Canada Temperance Act, out of which developed two charges of perjury and one charge of tampering with a witness. Of these I secured five convictions. The first prosecution against Mrs. Fitzpatrick failed (as she afterwards swore, by reason of perjury). The death of the late Police Magistrate Niven stopped proceeding in several of the cases, and for a considerable time I was unable to get a Court of competent jurisdiction in which to prosecute offenders. Hence the lull in the enforcement of the Act during the last couple of months. Nevertheless, I understand the rigor of my prosecutions has forced one of the most persistent violators to leave the country.

Any person but a slanderer, who knew his evil doing, and is ashamed to let people know who the party is, who like the Savage of years ago, wings his poisoned arrow from behind a tree, would not dare to charge me with neglect of Nelson under the above circumstances; which are undoubtedly known to your anonymous correspondent. Thanking you for space,

JOHN MENZIES,
Inspector.

Seizure of British Vessels Has Created a Very Grave Crisis

AN UNWARRANTED ACT

Russia Had no Right to Sink Str. Knight Commander so There's Complication

(Special to the Advocate)

London, July 26.—The British public are thoroughly incensed over the seizure of British merchantmen by the Russians. This morning most of the London papers devoted considerable space to the seizure and sinking of the steamer Knight Commander and the consensus of opinion is that Russia should be speedily brought to account for her actions. Serious complications are likely to arise. The sinking of the Knight Commander without a trial is regarded as an unwarranted act and it is believed that it has created a grave crisis following so closely on the seizure of the Malacca.

There is little or no war news to-day.

A GOOD COMPLEXION

It is a joy to every woman's heart and man to have enough not to despise it. Beautiful complexion means pure blood, or in other words a healthy body. Tens of thousands of women take Ferrazone because it is a splendid blood builder. Keeps the system in perfect order and helps the complexion wonderfully. Ferrazone is the best remedy I know of for a clear, ruddy complexion. I know of writes Miss A. E. Bland of Pennsylvania. "My skin used to be so raw and after taking a few boxes of Ferrazone a most noticeable improvement in my complexion. I can now recommend Ferrazone as a tonic for good health and beauty. Use only Ferrazone. Price 50c. at druggists."

Big Gathering of Quebec Liberals to Be Held in Bonaventure Next Week.

REID AND TURGEON TOO

New Brunswick Liberals From the North Shore Will Also Be On Hand

(Special to the Advocate)

Montreal, Que., July 26.—It is reported that immediately after the close of the session Sir Wilfred Laurier will go to Quebec, Quebec County, as the guest of Senator J. P. B. Casgrain. While there the campaign will be opened. The electors of the four counties of Bonaventure, Gaspé, Restigouche and the rest of the last named two in New Brunswick will meet at a convention point, and listen to speeches by Messrs. Macle, Lacombe, Reid, Turgeon, as well as an oration by Sir Wilfred Laurier. This gathering will, it is said, be the opening of the Liberal campaign in the Province of Quebec. Apparently the earlier announcement that Sir Wilfred Laurier would go to the Union at the close of the session will not be carried out.

HACHEY ACCIDENT GRIEVOUS AFFAIR.

Mr. Albert Hinton Writes Expressing Regret And Explaining Circumstances.

To the Editor of the Advocate:

My attention has been called to an article which appeared in your issue of last week under the signature of Mr. J. Bennett Hachey, of Bathurst Village, who undoubtedly has a grievance against me owing to an act of mine which resulted in an accident to his father on the morning of the 2nd. July, at Newcastle.

Permit me to state in explanation of what occurred to Mr. Hachey, that he was the victim of circumstances and in no way, so far as I know, connected with the parties who played a provoking trick upon me whilst I was sleeping on a bench in Newcastle Station awaiting the arrival of the Maritime Express which, that morning, happened to be four hours late. It was after this occurrence that unknowingly, in a moment of impatience, I shoved Mr. Hachey over one of the men who had played the trick on me and who was seated at the rear of the station platform. Any stories to the contrary are certainly fabrications as the entire blame, so far as the injury to Mr. Hachey is concerned, rests on me and those who were the cause of my provocation. No person regrets the occurrence and its consequences to Mr. Hachey more than I do.
