A BUMPER CROP

(Special News Service.)
WINNIPEG, Saturday.—On account of the very optimistic reports that are being received regarding the yield of all parts of the Canadian west, it is confidently asserted that 25,000 farm laborers will be required to gather the crops. Arrangements are now being made for the handling of this vast army of men, and special trains will be run from various points in the east. The Canadian Northern report issued today shows grains of all kinds doing splendidly. Prospects for a bumper year were never better. The weather at the present time all over the country is all that could be desired.

YOUNG MAN IS NOW AT DEATH'S DOOR FROM KNIFE WOUND

Was Stabbed by a Young Man With Short Warning--The
Victim Had Quarrelled With Brother--No
Arrests Yet Made.

FREDERICTON, Monday.—A young man named Oscar Case, belonging to Burton, Sunbury county is lying at the point of death at his home as the result of a knife wound inflicted by another young man named Garnet Ward in Alexander Burnett's shop at Oranville last night. Ward has not been apprehended but Sheriff Holder and a posse are pursuing him. Ward walked up to Case and stabbed him in the back with four moments warning. It is quite evident that Ward struck to kill, and the only motive that can be assigned for the deed was that he had quarrelled with an elder brother of Case about a week ago, and got a severe trouncing at his hands. He is said to have threatened at the time that he would get even at the first opportunity.

CATCHING WHALES IN ST. LAWRENCE RIVER AT MONTREAL

Genuine Sperm Whale, Twenty-Five Feet Long Killed There by
Joseph Pilon Sunday.— First in
Seven Years.

(Special News Service.)
MONTREAL, Monday.—The whaling expedition which started from Montreal under that intrepid whaler, Joseph Pilon, yesterday, was quite a success, returning to port in the evening towing a large whale which they had harpooned in the St. Lawrence within a dozen miles of the harbor. The whale was first seen last Friday departing itself in the opposite direction. It spouted frequently and was seen by a number of people. Many went down to the water front on Saturday without getting a shot at the aquatic animal. It was sighted by several but before they could get their artillery trained in its direction it gave a defiant spout and started seaward. Yesterday Pilon started out with two other men in a strong skiff with harpoons and all the regular tackle harpooners use. They came across the whale at evening. Just opposite Verennes and succeeded in capturing it after an exciting struggle. They towed it back to Montreal and this morning it was the big attraction down at the wharf. It is a genuine sperm whale and measures 25 feet in length. This is the first whale that has been caught in the St. Lawrence in the last seven years though a year ago Pilon set out with his whaling outfit and captured a large porpoise.

CHANGE NEEDED

Twice in less than a week the building occupied by Messrs. A. G. Adams & Co. and W. H. Marquis & Co. adjoining the Campbellton Steam Laundry, has been on fire, and in both cases a serious conflagration was only averted by the prompt response of the fire department.

The Steam Laundry, situated where it is and equipped as it is, is a menace to the safety of the buildings surrounding it and severe measures are needed to insure the safety of adjacent property.

At a special meeting of the Town Council held last evening the matter was fully discussed and a number of resolutions were passed bearing on the matter. These resolutions will be incorporated in the bye-laws and the proprietor of the laundry will be obliged to make changes in his plant to meet the wishes of the citizens.

While this will doubtless be a handicap on Mr. McLaughlin, yet it is very necessary and should be attended to at once.

In our opinion the laundry should not be located in the heart of the business district. Its business is such that it does not need a site centrally located, but could be just as advantageously operated if isolated at some distance from the centre of the town. As it is now placed every merchant in that vicinity is called to pay by increased insurance rates, a penalty for its location, and in this way many hundreds of dollars are paid each year. It would be a good business proposition to buy the property at a fair figure and offer Mr. McLaughlin an inducement to remove to a more isolated locality.
