Loggie (N. B.) and McNutt, From West' Against Plebiscite On Conscription-Kemp Speaks Today.

Ottawa, June 25 .- Opposition to a referendum on military service continues to grow. It is doubtful if a division this week will be taken unless some special arrangement is made. One Liberal westerner today announced that he will speak against the plebiscite, namely Thomas MacNutt of Salt Coats. He favors the referendum as a general principle, but doubts the practicability of taking a soldiers' vote. W. S. Loggie is a Liberal, New Brunswick, who will oppose the referendum.

Sir Edward Kemp, minister of militia, will probably speak this afternoon.

One of the means of achieving this, while not intallibly certain, yet nevertheless most promising, is the democratization of Germany."

He padd a great compliment to Mr. Jordan and his choir, and expressed his appreciation of the fine service the organization had rendered to him. "I had hoped that the war would end before I left you," he said. "I wanted to be here when our splendid men and boys should come home. I so much wanted to be here, but it is not so to be. God biess them, and you."

Dr. Flanders leaves today for Winnipeg, where he will commence his pastorate. Many friends lingered after the service to bid him good-bye and wish him God-speed in his new work.

age will find his highest joy in the service of fellowmen.

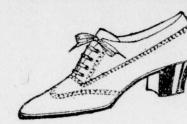

Notwithstanding the contradictions and confusions of the present as represented in the war, Mr. MacGregor emphasized the thought that already there are indications of the new spirit at work in the world. Encouragement, nesaid, was to be found in the experience of all the past that the night is always darkest just before the dawn. Attention was drawn to the way in which people are influenced and moulded by the age in which they live. As people become commercial and their thoughts centered on commerce and gain in a commercial age, so will the spirit of service manifest itself in those who live in the new era of service, even as the spirit of service is animating so many today.

O'clock the board of control picked him to the sites in view.

"We will build the hospital here, the only question now being that of a suitable site." he said. "There should be no trouble in getting a good place." Controller Moore has succeeded in getting options on several sites. The locations most favored are the asylum property on Dunda's street east and Carling Heights. It is thought that the former will be chosen and arrangements made to transfer some farm property north of the asylum to ine Government in lieu of the fifteen service service, even as the spirit of service is animating so many today.

Man in that age will find his highest joy in the service of fellowmen.

The decrease in the consumption of all kinds of meat during the warmer months, when its place as a food is taken by the fruits and vegetables, will be one of the chief reasons for lower prices, the buyers say, and will permit the accumulation of a slight surplus to meet the reased demands of autumn and

Good pasturage during the summer will do much to help the situation, and to place meat prices at an altitude where they can be seen by the "common people." When summer's verdant beauty flies. And autumn glows with richer dyes,
And autumn glows with richer dyes,
A softer charm beyond them lies—
It is the Indian summer.
'Ere winter's snows and winter's breeze
Bereave of beauty all the trees,
The balmy spring renewal sees
In the sweet Indian summer. In the sweet Indian summer.

And thus, dear love, if early years
Have drown'd the germ of joy in tears.
A later gleam of hope appears—
Just like the Indian summer:
And 'are the snows of age descend.
O trust me, dear one, changeless friend,
Our falling years may brightly end—
Just like the Indian summer.

Dear Miss Grey.—I noticed that "Vio-et" had sent in a lonely soldier's ad-iress. May I have it? I think she said again.

Where to Apply.

Dear Miss Grey,—Can you give me any information about where to apply for position as bookkeeper overseas, and qualifications, etc.? Also please give we your candid opinion of my writing. N. G.

Ans.—I scarcely understand your query, but if it is your desire to obtain employment in England as a bookkeeper, your best way would be to answer advertisements, or insert one yourself, in the English dailies. It's possible you might find an opening in this way.

You write a very excellent business hand.

Dear Cynthians,—Don't mind crowding for me. I'll just float in above you. Just see the contented smiles, and sighs!

So "Laurie" has donned the khaki. I wonder if "Caesar" has, too? It's quite a white since he has called. Uncle Josh must be planting potatoes and corn and chasing the ould speckled hen away in the meantime.

Dear Miss Grey,—Could you send me a lonely soldier's address. Will try and send parcels to him occasionally. If you know where he belongs to, please let me know, as I may be able to send him some home papers. Was out to infectious diseases hospital Sunday with magazines and cigarettes for patients. I know one of the nurses very well. Had a letter from my brother last week. He has been in France seventeen months without a scratch. He was on Somme front for seven months. Was through Vimy Ridge Easter Monday and all important fighting since. Am using new pen-name, but you may remember me.

The Mueller nine marked up its first victory of the season on Thursday night last, and having tasted the cup of victory promises to take a further sip when it meets the Imperials, Harrington, who twirled splendid ball against the Tigers, letting them down with three hits, will again do mound duty for the Brass boys, and will be opposed by Smoky Joe Allan, who is conceded to be the best fork-handed pitcher in the city Duncan and Dore will do the receiving, and a lively mound duel is expected. LEAF AVERAGES

Manager Larry still has a comfortable margin over any of his opponents. He added nine points to his mark during the week, and Whiteman still holds the second position. Whiteman picked up eleven points in the nine games. Perhaps the most pleasing thing noticed after looking the table over is the return to form of Dawson Graham. The husky first-sacker gathered ten hits during the week and boosted his average by 15 points.

Pitcher Warhop took a big boost. He jumped from 167 to 208, and makes the fourth of the local crew to get into the 300 class.

Joe Schultz, the new utility man, turns in a mark of 313 for his first.

grateful for the kind message of congratulation from yourself and colleagues. My pride in commanding the Canadian corps is surpassed only by my determination to serve it in such a manner as will insure its splendid reputation being maintained, and as will merit the approval of my countrymen. I note with special gratification your assurance that the troops in the field can rely upon Canada giving them all necessary support. They have given their blood freely to maintain their nation's honor, and now confidently expect that the full fruits of their sacrifice will not be prejudiced. It is an imperative and urgent necessity that steps be immediately taken to insure that sufficient drafts of officers and men are sent from Canada to keep the corps at its full strength."

Report on Convention.

C. R. May and W. A. Martin, delegants to the Rotary convention at Attauta, presented brief reports. They will give more extensive reports at the next meeting. Mr. Martin was confirmed in his position as district government was to Canada, and not to Mr. Pidgeon altogether," said Mr. Martin. "The delegates felt that they should show some positive interest in this country, and they voted solidly for Mr. Pidgeon, although an American was his opponent. The Canadians is officed, and in this way, cemented the gloof feeling that prevailed."

The delegates spoke of the excellent entertainment provided for the visitors. Atlanta, although sweep by a terrible fire some weeks ago, rallied nobly, and there was no complaining on the score of hospitality and kindness. About 3,000 delegates were registered. Seventy-two newspaper men were at the convention. Chas. F. Kendall, a new member, was introduced by Rotarian J. C. Beamer. He responded briefly.

It was decided to have a picnic some time in July, and Rotarian Frank Ashplant was elected chairman of the committee. The date will be decided upon in time to be announced at the next meeting, two weeks from today.

There are people in London today of the same ilk as the Pharisees and Sadducees. These people instead of learning about the heavenly life from the teachings of Jesus run after mediums, seances, clairvoyants, epirits, spooks and things of that kind. They put more emphasis on some table-rapping affair or the unintelligible mutterings of some female medium in a darkened room, than in the plain teachings of Jesus and the apostles. Divine Guidance.

To all who read the history of England aright the hand of God is visible. England commemorates her deliverance from the hand of Spain, more by the might of God than the power of man, in these words, written on the monument: "Thou didst blow with thy wind; the sea covered them."

No nation has been so guided, led and protected as England. What we need to emphasize is that we shall honor God in these marvellous events transpiring around us.

Men are called on to do clear Christian thinking as never before. High statesmanship is needed as never before in the history of nations.

children baptized in the Presoyterian church in Canada fail to come into full communion was emphasized by Rev. W. J. Knox in his evening sermon at the First Presbyterian Church as one of the most serious notes struck in the report presented at the recent general assembly in Montreal. Of 18,000 children baptized only 7,000 became full communicants. This state, he said, was caused by the fact that little interest was taken in the work of the church schools and because of the failure to direct the steps of the young in the right direction. If in this line the church did not face the question boldly and intelligently it was bound to fail along every other line. It was up to the parents and teachers he said, to become more in earnest for unless the church was awakened to the situation its whole life would be weakened. Its members were too

To unless the church was awakened to the situation its whole life would be weakened. Its members were too prone to trifle with the problem. They should realize that it was utter folly to be blind to the fundamental importance of this work.

Evidences of Power.

Delegates to the assembly had been struck by the evidences of the power possessed by the Roman Catholic Church in Montreal. Its strength, he asserted, was due to the jealous manner in which it guarded and trained its children. Because it cherished this work as one of the greatest importance it was strong today.

Fallure of the young members of the Presbyterian Church to receive training in the fundamentals of their belief resulted in weakness before the power of other churches and a consequent drifting away from their own.

His sermon threw a number of inof other churches and a consequent drifting away from their own.

His sermon threw a number of interesting sidelights on the assembly. Dealing with foreign missions, he stated that the work had progressed well, although the war was affecting most fields. Its influence was being felt particularly in China, from whence thousands of the natives were being taken through Canada to work in the munition factories of France. taken through Canada to work in the munition factories of France. He asserted that he had seen between four-teen and eighteen carloads of the Oriental workmen near Montreal preparing to embark at one of the Atlantic ports.

Many Missionaries.

Many Missionaries.

Missionaries, he said, were going with each contingent of workers as it was felt that these men, far from their homes, would offer an excellent field in which to sow the seeds of the Christian doctrine. Fifteen workers had altered wheen withdrawn from Worth. ready been withdrawn from North Honan to carry on this work, leaving only two male missionaries in that part only two male missionaries in that part of the country.

Home mission work had been promoted with the greatest difficulty because of the scarcity of men. The majority of these in the past year had come from colleges in the United States because the institutions here had been depleted of students to the number of 270. All these men were in khaki.

One of the problems presented by its field was the "trek" of th churches in the more populous cities from the congested portions of the municipalities into the newer residential sections. This situation had been counteracted in a few cities by the establishment of settlement homes and missions.

A striking feature of the assembly
