Discussing the question of opening No. 5 fire hall in the north end, the chief stated that it would in all probability be re-opened as many of the electors favored the move, as indicated by the way they voted in the recent elections. It was his personal opinion, however, that the north end hall was unnecessary. Since its closing on June 9, the city had saved \$10,-000, and there had only been three fires in the north part of London since that time.

When the hall was in operation the motor trucks from the central station could always beat the horse-drawn vehicles of the north end outpost, to the corner of St. James and Richmond streets. The only section of the city obtaining added protection from the operation of No. 5 hall was within a radius of a few blocks of it. ### PASS ON EMBARGO BILL SECOND TIME

British Members Approve Removal of Restrictions On Canadian Cattle.

London, Dec. 8. - The House of Commons Thursday passed the second reading of the bill designed to remove the embargo on the importation of Canadian cattle by an overwhelm-

ing majority. the bill, Sir Robert Emplers, minister and their baby, narrowly escaped of agriculture, said the measure was necessary in order to carry out the agreement reached with Canada. There was, however, the question of animals landed from Ireland, which he explained.

Due To System.

Sir Robert said it was a fact that in considering possible causes for the widespread nature of the foot and mouth disease among cattle in the early part of this year, the veterinary officers of the ministry of agriculture had come to the conclusion that the had come to the conclusion that the spread of infection was largely due to the system under which consign-ments of Irish store cattle were imported by cattle dealers and put on the market in the course of a few days after arrival. The result was

rain restrictions which had been imposed should be made permanent. The order carrying out this recommendation had met with a good deal of criticism in Ireland, the minister continued, but the government was of the opinion that the regulations in question provided the minimum of the safeguards necessary in the case.

The bill that has been introduced ful garden implements. for the removal of the cattle empargo, Sir Robert Sanders continued, meet the strong-expressed wishes of the representatives of Canada. They attached enormous importance not only to the will beplaced on the statute book as great dominions had asked for it. and it was for that reason, and that alone, that he asked the house to accede to a degree of haste, which he certainly would have joined in deprecating on most occasions. Irish Cattle Question.

The only point now at issue is the question of application of the regu-lation under the bill to Irish cattle. Ulster members complain that while the embargo is being removed from Canadian store cattle, a new em-bargo is being placed on Irish cattle. The question of the treatment of leish cattle under the bill will be fought out in the committee stage

The result of this splendid spirit of cooperation is a railway service as near perfection as modern methods can make it. That the travelling public appreciates this effort on their beappreciates this effort on their behalf is shown by numberless letters to the G.T.R. officials, expressive of their pleasure and approbation. Here is an extract from an unsolicited letter written to the management by a prominent New Yorker: "Had a most comfortable ride from Montreal to comfortable ride from Montreal to Toronto. The train went at a uniform speed and the roadbed was better, it seems to me, than any road I have been on of late, and you know I travel more or less on the crack roads of this country. What was most noticeable was the braking—the absence of awful shocks and jars, and the smooth running of the train. and the smooth running of the train. You are to be congratulated on the manner in which passenger trains are handled—seemingly a distinctive feature with you."

### GAS VENDORS GET **EXTENSION OF TIME**

City Council Allows Longer Period For Removal of Overhead Pipes.

HARDSHIP ON DEALERS

Solicitor Warns Members Municipality Liable in Case of Accident.

Special to The Advertiser. St. Thomas, Dec. 8.—The time limit for gasoline vendors along Talbot street to remove all overhead pipes and equipment has been extended until No. 2 Committee can more thoroughly investigate the situation, with the possibility of the removal order being rescinded and a resolution passed restricting other persons from establishing stations along the main street. The time extension was brought about at the city council meeting, Tuesday evening, following that only persons with "fat" pocket-books can afford it. At the end of representation made by an influential deputation of the vendors, who drew attention to the loss and inconvenience the enforcement would bring to them.

The referring back of the matter to the convenience of the council scored the law introduced this year by the Drury government whereby all jail officials must retire on attaining the age of 70 years. The local jailer, Oliver Robertson, who will shortly reach the age limit, is both mentally and physically efficient in the opinion of the council, who passed a resolution unanimously that a committee consisting of Reeves Disbro, Bert and Aldrich interview the provincial section of the statute as it applies in Norfolk.

He agreed that hard on them to order the pipes removed after the council had granted permission for them to be erected. Ald. Stokes made the suggestion

that the number be restricted and no more be allowed on the main present owners from transferring their rights to some other persons but he considered it would be a hardship on the vendors to order the removed. Meehan adopted a similar

### EXPECT DOMINIONS WILL CONSIDER DEVELOPMENT

London, Dec. 8.—(Canadian Press Cable.)—Premier Bonar Law, reply-ing to questions in the House of Commons today, said it would be premature to make any statement regarding the agenda for the proposed imperial economic conference until replies to the invitations sent to the replies to the invitations sent to the dominions had been received. However, the premier said one important matter the delegates from the dominions would bring up would be in connection with schemes for development, and doubtless another would be a proposition for the stimulation of trade.

The referring back of the matter to pre-war volume, and German farm-No. 2 Committee was done on the ers complain that they cannot fatten recommendation of City Solicitor their porkers now as formerly be-

the vendors themselves were not to blame, and that it would be rather turning more and more to sweets. Chocolate candy, particularly, is in growing demand. Fruits and pastries are in high favor, and slices of bread are now spread with preserves of marmalade where formerly would have been eaten with a thick coating of butter, margarine or lard. Goose was a leading meat in the old days, because of its unusually large grease content, but even th pre-war times, 8,600,000 geese wer imported every year, as compared with 9,083 during the first two-thirds

of this year.
Previous to 1914, each year saw an import of 106,600 double centners of dressed chickens and 22,000 double centners of ducks. From January 1 to September 1, 1922, both imported chickens and ducks together amounted to only 507 double centners.

hit by the enforced change in appetites. The first eight months of the year registered 10,442 double centners of butter coming in, against 550,000 annually before the war. The former yearly import of milk was 330,000 double centners and of cream 444,000. In the eight months ending September 1, imported milk has amounted to 62,189, and the inflow of cream reached the ridiculously low figure of 122 double centners. Eggs formerly came here from abroad at the rate of 1,667,500 double centners a year, besides the arrival of 57,134 double centners of egg yolks

## SEEK REOPENING OF

Have Borden Milk Company Operate Factory.

Special to The Advertiser. Tillsonburg, Dec. 8 .- With a view to securing the reopening of the would million-dollar plant of the Borden early date, the board of trade has been in communication with the Boranxious at the present time to do this because of the fact that their other factories are supplying their trade, a point has been reached whereby if the milk producers of this death of R. C. Edwards district are ready to co-operate and provide the milk there is hope that this factory may be put in operation

at a very early date. In order to obtain definite information the board of trade is sending out a questionnaire to the milk pro-ducers in this district, and the nature of the replies will decide the question. The huge plant closed when the Fordney bill was enacted, and the milk situation became very grave for the producers in Oxford County, and the price of cows slumped very badly, but it is a foregone conclusion that 30 per cent of the former patrons will be very glad to again send their milk to the local factory.

"And note his idiote expression to be convinced of his lunacy," the doctor said. Dr. Ross substantiated the evidence of Dr. Crippen.

Henry Smith, manufacturer of dandruff remedies, and father of the prisoner, stated that his wife always had fits and he believed his son had inherited her disposition. He referred to one peculiar action on the part of his son while cutting wood.

A. R. Douglas, prosecuting attorney, attempted to show that Smith was a fast liver and a speed demon.

He proved conclusively that the witness had all been drunk at the time of the accident, so their evidence could not be accepted. He pictured the prisoner as a type of society young man who cares for nothing but personal pleasure—drunken orgies and wild parties. Mr. Douglas claimed that the prisoner was not inclaimed that the prisoner was not in-sane. This was indicated by the suc-cess he experienced in selling his father's hair tonic.

Find Prisoner Guilty. After retiring for a few minutes

the jury returned the following verdict:

Hiram Hunt's behavior was such as to prompt his lordship to impose seven days for contempt of court.

Counsel Changes Plea.

After the evidence of the prisoner, Mr. Tennant, his attorney, asked permission to change his plea to not guilty, on the grounds of insanity. He called the evidence of Dr. Crippen, specialist in men's diseases, who swore that Smith was subject to fits, peculiar actions, and that his was an Sofia, the dispatches from Sofia to-day.

Lights. It was towards the close of the year 1915 that I gave up the deanship of St. Paul's Cathedral, Detroit, and took charge of the sociological department of the Ford Motor Company. I continued in the employ of the company for a period of a little more than five years.

The sociological department-later known as the educational department -had been organized early in the year 1914, at the time the Ford profit-sharing plan, with its fivedollars-a-day minimum, went into effect. To Mr. John R. Lee who organized the department and con-ducted its work for the first two rears of its existence, credit is due. more than to any other one man, for devising those unique humane licies which attracted world-wide attention, and which gave a practical and helpful direction to the philanc impulses of Mr. Ford. sonal work of the company.

Mr. Ford has a way of making great things possible, of opening the door of opportunity for others. And fortunately for him, he has been able in the past to gather about him men who have been able to seize upon these opportunities and to use them in a way that has reto use them in a way that has reflected great credit upon him and upon themselves. If it had not been for Mr. Lee, I am inclined to think that the sociological work of the Ford Motor Company would have taken its course along lower and conventional lines. He is a man of ideas and ideals. He has a keen sense of justice and a sympathy with men in trouble that leads to an understanding of their problems. On many previous occasions he had talked over with me his desire to share in some practical manner his prosperity with his employees. As we sat there that morning he spoke at length of his plans and purposes, and of the motives back of them.

I asked him why he had fixed upon five dollars as the minimum pay for unskilled labor. His reply was: "Because that is about the least a man with a family can live on in the other hand, a man who can pay and the street in the street below, drawn there is no small that it can business are so mall that it can business are so mall that it can business are so mall that it can b man with a family can live on in the other hand, a man who can pay these days. And more than that, I believe that the great majority of men may be trusted to do the right thing if given the chance. There are thousands of men out there in the shop who are not living as they the shop who are not living as they should. Their homes are crowded and insanitary. Wives are going out to work because their husbands are unable to earn enough to support the family. They fill up their homes with roomers and boarders in order to help swell the income. It's all wrong—all wrong. It's especially bad for the children. They are neglected from necessity. Now, these people are not living in this manner as a matter of choice. Give

them a decent income and they will live decently—will be glad to do so. What they need is the opportunity to do better, and someone to take a little personal interest in them—some one who will show that he has footb in them. I resigned from the Ford Motor

Company in 1921. The old group of executives, who at times set justice executives, who at times set justice and humanity above profits and pro-duction, were gone. With them had gone an era of co-operation and goodwill in the company. So it is that there are two classes there now, "grabbers" and "wreckers." Grabbers are those who stand prepared to come forth and deliver control of certain very important waterfront property to an outside commission, on which Toronto, as such, has no representative.

The "wreckers" are those who beheve that a city has and should maintain the right to do what it pleases with its own streets and property. The wrecker part is tagged to those who are not prepared to sign over control of Toronto's waterfront to the hydro commission. The Daily Story

BY CORONA REMINGTON. It was Saturday. In the garden be hind the house an old man was slow-ly pulling up dead stalks and piling them in little heaps along the rows, and across the railing of the porch gaudy quilts and blankets were sun-

ing themselves.

Down the front steps came a youth, lender with the lankness of recent

slender with the lankness of recent growth. He was listless, yet restless. The budding trees, the busy, singing birds, the warm sunshine were all getting in their work on him, but he knew nothing of this; he only knew that he wanted something, some vague, indefinable thing.

He sauntered toward a battered, mud-spattered little red car that was standing in the front yard under a tree. Adjusting spark and gas levers, he cranked it, then got in and went rambling, rattling off down the road. He had no idea where he was going, but something seemed to be drawing him on, so he foll; wed the silent command willingly enough. As he command willingly enough. As he continued on his vay an idea came o him, and he hurried, now driving with a purpose.

with a purpose.

Five or six miles farther along he left the road, and finally stopped in front of a rather big white house and cast a quick glance over the surroundings. A look of disappointment came into his face; she was nowhere in sight, and certainly he was not going up to that big white door and ring that hideous bell, and then maybe be confronted by Mrs. Armstrong. Irritably he contemplat-Armstrong. Irritably he contemplated backing into the road and going on his way, when an idea came to him, and he put a gentle finger on the button that blows the horn. After a moment he was rewarded by the sight of Elsie Armstrong standing in

and tell mamma. He was immensely relieved. After all it wasn't so hard to do. He had never before asked Elsie for a ride, nor any other girl for that matter, and he didn't quite know how and he didn't quite know now to go about it, but whether his method was right or wrong it certainly brought results. And she hadn't seemed sur-prised either; perhaps she didn't prised either; perhaps she didn't know it was his first attempt.

Elsie came down the path swinging her hat in her hand and, unaided by

### EVELYN MACNEVIN PLEASES WITH SONG

Noted Contralto Presents Delightful Program At London Masonic Temple.

With laurels binding her brow, none the less authentic if invisible, Evelyn MacNevin, contralto, came back from New York Thursday evening to sing in her own native Western Ontario, and before a critical audience in the Masonic Temple at the first artists' concert of the season of the London Woman's Music Club. Assisting here were Whitney Scherer, pianist, of Chatham, the birthplace of Miss MacNiven, and Carl Brunner, well on the way to

the goal of ideal accompanist. A wonderful gift of voice is that of Evelyn MacNevin, contralto of re-markable range and power, organlike in the lower tones, clear and appealing in the middle range, pure and true in the upper register, and of fine timbre throughout. Years of study under the best masters overseas and on this continent have given her control of her beautiful instrument of expression, which makes possible crescendo to volume gorgeous in tone, or delicate pianis-

The position, which was left va-

cant by the resignation of former Inspector Johnston, was given Mr. Sex-ton following consideration o. his application along with that of George A. Robertson of Owen Sound. Coun-cillor MacDougal delivered a strong plea for the latter applicant, basing it on the fact that Mr. Robertson was it on the fact that Mr. Robertson was not only highly competent, but that he was an old boy of the county. Other members said that they had been favorably impressed with both Mr. Sexton and Mr. Robertson, but that they thought Mr. Sexton's that they thought Mr. Sexton's greater experience and age entitled him to the opening. All testified to the new inspector's attractive personality and sterling character. An amendment moved by Councillor MacDougal, that Mr. Robertson's name be substituted in place of that of Mr. Sexton in the motion appointing an inspector was defeated.

New Tank Necessary.

The inspector of the House of Refuge, Strathroy, presented his financial statement for the year. He stated that it had been imperative to buy a new water tank this year, the old tank having caused several cases of typhoid fever. A new boiler, washing machine and other items swelled the annual expense sheet up to \$17,800, plus the costs of installing the necessities referred to. At present there were 71 inmates; 12 died during the year and six were discharged. The average cost of each in-

mate amounted to 84c per diem.

today. Why, there are nurses who are now compelled to occupy beds that would otherwise be devoted for the occupancy of patients."

Commenting upon the suggestion that a suitable dwelling be rented as near the hospital as possible as a temporary home for some of the nurses, the mayor thought that this could be done. "Something will certainly have to be done if the present high standard of the institution is to libe maintained," he asserted emphatically.

"The people may not realize the fact that probably 50 per cent of our nurses in training are not natives of London, but come from the surrounding district. These girls are not remunerated, and it would certainly be creating a hardship upon them if we deprived them of the home and compelled them to seek board and lodgings at their own expense Mayor Wilson contends that this system would not be for the best interests of the city's institutions in

many respects.

People voted against the nurses' home bylaw, they have explained by the dozen since the election, because they had not been assured that \$300,-000 was a fair price for the proposed purchase of the land and the contruction of a building thereon.

There was previous to last year in existence in the United States the Intternational Sunday School Association and the Sunday School Council of Evangelical Denominations. No great parsulacity was needed to perceive perspicacity was needed to perceive the antipathy that existed between these two organizations. The better sentiment in both organizations was, sentiment in both organizations was, however, plainly in favor of a merging of the two. It, however, took years to bring them together, although finally the vote in both organizations was unanimous for donsolidation, and at the meeting of the Kansas City convention last lung the final merger was fully Junes the final merger was fully affected, with the unanimous ratification at that convention.

"In Canada we know nothing of this place of the situation. We have fortunately but very few denomina-tions, and these denominations have on the whole worked harmoniously in joint Sunday school effort for in joint Sunday school effort for many years. It is perhaps a misfortune in a way that affairs have run so smoothly. More interest in Sunday school work might have been stirred up had there been more disagreemene as to the methods that should have been followed. However, as it is, we have now on the North American continent the International Sunday School Council of Religious Education which embraces

to bear on the religious education problem the very best intellectual effort. Under this general organization there are state and provincial organizations, and our own Ontario Religious Education Council is an integral part of and in direct connection with the great international organization. In turn, the Ontario Religious Education Council, with its headquarters in Toronto, and a competent staff of experts, has supervision of the Sunday school work throughout the province of Ontario. This convention today is held under its auspices, and we are favored with of the best talent procurable simply through our connection with

the provincial organization.

Co-Ordinate Activities. In the City of London we have he London Religious Education Council, and the possibilities of that organization are unfortunately not yet realized, and its machinery is not working at any great deg efficiency. In broad lines, the idea of the organization is to centre in its general management the co-ordina-tion of all religious educational activities in the city, plan the requirements of the various divisions, offer help in any one of these divisions to any school in the city requiring such help, giving direction in the newer and better methods which may have been proved beneficial in other centres and helping carry to each local school the benefits that are derived from connection with the prorived from connection with the provincial and international councils Purpose of Funds.

"There is undoubtedly a very pro-unced misconception of the pur-use of the funds raised in London for this work. Some schools have an idea that it is for purely local purposes from which they directly derive no benefit. Others object that it is not for local purposes at all. Some consider that it is in support of an organization more or local. of an organization more or less in opposition to their own denomina-tional Sunday school boards. They tional Sunday school boards. They have not yet realized that the great merger which has taken place in the United States is a merger which has been practically effective in Canada for a number of years; that the Religious Education Council of Ontario is part and practically their and practical of their canadactics. is part and parcel of their own decominational activities and works in businesslike and effective manner in the promotion of Sunday school interests that relate to all tions. There should, in the City of London, be no difficulty whatever in obtaining funds for the support of reat organizations doing work that is fundamentally the most neces-sary of any work undertaken on this continent, to the extent of at least five cents per scholar. That means for a school of 200 members a contribution of \$10, and we are satisfied that if each teacher and officer of each school would take enough interests in his or her position to know just what organizations are at work preparing lessons, investigating plans, proving theories, and spreading the result of their research work throughout the length and breadth of the land, there would be no necessity of calling on any individual person in London to supplement the contributions from the schools themselves so as to make the total apportionment for London for provincial and international work, namely \$800, easily realized.

Finances Unsatisfactory.
"Financially, the treasurer's report this year is, perhaps, less satisfac-tory than for many years. The ap-pointment made at the last convention did not, for various reasons, materialize, and there has been, therefore, no official treasurer for the current year. The sources of the council's revenue are the contribu-tions from the Sunday schools and subscriptions from individuals interested in the work. These personal subscriptions have this year been more difficult to obtain than for many years, and the schools also have responded less freely than here-tofore, possibly because there was tofore, possibly because there was not the usual pressure brought to

ear upon them.
"Altogether the funds raised have amounted to a little over \$400, apart from one contribution of \$100 made directly to the international work. Almost the whole of this sum has been transmitted to the provincial office, the local expenditures, apart from the annual convention, which practically finances itself, having been confined to a few dollars for postage.

been confined to a few dollars for postage.

"We commend the needs of the provincial and international work to the thoughtful consideration of every superintendent, and trust that each in turn will discuss these with his teachers and officers, and that instead of the annual appeal being made to the Sunday schools, they will recognize the requirements of the Religious Education Council as one of their annual charges and forward that on a definite date, say the 1st of October in each year, without any urging from the officers of the any urging from the officers of the local council.

Unlike most of the usual run of crook exemas, "Alias Ladyfingers" deals with the career of the orphaned child of a family of wealth who by accident is brought to the attention of a notorious safe-breaker. Because of the little lad's delicate hands which earn him the name of Alias Ladyfingers, he is educated in the risky art of opening strong boxes. His proficiency gains him a national reputation with the police, who, while trying to trap him, learn that the much-wanted safe-cracker is the heir to the fortune of his grand-

mother. From that point the romance continued in an unusually realistic fashion, and depends but little on coincidence for the series of thrilling events which follow. It is an excellent feature.

Included in the bill are a Pathe
Review and a two-reel "Hall Boys"

It's Cheap—But You Can't Beat It.

The demonstration was not without its humorous aspect. Apparently switching operators have been keen in ferreting out the faults of the subscribers. For instance, Kiwanians were forced to laugh and admit their guilt when Miss Nicol showed how through carelessness, on the part of the person placing the call, the wrong number was received, and how the answer came. "Oh, excuse me, central made a mistake."

An explanation of the méchanical and electrical aspect of telephone service was given by Mr. Drew, of the Bell Company.

### ADVISES GIRLS TO **GET RIGHT WORK**

T. H. Yull Addresses Federaation of Club at Y.W.C.A. Building.

"How many girls here feel they are in the wrong work for them, in other words, that they are round pegs in square holes?"

The question was asked Thursday evening by T. H. Yull, at the conclusion of his address to the Federation of Girls' Clubs of the Y.W.C.A., on the subject of "Round Pegs in Square Holes." Immediately the hands of half the girls in the big clubroom shot up, an indication to the speaker, the industrial secretary,

Miss Ruth Lucas, that the lecture had been heard with "hearing ears," and understanding hearts."

"The greatest thing in life is to know yourself, to find out your own capabilities and tastes, and to decide what kind of work you are adapted for," said Mr. Yull, after commenting that the term "round peg in a square hole," like other familiar sayings and maxims, has much underlying truth. Many people, he declared, are failures in life, not because of lack of ability or good intentions and conscientious effort, but because they are misfits.

"Some people," he said, "are misfits because they are in their wrong environment. They are drifters in a shoal of dead fish. Occasionally in the shoal there is one fish live enough to get out, try something else, and ultimately make a success.

Beaverbrook Again Causes Cabinet Embarrassment by Publishing Letter From

Guinaris. By HENRY SOMERVILLE.

Special Cable to The Advertiser. London, Eng., Dec. 8.-Beaverbrook has again caused public interest and cabinet embarrassment by publishing a letter Guinaris wrote Curzon last February, stating the Greek Labor has 17 and the Liberals and army was on the point of collapse unless Britain gave aid.

Answering questions in Commons. Bonar Law said the letter was circulated among the cabinet, but Lloyd George, Chamberlain, Birken-head and Lord Lee declared they never saw the letter. Birkenhead went one better than Beaverbrook by reading in the Lords Curzon's reply to Guinaris. Birkenhead is endeavoring to throw the blame on Curzon by implying the latter never advised the cabinet of the situation, and that he wrote Guing is encouraging the Greeks to carry on.

Salisbury has indignantly accused Birkenhead of using confidential imperilled by storm conditions on office staff here the Port Arthur stadocuments to attack Curzon when the latter was absent representing the latter was absent representation of the latter was absent representing the country at Lausanne. ## LABOR DOUBLES STRENGTH

Party Make Big Gain With Returns Incomplete-Prohibition Will Be Defeated.

Wellington, N. Z., Dec. 8.-A feature of yesterday's parliamentary election was the vote of labor, which, with the returns still incomplete, had today doubled its previous strength Because of the large number of absent voters who cast their ballots by permit, the results of the voting for parliament had not been ascertained. The government and reformist parties have so far won 9 seats each, while Independents 24.

Returns from the licensing referndum compiled so far show a majority against prohibition.

### Rumor Chinese Bandits Plot to Loot Tsingtao and Kidnap All Foreigners

Tsingtao, Shantung, Dec. 8.—A reported plot of Chinese bandits, who are said to have been joined by 200 Japanese roughs, to loot this city and kidnap all foreigners yesterday created consternation in the foreign colony. On the eve of the restoration by the Japanese of the leasehold of Kiao Chow to the Chinese, which has been officially set for Sunday, the situation is extremely critical, and it is not known how Tsingtao can be saved from bandit hordes.

The foreigners of the city held a het meeting last night to discuss the situation, and it was suggested that an appeal be made for British and United States warships to protect nationals.

The Chinese have transferred books and funds to Tsinan or placed them in the custody of the Japanese. Most of the prominent Chinese merchants are in hiding or have fled from the city.

### **ALLIED PREMIERS** TALK REPARATIONS

Meet at London for Final Effort Before France Seeks Solution in Own Way.

DISCOUNTENANCE FORCE

Indications Point To Law Holding Same Views As Lloyd George.

Paris, Dec. 8. — Premier Poincare left at noon today for London to attend the conference of allied premiers, which is regarded by many here as the last great effort of the entente to reach an agreement on Germany's reparations bill before France sets out independently to collect in her

The meeting is looked upon as in many respects the most important since the armistice, involving as it does the continuance of friendly cooperation between France and Great Britain. A lesser but none the less important factor is the prevailing impression that M. Poincare's political existence is at stake in the policy for which the proposed Brussels financial conference stands. Unless the premiers decide in London to convene the Brussels meeting, many believe M. Poincare will find his usefulness at an end. Others think that the French premier, in the event of a disagreement at London, would proceed to the execution of his plan for the occupation of the Ruhr Valley, and the exploitation of the occupied Rhineland before making way for someone else, but faith in the efficiency of this scheme of penalties appears to be decreasing in official quarters, and many say it will never be resorted to.

Law's Policy Still in Doubt. Optimism over the make-up of the new British government has given way lately to a feeling of pessimism in view of certain indications that Prime Minister Bonar Law holds to substantially the same views of reparations as did Mr. Lloyd George.

Although the British have disclosed no stated policy since the resigna-tion of Mr. Lloyd George, Premier Bonar Law seems to agree with his predecessor that Germany should be given a long moratorium from cash payments: that the total of the in-demnity should be reduced, and that no military measures should be used in attempts to force Germany to pay M. Poincare's much discussed plan of settlement, although withheld or of settlement, although withheld on the eve of the last London meeting because of the sensational Balfour note, is expected to be placed before the present meeting, but it appears that he will reveal it only in its broad outlines, reserving the detailed plan for the Brussels conference.

However, it is learned that the following definite propositions, while

lowing definite propositions, while not constituting the plan, will prob-ably guide the French in their arguments in London:

1. No moratorium to Germany without the surrender of productive quarantees such as mines and

2. Reduction of the German indem-nity to between 40,000,000,000 to 50, 300,000,000 gold marks only on condition that there be a parallel reduction in the French and other allied debts. 3. Revision of the percentages of the German payments in favor of France. France at present is entitled to 52 per cent, but would claim Britain's 22 per cent in return for fixing the indemnity at the suggested

Want Clear Understanding4. When the voluntary default of Germany is definitely established, or when Germany refuses to carry out the financial reform of balancing her budget and stabilizing the mark, penalties would be imposed. These would include extension of the allied occupation of the Ruhr so as to permit a customs cordon around that territory, and the economic exploitation and general administration of

On the other hand, the British, backed by Italy and Belgium, hold that it is useless to convene the Brussels meeting unless there is a clear preliminary understanding on certain points which M. Poincare would leave for consideration at

These are the fixing of a reasonable sum of indemnity and the method of its payment; redistribution of the payments among the allies, cancellation of the allied debts, so far as possible, without affecting the United States methods by which Germany's finances can be restored under allied control, and the raising

of a loan for Germany. It was evident tonight that an allied agreement is impossible if M. Poincare insists upon military measures to coerce Germany, but there are agree to seizure of the German mines and forests if France abandons her so-called Ruhr plan.

Sault Ste. Marie, Mich., Dec., 8 .-Her interior badly battered, all furniture aboard smashed, and the sleeping quarters completely wrecked, the steamer Charles M. Warner, of Buffallo, is at a pier here effecting repairs to its engines, after thrilling experiences in Lake Huron during the storm of Tuesday night. During the height of the storm the captain and crew, all wearing life preservers, worked at the engines effecting temporary repairs to broken rods. The 21 men in the crew were a unit in saying they owed their lives to the courage of Captain Hugh Little, who urged them to "buck up" so that tem-porary repairs could be effected. The Warner, loaded with coal, was bound for Duluth. She probably will be here several days making permanent repairs.

### FEW FOLKS HAVE **GRAY HAIR NOW**

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur

Hair that loses its color and lustre, when it fades, turns gray, dull and lifeless, is caused by a lack of sul-phur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color. that beautiful dark shade of hair which is so attractive, use only this

old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

### Pledge Help To Wipe Out Pools

Louisville, Ky., Dec. 7.—A fight to exterminate the baseball pools to save the game from suspicion was pledged Commissioner Landis by major and minor leaguers today as a result of the commissioner's appeal last night to wipe out what he termed the greatest menace to the sport.

he termed the greatest menace to the sport.

The commissioner, with characteristic Landis severity, called the operator of a baseball pool "the slimiest, lowest form of criminal in existence," and declared he would accept no excuse from any club official for not making a fight to stop pool operations. Commissioner Landis in his address suggested that the minor leaguers meet in joint session with the major league club owners, but he made no mention of the draft.

Since George Engel and Harry Greb, the light heavyweight champion, separated. Engel has been receiving numerous letters from fighters who are anxious to have him look after their affairs in the future. Some of the fighters are promising battlers, but Engel is undecided as yet whether to join hands with them.

aniars in the future. Some of the fighters are promising battlers, but Engel is undecided as yet whether to join hands with them.

I have seen several statements lately said Jack Bulger, manager of Mickey Walker, welter champion, in which it was inferred that we have been side-stepping matches with the contenders so as to meet middleweights in which there would be no risk of the welter title. All this is untrue. During the past few days, Dave Shade, Lou Bogash, Eddie Shevlin and Phil Krug have been offered matches with Walker by a Newark promoter, but all passed it up.

Frank Churchill, manager of Elinos Flores, the Philippino lightweight, says he is willing to allow Flores to fight Joe Tiplitz of Philadelphia in the semifinal to the fifteen-round bout between Charley White and Ritchie Mitchell of Milwaukee at the Garden on Dec. 15, but he will insist that Tiplitz weigh in at 133 or 134 pounds at 2 p.m. on the day of the contest.

The report circulated to the effect that Pancho Villa and Frankie Genaro. The New York bantamweight, have been matched to meet in a fifteen-round bout at the Garden on Dec. 29 is untrue. Manager Churchill says he does not know the first thing about the match.

Jock Malone, the St. Paul middleweight, and Augie Ratner of New York, who were suspended by the Boxing Commission of Detroit, Mich., after their ten-round bout in that city on Nov. 11, will be permitted to fight again in that city, as their suspension was lifted last Saturday.

Jack Bulgar has taken Pal Reed, the New England middleweight, under his management. Reed has signed a five-year contract. Bulger is also the manager of Johnny Gannon, the Brooklyn bantam, and Mickey Walker.

Willie Ryan of New Brunswick, N.J., who has to fight under his right name, Willie Shine, in New York State, by order of the boxing commission, will fight in the future under the management of Frank McCauley, who looked after his affairs when he first branched out as a fighter.

A match between Gene Tunney, Greenwich Village light heavyweight, who formerly held the American tite, and Floyd Johnson, Iowa heavyweight, will be arranged for Madison Square Gerden on Day 29

They were not, and according to Klepper, he made good the differences.

Increase Planned by Majors Seen As Control of Market.

Louisville, Ky., Dec. 7.-Reaching a decision to hold their 1923 convention in Chicago, provided Commissioner Landis calls a joint meeting of the major leagues there at the same time, the minor leaguers concluded their annual meeting here tonight without any more startling trades or sales be-

The National Association adopted resolutions condemning the plan of the majors to increase the player limit from forty to fifty. The fifty player limit would permit each big league club to have at least 25 men in the minor leagues under option. This, the minor give the majors control of the player market. ### Ban Says Cobb Got That Swat

Chicago, Dec. 7.—The disputed hit by Tyrus Cobb in a game at New York last May was finally declared in Cobb's favor today by President Bancroft B. Johnson of the American League. ### STILL SAY OPTION IS HELD ON SOX

Toronto Syndicate Holds To Story Despite General Denials.

Toronto, Dec. 7. - The story in the Star on Wednesday in regard to the proposed transfer of the Boston Red Sox franchise to Toronto has caused a sensation all down the line.

Sox franchise to Toronto has caused a sensation all down the line.

Despite denials in official quarters the Toronto syndicate still insist that they have secured an option on the Boston Red Sox, but they did not expect to exercise it until they obtained the consent of the other 15 major league clubs to move the franchise to Toronto.

Abundant Denials.

Owner Frazee of the Red Sox denies giving an option on his club, although he admits that a New Jersey lawyer was to see him, and that he placed a price of \$1.250,000 on the club.

Ban Johnson characterized the story as "pure bunk," yet the syndicate claims to have the indorsation of the American League, wired as follows: "Absolutely no possibility of Red Sox moving to Toronto or of even considering such a proposition. Statement unworthy of comment."

Under baseball procedure it will be necessary for the 16 clubs of the American and National Leagues to sanction the transfer from Boston to Toronto. The whole proposition is now in concrete form, according to the local men.

Lol Solman in the Dark.

Owner Lol Solman of the Toronto Ball Club last night called Edward G. Barrow of the New York Americans, who is representing Harry Frazee, president of the Boston club, at the National Association convention at Louisville on the telephone. Barrow ridiculed the idea that a Toronto company had secured an option on the President Frazee was then communicated with a Boston and he assured

Ottawa, Dec. 7.-Regarding the recent Canadian rugby championship games at Kingston, the Journal sport editor says: sport editor says:
Eskimos have come and gone and have left the only unpleasant incident of a high-class season in their wake. The Eskimos were apparently a very mediocre team who had no business in the east at all. Charges against Queens regarding the invitation to the banquet and their reception at the station were no doubt heavily overdrawn to cover up their mediocrity in football and give them something to talk about give them something to talk about when they got back to the prairies. Queens have officially maintained a very dignified silence over the whole affairs. They can let their case stand in the hands of discerning eastern sportsmen. Their record of sportsmanlike conduct needs no extended explanation.

make up its deficit for the rugby season.

The show has been rehearsing under Physical Instructor Blake for several weeks now, and those privilege in seeing the rehearsals have put their enthusiastic stamp on the production. It's a revue with many clever and unexpected turns, and Mr. Blake, who has had some years of stage experience, has no doubt, but that the show will go over big.

Although the show stands on its own feet, the object for which it is being staged must not be overlooked. Central C. I. started out under far from favorable auspices in rugby this year and ended the season in a blaze of glory by giving Sarnla one of their hardest games. Moreover, the success of rugby in the school was marked by five teams, actively playing when the season closed, where never more than one had bloomed and mostly bloomered before.

Begiate team to Toronto tomorrow morning.

The local school has had but two good gates at home this year, one with St. Thomas, and again last Saturday with U. T. S. Between the two, however, was a return trip to St. Thomas, a contribution to the London C. I. to bring them here, and the trip to London where they eliminated St. Jeromes Collegiate.

Last Saturday's record gate was barely sufficient to pay the U. T. S. guarantee, the officials and the routine expenses of the game. Hence on the eve of their most important game the students find the treasury several hundred dollars shy of the necessary funds to pay the railway fare.

### ST. PATS BEAT SEATTLE METS IN SCORING BEE

Seattle, Wash. Dec. 7.—Scoring the second victory of their strenuous western tour, the world's champions, St. Patricks of Toronto, defeated the Seattle Metropolitans, present leaders of the Pacific Coast League, here last night in a heavy scoring bee, in which the visitors came out on the long end of a 7 to 6 score. The game was a battle royal from the first face-off, from which Riley skated into Toronto territory and scored within the first 17 seconds. Riley was the biggest stumbling block in the way of the visitors.

It was "Babe" Dye who got the fans to their feet, however. His stick-handling and accurate shooting gave his team an edge all the way, and he equalled Riley's record of three scores before the final gong. Harmon also starred for the visitors.

And Patterns For Frocks Are Popular As Famous Stocking-Foot.

"One, two, three, four, six, ten

The Fashion Forecast pattern de partment editor lost count when Postie dumped the morning avalanche of mail on her desk. She sighed a big sigh which mingled pride and a touch of weariness as she gave voice to wonder how she was to get all that correspondence attended to before the next inevitable batch ar-

She looked away across and noted the touch of envy in the expression of Cynthia Grey. She was a proud woman in a moment. She had just as big a pile of letters as the ever-bulging and unfailingly hospitable Mail-Box.

And thereby hangs a tale, the tale of a healthy rivalry which has been awakened between the Fashion Queen and everybody's friend, the gracious Princess Cynthia.

Princess Cynthia.
"One, two, three, four, five," counted the Pattern Department lady.
"This correspondent has sent in for five different patterns all at once."
"Is that unusual?" was the natural question under the circumstances.
"Sometimes such a number of or-

"Sometimes such a number of orders arrive all together," replied the Pattern Lady. "I wonder if the request for them has come from someone setting up a dressmaking establishment. Orders for two and three patterns at once are a daily occur-

Big Show for Work. "Which patterns are the most popular? Well, the one-piece dresses, which are simple to make and have so much to show for the effort, seem to appeal very strongly to women and girls who make clothes for themselves. Every time a particularly interesting fashion picture appears we get a flood of pattern orders. Sometimes, though, there are big runs on certain patterns. Remember an at tractive apron shown a week ago with description stating it could be made up for 50 cents?

"Orders for that came along until it got to be a joke. The same was true of a close-fitting under-waist pattern. I think every woman reader inclined to be plump must have ordered that.

"After those 'cute toys that cost so little' shown today the deluge of inquiries will start about tomorrow. Everybody who has small children friends and relatives will be wanting to make up the rag toys, 'Weeny Willie,' 'Weeny Puppy Dog' and 'Jimmy Boy.' When patterns along ne line were illustrated recently they proved tremendously popular.
Big Cities Pay Tribute.

"You would be surprised at the number or orders for patterns which comes from the large cities where every opportunity is afforded of seeing the newest styles. That's a tribute to the fact our styles are the very last word in smartness and last word in smartness and good taste. Orders come in all the time from such cities as Toronto, and our 'counter business' is one of our big features. It seems a very large number of women and girls in London make clothes for themselves, and make clothes for themselves, and when such a picture appears as that of pyjamas for little tots, why, my are full looking after the requests of young mothers for patterns

"I wonder if a number of readers are making Fashion's Forecast scrap books, or using the more modern filing system of keeping the illustra-tions?

"Again and again I receive orders weeks and months after a pattern illustration has appeared. "One of the things I like best about it all is the fact so many repeat oriers come in. A woman has received

At this point a voice echoes down the centuries to us. We see a group of dismayed Persians standing about the Great King upon the bank of the streaming river; we see the masses of halted troops, hungry and war-worn; a trail of battered transport stretches away toward the horizon, apon which at any time the advan guards of the pursuers may appear. There is not much noise in spite of the multitude, but rather an inquir-ing silence. The diary talks how the son of

PEYTON MARSHALL stole his father's will because he believed his father at his death had been strangely influenced by the Englishman

IR. LEWIS, were suspicious of Gosford. The son admits he took the will and surrenders it to the executors, who are gathered in the plantation library with Gosford and the old doctor, JAEKI.

Go On With the Stery.

My ftaher and Lewis gaped like men who see a penned-in beast slip out through an unimagined passage. There was silence. Then suddenly, in the strained stillness of the room, old Doctor Gaeki laughed. Gosford lifted his long pink face, with its cropped beard bringing out the ugly mouth.

CHAPTER III.

South set up a separate government. He hoped this might come about without a war. He was in horror of a war. He had traveled; he had seen nations and read their history, and he knew what they were talking when they urged war."

He paused and looked at Gosford.

"My father was convinced that the

that if this new government were immediately recognized by Great Britain, the North would accept the inevitable and there would be no bloodshed. My father went to Eng-land with this scheme. He met Mr. Gosford somewhere—on the ship, I think. And Mr. Gosford succeeded convincing my father that if he had a sum of money he could win over certain powerful persons in the English government, and so pave the way to an immediate recognition Southern Republic by Great He followed my father ome and hung about him, and so finally got his will. My father stopped by the table and lifted his great shoulders.
"And so," he said, "Peyton Marshall imagined a plan like that, and left its execution to a Mr. Gosford!" The Englishman put down his pen and addressed my father.

"I would advise you, sir, to require a little proof for your conclusions. This is a very pretty story, but it is prefaced by an admission of no evidence, and it comes as a spe-cial pleading for a criminal act. Now, sir, if I chose, iff the bequest re-quired it, I could give a further exgain. Scouts, perhaps, these were, t would seem there had been a discussion between the Scythians and the Greeks. But Prickly Porky did nothing of the kind. He rather liked the taste of that bark and he went right on eating, with not so much as a glance at Paddy. Paddy became impatient. He was in a hurry. "If you will move aside, Prickly Porky, I'll be ver much obliged," said Paddy politely. Prickly Porky simply grunted and went right on eating. "You are sitting right where I haul

my logs over," explained Paddy. "If you will move just a little I won't bother you any more."

"I don't want to move," grunted Paickly Poyler.

Prickly Porky. "But you are stopping my work," aid Paddy. "Mrs. Paddy and I have a lot of logs we must get down into our food pile tonight, and this is the only place where we can get them over the dam without a great deal of unnecessary work."

Prickly Porky simply turned his back to Paddy and went right on eating as if that was the only thing of

importance in all the great world. When he turned his back that way Paddy looked right up at the thousand little spears peeping out from Prickly Porky's coat, and they gave him a most uncomfortable feeling said some sharp things. Chicago, Dec. S.—Although unexpected declines in Liverpool quotations led to a down turn here in the wheat market today at the outset, a rally soon took place. Failure of Argentine prices, as well as those of Liverpool, to respond to yesterday's reports of harvest delay and crop damage in Argentina, was more than traders here were prepared for. Gossip, however, that the president would address congress and might urge farm relief legislation, helped to renew bullish sentiment. The opening, which ranged from 1/2c to 1/3c lower, was followed by an interval of hesitancy and then by gains all around.

Corn and oats paralleled the action of wheat. After opening 1/3c to 1/3c lower, the corn market scored slight gains.

A concession has been granted by the Peruvian government to Mr. R. W. Dunsmuir, formerly of British Columbia, for the construction of a network of railways and port and harbor works, and their operation for a period of 45 years, and its final adoption only awaits the formal ratification by the Senate. REAWAKENING OF CUBA.

Writing from Havana, Canadian Government Trade Commissioner G. R. Stevens points out that there are few markets in the world where foodstuffs sales on ordinary terms are any safer than they are in Cuba, and states that the matter of regret that Canadian it is a matter of regret that Canadian exporters have not realized this fact, but have chosen to drop the Cuban market entirely. The foodstuffs trade is a staple trade in which any price increase is automatically communicated to the greatest possible number of consumers; it is largely a cash trade, and a matter of distribution throughout an established clientele. Mr. Stevens states that the great houses who control a large proportion of the foodstuffs trade have pursued the even tenor of trade have pursued the even tenor their way, and they are as strong and capable for their commitments today commitments today as they have ever been.

COMMISSIONER VISITS CANADA. Mr. W. J. Egan. Canadian trade commissioner to South Africa, has now arrived in Canada with a view to undertaking a business tour throughout the Dominion. How wrong shaving brings the lines of age to men's faces

When you feel a sensation in shaving—beware. It's a danger signal. It means the roots of your beard are being irritated by pulling, and that a rough skin is on the way.

The deep lines of age, furrows and wrinkles closely follow. Any skin specialist will tell you so.

### Not vanity—but good business

This is not an appeal to vanity, but to good business. In this day, no man past 30 can afford to look older than he is. For commercially, youth, not age, is being sought. Yet leading dermatologists tell us that three men in four, etween 30 and 40, look years older than they are, because of wrong shaving methods.

Note the men you meet—anywhere. Some look old before their time. Others seem to hold the secret of youth. Ninety per cent of it is in how they shave. Scores of wealthy men have private barbers for that reason 2 years of wrong shaving will add 10 years to your looks. One conth of correct shaving will take years away. These are scientific facts, vouched for by foremost authorities

### Valet Auto-Strop Razor

### The world's fastest shave

To shave right, you must shave quick. Once over the face, no oftener.

So we've processed a barber's edge blade—the keenest known—to help men do it.

We talk about it in terms of time, "78 Seconds from Lather to Towel," because you can't shave quick with a dull blade.

### Sharpens Itself

We recommend your using our famous strop for the same reason a barber strops his razor. It keeps up the keenness. It works as a part of each razor-there if you care to use it, or, if you choose, you can just insert new blades as you feel the need. Self-stropping is a patented Valet AutoStrop feature. It helps to give you the world's fastest shave every day.

Try one. It will prove a revelation.

Firpo will be in this country before long, and will meet several of the good class men. Brennan and Floyd Johnson have been named as his opponents, but first Firpo expressed a desire to go against Charley Weinert, whom he avoided when he was last here. It might be a good idea to try the South American out against Charley. The Newark Adonis is by no menas the man he used to be, but he still retains sufficient cleverness to give Firpo a real test. Jeff Smith, the Bayonne middleweight, Jeff Smith, the Bayonne middleweight, has recovered his health, and will shortly fight Bob Roper. No puglist is more active than Jeff, who travels all over the country, taking them as they come. Jeff is a family man of standing in his home town, and he works at his profession of puglism just as a mechanic might work at his trade. "It's all for the wife and kiddies," says Jeff. Recipients of Gifts On Eve of Departure For Paris,

Special to The Advertiser.

Hepworth, Dec. 7.—Mr. and Mrs.
B. Smith and son George were the recipients of gifts, accompanied by a complimentary address, when a large number of friends and neighbors assembled at their home in Amabel Township Monday night prior to their leaving to reside in Paris, France.

Mrs. Smith was presented with a handsome club bag, Mr. Smith a shaving set, and their son George a fountain pen.

Although taken completely by surprise, Mr. and Mrs. Smith made an appropriate reply, thanking their friends for the kindness shown them on the eve of their departure for their new home.

Lunch was served, and the evening was spent in games and music.
