AN OLD BOY SAYS-"One of the Delights of the New Century

is in the use of ODONTINE, a fragrant, captivating dentifrice for the teeth and gums." ODONTINE (C. & L.) refreshes the mouth, stimulates the gums and makes the teeth pearly white and beautiful. How every crevice and cranny about the pinky gums revels in this bit of aestheticism! Gay little ripples of laughter are freighted with a violetladen sweetness that is truly the very acme of feminine refinement, a gossipy confidence breathes in every word uttered, a tribute to this pleasant mode of adding one more charm to woman's makeup. From Ocean to Ocean. Sir Wilfrid Laurier yesterday delivered the long-looked-for exposition of the Government's railroad policy. The occasion was one which called for a great parliamentary effort. The Government is launching a stupendous project, a great national undertaking, which the patrictic imagination. The Premier felt the inspiration of the theme, and made one of the speeches of "The flood-tide is upon us," "that leads to fortune." In this he voiced the optimism which pervades and which calls for energetic measures to cope with the great are sweeping over the west, and to turn them to the fullest national advantage. A new transcontinental railway, every inch of it on Canadian soil, he held to be a political and commercial necessity. Sir Wilfrid citing Andrew Carnegie's letter to the Times, in which he suggested that the United States would cancel the bonding privilege, if Canada entered into a commercial alliance with the mother country. An all-Canadian line from the Atlantic to the Pacific giving access to Canadian ports, winter and summer, would render the bonding system of far less consequence than at present

The particulars of the contract as revealed by Sir Wilfrid Laurier do not essentials from the newspaper forecasts. The section between Winnipeg and Moncton will be built with public money, and leased to the Grand Trunk Pacific for 50 years. For the first seven years the company will pay nothing; for the remainder of the \$50,000,000, the interest on which for seven years at 3 per cent would be \$19,-500,000. Dr. Buckley's Retort. [New York Mail and Express.] Here is the latest tale going the ounds as to Dr. Buckley, the famous Methodist editor, orator and wit. Dr. Buckley was a speaker at the recent alumni luncheon at Weslevan. Without changing his pitch, Dr. Buckley retorted: That young gentleman will be able ed him. distinctly if he will only use the full length of his ears."

A characteristic remark of Mr. Choate was made about Lord Aberdeen at a dinner in New York, where the then Governor-General of Canada was the principal guest, appearing in kilts, in honor of his Scotch entertainers. the market here this morning consisted almost exclusively of hay and oats. Mr. S. Bourne, of Nissouri township, had a sheaf of oats on the market, which the local buyers agree it would be hard to beat, and if it is taken as a sample of the present oat crop, there will be a large yield, and the quality the very best. Hay was well represented, there being about 30 loads on the stand. There was slow demand at \$5 to \$7 50 per ton. Several loads of oats were offered, selling at 90c to 93c per cwt. There was very slight, if any, change this morning in the condition of J. W. Brown, the marine engineer, of Sheboygan, Mich., who attempted suicide by jumping headlong from a balcony at the Dominion House. Brown is still unconscious, and the attending physician is of the opinion that his chances of recovery are very little. There is a partial discoloration of the neck. To prevent the injured man moving it was necessary to place his head and neck in splints. The full extent of Brown's injuries has not been determined.

Mr. John Cox, the proprietor of the Dominion House, has succeeded in lo-cating Brown's wife at Sheboygan, and informing her by telegraph of her husband's attempt at suicide. Mrs. Brown replied, inquiring about his condition, and stating that it would be impossible for her to come to London at present.
