# THE WEEKLY ONTARIO

## AND BAY OF QUINTE CHRONICLE

ESTABLISHED 1841

BELLEVILLE, ONTARIO, THURSDAY, JUNE 27, 1918.

MORTON & HERTY, Proprietors

### Von Kuehlmann's Speech Creates Feeling of Gloom in Germany

#### Reference to Prolongation of the War and Admission That Germany Cannot Win by Military Decision Cause Bitter Disappointment—Italians Took 3,000 More Prisoners Yesterday—Americans Carry Out Brilliant Raid—German Cities and Towns Bombed by Airplanes—Kerensky Arrives in England.

#### NO CHANGE IN U. S. DRAFT AGE

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
WASHINGTON, June 26.—In spite of recommendations of Secretary of War Baker and General March, Chief of Staff, there will probably be no change in draft age limits. The Senate Military Committee today decided against any such change.

#### ENEMY ACTIVITY IN ATLANTIC

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
WASHINGTON, June 26.—Following reports of German raiders in the Atlantic, all shipping operating between Cape Race and Bermuda, has been warned of enemy activity by the Navy Department.

#### TODAY'S CANADIAN CASUALTIES

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
OTTAWA, June 26.—Eighty-six Canadian casualties reported today, of whom thirteen were killed in action, seven died of wounds, others gassed, ill, etc.

#### PETERBORO' NURSE VICTIM OF AIRPLANE ACCIDENT

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
WASHINGTON, June 26.—The name of Nurse Marion L. Overend, Peterboro', is included in the American Army casualties list today, as having died of an airplane accident.

#### VON KUEHLMANN'S ADDRESS CREATES GLOOM

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
AMSTERDAM, June 26.—There was an utter absence of enthusiasm in the Reichstag debate says a Berlin despatch to The Handelsblad. Foreign Secretary, Von Kuehlmann had hardly begun to speak when it became so dark in the house that the deputies could hardly be distinguished from the press gallery. This atmosphere of gloom, it is added, was symptomatic of the entire speech and its reception, especially the foreign secretary's reference to the prolongation of war. Chancellor Von Hertling and Vice-Chancellor Von Payer sat on either side of the foreign secretary.

#### BIG BRITISH AIR RAID ON GERMAN CITIES

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
LONDON, June 26.—German cities and towns on the eastern side of the Rhine have been subjected to raids by British aerial squadrons, according to a statement on aerial operations issued today. Many direct hits were observed at Karlsruhe and at Offenburg and also on the barracks there. At Karlsruhe two direct hits were observed on the engine sheds and on Metallurgique works where a large explosion was caused. Three of our machines are missing. One of them is known to have been forced to land inside enemy lines.

#### VON SEYDLER TO FORM A NEW CABINET

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
LONDON, June 26.—Baron Von Seydler, Austrian Premier, announced on Monday that he had declined the invitation of Emperor Charles to constitute a new cabinet.

#### KERENSKY ARRIVES IN LONDON

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
LONDON, June 26.—Alexander Kerensky, former Provisional Premier of Russia, has arrived in London.

#### BRITISH CAPTURE PRISONERS IN RAIDS

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
LONDON, June 26.—German prisoners and machine guns were taken by the British last night on the Picardy and Flanders battlefields. On these two fronts enemy artillery fire was active. The statement reads:—"We captured prisoners and machine guns last night in raids and patrol encounters in the neighborhood of Sully-le Sec, Picardy and west of Merville, Flanders. Hostile artillery has been active in neighborhood of Ville Sur Ancre and Commeourt and on Bailleul-Pazebrouck sector.

#### REVOLUTION SPREADS IN THE UKRAINE

(Morning Despatches from Canadian Press Ltd.)  
MOSCOW, June 26.—The revolutionary movement in Ukraine is steadily growing. Strikes are taking place in many towns. Organized bands are destroying German detachments engaged in distributing food.

#### AMERICANS CARRY OUT BRILLIANT RAID

(Morning Despatches from Canadian Press Ltd.)  
PARIS, June 26.—American troops carried out a brilliant raid near Belleau Wood last night, capturing 150 prisoners, one of whom was a Captain. The French carried out a number of raids during the night, the statement adds, in the regions of Mailly Raineval in the Somme sector, Melcq, west of the Oise, Vinly, north of the Clignon River and northwest of Chaize Thierry and at Mont Garnillet, east of Rheims, capturing prisoners and machine guns.

#### AMERICANS WILL SOON BE IN ITALY

(Morning Despatches from Canadian Press Ltd.)  
ROME, June 26.—American troops will be in Italy, probably in July, according to a notification given the Italian authorities.

#### FIRE DISASTER AT KIEV

(Morning Despatches from Canadian Press Ltd.)  
MOSCOW, June 26.—Five square miles of the City of Kiev were destroyed by fire. The arsenal at Odessa has been blown up.

#### DIPLOMACY NOT ARMIES TO WIN FOR GERMANY

(Morning Despatches from Canadian Press Ltd.)  
AMSTERDAM, June 26.—The German Foreign Minister, in his speech yesterday said,—"In view of the magnitude of this war and the number of powers in action, the end can hardly be expected through a military decision, but must come through diplomatic negotiations."

#### ITALIANS GATHERED 3,000 MORE YESTERDAY

(Morning Despatches from Canadian Press Ltd.)  
ROME, June 26.—The Italians took three thousand more prisoners yesterday on the Piave and the mountain front.

#### LAST AUSTRIAN REARGUARD IS COMPELLED TO SURRENDER

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
ROME, June 26.—Italian troops yesterday forced the last rear guard of the retreating Austrians to surrender and completely reoccupied the west bank of the Piave, the war office announced today. On the mountain front between the Piave and the Brenta, in the Monte Grappa sector, the Italians vigorously attacked the Austrians, inflicted heavy losses upon the enemy and gaining considerable ground. Nearly 3,000 prisoners were taken by the Italians on the Piave and mountain front yesterday.

#### MILLION AMERICANS AT FRONT AND A MILLION AT HOME TRAINING

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
WASHINGTON, June 25.—The first division of the American army landed in France one year ago tomorrow. In the twelve months that have since elapsed this division has grown to an army in size, and by July a million men all told will have been sent forward. Behind this million another million men are in camps and cantonments, equipped and eager to move, and behind these a third million will rapidly fill up the gaps left at home as the divisions sail for the front in an endless stream.

Secretary Baker estimated today that between 65 and 70 per cent. of the men already shipped are combatant troops in the strictest sense of the word. The first division has now been expanded to a fighting force of 650,000 men, backed by an organization of the supply and transport lines that it takes 250,000 men to make effective. American troops are now holding sectors of varying lengths in at least six places on the battle line. The real American sectors, however, lie on the right flank of the great battle front.

#### EX-CZAR BELIEVED KILLED.

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.)  
COPENHAGEN, June 25.—Russian red guards have broken into the residence of Nicholas Romanoff, the former Russian Emperor, at Brest-Litovsk, and murdered him, according to the Russian newspaper, Vija, says a Stockholm despatch to The National Tidende.

### R. B. Bennett Attacks Govt's New Draft Rule

#### NO RIGHT TO ORDER MEN INTO SERVICE AFTER ONCE EXEMPTED

#### SEEKS FARMER'S RELEASE

Validity of Order-in-Council Made  
Of Doing Business Due for  
TEST

Calgary, Alta., June 26.—R. B. Bennett, formerly director-general of national service and member of Parliament for Calgary, introduced a sensational case in the appellate division of the supreme court the other day, when he applied with the necessary court documents for the release from military service of Earl Lewis, a farmer, contending that as this young man previously had been exempted by military tribunal the authorities had no further right to force him into service.

Mr. Bennett argued for habeas corpus.

Judge John Carson appeared for the military department. He said that from 30,000 to 40,000 young men drafted for military service would be affected by the ruling of the court in this case.

The case is based upon the question of exemption, but it is understood that the whole question of right to order men into service by order-in-Council, contrary to selective draft, as imposed by Parliament, will be taken up.

The court ruled that the case be continued. Major Carson is communicating with Ottawa and will appear Friday morning.

### Trouble Over Burial Plot

#### Interesting Ameliasburgh Township Case in County Court.

In the county court before His Honor Judge Deroche an extremely interesting case was tried in which the plaintiff is Mr. William John Hubbs, farmer of Ameliasburgh township and the defendant, Sarah H. Black, Messrs Porter and Butler were solicitors for the plaintiff and Messrs E. B. Fraeek and A. Abbott for defendant.

The plaintiff claims he is the owner of a cemetery lot No. 55 in the burying ground known as Peck's Cemetery on the front of Ameliasburgh. He claims that on Dec. 7th 1917, the defendant entered upon this property of his and had a grave dug in which was interred the body of her late husband, Henry Black, although Hubbs claims he had forbidden this. He claims that he had repeatedly requested Mrs. Black to remove the body but that she refused to do so. The plaintiff therefore claimed \$100 damages for trespass and injury to the land; asked for an order directing the removal of the remains, of the late Mr. Black and an injunction to prevent the defendant from further trespass.

The statement of defence was that the plaintiff was not the owner of the lot and never was nor even had an interest therein that the said lot was purchased by William Babcock and George Babcock, who were the joint owners of it for the purpose of family burial. William Babcock agreeing to use the easterly part for his family use and his brother the westerly portion; that in 1904 William Babcock gave the defendant the right to a place in the lot, for the purpose of burial of herself and husband; that with the consent of Mr. Babcock she had a monument erected at the place designated by Mr. Babcock.

Plaintiff contended that any claim defendant might have had, which he did not admit, was released by deed of release by Henry Babcock, dated Jan. 18, 1912.

Mrs. Black had lived with her brother William Babcock for 22 years, 17 years until he rented his land when he came and lived with her for 5 years, when he was killed as a result of a runaway accident. Mr. Black, her husband, died Dec. 8, 1917 and was buried in the plot by the monument. Mrs. Black contended that Hubbs was present attending the funeral and made no protest nor objection; then after the

funeral people had left, Mr. F. Peck told her that Hubbs went to him and told him not to dig any more graves, that Mrs. Black had to take her husband up; then twenty-three days after Mr. Black's death, Mr. Hubbs came to see Mrs. Black and said: "Aunt Sarah, you have got to take Uncle Henry up or give me \$200 in cash," to which she says she replied: "I will not neither one, for Uncle William Babcock gave me the plot." The remains of Mr. Hubbs' father, who was a brother-in-law of Mrs. Black, were buried in the same plot as Hubbs' mother, was Mrs. Black's youngest sister.

George Babcock, brother of the late William Babcock, stated that he and his brother William worked the farm for years together, which their father had willed them. In the spring of 1877 they bought a burial plot in Peck's Cemetery, each paying half. George attended Mr. Black's funeral and paid for digging and filling the grave and claimed that Hubbs, who was present, made no objection to the burial of Mr. Black's body.

Judge Deroche reserved judgment in the case.

## RITCHIE'S

### Specialy Reduced Items For Quick Month End Selling

<h4>Reduced Prices On Silk Suits</h4> <p style="font-size: small;">15 only new and stylish Silk Suits in Tulle and Poplins to clear out quickly this week. They are princely well made in the shades and reduced as follows: \$45 &amp; \$50 Suits now \$33.50 \$55 &amp; \$55 Suits now \$38.00 \$1.00 Suits now \$1.75</p>	<h4>Odd Lines Of Discontinued Corsets \$1.49</h4> <p style="font-size: small;">Reg. \$1.75 to \$3.25</p> <p style="font-size: x-small;">Good dependable and stylish Corsets, 15 mod- els that have been discon- tinued by the Mack, E. B. &amp; C. Co. and Company, all made of the finest quality &amp; regular \$1.75 to \$3.25 Cor- sets reduced to \$1.49</p>

### Three Attractive Hosiery Specials

Black or White Cotton, Hose with  
double heel and toe, extra special at

#### 25c pair

"Radium" Lisle Hose in White or  
Black, an extra value at 35c pr.

#### 3 pairs for \$1.00

"Radium" Silk Hose in shades of  
Black, White, Pearl and grey, purple,  
champagne, navy and brown, special at

#### \$1.25 pair

#### Sale Of Sample Wash Dresses

The entire sample range of  
one of Canada's leading Dress  
Houses is placed on sale this  
week—these remarkably at-  
tractive prices, reg. \$10 dresses  
for \$5, reg. \$12.50 dresses  
for \$10, reg. \$16 dresses for  
\$11.75, reg. \$17.50 dresses at  
\$13.50, reg. \$25 dresses at  
\$19.50

#### Ladies' Cotton Drawers 50c

A special value, made of  
strong quality cotton and  
prettily trimmed with lace  
and embroidery—worth  
much more at today's prices,  
but to clear this week  
at 50c

### All Colored Millinery Half Price

Every new Colored Trimmed Hat in our Millinery show-  
rooms has now been reduced to Exactly Half its former price.  
There are still many "chic" and becoming models which will  
be included in this radical reduction, so save just Half on a sty-  
lish hat by taking advantage of this timely sale. Regular \$4.00  
to \$10.00 Colored Hats are now on sale from \$2.00 to \$3.00

THURSDAY, JUNE 27, 1918.

**LET US HAVE THE TRUTH.**

The officers and men now on active service overseas should be the ones to determine whether or not the Y.M.C.A. is of real value to the soldiers at the front. If the men who are doing the actual fighting are of the opinion that the "Y" is nothing better than a "commercial" proposition and an organized "hypocrisy," as was asserted in the famous resolution passed by the Great War Veterans' convention at Hamilton, then the sooner the "hypocrisy" is unmasked the better. The people of Canada have no money to waste on public grants to hypocrites. "Commercial" undertakings ought to stand on their own feet. If the actual fighting man does not want the Y.M.C.A. and is not benefited by the Y.M.C.A. then let us save the money that has been so freely bestowed on their overseas organization.

The grants and subscriptions have been paid, freely and ungrudgingly, because it was believed by all that the "Y" supplied a genuine want in furnishing wholesome entertainment, and a place for meeting, rest and refreshment. The most of us knew personally the character of the men who went to take charge of the work. It was represented in multitudinous letters from the front and even in many official communications that the Y.M.C.A. was an extremely important agent to maintain that all essential thing we call "morale."

Have we been deceived? Have the letters we have been receiving from the boys at the firing-line, which, unanimously spoke in glowing terms of the work of the Y.M.C.A., been fraudulent in their intent? Are the men who went from here to take charge of that work in France an aggregation of profiteers and hypocrites? Did the voyage across transform them into parasites or wolves?

We cannot think so until we have more convincing evidence than general assertions and the insinuations of two weekly newspapers of Toronto that are both notorious exponents of the whiskey interests.

Nevertheless we feel that public confidence has been so undermined by the allegations made that a full and searching investigation should be made. In that investigation the evidence of the man now actually present at the front should be the determining factor.

If there are mistakes in methods and administration, let them be remedied. If there is profiteering or hypocrisy let such conditions be pitilessly exposed.

A complete financial statement should be issued and be available to those who desire it.

A "Clergyman" who had not the courage to sign his name had the courage to indulge in two columns of criticism and insinuation in reference to the overseas Y.M.C.A. in the Toronto Saturday Night of a week ago. From a fly sheet giving a brief summary of the financial transactions of the Y.M.C.A. in its overseas activities this "clergyman" drew very elaborate and damaging deductions.

Surely the man who forms his conclusions from such insufficient data is not worthy of serious attention. His method of accounting from the totals instead of itemized statements is unconvincing. Working from behind the cowardly ambush of anonymity does not, in attacks of this nature, appeal to our sense of fairness or right.

Such a man takes upon himself a very serious responsibility by endeavoring to undermine and destroy an extensive branch of the service, while we are at the most critical phase of the war.

We scarcely think the City Council should have held up and delayed its grant, pending an investigation.

While a parliamentary committee was examining the operations of the Shells' Committee, the Canadian Government did not close down the works and discontinue to send ammunition and the other sinews of war to the men at the front.

An investigation taking abundant evidence overseas will be a very slow process and will require months to report. Besides, no in-

vestigation has yet been ordered. Should we, in the meantime, express a tacit belief in the stories originating within the whiskey ring in Toronto by withholding supplies?

Should we, in this way, show that we condemn, without trial, the men who won our confidence and respect before they went overseas?

**GETTING TO KNOW FOLKS.**

Don't form any estimate of a man from what other people say of him. Someone should put that thought into a maxim that would live and have it written at the top of the copy books. Every day those who are mixing with their fellow-men have occasion to revise or edit the opinions they have formed of people they knew casually or did not know at all. The rule cuts both ways. Some people who are held in high favor upon slight acquaintance show their feet of clay when close examination is directed upon them, while others seem to be very ordinary, or even mean-spirited people, until the acid test reveals the true gold of their inner natures.

It is scarcely safe to estimate a man from a personal standpoint until one has had opportunity of looking into their hearts. The face may be, almost always, a mask. The scowling person who appears to be sore and sour on the world often proves himself the most genial soul, and your bland, smiling person may be merely a servile and crafty sycophant. Then again he may not be. The thing to do, if you would know people, is to know them when they are off their guard. The French plan of the after-dinner exchange of ideas is a soul searcher. Men often turn to the cheering cup (in vino veritas) because they would know their fellows better, would have them stripped down to the skins of their real selves and read from their impulses, good and bad, the inspirations and the ideals, the base and lofty motives, they are custodians of. People are quickly classified into "good sports" and "poor sports" when the test of shipwreck or lifewreck or sticking to friends is put up to them. The great world outside a man knows little of him. Only the few who have come within the radius of his being, who have glimpsed his inner self, have seen the struggles and the human failures of their own and most lives, who have seen his little mark set upon the world in some small grain-of-sand act, who have got under the harshness or seen the weakness lashed up to face the road rather than to run wanton through the bogs and rock fields, only these could appear as the character witnesses when the man is elected to stand on trial.

These thoughts come drifting along as one returns from an informal gathering where men were discussing their fellowmen and things. Almost all of them had a "knock" for someone who was mentioned in the banter and crossfire. "George was a piker," and "Bill was a tightwad," and "Tom was going to be fired if he didn't look out," and "So-and-So never got within fifty miles of the front." Probably the gossipers would have fared about the same had conditions been reversed, had they been absent, and had the gossiped-about been present. But it was so wholly wrong to pick the petty, mean, easiest, spiritless thing to say about men. All of them were men who in the last analysis would size up to the average as to ability, honesty, gameness and cleanness. But old Inhuman Nature was there with the sledge. Of course the sledge was covered with velvet, aid it landed softly, but none of the men who were hit by it were ever quite as high in the estimation of the other fellow after the blow landed. A knock does hurt! Get behind someone who happens to be discussing YOU sometime and what they say, unless they be members of the tried-and-true, will take more spirit out of you than a month of real accomplishment could ever put into you.

Some men and women are the special targets for the cruel and unjust things that are said. The hatchet throwers will get busy on an individual or a family and they will pass the word and hold a chopping bee, and keep it up until reputation and ability and character are so much kindling wood.

A new man comes along. He has to be passed around. Can anyone get anything on him? If you cannot hand him a good wallop, then be very slow to take him up! He might bite you, or cause you to be moved from the grand canyon of a rut you have been moving in. Quite often the new man sees the communal tendencies and he moves on. Quite often the native son goes where the sign of the pan hangs not on the doorway.

Lenine wants to resign. No wonder. Unless he gets out soon, the assassins will be sure to get him even if the resentful Russian people don't.

Food was the chief Austrian objective of the recent offensive movement. The offer has broken down, and the objective is as far away as ever.

**Other Editor's Opinions**

**MINING IN EASTERN ONTARIO**

Ontario is a producer of many minerals. The Sudbury nickel-copper mines, Cobalt silver mines and Porcupine gold mines include some of the world's most notable metal mines. In this number we draw attention to a part of the province that receives less notice from mining men, but which includes many important mineral deposits.

The most recently developed industry is that of fluorapatite mining at Madoc, in Hastings County. The growing consumption in the United States some time ago created a scarcity of fluorapatite in Canada. In the expectation that supplies from the United States would perhaps be entirely cut off, it was thought very advisable to develop domestic deposits. The price rose so rapidly that there was reason to expect that some of the Madoc properties might be profitably developed. Exploration during 1917 met with satisfactory results and some good deposits are being opened up.

Madoc is in the centre of a prosperous farming community. It has for some time been noted also as a safe producing centre. The Henderson mine at Madoc has been a steady producer for years. The deposit is an exceptionally good one.

Eastern Ontario is today an important producer of talc, graphite, feldspar, pyrite, mica, lead, fluor spar, and molybdenite. The Black Donald graphite mine near Calabogie, in Renfrew County, is a large producer. The feldspar mine near Verona in Frontenac County, operated by Feldspars, Ltd., is reputed the best in America. The Lacey mine, near Sydenham, is said to be the largest mica mine on the continent. Excellent pyrite is produced near Queensboro and at Sulphite, in Hastings County.

While overshadowed by that of Northern Ontario, the mineral production of Eastern Ontario is considerable. Many of the minerals are very necessary in the manufacture of munitions and it may be expected that activity during 1918 will be marked. Shortage of labor will, of course, prevent the obtaining of desired production, but a good record will doubtless be made. —The Canadian Mining Journal.

**DISEASES FROM OCCUPATIONS**

The subject of occupational diseases is interesting and important as well as full of surprises. Housemaid's knee, for instance, which for many years has served as a subject for humorous comment, proves to be a frequent malady of miners. The statistician abroad, in this and other lands and he brings the information that trades carried on in the presence of much dust show a high death rate from diseases of the lungs. Then comes the biologist who explains that dust is not only minute particles but that the particles are usually surrounded by a watery envelope and that clinging to this filament there may be micro-organisms.

The medical authorities abroad declare that soot is a serious irritant and that chimney sweeps are especially subject to cancer because of it. Sawing certain kinds of wood has been found to produce irritation of the mucous membrane of the nose, throat and eyes. The makers of white lead have looked lead-poisoning square in the face and have found means to avoid it. Dr. Patterson of Philadelphia, devised an entirely reasonable but somewhat unexpected treatment for it. He immerses the patient's hands in one pint of salt water and his feet in another, and then a pole of an electric battery is put into each of the tubs. The current is turned on, using Mr. Patient as a conductor, and it carries the lead it finds on the way out of him, through the salt solution, depositing it upon the electrodes. This procedure has proved successful.

Fatigue is another subject that has been studied and reported on. Strain is declared to be more exhausting than work, and monotony of employment aggravates exhaustion. Fatigue seems to be a condition of the body in which the waste products of work are not carried off fast enough. In physiological laboratories, animals have been fatigued by over-driving and then some of their blood has been injected into the veins of healthy animals. The healthy animals straightway showed the same symptoms of fatigue as those that had been over-worked.

In rubber factories and elsewhere when bisulphate of carbon is used, great care must be taken to avoid contamination of the air by its offensive fumes. Otherwise nervous troubles are likely to follow. There is a baker's itch, grocer's

itch and sugar-refiner's itch, all manifestations of eczema, according to the materials handled. —Scientific American.

**Daring Robbery at Oshawa**

The robbery of J. C. McGill's store Oshawa, on Monday night of this week, was one of the most daring that has been carried out in this town for a number of years, and the guilty parties, whoever they are, were surely no amateurs at the job. They gained entrance through a back window and from the amount of goods missing, they must have used a dray to carry it away. It is estimated that 20 to 30 suits, a pile of overalls, a considerable number of ties, a number of pairs of braces and karters, Panama, fedora and straight cut hats, men's belts, underwear, raincoats, etc., believed to total in the neighborhood of \$1,000, were stolen, enough almost to start a store of considerable size. The police department has issued dodgers enumerating the missing articles and warning all and sundry to beware of purchasing any of the same. If it is hardly thought possible that the robbery was committed by local people, no doubtless the parties who appropriated the goods had in mind selling them or they would not have been likely to take such large quantities.

The bargain tables and suit racks had just been replenished Monday evening and the visitors almost cleaned them out entirely. The goods were all marked in such a way that the proprietor of the store and his staff could easily recognize them. So that it will not be healthy for the guilty parties if any of them are sold in Oshawa nor for any one who purchases them knowing them to be stolen goods.

**Make Profits Out-of-Fish Sold by Govt.**

Toronto, June 25.—Fish dealers in some border counties have found a veritable gold mine in carrying on their business since the Government assumed control of a large share of the fish sales. By buying the government article at a low price and delivering it on the American side, a large profit, in some instances of 100 per cent., is reaped. Two Windsor fish dealers are known to have no difficulty in buying the fish being brought from the seaboard by the Dominion fish board. In the last few days one of the dealers at least has been buying mackerel, which is retailing in Canada at 12 1/2 cents a pound, delivering it in Detroit and clearing a tidy sum.

**BURBS**

Mr. and Mrs. Bride Hough and Master Clifford spent a few days last week with relatives at Holloway.

The Girls' Friendship Club met at the home of Mildred Fox on Wednesday last with a fine number present. The afternoon was spent in making pyjamas for our soldier boys. The next meeting will be at the home of Miss Irene Roblin, Jerico St.

Mr. and Mrs. Tom Hoyle, Cecil and Clare, of Hillier, spent Thursday last at Frank Burkitt's. Mr. and Mrs. Walter Nelson were in Pictou on Thursday.

Mr. and Mrs. John Tice, Wellington, visited at Walter Nelson's over Sunday.

Mr. Ewart Harnes was called again to Kingston to report for military service on Saturday last.

Pte. Clayton Carter is spending a few days at his home here from Kingston. He is wearing the khaki and brass buttons and looks fine. We all wish him a safe journey and a safe return.

Visitors at Harry Brason's on Sunday.

Mrs. Emma Ainsworth and Miss Mildred were at J. Moon's on Sunday.

Miss Alice Harston spent Sunday evening with May Hough.

Mr. and Mrs. Herb. Brason and Miss Lett were at D. B. Morden's on Sunday.

WHERE DID HE DINE IN CANADA?

It is amusing to hear each Canadian who returns these days from the States speak of how much more drastic is the way they are carrying out food conservation over there. But it would seem as if they, in turn, were using us as examples to their food slackers. Here is the latest observation of a Washington paper: "Washington hostesses are priding themselves upon their observance of the war rules for menus, but they know little as yet of what real war menus are. While the conditions in Canada are far better than those on the other side of the Atlantic they are meagre indeed as to food, compared with what we are enjoying in this country. This was brought home keenly last week by the story of an official dinner party given in one of the important cities of Canada, in honor of the secretary of Commerce, Mr. Redfield, on his recent trip. The menu consisted of a thin soup, made by barley; eggs prepared in a fancy and palatable way, with three vegetables, not including potatoes; coffee, and cheese. No bread, meat, wine, salad or dessert was served, yet it was sufficient food and accompanied as much merry talk and good fellowship as though it had been a feast.

**The Pill That Brings Relief**—When, after one has partaken of a meal he is oppressed by feelings of fullness and pain in the stomach, he suffers from dyspepsia, which will persist if it is not dealt with. Parvate's Vegetable Pills are the very best medicine that can be taken for bringing relief. These pills are specially compounded to deal with dyspepsia, and their sterling qualities in this respect can be reached for in all regions of users.

Sam Gompers states that English Labor men were refused permission to attend the Labor convention at St. Paul at the request of the U. S. Government.

Miss Kathleen Leonard, Campbellford, spent Sunday with her aunt, Mrs. Henry Leonard.

strict attention to duty, impartiality, courtesy and proper discipline with a display of rare executive ability, which have been features of the management during Mr. and Mrs. Wilson's term of office.

"We deplore any conditions that necessitate the severing of such pleasant official and personal associations and can but feel that the county has sustained a distinct loss."

"We assure Mr. and Mrs. Wilson of our personal regard and recognition of their valued services and trust the future holds for them many happy and prosperous years, always remembering that the best wishes of the councillors follow them wherever the vicissitudes of this life may lead."

"Should further occasion require it, the county shall be only too pleased to give further recommendation."

"That a copy of this resolution be sent to Mr. and Mrs. Wilson." Carried.

A special grant was made on the road between Marmora Village and Deloro, and the usual grant of \$500 to Madoc Model School.

The county, in accepting the resignations of Mr. and Mrs. Wilson to take effect October 31st, will pay their salaries to January 1st, 1919.

Estimates

The estimates were adopted as follows:

Table with 2 columns: Item, Amount. Includes Administration of Justice, Roads and bridges, Warden and Council, Salaries, Committees, Goal and County Bldg., Schools, Printing and stationery, Jury Law, Interest, Snow, Wire fences, Machinery and car, Fuel and light, Gravel roads, Bridges, House of Refuge, Children's Shelter, Patriotic Fund, Miscellaneous.

Total \$214,070.30

Revenue: Administration of Justice, Ice, Licenses, Schools, Registry office, Roads and bridges, Interest, House of Refuge.

Total \$48,700.00

thereby leaving a balance to be provided for of \$165,370.30.

The Committee on Estimates recommended a rate of 9 1/2 mills on the dollar on the equalized assessment for ordinary and patriotic purposes.

This recommendation was adopted. One mill for provincial war tax will be levied. This will bring in \$17,407.40.

Dr. S. Eagleson was appointed a High School trustee for Madoc.

OBITUARY

MRS. MARY E. SAGER.

Mrs. Mary Elizabeth Sager, of St. Paul, who expired suddenly on Saturday afternoon had come to Belleville with her nephew to visit Mrs. Charles Green, James street and other friends in the city besides her sister, Mrs. Ira C. Badgley, of the fourth concession of Thurlow.

She had partaken of dinner at Mrs. Green's on Saturday and in the afternoon was walking on Bridge Street, she stopped to talk with some friends in front of Mr. C. S. Clapp's store. Suddenly she fell ill and showed signs of collapse. She was carried into Mr. Clapp's store but expired before medical aid could arrive. The body was later taken to the undertaking parlors, of Messrs Tickell and Sons' Company. The relatives in St. Paul were communicated with at once.

Mrs. Sager was the widow of the late William B. Sager and was the youngest daughter of the late Zenas Ross and was born in the fourth concession of Thurlow in 1852. She lived in that section until her marriage, when she removed to the second concession of Thurlow. Mr. Sager died 26 years ago, and some years later Mrs. Sager removed to Belleville with her daughters and took up her residence on John street. Eleven years ago she removed to St. Paul to reside with her daughter, Mrs. George Chase. Her other daughter, Mrs. D. W. Kahn is also a resident of St. Paul.

The daughters left yesterday for Belleville and will arrive here tonight.

The remains of Mrs. Sager will be taken to the home of Mrs. Charles Green, James street. Interment will be in Belleville Cemetery.

Mrs. Ira C. Badgley, her sister, is the last surviving member of the family.

EXECUTORS' NOTICE

Notice is hereby given that all persons having any claims against the estate of Peter Perry Clarke, Esquire, late of the City of Belleville in the County of Hastings, deceased, are required to send in such claims to Messrs. O'Flynn, Diamond & O'Flynn, Standard Bank Chambers, Belleville, with full particulars of such accounts and notes is given that after one month from the date hereof the estate will be dealt with and the accounts passed, having reference only to such accounts as the executors at that time have notice of.

Dated at Belleville this 28th day of May, A. D. 1918.

W. S. Clarke, Mrs. P. E. White, Executors.

O'Flynn, Diamond & O'Flynn, Solicitors for the Estate.

NOTICE TO CREDITORS

IN THE MATTER OF THE Estate of Thomas James Kelly late of the Township of Thurlow in the County of Hastings, Farmer, deceased.

NOTICE IS HEREBY GIVEN pursuant to the Statute in that behalf that all persons having any claim or account against the said deceased, who died on or about the 28th day of March, 1918, at the Township of Thurlow in the County of Hastings, are required on or before the 6th day of July 1918 to send or deliver to Samuel J. Kelly, Executor of the Estate of the said deceased, their names and addresses and full particulars of their claims and the nature of the security, if any, held by them.

AND TAKE NOTICE that after the 6th day of July, 1918, the executors will proceed to distribute the assets of the estate amongst the parties entitled thereto, having regard only to the claims of which they shall then have had notice, and the executors will not be liable for such assets to any persons whose claims they shall not then have had notice.

F. S. Wallbridge, Solicitor for the Executors.

DATED this 29th day of May, 1918.

MONEY

PRIVATE MONEY TO LOAN ON Mortgage on farm and city property at lowest rates of interest on terms to suit borrower.

F. S. WALLBRIDGE, Barrister, Corner Front and Bridge Sts., Belleville, over Dominion Bank.

NATION & HANCOCK

Washington is discovering numerous cases of women having married two or more U.S. soldiers to get their war insurance.

A Sure Corrective of Flatulency.—When the undigested food lies in the stomach it throws off gases causing pain and oppression in the stomach's region. The belching, or eructation of these gases is offensive and the only way to prevent them is to restore the stomach to proper action. Parolee's Vegetable Pills will do this. Simple directions on each packet and a course of them taken systematically is certain to effect a cure.

The two famous comedians, Charlie Chaplin and Harry Lauder, have collaborated in the production of a film for the benefit of the boys at the front.

Mr. and Mrs. F. G. Frost, of Trenton, Mr. and Mrs. W. C. Morrison, and Mrs. H. German were Sunday guests of Mr. and Mrs. Everett McDonald.

Mr. and Mrs. James Dellant restored to Wellington and spent Sunday with relatives there.

The many friends of Prof. Greaves of Toronto, were glad to welcome him in our midst here on Sunday.

Mrs. Addie Harshorn, of Wisconsin, U.S.A. is visiting her sister, Mrs. Margaret Young.

Mr. and Mrs. Watt and children, of Athens, Ont., are with the latter's parents, Mr. and Mrs. C. R. Spencer, for their holidays.

W. W. Miller went to Kingston on Monday for further treatment by Dr. O'Connor.

Mr. and Mrs. H. Walters and Rose, of Scholarie, visited her parents over Sunday.

Miss M. McLean was at home for the week-end.

Mrs. A. G. Noxon and baby Marion left on Monday for Elmira, Ont., to visit her parents, Mr. and Mrs. Geo. Ruppel.

The Girls' Institute met at Mrs. W. W. Ward's on Saturday and reorganized for 1918. Election of officers resulted as follows: Hon. Pres. Mrs. W. W. Ward; pres. Miss Annis Johnson; vice-pres. Miss P. E. Bedford.

BIG ISLAND

A baby boy has come to gladden the home of Mr. and Mrs. George Elmy. Congratulations.

Mr. and Mrs. Earle Partelle spent Sunday at the home of Mr. W. Peck.

Mr. and Mrs. J. M. Kerr have returned home after spending a week with friends in Hastings county.

Mr. Willie Thompson left on Wednesday for Dorcy, Sask., where he intends spending a few weeks with his father, W. E. Thompson.

Mr. and Mrs. F. Black, of Solmesville spent Sunday at the home of Mr. Charles Peck.

Willie Wannamaker spent Sunday with his parents at Demorestville.

The Red Cross Society meets this Wednesday at the home of Mrs. Jno. Kerr.

Every man and his family turned out Saturday to register.

We are sorry to report that Mrs. G. L. Morden is ill.

Last week was a very busy week on account of the people going to register.

Miss Flossie McCullough spent Sunday with Miss Nellie Meyers.

Mrs. J. Boyce is spending a few days with her sons at Kingston.

Mr. and Mrs. Frank Hall visited last Sunday with her sister at Mount Carmel.

Mr. J. Hutchison is spending a few days with his daughter, Mrs. Sophronia.

Mrs. Frank Hall called on Miss Maria Corrigan on Saturday afternoon.

Mr. Ray Church spent Sunday afternoon at Twelve O'Clock Point.

Mr. and Mrs. W. Weese spent Sunday afternoon with Mr. and Mrs. Harmon Meyers.

Mr. Reuben Weller called on Mr. and Mrs. Frank Hall Sunday evening.

GREEN POINT

On Friday we were favored with a lovely rain which was much appreciated by the farmers.

Mr. and Mrs. C. Chisholm, Mr. and Mrs. J. Chisholm and family, of Wallbridge spent Friday at Mr. J. M. Anderson's.

Mr. W. Shortt entertained company on Sunday.

Miss Bessie Scott has returned home after spending a few days with her sister near Picton.

Miss Emma Anderson spent Monday with her sister Mrs. S. Parks, of Napanee.

A number of young people from the High Shore motored to Picton on Friday evening.

Mr. and Mrs. Harold Thompson called at Mr. Ezra Anderson's on Monday night.

We are glad to report Mrs. Perry Lyons better after her recent illness.

Mr. Kent occupied the pulpit at Mt. Carmel on Sunday, owing to the absence of the minister.

Hurray for the lawn social on the parsonage lawn at Northport on Friday evening. We hope the night is warm and the weather favorable.

BLESSINGTON

Mr. and Mrs. P. McLaren spent Sunday at the home of A. W. McLaren.

Mrs. R. Miller of Madoc spent the week-end at J. Cole's.

Mr. and Mrs. F. Robinson spent Wednesday evening at E. McLaren's.

Miss Irene Clark visited at Geo. Badgley's over the week-end.

Misses Mabel Blakely and Mulholland spent Sunday afternoon the guests of friends near Napanee.

Mrs. A. Hagerman spent Saturday evening with Mrs. Geo. Badgley.

Rev. L. M. Sharpe will preach his farewell sermon on Sunday afternoon next.

Picked Up Around Town

In police court this morning the two brothers aged 15 and 13 years—who were found sleeping last week in a hack in a livery barn in West Belleville, were made wards of the Children's Aid Society. A week ago the boys pleaded guilty to charges of vagrancy. Their mother in court today admitted that they were beyond her control.

An auto marked No. 86385 was found on the roadway near Albert College.

The Conservatives of lesser West Hastings are meeting in Trenton this afternoon for the election of officers and other business.

The Belleville Civilian Rifle Club held the opening out-door rifle shoot of the season this afternoon at the range on the bay shore. This is the first occasion in two or three years that the butts have been used.

Among the list of candidates eligible for the degree of Phm. B. published today is the name of Mr. M. R. La Voie, of this city.

Mrs. Henry Bull, a former resident of Belleville died yesterday at her home in Brighton. The funeral will take place on Friday. She leaves five sons—Claude, H. Harry, Clarence, Fred and Frank and two daughters, Mrs. Rowe and Mrs. Richardson.

Information has been received that Lieut. R. Elliott, who went overseas in 1915 with the 39th Battalion, has received a Captaincy in the R.F.A.

Miss Edna Laidley, who has been on the staff of Queen Alexandra School has been appointed to the Albert College teaching staff in place of Miss Rorie who will take a course at Queen's.

The deputy registrars for Belleville have now completed their returns and placed them in the hands of Mr. J. A. Kerr, the general registrar for West Hastings. The total for Belleville reaches a surprisingly large number and shows males 3,734 and 4,879, a total of 8,613.

Social and Personal

Mr. P. A. Wickware and daughter, Miss Ora, of Madoc were in town yesterday.

The Rev. S. C. Moore, president of the Bay of Quinte Methodist Conference was in Port Hope and Toronto on official duties yesterday.

Rev. Mr. Tucker was in town yesterday on his way to and from Port Hope where he attended a meeting.

Corporal Frank J. Minns, of the R.A.F., Toronto, spent the week-end in town visiting friends he made while at Camp Mohawk during the winter.

Miss Lowry, who has been managing the Belleville branch of the G. N. W. Telegraph Co., has gone to Murray Bay to take charge of the G.N.W. branch there.

About the only thing you can buy with a nickel nowadays, remarks the Kansas Industrial, is a three-cent stamp.

While we live we learn. The Kingston ladies who very carefully rub of the sprouts before planting their seed potatoes will never do this again.

"Retired farmer" queried a deputy registrar on Saturday of a resident of Joyceville who came into the booth to register. "No, just a tired farmer," was the ready reply.

### NOT MR. PORTER'S JOB ANY LONGER

The Belleville Intelligencer announces editorially that E. Guss Porter, M.P. for West Hastings, will "see that returned soldiers get first consideration in filling the positions along the canal in his constituency." "Soldiers first" is the policy adopted by the Government and unanimously approved by Parliament. Mr. Porter fortunately will have nothing to do with "filling the positions along the canal in his constituency."—Toronto Globe.

### West Does Not Look For Bumper Crop

(Special 4 p.m. Despatch to "Ontario" by Canadian Press Ltd.) WINNIPEG, June 25.—In its fifth crop report for this season, The Winnipeg Free Press, today said, it is fairly evident that the Canadian West will not have a bumper crop this year but with good weather from now on, there is reasonable hope for a fair crop. It is expected that the crop will be later in some districts. The situation in coarse grain is good, especially in Manitoba and Saskatchewan.

### Another Hun Threat Against Holland

Written for The Ontario by Chas. M. Bice, Lawyer, Denver, Cal.

An Amsterdam despatch quotes "a high German official" as saying "where Zebrugge and Ostend are completely blocked, Germany will use the Scheldt River as a submarine base, even if it does add another enemy to Germany's list."

That, coming from Holland, is very significant of two things. It indicates that the Dutch are not unmindful of the danger they are in, as well as a forceful acknowledgment that the recent British raids on these Belgian submarine bases were successful in their object.

A report from London explains that photographs taken recently from aeroplanes show that the damage done at Zebrugge is much greater than was supposed. The channel not only has been blocked, but the harbor entrance is rapidly silting up and soon will be an impassable mud-bank.

A photograph shows that what was at first supposed to be a German destroyer sunk in the harbor, is in reality a hulk-dredge that had been used in keeping the channel clear. The loss of that unthought-ofly contributed greatly towards rendering Zebrugge useless to the enemy.

The use of the Scheldt would be a direct violation of the neutrality of Holland. The mouth of that river is in Holland territory. A warship could not go to, nor come from Antwerp, without passing through Holland. It is not likely that Holland would submit humbly, as the "high German official" seems to think, to any such infringement of its sovereignty.

Holland did make a concession recently as to the use of some of its railways, but may be depended upon not to remain silent while its territory is utilized as a base for open hostile operations against friendly nations.

A willingness on the part of Germany to add the Netherlands' government to its list of enemies, in order to make lawful use of the Scheldt, would indicate the great importance the Kaiser has attached to a submarine base in that vicinity, and the seriousness of the blow struck by the British in their recent raids on his Belgian bases. Germany, through nearly four years of war,

has refrained from going too far in its attitude toward Holland. It would not now incur the open hostility of the Dutch, except in desperation and as a last resort.

We are not going to boast for we are not yet quite out of the woods, but it looks as though we had reached the clearing.

Out of the Stygian darkness appears many rays of light now illuminating the world.

The reports of submarine sinkings show very encouraging signs of a total collapse of this menace. Some time back the head of the British Admiralty declared to Parliament that the German U-boat had been "held", meaning that the destruction of these sea vermin was at least in the rate of production, and this equilibrium would be maintained if not bettered from that time forward.

He spoke with prophetic vision, U. S. Secretary Daniels speaks in a similar strain. He also thinks the danger is past. Germany cannot prevent a great army from this side going to France, and being sustained by the ship-tonnage bridge which is being erected across the Atlantic.

There seems to be no direct specific for the submarine. It has to be guarded against by every means and kept forever on the move. Sea-planes provided with depth bombs are at present the most effective enemies of this evil. Destroyers and "more destroyers from the Allied navies have been keeping down the records of losses to a large extent. But there must be no let-up in ship building to meet these weekly losses, and to make up in some degree for the losses already sustained.

Germany is making superhuman efforts to reach the Channel ports and win the war with this stroke, but her war-lords know that the capture of the French ports would come as a climax to a successful submarine warfare. Even if Germany should gain her end on land, now, it would only be a half victory, and would have but little significance. It would not prevent the landing of American troops in France nor even British troops, though it might compel the transports to take a more circuitous route than the present one directly across the channel.

H. H. Hall, of Madoc, and Rev. J. Cantrell, Rev. Mr. Radcliffe read the bishop's appointment to the charge, which was accepted by Rev. Mr. Swayne and Canon Armstrong recited the mandate. Mr. O. H. Scott, people's warden, then opened the keys of the church to the new incumbent, on behalf of the congregation.

Then followed an impressive ceremony. The warden walked to the back of the church followed by Rev. Swayne, Bishop Bidwell, Canon Armstrong and Rev. C. E. S. Radcliffe. The bishop recited the duties of the Rev. E. J. Bidwell, D.D. The clergy which the rector promised to per- form with God's help. At the prayer desk, the lectern, the pulpit and before the communion table, similar vows were taken by the rector.

The Bishop's sermon was on the charge. He took his station at the steps of the choir loft, the new incumbent before him.

The Bishop was supported by Canon, the Rev. F. W. Armstrong, of Trenton and the Rev. C. E. S. Radcliffe, of Deseronto. The other clergy attending were Rev. A. L. Geen, Belleville, Rev. J. H. H. of Coleman, M.A., of Napanee, Rev. T.

### Grateful for Hastings Cheese

61, Cadogan Square, S.W.L. London, Eng. 3rd June, 1918. Messrs. The Beulah & Glen Cheese Factories, care of J. Elliott, Esq., The Standard Bank of Canada, Belleville, Ont. Can. Dear Sirs,—The parcel of cheese which you so kindly sent for the use of the Queen's Canadian Military Hospital, Reachborough Park, Sharncliffe, has been received and I can assure you your gift is very much appreciated. I had an opportunity of tasting it at the hospital, and it is a very fine flavour.

As you probably know, cheese is one of the commodities which it is particularly difficult to get in this country just now, so that your gift is all the more appreciated. With many thanks, Yours faithfully, (Sgd.) Geo. McE. Brown, Chairman Hospital Committee C.W.C.A.

At the close of the ceremony, a reception was held in the parish hall by the congregation in honor of the new incumbent.

Mr. Swayne thanked the parishioners for the reception and was introduced to all present by the wardens. Mr. George Turner and Mr. O. H. Scott, Bishop Bidwell also spoke.

### Overseas Y.M.C.A. Appreciated

Editor Ontario,—In these days, when words pro and con as to the work of the Y.M.C.A. at the front, are passing freely, I add—not my own words, for I cannot speak, I do not know, only those who have had the experience can tell—a paragraph taken from a letter which came in from my son this morning. I am delighted to hand it on to you.

"The tribute paid to the Y.M.C.A. by that British recruiting officer was indeed a fitting one (referring to a note in a letter from his mother) I know myself that they are doing a wonderful work over here, the value of which can never be properly estimated. When I was with the P-troop, we could stroll into the 'Y' after a long, hot ride, and get a cup of orange-ade. Oh, it did taste good!" Yours sincerely, E. N. Baker.

WHAT THE PRESS RECEIVED FOR ADVERTISING THE VICTORY LOAN.

Various estimates have been made as to the amount the press received from the Government in connection with the press publicity for the Victory Loan, but the actual figures paid were clearly set forth in audited statements submitted to the Annual Meeting of Canadian Press Association, Inc., held in Toronto on June 13th and 14th.

The total amount paid by the Government for advertising space was \$115,419.81, which was distributed among 1,400 newspapers and other publications. Approximately \$5,000 was spent in the preparation and distribution to the press of a large number of special articles, illustrations, cartoons, etc., which were inserted in the press free of charge. The setting of type and making of duplicate plates of the advertisements for the various publications used and the fees paid to the five co-operating advertising agencies for their services cost in the neighborhood of \$37,000 making the total expenditure \$208,166.09.

As the total cost of floating the Loan was approximately \$5,000,000, the Government's expenditure on press publicity represents less than five per cent. of the total expenditure. It is interesting to note also that the press publicity cost only one-twentieth of one per cent. of the total amount of the Loan.

The press publicity of the Loan was handled by Canadian Press Association, Inc., and the officers of the Association and its individual members co-operated splendidly in making the campaign a success. During three months last Fall most of the time of the President, Mr. J. H. Woods, Calgary "Herald", and the office staff, was devoted to the press publicity campaign, and for several weeks the committee of publishers in charge were in almost continuous session. The individual members, on the other hand contributed, without charge, space in their newspapers and other publications which, if calculated at their regular commercial rates, would run up to more than the total amount paid for the advertising space.

Neither Canadian Press Association, Inc., as such, nor any of its officers or committees, received any remuneration for their services, in connection with the Loan, those services being given voluntarily and in the spirit of national service.

A naval officer stationed at Brooklyn states that he had to reject half a million pounds of packers' hams on account of being tainted.

### Conscription is Dead as Well as Home Rule

Earl Curzon's Speech Indicates Abandonment of Both by British Government.

London, June 25.—Earl Curzon's speech in the House of Lords last week, immediately seized upon in the lobby as an admission of a breakdown in the government's Irish policy, indicating, at least, an attempt to introduce a home rule bill, is treated in last week's newspapers as a sensational development and is made the theme of sharp comment.

"Home rule is dead; Irish conscription is dead," says the radical Daily News, "and the whole Irish policy of the government has fallen crumbling to the ground."

"From the opening to the close of this last wretched chapter in the history of the Irish question, the government has been consistently disingenuous, vacillating and dilatory. Out of it all one result has emerged, black and unmistakable—the destruction of the power of the constitutional party and the enthronement of the anarchy of the Sinn Fein."

Obituary MRS. J. A. ROBINSON After two months' illness Mrs. John A. Robinson passed away Sunday morning at the residence of her son, 728 Pape avenue, Toronto, at the advanced age of 78 years. Deceased was born in Prince Edward County, but spent most of her life in Brighton Township, removing to Toronto about five years ago. Her husband and two children survive. Mrs. I. C. Snelgrove, and E. R. Robinson. The funeral service will be held and interment will take place at Brighton today.

No Rest With Asthma. Asthma usually attacks at night, the one time when rest is needed most. Hence the loss of strength, the nervous debility, the loss of flesh and other evils which must be expected unless relief is secured. Fortunately relief is possible. Dr. J. D. Kellogg's Asthma Remedy has proved its merit through years of service. A trial will surely convince you.

### Picked Up Around Town

Messrs. William Cook and William Corham have left for London Ont. to attend the annual convention of the C.A.S.E. Recently Mr. Corham was presented with a gold-headed ebony cane by the local branch of the C.A.S.E.

Mr. Oscar French, a well-known resident of Point Anne, died last evening.

Warren's Chevrolet garage on Mill Street was entered on Monday morning and a tire rim and tube were stolen.

Several deputies or their assistants who were engaged in registration in the city on Saturday have not yet seen in their returns to Registrar J. A. Kerr and an announcement cannot yet be made as to the total registration in Belleville. Mr. Kerr may be able to announce the total tomorrow.

Dr. O. A. Marshall, while near Picton on Sunday saw a beautiful specimen of orchis growing. He had to wade to get the precious plant, but he managed to secure it by the roots. The plant is now on exhibition in the show window of Angus McFee, Front St. and is attracting much attention by the rare beauty of its flowers.

In the County Judge's court this morning before His Honor Judge Doroche, George Kettel, of Trenton pleaded guilty to a charge of assaulting his wife on June 5th. Mrs. Kettel was anxious to have him return and as the assault seemed somewhat provoked the judge suspended a sentence for one year, allowing Kettel to go under \$1,000 bonds, on payment of the costs which totalled \$80.78. Crown Attorney Carnaw attended for the prosecution.

About twenty of the leading Masons of the city of Belleville went to Ameliasburg last night to be present at Lake lodge on the occasion of the official visit there of the district deputy, Rt. Wor. Bro. A. H. Watson, of Madoc. The brethren of Lake lodge conducted the work in the regular way and exemplified the Third Degree. The officers were well complimented for the efficient manner in which they performed their duties. After the closing of the lodge the brethren sat down to enjoy the hospitality for which Lake Lodge has grown justly famous. The menu embraced such seasonable delicacies as strawberries and ice cream with a substantial introductory course of roast chicken. W. Bro. Mamion Eckert, master of Lake lodge presided as coastmaster. The program was lively, and replete with interest. The toast, "The Grand Lodge of Ontario," found capable exponents in Rt. Wor. Bro. Watson and Rt. Wor. Bro. Shurie, of Wellington. Bro. Watson's address was an exceedingly able deliverance, explaining part of the basic symbolism of Masonry. The toast "Canada and the Empire," brought forth an eloquent patriotic address by Bro. Rev. C. J. Gall, of Ameliasburg. "The Veterans" found witty and clever exponents in W. Bro. Jesse Barlow, W.A.M. of Ottawa, of Belleville; W. Bro. Springs, of Coneseon; W. Bro. Hubbs, of Wellington, and Bro. L. E. Whalley of Eureka lodge, Belleville. "The Silent Toast" was honored in memory of the brethren overseas. "Lake Lodge" was proposed by Bro. Watson and responded to by Bro. Eckert in a happy vein. During the proceedings solos were given by W. Bro. Parliament and Wor. Bro. John McIntosh, of Belleville. Bro. E. C. Sprague presided at the piano.

DIED SAGER—Suddenly in Belleville on Saturday, June 22nd, 1918, Mary Elizabeth Sager, 61 St. Paul, widow of the late William B. Sager.

An Oil Without Alcohol—Some pills and many medicines have alcohol as a prominent ingredient. A delicious mingling of six essences compose the famous Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting. There is no medicinal oil compound that can equal this in its restorative and healing power.

A letter published in Hearst's New York papers favoring his "war" policies, and alleged to be from the president of the National Security League, has been denied in toto by that organization.

Soft corns are difficult to eradicate, but Holloway's Corn Cure will draw them out painlessly.

Mr. Joe Hamilton, of Muskegon, Mich. who has been renewing old acquaintances about town, left today to return to U.S.

Mr. and Mrs. Spence Clarke and

Miss Campbell, Church St. have returned from a pleasant motor trip to Toronto and Lake Simcoe.

Mrs. Bongard Sr. and her daughter, Mrs. Vandervoort and child of Toronto are visiting Mr. and Mrs. Sam. Bongard, Church St.

**MANY TRAVEL**

Because of the instructions of the Railway Board there will be no cheap fares on the coming holiday the passenger traffic has as yet shown no signs of decreasing.

**TEACH BRIDES TO COOK**

New York, June 25.—Any blushing bride who may stop at New York's biggest hotel, now nearing completion, and who may be a little deficient in knowledge of how to make biscuit that will resemble something besides brickbats, has a treat in store for her. John M. Bowman, president of the company controlling the new hotel, has decided to throw open the doors of the kitchen and teach young married women sojourners how to prepare food for the bridegroom. The only thing necessary for enrollment in the classes will be a marriage license with a very recent date on it.

**VALUE OF WOOD ASHES**

With the present high cost of fertilizers all the barnyard manure and other waste that can be used to enrich the soil should be carefully conserved. Wood ashes make a valuable fertilizer and are to be especially prized now that potash is so expensive. Good wood ashes that have not been left out of doors subject to the leaching action of rain, should contain from five to six per cent. of potash and are worth about \$40 per ton. Besides containing potash wood ashes contain a small amount of phosphoric acid and from 25 to 50 per cent. of lime (carbonate of lime).

Marriage "Forced" in U.S.

STRANGE NEWS ABOUT BACHELORS' BAN APPEARS IN HUN PRESS

German newspapers recently received in Amsterdam contain a precious bit of American "news" which ought to be disheartening to bachelors. The following is a literal translation:

"In Bloomington bachelor life is officially prohibited. An investigation commission discovered that a great number of young ladies, widows, widowers and bachelors were each alone occupying large houses. If they should marry, their houses could be turned over to other families to live in and a great deal of expense, such as lighting, heating, etc., could be eliminated.

"So the women were given the privilege to demand a husband, and no citizen is permitted to refuse to marry a woman who demands him, provided he is able to support a family. In desperate cases where the man persists in his refusal to marry, a compromise may be effected which would compel the man to keep in his house and feed three orphans or two cripples for the duration of the war. "The same measures are to be introduced all over the United States."

Failure of Fruit Crops in Britain

MADE IT NECESSARY TO FIX PRICES TO ASSURE ARMY AND NAVY OF SUPPLY

In order to assure the supply of jam for the army and navy, following the comparative failure of the fruit crop in the United Kingdom, the British Ministry of Food has been forced to take emergency measures and also to fix the prices of these fruits. The information is contained in a cable just received by the Canada Food Board from Lord Rhondda, British Food Controller. The latter again emphasizes the shortage of cheese in Great Britain.

The statement reads: "The questioning of rationing tea, cheese and jam to the consumer in the British Isles is still under consideration. Owing to the comparative failure of the fruit crop, all contracts for the sale of fruit grown or to be delivered in the United Kingdom have been cancelled, as from June 17th growers who have more than one hundredweight of strawberries, raspberries, black currants or red currants will not be permitted to sell such fruit to any except a licensed jam manufacturer. These emergency measures and the fixing of prices of these fruits have been adopted to assure the army and navy of adequate supplies of jam.

"The amount of cattle feeding stuffs reaching the British markets is still very limited and there is no indication of improvement during the current month. The Board of Agriculture is urging the farmers to adopt measures which will make them more and more independent of purchased feeding stuffs.

"Increased imports of bacon have permitted the restrictions on this commodity to be slightly modified. There is still a marked shortage of cheese.

"In order to meet the urgent problems of storage, Lord Rhondda has authorized the establishment of a general storage and inland transport department which it is hoped will overcome many of the obstacles now encountered in this phase of the food problem."

Will Pay 100 Marks for Sick Dog to Eat

London, June 24.—Food conditions in Germany are becoming worse, and there is great discontent there owing to reduction in bread rations, according to a Dutchman interviewed by a correspondent of The Times at The Hague. The Dutchman had just returned from working in the Krupp plant at Essen, which he left because he could not stand the food conditions. The German people, he added, feared to grumble openly lest they be sent to the front. The correspondent says the testimony corroborates what he had heard from many other witnesses, and adds:

"One popular saying is that the people will pay 100 marks for a sick dog to eat. "The war is becoming very unpopular among the workers, but the feeling ebbs and flows with the tide of Germany's success, and the English are generally cursed."

Copyright 1918 by Litta, Brown & Co.

Stella stood like one stricken. The very thing she dreaded had come about. Not the manner of its unfolding was as she had visualized it when she saw Eyle near at hand. She saw now a side of her husband that she had never glimpsed, that she found hard to understand. She could have understood him beating Monohan senseless, if he could. A murderous fury of jealousy would not have surprised her. This did. He had not struck a blow, did not attempt to strike.

She could not guess why, but she saw that he was playing with Monohan, making a fool of him, for all Monohan's advantage of height and reach. Eyle moved like the light, always be- was amazed to find herself longing for the power to strike him. She faced him, trembling, leaning against the tree trunk, staring at him in impotent rage. And the fire died out of his eyes as she looked. He drew a deep breath or two and turned away to pick up his rifle. When he faced about with that in his hand the old link of immobility was in place. He waited while Stella gathered up her scattered hatpins and made shift to veil her hair into a semblance of order. "I won't break out like that again."

"Once is enough." "More than enough for me," he answered. She disdained reply. Striking off a path that ran to the camp, she walked rapidly, choking a rising flood of desperate thought. With growing compass paradoxically there burned under the daim of an elemental wrath. What right had he to lay hands on her? Her shoulders ached; her flesh was bruised from the terrible grip of his fingers. The very sound of his footsteps behind her was intolerable. To be suspected and watched, to be continually the target of jealous fury—no, a thousand times no! She wheeled on him at last. "I can't stand this!" she cried. "It's beyond endurance. We're like flat and steel to each other now. If today's a sample of what we may expect it's better to make a clean sweep of everything. I've got to get away from here and from you—from everybody."

Eyle motioned her to a nearby log. "Sit down," said he. "We may as well have it out here."

For a few seconds he busied himself with a cigar, removing the band with utmost deliberation, biting the end off, applying the match, his brows puckered slightly. "It's very unwise of you to meet Monohan like that," he uttered finally. "Oh, I see," she flashed. "Do you suggest that I met him purposely by appointment? When if I did?"

"That's for you to say, Stella," he interrupted gravely. "I told you last night that I despise you absolutely. I do so far as really vital things are concerned, but I don't always trust your judgment. I merely know that Monohan sneaked along shore, hid his boat and stole through the timber to where you were sitting. I happened to see him, and I followed him to see what he was up to, why he should take such measures to keep under cover."

"The explanation is simple," she answered stiffly. "You can believe it or not, as you choose. My being there was purely unintentional. If I had seen him before he was close I should certainly not have been there. I have been at odds with myself all day, and I went for a walk to find a quiet place where I could sit and think."

"It doesn't matter now," he said. "Only you'd better try to avoid things like that in the future. Would you mind telling me just exactly what you meant a minute ago—just what you propose to do?"

"I think it's better that I should go away," Stella said. "I want you to agree that I despise you absolutely. I won't talk or anything disagreeable from outside sources. I'm strong. I can get on. It'll be a relief to have to work. I won't have to be the kitchen drudge Charlie made of me. I've got my voice. I'm quite sure I can capitalize that. But I've got to go. Anything's better than this, anything's that's clean and decent. I'd despise myself if I stayed on as your wife feeling as I do. It was a mistake in the beginning, our marriage."

"Nevertheless," Eyle said slowly, "I'm afraid it's a mistake you'll have to abide by—for a time. All that you say may be true, although I don't admit it myself. Oh, and I'd say you were simply trying to waken on a fair bargain. I'm not going to let you do it blindly, all wrought up to a pitch where you can scarcely think coherently. If you are fully determined to break away from me you owe it to us both to be sure of what you're doing before you act. I'm going to talk plain. You can believe it or not, as you choose. If you were leaving me for a man, a real man, I think I could bring myself to make it easy for you and wish you luck. But you're not. He's—"

"Can't we leave him out of it?" she demanded. "I want to get away from you both. Can you understand that? It doesn't help you any to pick him to pieces."

"No, but it might help you if I could rip off at that swathing of idealism you've wrapped around him," Eyle observed patiently. "It's not a job I have much stomach for, however, even if you were willing to let me try. But to come back: You've got to stick it out with me, Stella. You'll hate me for the constraint, I suppose, but until—until things shape up differently—you'll understand what I'm talking about by and by. I think—you've got to abide by the bargain you made with me. I could

but force you to stay, I know. But there's one hold you can't break—out if I know you at all." "What is that?" she asked icily. "The kid's," he murmured. Stella buried her face in her hands. "I'd forgotten—I'd forgotten," she whispered. "You understand, don't you?" he said hesitatingly. "If you leave—I keep our boy."

"Oh, you're devilish—to use a club like that!" she cried. "You know I wouldn't part from my baby—the only thing I've got that's worth having."

"He's worth something to me, too," Eyle muttered. "A lot more than you think, maybe. I'm not trying to club you. There's nothing in it for me. But for him—well, he needs you. It isn't his fault he's here or that you're unhappy. I've got to protect him, see that he gets a fair shake. I can't see anything to it but for you to go on being Mrs. Jack Eyle until such time as you get back to normal conditions. That it will be long enough to try to work out some arrangement that won't be too much of a hardship on him. It's that or a clean break in which you go your own way and I try to mother him to the best of my ability. You'll understand some time why I'm showing my teeth this way."

"You have something on your side," she admitted dully after a long interval of silence. "I'm a fool. I admit it. Have things your way, but it won't work. Jack. This flareup between us will only smolder. I think you lay a little too much stress on Monohan. It isn't that I love him so much as that I don't love you at all. I can live without him—which means to do in any case—far easier than I can live with you. It won't work."

"Don't worry," he replied. "You won't be annoyed by me in person. I'll have my hands full elsewhere."

CHAPTER XIII. The Opening Gun.

THE month of November slid day by day into the limbs of the past. The rains washed the land unceasingly. Gray veils of mist and cloud draped the mountain slopes. An arab a shade colored Stella Eyle's daily outlook. She was alone a great deal. Even when they were together, she and her husband, words did not come easily between them. He was away a great deal, seeking, she knew, the old panacea of work, hard, unremitting work, to abate the ills of his spirit. She envied him that outlet. Work for her there was none.

Lerty Howe's wife was at the camp one of her occasional visits. Howe was going across the lake one afternoon to see a Stwath whom he had engaged to catch and smoke a winter's supply of salmon for the camps. Mrs. Howe told Stella, and on impulse Stella bundled Jack Junior into warm clothing and went with them for the ride.

When she returned from the launch trip Eyle was hoarse and Charlie Boston with him. She crossed the heavy rugs on the living room floor noiselessly in her overboots, carrying Jack Junior asleep in her arms. And so in passing the door of Eyle's den she heard her brother say:

"But, good Lord, you don't suppose he'll be saphead enough to try such fool stunts as that! He couldn't make it stick, and he brings himself within the law first crack. And the most he could do would be to annoy you."

"You underestimate Monohan," Eyle returned. "He'll play safe personally so far as the law goes. He's foxy. I advise you to sell if the offer comes again. If you make any more blazes at him he'll figure some way to get you. It isn't your fight, you know. You unfortunately happen to be in the road."

"Hanged if I do!" Benton ejaculated. "I'm all in the clear. There's no way he can get me, and I'll tell him what I think of him again if he gives me half a chance. I never liked him, anyhow. Why should I sell when I'm just getting into a real good shape to take that timber out myself? Why, I can make a hundred thousand dollars in the next five years on that block of timber. Besides, without being a sentimental sort of beggar, I don't lose

Winnipeg, June 25.—Nick Kostinuk, an Austrian charged with making seditious statements, was today fined one thousand dollars and costs. Sir H. J. McDonald said that this would be the last fine imposed; in future every person found guilty of making seditious remarks will be sentenced to a term in the penitentiary.

Montreal, June 25.—Three Canadian ex-soldiers who were blinded overseas in the service of the Empire received their diplomas from McGill University as having successfully passed the examination in massage. These men are now qualified to practice massage professionally. They are Pte. Peter Donaldson, Fort William; Pte. L. B. Hopkins, Alberta; Pte. J. E. Sterling, of Nova Scotia.

With the good tidings of that splendid wood firing in the Algonquin Park comes a thought of what our city has to spare in that way and in rheumatism. Beautiful as that green foliage looks in the street shades, there is too much of it to

be healthy. Where grass won't grow children can't thrive. A conservative estimate has decided that every other city tree could be well missed, especially where the limbs hang so low, distilling damp noxious vapors with its sticky dew. Anyway, do prune out the limbs and cut high, say forty feet, and have a clear current of pure air. Try it, rheumatic and tonsillitis folk.—Hamilton Times.

A certain old gentleman nearing the century mark, would not register until he was sure that no one might find out his age except the man who was doing the registering. One old lady, who had difficulty in reaching the registration booth because of her age and infirmities, was asked by the sweet young thing that was managing the booth, "Can you drive a tractor?" The old lady nearly swooned with rage, and although she may have been old, her tongue had lost none of its old time sharpness. Finally a smile played around the corner of her drawn mouth as if pleasant memories were passing through her mind, and she sprang this pun on the registrar: "Drive a tractor, yes, of course, I drove a tractor for years—a contractor. My husband was a contractor."

PERT PARAGRAPHS

Gathered by Our Exchange Editor and Condensed Down to Make Spicy Reading.

TWEED WANTS TRAIN SERVICE RE-ESTABLISHED

Toronto.—Official representatives of the Town of Tweed will appear before the Board of Railway Commissioners for Canada at their meeting at the city hall here this morning. They will ask that an order be issued directing the C.P.R. to re-establish the local train service between Tweed and Toronto.

HORSE TRAINING FOUND USEFUL

Ottawa, June 25.—Horse-breeding and training, whether the horses be for pleasure or for working purposes, is a useful occupation in the eyes of the law. This decision was reached by Magistrate Ashworth in police court after hearing expert evidence in the trial of Frederick Hale, who was charged with not being engaged in some useful occupation.

PETERBORO WORKERS ARE BEING PAID

Peterboro, June 25.—That a number of deputy registrars are being paid for their work in Peterboro is brought out as a result of some correspondence between Mr. J. H. Burnham, M.P., and the Department. It has repeatedly been stated that some of the local deputy registrars were being paid for their services, while a number of volunteers are working without remuneration of any kind. In reply to Mr. Burnham's request for information, the Department stated that Mr. F. H. Dobbin, local registrar, had been instructed to secure a number of paid workers providing he was unable to secure a sufficient force of volunteers. Mr. Burnham is of the opinion that the names of the volunteer workers be published for obvious reasons.—Peterboro Examiner.

NOT ENOUGH WHEAT FOR WESTERN MILLS

Calgary, June 25.—H. W. Wood, president of the United Farmers of Alberta, and member of the board of grain supervisors, expressed the opinion here that there is not enough wheat in the west to keep the mills of the prairie grinding until the new crop comes in.

BACHELOR KNITS FOR SOLDIERS

The women of the Atchison Red Cross have discovered that the donor of many mysterious packages of knitted sweaters, socks and scarfs that have been sent to the society is the bachelor president of the Atchison Savings Bank. He learned to knit as a boy in his native land, Sweden.

MONUMENT BROKE GIRL'S LEG

Miss T. Westington, daughter of Mrs. Wm. Westington, of Plainville, was brought to Cobourg Hospital on Friday last, suffering from a broken leg. She was in the Bible Christian burying ground at Plainville, looking at the family monument, with two relatives, when the stone slab fell over on her, breaking her leg just above the ankle.

WILL NOT SUPPORT STORES RUN BY FOREIGNERS

Toronto, June 25.—"Resolved, that we as a body of women, pledge ourselves to refrain from supporting stores run by foreigners." Such was the drastic resolution passed by the Women's Auxiliary of the Parkdale branch of the Great War Veterans' Association. "Just what does this mean?" a woman member of the Auxiliary was asked. "It means," said she, "that too many of our men have left business to go away to fight for Canada and have come home to find they have no chance against the foreigners who have grown rich here in prosperous war time. These people do not live as we do, and can eat the throats of people who have certain standards of life. We women think that, as we spend most of the money, it's up to us to help our men get a fair deal."

CANADA LENDS A MAN

Washington, June 25.—It is announced here that T. B. Kidner, vocational secretary of the Military Hospitals Commission, Ottawa, has been assigned by the Canadian Government to assist the Federal Board for vocational training in getting under way its work in the United States for re-educating disabled soldiers and sailors.

LEAVE OF ABSENCE

The Dominion Government will publish next week the procedure to be taken by draftees wishing leave of absence on grounds of extreme hardship. Forms of application may be obtained from an officer in each depot battalion, whose duty

It is to give them immediate attention. The man concerned should go on reporting to his unit state that he desires to apply for leave of absence on above grounds. His papers will be forwarded to Ottawa and in the meantime he will be given temporary leave of absence until his case is finally disposed of.

AUDILTERATION IN MILL FEEDS

A correspondent of Farm and Dairy says that he recently passed through the freight yards of a nearby city and happened to glance into a car that had just been unloaded by a milling and feed company. There was, he says, a liberal sprinkling of its recent contents on the floor of the car, and an examination showed them to be just pure rice hulls, which hulls have no feeding value whatever. This correspondent further asks what becomes of the oat hulls discarded when oats are made into rolled oats for breakfast food? There must be thousands of tons of them and yet he has, he says, never heard of any of them being sold for bedding or burned.

SOLDIER FALLS OFF TRAIN

Alexandria, June 25.—Pte Dan McDonald, a member of the 2nd Depot Battalion at Ottawa, was instantly killed in a fall from a train a quarter of a mile west of the station here on Saturday. He was returning home on a month's leave and it is stated intended to jump from the train and take a short-cut to his home, which lies west of the town. Coroner Munro of Maxville opened an inquest. McDonald's neck was broken in the fall.

PASSING OF THE "BRIDGETS"

According to registration reports the Elliens and Helens are even more numerous than the Maggies and Marys and Lizies. As for the Bridgets, they seem to be almost an extinct bird, like the DoDo. Evidently styles in names change the same as styles in dress.

WON SECOND PRIZE

A plowing match was held at Portage la Prairie, Manitoba, on June 12th, in which twenty-one of the leading different makes of tractors produced in the United States and Canada took part. It is interesting to note that the Gilson tractor scored second prize. It was used with a 14-inch 3-furrow stubble bottom Cockshutt plow, and the work was greatly admired by the spectators.

HON. DR. CODY DECLARES SALARY FROM CHURCH STOPPED

Toronto, June 25.—Immediately he accepted the office of Minister of Education, Hon. Dr. Cody informed his congregation that he would not expect nor accept his salary as rector while receiving remuneration for his Cabinet position. His salary as rector will go toward paying the two assistants who have been appointed to assist in the parish. What duties he shall perform is left with the congregation to say. It is doubtful whether Dr. Cody will have to attend to any of the parochial work, and his responsibility for the Sunday service will likely be lessened although the matter has not been finally settled.

HARROWING ALFALFA

Harrowing alfalfa immediately after the first cutting will rid that legume of foxtail and bluegrass, providing the cultivation can be done during a dry spell, according to C. G. Williams, agronomist at the Ohio Experiment Station. At the Ohio Station a spring-tooth harrow has been found more practical than a disk, as the injury to the alfalfa is less when the spring-tooth implement is used. However, even a severe harrowing does not destroy enough alfalfa to lower the crop yield to any appreciable extent.

Spare the children from suffering from worms by using Miller's Worm Powders, the most effective vermifuge that can be got with which to combat these insidious foes of the young and helpless. There is nothing that excels this preparation as a worm destroyer, and when its quality becomes known in a household no other will be used. The medicine acts by itself, requiring no purgative to assist it, and so thoroughly that nothing more is needed.

Federal authorities have seized the western grazing estate of the late Henry Miller of San Francisco, valued at \$4,000,000 to collect \$8,000,000 overdue income tax.

Sale

RM FOR SALE. Edlick Farm, being of lot 19, in the town of Sidney, near 100 acres. On a good frame house, a hen house and in the best of condition. One in and one at the party will be sold crop, stock and land. The purchaser on a crop is looking for a good seed on particulars apply to the premises or to F. W. Diamond & Bank Chambers.

URING CARS, Al-McLaughlin Truck, running order. Will sell at low prices. Belleville 20-5td.1w.

SINCLAIR'S

Silk Dress Sale \$17.50 to \$22.50 Dresses For Only \$14.50

For the last week of June we offer your choice of one each of about 50 Ladies' and Misses' Dresses, in Black and Colored Silk, Poplins, Satin Duchesse, also a few Fancy Stripe Taffeta Dresses, our regular \$17.50, \$18.50, \$19.50, \$20.00 and \$22.50 Dresses; on sale, your choice only \$14.50.

Cotton Wash Goods Only 15c

We make this price to clear one Table of 27-inch Colored Wash Goods, including Cotton Crepes, Cotton Towels, Dimities, Rice Cloths, Muslins, Voiles, Etc., and if you want Wash Goods, you will do well to see this clearing lot. Regular 25c to 35c Wash Good for 15c

Corsets AND Brassieres

It's because we have in stock over Two Thousand Corsets and Brassieres of such well known makes as Kabo, D&A, and Compton's O.C. a la Grace Corsets, that we feel we can supply all your Corset requirements. We have a Corset designed to fit every figure and make a specialty of Corsets for Stout Figures, and we guarantee Every Corset Sold.

Jack Tar and Admiral Middies

Here are the Two Best Known Canadian Middies, and we show these in all sizes, in Plain White and White and Colored Combinations. These are shown in Children's sizes 4 to 12 years; Misses', 14 to 18 years; and Ladies', from 36 to 44 Bust measure; to sell from \$1.00 to \$2.25 each.

Beautiful Dress Voiles White and Colors 39c to \$1.50 yard

Never have we shown such variety in Cotton Wash Goods and of our splendid showing, Dress Voiles have first place. These are shown in Plain White Sheer Voiles, White Checks, Plaids and Stripes, also Colored Voiles, in endless variety, to sell at 39c, 45c, 50c, 65c, 75c, 90c, \$1.00 and \$1.50 per yard.

Dress Dome Fasteners Only 5c Dozen

We recently purchased One Hundred and Seventy-Two Thousand Eight Hundred Dome Fasteners—"Made in Canada Domes"—in Black and White, Five sizes of each, and immediately the Price is cut in Two. We sell these Domes only 5c per doz.

SINCLAIRS

GREAT DEVELOPMENT IN FLUORSPAR MINING IN THE MADOC DISTRICT

Many Properties Being Developed About the Village—What Fluorite is Used For—An Essential in the Manufacture of Iron and Steel.

The development of the fluorspar mining industry has again directed attention to the Madoc area. At Madoc 50 years ago there was located one of our first iron furnaces, iron ore being obtained from the Seymour mine. Thirty years later a rich gold deposit was discovered a few miles from Madoc and consequently the area received considerable attention from prospectors. Many mineral deposits were found and some of them worked. During the past few years a talc mine and a pyrite mine in the area have been regularly and profitably operated.

The Madoc area, was geologically re-surveyed by W. G. Miller and C. W. Knight in 1912 and their report and map were published in the annual report of the Ontario Bureau of Mines, 1913. The rocks are described in detail and their relationships discussed. Most of the rock are pre-Cambrian, but a considerable portion of the area is covered by Palaeozoic sediments. The Henderson talc deposit at Madoc occurs in a crystal line dolomitic limestone. The iron pyrites deposits near Queensboro occur as lenses in contact with rusty schists and quartzite near an intrusive mass of felsite.

Most of the fluorspar produced is used as a flux in basic open-hearth steel furnaces. Probably four-fifths of the output is consumed in this way, fluorspar being much prized for its property of increasing the fluidity of the molten mass in the furnace and also for its assistance in the removal of phosphorus and sulphur. It improves both the physical character and chemical composition of furnace products.

Fluorspar is used in the manufacture of opalescent glass and enamel ware. For this purpose a very good grade of ore is required.

The term "gravel spar" is often used to designate a comparatively impure grade of spar that is not suitable for such purposes as glass and acid manufacture, though suitable for use in steel furnaces and iron and brass foundries. The term "gravel" is also used for disintegrated fluorspar, as distinct from "ground" spar. The natural coarse product is commonly called "lump". In Kentucky, fluorspar occurs in veins in fault fissures cutting limestones, sandstones and shales of Carboniferous age. The associated minerals are barite, calcite, galena and sphalerite.

In Illinois, the fluorspar deposits fill fault fissures in Lower Carboniferous limestones and sandstones. The associated minerals are calcite, galena, sphalerite and occasionally pyrite or chalcopyrite. The manufacture of munitions and the shortage of shipping has resulted in a more intensive investigation of the mineral resources of North America. Minerals used in the iron and steel industry have naturally been in great demand and the difficulties in connection with importing from the usual sources have given added value to domestic deposits. The unusually large production of special steels has made it necessary to utilize more extensively Canadian ores of such metals as chromium, nickel, molybdenum, cobalt, etc., and also all minerals needed in metallurgical works. Among the latter minerals is fluorite, which is used as a flux. The production of fluorite in Ontario has never been large, but has recently become important and is expected to increase considerably in the near future.

When heat is applied to the charge in an iron or steel making furnace, there commonly results the formation of a lighter fluid mass, containing most of the impurities, which rises to the top of the molten mass. It is the function of the furnace process to thus separate the useless and harmful substances from the metal. It was long ago found that a small quantity of fluorspar added to the charge very greatly increased the fluidity of many slags and thus allowed the separation to be more rapidly and completely made. Fluorspar is, therefore, regularly used in iron and steel works and in foundries. Fluorspar is also used in comparatively small quantities, however, in the manufacture of hydrofluoric acid and various fluorides and fluor-silicates.

The development of the fluorspar mining industry has again directed attention to the Madoc area. At Madoc 50 years ago there was located one of our first iron furnaces, iron ore being obtained from the Seymour mine. Thirty years later a rich gold deposit was discovered a few miles from Madoc and consequently the area received considerable attention from prospectors. Many mineral deposits were found and some of them worked. During the past few years a talc mine and a pyrite mine in the area have been regularly and profitably operated.

Canadian steel furnaces use annually from 10,000 to 15,000 tons of fluorspar, but until recently almost all of this was imported. During 1916 shipments from the Madoc district became notable, amounting to 1,234 tons valued at \$10,238. During 1917 there was produced 4,326 tons valued at \$66,474. It is expected that in both tonnage and in value per ton the production during 1918 will far exceed that of the previous year. A number of properties are being developed and the prospects for a busy summer are excellent.

and is in places 8 ft. deep. On the north Reynolds property, Lot 8, Con. 14, Huntingdon township there is a pit ten ft. deep. The McIlroy property, Lot 5, Con. 4, Madoc, is operated by Mineral Products, Ltd. The vein is one to three feet wide. It is developed by a shaft and an open pit. Fluorspar has recently been found in a number of quartz veins in Castro and Alma townships in the Metacrowan gold area, Northern Ontario. According to Mr. A. G. Burrows, the mineral in these deposits is of a deep purple color.

She Took Her Father's Advice

AND DODD'S KIDNEY PILLS SOON HELPED HER BACKACHE.

How Mrs. Beaudoin Found Complete and Permanent Relief From Her Kidney Trouble.

Fisherton, Man., June 24th.—(Special.)—"I have taken your Dodd's Kidney Pills for kidney trouble, and they have completely cured me." These are the words of Mrs. Arthur Beaudoin, a well-known resident of this place, and it is no exaggeration to say she voices the sentiments of a large number of the people of Manitoba. They have had kidney trouble; they have used Dodd's Kidney Pills; they have found them good.

"Yes," she says, in speaking of her case, "I suffered from kidney disease for six months before I was married in October, 1917, and two weeks after I was married I was laid up. The doctor gave me no relief. My father advised me to take Dodd's Kidney Pills. I commenced to take them at once, and a few days after I felt better. I continued to take them until I was perfectly cured. I will always keep them in the house, as they are my best friends."

Dodd's Kidney Pills have been used to treat rheumatism, sciatica, diabetes, dropsy, sore back, gravel and other similar ills. That they continue to give satisfaction is evidenced by their ever-growing popularity. If you haven't used Dodd's Kidney Pills, ask your neighbors about them.

Annual Masonic Church Parade

Rev. Dr. Scott, Chaplain of Eureka Lodge Addressed Brethren of Compass and Square.

The annual St. John's Day, church parade of the Freemasons of Belleville was held on Sunday morning to Bridge Street Methodist Church. The brethren were out in very large numbers in spite of adverse weather conditions. The service was particularly fitting for the occasion, the music being special and the sermon a powerful discourse on the books of Ecclesiastes and the Rev. Dr. C. T. Scott, the pastor, who is also chaplain of Eureka Lodge No. 283 A. F. and A. M. was in charge of the service and was assisted by Bro. the Rev. Dr. E. N. Baker, Principal of Albert College. Dr. Scott cordially welcomed the members of Moira, The Belleville and Eureka Lodges. Bro. V. P. Hunt, organist, presided over the musical service, the special numbers being Calkins' "Holy Communion" as organ prelude, Gonou's "The Peace of God" sung by the Choir, Wagner's "Prelude" Chorus as offertory and "Let the Lower Lights be Burning" sung by Messrs. Sanford Burrows, Monk, Moorman and Austin. The hymns were "Holy, Holy, Holy," "Fight the Good Fight" and "Blest Be the Tie." Mr. R. J. F. Staples sang most effectively "Open the Gates of the Temple" by Knapp. Rev. Dr. Scott based his address to the fraternity on Ecclesiastes 9, 10, "Whatever thy hand findeth to do, do it with thy might, for there is no work, nor device, nor knowledge or wisdom in the grave whither thou goest."

One of the melancholy facts of life is the brevity of existence. Every sane national being realizes that the end is certain, and we should not be indifferent. The Epicurean and Stoic attitudes towards life are as old as the race. The Epicurean said "eat, drink and be merry," but the Stoic said life is too significant and death is significant, why consider the transitory things of times. The book of Ecclesiastes closes in this tone. "The writer saw the grave as but the opening gateway to the real life and vast and glorious beyond."

Man is regarded by Ecclesiastes as a centre of force. Action is the law of life and man in action is the best thing of worth. The law of development is struggle and pain. "Work for the good that is nigh-

est. Dream not of glory afar." In "Ecclesiastes," the philosopher is standing by the open grave and musing. His advice was work. The man who lumps along is bound to be caught by base influences. The consciousness that we do not end in a hole in the ground but begins there, alone gives dignity to life. There is in the human heart a desire to perpetuate individuality beyond the grave. Man feels that all is not compassed in this brief age and that only those things that pass into the beyond have value—the spirit—the immortal that is within. Strange it is that man should have given into his keeping such a precious thing as the soul; how important that we should carve correctly. Only by daily culture of the spirit and association with the best can we achieve. Only by seeking the highest in others can we find it in ourselves. He who would save his life shall lose it. Our duty is to lead men into loving sympathy with God, into life in Him.

The philosopher tells man to do his work with all his might. The half-hearted man only half lives. The only way to make work worth while is to do it in the spirit of service. Humanity is swayed by certain elemental passions—fear, which must not be despised as it leads man to protect himself and society, and reaches its highest form in the fear of the Lord, which is the greatest wisdom; hope, the impulse which lures man all through the ages and lifts him, helps him bear his burdens and fills him with rapture at the thought of the Great Beyond. Man's enthusiasm for his work or calling is the measure of his success.

There is no atonement for lost opportunities. Man shall work beyond the grave but there will be no opportunities to reconstruct his unfinished work, to alter what might have been. We shall learn in the life beyond but there will be nothing that will leave a reflex influence on this life, no cross on which atonement can be made for our misspent lives. The call comes to us today when hearts are broken, to go out in the spirit of true brotherhood and resolve for a new consecration.

The Government will grant its employees at Ottawa, and it is to be presumed elsewhere, a month's holiday and pay provided that three weeks are spent working on farms. The Canada Food Board asks every one who can to arrange to help gather the harvest and this naturally suggests farming as holidays. Why not? Holidays do not mean as a rule merely loafing to young and vigorous Canadians, of to the most elderly ones. Change of air, new surroundings and other occupations are what most of us look for in our holidays. They can be found in helping to win the war. Therefore, as Chairman Thompson says, think over the question on the registration card in its personal bearing, "Are you willing to do farm work?"

TO-DAY'S CASUALTIES. Diet—H. J. H. Staples, Cobourg Wounded—T. Story, Belleville Prisoner Repatriated—L. F. S. Hubbs, Hastings.

Graduation at Holloway St.

Twelve Students Graduate From Primary to Intermediate Department.

Sunday morning the congregation at Holloway St. Methodist church witnessed an interesting ceremony—the graduation of twelve scholars from the primary to the intermediate department. Eight were honor graduates and four were graduates. All received Bibles to mark the occasion while the honor graduates received in addition silver medals. The graduates recited the Apostles' Creed, Ten Commandments, and Twenty-Third Psalm, the medallists also repeating the names of the Books of the Bible, and the Beatitudes. The Rev. J. N. Clarry, pastor, preached a very short sermon appropriate for the occasion. Rev. Mr. Howell, of the Christian Federation Movement, made an appeal in behalf of the refugee Belgian children.

Mr. and Mrs. Lorne Williams spent the week-end at Campbellford with the latter's parents.

20 Years of Prison For Seven Russellites

New York Court Metes out Sentences for Violation of Espionage Law.

(Special to The Ontario) New York, June 21.—Joseph F. Rutherford, successor of Pastor Russell as head of the International Bible Students' Association, and six of his associates, were today sentenced to twenty years' imprisonment for conspiracy to violate the espionage law.

The others sentenced are: William E. Van Amburgh, Treasurer of the Watch Tower and Bible Tract Society; Robert J. Martin, auditor of the society; Fred H. Robinson, personal representative of Rutherford; A. Hugh McMillan, superintendent of the Bethel Home, domicile of many members of the organization; George H. Fisher and Clayton J. Woodworth joint authors of "The Finished Mystery," and directors of the International Association. Sentencing of Giovanni de Cecca, another defendant convicted, was deferred for two months pending an investigation into his past career suggested by the court.

The sentences of twenty years are concurrent sentences of twenty years on each of four counts on which the defendants were convicted. Twenty years on each count is the extreme penalty, and Federal Judge Howe, who imposed the punishment, denied all motions for setting aside the verdict, staying sentence or liberating the defendants on bail pending an appeal.

Lieut. Col. Scobell Gallant Town Major

Zealous in His Assistance to Wounded and French Inhabitants.

(Special to The Ontario) Cobourg, June 21.—According to a letter received from Lt.-Gen. A. Haldane, commanding the Sixth Corps, Lt.-Col. S. B. Scobell, former O. C. of the 235th (Durham and Northumberland) Battalion, new Town Major in a town in France, has done much to help the wounded and the French inhabitants of these countries in the battle line by his good work. The letter states that Lt.-Col. Scobell carried out his duties as Town Major, Beaumetz, Les Loges, during the many bombardments of the village, with gallantry and zeal, being of great assistance to the wounded and also to the French inhabitants.

Girls Satisfactory as Elevator Workers

New departures for women are coming into existence every day. One of the latest is that of elevator operators, and the first large store to take the initiative in substituting girls for men is the Murray-Kay establishment on King Street.

"The men got quite impossible," said Mr. O'Connor, manager in speaking of this novelty in the matter of employment for women. "The girls have now been on three weeks and are giving great satisfaction. They are obliging and capable and have the knack of stopping the elevator at the right time." "Will they get the same pay as the men?" asked the news gatherer, the answer being that in a very short time they would. As a matter of fact the girls are getting more, even after a few weeks' service, within a dollar or two of what the men were receiving. The girls start to operate the elevators with the opening of the store at 8.30, a third girl acting as "relief," when those first on get each in turn a half-hour off. The third girl also relieves the others while they are at luncheon. From the customers' point of view, the girl on the elevator gives an impression in the right direction. Her appearance is pleasing, and this, together with politeness and attention to business, ensures success.

The uniform worn by the girls is of brown cloth, smart and neatly tailored. A skirt and closely fitted coat of medium length compose the two-piece uniform. The hands of the girls are protected by brown kid gloves. All indications point to a continuance of the initial success of the experiment.

Word has been received by the G. W.V.A. that neither Theodore Roosevelt or Charlie Chaplin will be able to attend the Dominion Day celebration. However, Elihu Root, eminent American statesman, and lately chairman of the American mission to Russia, has promised to come and deliver an address. Kingston Whig.

FROM ONTARIO TALC MINE TO WESTERN FRONT FIELD MARSHALL'S BROTHER MADE ARMY TAKE HIM

John Haig, Mine Manager, Nearing 60, Went Home to Do His Bit in a Humble Way—Toiled For a Commission—Not For Months Did the Commander-in-Chief Know Brother Was in the Army.

Ontario Telegram:

Eldorado, Hastings Co. Ontario, June 19.—When the outer circle of the great maelstrom of war caught and swept John Haig, elder brother of the British Commander-in-Chief Field Marshal Sir Douglas Haig, away from the almost primal quiet of a mining district in Hastings Co., Ontario, into the tremendous whirlpool, whose concentric point of engulfment is the Western front, it but added another to the remarkable and even romantic coincidences brought about by the Titanic conflict.

Douglas Haig went across to France as a renowned general; his brother, almost 60 years of age, enlisted in the army, unknown to the present Commander-in-Chief. Unable to enrol in the ranks, he finally obtained a junior commission.

Older Than Sir Douglas

John Haig is the senior of his soldier brother by several years. Early in life he devoted himself to mineralogy, and became a mining engineer by profession. His father was John Haig, J.P., of Cameronbridge, Fifeshire, and his mother, Rachel, fourth daughter and co-heiress of Hugh Veitch, of Stewartfield, Midlothian. While John was studying assaying and speculating on the world-wide openings which exist for the mining pioneer, Douglas Haig joined the 7th Hussars, fought at the Athara, Khar-toum and in South Africa, gaining fresh laurels in each successive campaign until the war with Germany gave him his great opportunity as the successor to Field Marshal Viscount French as commander of the British forces in Europe.

Almost Sixty Years of Age

Not much is known locally regarding John Haig's career before he appeared in Hastings County at the head of a reconstituted company for working a talc mine, but here in this comparatively remote and sparsely populated part of Ontario he worked for almost three years before the clarion call of war led him to abandon all his business interests and offer himself for service. At this time he was about sixty years of age, but this did not weigh with a member of a fighting family, and he determined to cross the Atlantic and volunteer for service at the front. He had had some experience in the militia, but the age difficulty was the chief and apparently insurmountable barrier in the way of his ambition to reach the firing line.

Used No "Pall"

It is characteristic of the man that it never appears to have occurred to him to use any influence with his brother towards the realization of his hopes. He went forward on his own initiative, and made straight for his goal, without the slightest attempt to pull a string. As a matter of fact, he never even told Sir Douglas that he was trying to get in to the army and he was serving for several months before the Commander-in-Chief was aware of his presence at the front. Those who know him say that was John Haig's way.

Sturdy and Vigorous

Having closed his personal connection with the talc mine near Eldorado—a high-sounding name for the tiny village on the C.N.R.—and not far from Madoc—John Haig and his wife at once sailed for England, where he promptly volunteered his service with the colors. He gave his age as fifty, and he did not look a day older. His life in the open had preserved his redness of carriage, clearness of vision and general air.

GOOD BLOOD "Blood will tell." Blotches and blemishes, like murder, will not out, unless the blood is kept pure. Its purity is restored and protected by the faithful use of BEECHAM'S PILLS

Worth a Guinea a Box. BEECHAM'S PILLS. Sold everywhere. In boxes, 25 cents.

of vigorous manhood. His figure was sturdily built, and to use the expression of a man who used to work at the mine: "John Haig was a fine figure of a man, and to look at him one would have thought he had been in the army." The speaker did not know that the man to whom he referred had served as a commissioned officer in the militia, but it is evident that his early training and experiences had left their mark.

Gazetted Second Lieut.

While young men were plentiful in the early days of the war, John Haig's efforts to enter the army were in vain, and it was just at this stage when he was experiencing successive disappointments, that he might have been expected to turn to his brother. But John ploughed his lonely furrow and eventually his pertinacity, patriotism, or personality, perhaps all three combined, triumphed, and he was gazetted second lieutenant along side men young enough to be his grandsons. He is today a captain in a British infantry battalion on the Western front, ably upholding the name of his distinguished family.

Brothers Meet

It was not until months after he had been on the firing line, and constantly in and out of the trenches with his regiment that his younger brother knew that he was "out there" and met him. "He was not the kind of a man who would ask a favor of anyone," said a man who had been employed at the mine "and he left as coolly and with as much indifference as if he were just taking a trip to Toronto. He used to run up to the city now and then to visit some friends, and when he and his wife went to England it was just as though he were making a short call on some city folk."

The "Eldorite" Company

It was in January, 1916, that John Haig said good-bye to talc mining in Hastings County. When he took over the mine on behalf of the interests he represented, it had been worked by an older company and the new venture was named "Eldorite Limited," manufacturers of air-floated talc and eldorite. Talc is a mineral of a soapy feeling and is used for the making of toilet powder, soap, paper and lubricants. After being mined the mineral is ground and shipped in bags, the process of treatment being something akin to flour milling, the machinery resembling that used in the latter industry.

Lived in Shack

For three years John Haig and his wife had lived in the woods. When they first went to Eldorado the couple boarded in the village, but when things got busy he had a three-roomed shack built and here they lived in summer heat and winter cold. About fifteen men were permanently employed and the daily output was some forty tons. Two shafts were sunk to a depth of about ninety feet, and then connected, but according to the owner of the mine, George C. Gordon, the workings are now flooded and the machinery is rapidly becoming worthless.

Mine Derelict

Today the calm of desolation prevails at "Eldorite." The bush is creeping back to its wonted luxuriance, rioting over the shafts, pushing upwards through bits of abandoned machinery and wiping out all traces of man's handwork in many places. All round the mine is a heavy growth of spruce and hemlock and the shack in which the manager and his wife lived is almost completely covered in gloomy timber. The outbuildings, however are in a good state of preservation, and the mill does not seem to be much worse for the stoppage of work.

Picture of Desolation

John Haig would not know his office if he saw it today. The glass top has been removed and the drawers have been turned inside out.

so that the contents are strewn half a foot deep over the floor. Daily production sheets, way bills and memoranda of various kinds are scattered about, and the place looks as if it had been thoroughly ransacked from one end to the other, but nothing appears to have been removed. A fine safe lies in one corner, but any attempt has been made to open it no traces have been left. But the general aspect of the place is one of complete desolation and abandonment. It is said that St. Douglas Haig had an interest in the undertaking but that he only countryside rumor.

Regret Departure

"Mr. Haig went away in January, 1916, and the mine ran only until the following May," Mr. Gordon told The Telegram as he glanced some what ruefully at the derelict mine, thinking doubtless of his lost royalties. "I always found him a fine man, and he was most straightforward in his dealings with the men and myself. It is an awful pity to see the mine in its present state and rapidly becoming worse. I believe the talc is not up to the highest standard, and it is not equal to that mined at Madoc, but I believe what was taken out could have been made commercially profitable. I have not heard of any arrangement to restart working, and personally I regret very much that Mr. Haig went away."

Left Without Fuss

"I had a letter from the man who succeeded him asking me if Mr. Haig had thrown up the lease. He has not done so, as he has one from the old company, but I cannot tell how matters stand between them just now. We thought it strange that Mr. Haig never told anyone of his contemplated departure until everything had been arranged but that was the sort of a man he was, quick to make up his mind and just as speedy in action. He had a way of getting what he wanted, and I am not surprised that he should have been able to get into the army even at his age. When he left he just called me into his office and said: 'I am leaving a manager in my place, and I am going away.' That's all he said."

Wife A Nurse

Mr. Gordon again glanced at the deserted buildings and spoke regretfully of the money lost in the installing of modern machinery, shaft-sinking and buildings, but expressed the hope that Captain Haig would return after the war and resume mining. "I had a letter from him" he continued, "and I understand that while he is at the front Mrs. Haig is nursing wounded soldiers. It is just what I would have expected from them both. They are certainly a fine couple. The mine gave considerable employment heretofore, but to my mind it never did much good after Mr. Haig went away."

Lonely Location

Mr. Haig had full control of the mine," said William Warren, who lives at Bannockburn, a village further north of Eldorado. "He was a good man to work for, but he liked an honest day's work from everyone, and I suppose you can't find much fault with him for that. But the talc was not his first class; too much grit or quartz in it, I think and hard to work on that account. Still, he shipped a lot of the stuff and might be doing so still so far as I can see. Mr. Haig and his wife seemed to be comfortable enough in the shack he had built between the mill and the Moira river, but it is a lonely place and must have been pretty dull for them both. Still they seemed to be quite contented. The men at the mine were surprised when the manager went to war, as he was over middle age. But he was just the kind that would be certain to try and get to the front."

"Prospects"

It would not be accurate to describe the mining region of North Hastings as desolate. Much of the country is cultivated, and dairying, lumbering and mining are the chief industries. Many stretches of landscape are beautiful. There is still much wood left, and away to the north a prominent range of serrated hills stands out boldly, looming up in the summer haze in a shade of amethystine blue, and lending interest and variety to the rolling and undulating country leading to the "height of land." Everyone in these little villages along the line of railway talks "prospects." As the cars travel northward from the Bay of Quinte the country becomes more sterile, and there are large outcroppings of rock in the fields.

War and Mining There is a gold mine north of the Moira River, near Bannockburn, but it has been abandoned. The war has affected mining as it has affected every other industry in the country. Seven miles further away another gold mine is also a derelict following a forest fire. A couple of miles from Bannockburn two Americans are said to have made a good clean-up at a lead mine, which had been given up, but they found enough ore in the dump to make a moderate "killing." Prospectors still roam the country looking for favorable indications of one kind and another, and it is said that after the war there will be a boom in many directions.

Friends in Toronto

Be that as it may, however, those who live in the neighborhood of Eldorado and Bannockburn hope that sooner or later John Haig will come back to the scene of his former activities. Although Mr. and Mrs. Haig had friends in Toronto, it is not known whether or not they had any relatives in the city. It is a coincidence that Mr. D. C. Haig, of Spadina Road, Toronto, has the same family crest as the Fishkings Haigs, the motto being, "Tide what may." His branch of the Haigs comes from a neighboring county in Scotland, but he has never had any genealogical records looked up. A letter they received from Mrs. John Haig states that she believes the families are connected, but the matter rests there.

FRANKFORD

The terrible electrical storm which passed over our town on Tuesday night struck the end of Mr. D. A. Ketcheson's house and did much damage to the house also to some of the furniture in the dining room. The little son of Mr. and Mrs. Wm. Wannamaker of River Side was buried on Wednesday afternoon. The service was conducted by Rev. J. Knox at the home, as the father is in very poor health. Much sympathy is extended to the bereaved ones in their sorrow and trouble. Mr. and Mrs. G. E. Sine spent Wednesday in Belleville. Mr. Ernest Williams of Toronto, is visiting his brother and wife, Mr. and Mrs. W. Williams in town. Mr. and Mrs. T. Gunter of Murray have moved to town. We welcome them in our midst. Rev. B. F. Byers was in town on Thursday. The Women's Institute held their meeting on Friday afternoon and several of the ladies from Wall-bridge were present. Miss Jessie Smith is visiting with friends in Tweed for a couple of weeks. Miss Mabel Sine of Toronto, is visiting her mother and father, Mr. and Mrs. G. E. Sine in town. We were favored on Sunday by having Rev. and Mrs. Craig, Missionaries on furlough from Japan, also former pastor of Frankford, preach in the Methodist Church both morning and evening. It is eleven years since Mr. Craig left town and they have spent seven years in Japan. Gerald Farley left on the midnight train, Sunday, for Montreal, where he will enter college and finish his education as a mechanical engineer. Mr. John Windover has so far recovered as to be able to be brought home last Sunday. His son, Mr. W. E. Windover, brought him home in the car. He is still very weak. Mr. and Mrs. W. W. Carter of Concession, spent Saturday night and Sunday with Mr. and Mrs. C. R. Turley. There was a small fire in town on Saturday. An old building, used as a store house near the evaporator, caught and was not long in burning down. It also caught fire to some boxes on the siding burning one and the second one was removed down the track and the fire was extinguished before much damage was done to it. Mr. and Mrs. Roy Bell also Mr. and Mrs. Reynolds of Campbellford, spent Sunday afternoon with Miss Edith Bell. Mr. and Mrs. W. H. Bell were the guests of Mr. and Mrs. Jas. Fox of Wooler on Sunday. The stork visited the home of Mr. and Mrs. Clarence Adams on Monday morning and presented them with a son. Congratulations.

NILES' CORNERS

Mr. and Mrs. Fred Ellis and daughter and Mr. and Mrs. B. Ellis spent a recent Sunday at Cold Creek. Mr. and Mrs. Earl Ellis and son, Mrs. Lucinda Murphy and her mother, Mrs. Jane Clarke, and Mr. and Mrs. C. Ryan were guests of Mr. and Mrs. Joseph Ellis on Tuesday. Miss Alma Reid of Melville, visited her sister, Mrs. Harry Dafoe last week. Mr. C. Ryan went to Belleville to Dr. Chant, Eye Specialist, on Thursday. Mr. and Mrs. Earl Ellis and son were guests of Mr. and Mrs. Anthony Murphy at Wellington on Wednesday. Mrs. Lucinda Murphy spent Thursday with Mrs. Oscar Benham at Swamp College. Mrs. C. Ryan spent Thursday with Mrs. Earl Ellis and Mrs. Clarke. Mr. Hilton Clapp has greatly improved the look of his residence by repainting it. Mrs. E. Nease visited Mrs. C. Ryan on Friday. Mr. and Mrs. Alex. Watt and two sons, Mr. and Mrs. C. R. Spencer of Concession, called on relatives here on Sunday, en route for Wellington to visit Mr. and Mrs. Smith. Mr. and Mrs. Daniel May and children of Little Kingston, spent Sunday with the latter's parents, Mr. and Mrs. C. Ryan.

MELVILLE

I hear in the early morning, In the dusk of the twilight dim, A bird singing over and over The notes of his morning hymn. Then the sun drops gold on the hill-sides, Which are decked in pearls of dew, And a wind whispers soft in the grasses And ushers the day anew. And in a tree by the window A robin has built her home, And sings in the glorious sunlight That falls from the sky's bright dome; And the earth glows green and golden In the light of a bright June day, While the heart dreams of a June-time, That never shall pass away. —Helen B. Anderson.

Mr. and Mrs. Jas. Halliday, Massasauga, accompanied by Mr. and Mrs. H. Snider, motored to Mr. W. E. Davidson's on Sunday. Mr. and Mrs. G. Fyne, Crofton, recently visited with Mr. and Mrs. F. Weeks. Mr. and Mrs. W. Vessels, Belleville, were recent guests of Mr. and Mrs. Albert Carley. Mr. Jas. Morton sold a valuable horse last week. Mr. D. H. Young, Miss Luella, Miss Mulholland, Mrs. Ed. Anderson and Mrs. A. Adams were among those who were in Belleville on Saturday. It is with genuine regret that parents and pupils learn of the resignation of our teacher, Miss L. Mulholland, Dundas, who for the past year has conducted Melville school most successfully and satisfactorily. The best wishes of many friends will accompany her to Thorpew, where she will teach the coming year. Miss Ella Locklin will act as assistant deputy registrar at the general registration in the school house on Saturday, June 22nd. Mr. and Mrs. Alva Miller spent Sunday with friends at Niles' Corners. Mr. Gilbert Osborne was the recipient on his birthday, June 15th, of a pretty nature scene painted and presented by his daughter, Miss Frances, of Oshawa. It is neatly framed and is a work of art doing credit to the young artist and promising something of artistic work in the future. Miss Elizabeth Blackly, Wellington, has returned home after spending several weeks with her sister, Mrs. W. H. Anderson. Mr. C. Osborne spent the weekend with Mr. and Mrs. C. Clapp, Lake Shore. Mrs. Freeman French and Miss Oral drove to Albany on Thursday. Mr. W. H. Morton sawed his wood-pile on Thursday. This certainly beats the record for late sawing. Mrs. C. Osborne spent a few days the guest of Mrs. M. Harston, Madoc. The ladies of the W.M.S. held their June meeting at the home of Mrs. Frank Zufelt on Thursday afternoon with the president, Mrs. J. Kinnear, in charge. A pleasant and profitable time was spent, among those present being Pte. Buckler, a returned hero, who lost his right arm on active service. Pte. Buckler when asked concerning the work of the Red Cross among the soldiers, spoke in highest terms of the comforts supplied by this society. The hostess served refreshments. The ladies of our local Red Cross and W.M.S. Societies have decided to do without refreshments at these meetings during the war, an example indeed worthy of imitation. Miss Ella Locklin, B.A., of the teaching staff of Napanee Collegiate,

is enjoying a week's holidays under the parental roof before going to Toronto where she will be one of the examiners in art. Mr. Gilbert Osborne spent last week in Toronto and Oshawa, returning home on Friday. Rev. Mr. Mutton returned on Wednesday from attending Methodist Conference at Lindsay. Our church is spick and span after a thorough spring cleaning. The ladies who did the work are to be congratulated on the thoroughness of their efforts. The young men who cleaned the stove pipes also deserve credit for their timely assistance. Miss Lida Weeks, delegate from Melville auxiliary, attended the branch meeting in Picton last week. Mr. Arthur Kinnear is now better after a brief illness. Mrs. Jas. Morton and Mrs. Aurelia Morton drove to Picton Friday. The farmers are busy cultivating and hoeing to keep down the weeds. Most of the beans have been planted and early planted corn looks fine and is ready for the cultivator. The ordinary grain crops are looking most promising. June in garb of green and gold, Scattering roses as of old, Trips across the summer scene, Of the months she is the queen; Grass grows where her footsteps fall, Birds sing at her morning call, Skies are blue with nought of grey While she passes on her way, Scattering with lavish hand Nature's blessings o'er the land, Giving us a promise free, Of the harvest yet to be. —H.B.A.

Farmerettes For Hastings?

Miss Straith, of the Women's Department of the Ontario Department of Agriculture introduced the subject of farmerette work on the farms of Hastings to the county council yesterday afternoon. Mixed farming was the object of this year's work. Where possible girls are sent in groups, properly chaperoned and cared for. The bureau tries to give satisfaction on both sides. The minimum wages for inexperienced help was \$15 per month with board for a ten hour day or \$1.50 per day without board. The city bred girls are among the most successful. Girls from schools, colleges, factories are giving up their summer. The department would be glad to send in some of these girls to help the farmers of this district. Warden Montgomery said the council would likely take up the question. Consulting Engineer George Hogarth of the Department of Highways addressed the council regarding the expenditure and construction of St. Lawrence Street in Madoc, explaining an agreement with ex-reeve T. H. Thompson, of Madoc now M. P. for East Hastings. He explained why the expenditures exceed the estimates by reaching perhaps \$30,000 instead of \$17,000. The cause was under-draining and culvert construction. Damage by flooding in a spring freshet at Stirling was asked for from the county by a man who had a pic drowned by the water. The matter was left to the warden and chairman of roads to decide. Council discussed at some length road building in and about Deseronto, the aviation camps and the Mohawk reservation.

Young Preacher Went Insane

WAS BROUGHT TO BELLEVILLE THIS AFTERNOON BY TRAIN. A young minister who went suddenly insane while preaching to his congregation in the northern part of Hastings last Sunday morning was brought to Belleville today by the C.N.O.R. train and taken at once to the county jail to await removal to a hospital. He was very violent and had to be closely guarded all the way from his home. TO-DAY'S CASUALTIES Killed—R. R. Heaslip, Peterborough Gassed—J. Denham, Warkworth Presumed to have died—C. R. Baker, Warkworth Missing—Lieut. E. T. S. Kelly, Picton

HAROLD

Mr. and Mrs. John West spent Sunday at Mr. Roy Heath's. Mr. Robert Cranston has bought a new Ford car. Mrs. Thos. Cook spent Sunday in Madoc. Mr. Jas. Potts, of Portamouth, Ohio, is visiting his parents and friends at Harold. Mr. and Mrs. Will West and little Harold called on Mr. John West's Sunday evening. Mr. and Mrs. Louis Wilson spent Sunday at Glen Ross. Mrs. Spencer Simmons, of Delora, spent a few days at Mrs. J. Martin's. Mrs. J. A. Heath is visiting her many friends about Springbrook. Messrs. John Runnels, Blake Faulkner, Clarence Runnels, Wm. J. Runnels and Garfield Runnels motored to Kingston on Sunday. Mr. Harry Heath and family spent Sunday in Campbellford. Harold Chase and Butter Factory has the well-drillers sinking a new well to supply the factory.

Washington experts have developed a new war bread composed of 70 per cent. wheat and 30 per cent. soya bean flour, a slice of which is said to be equivalent to a roast beef sandwich.

Readers of American magazines and newspapers and those who come in touch personally with Americans, have been struck by the fact that the game of golf is gaining popularity in the United States by leaps and bounds, and is appealing not only to those who are not interested in other outdoor sports, but to the baseball expert, to the football player and to the boxer. The game is gaining a hold approaching that which it possesses in Britain. What is the cause of this rapid progress made by golf? Has the war anything to do with it? Unlike such games as baseball, football and others of similar type, golf is a sport in which the "dub" can find as much enjoyment and as much exercise as can the expert. It is not a game for the onlooker or "rooter", but for the player. It is suitable equally for the young man of unbounded vitality and the old man who is inclined to take his pleasures more slowly and sedately. It is a game for everyone, male and female. Since war disturbed the world sports have suffered, both in the old and on this continent. There has been a disposition to look upon attendance at games as contrary to the best interests of the cause, and it may be that this feeling has led people to look around for something which will be a recreation and can be justified on the grounds of exercise and health. It is not to be wondered at that golf has appealed to so many.

In times like these men need distraction from business cares and worries and they need physical exercise to keep them in condition. Nowhere better than the golf links can this distraction and exercise be found. With the fresh air, the testing of every muscle of the body, the need of clear eyesight and steadiness, golf offers wonderful possibilities, and the greatest proof of its utility and attractiveness is that few of those who try a few games care to give it up while they can walk and swing a club. The city is that there are so few facilities for the average man or woman to learn the game in Canada. The links which do exist are kept rather exclusive and memberships of clubs are expensive. The advertiser some time ago advocated municipal links, or, if this is not feasible, perhaps money could be found to establish a course and run it for the multitude on small annual payments. Golf is going to become more popular as time goes on, and London might well take the lead in encouraging it by laying out a course for the benefit of the populace, where all could foregather and enjoy the health-giving outdoor game. —London Advertiser.

Misses Kathleen and Lillian Manley left on Wednesday morning for Detroit to visit their brother, Mr. Thos. J. Manley of that city.

At the recent Toronto Conservatory examinations held in Belleville Evelyn Campbell obtained first class honors in the elementary grade. She is a pupil of Miss Cooper.

# REEVE OF THURLOW HONORED LAST EVENING

### Magnificent Grand Father's Clock Presented to Mr. Nathaniel Vermilyea by Residents of Township—Tributes to His 43 Years of Public Life.

A graceful and thoughtful recognition of the township of Thurlow's debt of gratitude to the honored reeve of the municipality, Mr. Nathaniel Vermilyea, was paid last evening at the town hall, Cannitton, when he was made the recipient of an address and presentation. A record in municipality service such as few, if any, can equal has been Mr. Vermilyea's. The truth of this was amply sustained by the trend of praise showered upon the reeve by members of the township and county councils, and by well-known citizens. Irrespective of politics, the township citizens united in bearing tribute to his painstaking services.

No more fitting gift could have been made than the one selected by the citizens and committee—a beautiful eight-day quarter chime grand father's clock of English manufacture with tubular chiming. In its plate glass and rich mahogany case, the instrument would be an adornment for the finest home in the land. It was imported by the well known firm of Ryrie Bros. Toronto, whose representative, Mr. Crosswell, attended the function. A presentation plate will adorn the front. During the evening the mellow chiming sounded again and again as the half hours rolled by and marked off many an apt address.

Thurlow was well represented, the township being crowded when Mr. R. J. Garbutt called the meeting to order and explained the purpose of the gathering. Lt. Col. W. N. Ponton, K. C. of Belleville then took the chair. Greeting the assembly the chairman referred to his early association with Thurlow. All rose and sang lustily "God Save the King," not as a dirge but as a triumphant song. The colonel was in his happiest mood putting through an extensive program, in which the members of the county councils and officials all had an opportunity to offer a word of praise for Mr. Vermilyea.

Col. Ponton read letters of respect received by Township Clerk C. A. Callery, Rev. Dr. Baker of Albert College, Sandy Grant, M.P.P., W. B. Northrop, Clerk of the House of Commons, Wm. Clarke, F. E. O'Nigh and John A. Holgate of Bowmanville. All expressed their appreciation of the work of Mr. Vermilyea of Thurlow, and the hope that Mr. and Mrs. Vermilyea would long enjoy the gift. Mr. J. W. Johnson, M.P.P. for West Hastings and Mr. H. K. Denyes sent verbal greetings.

The Belleville quartette—Messrs. S. R. Burrows, W. H. Wrightmyer, H. Moorman and E. T. Austin added to the enjoyment of the evening by the rendition of the vocal numbers—"Rocked in the Cradle of the Deep," "I Want a Girl" and cornfield melodies.

#### The Presentation.

When Mr. Charles A. Callery, secretary and Mr. R. J. Garbutt, chairman of the subscription committee stepped forward with the guest of the evening, Mr. Vermilyea, the audience cheered. The large clock stood veiled until Mr. Callery reached the presentation words of the address, when Mr. Crosswell, at the direction of Mr. Garbutt drew aside the curtain and the beautiful timepiece was revealed.

Mr. Callery spoke as follows:—  
Dear Mr. Vermilyea,  
Your fellow residents of the Township of Thurlow in the County of Hastings, have for many years realized your whole-hearted, faithful and efficient public service in the Township which has been for so long the home of yourself and your esteemed wife and family. And now in these great days of crisis when the value of such public spirited citizens as yourself is more and more appreciated, and the unity of the community in our common cause is expressed in action, we desire, irrespective of politics or the old party lines happily forgotten to give some tangible mark of our regard, some visible token of our gratitude for your long and loyal work in all that concerns the welfare of the Township and the County, and we beg your acceptance of this Grandfather's Clock in the sincere hope that it may tell of many months and years to come of happiness and health and of continued participation in the direction of our Municipal affairs which you have managed with such impartial skill, assiduous care, untiring zeal, and an official experience which few, if any, in Canada can equal. Founded upon

any but friends of mine in the county council. That is the spirit in which business should be done." He was heartily sick of the name politics. He believes one party was as sincere as the other. He has come to this conclusion as a result of his experience.

"I thank you heartily for your gift. I shall treasure it long," he said in closing.  
A happy thought of the chairman's was to have Mr. Crosswell right the chiming of the stately timepiece. Col. Ponton recalled Longfellow's words on "The Clock": "Forever—never," "never—forget." The last note was always optimistic, he declared. In the hush of the hall the silver notes rang out.

County Treasurer Burnham Mallory declared he was pleased to share in doing honor to the reeve of Thurlow, who had always been in intimate relations with Sidney.  
County Clerk W. H. Nugent joined in the greetings. Thurlow has done the right thing, Mr. Vermilyea has done much for Hastings as well as Thurlow. His influences in helping the younger members of the county council was felt by all. Mr. Nugent declared he sincerely appreciated Mr. Vermilyea's qualities and capabilities.

Road Superintendent Henry G. Bleeker, although introduced by the chairman as the great "highway man," made a very pleasing address, congratulating Thurlow on its expression of good will and Mr. Vermilyea on enjoying their confidence.

Mr. John Elliott declared Mr. Vermilyea was worthy of any honor that could be showered upon him. For twelve years he had known Mr. Vermilyea. His debating powers are of the very highest order. Mr. Vermilyea has brought the farming community of Thurlow honor from the outside. The chiming would remind Mr. Vermilyea of a life well spent.

Mr. Robert P. Coulter, ex-reeve of Stirling said: "I am a student under Mr. Vermilyea. I have learned a great deal as a result of having such a teacher as Mr. Vermilyea. He has the shrewdness of the county council. He has always stood for the best interests of Thurlow and Hastings. While always looking to the interest of economy, Mr. Vermilyea was always among the first to vote grants for patriotic purposes."

"Dollars and cents would not pay him. This is a little recognition of his service."  
Bright pithy addresses were given by Ex-Warden Peter McLaren; Thomas Naylor, reeve of Deseronto; Reeve J. V. Walsh, W. H. Kells, C. S. Rollins, of Wallaston; Mr. Clarke, Thomas Laycock, of Marmora, R. T. Gray, of Marmora Village, C. W. Thompson deputy reeve of Rawdon, J. Gunter, of Tudor; J. Burns, of Madoc; T. H. Matthews, of Stirling, W. J. Jeffrey, of Huntingdon, C. Ballard, of Montegale, Reeve Harrett of Carlow county, Engineer Aylsworth, of Madoc, Charles Vanderwater and James Moore.

Mr. McLaren said to the farmers that he would not cast another vote except for a farmer for parliament. A man like Mr. Vermilyea should have been in parliament long ago.  
Col. Ponton paid tribute to Mrs. (Dr.) Faulkner for her work in the Red Cross and announced that Thurlow had gone "over the top" in its subscription and the Red Cross will receive over one hundred dollars this being the surplus over the purchase price of the clock.

"One thing Mr. Vermilyea does do is preserve the dignity of the county council," declared Mr. Walsh.  
Several speakers referred to Mr. Vermilyea as "father of the county council." He had been a bureau of information to the county councillors.

"Had Mr. Vermilyea lived in the north country, he would have been in the senate years ago," said Reeve Burns of Madoc.  
"While I admire the gift," declared Mr. Gunter, "I don't know why he needed a clock. In all the thirteen years I have known him, he has never been late for county council."

"Mr. Vermilyea is the ideal representative of democratic institutions," declared Mr. Frazer Aylsworth.  
Thurlow Council Pays Honor  
Thurlow councillors then had their turn to praise their reeve. Mr. Dan McDonald expressed his appreciation of the services of Mr. Vermilyea.

Deputy Reeve J. G. Sills thanked Thurlow for its loyalty to Mr. Vermilyea. Thurlow knew of his worth. He was the most important figure in the fight for equalization of the assessment. Mr. Sills was glad of what Thurlow had subscribed and for the surplus which will be devoted to the Red Cross. He only hoped the war would speedily end with the triumph of democracy.  
Mr. W. B. Tufts made a rousing speech which made the walls resound with laughter. Mr. Vermilyea said

Mr. Tufts in one of his quiet moments, had been a true friend of the councillor of Thurlow.

#### A Parting Word

A parting word from Mr. Vermilyea was heard: "If I have made a success, it is because I have been surrounded by good men. Politics have no place in municipal life," he declared. "I am proud of Thurlow. The people of Thurlow are reasonable, Tories and Liberals. A man should have firm convictions but he should not think the less of another because of firmness of convictions. I thank you all for the undeserved compliments. Until the last day of my life, I shall remember your kindness."

Mr. Vermilyea expressed the hope that the Union Government would leave such an impress that the old bitterness of party strife would be forgotten.

"Whatever I am, Thurlow made me. The idol of my heart is Thurlow. In keeping Thurlow I know I am benefiting the country."

"I think it the greatest mistake in the world to put men in council who cannot run their own business successfully."

Col. Ponton in closing the meeting paid the highest tribute to Hastings and Thurlow and extended a real Irish wish to Mr. Vermilyea for continued good health and happiness. The audience cheered for His Majesty the King and again for the Reeve of Thurlow.

## K. of C. Ask \$3,000 Grant

From County Council—Request of Deloro Company—Car For Supt. H. G. Bleeker.

Mr. Wright, of the Deloro Smelting and Refining Company appeared before the county council yesterday requesting assistance in repairing the county road from Marmora to Deloro. The plant has 350 operatives, some of whom are compelled to live in Marmora Village. The company had financed a motor bus service this year but its effectiveness is spoiled by the condition of the road. The company was prepared to guarantee \$500. He requested a grant of \$1,000 from the council. The top would have to be cut off a very steep hill. An act comes into force next January whereby Deloro becomes an incorporated village. This step was taken by the company in order to make improvements locally—lighting and sidewalks.

Road Superintendent Bleeker said the \$1,500 would materially assist in keeping the road in shape. The representative of the company invited the council at any time to visit the works.

The workers said the council would give consideration to the request.  
The work of the Knights of Columbus at the front was brought to the attention of the county council on Thursday afternoon.

Mr. A. B. Collins stated how the K. of C. had co-operated with the Y.M.C.A. in France last year the good Knights in Ontario subscribed \$80,000 for Knights of Columbus army huts. These huts are used by men of all creeds for recreation and are non-denominational. The work is endorsed by prominent Canadians, by President Wilson and the American Government. In these trying days it behooves everyone to sacrifice. All county councils are being approached.

Mr. John Lally, Grand Knight of Belleville Council said there was a drive on now for \$250,000 for Canada. The work is cosmopolitan, non-sectarian. In the United States the K. of C. carry on the work in the training camps as well as overseas. The deputation appeared on behalf of the Canadian Jurisdiction. Mr. Lally quoted figures to show the grand work of the society. He told of the aim of the society to provide means to keep pure the men at the front. The Belleville council requested a grant of \$3,000. The council would not only thank them, but the boys at the front would bless them.

Warden Montgomery spoke on the merit of any organization working for the comfort of the soldiers at the front. However the work of the Knights of Columbus was new to the council. The Y.M.C.A. was well known since the war started. He was satisfied that the activities of the K. of C. were on a par as far as he could find with the work of the Y.M.C.A. The council would give fair consideration to the grant.

Mr. Walsh, although not a member of the K. of C. favored the granting of the request. The request was referred to ways and means.  
Mr. Meslin, of Thomasburg, asked council to transfer to him an old gravel pit on condition that he fence a gravel pit near the road. The request was referred to the superintendent and chairman of roads.

Warden Montgomery strongly favored the purchase of a car at once. He moved, seconded by Mr. Naylor that a car be purchased at once for the road superintendent to get around and see the roads. The resolution was supported by Mr. Walsh. The resolution carried.  
J. V. Walsh moved, seconded by J. Naylor that this committee recommend that the equalization of the county remain the same as in 1917 with the exception of Tyendinaga, Huntingdon and Marmora and that the equalization of the named municipalities be—Tyendinaga \$1,825,000, Huntingdon, \$1,126,500 and Marmora, \$260,000.—Carried.

This means a reduction of \$27,400 in Tyendinaga's assessment, of \$20,000 for Huntingdon and \$15,000 for Marmora.

## PUBLIC NOTICE

### Military Service Act, 1917.

#### Men 19 and 20 Years of Age. Harvest Leave.

#### Leave of Absence on Ground of Extreme Hardship. Procedure to obtain Leave of Absence.

#### Men Nineteen and Twenty Years of Age.

It has come to the attention of the Government that there is a widespread impression that young men of nineteen years, and those who became twenty since October 13, 1917, as well as those who may become nineteen from time to time and who have been or will be called upon to register under the Military Service Act, are to be immediately called to the colours.

This impression is quite incorrect. No date has yet been fixed for calling upon such men to so report for duty, nor has the question been brought before the Cabinet for decision. In view of the need of labour on the farm, it is most unlikely that consideration will be given to the matter until after the harvest is over, although of course the Government's action must be determined primarily by the military situation.

There is no further obligation incumbent upon young men of the ages above mentioned who have registered or who do so hereafter, until they receive notice from the Registrars.

#### Harvest Leave.

Some enquiries have been received as to the possibility of granting harvest leave to such troops as may be in the country at that time. No definite assurance can be given on this point as advantage must be taken of ships as they become available. On the other hand, harvest leave will be given if at all possible.

#### Leave of Absence on Grounds of Extreme Hardship.

It is desired that the Regulations respecting leave of absence in cases of hardship should be widely known and fully understood. Such leave will be granted in two cases:— (a) where extreme hardship arises by reason of the fact that the man concerned is either the only son capable of earning a livelihood, of a father killed or disabled on service or presently in service overseas, or in training for such service, or under treatment after returning from overseas; or the only remaining of two or more brothers capable of earning a livelihood (the other brother or brothers having been killed or disabled on service, or being presently in service overseas, or in training for overseas or under treatment after his or their return from overseas); brothers married before 4th August, 1914, living in separate establishments and having a child or children not to be counted, in determining the fact that the man is the "only" remaining son or brother; (b) where extreme hardship arises by reason of exceptional circumstances such as the fact that the man concerned is the sole support of a widowed mother, an invalid father or other helpless dependents.

It is to be noted that in all these cases the governing factor is not hardship, loss or suffering to the individual concerned, but to others, that is, members of his family or those depending upon him.

#### Procedure to obtain leave of absence.

A simple system for dealing with these cases has been adopted. Forms of application have been supplied to every Depot Battalion and an officer of each battalion has been detailed whose duty it is to give them immediate attention. The man concerned should on reporting to his unit state that he desires to apply for leave of absence on one or more of the grounds mentioned and his application form will then be filled out and forwarded to Militia Headquarters, Ottawa. In the meantime, if the case appears meritorious, the man will be given provisional leave of absence for three days so that he may return home and continue his civil occupation while his case is being finally disposed of.

#### Obituary

On June 13th there passed away at her home in the Village of Madoc, Daisy Lillian, beloved wife of Wilford Phillips, after an illness of only a few hours. Deceased was only twenty years and ten months old. She leaves, besides her sorrowing husband, her parents, Mr. and Mrs. Fred Keller, of Huntingdon; four brothers: Herbert L. of Madoc, William of Marmora, and Percy and Harry F. at home; and one sister, Lucy L. at home.

The funeral took place at Bethesda Church, White Lake, on Saturday afternoon. Interment in White Lake cemetery.

The deepest sympathy is extended to the bereaved family.

#### BIG ISLAND

A number from this vicinity attended anniversary services at Knox Church, Demorestville, on Sunday.

The Women's Institute will meet June 26 at Mrs. J. M. Kerr's.

Mr. and Mrs. S. Sills, of Belleville, spent Sunday evening at J. E. Sprague's.

Miss Marguerite Hallett is spending the summer with her grand parents, Mr. and Mrs. S. Simpkins, Thomasburg.

Mr. and Mrs. J. M. Kerr are visiting friends in Hastings.

Mr. and Mrs. Hiram Ketchapaw spent a couple of days recently with their son and daughter, Mr. and Mrs. J. B. Delong.

Wm. Vitter has a new motor boat home to a coat of paint.

Mr. Chas. Peck and Miss Mary Kerr spent Thursday afternoon with Miss Luella Sprague.

Pte. Percy Allison and A. Moran are home from camp until July 1st. Mr. and Mrs. Lee Williams motored to Kingston recently.

A number from Northport spent Sunday afternoon at Quinte Point.

Mr. and Mrs. D. Johnson visited Mr. and Mrs. T. Hutchings, of Pictou, on Monday.

The Institute shipment this week consists of 11 suits pyjamas, 10 wash cloths, 24 handkerchiefs, 8 towels, 8 pairs socks.

BLAMING IT ON KANT

Written for The Ontario by Chas. M. Bice, Lawyer, Denver, Cal.

It is the philosophy of Kant, declares the Kaiser, that has enabled the German people to win their great victories, and he is speaking with special reference to the glorious achievements in Russia.

But this is a little rough on Kant. We greatly doubt that the German philosopher had any thought when he advanced his theory of dualism and the categorical imperative, it would be used in later times to justify the barbaric cruelties perpetrated by Prussia in the name of "Kultur."

The real truth is that behind the philosophy of Kant is the theocratic spirit of Prussia, and Prussia has found the teachings of a man, part philosopher, part theologian and part mystic serviceable for the expression of its spirit.

Kant gave to the German the idea of duty, and duty hallowed all deeds. The moral and the physical worlds were, in his thought, wholly separate—heterogeneous. A man must obtain his sense of duty from the moral realm, the realm of certitude. The ethical value of an act lay not in its visible aspect or consequences, but in the form of the will that impelled it.

The average man finds it difficult to penetrate the transcendental realm of certitude, and here Prussia came to his aid. The state assumed the function and declared itself to be the source of all moral authority—the sole interpreter of duty.

The moral law in Germany has been summed up in one easily understandable, readily applicable rule:

"The man who obeys his superior is free from reproach."

And thus the system of perfect discipline was built up from the civilian to the emperor, riding the individual conscience of all embarrassments and making autocracy both a philosophy and a religion.

The emperor, by his own assertion "Is responsible to the Creator alone, without this awful responsibility ever being, in the slightest degree, shared either by ministers,

assemblies, or peoples." Thus declared the Kaiser in 1897. Hence, what we have called atrocities, and stigmatized the German people as outlaws for committing them are only so because we view such acts from the purely physical plane, judging the moral value of them by their visible aspect, instead of by the sense of duty to the state which impels them. In the realm of certitude these acts—blessed be Kant—are justified and free from blame. Have they not been committed in obedience to authority, the state, and is not authority derived from the emperor, who alone is responsible to God?

We, the democrats are at a great disadvantage, since we have no such plainly charted route to the realm of certitude, from whence we may hear the voice of duty justifying whatever deeds we commit in the pursuit of ambition and the gratification of lust. We find it difficult to detach the moral value of an act from the nature of the act itself, or to conceive a God whose purpose can be enhanced or furthered by the massacre of women and children, the terrorism of cold-blooded mutilation, the enslaving of free peoples and the wanton destruction of the world's fruitfulness and beauty.

Emil Boutroux, a member of the French Academy, throws a little light on this peculiar phenomenon of German thought in his book "Philosophy and War." He says: "When at Heidelberg in 1869, attending Zeller's lectures, I was amazed to hear the professor once begin with the words: 'Today we will construct God.' 'Is it any wonder that the mind which attributes to itself the power of constructing God, should come to regard itself as God; and since Fichte, after Jena, saw his transcendental deduction culminate in the conception of the German genius as a foundation of the absolute self, is it not logical that this philosopher should identify Germanism with Divine Providence?'"

The Kaiser has talked of "Me und God." The conjunction may be dropped. God is "Me."

District News Items in Condensed Form

Kingston.—The steamer City of Dresden cleared for Oswego. The steamer Kingston has gone on the Collingwood Shipbuilding Company's drydock for repairs before setting out for the season. The steamer Arizona passed down on Monday evening from Lake Erie to Montreal.

M.T.Co.'s bulletin.—The tug Laura Grace arrived from Oswego with the barge Nadine, with coal from Oswego, and cleared with the barge Winnipeg for Oswego; the steamer Oakland arrived from Montreal with package freight and will clear for Toronto; the tug Weaver is due to arrive today with the barges Brookdale and Godfrey, light, from Montreal; the tug Thomson is due to arrive this afternoon with the barges Pennington and Daudrum from the Welland Canal.

Kingston, June 19.—One of the oldest and most highly respected residents of Kingston passed away. Moore died in the General Hospital at the age of 84 years. The late Mr. Moore has been ill only a short time and his death came as a shock to his many friends. The deceased was born in Kingston on August 11, 1834, his parents having come to Kingston in 1814. For 35 years he was connected with the grain business, retiring fifteen years ago. In 1877 the late Mr. Moore was elected alderman of Victoria ward and in 1878 and 1879 was re-elected. During his tenure of office as alderman, Mr. Moore took a keen interest in civic matters, and always worked hard for the betterment of conditions.

Kingston, June 20.—Lieut.-Col. Thomas Clyde, in poor health for some weeks, died yesterday at his home in Odessa, aged sixty-seven.

Hallebury, June 20.—When the case of Clifford Hoodhan, a young man, was called in the local court yesterday, it developed that the principal witness a young girl, had skipped to the bush. The police secured an automobile, took up the trail, and eventually located their quarry in an old log cabin in the deep scrub to the west of Lake Sasaginsag. They brought the runaway to town, but the case had been enlarged by the judge meantime.

Owing to the importance of butter and cheesemaking, men of these trades who are called to the colors, and who are in categories lower than "A" are to be granted leave of absence, according to instructions received from the Militia Department.

Evidently Ald. Newman in his "drive" for daylight saving did not take into consideration the fact that the "kiddies" will miss their shows at Lake Ontario Park this summer, but such has proved to be the case. It is announced by the street railway company that owing to the fact that it is daylight now until about nine-thirty in the evenings, it is practically impossible to show moving pictures at Lake Ontario Park, and hence all the shows have been abolished. However, the street cars will continue to run to Lake Ontario Park and will have the same schedule as in years past. Citizens can go to the park and enjoy themselves but they will bear in mind that every day is "showless" day out there.—Kingston Standard.

Peterboro, June 20.—The appointment of lockmasters, bridge-tenders, and kindred officials on the Trent Canal is being made as rapidly as possible.—These positions are practically reserved for returned soldiers.

The first steamer excursion trip over the Trent Valley canal waters from Peterboro to Campbellford is announced to take place on Monday, June 24. The commodious steamer "Stoney Lake" is scheduled to leave Peterboro at 8 o'clock on the morning of the excursion, and is billed to arrive in Campbellford at 4 p.m.

The death at Deseronto of a young Ottawa officer attached to the Army Service Corps at Kingston, by drinking wood alcohol, is further proof that a stricter supervision of the sale of this poisonous liquid will have to be ordered. Three men have died hereabouts in the past two weeks as the result of imbibing too much of this alcohol because other liquor is not obtainable in sufficient quantity. Druggists are allowed to sell only six ounces of whiskey or brandy on a doctor's prescription, and yet they can sell a quart or two of a much more dangerous liquid. Action to lessen this evil must be taken.

at once. Kingstons.—Dr. T. Maitland, Queen's University, has been appointed surgeon at the chemical plant, Trenton.

There always has to be a first time for anything, but the barbers in a Princess street tonsorial shop were given quite a rude shock on Monday afternoon when a young man, aged twenty-three, after getting all "dolled up" announced that this was the first time he had ever called at a barber shop to get his hair cut. He said that his father had always cut his hair, but he did not say whether his father did the hair cutting in the old-fashioned way of putting a bowl on his head. However, he was well pleased with the "finished job" and it is altogether likely that he will now be a regular customer at the shop. The reason he had to go to a barber shop was that he was away from home, having to respond to the call of the Military Service Act, and as father could not come too, he had to go to a barber shop.

Little Harold Newton of Belleville is visiting his grandparents, Mr. and Mrs. S. Gummer.—Cobourg Express.

Norham.—Mrs. Lane of Belleville, has returned home after spending some time with her daughter, Mrs. O. Laver.

Mr. and Mrs. Finkle of Belleville, have been guests at the home of Mr. John Weir during the past week.—Norwood Register.

Miss Alice McGill of Belleville, is a guest of Mrs. Stanley Beal, Albert street.—Lindsay Evening Post.

London, June 19.—A large number of pupils from the Ontario School for the Deaf, Belleville, passed through the city today. The children were on their way to their homes in Western Ontario in a special G.T.R. train, which left at noon.—London Advertiser.

The Kingston, Portsmouth & Catarqui Electric Railway Company, Kingston, Ont., have been employing six women conductors for the last six months and three more have been trained to act as "spares." Mr. H. C. Nettle, general superintendent, advises that the "conductorettes" work while in Lindsay. He called upon Dr. Wood and Dr. Blanchard, members of the Board of Education, also Mr. W. W. Staples, president of the Board of Trade, and Major-General Sir Sam Hughes, who all spoke in the same appreciative way. These addresses were interspersed with patriotic choruses by the school. The presentation of an address, a handsome gold watch and chain, and a leather club bag was made to the retiring principal by the staff, the pupils and the ex-pupils of the school.

Kingston, June 18.—Fire Chief James Armstrong and Fireman James Turner had a narrow escape from being killed late this afternoon when the fire motor hose truck got beyond control of the driver at the corner of Brock and King Streets and made a sharp turn at the rate of fifty miles an hour. The truck crashed into the Crown Bank building, throwing Chief Armstrong and two firemen to the walk. The Chief was stunned and Fireman Turner was removed unconscious to the hospital to have several cuts sowed up. The truck righted itself and the other firemen continued to the fire on Queen Street.

ter claimed that he was discharged because he was not giving value for the money paid him. Judge Gunn held that Kennedy was dismissed because he had been instrumental in forming the union. The strikers declare that twenty or more of the men now of the job are alien enemies.

A young man residing in the west end of the town appeared before Magistrate White yesterday charged with not being engaged in some useful form of employment. He pleaded guilty and was fined twenty-five dollars.—Port Hope Guide.

Mrs. J. J. Hinman is visiting at the home of her sister, Mrs. Sills, of Belleville for a few days.

Mrs. E. A. Wells, Belleville, is in town visiting her grandmother, Mrs. Jack Bessel.—Cobourg World.

Mrs. Gertrude Bulloch motored to Belleville this week to attend the closing of St. Agnes' School. Her daughters returned home with her.—Gannaque Reporter.

Mr. B. Gus Porter, M.P., in an address to the Belleville Board of Trade on "The Power Possibilities of the Trent Waterway," said that nothing was to hinder the district from becoming one of the greatest manufacturing centres in the world, as the power possibilities were unlimited. The Trent River has a drop of 700 feet in a distance of 160 miles.

Announcement was made recently of the appointment of G. F. Rogers to the position of Provincial Inspector of High Schools. For the last five years Mr. Rogers has been principal of the London Collegiate Institute. He succeeded Dr. H. B. Spotton to the position.

Lindsay, June 18.—The staff and pupils of the Central School, together with members of the Board of Education and friends, met in the auditorium of this school on Friday afternoon to pay tribute to Principal MacDougall, who is retiring from the teaching profession after thirty-eight years of efficient service, twenty-three and a half of which have been spent in the Central School, Lindsay, and marked with extraordinary success. Mr. John Anderson, chairman of the Board of Education, occupied the chair and paid high tribute to Principal MacDougall's work while in Lindsay. He called upon Dr. Wood and Dr. Blanchard, members of the Board of Education, also Mr. W. W. Staples, president of the Board of Trade, and Major-General Sir Sam Hughes, who all spoke in the same appreciative way. These addresses were interspersed with patriotic choruses by the school. The presentation of an address, a handsome gold watch and chain, and a leather club bag was made to the retiring principal by the staff, the pupils and the ex-pupils of the school.

Kingston, June 18.—Fire Chief James Armstrong and Fireman James Turner had a narrow escape from being killed late this afternoon when the fire motor hose truck got beyond control of the driver at the corner of Brock and King Streets and made a sharp turn at the rate of fifty miles an hour. The truck crashed into the Crown Bank building, throwing Chief Armstrong and two firemen to the walk. The Chief was stunned and Fireman Turner was removed unconscious to the hospital to have several cuts sowed up. The truck righted itself and the other firemen continued to the fire on Queen Street.

Kingston, June 18.—Fire Chief James Armstrong and Fireman James Turner had a narrow escape from being killed late this afternoon when the fire motor hose truck got beyond control of the driver at the corner of Brock and King Streets and made a sharp turn at the rate of fifty miles an hour. The truck crashed into the Crown Bank building, throwing Chief Armstrong and two firemen to the walk. The Chief was stunned and Fireman Turner was removed unconscious to the hospital to have several cuts sowed up. The truck righted itself and the other firemen continued to the fire on Queen Street.

The Madoc Talc Industry

The Madoc district, Hastings Co., which is receiving much attention at present from companies developing fluor spar deposits is the chief source of Ontario's talc. The production of this mineral was seriously interfered with by the war as increased ocean freights made it impossible to continue exports to Great Britain. Exports to the United States have, however, greatly increased and the production in 1917 was 16,076 tons valued at \$179,554, as compared with 11,310 tons valued at \$111,489 for the previous year. The greater part of the talc comes from the Henderson mine near Madoc. It is ground in the mill of G. H. Gillespie & Co. at Madoc. The Anglo-American Talc Corporation has erected a mill on their property adjoining the Henderson mine. Ground talc is used as a filler in the manufacture of paper, cotton, rubber, etc., and a considerable quantity is used in the form of talcum powder.

The late Frank Buhl, millionaire steel manufacturer of Sharon, Pa., left \$2,000,000 for war sufferers in Northern France and Belgium.

An Up-to-Date Plant

With unbounded confidence in the future of the dairying industry in North Hastings, the Belleville Creamery Co. Limited, of which Mr. M. Robertson is president and managing director, have built and equipped in Baneroff what is perhaps one of the most up-to-date plants for the manufacture of butter in Ontario.

The building, which occupies a splendid site on Hastings St., is two stories high and is built of cement blocks. It is 52x35 ft., and is equipped with every modern convenience. The cream is all pasteurized before going to the churn, two of the latest makes of machines being used for this purpose.

The churn has a capacity of 1,300 lbs. of butter, and last week high water mark was reached when 8,000 lbs. of butter were placed in the refrigerator. A supply of the purest spring water is furnished by a well situated in one corner of the building, from which over 100 barrels are pumped every day. A 200 barrel cistern furnishes water for the boiler. 200 tons of ice were stored last winter in an ice house in the rear of the factory.

The firm also purchased a farm a couple of miles from the village last spring, and they are at present feeding 100 pigs, with the butter-milk from the factory. The plant is under the management of Mr. H. P. McNevin, who is an expert in his line, and he was a very capable assistant in the person of Mr. Bouck.

When the firm decided to build here they figured that 9000 lbs. of butter per week would be the limit. They expect to reach this point next week, and are consequently very much pleased with the prospect.—Times.

County Council

Mr. J. Williams, county court clerk, asked the Council to instal a direct lighting system in his office. Referred to Finance Committee.

The committee on equalization reported recommending the equalization of the various municipalities be as follows:

Table with 2 columns: Municipality Name and Amount. Includes Sidney Township (\$2,814,500), Thurlow (2,818,000), Tyendinaga (1,825,406), Rawdon (1,926,000), Huntingdon (1,126,500), Hungerford (1,800,000), Marmora and Lake (650,000), Madoc (1,250,000), Elzevir and Grimsthorpe (280,000), Tudor and Cashel (75,000), Wollaston (70,000), Limerick (45,000), Faraday (65,000), Dunganon (65,000), Mayo (45,000), Montangle and Herchel (120,000), Carlow (75,000), Bangor, Wicklow and McClure (85,000), Deseronto Town (650,000), Stirling Village (325,000), Madoc (370,000), Tweed (488,000), Marmora (260,000), Baneroff (117,000).

Total \$17,345,000. On motion the report was unanimously adopted.

The usual grant of \$500 to Madoc Model School was voted.

The Finance Committee's recommendation was that at the June session an extra grant of \$5,000 be given towards the Y.M.C.A. over-see work. This would make a total of \$10,000, including the \$5,000 vote at the last January session.

The Warden and Mr. Fox explained that the Y.M.C.A. had planned to make a local campaign in every township in case the total of ten thousand was not raised by the Council. The Finance Committee thought the vote of the Council would have a great amount of work. The trouble will be cleared up soon by the Y.M.C.A. It will have to clear it up before the county gives any more of their money, the warden explained. He told what great work the Y.M.C.A. has accomplished in keeping up the morale of the soldiery.

After a long discussion the recommendation of the Finance Committee carried almost unanimously, to supplement the grant to the Y.M.C.A. made in January by \$5,000.

The warden moved, seconded by Mr. Walsh that \$2,000 be voted to the Knights of Columbus army club in France.

The matter of appointing a successor to Mr. Wilson as superintendent of the County House of Refuge was left to the House of Refuge Committee. There is a possibility that Mr. Simeon Fox, reeve of Madoc Township, will be able to accept the position.

Mr. Walsh advised Council to withhold the grant of \$5,000 to the Y.M.C.A. until the matter of rumors was cleared up.

FARMERS' BUSINESS

For the past 54 years, this Bank has given particular attention to the business of Farmers. We have helped many over the rough places, and have aided many more to the highest plane of success. We are prepared to extend you every aid within legitimate banking practice. Come in at any time and talk over your affairs with us. You are always welcome.

THE MERCHANTS BANK

Head Office: Montreal, CANADA. Established 1864. BELLEVILLE BRANCH, N. D. McFADYEN, Manager. Safety Deposit Boxes to Rent.

CAPITAL & RESERVE—\$4,000,000. TOTAL ASSETS—\$13,000,000.

MONEY IN CATTLE

National demands make it essential that more cattle be raised immediately. "We must go on or go under"—the surest way to go under is by not keeping the Allied armies fed. The profit of raising cattle is enormous on account of the prices now prevailing and prices will continue high even after the war. Raise more cattle as a duty to the nation and your bank account. If financial help is required, consult our local manager.

UNION BANK OF CANADA

HEAD OFFICE WINNIPEG, MAN. 218. BELLEVILLE BRANCH, J. G. MOFFAT, Manager. PICTON BRANCH, C. B. BEAMISH, Manager.

Standard Bank of Canada

Change in Banking Hours

Good bargains for investment or speculation.

Let us show you some nice homes at right prices.

Whelan and Weomans REAL ESTATE & INSURANCE

OF 1 LUNDY YOUR OWN ROOF

The warden, Capt. (Dr.) Embury, and was a daughter of Mr. and Mrs. S. B. Rollins, J. L. Newton and C. W. Benjamin Duvall. For eighteen years she had lived in this vicinity. Mrs. Thompson strongly supported the Y.M.C.A. work.

Mr. Fox said he believed a great deal of the talk against the Y.M.C.A. could be traced to an anti-temperance source. Council decided not to withhold the grant.

Obituary

MRS. WM. KEMP

Mrs. Florence May Kemp, wife of Mr. William Kemp of the Second Concession of Thurlow died last evening after five weeks' illness. She was born in Orillia in the year 1855 and was a daughter of Mr. and Mrs. Benjamin Duvall. For eighteen years she had lived in this vicinity. Mrs. Kemp leaves besides her husband and her parents, five children, the youngest being two years of age, and the oldest thirteen. Mr. John Duvall of Belleville is a brother and Mrs. Thomas Frost of this city is a sister. Four other sisters survive. Mrs. Kemp was a Methodist in religion.

Mr. Hugh Blunt, of Toronto, who was motoring to Peterboro on Saturday afternoon lost his car near Newcastle when, in some unreported manner, it caught fire and was evidently burned beyond repair. The aid of the movies has been invoked in the farm labor campaign across the border.

Miss Goudge, Miss Mildred Jones, Miss Lena Sullivan and Pte. C. Garrison visited Miss Leah Gilbert on Thursday last.

## VERY HEAVY LOSSES IN EASTERN APPLE ORCHARDS

**BALDWIN'S PRETTY WELL WIPED OUT IN SOME SECTIONS.**

The report last week that thousands of apple trees had been destroyed in the Bay of Quinte district by the severe weather of last winter did not overstate the facts.

East of Toronto, indeed, there are few orchards that have not suffered more or less. In some cases very severe losses have been sustained. The heaviest casualties seem to have occurred in Prince Edward county and on the front of Hastings and Northumberland. During the last two or three years spraying, cultivation and pruning have been neglected in many cases as a result of labor shortage and market uncertainties. This has weakened the vigor of the trees and last winter's long period of unusually low temperature proved too much for vast numbers of them. Speaking generally, young and well-cared-for orchards appear to have come through fairly well, but old and badly-cared-for orchards show an appearance of desolation. Some of these are practically gone now; many show a loss of 50 per cent. It looks as if small and old orchards are as a whole very nearly done for, and as the Ontario apple crop of the future is to come almost wholly from orchards in which apple growing is a specialty.

**Baldwins Suffer Most.**

While losses are quite general, some varieties have suffered more severely than others. District Representative Sirett says there are very few Baldwins in Brighton district that do not show some injury. District Representative MacVannell declares that in Prince Edward county this variety has been practically wiped out. The losses in Ben Davis are about as heavy as in Baldwins.

"We are not likely to hear any more protests about too many Bens," said Mr. P. C. Dempsey, of Trenton section. "The Ben has been pretty well put out of business."

What this means will be better understood when it is remembered that the production of Bens along the north shore of Lake Ontario, between Bowmanville and Trenton was a few years ago estimated at 100,000 barrels.

The reduction in Bens will not, however, be an unmixed evil. This variety is a good shipper and long keeper; it is a useful cooking apple in late spring, but it is of inferior quality and a few of the kind will go a long way.

**All Tender Varieties Suffered.**

But losses have not been confined to Bens and Baldwins. All tender varieties have suffered, particularly in the Bay of Quinte district, Ontario, a cross of the Wagner and Spy, and a very good apple, although very large, has suffered almost as badly as the Bens and Baldwins. Peewaukees and Granberries have been badly injured, and so, too, have Starks, heretofore considered one of the hardy varieties.

Plums, cherries and pears have suffered in the same extent. The chief loss in these lines has been in the season's crop. Few growers east of Toronto will have a fair crop in any of these fruits this year, and many will have practically none at all.

**Small Fruits Reduced.**

Speaking of other fruits, District Representative MacVannell says raspberries in Prince Edward county have been allowed to about go out, and even in strawberries production has been greatly reduced.

But it is in apples that the chief losses have occurred. And these losses have not been confined to the section east of Toronto. For years past small and old orchards have been slowly going all over Ontario, and this year the downward tendency is more marked than ever before. Because of this fact, Mr. MacVannell does not go too far when he says:

"The man with a productive apple orchard, of good varieties, in my judgment, make more money out of his holding in the next few years than he has ever made before."

## BUSY TRENTON

(From Our Own Correspondent)

Trenton, June 21.—Mr. and Mrs. W. T. Burden have returned to town from their visit with relatives in Toronto.

Mrs. Taggart is in town from Wolf's Island, visiting with old friends.

Miss Elgie Cuff, of Rochester, N. Y., is in town the guest of her parents, Mr. and Mrs. A. E. Cuff.

Mrs. Fitzpatrick, of Belleville is in town visiting.

Mrs. A. McGregor, of Toronto, is in town the guest of Mrs. T. A. German.

Don't forget Trenton, July 1st. Mr. Walter Couch has returned from Toronto where he visited with Mrs. Couch who is staying there for a few weeks.

Miss Lenora Lloyd, of Belleville, was a visitor here today.

Mrs. Sharpe returned to Deerborn today, having visited with Mr. and Mrs. John Potter.

Miss Gladys O'Rourke arrived in town, the guest of her parents, Mr. and Mrs. P. J. O'Rourke.

Mr. Donald O'Connor, of the Chemical Works laboratories, left for a few days' visit with his parents at Smithfield, Pa., yesterday.

Dr. and Mrs. Kindred were in town yesterday visiting with Dr. and Mrs. Driscoll.

Mrs. William Craig, who wintered in sunny California, returned home yesterday accompanied by her daughter, Miss Corrinne.

Lieut. E. Burt is back home again and enjoying his usual popularity.

Mr. and Mrs. McKean, who were visitors here from Smithport, Pa., the guests of Mr. Hubbard of the Chemical Plant, returned home today by motor.

Mr. and Mrs. M. Foley left town today for the purpose of attending the forthcoming marriage of their niece, Miss Gladys Wolan, who will marry Mr. H. Ervin Turner, of the G.T.R. office staff here.

Mrs. Allan Lovett returned from her visit to Detroit today.

Mr. and Mrs. W. B. Carr, of Montreal, are in town visiting former friends.

Mrs. Patee left for Toronto today.

Mr. C. A. Kellys returned from the States today.

Miss Jessie Gooderham left for her home yesterday, having visited here with Mrs. MacLachlan.

Mr. Irwin Sproule, of Kingston, arrived in town last evening and is visiting with friends.

Mrs. (Capt.) E. Sterne has returned home from her extended visit to Brantford.

Mrs. G. N. Phillips left for Cornwall yesterday, where she will visit with friends.

**MOUNT ZION**

One evening last week the neighbors and friends of Mr. and Mrs. Blake Way invaded their home and gave them several musical selections on tin pans, pails, cow-bells, dinner-bells, horns and guns and other instruments of music.

The crops are looking fine but are badly in need of rain at present.

Mrs. Ed. Way spent a few days last week with her daughter, Mrs. A. Chase, of Stockdale, who is quite ill.

Several from here were in Trenton on Saturday.

Mr. and Mrs. W. Herrington motored to Newwood on Sunday.

On Monday, the 17th, Mr. Enoch Harrington celebrated his eighty-fourth birthday. About twenty-five of his friends took dinner with him.

**GILEAD**

Rev. J. C. McMullen occupied the pulpit on Sunday, giving to the audience the "Pastoral Address" from Conference.

Mr. and Mrs. H. A. Fairman, Foxboro, visited at Mr. W. Clare's on day last week.

Mrs. D. G. Hodgen and Donald, Ayre Hall, visited at the home of her sister, Mrs. J. F. Yorks, on Tuesday.

Miss Vera Sheffield spent over Sunday with Miss H. Ross, Belleville.

Mr. J. Collins and family spent Tuesday at Mr. A. Lawrenson's.

Miss Bella Sine, Belleville High School, has returned home after spending a few weeks with Mrs. B. Way.

A number of our scholars are trying the Entrance exams, at Belleville. We wish them success.

**BLESSINGTON**

Miss Beattie McMechan spent Friday at Claud Clark's.

Mabel McLearn, Marion McFarlane and Margery Sherman spent Wednesday at George Henderson's.

Miss M. Blakely spent the weekend at Arthur McFarlane's.

Mr. and Mrs. Frank Corrigan and Mr. and Mrs. Tim Hopkins motored to Kingston on Sunday.

Mrs. Alva Hagerman spent Sunday with Mrs. George Badgley.

Miss M. Blakely and Mrs. Corrigan are kept busy these evenings attending to the registration.

Mr. and Mrs. P. McLearn and baby Mary spent Sunday at J. Hill's, Shannonville.

Mr. and Mrs. John Cole, of Shannonville, visited at Jas. Cole's on Thursday.

**TWEED**

Miss Farrell, of Larkins, is visiting her sister, Miss Katie Farrell.

Mr. and Mrs. A. Godfrey spent the week-end at St. Oia, visiting his mother.

Mr. and Mrs. Claude Barnett and family and Mrs. A. Tammon and boys spent Wednesday afternoon with Ivanhoe friends.

Mrs. Deanda Hottis is seriously ill. We are sorry to learn there is but little hope for recovery, but sincerely trust her condition may change for the better.

Mr. John Meraw and sister, Miss Mary Maraw, accompanied by Miss K. Farrell and Miss N. Trudeau and Mrs. E. Meraw, were an auto party to Madoc on Monday evening.

Mrs. Johnston, of Port Arthur is spending the summer with her sister, Mrs. John Hughes. We are pleased to report that Mrs. Hughes is greatly improved and is now able to be up around again.

Mrs. F. E. Fisher returned home last week from spending the past two months with her parents, Mr. and Mrs. Cannaber, of Lethbridge, Alta. Her daughter, little Miss Burnedette Fisher, remained with her grandparents and will come the last part of this summer with her grandmother. Mrs. Fisher was accompanied home by Mrs. Lewis and son, Allan, of Lethbridge.

The Salvation Army Citadel here has for some time past been undergoing needed repairs. The whole interior of the building was painted, the roof reshingled, and now the painters are at the outside. A new platform leading to the door has been put in. The building is greatly improved and Capt. Harrison is to be complimented upon the enterprise he has displayed.

Mr. J. L. McGowan is sporting a new Maxwell car.

Mrs. Clark, of Belleville, is visiting her daughter, Mrs. Minna, and Mrs. Reg. Thorne, of Toronto, are the guests of Mr. and Mrs. Chas. Carleton.

Mrs. Harold Francis and children, of Hazelock, are spending the week with Mr. and Mrs. Geo. Frands.

Mr. and Mrs. W. McCaw were in Queensboro on Friday last attending the marriage of Miss Lydia McCaw to Mr. F. S. Parsons, of Walhard, Sask.

Mrs. E. Treadeau and Mrs. Rorrick, of Stoco were Monday evening visitors of friends in town.

Rev. A. L. Brown is the guest of Mr. Heath at the latter's attractive summer home at Arden Lakes for a couple of days.

Dr. Harvey Clare, of Toronto, dropped off here over Sunday while en route home from Brockville to visit his mother, Mrs. Jas. Clare.

Mrs. Wm. Sample and her daughter, Miss Pearl, of Kerobert, Sask., are spending a few weeks with friends in Actinolite and vicinity.

Mr. Harry Sample, of Kerobert, spent a couple of days with friends here. He went to Toronto today. We believe he will spend the most of the summer in Ontario.

Mr. Gerald, the new C.P.R. agent, has arrived and is occupying the manager's desk at our local depot. We extend a hearty welcome to Mr. Gerald and family to our town. The family are to follow in a few days.

Pte. Angus Andrews, recently invalided home from overseas service, is visiting his home at Bannockburn. He was in town today. Mr. Andrews was seriously wounded at Vimy Ridge. A brother was also wounded but has returned to the front again.

Mr. M. E. McKenzie, manager of the local branch of the Royal Bank, is now looking the picture of happiness. The cause of it all is the coming of Mrs. McKenzie, who has been visiting the last few weeks in Mont-

real. We heartily welcome Mrs. McKenzie to her new home.

Reeve Jas. H. Clara attended County Council Tuesday and Wednesday and autoed home in the evening. During the night he was taken ill and is now confined to his bed. He will be unable to return to his official duties at Belleville.

Mrs. J. L. Newton drove to town Wednesday evening in their car and while here was taken very seriously ill with acute indigestion. She was too ill to be removed from Dr. Kindred's, where she is at the present time. We are pleased to learn that she is resting nicely and hopes soon to be about.

Mr. Jos. Young, Toronto, spent a few days with Mr. and Mrs. Wilson.

Mrs. T. R. Preston is visiting her sister, Mrs. McNair, Trenton.

Mr. C. J. White, of Toronto, is spending a few days in town.

Mr. D. W. Thompson, of Northbrook, has been visiting Miss Iva Way, of Tweed.

Mrs. J. A. Wilmot, of Kingston, is visiting her daughter, Mrs. Smart, at the rectory.

On Thursday evening at St. James' Church, Tweed, the Rev. A. E. Smart united in marriage Miss Beatrice Johnson and Mr. Charles Neilson, both of Madoc.

Pte. Russel Marsh, of Kingston, is visiting his wife, Mrs. Marsh, at Sulphide. We are pleased to note the great improvement in Pte. Marsh's health.

Born: At Bogart, June 17th, to Mr. and Mrs. John Rivers a daughter; at Mountain Grove, June 19th, to Mr. and Mrs. Henry Kellar a daughter; at Tweed, June 18th, to Mr. and Mrs. Spring a son; at Tweed, June 20th, to Rev. A. E. and Mrs. Smart a son.

**MADOC**

Mr. G. Raynes, of Lindsay, has taken the position of station agent at the G.T.R. station. Mr. George Robinson is taking an extended holiday.

Mr. Harold Watson, Mr. and Mrs. J. H. Watson and Mrs. John Watson, of Snelgrove, are camping at Moira Lake.

Rev. Albert C. Hie will take charge of the Eldorado Methodist Circuit. Rev. T. Wallace goes to Sidney, about five miles from Belleville.

Mrs. Sam McGuire and infant son, of Belleville, are spending a couple of months in town with her parents, Mr. and Mrs. John Macdonald.

Mr. and Mrs. Will Caverly, of Toronto, are guests of the former's grandmother, Mrs. Jos. Caverly.

Mrs. Thos. Adams and daughter, Ruth, were visitors at the home of Mr. Geo. Huffman for a few days last week.

Mr. Kennedy, principal of Stirling High School, is presiding at the Lower School examinations at Madoc High School.

Mr. W. J. Taylor, of Woodstock, formerly of the Tweed News, was elected president of the Canadian Press Association.

Mr. and Mrs. Chas. Sweet, of Rawdon, and Mr. and Mrs. John Baker and son, Cecil, of Bellview, were guests at the rectory on Tuesday.

Mrs. Ringland and little son, of Lindsay, are guests of Mrs. Brooks.

Mrs. Wensley, of Belleville, is visiting friends in town.

Misses Verna and Rachel Christie are spending a week with relatives in Ottawa.

We notice in Monday's casualty list the name of Alex. Siddons, who has been wounded.

Mr. G. C. Moon is attending the Grand Lodge of the I.O.O.F. which meets in Hamilton this week.

**MARMORA**

Mrs. W. P. Woodger is visiting her mother in Toronto.

Miss Irene McWilliams is visiting friends in Toronto and Stratford.

Mrs. M. J. Sabine, of Hamilton, is visiting her son, Mr. W. H. Sabine, Mr. Geo. Froats, Peterboro, spent the week-end at the home of his parents in town.

Miss Dorothy Jones, of Peterboro Business College, spent Sunday at her home here.

Reeves R. T. Gray and T. E. Laycock are in Belleville attending County Council this week.

Pte. Clifford Jones, of Barriehead Camp, spent a few days at his home here during the past week.

Don't miss the big Picnic Day in Marmora fair grounds on July 1st. Proceeds for patriotic work of Women's Institute.

Mrs. M. Branker and daughter, Miss Hazel, of Wainwright, Alta., are making an extended visit to friends in different parts of Ontario. They are at present renewing acquaintances in Marmora.

Capt. (Rev.) P. H. Bulteel, of Roslin, will leave shortly for overseas as chaplain. He reports at Fredericton, N.B., for duty. Capt. Bulteel is well known throughout Centre Hastings and the good wishes of many friends go with him in his

## INTESTINAL PARALYSIS

**"Fruit-a-lives" Quickly Relieved This Chronic Trouble**

599 CASGRAIN STREET, MONTREAL.

"In my opinion, no other medicine is so enervative for Constipation and Indigestion as 'Fruit-a-lives'."

I was a sufferer from these complaints for five years, and my sedentary occupation, which brought about a kind of Intestinal Paralysis, with nasty Headaches, belching gas, drowsiness after eating, and pain in the back.

I was induced to try 'Fruit-a-lives' and now for six months I have been entirely well. A. ROSENBERG.

25c a box, 6 for \$2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-lives Limited, Ottawa.

new work.

The boardings of cheese throughout Ontario to date this year are nearly 50,000 less than for 1917. Last week the boardings were 21,081 compared with 22,304 for the same week last year. From the present outlook there will be a very great shortage of cheese next fall.

One evening last week a party was held at the home of Mr. Harry Warren in honor of Pte. Ed. Bailly, who was home from Kingston on leave. A very enjoyable time was spent. During the evening Pte. Bailly was presented with a sum of money to be used in the purchase of a wrist watch as a token of appreciation from his friends.

**WALLBRIDGE**

A surprise party and presentation took place at Mr. and Mrs. Lenora Sine's on Monday night in honor of their son.

James Latley was married to Miss Louisa Wright, only daughter of Mr. Hawly Wright.

Mr. and Mrs. J. C. Morton of the 9th line Rawdon, visited Mr. and Mrs. J. A. Hinchcliffe of Sidney.

Mr. Mackintosh of the Rubber Plant, Belleville, taught the Bible Class on Sunday.

June 30th will be the farewell sermon by the Rev. F. M. Sharpe.

Barton and Miss Lena Hinchcliffe, Miss Florence Wilson of Belleville, Herb and Miss Mable Hinchcliffe of the 3rd line Sidney, motored to Gilmour on Sunday and spent the day with friends and relatives. All returned on Monday, reporting a jolly time.

Registration Day at Wallbridge, June 22nd.

Mr. and Mrs. J. C. Morton of the 9th line Rawdon, Mr. and Mrs. J. A. Hinchcliffe and son, Miss Dixon of Stirling, Mr. and Mrs. Bamber of Belleville, Mr. and Mrs. James Hinchcliffe and baby, visited Mr. and Mrs. John Hinchcliffe on Sunday.

Cool nights, Mr. Editor! There was a second to frost last night.

Our motor bus appears to be doing a rushing trade between Frankford and Belleville.

Wedding Bells—One of the pleasing important events of life recently was the marriage of Miss Louisa Wright, daughter of Mr. and Mrs. Hawly Wright; to James, son of Mr. and Mrs. Lenora Sine, all of Wallbridge.

Mrs. (Rev.) Wilson of Bancroft, gave a missionary and patriotic address. Although not intended for the pulpit, her remarks would have formed a good sermon.

Can any line in Sidney beat the 5th line for autos? If so, let's hear from the rest of the lines. We would suggest at the annual school fair, held at Wallbridge in September, that the line that can show the greatest number of cars with the banner of each line, be given a prize. Bar any corporation but owners of cars on said lines. What say your Department of Agriculture, Stirling? We want the crowd.

Mr. and Mrs. T. A. Hinchcliffe of the 3rd line visited Mr. and Mrs. John Hinchcliffe on Sunday.

Mr. Hubble and niece, Mabel and Herbie Hinchcliffe and Miss Connor of the 9th line Rawdon, visited Mr. and Mrs. Frank Hasard of Plainfield on Sunday.

**PHILLIPSTON**

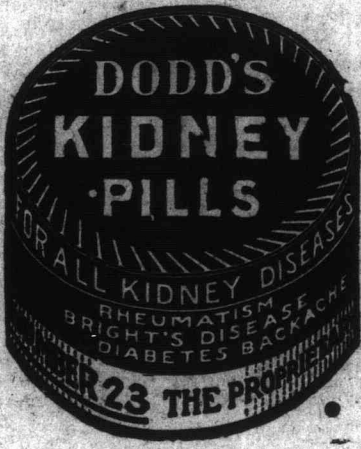

Quite a number from this line attended the presentation given to Roscoe Robson, who is to leave for overseas shortly.

Mrs. Frank Howard, who underwent an operation at the Belleville Hospital some time ago, is home and progressing nicely.

Miss Lena Phillips, of Toronto, who recently underwent an operation there, is home for a few weeks.

Mr. Will Carter, has purchased a new Gray Dorr car.

Some of the young folks attended a debate in Foxboro Monday night.

No Conscription of Labor Involved

Senator G. D. Robertson, President of Registration Board, Gives Quietus to Mischievous Reports.

Senator G. D. Robertson, President of the Canada Registration Board and Labor representative in the Dominion's War Government, took occasion the other day to categorically deny the reports current in some sections of the country that registration was to be made the basis of a future conscription of labor.

Registration is all that the term implies, but nothing more. It places the registrant under no obligation whatever. It does, on the other hand, place his name on the muster roll of the nation and having placed it there, it certifies that his work is the national cause, whatever it may be, managing a bank or driving a tractor. It is approved by the State. Registration protects.

Art Exhibit at Albert College

Excellent Work of Art Department—Exhibitors and Prize Winners

Yesterday afternoon the annual art exhibit was held in the reception room of Albert College. Daisies and wood-terms made the room itself look most artistic.

The display of water colors, oils, and china, while not large, was of unusual merit. The pictures showed finish and great natural ability. The china, too, deserves special mention. The designs were original and very pretty. They broke with traditional ideas both in decoration and color.

Miss Lusby, the talented art teacher, received many congratulations on the year's work. Exhibiting in Water Colors, Eleanor Purcell, Helen Denyes, Ruth Babcock.

Oils—Eleanor Purcell, Mildred Redner, Minnie Rose Ault. China—Eleanor Purcell, Mrs. Bowerman, Minnie Rose Ault. Oils—1st prize (Clarke Prize)—Eleanor Purcell. 2nd Prize (Lusby prize) Mildred Redner.

Watercolors 1st prize (Lusby Prize) Eleanor Purcell. China, 1st prize (Blackburn Prize) Mrs. Bowerman. 2nd prize (Thompson Prize)—Minnie Ault.

\$5,000 to Y.M.C.A. 2,000 to K. of C.

Hastings County Council Makes Grants Today—Grant Total \$10,000 for Year.

Hastings County Council in committee this morning supplemented its \$5,000 grant of January last by a further grant of \$5,000 to the Red Triangle of the Y.M.C.A., making a total of \$10,000 for the year 1918. \$2,000 was voted to the Army Hut work of the Knights of Columbus overseas on motion of the warden and Mr. J. V. Walsh in committee on ways and means.

The council in committee of the whole of ways and means took up the request of the Deloro Mining & Reduction Company for \$1,000 grant towards road work between Marjora Village and Deloro. Council voted a special grant of \$500 on condition that the company guaranteed to supplement this by \$500. The work will be under the supervision of the County Road Superintendent.

Slaughtered by Mised Soldiers

GERMAN SOCIALIST CALLED WAR HOHENZOLLERN FAMILY AFFAIR

Amsterdam, June 19.—A scene was caused in the Reichstag the other day by Dr. Cohn, a Socialist member when, according to the Cologne Gazette, he declared:

"The border states have become a Golgotha where the bleaching of the bones of the best in the land who have been slaughtered by the misled German soldiers."

An uproar followed this declara-

tion and Deputy Cohn was called to order, but he continued: "The entire war has become a family affair of the Hohenzollerns. It is possible that we may finally remain the only warriors in Europe and the entente will have to submit a continent of beggars and we shall all suffer the consequences of such a peace."

Lieut.-Gen. von Stein, Russian Minister of War and State, in reply asserted: "It is not one family in this country which is waging war, but the German people, under the Kaiser, is waging war for its existence."

According to another account of the excited debate, several Independent Socialists shouted "Robbers, Murderers," when Dr. Cohn said that people "were being slaughtered by the misled German soldiers." Members of the Centre and Conservative parties thereupon left the chamber. It is reported.

Hindenburg Anxious for Naval Offensive

THE TEUTONS TRY TO KEEP THE ALLIES ON THE QUI VIVE

Washington, June 26.—The German fleet is sending out alarms two and three times a week, and some times oftener, intending to worry the American Allied fleet into a belief that the Teutons are coming out to battle.

With a great clatter of wireless, the big ships buzz back and forth in their locked-in harbor. Orders, indicating preparations for a dash, snap out over a considerable period. The American Allied fleet picks these up and can distinguish between the signals of battleships and smaller craft.

These facts developed from an official source today. The result of these constant alarms is to keep the watchers keyed up to an expectant prepared pitch.

American craft now operating in European waters will play an important part if any sea action does eventually develop. Hindenburg is understood to be still pressing his colleagues to undertake a sea offensive as the backing for his land efforts.

It is recognized that such an attempt by the German fleet would probably indicate a last desperate gamble.

The United States and Britain are progressing favorably with anti-submarine work. The confidential list of known "gets," probable sinkings and possible sinkings on file with the Navy Department, shows an increasing number of the first class.

The Icebergs Serve as a Fine Defence

HUN SUBS NOT LIKELY TO RISK ENCOUNTERING THEM OFF CANADA'S COAST

Ottawa, June 26.—According to naval authorities here, the spring and early summer pilgrimage of the icebergs down the Labrador and Northern Atlantic coast is now serving Canada for the first time, to a good purpose. Until the icebergs "menace" of former years is past, sometime this month, the Hun submarines now preying on shipping farther south, are not likely to molest any vessels sailing from Canadian ports, nor are they likely to attempt any shelling of Canadian coast cities such as Sydney. A submarine running under water does not want to collide with the submerged depths of an iceberg. Navigation, at all times, is risky in the Northern Atlantic during the icebergs season, is especially so for under-water craft, running more or less blind. Consequently, for the present, at least, the anxiety of the naval authorities as to any danger to Canadian ports or shipping from the German submarines now on this side of the Atlantic is minimized by the presence of the hitherto anti-militarized icebergs. The Hun submarine commanders doubtless still remember the Titanic.

The Dominion Power Board would seem to be a practical result of the general movement towards united national service in Canada. It is a constructive step, reflecting credit upon the Government and the technical officers who brought it about.

Ontario's Motor Vehicles Ontario first issued licenses to motor cars in 1903, and 230 vehicles were registered. Four years later the registration included 517 cars owned in Ontario and 659 owned outside the province but registered here. Ten years later (1917) we have a total of 83,790 cars, and it is probable this year will see a very substantial increase. From 1,176 to 83,790 is surely a phenomenal increase. Most of these cars are passenger cars, as we have not quite 5,000 motor trucks registered. And the number of passenger cars increased in one year (1916-17) from 51,589 to 78,351, i.e., over 27,000 new cars were purchased in one year, and most of these cars were probably pleasure cars. At one time the cars were owned almost entirely in the cities, but last year 23,409 cars were owned by farmers, and the proportion of the city-owned cars is rapidly declining. It seems certain that with the advent of bet-

150,000 Workers are Employed

SMALL ARMY ENGAGE IN WORK OF REGISTERING THE RESIDENTS OF CANADA

Twenty-five thousand booths, scattered throughout the country, and manned by one hundred and fifty thousand workers, will be open from 7 a.m. until 10 p.m. on Saturday, 22nd of June, for the purpose of registering the man and woman power of the Dominion. It is estimated that there are 5,000,000 persons in Canada who will come with-

ter roads the number and usefulness of autos will greatly increase, and even our preachers will be able to indulge in the luxury, but certainly not until after the war.—Christian Guardian.

Wood Alcohol

LEGISLATURE ALONE MAY DEAL WITH MATTER

Toronto, June 21.—If wood alcohol, which has killed quite a number of thirsty individuals within the past few months, is to be taken out of the reach of people who want to use it as a beverage, the Ontario Government will have to deal with the matter. That is the effect of a communication that has been received by the Ontario License Board from the chief analyst of the Inland Revenue Department. Some time ago Vice-Chief Analyst Dugman of the Board wrote to Dr. McGill drawing the menace of wood alcohol to his attention and suggesting that the use of the word "alcohol" as applied to methyl hydrate (wood alcohol) be discontinued. The chief analyst stated that the Dominion has no control over the sale of wood alcohol. He agreed that it was regrettable that the term had come into popular use, but he thought it would be difficult to change it now. He further pointed out that wood alcohol was of such great value in the arts and manufacture that it was not advisable to put difficulties in the way of securing it.

The Dominion Power Board

A step towards co-operation between the several departments concerned with the natural resources of Canada has been taken by the appointment of a board of department officers, called the Dominion Power Board, under the chairmanship of Mr. Meighen, minister of the Interior. A great deal of valuable information has been collected over a period of years regarding Canadian fuel resources, water, power, river storage, stream measurements, and all such related subjects; but up to the present, the technical officers in separate departments—department of the Interior, Public Works, Marine, Mines, Railways and Canals—seem to have worked with little or no reference to each other. There has consequently been overlapping, the benefit of some of the work has been lost to the public by one department publishing its report without compiling its figures to co-ordinate with the related information collected by another department. One department might possibly be engaged for months upon certain research work without knowing that another department, perhaps in the same building, had already covered the ground under investigation, and had all the information filed, or buried away in a blue book.

Representatives from the several departments of the Government have been appointed to form the Dominion Power Board. The Board's work should tend towards a more unified organization of the technical services. The inclusion of the chief hydraulic engineers of the Hydro Electric Commission of Ontario on the Board would also seem to be in the right direction. It is stated that the Board regards the co-operation of the provinces, particularly of Ontario, Quebec and British Columbia, as essential. The proposal to co-operate with the Dominion with regard to the investigation of power resources should appeal to the various provinces. Co-operation in the public interest is what is needed, and it would be beneficial to the national and provincial interests alike.

Ontario's Motor Vehicles

Ontario first issued licenses to motor cars in 1903, and 230 vehicles were registered. Four years later the registration included 517 cars owned in Ontario and 659 owned outside the province but registered here. Ten years later (1917) we have a total of 83,790 cars, and it is probable this year will see a very substantial increase. From 1,176 to 83,790 is surely a phenomenal increase. Most of these cars are passenger cars, as we have not quite 5,000 motor trucks registered. And the number of passenger cars increased in one year (1916-17) from 51,589 to 78,351, i.e., over 27,000 new cars were purchased in one year, and most of these cars were probably pleasure cars. At one time the cars were owned almost entirely in the cities, but last year 23,409 cars were owned by farmers, and the proportion of the city-owned cars is rapidly declining. It seems certain that with the advent of bet-

ter roads the number and usefulness of autos will greatly increase, and even our preachers will be able to indulge in the luxury, but certainly not until after the war.—Christian Guardian.

More Concrete Ships Ordered

Washington, June 21.—Five new yards for the building of concrete ships and the construction of forty-two new concrete ships totalling 298,500 dead-weight tons, have been authorized by the United States Shipping Board. Contracts for eighteen of these forty-two vessels have already been awarded by the Emergency Fleet Corporation, and contracts for the remainder will be let in the near future.

Mountains of Steel on Vancouver wharves

CONSIGNMENT TO RUSSIANS WHO HAVE EVIDENTLY FORGOTTEN ABOUT ITS EXISTENCE

Montreal, June 21.—"Veritable mountains of costly and rare steel materials for which Canada is looking every day in vain are lying idle on the wharves and in freight cars in Vancouver," said a Canadian Railway War Board official in an interview here.

About 50,000 tons of light rails, spikes, angle iron, and parts of engines and cars have been lying in their present positions for several months, waiting orders for transshipment to Russia. Russia has apparently forgotten the stuff while displacing over theories of the State. The Canadian Railway War Board has known of the situation for some months and has been awaiting action by the Allied authorities in response to its representations. Its interest lying in the fact that such valuable material is rusting away while it could be made use of by the Allies.

"Anyone who knows of the scarcity of steel materials for industrial purposes can imagine what these young mountains of steel products look like to the hungry eye of Canadian industry. Canadians have been looking high and low for such material. It is easy enough to understand why cargoes may be allowed to rot and rust on wharves at Vladivostok, but why this should happen in Canada is beyond easy comprehension," was the concluding comment of the War Board official.

Mrs. J. Dugan, wife of a St. Paul man, now in the U.S. army, shot and killed a negro who entered her home in Washington is protesting to the Argentine against the German practice of registering U.S. trademarks there.

"Anyone who knows of the scarcity of steel materials for industrial purposes can imagine what these young mountains of steel products look like to the hungry eye of Canadian industry. Canadians have been looking high and low for such material. It is easy enough to understand why cargoes may be allowed to rot and rust on wharves at Vladivostok, but why this should happen in Canada is beyond easy comprehension," was the concluding comment of the War Board official.

Mrs. J. Dugan, wife of a St. Paul man, now in the U.S. army, shot and killed a negro who entered her home in Washington is protesting to the Argentine against the German practice of registering U.S. trademarks there.

A new high record was created in Chicago when ten cars of cattle fetched eighteen cents a pound live weight.

Rankin, a piano solo, Miss G. Dobbs, a vocal solo, Miss Laura Baiteman a reading, and Mrs. Garfield Lloyd and Miss Ketha Wood on a vocal duet. Mrs. Clarry presided most acceptably at the piano. The proceeds which amounted to a considerable sum, were devoted to the personage fund.

Congratulations are due to William L. Doyle, Belleville's popular and efficient tax collector on his appointment to the office of assistant inspector of taxation for the Kingston district on behalf of the Dominion Government. Mr. Doyle's territory includes the Counties of Hastings, Prince Edward, Peterborough and Northumberland. The appointment is all the more honor to Mr. Doyle because it came entirely without solicitation or political pull of any kind. He today resigned his position as City tax collector and will enter upon his new duties almost at once. The situation will be for the duration of the war and probably for many years longer.

Major R. D. Ponton was in Toronto yesterday where he went to attend a conference between five representatives of the Great War Veterans and five representatives of the Y.M.C.A. to consider the allegations and reports about the work carried on by the "Y" overseas. After the conference it was stated that adjournment had been made for about three weeks. Meanwhile no statement will be issued, as it was felt the ground covered did not warrant anything being made public at this time. The other members of the G. W. V. A. contingent were Capt. Jenkins, president, Brantford, L. Col. Hendrie, Hamilton, Major Bell, Toronto and Capt. Appleyard Woodstock.

Tomorrow is the day of national registration. In Belleville a good portion of the work has been done, but much remains to be done. Citizens are urged to save as early as possible to avoid inconvenience themselves and to the deputy registrars and their assistants.

Large crowds attended Albert College closing exercises at the city hall last night. All the performers acquitted themselves creditably. The audience was delighted with what was really a high class program all the way through. Prof. Hunt, head of the Belleville Conservatory of music and Miss Tuttle, chief instructor in the school of expression were warmly congratulated upon the splendid work of instruction, as reflected in their pupils.

GAS VERSUS ELECTRICITY

Question of Belleville's Gas Problem Ably Discussed by Mr. Geo. W. Allen, of Toronto, Secretary-Treasurer of the Canadian Gas Association.

ELECTRIC HEATING IMPRACTICAL

Mr. Allen Claims That Gas is Coming Into Its Own—Electricity is Not a Substitute For Heating—Electrical Possibilities of Ontario Not Unlimited.

Editor Ontario.— I am greatly interested in an editorial entitled, The Gas Department, which you published in May 31st issue of The Weekly Ontario. In the ordinary course of events I might have passed over this editorial, but, having had considerable experience in the electrical field, and several years in the Gas business, could not let the matter go by without saying something that may be of interest to yourself and, to your readers in connection with the gas and electrical situation as it is in Canada today.

In order to properly answer this editorial I should take it paragraph by paragraph if I am to answer it in the manner it should be done.

The Grouches Paragraph No. 1 of your article brings out a point worthy of mention and that is in connection with "Isolated Grouches" that oftentimes exist between one corporation and another, or between the people of the city and its departments, or between the public and public utilities in general. I know of many instances where large corporations have been assailed for doing things which, on investigation, have proven to be without any foundation whatever. A few years ago, there were a number of complaints brought against the Gas Company of Toronto, stating that the company, although reducing the price of gas, were still making out the bills as aforesaid, and in consequence were not losing anything by the reduction in the price. A number of complaints came in that the pressure was being unduly raised; others, that their meters would operate whether gas was passing through or not; and others that the quality of the gas was far from being up to the standard. So great became the agitation that something had to be done, and following a deal of newspaper publicity, especially that of one newspaper which began publishing the complaints, consequently stimulating the activity and the agitation; resulted in the City Council taking up the matter and approaching the Government for relief through its Inland Revenue Department, finally succeeding in having the Government appoint an Inland Revenue Investigation Committee to receive the complaints of the citizens and try to do something to solve the problem.

Complaints Often Groundless The Inland Revenue officials came to Toronto, and gave publicity to the matter in the papers advising the people to bring their complaints to them at the city hall where the Department would look into each individual case. Strange to say, that notwithstanding the publicity, and in face of the fact that over 67,000 people were being supplied with gas, complaints came in from less than 130, under 2-tenths of 1 per cent., and this, as I said before, after the matter had been the subject of considerable press comment.

It cannot be truthfully said that such a percentage represented anything approaching a general complaint. On analysis of these complaints only 15 complaints, or 12% of the 130 were due to the company's own unintentional errors. Over 51% complaints were those where the increase of gas consumption was really small, not over 5%, or where the bill was clearly explainable by consumers conditions such as, amount of work done, increased equipment, etc.

This is only one instance among many that I could quote, where companies and corporations have been the target for many complaints that have no foundation in fact. As your editorial says, "It is only when such individual complaints become numerous that they indicate something is wrong in the system."

Mr. Gardner A Capable Man Paragraph No. 3 of your article, from this I note your remarks regarding Mr. Gardner, the manager of the plant, and I quite agree with you that he is an extremely conscientious and hard working servant of your city. He understands the technical side of his duties thoroughly and a change in management at this or at any time would not, in my way of thinking, be in the public interest, and I am sure you would be injuring yourselves by such a movement, and doing as well, a gross injustice to a tried and faithful employee in your city service.

"Resolved that the City Gas Plant Should be Abolished."

Paragraph No. 4. I notice you say that the special committee should not disband without looking thoroughly into the working of the gas plant; and in paragraph No. 5, you bring up the question for debate, "Resolved that the city gas plant should be abolished."

In paragraph No. 6 you say that you are not prepared to debate that question, either affirmatively or negatively at the present time, but that you present some facts and considerations that might afford the committee a basis for some minute investigation. It is here that I would specially like to draw your attention to something that you yourself, no doubt, have not even thought of, and which is quite contrary to your views that gas is a back number and that electricity will sooner or later supplant it.

Gas Just Coming Into its Own.

That gas is only lately coming into its own goes without saying with those who know the situation, and a few extracts from reports of eminent authorities, may be of interest to you at this time, in this connection. That gas, for illuminating purposes has not as promising a future as electricity, I grant you, but still there are thousands and hundreds of thousands of homes throughout the country that will be a long time throwing out gas, because of the fact that there is not yet, and will not be for some time, sufficient electric power to supply the many local requirements. Electricity for baking, ironing and other purposes is no longer an experiment, but would be an admitted success as far as doing the work is concerned if it were not for the fact that the use of electricity for such purposes is nothing short of a national crime when the same electricity used as motive power would do 25, 50 and in some cases 100% more useful work.

Electricity Falls as Heating Agent

Many people are looking forward to the days when electricity will supplant the use of coal and gas and other fuels in the heating of their homes and in doing many other heating operations, but, using the words of Mr. Arthur V. White, Consulting Engineer, Commission of Conservation, that the sooner "The public mind is disabused of the idea that, as a heating agent, electric energy could be made an adequate substitute for coal for the citizens of Canada, the better it will be for it." He states that its economical use is in the direction of the development of power.

An editorial published in the April issue of "Industrial Canada, on electric heating, states that, "It will doubtless come as a surprise to many that in the opinion of so able an engineer as Mr. Arthur V. White of the Conservation Commission, the application of electric energy in the production of heat is a very much exaggerated possibility. We have, for some time, had a sort of pleasing feeling that sooner or later means would be devised for the economic utilization of the electric current in heat-

ing houses."

Not a Substitute for Coal

"The fear that the coal supply would be exhausted within a certain number of years was offset by the belief that long before that time we would have become quite independent of coal. Mr. White, of course, doesn't say that eventually means will not be found to produce a suitable substitute for coal. The point is that we cannot rely on our water powers to do the trick. They will be adequate for power purposes but not for heating purposes and until some other source of electrical energy is discovered we must do our best with the present arrangements."

At the first general meeting of the Canadian Society of Civil Engineers, held in Toronto on March 22nd, 1918 it was quite evident from a digest of the papers read and the discussions that took place between the engineers representing every branch of the fuel industry that electricity was doing the country a great service whenever it was utilized for power purposes, but when used as a heating agent was doing the country a national injustice.

Gas Has a Great Future.

We do not believe there has been a meeting held anywhere within recent years that could give gas men more encouragement as to the future of their industry, than that same meeting of the Canadian Society of Civil Engineers, held in Toronto on the afore-mentioned date. This meeting was promulgated for the express purpose of analysing the present fuel and power situation and if possible to arrive at a satisfactory solution of the problem. That gas will play a very important part in the future of this and other countries was clearly shown in and through a careful analysis of these many papers and discussions.

Electricity Will Never Solve Fuel Problem

It was pointed out by a number of the electrical engineers present that the people of the country need not depend upon electrical energy ever being a solution of the heating problem. It was manifestly shown that electrical energy was primarily intended for power purposes and to use it as a source of heat was robbing the country of energy which would do double or triple more duty if used as motive power. It was shown that all the available water power of the country could not supply the maximum demand that would be created for electricity, for heating purposes even in a few large towns, aside from the great amount of energy that would be required for power purposes on railways and in the industries of our land, not to say anything of the lighting loads.

Canada Has Great Fuel Resources

Mr. V. H. Hannel, Chief of the Fuel Division of Mines, Ottawa, Can., was one of the first engineers to open the meeting and his paper on "The Fuels of Canada" was an interesting one. The Fuel outlook was neither discouraging nor gloomy if proper exploitation and economy were assured. The situation was difficult because Canada drew 55% of her coal from the United States and also 91% of her oil products. Canada would therefore be hard pressed if there was a curtailment of this supply. Mr. Hannel pointed out that the central provinces of Canada had 12,000 sq. miles of peat bogs and 16 million tons of peat fuel. Owning to the great water content of peat, something like five times its own weight of water, the drying process was an expensive operation. But one of the efficient means of utilizing peat was brought out in the discussions when it was stated that it could be used in gas plants for the production of gas, or else used in powdered form as a boiler fuel. Other engineers pointed out that almost all the bituminous coal mined or brought into this country could be more efficiently used if turned into gas and the coke released for the purpose that could most efficiently use it, and the gas released for general house heating, and other purposes at a low rate. It may be a surprise to you to know that many electric irons are using double and triple the amount of electricity that would be required to do more efficient work as a prime mover. It would take almost 1,500 H.P. of electrical energy to supply power for irons if one iron was used in each home in Belleville alone, let alone the power that would be required if electric ranges and other electric household utilities were in general use.

Up-to-Date Gas Plant a Valuable Asset

The city of Belleville and a good many other gas cities would do well to spend considerable money on their gas plants, for I am sure, that the result would more than offset the expenditure involved. It would be a surprise to many of the smaller gas towns if they suddenly had the gas shut off and were forced to purchase coal or electricity to make up the loss.

A gas plant, in proper hands, and kept in an up-to-date condition becomes an asset that no city or town would ever think of doing without. The gas plants mentioned by you at Cobourg and Napanee cannot expect to ever be worth anything as long as those controlling the situation in these towns, (as in these instances, the Electrical Department) are allowed to manage the affair. For it stands to reason that if these business men have nothing but electricity before their vision they cannot see any good in the gas plant, but I venture to say that these gas plants in the hands of independent and go-ahead men would very soon need to be enlarged to take care of the demand for the gas that would be created. The same thing applies to Belleville. Your good manager, however, is handicapped by the requirements for heating purposes of a city the size of Toronto alone. Engineers all over the country have seriously considered the part that gas will play in the future activities of our country, and to even consider the possibilities of doing away with the present gas plant is nothing short of foolishness.

Power Possibilities Exaggerated

An eminent electrical engineer speaking at the recent meeting held in Toronto, stated that the power possibilities of Niagara Falls were very greatly exaggerated and that there would not be sufficient power at the Falls to supply anything near

the requirements for heating purposes of a city the size of Toronto alone. Engineers all over the country have seriously considered the part that gas will play in the future activities of our country, and to even consider the possibilities of doing away with the present gas plant is nothing short of foolishness.

Improve the Gas Plant

If the people of Belleville and other towns, who are considering the doing away with their gas plants would get together and put their gas plants in first class condition they would not only be able to make the gas cheaper, but would be also able to distribute it in a manner that would make it much more efficient than it is at the present time.

One has only to review the gas situation of a city like Toronto to see what great possibilities there are ahead of this great industry.

At the beginning of the hydro electric development work, the Consumers' Gas Company of Toronto, although at that time having been 61 years in business, established a new business department for the education of its consumers in the proper use of gas, teaching them how to use it more efficiently and thus get the greatest good out of it for the amount of money expended. At that time, nine years ago, the Gas Company of Toronto had 55,000 consumers of gas; in nine years, notwithstanding the extreme competition from the electrical men, the company has now reached the point where there are about 110,000 consumers on its books; more consumers than the city itself has water customers, and the output of gas itself has increased from an average output of around five million cubic feet of gas daily, to nearly fifteen million cubic feet average daily, and on some days during the past winter, owing to a shortage of coal, the company helped out the situation by supplying additional gas for the purpose, reaching an output of over seventeen million cubic feet of gas per day.

Gas Solves the Fuel Problem

Hundreds and thousands of industries in the city of Toronto are using gas for many purposes and the campaign of education has proven that the use of gas is an economical solution of our fuel problem.

Almost all coals should be utilized in some form or other in the manufacture of gas and the proper solution of the heating and fuel problems of our country within the next few years will be in this direction if the country is to be saved from very serious fuel famines.

The writer's own opinion regarding the solution of the fuel problem for the future is in this direction and believes that wood fuel should only be used by the people in closest proximity to the source of supply and that no coal should be allowed to be shipped to centres where there is an abundant wood supply. Coal brought into the country and mined in the country should be turned over to gas manufacturing, of coke oven plants when the gas content would be released and sold in centres that could not conveniently get a wood or coal supply. It could also be distributed in as large an area as possible for domestic, industrial and other heating purposes at a low price while the coke would be used in centres not conveniently situated to the coal or wood supply, and also utilized in metallurgical, foundry and smelter operations, and if necessary for the generation of steam power. Peat, as I said before, could best be utilized as a gas producing substance and the gas sold for heating purposes.

Yours very truly,

George W. Allen, Secretary-Treasurer Canadian Gas Association

Editor's Note.—We desire to thank Mr. Allen for his very valuable letter and the fund of information he has given us on the local and general situation in regard to gas. His letter should be carefully perused by every citizen.

We will make no extended comments on the letter at present, any further than to state that The Ontario has no companions of conscience in regard to the substitution of electricity for gas in heating the metal used in our linotype machines. By careful calculation we have ascertained that we are actually saving more than \$500 a year by the lower cost of electricity and the increased efficiency of the linotype operators, who have now a steadier and more dependable heating agent.

There is no shortage in the Trent Valley, as Mr. Allen seems to fear at Toronto. We are not cheating anybody out of light or power by the change. There are still tens of thousands of horse-power undeveloped along the Trent and its tributary streams, while the Mohr River has no electrical development whatever.

Electricity for the heating of homes, as we believe, entirely out of the question with present appliances. The cost would be several hundred per cent. greater than with coal at the prevailing war prices. But it would be idle for any of us, expert or otherwise, to predict what

the future may have in store in regard to electrical heating. It is a process still in its infancy. Invention may or not solve the problem of cheap and efficient domestic heating by electricity as it has cheap and efficient lighting and power production. We are very optimistic that the fortunate discovery will be eventually made.

Electricity not Cheaper than Gas For Cooking

In paragraph No. 8 your remarks regarding electricity for cooking, etc. are noted. Many of our domestic science teachers and professors admit there remains to be made many improvements to electric ranges before they will supplant gas.

Isolated cases can be found where the difference in electricity for cheapness may be found, but they are few and far between. The great mass of people in the first place cannot possibly, in the ordinary course of events purchase the appliances, owing to the high cost of electrical equipment, even though they would like to.

I do not think there are over 500 electric ranges in the city of Toronto while there are over 50,000 gas ranges and 25,000 gas water heaters in use. Over 30,000 of these gas ranges were purchased within the last few years, notwithstanding the possibility of being able to obtain the cheapest electrical energy in the world.

The Case of the Type-Setting Machines

The fact that you are using electricity for heating metal for the type-setting machines is in itself a pity, because, I am sure if the thing was general the country would be robbed of useful energy that could otherwise be used to much greater advantage for power purposes.

The past winter has shown us that it does not take much to make a shortage in the power. Store windows cannot be lighted by it and hundreds of factories are unable to obtain it, and I might say that one of the biggest problems before the people who want to use electricity throughout the hundreds of towns now connected with the electric lines, is where are they to get the power required. The fuel situation is a very serious one and, as the Power controller says in connection with the use of electricity that "it is primarily intended for power purposes, only and should not be used for heating."

The Shortage of Electricity

If electricity were not quite so cheap it would be better for the people of the country; and they then would not be blinded to the shortage of it and go on using it in wasteful appliances. The United States Fuel Administration in recent published advertisements advises the people to use gas wherever possible for cooking and heating purposes.

As a former electrical man I, too, can say that although I appreciate what can be done with electricity in the way of heating, still it is a national crime to use it for heating purposes when it might be doing, as I said before, doubly and triply more efficient work for the electrification of railroads and for power purposes in our factories, and our coal and gas used for the solving of our domestic and industrial heating problems.

This is a long article but I hope that it will not be without profit to yourself and for the people of Belleville.

Yours very truly,

George W. Allen, Secretary-Treasurer Canadian Gas Association

Editor's Note.—We desire to thank Mr. Allen for his very valuable letter and the fund of information he has given us on the local and general situation in regard to gas. His letter should be carefully perused by every citizen.

We will make no extended comments on the letter at present, any further than to state that The Ontario has no companions of conscience in regard to the substitution of electricity for gas in heating the metal used in our linotype machines. By careful calculation we have ascertained that we are actually saving more than \$500 a year by the lower cost of electricity and the increased efficiency of the linotype operators, who have now a steadier and more dependable heating agent.

There is no shortage in the Trent Valley, as Mr. Allen seems to fear at Toronto. We are not cheating anybody out of light or power by the change. There are still tens of thousands of horse-power undeveloped along the Trent and its tributary streams, while the Mohr River has no electrical development whatever.

Electricity for the concentrated work of cooking, ironing and similar domestic services is another matter. A small unit of electricity as of gas, is brought to bear on a limited surface. A comparison of the costs of gas and electricity for these little services, that we have made from a somewhat extended examination, seems to favor electricity by a surprisingly high percentage, using costs at Belleville as the basis.

Now that the debate has been opened we will be glad to hear from others, either pro or con.

Y.M.C.A. Notes

This month has been a very busy one around the "Y" in that we have given every boy in the public schools who could not swim the opportunity to learn. Our aim was to teach every boy to swim and we have been very successful in teaching quite a number to use the different strokes, which will be a great benefit to them if an accident should ever happen to them in the water. This week will end the free-swims. Total number of boys handed for the month and a half, 522.

Y.M.C.A. Hike

About forty boys took the opportunity of going on a treasure hunt last Saturday, and all reported a good time. The nature of the hunt was for a box of candies hidden the night before and ever so far a note was hid telling where to find the next note until the last note was found, telling somewhere near where the candies were to be found. This proved to be a very exciting time for the boys as some of them were right near the box several times and every boy was on his toes until the candies were found, after which the boys returned to the Y, where they enjoyed a half hour's swim. The lucky boy to find the candies was Richard Sinfield.

Y.M.C.A. Baseball

Last Saturday a number of the boys met and organized a playground baseball league and Wednesday afternoon was the opening of the West Side, the East Side playing their game in the evening. In the afternoon the Beavers, clashed with the Eagles and a good many interesting plays were pulled off. This game is somewhat new to the boys but will do a great deal to develop some first-class players. Batteries for the Beavers were Symons and Ashley; for the Eagles, Lathford and Walters. Lineup:

Table with 3 columns: Name, Position, Opponent. Rows include Beavers (Clark, C. Doolittle, W. Harden, J. Day, M. Symons, H. Moxan, F. Symons, G. Ashley, C. Brant) and Eagles (Eagles, L. Stork, E. Edwards, J. Nevery, H. McKnight, D. Weeks, M. Latchford, Walters, A. Weeks).

The second game was played between the Maple Leafs and the Giants and proved very interesting for the boys. While the score would make it seem as if the game was all one-sided, it was not that way. Every boy played hard and no doubt after a little more experience in this game they will be pulling off some fast games. The result of this game ended in a win for the Maple Leafs, 15 to 4. Lineup:

Table with 3 columns: Name, Position, Opponent. Rows include Maple Leafs (A. Buck, A. Andrews, J. Riggs, Hardwick, H. Joss, J. Munroe, F. Keller, J. Reeves, B. Brown, spare) and Giants (Giants, R. Sinfield, J. Woodley, J. Weeks, E. Hews, J. Harris, W. Day, A. Weir, D. Turney).

In the evening game which was played by the Canucks vs. Tigers, the result was a win for the Canucks. This was a very close game, the score standing at full time 30 to 17. Lineup: Canucks 1B, Tigers.

Table with 3 columns: Name, Position, Opponent. Rows include H. Hurley, H. Read, P. Wims, J. Jefferys, C. Casemen, C. Ketcheson, J. Marshall, A. Bongard, S. Curry and N. Wilber, spare.

Schedule of Games

East Side— June 19—Canucks vs. Tigers, June 26—Tigers vs. Canucks, July 3—Canucks vs. Tigers, July 16—Tigers vs. Canucks.

West Side— June 19—Beavers vs. Eagles, June 19—Maple Leafs vs. Giants, June 26—Eagles vs. Maple Leafs, June 26—Giants vs. Beavers, July 3—Maple Leafs vs. Beavers, July 3—Giants vs. Eagles, July 16—Eagles vs. Beavers, July 16—Giants vs. Maple Leafs, July 23—Maple Leafs vs. Eagles, July 23—Beavers vs. Giants, July 30—Beavers vs. Maple Leafs, July 30—Eagles vs. Giants.

100,000 lbs. Xmas Pudding

TO BE MADE AT HAMILTON FOR THE SOLDIERS

Hamilton, June 21.—The Canadian Red Cross Society has placed the Hamilton fruit kitchen and staff at the disposal of the Canadian War Contingent Association for the manufacture of one hundred thousand pounds of Christmas pudding to be forwarded to the Canadian soldiers overseas. The pudding will be put up in five-pound tins and for every fifty dollars, sixty puddings will be delivered in London, England, bearing the name of the society or individual, making the contribution.

W. J. Dawson, manager of the Union Bank here, is treasurer of the fund.

A WASTE OF LABOR

A Philadelphia girl who inherited a million dollars, and whose affairs are under control of a judge, recently exhibited to him her budget for the year, as follows:

Table with 2 columns: Item, Amount. Rows include Clothing, manicuring, shampooing, hairdressing (\$3000), Household bills (4000), Education, church contributions (2000), Entertainment, dinners, dances, hotels (2000), Physicians, opticians, dentists (1000), Upkeep of automobiles, insurance, clubs (5000), Bonds, etc. (850), Social duties at school and elsewhere (3000), Total (\$20,850).

A nation which is being urged to cut down its allowance of beef, pork and wheat will probably read these items with some irritation. The harm is not measured merely by the amount of money expended. It consists mainly in the misdirection and waste of energy through employment that serves no useful purpose. The people who are making useless articles of luxury for this chaff, or dancing attendance upon her, ought to be producing food, clothing and other necessities for the mass of the people and for the Allies and their armies.

CONCERNING TITLES

With a relatively few exceptions, titles are not so unpopular in Canada as some of the political folk would have us believe.

Titles neither make nor unmake the man. Titles were granted for indifferent or no service; defeat themselves. They stamp the holder as merely a political wire-puller and a snob.—London Free Press.

ALBERT COLLEGE CONVOCATION AND DISTRIBUTION OF PRIZES

Rain Prevented a Large Attendance But Enthusiasm Prevailed Over the Elements - Auspicious Addresses and Congratulations for the Happy Graduates.

After two memorable evening entertainments the weatherman was not quite so favorable to "Old Albert" last evening, but Belleville audiences know that Albert enthusiasm is never dampened by inclement weather.

As the prize-winners filed up one by one to the prettily decorated platform on which were seated the faculty of the college it was indeed a memorable sight and one quite worthy of Albert's best traditions.

Mr. J. J. B. Flint in a few spontaneous words of appreciation presented the medal and certificate in expression.

In presenting the music prizes Prof. Hunt spoke of the value of music to men on the march. This art is ever with us.

The prizes in the Art and Commercial Departments were presented respectively by Rev. Hubby and Prof. Staples.

A new departure this year were two prizes presented by Dr. Scott for a course in Bible study. Dr. Scott said to the students: "In youth strive after two things (1) to know God's word and (2) to know His handiwork."

Due to an important meeting of the Board of Education greetings were sent by two of its members, faithful friends of Albert, Mr. John Elliott and Mr. Fred Deacon.

"There may be rivalry but there is no jealousy between the educational institutions of our city. Albert College is still in its infancy and is justly proud of Dr. Baker with his object of an endowment fund of one million dollars."

"Dr. Baker is full of enthusiasm" said Mr. Deacon and "enthusiasm is the need of this age. Albert is not all theology. Mr. Deacon went on to speak of the needed medical inspection in the schools of our city. This had been tried and adopted in almost every other city of Ontario.

Clara, Honors in Practical Work; Gertrude Graham, Honors in Practical Work; Gertie Staples, Honors in Practical Work.

DISTRIBUTION OF PRIZES AND MEDALS IN EXPRESSION Russell Prize (Best Reading) - Marjorie Stewart.

McFee Gold Medal - Madeline Young. H. P. Ketcheson Gold Medal - Louise Osborne.

Blackburn Prize (best collection of china paintings) Mrs. F. Bowerman. Thompson Prize (2nd best collection of china paintings) Minnie Rose Ault.

SENIOR MATRICULATION - UNIVERSITY TORONTO Governor General's Medal for General Proficiency 1917 - Herbert Dudley Maginley.

Teachers: Lieut. Dan A. Cameron, Capt. A. B. Fennell, M.C., Pte. E. L. Burrell, Men 377; Nursing Sisters 12; American Expeditionary Force.

KILLED IN ACTION 1. - Pte. George Minorgan, Langemarck, April 23, 1915. 2. - Pte. Chas. Roche, Langemarck, April 23, 1915.

Almighty Father, guide and shield Our Soldiers on each battle-field. In camp and fort reveal Thy power. And mercy give in conflict's hour.

Thoughts by the Way Country Topics Written for The Ontario by "Wayfarer."

In the lull which comes between seed-time and harvest - with the green of grain and meadow delighting the eye, with the songs of birds gladdening the heart and hearing,

member to bear in mind that these are abnormal times which call for unusual service and sacrifice. And now, with the harvest in sight, the question confronts us, "How will it be harvested?"

It is true that many farmers' wives and daughters are overworked in these days to assist their husbands and fathers. There being of them but one overworked woman in a farm home, the burden of work is breaking down her physical strength.

Or liberty. - Lillie A. Brooks. This year marks an era in the life of rural schools, it being the beginning of the medical inspection of pupils.

Public School Inspector is a visitor usually dressed in the teacher when his semi-annual visits interrupt for a time her absolute way, but the visit of a medical practitioner is something entirely novel in the experience of the rural teacher.

When he announced himself as the medical practitioner, whose duty it was to examine the pupils as to physical defects and fitness. The Public School Inspector is a visitor usually dressed in the teacher when his semi-annual visits interrupt for a time her absolute way, but the visit of a medical practitioner is something entirely novel in the experience of the rural teacher.

Patriotic Recital Upon June 15th inst. there was a patriotic piano recital in St. Agnes school given by Miss McCuaig's pupils, the platform was embowered in masses of flowers and flags and presented a beautiful appearance.

Prizes were presented to Jack Marsh, Charles Earle and Rosalind Irvine for good work during the year now closing. Sergt. Spargo kindly came from Kingston and gave two splendidly rendered songs. The enjoyable evening was brought to a close by the singing of God Save the King.

Strawberries Sell at 25cts. Strawberries were no cheaper at the Belleville market today. They sold at 25 cents per box and the supply was not large.

Novitiates Not to be Excused THOSE LIABLE TO MILITARY DUTY MUST SERVE Doherty Says Son Not Guilty Of Evasion

From Montreal in 90 Minutes LIEUT. FLACHAIRE LANDED AT BARREFIELD Demonstrated Air Feats to Soldiers in Camp

Mr. Louis Stanslaus' Novitiate at Guelph, Ont., should prove to be liable for military service under the Military Service Act, they will be required to undertake it, according to a statement issued from the Department of Militia and Defence yesterday afternoon.
