CRICKET MATCHES.

On Friday last a splendid game of cricket was played in the C. S. R. grounds, between the St. Thomas club and one from Simcoe. The play of the St. Thomas club showed a great improvement on their previous form, doubtless owing to their increased practice. A large number of spectators were present including a good proportion of ladies. Rapid batting was shown on both sides, and the ground in the afternoon, and played a choice programme. The weather was all that could be desired and evening passed off very pleasantly. Below we give the score.

Close of the Provincial Show.—On Thursday 30,000 people visited the Crystal Palace Grounds. The cash receipts were \$18,500 up to Thursday night. One of the most attractive features of the show was the siring in the Ring of the prize animals, horses and cattle, forming a magnificent display of stock, and one that was worth travelling miles to see. Another very interesting feature of the show was a procession of agricultural machinery, to give an opportunity for the chemical fire engine to work. It drew together such a mass of spectators that the scene was really grand. The show of plants and flowers was very attractive, being made up principally from garden and greenhouse of the city nurserymen. The display of butter was not large, and no rolls were shown. Only one person exhibited bread—a white and brown loaf—and the judges did not award a prize.

—Rev. Henry Ward Beecher has returned to Brooklyn and will preach in Plymouth Church next Sunday.

RECIPTS.

BROILED TOMATOES.—Cut medium-sized tomatoes in halves, and put them upon a grid-iron, cut surface down. When the surface appears to be somewhat cooked, turn them and finish the cooking with the skin towards the fire.

TO PRESERVE GREEN TOMATOES.—Take green tomatoes of any size; pull off the stems; boil them in plenty of water till tender; but do not let them break. Strain the water from them.

PEACH MARMALADE.—We took the small and imperfect things, as they would not admit of being removed from the stone in pieces of uniform size and shape, pared them, and after cutting from the stone, placed in a porcelain kettle, with one pint of water to two quarts of fruit; boiled until soft; took off, and put through a sieve with a wooden potato smasher. Then returned to the kettle, adding one pint of sugar to every quart of prepared fruit; brought to a boil and sealed while hot.

SPICED TOMATOES.—To four pounds of large red tomatoes take two pounds of gold brown sugar, a pint of cider vinegar, half an ounce of cloves, and half an ounce of stick cinnamon. Stew altogether, in a preserving kettle, over a slow fire, until the tomatoes are nearly cooked.

PICKLED PEACHES.—Pick out the largest and fairest of the clingstone peaches; rub all the down off with a coarse towel; fill your steamer and place over a kettle of boiling water for about fifteen minutes.

HOW TO COOK A TOMATO.—Let those who think it a very difficult matter to cook tomatoes, take courage henceforth. This most beautiful and delicious fruit is easier to cook for those whose palates are healthy and unvisited than any other fruit in the world.

DRIED PEACHES.—Look over the peaches, and if clean enough, cook without washing. This would hardly be advisable, however, unless you know that the peaches are clean.

JACK'S WIFE.—This is the way a sea-faring man, recently married, "talked to the marine" what sort of a wife he had secured. "My wife is just as handsome as a craft as ever left a millinery dry dock.
