FORT THIRD YEAR

THE VICTORIA B. C. FRIDAY NOVEMBER 8 1901

Elections In the U. S.

Tammany Beaten in the Fight For Mayoralty of New, York.

More Interest Taken in It Than mayors as Polling in Other Places.

Reports From Other States of the Results of the Polls.

New York, Nov. 5 .- Seth Low, former president of Columbia university, and four years ago the citizens' Union canenth districts.

CROKER ABDICATES THE THRONE, nor of Greater New York, by a plurality ranging anywhere from thirty to forty thousand, defeating Edward Sheppard of Brooklyn, the Democratic nominee. The campaign was an exciting one and the vote, though somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in this country. In addition to the canvass for mayor, public interest largely centred in the nomination by the fusionists of William Travers Jero for district attorney, and Mayor Robert A VanWick by the Democrats for justice of the Supreme court. Both the candidates for district aftorney and justice of the Supreme court were voted for only on the territory contained in New York county. Returns received up to 11 p.m. indicate that Jerome has been elected by a comfortable plurality, and that Mayor VanWick has been defeated. The latter ran behind his ticket from 15,000 to 20,000. Returns also indicate the complete triumph of the Greater New York fusion ticket, Charles Vincent Fornes, the nominee of the Citizens' Union and the Republicans, defeating Geo. van Hoesen, the Democratic nominee for president of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated W. W. Ladd Democratic president of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated W. W. Ladd Democratic president of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated W. W. Ladd Democratic president of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated which the properties of the control of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated which the properties of the control of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated the control of the borough of Brooklyn, now the fusionist nominee for comptroller, has also defeated the control of the borough of Brooklyn, now the fusion the control of the borough of Brooklyn the control of the borough of Brook A VanWick by the Democrats for jus-

art nominee for comptroller, has also de-eated W. W. Ladd, Democrat.
Reports received from the various sec-ons of New York state show that the epublicans will retain control of the wer house of the state legislature. In the various municipal contests

chosen mayor.

The result in Rochester was close, but Mayor Warner's friends claim his election over the Republican candidate.

In Syracuse Mayor McGuire, for a number of years past the Democratic mayor of the city, was defeated by Kline, the Republican nominee.

RHODE ISLAND. RHODE ISLAND.

Providence, R. I., Nov. 5.—With scarcely half the districts in the state heard from, the Republican plurality for the state ticket promises to run well over 6,000. This is a net loss of 2,500 from last year, due to the light vote. Seventy districts out of 189 give Gregory, Republican, 10,133; Garvin, Democrat, 6,172. The general assembly will be Republican strongly. Pawtucket and Woonsocket have elected Democratic mayors as has also Providence.

VIRGINIA

VIRGINIA. Richmond, Va., Nov. 5.—Indications are that the Democratic state ticket is elected by 20,000 or more. CALIFORNIA.

San Francisco, Nov. 5.—Incomplete returns from today's nunicipal election indicate that Eugene E. Schmmidt, the Union Labor nominee for mayor, is elected by a plurality of at least 3,000. SOUTH DAKOTA.

Sioux Falls, S. D., Nov. 5.—At midnight the indications are that the Republicans elected all eight judges, but the Democrats claim the election of Bennett in the third and McGee in the seventh districts.

R. C. R. VOLUNTEERS. Canadians at Halifax Again Offer Services for Africa.

STATION BURNED. Fire on the Line of the Canadian

Winnipeg, Man., Nov. 5.—(Special.)—Mariapolis station, on the Canadian Northern line was destroyed by fire with contents this morning, all the agent's records were burned.

Medicine Hat defeated Wolseley by 9 to 0 yesterday for the lacrosse championship of the Nohthwest Territories.

Republicans will retain control of the Republicans will retain control of the Republicans will retain contests reported from up the state, the most interesting elections noted were those of Albany, Troy, Rochester. Syracuse and Buffalo. The city of Albany will be carried by the Republicans.

The election in Troy was lively, a number of arrests for illegal voting being made. Daniel E. Conway (fusion) candidate for mayor, was easily elected. In Buffalo the entire Republican city and county ticket was elected. Erastus C. Knight, the state comptroller being chosen mayor.

SECRET TREATY.

Underhand Dealings Reported Between Chili and Colombia.

London, Nov. 5.—It is reported that Colombia has signed a secret treaty with Chili, undertaking to support Chili at the pan-American congress in Mexico City, says the Bennos Ayres correspondent of the Times. "Chili promising to supply Colombia with munitions of war against Venezuela. It is also stated that Chili had previously offered warships to Ecuader."

GUILTY OF MANSLAUGHTER.

Toronto, Nov. 5.—(Special.)—The jury in the Lewis manslaughter case involving a question of Christian Science methods of cure instead of medical aid, this morning found James H. Lewis

will probably be Yuan Chi Kai, is appointed.

Robt. Coleman, an American doctor, who is one of the physicians attending Earl Li, told the correspondent of the Associated Press that when he was called to act with Dr. Veld of the German legation, November 1, he found the patient very weak from severe hemorrhages due to ulceration of the stomach. "The hemorrhages were readily controlled," said Dr. Coleman, "but owing to the underlying condition of chronic gastritis with persistent nausea, only the mildest liquid food could be digested. Yesterday he was cheerful and without pain, but at 2 o'clock this morning he became unconscious, and was no longer able to get rid of the collection of mucous which he had freely expectorated. Death was expected owing to the symptoms supervening upon gradual carbonic acid poisoning. Throughout the evening digitalis was frequently administered. Earl Li's persistent refusals to refrain from attending to government business aggravated his malady while the refusal of his family to permit certain measures customary in Western

on his trip, sailed from Victoria by the Empress line.

Soon after his return to China in that year he was punished by depriving him of a year's salary on some flimsy pretext and disgusted with his treatment he retired into private life. Just what influences he underwent in the recent troubles with the powers in China it is somewhat of a mystery, but he was found very useful by China in negotiating with the powers. He was supposed to have strong Russian leanings, and a great deal of the influence of that country in China was said to be due to him. He amassed an immense fortune, and was reputed to be the richest individual in the world.

London Despatches on Canada's Offer to Send More Troops to Africa.

Government Experts Make Bad Errors in Calculations For Montreal Elevators.

Toronto, Nov. 6 .- The Evening Telegram's London cable says: "The offer of the Royal Canadian regiment stationed at Halifax to go to South Africa, though most highly appreciated, will be declined with many thanks. It is unis impressed with the belief that the oldiers are required to handle the Boers

London, Nov. 6.-The British War office, it is understood, will accept Can-

Montreal. Nov. 6.—The meeting the Harbor board this morning washed up two interesting incidents. Some time ago Mechanical Superintendent Desy, a French-Canadian, resigned. Senator MacKay, president of the board temporarily appointed H. A. Bayfield, who comes from Prince Edward Island, and who has recently been in British Columbia to the position. The board this morning made the appointment permanent in spite of the protest of French-Canadian members who claimed the position belonged to a French-Canadian. Then Kennedy, the Harbor engineer, presented a reply to French-Canadian. Then Kennedy, the Harbor engineer, presented a reply to the report of the experts of the Public Works department, upon which Mr. Tarte refused to approve of the plans for the erection of the Jameson grain elevator. In the report Mr. Kennedy showed by the tests made by Dean Bovey and his assistants of the Applied Science Faculty of McGlll, that the government experts had made a bad error, in calculating the strain more than 12 times greater than it could possibly be. It is not known what Mr. Tarte will do now. The board will send Mr. Kennedy's report to him.

Changes In Tariff

Canadian Manufacturers Ask for More Protection For Several Articles.

Sentiment Favoring Stronger Imperial Connection Expressed at Banquet.

Premier Laurier Promises No Begging Washington For Reciprocity.

Montreal, Nov. 6 .- At the morning sion of the Manufacturers' association, it was decided to ask the government to make changes in the tariff giv increased protection to woollens. shirts, collars, lumber, oatmeal and agrialso decided not to continue the subcription to the Labor Gazette published by the government, as its tendency was against employers in favor of employees. The association decided to recommend to the government that the publication

Sofia, Nov. 6.—The brigands having Miss Stone and Mnie, Tsilka in their custody were in Bulgarian territory near the Turkish frontier last week, according to authoritative intelligence. The captives were lodged in caves and fires were lighted to protect them from the severe cold. Since then the brigands and the women had gone to some place unknown. The fact that violent measures, such as mutilation, to extort ransom.

that Mr. Craig's salary is to be a sirplus over and above the running expenses and any unconverted office holder in the charch is to become converted, renouncing his worldly life, or to resign.

WONDERS OF THE HEART.

All the blood in the human body passes through the heart in about three minutes. The heart beats 70 times a second, 4.200 times an hour. 100,800 times a day, throwing out 2½ ounces of blood an second, 656 lbs, an hour. 7% tons a day, this enormous amount of work and rebilled its enormous enormou

CAR BLOWN UP.

Dynamite Wrecks a Car on Scranton Railway.

Scranton, Pa., Nov. 5.—A northbound car on the Scranton Railway company, while going from this city to Carbondale today was dynamited at the upper end of Mayfield and hurled crosswise off the tracks. Every window and the front platform was shattered. The motorman, a non-union man. was hurled into the street and severely bruised. The conductor escaped unhurt. This is the first outrage of the kind in connection with the strike of the company's employees.

SCHLEY INQUIRY.

Counsel Have Not Yet Finished Their

Washington, D. C., Nov, 5.—The time of the court in the Schley inquiry was entirely devoted today to hearing arguments in the case of Admiral Schley. Mr. Hanna finished his argument in behalf of the department, which had been begun yesterday and Capt. James Parker did not conclude his presentation of the charge of Admiral Schley. Capt. Parker will conclude his speech tomorrow when Mr. Raynier will begin.

French Flee in Possession of Ports of Turkish Island.

Paris, Nov. 5.—An official despatch announces the arrival of Admiral Cail-lard's squadron this morning at the is-land of Mitvlene. Admiral Caillard has occupied three principal ports of the island Mitylene,

The association deeded to recommend to the government that the publication be remodelled on the plan of the United States Labor Bulletin, and that it only be issued quarterly.

The place of the next annual meeting was left to the executive, with the understanding that it shall be Quebec, Halifax or St. John. The induction of the new officers as already announced, concluded the business of the session.

At the banquet of the association this evening, the feature or the speeches was the strong sentiment in favor of Imperialism. The principal speakers were Lord Strathcona. Sir Wilfrid Laurier, Mr. B. L. Borden (leader of the opposition), and Hon. Mr. Fielding. Lord Strathcona dwelt upon the benefit of stronger Imperial connection. Sir Wilfrid said that since 1866 Canada had been sending delegation after delegation after delegation after delegation would be sent. He would not be astonished if in a few years they saw delegations from Washington coming to Ottawa. He besileved the future of the British Empire lay in a scheme of mutual support and defence. As for the tariff, he knew Mr. Fielding's tariff was not perfect, but he thought it met the views of the manufacturers of Canada.

This was met with crice of dissent. He thought it met the views of the manufacturers of Canada.

This was met with crice of dissent. He thought it met the views of the manufacturers of Canada.

This was met with crice of dissent. He thought Canadians did not support the manufacturers as well as they unjet, and he are annual of the canada had been sending delegations from the service of Canada.

Schooner Geo. W. Prescott to Change Her Flag and Become a Sealer.

Amur Brings Gold and Fish Salmon Ship to Sall Today For Liverpool.

Another schooner has been added the victoria sealing neet. She is t Geo. W. Frescott of Port Townsend, h is a new days hence of Victoria, h Another schooner has been added to the victoria sealing neet. She is the Geo. W. Prescott of Port Townsend, but in a 1ew days hence of Victoria, for Capt. Douglas, an old-time Victoria sealer has brought her to this port to have her under the Omon Jack instead of the Stars and Stripes. She will change her register some time this week, and will be sent out with the sealing fleet when the schooners start out a couple of months hence on their spring cruise. Capt. Abel Douglas, her owner, is an old-timer in Victoria. He came to these waters in 1809, and for two years he chased whales in the Gulf of Georgia in the old schooner Kate, which now lies out near the mouth of the harbor with the tide rising and falling in her. He then built the schooner Triumph, which be operated in trading, fishing, and in the British Columbia government service for 13 years. He then secured a two-thirds interest in the American sealing schooner Challenge, with which he continued to seal for two seasons, until the schooner was seized as she lay at Akatun with 169 skins, by a United States cutter in 1897. After the seizure of the Challenge, the captain shipped as hunter on the schooner Annie C. Moore, which was burned in Lynn canal when taking a cargo to Skagway during the earlier part of the Klondike rush. Until 1891 he remained with the Annie C. Moore, and then built the schooner May Belle, which was ordered out of, the Behring sea when the United States revenue cutters seized a number of Victoria schooners, and for being ordered out in the May Belle, Capt. Douglas received his share of the \$425,000 which Uncle Sam paid to the Canadian sealers, illegally seized by the cutters in the Behring sea. Capt. Douglas received his share of the \$425,000 which Uncle Sam paid to the Canadian sealers, illegally seized by the cutters in the Behring sea. Capt. Douglas received his share of the \$425,000 which Uncle Sam paid to the Canadian sealers, illegally seized by the cutters in the Behring sea. Capt. Douglas only operated the May Belle for one seas

Steamer Amur arrived from Skagway and way ports early this morning, with gold, salmon, and many Klondikers among her 78 passengers. A large number of icebergs were seen, and a rough trip was experienced, for a severe storm whalers hunting in the Arctic are in Canadian waters, he says, for the most part of their time, and they have their headquarters in Canadian territory—at Herschell island, where there are doings, the tale of which would fill books. There are many vessels in this port suitable for whaling and in the opinior of Capt. Douglas much money could be made in the pursuit of whaling, an Industry of which Victorians should have their share. They would have a good warket in London for their bone, and if he was a younger man, Capt. Douglas says he would certainly engage in that business. To show what large profits are sometimes made he instanced the case of the Amur large profits are sometimes made he instanced the case of the Amur large profits are sometimes made he instanced the case of the Amur large profits are sometimes made he instanced the case of the Amur large profits are sometimes made he instanced the case of the Amur have a despatch from Dawson that the English of Chief, Stewart of Vancouver, alleging of the Amur have a despatch from Dawson that the fire department three have asked for the restenation of Chief, Stewart of Vancouver, alleging incompetercy and overbearing conduct. tween St. Michael and Dawson.

Capt. I. N. Hibbard, superintendent of the Northern Navigation company, which operates eight river tteamers and many barges on the Lower Yarkon, has returned from the North. Thirty-eight steamers ply between St. Michael and Dawson. They tow the barges, having sometimes one, two and three such crafts trailing up or down the river after each vessel.

Capt. Hibbard estimates that the company handled 25,000 tons of freight at St. Michael, shipping practically all of it to points up the Yukon from its mouth to Dawson.

Some of the vessels made as many as three round trips during the season, carrying passengers and freight. Probably 2,000 people were carried down the river, and in the neighborhood of 1,500 were given up-river transportation.

Winnipeg, Nov. 4.—(Special)—A man named John McDonald, who reached the city about a week ago from Grand Bend, Ind., attempted suicide this evening with a razor. He inflicted terrible wounds, but will probably recover. Since Nicholas Flood Davin's suicide here two weeks ago, there have been six atte at self-destruction in Winnipeg.

LAND LOCKED SALMON.

Die After Spawning-Theory as to How They Reached Shawnigan Lake.

They Reached Shawnigan Lake.

A number of sportsmen complain of the quantity of dead fish that have been seen in Shawnigan lake during the past two weeks, and the general idea is that they are trout. Accordingly the rean has been entertained that the trout were being destroyed by either mineralised water, or through saw dust from the fact that the mill people burn all their saw dust and refuse lumber at a point removed considerably from the water. Speaking to Mr. Ashdown Green on the subject lately, it was learned, however, from that gendeman, who is an acknowledged authority on the subject of fish life that the fish in question were land-locked salmon of the sockey family, and that they die off each year after spawning. On examination, this was found to be correct, as the fish are distinctly of the salmon species. They grow to about half a pound in weight. It is interesting to know that there is said to be only one other lake in the province where this condition of things obtains. Of course how the salmon species. They grow to about half a pound in weight. It is interesting to know that there is said to be only one other lake in the province where this condition of things obtains. Mr. McGillivray of Cariboo to Be Operated Upon.

Ashcroft, Nov. 3.—(Special)—Mr. Duncan McGillivray, a popular hotel-keeper at the 59-Mile House, on the Cariboo road, was brought down today and helped aboard the train for the Coast. He goes through to Victoria, where he will undergo an operation upon the bones of the knee. The patient is a brother of the late Dan. McGillivray, for so many years a foremost railway contract.

SANTOS-DUMONT.

Aero Club Decides He Wins Prize For Dirigible Balloon.

Paris, Nov. 4.—The committee of the Aero club, by a vote of 12 to 9 today, proclaimed M. Santos-Dumont, the Brazilian aeronaut, the winner of the prize of 100,000 francs offered by M. Deutsch, for a dirigible balloon. The vote was preceded by a warm discussion. Count Dion, who presided, while eulogizing the courage of M. Santos-Dumont, contended that he had not won the prize owing to the time limit. Prince Roland Bonaparte on behalf of the special committee who watched the contests, declared that M. Santos-Dumont had materially and morally won the prize, because the new regulations as to the time limit was never officially endorsed by the Aero club.

TO END HER LIFE. Method of Suicide,

St. Paul, Nov. 4.—Mrs. Wm. Mayer, made an attempt to end her life today in a terrible manner. She piled newspapers into the bath tub at her home, saturated them with kerosene and lighted them. Then bending over the burning papers she remained in that position until the entire upper perficm of her body was burned in a horrible manner. The smoke attracted attention, and she was found lying on the floor unconscious. She was taken to the city hospital where she regained consciousness, and said she tried to kill herself because the was a burden to her family. This is the second with the woman has made to end her life within three days. It is believed she cannot recover.

ations to be conducted at French road will be on a big scale as indications of extensive deposits are present.

PAN-AMERICAN CLOSES.

The Financial Loss About Three Million Dollars.

Buffalo, Nov. 2.—The Pan-American exposition closed at 12 o'clock tonight. At midnight President John G. Milburn, president, pressed the electric buttens and the lights in the two famous electric towers grew dim for the last time. A corps of bugiers standing in the towers sounded "Taps" and one of the greatest glories of the exposition, the electrical illumination, passed away, and the exposition was ended. The exposition has not been a financial success, but the benefits derived from it will be of great value to the commercial interests of the country. The financial loss will be in conditions of extensive deposits are present.

The The Timet tod Court in received to be conducted at french road will be on a big scale as indications of extensive deposits are present.

The Financial Loss About Three Million Dollars.

A corps of bugiers standing in the towers sounded "Taps" and one of the greatest glories of the exposition, the electrical illumination, passed away, and the exposition has not been a financial success, but the benefits derived from it will

REV. SOLOMON CLEAVER.

Sketch of the Eloquent Divine Formerly of This City.

Rev. Solomon Cleaver, formerly of the Metropolitan Methodist church in this city has gained for himself as high esteem as a preacher as he did in Victoria, judging by the following from a Toronto

sesses such a well modulated, pleasant voice as the pastor of Sherbourne street church. He speaks without the slightest effort, and his audience can distinguish every word, every syllable he utters. He speaks with deliberation and likes to roll his words as sweet morsels under his tongue. As a speaker he is well equipped physically, and is a man of great personal magnetism.

With regard to his style, it cannot be too highly recommended for its directness and clearness. There are few preachers who can boast of this faculty of making themselves easily understood. Another thing, Dr. Cleaver is without a trace of affectation in voice or manner. He is entirely natural, and this is the perfection of art. In speaking he does not make extravagant gestures, or does he prance around the puipu. Often he stands quietly in the rear portion of the pulpit, with his hands behind his back; again he leans over the pulpit with his left arm extended, but he does not stray away from the desk.

CAPE BRETON COPPER.

Two carloads of machinery arrived tonight from New York for N. W. Young and will be taken tomorrow to French road, says a Sydney, Cape Breton despatch, in the Halifax Herald, of October 26. Gabarus, where Mr. Young is interested in the development of a copper mine. Mr. Young is backed in his enterprise by a company of New York capitalists, interested in copper mining. The operations to be conducted at French road will be on a big scale as indications of extensive deposits are present.

St. John Man Has Small Fortune Left

Him.

From Halifax Herald.

Solomon Hamm, for the last ten years a popular policeman in St. John, N. B., is liable to leave the force. He got a letter from a Scottish solicitor stating that his mother's uncle, Solomon Cochrane, of Scotland, had left him \$12,000 by will. Forty years ago, when Hamm was an infant, Cochrane visited this country, and suggested that the child be named after him. The old man remained a bachelor and grew rich, but the Hamms did not hear from him until now. Hamm's only child is a young man now sarving in Badeng owell's police.

To dispose of the whole matter out of ture at that time, it will only have to It only made one editorial reference to time he is followed by another, and then turn to its own files for proof of what it, and that was to say that what was by another, until a little colony is established reasonable delay depended upon the circumstances of the case, and it expressly ary 27th, 1900. Speaking of the matter declined to say whether or not the delay case being that he went out of office on the same as an admission that it was the 27th. On the following day while not unreasonable. We recall how the of the former but simply because the Turner asked: "How under the very Mr. Martin and the Lieutenant-Goverheld it would be most interesting and Lieutenant-Governor for permitting Mr. rapidity. important to know who, if any one, had Martin, after a unanimous adverse vote

THE FRENCH IN CANADA.

when it would be fully informed as to what arrangements had been made to carry on the government." Later in the same discussion Mr. Booth directed attention to the fact that there was no attorney-general to advise either the House or the Lieutenant-governor. This was what took place on February 28, and yet the World expects us to accept Mr. McInnes' recollection, when he says: "I myself handed the dismissal to Mr. shows a drain which does not augur well

tion their loyalty to our flag and institutions. It only means that we do not lose

28, and the presumption is that this while his English neighbor is content must have been after the House adwith a little family and is spending his journed, otherwise Mr. Semlin would with a little family and is spending his journed, otherwise Mr. not have said that he and his colleagues continued to administer the departments sary, or crowding into the cities in or-

If a line be drawn eastward from Ottawa to Sydney, Cape Breton, it will in a general way indicate the frontier of the constituencies. When this becomes The News-Advertiser says that Mr. the French advance. North of this line nearly one-half of the state of Maine, takes are made in the record of public and a part of the province of Nova most of the province of New Brunswick Scotia. Over all this extensive region the French are greatly in the suprem acy, numerically and in respect to the acreage of land in the possession of inwas received after the above was in ground. Our despatch shows at what type: charged will be inserted in the Colonist at the rate of 10c per line.

Type:

Editor Colonist,—I notice that a dispute has arisen between the Colonist, the News-Advertiser and the World as to the date of the swearing in of the Martin cabinet. If the facts be considered of any importance in this little controversy, permit me to point out that the Colonist," and cites Mr. T. R. E. Mc-Innes to prove it, and asks us if we will accept that gentleman's statement as to what occurred. We hope that Mr. McInnes will not think us lacking in courtesy towards him when we say that we have better evidence than his recollection. Premising that the matter is of very minor importance, and solely

stype:

Editor Colonist,—I notice that a dispute has arisen between the Colonist, the Morriage in of the Martin cabinet. If the facts be considered of any importance in this little controversy, permit me to point out that the Colonist's recent statement that Mr. Martin was permit for some time without an Executive Council, is wholly incorrect, and they are doing so in the Maritime tree they are doing so in the Maritime province, and they are progressing equally fast in the state of Maine. The suggested line does not limit the extent of their settlement. All along from the Golonist's recent statement that Mr. Martin cabinet. If the facts be considered of any importance in this little controversy, permit me to point out that the Colonist's recent statement that Mr. Martin cabinet. If the facts be considered in the Colonist.

The News-Advertiser is wrong as to its dates. Mr. Martin did not assume any official status whatever, or direct any department, until he was sworn in Mr. Smith him. The ceremony took place at Government House ou Wednesday evening, February 27, 1900.

The only comment necessary to make matter where they may be, they are any official status whatever, or direct any department, until he was sworn in mover too far away to be reached by the newer too far away to be reached by the fostering and protecting hand of the Curtis and Mr. Yates were sworn in with him. The ceremony took place at Government House on Wednesday evening, February 27, 1900.

The only comment necessary to make on this letter, in addition to what has been said above, is to mention that of the titles and the can be placed upon such in the time of Latoru and Frontenac. If the truth must be told, the French are the fittest people for the conditions of life in that part of the Continent, and as has always been the case, the fittest to make to day that has anything like such vears to come.

The medicine dealers in this place say the no finality about it in this province for years to come.

Referring, again for a moment and simply for the purpose of showing what little value can be placed upon such the calculations as our contemporary makes, we may mention that of the Liberal members of the House of Commons fourble to more than a difficult one, and there can be no finality about it in this province for years to come.

Referring, again for a moment and simply for the purpose of showing what little value can be placed upon such the time of Latoru and Frontenac. If the truth must be told, the French are the fittest people for the conditions of life in that part of the Continent, and as has always been the case, the fittest than 100. In point of fact, if about 400

The medicine dealers in this place say then there is no preparation on the market today that has anything like such the fostering and protecting with the anything like such the fostering and protecting with the santhing that there is no preparation on the motion that the fostering again for a moment and simply for the purpose of showing what little value can be placed upon such that there is no preparation on the market of the today that has anything like such that there is no p

are surviving. The progress of the occupation of the Eastern country by the French is slow lished. Almost invariably the result is that the English-speaking people in the neighborhood begin to sell out their

THE TRAMWAY.

A good many Victoria people have been ooking forward to the extension of the tramway line so as to give a loop around by way of the Gorge and a line to the Ross Bay Cemetery, and it is an open secret that Mr. Goward, the local manager, has been doing what he could to bring about this very desirable improvement. The idea has been for the company to acquire a piece of land near the Gorge and convert it into a park, runorge and convert it into a park, running the car line up the Gorge Road, across the Gorge bridge and down the Craigflower Road. The estimated cost of this whole arrangement would be in the vicinity of \$60,000, and to pay for operating, depreciation and interest between \$25 and \$30 daily income from fares would be necessary which would mean from 500 to 600 passengers one for the future. A loss of over four percent, in ten years means a very serious reduction in half a century, if it is continued, more especially in view of the peculiar circumstances attending the inspect of the French element.

That there is that there is sight. We have reason to think, however, that the company is disposed to look favorably upon the project if the large landowners and others immediately benefited are willing to bear a reasonway every day. It will hardly be said that there is this much business in sight. We have reason to think, howmanufacturis have sustanteed. Scotte peculiar circumstances attending the incursion in the daily press and six your neight of the french element.

Before discussing the matter further able share of the cost, and this contribution might take the form of real derstanding, to say that the Colonist is

terested in having that part of the city and vicinity provided with tramway, facilities. If the proposed line were built there is no doubt that the land along it would come into immediate demand for residential purposes, and it is for the property owners to say if they think it worth what it would cost them. That a large amount of traffic would ped without the improved facilities of transportation is also evident. Both the property owners and the company are interested, and we suggest that known, the former ought to take the initiative in reaching an agreement with the latter.

AS TO REPRESENTATION.

The Times treats its readers to a number of surmises as to what might happe if the distribution of seats in the legis All new advertisements and changes of advertising, to ensure their being inserted, should be handed in to the business office, but insertion cannot be guaranteed. For urgent advertising after 8 p.m., consult the Night Editor.

Martin, Yafes and Curtis were sworn in on the evening of the 27th of February, as they were in point of fact not sworn in until the morning of March 1. If the World wants any further proof that both itself and its friends are in error, it might consult the Gazette of March dent of the Dominion. Canada is more commission from the whole results of the ries by a vote in the house. The present government has been amply sustained by the house. It lost New Westminster and its opponents are at liberty though doubtless in a modified form, by the leaders of thought among the both itself and its friends are in error, it might consult the Gazette of March dent of the Dominion. Canada is more World wants any further proof that both itself and its friends are in error, it might consult the Gazette of March I, in which it will find that the gentlement named were not appointed members of the Exeutive Council or to their respective departments until February 28, and the presumption is that this must have been after the House adin expressing this opinion its wish is father to the thought. Our contemporary seems quite deter-

mined to make redistribution its piece de resistance in the political banquet. This seems a highly unnecessary proceeding. Every intelligent individual concedes that before the term of the present house expires there ought to be a change in the boundaries and representation of a practical question, and it is not so now, our contemporary may find that are unable to see what is to be gained by talking about it now. At the same time it is fair to point out that change in representation have been made from time to time as the needs of the province demanded; and that there has not been the slightest disposition on the part of any government to withhold from any section of the province its due voice in the management of affairs. Doubtless look neat. See our goods at the old stand the management of affairs. Doubtless some inequalities exist. They will be inevitable under any system of distribu-tion that can be devised, and there is They have no more practical bearing sirable whenever possible to avoid what upon the price of real estate. may appear to be the curtailing of the entation of a district. Overworked Wage-earners

What hosts of pale, weak and debilitated men and women are sapping the vitality from their bodies by plodding long hours in poorly ventilated shops and factories. The blood gets thin and vitiated, digestion is bad, the nerves become shattered and exhausted. there are headaches, backaches and weariness that is not overcome by the night's rest. Despondent and despairing of having strength and vigor restored, life becomes a burden to the wage-earner who cannot afford the rest he so much needs.

The system demands unusual assistance. It requires just such aid as is best afforded by the regular use of Dr. Chase's Nerve Food, the great tissue builder and nerve restorative. Thousands of weak and exhausted men and women have gone to work with new strength and a current of fresh new life flowing through their veins after using this treatment. Their minds act more clearly, their nerves are more reposeful, their digestion is better, and their work more easily

Portland ASTHMA CURED

Asthmalene Brings Instant Relief and Permanent Cure In All Cases.

SENT ABSOLUTELY FREE ON RECEIPT OF POSTAL Write Your Name and Address Plainly.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my astonishment the trial acted like a charm. Send me a full-sized bottle."

REV. DR. MORRIS WECHSLER,

There is nothing like Asthmalene. It

brings instant relief, even in the worst cases. It cures when all else fails.

Rabbi of Cong. Bnai Israel. New York, Jan. 3, 1901. Drs. Taft Bros'. Medicine Co., Gentlemen: Your Asthmalene is an ex-cellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success a astonishing and wonderful. After having it carefully analyzed, we state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly

REV. DR. MORRIS WECHSLER.

Gentlemen: I write this testimonial from a sense of duty, having tested the won derful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street. New York, I at once obtained a bottle of Asthmalene. My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feel that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully, O. D. PHELPS, M. D.

Dr. Taft Bros. Medicine Co.

Gentlemen: I was troubled with Asthma for 22 years. I have tried numerous remedies, but they have all falled. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony you can make such use of as you see fit.

Manual of School Law

Important Hand Book Just Pubished by the Department of Education.

Many Changes Made In Courses of Study, Teachers Exams. and Text Books.

The Department of Education has just issued a new Manual of School Law and School Regulations, based upon the School act passed at the last session of the legislature. The book contains the School act, 1901; regulations for school meetings; definitions of the powers and duties of school trustees; the rules and regulations for the government of public schools; courses of study; teachers examination; list of authorized text books, and regulations respecting.

reachers examination; list of authorized text books, and regulations respecting the Provincial Normal school.

The rules and regulations are the same as formerly, with the exception of a change in Article 3, respecting vacations, and that a new article, No. 17, is added defining the duties and prerogatives of a city superintendent.

Art.cle 3, of the New Manual reads as follows:

There shall be two vacations in each year:

The same as formerly, with the exception promises to cure and keeps the promises. Don't put off treatment.

Ruy a bottle of Hood's today.

Townises to cure and keeps the promise. Don't put off treatment.

Syles dilementary Composition as in Syles.

There shall be two vacations in each year:

the and code regions and differences in an added of life. Points of responsible and mode of life. Points of responsible and mode of life. Points of responsible and mode of life. Points of responsible and re

Eruptions

Dry, moist, scaly tetter, all forms of eczema or salt rheum, pimples and other cutaneous eruptions proceed from humors, either inherited, or acquired through defective digestion and assimilation.

To treat these eruptions with drying medicines is dangerous. The thing to do is to help the system discharge the humors, and strengthen it against their return.

Hood's Sarsaparilla permanently cured J.
G. Hines, Franks, III., of eczems from which be had suffered for some time; and Miss Alvina Wolter, Box 212, Algons, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonals in favor of this great medicine than can be published.

C. Mathematics—

1. Arithmetic—Pure and commercial arithmetic, as in Hamblin Smith's Arithmetic, revised edition. The Metric System.

2. Algebra—The first twenty-two chapters of Hall and Knight's Elementary Algebra may be taken as indicating the amount required.

3. Geometry—Euclid, Book I., with Andreigne (Hall and Stevens)

Hood's Sarsaparilla

by The Copp, Clark Co.).

Candidates will also be examined on the selections found in the Fifth Reader, and will be expected to have memorized the finest poetical passages.

B. History and Geography:

1. British History—Buckley and Robertson's High School History of England (The Copp Clark Co.),
Or Gardiner's Outline of English History (Longmans, Green & Co.),
2. Canadian History—Clement's History of Canada.

Geography-The general geograph Geography—The general geography of the world with special attention to that of Canada and the British Empire. Gage's New Canadian Geography, B. C. Edition; also Dawson and Sutherland's Geography of the British Colonies, Macmillan & Co.).

C. Mathematics—
1. Arithmetic—Pure and commercial arithmetic, as in Hamblin Smith's Arithmetic, revised edition. The Metric System.

amount required.

3. Geometry—Euclid, Book I., with deductions (Hall and Stevens).

4. Book-keeping—The keeping of accounts by Double Entry.

SCHLEY INQUIRY.

Counsel in the Controversy Have Begun Their Arguments.

Their Arguments.

Washington, D. C., Nov. 4.—The Schley court of inquiry reached the argument stage at the beginning of the afternoon session today. The morning sitting was devoted to listening to Admiral Schley and Capt. Sigsbee in making corrections of their testimony, which had been given previously, and the introduction by Judge Advocate Lemley of numerous documents bearing upon different phases of the inquiry. Admiral Schley did not make any material additions to his previous statements, but devoted himself largely to the clearing up of ambiguous points in his evidence. The opening speech of the argument in the case was made in behalf of the government by Mr. E. P. Hanna, assistant to the Judge Advocate. He began his presentation of the case a few minutes after the court convened at 2 o'clock, and when the court adjourned two hours later he had not covered more than half of the ground involved in the controversy.

THE VAN ANDA. Development Making Good Progress Under Bond.

Vancouver, Nov. 4.—The company developing the Van Anda claims has made good progress in the bast month. This company was to complete certain development work, which it was thought would take a month, after it was to have the privilege of throwing up the bond or continuing the work. Mr. Burns, of the Van Anda, says that this work has not been completed, but he believes that the showing on the Cornell has been so satisfactory that the property will be worked permanently under the bond. In the Copper Queen no work has been done except to pump the water out of the mine. In the Cornell a winz is being sunk to connect the upper with the lower tunnel. It was thought this would have been completed before this, but the work has been delayed. The winz, however, has pierced a body of ore of great richness, running on the average \$50 a ton. The company developing the claims has unlimited capital, and if after connecting the levels it is satisfied the ore is there, Van Anda will again become the scene of great activity. Van Anda will again become the of great activity.

"Tainted With Illegality"

Such Is the Decision Regarding B.C. Stock Exchange vs. Irving.

Important Judgment Delivered by Mr. Justice Drake Affecting Deals in Options.

Following is the full text of the judg-tent handed down by Mr. Justice Drake on Friday, in the case of British Columbia Stock Exchange vs. Irving:

on Friday, in the case of British Columbia Stock Exchange vs. Irving:

November 1, 1901.

This action is brought by the plaintiff to recover \$637 money alleged to have been paid by the plaintiffs at the defendant's request to Downing. Hopkins & Co., Seattle, brokers, in respect of the purchase of 300 Continental Tobacco shares at 62%. The plaintiffs are a company incorporated in this province.

The defendant instructed them to sell 300 shares of the Continental Tobacco company. The plaintiffs asked for cover, and the defendant paid them \$600, that is, \$2 a share. No time was fixed for the delivery of the zhares or closing the transaction. The plaintiffs called upon the defendant from time to time for more money, as the shares were steadily rising, and on or about the 29th day of May they called for \$2,400 which the defendant refused to pay. They thereupon alleged that they purchased 300 shares in the market at 62% a share, in order to satisfy the defendant's liability. The defendant when he sold the shares sold 100 at 52, and 200 at 51%. The plaintiffs never asked the defendant for the scrip which he sold, and they purchased without notifying him of their intention to do so, and without asking him to deliver the scrip.

The mode of business as alleged by

of the Journal, a French despatch boat arrived yesterday at Syra, capital of the Island of Syra (Greece) to get a number of despatches that were waiting at the telegraph office.

on the purchase of 300 Continental Tobacco company's shares at \$62.57 to the jury disagreed on another, and there were six counts pending. The Chief Justice said he'would listen to what at fidavits Mr. Macdoneil can present on Tuesday morning.

SUICIDE AT MOOSE JAW.

Peter Law Shoots Himself Through the Head.

Moose Jaw, N. W. T., Nov. 4.—Peter Law, a man about 25 years of age, committed suicide this morning by shooting himself in the mouth. He worked in a livery stable in town, and up to the liver of his death was apparently in good in the continuing and wagering were illegal I should be of opinion that the Ellegality of the transactions in which the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant in respect of she liabilities he had incurred. Schilber the plaintiff and defendant in respect of she liabilities he had incurred. Schilber the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and defendant were engaged would have tainted as between themselves whatever the plaintiff and d

Montreal, Nov. 2.—(Special)—It is believed that the mysterious "Prince-Raujit," who, with his suite, is on board the steamer Lake Simcoe, is a Hindoo of high caste, who visited the Klondike some years ago and subsequently went to England to form a mining company. The report that he was once a curry cook in an Ottawa hotel is denied. This is the point in this case. Are gaming and wagering contracts under the Dominion law illegal? Section 201 of 51 Vic., C. 42 says: "Everyone who without intent to make, gain, or profit by the rise or fall in price of any stock of any incorporated or unincorporated company makes any contract oral or written, purporting to be for the sale or purchase of any such shares or stock, in respect of which no delivery of thing sold or purchased is made or received, and without the bona fide intention to make or receive such delivery, and every one who acts, aids, or abets in the making or signing of any such contract or agreement is guilty of Pretoria, Nov. 2.—Commandant Loni Botha is reported to have commanda-in person the attack upon Col. Benson' column. Botha's force has effected combination with another commando which has been hovering around Bethe lately or abets in the making or signing of any such contract or agreement is guilty of a misdemeanor. And that is followed by a protecting clause for the broker, that if the broker received the delivery of the thing sold there is no offense, although he retains or pledges the same as security for the advance of the purchase money. This act is aimed at the exact "Contract which was made in this case." The faw has made gaming and wagering contracts illegal, and the evidence of the plaintiffs discloses no stock was ever delivered or intended to be delivered, and the intent was to make a second Delary.

'Twas Quickly Performed

By-Law Introduced to Permit Delinquent Tax-Payers to Vote at Elections.

At last night's meeting of the city council Ald. Yates and Kinsman were the only absentees. The business was confined wholly to routine and the meeting adjourned at 9:30 o'clock—an unusually early hour.

The following communications were received.

profit from the fluctuations of the stock market. The Privy council in Forget vs. Ostigurz (1895) A. C., at p. 325, points out that the decisions of the English courts are not authorities upon the construction of the Canadian code, but throw light on what constitutes a gaming contract, and cite Lord Justice Cotton's view of what a gaming contract is. He says the essence of gaming and wagering is that one party is to gain and the other to lose upon a particular event which at the time of the contract is of an uncerfain nature. That is to say, if the event turns out in any way A will lose, if it turns out the other way, he will win.

That is the fact here. As far as the defendant knew, he was dealing with these plaintiffs. He put up a margin to cover them from loss if the stock rose. If the stock had fallen they would have paid him the difference. But the plaintiffs say they had no interest in the deal beyond their commission, but they have never asked for commission or charged commission and no reference is made to it in their sold note. But even if they had, I think that the transaction is so tainted with illegality that they cannot recover. This court is not to be made use of for carrying out unlawful bargains, and as both parties are in the fendant, but without costs.

M. W. TYRWHITT DRAKE, J.

Halifax, N. S., Nov. 4—The Rev. Monsignor Murphy, D. D., Vicar General of Halifax, died at 6 o'clock this morning, aged 58 years. He had been hovering between life and death for the past week. Ald. Cameron's motion to call for tenders for printing and binding the city voters' list was adopted.

Council then adjourned.

SEVERELY PUNISHED.

ourt Martial on U. S. Naval Officer. Pleased at McKinley's Murder.

Pleased at McKinley's Murder.

Washington, D. C., Nov. 2.—"To be confined one year in such a place as the secretary of the navy may direct; to do extra police duty during that time; to lose all pay except \$2 a month for prison expenses, and a further sum of \$20 to be paid him at the expiration of this confinement, and to be dishonorably discharged from the service of the United States," is the sentence imposed by court martial upon John W. Stolt, a third class ensign on the receiving ship Columbia lying at the New York Navy Yard, for foul abuse of the late President McKinley. On the day of President McKinley's death, Stolt, in the company of a number of sailors, is charged with having declared with an obscene oath that the president should have been shot long ago, and added other foul and profane expressions in the same tenor.

VICTORIA TERMINAL RAILWAY. The Cost

Although the Victoria Terminal Railway company notified the city council last week that ground would be broken on the extension of the line from the Victoria & Sidney track to the market building yesterday morning, the work of construction did not begin as contemplated.

Although the Victoria Railway council last week that ground would be broken on the extension of the line from the Victoria & Sidney track to the market building yesterday morning, the work of construction did not begin as contemplated.

Sir Michael Hicks Beach Intiplated.

plated. The cause of delay is the fact that the engineers have not completed their estimates of quantities by the alternative routes chosen. They are hard at work on this, however, and when they have settled the question of the less difficult line to adopt, a gang of men will be put to grading. The work will begin some day this week.

THE COURT OF REVISION. Voters' Lists for Victoria and Esquimalt

usually early hour.

The following communications were received:

From Drake, Jackson & Helmcken re appointment of an arbitrator to act in the matter of the Angus McLeod lot-corner of Humboldt street and James Bay. Filed.

Frank Page, clerk of the police court, wrote drawing council's attention to the necessity of calling for contracts for police clothing. Referred to police commissioners.

Sidny Wilson re water accumulating the received:

The revision of the voters' lists for the electoral districts of Victoria and Esquimalt was concluded yesterday, by Mr. Harvey Combe, collector of votes.

No objections were filed against any of the names which appeared on the lists, but several repeaters and names of men who had left the districts, or who had died since the last revision, were struck off. There were also several transfers to other districts, and about 150 names were added to those entitled to vote.

THE BROOKS CASE.

cided to write Mr. Elworthy that no funds are available at present.

Ald Williams, while agreeing in the abstract with the remarks of Ald. Stewart, still would favor the council making an effort to meet the Board of Trade in the matter, as they offered to expend \$700 of their own funds, or by raising that amount in advertising the city, and therefore moved, in amendment, that the matter be referred to the finance committee for report,

Ald. Williams' amendment was not seconded.

Mr. Justice Walkem in the Supreme court yesterday morning, to stand his trial on the charge of manslaughter, for which he was committed by the police magistrate some time ago. Mr. Fred. Peters, K.C., appeared for the accused, in the absence of Mr. George Powell, and asked that the trial be fixed for a later day, as he had but recently received his instructions and had not had mingh time to go into the case thoroughly. The learned judge thereupon fixed the trial for Monday, November 25, at 10 o'clock a.m.

ROPE BROKE.

Negro Had to go Through Hanging Torture Twice.

Alex. Smith again wrote about a defective drain on Michigan street. Referred to city engineer for report.

Angus McLeod, calling attention to defective surface drainage on Simcoe street. Referred to city engineer for report.

Alex. Watson, complaining of bad condition of a sidewalk on Catherine street, Victoria West. Referred to city engineer for report.

F. Maude, calling attention to a defective drain on Carr street. Referred to city engineer for report.

A. H. Tobin, asking permission to

to city engineer for report.

A. H. Tobin, asking permission to plant shade trees in front of No. 1 Niagara street, also for a sidewalk at the same place. Referred to city engineer.

I. St. Clair, asking for the reservation of the upper part of Pandora street as a recreation ground; that it be put in condition for that purpose.

Ald. Beckwith did not see how the city could grant Mr. St. Clair's request.

The space was generally used as a recreation ground, and could not be granted to any particular individual or who had equal rights to its use as a common.

The space was generally used as a recreation ground, and could not be granted to any particular individual or who had equal rights to its use as a common.

The space was generally used as a recreation ground, and could not be granted to any particular individual or who had equal rights to its use as a common.

tion. The examinations at these points shall be similar to those conducted at the ports of the United States. All aliens adjudged inadmissible shall be returned to the countries from which they came by the lines bringing them over. The agreement which goes into effect immediately, may be cancelled by either party on giving 60 days notice. It is signed by Mr. Powderly, the Elder-Dempster or Beaver line, the Allan line, Dominion line, the Grand Trunk and the Canadian Pacific railway companies.

Attack on Dowager Foiled and Assailant Killed.

Pekin, Nov. 2.—While the Dowager Empress was embarking to cross the river today before anterior.

Ald. Cameron said there had been to the conducted at the ports of the United States. All aliens adjudged inadmissible shall be returned to the countries from which they came by the lines bringing them over. The agreement which goes into effect.

W. G. Eden, asking council's intention regarding the enforcement of "the special discriminating vehicle tax, 1901."

Ald. Cooley moved that the letter be folied.

Ald. Williams besought the aldermen to remember that they were gentlemen, even if Mr. Eden's letter was not couched in the most respectful terms. Mr. Eden was a ratepayer, and as such was entitled to a courteous reply to his communication. He moved in amendment, seconded by Ald. Hall, that the communication be answered.

Ald. Cameron said there had been who had equal rights to its use as a tour of inspection.

Hugh Camnon reports that a large number of prospectors are prospecting for coal in Franklin camp and vicinity. He shaded the has a force of men working on his Iron Cap claim in that camp.

Hugh Camon neports that a large number of prospectors are prospecting for coal in Franklin camp and vicinity. He shaded the has a force of men working on his around the had been to require the hall. Filed.

Speaks at Bristol on the Increase of Expenditures of the Country.

Black Fogs Envelope Half of **Britain Throwing Business** Into Confusion.

London, Nov. 4.-What is regarded as taxes and fresh loans, was made tonight by the Chancellor of the Exchequer. Sir Michael Hicks-Beach, in a speech at Bristol. After alluding to the "enor-The revision leaves the lists, numeritally, about as they were before. The revised lists will be immediately turned over to the King's Printer.

mous increase in the ordinary expenditures" of the government, he reviewed the war taxes and said that the ever-increasing demand of the national exchequer gave reasons for careful thought nous increase in the ordinary expendiquer gave reasons for careful thought and even anxiety for the future.

F. Elworthy wrote in reference to the pamphlet, "Victoria, Past and Present," urging that the council give aid to the publication of another booklet of the same character.

On motion of Ald. Stewart, it was decided to write Mr. Elworthy that no funds are available at present.

Ald Williams while agreeing in the state of manslaughter Postponed at is enormous," said Sir Michael. "It still' drags on, and it may be, when next year comes that I may have to ask the people of this country to bear even greater burdens, and to make even greater sacrification the charge of manslaughter.

IN DARKEST LONDON. Fog such as Great Britain has not experienced for years, enveloped London and half of the United Kingdom today, blockading shipping, delaying railways mingham and other provincial cities into confusion. So dense was it that a walk into the streets was an adventure. The fog descended upon the streets of the Metropolis and suburbs so thickly that between 4 and 5 o'clock in the afternoon the principal avenues of traffic resembled the steam room of a Turkish bath. Hundreds of thousands of London's suburban population vainly endeavored to grope their way to the railway stations, the few who succeeded found the trains all stalled. Around Trafalgar square and the House of Parliament scenes, unparalleled were witnessed. Hundreds of omnibuses, cabs and wagons formed an inextricable and immovable mass. The mounted police, in trying to clear away the jam lost themselves. Many vehicles were in collision, the drivers, not knowing where they were, stood at the heads of their horses, patiently awaiting the lifting of the premature darkness, lanterns were at a premium. News boys transformed their papers into temporary torches. Highwaymen pursued their vocation. premium. News boys transformed their papers into temporary torches. Highwaymen pursued their vocation. Casualties were frequent and even hardened Londoners freely expressed a dread of the continuation of such fogs which today reached a climax.

SKULL FRACTURED.

Accident to Brakeman on Nakusp & Slocan Road.

Nakusp, Nov. 4.(Special)—A most serious accident occurred at Three Forks on Saturday, in which C. P. R. brakeman Dan. McDougall well nigh lost his man Dan. McDougall well nigh lost his life. Travelers up the gulch to Sandon will remember how the Nakusp & Slocan train backs down the steep grade from the eastern terminus of the line into Three Forks. This morning this part of the run was almost completed when McDougall, who has been a very popular trainman there for two years or more, swung out from the platform to watch the wheels under the passenger coach, presumably to see that they were not "skidding." Several of the passengers watched the act, and one, Mr. Thomas, of the firm of Thomas & Benwell, Vancouver, noticed that the cars were rapidcouver, noticed that the cars were rapidly running down to the standpipe from which the engines take water. He shouted to the leaning brakeman, but the This was agreed to.

This was agreed to.

REPORTS.

The city engineer reported that he had given instructions for the laying of a new drain to protect the foundations of the building on the northeast corner of E. C. Johnson, market superintendent, reported total receipts of \$129.90 for miles have a few of the county of the substructions for the charge of poisoning Mrs. Mary Gibbs, of Calumet, was here today in reported total receipts of \$129.90 for miles have concurred in agree to the charge of poisoning Mrs. Gordon. Mr. Holmes said that there have been tractured, but Dr. Prust hones that his patient which Miss Toppan was employed as a which Miss Toppan at the cause of dear of the poist of the bodies of Alden P.

The Science

Addresses Delivered at Langley and Alberni Farmers' institute Meetings.

Advantages and Independence of a Farmer's Life Pointed Out.

The regular fall meeting of the Longing Farmer and the world fall the state of the Sill of Cockbor. The meeting was the Sill of Cockbor. The meeting was the Sill of Cockbor. The meeting was the Sill of Cockbor. The state of the Sill of the Sill of Sill of Cockbor. The state of the Sill of Sill of Cockbor. The state of the Sill of Sill of Cockbor. The state of the Sill of Sill of Sill of Sill of Sill of Sill of Cockbor. The state of the Sill of Sill Britain, where the finest farming in the world is to be seen, has realizd that. Barnyard manure contains the elements required for fertility. It is a great mistake to plough too deep, as grain would be half grown before the roots reach the manure. I advise taking off the first crop of clover as hay and ploughing down the second crop shallow and sow fall wheat. Rotation of crops will retain the fertility of the soil. The soil by mixing the crops will be kept in uniform condition. Soil must be well tilled as it is absolutely necessary in order to retain moisture. The soil must be level, so that roots will find plant food at the earliest possible moment. Therefore, let us have the soil compact below and open above: subsoil to be compact, surface

milivation for root crops? Mr. Elliott—No.

The control country of the country of the country of the control country of the control cou

speakers, the meeting closed at 11:30 Winter Work

Of Farming THE ALBERNI MEETING.
Interesting and Helpful Addresses
Messrs. Anderson and Elliott.

Mr. Elliott gave a very interesting and instructive address on the above topic, stating that sheep were perhaps the most profitable of any animals on the farm, considering the amount of time and care expended upon them. They were a grand thing to keep down weeds and rubbish of various kinds, and at the same time enrich the land. In Ontario they had been very useful as well as profitable by keeping down the young shoots from the stumps and elsewhere. In regard to the breed of sheep, he considered that the Southdown, or some of the them of the stumps and elsewhere were been sidered that the Southdown, or some of the them of the stumps and elsewhere. In regard to the breed of sheep, would the them of the stumps and elsewhere the southdown, or some of the them of the stumps and elsewhere. In regard to the breed of sheep, would the them of the stumps and elsewhere the stumps and elsewhere the stumps and elsewhere the stumps and elsewhere the stumps and elsewhere. In regard to the breed of sheep, would the them of the stumps and elsewhere the stumps and elsewhe

The following questions were put: Would you rather have lambs early or

loose to retain the moisture. All plant growth is made through water. For a three-years' rotation of crops, which I follow, I find these the best. First year, clover; second year, roots; third, oats or barley.

QUESTIONS.

Mr. Geo. Simpson—What would you advise for a farmer who has no permanent pasture?

Mr. Elliott—Always have part of his Mr. Elliott—Always have part of his feed?

Would you rather have are wanted in the process of the extra price obtained from the butcher should well compensate for the extra care and keep.

Would you give grain to sheep, and what do you consider the best?

Decidedly yes. Oats.

How many oats would you give at a feed?

advise for a farmer who has no permeter that the pasture?

Mr. Elliott—Always have part of his farm seeded down in clover. I would as soon feed cattle straw as timothy.

Mr. Simpson—Ploughing down clover, does it clean land?

Mr. Elliott—Land thus treated is almost of the seed little and keep it up than to feed little and keep it

MISS STONE

ADMIRAL CALLARD REPORTS

BIRCH CREEK'S PLACERS.
F. J. Dinan arrived at Dawson on October 20 from a prolonged trip in the Birch creek placer district, the old Yukon camp, 75 miles back of Circle City, the predicts that the place has a bright future under the modern method of mining. Several hundred men were engaged working on the various streams tributary to Birch this summer, and every operator engaged made something, after any poperator engaged made something, after the pold is worth more than \$19 and ounce. Mr. Dinan says:

"This season 75 men were engaged on Eagle creek, on Mastodon 120, on Miller 50 and a number on several other streams flowing into Birch.

"Thirty ounces to the box length was streams flowing in the Brok.
"Thirty ounces to the box length was with five men shoveling in during the above on Eagle creek every eight days with five men shoveling in during the day and five at night. Sutter made a clean profit this summer of \$6,000. Others did almost as well.

"From Circle to Eagle creek, 75 miles, the charge for faitheries is 200. Contents."

ADMIRAL CAILLARD REPORTS.

States That he Has Seized Turkish Ports.

Paris, Nov. 5.—The following is a despatch received from Admiral Cailland, Mitylene, November 5, 11:40 a.

"Armored division arrived at Mitylene."

The despatch does not mention any incident attending the landing, but it seems certain that the French commander or carried out his instructions, which were to occupy three ports of the island, and to seize the customs. One cruiser and three torpedo catchers got separated from the squadron owing to the squadron, was sent to meet them, and to accompany them to Mitylene.

TONIC is a medicine that gives tone to some part of the system. There are different kinds of tonics, but the tonic most needed in this country, where catarrh is so prevalent, is a onic that operates on the mucous mem

Peruna is a tonic to the mucous mem branes of the whole body. It gives tone to the capillary circulation which conitutes these delicate membranes.

Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently. eruna seeks out catarrh in all the hidien parts of the body.

Paul Landrum writing from Atlanta,

"In January last I began the use of your Peruna and Manalin for what was termed organic heart trouble. At that time I could scarcely walk to my place of business without stopping to rest and on arrival felt completely exhausted. Had severe pains in my heart and general dizziness. After using the first bottle of Peruna I began to improve and today I feel that I am a sound man and I work fourteen hours a day without any bad. feeling."-Paul Landrum.

A. M. Ikerd, an employee of the C. B. & Q. R. R., West Burlington, Ia., writes: "I had catarrh of the stomach and small intestines for a number of years. I went to a number of doctors and got no relief. Finally one of my doctors sent me to Chicago and I met the same fate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually

"Finally I got one of your books, and luded I would try Peruna, and thank God, I found a relief and a cure for that-dreadful disease. I took five bottles of Peruna and two of Manalin, and I now feel like a new man. There is nothing in my house all the time."-A. M. Ikerd.
