Montreal Stock Market.

STRONG MARKET, BUT INACTIVE.—C. P. R. ADVANCES. — FEW CHANGES IN HOLDINGS OR IN PRICES.

Montreal, Aug. 29th.

This day's market was noticeable for neither good nor bad in a business point of view. There was trade, the swing of prices did not alter much and the day was thus tolerable, if not very exciting. In one or two stocks the quantities changing hands were considerable and yet in this somewhat dull market the values of these kept up and in Canadian Pacific and Montreal-London even advanced a little. These are signs of an underlying sentiment of bullishness. They show that operators are so confident of rising values, that they are in no hurry to throw away holdings. The restraint put thus upon the selling instinct is apt to give transactions in such a case an apparent character of quietness, but it is the quietness preceding the outbreak of trading activity whenever the high price comes. In itself, therefore, the day's market was common, but as perhaps the strong forerunner of stronger markets to follow it was interesting. There were sixteen stocks traded in to-day as follows:

- Canadian Pacific, $\frac{1}{2}$ advance at 98. 705 shares sold. Wanted 97 $\frac{1}{2}$; offered 97 $\frac{1}{2}$.
- Montreal Street at same price, 32 $\frac{1}{2}$, while demand was 325, and offer 323.
- Twin City at the same price, 66 $\frac{1}{2}$. An offer was made at 66, the demand being 67.
- Toronto Railway at the same price, 118 $\frac{1}{2}$. This was also the offer, 118 $\frac{1}{2}$ being the demand.
- Montreal & London at $\frac{1}{2}$ advance to 59 and 58. Offer was 57; demand 60.
- Dom. Cotton at about the same price, 108. It was sold to-day ex-div. and the demand was 107, while the offer was 106.
- Republic, 2 lower at 126. An offer of 125 was made, but demand was 128.
- Halifax Heat and Light Bonds declined 1 to 81. Demand 85; offer 83.
- Montreal Cotton, 3 advance to 165. 163 offered and 170 demanded.
- Halifax Heat and Light at same price, 28; 30 demand; offer 27.

Payne, same price, 135. This also was the offer, 140 being the demand.
 Hochelega Bank at the same price, 152.
 Merchants' Bank at $\frac{1}{2}$ decline, 170 $\frac{1}{2}$. Demand 172; offer 169 $\frac{1}{2}$.
 Halifax Railway $\frac{3}{4}$ lower at 111 $\frac{1}{2}$. An offer was made of 110, but demand was 111.
 Duluth Com., $\frac{1}{2}$ lower at 5 $\frac{1}{2}$; 6 wanted; 5 $\frac{1}{2}$ offered.

SALES.

- Can. Pac.—325, 97 $\frac{1}{2}$. 5, 98. 375, 97 $\frac{1}{2}$.
- Mont. St. Ry.—325, 32 $\frac{1}{2}$. 1, 32 $\frac{1}{2}$. 1, 325.
- Twin City—75, 66 $\frac{1}{2}$.
- Toronto Ry.—100, 118 $\frac{1}{2}$.
- Montreal and London—150, 60. 230, 58.
- Dom. Cotton—25, 108. 20, 108. 25, 107.

- Hochelega Bank—6, 153.
- Merchants' Bank—6, 170 $\frac{1}{2}$.
- Halifax Ry.—25, 111 $\frac{1}{2}$.
- Dul. Com.—25, 5 $\frac{1}{2}$.

STRAWS.

One estimate of Canadian wheat surplus for export sets it at 20,000,000, and American surplus 125,000,000, making a total of 145,000,000. Wheat prices must by this authority increase, as the London Statist says 215,000,000 will be necessary to meet foreign requirements. Beerholm says 216,000,000, Broomhall 230,000,000.

Canadian Pacific dividend of 2 p.c. is payable Oct. 2. Books close Aug. 26th and open Sept. 5th.

The London Statist of Saturday says there will be large exports of wheat to meet the demands of Western Europe. American farmers are disposing of their crops readily and at tolerably good prices and they will be able to purchase from the East and Europe as fully as they have been doing this year. It is reasonably certain, therefore, that railroad traffic returns and foreign orders for locomotives, steel, etc., will continue to increase.

Mrs. Phoebe Hearst denies that she ever intended to sell her interest in the famous Homestake mine.

The Portland arrived at San Francisco on Saturday with \$1,500,000 gold from Alaska.

New York.—Atchison July gross returns increased \$436,172; net increase \$498,420. Last year July gross increased \$172,767; net increase, \$14,954.

Already 500 men are employed on the Dominion Iron and Steel company's mammoth plant and 500 more are being advertised for.

At the Dominion Coal Mines 4,000 men are employed and coal to the amount of 9,000 tons per day are being shipped from the International Pier. On Friday the 18th 11,645 tons were put on board, an amount which breaks all previous records.

An early demand from the West for money is expected by some New York banks, as there are some indications of a movement of money from that city to Chicago.

The Parrot Smelter closed down on Thursday, and ore on hand will be sent to Anaconda.

Dividends will be paid as follows: Caribou Mining Co., 1 p.c., 31 Aug.; Dominion Cotton, $\frac{1}{2}$ p.c., 1st Sept.; Montreal Cotton, 2 p.c., 15th Sept. Books close 10 days earlier.

September wheat at New York a little over 79 cents against 66 cents a year ago.

Chicago report says that the corn crop is sufficient for home and foreign use, but will not prove to be so large as was expected.

In the two years 1856 and 1857 the world production of gold was \$280,875,000, as compared with \$290,000,000 in the single year 1898.

New York Central has offered to the shareholders' protective committee of the Boston & Albany to lease the road at 8 p.c. guarantee and \$8,000,000 cash. There was a meeting yesterday by the committee about this. Some say the proposal has been accepted, others that it has not.

MONTREAL MINING EXCHANGE.

BIG THREE THE FEATURE — GOLDEN STAR STRONG — GENERAL MARKET LOOKS HIGHER.

Holdings, anticipating a general advance, have as a rule withdrawn from the market. A feeling of confidence has replaced that of doubt which prevailed during June and July. Though weak spots are noted here and there, many stocks are gaining friends, who, in spite of the late advance, refuse to part with any material share of their holdings, arguing that having seen them considerably against them, they are not now willing to sell on the first signs of strength. Some go so far as to say that on any declines they are willing to double their loads. We are of opinion that reasonable profits should be accepted on the stocks which have of late made most advance, as sentiment can easily switch off again to the bear side. There is quite a large speculative holding of stocks which would all want to let go together on any sign of a reaction. Whilst we are willing to admit the bulls being in control, the above advice is given on general principles. The time to sell is when stocks are wanted. If held on to there is a feeling of unwillingness to accept a lower price than could have been obtained, the consequence being generally the nursing of stock during a depression which may or may not be of considerable duration.

Big Three was a leader on a reported rediscovery of the lost vein in the Mascot. At the opening a continuation of yesterday's selling was visible, but so soon as the offerings ceased a quick bidding ensued. It closed strong at 16½ to 19. About 15,000 shares changed hands.

Gold Fields and Slocan Sovereign were in good demand, but very little stock was for sale.

Golden Star has "struck it richer than ever" on this news, the stock took one of its periodical flights, selling here at 46 and much higher in the West.

SALES.

Big Three—10,000, 14½, 500, 15, 125, 14, 2,500, 16, 375, 15, 500, 17, 100, 16.
 Bullion—1000, 59.
 Republic—100, 125.

NEW YORK EXCHANGE.

LONDON STRONG, THEN WEAK — NEW YORK UNEVEN — WIRE A FEATURE — SHARP ADVANCE IN B. R. T. — MARKET CLOSES WEAK.

New York, Aug. 29th.

The market for Americans in London shows fractional declines. The perplexed situation in the Transvaal has given us a reason for this unsettled state of affairs and speculation in the London market is said to be light and the market is rather nervous.

London was not an important factor in our market yesterday. They were sellers of some stocks, buyers of others, and their operations on balance did not assume very large proportions.

Yesterday's market was a distinct surprise to the traders who argued that after Saturday's bank statement the market should decline. The market was strong throughout almost the entire list, and while there were few sensational advances it retained its firmness throughout the entire day. The tobacco stocks were the features, both Am. and Can. Tobacco being very active and decidedly strong.

The dividend on Cot. pfd. at the rate of 7 p.c. is confidently expected in the near future. There was some good buying of this stock. The common was also active, but did not enjoy as great a net advance as the preferred. The street is also full of rumors that the dividend rate on A.M.T. common will soon be increased to 8 p.c.

It is said that the company is earning more money than ever before in its history and that they can easily pay 8 p.c. on common.

Of the large railroad systems reporting yesterday, St. Paul made a most satisfactory showing of a net increase for July of \$257,537.

All the western roads continue to make prodigious showings, and it is thought that those that will report in the near future will be well up to St. Paul in the matter of earnings.

The southern railroads are also doing an unprecedentedly large business, particularly gratifying reports are made regarding L.N., which is said to be doing the largest business that the company has ever known.

McCoy on call was slightly firmer in the late dealing yesterday, 3½ being bid for it.

New York (noon), Aug. 29th.

The London market after a strong opening suddenly developed weakness; consols suffering a decline, and Americans with only one exception, being lower than our closing. The exception was Reading. Our opening was somewhat uneven—Arbitrage houses sold some 30,000 shares during the first hour, and the professionals were disposed to trade on the short side. One of the features was Republic, which opened at 25 and subsequently sold as high as 27½. The preferred also enjoyed an advance. It is said that the company is earning something like 20 p.c. on common, and inasmuch as A.S.W. is expected to earn only 9 p.c., and also considering that the two stocks are selling 30 points apart, it is not unnatural that Republic should look cheap. There was more doing in wire than for some time in consequence of the fuller statement made before the listing committee of Stock Exchange by Mr. Gates at their meeting yesterday. It appears that after making allowance for the dividend for the year on preferred stock the company has earned something like 4 p.c. on common on the first six months of the year.

There was heavier selling of A.M.T. than for some time.

A block of 5,000 shares was sold by one house, all of which was said to be long stock showing a very handsome profit.

On the whole, the stock was well taken. After the first hour, what looked like a movement on the part of Flower against the shorts in B.R.T., resulted in a sharp advance in that stock. The rest of the market showed a disposition to sympathise. The advance, however, attracted no outside buying, and on rather a vigorous attack by shorts, the whole market declined, and became comparatively weak. The bears say that the lack of outside buying, the probability of somewhat higher rate for money and the possibility of bad bank statement on Saturday all warrant lower figures.

TORONTO MINING EXCHANGE.

NEWS OF THE MINES.

Boundary, B. C.—In Summit Camp, the shaft on the southern portion of the property is being continued, as large ore body was discovered there in recent developments. Ore amounting to 5,000 tons has been taken out, and as it averages \$25 per ton, will pay for the developments during which it was encountered. Northport smelter gave as returns for two shipments, the first 6 p.c. copper, 9 oz. silver and \$1.20 gold, and the second 9½ p.c. copper, 5 oz. silver and \$1.00 gold.

As soon as the C. P. R. reaches Summit Camp, the 20 drill air compressor, two 80 h. p. boilers and a large hoist will be installed here.

The present owners of Summit Mine are James Ross, McCuaig, Rykert Company, of Montreal, who in January paid \$300,000 for it on the recommendation of Major Leckie, who is superintendant both of it and of Republic mine. According to the same authority, the Rathmullen claims, about half a mile from the B. C., are in good condition. Maple Leaf has a well defined quartz vein in connection with which development work is taking the form of an additional 100 feet to the 70-foot shaft and 80-foot cross-cut. Republic mine is also being developed. A single machine drives 12 feet per day of tunnel in No. 4, which will at a depth of 600 feet and distance of 2,300 feet tap the ore, which if only \$10 ore, will pay well, being in large quantities. Experiments too, for economical treatment of ore are going on. Ore from Republic will soon be shipped by wagon to Grand Forks and from thence to Trail by rail, as it is hoped good rates can be secured.

The following week's shipments from Rossland mines give an idea of their activity: Le Roi, 2,304; War Eagle, 1,950; Iron Mask, 300; Evening Star, 90; Centre Star, 120; total, 4,764. For the year '97, 5,572.

Also Le Roi, I.X.L. and Mascot in development operations disclosed new ore bodies of considerable size and value.

The Paris market for zinc has at present a larger demand than supply. Hence zinc shares have advanced there. This information was cabled to Colley & Co., N.Y., with the view of securing supplies of zinc from this side.

Deer Trail—The highest grade ore in this mine is worth \$217 per ton, 15½ tons having been sold for \$3,356.08. The lower grade ore shows good values which have not yet been accurately ascertained, but will be soon.

Van Anda.—President of this company is said to have given out that the ore in sight on this mine is worth \$500,000.

Rossland, B. C.—Fifteen miles from the junction of Grand Forks and North Forks, which junction is fifty miles northeast of Grand Forks, a 40 feet vein of ore was discovered by a prospector sent out in July by J. Coryell. Assay value \$5 to \$12 in gold was secured. The color and formation of this ledge resembles that of Republic. In the same neighborhood another prospector came upon ledges of galena, carrying gold, copper and silver values amounting in some cases to \$160 per ton. The announcement of these discoveries to the miners of Grand Forks caused an unwonted excitement. Pack horses advanced in market price and droves of them could be seen loaded with mining implements on the road for the newly discovered field.

Information is to hand confirming the Exchange News announcement in issue of Aug. 11th, that valuable strikes had been made in the Cumberland mine. The Cumberland, which is the property of the Virtue Company, is confining its operation as Exchange News said to the two hundred and three hundred foot levels. Mr. C. E. Gault, of Montreal, a prominent member of the Virtue Company, was informed a fortnight ago that it was on the 200-foot level that 18 inches of fine ore was come upon unexpectedly. The winze development has added to the value of the property, as this part of the ground was previously considered of little account. It has shown, according to manager Jenkins, that no foot of development work can be done on this property without bringing into sight a rich ore body, the ore ranging from six inches to two feet in width. The south winze sunk by contract brought to the contractor \$70 per foot of work, or in all \$3,500.

CHICAGO MARKET.

LOWER OPENING IN ALL FOOD STUFFS
—LOWER CABLES FROM LIVER-
POOL—N. Y. WHEAT ALL IN THE
70s.

Chicago, Aug. 29th.

The market was heavy this morning, though there was said to be exclusive purchases by commission houses and foreigners and it showed none of the marks of lively trading. Openings in everything, provisions as well as grain, were with two exceptions under the last night's close and they were not followed up except by sales which zig-zagged about the opening prices. Shortly after opening New York prices were cabled as being all in the seventies, and this gave rise to a prediction that Chicago wheat would soon be in the sixties. This would be better than last year wheat. New York wheat changed hands at 66 cents, but it seems small in the face of Europe needing more than America is able to supply and of the abundant gold output. The plentifulness of the latter is being given out as a necessary cause for advancing prices, but while abundant gold is obvious enough, the advanced price of food stuffs, its effect, is not forthcoming. A Wall Street journalist insinuates that men are perhaps impatient and that prices are all right.

Liverpool cable gives weather showery. Wheat ½ lower, futures neglected and declining. Corn ¾ higher. Holders more disposed to sell.

Received at Chicago to-day; Hogs, 14,000; cattle, 4,000; sheep, 8,000; Kansas City hogs, 12,000; cattle, 13,000; Omaha hogs, 5,500; cattle, 4,500.

Car lots wheat, 132; shipments, 59,120; car lots corn, 948; shipments, 230,277; car lots oats, 770; shipments, 50,477.

Primary receipts last week, 524,668; shipments, 295,361; last year, 1,002,660; shipments, 485,294; four ports last year, 448,366; shipments, 324,832.

Curb wheat giving lower quotations.

The local crowd have sold heavily this morning. Foreigners and commission houses generally have been the buyers.
