

IT IS UP TO MACKENZIE NOW TO COMPLETE NEGOTIATIONS

Mayor Hocken Has Opened the Way, Says Ald. Anderson, and It Is No Concern of Sir William's Whether One or Two Bylaws Are Submitted to the Ratepayers.

"Mayor Hocken opened negotiations for the purchase of the Toronto Railway Co. and Toronto Electric Light Co. properties and has advised the city that he has been offered the properties at a price that warrants submitting the matter to the ratepayers," said Ald. Anderson. "The offer stipulated that both properties had to be bought, or neither. The legislature has practically consented to the council submitting a bylaw for the purchase of the railway system, and has explained that the city has already power to purchase the T. E. L.

"The city then has the power to purchase both properties, it is not up to Sir William Mackenzie to complete the negotiations for the transfer of the two properties to the city. It should be no concern of his whether one or two bylaws are to be submitted to the ratepayers. It is up to the ratepayers who will decide if his offer is to be accepted.

"If the price agreed upon is acceptable to the ratepayers, the purchase will most probably be made, for no form of opposition would divert the ratepayers from giving their approval to removing a serious handicap to the progress of the city. That a price acceptable to the ratepayers will be agreed upon is likely, inasmuch as the owners of the properties desire to sell. It certainly seems to be an opportune time for Toronto to own and control her rapid transit service and her light and power system.

A Fair Price.

"Toronto has so much to gain by having the rapid transit service municipalized that a fair price for the Toronto Railway Co. property should be an acceptable price. Under present service the growth of the city is not only retarded, but there is also the knowledge that manufacturers are less likely to come to Toronto while so many workmen have to pay so much fare going to and returning from work.

"As yet I have not heard or read one reasonable argument against the desirability of Toronto purchasing the T. E. L. In fact, the opponents are content with declaring that the offer to sell T. E. L. to the city is a scheme which would result in the city's being just why the ratepayers would give a favorable vote to having a property unloaded upon them is beyond me, but apparently not beyond the opposition. However, suspicion of a scheme is neither proof nor solid argument.

"If the opponents urge that the offer of the T. E. L. is a scheme to unload, why did Hon. A. M. Beck say that the members of the council that it would be worth double the value of the T. E. L. to have it out of competition with the hydro system? Mr. Beck realizes, of course, that Toronto is by far the greatest consumer in Ontario of electric current, and that if the light and power service in Toronto was completely municipalized, the hydro system would be greatly strengthened.

No Difficulty.

"There should be no difficulty should Toronto purchase the T. E. L. in turning over to Mr. Beck the contract assumed with the Electrical Development Co., and using only the power in Toronto. Mr. Beck would readily sell elsewhere the electric current contracted for by the T. E. L. It is now an open secret that Mr. Beck is desirous of acquiring additional current.

"The contract of the Toronto Railway Co. with the Electrical Development Co. will end in 1921. The contract of the T. E. L. with the Electrical Development Co. will run some 25 years, all of which time the prices of light and power may continue to be lower than those of the hydro system, and the hydro may continue to get the skim milk of the business in Toronto.

"In seven years the franchise of the T. E. L. for conduits will cease. For that reason the T. E. L. is now rushing up as many poles as possible on streets having neither poles nor conduits now. Friction unprofitable to the citizens will go on and on until the transportation and light and power services are fully municipalized. There is an opportunity to end that friction now, and Toronto's good sense will likely grasp it and act."

BRAMPTON WOMAN KILLED BY TRAIN

Mrs. William Fletcher Struck by Way Freight Last Night.

WAITING FOR ANOTHER Stood in Centre of Track and Did Not Hear Engine.

BRAMPTON, April 24.—(Special).—While watching for the up-train at 6 o'clock tonight at the Queen street crossing of the C.P.R., Mrs. William Fletcher, 49 years old, was instantly killed by being struck and run over by a way freight. Mrs. Fletcher was standing in the centre of the track and did not hear the freight train approaching.

She was born in Churchill. Her maiden name was Wilson, and she was twice married, first to Mr. Painter, and several years after his death to Mr. Fletcher. She is survived by three children—Arthur, Jessie and Edna Fletcher.

The freight train was in charge of Engineer George Clay, coroner. The train was in charge of the Crown Attorney McFadden. The train was in charge of the Crown Attorney McFadden. The train was in charge of the Crown Attorney McFadden.

GOOD ROADS WORK.

What is the Good Roads Commission doing in April weather? Farmers in York county are getting enthusiastic in their rooms at the parish house last night, and made preparations for the coming season. A large team of men entered in one of the larger junior city leagues this season, and preparations are being made for the organization of a baseball team. The report of the second annual concert was also submitted and proved very satisfactory.

NO SUNDAY CARS FOR THREE WEEKS

Bill Giving Company Power to Operate Not Yet Law.

MUST RECEIVE ASSENT

**And Legislature Will Not Pro-
rogue Until Next
Month.**

The people in North Toronto and in the other towns on the Metropolitan line who were counting on taking their first Sunday car ride on Sunday, April 27, will be disappointed, as the bill empowering the company to run Sunday cars will not be made law until after the prorogation of the legislature. If William Proudfoot, Centre Huron, had not made his charges the prorogation would have taken place this week and the people would have been able to ride next Sunday.

As matters stand now the house has adjourned until Tuesday, May 6; so that the first Sunday cars will not run until May 11.

The only bill passed by the house at the present session that is now law is Hon. Adam Beck's bill providing that before any town council can close a contract for electric power the agreement must first have met with the approval of the ratepayers. This bill was passed to meet the Newmarket emergency and through one of its clauses became law upon its third reading.

All other bills must have the approval of the lieutenant-governor-in-council before they become law.

BUSINESS SHOW GIVES NEW IDEAS

Continued From Page 1.

deserving of the inspection of all visitors. The office shown in miniature is such as would suit most lines of business of general character, and is well equipped for the use of the business man. As the space available is limited, it is not possible to include as much furniture as would be desirable, but in each department the idea is to show the essentials, from which expansion can be made as the business grows.

As you pass thru the usual entrance to the left will be seen the switchboard and the telephone department. In this department the right is the accounting department, comprising equipment of desks for chief accountant, cashier, ledger-keeper, and one for general miscellaneous and statistical work of the business, while the fifth would be the billing clerk's equipment. With the telephone department, billing and adding machines.

Flat Top Desks.

We are all of decided opinion with regard to the use of the flat top desks, instead of the roll top, and the equipment in all departments is of this character. Even for the book-keeper's use the old-time high top or standing desks are no longer used, but the desks in this office are not used.

In the reception room, and one will note that in these days of high prices, space, it is not often that a firm can afford a room set apart for the reception of business visitors. The desks in this room are of a size, with a number of chairs; the idea being that besides using it as a waiting room, it could be used as a sample room, both for the visiting salesman.

Another purpose is that it can be used as a board room, inferring that it may be a private company.

The manager's office comes next. The manager's office is by real good furniture, is the best type of business office. The furniture in this office consists of a desk, a chair, a telephone chair and two or three business guest-chairs. There is also one filing cabinet for the manager's private correspondence, and the dictaphone. The desk is equipped with a good writing set and plain square desk with ink with a stand of ink, in keeping with the desk itself. The idea is not to have too many loose things about the desk, but to have everything in the desk in the necessary articles.

Order Department.

The public are especially interested in the general accounting department, which has separate space would be convenient for writing orders, together with two desks and dictaphone outfits. As the dictaphone outfits have been found necessary or highly desirable that this class of work be done in a separate room, because of the reproducing machines. The necessary desks, together with reproducing machines and dictaphone outfits, the cylinders is the equipment supplied for this room.

In the mailing room they have every latest device it is possible to have in an office. Machines to address, seal and stamp envelopes, also a writer-printer. This room is supplied with a few chairs, and of the heavy office type, the table of course, for the convenient handling of the letters.

Convenient to the mailing room is the filing department. This equipment, which might be included with that of the mailing room, as in many businesses the two are incorporated together, in this case, however, to keep up the consistency of the separation of devices as many cabinets as space would conveniently take without crowding have been supplied.

The public are specially invited to attend the gallery at 3:15 evening during the show and be entertained by Harry Bennett, who is clever in his impersonation of Harry Bennett, and listen to the splendid music rendered by the Q. orchestra.

Another attraction is the Kinemacolor moving picture lecture provided by the National Cash Register Company, which is held in the basement, with a change of films every hour.

The International Typewriter speed contest will be opened on Monday, the first of the fastest from New York are to be here and it is expected some records will be broken. The contest will last till April 30, the day of closing.

FARMERS WAGING DYNAMITE WAR?

Sinister Reports Are Afloat as Result of Tragedy Near Hinchinbrooke.

LONG-STANDING FEUD

Right of Company to Flood Lands Denied by Farmers.

KINGSTON, April 24.—(Special.)—The drowning of George Hudson, and the flooding of lands as a result of the dynamiting of the dam near Hinchinbrooke, has caused the biggest sensation the county has had in years, and the district presents a far more serious state of affairs than was realized at the time of the accident.

It is estimated that between fifteen and twenty thousand acres of most fertile soil has been rendered useless, as a result of the breaking of the dam, and this area extends thru three townships, Camden, Portland and Hinchinbrooke.

The flooding of the lands has resulted in a lively fight between the farmers of the district and the Napanee River Improvement Company, owners of the dam. Both sides of the story have just been made known. B. S. O'Loughlin, secretary of the company, made his first statement about the affair today.

His attitude is that the people who are fighting the drowning of the lands are working on something to which they have no real or legal right. He states that the owners of the land under contention will not take legal means to oust the company, because they are looking for something they do not buy. Hence, other than lawful means have been resorted to.

The position of the Napanee River Improvement Company, he explained, was this: The company was incorporated in 1868.

A list of the lands which would be affected was given to the crown, and the right to flood was reserved in all subsequent sales.

About 1867 the Rathburn Company bought out Cook and Cochrane, and subsequently acquired large areas of land which it began selling, and is still selling, at from 50c to \$1 an acre, reserving the right to flood.

This right the Napanee River Improvement Company has leased from the Rathburn Company, and pays a yearly rental for it.

Consequently, nearly all the land in Hinchinbrooke is held under these rights. That land contiguous to the lake is very rough and rocky, and the shores are very high. Many bays are flooded when the water rises. These are the lands under contention.

The farmers have another story to tell, and in it one hears no mention of rights that no trace of the company has reserved land in 50 cents per acre. There is only a loud complaint against the company which keeps the lands flooded at the time of the year when they are most needed. The farmers also blame the government.

The farmers seem to think that justice in the matter is impossible and a demand is being made that the government should be conducted against those whom they hold in blame for the state of their land. The dam was blown up after the dynamite was exploded, and also a great many arrests were made, and a long investigation conducted, the "job" had been so well and secretly managed that it took the dynamite men a long time to find out the dynamite was found. The explosion of the dam last week has apparently been carried out with ever greater secrecy, and the dynamite men are taking great precautions to keep their tracks hidden. The watchman left the dam three weeks before the explosion and the day after the explosion the house was burned.

This condition of the flooded lands, but also causes washouts on the roads, and in some places, the roads are submerged for periods of the year. The dynamite men claim that the mail routes to be changed. The chief of lakes is about 30 miles long, and is a source of annoyance to farmers all along its length. The explosion of the dam has drowned now so that the mail has to be delivered by circuitous routes. At this place several horses have been drowned and a cow killed.

The first suit arising out of the dynamiting of the dam at Hinchinbrooke has been entered. The mother of George Hudson, who was drowned, is suing the Napanee River Improvement Company.

REPUBLICAN PARTY DEAD AND DAMNED

So Say Progressives in Lively Discussion of Tariff Bill.

DEMOCRATS CENSURED

They're Wiping Feet on Progressives' Door Mat, So It's Alleged.

WASHINGTON, April 24.—(Can. Press.)—Republicanism was described as "dead, damned and lost forever." Democracy was accused of rushing to "clean its feet on the Progressive party doormat," and the Progressive party was characterized as a "branch shoot from the dead Republican trunk" in the three-cornered tariff debate in the house today.

Representatives Hamilton and Foreney of Michigan took up the cudgels for the Republican minority, the latter bitterly assailing the sugar schedule and the free listing of lumber and wool as ruinous to American industry. Representative Hamilton ridiculed the Democrats and criticized the president.

Wilson, the Impetuous.

"With a cock-sureness of a man accustomed to instruct the immature minds of youth," he said, "the president has been selling, and is now taking to settle in eight minutes problems that have vexed the minds of statesmen for more than a hundred years."

Representatives Hinebaugh of Illinois, and Hullings of Pennsylvania, attacked the Underwood bill on behalf of the Progressive party. Representatives Hinebaugh and Hullings do not curb monopoly nor reduce the cost of living, he hoped it would. He predicted that if President Wilson were to create a cabinet of Democrats, the Democratic party will remain in power for the next 20 years.

Mr. Hinebaugh charged that the pending bill was "a compromise between the power of special privilege and the power of the public patronage," and he accused the Democrats and Republicans of falling over themselves in an attempt to "clean" their feet on the Progressive party doormat.

Democratic members of the ways and means committee defended the bill and expressed loyalty to their party and the bill, and defied the Progressives to create a discord in the Democratic ranks.

The debate was kept up until late in the evening, when the house adjourned for republicans to hold a scheduled caucus.

REFUSED TO SAY WHO WRITER WAS

Editorial Writer on New Witness Called Before Marconi Committee.

Special Cable to The World.

LONDON, April 24.—(Copyright.)—Hilaire Belloc, a widely known writer and formerly a Liberal member of parliament, was the chief witness before the Marconi committee today. He has been the editorial writer on The New Witness, Cecil Chesterton's paper, which repeated every week charges of corruption against cabinet ministers in connection with the Marconi contract.

Belloc testified that he had no more information as to the man in the street, but considered it desirable that a contract should have been given to a company managed by the attorney-general's brother.

When asked by the authorship of the articles in which the charges were made, he refused to answer because it might embarrass Chesterton, who has to face an indictment for criminal libel for some of the articles.

Belloc denied the allegation made on the preceding day by Charles Granville, a former member of the Marconi committee, that Belloc had given the bill to the attorney-general's brother.

The New Witness is frankly an anti-Semitic paper, publishing every week editorials assailing the Jews as Jews in recklessly offensive fashion.

BRYAN LEAVES FOR CENTRE OF STORM

WASHINGTON, April 24.—(Can. Press.)—William J. Bryan, secretary of state, left Washington tonight for Sacramento, Cal., where, on Monday, he will face the Senate on the proposed Johnson and members of the California Legislature, in an effort to frame an anti-alien land law that will not be in conflict with treaty obligations of the U. S. with Japan.

"I go hopefully, yet with a realization of the responsibility involved," said Mr. Bryan as he left the White House after a final conference with President Wilson. The president had explained earlier in the day during his conference with the newspaper men, that the purpose of Mr. Bryan's visit was to take counsel with the California authorities as to the best way to avoid international difficulty. The president let it be known that he considered the attitude of the Japanese Government in arguing its case friendly and considerate.

Just what Japan would consider a discrimination brought forth the intimation from the president that with the eligibility of Japanese to citizenship still a debatable question, it would be difficult to define just what would be construed as a discrimination.

OTTAWA, April 24.—(Special.)—The government has given notice of a resolution to appoint a board of trustees to acquire and manage the National Art Gallery, with authority to purchase paintings, statuary, etc., which may be authorized from time to time by parliament.

Carriage Changes

The traffic department of the board of trade has received notice from the railway companies that, commencing this morning, they will receive cartage without freight having to be taken to the railway sheds, and that the refund of the regular cartage charges billed forward on "collect" shipments made to railway sheds by shippers will be discontinued tomorrow.

Where Cases in Bankruptcy Could Be Dealt With.

A meeting of the Canadian Credit Men's Association was held at McConkey's restaurant on Wednesday night, when Jas. Bicknell, K.C., discussed, for the benefit of about 70 credit men, the question of the advisability of abolishing a bankruptcy court for Canada. Mr. Bicknell cited the history of the bankruptcy laws in Canada, and stated that at the present time, only Canada and the States without a bankruptcy court in some form or other. He drew comparison between the present method of handling estates in liquidation in Canada, as compared with the system in operation in England under the Bankruptcy Act of 1885, showing how a man could only get a discharge from his reputation was found to be absolute, by good and he had failed as a result of circumstances, and not of intention, whereas a man who had any stigma against his reputation could not secure a discharge from the bankruptcy court. He strongly advocated the passage of a uniform act of this kind in Canada, as at the present time the assignment Act of each province differs in some respects from that of other provinces, and a decision of court in this province is not effective in the other provinces.

At the conclusion of his address, Mr. Bicknell was extended a hearty vote of thanks.

TUCKETT WILL ACTION

Attempt Being Made to Have Millionaire's Will Set Aside.

HAMILTON, April 24.—(Special.)—Rev. Canon Wade, of the Diocese of Hamilton, after a lingering illness, this morning, after a lingering illness, he was former rector of the Church of Ascension, and canon of Christ Church Cathedral. He was well known throughout the Diocese of Niagara.

Canon Wade was the spiritual adviser to Reginald Birchall, who was hanged a number of years ago, in Woodstock, Ont., for the murder of Henry Benwell. Altho Birchall proclaimed his innocence of the crime, it is thought that he made a confession to Canon Wade.

The Tuckett Will.

Action has been entered at Osgoode Hall, Toronto, by George J. Tuckett and Mrs. Blanche Inez Bragg, New York, against the executors of the will of the late George T. Tuckett. The action is to set aside the will of the late George T. Tuckett and have it declared that he died intestate. This action was not unexpected. It is said that the intention of the action is not to prove that the deceased died without will, or to change the general tenor of the will, but to impress on the court that the deceased died without will, inasmuch as it should have done. The estate is valued at \$1,250,000.

Building Operations.

This year's building operations promise to smash all previous records in this city. For the present month, up until yesterday, the building permits received for building operations amount to \$1,200,000. The record for any previous month in the history of the city was \$902,000. All the contractors are busy, and if labor troubles or shortages occur, the work in Hamilton will likely extend more this year than in any two previous years.

Garment Workers' Strike.

Altho the design of the garment workers' strike might be settled within a week, Victor Altman of Buffalo, a member of the executive committee of the International Garment Workers' Union, is in charge of the strike here now, and feels sure that he will be able to bring about an early settlement of the differences between the employers and the strikers. If the manufacturers will give him an interview. The strikers have every confidence in Mr. Altman, as he is the one who had their working time reduced to 48 hours per week without a strike, some time ago.

"GERRARD" PREFIX FOR PHONES IN EAST END AFTER SATURDAY

New Exchange Will Take Care of More Than Two Thousand Lines With Facilities For Many Times That Number—The World Sees Operators at Work.

One of the busy men of the city is Mr. Dunstan, manager of the Bell Telephone Co., but many are the calls upon his time, his moments were not too precious for him to spare a few minutes for a representative of The Toronto World who called upon him recently.

"You are about to open a new exchange?" interrogated the caller.

"Yes," was the reply, "to keep pace with the increase in our subscribers and to accommodate them in every way possible, we have erected a new building on Logan Avenue, near the opposite Simpson, just a little north of Gerrard street. It will be opened about mid-night on Saturday, when over 2300 lines now running North, Main, Adelaide and Beach will be transferred, with consequent change of prefix and number.

"This of course necessitates a change in the directory, a new one containing 814 pages, will be distributed, commencing Monday morning.

"To make things as effective as possible we are asking our subscribers to give up their old books in exchange for the new. This is imperative, as is apparent, in order to avoid the confusion of wrong number calls. Besides, the old directories, such as the Yellow Pages, are being destroyed and all advertising matter disregarded unless the number is verified by reference to the new directories."

Further information gleaned was that the switchboard of the new exchange is of the most modern type, with an ultimate capacity of 2000 lines, and that the area it will cover will be from the Don to Greenwood.

To make things as smooth as possible a special staff of telephone information operators has been organized for each exchange, to handle calls for the old numbers of subscribers transferred, until the distribution of the directory is completed. Then if people will refer to it alone the new numbers will be in universal use.

Another exchange is promised for Bathurst street, south of the new exchange. Ground for this is already broken. It will be known as "Hillcrest" and will be connected with the other exchanges of the city by 600 trunk lines.

"Change Plugs."

Before the new building is opened on Saturday night about 100,000 "change plugs" must be inserted in the switchboards of the other offices, to indicate to the operators that the lines in question have been transferred. The work of inserting these plugs will have to be rushed and will be undertaken by a large staff late on Saturday night.

REDMEN COERGED INTO LOSING MILLIONS?

viding in case of non-payment of fine, a penalty of not less than two and not more than six months in jail.

Hon. Robert Rogers announced in the house today that the government had awarded the contract for the construction of a breakwater at Victoria, B. C., to Sir Wilfrid Laurier & Co. at a price of approximately \$1,797,801.

Replying to a question by Mr. Lemieux, Mr. Rogers replied that the department of public works had purchased by tender for post-office towers, 54 clocks, at a cost of \$49,424.

Asked about the operations of the Ottawa mill, Hon. Minister of Finance stated that between the opening of the mill in January, 1908, and March, 1913, the output had been as follows: Gold, \$1,800,730; silver, \$5,710,944; bronze, \$222,801.

Oliver Champions Redmen.

Upon a motion to adjourn the house for the purpose of discussing a definite subject of public interest, Hon. Frank Oliver called attention to the recent purchase by the British Columbia Government of the Kitlan reserve. This reserve consists of 86 acres within the corporate limits of Vancouver, said to be reasonably worth seven million dollars. The British Columbia Government paid the Indians about \$250,000. It was estimated that the land would be ultimately occupied for terminal facilities for the Canadian Northern.

The Vancouver Sun, the Vancouver World and other papers were quoted by Mr. Oliver as authorities for the statement that Hon. W. J. Lester, attorney general of British Columbia, had coerced the Indians into making the sale, telling them they must take the money or they would be deported, or they would get nothing at all. A deal was made on April 8, and according to Mr. Oliver, the Indians were removed from the reserve on April 10. He demanded some explanation from the government.

Barking Up Wrong Tree.

The prime minister said that Mr. Lester was interrogating the wrong government. The transaction of which he complained was one put thru by the British Columbia Government. Mr. Borden, however, pointed out that the transfer would not be valid until approved by the Dominion Government.

Consideration was then resumed of the bill to provide for the betterment of highways.

The Laurier amendment requiring all appropriations under the act to be distributed on the per capita basis, was lost on division and the bill was given its second reading.

WAR SIX CONSERVATIVES.

The Ward Six Liberal Conservative Association will meet in the old Y. M. C. A. building, southeast corner of Davenport and Queen street, on Monday night at 8 o'clock. There will be a presentation to Dr. Thornton and addresses by Sir Edmund Osler and Sir James Whitney.

ST. LAWRENCE NOW ATTRACTING ATTENTION.

The early opening of navigation on the St. Lawrence this year attracting a great deal of interesting comment on the possibilities of extending the route to the Gulf of St. Lawrence.

The big White Star liner "Teutonic" sails April 19 for Quebec and Montreal, opening the season, and has a record list of passengers. On her return trip she will sail Tuesday, May 6, instead of Saturday, as formerly, the Canadian Government having designated the White Star Dominion Line to carry the Tuesday mails until July next, when they will resume Saturday sailings with the mail contract.

This company is planning to give persons of small means an opportunity to go abroad for four weeks this summer, visiting England and the continent, at a total expense of \$167.50, including cabin accommodation on the steamer and all expenses ashore. A considerable number have already signified their intention of making the trip.

NURSERY

CONDUCTED BY E. Elinor Murray
WHEN BABY CRIES

Can you tell why your baby cries? Can you distinguish the cry of pain from the cry of hunger, the cry of anger from the cry of exercise? There is the fretful cry of the baby who is not satisfied with his treatment. He is hot or hungry or uncomfortable. There is the angry cry—an outburst of discontent when things do not go as the young tyrant wills they should. There is the cry of pain, an unceasing, loud cry, which does not yield readily to comforting and kisses. There is the hoarse cry of the child who has cried a great deal, and there is the low moan of the very sick child—the cry that goes thru the mother's heart like a sharp knife and becomes almost unendurable.

In the early months a certain amount of crying is good for a baby; it exercises his lungs and muscles and also helps the circulation. However, long continued crying every day should have the cause investigated.

It is difficult sometimes to distinguish between hunger and indigestion. Hunger will cause crying just before feeding is due, and indeed a poorly nourished baby will cry thruout the interval between meals. His hunger is never satisfied, even immediately after a feeding.

Baby should not be allowed to get in the habit of crying if he is well. It does not take him long to learn that his mother will give up to him if he cries long enough and strong enough. Therefore he cries to gain attention, to be played with, to be taken up to be fed, for anything that will cause some person to stay with him.

Older children sometimes form the habit of crying at the slightest provocation. They need careful, tactful treatment to cure them, and plenty of healthy occupation. Habitual crying in children of any age is generally due to errors in diet. A well-nourished, healthy, unspoiled, normal child is too happy and interested in everything about him to take up much time in the useless act of crying.

TWO MINISTERS GIVEN DEGREES

Rev. Geo. Bridgman and Rev. J. J. Ferguson Honored by Victoria University.

At the recent meeting of the senate of Victoria University, it was decided to confer the degree of D. D. (honoris causa) on two distinguished clergymen, Rev. George H. Bridgman, M.A., D.D., LL.D., and Rev. J. J. Ferguson, M.A., B.D.

Dr. Bridgman is a Canadian, who, after his graduation at Victoria in 1864, served the Methodist Church in his own land for nine years, and then transferred his activities to New York State, and was appointed president of the Genesee Wesleyan Seminary at Lima. After ten years in charge of this seminary, he was elected in 1883 president of Hamline University, St. Paul, Minn. He found this university in a struggling position, and when he resigned recently, he left it in an assured position.

The recipient of this degree is the Rev. J. J. Ferguson, B.D., who graduated from Victoria in the faculty of arts in 1885, and in the faculty of theology in 1888. He has been stationed among other places, in Streetsville, Davisville, Weston, Brockbridge, Alliston and Orillia, and is now in charge of Epworth Methodist Church, Toronto. He has served as chairman of the district, delegate to general conference, and president of annual conference. Mr. Ferguson has been prominently a pastor, a man of solid character, and trained intellect. His many friends will be pleased by this honor paid him by his own college.

UNCLE WIGGLY AND SAMMIE'S KITE

Copyright, 1913, By Howard R. Garis.

After Uncle Wiggly Longears had left the animal children at the holly-stump school in his auto with the circus balloons on for tires, as I told you in the story last night, he waved good-bye to them, and to Professor Choo-choo, the nice teacher, and kept on.

"That was a little adventure," said the rabbit gentleman who was traveling around for his health because he had gotten so fat. "But," he said, as he wiggled both his ears to give a little fly sitting on the left one a nice ride around the block, "but I want a big adventure this time."

So he drove on in his auto, and the circus balloons—red, green, blue and yellow that he had tied to the wheels in place of the German boogya sausages that had burst—these circus balloons, I say, made the auto so light that it floated in the air instead of just along on the ground the way most automobile machines do.

"But I had better not go too far on in this way," thought Uncle Wiggly. "For when the sun gets up higher in the sky it will be warmer, and the balloons may swell up so large that they'll lift me and my auto up above the clouds, and I might never get down again."

So he did not want to throw away the nice circus balloons he handed them to a little monkey to play with. And the monkey tied one balloon to his tail, and held the other in his paws, and went about making believe he worked in a circus selling frozen peaches and hot lemonade, and he was as happy as the tea kettle when it sings for supper.

"Why, what is the matter?" asked Uncle Wiggly, as he stopped his auto, and went into the burrow-house. "Why isn't Sammie at school today?"

"Because he has the toothache," said Mrs. Littletail. "He has a hollow tooth, that ought to be pulled, but, the it's loose, he won't pull it himself, nor let his papa or me touch it. And he went and ate some candied cabbage, and now his tooth hurts him so that he can't go to school."

"Boo!" exclaimed Sammie. "It does hurt awful!"

"Well, why don't you pull it out? Then it will stop hurting," said Uncle Wiggly. "I'll pull it out for you. Just tie a string around it. Then I'll fasten one end of the string to my auto and the other to your tooth, and when I pull the auto forward, your tooth will be out!"

"No, that would hurt too much!" said Sammie, making a face as full of wrinkles as a washboard on Monday morning.

"It will hardly hurt at all," said Uncle Wiggly. "And not half as much as the ache does. Come on, Sammie."

But Sammie would not, and his tooth kept getting worse and worse. Finally Uncle Wiggly saw Sammie's kite standing in the corner of the room, and he said:

"Well, let's go out and fly your kite. Maybe that will make you stop thinking of your aching tooth. And some-thing it stops bothering you."

"There is no wind to make the kite

GIRLS TO LEARN CARE OF BABIES

Scientific Instruction to Be Given in Five Schools on Saturday.

TEACH BOYS TO SWIM

Free Lessons Will Be Given by Y. M. C. A. Twice Weekly.

Five classes of senior girls will be taught the scientific care of infants at that number of schools, on Saturday mornings. The proposal was adopted by the board of education management committee yesterday afternoon.

Trustee Fairbairn was the father of "the little mother movement" resolution. Dr. Struthers and Miss Rogers will have charge of the arrangements. Demonstrations will be made with the baby strollers of the girl scholars as subjects.

The committee was unanimous for the classes to be established. Trustee Hiltz thought that possibly they should be in connection with the technical school.

The committee accepted the offer of the Y. M. C. A. to give free swimming lessons to pupils over 11 years of age from the public schools two afternoons a week.

BIBLE COLLEGE ALUMNI MEETS

Reception Held and Stirring Speeches Made by the Leaders.

In the assembly hall of the Toronto Bible College the Alumni Association met last evening for the fourth annual meeting. About one hundred and fifty members were present at the reception and supper, which were followed by the reports of the different committees and short addresses.

The principal address being given by Rev. T. G. R. Brownlow, Ovid, Michigan, a graduate of the college.

The opening remarks of the president, W. P. Roadhouse, were followed by the nomination and election of officers, resulting in Rev. Mr. Brownlow, the guest of the evening, being elected to the chair; vice-president, Mr. Towney; secretary-treasurer, Mr. Fryer, Rev. C. E. Burrough was made an honorary member of the alumni.

Miss Maud E. Swetsman, who spoke on behalf of the women of the association, suggested the formation of a committee to meet the new girl students, and another to procure good Christian homes for them during their stay in the city. She also advocated a home, with a good woman at the head, as a general place of residence.

Levi Atkinson spoke for the young men, saying many complimentary things about the alma mater.

Practical instructions for evening classes in the matter of assisting others was the suggestion of Miss Alice M. Burr.

Loyalty to the college and more particularly to its doctrines, was the subject of Rev. Mr. Brownlow's address. The efficiency of prayer with personal experiences of himself and fellow-students and missionaries being given as illustrations.

The members will convene again this evening, when the graduating exercises will take place, and several addresses will be given.

UNIQUE GATHERING OF VETERAN CLERGYMEN

KINGSTON, April 24.—(Special).—A notable gathering took place at the home of G. I. Campbell today. The party included six aged ministers, all of Kingston. Rev. C. J. E. Lidstone, Rev. G. A. Bell, Rev. B. Pierce, Rev. W. K. Shortt, Rev. J. Roadhouse, and Rev. William Craig, Rev. Mr. Roadhouse is probably the oldest Methodist minister in this district. He entered the ministry in 1840, and has done service all these years. Mr. Shortt is the next oldest pastor, having entered the ministry in 1848. Rev. Mr. Craig comes third, having responded to the call in 1879. Rev. Mr. Lidstone has spent forty years in church work. Rev. G. A. Bell and Rev. B. Pierce both entered the ministry in 1876.

MORE THEATRES FOR TORONTO MAN

Peter F. Griffin Secures Long Lease in Brockville—Montreal Also.

Peter F. Griffin, the well-known theatrical man, has just completed arrangements whereby he will have a string of theatres in Montreal and the eastern section of Ontario. In addition, he has formed a company with a capital of \$1,500,000, for the purpose of erecting a chain of theatres between Montreal and Boston. Options have been secured on several sites in Montreal, and work of building one or two theatres will start in the near future.

Mr. Griffin was accompanied to Montreal and Brockville by A. R. Morton of A. R. Morton & Co., Traders' Bank building, Toronto, and while in Brockville arrangements were made whereby Mr. Griffin secured a 20-year lease on the Brockville Opera House.

REV. GEO. JACKSON'S CLASS.

On Sunday afternoon, at the Men's Bible Class in Sherbourne Street Methodist Church, Prof. Jackson will speak on "The Stories of Genesis." It will be remembered that this is the subject which caused considerable discussion about four years ago among both laity and clergy of all churches. Prof. Jackson will conduct his class for three more Sundays prior to his leaving for England on May 2, to assume his duties at Didsbury College.

BARRIE OLD BOYS.

A meeting of the Barrie Old Boys' Association was held at the temporary offices, 35-40 East Richmond street, on Thursday evening, April 24, at which a committee was formed to frame a form of constitution. It was also decided to attend the 60th anniversary of the incorporation of Barrie, Ont., and for the purpose of registration, the following registers and pieces of registration were appointed: R. A. Dutton, corner Westminster and Roncevalles; R. J. Orr, 35 East Queen street; R. H. Cuthbert, Temple Building Cigar Store. The meeting adjourned to meet again on Thursday, May 1, at 8 p.m., when all old boys are earnestly requested to attend.

The Daily Children's Story

By H. R. Garis

UNCLE WIGGLY AND SAMMIE'S KITE

Copyright, 1913, By Howard R. Garis.

After Uncle Wiggly Longears had left the animal children at the holly-stump school in his auto with the circus balloons on for tires, as I told you in the story last night, he waved good-bye to them, and to Professor Choo-choo, the nice teacher, and kept on.

"That was a little adventure," said the rabbit gentleman who was traveling around for his health because he had gotten so fat. "But," he said, as he wiggled both his ears to give a little fly sitting on the left one a nice ride around the block, "but I want a big adventure this time."

So he drove on in his auto, and the circus balloons—red, green, blue and yellow that he had tied to the wheels in place of the German boogya sausages that had burst—these circus balloons, I say, made the auto so light that it floated in the air instead of just along on the ground the way most automobile machines do.

"But I had better not go too far on in this way," thought Uncle Wiggly. "For when the sun gets up higher in the sky it will be warmer, and the balloons may swell up so large that they'll lift me and my auto up above the clouds, and I might never get down again."

So he did not want to throw away the nice circus balloons he handed them to a little monkey to play with. And the monkey tied one balloon to his tail, and held the other in his paws, and went about making believe he worked in a circus selling frozen peaches and hot lemonade, and he was as happy as the tea kettle when it sings for supper.

"Why, what is the matter?" asked Uncle Wiggly, as he stopped his auto, and went into the burrow-house. "Why isn't Sammie at school today?"

"Because he has the toothache," said Mrs. Littletail. "He has a hollow tooth, that ought to be pulled, but, the it's loose, he won't pull it himself, nor let his papa or me touch it. And he went and ate some candied cabbage, and now his tooth hurts him so that he can't go to school."

"Boo!" exclaimed Sammie. "It does hurt awful!"

"Well, why don't you pull it out? Then it will stop hurting," said Uncle Wiggly. "I'll pull it out for you. Just tie a string around it. Then I'll fasten one end of the string to my auto and the other to your tooth, and when I pull the auto forward, your tooth will be out!"

"No, that would hurt too much!" said Sammie, making a face as full of wrinkles as a washboard on Monday morning.

"It will hardly hurt at all," said Uncle Wiggly. "And not half as much as the ache does. Come on, Sammie."

A MAN IN THE OPEN

By ROGER POCOCC

(Copyrighted 1912, The Bobbs-Merrill Company.)

"Mother allows this Brooke is trash," said Pete, wagging his snout head...

"Brooke been to see the riggings?" he asked.

"Once in December. He don't know nothin', either."

"Smells mean, eh?" "A mean smell, Pete."

Billy had spent the week tracking down the two bad characters who had served as witnesses to a false agreement...

"The sun was setting behind him when Pete rested at last upon the snowclad summit, and dusk lay in lakes of shadow far below him."

"That you, whiter?" "That you, whiter?" said the other cheerily. "How the claim, Pete? Getting some gold, eh?"

"Gold? Say Bolt, what's the matter, old fellow?" "Matter? Why, nothing, Pete. The blizzards shot keenly 'of course I'm not nearly to bedrock yet, and as to what I owe you've jolly well got to wait. How's old Calamity? I got Lost Creek. Jim to work at last made no cry in his pain. For down in the valley he saw a red flame rise."

Then Pete sat down on the bedside, and the two miners prattled about the trex flume, and the price of flour in a camp, now overgrown with jungle.

A word to Billy would have been enough to get the apparatus to a place of safety, pending the settlement of Pete's just claim as partner. But the car-gardor knew well that death had come to take the one man he loved, and with no time for sorrowful business, disturbing Bolt Taylor's peace, it was better to go quietly.

The sky was full of stars as Pete went homeward. The stars were big and round; the forest in an ecstasy kept vigil all night, all silent, and the little streams in the canyon set their prayers before the frost sleep of the later hours. The man was at peace, it is not so very much to be expected of a man who has lived as long as Pete. But mother, grim and fierce in the throes of her spring cleaning, had not come to admire. "Pete," she shrieked, "two more buckets with water, and you've just got a move on. And how long he've you bin promising to whittle me them clothespins? Now jest yew bustle, Pete, or I'll get right ugly."

Pete only cut from the plug into his palm, and rolled the tobacco small for his corn-cob pipe. His winter serenade was under a roof and over a cedar shaker which he had built to shelter the new "riggings." Around him in a horseshoe stood fifty complete apparatus, each with coiled lead and sling rope underneath, breaching or cupped, sovran helms and cinchas, sweat pad, blanket, and corona, while the headropes straggled and the mules maver all. He was riveting the last of sixty hackamores, as he dreamed of the great north trail, of open meadows by the flagwings, and the tall, thin, silver spire of Tabeordinth at the Forks of Skeena.

"Mother!" he said, "I'm no slouch of a car-gardor. When red gin cases is still to rig for kitchen boxes, and it's all complete. The mules is fattening good, I hear, and the men's the same as last summer, all worth their feed, too."

FRIDAY MORNING, APRIL 25, 1913

A CLEAR-CUT ISSUE.

Mayor Hocken will now be able to go ahead with his negotiations, in full consciousness that the people have a perfectly clear idea of what he is trying to do, the way in which it is to be done and the opposition that has undertaken to defeat his plan. The unification of the street railway system in Toronto, the cutting out of double fares, the extension of civic lines where the population requires them, is the mayor's object. He approached Sir William Mackenzie with the hope that the street railway might be bought; Sir William said he would sell, but on one condition, that the Toronto Electric Light Co. be purchased at the same time. The two properties are under the same general staff, they use the same power stations and auxiliaries. It would not be practicable to separate them. They must go together. And the date must be an early one, as a proposal for the expenditure of \$8,000,000 on the light plant is under consideration, and when that is begun it will be too late to deal with the city.

These facts were brought before the private bills committee on Wednesday, but Mayor Hocken's statement, confirmed by Controller McCarthy, that he had taken the initiative in approaching Sir William Mackenzie, was ignored, and Mr. Thomas Crawford, who led the opposition, and Mr. G. H. Goodenham, who followed him, calmly acted as the mayor and Mr. McCarthy were making unwarranted statements, and declared that it was Sir William Mackenzie who had approached the city.

There must be some reason for the action of these men in trying to prevent the settlement of the street railway question at this time. Why were they lined up to prevent, what Controller Church declared yesterday has been prevented, and what he calls the "absurd proposals" for taking over the railway? In the first place the Telegram was determined that Mayor Hocken should not be permitted to do anything this year that would round to his credit. Let the citizens hang, but kill Hocken, was its resolution. Not once or twice in our municipal story has the Telegram knife been similarly gory.

But how did the Telegram drag Hon. Adam Beck into a fight against Toronto getting control of its street car service. Solely by misrepresentation. Mr. Beck denied the truth of the Church interview, and in fact repudiated the Telegram and all its assertions. His argument for separating the two purchases was not based on the Telegram grounds at all, but on consistency with the Municipal Act, and he illustrated the point by an instance from the City of London. He recognized fully that the Toronto Electric Light Co. would have to be bought along with the railway. He declared that he was perfectly willing to buy the light company, provided the terms were satisfactory.

This is not the Telegram position, or the Tommy Church position, that we shall hear no more of the "absurd proposals."

When the city members come to reflect on the situation and get the din of the Telegram's howls out of their ears, they will realize that Mayor Hocken has the biggest idea in his mind that the city has had since 1891. Mayor Hocken will proceed with his negotiations. The solid business interests of the city are behind him. Mr. Crawford's silly suggestion that Mayor Hocken might be corrupted in dealing with the Street Railway Company was merely the outflow of obstructive garrulousness, and very few people mind Mr. Crawford anyway. He dwells in the past, and it was he, as Speaker in the legislature, who prayed for King Edward long after his present majesty had succeeded his father.

Mayor Hocken has an excellent opportunity to carry out the recommendations of the traffic experts, and we believe he will have the support of the city council if he can arrange terms that are satisfactory to Mr. Beck and the Hydro-Electric Commission, as the bill provides. It will be easier for the city and the commission to co-ordinate and unify the two lighting services now than seven years hence when the franchise expires, and it is unreasonable to ask the citizens to wait eight years till the railway franchise expires if the system can be taken over at the present time. On these grounds we feel confident that Mayor Hocken will succeed.

The question of the supply of power is one that Hon. Adam Beck has under consideration. We believe, as we

have said already, that this question will be solved by the purchase of the Electrical Development Co.

THE CHIEF DIFFICULTY.

Just why anyone should desire to prevent Toronto acquiring the ownership of the street railway is difficult to imagine. Those who prefer to place their personal figures and prejudices above the public interest, inevitably reap the harvest of personal spleen. But in the meantime large public interests may suffer. It is unfortunate that any influential citizens of Toronto should be placed in the position of taking ground against the acquisition of the street railway. Should the city not acquire the railway for eight years to come, the people will know whom to thank for their transportation grievances, and eight years of grievance would not tend to make their author popular.

It will be the task of the city fathers and the friends of the public ownership, to show the people that the agreement arrived at, if one be arrived at, is an advantageous one. The Hydro-Electric Commission must approve it, and that approval will go a long way to influence public feeling. There will be a limited constituency to appeal to. The World would have preferred a vote of the electors. But the matter is to be left to the property owners. They should make no difficulty about a matter of such importance to their own interest.

Mayor Hocken's chief difficulty may be in convincing Sir William Mackenzie that he now has a bona fide warrant to purchase the Street Railway and Electric Light Company. Sir William has stated his terms in regard to the coupling of the properties. He will probably be more willing to go to the trouble of a tedious negotiation with the property owners, as referees, than had the agreement been made a matter of popular vote.

PARTISAN PREJUDGMENT.

The Globe, of course, takes it for granted that Sir James Whitney and his cabinet will be proven guilty of all of what they have been charged with and a great deal more. If enough mud be thrown, some of it may stick. The Globe has been an interested spectator of the methods of the Conservative party in England in the attacks made upon Mr. Lloyd George and Mr. Asquith. What serves one political party may serve another, and Mr. Hanna and Sir James Whitney must submit to a competitive examination in character with the Ontario Liberal leaders, since competition in policy is practically eliminated.

We believe Mr. Rowell to be quite sincere in identifying himself with the present attack. But in doing so, he must be conscious that he is taking his political life in his hand. Should the charges be found to be baseless, or the result of an attempt to wreak a petty personal revenge, Mr. Rowell will be sadly discredited. And yet no one with the fair fame of Ontario at heart can wish him success. The more unfair the charges against the cabinet ministers, the deeper will be the descent of the opposition.

FEDERAL AND STATE AUTHORITY.

Mr. Woodrow Wilson is already finding out for himself the truth of Shakspeare's line that "Uneasy lies the head that wears a crown." It matters nothing whether the headship of a state, all that a "crown" denotes, descends by hereditary right or is conferred by the suffrage of the people. Where power is there is responsibility, and the acceptance of all that both involve. Nor does it matter in essence whether the title and troubles come in the effort to maintain personal rule, or in the effort to establish the predominance of federal over state interests. They vary in kind but may be equal in degree, and the remedies availing an autocrat may be more easily applied than those alone open to the constitutional president of a republic.

President Wilson is in trouble over the action of the California legislature, which insists on its right to pass an act prohibiting the alien incorporation of naturalization from acquiring the ownership of land within the state. This is directly aimed at Asiatics, who alone suffer that disqualification, and has naturally invited strong protest from the Japanese Government. The president has advised that the act should include all aliens, but the proposal at once raised a storm of protest from bankers and others, who fear that it might mean the withdrawal and preventing the further inward flow of foreign capital. Governor Johnston of California is Progressive, and it is openly suggested that he may not be unwilling to embarrass the Federal Democratic Government. The situation is not without its lesson for the British Empire, inasmuch as it reveals the danger of permitting party politics to intrude upon larger domains.

BELGIUM AND THE FRANCHISE.

By forcing the government to consider seriously the matter of franchise reform the Belgian syndicalists have gained a victory which cannot fail to exert a far-reaching influence. The universal strike arranged, and in major measure accomplished, had for its object franchise reform. It was political, not social, in its origin, and it will stimulate similar action in the other European nations which have sought to retain control of their legislatures in the hands of the propertied classes. Unable to secure redress by appeals to reason and democratic principles the working men of Belgium declared in no uncertain manner that a privileged minority must no longer override the rights of the masses.

WAR MINISTER HAS RESIGNED

KRUPP FIRM'S PROFITS

Paid Just Twice What It Costs Them to Produce Materials.

Special Cable to The World, BERLIN, April 24.—(Copyright.)—Deputy Minister Emerger, the leader of the Centre party, caused a sensation in the Reichstag by producing the figures to prove that the navy department pays Krupp's just twice the amount it costs the concern to produce, and that Krupp's profit is 50 per cent. higher than it need be if the government had not given the concern a monopoly. Von Heering, the war minister, has tendered his resignation, which is certain to be accepted. The government was obliged by the Reichstag today to abandon the war minister's strange demand for building sites in Berlin. It was defeated according to the minister of the military appropriation bill. The Socialists repeated their demand for a thorough investigation of all contracts for armament by a committee with judicial powers on the lines of the United States congressional committee, that inquired into the Titanic disaster and the money trust.

TO KEEP SCUTARI AT WHATEVER COST

Montenegrin Victory Has Been Dearly Bought and Long Desired.

(Special Cable to The World, ROME, April 24.—(Copyright.)—"Montenegro will keep Scutari at whatever cost," said the foreign minister commander Poppavich to The World correspondent tonight. "Our victory has been dearly bought and long desired."

"King Nicholas today inherits a legacy from preceding dynasties. The fate of Scutari is a recent acquisition, when the king declared that he would abdicate if the city was not taken. In that memorable sitting the man who saved—even a little—is far above the worth of his life to that object."

"Europe cannot ignore a victory gained at such a price. Queen Helena, a daughter of King Nicholas, who was a native of Naples, and the wife of the Italian dreadnought Dullio, shed tears of joy on hearing the news."

"My heart goes out today to my countrymen," said it is not for me to say more."

The Tribune, which is considered the mouthpiece of the foreign minister, says that the international situation brought about by the capture of Scutari by the Montenegrins, is grave and exceptionally difficult. It adds that a collision between the conflicting interests can only be avoided by the maintenance of the unity of Europe, which must find energy for immediate and precise action. Any hesitation might compromise European peace.

DENIS MURPHY FOR SENATE.

OTTAWA, April 24.—Sir Richard Scott's death makes the fourth Ontario vacancy in the senate. They will all likelihood be filled before the naval bill is taken up by the senate. Denis Murphy, ex-M.L.A. of Ottawa, is spoken of as the most likely successor of Sir Richard.

By the new appointments the Conservatives will make a net gain of six seats, but the Liberal majority in the upper house will still be around thirty.

CHICKEN THIEVES SENTENCED.

LINDSAY, April 24.—(Special.)—Jake Smith and Jack McKay were today sentenced to six months in the Central Prison for chicken stealing. Smith and McKay gave the officers a hard chase for four days, and were finally caught at midnight under a bed.

The Philosopher of Folly

PLANTING TIME.

About this time it comes to pass our fancy turns to garden sabbas; in all our fair Canadian towns we don our oldest hand-me-downs—we grab our rusty rakes and spades and sharpen our old hoe-blades; the winter's fall of pots and pans, of bottles, cans and battered cans, we carry to the nearby lane, the while we chant a glad refrain. As long as tides shall ebb and flow we each will at this time do so, each will for the garden sabbas and the fruits of earth allot their mees and bounds in which to dwell, and fondly dream that all is well. We read with care the garden sabbas and plant the seed in faith and hope; we sink the turnips in a row and put the lettuce in just so; we find a two-foot pocket-rule is quite a useful garden tool to get the onions in a line and place the artless pumpkin vine. With what a merry hum, go! go! we make a hole to hold a bush or a bean or a carrot, and the corn when lovelier spring is at the morn. When poking holes for beans or peas what other days can equal it. With apron full of hope and trust, we work until our backs are bust; with blistered hands and arms that ache we dig and spade and hoe and rake the finest garden on the street, then homeward bound with weary feet. The happy, happy days we pass when planting seeds for garden sabbas!

FORCED BANK TO CLOSE ITS DOORS

Serious Charge Against Bankers' Association by Joseph Rainville, M.P.

OTTAWA, April 24.—That the Canadian Bankers' Association forced the Bank of St. Hyacinthe, then a solvent institution, to close its doors, is the substance of a statement handed out to the minister of finance this afternoon by Joseph Rainville, M.P., who will tomorrow move for an enquiry by a committee of the house.

Before the banking committee today Mr. Rainville stated that the curator had refused to furnish a list of the shareholders, the only persons getting it being Hon. L. P. Brodeur, who was not allowed to make use of it.

Mr. Rainville subsequently filed with the minister a charge that in June, 1908, John Knight, secretary of the Bankers' Association, went to St. Hyacinthe and convened at 9 o'clock in the evening an urgent meeting of the board of bank directors. He made known to the directors the fact that the bank should suspend payment, immediately.

WOMEN'S CANADIAN CLUB.

The annual meeting is announced for Saturday, April 25, at the Y. W. C. Association Hall, 21 McGill street. The presentation of reports and election of officers will take place at 3 o'clock, and at 4:30 the Hon. W. H. Fearnt, minister of mines and forests, will deliver his splendid lecture on "The Resources of Our North Lands."

ANNOUNCEMENTS.

April 24, 1913.
Judge's chambers will be held on Friday, 26th inst., at 10 a.m.

Peremptory list for appellate division on Friday, 26th inst., at 11 a.m.:
1. Inglis v. Richardson.
2. Resner v. Lowy, Richardson, J. P. MacGregor for plaintiff. Order made extending time until May 5. Trial stayed meantime. Costs in cause.
3. Steele v. C. P. R. Co.—Walrood (MacMurphy & S.), for appellants, obtained order of writ of summons for service on defendant at Montreal. Time for appearance ten days.
4. Bishop Construction Co. v. City of Peterboro—H. D. Gamble, K.C., for plaintiff, moved for better affidavit on production on two grounds: J. G. Smith for defendant. Further affidavits having been filed since motion launched, motion dismissed. Costs to plaintiff in any event.

Wilson v. Suburban Railway Co.—J. G. Smith, for defendants, moved for order extending trial for return of defendant from Winnipeg. J. P. MacGregor for plaintiff. Order made extending time until May 5. Trial stayed meantime. Costs in cause.

Phillips v. Monteith—F. Aylesworth, for plaintiff, moved for judgment under C. R. 603. T. H. Fieve for defendant. At plaintiff's request motion enlarged until 28th inst., peremptory.

James v. Anderson—E. F. Raney, for plaintiffs, moved for an order for commission to take evidence at Calgary of four witnesses resident there. W. L. Carr for defendant. Order made appointing George A. Walker as commissioner. Defendants to be at liberty to join.

Judge's Chambers.
Before Falconbridge, C.J.
Re Canadian Fibre and Manufacturing Co. v. Price Brothers Co., et al., petitioners; J. A. McEvoy for McKenzie; G. B. Balfour for the company; W. H. Wallbridge for Mr. Millious, shareholders and petitioner. Motions for winding-up order—Judgment: The winding-up, if it has to proceed, ought to take place under the S. C. and not under the assignment for benefit of creditors; for obvious reasons. It is better that a creditor should have the conduct of the matter than a shareholder. I must assume that the liquidator will investigate the matters alleged by petitioner Millious, in the interests of creditors and in accordance with his duty. Leave to petitioning creditors to file an amended affidavit nunc pro tunc, and if petitioners are a foreign corporation leave given, if necessary, to file license to do business here. Order will go for winding up. N. L. Martin is named as interim liquidator. Usual reference made to appoint permanent liquidator, etc. Order stayed for reasonable time to allow of calling meeting of shareholders. Two days' notice of its renewal may be given by any party having a locus standi.

Single Court.
Before Falconbridge, C.J.
Re McDonald and McNeill—A. S. Baird, K.C., for vendor. W. S. Brewster, K.C., for purchaser. Motion by vendor on report of local master at Brandon for order declaring that purchaser's objection is not valid and that vendor can make good title by possession. Order made.

Davidson v. Thompson—J. T. White, for plaintiff, moved for injunction. W. M. Hall for defendant. S. S. Mills for trustee. Motion enlarged to trial. Both parties to expedite trial. Statement of claim to be delivered in four days, defence in four days after. Trustees' costs to be paid out of fund and balance to be paid into court and trustee dismissed from action.

Re Bell Estate—A. G. F. Lawrence, for executors, moved for order restraining J. D. Montgomery for defendant. E. C. Cattnach for infants. Order declaring it was testator's intention that one-fourth of whole residue should be divided between the children of late Emma Bell in equal shares, that one-fourth should be paid to George Bell and one-fourth to Mary Jane Macdonald. Costs out of estate.

Re William Hill—C. B. Jackson, for husband, moved for order allowing sale of land free from dower. R. H. Greer for wife. On applicant paying wife \$50 and her solicitor's costs, fixed at \$15.

Re Solomon Gage Estate—J. G. Farmer, K.C., for petitioners, moved for order sanctioning sale of settled estate of late E. B. Mills of Hamilton for \$125,000. F. W. Harcourt, K.C., for infants. Order made; \$30,000 cash to be paid into court and mortgage for balance to be given to accountants.

Whibley v. Peterson—R. G. Smythe, for plaintiff, moved for injunction and received. J. G. Smith for defendant. Stands sine die pending settlement.

Andrews v. G. T. R. Co.—H. C. Macklem for plaintiff. E. C. Cattnach for infants. Motion by plaintiff for judgment on consent. Judgment for plaintiff for \$1000; \$250 to be paid to widow and balance into court to credit of infants.

Re Randall and Canada Foundry—W. C. McMaster for Randall, moved for judgment pursuant to consent. E. C. Cattnach for infants. Judgment sanctioning settlement at \$500 and costs. Appointed to widow \$200, to Albert E. Randall \$100, to Bertie Randall \$200. Infants' shares to be paid into court and \$75 per year to be paid out to widow for maintenance.

Letford v. Methewy Mines—McG. Young, K.C., for plaintiff, moved for court's sanction to compromise. R. H. McGowan for defendants. F. W. Harcourt, K.C., for infants. Order confirming settlement between the parties at \$3500. Same proportionate appointment as in original judgment.

Appellate Division.
Before Meredith, C.J.O.; MacLaren, J. A.; Magee, J.A.; Hodgins, J.A.
Merson v. Ontario Sulphur Co.—C. C. Robinson for defendant. Dyment, A. C. McMaster for plaintiff. Appeal by defendant Dyment from judgment of Denton, J., of County of York of Feb. 19, 1913. Action by auditors to recover from appellant, former president of the company, for services alleged to have been performed at defendant's request in making audit of books of company. At trial judgment was awarded plaintiff for amount

BLOCKADE OF GRAIN IS WORSE AT SOO

SAULT STE. MARIE, April 24.—(Special.)—Vessels from the west commenced to arrive at the ship canal in the early hours this morning, and already about 30 have locked thru, mostly loaded with grain. Canals on both sides are busy with down bound craft and the river is full of up bound vessels unable to proceed west. A blockade is feared.

It will take a couple of days at least to move the boats now in the river, and more are arriving each hour from both ways. Considerable ice is coming over the rapids.

YOUTHFUL FIREBUG CONFESSES

OTTAWA, April 24.—(Can. Press.)—Edward Nichol, an Ottawa boy, arrested at noon today by Detective O'Meara of the local police department, pleaded guilty to having set fire on the night of April 2, to the building on Queen street occupied by the Canadian Feather and Mattress Co., Limited, when several valuable horses were burned to death, and considerable loss to building and contents was occasioned.

PRINCESS DROPPED TO EARTH IN AEROPLANE

BERLIN, April 24.—(Can. Press.)—Princess Eugenie Shalofskaya, a certified Russian air pilot, and Vasili Abramovitch, a Russian airman, fell while flying in a biplane at the Johannisthal flying grounds today, and were both injured, Abramovitch very severely, and the princess slightly. Their machine collapsed at a height of 30 feet and dashed to the ground.

Abramovitch in August last made a flight from Berlin to St. Petersburg.

A Constant Change in Body's Tissues

"Our bodies," says Huxley, "may be likened to an eddy in the river, which retains its shape for a while, though every instant each particle of water is changing."

The tissues of the body, composed of millions of tiny cells, are being constantly broken down and wasted away by the process of life, and especially by overwork, worry and disease.

In order to reconstruct these wasted tissues there are necessary such elements as iron, sulphur, magnesia, potash, etc., and when these are not supplied in sufficient quantities in the food we eat, it is necessary to aid nature by the use of some restorative preparation.

Most people find Dr. Chase's Nerve Food

Food particularly effective under such circumstances, because it is composed of the very elements of nature which go to form new, rich blood, create new nerve cells and rebuild wasted tissues.

This great food cure is radically different from medicines which are usually employed in the treatment of nervous diseases. For, while they stimulate tired nerves to overexertion or by narcotic influence soothe and deaden them, Dr. Chase's Nerve Food revitalizes wasted nerve cells and so accomplishes lastingly beneficial results.

Such symptoms as sleeplessness, irritability, headache, indigestion, brain tired and feelings of fatigue and discouragement soon disappear when the system is built up by the use of

W. J. McNAMARA HAS PASSED AWAY

For Many Years He Was Taxing Officer at Osgoode.

WELL-KNOWN LAWYER

Born in Kingston, But Spent Most of His Life in Toronto.

M. J. MacNamara, who for a number of years was taxing officer at Osgoode Hall, died at his home, 45 Elgin avenue, Toronto, yesterday, after a short illness.

Mr. MacNamara was a well known barrister, and for the last twenty-five years had held different positions at Osgoode Hall. He was given his appointment by the late Sir Oliver Mowat, and until the time he entered upon his Osgoode duties he was a very active Liberal.

Born in Kingston 62 years ago, Mr. MacNamara was the son of the late M. J. MacNamara, who was a native of Limerick, Ireland. After graduating at Regiopolis College, Kingston, he studied law with the late Charles O'Reilly, and was called to the bar a few years later. After receiving his call he formed the law firm of MacNamara and Macrow, at Napanee, where he practiced for two years. He then came to Toronto, opened an office at 24 King street east, and a little later became a member of the firm of Jones and MacNamara, Adelaide street.

He is survived by a widow, a son, C. C. MacNamara of Toronto, secretary of the J. F. Hartz Co., and two daughters, Misses Maude and Wilhelmina MacNamara of Toronto.

Mr. MacNamara was a good yachtsman, and was a member of the R. C. Y. Club. He was also a member of St. Basil's Roman Catholic Church. The funeral will be at 9 o'clock on Saturday at St. Michael's cemetery.

VOTED FOUR TO ONE TO RETURN TO WORK

Miners and Textile Workers of Belgium Alone Opposed Course.

BRUSSELS, April 24.—(Can. Press.)—A plenary congress of the Socialist-Labor party voted today for an immediate resumption of work by the strikers, the vote being four to one in favor of a peaceful settlement.

Mr. Vandervort, the Socialist leader, in a long speech carefully explained the important advantage gained by the vote in the chamber of deputies, which would be the result of the revision of the constitution desired by all workers.

Other leaders followed in the same vein, urging peace and declaring that the strike had accomplished all that could be hoped for.

Delegates of miners opposed the settlement, as did the textile workers, who declared their unions did not consider that enough had been gained. The congress, however, after a five hours session, formally called off the strike, at the same time continuing the special committee on the general strike and universal suffrage.

After adjournment the delegates notified their various districts of their decision. The action of the congress seemed to be generally accepted with favor, but the miners may refuse to work for a time. It is expected that the resumption will be quite general tomorrow.

FRATERNAL SOCIETIES MUST RAISE RATES

Definite Action Will Be Taken at Convention Now Being Held.

"The fraternal societies of Ontario will in the future find it necessary to raise their rates. They should do so as soon as possible, and not wait until the doing of this would put a hardship on the older policy holders."

At the opening session in the Temple Building yesterday afternoon of the 22d annual convention of the Canadian Fraternal Association, W. J. Vale, registrar of the Friendly Societies of the Province of Ontario, in saying the above, brought to the fore a question which will be thoroughly gone into before the conclusion of the convention. He did so in the course of an address in which he outlined the benefits which would accrue from the recent amendments in the Insurance Act, secured at today's session of the convention. A special committee under the chairmanship of J. A. Paterson, K.C., will, at today's session of the convention, report on the advisability of having a uniform bill for the regulation and control of fraternal benefit societies. It is expected that this report will result in something definite being decided in the matter.

A special committee under the chairmanship of J. A. Paterson, K.C., will, at today's session of the convention, report on the advisability of having a uniform bill for the regulation and control of fraternal benefit societies. It is expected that this report will result in something definite being decided in the matter.

FRATERNAL SOCIETIES MUST RAISE RATES

Definite Action Will Be Taken at Convention Now Being Held.

"The fraternal societies of Ontario will in the future find it necessary to raise their rates. They should do so as soon as possible, and not wait until the doing of this would put a hardship on the older policy holders."

At the opening session in the Temple Building yesterday afternoon of the 22d annual convention of the Canadian Fraternal Association, W. J. Vale, registrar of the Friendly Societies of the Province of Ontario, in saying the above, brought to the fore a question which will be thoroughly gone into before the conclusion of the convention. THE VARSITY LACROSSE TRIP

Varsity Players Working Out For Games Next Month Across the Line.

The Varsity lacrosse team are practicing hard for their trip to the States at the end of next month and the boys are rapidly getting into shape. Yesterday afternoon on the back campus over 20 players were in uniform and they put in a rattling good practice for about an hour. The team will leave May 25 and will play their first game with Harvard College at Geneva, New York, on some day in the first week of June they will play the Crescent A.C. of New York and will meet Harvard, Johns Hopkins and wired yesterday that they had a date late for the Varsity boys, but that is too late for a very extended one, as most of the American college teams will have closed their season when the Queen City boys will have arrived there, but they make a complete circuit of all the Yankee colleges.

Hints are of no avail, but surely it is time, when the amateurs get down to work that the professional teams whom the good public will hand over their filthy lucre to see perform, began to take some of these over-water kinks out and get those mid-regions down to their natal sizes. Hurry up and get the spring fever.

St. Simons' Athletics will practice tomorrow on the Don Flats and they expect all last year's players and any new ones who wish to join to be on hand.

A split seems eminent in Winnipeg lacrosse. The Newwoods, Canadian Northern and the Young Conservatives of the senior series of the Winnipeg A.L. are contemplating breaking away and starting a league to handle the seniors. At the annual meeting of the association this afternoon the association was notified and the affiliation with the new amateur lacrosse body was also taken up, but no steps were made either way.

The outlying districts in Manitoba are forming a new league for the winter season and a new league has been formed by the following towns: Rapid City, Neepawa and Minnedosa.

The Young Toronto will practice at Scarborough, Ontario, on Saturday. All the players are requested to be on hand.

Riverdale will hold their first practice of the season on Saturday on the Don Flats.

A new French lacrosse team to be known as Le Canadian, are seeking admission to the National Lacrosse Union. The team will represent St. Henry and St. Cuneogone, and as there will be one team in the Union, their application will probably be approved.

Mr. Peter Murphy, the honorary president of the N.L.U., announces that there will be a meeting of the union held during the first week in June at the headquarters of the new clubs will be considered and details of the drawing up of the schedule arranged.

Skinner Poulin and Bobby Rowe, who played hockey with the Varsity last winter, are expected to play with the Varsity lacrosse team this year.

The Preston Lacrosse Club are open to play an exhibition game on May 24 with a junior team. The game will be held at the home of W. Halberstadt, secretary, Box 242.

MEAFORD, Ont., April 24.—An enthusiastic meeting was held last night for the purpose of organizing a lacrosse club. The following officers were appointed: Hon. president, E. Kent; president, W. C. Wilson; vice-president, Col. H. R. Cleland; secretary-treasurer, M. D. Jack; manager, W. J. McCracken; captain, Chet Gibbons; managing committee, J. Christian, D. Butchart and Dr. Loucks.

BRANTFORD, April 24.—(Special).—The first meeting of the Brantford Lacrosse Club was held last night. The club practice had been held. It will be difficult to cut down the staff to the limit. Catchers are being sought for the club. The executive will hold a meeting next Wednesday night, April 30, at 22 College street, room 204, to receive applications from leagues wishing to join the association. It is desired that all leagues have a complete list of players and their addresses for the meeting. The secretary's address, 47 Westminister avenue, Phone Park 3598.

The Toronto Railway ball team will play a game with the Cowan, Ltd., Co. at 2:30 p.m. at Willowdale Park on Saturday afternoon, April 26. All players are requested to be there early.

An important meeting will be held at the Evangelia Club rooms on Friday at 8:30 p.m. of the senior baseball team. All players and any new men are requested to be on hand.

The Victorias of West Toronto would like to arrange a game for Saturday afternoon with some senior team. Cardinals are preferred. Telephone Junction 607.

Hon. J. J. Foy will pitch the first ball at the opening of the Northern Senior Baseball League on Saturday next, 26th April, at 2:30 p.m. in Ketchum Park. Claude Macdonald, K.C. M.P., will bat. Eddie Owens, M.L.A., will don the mask. Both boys will umpire. Come along and see some good ball. No charge. Teams: Capitals v. St. Francis, Baracas v. Strollers.

St. Marys will practice tonight at Riverdale at 8 o'clock. Players are requested to be on hand.

The Gale Baseball Club play Wychwood an exhibition game on Saturday afternoon at the Willowdale Park, North of Bloor street, and all players are requested to be out at 2:30.

The Claremonts of the West Toronto Lacrosse League wish to notify their many followers that they have changed their name to the Parkdale A.C.

The St. Francis team of the Northern Senior League will practice tonight at the east side of Bellwoods Park.

The Strollers will practice Friday evening.

We Are Ready to Supply You With Auto or Driving Gloves

Time was, when gloves for this purpose were for hand protection only. They could make no claim to shapeliness or wearing comfort, and to wear them was more or less of a hardship. VIVIAN NICOLLS TO COACH YANKEE SCULLERS

Great English Rowing Expert in New York Will Go to Detroit—Discusses Yale-Harvard Race.

NEW YORK, April 24.—Vivian Nicolls, the great English rowing coach, arrived today on the Oceanic. He is here to give Americans some new notions on rowing and incidentally he is going to coach the Detroit crew.

Discussing Yale-Harvard race he said: "I have talked with Harcourt Gold, the famous Oxford coach, who is going to coach the Yale crew this year. He is a great friend of mine and he asked me what I thought he could do. I told him that it would take him more than six weeks to work a Yale crew into shape, and if he could make them winners in that time he would be a marvel and the best coach of modern times.

Harcourt Gold is coming over to Yale absolutely at his own expense, no salary item being paid by Yale. Kirby is also coming over as assistant coach at his own expense. His coaching has been of great effect in backing up Gold, who is the greatest amateur coach in England at the present day.

"I think that American universities are at present in a position to receive amateur coaching. The difference in conditions between England and America is so apparent that it is impossible for them to carry out each other's methods."

CANADIAN LAWN TENNIS MEETING

The annual meeting of the Canadian Lawn Tennis Association takes place this evening at the Queen's Hotel for the election of officers and receiving reports. The visit of the Canadian team to England to compete in the Davis Cup will also be discussed.

JUNIOR HARRIERS' MILE RUN

West End junior harriders' mile run results are as follows: 1, S. Brown, (scr.); 4.59; 2, G. Osborne, (20 secs.), 5.20; 4, A. Lynch, (25 secs.), 5.25.

SPORTING NOTES.

The five Riverdale boys who won Canadian championships in the boxing tournament, closed, will go to Boston May 8 to compete in the United States championships.

At Indianapolis Ray Bronson of Indianapolis received a popular decision over Hilliard Lang, the Canadian waterweight, after ten rounds of fast fighting. At no time during the bout did Lang show to advantage, while the sixth and seventh were Bronson's by a large margin. In the tenth Lang saved himself by hanging on.

Hamilton pro. soccer teams claim to have secured grounds for their league matches. In this city they are still looking for a field.

Jim Flynn, the Pueblo fireman, who was a principal in the farce at Riverdale that resulted in the closing of box boxing in Toronto, is a visitor in the city, a guest at the King George Hotel. He says he is taking a rest.

Cy Morgan, formerly pitcher for the Philadelphia Athletics, pitched and won his first game for Kansas City of the American Association, recently. He was sold to the Blues by the Athletics last summer, but declined to go to the minors. Instead, he pitched semi-professional around Philadelphia. Now he has seen light. For this Kansas City is dead and seven other American Association teams worry for Cy has a good deal of hurling ability still concealed in his system.

SWIMMING GALA.

Intending competitors are reminded that the entries for the Toronto Swimming Club's gala of May 8, close on Monday next, April 28. The following open events are to take place: 20 yards handicap; open diving competition; George Hodgson, the Olympic champion, and Frank McGill are in the form, judging by the way they cleaned up the championships in Montreal last Saturday. Miss Mary Beaton's exhibition of graceful and scientific swimming is also sure to be well worth seeing.

Entries are coming in well and applications for tickets are also satisfactory.

THREE LEAGUES STAY OUTSIDE AMATEUR BASEBALL ASSOCIATION

Organization Is Completed and Officers Elected at General Meeting When Twelve Leagues Were Represented.

Toronto is now thoroughly organized as regards amateur baseball. Every league has caught the bug and the bug has caught the league. The leagues to stay outside, which is their privilege, are the Beaches, City Amateur and Northern Senior. The new body is the Toronto Amateur Baseball Association, which was formed last night, the following officers being elected: President, R. N. Brydon, Toronto Senior League; vice-president, F. M. Kennedy, Don Valley League; secretary-treasurer, A. J. Walsh, Civil Service League; executive, J. R. Richards, A. P. Gow, G. C. Walker and W. J. Smith. The enthusiastic shown by the delegates of 12 leagues present, augurs well for amateur baseball in Toronto this season. The executive will hold a meeting next Wednesday night, April 30, at 22 College street, room 204, to receive applications from leagues wishing to join the association. It is desired that all leagues have a complete list of players and their addresses for the meeting. The secretary's address, 47 Westminister avenue, Phone Park 3598.

The Toronto Railway ball team will play a game with the Cowan, Ltd., Co. at 2:30 p.m. at Willowdale Park on Saturday afternoon, April 26. All players are requested to be there early.

MISS WILKS LOSES VALUABLE STANDARD BRED SHOW FILLY.

GALT, April 24.—Paronella Todd, 3-year-old standard bred of the Wilks' string, died this morning at the Royal Hotel barn from a cold contracted through exposure following the burning of the Wilks' stables some time ago. Paronella Todd was sired by Kentucky Todd, premier stallion of the Crutcheon Park, now in Kentucky. As yearling she did a mile in 2:24, and promised to be a winner on the track. She was a beautiful steel grey, clean cut and one of the most valuable standard bred in America. At the sale through the country she had never been beaten.

CRICKET GAMES WANTED.

St. Edmund's Cricket Club would like to arrange games on May 10 away, May 17 at home, July 26 away. Phone Geo. E. Jones, Main 2422.

CANADIAN INDIANS.

On Saturday the Tribe will journey to Hamilton to shoot a match with the Hamilton Gun Club. The Tribe will give the trophy for trophies for competition. Two for high guns and one for the long run. Every member is requested to be present as this will be the last of their matches before the big tournament and pow-wow. The Toronto chiefs will leave on the C. P. R. at 1:15 p.m., and will have a special car.

THE HORSE SHOW.

The King Edward Hotel Cup, which is one of the features at the Horse Show, which will be held at the Armoures next week, has a larger entry than last year, with his Honor Lieutenant-Governor D. C. Cameron of Manitoba, Miss Van of Montreal, Mr. Yeaser of Simcoe, Crows and Murray and Cumberland stables of Toronto being regulars. The program of events will be mailed to the exhibitors tomorrow, and it is likely that owing to there being 75 entries in class 42 that this jumping class will be put on as an extra performance on Wednesday morning.

MINERS ARE MUTINOUS.

MONS, Belgium, April 24.—(Can. Press).—The miners are profoundly dissatisfied at the outcome of the strike and say they will not return to work until they are granted universal suffrage, even if they have to remain idle for six months. Numerous clashes have occurred between the miners and union officials and party leaders. The workers in the Borignone district say that they will demand an increase in wages, so that it cannot be said that they struck for nothing. The high feeling will probably simmer down and that work will be resumed by Monday is the general impression.

Clothes all ready at the "try-on" stage, enabling you to select your exact style and pattern before you are expected to purchase.

A positive advantage over choosing your style from a fashion plate and your material from the web.

If the suit doesn't fit, you don't have to take it—because you judge the finished suit before you buy it.

On account of the quantity sold, prices are cheaper than the old style custom tailor's.

**TORONTO MARKET
REQUIRES A TONIC**
Lack of Public Interest in the Speculation Is Plainly Apparent.

PRICES SAGGING AGAIN
General List at New Low For Week—No Initiative Is Shown.

With speculative interest at its present low level the Toronto Stock Exchange seems to need some perennial tonic to keep it in good health and spirits. The recent movement in "Ralls" and the boom in certain of the specialties served to incite some initiative into the dealings for a few days but now that these have passed into history the market has drifted back into the rut of apathetic trading. As usual, the death of activity has inspired an easier feeling, and the list has dipped toward lower levels again.

On the afternoon board yesterday only seven stocks were dealt in, and in four of those the total transactions amounted to less than 100 shares, to surer earnest of the dearth of speculative enthusiasm could be adduced than that record. Meanwhile, half a dozen of the prominent securities which generally act as leaders dropped to lower prices, quotations seemingly sagging in evidence, and, of course, such declines did not stimulate.

Toronto Railway Down Again.

Another relapse in Toronto Railway, which dropped to a new low for the week at 148, a full 5½ points under the recent record, and a drop of well on to its lowest in two weeks, were the leading features of the day. Weakness, also shown by such issues as Dominion Canners, Twin City, Bread, St. Lawrence Navigation, General Electric and Macdonald, all of which showed losses at some period during the session. That all declines were small and that the volume was due to the scant offering in the market, Toronto Paper and St. Lawrence, the recent leaders among the specialties, did not vary much. The former moved up again to 10½ and St. Lawrence to 107, but the latter, which had been at 25 as a new low record in its history, Dominion Iron responded to a heavy drop in a period of 1½ in the dividend by selling off to 50½.

Interlake preferred and City Dairy were the only strong spots, and, of course, the latter, which had been at 97, with no bids in evidence, but the incident was in reality not significant.

**NO CHANGE MADE IN
BANK OF ENGLAND RATE**
Old Lady of Threadneedle Street Makes Favorable Weekly Statement.

LONDON, April 25.—The Bank of England minimum discount rate was unchanged at 4½ per cent. today. The weekly statement, which made a highly favorable showing, another increase in the reserves being reported, follows:

Total reserve, increased £238,000.
Circulation, decreased £8,000.
Bullion increased £231,186.
Other securities, decreased £1,538,000.
Other deposits, decreased £1,250,000.
Public deposits, decreased £145,000.
Notes reserve, increased £301,000.
Government securities, decreased £153,000.

The proportion of the bank's reserve to liability this week is 48.58 per cent., against 47.93 per cent. last week.

**BRAZILIAN EARNINGS
SHOWING UP WELL**
Brazilian Traction gross earnings continue to hover between \$460,000 and \$460,000, those for the week April 15th, as received by cable yesterday, amounting to \$467,790, which compares with \$378,327 in the same week last year, an increase of \$78,563, or about 20 per cent. The record is as follows:

April 15	467,790
April 12	459,170
April 5	459,808
March 29	456,215
March 22	449,689
March 15	450,632
March 8	449,690
March 1	463,830
February 22	432,486
February 15	429,859
February 8	462,114

**C. N. R. EARNINGS
SHOW FINE GAINS**
Canadian Northern earnings continue to make a favorable record, the March report showing up as follows:

1913	1912	Increase	
Gross	\$1,655,900	\$1,572,700	\$113,200
Expenses	1,252,400	1,145,900	106,500
Net	403,500	426,800	4,700

From July 1st to March 31st the record is:

1913	1912	Increase	
Gross	\$16,877,500	\$14,338,500	\$2,439,000
Expenses	12,547,700	10,597,700	1,950,000
Net	4,329,800	3,740,800	589,000

The average mileage in operation, increases from 3,222 to 4,297 in the fiscal year to date, and from 3381 to 4297 during March.

**DECREASE SHOWN IN
GROSS EARNINGS**
While gross earnings of the Porto Rico Railway Co. during the month of March fell below the previous year, the net was increased owing to smaller operating charges. For the three months and net are below the corresponding period of 1912. Details follow:

For March—	1912	1913	Increase
Gross	\$75,368.25	\$75,204.08	\$164.17
Net	33,634.98	36,117.04	2,482.06

For three months—

Gross	\$222,328.91	\$219,883.90	\$2,445.01
Net	105,609.13	102,150.85	3,458.28

"Decrease."

**RAILROADS ARE
IN TROUBLE AGAIN**
Erickson Perkins & Co. (J. G. Beatty) wired that expenses caused by concessions to the total increase for all roads will not figure out much over \$3,000,000. The point of the matter is that it compels further increases to satisfy the remaining employees. In the aggregate, beginning with the increase allowed the engineers, it means a large addition to expenses. Much of to-day's selling was probably based on apprehension.

MONTREAL AUTOBUS CO.
MONTREAL, April 24.—The Montreal Auto Bus Company has secured a Dominion charter. It will have a capitalization of \$10,000,000, of which \$1,000,000 will be subscribed in London, and \$9,000,000 in Montreal. Its charter members are all well-known Montreal capitalists.

**BANKING PROGRESS
IN THE GREAT WEST**
Extension of Branch Banks in Prairie Provinces—Vital Statistics of National.

A remarkable indication of the growth of the Canadian Northwest during the last decade is afforded in the comparison which may be made of the banking facilities. Figures showing the number of branch offices maintained by the banks might almost be called the vital statistics of the nation, since they evidence as possibly nothing else could the increased importance of the provinces from a financial standpoint.

The figures show that whereas in 1901 there were only 71 branch banks in the prairie provinces, there were at the end of the year no less than 325. The following shows the yearly record of branches in each province:

Year	Bank	Alb.	Total
1901	52	71
1902	53	72
1903	54	73
1904	55	74
1905	56	75
1906	57	76
1907	58	77
1908	59	78
1909	60	79
1910	61	80
1911	62	81
1912	63	82
1913	64	83

It is to be noted that the greatest progress in banking in the west has been made in the last few years.

**BANK CLEARINGS
ARE ABOUT STEADY**
But Record For Week Is Below Recent Exhibits—Figures of Dominion.

Bank clearings in Toronto are reflecting the slight reaction in trade activity which is being experienced in general throughout the Dominion. The total for the week ended today was \$40,662,511, a decrease of \$1,200,000 from the week ending April 22, and a decrease of \$1,500,000 from the week ending April 15, but an increase of \$1,000,000 from the week ending April 8. Last year's amount was \$38,000,000, a decrease of \$2,662,511 from the week ending today, but an increase of \$1,000,000 from the week ending April 8.

WINNIPEG, April 24.—Bank clearings for week ended today \$28,417,961, as compared with \$26,493,176 for the corresponding week last year.

OTTAWA, April 24.—Bank clearings for week ended today \$3,689,659, as compared with \$3,400,000 for the corresponding week last year.

**C. P. R. LOWER IN
MONTREAL MARKET**
And Whole List Assumes Weaker Tone—Stocks Not Pressed For Sale.

MONTREAL, April 24.—The hesitating tone of the market gave way today to a weaker feeling and the market closed heavy around the low prices of the day. The decline was led by C. P. R. and, apart from this issue, which broke 3½ points below closing price of Wednesday, Toronto Railway, which declined 2 points, and Laurier, which broke 1½ points, were the only pronounced movements in the market.

The incentive to trading which the market has been looking for all week came from London early in the day, where a weaker feeling prevailed in the latest phase in the Balkan complications. The weakness, as usual, was quickly reflected in C. P. R. The European liquidation continued weakness in the stock thru the week, and the decline was 4½ points, with the close at the lowest of the day.

FOURTH MONTHLY REPORT ON COTTONS.—Cottons touched a new high of 82 before demand opened. Cottons common fell back ½ to 4½. Textile held steady. Cottons pressed for spinning and demand opened. Cottons common fell back ½ to 4½. Textile held steady. Cottons pressed for spinning and demand opened.

**POOR DEMAND FOR
CANADIAN LOANS**
New Issues Meet Bad Reception in London—Better Time Coming.

LONDON, April 24.—Good financial authorities see signs that the worst is over in the markets. "There is," says the London Standard, "a marked improvement in the market, and the time is coming when the market will be in a position to receive new issues of Canadian loans."

The result of the Grand Trunk Pacific and the Maitsonne issue prove, however, that the market is not yet recovered. Underwriters are saddled with 80 per cent. of the former and 50 per cent. of the latter, although Maitsonne offered 5 per cent.

RECORD CROP IN KANSAS EXPECTED

Brilliant Prospects Cause Further Weakness—Uneasiness Over European Situation.

CHICAGO, April 24.—Wheat weakened today on a bearish Kansas crop report. Final prices showed a net decline of 1/4 to 1/2 cts. Corn closed lower to 1/4 cts. and provisions made a net gain of 10c to 80c.

Not more than 5 per cent. of the wheat acreage in Kansas will be abandoned, according to the report of the state board of agriculture. The general condition is placed at \$8.50, which is 8.38 points ahead of the year ago. The condition is more than 1,000,000 greater acreage is more than 1,000,000 greater.

Barren accidents this indicates the largest crop of wheat in Kansas history. Except his report has been made public an upturn had been given the market by the Kansas crop report.

The Kansas crop statement. The market showed some nervousness at times, but it was not confirmed and prices were held steady.

Corn and Oats Depressed.

Corn and oats were depressed during the entire session. Some little uplift came on an improved eastern demand, but it was only temporary. Expectation of increased receipts militated against value.

Light runs of hogs here and in the west are influencing provision prices. There was a good demand, especially for lard.

CATTLE MARKET EXHAUSTIVELY DULL

Hogs, Sheep and Lambs Firm—Calf Prices Easier.

WANT HARKER RELEASED.

A largely signed petition is being circulated in Oakville, asking for the release from Kingston Penitentiary of Cecil Harker. He is the 19-year-old son of George Harker, the Oakville resident who was killed by touching a crossed electric light wire last week. Harker was sentenced to three and a half years in Kingston Penitentiary about six months ago, on a theft charge. The petition asking for his release is being circulated in view of the fact that his father's death makes him the sole support of his mother and six young children.

CANADIAN INSTITUTE.

Mr. Frank B. Taylor of Fort Wayne, Ind., will lecture before the Institute on Saturday, April 26, at 8 p.m., on "Moraline and Glacial Action in Ontario." This is one of the most important lectures of the series, and as Mr. Taylor has spent several summers studying these conditions in our midst, it will be most interesting. The public are cordially invited to be present.

P. E. I. WILL ADMIT AUTO.

CHARLOTTETOWN, P. E. I., April 24.—(Can. Press.)—The provincial legislature of Prince Edward Island today passed a bill to allow automobiles to enter the province. The measure will now be submitted to the people in the form of a referendum. The legislature was prorogued this afternoon.

The Man and His Tailor

The average man does not have to take the time to learn the new points of style in clothing. Aside from choosing color and weave for his suit or coat he has no part in the making of his clothing.

It's "up to" his tailor, and upon the chance of his tailor's knowing what is latest and best depends the effect of the average man's spring outfit.

Our Ready-to-Wear Clothing has the advantage of being the product of designers whose whole time is devoted to producing what is absolutely the latest and best in the season's modes. Correct coat length, proper curve of front, height of vest, roll of lapel, width of collar, position of pockets, and all the other undefinable variations are faithfully followed, and the effect of style, the smartness and tailor-made ensemble is certain and sure.

You can judge of materials, can please yourself in color and general design—the rest is taken care of perfectly by our ready-to-wear garments.
