## C.P.R. Prepares to Absorb Rival Lines—Panama Tolls Question Revived—Toronto Street Car Accident Controller Foster Refused \$25 a Foot for Property Assessed at 50 Cents

### SLIPPERY RAILS CAUSED BAD ACCIDENT

Street Car Struck a Hack in the Ward, Throwing Wm. Lodge and Harry Morrison to the Pavement, and Both Are in Critical Condition.

Two men were seriously, one perhaps fatally, injured, in an accident at the corner of Agnes and Elizabeth streets at 9 o'clock last evening, when westbound Dundas street car No. 1230 struck a hack belonging to Doane's Livery, cutting it in two, throwing the horses from their feet and hurling the two men from their seats on top almost across the roadway.

William Lodge, 25 Price street, and Harry Morrison, a roomer at the corner of St. Mary and Yonge streets, both employees of the livery stable, are injured, and at the General Hospital last evening it was stated that Lodge is suffering from serious internal injuries, but so far no broken bones have been found, while Morrison has a very deep cut over the left eye, and may also have a fractured skull. Both are in a critical condition.

According to eye-witnesses, the car was travelling at a medium rate of speed, but it seemed that the wheels slipped on the greasy rails when the brakes were applied by Motorman Joseph Smithurst (\$86). The driver of the hack failed to notice the approach of the car until it was almost upon him, when he just failed to evade it, and the hack was struck in the middle. After being thrown the horses bolted down Teraulay street, but were captured before they could do further damage. They were practically unharmed, but the hack lies a total wreck at the corner of Agnes and Teraulay.

### WILL SUSPEND DUTY ON UNLEAVENED BREAD

Government Makes Concession to Canadian Hebrews for Pass-over Season.

OTTAWA, Dec. 23.—(Special.)—An order-in-council has been passed allowing Passover bread and matzo to come into Canada free of duty between March 11 and April 12. The minister of customs was asked by a number of leading Canadian Hebrews to make this concession.

### NEED FEDERAL LAW IN REGARD TO BANKRUPTCY

Hon. Mr. Doherty Promises to Take up Question With Cabinet.

MONTREAL, Dec. 23.—(Can. Press.)—A federal bankruptcy act would be a desirable innovation in Canada, is the opinion expressed by Hon. C. J. Doherty, minister of justice, in a communication to the Builders' Exchange of Montreal, received today. This opinion comes as a result of a resolution adopted by the exchange in November, which pointed out the hardships worked on the manufacturer or wholesaler who distributed goods over the whole Dominion. The present system is for each province to do its own legislating with regard to bankruptcy, and as a result the business man having connections through Canada is compelled to be acquainted with the provisions of many different acts. Hon. Mr. Doherty promised to lay the matter before his colleagues, and added: "Personally, I am of the opinion that such a law, provided its provisions be carefully considered, and adapted to the needs of the country, would be highly desirable."

### "FORECAST" ON N. T. R. IS GIVEN LITTLE CREDENCE

Report Says Forty-Four Million Dollars Has Been Wasted.

OTTAWA, Dec. 23.—(Special.)—Little credence is given here to the story published in a local paper to-night purporting to be an accurate forecast of the report of the commission which investigated the N.T.R. finances. It was alleged that the report would show that the road had cost the country \$49,000,000 more than it should have done.

### ADOPTED CHILD DENIED ADMISSION INTO STATES

Immigration Authorities Refuse on Ground of Illegitimacy—Appeal to Washington.

SARNIA, Dec. 23.—The adopted child of Mrs. Fay Sampier, of Algona, Mich., is being held at Sarnia, the United States immigration officials having for the third time refused to allow the child to be taken into the States. The matter has been appealed by Mrs. Sampier's attorney to the department at Washington. The child is the offspring of a girl Mrs. Sampier befriended, and is illegitimate. Some time ago when Mrs. Sampier paid a visit to Sarnia she brought the little foundling with her. When she returned to Port Huron the immigration inspectors there refused to allow her to take in the child on the grounds of its illegitimacy.

### C.P.R. TO ACQUIRE RIVAL LINES IN CANADA?

London Standard Says Principal Interests Concerned Are Already Taking Counsel Whereby One or More Railway Groups Will Be Eliminated, Ensuring C. P. R.'s Supremacy.

LONDON, Dec. 23.—(C. A. P.)—The Canadian railway market, which has provided a number of surprises during the year now closing, has in store for the early part of 1914, says "The Standard," further developments of a character hardly suspected at present. The construction of trunk lines in the Dominion during recent years has brought about a far-reaching and fundamental alteration in the balance of power in the Canadian railway world, and the principal interests concerned are already taking counsel among themselves with a view to maintaining the status quo. This can be achieved only by concentration of administration, which would eliminate one or other of the groups at present existent.

The Canadian Pacific Board is anxious that the opening up of the Dominion to modern transportation facilities shall be in conformity with its plans, and not in opposition to them. The probability is, therefore, that eventually the Canadian Pacific Railway may not only run from ocean to ocean, but extend its operations in other directions.

### CHEAPER TO BUY RAILWAY NOW THAN TO PAY EIGHT YEARS' RENT

The Telegram wants the railway company to get \$72,000,000 from the people of Toronto, and nothing back. By doing so, it would advance Mayor Hocken a discount of \$11,500,000, a clean-up of the electric franchises, complete control of the city streets, abolition of double fares, and as good a service as the city desires to give, with extensions to every part of the city. The Telegram does not want the people even to know whether they purchase or not. Instead of paying rent, we make a payment down and take over the property. This is the whole principle and plan. Seven aldermen and three controllers do not understand it yet. Will the people pay \$72,000,000 and get nothing back, or will they make the advance payment of \$30,000,000 and get the rebate?

### COURT OFFICIAL DIED YESTERDAY

H. Robertson, K.C., Assistant Registrar of Court of Appeal, Had Suffered Long Illness.

Henry H. Robertson, K.C., assistant registrar of the court of appeal, Osgood Hall, died yesterday at his home, 103 Highland avenue, following a long period of ill-health. Since June last Mr. Robertson has been unable to continue his court duties and he traveled in Europe during the summer months. Bronchitis was the nature of his malady. On Monday pneumonia set in and death followed quickly.

H. H. Robertson was the son of Justice Robertson, and was born in Hamilton 53 years ago. After being called to the bar he practised law for many years in his home city, and was appointed special examiner in the high court. Four years ago he came to Toronto to accept the assistant registrarship of the court of appeal. His wife alone survives him. The funeral will take place Friday morning at Hamilton following a private service at the house at 11.30 a.m. The late king's counsel was deeply interested in early Canadian history and had made an exhaustive study of many original documents.

"Milestones" a Christmas Present. No better dramatic attraction could be offered the patrons of the theatre in this city than "Milestones," now playing at the Princess, especially during the festive season. In fact "Milestones" is a Xmas present of real value.

### OBJECT TO WITHDRAWAL OF TROOPS FROM CHINA

U. S. Administration Believe Vigilance is Still Needed in New Republic.

WASHINGTON, Dec. 23.—(Can. Press.)—The proposal to withdraw the international forces from China has at no time met with favor among officials here. When Minister Reisch recently conveyed to the state department the results of his withdrawal of troops, officials took the ground that absolute assurance of the maintenance of order in China Province would be the condition of acquiescence. No such assurance, however, has been forthcoming and, on the contrary, officials observe with some apprehension recent uprisings and plottings against Yuan Kai's government.

### G. T. P. TO BE LINKED UP BY END OF NEXT MAY

Vice-President Donaldson Makes Optimistic Prediction at Prince George.

VANCOUVER, Dec. 23.—(Can. Press.)—"We expect to have steel laid for the early part of 1914, and the track linked up right across the continent before the end of next May," announced Mr. Morley Donaldson, vice-president of the G. T. P., who arrived this morning, en route to the north to conduct an inspection of the line from the Prince Rupert end. "We believe that the new Transcontinental Railway will be ready for operation of thru trains early in 1915," said Mr. Donaldson.

### ONE PER CENT. ADVANCE IN CARGEE CHARGES

Decision Reached at Conference With Railroads at Montreal.

MONTREAL, Dec. 23.—(Can. Press.)—The existing cartage arrangements in connection with the despatch of freight by the railroad companies will continue in force, but with an increase over the present rates of one per cent. The decision to make this change was definitely decided upon at a meeting of representatives of the railroads and cartage companies held today.

### TOLLS MAY BE LEVIED UPON ALL SHIPS

Resolution in Congress Asks That Free Passage of U.S. Vessels Thru Panama Canal Be Deferred Until Proof Given Other Shipping Can Pay Expenses.

WASHINGTON, Dec. 23.—(Can. Press.)—A joint resolution to conditionally suspend the operation of the provision of the Panama Canal Act granting free passage to American coastwise vessels, was introduced today by Chairman Adanson of George, on the house commerce committee.

The suspension would be subject to the following conditions: "At any time after the Panama Canal shall have been opened and successfully operated for two years, if, in the judgment of the president, the revenues derived from tolls of vessels other than those engaged in the coastwise trade of the United States, shall be sufficient to defray the cost of maintaining and operating the canal, and the expense of government and sanitation of the canal zone, and all diplomatic questions touching the treatment of vessels as to conditions or charges of traffic at the canal shall have been adjusted." (Continued on Page 7, Column 1.)

### WILSON SIGNED CURRENCY BILL

President, in Affixing Signature, Spoke Informally Amid Outbursts of Applause.

WASHINGTON, Dec. 23.—(Can. Press.)—In the presence of his cabinet members, a number of senators and representatives and others, President Wilson at 6:01 p.m. today signed the Glass-Steagall currency bill.

With a few strokes of the pen the president converted, into law the measure to be known as the Federal Reserve Act, reorganizing the nation's banking and currency system and furnishing in the words of the president "the machinery for free and elastic and uncontrolled credit, put at the disposal of the merchants and manufacturers of the country for the first time in fifty years."

An enthusiastic applause ran thru the ceremony, not only as the president affixed his signature, but as he delivered an extemporaneous speech characterizing the desire of the administration to take common counsel with the business men of the country and the latter's efforts to meet the government's advances as the "constitution of peace."

### BANKS FALL INTO LINE

WASHINGTON, Dec. 23.—(Can. Press.)—Banks in several of the large cities today telegraphed Secretary McAdoo their applications for membership in the new federal banking system. Two national banks in New York, the first from that city, applied and St. Louis, Cleveland, Denver, Seattle and Philadelphia all came along with one or more applications. Three trust companies, one in St. Louis, one in Baltimore and one in Washington applied. The clearing-house associations of Kansas City, Mo., and Atlanta, Ga., expressed approval of the law and their intention to recommend to member banks the desirability of entering the new system.

### NOVEL PROPOSITION BY LONDON, ONT., BARRISTER

Says That Journalists Writing on Public Matters Should Be Elected by People.

LONDON, Ont., Dec. 23.—J. M. McEvoy, a prominent London barrister, is the father of a scheme that is taken with much seriousness in local quarters, by which he proposes to enable the people to govern those who would mold their opinions—newspaper men. Mr. McEvoy, who has taken no little interest in Liberal politics, and who has been a candidate for both provincial and Dominion honors, declares that practically all legislative bodies, Dominion, provincial and municipal, are governed in their actions by expressions of the press. Legislators, in other words, follow the dictates of the newspapers.

### RAN OVER A WOMAN THEN WHIPPED HORSE

Police Are Looking for Driver Who Did Not Stop After Accident.

While crossing the corner of Agnes and Teraulay streets yesterday afternoon at 6 o'clock, Mrs. Alice Edmunds of 28 Alice street, was struck by a delivery wagon and hurled to the roadway. The hind wheel just missed crushing the woman's head; so close was her escape that the left ear, run over by the front-rimmed wheel, will have to be amputated at the General Hospital, where she was conveyed.

Instead of ascertaining the woman's injuries, the driver whipped up his horses along down Teraulay street, and so far his name has not been learned by the police.

### RANCHERS OF ALBERTA WANT LEASING SYSTEM

Conference Held to Meet Opposition to Those Who Dissent.

MEDICINE HAT, Alta., Dec. 23.—(Can. Press.)—The ranchers of the southern part of the province are holding an important meeting here for the purpose of preventing the opposition in the government to the recent report of the ranching committee regarding the continuation of the leasing system. The commission reported favorably on granting leases on ranches which occupied government lands, but it has later developed that there is considerable opposition to the report and its adoption. About 40 ranchers from various parts of the province, some from western Saskatchewan, are in the city attending the convention.

### A FINE WATCHDOG!

The cold raw fact about Controller Foster is that he has hundreds of feet of land in the city assessed at fifty cents a foot for which he has refused \$25 a foot. No one else in the city has this treatment. Why? Who was watching the watchdog?

### GIFT FURS MUST BE BOUGHT TODAY.

The inclement nature of the weather yesterday prevented many from making their purchase of furs for Christmas. For that reason there is certain to be a considerable press of business at Dineen's, 150 Yonge street, and the advisability of an early visit is obvious. The reliable nature and exquisite designs of the furs sold at this old established house make the days before Christmas conspicuously busy, and now, on the eve of the illustrious day, the store resources are likely to be terribly taxed during the afternoon. Dineen's is open tonight for the convenience of late shoppers.

Success of Canadian Invention. LONDON, Dec. 23.—The London & Southwestern are installing Practice Wireless Train Control on their railway. The device is an arrival at after exhaustive tests witnessed by the chief officers of many railway systems. The adoption of this protection will not only give complete safety from collisions, but will save large sums of money in operating expenses.

### FOSTER REFUSED \$25 OFFERS FOR LAND

Would Not Take Six Thousand Dollars an Acre for His Marjory Avenue Property Which is Assessed at Fifty Cents Per Front Foot.

When Controller Foster stated thru The Telegram on Monday that his Marjory avenue property was not worth ten cents a foot, he probably forgot that about eighteen months ago he refused an offer of over one hundred times that amount. The offer, which did not include the Gerard street frontage, was received from one of the largest corporations in Canada, which intended to turn the land into an industrial area. At that time the property was "really" a hole in the ground and very little of it could have been put to immediate use. Since then land values in that section of the city have jumped enormously, which fact is borne out by the rapid increases in assessments on property there, except Mr. Foster's.

Does the controller also remember refusing a more recent and much better offer than the one quoted above? The World received the information from a prominent citizen that he turned one down that would have netted him in the neighborhood of \$25 a foot, or \$6000 an acre.

### Once Upon a Time.

Once upon a time there was a man who owned the property that is now assessed at fifty cents per front foot and in the name of Controller Foster. That man came to regard that property as a white elephant. He knew that Controller Foster could finance a deal in six figures, and he put it up to the controller to buy the white elephant at white elephant prices.

Con. Foster has seen realization of how pessimism and unearned increment can chum it to advantage. The man with the white elephant viewpoint was permitted to exchange his property for a limited amount of the controller's coin. Then the property was assessed in the name of Thomas Foster and at 25c per front foot. Later on the assessment was increased to 50c per front foot.

### TWO SHIPS ARE REPORTED SAFE

Alaska and Mary Sachs of Stefansson Expedition in Comfortable Quarters for Winter.

OTTAWA, Dec. 23.—(Can. Press.)—Dr. R. M. Anderson, chief anthropologist with the Stefansson expedition, reported to George J. Desbarats, deputy minister of naval affairs, today that all the scientists and members of the crews of the Alaska and Mary Sachs, two of the explorers' vessels, are safe and well in winter quarters at Collinson Point, 50 miles from Flaxman Island, in the Arctic Circle. The report arrived by mail today and states contrary to recent reports from Seattle, that neither of the two vessels is damaged to any extent. The Mary Sachs was, however, caught in the ice rocks last September, but was sent south by steamer.

Dr. Anderson reports last having seen the Karik in an ice pack near Point Barrow on Aug. 15. The mail received today was despatched from Collinson Point on Oct. 13 by runner to Circle City, Alaska, and thence it was sent south by steamer. Dr. Anderson, who was formerly chief anthropologist of the American museum of natural history, states that the charts prepared by E. B. E. Luffjwell, the American explorer, were of inestimable value. The Mary Sachs, with Kenneth Chapman, a geologist in charge, and the Alaska, reached Collinson Point on Sept. 27 and decided to winter there.

Jane.—Country beauty plus city comfort means a quite entrancing total, doesn't it? Your house sounds delightful. And I think the beginning for the drawing-room is very good. But do you not think chintz would be best at the windows—a heavy blocked linen with a grey ground patterned in tints of mauve shading into rose color? Unless you introduce some brightness, I am afraid the grey and green will be rather dull. The most frivolous of the chintz could be covered with the chintz and the heavier with plain green repp. The portieres might be made of green velours or of the repp.  
As for the length of the curtains, I should advise strongly that they should go no deeper than the sill. The curtain that sweeps the floor is quite out of date even in houses that aim to be old-fashioned. It is reserved for a certain type of conservative, dignified old room that wouldn't change its aspect any more than its owner would change his name.

## THE CHRISTMAS SPIRIT

By Michelson

### The Lonesome Woman's Christmas

By Gladys Hale

THE wonderful Christmas spirit that goes winging throughout the world, calling at the palace door and at the humblest cottage with its message of love and good cheer, had its inception in the birth of a little child, and ever since then it has been the child's day of all days in the year, the rightful heritage of every child.

More grown-ups have been let in on tolerance because they were once children, and have found happiness at Christmas largely through the blissful ecstasy of those who are small enough or wise enough to believe in fairies and good old Saint Nick.

But in a day of bachelor girls and the vast army of economically independent women, there are many living alone, far away from home and loved ones. To many Christmas has become more or less drab and meaningless, a day of rest from work, or at most an anniversary of tender memory of back home in the old days, and of cracking Yule logs around which the family gathered merrily to empty fat stockings.

#### The Problem Solved.

Down in a certain beautiful old square, where wealth once held sway, and where to-day the sound of money alone has given way to intellect, and where quaint studios, occupied by professional women, take the place of many of the old-fashioned homes, there lives a woman wise beyond most of her day and generation.

She has worked out the problem of an "alone" Christmas in a way that should blaze the trail for a Merry Christmas to all who are away from home or whose nearest and dearest have gone on before, leaving them to work things out without the intimate ties that sweeten even the humblest life. The "Lonesome Lady" is successful professionally with many friends, but no close home ties—a wonder woman who has conquered untold sorrows by a beautiful outlook on life, and an unending altruism.

Last Christmas, knowing of several women alone in the apartment hotel in which she lives, she had an inspiration that was so beautiful it almost restores even the most jaded to their childhood's belief in Santa Claus. She bought a Christmas tree, just a wee bit of fragrant, balsam pine, that, when made radiant with electric light and dazzling red and gold dangles, assumed an air of festivity quite beyond anything it had ever dreamed of in its simple forest home. The tree in fact seemed to realize its mission and to enter into the very spirit of the thing.

#### Nobody Was Overlooked.

To show that this was a real Christmas, the bell boys and other servants in the hotel, two of whom were darkies of the old South who had not seen a Christmas tree, nor breathed the real Christmas spirit in years, were first to view the tree, and to receive remembrances from its glowing branches. Then two dear old ladies who had lived in the changing enthusiasm of youth, were asked to "make believe." At first their eyes were blurry, and their throats choked, but soon the magic spirit began to work, and as they opened their stockinged feet, blew mistletoe horns and donned absurd caps, the happiness of youth was renewed, and they entered into the spirit of Christmas as they had not done in years.

And so it went throughout the day, a different party almost hourly, grown-ups and children, including the crusty old bachelor of the house who thought he had buried sentiment too deep for resurrection. He had buried it so effectively that he invited his hostess and all of her guests to help him celebrate the coming of the New Year.

Even Uncle Sam shared in the fun making, as his grey-coated representative, who delivered special greetings to friends, was given a peek at the glittering tree which sent him smiling on his Christmas Day was given a peek at the "Lonesome Lady," now no longer lonesome, was left alone with her Christmas tree, she sat down in front of her fire place and gazed long into the dying embers.

**Avoid "Chaps" By Keeping The Skin Dry**

By Dr. L. K. Hirschberg  
A. B., M. A., M. D. (Johns Hopkins)  
(Copyright, 1913, by L. K. Hirschberg.)

**H**AVE you ever chapped lips? If you have you recall that first you make a little crack into it. A little crack follows the chop. Then a chip comes from the crack that came from the chop that was caused by your hacking.

A nick in a china cup, a crack in a pane of glass, or a "fault" or crevice in a rock is a warning of what may come. Similarly, the flesh when split, cracked, nicked, rent, torn, or excoriated is the danger signal which demands investigation.

In the snowy, frozen, Arctic days, the dead, even on the windy, draughty days of spring, your knuckles, wrists, hands and fingers become chapped. You are amazed and annoyed to find tiny red, moist, stinging splits in the skin. To what can these cracks be due?

Man's fortunes are according to his pains; with little labor, little are his gains. Alexander the Great, dilating upon the degeneration of physical fitness which luxury and too much comfort breeds, said that slowness comes with sloth and freedom with labor.

Chapped skin, according to this view, is the real badge of liberty. People who live in glass houses amidst evaporating luxury rarely—except they be too lazy to dry their cold, wet hands—suffer chapped skin.

Bodily labor alleviates much human pain, but it conduces to the open, burning, itchy chapping because those engaged in busy household or factory duties must, perforce, be in hot water one minute and in the frosty air the next. Thus it comes about that the skin, unaccustomed to such sudden changes, becomes dry and brittle in its outer layers. The water evaporates in the icy wind or draught and the skin cracks and opens like the dried lava around a cooling volcano.

The prevention of chapped skin depends upon its thorough drying after a wetting. Hands continually in water must be dried dozens and dozens of times, no matter how often the victim is compelled to take them from the water.

Boys and girls should not be permitted to rush into the streets or into a draughty cold room without a completely dried skin. The face and hands must first be thoroughly dried.

Glycerine seems to be almost a specific for the chapping that comes from this condition. Glycerine rubbed into, or even gently applied to, the reddish, open splits in the skin often relieves the condition in one night. Glycerine alone, or incorporated in salves and ointments, will do the work nicely.

**S**URELY that admonition to love your fellowmen may have its most literal application at Christmas time. In spite of the pessimists it generally does. This is the love season. And love isn't GETTING. It is GIVING.

So that we can't blame any young man who takes the job of loving all men—and one woman. We can't blame him if the happy thought comes to him very strongly at Christmas, so strongly that he finds a way of passing it along.

Of course, she will be startled, however she may hide her feelings; mostly, perhaps, because her heart is wide open at Christmas and totally unguarded. Speaking bluntly, then, the young man with the idea has a very good chance of PUTTING IT OVER.

Nevertheless, even with the splendid stage setting of Christmas to help him, the young man needs wisdom if the effect of his momentary triumph is to last.

With love, as with other gifts it is not only the gift, but the way of giving that counts.

### What Is A Kiss?

**S**OME was with plenty of time on his hands has conceived the idea of hunting through the works of all the prominent English and American authors for the purpose of gathering all the adjectives with which they qualify the word kiss. The result of his labor is that kisses can be as follows:

Cold, warm, icy, burning, chilly, cool, loving, indifferent, balsamic, fragrant, blissful, passionate, aromatic, with tears bedewed, long, soft, hasty, intoxicating, dissembling, delicious, pious, tender, beguiling, hearty, distracted, frantic, fresh as the morning, breathing fire, divine, satanic, glad, sad, superficial, quiet, loud, fond, tricky, criminal, heavenly, execrable, devouring, ominous, fervent, parching, nervous, soulless, stupefying, slight, careless, anxious, painful, sweet, refreshing, embarrassed, shy, mute, ravishing, holy, sacred, firm, trembling, electrifying, ecstatic, hurried, faithless, narcotic, feverish, immoderate, lascivious, hideous, stertorously, brotherly, and paradisiacal.

The task seemed interminable and he gave it up at this stage.

**J**ACK and Jill Frog went down to Looking-Glass Creek one day to see if they could get any ideas for conundrums. They peeked over the bank, and who should they see but Little Willie Tree-Toad sticking his head in and out of the brook.

"What on earth are you doing, Little Willie Tree-Toad?" shouted Jack. "I am cooling my head off," replied Willie.

Jack and Jill and Little Willie Tree-Toad hopped along the river bank until they came to a white oak tree where they thought the Wise Old Owl would be sitting.

"I say, there, friend owl, we want to ask you a question!"

"What is it?" asked the Wise Old Owl.

"I am Jack Frog, and my sister and Willie Tree-Toad wish to know if you can give us a conundrum to ask our teacher?"

"I see," answered the Wise Old Owl.

Then the owl turned his head from side to side, and, looking down at them, said very slowly: "As you frogs live in the water sometimes and sometimes live on land, I will ask you this question—what is that which is full of holes and yet holds water?"

"A piece of moss," said Little Willie Tree-Toad.

"That is very near it," answered the owl.

"A sponge!" guessed Willie again.

"That is correct," said the Wise Old Owl, and the Frogs and the Tree-Toad thought they saw him smile.

The Toronto World

FOUNDED 1880. A morning newspaper published every day in the year by The World Newspaper Company of Toronto, Limited; H. J. Maclean, Managing Director.

MAYOR HOCKEN AND THE PEOPLE

It appears that Mayor Hocken may have to fight for his succession to the mayoralty. Ald. McBrien and Ald. Burgess have signified their intention to divide the honors of defeat with Mr. Hocken, who is running on principle, quite unsupported by interest.

A great deal has been made of the price asked for the clean-up of the city—\$30,000,000. How many of these ten aldermen, or including Ald. McGee, eleven—understand that the citizens must pay out \$72,000,000 to the Street Railway Company in the next eight years whether they purchase the railway or not?

Everyone on the council knows that Mayor Hocken is absolutely honest, straight and unpurchasable. Only The Telegram is capable of even suggesting that Mayor Hocken is not one of the straightest men in Toronto.

The Basis of the Nation's Wealth

Real Estate is the basis of the Nation's Wealth. It produces that which both man and beast must have to sustain life. With our rapidly increasing population comes the demand for a corresponding increase in the products of the soil, and this demand will never be less than now.

ber. Valley estates. This is the platform The Telegram will support with Ald. McBrien or Ald. Burgess as its representative. The people cannot fail to see the reluctance of the Telegram to leave anything to popular judgment, especially in connection with the strap-hanging proposals. But Mayor Hocken will be sustained, and the board of control should be such a one as will give him support in bringing before the people the measure that is being prepared for their judgment.

CONTROLLER FOSTER. Controller Foster is as stingy of the truth as he is reported to be in other directions. He tried to convey the impression and said in so many words that The World, having failed to receive business accommodation from him, had gone to the railway company for the same, and at the same time published the story of his lot assessed at fifty cents a foot.

After that The World has had no use for Controller Foster. No wonder he would like to be relieved of the odium of that rating. No wonder he would like to conceal the fact that The Telegram has a string of strings on him. No wonder that he would like people to think that The World fell out with him over a business deal, but he knows there is no truth in this, and that our relations ended with him when he voted Mayor Geary into the position of corporation controller.

Whether The Telegram was aware of Controller Foster's obligation to the street railway company and the ferry company, we can only guess, but The Telegram evidently makes it a

that plan of campaign. He has already started on a career of nepotism, and thus given a hostage to The Telegram, which does not want any man elected to the city council on whom it does not hold some string.

NO STRING ON TWELVE

Controller McCarthy, in his speech in council on Monday night, put the whole case in a nutshell. The ten aldermen who were afraid to trust the people, afraid to trust the Provincial Hydro Commission and Hon. Adam Beck, afraid to trust the government or the experts, or even themselves, and who feared the people also, have absolutely refused to wait to see whether the agreement provides for a clean-up or not.

If there is no clean-up provided, it is time enough to condemn the agreement when that is shown, but everyone knows that the clean-up is an essential and The World has all along regarded it as the strongest part of the bargain that Mayor Hocken has secured during his prolonged negotiations. The Telegram would prefer to give Mayor Hocken no credit for the negotiations, nor for the suggestion of the experts. It speaks of Sir William Mackenzie's offer, knowing well that Mayor Hocken made the advances with the avowed object of settling the transportation problem, cleaning up the franchises, removing double fares and giving the city complete control of the streets.

Ten aldermen, when they saw Mayor Hocken getting within sight of his goal, under the direction and in fear of the black-hand methods of The Telegram, tried to defeat Mayor Hocken's chance of completing the negotiation he has carried so far. But there were twelve men in the council upon whom The Telegram has a string, and they stood for fair play for Mayor Hocken.

It appears that The Telegram has no string on the Municipal Improvement Association, for it has started to abuse it. This is the best recommendation the association has had yet.

Mayor Hocken scored a touch-down and The Telegram wanted to prevent him kicking the goal. Can he put it thru? Just watch!

The News wants to know what Controller O'Neill thinks now. He has not been told yet how he thinks now, but no doubt he will let The News know as soon as he hears.

HOUSEWIVES' LEAGUE SOLD MANY BARGAINS

Two Hundred Turkeys and Three Dozen Chickens Went Cheap at Y. W. C. A.

A pronounced success met the initial efforts of the Household Economic Association Housewives' League at their inauguration of a market in the basement of the Y.W.C.A. yesterday. In fact the number of would-be purchasers was so great that the aid of a policeman to keep order was necessary, and a scene more like that of a departmental store bargain sale was witnessed than that of a market.

The day's sales included the following: Two hundred turkeys at 23c a pound; a dozen geese at 16c a pound; three dozen chickens at 17c a pound; three crates of eggs at 40c a dozen; and sixty pounds of butter at 23c a pound.

BUY YOUR SEALS TODAY

This Will Be the Last Opportunity to Take Part in the Christmas Crusade.

Today is afforded the last chance to secure Christmas seals for use on packages or parcels and to participate in this phase of the great campaign against consumption. When one contemplates that the purchase of five hundred seals will only provide for the maintenance of one patient at the Muskoka Free Hospital for one week, and that there are 211 such patients now under treatment, some idea of the immensity of the financial burden entailed may be grasped.

Last Appeals for Consumptives Please Act Quickly!

In your last-minute thoughts for those whom you have overlooked will you include the needy consumptive? With "him" and "her" it is not a mere question of "hurting their feelings." They may never know whether YOU have remembered them or not. But they WILL know either hopeless days of suffering and despair, or comfort, nourishing treatment, and hope. If it came to a choice, wouldn't you rather "hurt" some healthy friend's "feelings" than deny a chance for life to a consumptive sufferer who is without friends and without money?

"There is a very poor family here in this town, who have a young girl who is not quite seventeen years of age, and who is very sick with lung trouble. Her mother goes out washing. Her father is half the time at home, too tired to work. There are six children in the home, and the house is small. Dr. Hunter has tried to get her in a hospital, but has not so far been successful. Can you tell me how I can get her into the Free Hospital? Her mother works for me when she can, and I feel interested in her. The girl is willing to go to a consumptive hospital for the sake of the rest of the family. They have no means, but friends here would manage to get enough to pay her railway fare."

**SHIPPING OF U.S. MAY PAY TOLLS**

Panama Issue Reintroduced Into Congress by a Joint Resolution.

(Continued From Page 1.)

ed, then the president is authorized to issue an executive order declaring such suspended, exemption of full force and effect."

It would further provide that from the date of such an executive order the exemption should be allowed, but until that time vessels of the United States should pay the same tolls as others.

The free toll provision now is under diplomatic protest.

Representative Adamson introduced the resolution on his own responsibility, and it will not go before congress as an administration measure. It was said in high official circles, however, that the present administration did not mean that the proposed step was approved.

Any declaration of policy on the subject of canal tolls has been avoided since President Wilson assumed office last March.

When Ambassador Bryce left Washington in April it was generally understood that he had secured some sort of a provision that no effort would be made by the United States to execute the free tolls provisions of the canal act.

The weight of opinion in official circles is that, now that Sir Cecil Spring-Rice, the present British Ambassador, has regained his health, he will be prepared to resume the negotiations.

Representative Adamson, in a statement explaining his resolution, declared it did not involve the principle of granting subsidy to special interests, but did afford an opportunity to clear up the international phases and to test contentions of officials in the canal toll controversy.

An Experimental Test.  
"This resolution proposes two things: First, an experimental test to demonstrate whether or not the tolls will pay the expenses of operating the canal, exclusive of the tolls of the coastwise trade, and the other is to afford opportunity to adjust all questions of diplomacy touch, adjust all questions of the coastwise trade, and the other is to afford opportunity to adjust all questions of diplomacy touch, adjust all questions of the coastwise trade, and the other is to afford opportunity to adjust all questions of diplomacy touch."

# "Never Said So" Declares Duff

Hon. James Duff last evening declared that he had never made the statement that he hoped the price of eggs would not drop below 75 cents per dozen.

What I did say during my address at Huntville was that I hoped the farmer on the farm would never get less than 25 cents for them and never less than that for a pound of butter," he said.

# RADICAL CHANGES FOR BISLEY MEET

Snap Shooting and Rapid Fire Are Suggested in the King's and St. George's.

LONDON, Dec. 23.—(C.A.P.)—Important changes in conditions of shooting for the King's Rifle and other more important competitions at Bisley are recommended in a communication sent to the council of the National Rifle Association by General Sir C. W. Douglas of the war office.

A committee has been considering proposals for modifying the Bisley program to bring it more into harmony with the military regulations of the territorial force. The committee's proposals include the abolition of the bullseye target, the knowledge that the rifle club favored some modifications has created uneasiness among some rifle clubs, who fear that the adoption of the war office policy may kill interest in rifle shooting.

Specific schemes are set out for the King's and St. George's, introducing rapid rifle and snap shooting in the second stage of the former and the first stage of the latter. For example, for the King's the first stage will consist of five rounds of deliberate, ten rounds of rapid and five rounds of snap shooting at 300 yards are suggested. The second stage at the last meeting was 10 rounds at 300 and 10 at 200 yards, deliberate firing.

The recommendations are to be submitted to the members of the National Rifle Association at the general meeting in February.

# NEW YORK CARS CARRY THREE MILLIONS A DAY

TUBE and Elevated Lines Did Record-Breaking Christmas Business.  
NEW YORK, Dec. 23.—(Can. Press.)—Traffic on the subway and elevated lines of the Interboro Rapid Transit Co. was heavier on Monday, it became known today, than on any previous day in the history of the system. "Christmas Monday" always has been one of the heavy days of the year, but this season's total of passengers—3,333,057—represented an increase of 54,533 over that of 1912. The Interboro officials said that only one occasion on which more tickets were sold was on the date last spring, on which the company devoted five per cent of its twenty-four hour receipts for the relief of food sufferers.

Proudfoot, K.C., for father. Reserved, and in meantime an independent medical examination as offered by father to be made.

Re Mexican Northern Power Co. and Pearson—W. N. Tilley, for plaintiff, called from order of Holmsted, K.C., registrar, directing plaintiff to furnish particulars of paragraphs 6 and 9 of statement of claim. G. Osler for defendant. Reserved.

McVeity v. Ottawa Citizen—R. C. H. Cassels, for defendant, appealed from order of Holmsted, K.C., striking out certain paragraphs of defence. J. T. White for plaintiff. Order varied. Costs here and below in the cause.

Davidson v. Thompson—J. T. White, for judgment creditor, moved for order for payment out of court. No one contra. Order made for substituting service of notice of motion on mother, returnable after vacation.

Till v. Oakville; Harker v. Oakville—A. W. Anglin, K.C., and H. A. Burbridge (Hamilton) for Bell Telephone Co. D. I. Grant for Oakville. M. H. Harker. Motion for leave to appeal from judgment of Lennox, J., dismissing an appeal from master-in-ordinary acting as master-in-chambers, for order declaring that all moneys to credit of this matter in court be forthwith paid out to applicants. Order made on affidavit being filed.

Re Grundy and Ontario and Quebec Railway Co.—C. W. Livingstone for plaintiff. Railway Company, moved for warrant for immediate possession upon C. P. Ry. Co. undertaking to pay award and to pay \$750 into court. Order made.

Dixon v. Trust and Guarantee Co.—N. Phillips, for plaintiff, appealed

from order of Holmsted, K.C., of 17th inst. ordering particulars of certain paragraphs of statement of claim. J. G. Smith for defendant. Reserved.

Re Dack; Dack v. Dack—R. Holmes, for Norman Dack, renewed motion on return of habeas corpus for an order for release of applicant from Brockville asylum. W. Proudfoot, K.C., for father. Reserved, and in meantime an independent medical examination as offered by father to be made.

Re Mexican Northern Power Co. and Pearson—W. N. Tilley, for plaintiff, called from order of Holmsted, K.C., registrar, directing plaintiff to furnish particulars of paragraphs 6 and 9 of statement of claim. G. Osler for defendant. Reserved.

McVeity v. Ottawa Citizen—R. C. H. Cassels, for defendant, appealed from order of Holmsted, K.C., striking out certain paragraphs of defence. J. T. White for plaintiff. Order varied. Costs here and below in the cause.

Davidson v. Thompson—J. T. White, for judgment creditor, moved for order for payment out of court. No one contra. Order made for substituting service of notice of motion on mother, returnable after vacation.

Till v. Oakville; Harker v. Oakville—A. W. Anglin, K.C., and H. A. Burbridge (Hamilton) for Bell Telephone Co. D. I. Grant for Oakville. M. H. Harker. Dixon v. Trust and Guarantee Co.—N. Phillips, for plaintiff, appealed

of the trial was stopped and changed by the plaintiff's admission, and I do not think the plaintiff should be allowed now to recede from it. It is no hardship for the plaintiff to give up the land on being paid the mortgage and all his outlay. This direction will be without costs to either party. The endorsement, as made at the time on the record, will stand.

Re Beckingham—W. J. Code, for William Rogers, moved for order continuing will of Edwin Beckingham. G. F. Henderson, K.C., for others; J. A. Hutcheson, K.C., for executors. Judgment: I answer the question by saying that Mrs. Jones has no interest in the purchase money, and that it must all go to the next of kin of the testator. There is difficulty about the next of kin, because it is somewhat in evidence that there is a deceased wife in England, who has had no issue. It will be referred to the master at Ottawa to ascertain the next of kin and make distribution according to their respective rights. Meanwhile the personality should be paid into court after the taxation of, and less the costs of the parties appearing in this matter.

Before Middleton, J.

Bury v. Dempsey—W. J. Elliott, for plaintiff, on motion for order continuing injunction. T. W. McGarry, K.C., for defendant. At request of parties motion enlarged until Jan. 3, 1914. Injunction continued meantime.

Alberta Central v. Lucas—E. H. Senior, for plaintiff, moved for judgment. No one contra. Pleading held to be insufficient, as not pleading forfeiture term of agreement, and no order made except that plaintiff may amend it at own cost and reserve.

Jones v. Township of Tucker-Smith—W. Proudfoot, K.C., on motion to quash township bylaw. R. S. Hays for defendant. Judgment: The course

of parties motion stands till Jan. 3, next.

Re Wagstaff—F. McCarthy, for applicant, obtained order, on consent, for sale of settled estate. If the one party who has not consented does not do so, purchase money to be paid into court.

Re Hamilton Cataract P. L. and T. Co. and Cahill and Monck—F. McCarthy, for the company; A. Bruce, K.C., for Canada Life Assurance Co.; J. A. Soule (Hamilton) for Cahill and Monck. Motion for an order for distribution of compensation money. Order made in terms agreed upon.

Vandusen v. O'Reilly—E. R. Read (Bramford), for plaintiff, moved for judgment. W. K. Murphy for defendant. Order made for speedy trial at Hamilton, on Jan. 12. Statement of claim to be delivered in two days and defence at once thereafter. Notice of trial dispensed with. The cross action to be brought on for trial at same time.

**Appellate Division.**

Before Mulock, C.J., Maclaren, J.A., Riddell, J.; Leitch, J.

Campbell v. Cooper—W. D. McPherson, K.C., for defendant; F. R. Powell, for plaintiff. Appeal by defendant from judgment of McCurry, J., of 23, 1913. Action to recover \$300 claim-defendant on Shawanaga River by plaintiff for \$750 and interest and costs. Ten days' stay. Appeal argued and dismissed with costs.

Farr v. Wardlaw (two cases)—C. A. Moss for plaintiff; H. E. Irwin, K.C., for defendant. Appeal by plaintiff in each case from judgment of Winchester, J., of County of York, of Oct. 14, 1913. Two actions by plaintiff one commission of \$800 on sale of land, and against W. A. Wardlaw to recover \$800 commission on sale of land adjacent to land in first case. At trial both actions were dismissed with costs.

Appeals argued and dismissed with costs.

Before Mulock, C.J.; Riddell, J.; Sutherland, J.; Leitch, J.

Caldwell v. Cockburn—J. Harley, K.C., for defendant; B. E. Justin, K.C., for plaintiff. Appeal by defendant from judgment of McCibbon, J., of County of Peel of June 11, 1913. Action by plaintiff, a farmer of Albion Township for rescission of contract for purchase of an engine for cutting corn for ensilage on ground that it did not work properly; for return of plaintiff's notes and cash paid by him and for damages. At trial judgment was awarded plaintiff for \$32 and return of two notes with costs. Judgment: If plaintiff so elect he may amend by setting up fraud and a new contract. The notes here given and if he so elects judgment below will be set aside and a new trial ordered. Costs of former trial and of appeal to be in cause unless otherwise ordered by judge at appeal. If this option not accepted appeal allowed with costs and action dismissed with costs.

Re Estate of Daniel McLeod McKenzie—G. Bell, K.C., for four next of kin appellants; J. W. Elliott, K.C., for executor; E. P. Clement, K.C., for executors of Frances McKenzie deceased. Appeal by Norman E. Ruddy, Anna C. Ruddy, Fanny Ruddy and Daniel M. Burns from judgment of Middleton, J., of June 5, 1913. Appeal from varied if order construing will of the said Daniel McLeod McKenzie. Judgment: Order appealed from varied if desired as to that part which authorizes payment for money instead of out of estate not specifically disposed of only. Subject to this variation appeal dismissed with costs, to be paid by appellants.

Deason v. Holt—E. B. Ryckman, K.C., and J. Fraser for defendant; W. G. Thurston, K.C., for plaintiff. Appeal by defendant from judgment of Kelly, J., of April 14, 1913. Action for damages for alleged wrongful entry by defendant company upon lands of plain-

...ing for using railway switch or siding erected on plaintiff's lands by defendants without consent or authority of plaintiff, for an injunction restraining defendant company from further entering upon or in any way making use of said lands of plaintiff or any portion thereof and from destroying or otherwise injuring trees or timber upon plaintiff's said lands. At trial judgment was given plaintiff as asked. Judgment: Appeal dismissed with costs subject to application if desired to vary description in paragraph three of judgment.

Stinacher v. Scuire—G. Oiler for defendant. J. C. Madras, K.C., for plaintiff. Appeal by defendant from judgment of Barron, J. of County of Perth of June 15, 1912. Action for damages for breach of contract in not furnishing pedigree as warranted on sale of mare by defendant to plaintiff. At trial judgment was given plaintiff for \$200 and costs. Judgment: Appeal allowed with costs on county court costs up to payment into court of \$100, with set off to defendant of subsequent costs. No costs of appeal.

Ramsay v. Toronto Railway Co.—J. S. MacGregor for plaintiff. D. L. McCarthy, K.C., for defendant. Appeal by plaintiff from judgment of Lennox, J. of Sept. 15, 1912. Action to recover \$5000 damages for death of Jean Spence, who was struck by a car of defendant on Bathurst street while she was crossing the line of the railway company on evening of Dec. 11, 1911, and instantly killed. Plaintiff alleged that the accident was caused by the defendant's negligence. At trial judgment was given non-suiting plaintiff without costs to either party. Judgment: Appeal allowed with costs. Judgment vacated and judgment awarded for amount of verdict with costs.

Thompson v. Silkenman—J. W. Eatin, K.C., and M. L. Gordon for plaintiffs. W. N. Tilley and G. L. Smith for defendant. Appeal by plaintiff from judgment of Middleton, J. of June 20, 1912. Action for declaration that a mortgage made by Joseph E. H. Stratford in favor of Henry Silkenman was and is invalid and illegal and for an order that defendant reconvey lands covered thereby to plaintiff on ground that mortgage was obtained by additional security for a debt to the Bank of N. A., which has since been paid. Judgment: Appeal allowed except as to claim for redemption, the accounts were taken and plaintiffs held entitled to redeem on payment of \$27,474.18, in default of sale of lands ordered. Judgment: Appeal dismissed with costs.

Leslie v. Birbeck Investment Security and Savings Company of Toronto.—J. R. Roaf for plaintiff. No one contra. Appeal by plaintiff from judgment of Britton, J. of April 24, 1912. Action by plaintiff as holder of defendant company, for an account to be taken of the profits of the company in respect of or on the money paid in by her to the said company, and that the amount of such earnings applicable to the stock of the company held by plaintiff be applied in payment up in full of the stock of the company held by plaintiff so that the said shares shall rank as fully paid-up stock to the amount of \$1000. At the trial the action was dismissed with costs. Judgment: Appeal dismissed with costs.

Before Mulock, C.J., Latchford, J.; Sutherland, J. Litch, J. Van Valkenburg v. Northern Navigation Co.—J. R. Logan (Sarnia) for plaintiff. R. I. Towers (Sarnia) for defendant. Appeal by plaintiff from the judgment of Lennox, J. of Oct. 16, 1912. Action by parents to recover \$5000 damages for death of son, a deckhand on steamer Hamonic, who fell overboard and was drowned in Lake Huron, such drowning alleged to have been caused by negligence of defendant. At trial a non-suit was entered with costs. Judgment: Appeal dismissed with costs.

Hayes v. Harshaw—C. R. McKeown, K.C., for plaintiff. G. H. Watson, K.C., and A. A. Huggson (Orangeville) for defendant. Appeal by plaintiff from judgment of McCarthy, J. of County of Dufferin, of Nov. 7, 1912. Action by plaintiff to recover \$225 damages for breach of contract by defendant to employ him as assistant postmaster at Orangeville P.O., at \$900 a year, and dismissal before termination of contract. At the trial the action was dismissed with costs, on the ground that a judgment in a former

case acts as a bar, tho the judge held plaintiff had been wrongfully dismissed. Judgment: Appeal allowed with costs and judgment to be entered for plaintiff for \$225 with costs. Sutherland, J. dissenting.

Matthewson v. Burns—W. C. McCarthy (Ottawa) for defendant; G. E. Henderson, K.C., for plaintiff. Appeal by defendant from the judgment of the chancellor of June 20, 1912. Action to enforce specific performance of an agreement between plaintiff and Thos. A. Burns, for the sale by Burns to plaintiff of certain land in Ottawa for \$2800. At the trial judgment was given plaintiff for specific performance, with a reference to the local master at Ottawa, to take the accounts and settle the conveyance. Defendant appealed allowed with costs, and action dismissed with costs. Defendant's rights as to subsequent rent or damages reserved. Mulock, C.J., dissenting.

Tyrell v. Murphy—J. M. Ferguson for defendant; R. N. McPherson for plaintiff. Appeal by defendant from judgment of Winchester, J. of County of York, of Sept. 12, 1912. Action by plaintiff to recover \$315.49 on three promissory notes made by defendant. The trial judgment was in favor of plaintiff for the amount claimed and costs. Judgment: Appeal dismissed with costs.

Ellis v. Ellis—W. M. Douglas, K.C., for defendant; J. Rowe (Norwich) for plaintiff. Appeal by defendant from judgment of chancellor, of June 17, 1912, and cross-appeal by plaintiff. Plaintiff alleged that the defendant, Austin D. Ellis, a physician of Norwich, for return and delivery to plaintiff of certain goods claimed by plaintiff as her separate property, or the money represented thereby, for declaration that money of plaintiff alleged to have been spent on certain lands, be declared a lien on said lands, etc. At trial judgment directed delivery to plaintiff of piano and other chattels pointed out by Mrs. Kennedy at trial as plaintiff's separate property, and also for payment by defendant to plaintiff of \$228. Defendant's appeal dismissed with costs; cross appeal dismissed with costs.

BOOMING EXPOSITION IN FRANCE. PARIS, Dec. 23.—(Can. Press.)—Alexandre Tirman, the newly appointed commissioner-general for France of the San Francisco exposition, has opened headquarters at the ministry of commerce. He is very active in organizing committees, making personal visits to possible exhibitors and setting up propaganda through France to make the exposition known.

LINEMAN FALLS FORTY FEET. BRANTFORD, Dec. 23.—(Special.)—This afternoon John Springstead, a hydro-electric employe, fell over forty feet from a pole on Mill street and fractured his skull. He was rushed to the General Hospital, where at 4 o'clock very little hope for his recovery was entertained.

PAVING CONTRACTS UNFAIR TO CITY

Legislation is Necessary Allowing Addition of Repair Cost to Contract Price.

MCCARTHY'S PLATFORM

Three Candidates for Re-Election to Board of Control Air Their Views.

Three of the present members of the board of control seeking re-election—Controllers Church, McCarthy and O'Neill—addressed the conference committee of one hundred of the Toronto Board of Trade yesterday on their past record and promises for the future. A poor attendance was accounted for by the bad weather. An immediate reduction of the hydro-electric rates, a reduction of the price of gas charged by the Consumers' Gas Co. and lower telephone rates were advocated by Controller Church. He favored assessment reform and stanced farms at the outskirts of the city, which were assessed at \$300 an acre, which could be sold on the market at \$6000 an acre. He repeated his opposition to the street railway purchase and urged more civic car lines with motor buses to act as feeders for the present lines. Controller McCarthy declared that a city with a sinking fund of \$11,000,000 should never be at the mercy of banking institutions in negotiating its loans and securities and insisted on cases where the city had been the loser thru this practice. He said that the accounting system of the various departments of the city was deplorable and pointed out the necessity of the work of the civic survey.

Need New Law. He pointed out that private paving contractors, competing with the city engineer, allow for the ten years' repairs in the price of contract, something which the city engineer would not allow to do. Consequently the more pavements laid by the city engineer the bigger the city's loss. Legislation empowering the city to add the repair cost to its contract price should be sought. That he was a property expert and had devoted himself particularly to this portion of the city's business was the assertion of Controller O'Neill. He claimed a share of the credit for the results accomplished at the prison farm and for the civic abattoir to be established, which he contended would effectually prevent a meat monopoly. Tubes were his solution of Toronto's transportation problem.

SUWANEE RIVER

As Sung by Christine Nilsson. The first popularity of "Suwanee River" dates back to the time when Christine Nilsson, the fair-haired daughter of a party singer, "Wexio, Sweden, surprised all who heard her with the sweetness and compass of her voice as she sang Foster's plaintive melody. She was an accomplished player on the flute and violin and made her debut at the early age of seventeen at Stockholm. Like many of the famous prima donnas, the opera chosen for her appearance was "La Traviata." She made a concert tour of the United States and sang many years in Italian opera. At her farewell concert in London her voice was exquisite in its purity and sweetness and evenness of tone, having a compass of three octaves, an exceptional range. In America she will be known and long remembered for her singing of "Suwanee River" in the height of her success and operatic triumphs. She was the acknowledged incomparable artist of her time. This beautiful song and many others sung by Nilsson are to be found in "Heart Songs" now offered by The World to its readers, who will find the terms given in the coupon published on another page of today's issue.

GRAIN SHIPMENTS MAKE RECORD YEAR

Thirty Million Bushels From Prairie Provinces More Than Last Season.

WINNIPEG, Man., Dec. 23.—(Special.)—Carefully compiled estimates of total grain shipments made over the C.P.R. system to the head of the lakes from Sept. 1 until Dec. 20 place the total at 13,846,400 bushels of all grains. The number of cars that were required to ship the record crop this season was 31,179, as compared with 28,877 cars last year. By divisions the shipments of grain to date are: From Manitoba, 2,126 cars; from Saskatchewan, 42,432 cars, and from Alberta, 18,827 cars. Wheat returns are: Manitoba, 13,744 cars; Saskatchewan, 27,998, and Alberta, 9,840, compared with 11,705 and 7,125 respectively for the corresponding period last year. Last year's returns for all grain from the three provinces were: Manitoba, 18,487 cars; Saskatchewan, 28,490 cars, and Alberta, 11,890 cars, which, reduced to bushels, represents approximately 33,827,800 bushels of grain of all kinds.

According to reports received at the offices of the company it is unlikely that any great amount of grain will now be sent forward, but the actual amount will depend entirely on the state of the market. There is room in country elevators now for practically all the grain that remains to be marketed, and the probability is that

ALL WERE ELECTED BY ACCLAMATION

York Township Saved the Expense of an Election at New Year.

BIG CHANGES COMING

Reeve and Colleagues Will Ask for More Efficient Legislation.

Every member of the York Township Council was re-elected by acclamation yesterday. During the hour for nominations two new members were nominated for the positions of councillor in opposition to Mr. Graham, who is the only councillor who has retired after making a nomination speech.

Second Deputy Reeve, Fred H. Miller, by W. H. Maton and G. Carter.

Third Deputy Reeve, John Buchanan, by Geo. Syme, Jr., and T. Griffiths.

For Councilors, W. M. Graham, by C. C. Poynton and C. V. Lacey.

JOHN C. BULL, by N. Boylen and Roub. Phillips.

CHRISTOPHER A. CARTER, by H. W. Lush and W. Boylen.

John T. Watson presided at the public meeting which followed the nominations, and it was decided that all candidates would be given ten minutes and their movers and seconds five minutes in which to address the electors.

Among those on the platform in addition to all members of council were Geo. Syme, Mr. Robert Barker, Reeve Cameron of Vaughan, Deputy Reeve Jackson of Etobicoke, W. H. Maton, Reeve of York Township, W. A. Clarke, the township clerk, Commissioner Snyder and R. C. Poynton.

Enthusiastic Reeve. Mr. Robert Barker and J. A. Wilcox briefly expressed their gratification regarding Reeve Syme's election by acclamation, and were glad that the electors held a similar opinion to their own regarding the re-election.

Reeve Syme received an ovation when he rose to speak. "It is no small honor," he said, "to be returned by acclamation as Reeve of York Township, and you express an keenly conscious of the responsibility it involves. I cannot promise to do any better next year, as I did my best during the year, and will continue to do that. We have confidence in York Township that are not equalled in any other rural municipality in Canada. We have a rural section and a suburban due to the growth of the city. This has brought about congested conditions in parts of the township which we wish for certain improvements which we cannot deal with owing to the lack of proper legislation. The time is now ripe for change, however, and I think we can fairly go to the legislature and ask for more to do what is necessary. In some parts of the township the sanitary conditions are a disgrace to the municipality. In one case no less than five houses have been erected on a hundred foot lot, where there is no sewerage and the only water supply is obtained from wells on the lot. The township has no power to dictate how many buildings shall be erected within a given area or what the nature of the buildings will be.

Transportation Needed. Lack of transportation is probably the main cause for these conditions, and the fact that people are forced out of the city to build homes for themselves in the township. There might be an epidemic at any time in these congested districts, or they might lack of protection, a water supply, and a necessity in these sections and it is intended to go to the legislature early next year and get something done to better these conditions.

Statute Labor Tax. The Reeve then referred to the necessity for abolishing the statute labor tax, which does not work out fairly for the small landowner. He said that any improvement of a road, such as a sewer, would be paid for as a local improvement.

Deputy Reeve Griffiths, who is the finance minister of the council, gave a brief review of many permanent improvements, such as roads and concrete bridges, which had been built during 1913. He criticized the work of the good roads commission at Black Creek Hill, which was carried out under the supervision of E. A. Jensen, the highway engineer. York Mills side road had also been graded and now formed a connecting link in the good roads system. A mile and a quarter of this side road has been completed at a cost of \$3500, and Mr. Griffiths hoped to see the work continued during next year.

W. G. Carter, who nominated Deputy Reeve F. H. Miller, endorsed Reeve Syme's statement regarding building congestion, citing one instance where a speculator in the city had built five houses on one fifty foot lot, three on the front and two on the back. Every house had an outside conveniences and there were wells on the property.

Deputy Reeve Miller, who is a member of the firm of F. H. Miller & Sons, the well-known florists, said that there was no doubt that big changes were necessary and that he had a great deal of sympathy for Mr. Syme's policy in this respect. He endorsed Mr. Syme's policy in this regard.

In the absence of Deputy Reeve Buchanan, who is unwell, Reeve Syme acted as his deputy, referring with deep feeling to the excellent relations which existed between Mr. Buchanan and his colleagues as the council table. "Mr. Buchanan and I differ on many questions," said Mr. Syme, "but I have a great respect for his opinion and appreciate his many sterling qualities."

Others who spoke were Councilors Graham, C. Bull, N. Boylen, John C. Bull, N. Boylen, Roub. Phillips, Charles W. Lush and W. H. Maton.

Everyone was delighted that the township had saved an expenditure of five or six hundred dollars on an election and the candidates who turned up were congratulated as being instrumental in saving the people's money.

WILL SUBSCRIBE TO EASTERN HOSPITAL

Nine Thousand is Pledged by Residents of Wards One and Two.

SHOULD ROUND CORNER

They Are at Present a Trap for Unwary Visitors From Country.

About twenty electors of Wards 1 and 2 interested in the construction of the new Riverside Hospital, for which a bylaw for two hundred and fifty thousand dollars will be voted on the first of the year, have pledged themselves to subscribe nine thousand dollars. This money is to be used to cover any deficit that might occur in the expenses of the new hospital during the first year of its existence. The money will be the commencement of a fund of twenty-five thousand dollars, which is proposed to secure to meet any possible deficits after the hospital has been started. This does not include the fifty thousand dollars already voted by the board of trustees. The need of an up-to-date institution in the eastern district is badly felt by the 140,000 inhabitants.

Should Be Rounded. The necessity for rounding the north-east corner of Dantfort street and Don Mills road, and the filling in of the ditch, was emphasized last night, when a man was thrown from a buggy and run over by one of the cars.

The buggy, with two occupants, was being driven at a moderate pace along Broadway avenue, and in endeavoring to round the corner one man was thrown out on his head and the back wheel passed over his body. The occupants were presumably from the country and had no knowledge of the ditch at the corner of the roadway. They received attention from some bystanders, and afterwards was able to proceed on his journey.

Already Discussed. Speaking to The World last night, Dr. E. A. McDonald said that the North Riverside Raters' Association had long been agitating for the rounding of the corner in question, but this could not be done owing to the delay on the part of the Toronto Electric Light Company in moving their poles back, which are the only obstructions.

Complaints are being made about the dangerous state of the foot bridge over the gully on the north side of St. Clair street, a little way east of Leander avenue. There is no guard-rail to protect pedestrians crossing over. In the light of the danger, it is not so bad, but at night the light from the hydro pole is not directed on the bridge, on account of the pole casting a shadow, and care has to be taken in crossing.

A special feature of the Friday night entertainment, which was held in Little's Hall by the Ladies' Aid Society attached to Dufferin Street Presbyterian Church, and arranged by the Rev. M. M. McCullough, was the sale of the children.

Children stealing is still rife around the city limits. Complaints are frequent, and more police supervision is absolutely necessary.

Mr. and Mrs. W. Kenneth Elliott announce the engagement of their daughter, Alice S. (Alice) to Mr. S. Craig Evans, son of Mr. and Mrs. Charles S. Evans of Hagersville. The marriage will take place next week.

The building permits for the year total, amounting to \$191,050, the largest in the history of the town. For the first time in fifty years the tax collector's roll was returned on Dec. 15 with the taxes all paid, amounting to \$54,000.

An important event in the annals of the Catholic community took place last evening at 5.30, when the stone cross was placed in position on the roof of the new church of St. Clare, St. Clair avenue. The masonry is rapidly completed, and the interior work will be proceeded with until completed during the winter months.

Miss Bates, the librarian of the Earlscourt Branch library, was called out yesterday afternoon to a fire at the Dodge Pulley Works, West Toronto. On arrival it was found that their services were not required. West Toronto and Perth avenue contingents also turned out. The fire, which was a small matter, had been put out by the employees.

Alton and Jeffrey report the sale of Lot No. 36, on Mackay avenue, dimensions 50 feet by 120 feet, at \$42 per foot, the purchaser, Mrs. Jennie Smith, is paying half cash. The owners are Black Bros.

A mass meeting of the North Riverside Raters' Association will be held in Player's Hall on Friday evening. Candidates for the council will speak, and questions on the subjects under discussion will be called for at the end of each address.

There will be an at-home, with Christmas entertainment, in the new school-house of S.S. No. 31 on Monday evening, Dec. 23.

MRS. YOUNG ONCE MORE SCHOOL SUPERINTENDENT

Clamor of Chicago Public Led to Her Restoration to Office.

CHICAGO, Dec. 22.—Mrs. Ella Flagg Young was voted back into the superintendency of the Chicago Public Schools today after a stormy session of the board of education. Seven members refused to vote on the ground that the board had no power to reconsider the selection of John D. Shoop, assistant superintendent under Mrs. Young, who had been elected today after a stormy session of the board of education. Contention also was made that the four new members of the board named by Mayor Harrison had not received their commissions and that the four whose resignations he had enforced were not entitled to their seats.

The action of Jeffrey in removing Shoop and replacing Mrs. Young will at once be challenged in court, it was announced by the opposition.

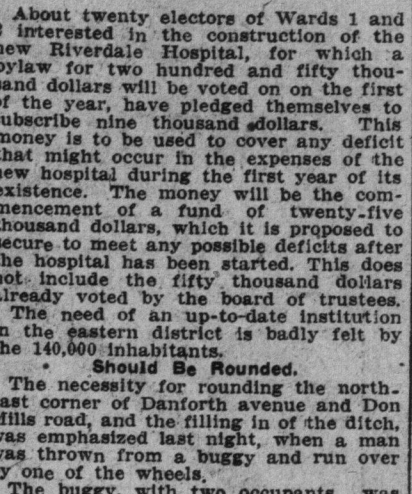

Mrs. Young's failure to be re-elected two weeks ago by the school board roused a storm of popular indignation.

Vancouver Daily Province: A wonderful feat of natural history in the shape of a snow-white deer has been brought to the city by S. Becker, 623 Tenth avenue west, a veteran hunter who shot the animal near Colebrook. The animal has been made the subject of a natural history, and is regarded as the most interesting specimen of a freak deer that has yet been discovered. The deceptively appearance of the animal may be judged from the fact that Mr. Becker in killing the deer thought he was shooting at a mountain goat. He saw the animal in a clearing at a distance of 400 to 500 yards, and fired. The animal ran, and thinking he had missed, Mr. Becker sent four more shots after it. Mr. Becker has been a hunter since he was a small boy. His family have all been famous as hunters, his father and brother having both met their deaths while out hunting. Yet until he got up to the animal he was quite certain it was a goat, and not a deer, he had brought down. The deer, which is apparently of the coat deer family, is about 18 months old and nearly full-grown, and weighs around 70 pounds. Its fur is longer and denser than the ordinary skin of the deer, and, except for a thin brown undercoat, is entirely white. Its eyes are a little tan near its feet and black at the end of its tail, it is a pure snow-white animal. A peculiarity about the animal is that the upper part of its face is that of a calf, with very large ears, and that the eyes are of a gray-blue color, instead of pink. An American hunter saw the body when it arrived in the city last night promptly offering Mr. Becker \$100 for it. Mr. Becker says no money will induce him to allow the freak animal to leave the country to which it belongs. The game warden who saw the animal usually bears of half a dozen or so freaks each year, but he says this is by far the freakiest of all the freak deer he has come across. NEWS ADVERSE TO UPTURN IN WHEAT

Beautiful Snow in Winter Grain Belt Gladdens Hearts of Bears.

CHICAGO, Dec. 23.—Widening of the snow area in the winter crop belt proved to be more of a handicap today than the wheat bulls could overcome.

Besides the bearish influence of the larger production to fall sown wheat cables were against traders who were on the outlook for signs of an upturn.

Russia promised heavier shipments, and there were more favorable crop advices from Australia, India, and Argentina.

Oats suffered from rather free selling that was charged to a prominent speculator. Otherwise trade did not assume much volume.

Changes in provision quotations were chiefly on paper. An effort to buy came thru commission concerns.

A NATURAL REMEDY

Just What You Need—Try This Cure.

It is no longer an experiment. It is hailed by thousands with loud praise, because it cured them. "It cured me. I am well and strong as ever. What more could one ask?" writes a man with a heart full of gratitude.

Do not be in error. This has all the good points of an electric belt. It gives a powerful current, but does not burn or blister, because my special cushion electrodes make the current a warm, gentle glow, which exhilarates and relieves at once.

Dr. McLaughlin's Electric Belt

has made thousands of homes happy. It is a good for women as for men. Made as a woman's belt, it is perfect for the body.

Dear Sir:—It is some time since I wrote you about my belt. I am not a bit sorry for writing it, for it has cured me of bed-riving, which has troubled me for over six years. My nerves are stronger, too, and I believe if I had not worn it, I would have needed it to-day.

TEN CARS ROLLED OVER EMBANKMENT

Derailment on C.P. Toronto-Sudbury Line at Bolton Tied Up Traffic.

BOLTON, Dec. 23.—The derailment of ten cars of freight on a C.P. train at Cedar Mills, Ont., seven miles north of Bolton, on the Toronto-Muskoka line, was the cause of tying up this division and paralyzing passenger traffic for the day.

Two hundred feet of roadbed was torn up. The Winnipeg train, due here at 9 this morning, which was running in two sections, due to heavy travel, and the city car, No. 704, were stalled on the other side of the derailment. Special trains were sent out to transport the passengers, who arrived from the east by Winnipeg express out of Toronto at 2.30 o'clock, took the same route via Peterborough and Coldwater and back to the main line.

The auxiliaries from West Toronto and Muskoka went to the scene of the derailment, but experienced considerable difficulty as the cars rolled down a 50-foot embankment. According to C.P.R. officials, nobody was injured.

CLIMBS JUDGE'S KNEE TO GAIN HIS FAVOR

Little Girl of Seven Doesn't Want to Leave "Auntie" for Her Mother.

MONTREAL, Dec. 23.—(Can. Press.)—Climbing upon Mr. Justice Charbonneau's knee and telling him that she did not want to go and live with her mother because she was better treated at the house of her "auntie," a pretty little nine-year-old girl was granted before the local court here today.

The little girl showed Mr. Justice Charbonneau her dolls and other playthings, as if realizing that decision adverse to her wishes would necessarily entail a separation from these childish delights.

The case was that of Dame Jennie Johanson, mother of the child, v. Irma Elsdin, "auntie," a boarding house keeper of Mansfield street, the mother sought by way of habeas corpus to get possession of the youngster, who, for the past four years or so, has been in the possession of Dame Elsdin.

Evidence was submitted to show the mother had been an inmate of the jail on account of her intemperate habits.

MONTENEGRO'S QUEEN ILL. ZURICH, Switzerland, Dec. 23.—(Can. Press.)—Queen Milena Montenegro, mother of Queen Helena of Italy, is understood to be dangerously ill in the capital of the little Balkan kingdom.

THE SPIRIT OF CHRISTMAS ON THE RAILS

At no other time of the year does the longing for home grip the heart as it does at Christmas.

It is the season of reunions, of merry greetings, and "peace on earth, good will towards men."

The trains of this line are well equipped for all classes of travel, and the good cheer of their staff and dining car service has earned praise all round.
