

### HAMILTON HAPPENINGS

**WON'T SEND DELEGATES**  
 Hamilton Board of Trade Decline to Join With Fruit Growers.

HAMILTON, Feb. 8.—(Special).—The board of trade this afternoon declined to accede to the request of the Fruit Growers' Association of this city to send a delegation to Ottawa to protest against the proposed reciprocity treaty.  
 The board passed a resolution some time ago asking the government to leave the tariff alone. A number of prominent fruit growers spoke and denounced the treaty.  
 At the meeting of the cemetery committee this evening, Mayor Lees drew attention to an overdraft of \$12500. It was explained that this was for some road repairs near cemetery, which they had been given permission to lay down by Controller Allen last year, the bill to be paid by this year's council. Both ex-controller Allen and Controller McLaren stated that any such permission was never given, but Mayor Lees let the matter drop.  
 The action brought to upset the election of Ald. Thomas Lovley in ward one proved successful. Judge Snider to-day unseated him for the non-payment of taxes, and confirmed the election of Charles S. Kilgour, who was third man at the polls. The temperance people, who have a majority of one in the council, will probably lose control now.

### INCREASED COST OF LIVING.

The increase in the cost of living is a fruitful subject of argument. It may be ascribed to any number of causes. Here in America we usually ascribe it to the protective tariff, to the luxurious habits of the people of today as differentiated from the less luxurious habits of their forefathers; to the spoliation of the land; to the increase of immigration; to the loss of productivity on the part of the land, which in many instances is forced to yield crop after crop without having its productive power replenished by proper fertilization; to the inordinate herding of people in the great cities, this in itself creating a transportation problem, which enhances the price of goods carried by the transportation companies enormously.  
 In foreign countries, for instance in France, other causes are added to these, for some of the most advanced and others take their place. It is common in France to ascribe the rise in prices to four very diverse causes. They are great civic enterprises, like expeditions, either national or international; luxurious habits, failure of crops, and the fluctuations of foreign demand for exportation. The tariff is cited in an incidental way only and is generally considered as a cause of the elevation of prices to be reckoned among the temporary, while the four here given are considered as of universal application. It is not necessary to note this in opinion, but it is still stranger to note that these complaints of higher prices are almost universal; that they are made as consistently in Russia, in China and in Japan as they are in Germany, France or England. It may, therefore, be safely assumed that the average rise in prices probably is based upon some common feature, or universal principle than any of those advanced here or abroad.

The American housewife complains that the price of some of the things she must buy are almost doubled in the past year or two. Here we have an interesting feature, or rather we have two interesting features. One is the rapidity of the increase at certain periods and in certain articles. The price of potatoes in 1900 was twenty cents a kilo; to-day it is twenty centimes. Butter was two francs and ninety centimes in 1900; to-day it is three francs and seventy centimes. Poultry has in the same period of time jumped from two and a half francs to three and a quarter. Now, if the American housewife wants to condole with her French sister, she stands to remember that the francs stands for somewhere between nineteen and twenty cents in American money. Let us call it twenty cents, in order to handle a round figure. Two and a half francs means fifty cents. Her French sister buys a leg of lamb to-day for forty francs at a price which is twenty cents; of course, a kilo is a little over two pounds, but the twenty cents a pound she thus pays is, when compared with her own home market prices, a very much higher price than her American sister pays for lamb in this country. It is comparatively even a higher price than the thirty and forty cents a pound which she grudgingly pays for bacon, which a year ago or two ago was only half that.

And it is at this point that the other consideration comes into the question, namely, the fact that alongside the brevity of time duration runs the element of a sort of selective affinity. Certain things seem to be picked out to stand in a more prominent price. In America, the housewife knows that it is pork that is being screwed up more swiftly than any other of the meats, although they all seem to go up. In foreign countries a similar selective affinity seems to be displayed. And it is here that one is led to suspect that this particular phenomenon could not occur if there were not human volition, the back of it, hence the suspicion, both here and abroad, that there is a hand that turns the screw, and that prices rise by artificial means rather than by natural means.

And yet this may be a deceptive appearance. In 1848, and from that time on until the setting in of the unhealed "war prices," when flour rose from \$4 to \$11 a barrel, the talk in the papers exactly resembled that of to-day and Daniel Webster fulminated against high prices in as choice English as the writers on economic subjects of to-day. There must, therefore, be additional and deeper-seated causes than those adduced, ranging from political faulty in the construction of a tariff, to individual ingenuity in squeezing up the price of specific commodities.—Newark, N.J., News.

### Locomotive Exploded

SMITHVILLE, Tex., Feb. 8.—Fifteen white men and two negroes were killed and four injured to-day by the explosion of a Missouri, Kansas and Texas freight locomotive boiler. The engine was blown to atoms and two others were damaged.

### Mendelssohn Choir in Pierre's "Children's Crusade"

Last year's success in the production of Pierre's "Children's Crusade" was warrant enough for the repetition of the magnificent work by the Mendelssohn Choir, even had there been less popular demand for it, but the public desire to hear it was strong enough to oversubscribe two performances this season, and last night Massey Hall was packed to hear the first. Dr. Vogt made no mistake in the repetition, which went, if possible, more smoothly than last year, while losing nothing in the artless freshness of the children's choruses, which A. E. Davies, the associate conductor, had once more trained to a point of perfection. The Thomas orchestra was faultless in the unique storm music, and performance of the storm. Such an opposition of emotions, spectacular in the most dramatic degree, and made evident in the realistic orchestral effects, captivates any audience, while the artistic grandeur of the scoring and the delicate guilelessness of the children is introduced by the duet of the soprano soloists, Alys and Alain. "There in those fair gardens," and this beautiful number with its suggestions of purity, leads to the implicit trust of the children in the "angelic will of self." This is medieval faith, and the spirit of the crusade period, and it is the triumph of the composer that he can make the audience feel the call that led the children in this transcendent and detached spirit that Dr. Vogt attains his corresponding triumph in the rendering.

The anguish of the mothers and their appeal reach the heart of every man, and the impassioned prayer that follows is of no special time or place but out of the parents' hearts.  
 The marvelous soniferous effects gained in the storm scenes are realistic in the extreme. The howling surges, the laboring of the vessel, the shrieking wind, the beating waves, as they pound the doomed ship, and the frantic and hopeless struggle as the mast falls carry one thru a quick once more. The dirge arises the majestic chant of the children. "De profundis liberans." Hence, to the audience, is a celestial ascription of praise and worship.

The audience, as on the previous evenings, filled every seat. The Government House party was again present in full strength. Countess Gray especially appreciating the opportunity, Sir Edmund Walker went on the platform at the close amid loud applause, and a photograph of the choir, with the organist, was taken. Dr. Davies received great applause on returning from the off-stage staging. Dr. Vogt as usual received an ovation.

### Bruce Old Boys

The twelfth annual at home of the Bruce Old Boys and Girls' Association of Toronto, will be held to-morrow evening in the Temple Building. A concert program will be given at 8.30 o'clock, followed by a reception and dance.

### Bargains in Upright Pianos

Several upright pianos of well known manufacturers are being offered by the old firm of Healey, taken over by Ltd., 100-150-las, Coe-st., at very sensational prices for a few days. The prices run at \$75, \$185, \$195, \$225, \$250 and \$275-in every case a large discount from the manufacturers' regular prices. Each piano has been overhauled by our own workmen and guaranteed in good condition. Terms of payment are a small sum down, and a small amount each month.

### Why the Grand Trunk Continues to Be the Popular Route to Montreal

This line offers every feature pertaining to comfortable travel; moreover, it is the only double-track route (with 100-ft. steel rails), also the only line operating the world-renowned Pullman sleepers between Toronto and Montreal. An additional advantage of traveling via this route is that tickets purchased in Toronto are valid returning from Montreal on the "International Limited," Canada's finest and fastest train (only seven and one-half hours to Montreal), and four-hour train to Montreal, also Pullman sleepers to Montreal and Boston. The 10:30 p.m. train carries five of the modern Pullman sleepers to Montreal daily, also through Ottawa sleeper. Tickets, berth reservations and full information at Grand Trunk City Ticket Office, northwest corner, King and Yonge-sts. Phone Main 4209.

### City Buys From Home Bank

The northwest corner of Broadview and Elliott-street is to be the location of a new branch office of the Home Bank of Canada. The Home Bank has three lots at this intersection, the corner lot has been sold to the city, the new branch office of the Home Bank will be erected on the adjoining two lots. The extension of the street over these lots has been necessitated the widening of the thoroughfare, and the Home Bank has sold the corner lot of its property to the city for this purpose.

### STORAGE BATTERY CARS SUCCESS IN NEW YORK

**City Engineer Rust Impressed But Still Cautious—Grades a Problem.**

That the question as to whether under existing conditions it can be operated as economically and at the same time give as efficient service will largely determine the feasibility of introduction of the Edison-Beach storage battery system of operating street cars in Toronto, is the opinion of C. H. Rust, city engineer, who returned yesterday from New York, where he, in company with Electrical Engineer Aitken, has been making investigations of the system in the interests of the city.  
 "We saw one Edison-Beach car in operation," said Mr. Rust. "It was not on the street railway, but on the Erie Railway and was working satisfactorily."  
 "We saw one Edison-Beach car in operation," said Mr. Rust. "It was not on the street railway, but on the Erie Railway and was working satisfactorily."

Mr. Rust says he was very much lighter than the ordinary trolley cars. Mr. Rust says this is due partly to the fact that the roofs do not have to be heavily built to support a trolley pole. It is desired to get them as light as possible, however, because of the waste of power in carrying extra weight.

The Edison Company were anxious to have us adopt the single truck car," said Mr. Rust. The cars are, except the Edison car of the Erie Railway, were single truck cars, 26 feet over all. They claim they can be operated cheaper because of the light weight and they also claim they can give a more efficient service because they can be run with greater frequency. We told them we had already objected to the single truck car of the Toronto street railway.

"The Gould cars," he continued, "have to be charged every night. It requires about six hours to charge the batteries, and they have to be taken out of the service for the purpose. The New York Company's officials reported that the Edison car did not run quite so long without charging."  
 Mr. Rust says that the Edison battery is not a good one. The New York Company's officials reported that the Edison car did not run quite so long without charging.  
 Mr. Rust says that the Edison battery is not a good one. The New York Company's officials reported that the Edison car did not run quite so long without charging.

There were many points in favor of the system, Mr. Rust said. It would do away with overhead wires and all the cost of overhead construction. It would dispense with the cost of bonding rails. There would be no electrolysis of gas pipes and water mains. The wear on the rails would not be so great.

Mr. Rust was not certain that conditions encountered in Toronto would result in the same satisfactory working as in New York. There they had no grades to go up. That might make a great difference, as considerable power would be used in making some of the grades encountered in Toronto. He thought it would be necessary to try the cars here before a definite decision as to their suitability to Toronto conditions could be determined.

Mr. Rust is of the opinion that the economy of the storage battery system as compared with the present system.

### VILLAGE SCHOOL BOYS WRITE TO THE WORLD

FOR PARTICULARS OF how to earn money without interfering with your studies.

Only one boy can secure the privilege in each village. Make application at once.  
 Address The World, Toronto

### "A Delightful Story" The teapot tells it when you use

will have to be determined before any decision can be arrived at, and to gather the figures to arrive at a conclusion will take some time.

Kenneth Aitken, electrical engineer for the city, who was Mr. Rust's co-worker in the investigations, has not yet returned from New York. Mr. Rust explained that he was getting figures as to the cost of installing and operating both the storage battery and trolley systems. He is also looking into the question of supplying the printing houses in the city with hydro-power when it arrives. He will endeavor to discover a means of using the hydro-electric current, which is alternating on the machinery of the printing presses which now use a direct current, with as little expenditure for the change as possible.

"We had a delightful interview with Mr. Edison," said Engineer Rust. "We found him quite enthusiastic over the possibilities of the storage battery. He is now conducting experiments with a view to being used as a motive power for motor boats."

### PACT WILL BOOM CANADA AUTONOMY UNHARMED

Toronto Liberal Executive Also Sees No Danger to British Preference.

Official Liberalism in Toronto stands solidly behind the reciprocity pact. This was made evident at a largely attended meeting of the executive committee of the Toronto Reform Association in the Forum Building, called last night for the purpose of discussing the terms of the Feilding-Knox agreement. Every local riding organization was represented and the vote on the following resolution, was unanimous:  
 "Resolved that the executive committee of the Toronto Reform Association, in special meeting convened, do hereby (1) place on record its confidence in and appreciation of the great work which has already been accomplished by their honored leader, the Right Honorable Sir Wilfrid Laurier, G.M.C., P.C., and his colleagues in the administration of the affairs of Canada; and (2) to express their strong approval of the reciprocity or free trade agreement so skilfully framed by the representatives of Canada, covering the affairs of the country, and including not only manufacturers, farmers and fishermen, but the great body of consumers, while not in any way interfering with Canada's autonomy or imperiling the imperial preference of Great Britain, at the instance of the Liberal party, has freely given to Great Britain."  
 It was signed on behalf of the executive committee by W. J. O'Reilly, secretary.

### The preservation and retention of Nature's gifts are the essence of Lina Cavalieri's illustrated talks in The Sunday World. Her hints on health are invaluable to every woman, either young or old. The Sunday World is sold everywhere for Five Cents.

### THE OPENING WEDGE

The Monetary Times, editorially discussing reciprocity, says:  
 "Free trade in foodstuffs is the backbone of the agreement. If it runs the bone of the Dominion Parliament and of congress, the tariff revision in future years will almost certainly mean free trade in manufactures. Trade lists and negotiations draw the countries together, more than does blood or sentiment. That is one reason why there is a United States of America. It may become the reason why one nation instead of two will dwell and legislate on the North American continent."

### Quashed Nuttal Decision.

Justices Mulock, Teetzel and Middleton, in the divisional court yesterday morning, quashed the decision of Judge Denton allowing James Nuttal, a resident of East Toronto, \$125 damages. Nuttal was driving from the Catholic cemetery when a radial car struck his wagon, killing one of his horses, and badly injuring himself. It was decided that a new trial without a jury should be allowed.

### William Terry's Estate.

William T. Terry, late bagman of this city, left an estate of \$25,779, in the divisional court yesterday. Real estate makes up the greater part of the estate, amounting to \$18,500. Thomas Terry receives a small share, while the remainder is divided among the widow and family.

### An Organ in Your Home For 50c.

Opportunity has come again for the old firm of Heinemann & Co., Limited, at their new warehouse, 103-105-107 Yonge-street, Toronto, to put out for sale some twenty-five organs, received in exchange when selling their well-known piano. These are all in good condition and are listed at from \$25 to \$85 and will be sold in payments of 50 cents a week. The stock cannot last long and it is the case of the early bird that will catch the worm.

### PREMIER'S BILLS ARE LABOR'S INTERESTS

Continued From Page 1.

ed the amendment in its entirety, and their commendation was added to by J. H. Fisher, N. Brant, who cited an instance where business men could not be induced to run on account of pressure of Christmas and New Year's business.  
 Dr. Jessop, Lincoln, favored it because of the moral urgency of having a complete vote on municipalities bylaw. J. R. Dargavel, Leeds, remarked that as a representative of a rural district he considered that the change should take place.  
 Hon. W. J. Hanna declared that he was opposed to it, but would like to see it thrashed out in the committee.  
 Premier Whitney said the idea was good, but Mr. Donovan was wrong as to the time. If a change were to be made, A. Ross, Monic, opposed it as too radical. He thought the rural municipalities would condemn it as the holiday afforded better opportunity for them to get out a large vote.

J. R. Dargavel, Leeds, remarked that as a representative of a rural district he considered that the change should take place.

 Premier Whitney said the idea was good, but Mr. Donovan was wrong as to the time. If a change were to be made, A. Ross, Monic, opposed it as too radical. He thought the rural municipalities would condemn it as the holiday afforded better opportunity for them to get out a large vote.

C. A. Brower, East Elgin, introduced a bill to amend the Public Schools Act. The bill has but one clause, which reads:  
 "The school year should consist of two terms, the first of which shall begin on the first day of September and shall end on the 22nd of December; and the second of which shall begin on the 1st of January and end on the 31st of June."  
 Hon. Dr. Pyne introduced the private bill of the Chartered Stenographers' Association.  
 R. Shillingham, Tainshaming, introduced the private bill for the Town of Cobalt, and G. W. Neely, East Middlesex, that for the Town of Petrolia.

### More Taxes or Deficit.

J. McEwing, West Wellington, in rebutting his criticism of the budget speech, said he was willing to give the government credit for its investment in hydro-electric power, but after placing those millions to their credit he couldn't see but that there was still a deficit of \$1,200,000, and this present year was bound to see a deficit of \$2,000,000 unless there was an increased taxation. The appropriations already cited totaled \$10,282,000, and the estimated receipts were \$8,000,000.  
 Hon. James Duff, before present, Mr. McEwing repeated in his hearing his criticisms uttered the previous day about using agricultural meetings for political stamping.

### Some Legal Loopholes.

As to the administration of justice, he had a suspicion that the "law reform" that was discussed on the floor in late years had missed fire. The Farmers' Bank incident was a sufficient warning. He was queering how they allowed a former president to get out of the country before they tried to get him.  
 "And now I see by statements in the press," proceeded Mr. McEwing, "that a warrant has been issued for another justice of the peace, a thing that he can't be found, especially since I saw him myself in this city the other day, and he was in a trolley."  
 A. Grigg, Algoma, said New Ontario's tariff reform was a good thing, but the Conservative Government's policies, and if one wanted to really learn the futility of the old government's efforts towards colonization up to the end of the world, he should visit the shacks and barns deserted by people who found it impossible to farm successfully on the soil that the Liberal Government saddled them on.

### Sale of Gilles Limit.

The government has been criticised for the sale of the Gilles Limit, but the critics forgot that the Liberal Government sold it at the rate of \$3 an acre, while the present administration was selling it at \$12 an acre. The critics also forgot that the minister of mines also stipulated for a ten per cent royalty.

The answers of New Ontario to the opposition was to be found in the fact that the thirteen ridings sent down a full baker's dozen of government supporters.

The opposition members were now enthusiastic for majority rule on the liquor question, but what did they do in the Ontario plebiscite but ignore a majority vote of 96,201, because it was not equal to half the total vote polled at the preceding provincial election?  
 Liquor in Timagami.

Mr. Grigg then went after a statement made by the previous speaker to the effect that the only way that liquor was being shipped into the Timagami district was over the government's own road. His honorable friend was shy on geography, and he would know that the Canadian Northern, and two lines of the C. P. R. provided very convenient avenues, and he would have him to understand that it was not by the fact of geography, but by the fact that the liquor was shipped into the Timagami district was over the government's own road.

Wasn't it a wonderful thing that the opposition had reached such a depraved state that they could applaud vigorously when told by Mr. McEwing that there would be a deficit next year? Better, they had wept. And they engaged the object of being paying \$15 a head for wolves, they were not wild. If the old Liberal Government had paid \$15 a head on all the human wolves who preyed upon the assets of the province, that great deficit so large that it could never have been met. As to the criticism of the small balance, Mr. Grigg considered it was right to spend every dollar of the assets in developing the province. It would return 60 to 100 fold.

### More Expenditure Needed.

It wasn't less expenditure; but more expenditure, that we wanted. We had invested upon thousands of acres upon which the foot of white man had never trod. Ontario industries were holding out their business to that country and were clamoring for its development and opening up.  
 In closing, the speaker said he admired the courage of the government opponents, but didn't know what to say about their judgment.  
 R. J. McCormick, East Hampton, moved the adjournment of the debate.

### STUDENTS STRUCK.

ST. PETERSBURG, Feb. 8.—Twenty-five hundred students of the university at a meeting to-day voted to go out on strike until Easter. The police made fifty arrests. The action of the students followed repressive measures by the cabinet, which recently deprived the undergraduates of certain privileges on the ground that these had been turned to political purposes.

**CITY CHINAMEN GIVE \$700**  
 Hoped to Reach \$1000 for Benefit of Famine Sufferers.

Rev. Dr. R. F. MacKay, superintendent of Presbyterian foreign missions, and active in promoting the Chinese relief fund, received a pleasant surprise yesterday afternoon, when four young Chinamen came into his office with \$700 as the gift of some of the Chinese of Toronto for the sufferers.  
 "This effort was promoted by Chinese students, who are not amongst the wealthy classes. In giving it over to my hands they modestly expressed regret that they had not reached the \$1000 for which they had hoped," said Dr. MacKay.  
 "It is a beautiful offering, and they were pleased to know that it will be sent to Dr. MacGillivray, in Shanghai, which will secure wise distribution."  
 "The distress in the famine district is simply indescribable and of course getting worse as the days pass. Our hearts have a touch of human sympathy. This is a time for its expression. These Chinese in our midst have given us an example."

**THOMAS ORCHESTRA.**  
 The orchestral matinee concert by the Theodore Thomas Orchestra, under Mr. Stock, takes place this afternoon at 2.30, with Mr. Brunel Steinfeld, cellist, as soloist. A management program has been prepared. The concert will commence promptly at 2.30.  
 Patrons are asked to specially note that the concert this evening commences promptly at 8 o'clock, that is a quarter of an hour earlier than the previous evenings, on account of the traveling arrangements of the orchestra. They should, therefore, endeavor to reach the hall not later than 7.45, as the doors will be closed during the first number, which is of considerable length.  
 A Novelty in Taxation.

A novel idea in taxation is broached at the State Grange, Professor A. E. Rogers, of the University of Maine, suggests that the poll tax of Maine be capitalized at, say \$100, and taxed the same as any other form of property. In that case, instead of being fixed at an arbitrary and unvarying sum from year to year, the amount of the tax would be greater or less each year, according as the tax rate were changed or not. The object of the plan is to give every voter direct interest in keeping the tax rate down and to secure more deliberation and a greater feeling of responsibility on the part of that class of citizens who pay only a poll tax.—Lewiston Journal.

**The Stomach Needs Help**  
 The Liver, Kidneys and Bowels Must Be Kept Active to Ensure Health.

**DR. CHASE'S KIDNEY-LIVER PILLS**  
 Not one person in a hundred can get along at this time of year without using something to enliven the action of the liver, kidneys and bowels. Too much eating of heavy artificial foods, too little outdoor exercise, this is the explanation.  
 The liver and kidneys are overworked in their efforts to remove the poisonous waste matter from the system. They fail and become torpid and clogged. The bowels become constipated and stomach derangements follow.  
 There is one medicine which will overcome this condition more certainly and more quickly than any other. This is Dr. Chase's Kidney-Liver Pills.  
 This medicine gets the bowels in action at once, and by awakening the liver and kidneys, ensures the thorough cleansing of the filtering and excretory systems.  
 With the poisonous obstructions removed, the digestive system resumes its healthful condition, appetite improves, pains and aches disappear as well as irritability and depression. You cannot imagine a more satisfactory treatment for biliousness, constipation, backache and kidney disease than Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Toronto.

**WELCOME LEAGUE OFFICERS.**  
 The following gentlemen have been unanimously elected to the board of the "British Welcome League": Rev. J. E. Gibson (Church of Ascension), J. Church (Church of England), J. E. Gibson (Church of Ascension), Rev. S. Wesley Dean (Frederick North's Wesleyan), Mr. John Firefoot (Firefoot Box Co., Mr. John A. Torry (Sun Life Assurance Co.), Mr. Thomas Howell (Canadian Northern Railway Co.), Mr. Arthur Hawkes (editor British News of Canada).  
**The Only Double-Track Route to Detroit.**  
 Via the Grand Trunk, and you have choice of trains leaving as follows:  
 8 a.m., arrives Detroit 1.45 p.m.  
 10 a.m., arrives Detroit 3.35 p.m.  
 11 a.m., arrives Detroit 10.50 a.m.  
 (a) 11 p.m., arrives Detroit 7.15 a.m.

## "EXOTICS" NOT FAVORED SAYS PLAYWRIGHT KLEIN

American Audiences Like Character Development in a Stage Production—Different in England.

Occupying a room on the third floor of the Prince George Hotel this week is a short, solidly-built, little Englishman, with dark, piercing brown eyes, that look out from under a pronoun of unusual prominence. His manner of dress is of the typical business man's style, that has no time for the latest creations. Charles Klein, one of the greatest of the American stage, as he moves about the streets of Toronto, attending each performance of his most recent comedy, "Maggie Pepper," with a view to studying, and if possible, improving his presentation, might easily be taken for the most ordinary citizen, did not the observer take particular notice of the strong personality portrayed by the keen eyes, and thin, firmly held lips, that are the marked features of a round genial face.

Mr. Klein has made a life study of the representation of character on the stage, and in his 23 years' experience as a playwright he has been the author of 40 plays, including every form of drama, from the laughable farce to the deep melodrama, or, as he put it himself, "even to the psychological tragedy, thrown in by way of good measure."

A Pioneer "Muck-Raker." His drama, "The District Attorney," written 20 years ago, gave him the distinction of being the author of the first play on municipal corruption. This came as a forerunner of a host of condition plays, more commonly termed the business dramas. He is also the first playwright in America to use hypnotism as a subject in his plays. Among his most notable productions are: "The Lion and the Mouse," "The Third Degree," "The Music Master," "The Auctioneer," "El Capitán," "Heartsease," which was written especially for Henry Miller, and "The Gamblers," which is now running in New York at the Maxine Elliott Theatre.

"The tendency of the modern drama is partly towards realism, but mostly towards development of character," said Mr. Klein. "This appeals most strongly to the American people. The French and English audiences favor the exotic erratic drama of sex, of the triangle drama, as it is called. At present there is a slight tendency to regard the problem and pessimistic dramas, but we are rapidly outgrowing this tendency to imitate foreign authors."

Asked concerning the success of the present season, the noted playwright said: "The American drama at the present moment is having a very good innings. American authors seem to suit the public taste. Premiere operas and English musical comedies are also popular. French plays have been a failure this season, the exception of "Chanticleer," English plays have met with but slight success, and it looks very much as if this state of affairs would continue, as public taste seems well set. This American author is not only writing good plays, but is giving theatregoers good value for their money."

Comedy Not Waning. Mr. Klein's strongest plays are his

comedies. The World representative ventured the question: "Do you agree with Weedon Grossmith, the English comedian, in his contention that there is no real comedy in America?" "I do not," came the reply. "American comedy is distinctly not on the wane. On the contrary, it is in a state of development, which shows a marked improvement every year. Maude Adams, Rose Stahl, David Warfield, and William Collier are a quartet of the finest exponents of comedy on the English-speaking stage."

Mr. Klein added: "Grace George is also very strong as a comedienne. She is a young Ada Rehan. I am very fortunate in having secured an artist like Rose Stahl to play the chief character in 'Maggie Pepper,' as the success of the play is due largely to the fact that an artist of her calibre brings out the latent qualities of that character, which is by no means an easy part to play."

Theatrical Piracy. "I trust that you will be able thru your newspaper to draw the attention of the Canadian Government to the fact that American authors are suffering a great injustice at the hands of Canadian companies, who are pirating their plays in Canada without any financial remuneration to the authors. In that direction would be very much appreciated by the authors and composers of America. They steal our plays and play a mutilated version of it, which is a hardship to the author, and also to the legitimate actor, who finds he is unable to make a living in Canada on account of the country being swarmed with pirates who play unauthorized versions."

Charles Klein was born in England in 1886, and was educated for the bar. After practicing for a few years, he came to New York to study play writing. Of the forty plays he has written, thirty have been produced, which is an exceptional record for a member of that profession—the other ten he admits are unworthy of production.

"We have several excellent Canadian actors on the American stage, and an act repressing piracy would greatly benefit them apart from that it is a single act of justice," he concluded.

Mr. Klein is well satisfied with "Maggie Pepper," in the present form, and will leave the company to-day. The play opened last week in New Haven, Conn.

## NO ENCOURAGEMENT FOR SHEET STEEL BOUNTIES

Government Rather Engaged in Effort to Get Rid of Them, Says Fielding.

OTTAWA, Feb. 8.—(Special.)—Hon. W. S. Fielding, in replying to the demands of a deputation from Morrisburg, asking for a bounty on sheet steel, did not hold out very much encouragement that steel bounties will be renewed in any form. He said that, while the request would receive the serious consideration of himself and his colleagues, he could not give any definite reply at the present time.

"You come to us," he said, "at a time when we are not anxious to extend our bounties, but are rather engaged in a noble effort to get rid of them." He went on to say that some of the iron and steel bounties had already expired, and that the majority of the members of the house were disposed to be hostile to the idea of the government giving bounties of any kind. He added that the government would not grant a bounty on goods for export. Should Canada do so, the United States would immediately place a countervailing duty on such products going into that country. The government in the past had been obliged to decline to grant increased protection to the sheet steel industry because its product was the raw material of other manufacturers.

What the deputation asked was for a bounty of not less than five dollars a ton on sheet steel made in Canada, in view of the fact that the duty of five per cent. will be removed by the reciprocal agreement recently arrived at between Canada and the United States. It was pointed out by the members of the deputation who were introduced by Andrew Broder, M.P. for Dundas, that it was the aim of the industry whose raw material is sheet steel. If a bounty were granted for five years the desired result would be attained.

## CHURCH NOTES.

Rev. Canon Gould, secretary of the Anglican Laymen's Missionary Movement Committee, has left for Ottawa to speak at a young people's mission-ary movement meeting, then going to Montreal, where he will speak to several church congregations.

He will be back to-morrow, then leave in company with Secretary Allan of the Anglican Mission for Berlin, Waterloo, Preston, Gait and Burlington, to address missionary meetings in those towns.

A men's meeting for the parish will be held in St. Matthew's Church to-morrow, to consider matters of parochial interest.

Archdeacon Cody will speak on missionary affairs.

## WON'T GRANT FRANCHISE ON SECTIONAL VOTE

Aldermen Oppose Method Proposed by Steam Heating Company.

The civic legislation and reception committee yesterday afternoon refused to recommend that the council request the provincial legislature to amend the Beck Act regarding franchisees so that any district in the city wanting heat from a general heating plant may get permission to do so on their declaring for it irrespective of the other sections of the city.

H. D. Gamble, who was referred to the committee by the board of control, sought such action on behalf of the Dominion District Heating Company, which is desirous of supplying the residential section of Rosedale. He contended that it was purely a matter for the district to decide. He argued that it was in the nature of a local improvement, and that every district wanting heat supplied in this way was entitled to take a vote on it and get it without submitting it to the city at large. The system could only be operated successfully within a radius of about a mile and a half and was, therefore, purely local.

Gate to Wealthy. Ald. McCarthy drew the admission from Mr. Gamble that if the city granted franchises to companies for choice parts of the city it would be difficult to get any company to undertake to supply the remainder of the city in event of that kind of heat being found satisfactory.

Controller Spence took the stand that it was a matter which should be looked into by the city with a view to supplying heat from a municipal plant. He hoped the city would never give any public franchise involving the use of its streets again and until they had been convinced it was not a kind of work the city should undertake he was opposed to allowing any private corporation the use of the city streets for this purpose. He contended it was a matter which concerned the whole city, and called for the approval of the whole city. He declared that what was sought was exactly what the Beck Act was introduced to prevent. It was a matter which interested the people of Parkdale as deeply as those of Rosedale.

Ald. Rowland moved that the committee recommend that the request be granted, but he was the only one voting in favor of the motion.

Oppose Later Elections. It was decided to oppose the bill introduced into the legislature by A. E. Donovan, M.L.A., providing for municipal nominations on the second Monday in January, elections on the third Monday and the inaugural meeting of the council on the fourth Monday on the ground that the council would be too

**EDDY'S MATCHES**  
ALWAYS EVERYWHERE IN CANADA

## AGAIN SEEK FRANCHISE FOR STEAM COMPANY

Controllers Asked to Amend Beck Act—Grant of \$2000 For Playgrounds.

The question of the city seeking an amendment of the Beck Act, respecting franchises providing for the granting of a direct franchise for steam-heating, took up considerable time of the board of control yesterday morning. The question was introduced by H. D. Gamble, appearing on behalf of the Dominion District Steam Heating Co., which is anxious to supply heat to Rosedale residents.

Controller Hooken was inclined to accede to the request, but the other members of the board, and particularly Controller Spence, who made his first appearance after almost three weeks' illness, took an opposite view, the result being that the matter was referred to the legislation and reception committee.

Grant to Playgrounds. A deputation from the Toronto Playgrounds Association, consisting of C. A. B. Brown, James L. Hughes, A. P. Lewis, Mrs. Huestis and Mrs. (Dr.) Torrington, asked for \$2000 to cover the cost of supervising public playgrounds during the year. Mr. Brown, on behalf of the deputation, announced that they had \$12,000 in the bank and \$5000 promised, which it was intended to use in the establishment of the McCormick playground.

It was decided to accede to the request, when the estimates come up, and in the meantime there will be a

## CONFERENCE ON SECTIONAL VOTE

Aldermen Oppose Method Proposed by Steam Heating Company.

The civic legislation and reception committee yesterday afternoon refused to recommend that the council request the provincial legislature to amend the Beck Act regarding franchisees so that any district in the city wanting heat from a general heating plant may get permission to do so on their declaring for it irrespective of the other sections of the city.

H. D. Gamble, who was referred to the committee by the board of control, sought such action on behalf of the Dominion District Heating Company, which is desirous of supplying the residential section of Rosedale. He contended that it was purely a matter for the district to decide. He argued that it was in the nature of a local improvement, and that every district wanting heat supplied in this way was entitled to take a vote on it and get it without submitting it to the city at large. The system could only be operated successfully within a radius of about a mile and a half and was, therefore, purely local.

Gate to Wealthy. Ald. McCarthy drew the admission from Mr. Gamble that if the city granted franchises to companies for choice parts of the city it would be difficult to get any company to undertake to supply the remainder of the city in event of that kind of heat being found satisfactory.

Controller Spence took the stand that it was a matter which should be looked into by the city with a view to supplying heat from a municipal plant. He contended it was a matter which concerned the whole city, and called for the approval of the whole city. He declared that what was sought was exactly what the Beck Act was introduced to prevent. It was a matter which interested the people of Parkdale as deeply as those of Rosedale.

## CUSTOM CUTTERS' DISPLAY

In one of the spacious parlors of the King Edward Hotel an exhibition of 3011 fashions in custom tailored clothing for men and women is being conducted by the Toronto Custom Cutters' Association. The exhibit started yesterday and will continue until to-morrow night, during which period there will be four sessions of practical work-drafting, cutting and making of try-ons to demonstrate on work produced. The garments displayed started from Vienna, Paris, London and New York some weeks ago, were inspected by the custom cutters of the United States for ideas, and arrived in Toronto from Detroit yesterday.

## WILL NOT SUE FOR SLANDER

Mrs. Kate Devaney, who lost her action for libel and conspiracy against Rev. G. R. Fadden, Thos. Urquhart and F. H. Keough, but was allowed by Justice Riddell to continue action for slander, has decided not to continue the case.

## TOBACCO HABIT

Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires touching the tongue with it occasionally. Price \$2.00.

## LIQUOR HABIT

Marvelous results from taking his remedy for the liquor habit. Safe and inexpensive home treatment; no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed.

Address or consult Dr. McTaggart, 15 Yonge Street, Toronto, Canada.

JENNIE W. IN 5 HEATS WINS FREE-FOR-ALL AT OTTAWA

Hal B., Jr., Takes First and St. Anthony the Fourth at 14 to 1—Ice Races Close Today.

OTTAWA, Feb. 8.—Jennie W., the great little brown pacer owned by L. J. Tarte of Montreal, defeated Hal B., Jr., and St. Anthony and carried off the free-for-all in to-day's card of the Central Canada Ice Racing Association.

Hal B., Jr., in the stretch and won by a nose in a driving finish. St. Anthony again trailing. The time was 2:17. In the third heat it was Jennie W. all the way, Hal B., Jr., caught Tarte's little pacer at the half, but Jennie W., who is a daughter of Alamy, proved too fast and again outstepped her opponents in the stretch.

The classified race carried over from Tuesday went to Dan Fisher after Castle Pointe, which was classified, and two other classified went to Alyce in three straight. The third classified was unclassified.

In the B. League, the first two games from the College team, the latter put up a 975 count in the last time in great style, totaling 411, while Bill Volden, the anchor of the College bunch, was next, with 601.

In the A. League, the first two games from the Tariff Dept. won the odd game from the Tariff Dept. by one pin.

The A.O.U.W. game resulted in Trinity winning three straight from Granite, Joe Harper, with 545, was the high man. The scores: Midnight Sons—2 3 T. T. 1. 189 159 108-508.

O'Keefe's Special Extra Mild Stout. It is a special brew—light, mild and will not make you bilious—yet has the rich, creamy flavor of the finest imported brands.

BACHELORS GET TRIMMING LACKWANAN'S NEW RECORD

Robinson Rolls 603 and Railroaders Win in Payne League—Scores of Night.

Billy Mub-Gray's Lackwanas steamed away with two games from the "Singles" in the Payne League last night, and also hung up a single game record when they knocked down 984 in the last game.

Classified race, purse \$300: 1. Castle Pointe, b.m., 193. 2. Alyce, b.m., 182. 3. Bert Nether, b.g., H. Brusie.

In the Rosedale I.O.O.F. Two-Man League last night, Red Rose and Tuberoses played a postponed game, Red Rose winning three games. Scores: Jones—137 151 125 143 165.

In the Central League last night, the Royal Green won three from the Tenth. Following are the scores: Tenth Sergeants—1 3 3 T. T. 1. 125 111 357.

Match Game Irish vs Dutch.

On the Brunswick alleys last night, the Irish met the Dutch in a match game, which resulted in the Irish winning the odd game. The scores: Irish—1 2 3 T. T. 1. 123 136 128-358.

Hotel League. The Gorman dropped two to the Cameron in the Hotel League last night. The scores: Gorman—1 2 3 T. T. 1. 153 185 148-486.

R. C. C. League. The Owls corralled two games from the Storks in the Royals' B'd League last night. The scores: Owls—1 2 3 T. T. 1. 133 157 151-441.

Gladetone League. The Canadas won the odd game from the Careys in the Gladetone League last night. The scores: Canadas—1 2 3 T. T. 1. 141 183 163-487.

Montreal Curler Dies of Heart Disease. MONTREAL, Feb. 8.—Deaths of Montreal were last night shocked by the news of the sudden death of Mr. Robert Sampson.

Little Jeff's Choice of a Top-Piece Proves Unsatisfactory to Mutt. A cartoon depicting a man (Mutt) and a boy (Jeff) talking about a top-piece. Mutt says: 'I'll get something classy, something new. I'll knock Mutt dead.' Jeff says: 'Well, well, if it ain't Jim Blyler!'

The Toronto World

FOUNDED 1880. A Morning Newspaper Published Every Day in the Year.

WORLD BUILDING, TORONTO. Corner James and Richmond Streets. TELEPHONE CALLS: Main 5303—Private Exchange Connecting All Departments.

THURSDAY MORNING, FEB. 9, 1911.

THE COST OF RECIPROCITY.

The Canadian Century publishes a remarkable article written by Mr. George D. Griffin of Toronto, in his eighty-sixth year, on the reciprocity treaty of 1854, between Canada and the United States...

comes under the charge of obtaining money from the public under false pretences, or of acting for the benefit of the telegraph companies. A gentleman brings a recent case to notice as a sample of what frequently occurs.

This recalls the case of the man who for convenience mailed a small parcel at the nearest postoffice so as not to have to carry it home. Two days later he received a notice stating that there was a parcel at the postoffice for him, too heavy for the carrier to deliver and he could have it on calling. This happened in Toronto.

BIBLE TERCENTENARY.

In celebration of the tercentenary of the issue of the authorized version of the English Bible, a mass meeting is to be held in Massey Hall next Tuesday, under the auspices of the Upper Canada Bible Society.

OVER-CAPITALIZATION AND INVESTORS.

Responsible financial authorities in the United States recognize that the jugglery of high financiers, so repeatedly disclosed thru investigations, such as those of the New York and Chicago street railways, have cast world-wide suspicion upon the securities of public service corporations.

BANK MERGERS.

According to a Montreal despatch published yesterday the truth of which was later denied, the Bankers' Association, at a meeting in that city last week, urged the smaller banks to seek absorption by the larger ones, that existing competition would leave them little hope of success.

PARENTAL RESPONSIBILITY.

One regrettable feature of the growing independence of women and the employment of young girls in business, is the loosening of home ties and domestic influences. There are homes, of course, which do not invite the confidence of the children born in them, and there are some children that no influence can reach, but the carelessness or the bad example of parents is chiefly responsible for the character of the young people of the city.

Porcupine Notes

Porcupine City, Feb. 7.—(From Our Man Up North.)—One of the things that is positively and assuredly true is that the man who worked his claims last fall and made finds is now getting a look in from the buyers.

G. F. Clark, well-known mine man of Toronto, is here with W. A. Edwards, who is endeavoring to tie up several properties with big showings. It is claimed that Edwards is just as high to work the properties to make showings that a better figure might be asked, as he is to sell them, unless the Bewick-Moreing crowd are willing to take them over to advantage.

The general supposition that Edwards of Dome fame had disposed of all of his holdings in the Dome and the Dome extension, is apparently wise of the mark. It is announced that Edwards is to visit the properties in both properties, and is now anxious to corral more lots.

It is not every president of a big mine syndicate who waits over a year before he visits the holdings in which he is pouring a mint of money, but when President Hillard of the Scotch-Ontario lands in the camp it will be his first visit to this section. His rule is to wait till the properties are developed, before time is taken to inspect the work.

West of Detroit, the holder of the Brierley claims in Northeast is having a good time with his friends at home. A postcard sent out today with West's name signed to it, says in giving a description of the country: "On the 9th of February I passed Cook 80 miles to the south, returning to Spitzberg. Had found out with dog team back on the trail; still have them with us in the country. The country is very best of the best. Expect to reach port by Feb. 31. Don't tell Peary. Clerk of weather reports fair, mild, 67 below zero.—B. C. W."

All the certificates of record on properties issued now by the government at the recording office read "right-of-way right reserved." This is to protect the railway commission in extending the railway line through the district, which may later appear feasible.

Broker Clairmont of Montreal is here looking for properties such as will suit his clients. C. W. Hitchcock of Cleveland, Ohio, and party, are looking over the camp with a view of getting something good. They do not want any more in a northern store Saturday night. The looters were gentlemen, too, and took only such articles as were good to keep out of the frost. The less is said to be about \$50,000. With freight going to the Mattingly River district at the rate of 25 loads a day, teamsters state that they will be just about able to get in all that is needed before the break-up comes.

Machinery for the Dome mill is about all in that can come just now, and the building material for the erection of the mill is being hustled. The Duke of Connaught has evidently a high opinion of the Queen's Own Rifles, according to a letter received by Sir Henry Pellatt. His royal highness expressed himself as delighted with the Q. O. R. should make such a successful record in the former country, and states that he is confident the regiment earned the respect and good will shown it by the imperial troops.

"KITS" NEW VENTURE. "Kit" who for more than twenty years has conducted "Woman's Kingdom" in The Mail and Empire, has resigned from the staff of that paper. Kit will continue in journalism, as well as in magazine work.

More C. P. R. Plans. Further information as to the plans of the C.P.R. for improvements in the city was contained in a letter to Mayor Gear from D. McNeill, vice-president of the system, which has already been announced in the paper. In addition to plans already announced the letter states that with the opening of spring a local freight delivery will be put in at Bloor-st. A freight warehouse on the company's property at the foot of George-street, is also included.

York-Street Playground. The board of education have purchased from the Title and Trust Co. property on Richmond-street, adjoining the York-street School. The land, which has a frontage on Richmond-street of 42 feet and a depth of 190 feet, will be converted into a supervised playground for the children of the neighborhood. The price paid was \$400 a foot.

Think Government Should Pay for Registration of Deaths at Rockwood Asylum and the greatest railway authority in Great Britain, died today after a long illness. He was one of the two or three men blamed for the failure of the veto conference.

Earl Crawford Dead. LONDON, Feb. 8.—Frederick Archibald Crawford, the third Earl of Crawford, and the greatest railway authority in Great Britain, died today after a long illness. He was one of the two or three men blamed for the failure of the veto conference.

To Confer on Customs. J. H. Bertram, collector of customs for the port of Toronto, left yesterday for Ottawa, to confer with the department on matters pertaining to the local duty house.

Had Kidney Trouble. Miss Hazel Hess, Winchester Springs, Ont., writes: "I was troubled with my kidneys for five years. They were so bad, at times, I could not cross the floor for the pain. The doctor could not do any good, and I was advised to use Doan's Kidney Pills. I bought six boxes and now I have been cured for over four years. I will recommend them to every sufferer."

No woman can be strong and healthy unless the kidneys are well. When the kidneys are ill, the whole body is ill, for the poisons which the kidneys are to filter out of the blood are left in the system. Then how important it must be to see to it that this system of sewerage is not clogged up.

Doan's Kidney Pills are a purely vegetable medicine, realizing quick, permanent relief, without any after effects. A medicine that will absolutely cure backache and all forms of kidney and bladder trouble.

Doan's Kidney Pills are 50c. per box or 3 for \$1.25, at all dealers or mailed direct, on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's."

TRANSFERS TO BE WITH TRUST COMPANIES.

An over issue of stock by the Little Nipissing Co., and the agitation started by The World has brought quick action from the Standard Stock Exchange. The committee of the exchange has requested that the companies whose stock is listed shall as soon as possible have the transfer books of the company placed in the hands of a trust company.

NO SECOND PAYMENT MADE ON SCOTTISH-DNT.

Full Cash Payment Made When Property Was Proven Up—Balance Will Be Stock.

Porcupine City, Feb. 7.—(From Our Man Up North.)—Relative to the many rumors, and one can hear most anything concerning this or that property, that the Scotch-Ontario had just made their second payment on the two purchases of properties that comprise the syndicate's holdings, Secretary Willocks said to The World today.

The story that the syndicate had made their second payment on the property is all nonsense. The facts are that as soon as the syndicate was satisfied with the showings, all the money that was due to the original holders was paid to them, and that some time ago. In all the present holdings net the company \$400,000, but not all of this amount went in cash to the original holders.

There was no second payment made. When the syndicate started work over a year ago, they did so with practically no payment except an assurance. The payment which could well be known as the first one, came in time and when the property was proved up the entire balance was paid at once.

Should the company's holdings be stocked, which it is presumed may be decided after President Hillard's visit here next week, then the original holders will get a portion of the \$400,000 in stock, but so far as money payments are concerned, the property is fully paid for.

To the Sunday School teacher and pupil, the International Sunday School Lesson that appears in The Sunday World each week will be found a wonderful help.

The Sunday World is for sale by all newsdealers and newsboys.

TO CONSIDER GRAFT REPORT

Ontario Cabinet Likely to Discuss Judge Snider's Finding Today.

Sir James Whitney stated to The World yesterday afternoon that the Ontario Government expected to take up and consider the report received Monday from Judge Snider, upon the investigation into the charges of graft in North Oxford.

The Duke of Connaught has evidently a high opinion of the Queen's Own Rifles, according to a letter received by Sir Henry Pellatt. His royal highness expressed himself as delighted with the Q. O. R. should make such a successful record in the former country, and states that he is confident the regiment earned the respect and good will shown it by the imperial troops.

"KITS" NEW VENTURE. "Kit" who for more than twenty years has conducted "Woman's Kingdom" in The Mail and Empire, has resigned from the staff of that paper. Kit will continue in journalism, as well as in magazine work.

More C. P. R. Plans. Further information as to the plans of the C.P.R. for improvements in the city was contained in a letter to Mayor Gear from D. McNeill, vice-president of the system, which has already been announced in the paper. In addition to plans already announced the letter states that with the opening of spring a local freight delivery will be put in at Bloor-st. A freight warehouse on the company's property at the foot of George-street, is also included.

York-Street Playground. The board of education have purchased from the Title and Trust Co. property on Richmond-street, adjoining the York-street School. The land, which has a frontage on Richmond-street of 42 feet and a depth of 190 feet, will be converted into a supervised playground for the children of the neighborhood. The price paid was \$400 a foot.

Bewick-Moreing Party Will See Many Claims

Largo Number of Properties Will Be Offered on Option to Big English Syndicate.

Porcupine City, Feb. 7.—(From Our Man Up North.)—So far as it is now known, the following properties are to be offered to the Bewick-Moreing party on their arrival here, and no pains will be spared by those who have the engineering of the deals to see that the district's visitors get on with the claims. The Flynne hold the largest number of options on claims that will be handed over to them at prices which the properties merit.

The Johnstone claims in Northeast Ogden, near the Deloro line, recently taken over by local parties; the so-called Feldon claims in Thelade, being worked by a London syndicate, which were optioned by the Flynne; the Lindenberg, known as a part of the Vpind, owned by the Flynnes, and on which sampling has been going on by Engineers Miller and Leyson; the McIntyre near the Deloro line, which was optioned by the Flynne; the Pearl Lake, also being sampled by Engineers Miller and Leyson; the Martin, held by C. T. Young of Hallesbury; the Smith Veteran, which W. A. Edwards of Chicago is endeavoring to option, and now held by Day & Gordon of Hallesbury; the four Davidson claims, should the present deal now pending go thru before the English party leaves the camp, and the Hughes properties, lately taken over by the Flynnes.

The Mulholland claims, to the east of the Scotch-Ontario, are tied up at present to Alex. Miller of the Miller Porcupine, and there may be a deal consummated in a few days. W. A. Edwards is anxious to close for the Mulholland, in anticipation that he may be able to get favorable action on the Smith Veteran and the two Mulholland from the Bewick party.

All the properties mentioned have been optioned by Messrs. Scott, Davidson and the Martin, in the latter instance from \$100,000 up to \$300,000. The McIntyre has been off the market for some time. Charles Fox.

HARGRAVES' ANNUAL

Earnings for Year Were \$71,148—Balance on Hand \$43,820.

The annual meeting of the Hargraves Mining Co. was held yesterday-afternoon. The report showed receipts for the year from sales of bullion, etc., of \$71,148.54. The balance on hand at Dec. 31, 1909, of \$31,272.02, made a total of \$102,420.56. Expenditures during the year were \$38,800.78, leaving a balance on hand of \$63,619.78. The report also showed that the bank of \$43,820.38, the balance on hand and the amount of \$19,799.40, at the end of 1910 of \$31,272.02, made a total of \$102,420.56. Expenditures during the year were \$38,800.78, leaving a balance on hand of \$63,619.78.

THE OTHER SIDE

Mr Boldt Explains His Attitude re Little Nipissing Over-Issue.

The World has received a communication from J. E. Boldt of New York, a mining promoter, who is well-known in Toronto and Montreal, in which he takes exception to certain statements in an article re the Little Nipissing over-issue of stock, published in The Sunday World of Feb. 5. It was stated in the article in question he "could not understand" the fact that Mr. Boldt's action in the episode.

The World gladly publishes Mr. Boldt's letter which explains his attitude in the episode. Editor World: I will state that part of my tale has been unfolded, and I will call your attention to the circular letters sent to the Little Nipissing shareholders by Messrs. Purdy & Co., which he takes exception to, and certain statements in an article re the Little Nipissing over-issue of stock, published in The Sunday World of Feb. 5. It was stated in the article in question he "could not understand" the fact that Mr. Boldt's action in the episode.

GOLD IN DELORO

Mineral Wealth is Being Uncovered in Larger Quantities.

Porcupine City, Feb. 7.—(From Our Man Up North.)—Raymond Mancha leaves to-night for the front and to The World said: "We have fine gold on another claim of our group of 18 in southeast Deloro, and there is every reason to believe that, at least when our big veins are opened, more free gold will come to view."

All along in the eastern and southern part of Deloro the showings are apparently coming better each day. Those who are interested in that section are exerting every effort to get in more work, for it is only when the showings are made that buyers take notice.

It should be well remembered that in many respects Porcupine differs from other northern camps. Showings must be made before sales take place if any amount of money is passed. If there are no showings, there are very few enquiries as to any particular section.

Unns. fox.

Controlled Church Praised. Controller Church's aid in the fight against the Long Sault power scheme, defeated in the U.S. Congress, by introducing the matter to the board of control was warmly commended by Mayor Geary yesterday.

MARKET FOR COBOLTS GRADUALLY IMPROVING

Brokers Report Increased Public Demand and Talk Higher Prices—Some Advances Made.

World Office, Wednesday Evening, Feb. 8. The market for Cobalt stocks has brightened up considerably during the last few days, and there is a much better feeling in relation to the silver mining securities in local brokerage circles.

It is felt that the recent heavy declines in the majority of the listed issues were not warranted in the face of the generally improving conditions in the camp, and the fact that the public demand for Cobalt shares is strengthening considerably, has roused bullish sentiment to such an extent that advances are talked of for almost all the active issues.

The market gave direct evidence of this feeling today, an all-round appearance of firmness being the dominant characteristic. Small advances were made in various instances, and offering close it was stated that brokers held substantial buying orders which they had been unable to fill.

Much of today's buying was concentrated in Beaver, which is being accumulated by parties who are supposed to be in intimate touch with conditions at the mine. The shares have advanced about five cents within a week, and are displaying remarkable firmness at present market quotations, responsible buying being in evidence from day to day.

The fiscal year of the Beaver Company does not close until the end of the month, so that the annual meeting of the shareholders cannot be held until after that date. The meeting on Saturday of this week is the regular monthly meeting of the directors, not the annual meeting, as reported in yesterday's World.

The dividend paying Cobalts were nearly all higher today. La Rose sold up to \$4.85 for a small lot of the shares, an advance of 10 points from yesterday. McKimley gained 5 points at \$1.65, and Prithwey was also above its previous level, the stock touching \$1.08 1/2 and closing strong at the figure.

In the cheaper issues, Little Nipissing moved up a point to \$7 1/2. Little Nipissing sold as high as 6 5/8, and other firm points were also noted. There was renewed promise on Little Nipissing on the rally and the shares sold back to 6 1/4 later recovering to 6 1/4. Hargraves dropped nearly two points at \$2 1/2, after selling early in the day at \$2 1/2.

New York Curb. Charles Head & Co. 127 1/2. Standard report the following prices on the New York curb: Argentina, closed 2 to 4. Bailey, 2 1/2 to 3. Buffalo, 2 to 3. Colonial Silver, 3 to 10. Cobalt Central, 9 to 9 1/2. Foster, 2 to 3. Green Mountain, 1 to 1 1/2. Hargraves, 2 to 2 1/2. Kerr, Lake, 7 to 10. King Edward, 9 to 12. La Rose, 4 to 5. Little Nipissing, 5 to 6. McKimley, 1 1/2 to 1 3/4. Prithwey, 1 to 1 1/2. Silver Leaf, 1 to 1 1/2. Union Pacific, 1 1/2 to 2. Yukon, closed 4 to 1 1/2.

Toronto Stock Exchange Curb. Beaver—4.00 to 4.25. Buffalo—1.50 to 1.75. Canadian Power—10 to 12. Little Nipissing—6.00 to 6.50. McKimley—1.50 to 1.75. Prithwey—1.00 to 1.25. Silver Leaf—1.00 to 1.25. Union Pacific—1.50 to 2.00. Yukon—4.00 to 4.25.

THE WET AND THE DRY

Unique Position of Hotelkeeper at Jasper. BROCKVILLE, Feb. 8.—(Special.)—T. E. Connot, proprietor of the Nevens House, Jasper, has purchased the Fitzgerald Hotel there, and will conduct them both. The Nevens House is in Wolford Township, which carried local option, and in consequence, after May 1 the hotel will be deprived of a license. The Fitzgerald Hotel, is in Kitley, which is not a "dry" township, and Connot will hold the unique position of being proprietor of two hotels in the one place, one of which will be a local option house, and the other will not.

BLAZE IN A HOSPITAL.

BROCKVILLE, Feb. 8.—(Special.)—The matron and nurse of the General Hospital proved fire fighters to-day. An over-heated smoke pipe of a hot water furnace caused a blaze to get deep-seated in the window casing between the sun parlor. After ripping away the casing with improvised tools, the ladies applied the chemical extinguishers recently installed by the government. The whole thing was so neatly and quietly done that no alarm was caused among the patients of the institution.

Iron Age notes Some Improvement in Steel Outlook

Attempt To Distribute Stocks Gives Depressed Tone to Market

Wall Street Interests Seek To Hand Out Securities in Heavy Market—Irrregular Movements in Toronto Exchange.

World Office, Wednesday Evening, Feb. 8. Irregularity due to professional selling and profit-taking gave the Toronto stock market a ragged appearance to-day.

There was no breadth of speculation to-day, but the dealings were pretty well diversified, and only in the case of Mackay common were quotations noticeably influenced by offerings.

General impression at the close was that the market is still building up, but that the supervening trading compels a slow movement.

Appetising Bargains

The effect of these trade stimulants is felt in every department of the community, not excepting musical circles, supposed to be just now absorbed by the annual fete in Massey Hall. Our artist depicts the usually straight and solemn notes of the scale making a joyful noise, exhibiting the antics of the acrobat, and breaking forth in other demonstrations of happiness and hilarity. This is on account of the marvellous chances for economy offered in our page of store news for to-morrow's customers.
