Grand Trunk Pacific Railway Means to Span Canada

Another Transcontinental Line Officially Announced to Run From Gravenhurst or North Bay to Port Simpson, B.C., 600 Miles North of Vancouver, Tapping the Treasury House of a New Empire—Work to be Pushed and Completed Within Five Years—The Cost Estimated at \$100,000,000—What It Means to This Country.

Montreal, Nov. 23.—(Special.)—Mr. Charles M. Hays, general manager of the Grand Trunk system, made today highly important statement to-day that Canada's second transcontinental highway will be built by the Grand Trunk Railway Co. the stupendous undertaking involving the construction of from 2500 to 3000 miles of lines and an expenditure, including equipment, station, bridge, shop and other facilities of from \$75,000,000 to \$100,000,000.

Of Highest Standard.
"Like our Grand Trunk Western gateway extending from Port Huron, Michigan, to Chicago," the second vice-president of the Grand Trunk said in making the official announcement regarding the new steel pathway, which will tap the rich chain of agricultural strongholds and business that extends from the upper great lakes to the north Pacific coast, "this line will be constructed under a separate corporate name, to be the Grand Trunk Pacific Railway Co. and will be of the modern and up-to-date character, having in view especially low grades, long tangents, steel bridges and heavy rails, as well as ample station facilities and equipment for the handling of both freight and passenger traffic; in fact, the road will be of the highest standard in every respect."

Starting Point.
It is learned that the road will run from a point on the Grand Trunk line between Toronto and North Bay up to and across the French River, making connection with the Clergue railway at Sudbury and westward to Fort Arthur.

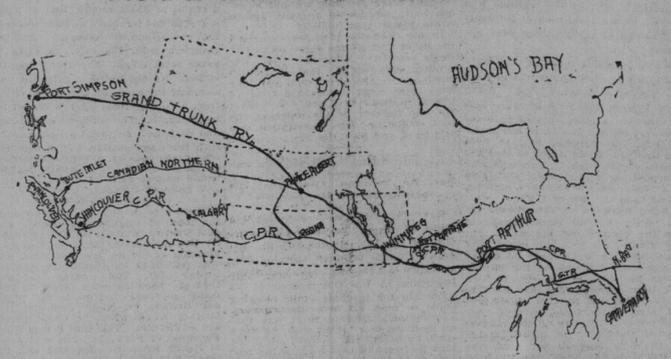

Official Statement.

The official statement reads as follows:
"According to the present arrangements the new system will run thru that portion of Northern Ontario familiarly known as 'New Ontario,' thru Manitoba and Saskatchewan, Assiniboia and Alberta, by way of the Peace River or Pine River Pass, and thru British Columbia, striking its terminus on the North Pacific coast."

Will Go Right Ahead.
The foregoing project has been under consideration for a long time by the directors of the Grand Trunk Co., and during Mr. Hays' last visit to England the resources and possibilities of the great Northwest were laid before Sir Charles Rivers Wilson and other members of the board in a comprehensive and convincing way by the company's chief executive in Canada, the result being that they are now prepared to go right ahead with a railroad extending from North Bay or Gravenhurst, Ont., on the line of the Grand Trunk system to either Bate Inlet or Port Simpson, B.C., as may be determined later on.

Great Possibilities.
"No one who has been studying the wonderful developments that have taken place in the Northwest during the last few years," said Mr. Hays, "can fail to be deeply impressed with the growth of that extensive and rich territory, and our directors feel that in view of the apparent need of additional railway facilities and in order to guarantee to the present Grand

ROUTE OF GRAND TRUNK PACIFIC RAILWAY.

In the accompanying chart the heavy black line indicates roughly the route of the projected Grand Trunk Pacific Railway to run from Gravenhurst, Ontario, to Port Simpson, B.C., 560 miles north of Vancouver. The make-up of the route by sections is given in black type below. From Port Arthur to Prince Albert the routes of the new road and of the Canadian Northern are shown as identical. The projected course of the Canadian Northern from Prince Albert to Bate Inlet is also indicated.

Trunk system direct connection with that very important and growing section of Canada, the only wise policy is to take active steps toward this extension, which I may add will be commenced as soon as the necessary legislation can be obtained from the government."

To Absorb the C.N.R.
Altho Mr. Hays does not mention the fact, there can be no doubt that the above project embraces the absorption of the Mackenzie-Mann interests, and that Senator Cox and Jas. Ross will form a part of the new company.

most liberal view of the situation, stating that it would be a splendid thing for this country.

That the projected trans-Canadian Grand Trunk is not identical with the Canadian Northern (Mackenzil & Mann) road seems to be made clear by the fact that it is understood that the Canadian Northern will cross the prairies on a straight line drawn thru Prince Albert in Saskatchewan and Edmonton in Alberta, enter the Rockies via the Yellowhead Pass and touch the Pacific coast at Butte Inlet; while the new Grand Trunk line is booked, after crossing Manitoba and Saskatchewan to strike away a couple of hundred miles to the north across the territory of Athabasca, and the Peace River Valley, entering the Rockies via the Peace River Pass, or the Pine River Pass and coming out on the Pacific at Port Simpson, near the mouth of Observatory Inlet, B.C.

It is a possibility that the Grand Trunk will run over that portion of the Canadian Northern lying between Port Arthur, Ontario, and a point in Saskatchewan near Prince Albert, and from the latter point build its own line across the territory of Athabasca and Northern British Columbia. This plan would make the route in sections look as follows:
Gravenhurst to Sudbury—To be built.
Sudbury to Saint Ste. Marie—Absorb Clergue's road, via the Mackenzie and North shore—To be built.
Saint Ste. Marie to White River on North Shore of Lake Superior—Absorb Clergue road via the Algoma Central Railway, partially constructed.
White River to Port Arthur—To be built.
Port Arthur to Winnipeg, Man., and

Prince Albert, Sask.—Run over Canadian Northern Railway, nearly completed.
From Prince Albert, Sask., across Peace River Valley, Athabasca, thru Peace River Pass and across Northern British Columbia to Port Simpson—To be built.

Mighty Important.
This is the most important transportation announcement made since it was decided to build the C.P.R. across Canada. While the C.P.R. keeps near the international boundary line all the way across the far west, and while the Canadian Northern plans, as published some time ago, provide for a line considerably farther to the north, this new Grand Trunk project is to strike right up into the Mackenzie River basin, and to have its western terminus within a few miles of the southern extremity of Alaska.
600 Miles North of Vancouver.
The remarkably high altitude to be reached by the new system is indicated by the fact that Port Simpson is from 500 to 600 miles north of Vancouver, the western terminus of the Canadian Pacific.
The far north Peace River Valley, thru which the line will run, is reputed to contain the finest and biggest belt of wheat lands on the continent, and in British Columbia the line will tap the salmon canneries of the Naas and Skeena Rivers.
Great Possibilities.
The road will bring Dawson City within easy reach, and moreover, it will bring the northernmost parts of Asia so much nearer Canada that this fact should give the Dominion a great advantage over the United States in the enormous trans-Pacific trade which the opening up of Japan and Siberia will develop.

Weapon Went Off and Edgar Koropp is Not Expected to Recover

Edgar Koropp, eldest son of Charles A. Koropp, turned 24 on Sunday night in Grace Hospital with a bullet wound in his head, and the doctors hold out slight hopes for his recovery. Friends of the young man who were present at the time of the shooting say it was accidental, and not done with suicidal intent, as at first supposed.

About 7:30 o'clock on Sunday night Edgar Koropp was sent by his father to the drug department of the R. Simpson store to purchase some medicine. On the way he met three acquaintances and asked them to accompany him on the errand. One of these was George McCalland of 228 West Richmond street. The Simpson store was closed, and Koropp, in obedience to instructions from his father, did not go any place else. The four young men returned to the Simpson store, where Edgar leaped the picket fence, and drawing a revolver from his pocket pulled the trigger three times. The bullet struck Edgar in the forehead, and he fell to the ground, his hands held up in a gesture of surprise.

Edgar Koropp is 22 years of age and is employed by his father. He was a member of the Simpson store. The bullet struck him in the forehead, and he fell to the ground, his hands held up in a gesture of surprise. Cannon King Krupp Dead

Stroke of Apoplexy Kills
Death Remotely Caused by Worry Due to Attacks From a Newspaper.

Berlin, Nov. 23.—Herr Krupp, the great gun maker and wealthiest man in Germany, died suddenly from apoplexy this afternoon at his villa at Hugel. Herr Krupp had been ill for several days. Early this morning he suffered the first stroke of apoplexy. According to the medical reports, his physicians succeeded in restoring him to consciousness, but he soon relapsed into insensibility. Another stroke followed at noon, and the gunmaker died at 3 o'clock.

The first question the public asked on learning the news was: "Did Herr Krupp commit suicide?" There seems to be no testimony to support this suggestion, the physicians in attendance resolutely asserting that the case was simply one of apoplexy. His friends think that an uncomplimentary article recently published in a German newspaper, which caused the gunmaker great mental distress, was primarily the cause of his death.

Employer's Men.
Herr Krupp's villa, where he died, is several miles from Essen. The great gun-maker lived there in almost feudal fashion. The officials and employees of the Krupp works yesterday called a public meeting for today with the object of expressing indignation at the article in the newspaper. The meeting assembled this morning, but before a deputation could be appointed to convey to Herr Krupp expressions of loyalty and confidence, it

Lord "Bobs" Refuses to Buy Royal Honor

Not Yet Entitled to Knighthood, as He Declines to Pay \$5000 Fee.

London, Nov. 23.—A visitor to St. George's Chapel, Windsor, last week noticed a curious omission in the paraphernalia of the Knights of the Garter. Each member of the order, the highest British order, has a stall assigned for his use in the royal chapel, on which is placed his arms and knightly banner. The seat belonging to Lord Roberts did not bear these emblems of heraldry, and the visitor naturally inquired the reason of the omission.

The old viceroy endeavored to evade the question, but the persistence of the inquirer was such that it finally elicited the information that, despite the fact that Lord Roberts in public, the latter had not as yet enjoyed the full benefits of knighthood, because he had refused to pay the traditional "fee" exacted by the monarch upon the initiation of individuals who were about to receive the royal favor.

It appears further, that the sum demanded for the acceptance of the King's gift was no less than \$5000. It is understood that court officials, Lord Roberts argued, should be paid by the government, if by anybody, in connection with the honor of knighthood. He was given in lieu of partial recognition of his services in South Africa, and he did not consider it fair that what was nominally a reward should in reality be a heavy tax on his private purse. The matter has been in a deadlock for several months, and is likely to remain so, as far as Lord Roberts is concerned.

Philadelphia's Stake Eight Hundred Acres—Yield of 25 Cents a Yard.
Vancouver, B.C., Nov. 23.—Ryan & Swazie of Philadelphia have made the startling discovery that the mining town of Atlin, B.C., which is situated near many rich placer claims, is paved with gold. These prospectors got pay dirt in panning the dry earth in the heart of the city, and staked 800 acres. This ground they prospected by hundreds of assays and found it ran 25 cents to the yard.

They are now in Philadelphia arranging for the shipment of a dry dredging machine which will cost a quarter of a million dollars to place on the ground. Should they succeed in their dry dredging scheme many other companies will take it up.

It is said that if Atlin town produced 25 cents a yard in gold, the company would make a million. They are sure it will yield 25 cents a yard.

Good Xmas Presents.
What could be more appropriate for a Christmas present than a fur garment of some description? Most people receive annually a host of costly knock-knacks, absolutely useless in every way, and there is generally heard on all sides the sensible voice of regret: "Why didn't they send something useful?" You can find in the catalogue of fur goods splendid little and big articles, all much prized in a lady's wardrobe—muffs, scarfs, boas, gaiters, capotes, jackets, etc. One of these comes easily within your financial grasp, and the gift carries with it, besides good wishes, comfort and utility. Plot Against the King.
Madrid, Nov. 23.—According to a despatch to the Imperial from Lisbon, the government there believes that a serious conspiracy is on foot, which would overthrow the monarchy. Government agents are closely watching the barracks and the Naval Club, and have recently arrested several persons, including several Protestants from the provinces of Ontario and Quebec.

Two Funerals Mixed Up.
Result of Holding Several Services at the Same Church.
Paris, Nov. 23.—A strange incident happened at Belleville Church. Three funerals were held together. The first was for the Parlin Cemetery. It was supposed to be that of a local saloon-keeper and was followed by fifty mourners. When these arrived at the mortuary they found they had followed the wrong coffin. Soon a second funeral arrived and it was found that this had the saloon-keeper's coffin. The mourners had made a mistake in leaving the church. The position was happily explained by the funeral administration and the mourners changed places.

CONCILIATION TO THE FORE

Coal Strike Commission Adjourns Till December 3, to Give It a Chance.

ROUGH BASIS TO BE WORKED ON

Commissioners, However, Will Have the Last Say, and Must Be Satisfied.

Scranton, Nov. 22.—The anthracite coal strike commission adjourned today to meet Dec. 3, and it is the hope and expectation of all parties to the controversy that when the arbitrators again meet an agreement on all the points in dispute will be ready for submission to and to be approved by the commissioners.

CONCILIATION IDEA

The committee which is made up of Commissioners Watkins, Parker and Clark, this afternoon called into conference as many attorneys, representing all the parties before the commission as could be gathered on short notice, and stated to them the attitude of the commission. After the meeting a statement was given out in which the general public might know the position of the arbitrators regarding the new turn affairs.

CONCILIATION IDEA

"It appears that there is some misunderstanding or some lack of understanding in connection with the steps taken by the commission and the suggestion in that connection, that possibly the complainants might be able to agree upon some of the important points in the controversy. The recess was desired by counsel for both sides, because authoritative statements of hours and wages which are being prepared are not as yet ready.

CONCILIATION IDEA

"The suggestion was made that perhaps some agreement might be reached between the principals which would simplify the problem and assist in reaching proper conclusions. The chairman, speaking for the commission, stated that the commission would cooperate in any effort to reach an agreement, but that the commission would not be bound by any agreement made by the parties.

CONCILIATION IDEA

"The idea has gone out in some quarters that the matter is to be settled without further effort or responsibility on the part of the commission. This idea is entirely wrong. The commission, which has assumed cheerfully conciliatory attitude, and acting between the parties to the controversy, but the commission has not surrendered and will not surrender jurisdiction over the matters which have been referred to it, nor responsibility for the conclusion reached by adjustment can be made which does not, by its terms, commend itself strongly and secure the approval of the commission and its co-operation in the award.

CONCILIATION IDEA

The individual operators are disposed to object to the way the matter has been progressing. Mr. Burns, one of their attorneys, brought the matter before the commission today, and said that the individual operators wanted to be consulted in whatever agreements regarding the proceedings between the commission may be made. Judge Ray had a long colloquy with Mr. Burns, in which he gave an independent opinion on the matter, and the commission will not abrogate their duty, and that whatever agreement is reached towards a settlement of questions at issue have been effected were made by the parties to the agreement, and that the commission had taken no part in them. As a result of the discussion the individual operators submitted a paper containing a statement of their position.

CONCILIATION IDEA

There were informal conferences among the operators during the day, but nothing definite was reached on rough basis which the parties in interest will work in a 10 per cent increase in wages and a year's agreement between the men and the company which employs them. The matter was agreed upon by the men, and not with the United Mine Workers as an organization, will possibly be left to the commission to arbitrate.

THE ALASKAN BOUNDARY

Seal-Official Statement of Canada's Views on the Subject.

New York, Nov. 23.—P. C. O'Hara, secretary of the Minister of Trade and Commerce, writes to the Tribune concerning the Alaskan boundary. He says in part: All that Canada asks is that this question, year by year growing more serious, and year by year becoming more difficult to settle, should be referred to an impartial tribunal, the decree of which is to be final and forever binding upon both countries.

THE ALASKAN BOUNDARY

Unfortunately for Canada, Great Britain would consider long before she risked a war (which God forbid) with the United States over the Alaskan dispute. The American government has not the strength within herself to force her right. The American government during the Venetian arbitration an ungenerous waiting game, meanwhile colonizing the disputed territory.

THE ALASKAN BOUNDARY

What does ex-President Cleveland say on this point? "An extension of settlements in the disputed territory would be a practical recognition of the fact that the United States has a right to the territory." He was probably not thinking at the time that broad statements, made by a man who had just been elected to the presidency, would come home to roost. But they must come when a settlement must take place.

THE ALASKAN BOUNDARY

Does the third article of the Anglo-Russian treaty mean that the line of demarcation to be drawn is a line of ten marine leagues, or thirty marine miles, from the Pacific Ocean's coast, or that the line is to be drawn from the Lynn and other canals into the Canadian interior, keeping along the coast of the Lynn and other canals? The former is the British contention, the latter the American.

THE ALASKAN BOUNDARY

During the Venetian arbitration, the Russian Minister of Foreign Affairs, Count Nesselrode, the Russian Minister of the Interior, and the Russian Minister of the Navy, all agreed to a mere strip of the continent, and so that no objection could be made to the British line. The British line is a line of ten marine leagues, or thirty marine miles, from the Pacific Ocean's coast.

THE ALASKAN BOUNDARY

The point is: Does the line, the line between the ten marine leagues and thirty miles, follow the coast of the Lynn and other canals, or does it follow the coast of the Lynn and other canals into the Canadian interior, keeping along the coast of the Lynn and other canals?

Exposes the Principles of the Late Lamented George.

The Toronto Opera House was crowded when Louis Post, of Chicago, editor of the Public, addressed a meeting under the auspices of the Single Tax Association. His subject was "The Poor Have Always With Us." His remarks, which were based altogether on the underlying principle of single tax, were received with the most enthusiastic approval.

England and Germany May Receive Valuable Concessions From Lisbon Government.

London, Nov. 23.—Foreign news the past week has come chiefly from English game preserves where two sovereigns have been killing birds. Rumors have been current that the King of Portugal has been sounded respecting either the sale of his East African possessions or the acquisition by Anglo-German companies of important rights for trading, opening mines and building railways in the interior. These reports are not confirmed from any authentic source, and equally trustworthy is the story that the Portuguese finance minister is anxious for relief from revenue perplexities by the sale of colonial properties or privileges.

German Outlook is Bad. The German Emperor has returned to the capital, where both the political and financial situations are clouded with uncertainties. Baron von Thielmann, who has been in the tariff debate with a weighty speech, in which he forecasted rejection by the federal assembly of the proposed tariff duties on grain and cattle decreed by the agrarians and the enforced necessity of covering by increased taxes the deficit in the current revenues amounting to \$37,500,000. Warnings like these ought to induce the government to take steps to lighten the action in favor of a tariff reform to renew reciprocity treaties neglected in the past.

Revelations Brought Out in Trial of Professor John Goodfellow. London, Nov. 23.—One of the strangest stories of double life revealed for a long time has come out at the Old Bailey. Who among his acquaintances would have dreamed that Prof. John Goodfellow, eminent scientist, analyst and author of standard works, could have been guilty of anything of the sort? The Police Court, where he pleaded guilty of forging a cheque for £500 on Messrs. Pink, for whom he did some work as an analyst, it was stated in the evidence that he had an income of at least £1500 a year. While the professor's wife and child were living in a small room at Westham, while he was living in a bungalow at Thames Ditton, where he had a steam bath and a billiard table, and showed money lavishly on women friends. He was sent to penal servitude for three years.

What for? If you ask her she will tell you she doesn't know. She just feels nervous, that's all. She's all right, but she has very little sympathy with this condition in his wife. He can't see any earthly reason why she should cry. She has plenty to eat, plenty to wear, and he does everything he can, he thinks, to make her happy; and in spite of that, she sits down and cries solely to herself, apparently without any cause or reason. But there is a cause, and that cause is some disorder or disease of the delicate womanly organism. Unhealthy drains have taken away the vital force. Inflammation is fretting the nerves of the whole body. If women did but understand the intimate relation of the delicate health to the local health of the delicate womanly organ, they would realize that the quick way to establish the general health is to cure the local disorders. Dr. Pierce's Favorite Prescription dries the drains that enfeeble women, heals inflammation and ulceration and cures female weakness. It is a medicine that can absolutely be relied upon to make weak women strong and sick women well. It contains no alcohol, and is entirely free from opium, cocaine and all other narcotics.

Women suffering from disease in chronic form are invited to consult Dr. Pierce, by letter, 'Free of charge.' Dr. Pierce, assisted by his staff of nearly a score of physicians, has in a little over thirty years treated and cured more than half a million sick and ailing women. All correspondence is strictly private and sacredly confidential. Address Dr. R. V. Pierce, 665 Main Street, Buffalo, N. Y.

COULD SOAERELY WALK.

"For the sake of poor, suffering women, I feel my duty to inform you of the great benefit your medicine has given me," writes Mrs. Callie Bowles, of Watts, Illinois. "I was in a miserable condition when I wrote to you. I had uterine disease so bad, I could not walk and suffered such dreadful misery I hoped to be relieved by death. You wrote to me to try your 'Favorite Prescription' and I have taken several bottles of it, and now I can walk and feel like a new woman. I feel thankful to God and to Doctor Pierce for the blessings I now enjoy. I have a fine, big boy, two months old and never got going as well by my life. I can't praise your medicine enough."

NO USE FOR DOCTORS.

"About five years ago, my health, writes Mrs. S. E. Whalen, of Holden, Johnson, Missouri. "After suffering for years with our town doctors they gave me up, and I was confined to my bed half the time. The other half I could hardly drag around. I had such pains in my back and abdomen I could not stand on my feet for more than a few minutes. My feet were cold burning and my periods came too often. The doctors said it was change of life, as I had heard of Dr. Pierce's medicine, my husband got a bottle of 'Favorite Prescription.' I took it and I helped me in some way. I wrote to you and followed your advice, commenced 'Favorite Prescription,' Golden Medical Discovery and the 'Pleasant Pellets.' I was so constipated that I would have to go to the toilet every day, and I was so weak, and when I met my friends they would say, 'I never thought you would get so well, but I can say it was your medicine, which you've presented them. Had you not sent me a bottle of your medicine, I had no hope for doctors since I tried your medicine.'"

Dr. Pierce's Pleasant Pellets are an effective medicine for the bowels and liver. They do not react upon the system.

PRESIDENT'S GUARD UPSET.

Thought a Man Who Wanted to Shake Hands an Anarchist.

Philadelphia, Pa., Nov. 22.—Some excitement was caused this afternoon just after President Roosevelt left the residence of ex-Postmaster-General Smith for a reception at the home of Edward T. Stotesbury. The carriage, containing the President and Secretary Cortelyou, had just started, flanked on either side by a squadron of the Philadelphia city troop. A secret service man was on the box of the carriage. The crowd on either side of the carriage, suddenly, as the President's carriage arrived, a man stepped forward, and, holding a pistol, dashed under the rope and rushed straight for the carriage. The secret service man, seeing the man coming and shouting to the police: "Keep that man back! He's an anarchist!" Secretary Cortelyou, who is ever alert upon such occasions, caught a glimpse of him and springing forward to protect the President from possible harm. The man got by the mounted guards, but as he turned out to be no mischief. "I only wanted to shake the President's hand," said he indignantly to Secretary Cortelyou, who was giving him an open hand. Secretary Cortelyou thereupon sank back into his seat, and the President gave the man a friendly hand-shake. Meantime the carriage had stopped, and mounted police and troops had formed a cordon around it. The excitement caused by the incident subsided, and the procession continued on its way.

EAST END STEEL SITE ENDORS.

Sub-Committee of Works Went Over the Ground on Saturday.

The East-end has taken very kindly to the idea of establishing a steel works at the foot of Cherry-street. The ratepayers feel that it would be a good thing for their portion of the city's geography, and consequently there was a gathering of some influential taxpayers present when a sub-committee of the Works Committee looked over the ground on Saturday afternoon.

Accidents of Gladstone.

London, Nov. 23.—His historic likes and dislikes were one of the unexpected things about Mr. Gladstone. Mary Queen of Scots and Oliver Cromwell were two notable examples. In his speech on the works of Scott which he delivered years ago he went out of his way to declare his dissent from the favorable picture of the most romantic of queens, which Scott, with his old Cavalier language, had painted. He left it there, doubtless not wishing to offend the widespread sentiment of sympathy with Mary's tragic fate and magnetic personality. But his aversion to Oliver Cromwell was quite outspoken.

The Wahash Railroad.

is the great white freight route to the South and West, including the famous Hot Springs, Texas and California, the Egypt of the West, and the great oil fields of the Gulf. Particular attention is called to the fact that passengers riding via Detroit and over the Wahash reach their destination hours in advance of other lines. The new and elegant trains in the Wahash are the finest in this country, everything is first-class in every respect. All-round trip winter tourist tickets are now on sale at lowest rates. Time tables, maps and all information about this wonderful route cheerfully furnished by any ticket agent, or J. A. Richardson, District Passenger Agent, Montreal, Quebec, King and Yonge streets, Toronto. 135

\$1,000,000 Lot of Silk.

New York, Nov. 23.—A consignment of \$1,000,000 worth of silk from China, filling thirteen freight cars, arrived in this city and was unloaded and stored in bonded warehouses yesterday. When men loaded the big boxes of silk from the cars to the trucks, few of them knew the value of the goods they were handling. The railroad company took no precautions to guard the shipment from theft, and the goods were lost to all cars. The silk had been shipped insured for the trip, which was the only safeguard.

AT THE THEATRES.

Princess, "The Show Girl," struts, feigns and catches music. Grand, "The Kerry Gov," as only Joe Murphy can play it. Toronto, "The Scout's Revenge," thrilling melodrama. Shea, Vaudeville, of an excellent kind. Star, Watson's American Entertainers.

There is said to be no funnier and entertaining attraction going the rounds than "The Show Girl," which will be seen to-night and all this week at the Princess. Frank Lator, who takes the leading part of Dionysus Rex, is the newest of the comedians in New York last summer. Lator, who had been appearing in farce comedy and in vaudeville, had never attempted such a pretentious role.

Who hasn't heard of Joseph Murphy and "The Kerry Gov" and "Sham Ribs"? For years and years he has been looked upon as one of the top-notch comedians at attractions in a theatrical season. There has not been a man since that has been so successful in getting the public to see his comedy as he has.

At the Star, Watson's American Entertainers will be seen in two burlesques, entitled "A Japanese Honey-moon" and "Strauss's Lin." The promising old also on the program and the small his crowds will likely find lots of amusement there.

George W. Eyer, who was for many years manager for Desmond Thompson, and was associated with him in the writing of "The New Minister," died in Brooklyn, Thursday night. He was born in New York in 1848.

J. H. Stoddard, the veteran actor, is taking the west by storm in "The House of the East," which will be seen in Toronto again this winter.

The New York Tribune, speaking of Mary Magdalen, says: "This is by far the most superb production of the dramatic year. Not for many a long day has any manifestation of dramatic art been made in this city so thoughtful, so ambitious, so momentous, or one so lofty in spirit and so sadly beautiful in effect."

To-night at Madison Square Theatre, New York City, Miss Eleanor Robson will appear in the chief part of a dramatization of Mary Johnston's novel, "Audrey."

Ernest Thompson-Seton will give two of his popular animal lectures in Massey Hall today at 8:30 and 8. He appears in the Hartman course of entertainment, Master Frank Clegg will give.

The program for Miss Zelle de Lennan, the great mezzo-soprano who will be heard in Massey Hall on Friday night, will include such beautiful numbers as Massenet's "Pensee de l'Automne," Medtner's "On the Wings of Song," and "Sister Song" and Lass Vollen's arrangement of the old English "My Love's Cella." There will also be selections from Schubert, Grieg, Rubinstein and Mozart. Alberto Jonas, the Spanish pianist, will be heard in some splendid numbers. Sale of seats begins this morning.

Mrs. Courts-Bain, Scottish vocalist, leaves this morning on a professional trip to the Pacific Coast.

Beecham Tree in a Tolstol Play. London, Nov. 23.—Beecham Tree has secured the rights of Mr. Tolstol's version of Tolstol's "Resurrection," and will probably produce it at His Majesty's Theatre after "The Eternal City."

Ryan Here to-Day. Billy Ryan, who boxes Eddie Santry in the ring next Saturday night, will arrive in Toronto to-day. He will be taken aboard at once by Jack Daly, who will superintend the Stronach late training at the Britannia Naval Brigade Club. Santry will be here to-morrow on Wednesday. Art Edmonds and Frank Hara have agreed to buy in one of the preliminaries, while W. Wren against Cherry of Bass will provide the other. All are amateur boxers.

Foreman's New P.M. Thomas Jones of Forest has been appointed police magistrate of the town of Forest in the place of W. G. Owens, resigned.

NON-ALCOHOLIC BOOZE SOLVES RUM QUESTION

French Scientist Thinks He Has Found a Treatment for the Microbe.

London, Nov. 23.—Dr. Pitoy, the French scientist, in an article just published holds out hope that the difficulty of providing a satisfactory temperance drink has at last been solved, and this not by a new beverage, but by a series of new drinks, every wine, beer and spirit now used being provided with a non-alcoholic understudy.

It has hitherto been accepted as a commonplace that there is no fermentation without alcohol. From time immemorial beers, wines and liquors have undergone this process thru the action of some sort of yeast, the effect of which has been to decompose sugar or glucose into carbonic acid and alcohol. Dr. Pitoy set himself the task of destroying this theory, and he now says that he has discovered that the mysterious fermentations are the work of a certain micro-organism, which he has succeeded in isolating and providing with a separate existence.

This new birth, on being introduced into the liquid to be fermented, fattens and swells to the bursting point. The result is a sort of firework display, induced by the absorption of carbonic acid, each point of which, as it is absorbed, becomes in its turn an active cell. By this means the balls are kept rolling, so to speak, till the process of exhaustion and fermentation is complete.

It is said this method, instead of decomposing glucose in the proportion of one part of carbonic acid to two of alcohol, as by the old process, causes the latter two parts to assume the form of a non-alcoholic substance.

It is inferred that beers and wines submitted to the new fermentation will emerge as temperance beverages.

CANNON KING KRUPP DEAD

Continued From Page 1.

after the death announcement was made, and the first burghermaster said that it had been intended to send to Herr Krupp the municipality's respectful greetings and to invite him, that the slanders of the social democratic press were not believed, and that, in spite of the suspicion in his mind, the Council's confidence was no wise shaken. The Council adopted a resolution expressing indignation at the injury inflicted upon the burghermaster by the slanders of the social democratic press were not believed, and that, in spite of the suspicion in his mind, the Council's confidence was no wise shaken.

The first burghermaster said that it had been intended to send to Herr Krupp the municipality's respectful greetings and to invite him, that the slanders of the social democratic press were not believed, and that, in spite of the suspicion in his mind, the Council's confidence was no wise shaken.

Not a Case of Suicide. The first burghermaster said that it had been intended to send to Herr Krupp the municipality's respectful greetings and to invite him, that the slanders of the social democratic press were not believed, and that, in spite of the suspicion in his mind, the Council's confidence was no wise shaken.

Had a Weak Heart. Herr Krupp's medical history for several years past indicates that he was in delicate health. He was asthmatic, had a weak heart, and was subject to fainting spells. He fell to the ground unconscious while in Geneva several years ago, and again while at dinner in Berlin 15 months ago. He had been warned to avoid over-fatigue and worry. He was at Hamburg Thursday last, and at the Hamburger Hof it was observed that he was in a highly wrought state and scarcely in control of his emotions. He accounted for the presence of two physicians in the house at the time of his death by the fact that he had been suffering from a weak heart.

Herr Krupp's favorite study was to think out schemes for improving the well-being of the lower classes, which he applied practically to what are called "labor colonies." He asserted according to most socialistic principles, except that he held tight to the wage system, averring that the wage-earners were not yet sufficiently developed to be self-controlled to regulate their own affairs, and that a man who applied social reform ideas in so extensive a way should have been crushed by the social democratic newspaper, which, however, regarded his measures to ameliorate the condition of the laborers as not touching the question of economic injustice.

Loved to Do Good. Herr Krupp's father started the system of modern dwellings for the workmen as a matter of expediency, and Herr Krupp himself appears to have developed them from conviction and in accordance with his ideas. He owned 5400 dwellings, each to whatever form it belonged, being constructed with variations in the architectural front yard, in which were bits of ornamental gardening; the outside coloring and the interior decoration gave a certain esthetic unity, while there were plenty of space and light. Herr Krupp had also a variety of institutions, none of them rather similar, such as "Bach-

elov's Home," and "Widowers' Retreat." Besides convalescent hospitals and the regulation orphanages, he had a pension fund, which has funds amounting to \$1,125,000. He contributed last year, as required by the law, \$272,000 to the National Insurance Fund, and gave voluntarily \$4,080,000 to other insurance funds.

Notwithstanding his benevolent interest in the laborers, he was a strict disciplinarian in his own concerns. He was almost unknown by sight to his workmen, and rarely visited the works, or even his own home. He spent several months every year on the island of Capri, and managed his affairs by letters and telegrams.

Like his father, Herr Krupp was a miser. Unlike his father, Herr Krupp was a miser.

Was Only Forty-Six. Baron Krupp was 46 years old. His annual income, it is said, was over \$5,000,000.

Frederick Alfred Krupp succeeded his father Alfred Krupp as head of the works in the great industry at Essen, Germany. While engaged in making cannon and other warlike material, he was one of the most powerful men in the world.

Employed 25,000 Men. Herr Krupp was the largest employer of labor in the world. Twenty-five thousand men were employed in his works, and he had a large number of smaller works in various parts of the world.

Philanthropy and the golden rule, which would abolish war if adopted throughout the world, prevailed to a large extent in the Krupp foundries. The relations of employer and employe have never been unfriendly.

Refused to Accept Title. Among radicals and democrats Herr Krupp was known as the man who had refused to accept a title. He was a member of the Reichstag, and he was a member of the Reichstag.

Was Member of Reichstag. Herr Krupp was a member of the Reichstag, and he was a member of the Reichstag. He was a member of the Reichstag, and he was a member of the Reichstag.

RUSSIA'S LOST CHANCE TO HIT GREAT BRITAIN

British Policy Has Held Its Own All Along the Asiatic Frontier.

London, Nov. 23.—It is a popular impression in England that Russia, with all her vast resources, has profited tremendously, especially in the Far East, in the last three years by reason of the British embargo in South Africa. Now the chief journal of St. Petersburg, The Novoye Vremya, comes forward with the information that the failure of Russia to seize this unexampled opportunity.

The British policy, according to the idea of the Russian imperialist party, has more than held its own all along the Asiatic frontier. The Anglo-Japanese treaty has left Great Britain with complete financial control of Korea, while Japanese influence at Seoul is all powerful. This is the case in spite of the fact that Russia, as the article naively asserts, is the only power whose territory marches with that of the Emperor of Korea.

Not only, says the paper, has Russia failed to make use of the splendid opportunity for advancing a step towards India, but Great Britain has actually been allowed to move towards the Indian continent, with the result of throwing a great barrier in the way of Russia's descent from Central Asia to the sea.

Even an attempt to open negotiations of a commercial nature with Afghanistan has been rebuffed, thanks to the hostility of the British government; and, finally, says the Novoye Vremya, on the Bosphorus Great Britain has shamefully repaid the friendship of Russia at a critical moment by leaving Germany a free hand in the matter of the Bagdad railway.
