PLACE OF THE CHURCH IN MAKING OF NATION THEME OF THE CONGRESS

Massey Hall is Thronged by Four Thousand Keenly Interested Delegates Who Are Inspired by Addresses of Four Eloquent Speakers.

PROBLEMS OF THE WEST ARE VIVIDLY PRESENTED

"The place of the church in the making of a nation," was the inspiring topic at the second great night meeting in Massey Hall of the Canadian National Missionary Congress.

A magnificent aurience of fully four thousand ministers and lay commis-sioners turned a sea of faces toward

the platform.

The outstanding inter-denominational character of the congress was emphasize by the prominence given to the moderator of the Presbyterian General Assembly, Rev. Dr. Du Val, as leader of the devotional exercises, in succession to Bishop Sweeny of the Anglican Church, and Rev. Dr. Carman of the Methodist General Conference. A striking incident of the evening

was the outburst of spontaneous ap-plause for the eloquent tribute to the heroism of the Jesuit Fathers paid to those early Canadian missionaries by Canon Tucker; while cheers greeted later testimony by the same speaker to the great Presbyterian Home Missionary, the late Rev. Dr. Robertson.
Rev. Dr. Gordon of Winnipeg spoke of the foreign population of the west, and Rev. Dr. Sutherland of the duty of Canadians to the Asiatic population. Rev. J. A. Macdonald aroused enthus tasm in his call for a higher ideal in

the everyday life.

At the afternoom meeting Bishop Thoburn, Robert Speer and Dr. Zwemer were the speakers, their addresses referring to the missionary progress in

A meeting for ladies in Convocation Hall, addressed by Sir Andrew Fraser, attracted such a crowd that an over-flow meting had to be held in the Physic Building. Another meeting for women will be held in Convocation

A public meeting in connection with the congress was held last night in the Metropolitan Church. S. J. Moore presided. Addresses were given on "The place of the church in the making of the nation," by Prof. W. F. Osborne. Winnipeg: Hon. B. F. Wilber, Hall-fax, and Rev. W. T. Stackhouse, Winnipeg. The church was about two-thirds filled. Another meeting will be

held this evening.
In opening last night's meeting the chairman, N. W. Rowell, K.C., announced that Hon. S. H. Blake was unable to be present, and his place would be taken by Rev. Canon L. Norman Tucker, representing the missionary society of the Church of England in Canada. Hon. Mr. Blake sent a short message: "Let us do our duty to our red brethren, and at this time enlarge

our operations in his behalf." "Canada's Debt to the Missionary" was the subject of Rev. Norman L.

Tucker's address. Tucker's address.
"I suppose," he said, "it may be assumed here that Canada is now a nation. We are free. We are self-governing; and what is more, we feel within us the stirrings, the ambitions,

the hopes of national life. "Then there is ingrained in the fibre of our people a love of order and a respect for law that makes life and property as safe in frontier settlements and mining towns as in the centres of Zeppelin

"There is also a widespread spirit of benevolence that, for the protection of length and breadth of the land.

There is an insatiable desire for learning that has made our national of schools second to none in the world; so that no Canadian need be illiterate and every Canadian may be fully equipped for the battle of life. "Then, morality with us is considered of universal obligation, in public and in private life. Marriage is a sacred institution. Divorce is almost unknown; and the home is so guarded

and honored that it is in reality the seedbed of all the virtues. Time's Changes. "In Nova Scotia 100 years ago the population was of the most heterogeneous character, In Hallfax it was said that half the population was engaged in selling liquor and the other half in

drinking it. But in the providence of God, the missionaries appeared with the earliest settlers and taught them their duty to God and their duty to men. And now it is a region that, for law and order, religion and morality, is a model to the rest of the world and nishes more than its share of brains to the rest of the Dominion.

"In Quebec the black-robed missionary came in with the settler; and it ary came in with the settler; and it was not too much to say that he stamped his character on the people and the Institutions of the province. It was to the missionary that was due the survival of the Frnch element and the French tongue after the conquest. And on the shores of the Georgian Bay the Jesuit Fathers wrote a chapter in the history of Canada that had never been surpassed, would never be forgotten and that deserved a place among the most heroic chapters written in blood by the early martyrs of the early church. They were a sturdy race of men, but were profane, godless and missionaries came; the Hon. and Rev. Dr. Stewart, who became second Bishop of Quebec, made his centres in St.

They directed their attacks especially against the clauses relating to cattle and agricultural machinery, asserting that the machinery clause would open a side door to the United States.

M. Vigar, president of the tariff commission, in reply, said that the importation of cattle into France was practically impossible. All the efforts of the United States, Canada and the Argentine Republic An this direction in the past had failed. As to machinery, he declared that as it was not a national industry, competition with regard to its importation would serve a useful purpose.

> A Montreal special says: The putting into force of the privy council's de-cree giving a third class passenger rate from Montreal to Toronto and intermediate points was begun in right earnest this morning, when a Grand Trunk train left Bonaventure at 9.45 a.m., with a third class car attached. There was, in fact, an animated scene, W. A. Davis, passenger and traffic manager, G. T. Bell, general

passenger agent, and other officials all being anxious to see the send off given by the public to the first third class car moving out of Bonaventure for a quarter of a century or more. Car 1338 is not a gem as far as roll-

ing stock is concerned, but a coat of paint had been applied and there was about as much comfort as one used to get out of a second class coach of the long ago. The car is divided into two compartment, one for the smokers and the other for those who do not use the weed. The whole car will seat 64 people comfortably and a dozen more

with a little crowding.

There will be no thru passengers, because the price between Montreal is the same far a second and a third class passenger, but from Montreal to Kingston one gains eighty cents in traveling third class, and between other points according to distance.

The conductor who took this car and its associates out of Bonaventure this morning was Adam Young. Dave Simpson was the engineer between Montreal and Brockville and W. Brown from there to Toronto.

Will Prove a Boon.

The third class car carried only one passenger out of Montreal, his destination being Lachine, but the fact of one ticket being sold the first morning demonstrates the fact that there was a want and that this want has at last been filled.

One of the officials of the Grand Trunk stated to-day that the new rate would no doubt be a great boon to the habitants of this province who smoke a good deal and as they are allowed to indulge they can smoke while saving the difference between second and third

THE DAY OF ALL FOOLS-WERE YOU ONE OF THEM?

Minister of Agriculture Promises Acceptance of W. K. McNaught's Important Measure.

W. K. McNaught (North Toronto) noved his pure milk resolution in the legislature last evening, asking the government to appoint a commission to investigate and report on the conditions under which milk is produced, and to recommend such methods as might be advisable towards securing a

wholesome, sanitary supply. Mr. McNaught, said that he desired to lay before the house the results of years of investigation thru the leading milk experts of the continent and Great Britain. The purity of our milk supply affected the health of every

man, woman and child.

How many children in the city or province had been poisoned by impure milk we had no records to show. We could only say that where samples of milk have been tested, the conditions found in Ontario had been practically the same as found in other countries. Ontario farmers would compare fa-vorably in cleanliness, intelligence and a desire to do what is right with those of any country in the world. Much of impurity in milk was the result of lack

Mr. McNaught stated he was not an extremist, but milk could not be too pure and healthy. "Certified milk" was the ideal standard, but it cost too much for the masses, and they were the peo-ple, above all others, who should have a pure supply. Pasteurization is only a half-way house. He did not think it too much to ask that the milk supply of the province be placed upon the same plane as other foods in regard to cleanliness and health. J. K. Dargavel (Leeds) endorsed the resolution, speaking from the stand-point of a producer. In the making of cheese, he declared, "It takes 11 pounds to milk to make one pound of

cheese. Experts tell us that with pure milk ten pounds of milk would make one pound of cheese." In cold cash Mr. Dargavel figured this would mean an increase of \$1,500,000 per year. Hon, James Duff defended the Onta-

an increase of \$1,500,000 per year.

Hon, James Duff defended the Ontario farmer againset the suggested uncleanliness.

"I have lived on the farm all my life," he affirmed, "and I know there is no place in the world where cleanliness is more observed than in Ontario. I believe the cause of the impure milk is rather in the treatment it receives after it leaves the farm and before it reaches the consumer.

Jack Johnson Fined \$200.

NEW YORK, April 1.—An old charge against Jack Johnson, the champion pugliist, brought nearly two years ago here by Aimee Douglass, a colored girl, was heard to-day. Before Johnson's appearance in court Joseph Netherlan, a negro porter, was arrested in a subway train by a detective, charged with attempting to bribe Miss Douglass to stay away from court. Netherlan said that he was a friend of Johnson, but that the fighter knew nothing about his alleged effort to bribe the girl. Netherlan was kept in custody pending the disposition of the case against Johnson. After a hearing Johnson was convicted on a charge preferred by Aimee Douglass, and a fine of \$200 was imposed.

hesitate to "equivocate" in order to steal a march on the intelli-gence of their customers by tricky quibbles on the word Slater" to sell other Shoes than

to deceive their Customers into thinking they were being shown

"The Slater Shoe" when the Shoes shown had never been within a mile of the Slater Shoe Factory. Here and there were some honest

Here and there were some honest men who frankly said, "No, we don't keep 'The Slater Shoe,' but we have Shoes which we consider just as good," etc.

Other fairly honest men who said, "No, we don't keep them, and wouldn't if we could," etc.

All honor to the "Square Heads," friends or foes, who came out candidly and said: "No, we don't keep the Slater Shoe," even if they damned it in the next

sentence. Shoe Retailers, or their Salesmen, who, when asked by Sherlock for "The Slater Shoe" (they never had a pair of); said :-

"Oh, yes; we have Slater's make of Shoes!" "Oh, yes; we have Frank Slater's Shoes!"

"Oh, yes; we have George Slater's Shoes!" "Oh, yes; we have Ben Slater's Shoes! "Oh, yes; we have Slater's Strider Shoes!"

"Oh, yes; we have Slater's Invictus Shoes!"

Now, Reader, we have no fault to find with any retailer who tries to sell his own Shoes against "The Slater Shoe" in fair, square, open We do not even lift an eye-brow

at the man who finds it necessary to talk down "The Slater Shoe in order to sell his own. But, what we do object to is the dishonest attempt to deceive consumers into thinking they are getting the genuine 1869 "Slater Shoe" when they are being offered something entirely different from it, staged perhaps for the very purpose of deception.

Any Retailer, or Salesman, who will countenance such tactics is not to be trusted.

He will "do" his Customers in other ways if he will "do" them in

that way. And, our "Sherlock Holmes Records" prove that many Shoe Dealers in Montreal are ready to "do" Customers in that way if the

Customers will stand for it. Customers will stand for it.

This is why we will, in future, play up the Slate feature of our trade-mark more prominently, although the Courts have ruled that we (The Slater Shoe Co., Limited) have exclusive right to the use of "The Slater Shoe" name

Observe that no Shoe is a genuine "Slater Shoe" unless it bears the Slate mark on it with

bears the Slate mark on it with the Makers' price stamped on it to prevent possible overcharge.

Therefore,—when you want the genuine 1869 Slater Shoe, you will forestall deception, make fraud more difficult, and help along the Square Deal, by asking for it as— "The Slater Shoe," and observing that it is branded with a Slate.

Slater Shoes are made from the most carefully selected materials. Always have been. Always will be. Also, they are made by the wonderful machines of the Goodyear Welt system in their most improved form, insuring comfort and durability.

P.S .- Our "Sherlock Holmes" is now working up evidence in other cities. His book of experiences, giving names, dates and particulars of interviews with Substituting Dealers will make interest-ing and amusing reading. Do you want a copy when published?

The only dealers in this City who can supply the genuine Slater Shoe are as follows:

'The shores of Lake Ontario and Lake Erie were settled by United Empire Loyalists and others. Among them also the missionaries appeared. The Methodist itinerants early overran the Bay of Quinte and the Niagara Districts. These pioneer missionaries, among whom was Nathan Bangs, were largely innocent of learning and of theology, but their very hearts were aflame with the love of God and of souls; and they with others of like mind laid the foundations of the moral and religious character of this province, which made it the premier province of the Dominion.

"The old motives and maxims of national greatness have had their chance. Mere bigness, mere wealth, have shown what they could do. Nations have died from the pride and arrogance of size and power, and to the little lands has been given the glory and immortal renown. To us in Canada the chance comes, with a half continent for our field, to bring forth a new type of democracy, and to show the real worth of government of the people, by the people, for the people. Shall we do it? Shall we refuse the outworn motives and standards? Shall we hold this land not by the title-deeds of conquest, but by the surer rights of service? MR. J. C. BATES, of Burks Falls, says:

"Parents should know how powerful Zam-Buk is as a healer of skin diseases and eruptions. My three children were all broken out on face, hands, and feet. Their condition was pitiable, and although I tried various ointments and salves, they did not seem to do any good. I heard of a few instances in which Zam-Buk had done great good when other things had failed, so gave it a trial. Within a very short time it cleared the sores from my little ones, although those sores had defied everything I had hitherto tried."

When it is considered that the tension on the strings and pins of a seven-anda-third octave instrument is from 18 to 22 tons, the layman can realize that it is no common task to prevent these strings and pins from "giving," and thus lowering the pitch. The Gourlay has in its construction a pin lock which is unaffected by temperature and solid as Carlyle's 'Frederick the Great." The string which can depend for support on a pin set like an immovable rock need not fear the humors of the Weather Man.

Some Advice to the "Stage Struck."

By Janet Priest of "School Days."

Dear Miss Priest,-Here comes another stage aspirant to ask for your kind advice. I have read care-fully the letters and their answers fully the letters and their answers that have already appeared in The World, in the hopes of seeing one that contained symptoms similar to my own, and thus save you the trouble of giving me an answer, but have been disappointed, so I guess that "it is up to you," Miss Prient, to listen to my plaint and advise me accordingly. I have always had a yearning for stage life, and have been many times advised to take it up, but have always been discouraged at home. I am thoroly familiar with all the "ups and downs" that an actor or actress meets with, and know that all is not meets with, and know that all is not sunshine. I have traveled much, so you can see that it is not altogether you can see that it is not altogether a desire to see the world that has prompted me in taking such a liking for things theatrical. I have a tenor voice, have taken prizes for waltzing, and, above all, have had a fairly good education. I have a liking for the more serious of plays, such as those presented by Thos. E. Shea and Robert Mantell, and it is not unusual for me to come home, after seeing one of these plays, and after seeing one of these plays, and try to go thru a "principal's" part in my own room. Now, Miss Priest, altho I am 21 years of age, and have been told by relatives that I should have better sense, I am, nevertheless, very serious about this and hope that a reply, should you consider this worth. you consider this worthy of a reply, will not contain quite as much discouragement as I have already received from persons who have no idea whatever of an actor's life.

As the catherines. He has been stiting in the divisional court since Monday and will receive any next for the last time this divisional court since Monday and will receive again this season. The residence of Mr. and Mrs. Alex Can marriage to Mr. and Mrs. Alex Can marriage of Mrs. Mrs. W. B. Even the I am leaving Toronto very soon, a letter to The Dramatic Mirror will always commission upon a life insurance pol-

Dear Miss Priest,—I found your advice in yesterday morning's World and was very happy to do so, for I really can't tell you how much I love the stage. I always said I'd be an actor on the stage, and here's my chance, but I really don't know the right way to go about it. so would you be so kind as to write me and give me a little information about the stage and oblige.
"Johnny."

Dear "Johnny,"-Are you sure you are intended for a stage career, or are you only temporarily interested? "Be sure you are right, then go ahead," as a great man has said. Do not break loose from home ties unless you are quite certain that that is the life you intend to continue to live. There is something about a wandering life of any description that causes a person to be restless, and often unfits him for test from the Province of Ontario was quiet life at home. Be careful that registered and disregarded. The till you do not, in vulgar parlance, "start is to incorporate the Superior & West-anything you can't finish," If you do intend going, however, follow out the instructions already given The World readers in this column. Secure an en-gagement wherever and whenever you can. See that the local managers know of your ability-if you have any-and try to obtain employment in any stock npany or repertoire company playing hereabouts. If there are any good dramatic agencies near here, enroll your name on their books. You have to pay them a small commission on your first

or second week's salary. Dear "Laddie,"—As you enclosed a stamped self-addressed envelope for reply, I will write you your answer by mail, since they would be too much in me to see you personally, much as I should like to, because I am very busy, and such a short time in Toron

Dear "Ambitious,"-You will find answers to your questions in the answer to "Johnny,"

Dear Miss Priest,-I want to go on the stage, but my father demands from me the promis ethat I will never drink anything or smoke cigarets. If I give my promise I mean to keep it, but do you think this is necessary? Don't you think my father unreasonable? "Dickie."

Dear "Dickie," It looks that way to you, I've no doubt, "Dickie." But wait till you are your father's age, with a grown-up kid of your own who wants to go nonchalantly out into the world. Then you'll see how it is yourself. You'll want him to start right. I've seen a lot of boys smoke cigarets and a lot of men drink, and I never saw it do them any good. If you have any "sand" in you, or any wish to succeed on the stage or anywhere else, you'll "cut it out." Of course, I may be too strait-laced in my advice, but thenyou asked me for it.

NEW YORK, April 1.—How Milton Heitz, aged four, fell 60 feet from the roof of a six-storey tenement, picked out a soft landing place in a vacant lot dotted with big rocks, and escaped with a scratched finger, is something 125th-street residents are trying to figure out. It occurred yesterday. He had overreached in grabbing for a toy had overreached in grabbing for a toy train. When his mother ran to pick up the mangled remains he was sitting up, with a battered engine and two

Mrs. Wm. Levi, Markdale, Ont., writes:
"I had for several years been troubled with nervousness, and, like many others, spent lots of money on medicine that did me no good. I was so bad that the least noise would make me jump and my heart would thump so you could hear it plainly and I could not lie on my left side at night. I saw a few testimonials of others and decided to try Milburn's Heart and Nerve Pills, and to my great joy and surprise they completely cured me and it only took six boxes to do it. Pan-Islamism, but the cross is in the field.

"The result of the impact of Christianity on these non-Christian religions is too large a subject for separate consideration, but what Christianity has already done thru its impact on Islam is prophetic of its strength and conquest everywhere. The present political division of the Moslem world shows the hand of God's providence in opening doors for His Gospel. Threefourths of the Mohammedan world is under Christian rule, and the balance of political power is not in the hands of the Caliph, but of England, France. Russia and the Netherlands. Eightyone million Mohammedans are under the flag of Great Britain, which bears the symbol of the Crucified. Islam has lost its sword, and the power of pelffical persecution is gone.

Many people closely in touch with Cobalt affairs are now convinced that a big merger of the Kerr Lake propera big merger of the Kerr Lake properties is inevitable. Kerr Lake interests have already bought into Crown Reserve, and it is known that they have been negotiating with Hargrave. A combination of Kerr Lake, Crown Reserve and Hargrave would be a great proposition for the London market, as it would have big earning power and would be sufficiently large to invite active trading. The above builetin came over the Dow Jones tickers to-day. It is said the only other Cobalt stock Mr. Hammond ever purchased was Nipissing.

In the judgment of mining interests, one of the most important incidents in connection with the development of the Montreal River and Cobalt section of Canada is the fact that John Hays Hammond, the well-known mining engineer, has bought a large lot of shares ip the Otisse Mining Co., Ltd. It is pointed out that the world-wide reputation of Mr. Hammond was achieved.

Preston said: "The story is untruthful and mall-clously misleading. Mr. Johnston, the discharged bookkeeper, did not, as stated in the article, prefer the charges referred to. He demanded \$500 from the company, claiming that he had falsified returns, and thereby saved the company a large amount of money. On receipt of this document I placed the matter in the hands of Hon. Frank Cochrane, minister of lands, forests and mines for Ontario, and demanded a full investigation."

MORIBUND MARKET AN ANOMALY.

World Office Thursday Evening, April 1.

Specialty movements have begun on the Canadian Exchanges, Today it was Toronto Railway which was taken in hand, and there was an inkling that Mackay Common was also receiving some attention from the pool. The big rise in Toronto Rails, which was brought about with the advance in the dividend rate, only left considerable stock in the hands of the syndicate, and an attempt is now being made to get this out. Improvement in the prices of speculative issues is gradually forcing itself to the attention of those who control the market movements, and cogitations along that line are no doubt now being held. With a 2 1-2 per cent Bank of England rate and the incoming spring, a moribund Toronto market would seem to be an anomaly.

122 LOADS AT CITY YARD

Steady, the Latter Selling at \$7.15 Cwt.

The railways reported, the receipts of live stock at the city market for Wednesday and Thursday as being 122 car loads, consisting of 2070 cattle, 1836 hogs, 419 sheep, and 174 calves.

During the two days there was a fair delivery of Easter cattle, more of the better classes than for some time. Trade was very slow with prices much the same as on Wednesday, that is there were several lots of Easter cattle sold up to \$6 with a very few at \$6.20 and \$6,25, as will be seen by sales given below.

We Have CLEARED OUT the Relindo Shoe Co., Limited

5,000 Pairs of High-Grade Boots and Oxfords to Sell on Saturday at 1-2 to 5-8 the Standard Values Regular Prices \$4.00, \$4.50 and \$5.00, \$2.49

TY/E think that Toronto people know what kind of a boot and shoe store we have here now in this new building of ours. Most people have heard about the Simpson Footwear Sales. We are winning a continental reputation among boot and shoe manufacturers as a store which is able to handle any quantity, no matter how great, if quality and price are right. The result is

that footwear manufacturers when they have surplus stocks to turn into cash, naturally come to us for our co-operation. And we are always glad to give it—if—the goods are worthy and the saving such as will attract a sufficient number of people to clear them out of our way QUICKLY.

That's the point. We want them out of the store and on the feet of the people-OUICKLY. And that's the spirit of this sale for Saturday. Come early.

Besides the RELINDO Stock we will offer:

WAS IN BED FOR THREE MONTHS.

PEOPLE SAID SHE HAD CONSUMPTION.

Read how Mrs. T. G. Buck, Bracebridge, Ont., was cured (and also her little boy) by the use of Dr. Wood's Norway Pine Syrup. she writes: "I thought I would write and let you know the benefit I have received through the use of your Dr. Wood's Norway Pine Syrup. A few years ago I was so badly troubled with my lungs people said I had Consumption and that I would not live through the Fall. I had two doctors attending me and they were year much not live through the Fall. I had two doctors attending me and they were very much alarmed about me. I was in bed three months and when I got up I could not walk, so had to go on my hands and knees for three weeks, and my limbs seemed of no use to me. I gave up all hopes of ever getting better when I happened to see in B.B.B. Almanac that Dr. Wood's Norway Pine Syrup was good for week lungs. I thought I would try a bottle and by the time I had used it I was a lot better, so got more and it made a complete cure. My little boy was also troubled with weak lungs and it cured him. I keep it in the house all the time and would not be without it for anything."

It is strange how oblicated sir John Fisher is to a large number of people. Sensible men of both parties recognized his genius and acknowledge that to him is due the enormously increased efficiency of the navy. Nothing, by the way, could be a finer tribute to his foresight than the acknowledgment now made that it is Dreadnoughts only that count.

The very men and journals who a short time ago were reviling the Dreadnought design are now crying out for more of these ships. There is a host of men and women, however, who hate Sir John Fisher for his autocratic treatment of all kinds of vested interests and who would be glad to se him reviewed.

Price 25 cents at all dealers. Beware of imitations of Dr. Wood's Norway Pine Syrup. Ask for it and insist on getting the original. Put up in a yellow wrapper and three pine trees the trade mark.

Independent Methods Jan Seme Over-Sensitive and Jealous Rivals.

NEW YORK, April 1.-The Herald's aval correspondent in London cables: "For our part we are against any party or government that neglects the on which the nation's life depends. The time for shilly shallying and soft speeches has gone. We must have eight Dreadnought. We must have much more. Sir John Fisher must go and all that Fisherism means." That is the policy of the Imperial Maritime League in a nutshell. Nor

while Messrs. Balfour and Lee deprecate attacks upon the admiralty lords are there wanting other leaders of the Unionist party, like Messrs. Austen Chamberlain and Wyndham, who are willing to support extremists. where the agitation is not actuated by party motives, it will serve party purposes. Nothing, say the Unionist whips and wirepullers, would make more for the success of their side at the next election than the cry that the navy is n danger. It would certainly pull the

people together on the side which is from satisfied with tariff reform as a war cry. This circumstance cannot fail also to Winston Churchill and Lloyd George, who have no desire to relinquish the sweets of office. If they want to reply effectively to the khaki and jingo mottoes and placards of the other side they must show that they have done their duty in the provision of an adequate fleet. This is another reason why we

should have eight ships.

Dreadnoughts Alone Count.

His strategical insight has sometimes been called in question, but the steady accumulation of force in the North Sea furnishes the best reply to this criticism, while the fact that he is known have the advice and approval of Sir Arthur Wilson, the foremost strategist and tactician of the navy, suples further evidence of the unfound ed nature of this charge.

Sir John Fisher's personal friends say that he is anxious to relinquish office and has been so for some time past, but if some of the Liberal leaders do cult to replace him, and there are many ong his assailants who fear that i Mr. Balfour came into office again he would want Sir John Fisher as his first.
