Perley's Overseas Appointment Regarded as Capping Climax.

**KEEN INTEREST SHOWN** 

Tangle in Medical Services is Much Discussed at Ottawa.

new, altho only a "period of the war" portfolio of overseas forces and the appointment of Sir George Perley as sister, has shorn General Sir Sam Hughes of almost the last authority left to him as minister of militia. There is little now for him to do. Munitions are in the hands of the imperial munitions board and that body is directly responsible to the imperial minister of munitions. Clothing and other supplies are handled by the war purchasing commission, recruiting is practically under the control of the mational service commission, the details of the militia department are looked after by F. B. McCurdy, the parliamentary under secretary of state for militia and defence, and now the overseas part of the war business is to be administered by Sir George system of spying and plotting into the straightful str

General Hughes returned and the next heard was that the minister of (Continued on Page 4, Col. 4).

## **MUNITIONS AMPLE GERMANY BOASTS**

Berlin Says Anglo-French Somme Drive Has Been Halted.

WERE CAUGHT NAPPING

Equilibrium in Artillery Restored, According to Enemy's

Berlin, Tuesday, Oct. 31 .- (Via London Nov. 1.)—The stiffening of the German defensive on the Somme, which is credited here with stopping the allied push on Bapagne and Peronne and limiting the advance of the French and British to insignificant gains, is due to the restoration of the equilibrium in the matter of artillery between the two armies.

Now that this has been achieved, it may be stated that Germany in August was confronted with difficulties in the supply of munitions and the replacement of worn-out or damaged guns, which, it is declared, was largely responsible for the successes then scored by the allies. For the second time during the war—the first being during the concluding phases of the 1914 campaign—the German experts found that their calculations were outrun by facts, and were faced by a consumption of guns and shells far beyond what was expected.

Output of Munitions.

The formation of a department of munitions, amounced yesterday, is an outward sign of their determination not again to be caught napping, but to increase the production of munitions to the utmost possibilities. German industry in this production has already passed the requirements of immediate consumption: but, as Field Marshal von Hindenburg, chief of staff, recently declared, it must not stop here, and a margin of safety must be established limited only by the possibilities of production, as is already the case in enemy countries. Nov. 1.)—The stiffening of the German

#### To Stop Liquor Imports By Firms in Manitoba

Winnipeg, Nov. 1.—Commission houses which arrange inter-provincial transactions in liquor are to be put out of business in Manitoba, it was announced this morning by the attorney-general's department. An amendment to the temperance act will be introduced at the next session of the legislature making it illegal for commission houses to import liquor for customers.

Jecus for which is was founded. He opposed sectionalism and said the destinies of peace and war should not be used for partisan advantage.

The president's speech was devoted almost entirely to the discussion of domestic issues and criticisms of his political opposents.

#### Flour Price at Winnipeg Drops Ten Cents Per Bag

Winnipeg, Nov. 1.—The price of **Sour** has dropped 10c per bag, or twenty cents per barrel. This was announced by a local milling company this afternoon. Best patents, which formerly were selling at \$9.80 per barrel, are now reduced to \$9.60 per barrel, or \$4.80 per bag.

stores, for nickel, all sadiy needed by Germany. There is still lots of Canadian nickel kicking about the United States. The Montreal Gazette will also be glad to note her arrival; in fact that worthy newspaper is delighted over the fact that our metal policy is of such an elastic

needs!

And speaking of nickel the British people are somewhat interested in the revelations now being made by an American writer, one D. Thomas Curtin of Boston, who is presenting a series of articles in The London Times as to the widespread and malign influence of Germany and Germans thruout the British Empire; and how that enterprises inimical to our empire seem to have more or less an Anglo-German backing, with powerful friends in London, Milan, Rome, Madrid, New York, Montreal, all thru South America—everywhere in fact except Austraerica—everywhere in fact except Austra-lie. When we read this statement of The Times as reproduced in The New York Sun we thought of Canadian nickel and we thought of Montreal and the activities of papers like The Montreal Gazette in aiding the International Nickel Co., and we thought there might be some innuendo in this statement of Mr. Curtin's that squinted at banking centres in Can-Times and Mr. Curtin are after the International Nickel Co. and after the great

countries. And in Canada, it now pretends to be intensely interested in a

Perfey.

Choice Set Aside.

All these moves have been the ideas to some extent of General Hughes himself, but the plans were not worked out according to his intention. For instance, before he left England a few weeks ago be had started to organize a Canadian militia overseas department, and had actually named the deputy minister. News of the apwas exposed and driven out. Some day soon, we hope, it will be unearthed and expelled from Canada; but it is still leeply entrenched, perhaps, as The Lon-

> will come out very suddenly some of these In the meantime, we observe The Globe is very quiet in regard to nickel, and so is Mr Rowell, and Sir Wilfrid Laurier has not said much, altho he is said to be thinking. Apparently, Canadian statesmen who are in the governments at Ottawa and Toronto are still convinced that about the finest institution we have in Canada today is International Nickel, which is now about to build a refinery for the treatment of Canadian nickel ore in our own country. They also want, of course, to send a lot of our ore into the United States to be treated there—whence they can send it, if they wish, over to Germany and to the allies of Germany They are willing to let us say that the portion needed for the empire and for Canada may be refined in Canada: perhaps this is something to be thankful for: but it does not seem to be good national show an over-zealous care that the lives missing follows:

General Election in Britain During War Seems Likely

London, Nov. 1.—Discussing in the house of commons the register bill to make provision for the possibility of a general election during the war. Premier Asquith announced today that the government was anxious to give the soldiers, sailors and munition workers opportunity to participate in any such election and that it would introduce a bill to that effect.

Regina Trench's Capture Due to Them and Men of New Army.

WILDERNESS OF MUD

Series of Minor Successes Are Gained Despite the Bad Weather.

London, Nov. 1.-In a further re riew of the operations on the British today, Gen. Sir Douglas Haig, th British commander, reports:

"Since my last review, Oct. 19, the cather has been mostly unfavorable to extended operations; the heavy rain almost cally has converted the chalk soil of the upland between the Ancre and the Somme into a wilder-ness of mud. Such conditions hamper ness of mud. Such conditions hampe military operations very seriously but nevertheless during the past fort night we have made progress and ad vanced our front towards Butte de Warlencourt, in the neighborhood of Gueudecourt and Les Boeufs.

Successful Local Attacks.

"From Oct. 20 to 23 the weather was dry and fine, with a strong easter ly wind. We took advantage of this change to deliver between Schwaben redoubt and Le Sars a very successful local attack. Schwaben redoubt, which

# BRITISH CRUSH BULGARIANS ADVANCE ON STRUMA FRONT

## FOE ATTACKS RUSSIANS FIERCE FIGHT PROCEEDS

Slavs Repulse Teutons Everywhere, Except in Wood in Brzezany Region in Southeastern Galicia.

London, Nov. 1.—The Turks and Germans are violently attacking the south of Brzezany, southeastern Galicia, on a wide front, and at one place, the Michishou Wood, they pressed the Russian detachments holding this position, back to its southern portion. But this was not accomplished before the Russians had put up a stubborn resistance and had inflicted heavy casualties on the assailants. The fighting was preceded by a fierce bombardment by heavy artillery.

If the foe made some headway in the Michishou Wood, he encountered such a terrific resistance from the Russians in another sector, the regions of Lipsitadolna and Svistelniki, that all his attacks were failures. His losses in this region were enormous.

# ALLIES MAKE ADVANCE Montreal. TOWARDS LE TRANSLOY Mintreal, Nov. 1.—The names of the crew of the steamer Cabotia, reported sunk, have been issued here. #### CONVENTION OF W. C. T. U.

Third Party Should Be Women's Party, Says Hamilton's

LIBERAL LEADER TABOOS

S. S. ASSOCIATION OPENS

MEETING IN KITCHENER Kitchener, Nov. 1.—About 500 delegates arrived here today to attend the fifty-first annual convention of the Ontario Sunday School Association which opened in Zion Evangelical Church.

Hamilton, Thursday, Nov. 2.—Dressed in white, and bearing shields inscribed. "We Want the Vote" women representing the various states and provinces thruout the world where equality of sex is recognized mingled with the huge audience at the suffrage demonstration at the First Methodist Church last night, and sang "A Better Day is Coming; the Morning Draweth Nigh." As the hymn proceed as the content of their seats in excitoromen tumped from their seats in excitoromen tumped from forth, as if keeping time. It was a fiery and energetic gathering, and more enthusiasm and spirit were shown than at a "Billy Sunday" revival meeting. "A clean Ontario for the boys when they return from the trenches," and "the women of Ontario are only asking to help make the laws," were some of the slogan. We have the power, and all that we have to do is to resilize it." said Mrs. A. B. Ormsby, who presided. "It take exception to Sir Wilfrid Laurier's statement that by their work during the war have the women earned the right to vote. What we have done is for our country, and not for the vote. Some of Ontario must do the same. We women of Ontario must do the same of Ontario by the order of the war. Third Party-Women's Party.

Cheers greeted the announcement that the third party should be the women of ontario must do the work do t

\* WAR SUMMARY \*

THE DAY'S EVENTS REVIEWED

budget of authentic news from this theatre of war shows that the

Roumanians have continued their progress in the Jiul Valley, thru the

Vulcan Pass, and that they have taken 600 more prisoners, besides

a large quantity of war material. The taking of prisoners in batches of 250, 300 and 600 at a time shows that the Germans are fighting

rear-guard actions as they retreat, and that they are being forced to sacrifice a considerable number of men in the process. When in-

vaders retreat, it is evident that something has gone decidedly awry

North of Kimpolung the Roumanians still hold the enemy. They have even gained some ground on their left wing, in the region of Dragoslavele. In previous actions on this ground they had advanced on their right. These facts show that the Germans there have been thrown on the defensive and that the Roumanians are bending back their flank so as to create a bulge or

that the Roumanians are bending back their nank so as to create a bulge or salient of their centre, preparatory to nipping it off. Their method, it is thus seen, is to drive wedges into the German front the same as the allies have been doing on the Somme, to get the Germans out of range of their big guns, and then to walk over them. It is notorious and significant of future plans that the allies have been sedulously establishing the ascendancy of their own infantry over the German infantry so as to force the Teuton foot to fight only under the protection of heavy guns. It has been suggested that their aim in their tactics is later to deprive the Germans of the vector that

aim in their tactics is later to deprive the Germans of the use of their monster cannon by means of aeroplane raids on a gigantic scale when the time comes

\* \* \* \* \*

The only news that on the surface looks disquieting comes from the region of the Red Tower Pass. Down this gap the Teutons have advanced to points twelve miles within the Roumanian border, according to Petrograd, which mentions the loss of the Town of Rakovitsa and the Village of Titeshti. But when the situation is examined a good deal of the apprehension disappears. The Red Tower Pass is simply a narrow gorge worn by the Alt River thru the Transylvanian Alps or the High Carpathians, and the mountains tower to a great height on each side. Thru this gorge run a railway and a realway.

Transylvanian Alps or the High Carpathians, and the mountains tower to a great height on each side. Thru this gorge run a railway and a roadway from Hermannstadt towards Bucharest. In seeking to defend this pass from its northern exit the Roumanians would have to support them only a railway and the road on a narrow front, and they would be hampered by great way and the road on a narrow front, and they would be hampered by great

way and the road on a narrow front, and they would be nampered by great congestion in the rear as soon as they had to evacuate their wounded and to bring up supplies to the firing line. But as they withdrew to the southern outlet, they would reverse the situation. The Germans would then have to depend on the single roadway, for the rallway would be destroyed. Thus, by withdrawing southward, the Roumanians would greatly strengthen their defence. This is what they have done

The British have captured three villages east of the Struma, on the front north of Salonica, in sharp actions fought in heavy rain. These are Barakli-Azuma, Prosenik and Kumli. At the first named village the British took 300 in prisoners and at the last two the Bulgarians did not stay long enough to periresage the long-expected advance on Constantinople along the coast of the Acean. The fighting in Macedonia has probably sufficed to attract to that stir against the Serbian advance, giving the British thin lines to attack so as to permit the making of a rapid march from the Struma. Behind the lines of the enemy run no lateral communications and he has to send his reinforcements by a roundabout road to threatened points.

In southeastern Galicia quite a heavy battle is proceeding, the Teutons being the aggressors. In one section they succeeded, after a violent struggle, in forcing the Russians in Michisou Wood back to the southern parts of it, but in another section, in the regions of Svistelniki and Lipsitadolna, the attacks of the enemy failed and he suffered heavy losses. It is quite probable that the Germans believe the Russians have removed considerable forces from this region for action somewhere else and that they are launching attacks for

that the Germans believe the Russians have removed considerable forces from this region for action somewhere else and that they are launching attacks for the purpose of compelling the Slavs to strengthen their lines. Great news comes from Russia to the effect that by next April the czar will have tripled the forces that he now has in the field, and that he will be ready for a tremendous effort against the foe. This intelligence will probably induce the Germans to send large forces to the eastern front in an endeavor to snatch some advantage from the allies in order to ward off what is coming. Meanwhile the Teutons are in for another severe Carpathian winter.

fence. This is what they have done.

# and French in combined local attacks yesterday in the section east and northeast of Les Boeufs. Sir Douglas Haig merely reports that in conjunction with the French, "we made a local attack east of Les Boeufs, where some ground was gained." The French announce that they captured two trenches northeast of Les Boeufs. In addition to this cucaes the French also carried a strongly corganized his name." nounce that they captured two trenches northeast of Les Boeufs. In addition to this success the French also carried a strongly organized system of trenches on the western outskirts of St. Pierre Vaast Wood, southeast of Sailly-Saillisel. Paris also announces in respect to the Verdun operations that the total number of prisoners taken since Oct. 24 has reached 6041. The material captured comprises 15 guns, five being of large calibre, 51 trench mortars, 144 machine guns, two wireless plants and a great quantity of rifles; bombs, shells and various other material. The list reads like the inventory of an arsenal. Roumania was evidently much better prepared for war than the Germans imagined when they light-heartedly undertook a punitive expedition against her, for after violent fighting of several weeks' duration, the foe has been practically halted in some places. The latest budget of authentic news from this theatre of war shows that the

Fifty-Eight Hundred.

of Canada. They had shrewdly succeeded in attracting to their interest

the coureurs des bois, and finally get them under discipline and into regu-lar employment. So successful was the Northwest Company

The actual brawl in which the kill-ing occurred which formed the sub-ject of the trial at Toronto occurred

after the Earl of Selkirk had directed

the officers and employes of the Hud-

son Bay Co. to oust the trappers and employes of the Northwest Co. from

the territory then known as Assiniboia, but which now might be roughly described as Manitoba, and to seize and confiscate their food, furs, arms and other supplies. Some 20 trappers, in the employ of the Northwest Co., started, mounted and armed, from Fort Ou'Appelle assistered.

Fort Qu'Appelle eastward and near Fort Douglas, now Winnipeg, encountered a body of men in the employ of the Hudson Bay Co. A fight ensued, in which the governor of the territory, who had been appointed by the Earl of Selkirk, and others, were killed.

Lord Selkirk had then caused several of the Northwest Co's party to be indicted for murder at the Town of York and there in October, 1818, the trial was held.

Incident of Trial.

Sir Wilfrid then detailed at some length the incidents of the trial. Mr. Robinson, afterwards Sir John Beverley Robinson, had led for the crown and the judges were at first strongly in

the judges were at first strongly in-clined to agree with him that the case

Co. under its royal charter was claiming sovereignty over the territory be-

ing sovereignty over the territory between Lake Superior and the Rocky Mountains, and insisted upon setting forth the full history of the feud between the tween tween tween tween tween the tween t

Successful Company.

lar employment. So successful was the Northwest Company that it virtually acquired a monopoly of the fur business in the early part of the nineteenth century.

Sooner or later there was bound to be a conflict between the old company and the new, but that conflict which came to a dramatic climax in 1816, had been complicated and rendered of more interect by the colonization schemes of the Earl of Selkirk. Ilis lordship had conceived the idea of transforming the Canadian west from a mere hunting ground into a prosperous farming community. He therefore bought a controlling interest in the Hudson Bay Co. and then, as an individual, had purchased from that company 100,000 acres of land upon the banks of the Red River and the Assiniboine. Unon the land he had settled a number of families brought to Canada for that purpose from Scotland and Ireland. The colonization scheme ended in suffering and failure, partly on account of the fierce rivalry existing between the two fur companing the structure of the fierce rivalry existing between the two fur companing the fierce rivalry existing between the kill-

of 9034, but the 15,000 soldiers voting cut down the total by 3199.

Civilians passed prohibition in every one of the 47 British Columbia constituencies, except two, but the soldiers' overseas voted against prohibition in every single constituency.

Woman suffrage was carried by both civilians and soldiers. Its majority is botter than two in favor to one against. The women get the vote next January. Prohibition will come into force July 1 next.

#### CANADIAN CAR COMPANY FREE TO SHIP SHELLS

Decision Given by Court at Toledo, Releases Consign-

Toledo, O., Nov. 1.—Judges of the court of appeals here today handed down a decision against the Consolidated Manufacturing Company of Toledo in the fight over shrapnel shells for the Russian Government. The decision releases the munitions for shipment under \$195,000 bond, twice the amount of the appraised value. The shells, 225,000 in number, were made for the Canadian Car & Foundry Company, agents for the purchasers. The shipment was tied up by injunction several weeks ago, following a dispute over its value. The manufacturers claimed the shells were worth \$315,000, and demanded that the Canadian firm post a bond for twice that amount.

Breach of contract was alleged when the shells were attached. clined to agree with him that the case was nothing more or less than ch ordinary murder trial. Mr. Sherwood, who led for the defence however, insisted that a great deal more was involved. He contended that the Hudson Bay Co. under its royal charter was claim.

### BROKE PROMISE TO PAY.

Woodstock, Ont., Nov. 1.—In the po-lice court today John Jordan, of Emthe Teutons are in for another severe Carpathian winter.

In a full report on the recent operations in France, British general head-quarters says, in respect to the capture of the whole of the Regina and Stuff lead on the Schwaben Redoubt, that Canadians and troops of the army of New action of the Schwaben Redoubt, that Canadians and troops of the army of New and most economical victory.

In a full report on the recent operations in France, British general head-his view prevailed, all the facts were laid before the jury and the defendants were acquitted. Lord Selkirk left Canada disappointed and heart broken, and most economical victory.

#### Much Criticism of York County Highway Com

The York County Highway Commission are being severely scored on two counts, one of these being the delay in the construction of the new roadway on the Kingston road beyond the Highland Creek and the other the type of roadway built on the Kennedy road between the Canadian Northern crossing and "Sandy" Doherty's gate. On the Kingston road a long stretch of highway nearly half a mile has been stoned and left uncompleted for some days, forcing the motorists and others to take the side of the road. It is held that shorter sections should be finished before starting the new portions. On the Kennedy road, while the general type of highway is giving satisfaction, the mile and a quarter in question is said to be dangerous, many horses having fallen on the high, rounding crown, and action is threatened in the event of any serious loss.

out formality or ceremonial, to delib-

Alluding to the war Lord Cheimsford said: "The great war in which the empire is engaged is still proceeding and altho the ultimate issue is certain much remains to be done before a settlement can be secured which will meet the full death of the ultimate issue is certain much remains to be done before a settlement can be secured which will meet the full death of the ultimate issue is certain much remains to be done before a settlement can be secured which will meet the full death of the ultimate issue is certain much remains to be done before a settlement can be secured which will meet the full death of the ultimate issue is certain much remains to be done before a set acts, is believed by some observers to the settlement can be secured which will meet the settlement can be secured which will settlement can be secured which will settlement can be secured and settlement can be secured for the world of lasting peace. In this war you have stood forth as true pillars of the can be some movement southward as soon in the settlement of the settleme

tions connected with their states and people and themselves. He hoped that the conference would be conven-ed at stated intervals, adding:

Advice is Sought.

"It may be that in time to come some constitutional assemblage may grow out of these conferences which will take its place in the governmen of this great empire, but for the moment I would ask you to content your-selves with the prosaic but useful task of advising the government of India in certain specific matters. The existence of harmonious relations be-tween the states and the government I regard as a matter of supreme im-

## REFORM WAS NEEDED IN PARCELS SYSTEM

Caused Failure of Plans.

#### BENEFIT TO GERMANS

Dr. Robertson of Red Cross Explains Why Change is Made.

By a Staff Reporter. Ottawa, Nov. 1.-Discussing the new authorities deemed it necessary to prevent the duplication of parcels to prisoners of war. Prisoners who were receiving parcels from various sources in ceiving parcels from various sources in generous number were not given all that were addressed to them. The ex-tra parcels were appropriated and dis-

tributed among the needy in Germany "The work of sending parcels to the prisoners of war as I understood, was to be taken over entirely by the British Red Cross, and the order of St. John of Jerusalem, with the exception of the Canadian men, and these were to be cared for thru the Canadian Red Cross Society at London

Satisfactory Agreement.

"A parcel was to be sent to every prisoner, whether he was receiving food from home or not, so that noted the men would suffer privation wedlessly if the home packages failed

"I believe that this would be a most "I believe that this would be a most satisfactory arrangement, since the food sent from the Red Cross office war as did the male voters."

Australia voted almost as readily to send their sons and sweethearts to war as did the male voters.

allowing the wives and mothers of of- voted against conscription was slightparcels is that there are few of them the difference was not marked enough and the opportunity of acquiring con-siderable foodstuffs for the German public thru their extra parcels would

be very slight.
Warning to Senders. "I am sure that the British Government would do nothing at this time that would needlessly deprive the prisoners of war or their families of any fittle comfort they may get from sending or receiving parcels from home.

Dr. Robertson's view is the one conscriptionists' lead. The figures to date are: For conscription, 892,000; lagainst 373,000.

Stripes for Wounded.

Official notice that officers and men wounded in action may wear stripes of Russian gold braid, one stripe to mark each occasion on which wounded, has been issued by Ottawa. The stripes are to be worn on the left sleeve.

A court-martial will be held at the Toronto Base Hospital tomorrow. The court will be presided over by Lleut.-Col. B. H. Brown, 220th Battalion, and have Mafor F. O. Tidy, 198th Battalion, and Major A. Watts, 204th Battalion, as members.

A special course for instruction in the use of the Lewis automatic rifle will commence at Victoria Hall, Queen's Park, next Monday. Officers and N.C.O.'s representing seventeen units in the Toronto district, will attend the course.

No entertainments of any nature will be permitted where money is to be raised for the benefit of any C.E.F. unit without it first obtaining premission from the premeral officer commending Toronto Mill.

out it first obtaining premission from the general officer commanding Toronto Mili-tary District. The foregoing order has just been issued by the military authorities.

Captain Alex. McDonald has been transferred from No. 2 Army Medical Corps Training Depot and appointed to the Field Ambulance Training Depot in vew Brunswick.

School Starts Today. School Starts Today.

The Royal School of Artillery class, which starts today at Tete du Pont Barracks, Kingston, under the auspices of C Battery, Royal Canadian Horse Artillery, has caused a continuous flow of applicants for enlistment for C Battery during the past week from both Montreal and Toronto, As the majority of recruits for C Battery are well educated, they pick up their work very quickly and are able to qualify and get overseas in short order.

able to qualify and get overseas in short order.

During the past few days seven men have enlisted in Toronto in this unit.

The 239th Railway Construction Corps is now making an urgent appeal for carpenters, bridgemen and pile-drivers. Information has been received at the recruiting depot, 189 West Queen street, that the rank and file of this corps will now be designated and known as sappers, and not privates. This special distinction has been conferred on the corps on account of the number of skilled and highly-trained men who have joined. The only other branch of the service that bears this distinction are the Engineers in the Canadian and imperial service.

#### St. Clair Avenue Residents Advocating Better Lighting

Much sympathy is expressed with the Craig family, 1115 St. Clarens avenue, by the residents of the Earlscourt district, on account of the untimely death of Mrs. Richard Craig, who was knocked down the support of one faction of the and fatally injured by an automobile on Tuesday evening, while crossing West St.

Clair avenue. "This is another reason, if more are tend to ship large quantities of cereal required, why we should have cluster from Australia, where, it is said, this The latest returns show a majority of \$1,000 against conscription with \$00,000 votes yet to be counted, includiant merchant, discussing the matter last evening. "The affect is one of the The lights on St. Clair avenue." said a promi- year's crops have been unusually heat merchant, discussing the matter last evening. "The street is one of the finest in the city, and is also the worst-lighted. The mofor car and other vehicular traffic is steadily increasing, and with little or no police supervision. It is surprising there have not been more fatal accidents on this thorofare, and perhaps the civic authorities will now do something to remedy matters," he said.

There are the vicerous transfer in the prime minister in the prime Medical Services Tangle. to be regarded as an authority, has condemned much of the organization of the military medical service, and result General Hughes ordered Col. Guy Carleton Jones home to Ottawa. Somebody countermanded this but probably the countermand was simply due to the fact that Sir George Perley was to be appointed minister and that he would be an excellent man to straighten out things on the ground. This will be done. Then Carleton Jones may come back or he may not. Meanwhile the situation here is at a very interesting stage, and speculation is rife as to what General Hughes will do or say one of these days. He is not at all well at present and has been advised to take a complete rest. That he is worn out j

## RISE IN BREAD PRICE EXPECTED IN BRITAIN

Agitation for Government Control of Food Grows Stronger.

#### MINERS ARE RESTLESS

They Threaten to Strike Unless Food Situation is Relieved.

London, Nov. 1.—The Daily Express says:

"Wheat reached the extraordinary price of eighty shillings (\$20) per quarter (\$2.50 a bushel) on the Baltic exchange yesterday. There is little hope that prices have attained their limit, and an immediate rise in the

cost of bread is anticipated.

"A conference of South Wales miners at Cardiff decided to place before the triple alliance of miners, railway men and transport workers the ques-tion of government control of all food supplies, and threatened a one-day strike in that coal field unless immediate action is taken.
"The Scottish miners resolved a

Glasgow to call a large conference of all the labor and progressive forces the country to decide what steps shall be taken to force the government to assume full control of all the necessary commodities and to fix retail prices." WANT AUSTRALIAN WHEAT.

#### **MUNICIPALITIES WANT** CRIMINAL FINES BACK

Attorney-General Tells Delegation That Law is Expensive.

Hon. I. B. Lucas pointed out to reresentatives of the Ontario Municipal Association, who waited on the government yesterday, that the administration of the law in Ontario last year cost \$483,000, while fines in criminal cases amounted to only \$25,-000. The delegation's petition was that since the municipalities paid the magistrates, they should get the criminal

fines.

The law provides that these fines may be returned to the municipalities, or retained by the department for law administration. At one time they had been returned. For some time past they have not been. The municipalities can, and generally do, retain the fines imposed for infractions of local bylaws, the Liquor License Act and similar measures. wimilar measures.

While members of the cabinet promised the delegation consideration, they gave little encouragement.

Ontario License Board Discusses Various Anoma-

#### MANUFACTURERS' PERMITS

Delegation's Request for Change of Form is Granted.

Nine representatives of companies manufacturing pharmaceutical products in various parts of the province waited on the license board yesterday to discuss with the members various anomalies in the Ontario Temperance Act. The board told them repeatedly that they were auxious to meet them

in every possible way. The main point at issue was with The main point at issue was with regard to the permits issued to manufacturers to allow them to obtain alcohol and spirit for manufacturing purposes. As the permits had been drafted originally, they read that so much liquor was required "at one time." The manufacturers asked that this should be changed so that they might obtain a permit for their cett. might obtain a permit for their esti mated requirements for the calendar year, with a maximum at any one time stipulated. Should the exigencies of business demand a greater amount they might apply to the board for further license. This the board

W. W. Grant, who was spokesman for the delegation, asked that, as honfor the delegation, asked that, as honorable men, the manufacturers should be permitted to send in merely a written statement of the amounts used by the tenth of each month instead of the sworn statement required by the act. Chairman Flavelle replied that the board was powerless to go outside the provisions of the act.

Legislation Only Remedy.
Eudo Saunders, solicitor to the board, said that legislation was the only remedy he could suggest for the point raised that doctors' supply houses, which were in the habit of supplying absolute alcohol to doctors in small places where there was no

THURSDAY MORNING, NOV. 2.

#### The Bread Problem

If we had government of the people by the people and for the people the along the Mexican frontier. This will price of bread at the present time gathered in, it is hoped, from the new would not be running about seeking a revenue taxes imposed at the last sessolution if a people's government were sion and mainly from the income tax. in power. The seriousness of the chiefly on bread.

supply of bread at home, and this so- the greater part of its revenue. lution may be all right if the mother additional burden. Baking in a bakeshop is understood to be, and is, legislated for as a man's job. Would the solution of the bread problem be so acceptable if the father of the family were requested to do the baking and add this job to his other duties? Why should the father not take on the extra load as well as the mother?

This solution is really only a halfbaked one. Our civilization is built up on the principle of co-operation, and the baker and the butcher, the maker and the soldier and the candle-

stick maker all take their place in our social economy on the principle of a division of labor and a fair deal to all. In time of war or other stress there is a tendency on the part of some to take advantage of the situation, and add unduly to their gains. In a government strictly of the people this would not be permitted, but governments are not always strictly of the people, and even where they profess to be they are in a minority among the world's governments, and cannot regulate things, except in their own territory. Even then they are prone to make excuses and lay the blame on the other gov-

In the case of the bread problem in Canada, our government, whether of the people or not, has done nothing. The people are still awaiting action. The people who depend chiefly or largely on bread for their nourishment feel the pinch much more than those ther objected that the law taxes indo who nibble a morsel of toast at luncheon with their soup. In a family of six or eight bread becomes a

The government ought to know to ing prices, and to what extent the natural scarcity of the crops and supplies, thru shortened production and insufficient transportation. In all famines the distress has not been caused by the scarcity of food, but by the inability to get the existing food to the mouths of those who needed it. During the potato famine in Ireland Queen street, yesterday afternoon. He that country exported food to England. During the last great famine in in the police ambulance. India that country exported food also. "Do not send wheat, send money to

buy what we have," was the plea. If public bakeries are to solve the problem the government ought to say so, or the city ought to adopt the plan. But there is no sense in discussing and investigating and objurgating and doing nothing.

Four cents a small loaf has been added to the price of bread within a comparatively short time. This means \$15 a year almost for the family which uses one loaf a day. A family which uses a large loaf adds \$30, and one using two large loaves \$60, to the an-

wage of thirty cents an hour as against the fifteen cents so bitterly opposed twenty years ago. Are the people any better off? This is the problem a people's government should be able to answer satisfactorily to the people. To tell the overburdened mother of a big family to bake her own bread is no real help.

#### Not Good at Heftin' a Cargo

Hon. Howard Ferguson was recent ly pluming himself about his knowledge of the carrying capacity of freight vessels, and he staked his judgment on the assertion that the reported 374 tons of nickel declared to have been shipped on the Deutschland could not have been put on board of that submarine, unless it was piled on the deck. The report of Mr. Ferguson's speech mentioned 274 tons, but as the shippers state the larger quantity, Mr. Ferguson will no doubt accept the corin advance will pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto and Hamilton by all Newsdealers and Newsboys at five cents per copy. ing capacity of vessels, he said, made him aware that it would be utterly impossible to get such an amount of nickel on board.

The Deutschland has arrived at New London, Connecticut, on her second voyage, carrying 750 tons of dye stuffs, a much more bulky cargo than nickel. The vessel is going to try to return with 750 tons of rubber and medical supplies, which will certainly bulk larger than 374 tons of nickel. Mr. Ferguson's reputation as a supercargo is at stake.

#### The U. S. Income Tax

Expenditures over ordinary revenue by the United States Government for the fiscal year ending June 30, 1917, are estimated at \$300,000,000. More than one-third of this deficit will be caused by the mobilization of the National Guard and its maintenance people's problems would be dealt with be provided for by an issue of bonds instantly. Such a problem as the The remaining \$200,000,000 will be

The income tax has never been popu situation would appeal to those who lar in the United States. First im directly and actually represented a posed during the stress of the Civil population that subsisted largely or War, it was one of the first war taxes to disappear after the return of peace. As it is, no solution is offered but During the second administration of the application of the principle of pub- Grover Cleveland there was a return lic ownership in an elementary way, to the income tax, but the legislation recommending every family to have under which it was levied was deits own bakery. #### POLITICS and **POLITICIANS**

What is being done with Sir Sam public ownership in this instance, income tax, was largely based upon the room when Sir Sam has returned; and could never be scientifically handled dian overseas forces in Great Britain ly even more than he thinks necessary, Scarcity of ocean tonnage, occasion- and it may be that there is some truth of the family is willing to assume the ed by the war, has excluded foreign in the report that his official wings and But the statement given out by Sir could have been devised by the most certain duties to Sir George Perley would make one think that Sir Sam had more Hence the government finds itself or less/suggested these changes, and compelled to rely more and more for especially because of Sir Robert's staterevenue upon the income tax. This ment that the minister of militia can

> Nevertheless it is certainly true that the work of the department has enormously increased; and that to carry it on the war as far as Canada is concerned leases. If there is not money enough and make munitions for the British Government, we have now a purchasing commission headed by the Hon. A. E. Kemp for Canada, a munitions bureau for the imperial government, represented ordinary expenditures in times of special committee of the cabinet headed peace, and the income tax is, therefore, by the premier for war purposes; we and vigorous manner than might have the militia department in Mr. R. B. Mc-Curdy; a minister of Canadian war matters in Great Britain in Hon. Sir George Two objections are made by the big Perley; a director of national service to financiers to the income tax over and deal with recruiting in Hon. R. B. Ben. above their natural objection to any nett of Calgary. Besides these there is taxation which they have to pay out of host of officials designated for special their own pockets. One objection is duties, both here and in the old country, that income from national, state and including a visit by the auditor-general counting thereof.

> > It was stated in the news, columns from Ottawa the other day that Sir Sam Hughes was very much overworked and was nearly at a breakdown; and these numerous appointments would indicate that Sir Robert is only too willing to give him any assistance or even more assistance than he may need. So far be appointed lieutenant-governor, and the the remarkable thing, however, is that present occupant of Spencerwood, Sir one reason, and that is that the men Sir Sam has nothing to say and is evi-Everest Le Blanc, will replace the presdently in full accord with what is taking ent postmaster-general in the cabinet. It

And then there is Col. Clark, who has een made an under-secretary of external affairs and who is also willing to do his share in any way possible to relieve Sir Sam of some of his duties. And Col. Currie of Toronto, who is also a member of the commons, might also be willing to do his bit in bearing the burden of Sir Sam. So that with all this distribution of responsibilities and the co-operation of sc many men in performing the work of one, it may be taken by the country as more or less overwhelming evidence of the load that the member for Victoria had on his shoulders and how near he was to the sons of the political Anaks!

. . . . . From what has taken place, therefore, whether it means that Sir Sam is to be relieved of office or to be retired because of overwork, the man on the street will think it has taken a long while to do what has been accomplished and that the net result illustrates the charge that slowness of action is a pervading element of the Borden government. But Just what it all means will develop within the next few days. In the meantime The World trusts that Sir Sam will be able to eat at least three meals a day and recover any energy he may have lost thru over-devotion to duty. He is

Engagements.

Mr. and Mrs. James Armstrong of Windycroft announce the engagement of their eldest daughter, Sara Margaret (Bluebell), to Mr. Ronald S. Mackinnon, son of Mr. and Mrs. Donald J. Mackinnon of Toronto. The marriage will take place in St. Paul's Anglican Church, Nov. 29. Her Five Minute Role in "His ONLY A FEW DAYS MORE OF OUR UNRIVALLED DICTIONARY Brother's Keeper" Has Sealed Her Fate.

A word is the symbol of an idea. One may have the most original and forceful ideas—but without words to express them they are utterly valueless. It might be said that there are no new ideas under the sun. In the earliest recorded writings from the Sanskrit, the Chinese, the Hebrew, the Greek or the Latin tongues, we find the same thought again and again. It is the expression only that varies. Each age, each nation must evolve its own form of expression or symbolism in its literary art. The universal mind in this way frees itself by the individual

ments of education. And the dictionary which gives the derivation, the different shades of meaning, the transition in modes of spelling; in short, the history of the word, is the one indispensable workshop for the worker in words. Among all the eras of dictionary makings, the present excels. And there is no excuse for anyone not to possess a valuable dictionary. The New Universities Dictionary, now being distributed by this paper, is easily this distributed by this paper, is easily the famong the dictionaries of its class. Our distribution has been wide and far-reaching. We only regret that the time draws near when we can no longer get this wonderful book for our readers, on the terms hitherto prevailing. We hope that those who have not yet gotten it, will avall themselves of the unusual opportunity presented today. The coupon published daily in our columns explains the method of acquiring it.

The stands cut in the picture with a text on to ruminate; "You see," I went on to ruminate; "You see," I went on to ruminate; "You see," I went on the stage for just a few minutes. **RECOMMENDS PAYMENT** OF SEYMOUR CO. TAXES

WITH MARY NEWCOMB Hydro Willing That Province Relieve People of Liability.

Sir Adam Beck announced yesterday that the hydro commission had decided be fecommend payment by the province of the taxes of the Seymour Power Co.'s plant, taken over by the government at the last session of the legislature, for the balance of the first year. The amount involved is about \$45,000. The hydro, says Sir Adam, has just requisitioned the fourth and last 12,000 horsepower to which they are entitled from the Canadian Niagara Power Co. This is expected to carry them on until the end of the year, when further arrangements, not yet disclosed, will have to be made.

The commission has decided to turn over the interest and sinking fund to the government on capital advances over the interest and sinking fund to the government on capital advances by the government to the commission, a sum of between \$650,000 and \$700,-000. The commission has the money available. By an order in council just passed, the commission has been em-powered to construct a power dam on Lake Golden, near Renfrew, and the work is to be started as soon as the Town of Renfrew signs the usual contract.

## SCHOOL NEEDS GAGE TO HELP THEM OUT

Defeated by Senior Meds in Mulock Cup Game Five to Nil.

Senior Mcds were a vastly improved team in their second Mulock Cup fix-

team in their second Mulock Cup fixture yesterday. The doctors have put in some hard practice since St. Michaels took their measure and they made few mistakes yesterday. Sonior School made their first sppearance of the scason yesterday and Meda trounced them 5 to 0.

It was fast, clever football, with Mclean kicking all the points for Meds. This half-back was a whole team in himself, and besides doing all the booting for the winners he pulled off three or four runs for large gains. Meds tackled in deadly fashion and their wings broke thru when needed.

Gorman of Senior School was injured in the opening quarter in a scrimmage and was carried off the field. It was found that he had a ligament badly torn in his leg, and he was removed to the General Hospital. School were shy on team play, but when they get Charlie Gage out for their next fixture it is expected that they will do much better.

Smithson, the ex-Capital player, did the brint of the work for the losers and did it well. Only one point was scored in the opening quarter, when McLean hooted behind from centre field. Smithson was forced to rouge. McLean booted behind to Crodden twice in the second quarter and the School half was downed each time.

McLean forced another rouge in the

quarter and the School half was downed each time.

McLean forced another rouge in the third period and repeated in the closing quarter to make it 5 to 0.

The teams:
Senior Meds (5)—Flying wing. Dobbin; halves, Blaney, McLean, Hayes; quarter, Sinclair; scrimmage, Wells, Hargave, W. Brown; insides, Bentiey, Brown; middles, Hagerman, McKenzie; outsides, Jeffs, Dickson.
Senior School (0)—Flying wing, Elliott; halves. Scott, Smithson, Crodden; quarter, McKenzie; scrimmage, Bennet, Brown, Elliott; insides, Gorman, Monder; middles, Samuels, Seager; outsides, Harris, McLean. ris, McLean. Referee. O'Flaherty; judge of play, Robertson.

#### Kennedy Would Hire University Star Who Holds Down Real Job

Geo. Kennedy is trying to strengthen up his Canadiens by the addition of a former Princeton hockey star, who is apparently hard to land. It is an impression that university men would willingly take a soft job and easy money like Kennedy's, but this Tiger, it appears, is holding down a job worthy of any university graduate. George has offered \$2000 for Hobey Baker, the player in question, who is now with the St. Nicholas club of New York, and he has meason to believe he may land his man. However, Baker is a chauffeur for Mulionaire Lock of the New York banking house of that rame, and efforts are being made to secure a "leave of absence" for him during the winter. Kennedy declares Baker would be a brilliant luminary in the National Hockey Association, possessing as he does all the physical possessing as he does all the physical qualifications and skill. Asked as to his courage, Kennedy says a gamer man never stepped on the ice.

#### U.T.S. Have Light Team of Good Tacklers

Technical School, winners of the Interscholastic League, will not play off with University Schools as scheduled in the O.R.F.U. series. Thus the union junior champions will have a bye and will stand ready to meet the winners of the eastern or western sections as ordered. U.T. S. have a team quite up to their high standard, except in weight, and this is more than made up by their stellar tackling this season. Schools have already played three games, losing the opener 5 to 7 to St. Andrews. They beat T.C.S. at Port Hope 22 to 11 and on Oct 21 beat H.C.I. in Hamilton 23 to 0. Munroe does the kicking effectively. McLeod, who was on lest year's team, is ceptain.

The \$2.00 hats EATON'S offer should win easily in any race for good value-giving. See them in the Men's Hat Department, Main Floor.

#### World's Champion Club Sold

Boston, Nov. 1.—The Boston American League baseball team has been sold to Harry H. Frazee of New York and Hugh Ward of Philadelphia, Joseph J. Lannin of this city, the former owner, made the announcement tonight.

## LOOKS LIKE PLENTY OF SENIOR HOCKEY

Expected That Five Amateur Teams Will Perform-New Faces on the Clubs.

Riversides, Aura Lee, a soldier team and two new civilian clubs will likely be found in the local ranks of the Senior O.

Six teams have applied for ice at the Arena, and it promises to be a banner lege and St. Andrews will again be in the Preparatory College Junior O.H.A. group. Aura Lee will have junior and senior teams and have asked for hours. Riversides are ready, and a new senior team is framed. The two Stewart boys, who were with Argonauts last year, will play don goaler, now a resident of Toronto, is also lined up for this squad. Box, the Queen's University star, and Jimmie Ferguson, late of Kingston Frontenacs are other prospects for the new club.

The 234th O.S. Battalion has gire to get a commission in the Royal Flying Corps. Watson should make a great man for one of the seafter of the St. Andrew's College teams.

The 234th O.S. Battalion (West months) and the host of the seafter of the s A Montreal despatch says: George Kennedy of the Canadien Hockey Club, holders of the Stanley Cup, today gave

for one of the senior teams.

The 234th O.S. Battalion (West Toronto) is organizing a strong hockey team. This battalion has some excellent material in the hockey line. Lieut. Dug Addison (St. Michaels), probably the best goalkeeper in Ontario, expects to gather a winning team about him. The men of the 234th will have not only a large skating, but a hockey rink as well, for their exclusive use, as the large cutside rink is to be used for skating and hockey only. In view of this, the 234th will have daily practice right within their own barracks and will also be able to extend skating privileges to their friends. tend skating privileges to their friends. Prospective recruits who are interested in hockey should go out to Ravina Rink, Rowland avenue, and see Major Windeyer, an old hockey player, in reference to joining the 234th. The 234th are occupying the whole of Ravina Rink, where so many exciting hockey matches have been staged. The buildings have been fitted up with every comfort and convenience for the men, insuring all the comforts of home during the process of training.

It is expected that Toad Farr and Ernie Parks, late of the Argonauts, will be found with yet another new senior O. H.A. team this winter. A well-known hockey fan is the sponser for this team.

# FRED WELSH READY

Only Likely Opponent in Sight, But Suitable Purse Must Be Offered.

New York, Nov. 1.-Harry Pollock, who handles the business of making matches for Lightweight Champion Freddie Welsh, is back in town after a trip thru

Welsh, is back in town after a trip thru
Canada and declared in foud and unmistakable terms that Freddie is ready—aye
even willing—to take on Johnny Kilbane, the featherweight king, in any
old kind of a scrap the promoters want
to stipulate. The only thing that concerns Welsh in event of such a scrap
being pulled off, Pollock opines, would
be the amount of money Welsh would
get to take home with him and he assures the United Press it wouldn't be a
mere trifle.

Pollock agrees with a majority of critics that such a match would be about
the best thing that could be pulled off in
the ranks of the lightweights and he is
ready to send Welsh right into the worst
of the mixup. So Jimmy Dunn is called
and it is hereby up to him to come on
thru and get ready for the match.

Pollock didn't have a great deal to say
regarding the weight part of the proceedings. He was asked if Welsh would
make 135 pounds ringside and he replied
that would be the easiest thing in the
world. He wouldn't go any lower, but
intimated that the next move is up to
Kilbaine. "Fight him to a decision?" Pol.
lock asked. "Well, I should say so.
Fight him any old way, gloves or brick
bats, clubs or bere fists. Just set the
date and rope off the ring, throw in a
few bales of greenbacks and we'll show
you action."

Which does away with the charge that

few bales of greenacks and we'll show you action."

Which does away with the charge that Pollock and Welsh have been roaming around doing their best to keep from encountering Kilbane and his well known fists. Cleveland and New York promoters have been bisy trying to sound out Welsh and Kilbane on the prospects of a meeting and it has been said Kilbane is ready to do everything necessary even to putting on ten or so pounds in order to come up to specifications.

New York, Nov. 1.—Looking as fit as on the day he landed on Jim Corbett's solar plexus, Lanky Bob Fitzsimmons breezed into Assistant District Attorney William Dean Embree's office. He was not in the best of humor, for he had come in answer to a subpoena which he had received by mail at his home in Round Brook, N.J.

"I'm Fitz; what's wainted?" he demanded, as he placed his silk hat on a company to the defeated two goals to one in an inter-faculty soccer game on the back campus at Varity yesterday. It was fast soccer through with Wycliffe configuration was fast soccer through with English the first half. The teams:

Wycliffe (2)—Wallace, Martin, Robbins, Glover, Smith, Heaven, Lucas, Atkinson, Gibson, Lewis, Painting.

Knox were defeated two goals to one in an inter-faculty soccer game on the back campus at Varity yesterday. It was fast soccer through with Wycliffe configuration was fast soccer through with Wycliffe (2)—Wallace, Martin, Robbins, Glover, Smith, Heaven, Lucas, Atkinson, Gibson, Lewis, Painting.

"I'm Fitz; what's wanted" he demanded, as he placed his silk hat on a table and started to draw off his gray silk gloves.

The former champion was informed that the people wanted him to testify before the grand jury that he had been assaulted and severely mauled by one Harry Braun, 27, of 261 West 124th street, at 132nd street and 7th avenue, on Sept. 24 last. He was told that Braun was a negro weighing 137 pounds. When he had received his breath, Fitz filed three objections. He declared that no negro had ever dared touch him, no pygmy of 137 pounds ever could touch him, and nobody of any color or weight had whipped him, or could.

Detective Naomi, who was sent for, gave evidence which was regarded as sufficient to furnish an alibi for the former champion. He said the Bob Fitzsinmons who had suffered from the fitsts of Braun was black instead of ruby and was a minister of the gospel.

"Guess that let's me out," excialined Fitz triumphantly.

Then one of Mr. Embree's clerks drew

"Guess that let's me out," exclaimed Fitz triumphantly.

Then one of Mr. Embree's clerks drew up an affidavit for the lanky one to sign. It recited, besides the fact that he hadn't been mauled, that he was 54 and an actor.

"And I never was a bad actor," Bo prompted. "Don't forget to put down. prompted. "Don't forget to put down, too, that I'm the champion of all champions—not was, but am. If I can't whip anybody who wants to take me on, my After which he accepted Mr. Embree's apologies, said there were no hard feelings on his part, drew on the gray silk gloves, recovered his tile and bowed himself out.

Top Coats

#### One on Charlie Gage

at Hamilion, Referee Charlie Gage religiously shouted "McGill first down" or "McGill ball," when Ottawa came in possession. When asked why he made the substitute he said he was so accustomed to seeing McGill tear holes thru Varsity, he could not believe it was any other team than Shag's red machine of a couple of years ago.

Too Much National League in Governing Body of Baseball to Suit Some.

"too much National Loague in the composition of the National Commission."

Mr. Herrmann is president of the Cincinnati club of the National League and has been chairman of the National Commission since the formation of the body under the agreement of the National and American Leagues. He was in conference with President Johnson here last week regarding questions involving the commission.

The commission is made up of Johnson, Herrmann and John K. Tener, president of the National League.

"There is a strong undercurrent running for a change in the complexion of the commission, President Johnson said." "Certain club owners of the American League seemed to feel that there is too much National League in its composition. Personally, I have much to commend and little to criticize in the work of Mr. Herrmann in the long period of years that he has been chairman of that body.

"Probably there will be a change, but that is a matter that only can be determined in future discussions between the two organizations."

#### WYCLIFFE WINNERS **OVER KNOX ELEVEN**

Knox were defeated two goals to one

#### **HOME RUN HEROES** OF THE BIG SERIES

Rube Marquard has been an unlucky world series performer; and home runs have been responsible in no small degree. Three times he has been a bright and shining mark for round-trip raps. Baker homed off him in 1911 and 1913, and what homed off him in 1911 and 1913, and what
Larry Gardner did to him is of too recent
occurrence to require reciting. This same
Gardner tore off a home run clout in
1912, and his two swats this year tie him
with Baker for high honors. The following record of home run swatting in world
series is timely:

1903—Pat Dougherty (Boston Americans), 2; Sebring (Pittsburg), 1.
1905—Joe Tinker (Chicago Cubs), 1.
1909—Fred Clarke (Pittsburg), 2; Davy
Jones (Detroit), 1; Sam Crawford (Detroit), 1.
1910—Danny Murphy (Athletics), 1.

troit, 1.

1910—Danny Murphy (Athletics), 1.

1911—Frank Baker (Athletics), 2; Rube Oldring (Athletics), 1.

1912—Larry Doyle (Giants), 1; Larry Gardner (Red Sox), 1.

1913—Frank Baker (Athletics), 1; Schang (Athletics), 1; Merkle (Giants), 1.

1914—Hank Gowdy (Braves), 1.

1915—Harry Hooper (Red Sox), 2; Duffy Lewis (Red Sox), 1; Luderus (Phillies), 1.

1916—Larry Gardner (Red Sox), 2; Hy Myers (Brooklyn), 1.

#### FIFTEEN HUNDRED AT **OPENING OF THE ARENA**

Winter is with us. At least it looked that way last night when the Arena threw open its doors for the first skating of the year. Fifteen hundred skaters were on the job and the good sheet of ice was black with the merry-makers. It has been decided to give the skaters a full month before the hockey teams are allowed to get down to practice. A military band was in attendance last night and gave a lengthy program. Several hockey players skaled just to get a few of the kinks out.

# CHANGE IN SHIPPING

This claim is being based on statistics which show that United Statesowned vessels are now getting by far the greater portion of Canadian trade. Of grain shipments from Port Arthur and Fort William in the crop year recently closed 60 per cent. went to United States lake ports and thence by United States lake ports and thence by United States railroads to United States seaports. This is said to have put \$28,000,000 in freight charges into United States hands when it might as well have gone to Canadians.

The Port Arthur Board of Trade believes that the plan for development of Canadian lake waterways now being followed makes them practically United States waterways, Canada standing the cost and the United States

ing the cost and the United States getting the benefit. The solution pro-posed is a Georgian Bay canal.

#### BASEBALL GOSSIP

DKEEFES

Jake Daubert is to desert Brooklyn and the cigar business there for the winter, according to report. He is going back to Pennsylvania and lead the simple life.

The report that John Evers may return to hte Chicago Cubs as manager indicates one thing at least—John is done as a pleyer with the Braves and Stallings would like to get rid of him. St. Louis has discovered that it has claim to another world's series hero. He is Chet Thomas, catcher for the Red Sox, who got his start on the lots of the Mound City and thence graduated to the minors.

The first thing Bill Carrigan did when he got to his home in Lewiston, Me., was to buy control of the stock of a national bank and he will become an official of the institution and learn the banking

Rumor has it that Jack Egan, former American League umpire, will purchase the Providence International League club, which is again on the market. If Egan should buy he would act as his

Outfielder Tom Griffith of the Cincinnati Reds has sung himself into the heart of a fair Cincinnati fan and led her to the altar. The bride's name was Miss Detto Louise Bittenhorn. Look like an international alliance.

The New York American League club spilled al' its winter's dope in one day when it not only announced that Bill Donovan had signed to lead the team agsin, but also that a five-year contract had been signed for the training camp at Macon.

The New York Giants have signed a pitcher named Sterling Stryker, who has been doing some good work for an independent team at Atlantic Highlands, N. J. A player with a name like Sterling Stryker might be developed into hitter in case he fails in the box.

Tom Healey, who had a trial with Connie Mack and was sent to Newark of the Internationals for development, has entered the University of Pittsburg and will finish his college course in the spring. He will not report, either to Newark or Mack, until after school closes.

Eddie Plank's announcement that he is going to retire is heard again. Fans hope he won't. They are curious to see how long he can keep on pitching winning ball. He's only 42 years of age, and it seems folly for him to talk of quitting the game when he is just reaching his best.

Catcher Walter Blair, once with the New York Yankees, then in the International League, and later with the Feds, and the past season manager and partowner of the Harrisburg Club of the New York State League, has been made coach of the baseball team of the University of Pittsburg.

the Reds in fourth place and lost his job, and the Cubs in third and lost another. Hank proved that he could go back to the mask and mitt and make his living, but the Cubs and Rhinelanders are far from the fleshpots.

The election of Dan O'Neil as president of the Eastern League marks the passing from minor league ball of Tim Murnane, after more than a quarter of a century of more or less active service. Murnane was the titular head of the league last season, but O'Neil, as vice-president, actually handled affairs.

"Connie Mack Signs Collegian.55 is the heading over an alleged piece of baseball news going the rounds. The dope must be scarce, indeed, when that is regarded as news. Signing collegians is part of Mack's daily routine, as everybody knows. Well, anyway, the new collegian is Harold Vaughn, who hails from the University of Wisconsin.

charity. The ball players will be off Foster for life now. He wasn't too good with them as it was, for it is reported he canceled several barnstorming dates for the Giants in which they had figured

An echo of the Federal League war comes from Grand Rapids, Mich., in an announcement of the dismissal of Judge Sessions of the injunction suit brought by the Chicago Feds to restrain Bill Killifer from rejumping back to the Philadelphia Nationals in 1914. The suit was called, there appeared none to prosecute, so dismissal was entered.

President Timme of the Milwaukee American Association Club announces that he has signed Pedro Dibut, said to have been a star in the Cuban League this year. Dibut is 20 and is a right-hand twirler. Timme's reports say that Dibut also is some hitter and has averaged three swats per game this season. Brooklyn also was after Dibut, said Timme.

Joe Lannin and Charley Ebbets having decided to remain in baseball and Washington having declared it will not surrender its franchise to Baltimore, Toron to or any other town ambitious to break into the big show, the rumor mongers are now busy trying to find another club they can sell or shift. Failing in that they will make a few changes in managers.

Christy Mathewson's decision to make his home in Cincinnati, leaving New York to its fate, seems to mean that the misguided soul really thinks he is a permanent fixture with the Reds. Even so, how, is he going to give John Wheeler those "interviewe"—over the long-distance phone? Or will the Mathewson publication syndicate move its offices to Cincinnati?

Time 1.47 4-5. Star Bir, Luther, Captain Brave, Husky Lad, Dromi, Lady
Powers, Supreme also ran.

## EOS, LONG SHOT, WINS THE CAMBRIDGESHIRE

Last Meeting of English Flat Racing Season is Now on at Newmarket.

Newmarket, England, Nov. 1.—The last meeting of the English flat racing season commenced here yesterday, and today's feature race was the famous Cambridgeshire Stakes, of value of \$9000, which was run off over a course of a mile and one furlong, and resulted in a win for Lord D'Abernon's Eos, ridden by Smyth, by two lengths over L. Neuman's Lanius, with Whalley in the saddle. Lord Decles' Ballaghtobin, Burns up, was third, three-quarters of a length behind. Fifty-three entries were received for this important handicap, and seventeen horses went to the post. The betting was:

Eos, 10 to 1.

Lanius, 100 to 12.

Ballaghtobin, 9 to 2.

Lambton trained the winner.

\$10,000 PACER TRAINS

Winnipeg, Nov. I.—An offer of \$7500 for the great hoppled pacer, Homer D., was turned down recently at Cranwood track, Cleveland, by Trainer Denny Valentine. For Homer D. is being groomed for a big campaign on the Canadian ice tracks this coming winter, to be followed by being staked thru the Grand Circuit next year in all the big pacing events. The offer came from Bob Neal, bookkeeper for Pop Geers, acting for some unknown horseman, who is not Geers, as Pop refused to drive hoppled horses. Neal first bid \$5000, then raised the ante to \$7500. But a \$10,000 figure has been set.

#### By Heck! They're Playing Checkers For Championship

A match at checkers by correspondence has just commenced between a Canadian team captained by J. W. Jacobson of Toronto and a United States team captained by Henry Hutsler of Cincipnati, Onto. The match is for the championship of North Atherica, and the respective teams include the finest exponents of this type of play on the continent. Additional interest is lent by the fact that in the last contest of this description the Canucks sprung a surprise on their formidable opponents and defeated them by a substantial margin. The Yankees are now "out for blood" and have scoured the country to obtain every available expert for their team. The conditions call for ten men aside, each player contesting four games simultaneously with each than on the opposing side, or a total of 400 games. This is probably the biggest and most important match of its kind that has ever taken place. The teams are as follows:

Canada—J. Ballantyne, Toronto; Herbert Barrett, Toronto; G. H. Irwin, Toronto; J. W. Jacobson, Toronto; F. T. Mercer, Toronto; J. H. Fell, Fenelon Falls: F. W. Johnston, Sarnia: J. G. Keenan, Barrie; F. S. Kettleson, Calgary, Alta.; W. T. Walton, Orillia.

United States—F. G. Farmer, Wichita, Kan.; W. L. Smith, Coffeeville, Kan.; F. O. Melay, Hillsdale, Mich.; C. Higgins, Philadelphia, Pa.; George Baker, Kansas City, Mo.; J. B. Marr, Kansas City, Mo.; J. B. Marr, Kansas City, Mo.; A. R. Dossett, Lebanon, Ind.; J. T. Oxley, Gibson City, Ill.; A. Bjerkness, Park Fiver, N.D.; S. W. Carter, Council Bluffs, Io.

Referee—Hugh Henderson, Munhall, Pa.

HUMBERSIDE SENIORS WIN. The annual Rugby game between the Humberside old boys and Humberside seniors was played yesterday, and resulted in favor of the seniors by 18 to 0.

## **AGENTS IN READINESS** FOR THE DEUTSCHLAND

Return Cargo Made Up Largely of

The German submarine entered the lower harbor shortly after midnight, coming in by the Race at the entrance to Long Island Sound. For several weeks the Eastern Forwarding Company, agents for her owners, had a tug each night off Montauk Point ready to meet the long overdue Bremen, but the tug was withdrawn some time ago. It was evident that the Forwarding Company and that the Forwarding Company had some warning of the Deutschland's arrival, however, for a tug was engaged and Captain F. Hinsch of the gaged and Captain F. Hinson of the company, accompanied by the health officer, steamed out to meet the sub-marine. The North German Lloyd steamer Willehad which had been at her dock here for a number of weeks her dock here for a number of weeks awatting the arrival of a German submarine freighter, let her searchlight play on the water marking the path by which the Deutschland traveled to her wharf.

A return cargo for the Deutschland 

ship lacking further information, and there were no orders to delay the un-loading of her cargo.

#### SUBMARINE MAIL SERVICE.

Chicago, Nov. 1.—President Johnson of the American League disputed the charge by David L. Fultz, president of the Baseball Players' Fraternity, that ball players in the American League were not paid while incapacitated thru injuries received while playing. The charge was made by Mr. Fultz recently in his demands for new conditions made on the national committee. Mr. Johnson telegraphed Fultz to produce the contracts or retract the charges.

"In have never heard of a single instance in the league in which a player who has not been paid while he was unable to play," said Johnson. "All contracts in the league pass thru my office, and I cannot remember one in which the liability clause was stricken out."

NO ATHLETIC UNION BUSINESS.
Winnipeg, Nov. 1.—Another year will pass before the Amateur Athletic Union of Canada will hold an annual meeting, according to the announcement of President Tom Boyd. A mall vote of the board of governors of the various provinces affiliated was taken, and only one province, Quebec, voted to hold the annual meeting this comling December. The officers now acting will continue till next year. President Boyd says there is no business of importance to be transacted.

SUBMARINE MAIL SERVICE.

Washington, Nov. 1.—Captain Paul Koenig, commander of the Deutschland Bernstorff, the German ambassador, saying that he had hrought the eminate of dispatches are in bassy a packet of dispatches are in the league pass thru my office, and I is believed to be duplicates of those supposed to have been lost with the Bremen.

The arrival of the Deutschland arrived at Baltimore on ner first trip, representatives of the owners, thru the german ambassador, off

Merchantman Sunk Near Place Where Angheliki Went Down.

FOE'S FLIMSY EXCUSE

Intimation That Angheliki Was Carrying Troops to the Allies.

Athens, Nov. 1.—The 5000-ton Greek merchantman Kiki Issaias was torpedoed yesterday afternoon near

All shipping has been tied up by strike of the sailors' union.

A GHASTLY CRIME.

London, Nov. 1 .- The Chronicle to

day says:

"Further details regarding the torpedoing of the Greek ship Angheliki show that another crime against the usages of civilized warfare must be added to the ghastly history of the German submarine warfare. The vessel left Piracus at 7 o'clock in the evening, having on board 150 officers and men who were going to Salonica to join the national defence movement. After nightfall the Angheliki was salling off Fleves with all her lights burning and showing those signs of nationality which the Germans them. day says:

the progress of the political campaign would in no way affect the investigation of submarine attacks and that there had been no change in the U. S. Government's policy.

Meanwhile Count von Bernstorfi, the will take up the question with the postal authorities within the next day or so.

Policy Unchanged.

Secretary of State Lansing author-

ized a formal statement today that

selves advised more than a year ago that Greek ships should display. Not Least Warning.

"At 9 o'clock the vessel, according to her captain, who has just returned to Piraeus, was torpedoed without the slightest warning. The torpedo struck her amidships, but as she was sailing near shore the captain had time to turn her head toward land and beach her, thus saving many lives.

"It is believed fifty persons perished as the result of the explosion of the torpedo. Another Greek vessel came along and encountered the submarine and was warned not to go to the assistance of the Angheliki under pain of being torpedoed also. The lack of help resulted in the loss of lives which might have been saved."

He Would Have World Respect United States, He Says.

torpedoed yesterday afternoon near the place at which the Angheliki was sunk.

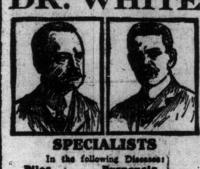

The German legation today made the following statement regarding the sinking of the Angheliki:

"No Greek vessol on a regular course would have been submarined unless it was carrying reinforcements to the allied armies at Salonica. Furthermore, the legation is convinced that the hour (9 p.m.) and circumstances of the sinking preclude the possibility that the vessel was submarined.

"The German Government that merchant ships carrying supplies for the allies would be torpedoed without warning."

All shipping has been tied up by a Sullivan. Ind.: Nov. 1.—Charles E. Hughes, Republican presidential candidate, today declared in an open-air address here that, while the United States does not wish war, it proposes to maintain its self-respect. "The American people have realized at this time in our history it is very important that there should be no question of their attitude with respect, to the maintenance of American rights," Mr. Hughes, said. "We desire peace, but we desire an honorable peace. We do not wish war, but we propose to maintain our self-respect. "We know perfectly well that there is no future for the country unless we enjoy the friendship of the world. You evoke only contempt, either silent or expressed, if you do not maintain firmly and consistently your rights. There is no lasting peace for a decadent people."

#### INSTITUTE INVESTIGATION

Recommends That Hon. I. B. Lucas Find Out if Increases Are Warranted.

That the continued advance in the price of bread will necessitate cityedy at present and that the only remain ed yat present against the high price of the loaves is the baking of bread hands of the lieutenant-governor, Sir in the individual homes of Toronto- John Hendrie. nians, was the declaration of Mayor T. L. Church yesterday in commenting upon the increase to 9 and 18 cents for a small and large loaf of bread, respectively. He also recommended of a hollow square and after singing that the attorney-general of the pro- "Onward, Christian Soldiers," the vince institute an investigation to colors were consecrated on the stacked

"We will have to establish civic bakeries if they keep on raising the price of bread," said the mayor; "the only remedy I see just now is for the mayor and set apart these colors that they may be a sign of our duty toward our results to have their own bread."

continued, "and whether there is any combine or restraint of trade. That is the function of the attorney-general's department. The city has no jurisdiction or power in the matter and cannot take evidence under oath."

Government Should Act.

That the government is justified in controlling the prices of flour and wheat is the belief of Aldermer Ramsden and Archibald, members with Controller Cameron on the committee appointed to investigate the increasing prices. The committee will be disbanded as a result of the conviction of the mayor that government action is necessary.

Data and pertinent information was

"Butter and eggs have increased just as much as bread," declare the members in a signed statement, "and we learn that milk has increased recently nearly 30 per cent. Therefore, we have come to the conclusion that bread is a very small part of the graph."

"I know you will acquit yourselves as men. Obey orders and remember nearly 30 per cent. Therefore, we have come to the conclusion that bread is a very small part of the general problem of the high cost of living, as nearly all foodstuffs have gone up just is a problem that is not merely local in its significance, but is Dominion-wide in its scope. We, therefore, concur in the views expressed by the colors were then paraded by

wide in its scope. We, therefore, concur in the views expressed by the mayor that this whole matter of the high cost of living should be dealt with by the Dominion Government, and dealt with promptly.

Advice to Housewife.

"We might offer as our opinion that in order to cut down the price of bread it would not be advisable to establish a municipal bread plant, but on the other hand we would suggest that the only way the housewife can make a saving in the price of bread is for her to do her own bakcan make a saving in the price of bread is for her to do her own baking, and if done economically when the fire is going for other purposes, she can, without counting the cost of labor, save from six to seven cents on a large loaf of three pounds."

When Ald, Joseph Gibbons was asked if he thought the government was solving the problem of the high cost of living as promptly as it should, he replied.

he replied;
"I would like to know if they are dealing with it at all. When the min-ister of labor said that the cost of the general necessities of life had only increased about 6 per cent. he showed that he did not know what he was talking about. When he made the statement I felt tempted to tell him that the workers would like to know how he gathered his statistics. He said hat they were sathered from the statement of the statement is statistics. He said hat they were gathered from sixty centres. I would like to know where the centres were, and how the figures were compiled. The figures we have compiled, and the figures compiled by the Cobalt miners for their recent board of investigation and conciliation, show that the cost of living since the war broke out has gone up from 30 to 50 per cent."

## **CANADIAN BUFFS RECEIVE COLORS**

Mayor Church Also Urges House- Presented to Battalion at University Stadium by Sir John Hendrie.

#### NOTED PERSONS PRESENT

Consecration Ceremony Performed by Bishop Sweeny-Unit Goes Overseas Soon.

Before a very large audience at the University Stadium yesterday afternoon the 198th Battalion Canadian Buffs received its colors from the

The battalion made a splendid appearance, and Lieut.-Col. Cooper, the learn if the increased price was war-ranted.

drums of the bacterian Dixon and Sweeny, assisted by Canons Dixon and Cayley and Capt. Nicholson, the chap-

people to bake their own bread. That would help some."

"But there should be an investigation by the attorney-general of Ontario into existing prices of foodstuffs," he into existing prices of foodstuffs, he into existing prices of foodstuffs, he is the interest of the into existing prices of foodstuffs, he is the interest of the in

Data and pertinent information was obtained by the committee early in October. They learned that prices since the outbreak of the war have increased as follows:

Flour, 50 per cent; lard, 54 per cent; and in 1914 they had again fought at Mons, and in 1914 they had again fought at Mons.

sugar, 100 per cent.; salt, 45 per cent.; shortening, 65 per cent.; yeast (normal); malt extract, 100 per cent.; baking utensils, 20 per cent.; harness, 55 per cent.; horse feed, 50 per cent.; horse f wages, 33 per cent. its promoters. The unit would be These give an average increase of going overseas in a short time, and

showing," was the short, soldierly adshowing," was the short, soldierly address delivered by Major-Gen. Logie.
Prizes won by the members of the battalion in athletic contests were then presented by the lieutenant-

governor.

Among those who witnessed the presentation were Mayor Church, Premier Hearst, N. W. Rowell, Sir William Mackenzie, Col., Burton, Col. W. B. Butcher, Col. Price, Major Windeyer, Lieut.-Col. W. E., Rundle, George H. Gooderham, M.L.A., Mark Irish, M.L.A., Sir John Willison, President Falconer, Mr. and Mrs. George Watts, Lieut. governor.

#### Month of October Shows Large Increase in Births

Vital statistics issued by the city clerk's department yesterday, for the month of October, show that there were 24 more deaths during the month than in October last year. There were 32 fewer deaths than in September, 1916, and compared with October, 1915, there were 44 fewer marriages.

Registered Lirths showed an increase of 137. The figures are:

#### Firemen Threaten to Strike if Salary Increase is Refused

Trouble in the fire department seems imminent if the men do not receive salary increases. About a hundred members, all first year men, threaten to step out. They are getting \$700 for the first year, and they say that it is entirely inadequate to support themselves and their families.

"I have not yet heard from them, but I understand a petition is coming," said Chief Smith. "Something will certainly have to be done for next year if the brigade is to be maintained up to its strength."

C.P.R. LIVESTOCK MARKET.

Seep and lambs—Receipts, 31.000:
market unsettled; lambs, native, \$8.40

The first of \$19.15.

Cen. Roques Has Left Paris

On Mission of Importance

Paris, Nov. 1.—The Official Journal today published a decree appointing Rear-Admiral Marie Jean Lucien Lacaze, the minister of marine, as minister of war ad interim during the absence of Gen. Roques, who is on an important mission.

C.P.R. LIVESTOCK MARKET.

Miontreal, Nov. 1.—At the C. P. R. live stock market sales of bulks were made at \$4.50 to \$4.75 and common at \$5.25 to \$3.25 to \$3.60 per hundred pounds. A few butcher steers sold at \$7.15 to \$7.50 per 100 pounds.

Sheep and lambs were very firm, owning to the continued good demand from American buyers for supplies. Lambs sold at \$4.10.25 to \$11 and sheep at \$6.75 to \$7.50 per 100 pounds. Calves met with a fair sale at prices ranging from 4 to 10c per bound, live weight. Sales of the sales of the continued good demand from American buyers for supplies. Lambs sold at \$11.25 to \$11.70 per 100 pounds, weighed off cars.

PEARS FOR THE SAFETY
OF STEAMER DAVIDSON

Twenty-Three Americans on
Board May Have Lost Lives.

London, Nov. 1.—A Lloyd's despatch
from New Quay, Cornwall, seys that
a ship's lifeboot, marked "A. Davidson," has been washed ashore at I'erran Porth, The latest report of the
table peace on the wholesale market yesterday was fresh asparagus, as it does not usually begin to arrive until the late winter months. H. Peters had a shipment from Chicago, selling at \$9 per case containing lone dozen large bunches.
There were small quantities of peaches shipped in again, selling at 20c per six-quart basket, and 50c to 60c per 11-quart leno basket.

Pears remained unchanged in price at 20c to 50c per 11-quart basket, and 15c to 20c per six-quart.

Cauliflower continues to come in in small quantities and is selling at \$4 to \$4.50 per bbl., and \$1 to \$2 per dozen.

Callery is improving in quality, the Thedford variety selling at \$4 to \$4.50 per case.

Tomates are still being shipped in

son," has been washed ashore at I'erran Porth. The latest report of the steamship A. Davidson is of her departure from Montreal, Oct. 4, "or Havre.

The A. Davidson was much overdue, and the news that the lifeboat had been picked up caused the rate of relinsurance to rise to 70 guiness per cent.

CARRIED AMERICAN CREW.

Montreal, Nov. 1.—The steamer A. Davidson, a lifeboat from which has drifted ashore in Cornwall, was ore of a number of American lake grain

a car of British Columbia onions, selling at \$3.75 per 100-lb. sack; two cars of apples.

Stronach & Sons had three cars of apples; a car of Prince Edward potatoes, selling at \$2.10 per bag, and a car of N. B. Delawares, selling at \$2.25 per bag. Chas. S. Simpson had a car of Emperor grapes, selling at \$5 per drum.

McWilliam & Everist had five cars of apples, Nos. 1 and 2, winter varieties, for storage purposes.

H. Peters had a car of mixed parsnips and beets, selling at \$1.25 to \$1.35 per bag.

Wholesale Fruits.

Apples—20c to 35c per 11-quart basket: extra choice, 50c per 11-quart; barrels, No. 1's, \$5 to \$6.50 per bbl.; No. 2's, \$4 to \$5 \$5.50 per bbl.; No. 2's, \$4 to \$5 \$5.50 per bbl.; No. 3's, \$3 to \$3.50 per bbl.; boxed apples, \$1 to \$1.25 to \$2 per box. Bananas—\$2 to \$2.75 per bunch.

## PORCUPINE A DEEP MINING GOLD FIELD

Unlike Cobalt in This Respect Where Values Were Discovered Nearer the Surface.

#### MUCH AMATEUR MINING

Success and Failure in Mining Marked by Capital and Good Management.

Cobalt was a striking revelation of the mineral wealth of New Ontario. No one could gainsay the extraordin ary richness of its mines. The evidence was real and tangible, and this gave a great impetus to prospecting in other parts of the north country Elk Lake and Gowganda came next, and in the winter of 1908-9 there was an unparalleled rush to these camps. Between the end of the steel at Charlton and Gowganda Labo, fully 700 teams were employed in hauling in supplies. A little later prospectors began moving further north, and in the fall of 1909, Porcupine was discovered. Many of them were looking for a new Cobalt where one worth thousands of dollars per ten lay exposed on the surface. It was unfortunate for Por-cupine that a few of the operators there adopted methods which had been tound successful in Cobalt.

In every new mining camp there are a number of waifs and stravs who masquerade as mining experts and a few of these who were more or less familiar with Cobalt made their way to Porcupine and obtained temporary employment there. The result was a great waste of money in several cases. One so-called expert started trenching on what in his judgment was a systematic scale. The whole ground was laid out into squares, 100 feet each way. Only gross ignorance of the for-mation could lead to such nonsense. The schists at Porcupine have a well defined strike, mostly from cast to west, and the veins are always found within the zones of shearing and frac-ture, and these zones cannot be missed by any man who knows his business, All that was necessary, therefore, was to run a few trenches across the strike of the schists. These would bring to light all the veins of any im-

Companies Formed. > But if the great success of Cohalt in-duced prospectors to take to the woods in other parts of New Ontario it also enabled promoters to form companies and raise money for development.

Many inexperienced persons invested in
Porcupine stocks fully expecting that
the mines would pay from the "grass
roots," and when returns did not come in immediately the whole enterprise was abandoned.

But Cobalt is not like Porcupine. It is largely a surface camp, while Porcupine is a deep mining permanent gold field in which the initial expenses are fairly heavy and the ultimate return very much worth while.

Where mining was started in Porcu-

condemning as well as in recommend-ing properties. College ing properties. Golden opportunities

again by so-called experts.

Before it passed into the hands of its present owners some well known gentlemen in Toronto sent an engineer examine the Croesus in Munro. The report was distinctly unfavorable, and, therefore, the intended purchase was the anger and chagrin of these gentlemen in view of the fact that the great corders coming in to the market and a new high record price was establishment and the north country. At least one ton of ore was worth \$10.—

At harply from 49 to 55. Good reports are coming down on this property. and in a few months' mining over \$500,000 in gold was won. Now several million dollars are in sight.

Mining Safe Business. Very often the hard-headed man of business loses money in mining limiting his expenditure, it may be, at the very time when a little mose would bring success. It is not poslittle more sible to estimate exactly any mine will require for development. Therefore, it is wise to provide ample funds, and by the selection of competent experts, to secure their proper administration. Mining is a business to great advances in the use of chinery and chemicals, it is now an exact science

At Cobalt, in the higher grade mines in the conglemerate, fullure was practically impossible because fullulously rich ore was exposed on the surface, but the cidinary mining camp cannot overcome bad management and inadequate capital. Hence we have today in Forcurine several derelicts which are well worth careful atten-tion. Here effort has been nulsupplied by an incompetent engineer, there shareholders have failed to give

financial support.
When looking for bonanzas it is unwise to pass by the derelicts. Inquire into their history and the cause of their unteward fortune. They can generally be secured at a very attractive figure and in a new camr they are likely to have real merit.

At all events their abandonment do not prove that they are worthless.

#### WAR TAX ON DOME SEVEN CENTS A SHARE

New York, Nov. 1 .- The war tax which the Dome Mines Company will have to pay for the period ending March 31, 1916, has been fixed by the Canadian government at \$27,502. This s less than seven cents a share or the 400,000 shares outstanding. February, when it was announced tha a war tax would be imposed, the stock fropped from \$29.50 to \$23.50, a lose of \$6 a share, or \$2,400,000 altogether

TOTAL CLEARANCES.

#### NEWRAY NOW A PROVEN MINE

Newray made another record yesterday, selling up five points to 85, and the demand for the stock was stronger from Porcupine itself than any other point, altho New York other point, altho New York became an active enquirer late in the day. Another wire from the camp yesterday more than confirmed the information of the previous day and practically settled the question as to whether Newray would prove up at depth. The wire was as follows:

Schumacher, Diamond drill hole No. 4 is now down 900 feet, is on angle of 45 degrees at 60 feet vertically. The core shows 12 feet of quartz carrying lots of free gold. This hole cuts the find between the Anchor vein and the Hanson vein. So far this is the biggest find ever made on the Newray.

A prominent Standard Stock

Exchange broker who saw the wire said: "If Newray was worth 75c before these strikes it is now worth \$1.50 a share." According to this latest infor-mation the vein cut is at a depth of (30 feet and allowing for the angle at which the dri'l is operating is about 10 feet is operating is about 10 feet wide. No assays have yet been made of the core, but as this carcies lots of free gold the vein will carry high in values. The vein cut by the drill at the 520-foot level, reported on Tuesday, showed an average assay of \$6.46. The inference drawn from yesterday's de-spatch is that both the veins now been cut and that the Newray is now a prover mine of large dimensions. With the of large dimensions. With the present data to work on, the company can now proceed with its winter work in full confidence that in a reasonable period a large body of ore can be blocked out with which to start up the present mill and creatly increase its capacity. greatly increase its capacity. Miring men of wide experience have confidently predict-ed that the Newray would come back if properly developed and the present company appears to have gone about the work in

miners are a bad combination and exchange.

always bring disaster. In some cases

Vacuum Gas was another stock ways bring disaster.

wareholders have been deceived as to which absorbed a large share of attention. The strength or the New York and the Strength or th there was no more forthcoming.

Efficient Management.

The line between success and failure is nearly always marked by capital and efficient management. An incompetent, the honest, engineer, may bring heavy loss on his employers and serious mistakes. present rate of progress it should not

take long to reach this goal.

At New York over 85,000 shares were been turned down again and traded in and the stock sold up as high Apparent from the market gossip i is officially stated that oil is being shipped regularly from the wells at Thamesville and the management is energetically working to increase the

production.

Davidson was strong in good buying orders coming in to the market and a sharply from 49 to 55. Good reports are coming down on this property. Nor did the foregoing stocks occupy the whole of the stage at the market McIntyre was strong at 164 to 166, and making a rapid jump to 43. This adpicking up of the vein which faulted at the 500-foot level, and rumors co the amalgamation of this property and

the North Thompson were freely circulated. It was declared on the street that arrangements for the merging of the two properties had been about completed. West Dome Consolidated displayed just as sale as any other and owing further strength, selling up a couple of points further to 33, closing at 32 3-4. Teck-Hughes stronger at 40 to 41. With silver quoted unchanged, the silver stocks were rather neglected in

favor of the gold stocks. Beaver was stronger, advancing to 44 ske was also firmer at 18 1-2 to 19 Timiskaming opened one point off at 67 1-2, and so d up a point. Coniagas changed hands at \$4.75.

#### HEAVY FLOW OF OIL AT VACUUM GAS WELLS

New York Heavy Buyer of Stock at Advanced Prices.

A. B. Lambe, who is advisory en gineer for the Vacuum Gas and Oil company, and J. D. Sacks of New York, who is heavily interested in the ompany, were in Toronto yesterday and intend inspecting the field before returning to New York. It was learned that the company is having some difficulty in taking care of the present large flow of oil from the wells ending the laying of a siding to the ells from the G.T.R. The big results secured from the various wells have ome almost as a surprise to the com-any's officials themselves, and they are all bunged up in making shipnents. Messrs Lambe and Sacks wil ay out a program of work in this connection while at the oil field, so as o avoid any further delay in getting way with the oil as fast as pos New York was a heavy buyer of the chares being traded in on the curb. The highest price reached was 1.37 1-2 and the price at closing was 1 3-16 bid. New Yorkers expect the stock to cross \$2 and that within a short time.

## **GOOD PROGRESS AT** DAVIDSON PROPERTY

Crosscutting to Vein at Third Level-Into Ore in Few Days.

F. C. Sutherland & Co. have the following in their market letter this

Two of our representatives have just returned from an inspection trip over the Davidson and are more than ever convinced of the bright future ahead of the mine. Splendid progress has been made in development during the last month, and from the rapidity with which operations are being conducted at present, it would appear that the production stage will be reached even earlier than was antici-

The company, like most of the other Porcupine mines, has been held up to a certain degree by the scarcity of labor, but this difficulty has been gotten over, and from now on every-thing promises to be fair sailing. The management is employing some 40 men, and the sinking of the No. 2 shaft is being done with three shifts, while two shifts are being worked in the crosscut on the 300-foot level.

The latest development on the 300-foot level is fraught with considerable imlevel is fraught with considerable importance, as the location of the ore body at that depth will be the final chapter in the proving up of the property as a big mine. This work was delayed for several days owing to a breakdown in the underground plant, but the crosscutting is now proceeding smoothly and no further obstacles are likely to be encountered. The cross-cut is in 60 feet from the shaft, indicating that the vein is not far away. On the 200-foot level the ore-body was cut at a distance of about 75 feet from the shaft, and the crosscut on the 300-foot level is being driven in six feet a day on the average, the management anticipates that they will he into the ore within a very few days. and issues pursued a narrow and fre-if the results are satisfactory, and quently irregular course, the monotony there is every indication that they will be, this will be a most important stage in the history of the company, as the development of the vein at the ower level will pave the way for the installation of a mill and the attainment of a production basis which

Installation of a mill and the attainment of a production basis which should make the commencement of dividends only a matter of time.

The No. 2 shart, which is being sunk on the big south vein, discovered a little over a month ago, is down 3 feet, and the contractor is making rapid progress in the work. The vein is dipping at such an angle that a change in the program has been made and the shart is being carried down vertically to the 100-foot level, when rose 5% to 85; American and Baldwin Locomotaves at gains of 6% and a change in the program has been made and the shart is being carried down vertically to the 100-foot level, when rose 5% to 85; American and Baldwin Locomotaves at gains of 6% and a change in the program has been made and the shart is being carried down vertically to the 100-foot level, when rose 5% to 85; American and Butte and Superior advanced 4 points.

Newray, in Strong Demand, Sold Up to Eighty-Five—Gas

Soared Higher.

Newray was one of the strongest stocks on the board at the Standard Stock Exchange yesterday as the result of the receiving of a report from the mine that a voin which had been struck by diamond drills at depth. The news is regarded as the most important.

Newray was one of the strongest stocks on the board at the Standard Stock Exchange yesterday as the reason of the strongest stocks on the sort and the commencement of as to guard against undue extravals as to be an increase of the dividend to 6 per cent.

The beautiful to have the fortunation of a production of a month ago, is down on the mine that a voin which hab been as to guard against undue extravals as to guard against undue extravals and the contravals. The central Leadner and Superior advanced difference octween it and Cobalt, failure has been the rule. Hence we have now a number of derelict properties which never had a fair chance because work thereon was abandoned before it had fairly begun.

Incompetent engineers and amateur miners are a bad combination and always bring disaster. In some case, and returned highly impressed with the progress that has been made. They were shown every portion of the mine, and were particularly interested in the spectacular free gold showings, which squal, if not surpass, anything of similar nature ever seen in the camp.

Davidson stock has advanced past the 50-cent mark during the past few n fact, we believe that the rise has ust begun, as we anticipate that the resent movement will carry the stock o at least 75 cents a share, and that COURT OF REVISION very quickly.

#### **NSPIRATION TO START** DIAMOND DRILLING

The proceeds from the recent un derwriting of stocks in Inspiration Gold Mines of Porcupine were offi cially handed to the company last night and will be placed in the hands of the treasurer at Cobalt today by Managing Director C. L. Sherrill. The recent issue of this stock, it is reported, was over-subscribed, so that the building. company's treasury contains sufficient eash to ensure a quick start in the diamond drilling for which bids have amount is \$71.000 on one part and diamond drilling for which bids have already been received, and the suc-cessful bidder decided upon at the Assessment of \$96. irectors' meeting to be held in the

at Cobalt this afternoon. Trading in Inspiration continues acive around 21, with the major portion error was the cause of \$10,000 of this. of the demand coming directly from Porcupine and Cobalt, and as the re- ing to \$2000. cently sold underwriting stock remains pooled for 90 days there is every eason to expect a sharp advance is coming, also that considerably higher prices will prevail soon after diamond

drilling gets under way. According to well-posted engineers here is every reason to expect that Inspiration will, by this method of derelopment, soon tap the continuation of the Hollinger Consolidated vein system. It is also said other promising looking veins from adjoining properties on the east and south directly into Inspiration Gold, and the forthcoming drilling results on this property will be closely watched in

The company has en excellently located property and a conservative board of directors of men of

GOLD IMPORTS.

New York. Nov. 1.—Imports of British gold continue in heavy volume, despite the recent statement of prominent bankers that the latest loan to Great Britain would have a tendency to check the movement. Gold bars and coin amounting to \$8.500.000 were received by J. P. Morgan & Co. today from Caneda, of which \$6.500.000 was deposited at the clearing house to the credit of the New of which \$6.500.000 was deposited at the clearing house to the credit of the New York Federal Reserve Bank, the balance going to the Assay Office. It is understood that the total federal reserve institution will continue to receive a larve share of imported gold as long as the current movement lasts.

## U.S. STEEL MUVES TO HIGHER LEVEL

In the final hour an urgent demand for U.S. Steel, which had been little more

A STRIKE ON SHAMROCK.

As reported in The Cobait Nuggett Oct. 27th, a shot put in on the previous day broke down some rich ore. The vein is high-grade and extending from it in the face of the drift for a distance of one to five inches the seams are impregnated with native silver in the form of ruby silver, when and leaf. Samples as sent down to Toronto show a piece of piste silver one thinty-second of an inch thick and one inch wide by two and a helf inches long. The find was made on the 300-foot level in the diabase about 40 feet below the contact with the keewatin. The raise is now up 20 feet from the 300-foot level and the vein is show-incompared the structure and raid the vein is show-incompared.

the 300-foot level and the vein is showing stronger and wider as it approaches
never to the contact.

The Shamrock joins the Beaver and
Tim's is mins to the north and the ve'n
just cut may be a continuation of one
of the Beaver ve'ns. The find is important as showing that another producer
may be added to the list in Southeast
Coleman Township.

A delightful holiday can be spent in the confines of Algonquin Park, where bracing Canadian winter sports may be Though the Grand Trunk otels in that reservation are closed this winter, Mowat Lodge, situated on Canoe Lake, can accommodate thirty guests. Rooms are comfortable and board good. For particulars write Mr. J. S. Fraser, Mowat P.O., Ont.

#### MINING MEN

WINTER IN ALGONQUIN PARK.

Between West Shining Tree Gold Camp and Nipigon (460 miles) several mining belts cross our steel, especially the west-

ern extension of the Porcupine Gold Beit.
Dominion and Provincial geologists have this summer been mapping out the formation ten miles on each side.

miles on each side of the line all the way through, so that later we can present maps showing the exact conomic formation. This work, together with what we know from our land and men having Cobalt, Porcupine and Sudbury experience, makes it possible for me to save mining men weeks of useless prospecting by their men out on the ground.

less prospecting by their men out on the ground.

My information is at your disposal, bacause mining development means rail haul to us. I cannot guarantee you will find pay ore, but I do know that we have ground well worthy of prospecting and developing.

# MARK HARRIS MINES and MINING

There is no such thing as an absolutely safe investment. Government Bonds are about as safe as any investment can be. and still governments have repudiated their bonds and defaulted on

State, Municipal, Public Utility and Standard Railroad Bonds are excellent investments, but no honest broker or financier would tell you they were absolutely safe.

The only certainties I know of in this world are "death and taxes," and neither of these belongs in the investment category.

Although there are no absolutely safe investments, there are plenty that bear the label "high-class" and "gilt-edge," and in my opinion the best of these are the ones that represent necessities.

A necessity is something we cannot do without; therefore, a stock or a bond issued by a company dealing in such commodities is about as good an investment as one can secure.

Of course, there are hundreds of companies dealing in necessities whose shares are not even a good speculation, but that is something that can easily be determined by intelligent investigation, therefore, it has no bearing on the statement I just made that the best investments are those represented by companies dealing in necessities.

Copper is a necessity.

It is not only a necessity in war times, but in peaceful times as well, for without copper, civilization as we know it today would be at a standstill, and nearly every industry in this land would be "hard hit," if not entirely forced out of business.

You cannot invest your money in copper, but you can invest in copper securities, and I have no hesitation in saying the better class of copper stocks of today represent the safest and most profitable investments one could possibly make.

Acco

I can name fully half-a-dozen or more copper stocks that can be purchased at prices that mean a return of 12 to 15 per cent, yearly, and these dividends are guaranteed by enormous ore reserves, that ten, twenty and in some cases even thirty years will not exhaust.

I firmly believe that stocks like Kennecott, Miami, Chino, Inspiration, Utah, Nevada Consolidated and others of a like character represent the premier investments of the present century, and I further believe that those who purchase will not only be assured of these exceptional dividends, but will also profit greatly by enhancement in the market value.

You may not know it, but nevertheless it is a fact that many of the prominent copper stocks are proving to be much better investments than the sensational "war stocks" you read so much about

Only a few years ago you could have purchased Miami. Chino. United Verde Extension or Inspiration at par or less, while today Chino is quoted at nearly twelve times its par value of \$5 per share and is paying dividends of \$9 a year on each share, which represents about 180 per cent, to those who had the courage to purchase when

the company was still in the development stage. Miami is also paying dividends of \$6 per share yearly, which represents 120 per cent. to those who bought around par, \$5 per

Three years ago you could have purchased United Verde Extension at less than one dollar a share; today it is quoted on the New York and Boston markets at \$40.

Nearly all of the large copper companies have already sold their entire production for the balance of this year, and for the greater part of next year, and still copper is in greater demand than ever.

The earnings of the big copper companies are simply enormous, in many instances double and triple the amount necessary for dividends; therefore, stockholders can look forward to increased dividends or a "melon" in the form of a stock dividend.

The outlook for the big producing companies is exceedingly bright, and I don't believe investors would ever regret placing a portion of their funds in same.

Of course, the opportunity for sensational stock market profits in these big producing companies is past, for they are now "achievements," not opportunities, but there are many young copper companies in the same position today that Chino, Miami or United Verde were in when the shares could be purchased around par.

Some of these companies have spent several years in aggressive development work and are right at this minute entering the producing class. In six months, a year, or two years, they may become producers of the first rank, and if they do it will mean a big advance in the market price of the stock. One of the best of these junior coppers, in my estimation, is

Boston and Montana, a company whose shares are listed on the Boston and New York markets, and selling far below its intrinsic Boston and Montana own and control two entire mining dis tricts, either of which is big enough and rich enough to develop it

one of the largest copper mines in America. The company recently started shipments of ore from the French Gulch property, and I understand they will do likewise from

Elkhorn (the other district) about the middle of November. Engineers have estimated the ore at Elkhorn at 72,000,00 tons, averaging 3 per cent. copper, and as the company has average \$8 a ton profit on the ore already shipped, you can see for yours

what 72,000,000 tons means. The stock can be purchased in the market today at less th one dollar a share, and I believe it represents possibilities such

United Verde, Chino, or Miami represented years ago. I will gladly give readers of The World full and complete infe mation on any of the above-mentioned copper stocks either by pe sonal letter or phone.

Note—An article on mines and mining by Mr. Harris will appea

Later, says the sailor's affidavit, a British admiralty vessel hove in sight and began shelling the submarine, which is believed to have been sunk.

GERMANY'S WAR LOAN.

Success of Issue is Declared Com-Berlin, Nov. 1.—(By wireless to Sayville),—At a meeting of the committee of the Imperial Bank of Germany today Rudolf Havenstein, the president, said that the success of the new German war loan proved that Germany would be able to bear the economic burdens of the war for an in-definite time. The popularity of the loan was shown, he said, by the fact that there were more than 3,800,000 subscribers. Pupils of 911 schools subscribed 14,864,000 marks. Pupils of 445 schools collected subscriptions of more than 40,000,000 marks. Statistics up to October 28 show that 8,636,000,000

#### marks, or more than 81 per cent. of the total amount subscribed, has been-

G. N. Ore.
Ins. Cop. Lansing's statement today that the United States' policy regarding subnarine attacks would be firmly upheld. Bears meanwhile made much of the despatches from San Francisco that vessels were being chartered to bring wheat from Austrelia. It was said, too, that Minncapolis chillers had been making liberal use of a report that heavy rains were greuly improving crop prospects in Argentina.

Liquidation of wheat holdings was on such a large scale thruout the session that rallies were of comparatively no importance. Scarcity of storage insurance made the December option a special target for the bears, and so likewise did a falling off in export transactions. One of the most conspicuous sellers was a leading buil speculator who has been known as possibly the largest individual holder of December contracts.

It was easy to depress corn in view of the breaks in the value of wheat Eesides, fine weather and increasing arrivals here counted noticeably against the buils. Oats gave way with other cereals. Buying was poor, althout the seaboard sent advices that export demand was likely to last all winter.

WINNIPEG GRAIN MARKET.

Winnipeg, Nov. 1.—Wheat closed lower on all futures, November was off 4½, December 3½ and May 3½. Fluotications were fairly wide, ranging from 3½ to 4c. Oats were 1½ lower for both December and May. December barley was 6c lower at the close. Flax was ¼ to 1½ lower. The bears summed up courage to press the short side, helped by weakness in the American market. The volume of trade was light.

In the cash market wheat was in poor demand, except No. 1 northern, a little of which was taken by the exporters, Oats were dull. Barley was quiet, as was flax.

#### On Profit Taking

N the most casual consideration it would appear obvious that a knowledge of profittaking - knowing when, how and under what circumstances to take profits is a matter of the first importance to the stock trader. but, strangely enough, this

eral public. The average speculator purchases a stock, and when profits begin to materialize he "rides with the market" on the principle of getting all possible profit from the movement, but arriving at a decision as to the point at which to sell in a hit or miss manner which sometimes, but not often, achieves the best results. A saying that was current some years ago, and which is of value in many cases, is to "cut your losses short and let your profits run," but, misconstrued or carried to an extreme, this is a motto capable of working more harm than good, since it may well lead to over-holding stocks with a resultant loss of the market. In an experience covering many years, we have found that more money has been lost in the stock market through failure to take profits when they appeared, and in holding out for the last possible point of the advance, than in any other two ways in which losses have been

The desire to secure the fullest possible advantage derivable from an advance is quite natural, but danger arises through losing sight of the percentage or the proportion of profit which should be expected in any one transaction and also in failing to consider what constitutes a reasonable advance for any one stock to record in one movement. There are, of course, exceptions to all possible rules which can be made for the stock market, but, nevertheless, certain broad lines of speculation are possible, and it is here that our service is of particular value to our clients, in that we aim to keep our clients closely posted on the market and informed as to how market movements affect their individual accounts.

We have installed a system whereby each client's account is taken under advisement by one of our staff each day. In effect it is the charting of each account in such manner that the ratio of profit is apparent in an instant and a reasonable basis for profit-taking can be established. We make no claim to infallibility, our advice being simply based upon the best information obtainable, but through our organization for service we believe that we can handle accounts in such manner and can post clients so closely that the danger of overholding the market can be practically eliminated.

ally eliminated.

## PERLEY DIRECTING **OVERSEAS FORCES**

Dominion Troops Outside Canada Are Under His Control.

SUB-MILITIA COUNCIL

Premier Says Sir Sam Hughes Deemed Step Advisable.

Ottawa, Ont., Nov. 1 .- Sir George Perley, for the past two years acting Canadian high commissioner in London, has been appointed minister of Canadian overseas forces, All Dominion troops outside of Canada will be

under his control, An order-in-council making the appointment was passed today. In this position he will preside over a submilitia council to be established over-

Sir Robert Borden today issued a memorandum stating that the minis-ter of militia during his recent visit to Great Britain has reached the conclusion that a sub-militia council ought to be established. Canada had already despatched about 258,000 men for overseas service. The expendi-ture involved in the direction of these forces overseas was very great, and to ensure prompt co-operation with the forces of the mother country it was desirable that there should be a member of the government resident in London and charged with important duties and responsibilities in connection with the overseas forces, A resident minister would be continually in touch with the British Government

as well as with all questions affect-ing the efficiency and welfare of the Canadian expeditionary force. "SLOW UP," SAYS DOCTOR. Montreal, Nov. 1 .- The Montreal

Star tonight says:
"Sir Sam Hughes has been advised by his physician to moderate his pace of activity if he cannot take a long rest. Sir Sam has not broken down, but the duties falling to his lot have constituted a heavy burden, just the sort of burden that crippled Sir John French and hundreds of officers in the allied forces!

point is one which receives but scant attention from the gen-

## SILVER SECURITIES

From now forward we judge silver stocks will command greater interest among securities buyers. The absorption of all kinds of steel castings, the white metal by Europe is ing a material factor in keeping the price of the metai close to the 70c mark, but the prospective buying promises to establish materially higher fig-

> A country-wide boom in silver securities seems inevitable. It should parallel the interest in copper during the past two years. It may even be greater. And, pursuing the policy that enabled our clients to take full advantage of the sensational movement in coppers, namely, directing attention to these issues before the great investing and trading public fully appreciated their possibilities, we recommend that the silver situation be closely studied. More, we suggest the immedi-

ate purchase of Tonopah and Cobalt securities.

## Hardwood Flooring

This is the age for hardwood floors and small rugs. Get our prices before going elsewhere as we have experienced workmen and a splendid stock of the finest lumber on hand. We will send and measure your house or any separate room if required and submit to you an estimate free of charge. Best selected quarter-cut white oak, 20c per square foot, laid, waxed and polished complete. Plain oak flooring can be supplied at 18c per square foot, laid, waxed and polished complete.

# Concerning the Window Furnishings

There is very little that is required for the furnishing of the windows that we have not got in our Drapery Department, Fourth Floor. Our stock at the present time of Lace Curtains, Curtain Nets, Scrims, Madras Muslins, Window Shades and Curtain Poles is today at its best. Select your curtains now while the stocks are complete.

## Lace Curtains

A complete line of lace curtains, including the beautiful scrim and marquisette creations, Swiss curtains and the ever-popular Nottingham curtain.

## Nottingham Lace Curtains

A huge variety of this make of curtain, in white or ecru,  $2\frac{1}{2}$  and 3 yards long, and with pretty, lacey borders; some have plain centres, others spray centres. Priced at 98c, \$1.69, \$2.25, \$2.78, \$3.89 and \$4.39 per pair.

### A Special From the Lace Curtain Section

350 pairs of English Lace Curtains, some are of the regular Nottingham weave, others in rich heavy fish net effect, and all of excellent quality; 2½ and 3 yards long, in white or ecru, which regularly sold at \$1.50 a pair. Thursday, 1.29

#### **Curtain Materials**

We have lots of nets, scrims, marquisettes and madras muslins for you to select from, in width varying from 30 to 50 inches; in white, cream or ecru, in an exceptionally large variety of patterns, including the small conventional trellis and the larger floral patterns. Specially priced at 19c, 23c, 35c, 39c, 49c, 59c, 75c up to \$1.50.

## A Special From the Curtain Material Section 65c Madras Muslins at 49c

350 yards of this high-grade, closely woven Scotch Madras Muslin, in a variety of patterns, some with borders in white or cream. They are from 45 to 52 inches wide and regularly sell at 65c a yard, but for Thursday they are specially priced at, per yard

#### Window Shades

When selecting curtains for your windows do not overlook the window shades, as nothing looks worse than new curtains with soiled or damaged window shades. We have a complete stock of opaque window shades, in white, cream or green; size 36" x 72", at 30c, 39c and 49c each. But we have a complete stock of Scotch Hollands in any width which can be made to fit your window. A phone message to our Drapery Department will bring a man to measure your windows,

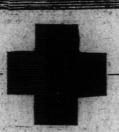

(Get Our Estimate).

# The Bazaars of the East

glowing with color and filled with gorgeous merchandise were, before the war, the gathering places for the rugs of the Orient, those floor coverings that are satisfactory above all others.

> Here are moderately priced rugs from our stock—purchased before the war:

Persian Mahal, size 14' 4" x 10' 5". This is a fine specimen of these wonderful Persian rugs, of very close and silky weave, in a small all-over design, with warm deep red shades for ground work, together with tan, blue and old gold shades intermingled. 250.00 Price

# The French Government's Exhibition of Thousands of War Trophics From the Battlefields of France

is now on view on the Sixth Floor of the Robert Simpson Co. This was the central attraction of the Great Allied Bazaar, held a short time ago in New York, where thousands of people paid 50c to see this part of the show, after having paid \$1.00 admission to the bazaar. This sensational collection of trophies, which the French Government values at 950,000 francs, has not been shown anywhere on this continent before except in the New York Allied Bazaar. This is a rare opportunity for Toronto citizens to see the first important trophies of the war (trophies that have stood in the Hotel des Invalides at Paris), and at the same time to help the Red Cross Society. This exhibit is held under the auspices of the Toronto Branch of the Canadian Red Cross Society, who are charging an admission fee of 25c for adults and 15c for children. One 25c ticket admits two children.

Military Band in Attendance
