Transport Said to Have Struck Mine in Mediterranean Toward End of April.

BERLIN, May 7.—(By wirless to Sayville.)—The sinking of an allied transport in the Mediterranean late in April with the loss of nearly all the 600 Russian troops who were on board, is reported in advices from Corfu, says the Overseas News Agency today.

The transport was sunk by striking a mine about the same time the British battleship Russell met a similar fate, the advices state.

The news agency statement regarding the reported sinking is as follows:

"According to reliable reports from Corfu in addition to the battle-ship Russell, a transport steamer with 600 Russians on board struck a mine and sank, Only a few were rescued. The bodies recovered were buried by the British at Malta."

The loss of the British battleship Russell was recently announced by the British Government.

The new draft will likely be under the command of Lieut. H. G. Stevens.

Word was received here on Saturday that Sir Adam Beck who has been purchasing horses for the remount department, has secured 300 for the mounted rifles, and they will arrive in Hamilton sometime this week. With the arrival of the extra horses a more uniform method of training will be obtained and recruiting for the unit will be greatly aided.

Saturday's results at the recruiting depot were very poor. Out of 12 applications only nine passed the test.

Mr. Redmond has called what is described in his circular "as a most important" meeting of the Irish party for Tuesday, in the house of commons.

There is a rumor in political circles tonight, for which, however, no confirmation is obtainable, that the object of the meeting is to consider an arrangement provisionally arrived at between Redmond and Carson, for the settlement of the Irish question.

According to this rumor, the basis of the proposed settlement is that all the Irish volunteers, including Carson's, be immediately disarmed; that compulsory service be extended to Ireland, and that home rule be put into operation forthwith. operation forthwith.

Members of the rank and file of the Irish party seen by The World tonight said that they knew nothing of the rumored arrangement.

The other half of this mass for maneouvring, or 25 divisions, was held in reserve for some other purpose, probably the resumption of the offensive failure before Verdun have compelled them to call into use the second half of their reserve for infantry drafts, until 450,000 or 500.000 of their 600.000 of their 600.000 rifles have been used up in the west, so that Hindenburg is left with a wholly inadequate reserve. Good news ought soon to be heard from General Gorringe and the British Tigris corps. WINNIPEG, May 7.—Winnipeg was visited this afternoon by the most severe windstorm of recent years. While there was not a direct appeal for recruits, the speakers did not fail to emphasize the further need of men. In addition to the music rendered by the regimental band and vocal selections from Miss B. Cummings, Mrs. Ed. Greig and Mrs. Geo. Grainger, special war pictures were displayed.

BATOCHE COLORS GIVEN TO 123RD

Impressive Ceremony Marked the Presentation on Varsity Campus.

THOUSANDS THERE

Heard Addresses and Saw March Past of Overseas Battalion.

After the two battalions had lined up on the campus standing at attention facing each other, Lt.-Col. J. Cooper Mason, commanding the 10th Regiment, made a brief speech to the 123rd. He declared that he knew it would faithfully guard the colors which had been given to the regiment 53 years ago and carried by that regiment with pride and loyalty ever since.

The ladies of Toronto, he said, had the ladies of Toronto, he said, had given the colors to the regiment, and that if the regiment saw fit to present them in turn to the 123rd he knew that the 123rd, donned as it was in the uniform of the King, would forever carry it as pridefully, as patriotically as the regiment had done. Ltb-Col. W. B. Kingsmill of the 123rd made the response in a few approprimade the response in a few appropri-

The official presentation of the colors consisted of two junior lieutenants of the 10th Regiment handing the colors to Major Sharp, who in turn gave them to Chaplain Brydges of the 123rd. The latter handed them to two junior lieutenants of his battalion. Chaplain Brydges stood before the colors while he presched a short sermon during the church parade service, which opened with the Lord's Prayer immediately after the presentation.

The march past the reviewing stand followed, closing the ceremonies. The official presentation of the col-

LUSITANIA DISASTER

Calls Upon All Men to Avenge the Dastardly Deed of the Enemy.

A crowded house at Loew's Theatre greeted the spenkers at the recruiting

meeting held under the apspices of the Toronto Citizens Recruiting League last night. During the evening four recruits were obtained, two of these being ultimately destined for the Bandams.

The audience used the official song sheet, containing hymns and warsongs. One of these, called the "Roll Call," is a parody on the well-known hymn, "When the Roll is Called Up Yonder," by Oliver Hozzelwood, the vice-president of the league, who issues it with apologies of author of the hymn, it is timely, and the tone being so well-known will doubtless prove popular at similar meetings.

Lieut, Martin of the 204th Battalion paid a tribute to Earl Kitchener as the man whom Britain banks upon in this crisis that was loudy applauded. Continuing, he said it was kitchener's Jesire to have five men in reserve before a general advance was refered.

British institutions, he said, and asked if there could be men in Canada unwilling to fight to maintain these conditions, He hoped that he had addressed his last recruiting meeting as he expected the 198th would be in barracks within the next ten days. "Our battalion was formed to get 1158 good fighting men from the temperance ranks," said Capt, Watson of the 201st Battalion, He said it was morely an experiment intended to do away with an excuse that had ex-

Gathering Held at Metropolitan .Church Under Auspices of Preachers' Brotherhood.

Several hundred people gathered on the grounds of the Metropolitan Church, East Queen street, last night and listened to the open-air meeting lield under the auspices of the Methodist Local Preachers' Brotherhood. The meeting was the first of a series of open-air meetings to be given during the warm weather. N. H. Brigdon of Avenue Road Methodist Church presided and announced that several of the meetings would be of a patriotic nature owing to the dire need of men to fill up the various units now forming.

The brass band of the 198th Battalion accompanied the congregation in
the hymns. Slides were shown on a

Capt. (Ray.) J. Nicholson, chaplain of the 198th, stated that he had repeatedly heard the remark that there was only two things that kept up a man when he was going into the firing line. "They are," he declared, "whiskey and religion. Whiskey has proven to be no good, as a man has to keep on taking it to keep up the spirit of it, but where a man has a deep religious spirit he needs no other stimulant than the spirit of Jesus Christ.

Lieut.-Col. John A. Cooper of the Buffs stated that no other country in the world had the freedom of the British-horn, "It is this freedom for which we are now fighting, and every man today must put the question before himself, 'Am I doing my bit? Compulsory service in the old country became a necessity, and if the 500,000 men are not raised in Canada compulsory measures will have to be enforced here, and I hope that never comes."

JAPAN READY TO BACK ALLIES IN THE CAUSE

So Says Commissioner Mapp a Special Salvation Army Services Yesterday.

Special services were conducted at the Salvation Army Temple yesterday by Commissioner Mapp, territorial leader of Japan, who is paying a brief visit to this country. During the course of the day he gave some very interesting descriptions of the country and peorle of our far eastern ally. Thus previous to leaving the country, he stated, he had an interview with Count Okuma, the premier, in the course of which he asked for an expression of opinion as to Japan's atti-tude towards the British Empire. The count replied that Britain and her al-lies could depend on Japan's warm, active sympathy and help. They were ready to back the cause for which we

were fighting to the last man, he said.

In the morning the 204th Battalion paraded for service at the temple and listened to a very interesting discourse from the commissioner.

SURPLUS IS SHOWN ON ADMINISTRATION

City Treasurer Reports Over Two Hundred Thousand Above Expenses.

According to a statement prepared by City Treasurer Thos. Bradshaw for Mayor Church, a good surplus is shown on current account for the past year, amounting to \$221,678,68. Careful ad-ministration is shown, as the deficit in 1914 was placed at \$1,041,599. The year's surplus is made up by the following items:

when the Toronto Street Railway may be taken over by the city there will remain a compact and continuing traction and power business. The power business has grown steadily since the properties of the Electrical Development Company and the Toronto Electric Light Company were acquired and there is no reason to believe that such growth will not continue, making the power business an increasingly important part of the whole. In 1915 the gross sales of power amounted to \$1,463,639, and in 1916 these are expected to reach a total of \$1,800,000. Gross sales in 1909 were \$651,830. That is to say in seven years the power business has trebled. Further increases ho doubt depend on whether the company can develop more power. In 1915 the total customers of the Toronto Electric Light numbered 25,844, and the k.w. hour output was \$1,295,537, as compared with 16,140 customers and a k.w. output of 28,180,200 in 1910.

It is quite a large place and not very congested, except for one quarter, where all the business houses are. It is a very hilly place and seems to rise in a series of steppes, from the water's edge. As soon as we set sail on Wednesday I started out for a look around the boat; it was certainly a ment to cover the whole matter and yettle it. in the danger zone, and there is a rifle guard on the two top decks with a 4.7-pounder on the stern. I don't know what size the gun is on the bow. At night there are only three lights on the boat, and the men are not al-lowed to smoke on the deck after dark. It is great to stand at the rail and see the spraying foam thrown away from the vessel, but it is par-ticularly beautiful at night when the moon comes up and sends a gleam moon comes up and sends a gleam across the deep green of the sea. Last night I went out and looked for the big dipper in the direction which I thought it would be and discovered it in the opposite direction to which I first thought it would be. Today as I was sitting on the deck looking towards. Towards I was actived. towards Toronto I saw a gull for the first time; that means we are getting toward shore. Just imagine when you get up in the morning I will have been up two hours before you if I get up at the same hour by the clock. I was out on the top deck today, and as I was leaning over the stern I saw a funny little thing rise out of the water and fly about 20 yards, then it went down again and was lost to sight. I thought it was flying fish

but soon I saw another and noticed that it was black, about 5 inches long and had a beak and wings and a wide tail. I asked a sailor what it was, and he said it was a sea lark. At first I thought he was 'larking' me, but he said it was the truth. Then as we went along I saw some other curious objects flopping in and out of the water. They were stretched out in a line about half a mile long. The sailor said they were porpoises. Sud-denly over the horizon we saw a faintlooking speck loom up. It got larger and larger until we could make out a vessel. Just at this time the gunners came

with ammunition for the big guns at the bow and some of the fellows thought it was an enemy vessel, but soon it came close enough so that we could make out its one funnel. We knew that a boat with only one funnel could not do much damage. You'll appreciate the size of this boat when I tell you that there are three engines of 16,000 horsepower each. The propeller blades are 16 feet and the rudder weighs one hundred tons.

About fifteen minutes to 12 o'clock last night two torpedo hoat destroyers came over the horizon line and are accompanying us. There is always great companying us. There is always great excitement among the troops on board when a ship comes ir sight and we all rush to the rail and watch it for hours. The destroyers are going along on either side of us They are very small, only one-quarter our size, but they certainly can travel. From the time we first saw them it took about ten minutes for them to come alongside of us utes for them to come alongside of us. They lie very low in the water and are

It may be regarded as watered stock, this sum of eight millions. But watared stock never prevented a private corporation from paying dividends and levying tolls. The difference in the case of the eastern townships is that the watered stock will gradually pass out of existence under public ownership, while under private ownership the ability to pay dividends is followed by new issues of water. There are some people who prefer to go on paying dividends on the watered stock to buying it out and extinguish ing it forever. This is the old plan of cutting one's nose off to spite one's face. Nothing is gained and much is lost by this policy, which is highly popular in many Toronto circles.

Before the Prudential could start, it had to have capital. It was a departure into unknown waters, and the risks could not be clearly foreseen. With the growth of the business, more and more capital had to be subscribed. By the letter of the law capital so invested was entitled to all that it could earn for all time. But such was not the spirit of the policy of the few-determined. the spirit of the policy of the founder of the Prudential. Time came when no additional capi-tal was necessary. The Prudential was

This was benevolent; it was philan-thropic. The Prudential was the policyholders, to have and to hold, to every intent and purpose, save in one respect. The policyholders had no legal title to their property. And conceivably, without this title, their property might in some way become jeopardized.

It was a herculean task. There had to be litigation with a small minority. There had to be legislation that would give the stockholders power to legally deliver the Prudential to the policyholders.

When the directors formally voted the solemn decision to mutualize, the law provided that the chancellor—the highest judicial officer of New Jersey—should appoint and preside over an appraisal board of disinterested men to determine the basis on which the stock should be purchased for the policyholders and paid for out of the Surplus.

This done, the great act was at last completed.

The newek-end in Ottawa. He declined personally to either confirm or deny the report this afternoon, but there is no reason to doubt its accuracy.

The Quebec and Saguenay was projected and practically constructed from the City of Quebec to Murray Bay and is designed to serve a population of 50,000 people on the north shore of the railway facilities of any kind. The road will be subject to sharp water competition during six months of the year, but many believe it will pay a return upon a reasonable investment.

The road will connect up with the Canadian Government Railway system at Quebec. on a Saturday this afternoon: Sir Robert Borden's bill granting a war credit for \$250,000,000 passed all stages without division and the house then went into committee of supply on the estimates of the department of militia and defence.

On the second reading of the bill to provide \$250,000,000 for military and naval defence M. Lanctot (La Prairie Napierville), speaking in French, protested at what he termed the scandalous and disastrous policy of the government in connection with war expenditures. He quoted the famous speech of Sir Thomas Shaughnessy in Montreal when he said too many young men were being taken out, of Canada. England, he said, was not doing its share in the wor and the government was keeping thousands of soldiers in Canada who were of no use at all. Little France, he said, was holding 400 miles of trenches to England's fifty. In this statement he was corrected by Hon. Mr. Casgrain, who pointed out that England had 100 miles of trenches.

Continuing, the speaker said that the war expenditures this year he estimated would be \$300,000,000 and the newspapers all over the country were deceiving the people as to the real state of affairs.

"It am scandalized," he said, "when I see so many many to be best for social reasons. He did not introduce his introducetion to the Colt Company for business but for social reasons. Not five per cent, of the people in his constituency, he said, were in favor of this policy. If any member of the house would move for a reduction of the \$250,000,000 vote to \$100,000,000, he would be in favor of it.

There was no reply from the government benches and the bill was passed. When in supply the house took up the trade and commerce supplementary estimates. Sir George Foster explained that an item of \$150,000 for the extension and development of Canadian trade was to cover the expenses of a commission. The idea was to systematize and introduce scientific principles into Canadian industry. The commission would, Sir George said, visit Europe for ideas. Laboratories would also be established in Canada on work in co-operation with the universities.

Monday.

Sir Wilfrid Laurier expressed his approval of the move. The next thing he wanted to see done was an improvement in technical education. One thing followed the other he thought. Sir Wilfrid pointed out that Germany now led the nations in the application of chemistry to industry.

The house adjourned at 6 o'clock to sit again Monday.

The premier announced that the G.T.P. and C.N.R. Railway loans will be taken up Monday.

Heavy Bombardment Made Re tirement Necessary But Enemy Did Not Gain,

PARIS, May 6.—The French evacuated part of their trenches on the northern slope of Hill 804, on the Verdun front west of the Meuse, as the result of an unusually violent bombardment by heavy German guns. The war office statement of this afternoon says, however, that all efforts of the Germans to advance were checked by French guns, and that a fresh division of troops which the Germans brought into action sustained great losses. Attacks north and northwest of Hill 804 were repulsed at the point of bayonet.

Examined as to his connection with General Hughes he said he had no letter to act as agent for the minister of militia, but he had letters of introduction, and he found the minister's influence of great assistance.

Just Social Reasons.

He did not introduce his introduction to the Colt Company for business but for social reasons. He did not have a letter of introduction to the war office.

With regard to the entry of goods free of duty at Morrisburg, he said he had been asked by General Hughes to secure samples of American equipment. These supplies were sent to Valoartier, but he had absolutely nothing to do with the alleged changing of price tags.

"Were there large entries of goods duty free at Morrisburg?" he was asked.

"Not to my knowledge," replied col. Allison. "I don't believe the customs collector would have allowed it."

But," said Sir Charles, "he was instructed to do so,"

Col. Allison said he knew nothing about it. He had secured quotations on shell shovals and General Hughes placed the order himself. On war orders in Canada he had never made any profits, neither directly nor indirectly.

MARSEILLES, May 7, 10.15 p.m.— The canal under the mountain be-tween Marseilles and the River Rhone,

tween Marseilles and the River Rhone, constituting one of the most notable engineering achievements of modern times, was officially opened today, in the presence of a distinguished gathering of members of the cabinet and other officials.

Hitherto Marseilles, aitho a great port of entry for the Mediterranean, has been walled in from central France by a mountainous ridge that sweeps entirely around the northern side of the city. The canal opened today is chiefly remarkable in that it pierces this mountainous barrier, the waterway running for five miles in a tunnel under a mountain. It thus has the effect of linking Marseilles with Lyons, Avignon and Valence, and putting it in touch with the extensive inland commerce along the River Rhone. It will also give Marseilles a direct water connection with Havre and the North Sea, and form a part of a canal system connections the centres of Northerick and connections the centres of Northericket. Tribute to France.

That an engineering work of such inagnitude should have been carried to completion when France is in the threes of a war is considered a tribute to her porseverance and the stability of her public enterprises.

The canal and its tunnel have been under discussion for nearly one hundred years, but the actual work on them was not begun until 1904.

The total length of the canal is 60 miles, and the five-mile section under the mountain is 75 wide and 70 feet high, constituting what is declared to high constituting what is declared to be the largest tunnel interior in the world. Barges and vessels up to 600 tons can navigate the tunnel and the canal, which like the Kiel Canal, it is believed, will have strategic value in permitting the movement of destroyers and small craft between the Mediter-rangen and the North Sea. The cost of the work has been about 100,000,000 francs, of which Marseilles paid one-third and the government the re-

May 12th, and in honor of the Marchioness of Aberdeen, the axecutive of the local council of women will give a luncheon at the Hunt Chub on the eame day, when the presidents of the different affiliated societies will be asked to meet Lady Aberdeen. The marquis will be the guest of the Canadian Club at luncheon—of which Mr. Bernard McCann is president—at the Tecumseh House. In the afternoon Lady Aberdeen will formally open the tea house which the Lord Roberts chapter is preparing for the accommodation of visitors to the camp and as a source of revenue for the work of the chapter, which is doing so much for our soldiers comforts. At the evening meeting, in the Masonic Hail, arranged to give Lord and Lady Aberdeen an opportunity to speak of the welfare work in Ireland in which they are so deeply interested, members of the different affiliated societies of the Local Council of Women will have an opportunity of meeting the distinguished visitors at the civic reception, which it is expected will be given to the former governor-general. Another feature of the visit will be the presentation of the flag given by Lady Beck.

Mrs. Larkin and Miss Larkin arrived in

Mrs. Larkin and Miss Larkin arrived in town from St. Catharines yesterday, and are making a short stay at the Queen's. Mr. and Mrs. J. S. Dignam have re-turned from a fortnight spent at their island in Muskoka.

Miss Naftel, Carcross, Yukon Territory, is in town for a few weeks, staying with her sister, Mrs. William Cooke, Howard street. Miss Naftel, who is working with Bishop and Mrs. Stringer in the far north of the Yukon, had to leave Carcross on April 19th in order to be in time for the annual meeting of the women's auxiliary last week.

Mr. Featherston Aylesworth is going t England the end of this month. Mr. and Mrs. Frank Carruthers and their little daughter have returned to Winnipeg after their visit to Mr. and Mrs. John Aird.

Mr. Tertius Noble, the organist of St. Thomas' Church, New York, late of Yorkminster, England, is the guest of Mr. and Mrs. Brnest B, Smith. During his visit to London, Ont., he played in St. Paul's Cathedral on Thursday evening. In honor of this world-famous organist and composer a luncheon was given at the London Hunt and County Club on Friday.

The marriage took place at noon on Saturday in the Church of the Messiah, Avenue road, of Alma Leone, only daughter of Mr. and Mrs. George Levett, to Mr. Fred W. Kantel, 13th Brigade, C.F. A. Kingston, only son of Mr. and Mrs. E. A. Kantel. Rev. S. A. Selwyn performed the ceremony. The bride, who was given away by her father, was unattended, and wore her traveling gown of battleship grey taffeta, a leghorn hat faced with apple green and trimmed with French flowers, and a corsage bouquet of Ophelia roses and illies of the valley. Miss Nan Gunn sang Grieg's "I Love Thee" during the signing of the register. Mr. and Mrs. Kantel left immediately for Kingston, where they will be until Mr. Kantel goes overseas.

The Parkdale Soldiers' Aid report the following shipments from the beginning of the year until the end of April: 178 cases, containing 58,317 articles, valued at \$4,777.16. These have been shipped thru the Red Cross to No. 2 General Hospital, North France. Most of knitted goods were sent to officers in trenches to be given to the men as needed. In addition, socks were sent thru Canadian War Contingent. Also sent to Royal Irish Leinsters 125 pairs of socks. Total number of socks sent, 647 pairs.

During the month of April the Franco-British Aid Society received Monations to the amount of \$433 to help in the re-lief work of the society among the war orphans and Belgian refugees in Brit-tany.

MANY LAID TO REST

Owing to Labor Shortage, Numerous Bodies Interred Without Coffins.

DUBLIN, May 7, 8.45 p.m .- No official figures have yet been issued on the deaths of civilians in the recent revolt, but 160 already have been accounted for-112 males, 20 females and 28 unidentified. The list is still incomplete, because it is known that many of the dead have not been registered in any place open to pub-

Fifty of the victims were buried Fifty of the victims were buried in Glasnevin cemetery on Saturday and 31 others in Mt. Jerome cemetery. Certificates of death from gunshot wounds in 150 cases have been issued. Owing to the shortage of labor the bodies in many instances were interred without coffins. Pathetic scenes are witnessed hourly at the various burying grounds. At Mt. Jerome at times interments proceeded under a crossfire from the soldiers at Portobello Barracks and the rebels on Rialto bridge.

There is still a possibility of additional bodies lying under the debris of destroyed buildings and other un-

sons missing are coming from every district.

Question of Compensation.

The question of compensation for losses sustained by traders during the revolt is causing much heartburning. Under the British law the government is not liable for such losses in Ireland or Scotland, but a strong feeling prevails that the government

"The council desire to place on record their considered opinion that outbreaks would have been impossible but for the gross and unpardonable laxity, long continued, of the administration of the Irish government. The council therefore consider that the funds necessary for restoring the buildings and property of unoffending citizens destroyed in the rebellion should be provided by the imperial treasury without delay." Other meetings of business corpora-tions and municipal bodies have been convened for a similar purpose.

HEAVY ATTACKS MADE BY FOES

Germans Resume Struggle for Verdun and Are Repulsed.

TRY TO CAPTURE HILL

Day's Fighting Gives Enemy Wholly Negligible Gains.

Continued From Page 1.

The northern slope of brill 364, around which has raged the fiercest fighting in the Verdun region, has become a sort of neutral zone, according to a statement given out last night. The Germans are installed at the foot of the hill, while the French maintain their grip on the summit. The trenches held by the French in the intervening territory were made untenable by the artillery and suffocating gas used by the Germans, but their occupation by the troops of the crown prince has been prevented by French artillery fire.

Reconnaissance Beaten.

The repulse of a strong German reconnaissance south of St. Mihiel and a successful surprise attack on a patroling force near Lanfrocourt, in Lormine, are also raported, as is the breakdown of a strong German attack on French trenches near Lihous, south of the Somme. The texit of the statement is as follows:

Struggle incessant.

In a resume of fighting between April 26 and May 6, in the region of Verdun, the French war office says that the struggle has been incessant. On the left bank of the Meuse, the French enlarged and consolidated their positions on Le Mort Homme and north of Cumieres by a series of successful actions on April 29 to May 3. They repulsed all counter-attacks of the enemy. After considerable bombardment and the employment of a division of reinforcements brought from another part of the front, the Germans succeeded in occupying part of the French trenches on the northern slopes of Hill 304.

Violent Artillery Fire.

Violent artillery actions have been fought on the right bank of the Meuse, but only one infantry action was fought and that was started by French. They captured and occupied a German trench southeast of and near Fort Douaumont.

A new German division has been i dentified in the Douaumont region.

A new German division has been i dentified in the Douaumont region.

In the same negotial various actions were precipitated by the enemy it Vosges, in the Argonne, and south of the Somme, but all his attacks were repulsed. On their side the French successfully carried out several surprise attacks in the Lassigny region and in the Argonne, taking some prisoners,

JUSTICE AT COURT

Mayer was in great form in the first half of the game, but was reached for three hits and two runs in the seventh. After that he was fairly easy to hit. Pfeffer was not effective in the first five innings, but after the fifth took a brace and allowed only one more hit. A large crowd saw a great fielding exhibition by both teams.

At St. Louis, Cincinnati hit Doak hard and timely on Saturday, and won from St. Louis, 7 to 2. Cincinnati got two runs in the second on a base on balls, an out, Beck's wild throw and a single. Four singles netted them two more in the third, and a base on balls and doubles by Herzog and Louden added another two in the sixth. Their last run was the result of a force out and two singles. Schulz pitched a steady game, keeping the hits well scattered.

At Pittsburg, Chicago won in the eighth on Saturday on a pass to Flack. Williams' single and an out at first, and beat Pittsburg, 2 to 1. The home team scored a run in the fourth innings on a single by Wagner and Knabe and Yerkes' error. Chicago tied the score in the fifth on Knabe's error, Yerkes' sacrifice and Schultz's hit.

Tommy Burns Will Try Heavyweight Comeback

A well-known newspaper man saw Tommy Burns recently in New Orleans. and discovered that the former world's champion seems to be in earnest about his proposed "come-back." He writes:
"I was rather surprised to see Tommy on

lighter, than when he appeared in New
York during the winter.
"Tommy assured me that he intended
to get in proper shape and then tackle
some of the white hopes to see if 'he was
there with the stamina.' No one in New
Orleans seemed to take him seriously at
first, but the fact that he kept up his
road and symnasium work so persistently has impressed many of the fans
with the belief that Tommy really intends
to stage a 'come-back.' He is at present
at Hot Springs doing plenty of training
and taking the baths to help reduce his
weight.
"If I cannot beat a lot of these socalled heavyweights, then I want to forset that I ever could fight," said Burns,

so I will be nothing out. However, I will

Tell Us the Kind of Spring Suit You Like--We Have It

THE man who buys his Spring Suit here won't find it necessary to hunt around for something he likes-if he has a preference he need only name it-we'll produce the suit.

THAT preference may be for a particular style, a particular weave, a particular color or a particular pattern-we're showing ALL the correct ideas-you won't have to take a substitute,

THE collection is enough to satisfy all men precisely-there are conservative or lively styles, all sizes. The values are unusual at

Wychwood Team Winners in T. and D. League Fixture.

Wychwood best Street Railway, 4 to 3, at Eaton's field, in a T. and D. League fixture, before a good crowd of spectators. Teams;

Wychwood (4)—Wilcocks, Turnery, Wilson, S. George, Hampton, McDonald, Cormick, Drummond, Pratt, D. George,

Street Railway (3)-Cohen, Baker, Tur

Wilson clearing his pass into goal. Turney made a fine opening for George, who in turn parted to Walker, who just missed the post by inches. At the other end Helmsley missed a good chance to give his team the lead, after tricking Wilson, and with only the goalie to beat he shot high over the bar. Cohen saved a dangerous shot from D George right under the bar. The Woods kept up the pressure, only the brilliant defence of Tunstall and Baker preventing Wychwood from scoring. A breakaway by Bryant looked dangerous for Wychwood, Turney just saving in the nick of time. A foul against Wychwood on the eighteen yards line was cleared by Wilson and Wychwoods were presented with a lucky goal when a slow bouncing ball which the goalle thought was going past struck the post and rolled into the net. Partridge missed a great chance to equal the score with only Wilcocks to beat, but he completely missed the ball from Turney's kick. The Woods got down on the Railway goal. SidGeorge beating Cehen for the fourth time. The Railway played up after this and Cowper crossed the ball perfectly, Partridge mak, ing the score three for the Railway.

Result: Wychwood, 4: Street Railyaw, 3.

Fall, River Mobs Referee Who

Awarded Penalty That Resulted in Only Goal of the Game.

PAWTUCKET, R.I., May 6.—The Beth-lehem F.C. of Bethlehem, Pa., eliminate the Fall River Rovers F.C. by one goa to none in the final round of the Nationa Challenge Cup competition here this af

to none in the final round of the National Challenge Cup competition here this afternoon.

The Bethlehem team can now call themselves the champions of the United States. The game ended in a riot, as the Fall River spectators raced across the field in a body in the last minute and mobbed the referee, D. M. Whyte of Brooklyn. The scene was disgraceful, and the police with great difficulty got the referee clear. One of the ringleaders was arrested by the police and will be prosecuted.

The game was played before fully fifteen thousand spectators, and was the largest crowd that ever witnessed a soccer game in this country, over four thousand people coming from Fall River. Both teams turned out as selected. The Rovers winning the toss, Clarke started the game for the Bethlehems. Both teams played at the top of their form, and both goals had narrow escapes.

In the first half the Bethlehem players hit the crossbar three times. The Rover forwards had hard lines also on several occasions. At the interval neither side had scored, but the Bethlehems were rather the better team.

In the second half the Rovers played up, but the Bethlehem defenders kept them well out. Ten minutes from time Bethlehem attacked strongly, and Clarke had hard lines with a fine header.

One minute later the Bethlehem team were awarded a penalty kick for a foul, and Fleming scored, giving Albin no chance to save. The Rovers appealed strongly against this point, but the referee was firm. In the last minute Ferguson handled the ball in the penalty area, and, the incident being accidental, the referee vas firm. In the last minute Ferguson handled the ball in the penalty kick. At this decision the spectators rushed on the field. The referee managed to blow his whistie for time before being mobbed.

Lieutenant-Governor San Souci of Rhode Island was in attendance to present the cup to the winning team, but this was postponed.

PROVIDENCE, May 7.—Today's game at Rock Point was declared off a half hour before the advertised hour of starting, the weather at that time being threatening and few people on the grounds. The teams left for Providence at 2.30 and at 3 the sun was out and after car rolled into Rocky Point crowded to capacity with fans anxious to see the game, and it was an angry crowd that returned to the city. Had today been pleasant it is figured that one of the biggest crowds that ever witnessed a game at Rocky Point would have been on hand, the great battle of yesterday having caught the town by storm. for three-year-olds and tip, about six furlongs:

Great Crowds See Soccer in England

LONDON, May 6.—The English and Scottish soccer players on active service with the Footballers' Battalion in Cairo, Egypt, arranged a soccer game last month between sides representing England and Scotland for the benefit of the Convalescent Soldiers' Outing Society. Several well-known professionals took part in the game, which ended in a draw, and from the accounts received was a thrilling one from start to finish. Forsyth of Forfar opened the scoring for Scotland seven minutes from the kick-off, and Stanley equalized 18 minutes later. In the second half Spencer of Leeds Offy gave England the lead, but Lawrie of Glasgow Rangers again made the scores level. Horne of Plymouth Argyle gave a marvelous show between the sticks for England. The constitution of the teams is particularly interesting, as showing where many soccer players are doing their duty. The elevens were:

England—Horne (Plymouth Argyle), Coles (Watford), Page (Croydon Common), McIntyre (West Ham United), Loughman (London League), Prosser (Shepherd's Bush), Blott (Manchester United), Stanley (Folkestone), Spencer (Leeds City), Wilcox (Queen's Park R.), and Walters (Midland League), Scotland—O'Hagan (St. Mirren), Stewart (Hamilton Academicals), Russell (Queen's Park), Langlands (Dundee), Lawrie (Rangers) and Stossell (Dundee).

ST. LAWRENCE MARKET. The St. Lawrence Market was well at saided on Saturday last, and business brisk, with most of the produce sold out by noon.

New-laid eggs were an especially good sale at 25c to 28e per dozen, the bulk going at 25c. They will not likely go below that figure, as the packers are now buying them for cold-storage purposes, and paying 28c per dozen for large quantities.

and paying 25c per dozen for large quantities.
Butter declined slightly, and was rather slow and draggy, this condition being partly due to some of the vendors esking too high a figure in the beginning, and they eventually had to close out at a lower figure than they would have if they had begun at a fair price. It sold at from \$2c to 37c per pound, the bulk soing at 35c. There was a small quantity sold above the \$7c, but there was also some which went below the \$2c, but the latter was not good, and there was not enough of the former to make it a fair quotation.

Fowl, as usual at this time of the year, was scarce, and brought high prices. Chickens sold at from 25c to 30c per pound, fowl bringing 25c to 28c, while live hens brought 28c to 25c per lb., the few turkeys on sale going around 30c per pound.

pound.

Potatoes sold at varying prices, according to quality—35c to 55c per 11-quart basket, and \$1.30 per bushel. W. J. Mc-Farland, Lambton Mills, had some splendid ones, which brought the 55c per 11-quart basket. Nathaniel Baker, Richmond Hill, had fourteen bushels of fairly good ones, which sold readily at \$1.30 per bushel.

Hothouse rhubarb is just about over, and sold at three for 25c, two for 15c, etc., while the outside grown was mostly very small, and sold at 5c per bunch, and three for 10c. for 10c.

Bert Elford of Humber Bay had some of the best of the hothouse, as well as green onlons, lettuce, etc.

into the market for this stock, which brought about an advance of 9 points. The stock opened 1 point up at 109 and advanced rapidly when the buying orders were executed to 118 and closing strong 1 point lower. The activity in this stock caused a veering of public interest from the Cobalt stocks, which have occupied the limelight for some time past. The Cobalts, on the whole, were fatrly steady, with one or two declines taking place, notably in Beaver and Timiskaming. In the Porcupines Dome Extension held around 35%. Holly was stronger, selling up to \$29.75 and closing at \$30 for an odd lot, Jupiter was in demand at 22 to 23%.

In the sliver issues Timiskaming was reactionary, selling down from 74 to 72½. The decline in this stock was said to be held in Montreal on the 15th. NEW STOCK ISSUE BY NOVA SCOTIA STEEL

The rumor accompanying the rise in Mova Scotia Steel is that the company will issue new stock to the amount of \$2,500,000 out of the recently increased authorized capitalization of the company, all of which will be distributed to the shareholders in the ratio of one new share to three of the old. The capital now stands at \$7,500,000, so that this addition would make a total of \$10,000,000 out of the total new authorized capital of \$15,000,000.

It is also stated that the common stock on its advanced basis will be placed on a 6 per cent, basis around July. This is the rate which prevailed on the \$6,000,000 capital before the war started.

STRIKE MORE IMPORTANT THAN AT FIRST THOUGHT

Further particulars of the recent strike on the MoIntyre Extension at the 1000-foot level show the vein to be more important than at first believed. The ore values are spread over a 17-foot vein and assays give an average of \$11 in gold values to the ton. The vein was struck in the crosscut from the main shaft of the McIntyre Extension to the No. 5 shaft of the McIntyre.

WORK STARTED ON HOLLINGER'S NEW MILL

Capacity to Be Doubled-Will Increase Earings Greatly

TIMMINS, May 6.—As stated in a previous despatch, the Hollinger has started the preliminary work of doubling its mill capacity. The site of the addition is being cleared and construction work will be started shortly. The addition, which will bring the capacity of the mill up from 2000 tons to 4000 tons a day, will be the greatest individual construction work on any mine in Canada. Its cost is estimated at \$750.000.

Saturday's Market on the Toronto Stock Exchange Closed With Good Undertone.

The directors of Dome Mines have declared another 5 per cent. dividend, payable on June 1 to shareholders of record at the close of business, on Thursday, May 18, 1916. The books will be closed as heretofore. The dividend requirements amount to \$200,000. Up to the present three dividends have been paid, two last year and one at March 1 of this year. To date \$600,000 have been paid out, or 15 per cent. of the capital issued.

LONDON STOCK EXCHANGE.

LONDON, May 6.—Money in good supply. Discount rates quiet. American exchange lost yesterday's improvement, and closed easy. On the stock exchange, the German reply seems to have lessened the fear of any immediate rupture, and with Wall street's recovery. American stock improved, the business was very meagre. In the other directions, the market was quiet, the execution of a few orders in silver mines, shipping shares and Russian oils comprising the chief business. Peruvians and Rio Tintos were firm.

CANADIAN STOCKS STRONG.

Heron & Co., report:

MONTREAL, May 6.—The local market was decidedly strong and trading was well distributed over the whole list this morning. Comment from New Yerk on the German note put a favorable construction on its contents, and the how prevailing opinion is that in the meantime there will be no break in diplomatic relations. As this is still the most important market factor, the strength of the New York was to be expected. As far as Canadian stocks are concerned, we seem to be in a built market, and the tendency is towards higher prices.

CONFIDENCE RETURNING

German Note Was Severe Jolt, But Market Has Since Steadied.

NEW YORK, May 6.—Our relations with Germany were again the controlling feature on the Stock Exchange, says Henry Clews. Until Thursday the market was optimistic—too optimistic—concerning the expected answer to President Wilson's last note. When the note was made public and its unsatisfactory character divulged on Friday morning there was a sharp slump in securities and general disappointment. On the decline, however, there was good buying and the reaction was soon checked. The hope also prevailed that in some way a diplomatic break would be averted, the very evident willingness of the German Government to conciliate American opinion being the basis of this hope. The mexican situation has much improved, and this served to lessen the general apprehension against which the market has been contending.

Exports Still Expanding.

Our export trade continues its heading expansion. The total merchandise shipments from the United States in March were valued at \$410,000,000, an increase of \$113,000,000 over a year ago, and about double the March average for the past five years. It is also said to be the largest amount exported by any nation in one month. March imports reached \$214,000,000, or \$56,000,000 more than

and it is stated that the rise in silver has more than offset the muximum tax considered by the Dominion Government. Earnings of the Cobalt companies will probably show a substantial increase this year over those of last year, in addition to which there is a substantial increase in the asset values of the properties. There has no yet been little reflection of the improved physical value of the Cobalts in the markets, and such issues as Nipissing. Beaver Consolidated, Timiskaming and Kerr Lake and others seem due for advances at an early date. The practical certainty of the ultimate effect of higher silver metal prices on these securities has placed them in an unusually attractive speculative position at prevailing quotations."

The sale was made in Hatleybury.

outrage, which occurred exactly one year ago. This disaster only served to show the moral degradation of a nation that counts such a crime a victory or the stupidity of leaders who sought to justify such an action. This war will not be in vain if it teaches us that our land or state is not an institution from which to get as much as we can, but that it stands for ideals which if need be we should be willing to die for, and the three ideals of the British Empire are justice, good faith and freedom.

The distribution making use of even thing, and in exercising ingenuity food, dress, household labor and bringing up of children. Special to The Terente World.

WOODSTOCK, May 7.—At the last of the series of the recruiting meetings held here tonight, Lt.—Col. McMullen of the 168th Battalion announced that 200 more men were required to complete the strength of his battalion. He expressed the hope that the necessary men would line up before the battalion left for Carling Heights Camp in London, in ten days or so. He had to admit frankly that the series of meetings had been disappointing.

The meeting was also addressed by Col. A. B. McLeod, chaplain of the battalion, and Angus MacMurchy, solicitor of the C. P. R., Toronto.

a siang phrase that is used by the hero and which is his undoing. He is a fugitive from justice, or rather pretends to be, in order to win a bet of \$40,000 which he has made with a couple of friends that for a whole year he can clude the clutches of the law, tho every detective and police official in the country be put on his trail. And just a month before this year is up, the daughter of a Colorado sheriff identifies him by that fatal slang expression, and captures the man who has baffled the police force of the country for so long. How she accomplishes his capture and what she does with him after he becomes her prisoner is a glorious mixture of excitement and murth. Miss Francos Neilson will be the little girl sheriff and Edward H. Robins will play the make-believe criminal. THE ZEPPELIN L-7 HAS BEEN DESTROYED

Work Completed by British Sub-marine After Being Damaged by British Warships.

LONDON, May 6.—It was the zeppelin L-7 which was destroyed by the British off the German coast. The destruction of the zeppelin was completed by a Bribsen damaged by British warships. The submarine rescued seven men of the zeppelin crew, all the members of which were reported in an earlier official statement to have been lost.

"A more detailed report has been received of the destruction of the zeppelin L-7." says an official statement given out here today. "It now appears that, the severely damaged by H.M.S. Galatea and Phaeton, her destruction was completed by a British submarine commanded by Lieut, Commander F. Fellman, which rescued seven of the zeppelin's tish submarine after the airship neader wand has returned with them.

MONTRAL, May 6.—The loss of the Hendon Hall and the Fridland, reported a few days ago, will not result so seriously for the Belgian Relief Commission as thousands of contributors feared. It is reported today from the offices of the Belgian Relief Committee of Canada, 59 St. Peter street, Montreal, that the cargoes were fully insured, so that the commission will be able almost immediately to purchase supplies with the insurance to replace those lost.

It was also learned that no Canadian supplies were on either of the vessels, which cleared from Portland, Maine. Had there been, however, the Canadian fund would have been fully reimbursed, for every shipment made is insured to the fullest extent. So no contributor need have any fears or misgivings as to his contribution reaching the hungry Belgians.

The worst feature of the loss of the Hendon Hall and the Fridland is that the delay is getting the food to Belgium is sure to cause increased suffering nd perhaps actual starvation for some. For millions of Belgian women, children, and old men are living literally from hand to mouth, depending each day on the pitifully meagre rations which the Belgian Relief Commission is able to hand out to the steadily lengthening bread lines.

GRANDPA MINDS THE BABY.

Copyright, 1916, by the Author, Bide Dudley.

SHE'S sleepin' now, poor little thing! She's breathin' slow an' deep. To me there's somethin' holy in a little baby's sleep. She'll hardly know, in years to come, the loss that she has had. Her dad is left, but mother love can hardly come from dad. It seems to me she's cried so much she's kept herself awake, an' ev'ry little baby sob had made my old heart ache. I'm rockin' her while 'Gabe, her dad, is restin'; he ain't fur. We've took our turns for 'most a week at watchin' over her. I only wisht her grandma could be here—to calm her fears. But what's the use of wishin'? She's been gone these twenty years. We'll watch the child the best we can. She's all in all to Gabe. The Lord seen fit to take Kate off. He won't desert her babe.

A department in The Toronto World every morning devoted exclusively to news of the screen world, the plays, players, release dates, photographs and everything connected with moving pictures.

If there is anything you want to know about moving pictures or moving picture actors, moving picture theatres, writing moving picture plays, how moving pictures are made, and where, the salaries paid to moving picture actors, or anything at all either directly or remotely connected with moving pictures, write a letter and it will be answered in The World. Make them short, and write on one side of the paper only. If you have an idea that you would like to see worked into a play, write it. If you see anything on the screen that you think could be improved, write that. Write anything you like, so long as it is connected with the moving picture business.

The moving picture news will appear in this space-
