Sir Douglas Haig's Batteries Do Much Effective Shell-ing of Enemy.

London, Feb. 9.—The official communication from British headquarters in France issued by the war office tonight reads:  
"We carried out successful raids this morning and last night east of Vermelles and southeast of Ypres. A large number of the enemy's dugouts were destroyed and several prisoners were taken. A hostile attempt to approach our lines south of Armentieres during the night, after a heavy preliminary bombardment of our trenches, was caught by our barrage in No Man's Land and easily repulsed. Thirty-seven prisoners, including two officers, were taken by us in the last 24 hours at different points along the front.  
"Our artillery performed much successful counter-battery work and caused two explosions among the enemy's lines. Yesterday evening an enemy working party in the neighborhood of the Butte de Warincourt was dispersed by our fire."

#### TEN MONTHS' REVENUE SHOWS A LARGE GAIN

But Canada's Outlay on War Doubles in Same Period.

Ottawa, Ont., Feb. 9.—Canada's revenue continues to increase with great rapidity. The monthly financial statement shows that for the ten months of the fiscal year up to Jan. 31 the total revenue was \$177,084,646, an increase of nearly \$40,000,000 over the same period last year.  
The war expenditure during the ten months amounted to \$184,804,681, exactly double what it was a year ago. There was a reduction of \$7,000,000 in capital expenditure.  
The national debt now stands at \$745,283,453. The increase in January was \$23,327,420.  
**Twenty-Five Sailors Are Lost**  
With British Ship Vedamore  
London, Feb. 9.—Twenty-five of the crew of the torpedoed British steamer Vedamore perished with the sinking of that vessel, according to the press association. The survivors have been landed.  
The number 35, and all suffered greatly from exposure, having been for 10 hours in open boats in extremely cold weather. Many of the men were only half clad.  
The sinking of the Vedamore was reported yesterday. She was on her way from Baltimore to Liverpool.

## WAR SUMMARY

### THE DAY'S EVENTS REVIEWED

THE British have at last quelled the Senussi revolt in Egypt. In two engagements they routed the main forces of Seyed Ahmed, the Senussi leader, near Ghabra on Feb. 4, and then they ambushed the retreating tribesmen in Munsab Pass, compelling Seyed Ahmed, at the head of his main body, to abandon the only road and to strike southward into a waterless desert. The Senussi suffered 200 casualties, including several Turkish officers, and their flight on the waterless sands may be left to the imagination. Before fleeing, after their defeat at Ghabra, the Senussi destroyed their tents and a large amount of ammunition. The Senussi have been giving trouble to the British since the autumn of 1914.

Washington has determined on a course of action to follow the first murder of an American citizen by Germany upon the sea. A cabinet meeting yesterday settled the program of President Wilson as soon as news arrives of the murder. Instead of asking congress to declare war, he will ask congress to give into his hands the power of protecting American rights. This indicates an action less drastic than open belligerency, but it denotes the adopting of measures to protect lives and shipping. The president, it is said, hopes still that he may avoid belligerency.

The number of merchant ships which the despatches reported yesterday as sunk has lessened from the numbers of previous days. All told, if the cables transmit full figures at all, the damage inflicted by the submarines has steadily diminished, though it is still great. This furnishes a strong presumption that the counter-measures of the British navy against the submarines have already begun to give good results.

Field Marshal Haig had no further advances to announce in his despatch from the front in France last night, but his laconic message says more by its omissions than its admissions. When matters are developing behind the British front for big action the communications of Field Marshal Haig become non-communicative, but when nothing important is in immediate prospect, these communications become garrulous. He does report the carrying out of successful raids east of Vermelles and southeast of Ypres. A large number of the enemy's dugouts, he says, were destroyed. #### CLAMORING FOR WAR

##### People Not Satisfied With Government's Policy of Neutrality.

Special Cable to The Toronto World.  
Amsterdam, Feb. 9.—All Holland tonight is agitated at the news of the wholesale attacks, perpetrated today upon Dutch luggers in the North Sea by German submarines.  
Remnants of the badly battered vessels that landed late this afternoon at Vlaardingen it was learned, and later officially announced, that every one of the boats in the fleet had been subjected to prolonged shell fire from what was reported as a "small squadron" of submarines flying the German flag, at several intervals during the day.  
Clamor for War.  
It was impossible to ascertain at a late hour how many of the vessels, all of whom were sailing under the flag of the Netherlands, have been sunk or how many of the members of the crews have been killed. It is feared, however, that the loss of life, when full reports of the day are available, will reach a heavy total.  
The feverish official circles here is growing tonight that it will be impossible for Holland to remain out of the war for any length of time. Public sentiment over this last act of the German submarines is at fever heat tonight, and the people of Amsterdam are clamoring for war.

#### CARS IN COLLISION

##### TWELVE INJURED

Two Come Together at Height of the Six o'Clock Rush.

#### PASSENGERS SHAKEN UP

##### Several Taken to Hospital, But Their Hurts Are Generally Slight.

Twelve persons were more or less injured, two street cars battered and a general panic ensued about 5.30 last night when a Dundas car, in charge of Motorman James Storey, 55 Seaton street, crashed into a Bloor car, driven by Motorman Miles Cowan, 235 St. Charles avenue, at the corner of Adelaide and McCaul streets.  
The following injured persons were removed to the General Hospital: Miss J. A. 218 McDonald street; Miss Ida Magley, 322 West Adelaide street; Samuel Tyszman, 47 Phoenix street; Mrs. Barlow, 213 McDonald street; Charles Brickman, 57 Elm street; while J. F. Waxman, 259 Brock street; Samuel Scaffer, 163 St. Patrick street; Osher Winstein, 623 West Queen street; Samuel Friedman, 26 Kensington place; Max Katz, 27 Bellevue place; Ernest Reid, 29 Columbus street; and E. Maberley, 41 Howard Park avenue, were taken home in private ambulances and hacks requisitioned at the time. None of the people are seriously injured, the injuries sustained being more in the nature of cuts, abrasions and shock.  
At the time of the accident the Dundas car was proceeding along Anderson street at a good rate of speed, while the Bloor car was going down McCaul street. When approaching the intersection, Motorman Storey saw the car ahead and warned the driver of the Bloor car, who hesitated the possibilities. He applied the brakes as quickly as possible, but the slippery nature of the rail offset the effect. The Dundas car struck the Bloor car, and the Dundas car crashed into the middle of the other car.  
Panic Ensued.  
The sound of the crash was so tremendous that residents in the vicinity were startled by it and ran from their houses to see what was the matter. The Dundas car bored its way into the side of the Bloor car, throwing it on its side. The Bloor car was coincident with the collision a panic ensued. Frightened people rushed for the front and rear exits in the effort to escape. The Bloor car was completely overturned, and the area of impact was hurled violently to the floor of the car. The people were assisted as quickly as possible from their precarious positions by bystanders who were hurrying to the scene. The driver of the Bloor car, Dr. P. W. O'Brien, McCaul street, while the others were accommodated in private ambulances and hacks requisitioned at the time. The arrival of vehicles to take them away.  
The accident occurred just at the rush hour and the cars were packed together. The Bloor car was overturned, and the passengers were hurled about. The police believe that the congestion lessened the shock of impact a little and thus saved many people from more serious injury.  
With such force did the cars come together that both of them were thrown clear of the rails and turned completely around. Motorman Storey was slightly cut about the hands and face, but stuck to his post in the debris of the smashed vestibule. He was badly shaken up, but he held on to the scene, but it was nearly an hour later when the two cars were replaced on the track, the debris cleared away and the service by the Dundas car resumed. During that period Bloor cars were sent by way of College and Teruway streets.

Conclude Operations Against Main Forces of Tribesmen by Driving Survivors, With Leader, Southward Into Waterless Desert.

London, Feb. 9.—The successful conclusion of the operations in Egypt against the main forces of Seyed Ahmed, the Senussi leader, is announced tonight by the war office. The forces of Seyed Ahmed, routed near Ghabra on Feb. 4, fled after destroying tents and a large amount of ammunition. They were pursued and ambushed in Munsab Pass, the announcement adds, by a force previously despatched to cut them off.  
Seyed Ahmed, at the head of his main body, was compelled to abandon the road and to strike southward into a waterless desert. The casualties of the Senussi totaled 200, including several Turkish officers.

#### GERARD'S DETENTION EXPLAINED BY FOE

Von Stumm Says U.S. Did Not Allow Bernstorff to Cable.

#### BERLIN KEPT IN DARK

Intimation That Bernstorff Received Passports Came Thru Switzerland.  
London, Feb. 10.—Dr. William von Stumm, the German under-secretary for foreign affairs, in an interview printed in The Amsterdam Handelsblad, says Germany regrets that she was compelled to take the measure she adopted against Ambassador Gerard, but that the U. S. had prevented Count von Bernstorff, the retiring German ambassador, from telegraphing that he had received his passports.  
The interview, according to Reuters' Amsterdam correspondent, was had in Norden, Prussia. Dr. von Stumm is declared to have said that Germany received no reports from the U. S. about the treatment of Count von Bernstorff, or of German consuls or German subjects in the United States. The American government, according to the under-secretary, evidently had stopped Count von Bernstorff from telegraphing immediately after the severance of diplomatic relations with Germany by the U. S., and the ambassador had been unable to announce even the receipt of his passports. Germany had only learned from the Swiss government that the ambassador had received his passports.  
Measures in Reprisal.  
Such treatment, Dr. von Stumm is credited as having said, had compelled Germany to adopt the measures she had taken against the American ambassador, although she deplored such measures which would have been superfluous with some mutual cooperation. "I hope," Count von Stumm is quoted as having said, "that the reports of the seizure of German ships and the restriction of the liberty of their crews are untrue, as such measures would be contrary to the German-American treaty of 1795. We do not wish a system of warfare against non-combatants, such as Great Britain introduced by the internment of civilians."

##### France Willing to Extend Safe Conduct in Generous Manner.

Paris, Feb. 9.—The French Government accepted readily as far as it was concerned, to the request from the American state department to give safe conduct to German consuls on the American steamer Frederick VIII, including Count von Bernstorff and his staff and German consuls and their staffs. Immediately afterwards Washington inquired if the French Government would extend the number conveyed by the safe conduct so that other Germans might leave the U. S. The foreign office promptly advised Ambassador Sharp that it would do so and that it placed no limit upon the number who might leave on the Frederick VIII.

##### Sinking of Three Norwegian and One British Steamer Is Reported.

London, Feb. 9.—A despatch from Queenstown announces the sinking by a German submarine of the Norwegian steamer Hanna Larsen, 1310 gross tons, has been sunk by a submarine. Her captain and chief engineer were taken prisoners. The remainder of the crew was landed. The Norwegian steamer Ida, 1172 tons, has also been sunk by a German submarine. The chief mate and steward were killed by gunfire.  
The Hanskinch, also a Norwegian steamer, has been sunk.

#### AMERICAN SHIPS MUST HAVE FREE TRAVEL OF SEAS

Citizens Also Must Be Unmolested is Wilson's Decision.

#### COURSE IS DETERMINED

Rights Will Be Enforced, Even to a Declaration of War.

Washington, Feb. 9.—The course to be taken by the United States if Germany compels the use of force to safeguard American lives and rights has been determined. It was learned authoritatively after today's cabinet meeting that in the event President Wilson goes before congress again, it will not be to ask for a declaration of war, but to follow literally the words of the address in which he announced the break of diplomatic relations, and request authority to use means deemed necessary to protect American seamen and people.  
The president, it was stated, is as anxious as ever to avoid war with Germany, but also is as determined as ever that American citizens and ships shall be free to travel the high seas unmolested. His next step, it is taken, will be to enforce that right, and even then the issue of war or peace will be with Germany. Any hostile action will have to come in the form of an interference with an American right.  
Details of the government's plans are not discussed. It is known, however, that conveying an armament of merchant ships are being considered.  
No new development came today to indicate that the overt act of Germany regarded as an invasion of the United States, the negro freeman lost on the Turino, indicated that he probably was a British subject.

Things That Make for Comfort and Charm in House or Flat

Grasscloth for Walls

Makes a Charming Covering, Especially for Dining-rooms or Living-rooms—Obtainable in Delightful Colors.

IT COMES FROM JAPAN, being woven from the bark or skin of the honeysuckle which grows on the mountain sides. And with his native genius for color, the Eastern dyer contributes to it an exceptional beauty of tone. Grasscloth is one of the most interesting and effective of modern wall coverings.

It is available in almost any shade you might desire for your living-room, dining-room or hall. The choice includes both Delft and the

softer old French blues, besides a shot effect of blue and gold. Buff, grey, ivory, biscuit, straw, plaster and sand shades are procurable; so, too, are several brown and natural wood tints, and olive and leaf greens. Two-tone and metal effects are also obtainable.

Japanese in origin, grasscloth is especially happy as a background for lacquer, Chinese Chippendale and other furniture of Oriental flavor. It adapts itself just as readily, however, to the more conventional schemes of furnishing.

It is put up in rolls of 8 yards in length and 36 inches in width, and is priced, in plain color effects, at 50 cents a yard, and in metallic finish, at 75 cents a yard.

Oriental Rugs to Suit Your Various Rooms

And Beauties They Are — Kirmanshahs for Drawing-room or Bedroom; Anatolians, Kazaks, Serebands and Ispahans for Living-room or Dining-room, and Shirvans and Hamadans for the Hall—Every Rug an Exceptional Value

TO THINK THAT SUCH LOVELINESS OF COLOR and refinement of pattern may be indulged in for hard, practical, everyday use! And yet, what floor covering is as durable or easily kept clean as the Eastern hand-woven rug in all its beauty?

How splendidly wide, too, in its diversity of design! The choice ranges all the way from the Anatolian in delicate pastel tints to the Bokhara, in deep mahogany brown, with traceries of black. The several groups described below have been selected with an eye to their suitability for the various rooms of a house. Thus:

For drawing-rooms or handsomely-furnished bedrooms these superb Kirmanshahs:

Kirmanshah Rug in an all-over design, in tones of ivory, deep blue and old rose. Size 7 ft. 3 in. by 8 ft. 6 in. Special price, \$215.00.

Kirmanshah showing handsome pineapple motif of rose and ivory on a deep blue ground. Size 11 ft. 9 in. by 9 ft. 7 in. Special price, \$400.00.

Kirmanshah in exquisite feathery design, in tones of ivory, old rose and blue, with characteristic centre medallion. Size 11 ft. by 9 ft. 4 in.—\$475.00.

Kirmanshah showing nine medallions of ivory, brown and old rose on deep blue ground. Size 12 ft. 11 in. by 9 ft. 1 in. Special price, \$410.00.

For living-rooms and dining-rooms these rugs of deeper tones, rich and mellow:

Ispahan in an all-over design, in a beautiful harmony of coppery rose color and blue. Size 13 ft. 7 in. by 10 ft. 1 in. Special price, \$350.00.

Anatolian showing tan and ivory medallions on a deep blue ground. Size 11 ft. 7 in. by 8 ft. 2 in. Special price, \$165.00.

Melas showing plain ground of Rose du Barry, with centre medallion of blue, ivory and tan. Size 12 ft. by 8 ft. 9 in. Special price, \$240.00.

Sereband with characteristic pear-like motif of deep rose on an ivory and blue ground, rose being the dominating tone. Size 11 ft. 11 in. by 9 ft. 2 in. Special price, \$190.00.

Kazak distinguished by a deep rich red ground, patterned with larger square centre medallion and smaller surrounding medallions of tan and ivory. Size 11 ft. 5 in. by 8 ft. 4 in. Special price, \$240.00.

For halls and dens—Group of Shirvans and Hamadans in large and small designs, in combinations of rose and deep blue, camel's hair and terra cotta, and red, blue and ivory. The approximate size is 4 ft. 6 in. by 6 ft., and the special price \$48.50 each.

You were Inquiring

"Perplexed."—Do you know that clear amber shade between yellow and brown? It is excellent for the walls of a living-room with a northern exposure. I am sure it would reduce the dismal aspect of your room, especially if you have the ceiling tinted a creamy ivory tone, "dropping" it down to meet the picture moulding—make the latter creamy ivory, also—and cover the floor with Shirvan or Mosul rugs which have a goodly amount of bright copper or amber shade mingled with their blue and terra cotta. The suggested wall covering might be oatmeal paper at 17 cents a single roll—30 inches wide—grasscloth at 50 cents a yard, 36 inches wide, or a plain painted paper which is featured in various widths from 30 inches at 35 cents a yard, to 120 inches at \$1.60 a yard, through the folding doors, as you direct, and contemplating the dining-room with its window at the south and its French doors at the west, one is inclined to prescribe for these walls a plain willow blue oatmeal paper (30 cents a roll, 36 inches wide), or if this would clash with the rug and furniture covers—you supply no data concerning either—then, perhaps, it would be wise to select a neutral buff shade. This in oatmeal paper is 17 cents a roll.

But, if possible, try to work out the Chinese blue color scheme. It would be charming in that sunny room with all that old walnut furniture. What think you?

"E. E. N."—You would find these books helpful: "The Dog Lover's Companion" by "An Expert"—price 50 cents—which treats of all matters pertaining to the care and training of dogs in general; "The Dog" by J. Maxtee, at 50 cents, which features the subjects of feeding, exercising and indoor and outdoor housing; and "The Dog Book" by James Watson, which devotes chapters to the exhibition of dogs, and to various breeds of dog, including the rough-coated collie. This is \$1.50.

"R. M. L."—The preparation you mention in the title of "Unit Wrinkle Cream" is so apt as to render further explanation unnecessary. It is procurable in bottles of three sizes, at 52 cents, 78 cents and \$1.56, respectively.

"School Ma'am"—is yellow becoming to you? It is the shade, it is supposed to denote intellectuality, you know. At any rate, dear "School Ma'am," it is the only color in which at this late date a warm knitted cap is obtainable. It is in brass wood—priced \$1.25. For your second query, one has no suggestion to offer, alas!

"Elizabeth."—Ask for "Glossilia." It is a rope silk suitable for the embroidering of cloth. It is sold at 25 cents a skein or six skeins for 25 cents, measuring 4 1/2 yards to a skein. One would think a combination of blue, green and tan would look well on your brown frock. A girl such as you want is not procurable at the present moment, but will be later on. If you desire the shopping service, would you send you the samples you request were it not that you omit to supply your name and address.

For a Dining-room—This Delightful Sheraton Furniture for \$145

Also a Host of Other Sets in Colonial, Adam, Jacobean, Queen Anne, William and Mary and Arts and Crafts Designs in Mahogany, Walnut and Oak—All Remarkably Low-priced for the Great February Sale of Furniture.

THE SET IN THE SKETCH IS MAHOGANY, of course—the tawny brown mahogany, of Sheraton liked best. And inlaid lines of boxwood supply the usual touch of contrasting color. The six chairs are upholstered in brown leather. In its classic simplicity of line and extreme nicety of finish, does it not appeal to you as an amazing Sale value at \$145.00? The set consists of ten pieces—sideboard, china cabinet, dinner wagon, round extension table, with pedestal base, five chairs and one arm chair.

A splendid set of Colonial design in dark, red-toned mahogany shows the massive curves and general suggestion of weight characteristic of this type of cabinetmaking. It is made up of sideboard 6 ft. long, dinner wagon, china cabinet, table with heavy base, and 6 chairs. February Sale price, \$300.00.

Ideal for the dining-room in a small house is a set in pleasing modern design in black walnut, the low backs of the sideboard and

china cabinet inset with panels of cane. The sideboard—50 inches long—is \$44; the cabinet, \$30; the round extension table \$35, and the 6 chairs, \$38.50.

Also in the rich black walnut (so beautifully brown) is a charming set in Queen Anne design—the cabriole leg the distinctive feature—which consists of a buffet 74 inches long at \$59.00; six chairs, with seats upholstered in old blue fancy repp, at \$56.50; china cabinet, \$38.50; dinner wagon, with drawer, \$28.00, and round, extension table, \$38.00.

An Arts and Crafts design in fumed oak, especially suitable for a flat or small house, is procurable in these pieces: Buffet, with mirror and wooden handles, \$35.00; round extension table, \$23.00; china cabinet, \$26.50; six chairs, the backs inset with cane, and the seats upholstered in leather, \$32.00.

DUPLEX AVENUE IS USELESS FOR CARS

R. C. Harris Tells Works Committee Control of Yonge St. Necessary.

COULD NOT COMPETE

Ald. Ball Declares Extension Was Not Requested by Old Town Residents.

With only Controller Foster and Alderman Burgess dissenting, the works committee decided yesterday to go ahead with the work of extending Duplex avenue to Chaplin crescent, the city at large to pay 67.37 per cent. of the estimated cost of \$183,800 and the properties directly benefited to pay the balance. The abandoning of the work south of Chaplin crescent saves the city \$283,700.

Controller Foster sought to have the whole work left in Ebevanee for an indefinite period, while Ald. Burgess argued that it was poor economy to cut the extension off at Chaplin crescent. Let the extension go thru to Lawton avenue as council had at one time decided, he argued, and North Toronto would have a thorough for a civic car line to relieve congestion on Yonge street and also a club to hold over the Metropolitan. North Toronto people, he said, could not wait four years till the Toronto Street Railway franchise expired be-

fore having a car line to link up with the civic system of 1921.

In reply Commissioner Harris declared his conviction that the extension of Duplex avenue should have never been undertaken. Even when times were normal, he said, he could not see any justification for the work. Its benefits would be confined to a very small section of the community, and as a street for a civic car line he said it would be useless.

Only Way Out.

"The only way North Toronto will ever secure transportation relief," the commissioner declared, "is by getting control of Yonge street. It is the only logical street for a car line, and the people would not take the trouble to save two cents fare to walk a block west to get a civic car and travel by a circuitous route to the C. P. R. tracks. In my opinion it would be no club to hold over the Metropolitan. If the people protested against walking 1,000 feet from the Toronto street railway terminal to the Metropolitan terminal, how much more justification would they have for protesting against walking 3,000 feet to a civic line, which is the nearest connection you could give them?"

If civic car lines were to come on the west side of Yonge street, the commissioner added, they must first come on Avenue road and Bathurst street.

Ald. Ball contended that the Duplex avenue extension had never been asked for by the people of the old town of North Toronto. When the matter had been before council the ex-mayor and a large number of ratepayers appeared in protest. They did not consider it was either necessary as a thoroughfare, and certainly not of any use as a competitor with the Metropolitan railway. If North Toronto expects transportation relief, the alderman contended, it must come by way of Yonge street, which is the logical thoroughfare.

ONTARIO CITIES ARE BESIEGING BORDER

Special to The Toronto World. Kitchener, Ont., Feb. 9.—Mayor Gross returned to the city today with other members of a local deputation who went to Buffalo with a view to alleviating as far as possible the coal situation. Upon his return Mayor Gross stated that practically every other city in Ontario had similar delegations in Buffalo for the same purpose. The best encouragement which he could hold out was that he succeeded in getting six cars shipped to the city.

Judge Denton Could See No Fraud in Port Weller Real Estate Deal.

In an action in the county court yesterday, Judge Denton gave judgment in favor of the Canadian Securities Corporation against John R. Eastwood of Hamilton in a case in which the corporation were the plaintiffs to recover \$48,250 due on an agreement of sale in 1914 of a lot at Port Weller to Eastwood. Judge Denton exonerated the corporation from any fraud or misrepresentation, upon any fraud or misrepresentation, which defendant alleged he had been subjected to in purchasing the lot, remarking: "There is no fraud that I can see in the case. At most it is a case of the agent exceeding, if he did exceed, his authority in the selling of this property." Defendant had purchased the property on an alleged misrepresentation on the part of an agent of the corporation, by whom he alleges he was told that city conveniences would be installed, no foreigners allowed in the district, a street car service provided, and one hundred houses to be built.

Mennos Snyder Was Well Known in Waterloo and Woolwich Townships.

Special to The Toronto World. Waterloo, Ont., Feb. 9.—Mennos Snyder, one of the most widely-known men in Waterloo County, passed away here this afternoon after an illness of only a short time from bronchial pneumonia. Mr. Snyder conducted a large milling business here, and was well known to the farmers of both Waterloo and Woolwich townships. He was born here in 1853, and had resided in this village practically all his life.

WATER SUPPLY THREATENED.

Piling Up of Ice in Potomac Worries Washington.

Special to The Toronto World. Washington, Feb. 9.—The water supply of the national capital tonight is threatened, and fire-boats are engaged in an effort to break the ice in the Potomac River, that threatens the aqueduct through which runs the great main viaduct. As the ice is piled high against the bridge, it is feared that a thaw or a sudden rain will weaken the ice packs and sweep the structure away. Army engineers are studying the situation, and it is believed that the danger may be averted.

### SPLENDID REPORT BY UNION TRUST

Company Holds Sixteenth  
Annual Meeting and Shows  
Increased Earnings.

#### INTEREST RATE UP

Has Increased Regular Pay-  
ment on Moneys Left in  
Its Charge.

The sixteenth annual meeting of the shareholders of the Union Trust Co., Ltd., was held on Thursday and the annual report, which was presented yesterday, showed a decided increase in nearly every branch, despite the war financing which has enveloped the market. The report showed a net profit on guaranteed investments after the payment of interest, war taxes, and overhead charges of \$1,474,470. From this was paid four quarterly dividends at the rate of ten per cent per annum, amounting to \$1,000,000; donations to patriotic funds of \$2,250, and an appropriation to cover depreciation of securities of \$30,000. This reduced the balance brought forward to \$26,531,143 as compared with \$31,236,438 last year. Yet this reduction is but a minor affair when one sees the ample protection provided to keep the company sound. The total assets of the company were reported as \$15,191,344.53, which are classified under three heads, namely, capital account, guaranteed investment account, and the estates and agencies. The first named consists chiefly of company stock, which is all paid up, and therefore allows very little scope for change. The second account, however, shows an increase of \$33,438 over the year before, which is a decided addition to the financial strength of the company. The last named account has also accrued a substantial gain since the close of last year. This account has been increased from \$5,022,222 to \$5,680,827, or an increase of \$658,604.

One of the main items of interest noticed at first glance in the report is the very large amount of money kept on hand in each account. During the year, also, the crop was light in a number of places, the company reports very few arrears remaining outstanding. The company having increased their rate of interest payable on money given into their trust, and as a great deal of the profits in the different accounts are represented by the difference in the interest which the company pays and that which it received for its loans, it can easily be understood that any increase in the profits would have exceeded the amounts stated above. During the current year the interest on mortgages and municipal debentures has not increased.

#### DRY GOODS TRADE IS NOW SATISFACTORY

Chairman of Wholesale Men's Organization Tells of Scarcity and High Prices Ruling.

At the annual meeting of the wholesale dry goods section of the board of directors, A. M. Ivey said:

"The actual volume of trade increased somewhat, but because of higher prices the amount of business transacted is considerably in excess of previous years. The immediate outlook leads one to the conclusion that we are facing a very difficult task to secure goods, and that prices will continue to advance, so that the goods that are now in stock should be readily disposed of. The position of the trade, therefore, in this respect must be conceded to be sound."

Much has been said concerning the textile staples. Cotton, wool, and silk are all high in price and difficult to obtain. Sooner or later a readjustment in prices must take place. It is not at all safe to predict that there will be an immediate reduction in the price of all for the consumption of the available supply of raw material has been so great that it has been difficult to produce sufficient and, outside of surplus stocks of flax in Russia, and a few large surplus stocks of cotton, wool or silk.

Payments during the year have been nearer a cash basis than heretofore, and there is every indication that retail merchants are not giving as low credits as in the past, which enables them to take advantage of cash discounts.

#### CHARGED WITH FRAUD

Ray McClelland, who gave his address at the police as the number 101, was arrested last night by Acting Det. McConnally on a charge of stealing \$80 from the Canada Writing Machine Company, by which he was employed as an agent. It is alleged that McClelland sold a typewriter for the company and failed to make a return of the money.

### BRITISH RED CROSS IMPRESSED BY GIFTS

London Papers Refer to Ontario Donations in Trafalgar Day Collections.

The London newspapers, and yesterday's Ontario reports of the reporting of the British Red Cross Society and the Order of St. John with respect to the collections of money made through the Ontario Red Cross Day. His Royal Highness, the Duke of Connaught, president, and Sir Robert Hudson, chairman of the committee on Thursday, paid a gratifying tribute to the Province of Ontario, in the course of which he referred to the unique proclamation issued by Sir John Hendrie, and the result had been that £400,000 of the total of £1,098,000 collected from all parts of the empire, including the British Isles, had come from this province.

It is interesting to recall that the Lieutenant-governor had expressed the belief when Canada was asked to contribute to the British Red Cross fund that Toronto would set the pace for Ontario, Ontario for the Dominion, and the Dominion for the empire. The people of Ontario are to be congratulated on standing first on the list of contributors. To the earnest workers in the municipalities throughout the province, and the acknowledgment of the magnificent results they achieved will give great satisfaction.

### WOMEN'S AUXILIARY IS DOING GOOD WORK

Has Already Sent Fifteen Hundred Pairs of Sox to Its Own Regiment.

The women's auxiliary of the 124th Battalion, whose object it is to provide soap and comforts for the men in England and France, are holding their meetings each alternate Friday afternoon in the Elm street Methodist church parlors, Elm street, Mrs. E. M. Chadwick, mother of the colonel of the battalion, presiding. A programme of music and tea is provided by the officers' mothers, wives and sisters. Through the donations of these women, and a fee from each member of the auxiliary, wool is provided, and a constant supply of socks is the result. This auxiliary has been greatly augmented by a branch auxiliary, which was formed in Milford, Surrey, England, after the arrival of the battalion in Witley Camp, Surrey, the branch having as officers: Mrs. R. N. Burns, Mrs. Ardagh, with Mrs. Vaux Chadwick in command.

Approximately fifteen hundred pairs of socks have been sent to the men, and over twelve hundred dollars expended on wool, comforts, and a Christmas treat for the men in France, and a considerable sum spent on comforts for the men who were sick while in camp. The generous donations of these women, and a fee from each member of the auxiliary, wool is provided, and a constant supply of socks is the result. This auxiliary has been greatly augmented by a branch auxiliary, which was formed in Milford, Surrey, England, after the arrival of the battalion in Witley Camp, Surrey, the branch having as officers: Mrs. R. N. Burns, Mrs. Ardagh, with Mrs. Vaux Chadwick in command.

A committee has been formed among the members of the auxiliary to bring in reports of cases where families of men may be in need of assistance, advice or sympathy from the officers and women in charge. An invitation extended to all women interested in the 124th Battalion to become members of the auxiliary.

### A BIG PURCHASE OF IRISH BLUE SERGES.

Some considerable time ago we anticipated the forthcoming difficulty of getting blue serges, and therefore immediately placed a large order with a celebrated manufacturer in Dublin, Ireland, for fifty pieces, which represents about three thousand yards. These guaranteed serges of pure Indigo dye will be in stock in a few days. Further notice will appear as to prices, etc.

### BAKER'S HEIRS' OFFICERS DISREGARD CROWN EDICT

Warned to Leave City—'Tis Said They Will Return Shortly.

Despite the edict of Crown Attorney Thurston regarding W. F. Case and John Fisher, president and secretary of the Bakers' Heirs' Association, to the effect that they should return to the United States, the officers of the association have disregarded the edict and are still in the city. A meeting of the local organization was held in the city hall last night, and it was decided to continue to work for the improvement of the members of the association. ### RECTOR TO RETIRE

At a gathering of the members of the St. Mary the Virgin Anglican Church of St. Mary the Virgin this week Rev. Anthony Hart signified his desire to retire from the rectory of this church. The rector has now completed thirty years of service, and feels that he should take a rest. An effort will be made to retain his services as rector, while the more active duties are given over to a vicar. The matter will again come up at the Easter meeting of the vestry.

News Item—Britain and France have guaranteed safe passage to the returning diplomat.

### MOTOR TRUCK NECESSARY IN MODERN BUSINESS

Toronto Merchants Guests of Studebaker Firm at Banquet Last Night.

Seventy-five merchants were the guests of the Studebaker Motor Car Company of Walkerville at a banquet in the King Edward Hotel last night. The banquet was featured by an address on "merchandising—past and present," by Henry Meyer, head salesman of the Detroit firm. Mr. Meyer stated that the guests were not invited, with the intention of the corporation selling their motor cars, but to show to the merchants the great importance motor trucks are to the commercial world, and that they might draw comparisons between the past and present methods of distributing merchandise. The speaker produced figures to show that during the past seven years the demand for commercial cars has increased over two hundred per cent. In America, and stated that there were 200,000 trucks used for delivery purposes in the States during the year 1916. The economical and quick way in which goods can be delivered, he said, was sure evidence that they were going to put horse drawn vehicles out of demand in the near future.

### REQUIRE RECRUITS FOR INLAND WATER SERVICE

A splendid chance for those who do not quite measure up to the fighting standard, as set by other units of the service, to do their bit across the seas, is offered by Sgt. W. A. Hunter, 895 Eastern avenue, a well-known motor boat man along the water front, who has been commissioned by Major W. H. Owen, of the Imperial Royal Engineers, to recruit men in Toronto for the Inland Water Transport Section. Five hundred men are required from Canada, and it is expected that a good many can be obtained in this city, where so many are familiar with water transport.

### Will Sentence E. L. Baugh At Sessions Next Wednesday

Edward L. Baugh, Montreal broker, found guilty of conspiracy, will be sentenced by Judge Winchester in the criminal sessions next Wednesday morning at 10 o'clock. The December sessions were held open until the decision of the appellate court at Osgoode Hall was made known. Judge Winchester was to have passed sentence this morning, but will be unable to do so in court and ordered the postponement. Baugh was found guilty last spring of the case taken to the court of appeal, and a new trial was directed. He was found guilty at the second trial and the case was again taken over to Osgoode Hall. This time the appellate division upheld the decision of the court. Col. G. A. Stinson, Toronto broker, was the complainant. Baugh has been awaiting the outcome of his appeal in jail.

#### CANADA'S REPRESENTATION AT AN IMPERIAL BOARD

Prominent Citizens Draw Up Memoranda Calling for Action in This Connection.

With the view that Canada should have a larger share in the affairs of the empire, a number of influential citizens of Toronto, including G. F. Beer, R. A. Falconer, A. J. Glazebrook, H. W. F. Jones, Lieut.-Col. R. W. Leonard, St. Catharines, J. F. MacKay, Lieut.-Col. V. Massey, Prof. W. S. Milner, Lieut.-Col. H. C. Osborne, H. D. Souley, G. A. Warburton, Sir John Wilson, Prof. G. M. Wilson, and Sir Edmund Walker, have issued a memorandum for the signature of all those in favor of representation at an imperial board. They point out that as Canada, with the other dominions, has pledged her resources for the preservation of the empire and to establish a lasting peace throughout the world, she should in the future be given a place in the council which shall determine the policy by which that peace may be kept. They urge an immediate discussion of the subject and suggest the following premises on which they have agreed: Canada has shown her deter-

#### Safe Fat Reduction

Reduce, reduce, reduce, is the slogan of all fat people. Get thin, be slim, is the cry of fashion and society. And the over-fat warring their hands in mortification and helplessness, revelling at nauseating drugs, afraid of violent exercise, leading the unwelcome and unsatisfying diet, until they hit upon the harmless Marmola Prescription and learn to change in their mode of life, but harmlessly, secretly and quietly reaching their ideal of figure, with a smoother skin, better appetite and health than they have ever known.

Learn the satisfactory, beneficial effects of this great, safe fat reducer by giving to your druggist five for a generous-sized case, or sending a like amount to the Marmola Co., 364 Woodward Ave., Detroit, Mich., with a request that they mail to you a full case of Marmola Prescription Tablets.

#### INSPECTION BY SWEDEN.

Petrograd, Feb. 9.—David R. Francis, the American ambassador, has been officially advised that Sweden is to take over the inspection of the Marmola Prescription Tablets. The foreign office has not yet received any confirmation.

SATURDAY MORNING, FEB. 10.

The Labor Party

An important meeting of the new labor party was held on Thursday evening, important, if for nothing else, as indicating that the new movement has more vitality in it than some of its critics expected. Mr. Allan Studholme, M.L.A., a veteran in the ranks, gave some good advice and laid down some general principles which must be worked into the blood and bone of all who would become useful and effective members of the party. Independence was the one fundamental note that he stressed, and he gave warning that no man who hankers after the allegiance of either of the old parties, or who longs for the fleshpots that are usually associated with the Egypt of either bank of the river, can ever give strength to the new movement. Mr. Studholme has learned, as so many have yet to learn, that with the war old things passed away and a new day has arrived, and they who refuse to work for the new day must pass with the old time. There are still many unassimilated elements in society that must yet find their places in the ranks of the movement which the new labor party represents, but if the labor men are true to their ideals and think more of their country than of themselves, these various elements will gradually rally to a common center and find their true places. The labor party has similar interests with the grain men of the west, recently organized, and with their platform of advanced and popular legislation they should be able in the course of a comparatively short time to build up a body of thought and action which will draw to itself the best elements of the country. Proportional representation and equal suffrage are two of the immediately necessary reforms and their adoption will advance all the other causes exceedingly.

PRESENTING THE COLORS

The United States and the War

Hon. W. J. Bryan wants a referendum to settle whether the United States should go to war. Incidentally he emphasizes the weak point of the referendum system. When the occasion for war comes it comes like a bolt of lightning, and by the time a referendum could be taken the war would be over if preparation were left till that moment. Perhaps when attacked, Mr. Bryan would permit the standing army to repel invaders until the nation voted whether it would really go to war or not. But would he expect the nation to vote not to fight when its army was already repelling invasion? There is no chance of any nation going to war under modern methods of government unless the people are overwhelmingly behind the government, and inspired by faith in the national cause. Would Mr. Bryan have seriously proposed in the latter days of July, 1914, to Belgium to have a vote on whether the nation should observe its 80-year old treaty? While they were preparing to vote the Germans were overrunning the country, and France as well, as they had expected to do.

The New York World takes the view that a virtual state of war exists at present between the United States and Germany. The date of the opening of hostilities has not been definitely fixed, but the preliminaries have been arranged, and the ring is ready. It will be a fight to the finish, too.

The United States is already suffering in honor and in commerce by having her ships confined to harbor by the German threat of sinking them. It is said that the vessels are awaiting guns for protection from the submarine menace, but the same object could be achieved by sending cruiser convoys. This, the president has decided, might appear like provocation to Germany, but Germany has already ruled that any vessel carrying guns is an armed vessel, so that except for sentimental reasons little is gained by the delay, except delay. Perhaps it is delay that President Wilson chiefly desires. There can be no doubt of his extreme desire to avoid or evade war, but he must have seen it to be inevitable when he broke off diplomatic relations.

It is alleged by some that President Wilson wishes to extinguish Great Britain's "tyranny of the sea." Those who put forward such views are playing the German game, and trying to make bad blood between Great Britain and the United States. Mastery is one thing, but tyranny is quite another, it is excellent to have a giant's strength, but tyrannous to use it like a giant. This indicates the difference between Great Britain and Germany. Great Britain, a giant on the ocean, uses her power with moderation, discretion and gentleness. Germany, a giant on land, has used her power for lust of conquest, insensate and with a savage brutality that beggars all past history for parallel. Great Britain has learnt the lesson of self-control and Germany has not.

Today in spite of Germany's boasts

ELOQUENT SPEAKERS HIPPODROME SUNDAY

Two-Fifty-Fifth and Two-Fifty-Seventh Will Benefit From Meetings. Eloquent speakers, clever instrumentalists and talented singers should make Sunday's recruiting meetings at the Hippodrome among the most successful promoted by the Sportsmen's Patriotic Association. CANADIAN TOYS MAKE FINE SHOW

Splendid Exhibit of Made-in-Canada Articles is Gathered Together. AN IMPORTANT TRADE. Serious Effort Being Made to Capture This Business From Enemy. How the Canadian manufacturers will take care of the toy industry after the war and place it on a plane which will defy foreign competition is being amply demonstrated in the exhibit which is proceeding at 8 Colborne street. There will be found a selection which will convince the most dubious of the success of the venture, and which speaks volumes for the initiative and ingenuity of the home manufacturer.

DEALERS BLAME RAILWAY BOARD

Dominion Commission Could Ease Coal Situation by Controlling Traffic. PROBLEM STILL ACUTE. Rogers Company is Selling Coal at Yards, But Cannot Deliver. Despite the fact that the railways moved a little more coal than usual yesterday, the situation is still acute. The Grand Trunk Railway brought into Toronto yesterday 82 cars of anthracite and 37 of bituminous coal. In the same time the C.P.R. hauled 49 cars of commercial coal and three cars of coke. This makes only a total of 171 cars, while the railroad officials admit that the city needs almost 200 cars of fuel every twenty-four hours.

POSTPONE GRANT TO NORTHERN UNIT

Controller Cameron Responsible for Special Board Meeting. TROUBLE WITH MONEY. Understood Battalion Spent Previous Donations Unwisely. Pending a report from General Logie, Toronto will not make a grant of \$1,000 to the 228th Battalion. Controller Cameron was the means of calling a special meeting of the board of control yesterday, at which he declared that information had come to him that the battalion had unwisely expended large sums which had already been donated to them. Upon this announcement the board decided to withdraw their recommendation of Thursday that \$1,000 be granted.

ARE YOU ACQUAINTED WITH A PRISCILLA PERKINS?

Answer the Question When You Have Read the Article...The... Sunday World Feb. 11. Representatives of the Ontario Government of the city council, the military staff of the different bodies engaged in patriotic work in the community, including those interested particularly in recruiting, will be guests of The Toronto World on Monday night for the formal opening presentation of "The Canadian Army in Action" and the Advance of the Tanks. These pictures were produced for the Canadian War Propaganda office under Sir Max Aitken (Lord Beaverbrook) and are presented for public exhibition in Canada by Jule and J. J. Allen. They have been endorsed by the King and by the authorities at Ottawa and Queen's Park, Toronto. In Toronto the film is presented under the auspices of The Toronto World. His Excellency the Duke of Devonshire, governor-general of Canada, will be present, and Sir George Foster will make an address at the Ottawa opening, and His Honor Sir P. H. LeBlanc, lieutenant-governor of Quebec, will be present at the formal opening in Montreal.

A CULT FOR WEALTHY NOT FOR THE MASSES

Christian Science So Termed by Claimant in Interesting Court Case. Justice Sutherland reserved judgment in connection with the construction of the will of Miss Mary Helen Orr, who left \$200,000 principally for Christian Science "united" Counsel, acting on behalf of an aunt, Mrs. Mary Cameron, argued that Christian Science was contrary to public policy, that it was a cult for people with money and not for the general public, as its textbook, unlike the Scriptures, which could be purchased for a penny, cost three dollars.

WOULD NOT REVEAL CHILD'S WHEREABOUTS

As a Result Defence is Struck Out in Claim for Grace Link's Custody. Justice Britton at Osgoode Hall yesterday afternoon granted the motion of William Link to strike out the defence of Miss Margaret Thompson in the action brought by Link for the custody of his child, Grace J. Link. The mother of the child is dead, and in 1908 Miss Thompson, who is an aunt of the child, claims to have made an agreement with the plaintiff whereby she would become the proper custodian of the child just as long as she provided for her keep. At the examination a defendant refused to reveal the whereabouts of the child, and on behalf of Link, Justice Sutherland in June last made an order that Miss Thompson should appear at her own expense before the deputy registrar at London, Ont., for further oral examination before the trial to answer where the child was. In default of the defendant, not appearing, the defence is directed to be struck out.

TO MEET THE HIGH COST OF LIVING

The Canadian Northern Railway has inaugurated a system in the dining cars designed to meet the requirements of the traveler desiring a moderate priced meal. Table d'note prices: Breakfast, 25c, 50c, 45c, 50c; luncheon, 35c, 50c, 75c, 50c, \$1; dinner, 45c, 75c, 85c, \$1. More elaborate meals may be had in the cars if desired. Passengers are supplied with menu cards about 30 minutes before departure and are invited to give any information and offer suggestions if required. This system has been in effect for a short time only, but it has been patronized to such an extent as to ensure the complete success of the scheme. Another original feature introduced on all its transcontinental trains is a "Travelers' Shop," in charge of the porter in the observation cars. The stock consists of a complete list of articles the traveler is likely to forget, or overlook, in packing for an afterthought. Everything from shoelaces and collar-buttons to smelling salts and non-bone is obtainable. The patrons of the road have already shown an enthusiastic appreciation of these, two of the many original features characteristic of the progressive policy under which the C. N. R. operates.

**Wants Fruit Marks Act Changed To Cover Apples Sold in Bulk**  
A. S. Chubb, addressing the Ontario Fruit Growers' Association, spoke in favor of having the law against the selling of undergrade apples extended to include those sold in bulk, as well as those in sealed packages. He said that under the present Inspection and Sales Act a retailer could go down to the wholesale market buy apples that had been marked No. 2 or No. 3, take them to his shop, take the heads off, and cover them with a waxed open package, and could sell them to the consumer as good Ontario apples because the law does not cover apples in open packages. This, he said, was contrary to the best interests of Ontario's fruit trade.

**Saturday Concert at Williams' in Honor of Edison's 70th Birthday**

World's greatest inventor, born February 11, 1847, devotes all his energies now to Re-Creation of work of the world's great artists.

**Pleasing Program Planned for Today**

Thos. A. Edison, the world's greatest inventor, whose discovery of the new art of music's Re-Creation has astounded the musical world, will be seventy years old tomorrow.

As an appropriate celebration of Mr. Edison's birthday, The R. S. Williams' "Home of Music," 145 Yonge street, will hold a special afternoon concert today of Mr. Edison's favorite records, or Re-Creations, as they are more generally known. In this program are seven numbers which are delightful examples of Mr. Edison's New Art. Particularly is this true in the case of the Hawaiian numbers, 1 and 6, by Toots Paka's Hawaiians, who are appearing in Toronto this week.

The public is cordially invited to this concert. You can come in when you please and go out when you please.

**SATURDAY'S PROGRAM.**  
7:45 TO 9:30 P.M.  
**WILLIAMS' RECITAL HALL.**  
1. Aloha Oe. Toots Paka's Hawaiians.  
2. For You Alone. Elizabeth Spencer and E. B. Randolph.  
3. Teenie Ernie Weenie. Helen Clark and J. A. Phillips.  
4. Bonnie Sweet Bessie. Anna Case.  
5. Girl Who Smiles Waltz. Jaudus' Society Orchestra.  
6. Waialala. Waltz Song. Toots Paka.  
7. Temptation Waltz. from "The Girl Who Smiles." Elizabeth Spencer and J. A. Phillips.

As possibly the one Canadian firm which is most closely in touch with the work of Mr. Edison, The R. S. Williams & Sons Co. Ltd., have had to answer many questions in regard to the famous inventor. The one question most often asked is: "Is Mr. Edison still active?"

It is a remarkable fact that, in spite of his age, Mr. Edison is active every day in his Orange Laboratory, working twelve, sixteen, and often as high to twenty-four hours at a stretch. The Re-Creation of complete operas is now occupying his attention, and a startling announcement along this line is to be expected from his laboratory any day.

**EMBARGO ON SEEDS BEING INVESTIGATED**

Premier Hearst has Interceded in Behalf of Seedmen and Farmers.

The embargo on seeds, which in the case of the G.T.R. was against shipments to points east of Toronto and on the C.P.R. east of Peterboro, established a few days ago, and which threatened to seriously hamper the clearing of seeds from Toronto wholesale houses to dealers in the eastern provinces, will apparently be of short duration. Following complaints lodged with departmental officials by Toronto houses, Premier Hearst has written Sir Henry Drayton, chairman of the Dominion Railway Board, calling attention to the necessity of lifting the embargo at once to facilitate the distribution of seeds, which are looked upon as one of the most important items carried by the railroads at this time of year.

Also only a few days have elapsed since the embargo went into effect, it is considered that its effect has caused considerable apprehension, as the time when seeds are ordinarily in the hands of the small dealers and available to the farmers and gardeners has arrived, and delay will curtail the production of crops. It is also stated that the necessary storing of seeds here while the embargo prevails may deteriorate the quality of the seeds, which would be another serious feature in production.

### TOWN PLANNING ACT EXPECTED

Premier Hearst Says One May Be Brought Down at Next Session.

#### HEARS DELEGATION

Thomas Adams Presents Amended Act—Some Recommendations Radical.

Legislation to improve town planning in the province will probably be brought down at the next session of the legislature. This may or may not be along the lines presented to the cabinet yesterday by Thomas Adams, town planning commissioner, and a large delegation. In replying to the presentation, Premier Hearst said the cabinet was agreed that the objects sought by those represented by the delegation were very desirable. The only thing was to find the best method of obtaining those ends.

The resolutions presented yesterday were two that had been passed by the southwestern Ontario municipal representatives in convention at Hamilton.

The first resolution related to the need for passing a town planning act, which we prefer to call a town planning and development act. It then went on to suggest certain amendments to the draft act submitted to the provincial cabinet last year.

The second resolution related to the proposed municipal branch, and urged the necessity of immediate action to appoint a commission to draft legislation for the purpose of creating a municipal department.

Some of the suggestions made by the speakers of the delegation were somewhat radical, said Mr. Hearst in reply. He referred especially to that which would make it impossible for municipalities which had passed by-laws to adopt a town planning scheme to rescind or change it. It might be a good law, said the premier, but it was radical, said he.

Under present legislation much might be done to provide for better co-operation between municipalities. The whole matter was under the careful investigation of Mr. McPherson, under whose department it came. The government hoped to arrive at the best legislation possible to meet the situation and to pass the same.

It was important not to take too much authority from the local councils. He was glad to learn from Mr. Adams that such was not the plan of the legislation proposed by him. This provided for local development boards of the mayor or reeve and two members of the council, with two ratifiers, appointed for three years.

The delegation was introduced by ex-Mayor Allan of Hamilton, and included H. L. Frost, Hamilton, president of the associated boards of trade of the province. He gave the scheme his official commendation. Other speeches were made by E. E. Main and C. C. Copley of Hamilton.

The members appointed to make the presentation were: Hamilton, Acting Mayor T. B. Morris; E. E. Main, Ald. T. B. McQuesten; G. C. Copley; Guelph, Acting Mayor R. H. Bryant; Brantford, Frank Cook; Kitchener, W. H. Brethaupt; London, Gordon Phelan, secretary, board of trade; Chatham, Ald. W. A. Hammond; Lincoln County, Reeve C. H. Claus; St. Catharines, Mayor W. A. Staples; B. Burroughs, board of trade; Windsor, Mayor W. Jackson; Bruce County, Reeve Anderson, Lucknow; Wentworth County, Warden J. H. Dickson; Paris, John Penman; Smithville, E. Goring; Welland, L. B. Duff, industrial commissioner; Mayor Crow; Ottawa, Thomas Adams, commissioner of conservation; Galt, Mayor A. M. Edwards; Barton Township, Reeve Adam Cook; Thorold, W. W. Grenfell; Grimsby, Acting Reeve James Marlow.

In the afternoon police court yesterday, M. K. Cowan, K. C., requested and I. S. Fairly consented that the argument in regard to the charges of overcrowding against the Toronto Railway Company be deferred till next Monday. The magistrate accordingly adjourned the case.

# JULE AND JAY J. ALLEN PRESENT "THE CANADIAN ARMY IN ACTION AND THE ADVANCE OF THE TANKS"

THE OFFICIAL MOVING PICTURES OF THE BATTLE OF COURCELETTE

## The King Has Endorsed These Canadian Pictures

**B**EGINNING Monday morning at 10 o'clock in the Regent Theatre, Jule and Jay J. Allen, under the auspices of The Toronto World, will present the first war film of the Canadian army in action, which embodies also the first moving pictures of the Tanks taken on the initial appearance on the field of battle September 15, 1916.

These pictures have been endorsed by the King of England. They have the endorsement of the Canadian Government. They have the endorsement of the Lieutenant-Governor and the Ontario Government. Sir George Foster, minister of trade and commerce, will represent the Canadian Government at the initial presentation of the film in Ottawa on Monday night. Sir John Hendrie, Premier Hearst, Mayor Church and a distinguished group of guests, have been invited to attend the opening on Monday in Toronto. On Monday night in Montreal Sir P. E. Le Blanc, K.C.M.G., will be present at the Princess Theatre to represent the Province of Quebec.

The Canadians are shown in all phases of their work at the front—marching, bringing up supplies, bombarding the enemy's positions with the big guns, on duty in the trenches, preparing for the attack, the leaping from the trenches when they all "went over the top" on September 15, charging with the tanks, fighting and falling. It shows the surrender of German soldiers, the wrecked German trenches and dugouts, the destruction wrought by the heavy artillery, the care of the wounded, and the glory of Canada's victory over the enemy in the greatest battle in which Canadians have ever been engaged.

#### Sir John Hendrie Said:

"These pictures are official and authentic. They are intensely vivid and interesting. Everyone should see them. They are Canadian and they also show the tanks. I thoroughly approve of their exhibition and heartily endorse the film. Lady Hendrie and myself recognized a personal friend in one of the scenes in the picture of Major Harry Crerar, of Hamilton, of the 4th Battery."

#### The King of England Cables:

"These pictures will help to bring home vividly to all in Canada the nature of the great sacrifice which their fellow citizens in the Empire are making in its cause and in that of honor and justice. I hope that the greatest success will attend the efforts of those who have organized this means of spreading throughout Canada news of the progress of the great war."

#### Premier Hearst and Cabinet Approves

"They are by far the best war pictures I have ever seen. I thoroughly approve of them as a record of what the sons of Canada did for all Canada to see."

"They are extremely realistic."—Hon. T. W. McGarry.

"Vivid—the best war pictures."—Hon. I. B. Lucas.

"Splendid—glad to have opportunity to see them."—Hon. G. Howard Ferguson.

"I heartily approve of showing these pictures to the people of Canada."—Hon. Dr. R. A. Pyne.

**FRUIT MEN PROTEST AGAINST EMBARGO**

Forward Resolutions to Agricultural Department and Railway Board.

**BAD FRUIT MARKETED**

Growers Want Legislation Compelling Names on Fruit Boxes.

Officers of the Ontario Fruit Growers' Association appointed yesterday for the coming year are: President, F. A. J. Sheppard, St. Catharines; vice-president, R. M. Grierson, Oshawa; secretary-treasurer, P. W. Hodgkiss, of the fruit branch; and Wm. Fisher, Burlington, and Thomas Rowley, Leamington, to act on the executive.

A resolution was passed at the last session of the convention yesterday against the railway embargo on sprays, fertilizers, equipment and seeds, with the recommendation that a copy of the resolution should be sent to the minister of agriculture in Ottawa and the chairman of the Dominion Railway Board, asking for action with a view to its removal.

Another resolution was passed after a speech by George E. McIntosh, provincial transportation agent for the association, was to the effect that a Dominion officer should be appointed to do similar duties for the whole country and to work in co-operation with Mr. McIntosh.

C. R. Terry, who spoke on strawberries in the Clarkson district, said that the time had come when growers should be stopped from selling "rubbish" on which they were ashamed to put their name. He advised the stamping of the grower's name on all fruit marketed. Terry thought it would go far towards improving marketing conditions in the province.

**Good Profits Made.** Regarding strawberries, Mr. Terry spoke of a neighbor who for three weeks made \$1,000 a week from two acres. His himself had made \$1,000 an acre from strawberries.

W. A. McCubbin, Dominion Department of Plant Pathology, speaking on "The White Pine Blight Rust in Relation to the Growing of Currants and Gooseberries," said that either pine or bushes had to go in any district. The relative importance of the pine and the berry bushes in each district must decide which should be destroyed, said he. The spread of the disease was indicated by the number of districts where it was prevalent—Niagara, Lindsay, Bowmanville, Ottawa, Montreal, etc.

Prof. W. T. Macoun, Dominion horticulturist; Prof. L. Casaur, provincial entomologist; G. A. Robertson, St. Catharines; Senator E. D. Smith, Winona; and F. A. J. Sheppard, manager St. Catharines Cold Storage Company, were the addresses of interest to the growers.

**CITY HALL NOTES**

The proposals of the civic authorities with regard to the old Toronto jail are to enclose all but a small part of the building and make it a part of the industrial farm system. Provision for the accommodation of women would be made at Court street police station, and the staff of guards would be reduced and the governor and deputy governor pensioned. These proposals will be submitted to Provincial Secretary McPherson early next week.

Sixteen parcels of land were sold by Auctioneer C. M. Henderson at the city tax sale yesterday, and they realized a total of \$1,251. Part of a lot on Albert street, assessed at \$1,500, sold for \$400.

**A GREAT PIANIST.**

Boston is acknowledged to be among the best musical cities of the continent. Of Gulomar Novace, the brilliant Brazilian pianist, who will play at Massey's on Feb. 20th, The Christian Science Monitor of Boston says: "She is in any particular that capacity for feathery runs; she can make the piano protest and sing at the same time; she is finely equipped with energy; she has her hands equipped as have few pianists. A pianist may be left to hearse to name, or be at a loss to name, that quality in addition to these which makes them anxious to listen to her, no matter what it is she is playing."

And The Daily Telegraph has this to say: "There is so much of real charm and unaffected grace in her playing, such refinement of the ear, and that is inborn and cannot be taught, that one hardly ever pauses to think of the technique that is behind it. Her sensitive feeling and the flawless refinement of her style were beyond praise."

**CHRISTINA WATSON FOUND.**

Missing from her home at 132 East-ern avenue since last Friday, Christina Watson, 15 years of age, was located yesterday morning over a downtown theatre taking care of a children. She was employed under a fictitious name, and had told her employers that her father was dead and her mother a cripple.

The police have also been asked to try and locate Jessie Campbell, aged 25, who has been missing from her home at 315 Spadina avenue for few days. Mrs. Anne Weber, 131 John street, and J. B. Running, 237 Delaware avenue, have also disappeared from their respective homes.

**WILL INVESTIGATE FIRE.**

Deputy Fire Marshal G. F. Lewis will today investigate the fire which damaged the Channell Chemical Company's works at 369 Scarce-avenue. Evidence will be given regarding the fireproof windows which hindered the entrance of the firemen.

**SETTLE FOR DAMAGES.**

Harry Thompson appeared in the police court yesterday on a charge of stealing a motor car from Jenny Gault. Fletcher Kerr, appearing for Thompson, promised that his client would settle for all damage done to the machine.

Cheerful Sparrows and Others Send Along Contributions to Swell the Total.

Yesterday's contributions to the Marguerite Clarke Fund were not numerous, but they were sympathetic and given with just the spirit that shows the donors were happy in the consciousness that they were helping one so much less fortunate than themselves. The little blind girl who lost her sight in such a sad way will surely benefit by such goodness.

The "cheerful sparrows" sent in what was evidently a collection made among the workers of some firm. They want no recognition except to have a share in helping.

**BOARD INCLINED TO ORDER CARS**

Let Street Railway and City Do Best to Procure Supplies.

**EVIDENCE LIMITED**

D. M. McIntyre Rules Out Testimony at Present on Industrial Situation.

"Is the Toronto Street Railway living up to its unconditional agreement to furnish Toronto public with transportation?" If not how many additional cars is it the Ontario Railway Board's duty to order? "These are the questions to which the inquiry will be limited," said Chairman McIntyre yesterday, at the enquiry on the city's application for an order that the company should put on 100 more cars in both this and next year.

Consequently the chairman ruled out for the present the company's possibility to get the steel for more cars now, and that even if it could get the steel, it could not get the men to run the cars. The evidence that would convince him along those lines was, said he, testimony that the company had tried conscientiously to fulfill such an order from the board, and had failed, even with the aid of Provincial Commissioner Harris' department. The case was adjourned until Wednesday afternoon at 2.30 o'clock.

**Short of Workers.**

J. W. Bain, K.C., counsel for the railway company, brought Walter McRae, master mechanic of the company to show that delay in filling the orders placed by the company was responsible for the delay in fulfilling the board's previous order for 50 new cars, 28 of which, after two years are in operation. He had not 5 per cent. left of the men in his employ at the beginning of the war, he said. Some had enlisted and some had left for the attractive wages made by munition workers on piece work. The car parts ordered from the American General Electric Company would not be here until the first quarter of 1918, and perhaps not then. They hoped to put out only one car a month from the fall of this year. No men, physically fit, were turned away from that part of the company's employment bureau with which he had to do, said he. Michael Powers, master car builder to the company, gave evidence along the same lines.

Mr. Bain protested that iron and steel could not be procured. Mr. Harris said he knew it was being procured. Mr. McIntyre remarked that steel was being secured for the "mystery block."

**Will Order Cars.**

Mr. McIntyre said the board would order as many cars as were required. They might, as reasonable men, relax the order later if the company brought convincing evidence that in good faith they had done their best to place orders for the component parts and had failed to get them in the time to be specified. He thought the city should assist the company in doing this. Mr. Harris promised this for the city without reservation. Mr. Bain then sought permission to show that the company could not get the necessary labor. "Have you any difficulty in getting all the men you require?" asked Mr. McIntyre of Mr. Harris, who replied: "None whatever. We have a long waiting list."

Returning to the question of overcrowding, Vice-Chairman Ingram said it was "rather acute."

Mr. Chairman then ruled "no evidence of industrial conditions will be admissible now, but evidence will be taken on overcrowding as indicated by financial figures and counts of passengers carried."

The writer does not specify whether he will undertake the work in the morning or evening, and altho the authorities are inclined to look on the notes as the work of a joker, probably a boy, extra precautions are being taken to prevent any chance of an outrage being perpetrated.

**LECTURE ON AVIATION.**

The establishment of a wing of the Royal Flying Corps in Canada is evincing much interest and Lieut.-Col. Hoare, the officer in command, will deliver an address on "The Object of Forming a Royal Flying Corps Wing in Canada" at a meeting of the Aero Club of Canada to be held on Monday evening, Feb. 12, at 8 o'clock in the physics building of the university. J. Patterson, physicist to the meteorological service in Canada, will also give a paper on "How the Meteorologist Can Aid the Aviator." This will be a fine opportunity for those interested in aviation to learn what is developing in Canada in this connection.

### Chaplains' Splendid Services

Ottawa, Feb. 8.—Writing on the work of the Canadian chaplains in France, Capt. Charles G. D. Roberts sends the following to the minister of militia:

The work of the Canadian chaplain service has been so successful, so rich in results, and conducted along such broadly humane lines, that it is impossible to do it anything approaching justice within the space of a newspaper article. Only when the full story of it comes to be written will it appear for what it truly is—a thing on which Canada may not less pride herself than on the splendid achievements of her sons in the fighting services.

There are few things more futile than an attempt to raise a noble structure without preparing for it a sound foundation. The soaring spire of Campanile must have the broad and stable base. The chaplain service

in France of the Canadian army is a spiritual edifice built upon the foundation of a minute and thorough organization so practical in its working that it has resulted in an immense extension of the chaplain's field of usefulness, and its success has led to a considerable increase in the chaplains' establishment throughout the British expeditionary force in France.

**Practical Efficiency.**

On such a foundation of practical efficiency it is that our "padres" (every chaplain, whatever his creed, is affectionately and familiarly dubbed a "padre") have based the more spiritual element of their labors. The cement of the whole structure has been a unity of purpose and a harmony in effort which are a constant influence for good among our men, and which may well serve as an example to the churches at large.

This unity and this harmony, it is to

be observed, are maintained among our padres without any sacrifice of their particular principles or doctrines or dogmas, as may be, on which each communion bases its distinction from the rest. The representatives of each church or creed are supreme within their own fold. The organization of the Canadian chaplain service is a whole guards the interests of each communion; and guards them impartially. I have seen an energetic young Jewish rabbi coming to a canon of the Church of England for assistance to enable him most effectively to minister to his scattered Hebrew flock. All rivalries are strictly eliminated, except the high rivalry in zeal, self-sacrifice and courage.

The representations of the different churches upon the establishment of the C. C. S. is strictly proportionate to the strength of their membership among the troops. That church, whichever it may be, which sends the smallest number of its adherents into the field, naturally requires the smallest representation among the padres. Any form of sectarian propaganda is firmly ruled out, for the whole spirit of the ad-

ministration of the C. C. S. requires each padre to be as jealous for the rights of his colleagues as for his own. In all matters that do not touch the special concern of their own communion the padres work together in the most loyal and hearty cooperation. In their deliberations there is Wesleyan nor Anglican, neither Roman Catholic nor Presbyterian, but only a zealous brotherhood, united in effort for the spiritual and bodily welfare of our Canadian soldiers in the field. To say so much may well sound like an exaggeration, like the expression of a dream rather than the statement of a reality, but from all that I have been able to observe it would be less than able to say less. It is probably owing to this spirit of harmony, more than to anything else, that the influence of the padres is so strong and vital throughout the Canadian force.

**Attend to Material Needs.**

It is not by any means, to matters spiritual alone that the busiest energies of the C. C. S. are devoted. The service looks after the comfort, recreation and entertainment of the troops, by means of a highly organized system of soldiers' institutes, canteens and cinema shows, which keep them out of mischief or boredom during the periods when they come back from the trenches to the rest camps. This system is run on strictly business principles, but on a merely nominal margin of profit on the accounts are officially audited by the paymaster's department. As a result, as is the margin, it yields a handsome profit, which is returned to the men again in whatever form may seem to be most needed. No small part of it goes to the provision of free coffee, hot coffee, at all hours of day or night, for the men who are entering or leaving the trenches.

**Near Front Trench.**

The coffee stalls are situated for the most part close up behind the front lines, in a position of imminent peril, under frequent and often continual shell fire. They are served with a cool courage and devotion which are ceaselessly adding new point to the old phrase of "the church militant." When the soldier stumbles back from his trench, soaked in blood, ready to drop from the long strain of his turn behind the crumbling parapet, by the fitful illumination of star shell and the flashes of machine guns, he finds the little coffee stall awaiting him with its warm welcome. The big tin of steaming drink is a godsend to his spent body. No less a godsend it is to his tired spirit to find that those who do not have to share his fighting are there close at hand, ready to share his needs that they may minister to his needs.

**When Battle is On.**

But it is when a battle is on that the "church militant" peculiarly justifies its title. Just where the wounded and dead are falling, there you will find the padres. They are by no means confining themselves to their spiritual functions. They are helping and inspiring the stretcher-bearers, the ambulance men, the surgeons. Their activities are limited only by the needs of the situation. For instance, during the second battle of Ypres, the padres in different quarters of the battlefield organized voluntary stretcher-bearer parties, guided them up into No Man's Land and worked with them night after night in finding and bringing out the wounded. In this task one of the padres was taken prisoner at the Somme, too, one of the padres organized a rescue party, led it up under deadly shell fire and brought back ten wounded men who had been lying in a trench for four days. The trench was one cut off from our lines and occupied in part by the Germans. Another of our padres was wounded while rescuing an Australian wounded at Moquet Farm.

**Individual Heroism.**

It would be contrary to the whole self-sacrificing spirit of the C.C.S. to single out by name any of those who have distinguished themselves by deeds of individual heroism. In some cases such achievements have received official recognition. In other cases they have escaped it, but such recognition. Suffice it to say that three C.M.G.'s and five military crosses have been awarded among the padres who many more such honors have been amply deserved. It is significant to note that of the thirty padres who left Canada with our first contingent in September, 1914, there are now only nine remaining in the field.

**HOME AND SCHOOL COUNCIL.**

The public meeting which is to be held at Toronto Home and School Council on Monday evening in the Technical School is an attempt to interest a larger number of parents in this movement and the great educational opportunities which exist for boys and girls in Toronto. Principal Mackay will conduct visitors over the building.

**SIX MONTHS' SENTENCE.**

Claiming to be a returned soldier, discharged on account of tuberculosis (Grenville Road, Seattle, U. S. A.), came up in the police court yesterday on a blanket charge of stealing money from various schools in the city. In all, he visited 29 schools, and stole about \$40 from the principals' desks. He was sentenced to six months on the jail farm on two charges, the sentences to run concurrently.

### ESTIMATED U. S. ENTRY WOULD SHORTEN WAR

#### Earl Kitchener Opposed Hostile References to Attitude of America.

London, Feb. 9.—Discussing the prospects of the U. S. entering the war, The Saturday Review says:  
"Two years ago Lord Kitchener, then as now he has no harm in stating, believed that if only America were to join the allies the effect would be to shorten considerably his estimate that the war would last three years. He, therefore, considered hostile references to the attitude of America."  
Continuing, The Saturday Review thinks that the U. S. would be chiefly of value in furnishing ships, food and money. As regards an army, it comments, she is late on the scene, but if she once undertook to send an army she would set about making soldiers as she sets about making money, and Europe would see Wilson armies, Root armies and Roosevelt armies.

### LONDON WEEKLY HAILS UNITED STATES ACTION

#### Nation Says Germany Cannot Fight U. S. Brains and Money.

London, Feb. 9.—The weekly Nation devotes two leaders to American affairs and it says that the action of the U. S. is one of the two great events of the war, the other being England's full entry into continental affairs.  
Unless Germany's assumption is that by June she will cut off the maritime commerce of the world from these islands, and thus sever the main arteries of the entente, then she must realize that she cannot win. She cannot fight America's brain and money arm and numbers, and America's organized industry, which stands out as the chief rival of the German cartel.  
The Nation considers it unlikely that the U. S. should declare war on Germany, would adhere to the London pact, by which the entente countries agreed not to make a separate peace, and it is also unlikely that she would adopt the Paris economic agreement among the allies.  
The Nation pays a tribute to President Wilson.

## BRITISH IMPROVE ANCRE POSITION

### Make Advances Over Frozen Ground in Moon-light.

BRIEF FIGHTS AT FARM  
German Troops Begin to Hear of American Intervention.

With the British Armies in France, Feb. 9.—The recent night fighting in the Ancre sector, and across the frozen snow, in a temperature near zero, has carried the British lines well forward on both sides of the Ancre in the direction of Miraumont, one part of the operations being the occupation of Grandcourt, which was officially announced Wednesday night.

For some time the British have been gradually improving their position in the Ancre sector, but the latest and most important phase began on Saturday night when, under a moon almost too brilliant for their purpose, the British troops swept forward five hundred yards over a frozen top of three-quarters of a mile, taking 200 prisoners. This was north of the river, and since then the pressure has been from the south.

On Tuesday night the British occupied a long section of a trench just west of Grandcourt, and on Wednesday night German troops were seen to retreat from the trench which they had captured at Miraumont after abandoning many gun positions. This was due to the fact that the British had reached a position where their guns could rake Grandcourt from three sides. Still pressing forward, on the north German troops took Bailecourt farm yesterday after a brief resistance.

British staff officers pointed out the significance of these latter advances in view of the German official statement of Tuesday, which claimed the recapture of trenches occupied on Saturday. These officers say that the subsequent events are the best proof that the German position is untruthful. Grandcourt was badly smashed, but bits of walls still standing distinguish it from some of the other villages which were completely destroyed and razed to the ground. German stores of provisions were found in the village and the British Tommies did today on German ridges.

Messages received from the diplomatic relations between the United States and Germany have just reached the German soldiers in the front line trenches, according to the statement. The British staff officers pointed out the significance of these latter advances in view of the German official statement of Tuesday, which claimed the recapture of trenches occupied on Saturday. These officers say that the subsequent events are the best proof that the German position is untruthful. Grandcourt was badly smashed, but bits of walls still standing distinguish it from some of the other villages which were completely destroyed and razed to the ground. ## TORONTO MAN GETS COAL BY EXPRESS

### "For God's Sake Send Me Some Coal," He Wired Kingston.

Special to The Toronto World.  
Kingston, Ont., Feb. 9.—This city has no coal famine as yet and will likely have enough coal to run through the remainder of the winter. Coal schooners running between here and Oswego and Charlotte, N. Y., all summer stock up the dealers. However the coal men are not selling out to customers in large quantities in order to prevent cutting off of regular customers of their supply if the coal should be an extra heavy demand. A resident of Toronto, who was left without a pound of coal and found it impossible to get any, had a ton sent to him by express from a Kingston coal merchant, but paid dearly for it. "For God's sake send me some coal," he wired to the coal dealer. The coal was sent to Toronto by express, and in addition to the price of the coal, \$2.25, the man had to pay for the express charges, amounting to \$10.

# "Anaemia--Lack of Iron--Is Greatest Curse To Health and Beauty of American Women"

Says Dr. King, Physician and Author  
Any Woman Who Tires Easily, is Nervous or Irritable, or Looks Pale, Haggard and Worn, Should Have Her Blood Examined for Iron Deficiency.  
Administration of Nuxated Iron Will Increase the Strength and Endurance of Weak, Nervous, Careworn Women 200 Per Cent in Two Weeks' Time in Many Instances.

## THE CHILD'S APPEAL

"As I have said a hundred times over, organic iron is the greatest strength-builder for people would only throw away habit-forming drugs and nauseous concoctions and take simple nuxated iron. I am convinced that the lives of thousands of persons might be saved who now die every year from pneumonia, grippe, consumption, kidney, liver, heart trouble, etc. The real and true cause which started their disease was nothing more nor less than a weakened condition brought on by a lack of iron in the blood."  
"On account of the peculiar nature of woman, and the great drain placed upon her system at certain periods, she requires far much more than man to help make up for the loss."  
"Iron is absolutely necessary to enable your blood to change food into living tissue. Without it, no matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale and sickly looking. Just like a plant trying to grow in a soil deficient in iron. If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were all along all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without obtaining any benefit. I don't take this as a boast, but as a fact. I have seen scores of forms of "real" iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in her blood is not iron, but iron in a form that can be easily absorbed and assimilated to you any good; otherwise it may prove worse than useless."  
"I have used Nuxated Iron widely in my own practice in most cases aggravated by iron, but in some cases it has induced many other physicians to give it a trial, all of whom have given me most surprising reports in regard to its power as a health and strength-builder. Many athletes and prize fighters have the secret of great strength and endurance, and this, after they had in some cases been doctoring for months without obtaining any benefit. I don't take this as a boast, but as a fact. I have seen scores of forms of "real" iron, iron acetate, or tincture of iron simply to save a few cents. The iron demanded by Mother Nature for the red coloring matter in her blood is not iron, but iron in a form that can be easily absorbed and assimilated to you any good; otherwise it may prove worse than useless."

"You can tell the women with plenty of iron in their blood-beautiful healthy rosy cheeked women full of life, vim and vitality"

Orlean, Formerly Avellaneda, Manned and Officered by Americans, Carries Contraband!  
New York, Feb. 9.—The Associated Press announces that the first American ship to clear for the "barred coast" since the unrecognized blockade was lifted, the "Orlean," formerly "Avellaneda," manned and officered by Americans, carries contraband.

## INDIANA TO GO DRY.

### Strict Measure Goes Into Effect Next Year.

Indianapolis, Feb. 9.—Gov. James P. Goodrich today signed the state-wide prohibition bill, which will go into effect on and after April 1, 1918. The law prohibits the sale, manufacture, giving away or advertisement of all alcoholic liquors, except pure grain alcohol for chemical and medicinal purposes and wine for sacramental uses. Supporters of the bill say it is one of the most stringent prohibition measures enacted in any state. Motion pictures were taken of the governor as he signed the bill.

Mother, why don't you take NUXATED IRON and well and have nice rosy cheeks instead of being so nervous and irritable all the time and looking so haggard and old-The doctor gave some to Susie Smith's mother and she was worse off than you are and now she looks just fine.  
"There can be no healthy, beautiful, rosy-cheeked women without iron in their blood," says Dr. Ferdinand King, a New York physician and author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of women. I have strongly emphasized the fact that doctors should prescribe more organic iron - nuxated iron - for their nervous, run-down, weak, haggard-looking women patients. Pallor means anaemia. The skin of an anaemic woman is pale, the capillaries of the muscles lack tone, the brain flags and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses of their cheeks."  
"In the most common foods of America - the starches, sugars, table bread, soda crackers, biscuits, farina, spaghetti, tapioca, sago, farina, degenerated cornmeal, no longer is iron to be found. Refining processes have removed the iron of Mother Earth from these impoverished foods and silly methods of home cooking, by throwing down the waste pipe the water in which our vegetables are cooked, are responsible for another grave iron loss. Therefore, if you wish to preserve youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron - just as you would use salt when your food."

Dr. Ferdinand King, New York physician and author, tells physicians that they should prescribe more organic iron - Nuxated Iron - for their patients - Says anaemia - iron deficiency - is the greatest curse to the health, strength, vitality and beauty of the modern American Women. - Sounds warning against use of metallic iron which may injure the teeth, corrode the stomach and do far more harm than good. - Advises use of only nuxated iron.

NOTE - Nuxated Iron, which is prescribed and recommended above by physicians in such a great variety of cases, but one which is well known to drug stores and chemists, is a form of iron widely prescribed by iron constitutions are both in Europe and America. Unlike the other iron salts, it does not irritate the stomach, does not injure the teeth, and does not corrode the stomach. It is a remedy in nearly all forms of indigestion, and is especially useful in cases where the iron constitutions are both in Europe and America. Unlike the other iron salts, it does not irritate the stomach, does not injure the teeth, and does not corrode the stomach. It is a remedy in nearly all forms of indigestion, and is especially useful in cases where the iron constitutions are both in Europe and America.
