Province Wide Campaign Within Next Ten Days to Bring Action by Local Government

If you were not taxed today it was hardly the fault of the energetic committee of women and girls, aggregating at least 200, who were laboring in the interests of the Playgrounds' Association today seeking to raise money for the worthy object by the sale of violets. There is every reason to believe that their efforts were distinctly successful, and that "Violet Day" will prove entirely satisfactory to the committee. The campaign was established in the handsome home of the Knights of Columbus. There the committees met this morning and with excellent weather to encourage their efforts all were soon busily engaged in different sections of the city. There were many good-sized donations, the excellent parade of children conducted in the interests of Violet Day on Thursday, appreciation should be made of the aid given by Commissioner McLellan and Postmaster Sears in helping in the arrangements; also the Sons of England Band which led the procession.

LUDLOW STREET CHURCH SEVENTY FOUR YEARS OLD

A Resume Of The Years Of Activity in West End

NAMES OF PASTORS RECALLED

The Names of the 29 Original Members—Rev. Mr. Robinson, Present Pastor, Has Led Church Since 1908—Four From Membership Became Ministers. Ludlow street United Baptist church, West St. John, is at the 74th anniversary of its organization. The life of a church for half a century presents a variety of interesting and instructive features. There are century lives and fragrant memories within the scope of seventy-four years that afford needed inspiration. A brief outline of the church's history is here presented. Ludlow street United Baptist church (then known as the Carleton Baptist church) was organized on the evening of May 16, 1841, with a membership of twenty-nine and had for its first deacons, John Christopher and William Colwell, while T. O. Heatley served as the first clerk and treasurer. These three held office until their death, and their passing was sorely missed. Rev. Samuel Robinson of sainted memory and at the time pastor of the German street Baptist church, was largely responsible for the organization of this, the second oldest church of the Baptist denomination in the city. He attended to the spiritual needs of the people for nearly two years. (Continued on page 8, third column.)

Great French Drive Sends Germans Back Five To Fifteen Miles

Joffre Strikes Hard Against Enemy Troops Defending St. Mihiel-Metz Lines of Communication—Rain Again Fills The Trenches

Paris, April 3.—Now that the Germans have lost practically all of the fortified area that they held in the Champagne district, the French are increasing their pressure against the German position in the Woivre region, between the Meuse and the Moselle Rivers. Supported by many batteries of 75-millimetre guns, and considerable ordnance of heavier calibre, the French infantry is driving hard against the German troops defending the St. Mihiel-Metz lines of communications. In the forest of Leprette there has been much severe fighting for the possession of block houses. In the Champagne region the attacks of the French have pushed back the German lines from five to fifteen miles. At some points, the French artillery is within range of the Basancourt-Challerange railway, over which most of the supplies were transported that have fed the German army north of Rheims. The recrudescence of aerial activity continues on both sides, with the preponderance of successes on the side of the allies. Reports from various parts of the battlefield say that Germans have lost at least seven aeroplanes during the last thirty-six hours. Another spell of wet weather has set in over a large section of the battle front, hampering operations. In West Flanders, there has been a heavy fall of rain, filling some of the trenches to the brim.

Much Hard Fighting Before Allies Are Through Straits

London, April 3.—A Times despatch from Mytilene, dated Thursday, says:—"Except for a few shots on the 28th, and the reported bombardment of Turkish positions near the Gulf of Saros, by the Queen Elizabeth, there has been no fighting recently in the Dardanelles region. The British public will have to exercise patience and be prepared to accept heavy losses with equanimity. The Turks and Germans have had time to strengthen greatly the positions on both sides of the straits. They have a fair supply of artillery, mounted in excellent positions, which the allies' naval guns cannot always reach. The Turk shows at his best in defensive operations and much hard fighting may be expected."

BENEFIT OF ST. JOHN AMBULANCE ASSOCIATION BASE HOSPITAL IN FRANCE Next Tuesday evening, April 6, in Centenary church, the united Methodist choir of the city will give a grand Easter musical service, the proceeds of which will be given to the St. John Ambulance Association, to assist that organization in its efforts to secure a motor for Lieut.-Col. Dr. Murray MacLaren's base hospital in France. Several sittings by the best composers will be sung by a large chorus, and the programme will include solos, duets, trios, etc., by some of the city's best singers. A silver collection will be taken, and as the object is a most worthy one the church should be crowded.

MORE THAN 5000 HORSES SHIPPED FROM PORTLAND Portland, April 3.—More than 5,100 horses have been shipped through this port for the armies of England and France since Dec. 1. They came from the ranches of Texas and other western states.

BANGOR ADOPTS COMMISSION PLAN The Maine legislature has approved a charter giving the City of Bangor the commission form of government.

WESTERN STRIKE ENDED Vancouver, B. C., April 3.—Most of the points in dispute between the longshoremen and the shipping companies have been settled, and the strike may be looked upon as over. The men will return to work not later than Tuesday.

TWENTY-ONE DEATHS Twenty-one burial permits were issued by the Board of Health during the week. The causes of death were:—Pneumonia, three; phthisis, two; senility, two; uraemia, myocarditis, diabetes, apoplexy, meningitis, inanition, premature birth, general peritonitis, acute stenosis, bronchitis, pneumonia, congestion of lungs, tubercular peritonitis, cerebral spinal meningitis, and extra uterine gestation, one each.

A few of the point facts that cannot be overlooked by Contractors and Builders:

The cost of the raw material and labor entering into a Tar and Gravel Roof, has steadily increased the last three years, and naturally one would look for advance in price in this class of Roofing. No advance has been made by us, using the same quality and grade of material and workmanship as previously, we lay a Tar and Gravel Roof 10% cheaper and this in spite of the war, and expect the present prices to stay in force for some time to come. These fair prices are due to volume of business, and being satisfied with a small margin of profit. This should go a long way towards your favoring us with your next order.

## A Monthly Income For Your Widow

A new privilege applicable to all Imperial Life policies permits the assured to specify that the proceeds of his insurance shall, on maturity be payable in monthly, quarterly, half-yearly or yearly instalments for 20 years certain, and so long thereafter as the beneficiary named shall live.

While in the calculation of the instalments a definite rate of interest is guaranteed, such payments in the case of participating policies will be increased by sharing in the interest which the Company earns in excess of this guaranteed rate.

Therefore, by means of an Imperial policy you can provide a definite, dependable, regular income to care for your widow as long as she lives, and for your children until all of them are at least old enough to be self-supporting.

But this is only one of the many advantages of this valuable new privilege. Many others are explained in our booklet "Safeguard Your Legacy." Write for a copy to-day. It's very interesting, and—it's free.

## URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid, which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weak, then you suffer with a dull misery in the kidney region, sharp pains in the back, or sick headache, dizziness, your stomach sour, tongue is coated, and when the weather is hot you feel automatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste, get four ounces of Jad Salts from any pharmacy here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

POTATO FLOUR  
The bureau in Washington is experimenting with combinations of potato flour and wheat flour in bread-making. The most satisfactory loaves are those that contain thirty per cent or less of potato flour. The bread, so made, retains its moisture and freshness and is appealing in flavor. American housekeepers have long used some potato flour in bread-making, principally for the reason that the loaf retains its moisture and freshness longer than if made wholly of wheat flour. Potato flour is far superior to wheat flour for making sponge cakes and puddings. Ask your grocer for Dearborn's Old Homestead Potato Flour. Made in Canada. Receipt on every package. 4-7

Before leaving Barris, Ont., to become manager of the Union Bank of Canada in St. John, E. T. Short was the guest of honor at a function given by the Barris Club and the Barris Golf Club. He received a case of pills presented on behalf of both clubs. He has been captain of the golf club ever since it was formed, president of the Barris Patriotic Fund, secretary-treasurer of the Barris Club, vice-president of the board of trade and a member of Trinity church choir.

## THE EMPIRE Is the only TYPEWRITER Made in Canada

When you buy an "Empire" Typewriter, the money stays in Canada—pays Canadian wages—is spent in Canadian stores—helps to maintain Canada's prosperity.

When you buy any other machine, the money goes out of the country. Neither Canadian workmen nor tradesmen are benefited by it.

The "Empire" is the simplest, sturdiest, most enduring typewriter made. It will do work at least equal to that of any other machine and keep it up longer, at lower upkeep cost. Yes "Empire" No. 1 costs but \$50—"Empire" No. 2 \$60—from \$40 to \$60 Give the "Empire" fair consideration because it is "Made in Canada"—choose it because IT PAYS. 13

The Evening Times and Star

ST. JOHN, N. B., APRIL 3, 1915.

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening Sunday excepted by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE WAR NEWS

The general outlook from the standpoint of the Allies grows more encouraging from week to week. The heaviest of the fighting continues to take place on the eastern frontier, where the tremendous pressure of the steadily growing Russian armies is gradually breaking down the defence of the Germans and Austrians.

unhappy city from the awful situation into which it has been plunged they are themselves, and we all know that a city council composed of the gentlemen who formed the delegations would make St. John a model city if the task were committed to its hands.

A LOST CAUSE

A friend in the United States has sent The Times a copy of an interesting circular which is being distributed in the United States. It relates to a "German information service" which is supplied from New York. It is a daily news sheet containing war news, and is commended to "all those who believe in justice and fair play."

The official British observer with the French army says that two facts have been established by the operations of recent weeks. One is that the German front can be pierced, and that a serious attack on one point affects the enemy's plans and fighting power at other points, forcing them to withdraw men to meet the attack in force.

The German government has sent a protest to Great Britain and a threat of reprisals if the captured crews of German submarines are not as well treated by the British as other war prisoners.

The flying squadrons of the British and French have been doing splendid work of late, and appear to be greatly superior to those of Germany in their power to inflict damage upon the points of attack.

THE REFORMERS.

A distinguished group of civic reformers appeared before the legislature at Fredericton on Thursday with a petition said to bear some twelve hundred names, and gravely asked the legislature to give the disappointed and sadly dejected people of St. John an opportunity to depose the car and go back to the ward boss.

The Germans in France and Belgium appear to be especially anxious to destroy churches. The religion of "kultur" has no use for edifices of this sort.

There is much interest in the action to be taken by the United States in connection with the death of an American citizen on a vessel torpedoed by a German submarine.

The Canadian artillery is praised for its splendid work at the front. Every branch of the Canadian service has acquitted itself nobly under the test of actual warfare.

If those who supported the tax exemption bill at Fredericton this week claimed to represent eight thousand voters, they assumed far too much. There is no evidence that they represent any such number.

The Times prints today the 1922 names signed to the petition in favor of the return to the ward system of city government. A careful scrutiny of the list fails to reveal the names of any large number of persons who have contributed ably in the past to the task of civic reform.

For an hour on Thursday afternoon the boys and girls of St. John came into their own. They marched through the streets of the city without fear of street cars, automobiles, delivery trucks or even policemen.

MOTHERS PRAISE BABY'S OWN TABLETS

Mrs. S. E. Laurie, Grafton, Ont., writes: "I have used Baby's Own Tablets ever since my baby was two weeks old and would not be without them as I consider them the best medicine in the world for little ones."

A marked increase in the population of the various state prisons, reformatories, penitentiaries, county jails and New York City institutions reporting to the State Commission of Prisons for the year ended Sept. 30, 1914, is shown in statistics collected by the commission.

"Pa, would you be glad if I saved you a dollar?"  
"I certainly would, my son."  
"Well, you remember you promised if I brought a good report from my teacher you'd give me a dollar, and I didn't?"

She was leaving the city for home, and by way of making her departure pleasant for those who had served her gave a nickel to a chambermaid, saying: "Mary, you take a nice, long car ride." To which the maid replied: "Yes, ma'am; thank you, ma'am, but how will I get back?"

A young officer rather new to his work was drilling a squad of recruits and gave the word of command: "Lift the right leg." One of the soldiers by mistake raised his left leg, so that it joined closely to the right leg of his neighbor.

"Good gracious," exclaimed the astonished officer, "that fool has lifted both legs!"

"I say, is this here the novel you advised me to read?" said the cabman to the librarian.

"Yes," replied the librarian, "that's the one."  
"Well," said the cabman, "you can just take it back. There's nine people in the first chapters who hired cabs, and each one of 'em who got out of flung his purse to the driver. Now, when I want that sort of literature, I'll go to Jools Verne and get it pure."

An amusing incident took place in one of the most splendid of the Eastern hotels. A Southern gentleman, formerly a member of the cabinet, was a patron of the hotel and, preferring not to dine in his own room, with all the elegance for which the establishment is noted. Being somewhat annoyed with the ails of the servant who waited on him he desired him one day at dinner to retire. The Negro bowed and took his stand directly behind the gentleman's chair. Supposing him gone, it was with some impatience that a few minutes after the gentleman saw him step forward to remove the soup.

"Fellow," he said, "leave the room I wish to be alone."  
"Excuse me," said Jasper, drawing himself up stiffly, "but I am responsible for the silver!"

Diamond's Peculiar Position

The South African Diamond Mines are closed. The cutting and polishing industry of Antwerp is ruined. The only other centre of the kind, Amsterdam, is little better off.

At present there are no Diamonds being put on the market. The controlling syndicate is holding their surplus stock.

The Canadian government has recently levied a war tax of 7% per cent.

Diamonds must just naturally go much higher. The American continent, which is being bedeviled by the war, buys about 70 per cent of the world's output.

We have a beautifully selected stock of this kind of gem. Our prices have not been changed. They are the lowest in the land.

Hints for the Cook Light Omelet Take as many eggs as you wish to use, beat whites and yolks separately. Beat whites very stiff, beat yolks and add milk to yolks, a scant tablespoon for every egg used. Beat milk and yolks a little, then pour whites over yolks and just fold or mix carefully together. Don't beat. Heat spider, put in small pieces of butter only enough to keep omelet from sticking to pan. Run knife around edge to loosen, and when it is brown underneath, set spider in oven minute or two to dry off top, then fold over and serve at once. Fillings for Cream Cakes Apple cream cake filling—One grated sour apple, white of 1 egg and 1 cup powdered sugar. Beat 15 minutes and flavor to taste. Orange cream cake filling—Juice of 1 orange, confectioner's sugar added till of right consistency to spread. Stir till smooth and cream-like. One teaspoonful of yolk of egg can be added if liked. Sour cream cake filling—One pint sour cream and one full cup light brown sugar. Simmer 20 minutes, when cool add one cup nut meats (chopped) and flavor with vanilla. Rice With Sauce Wash two cupfuls of rice and put in a dish suitable for the oven. Cover with about three pints of water in which salt to taste has been well dissolved. Bake until soft and do not stir while cooking. If the water cooks away too fast a little hot water may be added. Be-

GIRL PROVED A SPY. Handed a Letter in France to Suspicious Officer. Paris, March 19.—(Correspondence)—The following story of a pretty girl and a susceptible officer, which ended in the discovery of a system of espionage, is published here: An officer on his line, about to take the train to rejoin his regiment, was accosted by a pretty girl who blushing asked if he would post a letter for her at Paris, so it would arrive more quickly at its destination. "In writing to my sweetheart," she explained. The officer promised to render this little service. The girl in a burst of gratitude threw her arms about his neck and kissed him. "I have your word," she cried after him as the train started, "you'll post it at Paris this evening." Before reaching Paris the officer had time to reflect upon some of the curious circumstances of the affair. He pulled the letter out of his pocket and found the address read: "Mme X—". Then he recalled that the girl had told him she was writing to her sweetheart. "Mme X—" in that case could only be an intermediary. He reasoned that the peculiar circumstances justified him in looking into the letter. He opened it and read: "My dear friend—Contrary to the information I have already given you, my aunt Jane will be at Z— with her baggage on the 2nd. You know that my relation still has a great deal of baggage. I think that she will arrive during the night." The officer needed no more, but carried the letter to the intelligence headquarters, where it was figured out that this letter reported the arrival of important French reinforcements at a critical point on the battle front.

Lent's gone! \* \* \*

How do those various good resolutions look? \* \* \*

Close the season well by buying a bunch of violets. \* \* \*

Or if you feel that you can do so, close it better by buying more than one. \* \* \*

New boots often are noisy but few have been responsible for as much noise as those issued to the Canadian soldiers. \* \* \*

Is It Ice Cream By This Time? \* \* \*

New note says that police "secured a quantity of ice cream when dealers here started selling it a month ago, on Sundays." Good, the explanation that "it is to be used as evidence" was made, otherwise keeping it so long might be taken as a violation of the Pure Food Act. \* \* \*

That Petition! \* \* \*

After having read over the list of names signed to the petition for the return of the aldermanic system, how many had you ever heard of before? \* \* \*

One name on the list is "E. Alderman"—Plain to be seen why he signed it. \* \* \*

On Thursday afternoon a good-sized house was moved down Main street by the slow process of "log-rolling." People stopped and stared; traffic was blocked; it was no easy task—but didn't the fellow who owned the house show a new wrinkle for moving day—even though it was not April first. \* \* \*

What They Fling at the Man in the Street: \* \* \*

"Is that all you can do on the paper?"

"Well, don't you wish it was?"

"I'm going on a fishing trip next month—when I come back I wish you'd give me a 'write'."

"Suppose you know all the cops by their first names, don't you?"

"Not even the last names! Well, such is fame!"

"If they stayed on longer I suppose you would, eh?"

**ADDRESS ON THE WAR.**

At the annual Good Friday gathering in Main street church last evening, attended by about 600 members of the church and congregation, the pastor, Rev. Dr. Hutchinson gave an enlightening and attractive address on "Europe and the War." It was illustrated by more than 100 views from a reflectoscope by E. L. Jack. The speaker assured his audience that while he intended taking them on a "trans-Atlantic" voyage to countries now embroiled in war, they need fear no submarines en route nor mal-de-mor.

Dr. Hutchinson visited, in the course of his address, the different nations now engaged in fighting and as he dealt with each country views of it were thrown on the screen.

W. J. McArary was chairman, and at the close tendered Dr. Hutchinson the hearty thanks of the large gathering, moved by W. H. White, and seconded by L. H. Thorne. Included in the vote was an expression of gratitude to Mr. Jack.

**ACCIDENT**

William E. Craft, employe of W. A. Steiper, tinsmith, Mill street, met with a serious accident this morning. He was placing some galvanized pipe on a shelf when the step-ladder upon which he was standing, slipped and he fell among some iron. He also struck a pane of glass and sustained a deep gash on the side of the head besides having one of his ears badly lacerated. He was rendered unconscious. He was driven to his home and Dr. W. F. Roberts summoned.

Mc and Mrs. W. H. **DISCUSS EXTENSION OF STREET RAILWAY**

Manawagonish Road Line to Be Subject of Conference

Report to Lancaster Board of Trade—The Matter of Numbering Houses in Fairville—Mission Band at Home

The monthly meeting of the Lancaster Board of Trade was held on Thursday evening, President W. J. Linton in the chair. One of the principal items was the further discussion on the naming of streets and the numbering of the houses. F. V. Hamra, chairman of a committee appointed to interview the highway board, reported that he had conferred with Mr. Murdoch and secured further information; later met the highway board, and the whole question had been talked over. Mr. Stymest, the secretary, had thought this was beyond the jurisdiction of the highway board. Councilor O'Brien was of the opinion that roads and sidewalks should be looked after first. Councilor Golding favored the idea, and it was decided to leave the matter for the present in the hands of the board of management, which is composed of all the councilors.

As to way of raising the comparatively small amount to cover the expense involved, Mr. Hamra expressed himself in favor of assessment. George Maxwell said that a subscription list would be readily taken up and settle the bill much more easily and with little fuss.

President Linton again introduced the matter of street railway extension and the Manawagonish and cited the advantages and the necessity for this work to be attempted by the coming summer. In reply Wm. Stymest, secretary of the highway board, said he had met Mr. Hopper of the St. John Railway Co., recently and asked him if the board could meet him in the near future to discuss extension. Mr. Hopper agreed and they will be a conference.

Councilor O'Brien asked if the board of trade recommended any particular route. Mr. Stymest said that the land out the loop line on the right hand side of the road, connecting with the South Bay Road, was not available for building purposes, the property being owned by the City of St. John, and the Derwent estate. They were not offering lots on the road. Thus no inducement was offered the railway company to extend in that direction, as there was no immediate prospect of the section building up.

Daniel Campbell believed if this property was laid out enough the holders would be obliged to sell.

In answer to a question by the secretary as to whether he had any definite knowledge whether a start would soon be made to complete the new bridge across the falls, Mr. Stymest replied he had not received any information.

Councilor O'Brien understood the work would be resumed.

The Fairville Methodist Mission Band entertained their friends on Thursday evening in the church vestry and a very enjoyable time was spent. A short programme was carried out, games were played and an Easter offering, including refreshments were served by the young ladies to their guests.

**A Rabbit Proves Dandruff The True Cause of Hair Loss**

One of the earliest experiments following the discovery of the contagious nature of dandruff was by Doctor Sabouraud of the Pasteur Institute, Paris. This doctor inoculated a rabbit with human dandruff germs and the rabbit in time was completely dandruff free.

But what to us is of more direct interest—this experiment proved that dandruff kills the life and beauty of the hair and causes it to fall out.

**"How Shall I Know I Have Kidney Trouble?"**

Do just as every doctor does when he suspects that a patient has Kidney Trouble—EXAMINE YOUR URINE.

In the morning, see if the urine is highly colored—either reddish or deep orange. (Natural urine is a light straw color.) Notice if the color is strong or foul. If highly colored, or offensive in odor, your kidneys are certainly in need of attention—AT ONCE.

Get a box of GIN PILLS now, and take them regularly.

If you have a Pain In The Back—if the hands and feet swell—if you suffer with Rheumatism, Sciatica or Lumbago—if you have deposits of reddish matter like brick dust or mucus in the urine in the morning, you may be sure that your kidneys are not as strong as they should be, and need the help of GIN PILLS to be well.

Cookstown, Ont., Dec. 4th.

"A few years ago, I was a great sufferer from Rheumatism. I had frequent attacks of the pain in the back and the hands and feet. I had been told that I had kidney trouble, but I did not believe it. I had heard of GIN PILLS, and I bought a box. I took them as directed, and in a few days I felt much better. I continued to take them, and in a few weeks I was completely cured. I can now do all my work, and I feel as well as ever. I am sure that GIN PILLS are the best medicine for kidney trouble that I have ever used."

JOSEPH STEVENSON.

Don't put off this treatment. If your kidneys show any of the signs given above, you need GIN PILLS. To delay taking them is only inviting Bright's Disease, Stone in the Bladder, Chronic Rheumatism or some other terrible form of Kidney or Bladder Trouble.

Gin Pills are sold at all dealers—Do. a box, 6 for \$2.50. Gin Pills are "Made in Canada". Sold in U.S. under the name "GINO" Pills. Trial Treatment Free if you write

HOW IRELAND'S NEW HERO WON VICTORIA CROSS

Sergt. Michael O'Leary Famed in Song and Story

FORMERLY OF ROYAL MOUNTED

Captures German Machine Gun Single Handed, Killing Eight and Capturing Two Germans and Saving Many of His Company From Death

Arrah glory! Mike O'Leary, you're the grandest boy of all. Shure there's not a soul in Ireland, from Macroom to Donegal, for you did the job completely and you've spelt the Kaiser's doom; Arrah glory, Mike O'Leary, you're the pride of Innisfail.

We can boast of many heroes and the glory of our race. But the greatest deed performed now must take a second place, for you did the job completely and you've spelt the Kaiser's doom; Arrah glory, Mike O'Leary, Mike O'Leary of Macroom.

So, with more to the same effect, writes D. Carroll, H.M.S. Ajax, in the Cork Weekly Examiner, and his is but one of the many offerings of verse that adorn the pages of the prints of County Cork to a less degree, other parts of Ireland and even England.

For Ireland has a new hero, Sergt. Michael O'Leary, V.C. of the Irish Guards, who comes from Killybeg, near Inchigeela, in the barony of Ewey, County Cork, not far from the town of Macroom.

The reason for it is an exploit Feb. 1 last at Culchry, in the La Bassee district of France. When his company of the Guards was ordered to charge, he sped ahead of them, turned a German machine gun crew, and reaching a second barricade, shot three of the men and captured two, all this, too, without a scratch.

It was not the mere killing of the eight Germans that brought him the V.C., and his sergeantcy, though this "bag" counted large in the accounts of his exploit, but the fact that, by getting the gun crew before they had time to swing their piece around, he saved his company from severe loss and made it possible for them to win the enemy's position.

Now Framed in Story

So it comes that Michael O'Leary is now framed in story and song that his photographs and the photographs of his parents and of his little home on the hilly, boggy land of Coolen stare forth from the printed page, while in Macroom and Cork subscriptions are being collected and committees have been appointed for a testimonial to him.

O'Leary, only 24 years old now, is the son of Mr. and Mrs. Daniel O'Leary. The O'Learys were one of the fighting clans of old Ireland, and one poet has tried to trace Michael's descent to the "Axe" O'Leary, famous outlawed chieftain of Muskerry. But whatever his remote ancestry, Michael's father has been for a walk in the park and accompanied by two prisoners he had taken. He probably saved the life of the whole company. Had that machine gun shot sowed round, No. 1 company might have been nearly wiped out.

"We all quickly appreciated the value of O'Leary's sprinting and crack shooting and when we were relieved that night, dog-tired as we were, O'Leary had his arms nearly shaken off by his comrades.

"Sergt. O'Leary has brought back the V.C. to the Irish Guards. We lost it when Brig. Gen. Pitt-Rivers was killed."

Dr. J. S. Mackintosh has been explaining in a medical paper the beneficial results of a rainy period. A man with his name would.

Irish air and Irish food, new eggs and milk and his mother's nursing soon brought back health, and with it the old desire to see life. To Cork Barracks he went, trying to enter the Irish Guards, but because he had not his navy discharges with him he was detained as a virtual prisoner until they arrived.

Then he was sent to Buckingham Palace and for four years he served in the Guards. His time up, he left Ireland and went to Canada, where for a year he served with credit in the Northwest Mounted Police, until early last fall he answered the call to the colors and went home.

It is not made clear just when O'Leary joined the 1st Battalion of the Guards at the front. The battalion itself was there from the first and took part in the bloody retreat from Mons, but apparently it was about Nov. 1 that he joined it, assigned to Co. I.

Early in January a letter home told of his promotion as lance corporal and glorified the work of the Guards with the bayonet.

Official Account. As to the exploit which made him a sergeant and his country's hero, here is the succinct, official record in the V.C. list of the London Gazette: "No. 3556, Lance-Corporal Michael O'Leary, 1st Batt. Irish Guards, for conspicuous bravery at Cauchy on 1st February, 1915, when forming one of a storming party which advanced against the enemy's barricades.

"He rushed to the front, and himself killed five Germans, who were holding a first barricade, after which he attacked a second barricade about sixty yards farther on, which he captured after killing three of the enemy and making prisoners of two more; Lance Corporal O'Leary thus practically captured the enemy's position by himself and prevented the rest of the attacking party from being fired upon."

Letter to His Parents. Michael's letter home, dated Feb. 13, to tell of his promotion (word of the V.C. was given in a very brief note Feb. 20), is as follows: "My Dear Parents—I guess you will be glad to hear that I am promoted to full sergeant on the field on account of

distinguished conduct on the 1st inst. when we charged the Huns and routed them with disorder. You bet the Irish Guards are getting their own backs now.

"On that date I took some of our men up to a very important position of the enemy's and took it from them. It was of great importance to us. We captured a machine gun, killed the gunners and took some prisoners. The Huns lost terribly; we had only a few casualties.

"Since then the fighting has been a lot quieter, only a few attacks being made. These we repulsed with our rifle fire. On the 6th inst we attacked them again with the bayonet and took all their trenches, which we never expected to do. But when the Irish Guards charge, they do charge, and the Huns knew that, too.

"You would laugh if you saw us charging them, moving them into Berlin, if they were left. We have not yet properly started on them. God help them when we do, for there will be slaughter; they will beat it back to Berlin, any other trench that is left, for their fighting days are over. They now know that they are beaten."

They are beaten. O'Leary, in spite of his exuberance over the Guards, does not dilate on his own doings and the fullest story printed is that given to the Daily Mail by Company Quartermaster Sergt. John G. Lowry of the Guards.

"For more than a week," his story runs, "our first battalion had been holding trenches near La Bassee brickfield and our losses were heavy. The Germans had excellent cover, both in trenches and behind stacks of bricks, and the bombs thrown by their mortars cost us dearly.

"The night before the taking of the brickfield we lost two officers among the killed and it was decided that the trenches were too expensive to hold. We had worked in forty-eight hour turns fighting all the time, sniping and throwing hand grenades. We were close up to the Germans, and we were as good as they gave us. Particularly at night the pace was fierce.

Never was there a more appealing or important procession than that which passed through the streets of St. John on Thursday afternoon, when headed by one of the city bands, thousands of children wearing Union Jacks, by ocular demonstration proved the need of playgrounds in our city. Valets should gather in a large sum today.

A great many friends will be pleased to hear that Mr. Ernest Fairweather was able to leave the hospital this week and is now with his family, though through illness, he has been separated for some weeks.

YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If Cross, Feverish or Bilious Give "California Syrup of Figs"

No matter what all your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sleepy, listless, eating and acting unwell, look Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well, playful child again.

Mother can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach and they dearly love its pleasant taste. Full directions for babies, children of all ages and their grown-up printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" then see that it is made by the "California Fig Syrup Company."

Mrs. Herbert W. Clinch arrived from England on the steamer Scandinavian and will spend a month in St. John with her mother, Mrs. Robert Thomson, Sydney street, before going back to England. Captain Clinch is at present convalescing after having been wounded while on active service in France.

UNSTRUNG, UNSTEADY SHAKY NERVES MAY BE TONED UP BY USING MILBURN'S HEART and NERVE PILLS.

Mrs. John Harper, Toronto, Ont., writes: "I have used Milburn's Heart and Nerve Pills for the heart and nervous system. I was confined to a grocery store for twelve years, and had to give up business, as I became terribly run down and nervous, and had heart trouble, and I am sure I am gaining very fast now. I feel that nothing did me any good until I tried your Heart and Nerve Pills, and I am positive they will cure me. The nervous one hand would tremble and then then to go numb so that I could not write or sew. Now my hand is quite steady, as you can see by my handwriting. This is a big change which delights me so much for I thought all was done that could be done. I was about to give up in despair when I tried this last remedy, and even after I had only taken half a box the change started to come."

Milburn's Heart and Nerve Pills will restore the enfeebled, enervated, exhausted, overworked system to full constitutional power. Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

Kidney and Bladder Trouble Causes Great Distress

It gives me great pleasure to recommend Dr. Klinger's Swamp-Root to any one suffering from bladder trouble. For four years I was troubled by hemorrhages from the bladder and was not able to get any doctor who could help me. I was in such shape that sleep at night was impossible on account of distressing symptoms. While heading over I would be stricken with such a pain that it was impossible for me to straighten up. Mr. Henry, one of our leading druggists, advised Dr. Klinger's Swamp-Root, although I never had any faith in patent medicines, as a last resort I purchased a dollar bottle of Swamp-Root. I noticed a decided change and after using two bottles I was completely cured. I seemed remarkable that I should be cured so quickly after being ill so long. But since this took place nearly two years ago, I have never been troubled and would highly advise any one suffering from the same trouble to at once give Swamp-Root a trial and I think the results will be the same as mine.

THOMAS A. BENNETT, Greenburg, Indiana. Personally appeared before me this 14th day of February, 1915, Mr. T. A. Bennett, who subscribed the above statement and made oath that the same is true in substance and in fact. L. A. BOWER, Notary Public.

These are the tales Lady Jellieco tells to the sailors' wives when she takes a turn on the platform as the grand admiral's envoy. It is of interest to know that the German emperor thought so highly of Sir John's abilities that on one occasion he decorated him with the Red Eagle of the second class.

Very dainty invitations have been received from the executive of the Royal Letter to Dr. Klinger & Co., Birmingham, N.Y. Prove what Swamp-Root will do for you. In a way we are better pleased that he has had his varied experience— That he has had his jolts and jars in stores whose stocks are limited and where the choice is cribbed, cabined and confined to the mediocrity of timorous conservatism—

In stores whose stocks are starved with fasting for such fancied time as may bring the tidal wave they hope to rise upon!

Our ideals of what the men who count should wear have dictated our policy and rounded out our plans for this Spring and Summer—Plans which have prepared for you the most elaborate and handsome display of the latest in ALL-WOOL British Fabrics.

### "All Things Come to Those Who Know How and Where to Find Them"

You have been told that British Woollens are scarce at the full regular prices. Unless something unforeseen happens they are bound to get scarcer. There is very little now coming across the water. To secure good British Woollen at normal times for selling at special prices is a good service for a store to render, but it takes the English & Scotch Woollen Co. Service to secure them at times like these for selling at prices very much below their market value.

### CANADA IN THE WAR

Martin Dalton, aged twenty-five, of Georgetown, P. E. I., is dead from pneumonia in Halifax where he was serving with the artillery. Of forty-eight soldiers discharged from Cliveden Hospital, England, yesterday, six were Canadians. Guston DeFoyre, of Montreal, was in the city yesterday on government work. He is a returned French reser- vist having been engaged in the early fighting in Europe, wounded severely and sent home. The casualty list for March 24 con- tains the name of Private Joseph Lor- rette, formerly of the 12th Battalion. His next of kin is Miss R. Dalton, Sack- ville, N. B. The quarterly meeting of the provin- cial branch of the Canadian Red Cross Society was held on Thursday after- noon. This leaves twelve yet to be paid for. At a meeting of the Soldiers' Wives League on Thursday the offer of J. H. gavel, suitably inscribed, was presented to the proceeds of the opening of Mc- Keown of his restaurant in his new

Wounds received at the front resulted in the death on Monday in a British hos- pital of Captain Francis Wiseman Town- send. He was born in Halifax while his father was chaplain with the regular forces there. His mother was a daughter of the late Hon. W. J. Stairs of Halifax. Edward G. Stairs of Halifax, now at- tached to the 55th Battalion in this city is a cousin. At the last meeting of Royal Standard Chapter, I. O. E., an ebony and gold gavel, suitably inscribed, was presented to the chapter, on behalf of Judge Mc- Keown, by Mrs. MacKeown.

### SEES END OF THE WAR WHEN ITALY TAKES HAND

Italian Senator Suggests That Austria Will Sue For Separate Peace

Rome, April 3.—An article by Senator Masotti, a former member of the cabinet, in the Giornale d'Italia, is regarded in political circles as most significant, since he hints that Austria will soon forsake Germany and sue for separate peace to avert complete disintegration. He says that Austria's position is most unfavorable, since she is powerless to take the offensive against Serbia, is threatened by a decisive Russian invasion and is financially exhausted. He points out that Germany is unable to help Austria, which is bound to sue for peace when Italy-Balkan intervention takes place. Hence he concludes that Italy will be able to end the war merely by joining the Allies and that the country will be fully compensated for the service rendered, while on the other hand interven- tion is justified since its motive is a restoration of citizenship to the "lost" brethren of Trent and Trieste.

### CAPTURED SUBMARINE PIRATES NOT LOOKED ON AS HONORABLE OPPONENTS

Sir Edward Grey Pointedly Set Out Britain's Position in Answer to German Protest

London, April 2, 8.30 p. m.—A Ger- man protest and threat of reprisals on account of treatment by Great Britain of the prisoners taken aboard German submarines was made public today. This protest was transmitted by Germany to Great Britain through the United States. The reply of Great Britain also was made public.

The German government, in its protest, asked whether Great Britain in- tended to accord less favorable treatment to captured German submarine crews than to other war prisoners, and if so, what form this discrimination would take. Germany stated that if Great Britain adopted such a course, a British army officer held prisoner in Germany would receive correspondingly harsher treat- ment for each member of a captured Ger- man submarine crew.

Sir Edward Grey replied to the Am- erican ambassador under date of April 1 as follows:

"The secretary of state for foreign af- fairs presents his compliments to the United States ambassador, and, with reference to his excellency's note of the 29th ultimo respecting reports in the press upon the treatment of prisoners from Germany, has the honor to state that he learns from the 'loving' commis- sioners of the admiralty that the officers and men who were rescued from German submarines U-8 and U-12 have been placed in naval detention barracks in view of the necessity of their segregation from other prisoners of war. "In these quarters they are treated with humanity, given the opportunity for exercise, provided with German books, subject to no forced labor and are better fed and clothed than British prisoners of equal rank now in Ger- many."

"However, the crews of the two German submarines in question before they were rescued from the sea were en- gaged in sinking innocent British and neutral merchant ships and wantonly killing non-combatants they cannot be regarded as honorable opponents, but rather as persons who, at the orders of their governments, have committed acts of piracy against the law of nations and contrary to common human- ity."

"His majesty's government would also bring to the notice of the United States government that during the present war more than 1,000 officers and men of the German navy have been rescued from the sea, sometimes in spite of danger to the rescuers and sometimes to the prej- udice of the British naval operations. No case has, however, occurred of any offi- cers or men of the royal navy being rescued by Germans."

### WAR SUPPLIES INQUIRY

At the meeting of the boots inquiry committee in Ottawa on Thursday Col- onel Brown gave evidence that he dis- covered that the Ames-Holten-McCready Company was using double leather com- bined with rubber and put a stop to it.

Considerable difficulty was experienced in learning who was responsible for al- lowing a Winnipeg middleman a profit of sixty cents on 5,000 pairs of boots. Finally it was discovered that S. R. Wickett of Toronto had been appointed by the cabinet as chief advisor on boots at \$10 a day, because of his "large ex- perience in the manufacture of boots." Mr. Wickett had sworn the day before that he had never manufactured a boot. Lieut.-Col. W. G. Hardman, inspector of supplies for the militia department has been suspended on account of the charges made against him of arranging for a take-off on the purchase of binoc- ulars.

### GIVES LIFE TO SAVE THAT OF A KITTEN

Another Man Risks All to Rescue Cat From Lions' Cage in Zoo

Philadelphia, April 3.—Lemuel T. Rath- ell, a wealthy oyster dealer is dead from injuries received in rescuing a kit- ten from the slippery ridge of the glass skylight above his office. Mr. Rathell climbed out on the roof to assist the cat and was bringing it back in his arms when he crashed through the skylight and fell 30 feet. Mr. Rathell was well known for his benevolence. He was fifty-five years old.

New York, April 3.—A six-year friendship for just an ordinary gray cat sent George Sichert, a keeper, unarmed into the cage of an enraged lioness in the Central Park Zoo and although he came within a ace of losing his own life he rescued the nine lives of the cat.

Three times he tried to enter the trap door of the cage. Not until the fourth time was he successful, and then the very instant the door clanged shut after him the lioness hurled her 400 pounds against it until it cracked with the impact. The cat was insensible and had a broken leg, when he finally got it out, but it is all right now save for the splint that binds it. The cat, when he lured into the cage by a tempting piece of meaty bone. The lioness resented the intrusion and knock- ed the cat into the corner.

**WILSON BREAKS ALLEY RECORDS**

Sets New Marks For Three and Five String Totals on Black's—Interesting Ten String Match

Two records were smashed on Black's alleys on Thursday night by Thomas L. Wilson while he was bowling a ten string match with A. Duffy. He set new marks for both the three and five string records, 215 total for the former was 871, four pins better than the alley record, which he himself made on May 4, 1914. His total for five strings was 379, beating the alley record of 374 which was made by Harry Black, on January 31, 1908. In order to establish the records the strings had to be rolled consecutively and while in competition a new two-string record was also established. Taking the total of both men for the first five strings they made a score of 1414. The match, which was one of the most interesting ever bowled on the alleys, was won by Wilson with a grand total of 1,078 against 1,053 by his opponent. The scores follow:—

Wilson—181, 108, 187, 106, 102, 104, 98, 92, 100, 91—1,078.  
Duffy—120, 98, 118, 94, 105, 98, 110, 110, 88—1,053.

Wilson passed the century mark seven times, and Duffy six.

**CONSTIPATIENS**

Read This

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning.

The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 50c, stimulates and restores the stomach digestion, increases the flow of bile into the intestines, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

Orchard, president; George Bishop, vice-president; Dr. Langstroth, secretary and David McClelland treasurer. The president's trophy was presented to the club composed of J. C. Chesley skip, E. R. S. **BASEBALL.**  
Fairville League.

Arrangements are being made to hold a meeting of the Fairville baseball executive next week. One Carleton team has already asked for admittance in the league for the 1915 season and it is planned to manage affairs this year more actively and closer to rules than ever before. One well known citizen has sent in a check to help purchase equipment or for any other requirements of the league and it is hoped this good example will be followed by others who would like to see the boys make a good start.

**Sweeney Released.**  
Hot Springs, Ark., March 31—A dull dreary day at the Hot Springs, Ark., with the unconditional release of Bill Sweeney.

President Lannin, Manager Carrigan and Sweeney were together in President Lannin's room, and Sweeney was shown where he could be of little value to the club this year. It was thought better to let the second baseman out now than to keep him until all chances for getting a berth were lost.

**Giants' Regulars.**  
No more time will be wasted by John McGraw in experimenting with recruits, writes Joe Will in the New York Evening Sun. He has decided on the regular make-up of the Giants.

McGraw must forty-five men to Marlin and he cannot hold more than twenty-one after May 1. Several players must be kept on the New York club's payroll because they are under long term contracts, and there is no way to get rid of them except in trades.

McGraw, in order to get inside of the limit, will carry three catchers, six infielders, four outfielders and eight pitchers. His backstops will be Harry Smith, Meyers and McLean. The infielders to be retained are Merkle, Doolittle, Robert, Fletcher, Brainery and Grant. In the outfield the Little Napoleon will have to get along with Burns, Snodgrass, Thorpe and either Murray or Robertson.

The Giants' pitching staff will comprise Mathewson, Perritt, Tesreau, Marquard, Fromme, Ritter, Schupp, Schauer and perhaps Chalmers. If Chalmers comes back to his old Philadelphia form McGraw may drop one of the other box men or an extra infielder. It is a foregone conclusion that the Giants' crafty leader intends to work Mathewson, Perritt, Tesreau and Marquard in relation as long as possible, using the others as relief pitchers.

**Braves Shut Out Cleveland.**  
On Wednesday afternoon the Boston Braves defeated the Cleveland Americans by a score of 4 to 0. In the seventh inning Red Smith, the champions' star third sacker, drove out a home run. Maraville, Evers and Schmidt made two sensational double plays.

**Red Sox Defeated.**  
The Yankees defeated the Boston Red Sox on Wednesday at their training camp in Hot Springs by 3 to 2. Heinie Wagner, veteran short stop, led the winners and played in his old time form. Not only in the field did Wagner shine, but he made a two-base hit off George Foster, and on his other three times up smashed the ball hard, if not safely. If Wagner continues to show such wonderful improvement, it will be hard work keeping Heinie out of the Red Sox infield this season.

**NEWS OF THE BOXERS**

Jack Denny, a New Orleans boxer, has been having tough luck since he went to London. The other night he ran against a second defeat. This time he was put away in the 29th round by Willie Farrell.

That "glass jaw" of Bombardier Wells has forced him to take the count from another American boxer. Even boxer

like Frank Moran carry too much of a punch for the clever English champion. It is to be expected that Moran will now go after a match with the winner of the Johnson and Willard bout, even though he has had a taste of the punching power of Johnson.

Alex Costica, a Romanian welterweight who was a sensation in England, has arrived in New York and will be managed by Tom O'Rourke. He is only eighteen years old and has been boxing only eleven months. Dick Burge and Jacob Hymans, ex-lightweight champion of England, got him his passports so he might get under the direction of O'Rourke. The Romanian has defeated the Dixie Kid, Jack Beattie, Al. Badoux, who defeated Young Ahearn and also has won over Henri Demler, who fought a 20-round bout with Carpenter.

Al. Reich's manager thinks the ex-champion heavyweight has been seasoned enough to make a stab at the world's title, and a challenge has been sent to Cuba for Reich to meet the winner of the Johnson and Willard fight.

Harold Hardwick, an Australian amateur athlete looks like a good hope to promoter Snowy Baker.

Charley Ledoux, a French bantam boxer has gone to the front again, but he tried the job and asked to be sent where the fighting is.

**Technical Foul Will Not Count.**  
New Orleans, March 31—Jack Walsh of San Francisco, who will referee the Willard-Johnson fight in Havana on April 3, arrived here last night en route. "I shall not award the fight on a technical foul," Walsh said. "Only a deliberate foul which disables one of the fighters will cause me to render a decision either way."

It must be remembered that the bowels should move freely once a day to ensure perfect health. When such is not the case the poisonous waste material is absorbed into the system, thus producing a self blood poisoning.

The causes of Constipation are many and varied. Among the more common may be mentioned poor stomach digestion, a deficiency of bile in the intestines, a lack of secretion in the bowels, and a want of the natural muscular contraction of the intestines from above downward.

Abbey's Effervescent Salt, sold everywhere at 25c and 50c, stimulates and restores the stomach digestion, increases the flow of bile into the intestines, causes a flow from the intestinal glands, and restores the natural downward action of the intestines, rendering it easy to secure a free action of the bowels, which is one of the most important requisites to health.

Sold by E. Clinton Brown.

**"THE DAUGHTERS OF MEN"**

AN EXTRAORDINARY FEATURE IN FIVE PARTS.  
By Charles Klein, Author of The Music Master, The Lion and the Mouse, The Third Degree, Etc.

Seemingly the utmost in the silent drama has been attained in pictures such as "The Daughters of Men." It is certain no covert stage could mount the piece as the cinematograph has done it. Indoors, outdoors, everywhere throughout the five enthralling acts the scenic embellishments are superb. The ensembles in high society are luxurious, especially when a social princess in her bathing suit plunges into a tank of champagne at a freak dinner. The mob scenes during labor unrest, fights, tense moments as rival sweethearts confront one another, are the scene of realism. The story grips from the start. It all hinges upon the refusal of the youthful president of a steel trust to recognize his men's union. Love, intrigue, cross-purpose and violence are introduced in logical sequence—nothing strained or melodramatic—until finally "The Golden Rule and Dan Cupid win out again. It's a splendid play.

The programme runs for one hour and a quarter, commencing at 7.

**BERLIN HATES TO TELL TRUTH OF MEMEL AFFAIR**

Touched on Raw by Disastrous Visit of Sma 1 Body of Nations Reserves — Hostage Talk All Lies

Petrograd, April 3.—The Germans have issued their usual clever perversion of truth about the Memel affair. It appears that the capture of Memel was a sporting venture of an inconsiderable body of national reserve men, fewer than three thousand in number. Yet they routed two German Landsturm regiments, seized Memel, compelled the Germans to concentrate hither some regiments of their active army and even disturbed the tranquillity of the holiday-making German fleet at Kiel.

What they did not do was to take three thousand hostages from Memel and afterward allow the victorious Germans to rescue them gloriously, as the German version has it. These three thousand fugitives, if there were so many, fled

from Memel and took the only route on which no fighting was in progress, namely, in the direction of Krotingen where they quietly awaited the arrival of the German regiments.

It is interesting to note what the Russians found in a mass of mail captured in the village of Domanic, near the Pilsna, when the Germans were driven out

**The True Safeguard of Baby's Health**

**Allenburys' Foods**

The milk of a healthy mother confers a degree of immunity to infection to the young infant. Many mothers, however, though willing, cannot nurse their babies for various reasons. In such cases the greatest care should be taken in selecting a proper substitute. Ordinary cow's milk cannot be regarded as a safe food for infants; it is acid, contains indigestible curd, and is almost invariably contaminated with harmful germs. By using the "Allenburys'" Foods, which are free from all dangerous organisms, and effectually replace human milk, security for baby is ensured and vigorous growth and health are promoted. The "Allenburys'" Foods are largely used and recommended by the Medical and Nursing Professions; they have stood the test of time and have become a household necessity all over the world.

It appears the soldiers had just been writing home and among the letters found were many containing complaints about the hardships of the war. From the statements of the men, they have had to remain in the trenches without food until they were half-starved, and the German losses are appalling. The hope that "this accursed war" will soon end is frequently expressed.

Sheet-iron helmets worn by troops killed in the fighting north of the Vistula bear the letters F. R. on the eagle in the front with the customary motto. They are a few ounces heavier than the familiar leather Pickelhaube, but are exactly the same shape and painted a sage green all over, including the brass spike and eagle, thus avoiding the necessity of a khaki covering. They have an inadequate leather lining, which must cause torture to the wearers when there is a severe frost.

The old pattern rifles in the hands of men wearing these novel helmets are of dates as far back as 1891, and they have new barrels shrunk over the original barrels, evidently to give strength and permit the use of modern explosives. The bayonet fits on the side and not under the barrel.

Back of the sight is the old-fashioned slide stick-up. Some very clumsy old cavalry carbines are also among the trophies.

**SLEEP BEFORE MIDNIGHT.**

Is there not something substantial in the old-fashioned view that sleep before midnight carries a special and particular merit? There may be, says the "Hospital," a simple and obvious explanation of this creed, but we are satisfied that, in any event, the practice it proposes is beneficial. To take a single illustration — it is widely known by medical practitioners that anemic girls may long be treated with want of success until they are compelled to cultivate the habit of early to bed. And though strong and vigorous young men may with apparent impunity continue to hear the chimes at midnight, middle-age announces itself by some dullness of the faculties on the days following such experiences. That different individuals need different amounts of sleep is certain, and it is perhaps true that sleep, like other habits, may be carried to excess; yet once the elasticity of youth is gone most of us are better and more fit when we avoid late hours.

**KITCHENER'S WAY.**

A certain well-known firm recently obtained a large contract from the War Office. To ensure it being carried out to time, it was necessary for the work-people to work overtime. This they were perfectly willing to do, being paid at the union rates.

After a few days the secretary of the trade union called upon the head of the firm concerned, and advised him that unless the overtime was stopped all the "hands" would be called out. As there seemed no way out of it the employer concerned went to the War Office and succeeded in seeing Lord Kitchener and placed all the particulars before him.

Lord Kitchener asked for the name and address of the trade union man and said: "Be here tomorrow at eleven o'clock." At that time the next day Mr. ——— was admitted into Lord Kitchener's presence, the trade union man being also there.

The following conversation then took place:—

Lord Kitchener: "Now Mr. ——— kindly repeat what you told me yesterday as briefly as you can."

Mr. ——— did so.

Turning to the trade union man Lord Kitchener said: "Mr. ———, are these facts as stated?"

"Yes, my lord, but it is strictly against our rules to —"

Lord Kitchener: "Are the facts right?"

"Yes, my lord; but —"

Lord Kitchener: "If you call those people out on strike I will get you seven years under the Treason Act for preventing the supplying of His Majesty's Forces. Good morning, gentlemen." — London Express.

The Mississippi River has had more than a dozen native names, different designations being given at different points in its course. The Algonquians called it the Meeche Sebe, other tribes termed it Chicagou, Mico, Tuhmalasen, Tapala Ri and other names. The Algonquin name was finally adopted by the whites for the whole river. The meaning is "father of waters," or "the whole river." Twenty-seven spellings are noted in the writings of early explorers.

New York State spent \$18,200,000 on 1,107 miles of improved highways during 1914. There are 6,315 miles of good roads either completed or under contract in the state. There are still 5,671 miles of state and county highways to be improved.

King George has placed York House, London, at the disposal of Lord Kitchener, Secretary of State for War, as a residence during the duration of the war.
