EDW. WILSON KILLED IN NASHWAAK FALL

ELECTROCUTED WHILE WORKING ON WIRE SYSTEM

Fatality Occurs in Pulp Plant Engine Room

WAS 39 YEARS OLD

Victim of Accident, Native of Sweden, Leaves Wife and One Child

EDWARD WILSON, an employe of the Nashwaa Pulp and Paper Co., at Union Point, just across the Reversing Falls, lost his life this morning by coming in contact with a live wire while at work making a change in wiring system in the engine room of the mill.

The first intimation of his plight to his fellow workmen was when they heard him groaning. The power was at once shut off by Mr. Rushton and Otty Wilson caught the man as he fell from the ladder.

PULPMOTOR USED The ambulance bringing Dr. F. W. Stevenson and the pulmotor, was quickly at hand but all efforts to revive the stricken man failed.

Mr. Wilson was chief electrician of the company and a native of Sweden having come here from New York about four years ago. He was 39 years old and leaves a wife and one child who live in Earle Avenue, Fairville. The voltage and the wire was 620 volts.

MELLON REGRETS DEBT CONTROVERSY

Says Declaration Was Intended to Explain Situation to Americans

LONDON, July 24.—The Paris correspondent of the London Daily Express today quoted Secretary of the Treasury Mellon as expressing regret at the controversy begun by Chancellor of the Exchequer Winston Churchill.

Churchill said Mellon was under a misapprehension of the facts of the case, in saying that money loaned England by America in war time was used for commercial purposes.

"I am sorry if what I said caused a strong difference of views," Mellon was quoted as saying. "What I said of the purpose to which Britain put money borrowed from the United States was my own opinion, and intended largely to explain the situation to Americans."

MONTREAL, July 24.—Bridgwater General C. A. Smart, Conservative member of the provincial legislature for Westmount, last night announced that he would allow his name to go before a party convention in Mount Royal, which was represented in the House of Commons by R. S. White.

New French Cabinet Has Novel Plan To Reduce Floating Debt of Country

Director of U. S. Line Forbids Skippers To Wed Couples On Ships In English Channel

PARIS, July 24.—Romance has received a death blow on the ground that skippers are "not in form physically or mentally" to perform marriage ceremonies on the east-bound voyage.

During the past week 20 couples wanted to be married aboard United States liners between Cherbourg and Southampton, but they were refused on Captain Bias's order.

Artificial lungs, adjusted to a rheostat, provide pilots with increasing amounts of oxygen as the plane climbs. Experiments have shown that a pilot can stand unlimited air pressure corresponding to a climb of 60,000 feet, hitherto unattainable by man.

JEWELS USED IN DEFEAT OF KEMAL

Yildiz Palace Gems Sold For Fund to Finance Overthrow

CONSTANTINOPLE, July 24.—The famous Yildiz palace jewels which were seized by the Dhimistis after the fall of the Sultan Abdul Hamid, who was deposed in 1908, formed the initial fund alleged to have been collected for the overthrow of the government of Mustafa Kemal Pasha. It was testified here yesterday.

The jewels, which were sold in Europe for \$2,000,000, were in the possession of the political leaders who are now under arrest at Ankara charged with conspiracy against the government.

Testimony concerning the fund was made by Dr. Nasim Bey during his examination before a special tribunal which is preparing the cases of the revolt against Abdul Hamid.

(This same tribunal convicted and sentenced to death 18 prominent politicians last week.)

Judge, In Bathing Suit, Fines Culprit

ROSLYN, N. Y., July 24.—Policeman Charles Snyder had just arrested John Williams, a printer, for disrobing and changing to a bathing suit at Star Beach, where Williams had parked his automobile, and had started for the jail with his prisoner.

The judge, Westcott, in swimming trunks remarked the prisoner. The policeman went to the beach called the judge and the latter, his bathing suit still wet, held court and fined Williams \$10.

FRAMER OF ASSESSMENT ACT Sees Difficulty in Satisfying All

FORMER Mayor R. T. Hayes, who during his occupancy of the Mayor's chair was one of the commission selected to frame the present Assessment Act, said this morning in regard to the unreal over taxation matters that he has always felt there was no real finality to such legislation.

In other words, changing conditions and contingencies made taxation schemes quite plastic. It was in the minds of the framers of the present Act themselves that their system was not perfect. Though it represented a composite of the best taxation methods they could discover in cities circumstanced like Saint John, these same cities themselves were grumbling about their taxes in some department or another.

MR. HAYES is certain no tax act can be framed that will satisfy all sections of the public. If the impost is taken off real estate and placed on income there is a hue and cry. The reverse is also true. When it comes to personal property the ex-mayor thinks business cannot stand anything heavier than it is now taxed. Discussing the matter of bonds and other securities he asked what of such earnings would be left out of a 4.75 or 4.90 municipal bond after the present rate of 3.36 was levied upon it. So the whole question was an economic complex that baffles the most open-minded enquirer.

TAXATION, Mr. Hayes has always felt, is a matter of compromise anyway. Peter must not always be called upon to pay Paul's score, yet division of the burden must be applied with equity. In communities where the population flows and ebbs, frequent readjustments of the tribute money must be made to keep the financial craft on an even keel and the taxpayer given a square deal.

ROBERT SCOTT CONFESSES TO MAURER SLAYING

Chicago Paper Publishes Story to This Effect

CLEARs BROTHER

Reputed Admission Is Witnessed by Assistant Superintendent of Jail

CHICAGO, July 24.—The Chicago Herald and Examiner in a copyrighted story today says that Robert Scott has made a statement to the newspaper admitting that he killed Joseph Maurer, the young drug clerk for whose murder his brother, Russell Scott, is sentenced to be hanged.

The account quoted Scott as saying: "I raised the gun over the back of Maurer. He was lying on top of me in a struggle and I fired. I was so dazed that after I got up I fired a few more shots. I don't know where they went to."

CONFESSION WITNESSED The newspaper says the reputed confession was made over Robert's signature and by A. R. Jones of Saint Joseph, first assistant superintendent of the jail.

ARGENTINE PAPERS UPHOLD U. S. STAND

One Says French Crisis Due to Refusal of People to Tax Selves

Buenos Aires, July 24.—The attitude of the United States in the war debts owed to her and the reports of the Standard emphasizes that admiration for France should not excuse any attack on the United States by Parisian crowds. To assail peaceful Americans in the streets of Paris, it says, is tantamount to attacking the great nation to which it belongs.

It believes that the severity of the United States with the debtor nations is not inexplicable, neither is it unwise.

FRANCE BLAMED The depreciation of the franc, the Herald believes is caused by the refusal of France to tax herself, added to the loss of national credit through her behavior toward her creditors.

The Standard emphasizes that admiration for France should not excuse any attack on the United States by Parisian crowds. To assail peaceful Americans in the streets of Paris, it says, is tantamount to attacking the great nation to which it belongs.

BOOTLEGGER SLAIN AT CHICAGO CAFE

Philip Piazza Had Been Marked For Death Some Time, Police Think

CHICAGO, July 24.—The name of one more gangster and bootleg boss was enrolled upon the slate of mystery deaths here yesterday when assassin shot down Philip Piazza, Chicago operator and bootlegger, in front of his cafe.

Piazza, known to police as the head of a liquor vending organization had been marked for death several months, and once previously had been fired upon when one of his lieutenants, Gino Lambert, was killed and a woman wounded.

Differences with other bootleggers over territorial rights within the city led to the shooting police claim.

Hearing the shots, John Piazza, a brother, ran from the cafe to find his brother dead on the sidewalk and his slayers escaping in an automobile whose license plate had been covered by a piece of cloth.

Bermuda Anxious To Develop Trade With Canada, Declares Governor Asser, In Montreal

MONTREAL, July 24.—Canada should hurry and get her operating between the West Indies and Bermuda under the new treaty, was the opinion expressed by Lt. General Sir John Asser, Governor of Bermuda, who was in Montreal yesterday with Lady Asser. He declared that Bermuda was anxious to develop her trade with the Dominion, which at present consists only of onions. Sir John remarked that there was opportunity to develop a large fruit trade with the West Indies under the new treaty.

EARTHQUAKE FOR SUNDAY PREDICTED

Foreign Visitors To Paris Are Jeered

PARIS, July 24.—The formation of the Poincare cabinet and the resultant feeling of relief did not save inoffensive sightseers from the ordeal of an anti-foreign demonstration last night.

Tourist battalions assembled in even larger force than the night before at the starting point of the sightseeing buses and as soon as the first batch of visitors appeared, a storm of hoots, hisses and jeers arose. But the authorities had made preparations, and the large force of police held in readiness promptly scattered the manifestos.

'Buy Suit; Dip Under Hydrant, Clothier's Stunt, Ends In Fine

NEW YORK, July 24.—Kipperman's East Houston street in wet bathing suits and wondered where the bathing was. They told him it was at "Kipperman's Beach." On investigation that proved to be in front of the clothing store.

The trick in it was that after Kipperman had opened the hydrant, no one was allowed to back in the cool gusher unless he or she wore a bathing suit. Kipperman had been arrested by a policeman who saw many children in bathing suits.

POINCARE AIMS TO RESTORATION OF STABILITY

Premier Considers Asking for Extension of Power

TAX REVISION UP

New Imposts, Preferably Indirect, Likely to Provide Immediate Yield

PARIS, July 24.—The "cabinet of national reconciliation" as Raymond Poincare styled his new ministry in presenting the personnel to President Doumergu yesterday, is getting down to work without delay on a series of financial bills which it will present to parliament when it appears before that body next Tuesday. The bills will take the place of the customary statement of policy by the Premier.

Two weeks, in the government's view, ought to be sufficient for both the Chamber of Deputies and the Senate to vote the measures requested, and about August 10 the session may be closed and parliament given a long vacation.

MAY ASK EXTENSION The Journal says it understands Premier Poincare is seriously considering requesting Parliament to vote a bill extending its powers for two years.

On the other hand, it is said that the new Premier is anxious to restore the solidarity of his majority and its faith in the necessary measures to stabilize the franc and reestablish the financial situation generally that he will not even ask for an extension of powers.

The new ministers had their first general exchange of ideas yesterday and sketched out in broad lines the plan by which they hope to stabilize the franc from the financial slough of the past. It will be the government's endeavor to allay the fears of capitalists, to stabilize the franc and reestablish a strictly economic and businesslike basis. It will begin as soon as possible with the reduction of the floating debt by what it undertakes to be a novel and ingenious method.

TAX REVISION HINTED A large contribution is expected to be obtained from the plan of the Chamber's financial experts committee, perhaps even more than former Minister Caillaux would have got.

The Echo de Paris says there will be a light tax on acquired wealth. The bulk of resources, however, will be taken from a revision of existing taxes and the creation of new ones, preferably indirect, as giving an immediate yield.

While the new administration has been received by the general public with something like enthusiasm, political observers view it with certain reserve. The moderate critics of Poincare for including in it Edouard Herriot, whose cabinet it succeeded, and the radicals criticise M. Herriot for joining M. Poincare. There has been no organized opposition to the minister, however, except from the Socialists. The groups generally have decided to wait and see how M. Poincare undertakes what all the politicians agree is a task of stupendous acuity.

THE KING OF QUIBBLEERS.

(London Free Press). Mr. King has the effrontery, in his usual high-sounding language, to declare that what Sir Wilfrid Laurier did was perfectly constitutional and what Mr. Meighen did was an outrageous insult to the representatives of the people. Mr. King gives us a pain. The people of Canada are not interested in Mr. King's constitutional quibbling, which they have not been since under the regime of the last five years.

MR. BALDWIN.

(Winnipeg Tribune). Like all other young countries, we have too many people exploiting Canada, not enough exploiting her. True patriotism is not blind. It runs deeper than self-interest, party feelings, or superficial flag-waving. It is a spirit of love for all that is fine and honorable in the life of a nation.

SAVE THE DOUGHNUT.

(Los Angeles Bulletin). News comes from New York that Boston is about to produce square doughnuts. This is worse than bobbed hair! Since the memory of man runneth not to the contrary, doughnuts have been round. Moreover, the ground-plan of the doughnut is perfect. Like the spoon, it is useless for the most inventive innovator to endeavor to improve it. They did not improve soup spoons when they made them round. They will not improve doughnuts by making them square.

EXTRA TRIP SUNDAY.

Steamer Maggie Miller will make extra trip to 4:45 daylight Sunday to St. John's, N. B., and return to St. John's, N. B., at 10:15 a. m. on Sunday. The home-brew doughnut is a finer thing than the wood violet or the devy joni. It is a symbol of the human backbone and fortifies the heart. For uplifting the soul, hyacinths are nothing to it. Properly compounded, flavored judiciously with nutmeg, rolled flat on the kitchen table, blanketed with concentric circles to die and fried in boiling fat that just permeates with subtle savors the outer golden crust, the doughnut is a culinary masterpiece and a gastronomic ecstasy.

FREDERICTON, July 23.—The bacon industry is one of the most profitable, if not the most profitable, branch of livestock handling, declared Dr. J. H. Grisdale, Deputy Minister of Agriculture, Ottawa, addressing some 100 representatives of New Brunswick Boards of Trade at the Experimental Farm here this afternoon.

Dr. Grisdale emphasized the importance of improving the quality of Canada's agricultural products in order to maintain its position in the world market. At present, he said, Canada is on an equal footing with other countries exporting agricultural products, and must be prepared to meet the competition. He predicted that Canada would soon have the preference in the bacon market.

The field day proved a marked success and reflects credit on the organizers. The day was held in the Agricultural Station. Among the communities reported were Saint John, St. Stephen, Fredericton, Woodstock, Edmundston, Bathurst and Newcastle.

The morning was spent in inspection of the livestock of the farm. Luncheon was served at the noon hour in the Agricultural school and was followed by a number of addresses. After the field crops were inspected and the experimental work explained. A large number of ladies attended the gathering.

THE SPEAKERS.
The speakers were: F. C. Elford, director of the World's Poultry Congress to be held in Ottawa in July of 1927, who spoke on that subject; J. H. Grisdale, deputy minister of agriculture in Canada, who spoke on the future outlook of agriculture in the Dominion, and Deputy Minister Roushbour of Ontario department of agriculture, who supplemented the remarks of Grisdale.

PLEDGE SUPPORT
After the address by Mr. Elford, a resolution was passed on the motion of Col. A. E. Massey, of Saint John, seconded by Mayor W. G. Clark, of Fredericton, endorsing the holding of the world's poultry congress in Canada and pledging co-operation in the matter of entertainment of delegates who might visit New Brunswick.

TO TRANSPORT PARTY
Ex-Mayor W. S. Hooper, of Fredericton, offered to organize a Fredericton committee which would undertake the transportation of the visiting parties from Fredericton to Riviere du Loup if Saint John would agree to provide similar transportation from Cape Tormentine to Saint John.

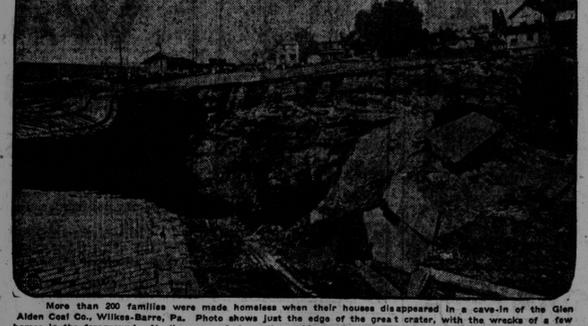

MR. ELFORD
Mr. Elford emphasized that the World's Poultry Congress would give New Brunswick a chance for placing her opportunities as a poultry raising country before the people represented who would be from 28 to 40 different countries. He urged that arrangements be made for the entertainment of overseas delegates and the New England party when they should visit New Brunswick.

Body Is Found at Sand Point,
Pt. du Chene Mystery Cleared

SHERIDIAN, July 23.—The mystery regarding the fate of Daniel Gaudet, a young man employed in the Canadian National Railway locomotive department at Moncton, which has existed since last Sunday was dispelled late this afternoon, when three boys bathing at Sand Point, 4 Point du Chene, found his body near the shore. The body of Gaudet was found with hundreds of others at the Sand Point beach on Sunday afternoon. He borrowed a bathing suit from the pavilion, and when he did not return at night, the manager notified the chief of police at Moncton that clothing in a dressing room of the pavilion bore the name of Daniel Gaudet of Union street, Moncton.

Men of Cape Town
In Church Parade

It is expected that from 250 to 300 officers and men of the H.M.S. Cape Town and R.C.N.V.R. will be in the parade to Trinity Church tomorrow. The officers and men of the Canadian ship Patriot will not participate inasmuch as that vessel has been ordered to sail Sunday morning for Halifax. The officers and men of the Cape Town will be brought to the beach side of the harbor in motor launches and cutters, landing at Reed's Point wharf at 10.30 a.m. The detachments from the H. C. N. V. R. will join the Cape Town's crew at the wharf and headed by either the brass band of the warships or the pipers of the local company will march along St. James, Charlotte, King and Germain streets to the church. After service the parade will pass along Germain, King and Prince William to Reed's Point.

Debec Man Dead
After Car Accident

WOODSTOCK, July 23.—William J. Montgomery, 65, of Debec, while driving a team at Debec, was run into by a car driven by George O'Donnell last night, and died this morning from his injuries.

EXCELLENT ROADS
Mr. and Mrs. R. F. Fitzgerald, Douglas avenue, returned to the city last night after enjoying a motor tour to Boston, New York and other American cities. They have been absent from the city for the last four weeks. Mr. Fitzgerald said last night that the St. Stephen-Saint John highway was as good as many of the best roads in the United States.

VEEDOL
This Oil, Exclusively For
Fords Gives 8 Definite
Economies
The lubrication system of the Ford differs from that of any other passenger automobile. The Ford engine and transmission are combined in one housing and both must be lubricated by one and the same oil. This oil must resist the deadly heat and friction developed in all automobile engines. In addition, it must eliminate jerky chatter when you start, stop and reverse your Ford. Ordinary engine oil, such as is used to lubricate the engine satisfactorily does not and cannot stop Ford chatter. Only an oil made to lubricate the Ford exclusively can do both jobs. Veedol Forzol is made to lubricate the Ford exclusively. It was created by Tide Water Engineers after four years of road tests and laboratory experiments. It correctly lubricates both the Ford engine and the transmission, and gives 8 operating economies. Over a million Ford owners testify to this fact. Ask for it by name.
1. 10 to 25% gasoline saving. 5. Resists heat and friction.
2. 10 to 25% saving in oil. 6. Increased ability to coast.
3. 10 to 25% less carbon. 7. Resists fuel dilution.
4. Eliminates costly chatter. 8. Reduces repair bills.

The Evening Times-Star

The Evening Times-Star printed at 25-27 Casanbury street, every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., J. D. McKenna, President.

SAINT JOHN, N. B., JULY 24, 1926.

TAXES

The discount date is past and gone. The city has garnered a very welcome harvest. Meeting all obligations there should be reasonably ample funds for expenses and naturally civic officials will have a sigh of relief.

Of late there has been a vociferous demand for investigation. The citizen has broken the shackles of apathy and taken full and proper interest in his own affairs. This has not always been the case.

In 1924 there were 17,843 electors on the roll, but of these only 8,008 were eligible voters by reason of tax payments. Of these 7,581 polled votes for the mayoralty, but only 5,104 marked their simultaneous ballots on the question of the Vocational School.

LOW WAGES IN ITALY.

The Fascist movement in Italy has set everybody to work, but the member of a Canadian or United States trades union would hardly rely upon the results, especially since strikes in Italy are absolutely forbidden by the Government. Prof. R. M. MacIver of Toronto has been contributing to the Toronto Star a series of letters from Italy, and in one of them he says:

ONE POINT.

Very soon New Brunswick is to have her say in the matter of justice from the Dominion. Generally speaking, her say will coincide with that of the other provinces down by the Atlantic, but, as must be admitted, each has some special arguments inapplicable to the three, and these special reasons for the adoption of certain remedies germane to the whole can only be used by one province alone.

London is geographically the centre of world communications and London, for this reason alone, is the logical heart of the British Empire. This does not in any way conflict with equal Dominion, status of other components of the Empire. There must be a centre, the Empire holds the world's centre of communication and naturally that becomes the Empire's heart.

Communications must have both commercial and strategic aspects. In other words, communications must be as invulnerable as it is possible to make them. Communications are by sea and by land—the air is not yet sufficiently conquered—and the British navy exists for the purpose of safeguarding the first. London can be reached from a portion of the year, via Halifax and Saint John all the year round. It is evident which route is imperially the more important. For obvious reasons

Just Fun

IT IS reported that one of the fastidious newly married ladies of this town kneads bread with her gloves on. This incident may be somewhat peculiar, but there are others.

DON'T STOP MY PAPER. Don't stop my paper, Printer. Don't strike my name off yet! You know the cash comes slow, And dollars hard to get; But tug a little harder— Is what I mean to do; And scrape the dime together— Enough for me and you.

I can't afford to drop it. And I find it doesn't pay To do without your paper, However, others may; I hate to ask my neighbors To give me theirs to loan; They don't just say, but mean it— Why don't you get your own?

MAC—I'm smoking a terrible lot of cigars lately! Jack—You certainly are, if that's one of them!

SAFEST place in the world is in church. Almost never does a fatal accident happen there.

IGNORANCE is when you don't know anything and someone finds it out.

DURING his first few days in camp the young recruit was the victim of so many practical jokes that he doubted all men and their motives. One night while he was on guard, the tall figure of one of the officers loomed up in the darkness before him.

FUEL TO THE FLAMES. WIFE—"Don't you dare to speak to me for a month." Husband—"You think you'll have finished all you want to say by then?"—Answers, London.

COMPARE. We make Champions with any other spark plug. But you must drive with them to know how very much better they are.

Notes on Abolitionists. Weeping willows should be set out in tiers. Hat trees do best indoors. Ambushes, of course, are for dark places. Family trees flourish best in exclusive sections. Nut trees are appropriate for insane asylum grounds. Shoe trees to yield galoshes, must be grafted with the rubber plant.

Achievement. (Theodosia Pearce in "Lights from Little Lanterns.") Better to climb the steep hill of Existence. Than to watch others climb; Better to struggle on with strong persistence. Than to lose pace with Time. Better to reach, footsore, the postern portal. Than win with ease the goal; Better to know though weary, torn and mortal. Mine is a growing soul!

Playing The Game

Foreigner: "Ah, ma foi Zee Inglesh; Nine weeks of coal stoppage, and yet they play their games!"

POEMS I LOVE

"Lies," by Rose Terry Cooke. THIS love poem was written by an American woman, who died in 1892, and who, in addition to her verse, wrote many short stories dealing with New England life. She is scarcely recalled now, but several of her poems make a strong appeal to me, because of their simplicity and straightforwardness.

If I were a cloud in heaven, I would hang over thee; If I were a star of even, I'd rise and set for thee; For love, life, light, were given Thy ministers to be.

Queer Quirks of Nature

HE DOESN'T GO HOME UNTIL MORNING. BY AUSTIN H. CLARK. OF ALL our giant moths, the most beautiful is the lovely light green long-tailed luna. This is a common moth, though scarce perhaps less frequently than certain of the others.

LADYS says that the dumbest Dora who knows is a girl the doctors won't give ether to because they're afraid they won't know when she's unconscious.

THE Luna, most beautiful of moths, long after dark and flies till morning, while the others appear at sundown and fly but little in the darkest hours.

ABOUT THE LIGHTS. Occasionally you see it about electric lights, where it is easily recognized at once because of its light color and its long tails on the hind wings.

SOUTH IN AUTUMN. The luna appears abundantly in May and June, in the north in June and July, and again in much smaller numbers in late August and September.

DIARY TELLS HOW DEATH TOOK ARCTIC VICTIMS ONE BY ONE

POPULATION OF DESOLATE ISLE IS WIPED OUT

Account of Tragedy Is Written in Scrawl on Packing Paper

CHILDREN DIE FROM HUNGER AND SCURVY

Last Two Women Survivors Kill Selves to Avoid Starvation

LONDON, July 24.—Scrawls on a piece of packing paper tell of a tale of terrible suffering on a desolate island in the Arctic Ocean.

Nothing but skeletons strewn the island in the Bay of Kars when the captain of the Russian steamer Solovki visited in on his voyage to Nova Zembla. His account of the tragedy reached here this week.

DIARY TELLS STORY

A miserable but true tale of the tragedy. There one of the sailors found a "diary" left on packing paper.

"We are without food. We can catch nothing but a few tiny fish. Our children are dying of scurvy. We are all with scurvy. Seven adults and nine children have died in a few days."

"We hurried down to the beach today because we thought we saw a trail of smoke on the horizon. It was nothing but an illusion."

"The children are only nursing. We are awaiting and hoping. One by one my companions are dying. Our sufferings are terrible."

"Now we are only four men and two women. The children are all dead."

"Two of my companions who kept themselves alive by eating polar human flesh, have just died."

"The two women have killed themselves with knives. My two last companions die this morning. My sufferings are horrible."

"The weather is splendid. The sunshine is bright. I am dying."

"Beside the diary lay a skeleton."

Mexico's Troops To Be Ready Aug. 1

NOGALE, Ariz., July 23.—A special dispatch to the Herald from Mexico City today said that the Secretary of War in the cabinet of President Calles had ordered all federal troops in the Republic to be under arms and ready for instant action on Aug. 1.

At that time, reports previous have stated, the Catholic churches throughout the nation will be closed and orders from high ecclesiastical officials.

SOME SYMPTOMS OF THIN BLOOD

Everybody Should Be Able to Recognize Them Because Early Treatment Is Important.

Anemia, or lack of blood, is a stealthy disease and is often undetected before it is recognized. It is much easier to correct in its early stages, but if unchecked causes weakness, loss of weight, lack of vigor and ambition.

Some symptoms of anemia are loss of appetite, indigestion, headaches, sleeplessness, shortness of breath after slight exertion, and often extreme nervousness. If you have any or all of these symptoms begin treatment now with Dr. Williams' Pink Pills, the tonic which will make the blood rich and plentiful. Every part of the body will respond to this treatment as is shown by the case of Mrs. Isaac Bell, St. Port Anson, Ont., who says: "A few years ago I was a very sickly woman. I was all run down and my nerves badly shattered. I had taken doctor's medicine, but as I got no help from it, I tried other medicines, but with no better results. One day while reading a newspaper, I came across an advertisement of Dr. Williams' Pink Pills describing a case very much like my own. I decided to try them, and by the time I had taken two boxes I could feel the benefit I was getting from them, so I cheerfully continued the treatment and was soon a well woman in better health than I had enjoyed for some years. In view of what Dr. Williams' Pink Pills have done for me I cheerfully recommend their use to all weak, run-down people."

Dr. Williams' Pink Pills are sold by all druggists, or may be had by mail at 80 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont. A free booklet, "Building Up the Blood," will be sent to any address on request.

68 SEAMEN TAKEN OFF STRANDED SHIP

25 Passengers Rescued Just After Grounding of Freighter

NEW YORK, July 23.—The 68 members of the crew of the British steamer Port Kembla, stranded in the Bahamas, were taken aboard the United Fruit Line freighter Maravi today.

The Port Kembla, of the Commonwealth and Dominion Line, piled up on Watling's Island rock a week ago while on the way from London to New Zealand, via the Panama Canal. At that time 25 passengers were taken off but the crew stayed with their ship, not believing it in immediate danger.

Yesterday Captain McClellan, of the Maravi, turned from his course on receipt of a message that the Port Kembla was breaking up. In a brief message to the officers of his line here today, he reported: "Succeeded in taking 68 members of crew, without accident, from steamship Port Kembla. Proceeding to New York. Will arrive Monday afternoon."

CUMMINGS SETS UP A NEW RECORD

Veteran Walking Champion Establishes Mark in One-Hour Event

Canadian Press Despatch. LONDON, July 23.—George Cummings, the veteran walking champion, beat the world's one-hour record on the Paddington track, covering eight miles, 848 1/2 yards. The previous record was set in 1882 by the American, J. Meagher, who accomplished eight miles 802 yards.

"My secret," says Cummings, "may be summed up in three words—'regularity of training. I don't smoke but I am not a teetotaler. I intend to attempt to walk fifty miles for twenty days, maintaining a speed of five miles per hour for the whole of the journey."

FRAUD CHARGED IN 115 BANK FAILURES

Grand Jury Investigating Financial Operations in Florida and Georgia

ATLANTA, Ga., July 23.—Evidence that bank funds had been used for bucket shop speculation and that fictitious transactions had been resorted to in an effort to hide funds unlawfully diverted has been unearthed by investigators into the affairs of the Bankers' Trust Company, Solicitor John A. Boykin announces.

Bankruptcy proceedings against the Bankers' Trust Company were followed by the closing of approximately 115 banks in Georgia and Florida. Many of these were members of a chain served by the Bankers' Trust Company as fiscal agent.

"Everything indicates that bank funds involving large amounts have been squandered by certain individuals in Atlanta in bucket shop speculations," Mr. Boykin said. "No local pride or influence of any kind will deter me from the vigorous prosecution of the guilty parties."

YACHTSMEN HAVE CONCERT AT CEDARS

Fleet Away Today For Crystal Beach Where Service Will Be Tomorrow

The yacht Cliona, Dr. J. H. Barton, captain, went ashore at Oak Point yesterday afternoon while the R.K.Y.C. cruise was on its way down river from Jenkins' Cove to the Cedars. An R.O.S. call was sent out and Ronald Miller, vice-commander of the fleet, responded. The crew of Vice-Commodore Miller's yacht had little difficulty in hauling the Cliona back into deep water. The yacht was not damaged.

The fleet left Jenkins' Cove at 10 o'clock yesterday morning for the Cedars, instead of Henderson's Point, as first mentioned. After the evening meal, Harry Holder's Wanderers maintained their baseball reputation by trouncing the nine from the Vagabond and Villan yacht crews by a score of 12 to 2. Messrs. Ellsworth and Hawkins kept the sailor fans in an uproar with their umpire decisions.

The service was a very impressive one and was attended by practically the whole countryside, the young couple having been well known and highly esteemed in the community. Miss Proctor lost her life in an attempt to rescue Goggin from drowning when the two were swimming at Perry's wharf. Goggin had suddenly disappeared below the surface of the water and Miss Proctor, seeing his plight, went to his rescue but was pulled under by the drowning man.

How a Wife Can Keep Step With an Up-and-Coming Husband—Shall She Marry Her Tightwad Fiance?—Advice to All Flappers Who May Have "Steadies."

DEAR MISS DIX—I am 23, married and have a 4-year-old son. My husband and I married when we should have been in school, but he has studied at home since we have been married and now holds a responsible position, while I save stayed right where I left off. We will soon be invited to meet the kind of people who will make him ashamed of me and that will hold him down. So I have thought of taking my boy with me and leaving, but will that be fair to my son? Please tell me what to do. R. R.

ANSWER: For Heaven's sake abandon the crazy idea of leaving your husband in order to help him. Do you think it would be any help to him to break up his home and part him from the wife and child he loves? Why, it would tear the heart out of his bosom and do more than any other thing to detract his thoughts from his work and cripple his efficiency.

Do you think it does a man any good in his business and increases the respect that his employers have for him for his wife to leave him? On the contrary, it hurts his reputation almost beyond repair. Many big business concerns lay great stress on the domestic relationship of the men they employ, for they have found out that a man does better work, is more competent and more ambitious than is the man who gets along badly with his wife and whose mind is always upset by the quarrels he has at home.

You made a great mistake in not keeping up with your husband and in not studying with him. A woman who is a coming husband has to keep step with him or else lose him. But you are still so young that it is not yet too late to retrieve your error, and my earnest advice to you is to put your pride in your pocket and go back to school.

I don't mean that literally, unless it is possible for you to take some courses at college. But you can get a private teacher and have her come and give you lessons every day in literature and history and also teach you the social amenities that will make you feel at ease in the society whose doors are about to be opened to you by your husband's success.

And you can read, read, read, not foolish, silly books and magazines merely to pass the time, but things that are worth while and that will educate you.

You are right in thinking that your husband will be ashamed of you if you are frumpy in looks, if you are dull and ignorant and if you do not know which fork to use. The remedy for it is not to run away, but to have the grit and courage to overcome your handicaps.

If you do not know how to dress don't try to pick out your own clothes. Put yourself into the hands of a good dressmaker. If you had no social training in your youth get some society woman who needs the money to teach you to rise up and sit down, what to say to people when you meet and how to eat. If you lack education get a good teacher to correct your grammar and your pronunciation and direct your studies.

You can make yourself over if you will. It is just a matter of courage and determination. DOROTHY DIX.

DEAR MISS DIX—I am engaged to be married to a young man who makes a good salary, but he always comes to see me empty-handed. Never a box of candy or flowers, a gift or any other little thing that women love. Occasionally he takes me to the movies or treats me to ice cream once in a great while. I don't think he is really stingy, I believe he just doesn't think to do the nice things. Would you advise me to marry him? PAULINE.

ANSWER: I certainly would not, Pauline. If this chap isn't a tightwad, he certainly has got all the earmarks of one, and I wouldn't take a chance on being mistaken in the family resemblance.

For of all the aggravating, hard-to-engage husbands in the world, none is so trying as a wife's career and temper and none so difficult to live with as a stingy one. By comparison with him, a boaster, a phillanderer, even a drunkard or a wife-beater is a household pet.

If you marry a miserly man he will begrudge you the very food you eat. He will never give you a cent or take you to any place of amusement, and he will make the first of the month when the bills come in, a day of wrath for you that will make you wish you had never been born. There will be no pleasure or joy in life for you—nothing but penny-pinching and nickel-nursing. And no matter how thin you pare the potatoes, your husband will always be shopping in the garbage can and accuse you of being wasteful.

Don't fancy a man with a Yale lock on his pocketbook if you know it beforehand. And don't delude yourself into thinking that the young man who never takes his sweetheart anywhere when he is courting her or never makes her a present is simply "careless" and doesn't think it is just that he is more careful of his money than he is of the girl's pleasure and is thinking about saving his cash instead of her feelings. Be warned in time. DOROTHY DIX.

DEAR MISS DIX—Can a fellow be sincere when he asks a girl whom he has just met for the first time to go steady with him? FLAPPER.

ANSWER: Certainly the man may be sincere, since it costs him nothing to be the girl's "steady" once a few invitations to places of amusement. It merely means that he found you attractive and if, on further acquaintance, you lose your charm for him, all he has to do is just fade away.

But whether the man is sincere or not, you will be a goose to let any chance acquaintance, who may or may not have serious intentions, monopolize your time and money. The "stepping-stone" system is a grand graft for men, but it's a losing game for girls, and the girls are very much lacking in good, hard, horse sense and in head.

It gives to the man all the privileges of an engagement. He keeps all other men away. He drives away suitors who might mean matrimony. The girl has to depend upon his pleasure for all of her good times, instead of having half a dozen other men ready to take her about.

He monopolizes her company and even arrogates to himself the right to control her conduct and say what she shall do and what she shall not do, but he commits himself to nothing. He is not betrothed to the girl. He has never asked her to marry him. He may never do so. And if he gets weary of her he can go off and leave her for some newer fancy. Copyright by Public Ledger.

"WHEN I WAS TRAINING in the boxing game, my body broke out all over with boils. The doctor advised me to stop eating meat and to eat Fleischmann's Yeast three times a day. This I did and can honestly say in six weeks I was well and back in training. I can honestly recommend Fleischmann's Yeast for boils and as a wonderful tonic." John Baby, Toronto, Ont.

SEE-SAWING ON THE BROADWAY

SCATTERED notes from an afternoon's ramble about Manhattan: Old pretzel eaters peeling from their day's weary plodding. They gather in the shadows of late afternoon. About them grace dirty-faced children. Children with the faces of the world, smeared by the dirt of New York streets. The and little stacks of pretzels rest in rows along the benches. Bearded heads sag wearily against solid vests. A venerable son of Falter takes off his heavy shoes and rubs his feet across the matted grass. They sit grubbing over the day's trade. Times have changed. Every body handles pretzels now. Drugstores, soda fountains, corner stalls. And yet someone must carry on the colorful trade of pretzel hawkling. And only a few dimes to show at the end of the hot day's tramp.

THE Aquitains lying at pier. And all about are lighters and barges, like so many green and red and black water-springs. Shaking in and out. Just alongside the ocean giant a barge of brightest green. Winches squeak, cranes sing a weird, strained chorus, giant chains rattle. All the notes of a great liner loading for sea.

The little green barge huddles close. A plump, ruddy-faced woman emerges from the tiny square room atop the barge. She has a monthful of clothespins and, quite oblivious to the surroundings, begins to hang up the day's wash. Then she sits down, as unconcerned as any housewife on a farmyard porch and begins darning socks. A few moments later she reappears with a sprinkling can and begins to water a little box of bedraggled geraniums. About is the bustle of getting to sea. One pier away the liner Columbus slips out. The green barge rocks clumsily, sirens shriek and the deafening bass of a dozen whistles sounds. The mistress of the barge does not so much as look up. She is too busy snipping dead leaves from the flower box.

ALL is bustle along the pier. Tourist travel overseas is at its height. Taxicabs form an endless pageant of yellow, red, gold, white. Crowds jam the docks waving and shouting at friends aboard ship. As usual there is the man who arrived too late and who strides self-consciously holding the great bouquet of flowers he intended for "the girl friend."

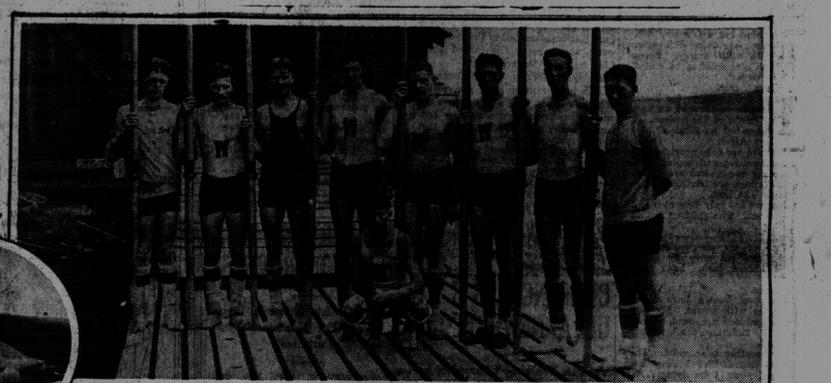

Frantic voted hucksters are making last appeals. There's no chance of forgetting anything. The scores of pier tradesmen see to that. Flower vendors, book vendors, peddlers with trays of trinkets hung to their necks. And the little shops aboard the liners where one may get a last-minute farewell gift. And pay well for the last-minute service.

But the ruddy-faced woman on the barge has seen all this so many times. She has her "home duties" to attend. And home is a little railed-off coop atop a barge, with a three-foot flower box and a crippled rocking chair on the deck.

HEALTH TRIUMPHANT

They conquered constipation, skin and stomach disorders—found fresh vitality, new joy in living—through one natural food

NOT a "cure-all," not a medicine in any sense—Fleischmann's Yeast is simply a remarkable fresh food.

The millions of tiny active yeast plants in every cake invigorate the whole system. They aid digestion—clear the skin—banish the poisons of constipation. Where cathartics give only temporary relief, yeast strengthens the intestinal muscles and makes them healthy and active. And day by day it releases new stores of energy.

"I AM A DANCER. Three years ago I had so much indigestion and constipation that I got terribly run down. I was too tired and nervous to take my lessons. A lady recommended yeast. The constipation was relieved and I had much less trouble with gas. Now I am strong in every way." Isabelle Barlow, Fort Lauderdale, Florida.

FLEISCHMANN'S YEAST IS MADE IN CANADA

"ABOUT A YEAR AGO I was run down. A friend suggested that I try Fleischmann's Yeast. I am convinced that it has been of much benefit to me. I know that my physical condition is improved and I expect to continue the use of the Yeast regularly for some time to come." Chas. W. Holtschamp, St. Louis, Mo.

THIS FAMOUS FOOD tones up the entire system— aids digestion, clears the skin, banishes constipation.

8,493 ASSISTED
PASSAGES GIVEN
BRITONS TO CANADA

Figures Apply to First Five Months of Present Year

LONDON, July 23.—The Dominion's Secretary states that the sailings for Canada under each of the assisted passage schemes during the first five months of this year were as follows: Juveniles (14 to 17 years), 361; 2,000 family settlement scheme, 2,501. Total 2,862. Minor schemes, Society for Overseas Settlement of British women, 84; British Dominion's emigration society, 210. Grand total, 3,463.

It is not possible to state the number of applicants who were not accepted as the greater number of applications are made at the local offices of the Canadian Government agents throughout the country, and only those which seem suitable for acceptance are forwarded to the director of migration in London.

Concerning the annual report of the society for the overseas settlement of British women, the journal Truth remarks that the shortage of domestic servants here is so severe that many housewives probably regard it as a strange anomaly that public agencies should be set up for inducing girls to go out as "domestics" or "helps" to Canada and elsewhere.

It does not appear, however, that this recruiting of servants for colonial or dominion households is very successful. The most inspiring talk about the claims of empire development does not overcome the growing and general disinclination for domestic service.

Women's Hospital
To Make Appeal

TORONTO, July 23.—The Women's College Hospital is shortly to make an appeal in connection with a plan for the enlargement of the hospital, for which \$500,000 will be required. The hospital was organized 80 years ago as a small dispensary in connection with the Ontario Medical College for Women. In 1914 a house on Rusholme Road was secured, and a 25 bed hospital opened. Four years after the overcrowding and the ever increasing demands made necessary an extension to this building, and in 1918 a new wing was added, increasing the capacity to 50 beds and 25 baby cots. The hospital will be, as it now is, a hospital for women, staffed by women physicians.

SUICIDE'S WILL STANDS

Ontario Court Upholds Testament of Man Made Shortly Before Ending Life

TORONTO, July 23.—Mr. Justice Lennox has dismissed an action by Albert Hollingsworth to set aside the will of his brother, William, a farmer of Essex county, who committed suicide by throwing himself into a well. The will was made a few hours before the suicide, but Mr. Justice Lennox holds that William Hollingsworth was of sound mind.

Women's Hospital
To Make Appeal

TORONTO, July 23.—The Women's College Hospital is shortly to make an appeal in connection with a plan for the enlargement of the hospital, for which \$500,000 will be required. The hospital was organized 80 years ago as a small dispensary in connection with the Ontario Medical College for Women. In 1914 a house on Rusholme Road was secured, and a 25 bed hospital opened. Four years after the overcrowding and the ever increasing demands made necessary an extension to this building, and in 1918 a new wing was added, increasing the capacity to 50 beds and 25 baby cots. The hospital will be, as it now is, a hospital for women, staffed by women physicians.

Mrs. Archibald C. L. Tapley entertained at a small and very enjoyable afternoon tea at her summer cottage, Duck Cove, yesterday in honor of Mrs. George Baker, of New York. Tea was served in the sunporch, which overlooks the blue waters of the Bay of Fundy. Mrs. C. D. Wilkins, of Wheeling, West Virginia, presided over the prettily appointed table, which was centered with pink roses and forget-me-nots. Assisting with the delicious refreshments were Miss Virginia Spangler, Miss Frances Beatty, Miss Mildred Parker, Miss Cecily Kirby and Miss Margaret Tapley. The guests were the summer residents at the Cove and their visitors.

The following clipping from the Cleveland News is of interest to friends of the bridegroom in Saint John: "The wedding of Miss Patricia Novy, daughter of Dr. and Mrs. A. T. Novy, Lake Shore Blvd., to Mr. J. Willard Cunningham, son of Mrs. and the late G. Cunningham, of Saint John, N. B., Canada, was solemnized at the home of the bride's parents on Saturday, July 10. Rev. Charles Kohler officiated at the double ring ceremony.

"Miss Novy wore a gown of white bridal satin, trimmed in Venetian lace with her veil held by a coronet of orange blossoms. She carried a bouquet of bridal roses and valley lilies. She was attended by Mrs. G. K. Montgomery as matron of honor, who wore a frock of orchid georgette trimmed in tulle, carrying an arm bouquet of Opheila roses.

"Miss Lillian Cunningham acted as bridesmaid, wearing a gown of peach georgette and carrying a bouquet of pink roses. Mr. William Gray, Swampscott, attended Mr. Cunningham as best man.

"Dr. F. D. Novy and Mrs. G. K. Montgomery were ushers, while Misses Thelma and Norma Prosek assisted in placing the guests. Little Doris Cunningham attended as flower girl. A reception was held after the ceremony at the home of the bride, Lake Shore Blvd., at which upwards of sixty-five guests were present. The house was beautifully decorated with palms, ferns and a profusion of lilies and roses. Mr. Cunningham and his bride are motoring east for their honeymoon.

"The bridegroom is a grandson of Mrs. A. Proffit and a nephew of Mrs. A. H. Williams, 61 St. David's street, this city."

WHY
Bonny
BREAD

Is A Perfect Food

FOR very many years, bread was not regarded as a perfect food in itself, because, in the making, it lacked the fat without which it could not be perfect as a food, and so, arose the custom of spreading bread with butter to supply the needed fat. IN BONNY BREAD is used CREAMY COWS' MILK, sweet and fresh which gives to Bonny Bread the right to be called a perfect food. Then again, the very purest and best of other nourishing materials are used in the making of Bonny Bread—which needn't be spread with butter because the Rich, Creamy Cows' Milk makes Bonny Bread a Perfect Food.

N. B. EMBLEMS OF INTEREST TO VISITORS HERE

Archives Article Refers to Coat-of-Arms and Other Symbols

At this time, when the province has many visitors and tourists, a sketch of New Brunswick symbols or emblems which have been handed down through the years will not be amiss, as many from other places have close interest in these matters.

The following is taken from the records of the Saint John branch of the Dominion Archives, 59 Princess street:

PROVINCIAL COAT-OF-ARMS.

The coat-of-arms was adopted in 1868, when the royal warrant of May 20 assigned armorial bearings to the Canadian provinces. They have been described thus: "Or a galley proper (floating in a blue sea) in chief gules a lion passant of the first or surmounted by the crown. The history of the coat-of-arms is closely interwoven with that of the provincial seal.

When New Brunswick became a separate province in 1784, the Imperial Government granted a seal for its own use. This seal is that "Great Seal for New Brunswick" sent out from England by Lord Stanley, Secretary of State to Governor Carleton, in 1785. As was the custom of those days, the seal was impressed upon a thick disk of wax attached by a band of tape to a document. It bore the British coat-of-arms on the obverse side, with the inscription *Georgius tertius dei gratia Britanniarum rex fidei defensor*. The reverse side had a row of tiny cabins sheltered by tall pine trees and a lone ship sailing up a river, with the motto, *spean reunita* (she restored hope). Around the outer edge are the words *Sigilli Provincie, Nov. Brunsv. This was the seal used by New Brunswick until Confederation.*

In May, 1869, a warrant was issued

Self-Defence Plea

THAT he shot in self defense will be the plea of Rev. Frank Norris, above, Fort Worth, Tex., known as the "Texas Torpedo" when he answers the charge of murder placed against him following the shooting to death of D. E. Chipps, lumberman, in the study of Norris' church, Chipps, Norris says, threatened his life. Norris preached in his pulpit, within 50 feet of the study, the next Sunday on "Faith."

OLD-FASHIONED GOSPEL

Rev. Mr. Lechlitter is a firm believer in the so-called "old-fashioned gospel." He holds no brief for those who say that modern youth will not regard it. It will serve if it is given only half a chance he asserted, and soon all it is in his home that it counts. What can a minister do in forty minutes when in ten all that he may have said is nullified by a word across the dinner table? he asked.

Spoken of prohibition which is a universal topic with United States visitors, Rev. Mr. Lechlitter said that he did not believe that the law would be altered or rescinded.

He added that he believed that the principle of prohibition was wrong. He said that the proper way to save lives. Compulsion was wrong, ideally, but sometimes it had to be resorted to, he explained.

Rev. Mr. Lechlitter said that he wished to be very careful in his declarations regarding the American family. While it was true that the common run of people had forgotten all those old family rites of worship there were others, which had long since distinguished for their decent ways, that still persisted, as they did in Canada. This was particularly true of the southern states he explained. Lechlitter is a native, his home-city being Tampa, Florida.

Rev. Mr. Lechlitter has gone to Moncton, where he will preach tomorrow.

SAYS HOME LIFE IS SWEEKED IN PARTS OF U.S.

Buffalo Minister, Native of Florida, Speaks of Modern Conditions

That there is a breakdown in the home life of some of the United States cities is the opinion of Rev. F. Lechlitter, Baptist minister of Buffalo, N. Y., who is spending a vacation in this province. The desire to "kick out of life" is responsible for the break down of the home, and the home always has been the centre of good things that are sacred, he added. People wanted to have too good a time and when the children suggest something on Sunday morning parents comply and there is no attendance at church. Parental obedience is practically a thing of the past, he added.

"The church thus was blamed for the failure, when it is really the same hour. The church comes second. The family was created first and always will be first. The church should not be first. It should serve, to conserve Christian ideals, be a living example to non-Christian people of what families should be.

DOMINION RIFLEMEN WILL BE IN FORCE AT CONNAUGHT SHOOT

MEETING WILL DRAW SHOOTERS FROM ALL OVER

D. C. R. A. Contests Expected to be Best Since War

OTTAWA, July 24—Canada's national rifle shooting meeting, opening August 17, familiarly known as "the D. C. R. A." before this year's meeting, is expected to be the largest since the year 1918, or before the war, and it is expected that there will be an increase in attendance of competitors of more than 100 from all over the Dominion. Rifle shooting has shown great progress during the last year, and the summer shooting now under way shows a 100 per cent. increase in attendance at the various ranges over 1925. Last winter 477 teams took part in the indoor competitions as compared with 128 teams two years ago. Toronto reports 400 men shooting every Saturday, and similar reports come from all the large cities.

The "D. C. R. A." program this year has not been changed materially from that of last year, but any of the changes made will meet with general approval, particularly that portion which adds 15 prizes to the list of each of the important matches, ensuring for the new shot a good chance of coming into the money more frequently than in the past. The Governor-General's match will be shot this year in the usual two stages, but the final stage will be at 800 and 900 yards, when 15 shots must be fired at each range. Both ranges of the Governor-General's match will this year be in the Grand Aggregate, and aperture sights will be permitted at all ranges of all the squadrons competing in the aggregate.

KING'S MEDAL CONTEST
The King's Medal competition has been taken out of the middle of the week and will be held on Friday afternoon as a distinct event. The Goswold and Dunderdale matches will be conducted as team events, as they were in the old days at Rockville, and will have no connection with the King's Medal match. The contest of the King's Medal falls for 4 practices. The first is for deliberate shooting at 200 yards. This will be followed by the fire with movement practice, which means that the competitor will start from 400 yards and will be expected to take up to 100 yards. The target will be exposed for 45 seconds for each two shots, and in the interval between the exposure, which is only 15 seconds, the competitor prepares for the next round. When the target appears he must run to the next firing point, 100 yards away, and fire two shots, all within 45 seconds. This will be followed by rapid fire competition at 200 yards, which is followed by a snaphooting test at the same interval between the rapid fire shots at a standard target, in 40 seconds, and the snaphooting is at a 25-inch disc which is exposed 10 times at irregular intervals.

SOME ADDED FEATURES
An added feature in the King's Medal match will be a team competition, for teams of four men whose combined scores make the highest total. For this match General Sir Arthur Currie is offering a valuable trophy, and the competition for this should be very keen.

In the Service Revolver Match, the 45 Colt has been admitted on equal ground with the .45s, as a concession.

Amateur Nine Tours 6,000 Miles To Play

Although Canada has no two great professional baseball circuits like the United States its amateur nines appear, if anything, busier than those in that country. The Orlers, senior amateur champions of Toronto, recently completed a 6,000 mile tour which took them to the Pacific Coast. During the three weeks of the tour these amateurs played fourteen games, of which they won ten and lost four. They met the teams of Cooper, Cliff, Winnipeg, Vancouver and Regina. One of the chief objectives of the tour was to cement the ties of sports between the East and the West. The amateur baseball groups of Winnipeg and Vancouver financed the expedition with this end in view. Their trip aroused such enthusiasm that the Orlers were invited to repeat next summer and the Ashik all-Japanese team of Vancouver, is endeavoring to arrange a series in Japan.

The Orlers are proud of their record, which included such strenuous activity as three games in one day on Dominion Day in Winnipeg.

ROYALS Landed On For 16 Hits When Baptists Lose Exciting South-End Game—St. Roses on Short End of City League Score

The Royals came back on the South End last evening and defeated their old-time rivals, St. John the Baptists, the final score counting eight for the winners and seven for the losers.

"Tack" Dalton was again on the mound for the Baptists but the Royals pounded him for 16 hits, while the best his team could do was to collect seven. They fielded well, however.

The Royals apparently went on the rampage and were out to clean up their defeat of the night before. Dalton had three bingles out of five trips to the plate and seven assists. His team was credited with four errors, while the Royals had three. "Tack" had two.

The game was one of the most exciting of the year. Paul worked for 1 1/2 hours, and was finally relieved by the late and had seven assists. His Paul and Harper fielded well for the winners, while Leslie's one hand catch was easily a feature of the game.

BANGOR, Me., July 23—Dan Clancy, well known baseball player, who has played on many teams in the province, began the season with Lewiston in the New England League but has jumped to Bangor-Brewer in the Maine League, where he is clean-up man in the batting order and does often. Clancy is playing against some of his old teammates, as he was for the past two seasons with Ben House's Bar Harbor team. Captain Edmond Gibbons, of the original "St. Peter's Midgets" baseball team, gave out the following information last evening:

Polo Tourney At Cobourg Next Month

Polo teams from Montreal, Pittsburgh, Toronto, Buffalo and Rochester will compete in the annual polo tournament at Cobourg, Ontario, the first week in August. The tournament is held annually in connection with the Cobourg Horse Show. It had been intended to omit the horse show this year, but Sir Clifford Sifton and other Toronto fanciers were anxious to show their jumpers and hunters, so that at least several contests will be arranged.

At all events the polo tourney will be held, and the Montreal four is making a strong bid for the honors. The Montrealeers have been practicing daily in preparation for the event and have had a number of keen competitors with other teams so that its followers feel confident of a good showing. The team will be composed of W. W. Ogilvie, H. C. MacDougall, H. Gordon and Doel.

McADAM TEAM TO PLAY TWO GAMES

Will Play Alerts This Afternoon and St. Peters This Evening

It was announced last evening that the McAdam Junction baseball team will be here today for two games on St. Peter's park in an Independent Amateur offering. In the afternoon the visitors will line up against the newly reorganized Alerts and a good game is anticipated. The Alerts in new hands have shown great improvement and they turned the tables on St. Peter's Thursday night. The choice for hurling will be between Parise and Beatty.

Beavers Climb Out Of Cellar Position
The Beavers moved out of last place in the Intermediate League last night when they defeated the Glenwoods on the Allison grounds by a score of 11 to 6. The winners put the game on ice in the third inning when they secured six runs. The losers staged a come-back in the six but good relief pitching by Beatty saved the day. "Swamp" Southern was the individual star of the game. He hit three hits and came through with a beautiful one hand catch.

ROYAL PARTY WILL WITNESS YACHT RACES
King George to Participate With His Yacht "Britannia"

LONDON, July 24—The floating palaces of millionaire yachting enthusiasts are already beginning to gather at Cowes for the great yachting week, which makes a charming addition to the London season from August 2 to 7.

King George and Queen Mary will live on board their "Victoria and Albert" and each day the King will race his great yacht the "Britannia." "Britannia" has a taller mast and an entirely new suit of sails, and the design is expected to improve considerably her performance in light breezes—always a weak point with her and an entirely new venture off the "Victoria and Albert," which is kept moored in one of the smoothest spots of the Bay.

How To Swim

SHOWING CO-ORDINATION OF LEGS AND ARMS
WHEN one is learning the dog-paddle the first thing to be attempted is at speed or long-distance swimming. These will come with other strokes. The dog-paddle is the first to be learned and is only learned to give one confidence in the water and ability to propel the body through the water.

It is also useful in perfecting the scissors kick of the legs, which is important matter as any stroke. Unless the arms and legs are co-ordinated perfectly, there will never be any real swimming. The muscular smoothness of the body when swimming with as little exertion as possible, except when there is necessity for unusual exertion, is a matter of co-ordination with legs—right arm and left.

MAYOR URGES PRESENTATION OF PORT CLAIMS

Suggests Special Case at Session of Duncan Commission Here

MAKE FREE PORT IS ONE IDEA PUT FORWARD

Would Ask That City be Repaid for Furnishing National Traffic Facilities

That while the Royal Commission on Maritime Rights was sitting in Saint John some attempt should be made to present the special claims of this port for adequate development was the opinion expressed this morning to the Times-Star by Mayor White.

His Worship said that while he had no doubt the claims of the Maritime Provinces would be adequately presented in the general brief submitted by the governments of the three provinces the Port of Saint John had a special plea to make. It should be impressed on the members of the Duncan Commission, he said, that Saint John was not a sub-station for Montreal in the winter time, but was an all-year-round port and deserved to be treated as such in the scheme of national development.

FOR FREE PORT.

Provisions should be made here, he added, for handling traffic in summer as well as winter and the port should be made free. In this connection His Worship said that a "free port" did not necessarily mean one where no wharfage charges were made. In Europe a "free port" meant one where certain entry of raw material and the free shipment for the finished article to other markets. A free port in this sense, His Worship thought, was a good thing for the city and the Dominion.

REIMBURSE CITY

He also stressed the necessity for additional facilities at the port and the repayment to the city of the sums which the citizens have spent to furnish terminal facilities for the benefit of the country as a whole and in order that Canadian shipping might be carried through Canadian channels. He felt these matters should be brought to the attention of the commission which it was here.

RAILWAY MAN DIES

George B. Latimer, C. N. R. Yardmaster Here Passes Away in North End

Friends in Saint John and vicinity will learn with sorrow of the death of George B. Latimer, son of the late James and Elizabeth Latimer, which occurred yesterday at his home, 186 Adelaide Road, after a short illness, at the age of 42 years.

Mr. Latimer was yardmaster for the C. N. R. here and had been in the service for 28 years. He is survived by his wife, formerly Miss Winifred Lane; three daughters, Misses Margery, Betty and Winifred, all at home; one sister, Mrs. A. S. Proffit, and three brothers, William, James and John, all of this city. The funeral will be held on Sunday afternoon from his late home, service at 2:30.

WORKED WITH DELANEY

Joseph Pratt, Francis Pratt and John Breenan, of Ansonia, Conn., have returned here by automobile and will return this evening to their homes in the United States. They will be accompanied by Jack Gorman, brother of Charlie Gorman, who has been visiting his parents, Mr. and Mrs. John Gorman. Joseph Pratt is a sparring partner of Jack Delaney and helped him prepare for his recent fight with Bertin. Mr. Pratt said that Delaney was a wonderful fighter. The party were at the Victoria hotel.

SEE THE FALLS

At high tide the water of the Bay of Fundy reaches a higher level than the water of the Saint John River and flows its way through the gorge of the Falls, creating a "Falls" up river.

At low tide the water in the Bay becomes so much lower than that of the river, that the fall of water is reversed and flows down river into the Bay.

At high tide, when the level in the Bay and River are about equal, the Falls becomes smooth and the water at the Falls becomes smooth as the surface of a lake.

To fully appreciate this wonder of the world it should be seen at all three stages.

The best time to view this phenomenon is:

GIANT STRAWBERRIES

A fine example of the size and quality of the cultivated strawberries that are raised in New Brunswick was seen by a Times-Star reporter this morning in a lot brought to the market from the farm of Roy D. "Samples" is the name given the variety that Mr. Boxold grows, and he expects to harvest 1,000 boxes this season.

It was reported at the office of the New Brunswick Telephone Co. this morning that there had been good recovery of telephone service after the storm of Thursday night. W. E. A. Lawton Hopes for Cement Plant at Saint John

PLANS REAL ESTATE MEN'S MEET IN CITY

Goes on Cross-Canada Journey to Occupy Eight Weeks

W. E. A. Lawton, Saint John real estate operator, will leave tonight on an eight-week trip to the Pacific Coast, during which he will visit all of the principal cities in Canada and in the United States along the Canadian border. He hopes that a result of this trip a large manufacturing plant will be established here, and also that interest real estate men in the west in the development of this section of the coast.

Mr. Lawton has always been a booster for Saint John, and with his faith in the future of the city he hopes to bring others to see it as he does and invest here.

CEMENT PLANT

For about a year now Mr. Lawton has been working toward the securing of a cement manufacturing plant here. He said today that he has now the control of 180 acres of the best clay for the making of cement which has ever been analyzed, and that there are large deposits of lime in the immediate vicinity of the clay deposit. The first of the week he will meet capitalists in Toronto to discuss with them the building of a plant here and hopes to be able to announce on his return that work on the erection of the necessary buildings will begin soon.

From Toronto Mr. Lawton will continue his journey to the coast and as far as Portland, Ore. In each city he will consult real estate men and discuss with them conditions here. He hopes to bring back word that in June of next year there will be a convention of real estate men from all parts of the Dominion and cities in the United States along the Canadian border.

During Mr. Lawton's absence his Saint John office will be in charge of his son, William R. Lawton.
