SKATING CLASSIC RESUMED THIS AFTERNOON AT 2 O'CLOCK

LINCOLN RELIC GUARDED BY STATE

Original of Emancipation Proclamation Held in a Steel Vault.

First Draft of Washington's Farewell Address Also in Possession of the State.

Albany, February 16.—While State and nation were observing the anniversary of Lincoln's birth, probably less than one hundred persons are aware that the original of Lincoln's first emancipation proclamation, bearing date of September 22, 1862, is kept in a steel vault in the basement of the State Education Building, in this city.

The Lincoln papers came into the possession of the State library some years ago, and are regarded as among the most valuable in the entire collection. Not only are the papers kept in the bank-like vault, but in the center of this vault is another steel chest, which further protects the documents and relics.

TAUGHT 54 YEARS IN ONE COLLEGE

Continuous Service of Vermont's Dean is Probably a Record.

Burlington, Vt., Feb. 16.—Fifty-four years of continuous service in one institution, given Dean George Henry Perkins of the University of Vermont a record for active teaching the equal of which probably cannot be found in any American college.

Dean Perkins came to Vermont as an instructor in the natural sciences shortly after his graduation from Yale. During the half century he has seen many changes, external and internal, but the dean is impressed above all else with the marked similarity of the college student of today with the student of half a hundred years ago.

INTO THE INNER CHAMBER OF TOMBS OF KING ON SUNDAY

London, Feb. 16.—Although the formal opening of the inner chamber of King Tutankhamen's Tomb has been fixed for next Sunday, when the Queen of Belgium, the Egyptian ministers, Commissioner Allenby and other notables will be present, several correspondents at Luxor say that a hole will be pierced today in the wall of the chamber.

ICE KINGS AND QUEENS ON WAY TO ST. JOHN

Star Skaters just before leaving Montreal for International Meet here.

Standing, left to right—Al Nobler, Johnson City; H. A. Perleberg, Cleveland; Ed. Gleser, Toronto; Fred Logan, St. John; Robert Reed, Chicago; Willie Logan, St. John; W. Brennan, N. Y.; Central Ry.; Joe Moore, New York; Richard Duffer, New York; Newsman, Hudda Ruckert, Joe Page, Montreal; Harry Kasky, Chicago; Gladys Robinson, Toronto; Wm. Steinmetz, Chicago; Bobby Hearn, Brookline; Wm. Fisher, Johnson City; Julian Steinmetz, Chicago; Edward Reed, Chicago; Orrie Green, Jr., Saranac Lake; Valentine Bias, Jr., Lake Placid; Karl Minis, Plattsburg; Jack Redfern, St. John; Richard Donovan, Johnson City.

Bottom row—Left to right—Paul C. Forsman, New York; Roy McWhirter, Chicago; Pat Corcoran, Johnson City; Emery Stevenson, Toronto; Charles Gorman, St. John; A. J. Hollander, Milwaukee; William Murphy, New York.

Keen Ice and Bright Weather For Meet At Lake This Afternoon

THE 440 AND MILE EVENTS BIG SKATING FEATURE TODAY

Programme to be Started at Two O'Clock and Stirring Contests Assured—Sun Will Help a Lot for Comfort.

The races are on! Many people in the city waited in tense excitement at eleven o'clock today when the blaring of factory whistles broke out on the stroke of the hour there was a exclamation of pleasure.

A report from Ken Haley, chairman of the track committee, this morning after a visit to the lake, announced that the skating surface was in excellent condition and the wind dying down.

THIS AFTERNOON'S CARD

The programme for this afternoon includes the senior 440 yards and the one mile, the ladies' 880 yards, 16-year-old 220 yards and one mile; 14-year-old 880 yards and 12-year-old 220 yards.

More About Visitors. Among visitors of interest here for the skating meet, other than those previously referred to in The Times, are Mr. and Mrs. John Murray of New York, who accompanied their son, speedily 12-year-old Roy Murray, here for the races.

C. M. Lile of Chicago, who is one of the officials at the championships, is a member of the Board of Control of the Western Skating Association. He is being heartily welcomed.

Wm. O'Hare and Wm. Ryan of Lake Placid are warmly welcomed from that noted center of winter sport activities.

George "Fuzz" Elliott, star pitcher of the Wanderers Club, who is in St. John attending the Carnival being held in that city, and incidentally trying to persuade some of the star skaters participating in the international meet being held in connection with the Carnival, to compete in a meet which is intended to hold in Halifax later in the month, wired last night that he had successfully closed negotiations with several of the stars for a visit to Halifax.

The list of those with whom he has completed negotiations includes Joe Moore, holder of two world's records who has been a sensation in the meet; he has completed in this winter; Charles Gorman, the St. John skater, who has a win over Charles Jewtraw, acknowledged to be one of the foremost skaters of the world, and who has been going like a house on fire in the American skating meets, and Richard Donovan, of Chicago, one of the foremost American speed artists. This trio, Elliott wires, will definitely perform in Halifax on February 21st.

He is also negotiating with Harry Kasky and Gladys Robinson, the Toronto girl, who is without a peer among women skaters, and who is the possessor of several world's records. Should Mr. Elliott be successful in bringing this quintette here, Halifax will have an opportunity of seeing the foremost skaters in the world at the top of their form.

The first three mentioned will, however, definitely take part in a meet which will be held here on February 21st.

City Check For \$500 To Miss Canada For Present Requirements

Mayor Makes Proposal at Special Meeting at City Hall—Suggests Also an Advisory Committee.

The Common Council at a special meeting this morning decided to tender to Miss Winifred Blair (Miss Canada), a check for \$500 to assist her in carrying out the social duties demanded of her by her exalted position.

It was also decided that an advisory committee be appointed by the council on the evening of the Mayor to look after the interests of our Queen during the year of her reign, subject to their so acting meeting with the approval of Miss Canada and her mother.

The Mayor said he would nominate R. D. Peterson, Walter H. Golding and Frank I. McCafferty as the committee with power to act.

DRIFT OFF FIRE ISLAND LIGHTSHIP

New York, Feb. 16.—The Norwegian steamer Melosano reported by wireless yesterday that a two-masted fishing schooner, apparently abandoned, was adrift three miles southeast of Fire Island Lightship.

The coast guard cutter Gresham was sent to the schooner. COL. F. C. MARSHALL, MISSING DROPPED FROM ARMY AS DEAD

Washington, Feb. 16.—Secretary of War Weeks has announced that the name of Colonel Francis C. Marshall, veteran of the World War, Sioux Indian campaign, the China relief expedition and the Philippine insurrection, had been dropped from the rolls of the army dating from Feb. 9.

This means that the War Department has abandoned all hope of finding alive this distinguished officer who has been mysteriously missing somewhere along the international frontier between Mexico and the American Southwest since the latter part of last year—a victim of some unknown mishap on a cross-country airplane flight.

Colonel Marshall had been on duty in the office of the Chief of Cavalry in this city and was sent into the Southwest on a visit to various cavalry posts along that section of the border.

EXCHANGE RATE ON FREIGHT SHIPMENTS

Ottawa, Feb. 16.—(Canadian Press) In accordance with the judgment and order of the board, dated January 14, 1921, the rate of exchange in connection with shipments of freight between points in Canada and the United States inclusive, will be 1-25 per cent. The rate of surcharge on international freight shipments will be one per cent for the same period.

DENIED THAT OTTAWA GIRL TO MARRY A DANISH PRINCE

Ottawa, Feb. 16.—The announcement of the engagement of Miss Lois Booth of Ottawa to Prince Eric of Denmark is officially denied by Mrs. Booth, mother of Miss Lois.

DECLARES LINCOLN'S FATHER VICTIM OF CRUEL INJUSTICE

Chicago, Feb. 16.—That Abraham Lincoln's character was due not only to that of his mother, but also to that of his father, was asserted by Dr. B. J. Cigrand of Batavia, president of the American Flag Day Association.

There has been a world of injustice done to Thomas Lincoln, father of the great president," he said. "He has been pictured as a worthless, moneyless, hopeless, wandering nobody. But instead, according to testimony from Lincoln's letters and many recently discovered memoranda, Thomas Lincoln was a good, Christian gentleman, who unfortunately had more inclination to be good—to love his neighbor as himself—than to worship the golden calf."

MUST KEEP UP FIRES AT SYDNEY

Several of Furnaces Beyond Danger, but Others are in Peril—Strike Situation Last Night.

Sydney, N. S., Feb. 16.—With the first rush of excitement over, the Sydney steel strike last night entered upon a period of calm, preceding developments expected today. Picketing activities have been carried out aggressively by the strikers with the result that very few workmen remain in the plant of the 3,700 who were employed there on Tuesday when the walkout occurred.

Difficulty is being experienced in raising enough heat and steam to keep the by-products coke plant warm, and also the steel mill, which is being kept cold permanently, it will mean that the steel mills will not re-open for a year or more.

Food, clothing and supplies for these men are being brought into the plant by rail and highway, and it is the appearance of these provision convoys which have led to incidents between the strikers and the union pickets.

While skeptical of the result, the strikers declared their willingness to accept the terms of the offer, which was appointed by the City Council with a view to mediation between the men and management, Col. Gordon Harrington, R. D. Peterson, K. C. and A. D. Gunn, K. C., members of the committee, this afternoon met a committee from the steel workers union and were personally acquainted with the details of the stand taken by the men.

Phones Word Of His Guilt In Murder

New York Youth Says He Killed Girl and Could Not See Chum Wrongly Accused.

New York, Feb. 16.—Conscience-stricken because of the murder of Christina Herwin, 17, at Wallingford, Conn., on Thursday morning, Sylvester McGrath, 23, last night telephoned Jersey City police who had killed the girl.

While the Jersey City police kept his name out of the public domain, New York officers, who rushed to the Bowery and arrested McGrath, who was relating details of the murder.

The girl's body was found behind a greenhouse in Wallington, and an autopsy ascertained that she had been attacked. Ellis was arrested at the Charlestown shipyards at Boston on request of the Jersey City police.

AN EXECUTIVE OFFICE OF C. N. R. AT THE CAPITAL

Ottawa, Feb. 16.—Sir Henry Thornton, chairman and president of the C. N. R., addressed more than 400 people at a Board of Trade luncheon here yesterday.

An announcement of keen interest to Ottawa was made by Sir Henry, that the Canadian National office, although the headquarters were in Montreal, would always maintain an executive office in Ottawa, on account of it being the seat of government.

Lieutenant-Colonel J. T. Brown, of St. Stephen, is a visitor for Carnival Week at the home of Dr. F. C. Bonnell.

WEATHER REPORT

Issued by the Observatory of St. John, N. B. Supt. R. F. Stupart, director of meteorological services.

Morning Report. Strong northwest and west winds, fair and cold.

As Hiram Sees It

SAYS SPIRIT WORLD NEEDS EARTHLY AID

"Hiram," said the Times reporter to Mr. Hiram Herndon, "more than eight feet of snow have fallen in St. John this winter."

"Well," said Hiram, "I've been told that the spirit world needs earthly aid. It's not as if the weather is something else. As far as I'm concerned it's just another foot or two of snow. I don't think it's anything to be afraid of. I've been told that the spirit world needs earthly aid. It's not as if the weather is something else. As far as I'm concerned it's just another foot or two of snow. I don't think it's anything to be afraid of."

CANCELLATION OF REPARATIONS IS URGED IN HOUSE

Resolution Presented at Ottawa by Winnipeg Labor Member—Appointment of a Grain Commission Considered.

(By Canadian Press) Ottawa, Feb. 16.—In the House of Commons, yesterday most of the afternoon was devoted to debating a resolution that a commission be appointed to investigate grain marketing.

Provisional emphasis being laid on the complaint that farmers were not getting a fair deal in the grading of wheat. Hon. W. R. Motherwell, Minister of Agriculture, said he felt that the government, in appointing a parliamentary grain committee, was complying with the spirit of the request.

At the evening session, on the motion of New Brunswick members, the resolution was amended to include potatoes within the committee's scope of investigation, and was passed as amended.

J. W. Woodworth, Labor member from Centre Winnipeg, introduced his resolution favoring the cancellation of Canada's claims on Germany for reparations. He supported the resolution on grounds of world peace and suggested that it would be a fine thing for Canada to make this "gesture" which might be imitated by other nations of the world.

Arguments against the resolution included a statement by Dr. R. Manion of Fort William, that inasmuch as this would amount to a practical renunciation of Germany, it would at the same time practically condemn the heroic action of the Allies and of the U. S. through the years of the war.

The debate was adjourned at 11:00 p.m. and at the same time the House was adjourned until Friday afternoon, today in Parliament.

The House of Commons today government notices of motion will be taken up. A bill providing for further advances to the Vancouver harbor commissioners will come up for second reading.

POLICE COURT.

Frank Gardner was committed for trial by Magistrate Ritchie this morning on the charge of stealing \$300 from Michael Daley in last July.

A sixteen year old girl appeared in court charged with theft of goods valued at \$20, the property of Mrs. Charles George, Prince Edward street. Mrs. George said that the girl had been employed by her to do house work.

She noticed one of her waists on the girl and asked her about it. The girl replied that she had purchased it up-town. The girl failed to return to work and on investigation, the witness said, she missed eight waists, some napkins and other small articles from her trunk. She told of a conversation with the girl's mother and father, in which the latter had promised to pay \$10 for the goods if his daughter was not prosecuted. This he had not done.

The missing articles could not be found, the witness said. Mrs. George identified the waist which the girl was wearing in court as hers.

Miles H. Initt appeared for the girl. The case was postponed until next Monday to allow time for further witness.

Declares in Lecture at Broadhurst Theatre That Direct Delivery Would Bring Disaster.

"Treat Them Kindly," Advises Former Vicar of Oxford

New York, Feb. 16.—Those living in the spirit world are in need of help, declared the Rev. G. Vail Owen, vicar of the Church of England, in a lecture at the Broadhurst Theatre on psychic science.

"If you ever get in touch with the other world," said Dr. Owen, "remember that they want our help as much as we want theirs. Treat them kindly, for they are grateful for words from your side."

Dr. Owen told of intimate conversations he had held with spirit friends upon controversial subjects. On one occasion he said, he asked a spirit if it believed in reincarnation. The spirit replied that it thought the theory reasonable. Asked for an illustration among the spirits to see if there were any instances of reincarnation, the spirit reported only a few instances which dated back more than two thousand years, said Dr. Owen.

The transmission of prayer from the material to the spiritual world was compared by Dr. Owen to the transmission of wireless messages. He suggested that they entered the spiritual world in a tangible form and were handled by a group of spirits before they came in contact with the Supreme Power. Even the thoughts of man, he said, often went through that process and were dealt with in the spirit world by "angels set apart for the task, whose duty it is to cleanse them from earthly impurity."

"So imperfect often are our thoughts and prayers," said Dr. Owen, "that if they were transmitted directly they should frequently be in great disaster." Dr. Owen said that it was believed in the spirit world that an inverted "U" which will develop in proper conditions.

A clean, unselfish life will enable one to get in touch with the spirits, said Dr. Owen. There are latent psychic faculties in every individual, which will develop in proper conditions.

TRACEABLE TO INFLUENCE OF ONE WOMAN

A London Paper's Story of British Commitments in Mesopotamia.

London, Feb. 16.—British commitments in Mesopotamia which have long been a cause of intense dissatisfaction among a large part of the public here, are all traceable to the influence of one woman, according to the Daily Express.

The reason why the British taxpayer pours out his money for the war in Mesopotamia is a romantic one—the wonderful woman huntress, poetess, explorer and traveler, Miss Gertrude Lowthian Bell.

Recalling Miss Bell's numerous adventures, the newspaper says: "Her last and greatest role is in politics. From Baghdad she has become the ligera of the cabinet and to a great extent has even muzzled the opposition."

"For long she was pro-Turk but in the excitement of the war she became an Arab partisan and a worshiper of the picturesque Prince Faisal. She was appointed secretary of the Arab bureau in Mesopotamia during the war and retains the post of Oriental secretary to the High Commissioner. Her influence in the civil administration of Mesopotamia is paramount, but it is not confined to Bagdad. Two years ago, Mr. Asquith threatened to take a strong line against the occupation of Mesopotamia. Miss Bell wrote and told him that he did not understand the question, and there has since been no trouble, with Mr. Asquith and several members of the cabinet under her spell."

FROM CORK TO JAIL IN DUBLIN

Dublin, Feb. 16.—Mary MacSwiney announced yesterday that her sister Annie and thirty other men prisoners were being removed by sea from Cork to the Kilmabomb Jail, Dublin.

QUEBEC BONDS SOLD

Quebec, Feb. 16.—(Canadian Press) The city of Quebec early last evening accepted the combined tender for the National City Company, A. Jarvis & Co., and A. E. Ames & Company, offering 96,236 for the \$1,872,000, of Quebec city thirty-year bonds bearing interest at the rate of five per cent.

DR. TALBOT'S RUN DOWN CONDITION

Strength and vitality are constantly ebbing away when the human system is in a weak anemic condition. Robust vitality cannot be present when there is a cause for run down conditions. Chiropractic treatment restores vitality permanently.
DR. TALBOT, the expert druggist, physician, and scientific treatment of such troubles has met with phenomenal success.

CAUSE OF EARLY OLD AGE

The celebrated Dr. Michonoff, an authority on early old age, says that it is "caused by poison generated in the intestines."
When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15-30 Drops of "Migol's" after meals makes your digestion sound, is

YESTERDAY WITH MISS CANADA

Miss Canada had a busy day yesterday. In the morning she rested and in the afternoon went shopping like many another young woman to take advantage of the Royal in the evening and later with the other Queens, went to the Carnival at the Arena. She intended going to the Lancaster military hospital this morning partially on request of the patients there and more particularly at her own wish as Miss Blair, the other members of her family were constant visitors there during the time her father was a patient there. She may also visit other institutions.
Miss Halifax and her chaperone, Mrs. Ernest Given, will leave tonight for Montreal.

DOMINION LODGE EVENT

On Wednesday evening the officers and members of Dominion L. O. B. A. No. 18, celebrated their twenty-seventh anniversary with a most interesting program was carried out—Piano solo, Miss Ruth Wood; recitation, Mrs. W. J. Edwards; speech, Mrs. J. Brown; solo, M. W. Parker; speech, Mrs. Sellers; recitation, Emma Walsh; speech, Mrs. Currie; piano solo, A. J. Everett; speech, F. L. Potts; recitation, Edith Walsh; recitation, Florence Walsh. Refreshments were served and a social hour enjoyed. There was a large attendance and the proceeds, which go to the lodge funds, were entirely satisfactory.

SHUFFLING FEET

Cannot drown the music of the Starr Phonograph. The rhythm of the foot-trot is carried loud and clear to all parts of the ball room. The famous Singing Throat made of Silver Grain Spruce accounts for the wonderful difference in tone of the Starr Phonograph. The voice, the violin or the band is reproduced with an exactness and clearness of tone that is really remarkable.

Mrs. William Golding of Fairville was painfully hurt last night when she slipped on a street car rail and fell heavily on her shoulder, injuring it rather badly. She was assisted to her home and Dr. Davidson was called. It is not yet known what will be the full extent of the injury, but it is hoped nothing serious will result.

FINDS BABY IN SUBWAY.
Reporter Turns Week-Old Girl Over to Police.
New York, Feb. 16.—Harry W. Lohas, who described himself as a reporter, of 200 East Sixty-seventh street, found a week-old girl baby under a bench in the station when he got off a northbound Lexington avenue subway train at Sixty-eighth street. He took the baby to the East Sixty-seventh Street Police Station and turned it over to Lieutenant Casey, who had the baby removed to Bellevue Hospital.
A porter at the station told the police he saw a woman, evidently a foreigner, with a bundle pacing up and down the station a few minutes before the baby was found.

Special Advertising Representatives—NEW YORK, Frank R. Northrup, 350 Madison Ave.—CHICAGO, E. J. Power, Manager, Association Bldg., The Audit Bureau of Circulation audits the circulation of The Evening Times.

WHY THIS HOLD-UP?

The City Council yesterday refused to accept the recommendation and the judgment of the engineers of the Civic Power Commission, that a tender for switching equipment in connection with the new sub-station be accepted. There is thus a deadlock. It is apparent either that the Civic Power Commission must be made independent of City Hall so far as the erection of the distribution system is concerned or City Hall must cease putting obstacles in the way. The City must begin to pay for Musquash power on May 1st. Every week's delay means a loss of over \$2,300. A month's delay would mean nearly \$10,000. Are the citizens satisfied to have this occur? The Civic Power Commission and its engineers ought to be able to decide what tender to accept. If they are not competent the City Council should take the responsibility of saying so and make a change. The Musquash current has been bought and must be paid for. People want cheap light and power. The Civic Power Commission is doing its best to meet the situation but it is held up at City Hall. Such a condition cannot go on indefinitely. The people's interests are at stake and they want prompt action.

DANGEROUS DOCTRINE.

A Sydney despatch yesterday said that the pickets at the steel works, where a strike had been ordered, informed the Chief of Police that they were taking no orders that did not come from strike headquarters. Whatever the merits of the case of the strikers may be, this is a very dangerous doctrine. It substitutes for the law of the land the will of a strike committee. It is subversive of all law and order, and opens the door to anarchy. When it becomes impossible to settle a labor dispute without scrapping the laws that are made for the protection of the public, our legislatures will have to consider their usefulness. The outside public cannot tell who is right and who is wrong in the present dispute, but an outbreak of extreme radicalism would quickly detach sympathy from the strikers. In this country there is no tyranny which can long survive popular disapproval, whether that tyranny is exercised by a corporation or a group of workers. The light of day can be thrown upon every complaint, and in the end the wrong if it exists will be righted. Cape Breton has earned an enviable reputation for outbreaks of extreme radicalism, and the labor leaders should think seriously about the effect upon public opinion in the country of such remarks as are attributed to the pickets at the steel works. If the company is wrong in its attitude an investigation will reveal the evidence. A resort to violence would only weaken the cause of the workers. In any case the law of the land must be vindicated.

A NATIONAL MOVEMENT.

It was inevitable that a country-wide organization to promote national prohibition in Canada would be organized. Without national legislation that which the opponents of the drink traffic desire cannot be fully attained. Moreover, the forces opposed to prohibition lose no opportunity to attempt to discredit it by asserting that it cannot be enforced. So long as the traffic exists, it would forget the moral aspect of the question if they could profit financially thereby. In other words, money would be preferred to the triumph of a moral issue. It requires some hardihood to offer even a suggestion of that sort, and it will hardly be received with gratitude by the people.

When a member of the Times staff was returning from Lily Lake about six o'clock on Wednesday afternoon he passed two drunken men, one of them loudly using profane and filthy language before a group of children. This was in Pond street. Why Pond street?

The Fredericton Board of Trade has joined those of Woodstock, Grand Falls, Campbellton and Edmundston in adopting a resolution opposing any further extension of the Grand Falls power rights to a company.

GOING AFTER BUSINESS.

In the Maine Legislature last week a resolution calling for an appropriation of \$50,000 for the next two years to be spent in advertising the agricultural, industrial and scenic resources of the State was referred to the special committee on Maine publicity. Our neighbor now derives millions upon millions every year from tourist traffic. No doubt an appropriation for publicity will be made. It is good business for a state or province. New Brunswick can duplicate anything Maine has to offer except in the matter of hotel accommodation. This province should be reaping millions from tourist traffic, now that it has good roads for motorists. A well-directed publicity would help. A good deal has been and is being done to advertise our wealth of fish and game, but not enough is done to attract summer tourists, who would have a large amount of money in the province. Hotels and transportation companies are interested, but there is room for public participation in a campaign to make our attractions better known. It is good business. There can be little doubt that the visit of members of the Tourist Association to Boston in June will bring good results during the latter months of summer. There is a great reservoir in New England from which to draw visitors when once they realize the enjoyment within such easy reach by train or steamer or motor car.

INTERESTING CANADIAN WOMEN.

Mrs. S. E. Clemens, Brascan.

Mrs. Clemens is another native Canadian who is putting the best of herself into efforts for national progress. Born in Arkansas, Ontario, she has spent most of her life in Manitoba. One of her most interesting contributions to that province was her effort on behalf of the establishment of a Child Welfare Station in 1918, the first in the West. In 1919-20 she was a member of the Public Welfare Commission and was one of a committee of five to draft the Manitoba Child Welfare Act. Her present office include that of vice-president for Manitoba of the National Council of Women, convener of the standing committee on League of Nations, and she is a representative of the same committee in the International Women's Club, and founder and first president of the District Nursing Association.

WHAT'S WHAT

By Helen Deale

Critics who seem to fear that a new era is being ground in America may be comforted by the action of a New York omnibus company in providing for not only the number of conductors but also the name of the "guard" on each bus, which by one company, he it noted, which by using large placards inscribed with words and phrases everywhere the conductors and conductors and conductors.

"Good morning, Mr. Hardy" is much more courteous than the salutation which is usually given to a conductor. It is a good idea, and the name of the "guard" should be printed on the bus. "No, sir," "Yes, ma'am," and "No, sir," saying instead, "Good-day, Mr. Adams," "Yes, ma'am," and "No, sir," are exceptions in a better service. Exception is made in certain cases where the students are expected to add "sir" when greeting a teacher or "madam" when greeting a woman.

POST MORTEMS.

(Ted Olson, in Forbes Magazine.)

After the dust of the battle is blown away.

After you're licked—and you know that you are—

Why bother counting the chickens you've thrown away?

Framing up reasons why you didn't win?

What if your errors indeed were excusable?

Victory matters; all else is a jest.

Master the lessons you think may be usable.

Next time you fight—and forget all the rest!

It's victory counts! Never doubt it.

Success is the measure of men.

If you're wallowed, don't argue about it!

Get up, and go to it again!

Why pause to delve in the prothess mystery?

If you'd done otherwise what might have been?

Why try to fathom what's now ancient history?

Who's just ahead are new battles to win?

Take your defeat and be making the most of it!

Don't try to argue it out thus and so!

Master your lesson—and loathe the rest of it!

Let the post-mortems and alibi go!

If you're licked there's no use to deny it.

Though talk till you're blue in the face.

Let this be your creed, and stand by it!

The horse that comes first wins the race!

IN LIGHTER VEIN

A Horrible Suspicion.

While a traveling manager was passing through Scotland the baboon died. The manager of the show was in a hurry, so didn't bother to bury the dead, but flung it out on the road. Two Highlanders found the body and puzzled over it hard.

"Sis's no be a Mackintosh," said the first, "for they hasna got red hair."

"An' she's no a MacPherson, neither, nor a Campbell whatever I'll be thinking," said the other, "for they're a kind o' lang in the limb."

"I wonder who she'll be at all at all!" questioned the first again, "but I'll tell ye. We'll tak a run up to the big house and see if they've missed any o' the English's vees!"

One Against the World.

"Look, Daddy," said a six-year-old, "I pulled the constabk right up all by myself."

"My, but you are strong!" said his father.

"I guess I am, Daddy. The whole world had hold of the other end of it!"

Sign of Something.

"Do you think they approved of my sermon?" asked the newly appointed rector, hopeful that he had made a good impression.

"Yes, think so," replied his wife; "they were all nodding."

WILL THE CHARTER BE CANCELLED?

Grand Falls Power Question Before the Woodstock Board of Trade, Which Favors Cancellation.

(Woodstock Press)

A meeting of the Board of Trade was held in the Council Chamber on Thursday evening with the president, Robert Strain, in the chair. The question of the Grand Falls Power, tied up by a combine came before the board.

Mr. Sutton said that the question had been before the Provincial Government for 28 years and nothing had been done. He specified the different acts of legislation that had been passed. Something will have to be done in the near future about our surplus pulp. The Scandinavian pulp mills are not paying expenses owing to the shortage of pulp. The New Brunswick Government engineer, Mr. Foss, the Government engineer, had been in Grand Falls, and now he has just returned from an interview with Mr. Dodge, president of the International Paper Company.

Mr. Strain said that the Government certainly place ourselves on record as favoring the cancellation of the charter. Whether or not the Government is able to finance the Grand Falls power is debatable. The Provincial Government have been absurd for building the Valley Railway. The Valley Railway is a good thing, and the Government is not to blame. We who supported it in the Legislature know it through as far as it has gone. The job was never completed. The Government cannot expect business, and they will not get business, until the railway is connected up with Grand Falls. The International Paper Company has immense holdings of land in Canada as well as in the United States. They will not cut out of their own land in the states while they can cut in Canada. The conditions are favorable for the Grand Falls power. Grand Falls, and now he has Grand Falls, and at present electricity can be carried a very long distance.

George E. Delaney—The Government should allow the lease to lapse on May 1st.

Mr. Strain—The Government should cut out the option business so far as the International Paper Co. is concerned. If they give some other company a chance.

W. Jack Dibble—Two weeks ago Mr. Dodge said that the Government would be a great help to the towns and villages along the river. Our Board of Trade has received several inquiries about starting industries here, and they always ask about our power, its volume, and its cost.

Robert Strain—The Government should promptly cancel the charter. The people would be no worse off than they are now.

Moved by W. Jack Dibble, seconded by Mr. Strain, that the matter be referred to the resolution committee to draw up a strong resolution, voicing the views expressed by the speakers.

The motion carried and the session was brought to a close.

SHOULD RUSSIA EXPORT FOOD?

(New York Tribune)

The report from Europe that the Soviet Government has recently exported 65,000 tons to Finland is of particular importance when taken in connection with the recent statements of the National Information Bureau to the effect that during the coming year 8,000,000 Russians will need relief. It is a month ago that the American Relief Administration stated that during the peak of the food shortage which is expected during May, June and July, they would be feeding 3,000,000 of the 8,000,000 starving, whereas the Soviet Government would look after 4,000,000 and European relief organizations would look after the remaining 1,000,000.

What of the future? If the report of Soviet food exports is true, a new and serious problem is raised. The total of 7,000 tons of grain said to have been exported is enough to allow for two pounds per person for 600,000 people for a period of four months. In other words, enough to keep this large number of Russians from starvation at a time when American charities have been shipping food to keep millions alive. It is a month ago that the American Relief Administration stated that during the peak of the food shortage which is expected during May, June and July, they would be feeding 3,000,000 of the 8,000,000 starving, whereas the Soviet Government would look after 4,000,000 and European relief organizations would look after the remaining 1,000,000.

HONDURAS BARS NEGROES.

Prohibits Further Immigration of Workers in Banana Plantations.

San Salvador, Feb. 16.—The Honduran Government has prohibited the further immigration of negroes to work in the banana plantations in consequence of a protest over the influx of such labor by the local labor leaders, according to an announcement by the Honduran Minister here. The Honduran authorities are said to have notified their consuls abroad to cease issuing the passports of negroes.

WAR AND STRIKE GREATEST EVILS, SAYS COOLIDGE

Solution of Problems Depends on International and Industrial Peace, the Vice-President Tells Diners.

The ultimate remedy for the nation's problems lies not in a change of its laws or treaties, but in a change of its heart, Vice-President Coolidge declared last week in an address at a dinner given by the Prudential Assurance Company at the Waldorf-Astoria, New York.

Class warfare and international strife Mr. Coolidge said, were the source of the people's greatest burdens and the nation's most disturbing problems. Elimination of the huge expenditure of money and war, he pointed out, as the most important element in the return of the country to normalcy.

"In spite of appearances," Mr. Coolidge continued, "our country made no profit out of the war, while only loss is apparent in the recent coal strike in the coal fields and in the railroad shops and in industrial strife elsewhere. Always it has been peace, obedience to law and industrial harmony which have been the contributing factors to that American business success which is reflected in the general prosperity of the people."

Strike Cost \$250,000,000

The number of industrial conflicts important enough to be reported to the Department of Labor for 1921 was 2,200. The Anthracite Bureau estimates the losses, accruing to operators and miners in their field from the strike of last year at \$200,000,000. In bituminous field there is no estimate, but it is apparent that it must have been very large, for that field has much larger production.

"The conflict in transportation is said to have cost the railroads an estimated \$1,500,000,000 to \$2,200,000,000, with an attendant loss of wages to their employees of \$177,000,000. These figures are 000,000. The indirect loss occasioned by conflict in the coal mines and on the railroads, to the extent of the public works which can never be known. When there is added to these the losses which accrue from the thousands of other conflicts, it becomes apparent that a perfectly stupendous burden must be borne by the people.

Directly and indirectly, it may reach \$2,000,000,000 in the course of a year. No one knows and no one can tell."

Mr. Coolidge said that national security for a year cost the United States \$2,000,000,000 out of a budget of \$3,078,000,000. These costs, he pointed out, must be borne by the people.

"This is an illustration of what a contribution would be made to human happiness if it were possible to secure peace, obedience to law and industrial harmony," he added. "Whatever affects the government, transportation or any other great enterprises, with the present organization of society and distribution of wealth, affects the people as a whole. The results of these conflicts are all inclusive, reaching into every home in the land."

Nation Making Progress.

While admitting that there is no immediate remedy for these conditions, he said that the United States is making progress in this direction. He pointed out that already more than one-seventh of the public debt has been repaid in this direction. He pointed out that less than half the number in the corresponding period last year and export has increased.

"There is by no means any reason to be discouraged," he continued. "It is the every reason for faith and courage, for the support of our institutions of government and society, and confidence in the increasing power of what is right."

not the case, however, for under her visible hull is a second one, known as the "hullin," which carries the propellers. When the Poughkeepsie runs into ice she does not wedge into it as a boat with an ordinary keel would do, but her broad end rides over it, crushes it and then pushes it aside. Her propellers, being beneath the main hull on the hullin, are always deep in the water and are uninjured by the ice.

RESISTANCE
Lesson No. 284

Resistance may be defined as the opposition to the flow of current through an electrical circuit. The unit of resistance is the ohm and a conductor is said to have a resistance of one ohm when the steady application of an electromotive force of one volt causes a current flow of one ampere. This is based on the relation existing, in an electrical circuit, between currents, pressure and resistance which is stated by Ohm's law as follows:

RESISTANCE (OHMS) EQUALS PRESSURE (VOLTS) DIVIDED BY CURRENT (AMPERES)

In circuits employed for the transmission or reception of radio signals, resistance is an important factor. In the simpler forms of receiving circuits using a crystal detector, broad tuning and a low degree of selectivity results from the comparatively high resistance offered by the detector to the currents of radio-frequency. Various forms of coupled circuits have been devised for minimizing the effect of this resistance and in receiving circuits using a vacuum tube detector, utilization of the property of regeneration, permits sharp tuning by reducing the circuit resistance to an extremely low value. This regenerative action is accomplished by feeding-back to the grid circuit a portion of the plate circuit energy and thus balancing-out the effect of the circuit resistance.

Units of apparatus varying widely in their values of ohmic resistance are connected in radio circuits, for example, the resistance of filament rheostats, amplifier and detector tubes, has a maximum value of approximately 6 ohms and is mechanically arranged so as to be variable in order that a filament current of 1.2 amperes may be drawn from the 6 volts storage battery. Potentiometers connected across the terminals of the filament battery have a resistance of 200 to 400 ohms and are used either as "stabilizers" for amplifier tubes or as a means of securing a closely adjustable value of plate voltage on the detector tube. A potentiometer so connected allows a very small value of current to flow, as according to Ohm's law, a pressure of 6 volts applied to a resistance of 300 ohms allows a current flow of .02 amperes. Grid leaks connected in shunt to the grid condenser in receiving sets may have values ranging from 50,000 ohms to 5 million ohms (5 megohms). The resistance of receiving telephones is approximately 2,000 to 3,000 ohms.

In order to obtain satisfactory reception of radio signals, particularly those broadcasted on short wave lengths, it is necessary that the outdoor antenna be so constructed as to have a low resistance. This is due to the fact that with a constant impressed voltage the flow of current is inversely proportional to the resistance, that is, the less resistance possessed by the antenna, the greater will be the flow of current in the receiving system.

The resistance of the antenna system must therefore be kept low in order to secure as large a value of antenna current as possible, for a reduction in antenna resistance causes an increase in the amount of current flowing in the receiving set and results in an increased volume of sound. This is particularly

important in vacuum tube receivers, as an increase in the antenna current, resulting from a decrease in the antenna resistance, produces a greatly increased output due to the amplifying action of the receiver.
It has been determined experimentally that a single wire 100 feet in length, stretched over grass ground at a height of 40 feet with the ground connection made to a water pipe, has a resistance of about 10 ohms at 960 meters. A properly erected receiving antenna of the outdoor type should, therefore, have all joints soldered, should be well insulated and located free from contact with surrounding objects and have a ground connection soldered to the clean surface of a water pipe.

RECENT DEATHS

Mrs. James McCafferty.
The death of Mrs. James McCafferty occurred yesterday afternoon at the residence of her daughter, Mrs. James Kingston, 146 Paradise row. Mrs. McCafferty was in her sixty-ninth year and is survived by two sons, Charles H. and J. Daniel McCafferty, of St. John; and four daughters, Mrs. Edward A. Farren, Mrs. George H. Lawson, Mrs. James Kingston, and Mrs. John B. Stevens, also of St. John. The brothers are Thomas Graham of Kouchibouguac and George Graham of Kent Junction. The sisters are Mrs. James Fitzpatrick, of Richibucto; Mrs. Harry Whalen, of Kent Junction, and Mrs. Robert Al-lanache, of Campbellton. The funeral service will be held at the house Friday evening at 8 o'clock by Rev. F. S. Dowling, of St. Andrew's church. Interment will take place in Kouchibouguac.

Marion E. MacKinnon.
The death of Marion Eugene MacKinnon, occurred yesterday at the home of her parents, 82 Church avenue, Fairville. Besides her parents, she is survived by five brothers and five sisters. The funeral will take place on Sunday afternoon at 2:30 o'clock at St. Rose's church.

Elizabeth J. McNeely.
The death of Elizabeth J. McNeely, widow of Edward F. McNeely, occurred last evening at the home of W. L. Williams, 212 Princess street. She was a resident of West St. John. She was preceded by her husband, who pre-deceased her a few years ago, being a well known stevedore of this city. She is survived by two daughters, Mrs. James O'Brien and Miss Regina McNeely, both of West St. John, and one sister, Miss Ellen George, also of this city.

Howard E. Codner.
A well known and highly respected resident of the north end, Howard E. Codner, died yesterday at his home in High street. For many years he was an alderman for Dufferin ward under the aldermanic system. He was for a long period on the staff of the Globe and had a wide acquaintance along the waterfront. He was a Liberal in politics and a member of the I.O.O.F. in which latter organization he had held many high offices. He is survived by his wife and one daughter, Miss Gertrude, at home. The funeral will be held on Saturday afternoon at two o'clock from his late residence.

Arthur W. Sharp.
Arthur W. Sharp of Hampton died yesterday at his home at the age of seventy years he was prominent in the life of the city and county of St. John and for fifteen years was chairman of the Board of Assessors. He was also inspector of federal taxation. He was a member of the Masonic fraternity, a member of the Thistle Curling Club and the Hampton Curling Club. He is survived by his wife, who was formerly Miss Phoebe Smith, daughter of the late Richard and Eleanor Smith, of Hampton, and one sister, Mrs. Harry Bigwood, of St. Lawrence, Mass.
The funeral will be held on Monday at 2:30 o'clock from his late residence. The body will be brought to St. John for burial, and interment will take place in Fernhill cemetery on the arrival of the noon suburban train.

MISS NANCY DOORSTEP NAMED NANCY HANKS LINGCOLN
New York, Feb. 16.—The name of Nancy Hanks Lincoln, President Lin-coln's mother, was entered on the roll of patients at the General Hospital, Elizabeth, N. J. Nancy is not a relative of the martyred President, nor is she ill. She is a handsome, healthy, blue-eyed baby, two months old, whose name was presented to her by the hos-pital authorities, in honor of Lincoln's birthday, when she was brought in by a patrolman, laughing as cheerfully as if she had not been abandoned a short time before on the doorstep of 521 East Grand Street, Elizabeth. The hospital will remain her home until the police discover her parents or a family adopts her.
A boy born to Detective and Mrs. Max Leef was promptly named Abraham Lincoln Leef. Mr. Leef's associates of the West Thirtieth Street Station sent a huge horseshoe of flowers to the bedside of Mrs. Leef and the martyred President's namesake.

Curfew Rings Out Carnival Economies Tomorrow Evening

Never was such convenient saving! You'll never have to look for Carnival tidbits here tomorrow—they look right at you as you enter on the way to the first floor Annex. Before coming to Curtains, Yard Goods and such, discover—

ment. It aims to place the profession on a higher plane and to protect its members from increasing laws levied on operation of automobiles. Taxicab chauffeurs are not, it was said, eligible for membership. The society, which was founded in 1907, expects to have Governor Smith as a guest during the month. 9674-2-19

PLAN FOR WORLD PEACE.
Mrs. Huck Would Bar Trading With Countries Refusing War Refundment.
A plan to promote world peace by refusing trade concessions to those countries that do not permit a referendum on war was advocated by Mrs. Winifred Mason Huck, representative in Congress from Illinois, at a meeting of the Women's City Club, 22 Park avenue. “I intend to propose to Congress,” said Mrs. Huck, “that the United States shall not declare war without an affirmative vote of the people upon any country giving its people the right of a referendum. I also shall propose that we do not give any trade or financial concessions to any country refusing its people that privilege. “I have been told that war cannot be prevented in that way—that other countries will resent our refusal to trade with them without such a stipulation. We are in the lead today as a nation in a financial and moral way. It is the psychological time for us to provide a foundation for world peace.”

CHAUFFEURS OPEN \$400,000 CLUB HOUSE

New York, Feb. 16.—Chauffeurs who drive their employers to the doors of metropolitan clubs will no longer need the luxuries afforded by such establishments, as they now have a new \$400,000 club-house of their own. The Society of Professional Automobile Engineers, as the organization of chauffeurs is termed, have formally opened the club-house at 135-139 West Sixty-fourth street, and played host to their “bosse”, many of whom jotted down the telephone number as a likely place to find James when wanted.

The club-house is a four-story structure of brick and limestone, and the cost is being defrayed by bonds subscribed for by the 4,000 members. Both inside and out, the club compares favorably with many of the best in the city, and is equipped with a swimming pool, lounge, dining room, gymnasium, billiard rooms, library and a dormitory. William Nelson, the president, who escorted visitors about the new club-house yesterday, said that the organization was conducting a nation-wide campaign to eliminate the term chauffeur from usage and substitute automobile engineer.

“There is a great difference between an automobile driver and an automobile engineer,” he said. “Our organization is composed of professional operators of automobiles in private employ-

VISITING SKATERS
AND OFFICIALS
ARE BANQUETED

Delightful Affair in Y. M. C. I. Gymnasium — \$25 in Fines Collected for Orphans.

The banquet tendered by the Rotary Y. M. C. I. joint committee to the visiting skaters in the Y. M. C. I. last evening was the occasion for much hearty fun and good fellowship. The meeting was conducted under Rotary rules to make it still more informal and enjoyable. More than 250 people were present, including about thirty-five skaters and twenty visiting officials.

Among the notable ones who took no part in the evening's speeches were His Lordship Bishop of Blaine, Hon. R. J. Ritchie, R. D. Peterson, the chairman; Ken Haley, George Lawson, Mayor Fisher, H. Mont Jones, F. I. McCafferty, Dr. Spangler, J. Corr, George McDade, Patrick Hennessy of Lake Placid, William Fisher and Julian T. Fitzgerald.

After the toast to the King had been responded to with musical honors, Mr. Peterson, on behalf of the Rotary-Y. M. C. I. committee, welcomed the visitors and those who helped to make the meet a success so far, and he hoped when the visitors went away they could carry with them the knowledge that St. John was out for good, clean sport. To the St. John people he said that

PAIN GONE! RUB
SORE, RHEUMATIC
ACHING JOINTS

Stop "dozing" rheumatism. It's pain only. Rub Jacob's Oil will stop any pain, and not one rheumatism case in fifty requires internal treatment. Rub soothingly on the tender spot, and by the time you say Jack Robinson—out comes the pain. It's the only relief that comes. St. John's Oil is a harmless rheumatism ointment which never disappoints, and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, headache and neuralgia.

STOMACH TROUBLES
ARE DUE TO ACIDITY

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid causes the stomach, causing the formation of gas and acid indigestion. Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

RECIPE TO CLEAR
A PIMPLY SKIN

Pimples are impurities seeking an outlet through skin pores. Pimples, sores and boils usually result from toxins in the blood, and impurities which are generated in the bowels and then absorbed into the blood through the very ducts which should absorb only nourishment to sustain the body.

SAYS RED PEPPER
HEAT STOPS PAIN
IN FEW MINUTES

Rheumatism, lumbago, neuritis, backache, stiff neck, sore muscles, strains, sprains, aching joints. When you are suffering so you can hardly get around, just try Red Pepper Heat. Nothing has such concentrated, penetrating heat as red peppers, and this heat penetrates right down into pain and congestion relief comes at once. Just as soon as you apply Red Pepper Rub you feel the tingling heat. In three minutes the sore spot is warmed through and through and the torture is gone.

The Coughs
And Colds
Of Children

Only the mother knows how hard it is to keep the children from taking cold, they will get overheated and cool off too suddenly, get their feet wet, kick off the clothes at night, and do a dozen and one things the mother can't prevent.

DR. WOODS' NORWAY PINE SYRUP

It is pleasant and nice for them to take and relieve the cough or cold in a very short time. Mrs. J. Wilson, Portage La Prairie, Man., writes: "I have used Dr. Woods' Norway Pine Syrup for my five children. My little girl, two years old, had a very bad cold last winter, which I thought was croup. I had some 'Dr. Woods' in the house so gave it to her and she was fine the next day. I had my baby, three months old, had a bad cold and I gave it to him. It cuts and brings up the phlegm and the best cough medicine I ever used."

Price 50c. and 60c. a bottle; put up only by Dr. T. Millburn Co., Limited, Toronto, Ont.

he felt that the skating meet, as well as the Carnival as a whole, had done more to bring the people of St. John together than perhaps any other event in the past. He paid a tribute to the Y. M. C. I. for the success of last year's meet.

What had been accomplished by our Carnival Queen at a central, he thought, had gone a long way to put St. John on the map.

He felt that such meets as that now being held would do wonders in doing away with any petty jealousies that may exist between the peoples on both Y. M. C. I. committees, welcome the visitors and those who helped to make the meet a success so far, and he hoped when the visitors went away they could carry with them the knowledge that St. John was out for good, clean sport. To the St. John people he said that

the chairman then called on H. S. Cullen, United States consul, who was given a hearty ovation at his health. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, headache and neuralgia.

Mr. McCafferty extended a welcome to the skaters, to the visiting officials and to the visiting newspaper people. He proposed the health of the visitors.

Mr. Fitzgerald, of Chicago, president of the International Skating Union, spoke of the importance of development of sport through school-boys. He mentioned several cases, and on behalf of the Y. M. C. I. presented to Mayor Fisher a check for \$25.00, which was the winter by a "Touscheol". On behalf of the I. S. U. he also presented to each of the members of the Rotary-Y. M. C. I. executive, a gold pencil in appreciation.

of the work they had done to make the meet a success. J. A. Taylor, president of the Amateur Skating Association, and one of the five original members of the International Skating Union, was the next speaker. He had been asked, he said, how the skaters of today compare with those of twenty years ago. He said today they were at least the equal, if not the superiors, of those of days gone by, and he thought there were more of them today.

He spoke of the growing tendency to make the long distance races more of a social event. In the interests of the spectators he hoped this matter would receive consideration of all the contestants. He did not feel that there was a city anywhere that could put on a meet with greater success than the city of St. John.

W. G. Bratton, vice-president of the I. S. U., called upon to speak, expressed the thanks of the skaters and visitors to the I. S. U. for the privilege of competing in St. John.

Terrible Headaches
And Dizziness
Miss S. Raphael, 237 Kenilworth Ave., N. Hamilton, Ont., writes: "I used to suffer from terrible headaches and dizziness. Last summer, while I was walking up a side street, I got a daisy and fell in the middle of the road. An old gentleman helped me to get to where I was going and told me to get a vial of Millburn's Laxative Liver Pills. Well, I did, and they did wonders for me. I don't know how to thank you, as I don't get headaches or dizziness any more."

When your liver gets sluggish and inactive your whole health suffers, and you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer, when relief is thus offered you free. Don't delay. Write today.

Mark H. Jackson, 155 J. Durston Street, Biddeford, Me., writes: "Mr. Jackson is responsible. Above statement true."

MOTHER, YOUR CHILD'S BOWELS
NEED "CALIFORNIA FIG SYRUP"

Even Cross, Feverish, Sick Children Love its Taste and it Never Fails to Empty Little Bowels

If your child is listless, full of colic, or if the stomach is sour, breath bad, tongue coated, a teaspoonful of "California Fig Syrup" will quickly start liver and bowel action. In a few hours you can see for yourself how thoroughly it works and how clean it is. It is a pleasant, effervescent drink which usually helps make pimples disappear.

FINGER PRINTS OF
WHOLE NATION

Women Backers of a State Compulsory Law Have Yet Wider Aims — See Prejudice Vanishing.

New York, Feb. 16.—Long standing public antipathy to finger printing as a means of identification has been greatly lessened according to Mrs. Mary E. Hamilton of the Police Department, in the recent adoption by the New York Federation of Women's Clubs of a resolution recommending compulsory legislation. So strong has the feeling been always associated, that the resolution was almost laughed out of court. From her own experience as a police-woman, in which a positive means of identification would have been of great value, she has been able to identify 350,000 women now being the movement to use finger and foot prints for identification, marriage and death certificates.

While this infallible means of identification is widely known because of its use in detecting criminals, its value in non-criminal circles is not so well known, according to Mrs. Hamilton. In the last three years more than 600,000 footprints of new-born babies have been taken, with their mothers' fingerprints on the same tag, at the New York Nursery and Child's Hospital, thus preventing any repetition of the mistake of the one before in an actual case, the death of one before in the case of the mother's death. Every day the city takes charge, on an average, of nine abandoned babies, who remain in the city until they are 14 years of age. Victims of aphasia and amnesia, lost and stolen children, are mentioned as cases where positive identification would prove invaluable.

MOTHER AND CHILD KILLED.
Perth Amboy, N. J., Feb. 16.—While walking along the Central Railroad of New Jersey tracks, crossing her three-year-old daughter Tillie, Mrs. Mary Elasko, twenty-six, was struck by a Lakewood special train and instantly killed. Her child was also killed.

They were on a southbound track and were apparently on the way to the Perth Amboy cigar factory, where it is believed Mrs. Elasko intended to seek employment.

The resolution asks that Chapter 468, Section 1287-9 of the Charter, Laws of 1901, be amended so that the so-called "all include the foot printing of all children at birth, to include the identification of the mother of said child, which must appear on the birth certificate; marriage license and the fingerprints of all deceased on all death certificates; and that all children be fingerprinted at school age. The fingerprint used with babies because their fingers are so small, making it almost impossible to get an accurate impression of the finger tips.

The reason why the women's clubs have heartily endorsed the movement is because women are considered far more difficult to identify than men. While the husband carries a watch, laundry marks on his clothing and many other effects in his pockets, his wife personal effects are few. Her only effects to put in her bag even a calling card, her keys, her hat, her gloves, her pocketbook, rush to the station on the car, open the door with key and rub the house.

The resolution states that fingerprinting "would save relatives of victims of sudden disease or accident expense, insurance and great anguish of mind" and "would prevent forgery, fraud, mistaken identity and would greatly facilitate the settling of estates." All these benefits would be vastly increased, it is pointed out, if the twenty-six States require birth records and only twenty both birth and death records, according to Mrs. Hamilton.

When the International Association for Identification convened at Washington several months ago, she said, "with a view of gaining support of its program for establishing a national registry of fingerprints" she was kept at Post Offices as an official record. President Harding gratified the delegates by the convention by subscribing to having his fingerprints taken for the association archives. It would be a wise

HEALING CREAM
IS QUICK RELIEF
FOR HEAD COLDS

Colds and catarrh yield like magic to soothing, healing anti-septic cream that penetrates through every air passage and relieves swollen, inflamed membranes of nose and throat. Your congested nostrils open right up and you can breathe freely. Hawking and snuffling stop. Don't stay stuffed up and miserable. Get a small bottle of Ely's Cream Salin from your druggist. Apply a little in the nostrils and get instant relief. Millions endorse this remedy known for more than fifty years.

RODMAN WANTS
U. S. NAVY TO BE
SECOND TO NONE
Country's Foreign Policies
Cannot be More Powerful
Than Its Fleet, Admiral Says.

Washington, Feb. 16.—The foreign policies of the United States cannot be more powerful than the country's navy, Rear Admiral Hugh S. Rodman declared tonight in the course of an appeal for the construction of ships of less than capital strength in such numbers as to make the American Navy second to no other nation in the world in this respect.

Speaking to the District of Columbia Commandery, Loyal Legion, in a Lincoln Day address, Admiral Rodman referred to the fact that Germany had been engaged in the development of a powerful navy for several years prior to the World War, but had not been able quite to match the British naval establishment, having at the outbreak of hostilities about 80 per cent. of the naval strength of Great Britain.

By Order of the Common Council of the City of Saint John: PUBLIC NOTICE is hereby given that a Bill will be presented to the Council at the next session of the Provincial Legislature, the object of which is to amend the Police Act of the City of Saint John, Chapter 32, so as to provide that no shop or place for the purchase, sale or barter of junk, old metals or second-hand articles shall be kept open for the transaction of business except during the hours between the rising of the sun and 10 of the clock in the evening of each week day.

A Clear, Beautiful Skin
There are millions of tiny openings or pores in the skin and these must be kept open and clean if the beauty of the skin is to be maintained. Because it cleanses these pores and encourages the healthy action of the skin, Dr. Chase's Ointment is most effective as a skin beautifier. Roughness, redness, pimples and all sorts of skin blemishes disappear by its use, and the skin is left clear, smooth and velvety.

MAN'S OWN POISON CAUSES
RHEUMATISM SAYS AUTHORITY
Smashes many foolish fallacies—The idea that eating meat causes rheumatism is no longer accepted—Should keep the poisons moving out.

"Man poisons himself by the absorption of certain substances that should be eliminated, this is the cause of so much rheumatism," is the statement of well known authority.

Many pet theories about rheumatism of the joints, that is chronic arthritis, have been smashed during the last few years. The old idea of meat causing rheumatism is ridiculous; just think of the large number of vegetarians who suffer from rheumatism; these people never eat meat. Cases have been known where people living entirely without meat were great sufferers from rheumatism. These people would go so long without meat they would become so weak they would not have sufficient strength to throw off the disease. Just so soon as they began to improve and with the help of good medicine like Dreo, were well in a short time.

Great harm has been done by the ordinary rheumatism medicines because they not only disturb the stomach, but often fail to remove the pain for the time being, and the disease is as bad or worse after taking such medicine.

There are a great many medicines on the market for rheumatism but do not remember seeing anything about Dreo will benefit you. Dreo is also taking care of rheumatism of the joints after the patient has had the disease for several years. Dreo is a remedy that many sufferers take after they have tried about everything else for rheumatism. No

Indiantown and Lancaster Ferry Service

Tenders are invited by the Indiantown and Lancaster Ferry Commission for the maintenance and running of a ferry and ferry service between Indiantown (so called) in the City of Saint John, and Pleasant Point, in the Parish of Lancaster. The specification of ferry must be supplied at time of making the tender, and the tender must conform with all laws, rules and regulations governing ferries. The highest or lowest or any tender not necessarily accepted.

Tenders must be delivered not later than noon on the seventeenth day of February, 1923, on a sealed envelope to J. King Kelly, County Secretary, Saint John, N. B. and marked "Ferry Tenders".

JAMES KING KELLEY,
County Secretary,
9041-5th St.,
Saint John, N. B., 30th January,

Inventor Calls Harding a Bit Slow, but All Right—Says Navy Pigeon-holed His Inventions.

West Orange, N. J., Feb. 16.—Thomas A. Edison did not look his seventy-six years as he discussed wine, women, song and other things with more than a score of newspaper reporters in the office of his laboratories here recently.

His laboratories here recently. His eyes sparkled as he repeated his annual defiance of Father Time by declaring he intends to live to be 100 years old. He was seated in a velvet chair when the reporters entered his office. Arising, he remained standing throughout the interview, which lasted more than an hour. He wore a gray suit, black bow tie, and a white shirt. The cut of the suit was old fashioned; his collar was of the now almost obsolete "gates ajar" type.

Windsor Table Salt. Purest and Best. TITLED WOMEN OF GERMANY MAKING CHRISTMAS TOYS. Potsdam, Jan. 2.—(By mail)—In a quiet, residential quarter of Potsdam a group of women, who belong to the social circles of imperial days, are working daily from morning until night on their Christmas toys.

French, which he characterized as "a business call." The inventor was then asked what movie stars he preferred and he named Alice Joyce, Mary Miles Minter, Douglas Fairbanks, and Tom Mix. "I am rather sentimental, and I like all love stories," he said. "Newspapers of today publish entirely too much trash," Edison said. "They should cut out a lot of this and print more matter of scientific interest. He said he did not believe another war was imminent. "There is not enough money" he explained. Mr. Edison is to attend the birthday celebration dinner given by the Edison pioneers, a group of his old friends and associates who meet once a year, on the inventor's birthday. The dinner will be held in the dining room of the Edison laboratories restaurant in West Orange, N. J., this afternoon. It has been Mr. Edison's habit to spend the afternoon chatting with his old associates, many of whom helped him in perfecting some of his early inventions. The inventor celebrated at his home yesterday by having a number of members of his family and intimate friends at luncheon, when a large birthday cake with seventy-six candles occupied the centre of the table. After dinner Mr. Edison read, and retired early.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., FRIDAY, FEBRUARY 16, 1923

SPORT NEWS OF A DAY; HOME AND ABROAD

HOCKEY.

N. B. and P. E. I. League Schedule. At a meeting of the executive of the New Brunswick and Prince Edward Island Amateur Hockey League yesterday in the Dufferin Hotel a schedule of games was arranged. Jack Trowille was named as referee with Weatherbee of Springhill as substitute. Chatham and Bathurst have yet to decide the championship of their section so they are listed as North Shore. The schedule is as follows: February 22—Sussex at Charlottetown. February 28—North Shore at Sussex. March 5—North Shore at Sussex. March 9—Charlottetown at Sussex. March 12—Charlottetown at North Shore. March 16—Sussex at North Shore. Game Postponed. Charlottetown, P. E. I., Feb. 16.—As Dorchester team did not arrive last night, being on the cat ferry which is held-up by heavy ice in the straits, the game with the Abbies was postponed till tonight.

Fredericton Champions. Fredericton, N. B., Feb. 16.—Fredericton High School hockey team who have returned from their trip to Rothesay and Sussex, have won the championship of the N. B. Interscholastic Hockey League. Edmonton Trims Seattle. Seattle, Feb. 16.—Edmonton Eskimos last night trimmed the locals 4 to 3, in an inter-league contest which increased their lead in the Western Canada League to three points more than the Regina Capitals.

Boston Replays. Boston, Feb. 16.—The Boston Athletic Association Hockey League team defeated New Haven here last night 3 to 2. The game was a replay of the U. S. A. H. A. contest scheduled for January 24, when the New Haven club failed to appear and was dropped from the league in consequence.

Sherbrooke Wins. Sherbrooke, Que., Feb. 16.—Sherbrooke Independents earned the right to play the province of Quebec hockey title when they defeated Three Rivers 3 to 1 here last night.

U. N. B. Defeats Acadia. Fredericton, N. B., Feb. 16.—U. N. B. forced a three cornered tie in the western section of the Maritime Intercollegiate Hockey League when they defeated Acadia University here last night 7 to 3.

Nova Scotia Games. Antigonish, N. S., Feb. 16.—Dalhousie won from St. Francis Xavier here last night 7 to 3 in the Intercollegiate Hockey League.

New Glasgow, N. S., Feb. 16.—New Glasgow defeated Antigonish 4 to 3 here last night taking the lead in the Antigonish Colchester and Pictou County Hockey League.

Sydney, N. S., Feb. 16.—Glace Bay defeated Amherst here last night 4 to 3.

St. Stephen Beaten. The St. Stephen Curlers met defeat yesterday both at the Carleton rink and at the Thistle rink. The Thistle curlers scored thirty-six to the twenty-seven of their opponents and the Carleton curlers scored thirty-seven to the twenty-five of their opponents. The Carleton club will have three rinks opposing three rinks of Moncton this evening.

Because of the death of A. W. Sharpe, of Hampton, a past president of the Thistle Curling Club and a member of the Hampton Curling Club, the curling match between Hampton and Thistle clubs which was to have been played today has been postponed.

BASKETBALL. Mohawks Champions. The Mohawks won the Y. M. C. A. House League and became champions of the Y. M. C. A. Senior House League last evening by defeating the Chipewas by a score of 34 to 18 in the first and 20 to 22 in the second. William Howie refereed.

SKATING. Staff Still Winning. Saranac Lake, Feb. 16.—Art Staff, Chicago, won every race on yesterday's programme of the U. S. professional outdoor speed skating championship meet here. He won the half mile, the one mile and the three mile.

SKATING. New Record Jump. Revelstoke, B. C., Feb. 16.—Nels Nelson, a local boy, on Wednesday broke the world's amateur ski jumping record, made by him last year, leaping 202 feet in the tournament here. His record of last year was 201 feet.

BILLIARDS. Snooker Championship. New York, Feb. 16.—For the first time in the history of billiards an American will compete for the world's amateur snooker championship. J. Howard Shoemaker, who recently lost the national pocket billiard championship after holding it for nine successive years, sailed last week for England. He will represent this country in the international snooker tournament to be held in London early next month.

Shoemaker's work will be watched with a great deal of interest. Snooker is strictly an English game, little played or understood in the United States. It is played on a regulation English billiard table, 6 by 12, with six pockets. Twenty-two balls are used—fifteen reds and seven of other colors. A player is compelled to pocket a red ball before shooting at one of the others. Each red ball pocketed remains off the table, but the balls are replaced until all of the red balls are off. Then the player shoots in rotation at the seven colored balls until they have all been pocketed.

It is one of the most intricate and scientific games played on a billiard table. One of the chief features is safety play. A player tries to leave his opponent in such a position that he cannot hit the object ball. This is

NOTE—6 COUPONS AND 6 MONTHS SUBSCRIPTION FOR \$1.

known as "snooping" an opponent in the event of a player failing to hit the object ball he awards seven points to his opponent. Shoemaker admittedly is one of the best amateur players in this country. Several years ago he defeated George Gray, one of England's best, when the latter was in this city. When the international tournament was announced the New York Athletic Club decided to send Shoemaker abroad and there is little doubt that the trip will serve to stimulate interest in this style of game in this country.

Freeman Gets Decision. Boston, Feb. 16.—Wm. (Salter) Freeman, of Chicago, was awarded the decision over Willer Harmon, of Boston in a lightweight contest here last night. The bout went the full ten rounds.

Todd Regains Belt. London, Feb. 16.—Roland Todd last night defeated Ted (Kid) Lewis on points in a 20-round bout thereby regaining the middleweight championship and the belt which he lost to Lewis last November.

Siki in Berlin. Berlin, Feb. 16.—Battling Siki received here by wire word that the French boxing federation had lifted the ban against him. He is here for the purpose of appearing in a film.

A TOO FAITHFUL TIME-LOCK. Experts Can't Open the One Guarding New Hampshire Funds. Concord, N. H., Feb. 16.—The time-lock of the safe which holds and guards the funds of the State of New Hampshire apparently has lost all sense of reckoning of fleeting minutes. The safe is locked, and the State's money is inside.

A derrick and a battering ram were called into service by experts at work attempting to persuade the safe that it was time it was opened, but all efforts to jolt the lock's machinery into action was fruitless.

The trouble was discovered late Saturday, and machinists have been at work on the stubborn machinery.

FIRE SPARES OLD WOOD-CUT "THE DEATH-BED OF LINCOLN" New York, Feb. 16.—"The Death-bed of Lincoln," an old wood-cut which established the fact a few years ago that Thomas Proctor was present at the death of Lincoln, was found by Morris Van Veen, a painter and decorator, while rummaging among the ruins of his shop at 27 Wooster Street, which burned to the ground last Tuesday.

Mr. Proctor, who is a collector of old steel engravings and wood-cuts, said that he had supposed that the picture had been destroyed by fire along with the others of his collection. Fortunately he found that the last time it had been taken out to show a friend he had not placed it back with the others of his collection, but stood it up in a corner, where it had not been touched by the fire.

HOOVER WILL DEFEND HIS WORLD'S TITLE

Champion May Compete for Diamond Sculls Again in 1924—Hilton Belyea Among Possible Contenders.

Duluth, February 16.—Walter Hoover will not defend the Diamond Sculls at the English Henley next summer, but that will have no bearing on his title as world's amateur singles sculling champion. In fact, according to officials of the Duluth Boat Club, it means that Hoover is giving up the Henley-on-the-Thames trophy to defend his world's title against Paul Costello, Philadelphia, national champion; Hilton Belyea, St. John, N. B., Canadian champion, and other prospective challengers.

The Philadelphia Gold Challenge Cup which Hoover won at Philadelphia last July, represents the world's singles sculling championship, since this cup was given to Jack Kelly, Vesper Boat Club, Philadelphia, as an emblem of victory gained at Antwerp, Belgium, in 1920, when Kelly defeated the pick of the world's scullers at the Olympics.

Previously the Diamond Sculls had been recognized as emblematic of the world's title. Hoover intimated that if he won this summer, he might visit England in 1924.

The world's champion also said that he "would be delighted" to return to England this summer, but he is determined to make allowance this year for more attention to his profession as a civil engineer.

Wins Easy Victory. Providence, R. I., Feb. 16.—Harry Martin, Providence bantam, won an easy victory over Danny Edwards of California, in a 12-round bout last night.

Knights of Pythias Anniversary Dance Under Auspices of New Brunswick Lodge No. 1

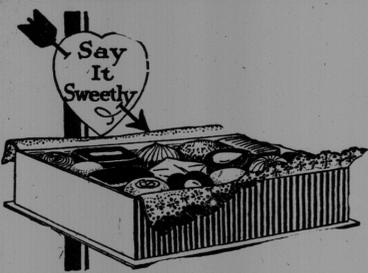

February 20th. 7 Piece Orchestra. 2-21

Play-off May be Here. The defeat of Acadia University last evening in Fredericton at the hands of the U. N. B. hockey team makes a three-cornered tie in the western section of the Intercollegiate Hockey League and will necessitate play-offs on neutral ice. In this connection it is quite possible that St. John will see some first class hockey, for that is what the college boys play. There should be no heckling over terms on the part of the management of any rink approached on the matter for there is no doubt but that, with a little and a trophy at stake, a stellar brand of hockey will be ground out and the fans will be out in force.

PLAYERS FOR TONIGHT. Miss Canada will be present at the Arena this evening when the Wanderers of Halifax try their hockey ability against that of the St. John boys. Miss Halifax and Miss Moncton are expected to take part in the proceedings. The St. John team will have the following players on the ice: Gabriel, Tart, McPhee, Wade, Rushton, Gilbert, W. MacGowan, Monteith, Howard and Short. After the Wanderers game this evening the Furness Wilby team will play against the W. Malcolm Mackay team.

Beckett and Smith Matched. London, Feb. 16.—Joe Beckett and Dick Smith have signed a contract to meet in a 20-round bout May 14.

\$1.49 each As the quantity is limited, it will be to your advantage to come in and make your selections at the earliest possible moment.

W. H. THORNE & CO. LIMITED Open Saturday Till 6 o'clock.

ST. JOHN CASE IS CITED AT SESSION

Plea for Homes for "Older Men" Disabled in War

All Agree at Royal Commission on Pensions Sitting That This Should be Done—Suggest Employer Have Place on Board.

(Canadian Press.)

Montreal, Feb. 16.—A sharp cleavage has existed between the disability admitted by medical diagnosis, performed for the pensions board, and actual disability, as judged in the labor market, according to witnesses heard at a sitting of the Royal Commission on pensions here yesterday afternoon. This alleged contrast formed the basis for considerable criticism of the pensions board and several specific cases were cited to prove the point.

Another important point was the desire of witnesses to have the Government establish homes for the "older men" who had gone overseas and, being unable to withstand the hardships like their younger fellows, had succumbed to the effects of influenza, typhoid and other diseases sustained when they had returned to Canada.

In St. John, N. B., one old man, of this class, had been given a home for three months. During that time he had picked up courage, stamina, and physique and was finally able to get work and support himself amply without further help.

Both commissioners and witnesses were agreed that homes should be provided by the Government in such cases. Also the men who were totally unable to do a "come-back" should be given permanent or semi-permanent housing.

It was further suggested that an employer of labor should sit on pension board in order to decide a man's real value in the labor market, and assess his pension accordingly.

REAL ESTATE NEWS

The following real estate transfers have been recorded: F. T. Cornwall to G. C. Martin, property in Duke street.

LOCAL NEWS

N. B. LEGISLATURE. Fredericton, Feb. 16.—A reply from Dr. Violette of Madawaska, who still is in Florida, has not been received, so it is not known definitely whether or not he will second the address in reply to the speech from the throne. If he is not the second, J. A. Donnet of Gloucester will be.

SEND WORD FROM PARIS. A letter was received this morning by Nagle and Wigmore from F. C. Beattie, who left for Europe recently with Mrs. Beattie and Dr. and Mrs. A. P. Barnhill, telling of their safe arrival in Paris and that they had enjoyed. Mr. Beattie said that every possible courtesy had been shown to them and that they had had an exceptionally good trip. They were delighted with Paris, he added.

HIS EYE FOR BEAUTY. Miss Winifred Blair, who was adjudged to be the prettiest of the girls who were candidates for the beauty prize at the Montreal carnival, was received on her return to St. John with greater enthusiasm than was the case with the other royal personage to that city. The town was wild to have a look at her. And yet the city streets a thousand times without being noticed except by some admiring glances from the faces of Mr. Neale or the editor of The World!

CARNIVAL NOTES. At last night's Health Centre Carnival in the Arena the patrons sat through a long and interesting program. Governor and Mrs. Pugsley, Hon. W. E. Foster, Mayor and Mrs. Fisher, and the Health Centre staff were present. After the prizes in gold had been awarded H. Fielding Rankine, one of the winners, presented his prize to be used for the benefit of the Health Centre.

THE QUEEN OF HEARTS, who won a prize last night but left before being identified can get her gold prize by calling at the Health Centre. A sequel to the diamond ring case in which David Carleton is charged with receiving stolen goods, knowing them to have been stolen, came to light late yesterday when Max Lampert, second hand dealer, was arrested by the detective department on a warrant charging him with theft. The police say that Lampert is being held on suspicion of conspiring with Sargent to steal the diamond in question. He appeared before the court last evening and was remanded on request of the detectives. Interesting developments are said to be forthcoming.

THE BAD WEATHER BRINGS POOR LUCK TO HERRING FISHERS

Falling Off Catch for Newfoundland and Shipments Trapped by Ice Cause a Grave Situation in Homes.

Curling, Nfld., Jan. 23.—(By mail.)—The winter months, always a period of privation for the scattered population of the western shores of Newfoundland, loom this year as a terrible menace to the hardy fisherfolk along this coast. With months of winter still to come, the government of the Colony already has been called upon to relieve the hunger of the hamlets that dot the coast from Bonny Bay north, due to the partial failure of the herring fisheries last fall, and the freezing in of the herring fleet before the fish could be taken to market.

The first disaster to the herring fishermen was the falling in of the catch to less than half of last year's pack. At Bay of Islands, centre of the herring industry on this coast, the pack for 1922 was only 9,600 barrels, as against 25,000 barrels for 1921. This fact alone spelled a lean winter for the fishermen, who depend on the money paid them by the packers to tide them over the ice-bound, non-productive season. But worse was to come.

Soon after the first of December the season even in these icy latitudes. The herring fleet, setting out to convey the herring packs to the outside markets, was caught off guard and frozen in at Bay of Islands. The packers in their season's output on their hands, were unable to pay the fishermen. The latter, in turn, were unable to lay in their winter food supplies. To make the situation appear worse, if worse could be possible, the demand for herring "on the outside" has been stronger this winter than usual and good prices could have been obtained from the pack had delivery been possible.

The Newfoundland government, appealed to for assistance when the men were first seen, lost no time in responding. The steamer Sagana was sent from St. John's and succeeded in saving 100 of the 200 fleets of nets that had been frozen in. Of the remainder, fifty fleets sank with the weight of herring in them, and fifty more could not be reached. The Canadian government was appealed to and the ice-breaker Stanley was sent up to Bay of Islands, but she was too late. After a desperate effort to break through the ice barrier the Stanley gave up the task and steamed south.

Seven schooners loaded with herring are frozen solid in the ice, to remain until spring. In their holds are thousands of barrels of cured fish, the fruit of a season's labor. Some of the pack is still on shore, but there is little possibility of getting it transported to a railroad for shipment to market. Heavy snowstorms and bitter frost have tied up the Newfoundland Railway for long periods.

Cherry Woodstons, familiar with the tragic history of the shore fishermen, say that the worst coast faces the darkest days in the annals of the colony. The task of relieving the fishermen is rendered more difficult by the complete suspension of land and water transportation to their section by the heavy winter. Cargoes of food supplies are piled up at this place and Port aux Basques, while coasting vessels have cancelled their sailings because of the ice barrier.

HALIFAX PRAISES US; WANTS BIG TIME NEXT YEAR

Newspaper Suggests They Have "Bluenose Winter Carnival"

Crowd at Lake Hear a Lesson—Miss Canada and the Princess at Photographer's Show—Thanks of the Parade Committee.

The Halifax Chronicle says: "St. John may well be congratulated upon the initial success of the International Skating Championship meeting which opened yesterday. The fact that there was an attendance of 20,000 on a cold stormy day indicates how strongly winter sports are beginning to appeal to the people. There is a suggestion for Halifax in the enterprise of the skating city. The idea of a Winter Carnival in 1924 should be taken up actively. We should begin to plan and organize for it now. We have an innumerable number of outdoor events on the Northwest Arm, and if we go to work with a will we can make a 'Bluenose Winter Carnival' the talk of a continent."

At the Photographer's. Miss Canada yesterday spent about half an hour at the Reid studio, looking over the photographs which were taken there before her departure for Montreal. She selected a sheet of prints, which were graciously presented to her by Mr. Reid. The Carnival Princess, Miss Beatrice McKinney, was also at the Reid studio and had several pictures taken yesterday.

The Sportsmen's Show. This morning the pupils from St. Peter's School and the High School were present at the Sportsmen's Show in St. Malachi's Hall, and heard instructive and entertaining addresses from L. A. Gagnon, chief game warden; G. H. Prince, provincial forester; Charles Sargent, provincial forester of Fredericton, and G. Gerow Blythe of Ottawa, assistant secretary of the Canadian Forestry Association. There will be no show this afternoon, and tonight the programme of this department of the carnival will be brought to a close. It will be a wild game evening, and besides those who spoke this morning at the sportsmen's show will include W. Harry Allan, president of the New Brunswick Guides' Association. The pictures for tonight will accentuate the necessity for game preservation and forest fire prevention. The pictures for tonight there will be another radio concert.

This morning Everett Hunt, on behalf of the Retail Merchants' Association, committee who had in hand the torchlight parade, expressed thanks to all the firms and organizations which helped to make the affair a success. Thanks of Committee.

St. John Girl Wins The Touring Car

The young lady mentioned in the following news article from a Hudson, New York paper is a daughter of the late Francis McAfee of St. John. She has two sisters living here, Mrs. C. T. Maxwell of Elliott Row and Mrs. Albert Kindred of West St. John. Miss McAfee left St. John about two years ago.

Miss Esther McAfee, of 515 Prospect street, this city, was on Saturday night awarded the 1923 Dodge Bros. touring car at the American Legion. A crowd of over 1,000 persons from all parts of the country witnessed the award which was made shortly before midnight.

Miss McAfee has been a resident of Hudson for only about two months, coming here from Boston. As she had no garage or place for the car the committee took the car to the William Peiry Garage, Inc., for her and will keep it there until she has time to make arrangements for her own. Miss McAfee was in the audience when the award was made and when she stepped up to claim the car she was greeted by great applause.

The awarding of the car closed what probably was the biggest and most successful fair ever held in Hudson. The touring night saw over 2,000 people in attendance at various times, the great thrill being a parade of St. John's many men 8 o'clock until midnight."

AID CHURCH IN EUROPE. Toronto, Ont., Feb. 16.—The World's Presbyterian Alliance meeting here has passed a resolution authorizing each Presbyterian church in America to devote sums ranging from \$100 to \$2,000 for building churches in Europe, sums of from \$100 to \$1,000 to supplement the salaries of ministers in Europe, and sums of from \$50 to \$100 for the purchase of theological works for the benefit of the ministers and theological institutions in Europe.

CATHOLIC CHURCH IN SASKATCHEWAN BURNED. Pontiac, Sask., Feb. 16.—Fire last night completely destroyed the Roman Catholic Church and all its contents except a statue, and caused a total loss of \$40,000, partially covered by insurance. The fire is believed to have originated from a defective flue in the furnace. A statue of the Blessed Virgin, said to be more than 500 years old, was saved.

CREDITORS MEETING. At a meeting of the creditors of George H. Morris, who has been doing business in Newcastle under the name of Dickson and Troy, yesterday in the offices of Canadian Credit Men's Trust Association, J. A. Creighton, B. C. L., of C. M. Maltby of Newcastle was appointed inspector. The trustees were authorized to investigate a bill of sale and to dispose of the assets in the best possible manner.

TONIGHT'S GAME. Ralph Parker will referee tonight's game between the Halifax Wanderers and the St. John team. The visiting team arrived this morning and will be in the sports at Lily Lake this afternoon.
