KINGS COUNTY TEACHERS.

(Special to the Star.)

HAMPTON, N. B., Sept. 22.—The Kings County Teachers' Institute continued its session today. Papers were read on "Latin in Schools" by A. B. Magee, M. A., on "Geography" by F. S. Small, on "Hindrances in Teaching and How to Overcome Them" by Miss Hattie Smith. Manual training director, Mr. Plinder, delivered a most interesting and profitable address on the work of his department illustrated by models and diagrams of farms in paper and cardboard, which was full of suggestions and hints to the teachers who are doing something along the lines prescribed for its introduction and development. Questions by the teachers also elicited ready answers of great practical importance. The institute will adjourn this afternoon.

FISH MARKET BARE.

The fish market was very bare today, in consequence of the recent heavy winds that have made it impossible for the fishermen to get outside. One or two dealers had a small quantity of salmon. The only other fresh fish on the market today was herring, which were caught in the harbor, and an occasional haddock.

BIG DAY AGAIN AT EXHIBITION.

Crowds Threaten to Rival Yesterday's Record.

The Horse Show is a Great Drawing Card—Managers Thank the Weather Man.

Still another fine day! Had the exhibition management the making of the weather, it could not turn out a better article for five consecutive days. True, the air might be a little balmy, but even a cool breeze in the evening is to be preferred to the rain and fog that have made their disagreeable presence at other previous shows. The attendance has been of the top-notch order, and today bids fair to witness the presence of another big crowd. There is no disguising the fact that the horse show is a big drawing card, rounding out as it does the afternoon bill of fare. People as a rule admire good horses, particularly when displayed on a green turf under the clear blue canopy of heaven, in preference to seeing them in a walled building and it is this that crowds the grand stand every afternoon and surrounds the driving track with rows of spectators six or eight tiers deep. It is this attraction that relieves the management of the building, thereby enabling eight seats to do the grand tour of the booths with comfort and satisfaction to themselves. Wise people come early in the day and thus escape the throng, which sets in after noon hour and swells until after 4 p. m., when the mass of humanity is so great as to make moving about the buildings a labor rather than a pleasure. This was particularly illustrated last night, when in consequence of the display of fireworks being unavoidably called off, the entire throng had nothing to do but huddle in the large buildings or patronize the amusement halls.

This morning was largely devoted to the judging of exhibits in cattle, horses, general stocks and the industrial sections, but this afternoon there was a fine display in the horse ring, which attracted a large crowd.

Fireworks on an elaborate scale will be tonight's greatest feature. Mr. Hand having laid himself out to surpass all his previous efforts.

Mr. Spencer, in amusement hall, is redoubling his efforts to please and attract. Like the late P. T. Barnum, Mr. Spencer believes in keeping up the rush and improving his show at the very time he is turning people away from the doors—time when less acute business management managers try to practice economy.

The biograph pictures have made a hit, and a night run with profit for weeks, if public appreciation of their merits is an indication.

The midway has been conducted in an orderly manner thus far, the exhibition management having promptly rooted out any abuses that resorted to the use of dice, cards or other unathletic gambling instrument. A doubly strict watch is being kept on these dwellers in tents who remain to the last, it being the regular practice of some of the shady adventurers to make their biggest hauls on the last night and then skip for parts unknown before their victims can make their cases known to the police. This however, applies to a very limited percentage of the midway men, most of whom maintain a reputation for honesty and their prompt admission to every successive St. John exhibition.

A. G. EDGECOMBE'S exhibit in the carriage hall (drill shed), one of the best ever made in this city. Mr. Edgcombe, who has had many years' experience in this business, has located in St. John, where he operates the largest factory in the Maritime Provinces. His exhibit demonstrates what his work is, while the fact that his carriages are all made in the city, puts the buyer in a more personal touch with every stage of construction, enabling him to have his ideas carried out to the letter.

Advantage that every citizen who has ordered vehicles from a distant factory will instantly appreciate. That the exhibitor's work is appreciated is the best evidence of the quick way in which his exhibits have been snapped up. He has been here for two weeks and his carriages to Halifax gentlemen, one to Windsor and five in St. John. The style is now offered at a great sacrifice, finish, substantial workmanship and the prime stock put into the making of Edgcombe's products.

JAPS AGAIN VICTORIOUS

Defeated Russians in an Unimportant Battle

All Quiet at Mukden—Oyama Sending More Troops to Attack Port Arthur

TOKIO, Sept. 23.—An official telegram reports that fights have taken place at the town of Tieling and Santung, sixty miles northeast of Liao Yang on Sept. 20. The despatch says: "Our detachment advanced through Hailuochang on Sept. 20, and attacked the enemy consisting of one company of infantry, some cavalry and a machine gun stationed at Tieling and a battalion of infantry, five hundred cavalry, six quick-firing and one machine gun, stationed at Santung, which lies eight miles north of Tieling. The Russians, who were driven off to the northward left nineteen dead behind them. We captured some spoils. Our losses were very slight."

QUIET AT MUKDEN.

MUKDEN, Sept. 23.—The situation here remains quiet. Small parties of Japanese skirmishers are pushing northward on the road from Bentlaipuz to Fushun. It is stated by Russian spies that Marquis Oyama has detached a considerable force to co-operate with the army before Port Arthur.

The Russians have taken many prisoners, among them being found a number of Chinese regular soldiers.

The weather has turned suddenly cold. The supply of winter uniforms is insufficient and the soldiers are being supplied with Chinese padded cloaks which have been secured in large quantities.

RUSSIAN SCOUTS RETURN.

Capt. Shubert and four Buriat Cossacks have returned from a long scout south of the Japanese main army. The captain brings interesting details regarding the Japanese location. He reports that he received great kindness at the hands of the Chinese who supplied food to his men and offered to disguise them in Chinese clothing. The scouts, however, was not necessary, as the party eluded the Japanese pickets, passing within a few yards of one and reached the Russian lines in safety.

HOUSE BURNED ON DOUGLAS AVENUE TODAY.

Residence of Harry Miller Badly Damaged by Fire This Afternoon

A very serious fire broke out shortly before one o'clock this afternoon in the residence of Harry Miller, on Douglas Avenue.

An alarm was promptly sent in from 125 St. John street, and the fire department was promptly on the scene. The fire, however, spread rapidly, and had practically gutted the handsome residence when the Star went to press.

(LATER.)

The fire at 245 was pretty well under control, and with the prospects of saving the greater part of the exterior of the house. The interior, however, is practically gutted. The fire is reported to have been caused by painters, who were working at the house. The damage is not yet estimated.

"IRELAND IS DYING."

So Says John Redmond—Death Can Only be Prevented by Immediate Action.

CHICAGO, Sept. 23.—To a big audience of his countrymen John Redmond, Irish Nationalist, has uttered this warning: "Our race is slipping. Ireland is dying. It is dying. If we are passive and inactive Ireland will cease to be the home of the Celt. There are more old men and little children and fewer young men and women in that island than any other country on earth. The death of the race can only be warded off by acting in the living present. We must not neglect an opportunity."

Then he made this prediction: "We shall seize our opportunities. Before the oldest man in this audience is dead Ireland will have won a good measure of self government." Mr. Redmond declared he wanted to take back with him fifty thousand dollars subscribed by Irish Americans.

A GOOD TEAM.

The Wakefield team, who are playing the All St. John team on the Shamrock grounds this afternoon, is one of the best that has visited the province. They defeated the Fredericton Tartars two games, shut out the Moncton Trojans one game and lost the second game (11 innings) to the Wakefields, Tommy Howe and Ned Embree. Harry Jope, another old favorite, who is paying St. John a visit, is doing the book stopping for the All St. John team. McEachern and Jope will be the battery in tomorrow (Saturday) afternoon's game.

LADY CURZON SLIGHTLY BETTER

LONDON, Sept. 23.—The condition of Lady Curzon, of Kedleston, who was taken ill two days ago is still critical, but was slightly improved this morning. A despatch from Walsingham Castle says she is slightly stronger. Five doctors were in attendance throughout the night.

SINLA, British India, Sept. 23.—The greatest concern is felt here because of Lady Curzon's illness and the latest bulletin regarding her ladyship's condition are anxiously awaited.

IGNORANT CREW LOST 900 LIVES.

Blame Fixed for General Slocum Disaster

Undisciplined Crew and Negligent Captain and Pilot—Life Preserving Appliances Were Adequate

NEW YORK, Sept. 23.—The local board of steamboat inspectors which has just been investigating the General Slocum steamboat disaster last summer, has completed its work, says the Herald, and submitted its report to Robert S. Rodie, the supervising inspector. The report, which is signed by James A. Mumont and Thomas H. Barrett, contains the following principal points:

That the fire on the steamboat was discovered at the upper end of the Sunken Meadows and that North Brother Island was the nearest available point to beach the steamship.

That the life preserving appliances in the vessel were adequate, but had the General Slocum been supplied with double the number not another life would have been saved because of ignorance and incompetence of the crew.

That there was an absolute lack of discipline on the part of the crew because of the negligence of the master and of the pilot.

That the fire drills had been neglected and that had the crew been trained as the law requires, such a disaster would have been almost inconceivable.

That one of the crew, in his innocence, added to the incipient flames by throwing thereon an empty bag which had contained charcoal.

That the chief engineer was grossly negligent when notified of the fire that he did not see the hose had been connected and the water turned on.

That the licenses of Wm. H. Van Sack, master and pilot, Edward Van Sack, master and pilot, and Benjamin F. Conklin, chief engineer, be revoked.

FIRE DEPARTMENT VITAGRAPHED.

The vitagraphing of St. John was continued this morning and afternoon. The first view taken this morning were of the steamers Prince Rupert and St. Croix as they were departing.

The principal event this morning, as it was one in which the whole of the city seemed to take part, was the vitagraphing of the east side apparatus of the fire department as it galloped down Prince William street. Photographers French with his camera was stationed about a hundred feet below the Custom House on the opposite side of the street, and this massive structure was thus continually depicted on the revolving film, adding materially to the effect. Just before the parade appeared, Mayor White and Alderman Hamlin marched before the camera, turning off to one side.

No. 3 hose wagon was the first to arrive. It came along Prince William street at a fair pace and passed the camera on the left.

This time was lined on both sides with people and made a very animated picture. The fire apparatus then came up in very fast order. The drivers of some of the pieces evidently forgot themselves, for they allowed their machines to lurch as they were approaching the camera, and some of them were partially shut out. A striking feature of the turn out was two fire engines coming along abreast. The last apparatus to arrive was No. 4 hose cart and engine. Despite their being in good shape and were cheered by the crowd. Most of the men wore their fatigue caps, while a few had their broad fire hats on.

Photographer French then drove to North Wharf, where he boarded a tug and took the principal harbor scenes. Another view of the Falls was also taken. This morning's work was ended by a series of views of the Cushing Saw Mill, both outside and inside.

Photographer French is spending the afternoon at Rockwood Park, taking the best features of the well known resort. Near the restaurant a company of Royal Canadian Mounted Police was taken in a special drill.

Tomorrow morning at eight o'clock Photographer French, accompanied by Mr. Cohen and some of the directors of the Tourist Association, will go up river on the steamer Hudson. The party will go up probably as far as the Belisair and numerous views will be taken. The steamer will go to Rothesay, where lunch will be served at one o'clock. At Rothesay the arrangements for the taking of the pictures has been in the hands of Dr. McVey and it is expected that a number of splendid views will be secured. Among the pictures to be taken will be a parade of the stylish turnouts of the Rothesay residents passing the tennis grounds. On the latter grounds the young ladies from Netherwood will play a game of basket ball, and the boys from the Rothesay school will have a football scrim. There are also to be a turn out of the tennis players.

Leaving Rothesay, the party will go to Millville, where pictures of the R. K. Y. Club feet will be secured. Mr. French returns to New York on express that leaves here at 5.35 o'clock.

HALEY ACQUITTED.

(Special to the Star.)

WINDSOR, Sept. 23.—The jury in the case of W. Haley, charged with killing A. Dill, brought in a verdict of not guilty. Haley stabbed Dill to the heart killing him almost instantly.

PITTSBURG, Pa., Sept. 23.—John Wasbit, aged 58, a caretaker on a farm near here was murdered last night by a tramp whom he had ordered from the premises. The tramp hit Wasbit on the head with a piece of gas pipe crushing his skull. The murderer escaped.

ARCHBISHOP IN A WRECK.

England's Primate Had a Narrow Escape.

Special Train With Archbishop of Canterbury and J. P. Morgan in Collision.

BROOKFIELD, Mass., Sept. 23.—A special train carrying the Archbishop of Canterbury from Bar Harbor, Me., to Washington, was wrecked on the Boston and Albany division of the New York Central Railroad near the station here this morning.

The archbishop was not injured, although considerably shaken up. J. Pierpont Morgan, of New York, who was also on the train accompanying the archbishop, was shaken up but not hurt.

The special, running at the rate of 60 miles an hour, was just passing the station when a detached locomotive, which had been drawing a train on the North Brookfield branch ran on to the main line. The engineer of the special sighted a danger signal, but owing to the high speed of the train and the slippery rails, due to the mist of early morning, he found it impossible to more than slightly reduce the speed of his locomotive. The engineer of the branch engine heard the crash of the special, but he had not time to move out of the way.

The archbishop's train struck the North Brookfield engine with a terrific crash and demolished it. The locomotive of the special was thrown from the rails and landed across the east-bound track near the wreck of the North Brookfield engine. The cars did not leave the rails. Rev. Mr. Ellison, the archbishop's secretary, answered for those in the archbishop's private car, saying that no one was hurt.

With the archbishop, besides Mrs. Davidson and Mrs. Morgan, were Rev. Hyla Holden and Rev. J. Ellison and attendants. It was rumored that a maid was hurt, but her injuries were not held to be serious.

PROBATE COURT.

The last will of the late Miriam Fullerton was admitted to probate this morning and letters testamentary were granted to Dr. J. R. Inch, the surviving executor named in the will. The estate is valued at \$1,325 personal property. R. G. Murray, proctor.

Mrs. Mary A. Myles, widow of the late William Myles, died this morning at her home 95 Simonds street, after a lingering illness from heart trouble. She leaves a sister, Mrs. Wm. Crockett, and a brother, Wm. Grey, both residents in this city. The funeral will be held Sunday afternoon at 3.30 from the residence of Wm. Crockett, 68 High street.

The stmr. Tritonia passed Brier Island this morning and it is expected she will reach this port between five and six o'clock. The Tritonia is from Glasgow and has a quantity of Scotch coal and general cargo.

The different trains which arrived this morning brought quite a number of exhibition visitors. It was noticeable, however, that more left than arrived. The city, however, is yet filled with visitors, most of whom will not leave till tomorrow.

The sale of seats for the Jesse McLellan concert next Thursday and Friday opens at the Opera House tomorrow morning at ten o'clock.

Brindamour, the magician, entertained a large audience at the Opera House last night. His feats were marvellous and well deserved the applause they received.

ST. JOHN STAR, FRIDAY, SEPTEMBER 23, 1904.

Stylish, Good-fitting, Ready-to-Wear.

An Old Prejudice Being Overcome.

Every day men are buying our Ready-tailored Garments, who have never before worn anything but custom made clothing. Ready-made does not suit everybody, nor do we urge everyone to buy it. But there are few men who cannot find a place for some Ready-to-wear Garment, just as they wear ready-made shirts and shoes.

For a great many purposes it suits all right and surprises men by its excellent style and fit. In a few cases an alteration is required, the same as it might be in a custom garment.

Just now men are particularly interested in Fall Overcoats and Raincoats, and our stock of fine garments meets their views, to judge by our sales.

We sell a Raincoat that we can commend as low as \$8.50, new, up-to-date goods; others at \$11, \$12, \$15 to \$20.

In Fall Overcoats, we can fit you with a very serviceable coat, good for several years' wear, for \$8, silk faced \$10.00; but you need to come soon as the supply is limited.

MAKING THE DIFFERENCE CLEAR.

Some humorous stories are being told about the Scottish Church crisis. A correspondent of the "Scotsman" tells how a Scottish gentleman was engaged in the hopeless endeavor to explain to an English lady the distinction between the Free and the United Free Kirk. A sportsmanlike man came to the rescue. "A friend of mine who had a shooting in Ross-shire," said the new comer, "asked the gamekeeper, who was a great light in one of the kirk. 'What,' he said, 'is the difference between the Free and the United Free?' After some long palaver from the keeper, he said, 'John, give me the actual difference in a simple form.' 'Well, sir,' said John, 'if you want it plainly, it is this, we'll all be saved and they'll all be damned.'"

CONDEMNED MAN'S LAST LETTER.

John Thomas Kay, the man who was executed at Armlen on Tuesday, for the murder of Jane Hirst, at Rotherham, wrote several letters to his friends. They one and all, showed him to be a man of fair education. The last letter written by him bore out what has been already said concerning the effect of the chaplain's ministrations. It concluded with the following verse:

In peace let me resign my breath,
And Thy salvation seek.
My sins deserve eternal death,
But Jesus died for me.

Among those who had a final interview with Kay on Monday was a sister whom he had not seen for eighteen years.

MONCTON, Sept. 22.—The Wakefield, Mass., team suffered defeat here today in the second game with the Trojans. It was one of the best games ever witnessed here. At the end of the ninth inning neither team had scored. It was not till the eleventh that the Trojans got a man over the plate and the visitors were blanked, the game ending one to nothing. It was an almost errorless game on the part of the visitors. The Trojans had eleven scattered hits, Wakefield six.

LABOR CANDIDATES.

Trade and Labor Congress Decides to Run Them Wherever Possible—No Socialism Wanted.
MONTRÉAL, Sept. 22.—The principal action of the Trade and Labor Congress today was the defeat of a resolution by 61 to 18, declaring for socialism. A feature of the discussion was the speech of President, Plett against the resolution, which was introduced by Simpson of Toronto, whom Plett denounced as a "socialist" and a "traitor to the cause of the workingman." There was another debate on the same as that of the previous day. The congress also agreed to confer with the Manufacturers' Association.
A resolution was adopted in favor of nominating labor parliamentary candidates in every constituency where possible.
Tonight most of the session was devoted to a meeting to be held in the evening at the Hotel de Ville, the government's emigration policy which flooded the Canadian market with labor and reduced wages.
The congress declared for government ownership of the telephones.
A resolution was introduced to expel Jewish workers from the Sabbath observance act to be brought by the Lord's Day Alliance, but this was thrown out.

AN INTERESTING DECISION.

An interesting decision was given out yesterday by Judge Ritchie, in the civil case of Mrs. Finley against R. R. Rogers for rent of rooms which the defendant and his wife had not occupied during a five weeks' vacation. It appeared from the evidence that it is the custom of Mrs. Finley's boarding house that permanent boarders pay \$1 per week if their rooms are occupied, but if their rooms are occupied during their absence the boarders are relieved from paying. The defendant in the present case left some furniture, etc., in the rooms and gave certain instructions as to how it should be guarded during his absence.
His honor decided that the defendant must pay the rent of his rooms for the five weeks.
L. P. D. Tilley, appearing for the defence, has given notice of appeal.

JUNIOR FOOTBALL LEAGUE.

Teams wishing to enter the Junior football league are asked to send representatives to a meeting to be held in the Y. M. C. A. building at half-past seven o'clock on Saturday evening. So far as can now be learned, the only teams now prepared to enter are the high school and Rotherham college. The league has been in existence for two years and the teams have played for a cup donated by Mr. Moore of Rotherham college. Each team has won the cup once and it will be kept by the team winning it three times.
It is hoped that other teams will be formed to enter the league as the boys say, "the more the merrier."

THE LOST WERE FOUND.

George Kahn Home Again—Mrs. Robert Caples Was Not Drowned.
George Kahn, who disappeared from his home in this city some days ago is once more beneath the parental roof. The lad turned up at Wade's Creek where he gave his name as McDonald. This fact was chronicled in the Star and the lad's father went up and brought him home.
Several children got separated from their parents at the exhibition and at the depot yesterday but were eventually brought home.
Mrs. Robert Caples left her home at 10.15 Wednesday without saying anything to her friends and went to stop with a neighbor. As the night wore along and she did not return her husband and friends began a search. Even grapple-iron was resorted to, as it was thought possible she might have fallen into the Marsh Creek.

TRIED TO RUN NEWCASTLE.

Two American Sports Attempted to Show Off.

NEWCASTLE, Sept. 22.—Two sportsmen who subsequently gave their names as Hale and Morris, started to take possession of Newcastle on their arrival here by the Ocean Limited last Friday afternoon.
Hale, followed by his companion, entered the depot as soon as the Limited pulled up and immediately began to make rough house. Then the pair went up stairs to the residence of Station Agent Ramsey. Several railway men put in an appearance and forcibly ejected both men from the premises. The visitors then started down town to make preparations to go in search of big game. Guide Jack Wamboldt had been engaged for them and soon all was in readiness for a start for the woods. But despite most fun in Newcastle the sportsmen wandered up Pleasant street from the Waverley Hotel. The first thing that caught their eye was a sleeping dog on the sidewalk. The animal belonged to David Cool and one of the pair, it is alleged, kicked it whereupon a young son of Mr. Cool's went to the dog's rescue. It is alleged that one of the men then kicked the boy on the jaw. Driving out of town the humorist entered a residence on the outskirts, climbed a flight of stairs and went into a woman's bedroom, which was occupied. A hasty retreat was deemed advisable and the intruders were seen scampering down the road ahead of the enraged man of the house. Legal proceedings are threatened on their return from the woods.

RUSSIA'S MAKE UP.

(London Times).
The world has never, perhaps, beheld such a congregation of incongruous elements as the Russian Empire presents today. The educated classes include some of the best informed and the most highly polished men and women in Europe, many of whom openly express ideas of an advanced liberal type. They include also an intellectual proletariat which has embraced, with all the ardor of the Slav nature, the wildest and most dangerous theories of French and German Socialists. These men have the taste and the ambitions which education brings, with no reasonable prospect of gratifying either. Beneath is the dumb peasant order, permeated here and there with the new ideas which the villagers who have migrated to the newly-established manufacturing centres or who have come into contact with the army and the urban workers. Over all the bureaucracy and the police exercise what is too often a tyrannical and irresponsible sway. The church in her own sphere is as ignorant and as unenlightened as the peasant, and she is the only element of conservatism of all the economic conditions of nobles, of manufacturers and artisans and of the agricultural masses appear to be becoming more and more grievous. The most enlightened men of the empire are engaged in a struggle to reform and recognize that profound constitutional reforms are indispensable to remedy them. They are aware of the dangers of the dangers which such reforms must almost necessarily bring, and they have so far failed to devise a way out of the maze which promises to effect the transition from the half-oriental, half-medieval state, in which they know, to the modern state, the development of modern life and civilization.

HARVEST FESTIVAL.

There was a big gathering at the Charlotte street Salvation Army barracks last evening. The occasion was a harvest thanksgiving meeting. The hall was prettily decorated and there was a good display of agricultural produce and fancy and useful articles for sale. The first part of the evening was taken up very pleasantly by a variety of entertaining programmes, including songs, recitations, given by the children of the Sunday school. Col. Sharp spoke at the end of the evening, and the interest and encouragement given by the children's work. The latter part of the evening was spent in purchasing the various articles for sale, which was followed by tea and coffee served by the ladies.

THE DIFFERENCE.

A thousand men as one are slain—'tis naught!
No human brother must by thee be slain!
'Tis well! 'tis ill! It is as we are taught;
This act of glorious war; that, Mr. Under plan!

A thousand men each side—they meet, they clash,
They kill—for private vengeance all unfain;
Thou diest—if thou slay in anger rash!
One act is glorious war; one, Murder plain!
—Edmund M. Thomas in Collier's Weekly.

A FAKIR AND A RUBE.

A fakir who only started up business yesterday on the exhibition grounds did not stay long, but during the short time he was there he did a rushing business. Shortly after he opened up a young fellow with the earmarks of a countryman started in to buck the game and as a consequence is out the biggest part of one hundred dollars and the fakir has "pulled his freight."

BOY ACCIDENTALLY SHOT.

AMHERST, N. S., Sept. 23.—Alex. Baird, son of Wm. Baird, of Little River, was found yesterday in the woods dead. He left his home early in the morning carrying a shot gun. It is thought that in climbing one of the trees he was struck by a bullet to the ground when his gun went off. The shot lodged in his breast.

A COAT OF MANY SHAPES.

A Capetown tailor has invented a coat that can be turned at will into a morning or evening dress coat. The change is effected by the use of detachable and interchangeable skirts, which are fastened to the body of the coat by an ingenious system of lacing. It is claimed that in two minutes a man can change a frock coat into a morning coat, or a dress coat, by whipping out one pair of skirts and lacing on another, and it is impossible to distinguish the changing from an ordinary seam.—St. James's Gazette.

THE GERMAN EMPEROR'S ENGLISH.

(M. A. F.)
The recent visit of King Edward to Kiel once again brought into notice the admirable English spoken by the German emperor. Apocryph of this, I have the following interesting little detail sent by a reader of M. A. F., who last summer was a guest aboard the Meteor. "At the luncheon table," says my correspondent, "the emperor was in the happiest of moods, and made every one feel at his ease. Prince Henry, referring to a speech made by an Englishman at a garden party he had given a few days before, said: 'What a beautiful language English is.' 'Well, sir,' said I, 'you speak it so perfectly no one would know you were not an Englishman.' 'Yes, we were taught well,' he replied. 'Until I was five years old I spoke no other language, so also the emperor, and he and I both follow the same rule with our children.' This no doubt, accounts for the very perfect English of Emperor William."

supporting the walls of the village clubhouse and inn. He held that no man could rightly appreciate another's bereavement until the angel of death had crossed his threshold. "There's Robinson," he said, "what use would he be in a house of mourning; why he's never lost a cat? No! It takes a man like myself; I know what trouble is. Last year I buried a wife and six horses, not to speak of a fine, fat pig just ready for market."

ABSENT-MINDED.

A faithless swain who was vainly awaited at a church the other morning by a lady in her bridal robes explained his absence on the ground that he had overslept himself. It is a long time since we have heard of such an absent-minded person, unless we except the eminent divine who, reading a book while walking down the very perfect, "I beg your pardon," he said, not looking up until he had passed. Presently, with great solemnity of heart, he continued his walk and his reading. "Ah!" he exclaimed, as he ran into a lady, "is that you again, you brute?"

Once more the exhibition management has cause to rejoice over a large attendance. Thursday's figures being as high as were expected. The warm sun in the morning favored those visitors who were attracted to the horse ring, stock yards, and the other out-door features, while in the afternoon there were people enough and more, to fill the main buildings, as well as the space around the ring, six or seven tier deep, to ensure the children, for it was children's day, were everywhere, over the move from the time they entered the enclosure all the hour when they wanted their weary way homeward, with arms full of souvenirs, picture cards, samples, toys and all sorts of things. Their raid on peanuts, sweets, pop corn and so called aerated waters will not soon be forgotten by the over-worked attendants behind the counters.

Judging in many departments was kept up continuously until midnight, while the stock ring was not tenanted for a moment so long as sunlight lasted. As for the two to three thousand children who were packed to the doors. The children all wanted to see Adie put her head in the lion's mouth. Having done so, proceeded to catch the parents about lions in general and the ones that in the den in particular. The moose, the black foxes, the bears and the monkeys likewise had their quota of youthful admirers, and even the gentle sheep came in for a share of their attention.

There was but one break in the matter of judging exhibits and that occurred in connection with poultry hall. It appears that the regular judges, who had not completed his duties, failed to turn up in time yesterday morning, whereupon the exhibitors waited on the management and asked for another judge. The request was granted, but after the new man had made some progress, the regular judge turned up. Matters, however, were soon adjusted and the work carried on with vigor. The judges in this department should have been completed on Wednesday.

Lost and strayed children were the usual features of children's day. When a weeping kid was found in the buildings or on the grounds it was conveyed to the offices of the general staff in the main building, there to be reclaimed by its anxious parents or guardians. Up to a late hour all the missing ones had been carried home in safety, either by their fathers and mothers or near relatives and friends, thus lifting a great load from the tender heart of Manager Hubbard.

The attendance last night was the largest of the fair, and coupled with the crowd that remained over from the afternoon, filled the industrial buildings to an uncomfortable degree, and gave the amusement halls such a degree of patronage that standing room was at a premium, while many hundreds were turned away from the doors. The Vitascope put in a number of attractive new views, but the vaudeville company made no change in a programme that has proved strong enough to pack the hall at every presentation. Even Adie and her lions were content to repeat the same old acts in the same old way.

Owing to the high wind that prevailed in the afternoon, Mr. Rand was un-

able to get his display of fireworks, which comprised several new and elaborate features, in readiness for the appointed hour and the management was reluctantly compelled to call them off until tonight, when the best display seen here for years will be given. Thousands of visitors were disappointed in consequence, but the postponement was inevitable. What was their loss will be to the gain of all who come to the exhibition tonight.

A DINNER LAST EVENING.

One of the pleasantest incidents at the exhibition yesterday was the complimentary dinner tendered by Mr. Hodgson, dominion live stock commissioner, and his staff of stock judges, by the exhibition executive, in a private room of the restaurant. Among those present were the exhibition management. Responding to a toast Mr. Hodgson made a very important speech. He said that he had never before witnessed such a fine lot of live stock as is present at the exhibition in St. John this year. All the animals seemed to have been particularly selected for such an event. Some people argued, he said, that the live stock show at an exhibition should be taken from the field, and that no special effort should be made to have them prepared before being brought here. This he believed to be all nonsense, as a poorly groomed animal would be just as much out of place in a fair of this nature as a man in his working clothes would be at a social reception. Mr. Hodgson advocates having the provincial fair permanently at St. John, for having it at one place all the time is far more satisfactory than changing it about. This had been proved in Ontario and at present the annual fair at Guelph is one of the best in America. He complimented Manager Hubbard and Manager Sclanders and their assistants on the excellent manner in which everything in connection with the exhibition is being carried out. Dr. Fletcher, the dominion entomologist and botanist, who was also present, made an address in which he paid a very high compliment to the management for their work in connection with the fair. He had never seen, he said, an exhibition carried on with such perfect harmony. Dr. Fletcher informed those present that the weeds which are on exhibition as a result of the school children's competition, were the best collection of weeds it had ever been his pleasure to examine. Mr. Sterriker, the judge at the horse show, who is a very gentle gentleman, spoke very highly of the horses he had seen here, and of the exhibition in general. Mr. Sterriker has made many friends since he came to St. John, and his decisions in awarding prizes have ample evidence of his fairness and ability. Not once have they been questioned. The dinner was a pleasant as well as a most fitting event in the progress of St. John's greatest exhibition.

THE HORSE SHOW.

Although the air was chilly a bright sun gleamed on the horse show yesterday afternoon. The attendance was larger than on the previous day; the grandstand was packed and the boxes filled. It was in every sense of the word a society event. The jumping contest excited a large number of people, and they were very interesting. During an intermission Mr. McClure, from the Chamcook farm, gave another exhibition of the intelligence and skill of a collie dog. The Halifax regimental band played several excellent old Scotch airs and the operator of the Vitascope camera taking the grand stand and other views was watched with interest by the crowds.

ST. JOHN CAPTAINS' GLOBE SHAVE.

Captain and Crew of the Fred H. Gibson Were Rescued.

Among the Calvin Austin's passengers last evening was Captain W. A. McLehlan who was in command of the schooner Fred H. Gibson that sank some few days ago while en route to New York with a cargo of salt. Capt. McLehlan has little to add to the particulars of the disaster that befell his ship, as he was not on board when she was struck by a hurricane and dismantled. She was badly strained and it was soon seen that she could not be kept afloat any length of time. After drifting about for an hour or so the New Bedford whaler, Magna A. Swift, came to her aid and took off Captain McLehlan and his crew. Half an hour after the Swift rescued the men from the Gibson that schooner sank. The tale that so badly damaged the Gibson did slight damage to the Allan Swift and it was while repairing this damage that the Gibson was sighted.

NO COMPLAINT MADE.

Chief Clerk Has Heard Nothing of Charges Against Policemen.

The Star has received a communication from a gentleman asking what action Chief Clark intends taking in regard to a complaint said to have been made to the effect that the police had given liquor to a young man and later arrested.

Chief Clark told the Star this morning that no such complaint had been made to him and consequently he had nothing to say in the matter.

Some few days ago a Mrs. Adams complained to Police Magistrate Ritchie that the police had given her son liquor. His honor declined to listen to her statement, saying that the proper party to make such a complaint was the chief of police.

POLICE REPORTS.

A bunch of keys, a hat and a pair of gloves found on the street in different parts of the city can be had by the owners applying to the police.

Last evening in making their usual rounds the police discovered the doors leading to three business houses open. Between one and two o'clock this morning a horse was found wandering about St. James street and was taken to Smith's stable on Sydney street.

On behalf of the New Brunswick Deaf Mute Association, the committee on arrangements desires to acknowledge with thanks the kindness of His Worship Mayor White to be present to open their convention with his address: of Principal Stewart, of the school for the deaf, to act as interpreter, and of the Young Men's Christian Association for the use of their hall. It is the gratification of the committee to know that their first convention was a decided success.

TEACHERS AT SCHOOL.

Instructors of Youth in St. John and King's County Hear Some Valuable Papers.

The third session of the St. John County Teachers' Institute was held this morning in the High School building. The attendance was even larger than that of yesterday, and the names enrolled this morning bring the membership up to two hundred and fourteen.

For a county teachers' institute this is a very encouraging circumstance. The membership, of course, is not composed entirely of St. John teachers as many of the teachers come from the counties of Kings and Queens. The discussion in which the following took part: Messrs. Dr. Bridges, Nelson, McDermott, Farlee, Owens, Myles, Inspector Bridges, Thompson, Carter, McLean, and Miss Deaulde and Miss Hogan.

A paper on Science, by T. Stohart, elicited much appreciative comment. The paper was really a treatise on botany, dealing with the propagation, growth, sustenance, uses and parts of plants.

A paper on Grammar, by Miss Lawson, closed the morning session.

This afternoon's session began at two o'clock with some music by the High School orchestra. J. H. Town then read an excellent paper on Literature.

The election of officers and the completion of unfinished business will end this year's meeting of the institute. (For yesterday afternoon's proceedings see page 5.)

POLICE COURT.

Four Plain and Three Abusive Drunks were Fined Today—

One Assault Case.

In the police court this morning six drunks were fined four dollars each.

George Pike paid \$5 for working a horse with a sore shoulder, after the police and Secretary Wetmore, of the S. P. C. A. had told him to lay the animal up for a sore shoulder. Pike swore that when he notified Pike to be in court at a certain time he met with a refusal so a warrant was issued. Pike said he tried to get another horse, but could not do so. This was, however, not considered sufficient excuse, and the fine was imposed. Pike was also told to consult a veterinary about the horse before using the animal again.

Samuel Shannon was in hard luck for a time this morning, but came out all right. He was fined \$8 or thirty days for being drunk, acting in a disorderly manner and using bad language to passengers on an I. C. R. train.

James P. Robertson, who pleaded guilty and presented a check in his favor drawn on the Bank of Nova Scotia for \$7.07. Nobody in court would cash the check, so there he was anchored. Finally a friend came forward and paid the fine and the pair started off for the bank to cash the check.

James Clark got drunk yesterday and kicked up a fuss on St. John street, where he struck an unknown man in view of the police. He was fined \$20.

Frank Schleyer, of Fredericton, who was arrested for discharging a revolver in a Water street bar room, made a satisfactory explanation and as he was anxious to go home, he was given his freedom. He was not allowed to have the revolver.

Theodore Fairweather, who violently resisted special policeman Thomas in Dunham's bar-room Wednesday, and Joseph Lambert, who interfered, were in court again today, when the matter was fully gone into. Mr. Dunham did not wish to prosecute on the charge of abusive language, the policeman was satisfied in arresting his man and upholding the majesty of the law, so Fairweather pleaded guilty to using abusive language and was fined \$5 or two months. Lambert was fined a similar amount. His honor pointed out to the men that they were liable to an additional penalty of \$50 or ten months. The fines were allowed to stand in both cases.

POLICE ACCUSED OF UNFAIRNESS.

In the police court this morning during the hearing of the case against George Pike for working a horse that had a sore shoulder, Pike said the whole affair was due to Officer Hann, and intimated that it was that officer that inspired Sgt. Hastings and Officer Semple to bring the charge against him. He further stated that Officer Hann was a regular attendant at the river house, having in the morning, after he had been on night duty, soliciting business for his son. He asked his honor if this was fair and received a reply to the effect that the Safety Board was the proper place to make any complaint of that kind. The chances are that more will be heard of this matter before long.

THE BEST GROCERS.

They Are Selling the New Flour.

The best grocers in St. John are interested in the new flour.

They have become thoroughly convinced of the merits of Royal Household flour.

They have been convinced by the thorough test many of St. John's best bread and pastry bakers have made of the merits of the new flour, and by which they have found it is far superior to the flour made by any other process.

This has created a great demand for the new flour, and the grocers are ordering a large supply.

The best grocers now state that they consider Royal Household a four every merchant must sell in order to succeed.

The Ogilvie Flour Mills Company, Limited, have made a strong statement in the Sun today. They claim that every grocer who is really among the best will tell the truth about flour to the flour consuming public, and recommend Royal Household above all other brands.

The company offers to prove this statement. It has made a canvass of the St. John grocers to see how they are dealing with this flour question and reports that every one of the best grocers say "Royal Household flour is superior to any other flour in the city and can endorse as the best."

MRS. THOMAS CAPLES DEAD.

Many friends will regret to learn of the death of Mrs. Minnie Caples, wife of Sgt. Thomas Caples of the police force, which occurred at her home, 40 Brunswick street, shortly before midnight.

Mrs. Caples had been ill for upwards of seven weeks and although for a time it was thought she would recover, her brave fight against death was unavailing. She was a daughter of George Carr of Halifax, and was thirty-seven years of age. Mrs. Caples leaves besides her husband, five children, the eldest of which is only thirteen years of age. Notice of funeral will be given later.
