THIRTEEN KILLED In a Railway Wreck In France Yesterday.

PERUVIAN MINISTER To That County Lost His Life In the Accident--Twenty People Were Injured and Five Are Missing--Car Was Thrown Over a Bank.

Bayonne, France, Nov. 15--The Southern express was derailed at noon today, between St. Omer and Sausse, about 33 miles northeast of Bayonne. The restaurant car was precipitated over an embankment. Thirteen persons were killed and twenty others injured, seven seriously. Five passengers are missing.

The list of killed includes Senator J. F. Canavero, Peruvian minister to France, and an attaché of the Peruvian legation in Madrid.

The section of the line where the accident occurred is under repair and the derailment is attributed to the great speed of the express.

The engineer says that the ground gave way under the locomotive, which sank into the ballast. The restaurant car came into terrific collision with the tender and alone rolled down the embankment. It was lunch hour and out of 34 passengers in the train 20 were at the table.

The bodies were terribly mangled. One of the butlers of the restaurant car, who was slightly injured, became suddenly insane and walked to and fro amid the wreckage, singing at the top of his voice. The engineer and stoker, who were thrown into a field, had miraculous escapes.

The Italian envoy to the Spanish court, to announce the accession of King Victor Emmanuel, is believed to be among the missing.

AMBASSADOR CHOATE Believes Nations in Future Will War in Industries Rather Than on Battlefield.

London, Nov. 15--Mr. Choate, the United States ambassador, this evening distributed prizes to students of the Mechanics' Institute at Burnley.

Replying to an address from the mayor and corporation of Burnley, he congratulated the wish that Anglo-American friendship might never be disturbed.

"I venture to express the belief," he said, "that future national conflicts will be in the fields of industry and commerce rather than the field of battle and that any nation which over-indulges in the detestable and did everything possible to revive him, but to no purpose.

Nearly all of the spectators had left the field and were thus spared a terrible shock. Moore, who presently lapsed into total unconsciousness, was placed in a city hospital ambulance that had been summoned, but before his hand was laid on the door of the institution was reached.

The young man's father, Mr. J. H. Moore, of 38 North St. Paul street, Rochester, N. Y., was notified of the sad event, and is expected here tomorrow. Being a Freshman, young Moore was not well known, but those who did know him speak of him in the highest terms. The rush in itself was one of the roughest and most fiercely contested in the history of the M. I. T., in which the Sophomores won 19 to 11. Moore was one of the immediate defenders of the cane. Several times the fierceness of the scrimmage relaxed in order to allow some fallen combatant to gain his feet. Moore's like misfortune went unnoticed and he fell so near the centre of the fray that he simply had to take his chances. There were others who went down when the crack of the pistol put an end to the rush, but none of them were so trampled or smothered as Moore. Technology men who learned of the sad accident were profoundly shocked.

SWEDEN'S MONARCH VERY ILL. King Oscar Said to Have Lost His Memory Because of Brain Attack.

Paris, Nov. 15--Private but most trustworthy information has been received here to the effect that King Oscar of Sweden is in a very low state of health. His recent brain attack, it is added, deprived him of his memory and he seems unable to recuperate. The facts are being suppressed.

AN AWFUL HALF HOUR. Creighton McDougall Was Whirled Round BY MILL SHAFTING AT SHANGHAI.

At Thompson's Mines, Renfrew, N. S.--He Still Lived When the Machinery Was Stopped, but Only for a Short Time--Had Been Injuring the Machinery.

Halifax, Nov. 15--(Special)--A terrible accident whereby a young man named Creighton McDougall lost his life occurred at Thompson's mines, Renfrew, about 11 o'clock this morning. William Carroll, who was working with him, led him off the machinery of the turbine mill, which was run by water power.

Shortly after Carroll left to sharpen an axe, he heard a screech, but thinking it came from some boys who were playing near, he paid no attention to it. Returning about a half hour afterwards, to his horror he found the shafting whirled around, entangled in the shafting.

He at once ran and stopped the machinery and removed the unfortunate man. McDougall still lived, but had his legs broken and was so badly hurt internally that he died in a short time.

Deceased, who was about 30 years of age and belonged to Nine Mile River, Harris county, was unmarried, but leaves a wife and mother, whose sole support he was.

THE WOMAN IDENTIFIED. Bodies of New York Doctor and Woman Found in a Hotel--Picture Recognized by Her Husband.

New York, Nov. 15--Dr. Christopher T. Ahlstrom, of this city, and a woman were found dead this morning in a bedroom in the Boulevard Hotel, on Broadway. Both were found in a room which was a widow and had lived with his eighteen-year-old daughter Rachel. Dr. Ahlstrom's companion was a handsome bride, about 22 years of age. She had the features of a woman of refinement. Her clothing was of good quality. On her left hand were four rings, which the police say were Dr. Ahlstrom's.

Dr. Ahlstrom's body was taken to an undertaker's place, the woman's to the morgue. Coroner Saxe, who he believed had been accidentally asphyxiated, but the finding of a small vial in the room which had contained a certain percentage of cocaine had convinced him that an autopsy was desirable. The bottle bore the label of a druggist named Wylie. Wylie said he filled the bottle two weeks ago and had a prescription calling for four per cent of cocaine.

The woman was later identified as Mrs. Harry Gardner of 109 West 101st street, New York. She had followed the doctor to the hotel to kill her foreign-born husband. The identification was brought about by Wylie, the druggist, who filled the prescriptions for Dr. Ahlstrom.

Mrs. Gardner's mother, it was learned, lives in Chicago. When the husband of the dead woman was found, she said he was out looking for her last night, after he had failed to find her at home. When he saw her picture today he identified it as that of his wife. The couple were married in 1880 and lived in Ohio before they went to Chicago. They left the latter place last August and came to New York. Gardner's brother was a patient of Dr. Ahlstrom. Gardner thought the doctor fond of his wife, but never suspected her fidelity. He believes she was lured to the hotel by Ahlstrom and drugged and that Ahlstrom, becoming alarmed, killed himself.

The autopsy held late today showed that death in both cases was caused by asphyxiation.

WANT THE "OPEN DOOR." Southern Cotton Manufacturers Petition Secretary Hay.

Washington, Nov. 15--Secretary Hay has received a petition from nearly all the leading cotton manufacturers of the south that he take such action as may be within his power to prevent the interference by any European power which might close the foreign markets to the cotton manufacturers of the United States as well as injuring many other American interests. The petitioners declared that the "open door" policy is necessary to secure the retention of the important trade in cotton drills and shirtings with China, most of which are manufactured in the Southern States.

They furnished bail in \$200 for their appearance before Judge Mitchell Saturday, November 24. The third man has not been arrested.

THE OFFICIAL VERSION OF AFFRAY BETWEEN BRITISH AND GERMANS AT SHANGHAI.

The Last Foreigner to Leave Sian Fu Has Reached London--Letter From Dr. Morrison to the Times From Peking--Outbreak of Rebellion Reported.

London, Nov. 16--Dr. Morrison, writing to the Times from Peking, Tuesday, says: "The Tartar general, commanding in the province of Sze Chuan, has been nominated governor generally of Manchuria, in defiance to Russia's invitation to China to resume the government of that territory under Russian protection."

"The Chinese peace commissioners have received a telegram from the Empress Dowager, dated November 10, censuring these reports to prevent the dispatch of foreign punitive expeditions into the interior. The Empress Dowager continues to issue decrees appointing officials to office, she is unable to realize her position and has even appointed literary chancellors to conduct examinations in the provinces."

"Trustworthy despatches from Niu Changung assert that, despite their assurance that they will not look the railway, the Russians are transferring material from the Sian Hai Kwan line across the river at Niu Changung to the Russian Manchurian railway."

Reported Outbreak of Rebellion. CHATHAM NEWS. Boy Badly Injured Himself--The Miraculous Natural History Society.

Chatham, Nov. 14--Albert McLean, aged eight years, son of Mr. Albert McLean, met with a very serious accident the other day. While playing near a granite rock, a companion hit the rock with a hammer. A piece of the granite flew and struck McLean on the eye, blinding him. The eyeball had to be removed in order to save the sight of the other eye. He was taken to St. John for treatment.

The Miraculous Natural History Association held its monthly business meeting on Tuesday evening. After the business was transacted Dr. Cox gave an interesting talk on "The evidence of the glacial period found on the Miraculous River," which he illustrated with specimens. The following donations were received since the last meeting: Samples of silver ore, Roseland, by Mr. J. Cox; a gemnet, by Colonel McCully; Bonaparte sandpaper, by E. Witness in Rice Case Is Ill. New York, Nov. 15--Assistant District Attorney Osborne today appeared before Recorder Goff and made an application for the transfer of Charles J. Jones, formerly valet to Rice, the millionaire, from the Tombs to the House of Detention. Mr. Osborne in his affidavit says that Jones is a sick man and that he is very much distressed as a witness and that as such he is as safe in the House of Detention as in prison. The Recorder told the Assistant District Attorney to pay the application and the calendar for tomorrow and added that the motion would be granted.

Mother-in-Law's Signature Forged. Boston, Nov. 15--A statement sworn to by Henry B. Ball, the well-known architect and chairman, who disappeared from this city several weeks ago, in which he acknowledges that he committed forgery, was produced by his mother-in-law today in the Equity session of the Superior court, before Judge Bracy at a hearing in a proceeding brought by her to vacate a judgment obtained without her knowledge on notes which she alleges bear her forged signature. The judgment was for \$2,000.00. It was obtained by Stephen Jennings in the Superior court by virtue of the default of Mrs. Elizabeth M. W. Nourse, of Hilton, mother-in-law of Ball.

Cape Town, Nov. 15--A correspondent of the Cape Times reports that 1,250 Boers are besieging a British garrison of 250 regulars at Schweizerenke, in Western Transvaal and that Lord Methuen and Col. Steele are believed to be going to the garrison's relief.

May Be Made Permanent. Ottawa, Nov. 15--(Special)--Hon. Dr. Borden returned to the city from Nova Scotia. He had a long interview with Lord Strathcona in Montreal. It is reported that they were taking over the idea of making Strathcona's Horse, after their return to Canada, the nucleus of a mounted regiment of infantry for Manitoba and the Northwest Territories. The minister of militia has had under contemplation for some time the organizing of such a regiment and this would be an excellent way of starting it. It would be a pity to have such an excellent body of fighting men disbanded after their return.

Canadian Graves for Canadians. Ottawa, Nov. 15--(Special)--Sir Wilfrid Laurier introduced Frederick Hamilton, war correspondent, to a crowded audience tonight in the Russell Theatre. Father O'Leary was present and made a brief speech. He hoped that the government would see that those who fell fighting for the flag in South Africa were brought back by the government to Canada and buried in Canadian soil. This was received with great cheering.

Cartaginians Men at Halifax. Halifax, Nov. 15--(Special)--Seventeen returning Canadian soldiers reached here tonight from Sydney, they having missed the steamer Carthaginian as St. John's. The men were royally entertained at St. John's by R. G. Reed and were given a free passage by him on the steamer Scotia to Sydney. They also received a great reception at Sydney.

On arrival here, they were met at the station by the band from the Royal Canadian Regiment, and a detachment of men from the regiment, who escorted them to Wellington barracks where they were quartered for the night. The draft was in charge of Sgt. Melish. The men will leave for their respective homes today. Among the number is W. A. Raymond of St. John's.

Defence of British Officers. London, Nov. 14--James Barnes, an American correspondent who represents Harper's Weekly and the London Daily Mail in the South African war, and by the cudgel in behalf of the British officers about whom so many unpalatable truths have been told by Lord Rosland, A. O. Davis, by refusing several charges made by Davis's article in Scribner's. Barnes spent much time in Pretoria, says the investigator after the publication of Davis' article. He says he found no evidence that British officers confined in the model school installed by the Boers had destroyed school property. The officers cut up a few text books and tore up some floors in tunnelling, but Barnes says that he cannot see that these things are grounds for Davis' rather sweeping charges. Barnes describes Davis as being always healthy and always interesting, but, in his measure, is a sentimentalist who would much rather be interesting than be right.

The Future of Cuba. Havana, Nov. 15--The Cuban constitutional convention held a short session today in the Marti Theatre, and adjourned tomorrow. The reports of the committee on credentials sustained the election of all the delegates from the province of Havana. Some irregularities, the committee asserted had been committed and some votes had been thrown out, but not enough to change the general result. The report was laid upon the table for discussion. The committee's findings with reference to the other provinces were accepted by the convention.

The Havana trades union is endeavoring to interest individual delegates in a proposal to incorporate in the constitution a provision declaring that monopolies are a detriment to motive labor and must be prevented. The petition by its terms shows that it is directed against Spanish cigar manufacturers.

El Diario de la Marina denies that any discrimination is now made against Cubans in the tobacco business. The resignation of Mr. Horatio Rubens, special counsel to General Wood, regarding Cuban matters has created a stir among the leaders. At first they understood that the move meant that Mr. Rubens considered the case of importance lost, but in a letter to La Discusion he says that he has full confidence that the United States government will keep all its promises and that he is resigning for a short time from his labors in behalf of Cuba in order to attend to personal affairs.

The future of Cuba? Mr. Rubens asserts "now rests with the delegates of the people in the constitutional convention."

American President Wants All His Lieutenants.

Washington, Nov. 13.—President McKinley today announced clearly and forcefully to the members of his cabinet his desire that they should all remain with him during the four years of his coming administration. His wishes were made known in an extended speech at the cabinet meeting in the White House today. Responses were made by all the members present and while there were no definite pledges from any of them that they would accept the postoffice thus tendered, there was, on the other hand, no definite declaration. Today's proceedings set forth the wishes of the president in the matter and relieve the members of the cabinet of the customary obligation of tendering their resignations at the end of the term unless they have made an irrevocable decision that it will be impossible for them to continue in office. It also acts as a real all speculation and state making of the country's political prospects, for it is understood generally that there is but one doubtful factor in the homogeneity of the present cabinet. That factor is Attorney General Griggs, as he holds his present position as a great financial sacrifice.

Friends of the Ex-Finance Minister Want Foster to Lead.

Ottawa, Nov. 13.—(Special)—Until such time as the Conservative party selects a leader the mantle of Sir Charles Tupper falls to Sir Mackenzie Bowell or Hon. John Haggart. It is the custom that the senior party councillor acts in the absence of the leader, and as Sir Mackenzie Bowell is the leader of the senate, then the leadership of the commonsense ought to fall to Mr. Haggart, until such time as the party meets in caucus and selects a successor to Sir Charles Tupper. Speaking of the leadership, Mr. Haggart says that it would be premature to do anything until such time as a statement was obtained from Sir Charles Tupper.

Arrangements for the Fourth Dominion Census.

Ottawa, Nov. 13.—(Special)—Arrangements will soon now be underway for the taking of the fourth dominion census of 1901. Mr. Archibald Blue, who has been engaged to take charge of this important undertaking, has been giving the matter his close attention for some months. "According to the wording of the act," he says, "the enumeration is to be made about the first of the year, but the practice since confederation has been to fix a date in the first week of April. This precedent we will doubtless adhere to, but while the task was one that has usually consumed between three and four months in the past we will endeavor this time to secure its completion within one month."

WESTMORLAND DECLARATION.

Mr. Emmerson's Majority Was 486.

Dorchester, Nov. 13.—(Special)—Today was official declaration day of Westmorland county. Quite a number of electors from different parts of the county were in attendance. Table with 2 columns: Division, Electors. Totals: 4,420 Electors, 3,934 Valid votes.

After the returning officer had declared the result of the polls and the election of Hon. H. R. Emmerson, brief speeches were delivered by the candidates and Mr. C. W. Robinson, M. P. P.

Hon. Mr. Emmerson was much pleased with the way the campaign was conducted. He believed there had been an absence of sense of personalism. He had entered the contest because he thought Westmorland should endeavor, along with the province, to secure the railway route to strengthen the minister of railways in his railroad policy. The people of the province had spoken on the matter and their verdict was that it could be secured. He was glad to have been the one to whom the redemption of Westmorland and the bringing of it once more to the allegiance which 18 years ago it had forsaken, had fallen.

Mr. Emmerson's remarks were frequently applauded.

Mr. A. Powell, the defeated candidate, thanked those of the electors who had supported him. He dealt briefly with the railway question, and stated that the largest crowd that he would be given a constituency by some more fortunate member of the Conservative party.

In answer to repeated requests, Mr. C. W. Robinson briefly addressed the assembled electors.

Explains the Growth of Canadian Loyalty.

The following article appears in the Brooklyn Eagle under the signature of the Duke of Argyll:

The empire is no longer a geographical expression. It lives and moves and has being. Men doubted, and now they doubt no longer. For the first time in all history, a parent state has seen her sons, who, successful builders of new states, throw themselves of their own free will into her quarrel, making it their own. They have watched how in one of the colonies, foreign influence has been working against the welfare of a community like their own. They have deliberately judged from their own experience that it is not good for that colony or for themselves as constituent parts of the empire, that the great experiment of nation building should be marred or destroyed in South Africa. They have known among themselves how false is the theory or sentiment that racial differences should be crystallized into effective national governments. Free institutions are the solvent of racial prejudices and of wholesome ambitions. They have proved, by union among themselves, that new nations can only grow where tolerance and a power of adaptation and reception of new ideas co-exist. They have in some instances come through trials of great severity before they found this truth. The blessings they have derived from their knowledge they have determined shall be gained in South Africa. Even if their ministers had for a while held back, doubtless as many cautious statesmen are entering upon a great experiment before knowing the mind of their constituents, they would have left them free to build their own empire. The will of their peoples was justly declared with a determination which no popular government could have resisted, even if they had been as they were not, desirous to do so. From New Zealand, from Australia, from Canada, came the message, uttered as with one voice, that the empire embracing Great Britain's empire through the part effecting a great victory, we are with the modelled, and with the loyalists in that colony. We will aid in removing the evil. We will confirm the action of the parent state, we are at her side and our blood will flow as the champion of the future of the country we hope to see with ourselves a free dominion under our Queen. Never was there conflict more grand in the history of the world than that which is now being fought out between the desire to speed constitutional liberty and the desire to keep the empire in the dark. The fairest hopes of nations as of men may be dashed, but it will ever be an encouragement to tread in the footsteps of freedom and advancement has been the empire's watchword in the closing year of this century.

Loyalty of Canada.

"Loyalty to freedom"—yes. That is the loyalty of Canada. She is the oldest of the young liberties of the world, and liberty among themselves, and have won by their own work what they have sought. It is because the British people have been so long a part of the empire that they have fought for another kindred nation's birth. This loyalty is allegiance to no government that does not stand for the rights of the people to know to be liberty. They have not looked in vain to their old "home" for such a government, and they have carried to the new lands the forms of procedure and legislation of law which they had at "home." They are no fugitives from any land, but they are loyal to the country they knew and loved. This can be said of no other emigrants of any land or time. Others have fled from laws they found objectionable, and they have therefore not carried with them as household gods the institutions they were glad to leave behind them. It has been the case with the New York and New South Wales did not want to have a renovated set of institutions, but they have carried to the new lands the forms of procedure and legislation of law which they had at "home." It is stated by those who purchased the Monticello and put her on this route some ten years ago, that before she was bought she was thoroughly examined and found to be in every way strong and fit for the business for which she was intended.

THE LIBERAL MAJORITY.

Until the recounts are all over it will be impossible to tell just what the Liberal majority in the House of Commons is. Enough is known, however, to indicate that it will be in the vicinity of fifty, probably something more, and possibly one or two less, a majority which is quite sufficient and indeed more than sufficient for all practical purposes.

CONSERVATIVE PROSPECTS.

The prospects of the Conservative party at the present time are extremely gloomy. The party is defeated, but appears to be altogether out of touch with the people.

and that some of the men in it had very little training. It is remarkable how quickly the regiment became efficient. No doubt the intelligence of the men counted for a good deal, as it always must in war, because most of the men of the Royal Canadianians were of a high grade, well educated, highly intelligent and full of resources.

CONCERNING MAJORITIES.

The fact that the maritime provinces gave a very large majority to the government ought to close the mouths of those opponents of Sir Wilfrid Laurier who are claiming that he depends upon the support of Quebec for his support.

habit of using extremely strong language in regard to his political opponents, and there is no doubt that he has injured himself greatly by this course of conduct. We think that there is no paper published in Canada that is more in need of a change of its journalistic methods than the Sun itself, especially in the matter of personal attacks, in which it indulges so frequently.

ed, for persons who do not like the laws of a church can easily leave it, and go to some other communion which is less strict in the matter of marriage and divorce.

It is to be hoped that the news that General Botha has made a proposal to surrender is true, because the present guerrilla warfare in South Africa is not calculated to advance the interests of any person. General Botha is said to have proposed terms, but these terms are not named. The only terms that should be granted to him are unconditional surrender.

A week ago today the steamer Monticello sailed from this harbor with about forty persons on board, in good health and spirits, and unconcerned of any impending danger. Today all but four of those are dead, having perished by the violence of the waves in the wreck of that unfortunate vessel. This tragedy, which has saddened so many homes, is an impressive lesson of the transient character of human happiness, and the uncertainty of life.

The war in South Africa against the Boers who are practicing guerrilla tactics is being conducted with much vigor by Lord Kitchener, who will not be restrained by any weak feelings of regard for the men who are in the field fighting for the two extinct republics.

The canons on marriage and divorce, which have been drafted by the committee of the Protestant Episcopal church, for the consideration of the general conference of that body, and which we published yesterday, may or may not become law. The chief feature of them is the denial of the right of divorced persons to re-marry, the penalty for remarriage under these conditions being denial of the rites of the church and excommunication.

We published elsewhere the speech made by the colonial secretary, the Right Honourable Joseph Chamberlain, at the dinner to which he was invited by the Prime Minister and members of the Fishmongers' Company of London. It will be observed that Mr. Chamberlain deals largely with colonial questions, and his speech is well worthy of an attentive reading.

If Lord Roberts should visit Canada, as he has promised to do, he will be certain of a great reception because he has proved himself most appreciative in his references to the soldiers which Canada sent to South Africa. Lord Roberts has said many kind things about the Canadian contingents, and the people of Canada will not be slow in proving to him that they appreciate his well-aimed compliments.

The statement made by Sir Robert Hart that the legations in Peking would have been in no danger if it had not been for the attack on the Taku forts will attract a wide degree of attention, and will be liable to cause people to believe that the Chinese business has been woefully mismanaged. Sir Robert Hart makes this statement in an article which he has written in the Fortnightly Review. His authority on such a subject ought to be conclusive, because he has resided in China for forty years, and knows the country and the people better than any other living man.

We are hearing a good deal about threatened election protests in these days, one of those which we are promised being from the Rev. Dr. McLeod, who unsuccessfully contested the county of York. The Liberals, no doubt, will be ready with election protests also, for it can be proved that not a single election conducted by the Conservatives in the province of New Brunswick was free from bribery. Dr. McLeod thinks that there was no money expended in the county of York, and he may be quite sincere in his belief, but while he is a good man himself he has wicked partners.

The fact that the registry of scholars now enrolled in the public schools of St. John is the largest on record would seem to indicate that the population of this city is greater than it ever was before. The total number of children going to school is upwards of seven thousand. Still, there are children who do not attend school, and who ought to be looked after. With free education at his door no person is justified in allowing his children to remain away from school.

Mr. Brodeur, who is to be the next speaker in the House of Commons, is the member for Bonville, which he has represented since 1891. He has served as deputy speaker and chairman of the House of Commons, and has proved himself an admirable presiding officer. So much depends on the speaker for the despatch of public business that it is well a man has been selected for that position who has proved himself thoroughly competent to fill it.

We are glad to see that a new steamer is shortly to be put on the route between St. John and Yarmouth. The people of St. John are much interested in having a good vessel on that route, their business in that direction having been largely

increased, while the Monticello was running. In selecting such a vessel the first condition should be that she is staunch and safe.

The New York Presbytery has decided against a revision of the Westminster Creed, but the result was only obtained by the casting vote of the moderator, so that it is practically a victory for those who are in favor of a revision. The ancient document has certainly some things in it which most Presbyterians do not subscribe to fully, and therefore the time seems to be opportune for a revision.

If the report be true that the sum of \$200,000 was obtained by the Conservative party from the sale of a campaign fund, the matter should be investigated by a committee of parliament. This is the Tammany system, and has been highly successful in the hands of that organization, but we should regret to see it introduced into Canada.

There is no journal in Canada that has taken the defeat of its party with such an ill grace as the Toronto World. Mr. MacLean ought to restrain the impetuosity of his editorial writers, for after a battle has been fought and won, it seems useless to resort to abuse of the victors.

An Anti-Vice Society Formed.

New York, Nov. 14.—It is announced tonight that the Society for the Suppression of Vice, of which Anthony Comstock is the head, will soon begin the most extensive raid of pool rooms and gambling dens ever undertaken in this city.

The work of obtaining evidence has been under way for some time and Mr. Comstock has received the aid of many citizens, who have formed themselves into an organization known as the Anti-Vice Society of New York.

It is said Mr. Comstock will tomorrow get out a large number of warrants.

Autumn Medicine.

Change of season often affects the health more or less perceptibly. Prudent people take "Spring" medicine—but Autumn medicine is just as needful. The effect of the hot summer weather on the blood makes itself felt, now that the weather is changing; you feel bilious, dyspeptic and tired; there may be pimples or an eruption on the skin; the damp weather brings little twinges of rheumatism or neuralgia, that give warning of the winter that is coming. If you want to be brisk and strong for the winter, it is NOW that you should build up the blood and give the nerves a little tonic.

Dr. Williams' Pink Pills

for Pale People

will make you strong and stave off aches and pains for the winter if you take them now.

GREATLY RUN DOWN.

Mr. E. Hutchings, a printer in the office of the News, St. John, N.B., writes: "I am greatly indebted to you for the benefit I have derived from the use of Dr. Williams' Pink Pills. I was in a greatly run down condition, and suffered from pains in the back and stomach. My appetite was very feeble and often I had a loathing for food. I was subject to severe headaches, and the least exertion would leave me tired and breathless. I tried several medicines, but with no benefit—rather I was made worse. Then I consulted a doctor, and was under his treatment for three months, but did not get any better. Before these were all read much concerning Dr. Williams' Pink Pills, I finally decided to try them. These completely restored my health, and I can now go about my work without an ache or pain of any kind. My recovery leads me to doubt as to the remarkable curative properties of Dr. Williams' Pink Pills, and I must say their value has been further proved in the case of a friend to whom I recommended them."

Prevention is better than cure. But it is only Dr. Williams' Pink Pills for Pale People that are of any use. If the FULL NAME isn't there it is a substitute—don't take it.

Sold by all dealers, or may be had postpaid direct from the Dr. Williams' Medicine Co., Brockville, Ont., at 50 cents a box or six boxes for \$2.50.

Story Told by a Man Arrested for Suicide.

Palmer, Mass., Nov. 14.—A communication from the police authorities in England was received today by Officer James J. Manning, of Three Rivers, according to which, if true, a horrible crime was committed near that village on the 14th of last May, unknown to any person.

The communication was a letter from E. Silver, superintendent of Hants County, England, dated November 1, stating that John Colwood, a soldier in the King's Royal Rifle Regiment, stationed at Gosport, had made a confession of importance to the police of Three Rivers, and enclosing a copy which reads as follows:

"Gosport, Oct. 22, 1900.

"Confession made by William Barrington Taylor, alias John Colwood.

"I, William Barrington Taylor, alias John Colwood, do hereby confess that on the 14th of May, 1900, I willfully poisoned my wife, Nelly Colwood, at Three Rivers Junction, Mass., U. S. A., and cast her body into the river and I am willing to give myself up for the same crime.

(Signed) "JOHN COLWOOD."

The letter further states that Colwood is now committed for trial at the Hampshire assizes, which are to be held on the 10th of November for attempting to commit suicide by hanging. In all probability the confession was made while Colwood believed himself in extremis.

A diligent inquiry was at once instituted as to the man and woman named, but up to a late hour this evening no facts in the case could be ascertained, as neither Colwood nor his wife are remembered in Three Rivers.

Settled Out of Court.

Montreal, Nov. 14.—The Ontario bank suit against the Merchants' Bank of Halifax and the directors of the delinquent Cold Storage Company for the recovery of \$9,000 in connection with the failure of the latter firm, has been settled out of court, along with several other actions arising out of the same case.

Union-made Refreshments.

Montreal, Nov. 14.—Three thousand Unkied Mine Workers of this place at a meeting last night decided not to use any tobacco, cigars or beer that did not bear the "union made" stamp. It was also decided to destroy all powder kegs and gun boots offered they were used or worn out so that the men and junk dealers could not collect and sell them to manufacturers.

Belated Report by Colonel Otter.

Ottawa, Nov. 14.—A report from Col. Otter has arrived dated Erest, Fabrikon, Sept. 29, which has evidently been delayed in transmission. He says Capt. Burstell has been appointed captain in the Transvaal police, a position which he will take up when he is relieved from duty with the Royal Canadians. Col. Otter cannot account for the Parnellburg casualty list of February 28 going astray. He says that he sent it to Kimberley with a cheque to pay the telegraphic charges. This cheque was returned to him as he understood that Col. Ryerson had undertaken to get the list of killed and wounded through to Canada free of charge. Col. Otter had been endeavoring at the time of writing his report to take the sick Canadians scattered in different hospitals in South Africa back to Canada with him. He expresses his acknowledgments to the cities of Toronto, Ottawa, county of Carleton, Hamilton, Ingersoll, Revere, and Windsor for their generous contributions to enable him to purchase comforts for the sick. The Princess Louise also had been most generous and active in this work. Col. Otter explains how a sum of \$37,750 had been expended by him. He states that the commissioners of the Royal Hospital at Chelsea have granted pensions of 18 pence a day for 12 months to Privates James Corley, A. Macanley and J. P. McConnell. All the graves of the Canadians who have died in South Africa had been properly located and marked with the exception of the following: Lieut. Blanchard, Ptes. W. Haines, W. F. Whitley, G. Bolt, J. Larue, E. Mifflins, P. C. Dufhamel, R. Irwin and G. W. Leonard, but before leaving South Africa he hopes to find these. The reason why positions had been lost was due to the fact of the men dying in field or at base hospitals, at a distance from the battlefield.

F. H. McGuigan Will Succeed General Manager Hays.

New York, Nov. 14.—President Sir Charles Rivers, Wilson, of the Grand Trunk, and Vice-President Joseph Price, who arrived here last week from London, have left for Montreal to make such arrangements as may be necessary in view of the resignation of General Manager C. M. Hays to become president of the Southern Pacific.

It was seen today that they are likely to formally announce the selection of General Superintendent F. H. McGuigan as general manager of the Grand Trunk. He has been chief assistant of Mr. Hays in the operating departments during the latter's administration and Mr. Hays reforms in operating methods have been carried out largely through Mr. McGuigan. The latter, however, has taken the initiative in many of the changes which have been made. He was formerly on the Waterloo, when Mr. Hays was general manager of that company and went to the Grand Trunk in February, 1896. Mr. Hays having become general manager of the previous January. Mr. McGuigan is about 40 years old and has been continuously in railroad work since 1883.

End of a Famous Trial.

Vienna, Nov. 14.—A remarkable trial for murder has just been concluded at Pisek, Bohemia, after lasting two years and being the centre of a bitter conflict between the anti-Semite party and the Jews.

Leopold Hiltner, a Jew, who in 1898 was charged with the murder, immediately before the Jewish passover, of a young peasant girl, whom it was alleged he soyailed in a lonely forest on the road from Kutenberg to Prague, was today found guilty of being an accomplice in the crime and was condemned to death by hanging.

The jury, by the terms of the verdict, decided that the killing was not ritual murder.

Reduction in Ice.

New York, Nov. 14.—The American Ice Co. has reduced the price of ice for all except "family trade" to 175 cents a hundred pounds, \$3.50 a ton. It is said that it makes a concession out under this rate for trade.

Estimates for the coming Hudson river ice season are that the crop will be a record breaker and that the average price of ice for 1901 will be \$2.50 a ton.

Queen Receives Delegates to the Spanish-American Congress.

By Depositors for Condemning Crooked Bank Officials.

London, Nov. 14.—The directors, manager and auditors of Dumbell's Bank, of Douglas, Isle of Man, which recently failed for over £100,000, were found guilty today of falsifying the bank's books. Sentence was deferred. The jurors were cheered by the assemblage of rained depositors.

Interstate Commerce Commission Hearing Complaints.

New York, Nov. 14.—The interstate commerce commission opened a hearing today in the general post office on the complaint made by the A. Palmers Dock and the Hay Produce Board of Trade against the Pennsylvania Railroad Company.

Fifteen days were given in which to sun up the cases and present briefs, and the case was adjourned. This hearing was followed by a general inquiry into under-billing of merchandise, in an effort on the part of the commission to learn to what extent under-billing was practiced. Robert G. Stevenson, of the Truck Line Association, was first called, and stated that he had found in New York from 15,000 to 20,000 cases per month of misrepresentation in the description of freight, whereby a lower rate was obtained than would be possible otherwise.

Mr. Stevenson testified that five per cent. of the merchandise shipped out of New York was mis-described, so that a lower freight rate might be obtained than the shipper was entitled to.

New York, Nov. 14.—Rev. Father John E. Barry, vicar general of the diocese of Manchester, and Canon N. H. Brennan, of New York, and Rev. W. J. O'Reilly, of Manchester, N. H. He was crossing the street immediately in front of the cathedral on Friday morning. His body was dragged for some distance, the wheels of the first truck passing over and tearing the remains from the street. The body was removed to the nearest police station and Bishop Dennis M. Bradley, of the Manchester, N. H. diocese, who, with the other priests, is here to attend a series of special services at St. Patrick's cathedral, was at once notified. Afterwards, under his instructions the body was removed to an undertaker's establishment where it was prepared for shipment to the dead clergyman's home. Homecoming mass will be said at St. Peter's church on Friday morning. In consequence of the accident the sermon which was to have been preached tomorrow at the cathedral by Bishop Bradley, has been cancelled.

The conductor and motorman of the car that killed the vicar were arrested.

A Run on Between Americans and Spanish.

Tampa, Fla., Nov. 14.—The trouble between the rival labor organizations, the Resistance and the International Cigar Makers Union, reached a crisis today.

Each organization has made the demand that the members of the rival order be locked out and some of the manufacturers have closed their factories to prevent trouble.

Force from both sides met and declared that they would not allow the other to work even if there had to be bloodshed. The factory was immediately closed. The conditions are the most serious yet presented.

The question of wages does not enter into the matter, it being simply a fight between the international (American) and the Resistance (Spanish) for supremacy. It is expected that by tomorrow there will be more than 2,000 people out on account of the trouble.

The German Lawmakers are now in session.

Berlin, Nov. 14.—The reichstag re-assembled today. The speech from the throne dwelt at considerable length on the events in China which have excited such deep emotion among civilized people, saying: "The fanatical hate and dark superstition incited by the unscrupulous advisers of the court have driven misguided masses of Chinese to acts of atrocity against the outposts of western civilization and Christian worship dwelling peacefully in their midst. My minister died at the hand of an assassin in a courageous attempt to overcome the rising peril. The foreigners at the capital saw themselves threatened, life and limb. These things of horror united the civilized community, where otherwise there was a divergence. All nations against which the unparalleled onslaught was directed drew closer. Their sons fought with one mind, shoulder to shoulder, even as your standards float side by side. So the governments show themselves in council, united with the sole wish to restore speedily an orderly state of things, and after the punishment of the chief culprits avert a recurrence in the future of such a disturbance of the peace of the world."

In announcing that the relations of Germany with all the powers were good, the speech recalls his majesty's sorrow at the assassination of King Humbert of Italy, saying he was "My ally and my dear friend, who fell a victim to a damnable outrage." The speech then proceeds: "I would have been exceedingly rejoiced on the measures in China but for the necessity of prompt action and the difficulty of furnishing reliable information. Whenever the reichstag could form decisions or estimate the expenditure required the government felt confident that the representation would not refuse their subsequent sanction to the necessary expenditure."

Turning to domestic matters his majesty said that in consequence of the natural growth of the revenue and the increased taxation voted last session more abundant funds were available in almost every branch of life in the empire, especially for measures for the benefit of workers and for the defence of the country. A customs tariff, he added, would probably be laid before the reichstag during the present session. The speech concluded by announcing various bills that would be introduced.

The ceremony of opening the reichstag occurred at noon in the Knight's Hall of the Schloss in the presence of the emperor.

At the conclusion of the speech from the throne Emperor William was warmly cheered and Count Von Buelow, the imperial chancellor, formally declared the session opened.

Political circles generally are disappointed at the colorlessness of the speech from the throne.

The opening session this afternoon was tame.

The cost of the China transportation, up to October 25, by the North German Lloyd and Hamburg-American lines, was more than 27,000,000 marks.

Another item of government proposals is a provision to pension invalided soldiers who rendered services in China, or their relatives, at double the allowance made in the regular army.

All the papers point out that the speech from the throne contains no surprises. Many, including some government organs, admit that the explanation for the delay in calling the reichstag is weak.

The Berlin Neuste Nachrichten says: "We do not believe that the explanation offered will prove acceptable to the reichstag. An appropriation for a preliminary credit could have been left to the Chinese government, but it was not a certain justification."

Even the Kreuz Zeitung admits that the criticisms for the government's course "are not without a certain justification."

Even the papers, however, which criticize admit that the reichstag will vote the credits asked. The Freisinnige Zeitung points out that the speech from the throne failed to mention that the budget forecast for 1901 will necessitate a loan of 97,000,000 marks to balance.

Contrary to the usual practice, admission cards for the press and visitors to the opening of the reichstag by the Emperor were not issued. This is explained as due to extra precautions now taken for His Majesty's safety.

A memorandum accompanied the supplementary credit bill, explaining that the uprising in China was at first such that its suppression could be left to the Chinese government, but it assumed a form menacing to the whole foreign community. Its object was then clear, namely, the exclusion of the whole foreign element by a reign of terror. It is added that the Chinese government, if not unwilling, was at least incapable of controlling the movement, and the powers had to protect their subjects, the military forces of all the powers participating to an equal degree. To stop international and military action now would mean bringing about a fresh sacrifice of time and the lives of peaceful inhabitants. Nevertheless, the object of such action was solely the restoration of tranquillity in China. Its task did not go beyond the suppression of open hostilities and all attacks on the inner life of China not essentially necessary, were being avoided.

The supplementary credit bill asks for 132,750,000 marks, it being assumed that China will eventually pay all the costs incurred by Germany.

The Liberal newspapers express dissatisfaction with the reasons adduced in the speech from the throne for the Emperor not having obtained the sanction of the reichstag before sending the Chinese expedition. The Kreuz Zeitung, the organ of the Prussian Junker Squirearchy, while approving the speech, asserts that the Reichstag will not be able to support the government on every kind of question during the session.

The National Zeitung says: "Parliament, of course, will grant the expenditure demanded, but it must clearly give the government to understand that in future it expects different treatment."

Czar Has Typhoid Fever.

St. Petersburg, Nov. 14.—The attack of influenza from which the czar has been suffering has now developed symptoms of typhoid fever. Baron De Frederichs, the master of the imperial household, has issued the following bulletin: "His majesty passed a good night. His general condition is satisfactory. Temperature 101.6; pulse 92. His head is clear and the strength of the patient is quite satisfactory. The diagnosis shows typhoid, which for the present is pursuing a thoroughly satisfactory course."
