## JUDGEMENT GIVEN IN YORK LOAN & SAVINGS

Claims Totalling a Net Amount of \$635,000  
Were Dealt With

### JUVENILE SHARES O. K.

TORONTO, Tuesday. — Mr. Geo. Kappell, official referee in the York Loan and Savings Company cases today delivered judgment in connection with four classes of shareholders. Claims totalling \$635,000 were dealt with and the net result of the judgment is that about \$600,000 of these claims is disallowed and that all the claims for the benefit of the general body of shareholders. The claim for preference on shares which claimed to be a first charge upon the assets of the company, involving \$223,311.42, was disallowed and the claim of those shareholders whose shares were in process of conversion at the time of the liquidation and who claimed to rank as creditors or preference shareholders, involving \$8,207.22, was also disallowed.  
The referee allowed the claims of holders of juvenile shares that they are entitled to rank for the full amount paid in by them without regard to lapses or arrears. The claims totalled \$52,651.18.  
With regard to advanced shareholders the official referee holds that there is no right to set on shares issued prior to Sept. 10th, 1903. Advances made on these shares will be deducted from dividends payable to the shareholders.

## MAINE MYSTERY IS SOLVED AFTER MANY WEEKS

Body of Mrs. Woodboy of  
Foxcroft Found Hanging  
to Door Knob

### HUSBAND ARRESTED

FOX CROFT, Maine, Tuesday. — The mystery of the disappearance of Mrs. Woodboy, a wealthy stable keeper and real estate owner here, who has not been seen since November 4th, was solved today when officers making an investigation discovered the body. Mrs. Woodboy was hanging by a cord to a door knob in an empty room at the top of the Exchange hotel. Mr. Woodboy has been detained by the police. It was evident the woman had been dead many weeks. The case has caused a great sensation.

NORTH BAY, Ont., Tuesday. — No. 2 C. P. R. express was derailed near here, 267 miles west of North Bay last night about 9:30. A Japanese porter, name unknown, was killed and 16 passengers were slightly injured. The cause of the accident was a break in the wheel of the mail car.

### CUT THIS OUT

There is so much Rheumatism here in our neighborhood now that the following advice by an eminent physician who writes for readers of a large Eastern daily paper, will be highly appreciated by those who suffer: Get from any good pharmacy one-half ounce Fluid Extract Dandelion; one ounce Compound Kargon; three ounces Compound Syrup Sarsaparilla. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also drink plenty of good water.

It is claimed that there are few victims of this dread and torturous disease who will fail to find ready relief in this simple home made mixture, and in most cases a permanent cure is the result.

This simple recipe is said to also strengthen and cleanse the eliminative tissues of the kidneys so that they can filter and strain from the blood and system the poisons, acids, and waste matter, which cause not only Rheumatism, but numerous other diseases. Every man or woman here who feels that their kidneys are not healthy and active, or who suffer from any urinary trouble whatever should not hesitate to make up this mixture, as it is certain to do much good, and may save you from much misery and suffering after while.

Our home druggists say they will either supply the ingredients or mix the prescription ready to take if our readers ask them.

### POINTE A LA GARDE, P. Q.

### ROBERTSON

Miss Bella Firth is spending a few weeks at her home.  
Mr. John Demeau, was at Flatlands on Friday.  
Mr. Murdoch Firth was at Metapedia on Saturday.

We are pleased to see Harvey Malcolm getting back to his camp after his severe illness.

Mr. R. Graham passed through here on his way to Kedgewick.

Miss Ida Thomas, who has been in town for the past six months, has returned home.

Mr. Edward Demeau has returned home from Green Bay, Mich., where he will spend the winter. He was accompanied by his wife and daughter.

We are pleased to say that the report of six houses being quarantined with diphtheria, is without foundation. The only house that is quarantined is Michael Archibald, and there are two cases in it. Mrs. William Murray and Miss Mary Archibald.

### THE OLD AND NEW WAY

Some Important Facts Which May Prove Helpful.

Thirty years ago old fashioned cod liver oil had to be forced down a patient's throat. Invalids couldn't take it, and children wouldn't. But the doctor prescribed it, and it had to be taken by force. Yet it cured people where enough could be taken into the system, for it has ever been the great source of all tissue builders and general reconstructors known to medicine.

We are now anxious to have every one know the Vitrol a new form of this very old and valuable remedy. The medicinal elements of cod liver oil actually taken from fresh cods' livers, but by an extractive and concentrating process it is made without oil or grease, and it is as delicious to the taste as a fresh orange.

Vitrol does not upset the stomach like old fashioned cod liver oils and emulsions; its strengthening and healing properties are remarkable, and both doctors and patients are delighted with its actions.

Many wonderful cures right here in Campbellton have been effected by its use, and we ask all our customers to try Vitrol on our guarantee to return money every time it fails to make rich red blood, increase the appetite, cure stomach troubles, give strength and renewed vitality to the aged, run-down tired and debilitated, or cure chronic colds, hacking coughs, or bronchitis. A. McE. McDonald, Druggist, Campbellton, N. B.

### IS BOUND EAST.

England's Pierpont Morgan Now in Vancouver.

VANCOUVER, Saturday. — Sir Edgar Vincent, the British multi-millionaire, known as England's Pierpont Morgan, who is responsible for the rehabilitation of Egypt's finances as adviser to the Khedive, is here on a tour of pleasure. He has large investments in several transcontinental roads. He leaves over the C. P. R. for the east in a few days time.

BECHTOLD, Saturday. — The liberal candidates in Kent county are putting up a strong and winning campaign and their meetings are being enthusiastically attended. The prevailing rule is large meetings and enthusiastic greetings.

At Bass River on Wednesday the three candidates as well as Messrs. Cutler, R. A. Irving and John Jardine were speakers.

At Molus River on Wednesday Messrs. Cutler and Irving also held a successful meeting.

### MRS. MCINTYRE DEAD.

After an illness of one week, Mrs. Mary McIntyre died at the residence of her daughter, Mrs. (Mayor) Scott, Mordov, on Wednesday evening, January 29th, at 8 o'clock, in her 87th year. The remains were taken to her old home in Dalhousie, New Brunswick Friday, 31st January, for interment, being accompanied as far as Winnipeg by two grandsons Messrs. Don McIntyre and Robt. Mitchell, and from there to her last resting place by her son, Daniel McIntyre.

The deceased came to Morden last October on a visit to her daughter, Mrs. Scott, intending to remain the winter, and was in her usual health until she contracted a cold, which developed into pneumonia, with the above result. Mrs. McIntyre, notwithstanding her ripe age, retained all her faculties, was always bright and cheerful, and had made many friends during her stay in town.

She leaves to mourn her loss three sons, D. McIntyre, Superintendent of Schools, Winnipeg; Rev. Peter McIntyre, of Faison, North Carolina; J. M. McIntyre, Judge of the Probate Court, Sussex, N. B.; and three daughters, Mrs. J. B. Mitchell, Dalhousie, N. B.; Mrs. Nat Ingram, Broadlands, P. Q.; and Mrs. Stuart Scott, Morden.

Mrs. Scott and family have the sincere sympathy of the community in their bereavement. — Morden (Man.) Empire.

## WINDING UP ORDER OF MUTUAL RE- SERVE LIFE

Order Was Necessary for  
Protection of Canadian  
Policy-holders

### WILL PREVENT LAPSES

TORONTO, Tuesday. — An order was made this morning at Osgoode Hall for the winding up of the Mutual Reserve Life Insurance Company of New York. The application for this order was made by the petitioners at whose instance the decree was made, on the 15th instant by the United States Circuit Court in New York.

Mr. E. R. Clarkson was appointed interim liquidator.  
The winding up order was necessary for the protection of the Canadian policy-holders. Negotiations are on foot for the re-insurance of all Canadian policy-holders in a substantial Canadian Company.

This arrangement means that a portion of the reserve now held by the Canadian government will be used to purchase this re-insurance.

The position of the Canadian policy-holders is exceedingly satisfactory as the winding up order will prevent any lapses.

The liquidator, when the negotiations are sufficiently advanced to enable him to do so, will advise the Canadian policy-holders of the arrangement made and in the meantime any premiums falling due should be paid to Mr. Clarkson.

OTTAWA, Tuesday. — Hon. George Wheelock Burbridge, Judge of the Exchequer Court died at 6 o'clock this morning from cancer. He had been hopelessly ill for a long time. He delivered his last judgments from his death bed some two or three weeks ago.

BATHURST, Saturday. — The young people are taking advantage of the fine weather and the moonlight nights. Last evening a party of about fifteen drove to the residence of William Willis, Youghal where they spent a very pleasant evening, returning home in the small hours.

Another party drove to the home of Percy Miller on the Cape Road where they passed an enjoyable time, returning to town about midnight. As the Youghal party were returning they noticed fire in the building owned by Dr. Duncan in the village and occupied by them as an office. They immediately gave the alarm, then came to town and turned out the fire department. After some time two streams were played on the blaze, and as there was no wind the firemen had little difficulty in getting the flames under control, but the building will be a total loss. It was insured for five hundred dollars.

### CANADIAN EXPERT.

Sir Percy Girouard Obtains the Services of One.

LONDON, Saturday. — Sir Percy Girouard has obtained the services of Mr. Robinson, a Canadian expert on river dredging in connection with the deepening of the Niger River, and he will go to Nigeria in April.

### EMMERSON IS HERO OF THE HOUR IN MONCTON.

MONCTON, Tuesday. — Hon. Wm. Pugsley spoke here to a great audience tonight. He said that the time would come when the I. C. R. must be double tracked from St. John to Halifax.

MONCTON, N. B., Sunday. — Half a thousand liberals last night packed the liberal club rooms and with cheering enthusiasm listened to address of stirring eloquence by Hon. H. R. Emerson, M. P., Premier Robinson and others also spoke. Mr. Emerson in forceful speech urged for the support of the whole liberal ticket which he said would be an indication that the voters of this county were in favor of the extension of the I. C. R. and the absorption of branch lines of railway.

He dealt extensively with railway matters predicting a glorious future for the I. C. R., and the speech throughout was cheered to the echo. Hon. Mr. Emerson on rising to speak was given an ovation such as few speakers receive in Moncton, the crowd rising and cheering him to the echo. He first dealt with reasons for being here and asked if this was not a party fight as the conservatives claimed then was there was such a row about his coming to the province. He need not offer any apology, he said, for coming to support his liberal friends and his colleagues. Later he dealt with railway matters and said that when he took hold of the I. C. R. he found obstacles in the way which seemed unsurmountable. These were measurably removed and he was enabled by grace of parliament to extend the mileage of that railway. He'd removed the prejudice against the I. C. R. and he was happy now to know that the Ontario members in the Commons were favorable to the extending of the I. C. R. west and taking over the branch lines.

There are now five cases of smallpox in Moncton, two new cases having been discovered in the city Sunday. The school on Wesley street which was attended by some of the children from the houses infected, has been closed.

## NOW I AM WELL

THANKS TO "FRUIT-A-TIVES"

Ell, Manitoba.  
I wish to state, for the sake of others who may be suffering like I was, that I suffered from severe indigestion and constipation for years and that there was also womb trouble with unpleasant pains in my back which made me miserable, constantly. I tried physicians and took many remedies but I got no relief. I was induced to try "Fruit-a-tives" and I can truly say this was the first medicine that ever did me any good. "Fruit-a-tives" quickly relieved the constipation and indigestion and completely cured me of all symptoms of womb trouble. I cannot express too strongly my great gratitude to this medicine as I am as well now in every way as ever I was, thanks to "Fruit-a-tives". I can strongly recommend "Fruit-a-tives". It is easy to take and the effect is always mild like fruit.

(Sgd) Mrs. M. B. BELLAND.  
Many women suffer with what the doctors call "Womb Trouble", "Dysmenstrual", "Female Complaints", etc. — when Constipation is causing all the pain. Cure the liver and make the bowels move regularly with "Fruit-a-tives" and the "Womb Trouble" will be cured at the same time. "Fruit-a-tives" — or "Fruit Liver Tablets" are sold by dealers at one box — 4 for \$1.00 — or will be sent on receipt of price. Fruit-a-tives Limited, Ottawa.

ANSLOW BROS., Publishers.

Thursday, February 20th, 1906.

Stand by the ticket, LaBilbois and Currie.

The Hazen campaign is a campaign of slander.

Mr. Hazen's barnstorming trip to Restigouche is over.

A man has no right to stone his wife, but he may rock his baby. — Quebec Telegraph.

The Hazen forces chatter a lot about the school books, but what about the school teachers?

Vote for the men best fitted to represent this constituency. Messrs. LaBilbois and Currie.

We always favor queens, but we rise to say Queen Amelle puts it over all we have held for beauty.

Holland has 100,000 windmills. Well we have our Conservative party, which is strangely similar in nature and numbers.

All Mr. Hazen's blustering doesn't alter the fact that he was violently opposed to the International railway project from the start.

A fire that burned over 100,000 acres of Texas land shows the danger of letting fiery-headed widows wander around promiscuously.

In Norway the longest day is from May 21st to July 22nd inclusive. Great Scott! Just fancy a day when the installment man calls nine times.

The political meeting here on the 19th to be addressed by Hon. Dr. Pugsley and the chief commissioner will be a greater political gathering than has been.

"Why do women talk?" asks a contemporary. We dunno, but sometimes we think it is just because they have us to listen to them. Honest, it looks that way sometimes.

England's daily consumption of matches placed end to end would reach 15,000 miles. If some of the Graphic staff lived in England the statistics could not be figured.

When the present Minister of Railways has to deal with a subject he states his mind freely, and after he has so stated his mind the public can rest assured that something will happen. — Ottawa Free Press.

It takes all kinds of people to make up a world, including the man who starts the game and then after four hands have been played, invariably says to anyone around the table, "Ante for me this time, will you?"

Honestly now, how do you think LaBilbois and Currie compare with Culligan and Stewart. The latter pair are excellent citizens, but do you think they would stand any show on the floor of the House with the former?

When Mr. Hazen can outline a new policy — a policy of his own, which, if put into operation would mean an unprecedented growth and prosperity for this province, he may stand some show of being elected. So far he has been unable to do so and the chances are very slim that he will ever be able to do so.

The turning down at the Opposition convention of Mr. Thomas Flett of Nelson, ex-warden, and one of the best known and most popular men of Northumberland County, in favor of Mr. D. P. MacLachlan, with whom the up river people have little or no acquaintance, bids fair to ruin what small chance there may have been for an opposition victory on the Miramichi. — Newcastle Advocate.

Mr. Hazen and his followers are doing their utmost to assign party motives to Mr. Robinson's plan to have the accounts of the province examined and reported upon by a group of disinterested financial experts. The fair and independent electorate of the province admires the premier for his manly course and perhaps may be inclined to vote for his party even if the reports of the experts is adverse to him. Mr. Hazen's accusation shows the spallness of the man, shows in fact, what he might have done had he been similarly treated. The motives which we assign for the actions of others, are usually the motives which would prompt us to do the same thing were we in a similar position.

Northumberland is all right. And they have got a Croquet, too.

The Tories have at last got Culligan. You had a chance to hear 'em. What did you think of them?

What has become of the fourth ticket in Gloucester? It's all out.

Onionous reports from the vicinities of the coal bin are being heard.

Getting up with the water pipes is a disagreeable winter pastime.

What is Stewart and Culligan stand for? The oppression of Restigouche.

Where will Campbellton's interests be with Stewart and Culligan elected?

Stand by the ticket. Vote for a government that has your interests at heart.

Even those of us who are not Pullman porters usually find that politeness pays.

It must be discouraging to Mr. Hazen to realize that he is fighting a hopeless fight.

Hazen has nerve, but as far as we can see that is the most that can be said about him.

"The school book ring." Now, isn't that a weighty subject for the opposition's principal cry.

Harry Thaw has changed his boarding house from the Thughouse to the Bughouse Exchange.

The Moncton Times has no less than six spasms each day now. The Fredericton Gleamer has a dozen.

Messrs. Murray, Winslow, Anderson and Miller are meeting with fine receptions in Northumberland.

Wall street rejoices to learn that the weather is also moderating in President Roosevelt's message.

In Gloucester the opposition is making no headway. The fight is between the liberal and conservative tickets.

A leopard in Paris bit his tail, and had to have it amputated. What if Mr. Morrissey should bite his tongue?

Surely this county will not stand by the party which has grudgingly and persistently opposed its best interests.

An industrious man can easily earn his own living, but the trouble is he usually has to earn a living for a lot of others.

Can nothing be done to discourage slang? Here is a preacher declaring from the pulpit that a woman is a beautiful, ripe peach.

As soon as Thaw gets free, he and the rest of the Thaws would show exceedingly good taste by dropping completely out of sight.

No fair man can help but admire the honesty of a Missouri rural paper that prints its weather forecast thus: Weather Forecast — We dunno.

Turkish spies are stirring up trouble in the Caucasus. This would never happen in Canada, where the caucuses are held with closed doors.

Restigouche may boast of a leading member of the cabinet in the Robinson government. It would be unable to boast of any at all if Hazen were returned.

An Illinois clergyman asserts that young men hesitate to propose marriage because they lack "wand." More likely, though, they are deterred by a shortage of rocks.

Harry Thaw's friends want him to be released from Manhattan asylum because he has to associate with 28 other murderers. That would seem to be a good reason why he should be detained there.

## LAWS LABOR MEN OWE TO THE PRESENT GOVERNMENT.

One of the highest and most important duties which a government owes to the people is the protection of the interests of the wage earners in different occupations.

The present government, moved by its desire to do justice to this most important section of the population, has, during its tenure of office, initiated and carried through legislation of such a nature as to fully protect the wage earners of New Brunswick, and which entitles it to their earnest and cordial support.

Below is given a summary of the different acts passed by the present administration, to which the careful and earnest attention of every working man throughout the province is invited.

### THE MECHANIC'S LIEN ACT.

The effect of this act is that every mechanic, machinist, builder, laborer, contractor or other person doing work upon, or furnishing materials to be used in the construction, alteration, or repair of any building, or erecting or furnishing or placing machinery in, upon, or in connection with any such building, erection or mine, shall have a lien for the price of the work, machinery, or materials upon the building, erection, or mine, and upon the lands occupied thereby.

By this act of the present government it is impossible that people who do work in the erection of a building as carpenters, masons, bricklayers, or in any other way, shall be cheated out of their pay. Those who furnish the materials going into the building have the same protection. The government has made it impossible that they should be cheated out of their wages, or out of the cost of materials going into the construction of such building.

### AN ACT RESPECTING THE SECURING OF WAGES TO WAGE EARNERS

By this act the government had in view that clerks and other employees have an equal right to protection for services which they give to their employer. It frequently happens that for some reason the wages of the employee of the firm remain unpaid for months. By the act above referred to, it is provided that, whenever an assignment is made for the benefit of the creditors, the wages and salaries of all persons in the employment of the person making such assignment, shall, for at least three months, be a preference and priority over all other debts.

### THE WOODMEN'S LIEN ACT.

No labor is of a nature more difficult, or exhausting than working in the woods, and it was too often the case, that after months of labor spent in the depths of the forest, the failure or dishonesty of a contractor, left the men in his service without recompense for the months of arduous toil in getting out lumber and preparing it for market. To remedy this evil, the Government passed the Woodmen's Lien Act, by which it was provided that any person who performs any labor in connection with any logs, or timber, intended to be driven or hauled from the woods, shall have a lien thereon for the amount due for such labor, and such lien shall be a first charge on such logs or timber.

By this Act much hardship has been avoided, and whereas formerly the likelihood of obtaining pay for his services was often a matter of anxiety and doubt to the woodman, now, by the beneficial effects of this legislation, his pay is amply secured by being made a lien upon products of his toil.

### THE WORKMEN'S COMPENSATION FOR INJURIES.

By the common law, compensation was not allowed for injuries to workmen, where such injuries resulted from the negligence of a fellow employee, or for many other reasons, but this Act respecting compensation by employers for injuries to workmen, damages for injuries caused to workmen are recoverable to him, or in case of his death, by his representatives.

By this legislation, New Brunswick has followed the example set by Ontario and Great Britain, and the procedure is simply by a petition to a Judge of the Supreme Court, setting forth the particulars of the claim, thus avoiding the length and expense of a lawsuit in the ordinary way. The principle of the legislation is, that where an employee suffers injury in the service of his employer, there is a moral obligation that the loss should not fall wholly upon the workman. By this Act the government exhibits an interest in the welfare of the working people, which speaks far louder than the empty professions of would-be labor advocates.

### THE NEW BRUNSWICK FACTORIES ACT, 1905.

By this legislation the Government has extended its care over those employed in factories, by making provisions for the prohibition of the employment of boys and girls in dangerous work, and making it unlawful to employ children under certain age, and under certain circumstances. It restricts the hour for labor for women and young girls, making it unlawful to attempt to clean machinery while same is in motion, and provides stringent regulations for the ventilation and sanitary conditions of every factory. It further provides for one or more inspectors, whose duty it is to see that the provisions are carried out, and who must have access to the factories at all times.

By the provisions of this legislation, long step in advance has been taken in the matter of the protection of the laboring people, and especially of women and young girls. By the passage of this Act alone the Government is deserving of commendation from every home in the province, from which women and young girls go out day by day to assist in its maintenance, and to earn their own livelihood by working in the different factories in this province.

No reasonable request that has ever been made by the laboring people of this province for protection, or for advancement of their interests, has this Government turned a deaf ear. These Acts above enumerated have not been passed under the crack of the whip, or by the threats or menace of labor unions, but in every instance, the Government has felt a sincere desire to accede to the reasonable requests of the laboring people, and the Government comes before the working people of this country bringing with it evidence of its good will in the passage of these Acts and asks that its conduct be approved. When contrasted with the criticism and fault finding exhibited by some people, whose interests in labor are wholly confined to attempting to ride on the shoulders of the working man to political advancement, the record of this Administration shows who are the true friends of labor. What has the Opposition to answer to all of this? It cannot deny the passage of these acts, and those who seek to pose as controllers of the laboring vote would do well to pause, and to assure themselves that they are right, in thinking that words are more influential than deeds, or that fault finding and criticism are more to the taste of the working people than Acts of Legislature by which their position is rendered secure, and their wages protected in every possible emergency.

### MANHOOD SUFFRAGE.

In addition to the many acts for the material welfare of those interested it must not be forgotten that it was this present Government which conferred the inestimable boon of Manhood Suffrage upon every citizen of this province, thereby opening the gates of equality and common citizenship to all, and furnishing an incentive to every man, no matter in what position of life he may be, to engage in the public affairs of the country. By this legislation every man in New Brunswick is given an equal chance, and a square deal with every other man in the activities of life.

Against these accomplishments of the present administration what has the Opposition to offer? Further, we would ask those most interested in the above legislation, to say whether or not they ever heard an Opposition speaker say one word in commendation of the Government for the above mentioned legislation?

No word of praise of the present Government has ever passed the lips of the Opposition candidates for St. John, for any of the above enactments. What does this mean? It simply means that the Opposition are more interested in their Party, and in their Politics, than they are in the advancement of the working class of this country.

What the Government has done in regard to the above matters, it has done freely, and of its own motion, and because every member of the Government was confident that the people thereby afforded protection, were entitled to what has been given, and I feel assured that in the course it has taken, it has earned, and will receive, the earnest and cordial support of those interested in the above legislation.

## THE MORNING GRAPHIC'S SHORT STORY

### Captain Kidd's Two Loves.

By Carl Williams.

Copyright, 1907, by N. E. Daley.

Captain Kidd gave a sigh that shook his three feet four inches of stature and looked up at Juliet. Juliet, the elephant of the circus, responded with a sympathetic pat that very nearly took the diminutive captain off his feet.

"It's too bad, Juliet," he said softly. "If Gretchen were here now to enjoy this, how happy we should be!" The captain's glance roamed over the gay crowd. It was the day of the children's parade at a seaside resort, and the throng of miniature men and women in their flimsy reminded Captain Kidd more than ever of his own tiny Gretchen. Years ago, down his furrowed cheeks, and Juliet in dumb sympathy placed her trunk caressingly around the captain's neck.

Perhaps she knew of what he was thinking. Perhaps it was only the instinct of a dumb brute, but the captain was comforted by her caress. For fifteen years he and Juliet had traveled through the world together, and there had sprung up between them a love that until the appearance of Gretchen had been full and complete. Juliet still lavished upon her trainer the wealth of her elephantine love, but the captain had divided his heart between the elephant and the dainty little woman whom he met in Paris just before he had sailed for America.

When the showman who paid him his salary had ordered him to go to the strange land, he had begged Gretchen to accompany him. She had been willing enough, but the director of the troupe of ill-fated would not give his consent to losing one of his most valuable little players. He had hired Gretchen from her mother.

When the dwarf had parted in the big arena in Paris she had promised to wait for him, but she had had no idea that perhaps she might manage to come to his home some day. He had given her his address, written on a scrap of programme, and the short, misshapen letters she had sent were tucked into the pocket of the gay uniform coat and brought comfort to him in the long nights when he lay in Juliet's

Juliet had caught him around the neck, studying them out by the aid of a lantern. Exhibition midgets get little schooling, and the captain did not realize his innumerate shortcomings since his own education was even more sadly neglected than hers. He cared nothing except that each tiny misshapen creature had a "rich lead ditch," which bore contrast to his heart.

When he came back to his strange land, he was at least more fortunate than Gretchen, because he had Juliet, the faithful.

His love for Juliet antedated his love for Gretchen. Fifteen years he had played in the troupe with Gretchen; there had been a long stay in Paris, and he had grown attached to Juliet, the largest elephant of the herd. The proprietor, quick to see his opportunity, had shown the midget how to put the great beast through her few simple tricks.

Since then the captain and Juliet had not been separated for a single day. When they traveled by rail he slept in the car. On board ship or on land he slept in her stall. The elephant quarters were far sweeter and cleaner than some of the boarding houses at which he had been lodged, and the captain hated to be parted from Juliet even for a moment.

Thus there had grown up between them a love almost human in its intensity. The owner of the menagerie had finally permitted the captain to purchase the elephant out of his slender earnings and the tips he had received.

The captain had several hundred dollars saved up, but not enough to purchase Gretchen's release from her contract. In time he could manage to save up enough, so he tried to be content.

But here at the beach the sight of the children in their fancy dresses put him strongly in mind of the little troupe of which Gretchen was the star. The captain grieved and Juliet grieved in sympathy.

The two of them had come down from New York that morning to take part in a circus in the evening which was to close the day's festivities. It had been a long, tiring trip, and the captain felt depressed. Even the warm letters in his pocket failed to bring him comfort, and, though Juliet caressed him with her trunk, her efforts were of no avail, and the captain re-

garded the crowd of pleasure seekers through tear-blinded eyes.

Then the manager of the entertainment came bustling up with the warning that the parade was ready to start. Juliet swung the captain up to her neck, and under the direction of his hook she moved off with stately tread to take her place at the head of the line.

As the great mass paced along between the lines of eager spectators the captain no longer watched the crowd. His thoughts were far away across the water with the little matches.

Juliet proudly led the way, enjoying the surprise she excited and glad of the opportunity to parade. She did not need guidance when the way was so plainly marked, and, rejoicing in the fact that the children along the line were generous with their peanuts and candy, she kept a watchful eye on the crowd.

A cry of terror roused the captain from his day dreaming. Juliet was excitedly trying to force her way through the crowd, which broke and scattered before her. Captain used the hook on ears and trunk; but, though Juliet trumpeted shrilly in her pain, she obeyed neither hook nor voice. A dozen alert policemen sought to break her charge, but they hastily dodged aside at her approach. Then a cry of horror ran through the crowd.

A little girl, evidently one of the paraders on her way to the start, stood directly in the elephant's path. One of the policemen sprang to her rescue, but before he could reach her Juliet had caught her around the waist and had lifted her high in the air. Strong men turned aside that they might not see the child dashed to earth again, while others stood fascinated by the sight. But instead of injuring the child Juliet swung her lightly back to the captain, who caught her in his arms with a cry of joy. Juliet then swung her huge bulk and docilely returned to the parade with the captain still holding Gretchen with one arm, while with the other he patted the trunk that was held up for a sugary reward.

"My impresario died," Gretchen was explaining. "I ran away and came over in the big ship, as we had planned. At the place where I sent your letters they told me you were here. I could not wait for your return, so I came, and Juliet saw me. I was looking for you. I knew you would be in the parade."

Captain Kidd slipped another lump of sugar to the insistent trunk. "It frightened the people much," he said with a little laugh. "But I am glad that Juliet found you. Now I have my two loves, and we three shall live together always. A man came to me the other day and said that in your travels he had met more than the \$10 they pay me now. We shall be rich and very happy, my Gretchen." "With you and Juliet," said the little woman, as she patted the upraised trunk. "I am sorry the children were frightened, but I could not wait another minute, my Wilhelm."

"Nor I," he answered simply, adding with true showman instinct: "It will be good for the business. It has made people talk, and they will want to see the three lovers."

Riding the South Sea Surf. "I shall never forget the first big wave I caught out there in the deep water. I saw it coming, turned my back on it and paddled for dear life. Faster and faster my board went, until it seemed my arms would drop off. What was happening behind me I did not tell. One cannot look behind and paddle the whodunnit stroke. I heard the crest of the wave hissing and churning, and then my board was lifted and flung forward. I scarcely knew what happened the first half minute. Though I kept my eyes open, I could not see anything, for I was buried in the rushing white of the crest. But I did not mind. I was chiefly conscious of ecstatic bliss at having caught the wave. At the end of the half minute, however, I began to so things and to breathe. I saw that three feet of the nose of my board was clear out of water and riding on the air. I shifted my weight forward and made the nose come down. Then I lay quite at rest in the midst of the wild movement, and watched the shore and the bathers on the beach grow distinct. I didn't cover quite a quarter of a mile on the wave, because I prevent the board from diving I shifted my weight back, but shifted it too far and fell down the rear slope of the wave." Jack London in Woman's Home Companion.

How to Saub Bore. A friend of mine returned the other day from an American tour and told me that he received a severe rebuke out of the mouth of a babe which cured him of expatiating on his experiences. He lunched with his brother soon after his return and was holding forth with a consciousness of brilliant descriptive emphasis when his eldest nephew, aged eight, toward the end of the meal laid down his spoon and fork and said piteously to his mother: "Mummy, I must talk. It does make me so tired to hear uncle going on like that." A still more effective rebuke was administered by a clever lady of my acquaintance to a cousin of hers, a young lady who had just returned from India and was very full of her experiences. The cousin had devoted herself during breakfast to giving a lively description of social life in India and was preparing to spend the morning in continuing her lecture when the elder lady slipped out of the room and returned with some woman paper, a blotting book and a pen. "Miss," she said, "the too-good-to-be-lost. You must write it all down, every word." The lesson was not thrown away.—Putnam's Magazine.

## ANSLOW BROS., PUB. CO.

Thursday, February 20th, 1908.

Morrissey stands for Morrisseyism—that's all.

We are having a spell of fine campaign weather.

How's the sleighing down in Northumberland, John?

Morrissey's record in politics is made up of one long series of flops and bluffs.

There isn't a liberal in Northumberland who believes that John Morrissey is a liberal.

Mr. Mott, chief trumpeter for Messrs. Stewart and Culligan, paid Kent a flying visit last week.

It is not at all likely that Mr. Morrissey will lead the country very much from this out.

'Turn the Government out,' says the Chatham World, 'and one of our men will have a portfolio in the new one.'

Where was Morrissey when Loggie ran? And where will he be when the next liberal is nominated in Northumberland?

It is possible that some of the farmers in Northumberland who bought sleighs, etc., from John will see their way clear to give him a vote.

Will some person kindly inform us what particular qualities Messrs. Stewart and Culligan possess to recommend them for election?

The French Academics are now represented in the provincial cabinet. If the Hazen party is returned they will have no representative in the cabinet.

A Winnipeg woman was before the council of that city complaining that the city water was muddy and impure. So few Winnipeggers drink water that no action will likely be taken.

In an election editorial the St. John Telegraph observes:—Attempts are now being made in every quarter to divert the minds of the people from the main issue. What is the main issue?

There is every indication that if the present local government is returned and two or more of its supporters in Northumberland County that that county will be given a portfolio in the near future.

Sober minded men among the opposition admit that their fight is a hopeless one. They are now concentrating their energies in behalf of such leaders among the party as Hazen, Fleming and Morrissey.

The Ottawa Free Press says:—There is a man in our town and he is wondrous wise. He sends a despatch to the London Free Press figuring out that after the next general election the Conservatives will have 135 out of the 214 members of the House of Commons. Wonder what brand of tobacco he smokes.

Mr. Borden is usually pretty liberal with advice. What does he think ought to be done with the legislation his party friend Premier McBride of Manitoba has just put through, and which tends to re-open our quarrel with Japan, just when it has been nicely and effectively closed as a result of Mr. Lemieux's mission to Tokio?

Prohibition, we are informed, will sweep Nova Scotia. This will be a notable victory, the air of Nova Scotia being very salty, and the thirst of the natives heretofore proportionate. But the bluesoes are prepared to give up a great deal to keep them from turning red.

Mr. Hazen stated when he was here that his party had an over supply of good men for its tickets. If that is so what possessed his party to enter the liberal camp in Northumberland and try to persuade one of its men to become a candidate in behalf of the conservative party? Well we'll tell you. Mr. Hazen's party in Northumberland didn't have a man outside of Morrissey and Morrison who was named by the party managers to be a candidate.

On to victory!

The Robison party is the party of progress.

LaBillois and Currie are the two best bets.

This glorious weather presages victory for the Liberal party.

'Why does a man lie to his wife?' asks a woman writer. Dear me; does he?

If Morrissey and Morrison win out in Northumberland they will have to go some.

He is a poor Liberal who would vote one on the ticket and vote against the other.

It is just possible the proof reader would pass such a line as 'Calf in Carmine.'

LaBillois and Currie are the two candidates that this county is in duty bound to support.

When a young woman asks a young man to let her sew on a button the world holds its breath.

Why do the opposition speakers habitually refrain from referring to the government's colonization scheme?

The Liberals of this county must work and work hard so as to pile up an overwhelming majority for Messrs. LaBillois and Currie.

The Northumberland Conservatives expect to elect two of their ticket now. A while ago nothing short of the four would satisfy them.

If you are patriotic, you will vote for LaBillois and Currie. If not, you will split your vote, or vote for the two Conservative candidates.

Two months ago the Conservatives expected that they would sweep all before them. They are expecting something different now.

Mr. Hazen claims 30 seats. We have occasionally heard of a man seeing double, but this is a case of at least triple sight.—Carleton Sentinel.

If a man is in church with two half-dollars in his pocket, and he isn't sure that one of the two is good, which one will go into the contribution plate?

Stand by the party that is advancing the interests of your county and not opposing them as the Hazen forces have been doing tooth and nail.

Noah Brussof, Detroit, alias Tommy Burns, of Sarnia, has again got his mug into the prints, and a cross section of his lung will doubtless appear in the London Times.

It was so cold at Medicine Hat last week that the cows are said to have given ice-cream, though the product was unhealthful because of the absence of gelatine and aniline dye.

The government is sure of gaining at least one seat on the North Shore. That seat will of course be in Northumberland. There is every indication, however, that they will gain two seats.

Are the readers of the St. John Telegraph and the St. John Times silly enough to believe that the editors of these two papers are sincere in what they are saying now about Mr. Pugsley and the present local government? Surely not. When the Telegraph and the Times were out and out independent newspapers which was last spring they could scarcely find words strong enough with which to praise the present minister of public works, and the present local government. The same editors are in office today, but they have found it to their advantage to sink their honest feelings and give voice to sentiments which they know to be false.

## Constipation

Baked runs across with some people, being promptly relieved by Constipation. With other cases all that need is a little more of the same. Nature undeniably has a vegetable remedy to relieve every ailment known to man. If physical can be found a way to health. And this is the only one with no side effects.

The bark of a certain tree in California—Cascara—has been used for centuries as a purgative. But combined with Epsom Salts, this powerful laxative has been given its greatest possible power to correct constipation. A toothsome Candy Tablet, called Lax-ets, is now made as the most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful libbermarked metal boxes at 6 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

LaBillois and Currie!

John go home. They need you there. Don't split your vote. Better vote for neither than only one.

Where was John at the last general election? Where is he now?

Morrissey may expect something more than votes in Northumberland.

The tiger band is not eligible to compete in the Governor-General's musical contest.

A gasoline launch puffed down Second Avenue yesterday. A sure harbinger of Spring.

Stewart and Culligan stand for the oppression of the county of Restigouche. Remember that.

If a sudden freeze should come now the population of Quebec city will find itself on the water front.

Will Campbellton vote for Stewart and Culligan after what the present government has done to further its interests?

The common house fly may be the most deadly of all mankind's living enemies, but man is evidently obeying the injunction, 'Love your enemies,' in housing the fly and letting him feed off the family platter.

Should Mr. Foster's seat be contested and he was beaten out in a close race would it be fair to say he lost by a whisker?

Tom Longboat broke the ten mile record. The Lo didn't travel fast till he was informed the finishing point was a brewery.

Wm. Jennings Bryan while in Montreal, said he didn't realize he was so close to Ottawa. That's an awful knock for Montreal.

Trouble is, some of the electors do not take into consideration the immeasurable benefits to be obtained from the operation of the international railway.

However common it is to reverse the order of things in Leap Year, we see mighty few men suing for breach of promise, which shows that they're more game than women.

The industrial situation in Toronto must be improving as the spring draws nigh. The scarce appeals for the 'Shackers' and others are now relegated to the inside of the newspapers there.

At the time of the Croquet label suit the Conservatives said that Mr. Emmerson was down and out. How much he has been put down and out was shown at the meeting which he addressed in Moncton on Saturday.

The influx of Russian Jews into Canada is a notable feature of the immigration returns. Six thousand a year is a problem of assimilation which affords much room for thought.

A vote for LaBillois and Currie is a vote in favor of the growth and prosperity of the county of Restigouche.

Let us send to Frederick two men worthy to uphold the honor and dignity of the grand old county of Restigouche.

Over 25,000 Scots settled in Canada from July 1, 1905 to March 31, 1907. Have you heard of any of them asking for assistance?

'Diamonds, 20 per cent. off!' And unless times get better there will be more of them off. By the way, we wonder where they go?

Did you get that valentine?

Down with torism, up with Liberalism. Yesterday was one of the days we missed last summer.

They've got Morrissey on the run down in Northumberland.

Regular summer carnival weather, without the trimming. Isn't it!

LaBillois and Currie are the friends of the farmer and lumberman.

The young men of the county are strong for LaBillois and Currie.

Wonder who Messrs. Stewart and Culligan will get to do their talking.

Why split your vote? The government needs every supporter it can get.

Last week's blizzard is somewhere near Greenland now. Bliz away, Who cares?

Hazen is guided and ruled by the notorious George W. Fowler. Will you be?

The Fruit Marks Act having been administered in Hastings County without fear or favor, it is now 'up to' some Tory member to get up and preach about the 'persecution' of the apple shippers, who misrepresent the character of the fruit they sell.

The members of the Japanese Parliament are quite evidently 'civilized.' To judge by the cable messages describing the debate on the budget in the 'Diet,' the scene must have somewhat resembled a sitting of Commons when the 'Bury B's' are at work.

Mr. C. M. Hays, general manager of the Grand Trunk railway, has gone to London to consult his directors. It is to be hoped that he will convince them of the necessity of keeping faith with the Government of Canada and the people of Ottawa.

The Montreal Star, which ought to know him well, sent this valentine to Mr. H. H. Ames, M. P.: 'At psychological research you're a terrible crank, and also, for nothing pleases you more than when the subject smells rank!'

MINOR'S LINIMENT CO., LIMITED. Some time ago I had a bad attack of Quinsy which laid me up for two weeks and cost a lot of money.

Finding the lump again forming in my throat, I bathed freely with MINOR'S LINIMENT, and saturating a cloth with the liniment, left it on all night.

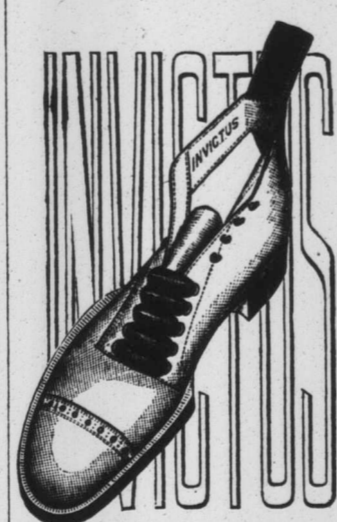

Next morning the swelling was gone and I attributed the warding off of an attack of Quinsy to the free use of MINOR'S LINIMENT.

## TORONTO SCENE OF A FRIGHTEFUL TRAGEDY

Driven Desperate by Wife's Refusal to Become Reconciled to Him, Kills Himself

### ATTEMPTS WIFE FIRST

Luckily Bullet is Deflected From Its Course and Wife is Only Injured in the Shoulder

(Special to the Morning Graphic.) TORONTO, Friday.—In desperation by his wife's refusal to become reconciled to him, James Feehley, aged 30, this morning attempted to murder her by shooting her in the head and then shot himself, dying instantly. Luckily, the bullet which he intended to end the life of his wife struck her in the shoulder and was deflected from its course, lodging in the back in the neighborhood of the spine and it is expected she will recover. Last November Mrs. Feehley, who is six years her husband's senior, put her savings in a grocery store and Feehley went with her and served behind the counter. Last Wednesday they had a violent quarrel and separated and the tragedy of this morning followed her refusal to live with her husband. Mrs. Feehley, who was formerly Mrs. Turner, has four children by her first husband, all living at home.

## WAS THE LARGEST CONGREGATION YET

Evangelistic Services Concluded in Baptist Church Last Evening

### MR. WARING'S MESSAGE

The series of special evangelistic services which began in the Baptist church about a month ago was concluded last evening. The largest congregation in the history of the meetings was present to hear Mr. Waring's last message. It was a most eloquent and forcible presentation of the subject of confession and made a deep impression upon those present. Much good has been done through the meetings. Not only has the church itself received a great impetus, but over 35 people have expressed a desire to live the Christian life. There has been no excitement in the services and hysterical, emotional appeals have been conspicuous by their absence. Mr. Waring, by his earnest and thoughtful addresses, has appealed to the highest and best in his hearers. He has won many friends in the congregation of the Baptist church and no doubt his book on "Christianity and the Bible" will receive quite a circulation.

## HE OFFERED TO REMOVE KRUGER

Barney Barnato Was Prepared to Finance a Revolution

### HOW HE FAILED

(Special to the Morning Graphic.) LONDON, Friday.—According to a statement made by Carl Von Velheim in the old Bailey yesterday during his trial for attempting to blackmail Solly B. M. Joel, the well-known capitalist, out of \$80,000 his letter demanding the money was merely a reminder that the Barnato firm, of which S. B. Joel was a member, had covenanted to pay Velheim for engineering a revolution in the Transvaal, and he wanted \$80,000. Mr. Joel testified at length regarding other threatening letters he had received, signed "Kismet," and Velheim admitted that he wrote them, "the one silly thing I have done in my life," as he said, but he pleaded that they were merely written to gratify a Miss Caldecott, who had animosity for Joel, and wished to frighten him. Velheim added that he had subsequently explained this to Woolf Joel, Solly Joel's brother, and had received the former's forgiveness. Velheim made some dramatic statements on the stand. He told how he was introduced to Barney Barnato in 1896 by the minister of a South African state, whom he refused to name. Velheim had been concerned in two South African revolutions, and the minister recommended him to Barnato for his ability in handling revolutionary movements. The prisoner described

## MORRISSEY, THE SELF STYLED LIBERAL

Opposition Candidate in Northumberland Placed Where He Exactly Belongs

### IS A RANK TORY

James Robinson, the Former Tory Member for Northumberland is Supporting the Opposition

(Special to the Morning Graphic.) CHATHAM, Friday.—In Northumberland the opposition to the Liberal government is being waged on coalition lines. If this is so, why is Mr. James Robinson, ex-M. P. for Northumberland, supporting the opposition? For a number of years Mr. Robinson was a member of the Legislature and always supported the government in and out of the house. He is now in hearty sympathy with the opposition. What is the underground motive of this change if it is not because it is in the interests of the Conservative party in the Province? And yet Mr. Morrissey stands for this and says he is a Liberal. The Telegraph of the 10th inst. says: "Mr. Morrissey is a Liberal. . . . It will pay to let Mr. Morrissey alone." The least said about Mr. Morrissey's Liberalism in Northumberland, the better for Mr. Morrissey. If he, with the assistance of the Conservative jour-

## CANADA'S TOTAL TRADE FOR THE YEAR ENDING WITH JANUARY WAS \$635,840,681

This is a Big Increase Over the Previous Year—Increase in Imports Was Substantial

### FOREIGN TRADE INCREASE

(Special to the Morning Graphic.) OTTAWA, Friday.—Canada's total trade for twelve months ending January 1st was \$635,840,681. This is an increase of \$45,895,577 over the previous year. The increase in imports was \$24,048,067 and in exports \$21,847,510. The increase in imports from Britain was \$174,489,14, from the United States \$191,219,83, from France \$12,815.08 and Germany \$984,886. Our exports to Britain decreased by \$57,138.49 and we exported to the United States an increase of \$101,495.47 and there was a slight decrease with France.

## GRAND TRUNK GRANTS 4 P. C.

Full Dividends Declared for the Half Year on Four Per Cent. Stock

(Special to the Morning Graphic.) LONDON, Friday.—The Grand Trunk Railway Company has declared full dividends for the half year on four per cent. guaranteed stock and first and second preference stocks. A dividend of 3 per cent. for third preference is declared and \$6,700 is carried forward. . . . . of the province, can pose as a Liberal, very good. What politics, but how is he going to square himself in Northumberland, after having given his assistance and sympathies in opposition to the Liberal candidate in the last Federal fight. He must believe that the electorate is forgotten indeed. Does he imagine for a moment that Mr. Loggie's friend who were largely responsible for Mr. Morrissey being now a member of the Legislature, will forget and forgive him for his dog in the manger attitude in Dominion politics. In view of the fact that the provincial and federal governments are in thorough accord is Mr. Morrissey's attitude towards the former in the interests of the latter? Is there one man in this province who will have the hardihood to answer yes? It will pay Mr. Morrissey to refrain from proclaiming himself a Liberal and confine his remarks to trying to convince the electors that they should have a Conservative government at Fredericton. Honestly, even in election is it best policy.

## VANCOUVER CHINAMAN IS THE FATHER OF 27 BOUNCING CHILDREN

(Special to the Morning Graphic.) VANCOUVER, Friday.—There are now one hundred and seven Orientals attending the Central school, which is nearest the Chinese district. It is proposed to open a special room for them, fifty Chinese are putting in study, specially to evade the head tax of five hundred dollars, and establish a special privilege as students. Vancouver too, in this connection, easily holds the palm for the size of a family attending school. Twenty-seven of the Chinese boys and girls in the Central school are sons and daughters of Yip Sang, a prosperous Chinese merchant, who has three wives living and several dead, and whose children are of school age.

### WANTS PRESENT BACK.

Love Lorn Farmer Claims he Was Deceived.

(Special to the Morning Graphic.) REGINA, Sask., Friday.—An interesting case was commenced before Judge Prendergast in the Supreme Court on Saturday, in which the plaintiff, Malcolm J. McInnes, sought for the cancellation of the transfer of a quarter section of land made over to the defendant, Mrs. Isabella Getsman, of Minneapolis. The plaintiff, who is a farmer in Craig district, alleges he went to Minneapolis in 1906, where he met Mrs. Getsman under the name of Miss Margaret Rivers. Returning to Craig, considerable correspondence passed between the two parties, letters from the lady which were read in court being of a specially interesting character. Eventually in the belief that the defendant, whom he believed was a single woman, was going to marry him, McInnes made the transfer which is the subject of this action only subsequently discovering that the woman was already married and living with her husband. Hearing of the case is being continued.

sign from Joel, tried to shoot Velheim, how Joel then drew his own revolver, how Velheim then fired in self defence, killing Woolf Joel, and how he was tried and acquitted of the charge of murder. . . . . But for this shooting affair in Joel's office," said Velheim, "there would have been no Boer war, because Kruger would have been forced out of the country and another Boer president put in his place."

## GOVT TICKET IS A SURE WINNER

Narcisse Landry, One of the Opposition Candidates in Gloucester, Retires

(Special to the Morning Graphic.) BATHURST, Friday.—Ben. Windsor, Dalhousie, spent Thursday in town. Mrs. Oscar Fenwick entertained the Bible class of the Methodist Sunday School last evening. Gilmore Brown, C. E. is in town. Narcisse Landry who has been feeling the pulse of the electors for some time past definitely announced to his friends this morning that he had retired from the field. We still have abundance of candidates and it all remain in action there is not much danger of any one losing their deposit. Very favorable reports come from the lower end of the county and if these be true everything points to a decided victory for the government ticket.

## SNOWSTORMS COST RAILWAYS \$1,000,000

Freight Traffic Always Loses During The Winter Months.

(Special to the Morning Graphic.) MONTREAL, Friday.—The Canadian Pacific and Grand Trunk Railways estimate that the severe snowstorms that have raged for the last ten days have cost them close to \$1,000,000, between the greatly increased cost of operation and the enormous falling off in traffic. A leading official discussing the blockades stated that the railways always found that freight traffic lost during a few weeks in the winter time was never regained, as it always took weeks to get the branch lines in condition that would permit of freight trains being operated, and in this way a very large amount of freight was held back till the opening of navigation, where advantage could be taken of the lower rates of the water lines. The Grand Trunk state that in no previous winter was so large an amount of money spent in so short a period of time in trying to keep the different lines open. Owing to the storms being confined to Ontario and the Eastern provinces, the C. P. R. has not suffered to the same extent as it did two winters ago, when the severe storms raged throughout the Western Provinces. The Canadian Northern Quebec lines were practically closed for the better part of all last week.

## CALIFORNIA JAPANESE WILL HELP TO ENTERTAIN THE U. S. BLUE JACKETS.

(Special to the Morning Graphic.) LOS ANGELES, Friday.—The American-Japanese approach was the feature of the meeting of the committee in the council chambers yesterday. The Japanese offer to help entertain Rear Admiral Evans and his blue jackets was accepted in the spirit in which it was made. The members of the committee considered that the voluntary offer of the Japanese was so extraordinarily "magnanimous and praiseworthy," that they passed a special resolution accepting the offer.

### CAUGHT IN BELT.

Hugh Turner Instantly Killed in Glenora Flour Mill.

(Special to the Morning Graphic.) PICTON, Ont., Friday.—Hugh Turner was killed without a moment's warning while at work in Martin and Sayers' flour mill at Glenora yesterday afternoon. No one was a witness of the sad fatality but it is supposed he was re-adjusting the belt while the machinery was in motion and was caught.

### 'OUIDA' LEFT NO NOVELS.

Nothing in Her Effects but a Diary and Private Letters. (Special to the Morning Graphic.) ROME, Friday.—An examination of the effects of the late 'Ouida,' the novelist, disproves the report that they included one or two unpublished novels. There was nothing in her effects but a diary, some old manuscripts and private letters. In the absence of heirs, the papers will remain in the possession of the Government.

### PUBLIC MEETINGS.

Public meetings will be held at the following places in the evening at 8 o'clock:—Upper Balmora, Monday, February 17, school house; Seven Mile Ridge, Tuesday, February 18, school house; Mitchell Settlement, Wednesday, February 19, school house; Archibald Settlement, Thursday, February 20, school house; Lorne, Friday, February 21, school house; Point La Plume, Monday, February 24, school house; Robinsonville, Thursday, February 27, school house; Flat Lands, Friday, Feb. 28, Orange hall. If the school houses are not available some other suitable place will be provided. Addresses will be given by the government candidates and others. Everybody is invited to be present. Other meetings will be announced later.

## PUGSLEY FLAYS THE OPPOSITION

Before One of the Largest Political Audiences Ever Seen in St. John He Discusses the Questions of the Day

### ROGERSVILLE MEETING

(Special to the Morning Graphic.) ST. JOHN, Friday.—Before one of the largest political meetings ever seen in St. John, Dr. Pugsley, minister of public works, spoke for an hour and a half tonight and was cheered to the echo as his telling remarks came home to his hearers. In the beginning he referred to Crockett's charges in the House of Commons yesterday and said it was quite true that H. A. McKeown had signed a series of ten charges against the Blair government, three of which were directed against Mr. Pugsley as solicitor-general. Mr. Blair said Pugsley was then about to sail for England, but he told Hannington, the conservative leader, that he was quite willing to remain and face an investigation. His offer was not accepted and Hannington did not press the charges. Dr. Pugsley said he had had an official letter from Vice President Morse of the Grand Trunk Pacific saying that borings were being made on the west side of Courtney Bay, St. John, and asking if favorable arrangements for the G. T. P. terminus could be made at once. Mr. Pugsley predicted a great future for the port of St. John. Attorney General McKeown and his liberal candidates spoke.

### BOX CARS FOR I. C. R.

(Special to the Morning Graphic.) KINGSTON, Ont., Friday.—The Hamilton Company has had its contract for box cars for the Intercolonial Railway increased to 250 and the work of turning them out is being rushed forward.

## JAP MONOPOLY IN B. C. SEALING

Serious Trouble is Feared Owing to Unusual Number of Japanese Sealing Schooners.

### FEW VICTORIA BOATS.

(Special to the Morning Graphic.) VANCOUVER, Friday.—The Japanese are sending a larger fleet of sealing schooners to the Behring Sea than in any previous year, and despite the fact that the Japanese minister of agriculture and fisheries gave notice to all that they should be careful and not trespass in foreign waters, a recurrence of the guerrilla war for seal is expected between the ruthless Japanese seal killers, and the Russian guard ships attempting to interfere with a treaty, making the sealing grounds a virtual Jap preserve, will again be carried out. Local Japanese have received advice that 35 sealing schooners will be off the Pribyloff islands and the indications are that the raiders will risk loss of life in a repetition of the battles of last year with the guards. The Japs are said to be determined to kill every seal they possibly can, in view of the fact that they believe the only eventual solution of the sealing question will be the ultimate extermination of the herd, and they mean to get all they can before that event comes about. With the Japanese sealing fleet the largest that ever left that country, and the Canadian sealing fleet the smallest, with the Americans practically out of it, the Japs will have it their own way and violent happenings are expected when the men from the Russian, British and United States guard ships attempt to interfere with them. Four years ago the Japs had only two sealing vessels in the Behring sea, but after the close of the war, Japanese sealers and adventurers cruised anywhere and disregarded the regulations of the Paris award governing pelagic sealing. There are ominous signs of trouble of a serious character with the Japanese sealing pirates this summer and the sailing of such a large fleet is certain to cause uneasiness in London, Washington and St. Petersburg.

## SOO LINE RIOT CASE AT REGINA

Three Men Imprisoned as a Result of the Burning of Effigies.

### WILD SCENES ON STREETS.

(Regina Standard.) all sides. During the melee which followed a cudgel was thrown at a lad and windows were broken about the town. Dr. Stevens laid information against five of those who were alleged to have been participants in the trouble, and the charge of being changed to vagrancy, three were sent to Regina Jail for three months, and are now at the barracks guard room. The other two secured lawyer Chalk from Moose Jaw for their defense, and were acquitted. They later took proceedings to get the other three out of jail, and the application for writ of habeas corpus was made as a result of the community scandalized.

The community of Yellow Grass was scandalized by the scenes on the night of the riot, and it is said that threats were made against some of those who took action in the cases. Dr. Stevens has had his windows smashed although he has been unable to detect the vandals. He has appealed to the town council for protection of his person and property from the tactics which have been employed. J. H. Allen, M. D., ex-mayor and now chief councillor of Yellow Grass will probably visit Regina during the coming week in the interest of the town.
