

FAIR PLAY FOR WEST WAS PLEA OF MEMBER FOR ASSINIBOIA

Mr. J. T. Turriff Gave Illuminating Address In Hyman Hall Last Night—The Position of the Government to the West, as the Westerner Sees It.

The protest of Western Canada against being forced by the manufacturers of the east to pay a high toll on what it had to buy, and at the same time being forced to relinquish a market for what it had to sell, was voiced by Mr. John G. Turriff, M. P., in an address to the London Liberal Club in a manner that left no room for doubt as to the national calamity that befell Canada in the rejection of reciprocity.

Mr. Turriff represents the constituency of Assiniboia, in the province of Saskatchewan, and along the international boundary. He went, therefore, able to give so many specific instances showing the injustice to the west and the discrimination of Canada's tariff laws against the people of his country, that his address was most convincing.

Mr. Turriff was greeted with applause, and he prefaced his political speech by expressing his pleasure to the President of the Association.

WHITNEY STICKS TO THE PATRONAGE

Mr. Rowell's Resolution For Civil Service Based on Merit Defeated.

SCORES SPOIL SYSTEM

Opposition Leader Points Out the Need of a Reform in Ontario Administration.

Toronto, April 3.—Mr. Rowell's attempt to have the Government adopt a resolution calling for reform in the Provincial civil service was defeated in the Legislature yesterday on an amendment introduced by the Prime Minister.

The Opposition leader instanced the benefits that had come to the public service in Great Britain. It was the surest way of securing the elimination of the patronage evil in political affairs and would attract a better class of employees into the service. Mr. Rowell was not inclined to accept the Government's statement that the spoils system had not been introduced, and pointed out the well-known dismissal of License Inspector Hastings in Toronto when the license commissioners resigned, and a Conservative newspaper declared that the "spoils system is in control."

Mr. Rowell's motion was: "That in the judgment of this House the spoils and patronage systems are inimical to the highest efficiency of the public service and to the best interests of the country; that the public interests demand the immediate creation of a non-partisan civil service commission with ample powers, and that all appointments and promotions in the public service shall be by merit after competitive examination, except in those cases where the conditions of the public service render this impracticable."

The following is the amendment substituted by the Prime Minister: "This House congratulates the people of the province on the fact that under the administration of public affairs by the present Government no such system of spoils and patronage has any place; recognizes the difficulties which would surround the operation of a system of so-called civil service over a small number of officials, and that it would be wholly unwise and practically impossible to bring under such a system the various officials in the service of the province, including such officials as registrars of deeds, sheriffs, and county crown attorneys."

"This House recognizes the fact that success in a competitive examination is in no way a guarantee of pre-eminent or ordinary fitness for Government service, and this House recognizes the wisdom of and fairness with which the Government has dealt with appointments and promotions in the Government service."

In opening his address, Mr. Rowell said the time had arrived when, in the interests of the province, the Government should establish a non-partisan civil service commission, so that all appointments would be made after a competitive examination, except to minor posts in the outside service. This system had worked to advantage in Great Britain, the United States and in Ottawa. The Indian service today was the envy of every Government in Europe, and the splendid character of that service was in no small measure responsible for the beneficial results of British rule in India.

"Under the existing system," continued Mr. Rowell, "promotions are made and salaries are raised on the recommendation of the ministers. I am prepared to assume that the ministers do what they believe to be best in the public interests, but they are often not in a position to know directly which ones of the office-seekers are most deserving."

Appointment and promotion by competitive examination would mitigate to a very large extent the patronage evil. Members of the House, he said, no doubt suffered more from this evil than from any other. How they were harassed and bothered by people wanting offices!

"We don't mind that," came several voices from the Government benches.

"Well, some of the honorable gentlemen no doubt enjoy it," returned Mr. Rowell. But he pointed out, public sentiment in Britain had seen the evil of the patronage system and had done away with it. If Ontario should follow suit, the members of the House would have a larger measure of time to look after the public interests.

It would further have the effect of encouraging more men of public spirit to enter public life, as the patronage system was probably a greater discouragement than anything else. Sir James Whitney was inclined to agree with a portion of Mr. Rowell's argument, but he would not go all the way with him. Everybody would admit that if the elimination of patronage could be brought about some benefit could be derived from a re-organization of the system. It was impossible, however, to deal with academic speeches. In a civil service composed of such a small number of persons as the Ontario service, no practical good could be observed by an outsider could come by the adoption of a new law, he had suggested.

The great public service departments of Great Britain and the United States were out of all parallel with the situation in Ontario. In a large service competitive examinations might be advisable, but they would bring no advantage to Ontario. "The advice of the deputy minister of a department is of far more consequence as to the efficiency and promotion of an official, than all the examinations you care record in the space of fifty years," declared the Prime Minister.

"If this motion is in order now it is several years overdue," said Hon. Mr. Hanna. Since he had become head of his department there had not been one dismissal for partisan reasons, although at the time the Government took office 99 per cent of the officials in Provincial institutions were Liberals. Mr. Hanna went over a list of Provincial institutions and pointed out various officials appointed by the late Government who had received promotion, because the Government preferred to continue the employment of men they knew rather than experiment with strangers.

Mr. Rowell pointed out that Mr. Hanna vindicated the principle of promotion, which was the spirit of his resolution. Mr. C. Elliott took exception to the statement of the Prime Minister that there was not a sufficiently large number of civil servants in the employ of Ontario to justify the making of appointments by examination. He pointed out that the number of people in the civil service was rapidly growing. Mr. W. J. Johnston (West Hastings) thought Mr. Rowell's resolution was "the joke of the session."

At all druggists. 25 doses 25c. MILES MEDICAL CO., Toronto, Can.

last evening for Radville, Sask. where they will reside. The Caledonia Society met last evening and discussed the details of the Dominion Day celebration, which is now receiving earnest attention.

Miss Lella Law has returned after visiting friends in St. Thomas. The customs collections at the port of Ingersoll for the fiscal year ending March 31 amounted to \$341,626.37, being an increase over the fiscal year ending March 31, 1911, of \$170,299.70, and the largest in the history of the port.

SPECIAL COMMITTEE FOR MEDICAL ACT

Will Consider Amendment in Regard to Interprovincial Registration.

Toronto, April 3.—A special medical committee of the Legislature will consider the amendment to the medical act introduced by Dr. D. Jamieson (South Grey) to provide for interprovincial registration of medical practitioners, and for the recognition of the practice of osteopathy. Dr. Jamieson explained his bill in the House yesterday, and moved that it be referred to a committee composed of Dr. Reaume, Dr. Pyne, Dr. Jamieson, Dr. Jessop, Dr. McQueen, Messrs. Thompson, Marshall, Musgrove, Johnston, Bowman, McNaught, McPherson and Sinclair.

Hon. Dr. Pyne explained his adolescent school attendance act, which came up for its second reading. The act is to give municipalities the option of passing a bylaw to require children between the ages of fourteen and seventeen who are not receiving an education to attend some school. Those children who may be employed shall, if the majority of the ratepayers desire it, be required to attend a night school, and the employers shall be required to allow them a sufficient number of hours off from work to attend such schools. Such laws were in force, Dr. Pyne explained, in France, Germany, Switzerland, Scotland, and other European countries. The act he proposed would be operative as soon as the child is free from the provision of the truncheon act.

With the exception of two sections the insurance bill was passed through committee of the whole. Mr. Rowell called attention to a lack of clearness in the section providing that an insurance company once having disputed a claim on the merits of their case cannot also claim immunity from payment on the ground of a technicality. Mr. Rowell also pointed out that under certain conditions the section requiring a period of sixty days to elapse before the proofs of loss are sent in before the settlement of a claim for insurance may be unfair to the policyholder. He advocated reducing the period to ten days. The two sections were held over and will be amended.

Mayor Coleridge is receiving congratulations for his suggestion that the mill dams of the town be inspected. It is a matter of history that many appalling investigations and warnings have been given. It is difficult to estimate the strain on mill dams during the spring season, when tons of ice and immense volumes of water are pounding against them. While it may be that the dams are absolutely secure, the precautionary step suggested by the mayor is certainly a step that should be taken with as little delay as possible.

Lost His Chickens. An Irati citizen was yesterday lamenting the loss of several choice Black Minorca chickens which mysteriously disappeared by the "lifting" process. The nocturnal visitor did not leave behind any clue that would be of assistance to the police in establishing his identity. However, no stone will be left unturned to hunt down the miscreant, as chickens have disappeared from other coops of late.

Pleasantly Surprised. Pretty Ingersoll Girl Was Tendered a Shower by Her Friends.

Ingersoll, April 3.—Miss Clara Strawbridge, whose marriage takes place on Thursday, was very pleasantly surprised at the home of Miss Lela Kerr, where a number of her friends gathered and tendered her a miscellaneous shower. Many dainty and useful gifts were received by Miss Strawbridge, which serve to emphasize the esteem in which she is held by a wide circle of friends.

Although the Thames has been very high this week, there has been no damage reported thus far. This probably is accounted for by the fact that no serious ice jams have occurred here to back up the water. As far as the eye can reach up or down the river, it is clear of ice, and flows on with a majestic sweep, mighty indeed in comparison with the meandering gurgling stream of the summertime.

Mr. George Clark and son Earl left

50 Women May Save \$7.00 to \$9.50 On Their Easter Suits Thursday Special Purchase \$17.95. Regular Value \$25.00 to \$27.50

From the maker who supplies us with the high-grade Suits. The maker of the highest class garments made in Canada. Our buyer made a special trip to headquarters and was more than repaid for the journey, as the group of 50 suits picked up for our Easter customers will win many friends for this department. Every woman loves a bargain, and a bargain is only a bargain when you need the article and purchase it at less than the regular value of same. These suits are the very newest spring styles and a great variety is represented in this group, of which it will be impossible to give a detailed description, but the two styles mentioned will impress you of their newness, and some of the models are duplicates of suits we have today on the racks at \$25.00 and \$27.50, our smartest models too.

MANY EASTER SUITS WILL BE PICKED FROM THESE TOMORROW.

BASEMENT SALE BEGINS TODAY Cottons, Sheetings, Wash Goods and Table Linen

The opportunity of the season to save money on your season's supply of SHEETING, COTTON, TOWELLING, TOWELS, COTTON SUITINGS, MUSLINS, COTTON VOILES, And 500 pure Irish Linen Table Cloths (Manufacturers' Seconds.) Everything arranged in the basement, where there is nothing but special priced sale goods. The Table Linen Seconds are at and about half price, 1 1/2 to 6 yards long, bordered. The wash goods are mostly half price, some lines at a third regular price. If you cannot come today, come tomorrow. Basement.

Single Fare to London On All Railroads Tomorrow

An opportunity to make a visit to your store, and if convenient, spend a few days with your friends in the city.

Make This Store Your Headquarters

A free cloakroom to take care of your luggage, wraps, etc., on main floor. Restrooms, Lavatories and every convenience and equipment for your use, whether or not you make a single purchase.

Dinner Will Begin in the Restaurant at 11 o'Clock Short lunches served continuously from 3 to 6 p. m.

When you arrive in the city come direct to this store.

April Showers: See Special Umbrellas; Men's and Women's, \$1 Each.

The sizes are in maids', small women's and women's—16 to 18 years and sizes 34, 36 and 38, made of the very newest and smartest materials, whipcords, terra cloths, serges and tweeds, newest models lined with messaline and taffeta silk. The colors are in navy, blue, gray and fawn, the three most popular colors of the season. Every suit worth \$25.00 to \$27.50, and early comers will have a choice of fifty suits at only \$17.95.

Navy Whipcord Suit, \$27.50 for \$17.95

Ladies' or misses' sizes, Navy Whipcord, coat semi-fitted, notched collar and revers, crescent-shaped pockets, 2-button cutaway closing, lined with taffeta silk; skirt has high princess waist-line, front and back in new drape effect. A \$27.50 model, sale price \$17.95

Another stylish model will be seen in light gray tweed, coat semi-fitted, messaline silk lining, breast and hip pockets, skirt 4-gore, panel front and back, high waist-line. A smart travelling suit. Sale price \$17.95

It will be only a matter of getting your choice of color and your size, for which it will be worth your while to come early tomorrow, as this is a group of stylish, up-to-date models. It will pay you to come even 100 miles if you live out of town to buy your Easter Suit here tomorrow.

Second Floor.

A Trial Treatment of Cuticura Soap and Ointment Free to Skin Sufferers

If you, or someone dear to you, are suffering the itching, burning, sleep-destroying torments of eczema or other cruel skin eruption, with its embarrassing, unsightly disfigurement; if you have tried all manner of treatment, no matter how harsh, to no avail, and have all but given up hope of cure, write to-day for a liberal sample of Cuticura Soap and Ointment. Thousands of skin-tortured sufferers, from infancy to age, have found that the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment bring instant relief, permit rest and sleep, and prove the first steps in a speedy and successful treatment. Address "Cuticura," Dept. 10M, Boston, U. S. A.

THE ANGRY WEST.

Every elector in Canada, particularly in Ontario, ought to have such information as Mr. Turfiff, M. P., of Assinibola, Sask., imparted in his address at Hyman Hall. The relations between Eastern and Western Canada constitute the most important question in national politics, and it is essential that people in the East should try to comprehend the western point of view.

The ramifications of the gold mining industry at Porcupine have brought 10,000 people into the immediate district. The town has excellent facilities, good railway connection, orderly streets, and there are farmers coming in to take advantage of the rich market the camp affords.

WINNING ARGUMENTS IN B. C. A glance at the issue of the Victoria Colonist on the eve of the Provincial election, throws some light on the results of the following day. Here are a few of the "arguments" addressed to the electors of the city:

Do you approve of the policy which has secured the construction of a new transcontinental railway of which Victoria is one of the termini? Do you approve of the development of Vancouver Island by railways?

Do you approve of the \$3,000,000 Government block in Victoria? Do you approve of the establishment of a provincial university? Do you approve of the establishment of a Normal School at Victoria?

Do you approve of the dedication of Strathcona Park to public uses as a pleasure resort? Do you approve of the construction of highways to make Vancouver Island one of the greatest pleasure grounds in the world?

Do you approve of the continued pressure upon the Dominion Government of the claims of the province for Better Terms? Do you approve of the establishment of great railway terminal facilities at Victoria?

Victoria voted overwhelmingly for the railways, the Government block, the university, the normal school, the park, and the pleasure ground. From the housestops the Government cried to the people to gather at the public trough. This must be the swill-pail era of politics in British Columbia as in Manitoba.

Capt. Scott found coal near the South Pole, and most people will be disposed to let him keep it. We are all glad to see the Thames wake up every year, but why will it insist on getting out of its bed?

Lloyd George's much-reviled budget has produced a record surplus. The way in which that man confounds his critics is almost cruel. Sir James Whitney has flatly refused to introduce the merit system into the civil service. He instinctively bristles at any suggestion of reform.

Industry. The newspapermen who saw the mighty Dome stamp mills, a sort of combination of a great grand stand, a theatre and a steel mill, suddenly came to know that gold mining has its most important and extensive processes above ground.

Dropped at lightning speed down a hoist ten or three hundred feet deep, the visitors found drifts and cross-cuts diverging in many directions. Some of the mines had as much as 4,000 feet of tunnelling, and any that have actually gotten into development work have at least 1,800 feet.

UNREST IN THE NEAR EAST. "Look here, 'Liza Mullins, did you say as I'd collared the farmer you lost?" "Nothink of the kind! Wot I said was as I've found it if you 'adn't helped me to lok for it."

A DISCOVERY. "What good do you suppose the discovery of the South Pole has done?" "I don't know exactly. But offhand I should say that Amundsen has at least found one place where the roads aren't forever torn up for repairs."

TRY A CELL. [Revelstoke Mail-Herald.] Wanted—A furnished room in the neighborhood of the court house.

MODEST CHAP. [Victoria Week.] The editor of the Week wishes to call special attention to this department, which is conducted by an English gentleman, a 'Varsity man of high attainments.

TALKING TO ARNOLD BENNETT. [Arthur Gutterman in Life.] Dear Mr. Bennett, we love you excessively. Scorning pretences, you write so expressively.

EVERY ELEVATOR AT PORT WILLIAM AND PORT ARTHUR WAS FULL TO THE ROOF, and the millions of grain bags were thrashed in the fields. Eight million more was thrashed, but with not a dry elevator in the west that was not filled.

Attitude of the Railways. Criticizing the railroads for opposing reciprocity, Mr. Turfiff pointed out that the railroads had a line from Moose Jaw to Minneapolis. On the line from Port to Minneapolis, it got no bonus but paid for everything; on the Canadian section

McLaren, mechanical superintendent of the Wortman & Ward Company, Limited, for the past two and a half years, has severed his connection with the firm, and the employees gathered together to bid him farewell, and at the same time to present him with a handsome travelling bag, as a token of appreciation of the many kindnesses shown by him.

BLAKE AND BURKE. [Manchester Guardian.] Touching the likeness of the late Edward Blake to Edmund Burke, which has been several times commented on, a correspondent points out to me that the likeness was not in profile only, though—barring his spectacles—he might have sat for the famous Reynolds profile portrait. In the House, Blake was rather like Burke, too—over-ample and diffuse. He was, however, he used to be taken about to show English audiences in the stormy times of the eighties that an Irishman

FAIR PLAY FOR WEST

Continued From Page One.

It was heavily bonussed, and yet it charged shippers on package freight on the Canadian side 30 to 50 per cent more than those on the American side. He said he would welcome Jim Hill lines into Canada, especially if they would cut rates as the C. P. R. did on the lines they built in Ontario.

The Loyalty Cry. The Government said: "We can't give you the American market, as that will make you disloyal." If there had been a good year in the West, the wheat crop last year would have been 225,000,000 bushels instead of 175,000,000, and the blockade would have been worse. Mr. Borden wanted the farmers to sell in Great Britain, so as to be loyal, but Mr. Turfiff pointed out that Great Britain never consumed more than 200,000,000 bushels a year, and with the ships laden with British manufacturers going to South America, England would always buy a good portion of her wheat in Argentina.

United States Wheat. Mr. Turfiff explained how it was that the United States both bought and sold wheat. It was nearly to the limit as an exporting country, and anyway Canadian hard wheat would always command a higher price in the United States than the soft wheat of the Middle States, as it made the best blend of flour. Never in one year that he had lived in Assinibola had there been a time when his constituents couldn't draw wheat across the line and get 10 to 20 cents a bushel more. "Do you think the west is going to stand for that for all time?"

Losses to Farmers. The speaker gave instances of farmers who had lost huge sums on the growing of fax and showed where they could make big money out of barley were they not kept out of the American market. In regard to the allegation that American settlers were the agitators, Mr. Turfiff said that the 1,500 former residents of the United States in his constituency. Most of them were Scandinavians, who spoke good English and liked Canadian laws. If a vote were taken tomorrow outside of the question of reciprocity, not one per cent would vote for annexation. There was throughout all the west a strong and bitter feeling against the injustice it was suffering, and it might bring about a condition he did not like to contemplate. But they wanted to get fair play by constitutional means. They meant to get there just the same.

Every elevator at Port William and Port Arthur was full to the roof, and the millions of grain bags were thrashed in the fields. Eight million more was thrashed, but with not a dry elevator in the west that was not filled. When the warm weather came, some of the wheat would be threshed, but millions of dollars would be lost if there had been reciprocity much of the grain could have gone out over the American roads. The Canadian roads simply could not handle the crop.

Speaking of the advice of the Government to go into mixed farming, he showed how the defeat of reciprocity hurt the cattle business. A rancher had 250 head of three and four year old steers that he sold to an exporter to be delivered at a certain railway station at a certain time. Before the day arrived twelve of these steers strayed away and across the border into Montana. The Montana Cattle Association had a mutual agreement with the Alberta Cattle Association by which strayed cattle were taken care of and the Montana Association paid for rounding up these twelve cattle, shipping them to Chicago, paying all expenses, even to the rancher, and making a check for the net amount coming to the owner. The rancher found to his surprise, that for the twelve cattle that had strayed away he had got eight dollars a head more than for those he delivered to the nearest station.

Attitude of the Railways. Criticizing the railroads for opposing reciprocity, Mr. Turfiff pointed out that the railroads had a line from Moose Jaw to Minneapolis. On the line from Port to Minneapolis, it got no bonus but paid for everything; on the Canadian section

Music and Drama

An Emotional Drama. The attraction at the Grand Good Friday, matinee and night, will be Miss Beulah Poynter, in her latest dramatic success, "A Kentucky Romance." In the opening of the play the dainty little actress is seen as an innocent child of nature, with no companions but the birds. She lives along with a cruel, drunken father, and knows none of the pleasures of life. She lives on the Kentucky plantation of the man to whom she is subsequently married. The girl puts all her trust in the man she loves, and they go away and are secretly married. Later, the mother of the young husband finds them, and in order to save her large estate induces her son to deny the marriage. Her grief and disappointment and natural resentment at the injustice done her, gives Miss Poynter a splendid opportunity for a wide range of emotional acting.

When the Lungs Are Weak

To every person with weak lungs or who has a family history with records of consumption, a cough or cold is a serious matter. Coughs have a tendency to hang on. They irritate the weakened membranes of the throat, inflame the lungs, and always the danger that a cold may get a firm foothold and settle on the lungs. It is so easy under these conditions for pneumonia or consumption to develop. About the surest means of controlling coughs and colds is by the use of Dr. Chase's Syrup of Limesed and Turpentine. This treatment loosens the mucus, allays the irritation and inflammation and thoroughly overcomes the disagreeable symptoms. The success of this medicine has given rise to many imitations. It is only natural to suppose that the original possesses merit of an unusual degree.

PILE'S CURED

Writing from Poplar, B.C., Mrs. C. Hanson, proprietress of Commercial Hotel, said: "I suffered for years with bleeding piles. The pain was so bad at times that I could hardly walk, and ordinary remedies seemed utterly unable to give me any ease. Finally I decided to undergo an operation, and went to the Sacred Heart Hospital in Spokane. There they performed an operation. For a time I was certainly better, but within twelve months the piles became as painful as ever. I tried liniments, hot poultices, various 'pile cures,' and indeed everything I could think would be likely to do any good, but still I continued to suffer, and the shooting, burning, stinging pains, the dull, aching, worn-out feeling that the disease causes continued as bad as ever.

"One day I read about Zam-Buk and thought I would try it. The first one or two boxes gave me more ease than anything else I had tried, so I went on with the treatment. In a short time I began to feel altogether different and better. Well, I went on using Zam-Buk, and by the time I had used six boxes I was delighted to find myself entirely cured. This was three years ago, and there has been no return of the trouble."

Zam-Buk is a sure cure for piles, hemorrhoids, ulcers, abscesses, eruptions, chapped hands, varicose veins, burns, scalds, bruises, inflamed patches, and all skin injuries and diseases. Drug-gists and stores everywhere, 50c. box, or Zam-Buk Co., Toronto, for prices.

THE PRINCESS THEATRE. Irene Gold, "the girl with the band voice," who appears at "The Princess" this week, has a wonderfully powerful voice, yet it is sweet and pleasing. The foot juggling by Wm. Tyler is clever, and together with the pictures, completes a programme of more than usual strength. The balcony is now open and affords a splendid view of the pictures.

FIRE NEAR PARKHILL

Home of William McArthur in East Williams Was Burned. [Special to The Advertiser.] Parkhill, April 2.—The home of William McArthur, in East Williams, was completely destroyed by fire, which it is believed started from an over-heated stove. Mr. McArthur awakened the fire, and in flames, and he barely had time to awaken his family and get out before the whole structure was ablaze. Only a very small portion of the furniture was saved.

THE SETTING OF CORNS RELIEVED IN A NIGHT

Never sit your boots—that doesn't cure the corn. Just apply that old standby—Putnam's Painless Corn and Wart Extractor. It acts like magic, kills the pain, removes the corn, does it without blisters or scars. ENCOURAGE OTHERS BY THE GOSSIP

The importance of encouragement is not sufficiently valued by many of us. Yet a little judicious encouragement given at the right time to our fellow workers often spurs them on to accomplish great results. And what a pity it is to withhold our helping word when it might be the aid to the lives of those around us. Sometimes we are called upon to enter a new field of work—to assume new responsibilities, and we hesitate, partly through diffidence, and partly because of the fear of failure. It is then that a word or two of encouragement and confidence in us, on the part of a friend, gives us new strength, fresh inspiration, and an impetus to go on and prove ourselves worthy.

PRACTICAL ENCOURAGEMENT.
Further, it is not only words that are required if we desire to encourage our friends. The helping hand should also be extended as opportunity offers. Many a wonderful invention, many a work of art, many an inspiring book would never have been completed but for somebody encouraging the inventor, artist, or author. Of course, a multitude of things have been accomplished in the fields of science and of art by men and women who received nothing but rebuffs and ridicule. But how much easier and more pleasant their lot would have been, and possibly how much better their work, had they received the commendation and confidence of their friends. An acquaintance of mine was recently promoted to a position where she received congratulations from many well-known men. The young woman in question was somewhat timid about assuming the duties of her new office, but heartily desired to "make good." One day the president of a well-known ladies' society found it in her power to aid the young woman very materially. She did so in a most kind and graceful way, not appearing to think she was rendering a valuable assistance. But how much it was appreciated by the one she had helped! There's a warm glow in her heart, and a fresh stimulus for labor that's there to stay.

And then, a person who has been encouraged a little is very apt to pass it on to others, and if each in his or her turn does the same, think what an ever-widening circle it will be. As somebody says, it is like throwing a pebble into a pool of water where the ripples will go on and on, over the surface until the farthest shore is reached.

Mark (N.S.): An ounce of practical encouragement today, is worth pounds of praise bestowed after the obituary notice is printed.

THE LAST VOYAGE OF THE DONNA ISABEL

[BY RANDALL PARRISH.]

The scene became impressive in its barrenness, and I felt the need of movement to overcome its weakening effect upon my nerves. This was to be a night of action, not of dreams, so I groped my uncertain path along the littered wharf and around the sharp curve of the shore line, beneath the gloomy shadows of coal sheds. Apparently there were some requirements for caution, as the entire water front appeared deserted of inhabitants, the usual sound of whistles and wharves under the spell of excitement, even the accustomed patrol of guards deserting their posts in a patriotic fervor of celebration. Of lights there were comparatively none, if I except the uncertain glimmer of rockets along the water's surface, and I hurried on, my feet slipping as I felt my way from object to object like a blinded man. Still the course was sufficiently familiar so that I successfully maintained both footing and direction, finally emerging safely close beside the spot appointed for our rendezvous. There was considerable open space here, the Mercantile Company's sheds standing some thirty feet back of the shore line, and their wharf the wharf of the company barges extending more than fifty feet out into the harbor. I could dimly perceive a great crane at the end of the wharf, with dangling buckets, outlined against the sky. The night was too dark for me to decipher the face of my watch, yet it could not now be long before the arrival of the men. I crouched down beside a post to await their coming, once again searching the harbor with my night glasses.

The company at last arrived in two rows from the enveloping darkness, presently grouping themselves amid the shadows. I could distinguish an occasional snuff cough, and the shuffling of feet, but there was no sound of conversation or hilarity. Evidently De Nova had sufficiently sobered them to their duty. At last one man detached himself from among the crowd, and moved stealthily forward. I met him at the shore end of the wharf, and he bowed to me, his concealed beneath the visor of his cap, until I recognized the fellow.

"Yes, all here, Mr. Tuttle," he answered, "I started by my sudden appearance into" courteous response, "but mighty uneasy to be off."

"They shall not be delayed," I said, "the boats out at once. You are to take charge of the whaleboat, and I will accompany De Nova in the cutter. Remember, at the end of the wharf, and lie by there to await my instructions. Do your men understand the boats they are assigned to?"

"Very well then; get the boats out, and the crews aboard. Not a sound, remember, for there are guards patrolling the harbor."

I must confess this preparatory work was well and to my aid, and between the men the merest silent shadows as they hauled the two hidden boats forth from concealed places at the wharf. Tuttle's crew was first aloft, De Nova experiencing some difficulty from attempting to load too near shore, in somewhat shallow water.

"Drop overboard, two of you, and shove off," I ordered finally. "Lively now, lads, but no splashing."

The two fellows in the stern lowered themselves into the shallow water, bending down so as to put their shoulders against the planks for a heave. Suddenly, not three feet distant, a slender shadow uplifted, and I became conscious of a pallid human face gleaming faintly through the dark. Instantly I leaped towards it, with such force as I could muster, heavily laden boat swirling forward, the heaving men plunging face downward into the water. There was a startled explanation in Spanish. In short-arm blow shot into a dimly revealed, half familiar face, a fierce grip at the throat, and the two of us were on the sand, grappling like two wild cats. Out of the water, dripping from their bath, the two seamen came to my aid, and between us we pinned the fellow to helpless silence.

"Toss him into the boat," I said, panting from exertion. "He will be safer with us than left ashore."

It appeared even darker out on the water than when we looked off upon it from the land, but with a few cautious strokes, we discovered the smudge which represented Tuttle's whaleboat and drew up within an oar's length of where he lay waiting.

"Mr. Tuttle," I began, speaking slowly and carefully, "so the men in both boats could hear, 'I expect to do the boys' play tonight, and I expect implicit obedience to my orders. Do exactly what I tell you, with no more. You know the situation of the Esmeralda, and I want you to put your whaleboat in under her bow. If you keep a point east of north you can scarcely miss it. There is a

and half a grated nutmeg. Mix with sufficient flour to make a soft dough. Roll about half an inch thick, cut out and fry in hot lard.

Correspondence Edited by Cynthia Grey

Embroidery Dresses.

Dear Miss Grey: Would it be too much trouble for you to answer this through your column? If not, please do. 1. What will take coffee stains out of red serge. 2. Will embroidery dresses be fashionable this summer. If so, how could a girl of sixteen have one made. 3. Would you kindly print the song entitled "Who Are You With Tonight." Hope we have not tired you with questions.

CHERRY BLOSSOM AND BLUE EYES.

A.—Mix one ounce glycerine; nine ounces water; one-half ounce aqua ammonia. Apply repeatedly; press with cloth and rub with a clean rag. Hold before the steam of a kettle and the stain should be quite removed without harming the color of the material. 2. They will be very much in favor for girls your age. Make the dress simple without ruffles or pleats. The skirt should be slightly gathered and made in two or three pieces, to suit the design of embroidery used. As lingerie dresses are frequently trimmed with contrasting bands of silk ribbon, would suggest finishing the neck and sleeves with rose or blue colored ribbons and a girdle of the same color in wider silk. 3. It would be a good idea to select the song you ask for. You could get the same with music by writing any music store in town.

Going South.

Dear Miss Grey—My husband and I expect soon to go south for a short time. How should we register at the hotel? A.—As Mr. and Mrs. John S. and So, and the name of your city following.

She Loaned Him Money.

Dear Miss Grey: I have been keeping company with a young man since last March. During this time I have loaned money to him several times, amounting to about \$200. Did not take a note or receipt for same. He promised to pay the money back by the new year, but he made it a practice to pay all bills. We were engaged to be married, and therefore I had all confidence in him and trusted him. He wrote me a few lines for New Year's, sending best wishes. I have not heard from him since. Previous to that day I would receive a telegram, telephone message or letter from him daily, no matter how far away he was. He appeared by his manner to love me. In this case I'd be gratified for your good advice.

A.—Any man who attempts to borrow, or who will borrow money from a girl he says he loves, is a villain. You will probably never hear from the fellow again. You will probably never recover your money. "Experience is a dear school, but fools will learn in no other."

MACGRECOR—COOK

Mrs. Ed Hunt is quite ill at her home.

Service will be held in Christ Church on Friday evening next (Good Friday), at 8 o'clock.

Special Easter music will be rendered by the choir of Christ Church on Easter Sunday.

An Effective Cloth Gown

Somewhat out of the ordinary is this charming gown, made of cloth in different shades of blue. The figured overdress is woven like tapestry, in medium and dark blue, with threads of dull gold. The lower edge is slightly gathered. A plain dark blue material is used for the skirt, with a tiny triangular piece showing at the lower part of the bodice. A yoke and sleeves of plain net are ornamented with dark red buttons, and cuffs and vest fronts of red chiffon voile complete the costume.

The Newest and the Best

These are the two features which characterize our entire stock. Everything is chosen with a full knowledge of what's what in the style-world, and with an appreciation of good values and reliable merchandise, which has been gained only through experience and by careful attention to the needs and desires of our customers.

If your Easter preparations are not yet completed, we can supply you with what is stylish and suitable, and at the lowest prices. Pay a visit of inspection to our Ready-to-Wear Department. We have the most up-to-date styles in all lines in suits, coats, waists, dresses and separate skirts, in all sizes, and to fit any figure. We carry a complete line of the best and most exclusive ready-to-wears manufactured in America.

GRAY'S Dry Goods Millinery Ready-to-Wear GRAY'S

SPLENDID RECORD MADE BY CHILDREN'S AID SOCIETY (By THE GOSSIP.)

Possibly no man in the city of London has seen more pitiful sights than Inspector Sanders, of the Children's Aid Society, and probably no one has been a greater instrument in promoting the public good, than the kindly, white-haired gentleman whom The Gossip found in his office in the City Hall yesterday.

The Children's Aid Society was organized in June 19 years ago, and Mr. Sanders has been intimately connected with its work ever since. The objects of the society are to protect and care for orphan and needy children, lay the foundations of principle and education, and nourish their bodies properly, until they may be placed out in foster-homes. Since the commencement of the work in 1893 some 925 children have been directly aided and provided with homes, but it is safe to say that nearly two thousand children have been assisted and cared for at times, many of these going back to their own parents when the latter bettered their conditions physically and morally.

Children on Trial.
No pains are spared to place children in good homes, and each child is sent on trial for a short period before the final papers are issued. Thus, if either child or foster parents are uncongenial, a change can readily be effected. Many children are placed in country home in Middlesex and other eastern Ontario counties, while others find a welcome in the homes of our city. Out of almost a thousand cases which have been handled by the society, but a very small percentage has proved a disappointment. Many of the boys and girls are now married and own homes of their own. The Gossip was told of one, a strapping, well-to-do young fellow from the West, who recently paid a visit to the Inspector in his office. Letters are frequently received from former wards who are succeeding in life. "It is one of the rewards of our work," said Mr. Sanders, "to hear from boys and girls who are growing up to be respectable and useful members of society."

A Small Beginning.

The work, which began on a very small scale nineteen years ago, has expanded considerably. At one time the wards of the society were accommodated in the Protestant Orphans' Home. Subsequently a home was provided on Fullerton street, and this again was vacated for larger premises on the Kent property, in South London. Some years later, by the pro-

To Make the Final Touches

To your Easter wardrobe, the touches which give the signal exclusiveness to your new garment, touches on which depend the attractiveness of your appearance. Inspect our assortment of imported Lace Collars, Jabots, Cuffs, etc., and our special lines of Easter Gloves. Here are a few specials:

NEATNESS

The neatness of the packages sent out from the P., L. and O. Drug Stores has often been remarked upon by their customers. Just an indication of the care used in every item of their service to you. This means a good deal in regard to your prescription.

P. PERCIVAL, Richmond Cor. Central Phone 1261
L. LISTER, Wortley Road, Cor. Craig Phone 1920
O. OMOND, 468 Dundas Phone 1429

THE PROGRESSIVE DRUGGISTS.

visions of the Thomas Alway estate, the fine \$10,000 building known as the Thomas Alway Hall, was erected on the same property. This home provides excellent shelter for destitute kiddies. Miss Turnbull, the kind-faced matron, is, one feels, just the woman to be in charge of the nineteen or twenty restless urchins and lassies, who are the present inmates. As The Gossip looked around the long dining table, which is usually well filled by the "family," she realized that it must take much food, however plain, to satisfy the numerous mouths. Miss Turnbull said that donations of food, vegetables, canned fruit and clothing are always acceptable. It is often hard to provide proper clothing, especially for the boys, and shoes seem to wear out in no time.

Inspector Sanders and his colleagues are certainly doing a fine work in helping the children of our city and vicinity to get started on the right road, and the Children's Aid Society should meet with hearty approval and support.

JUST RIGHT FOR YOU.

No other cereal food is so widely liked as Kellogg's Toasted Corn Flakes. Its flavor pleases everybody. Order a ten-cent package from your grocer today.

JAMES LUTMAN IS INSPECTOR

Board of Health Secures His Services as Sanitary Official of London.

\$4,705.50 FOR THE YEAR

Estimates Decided Upon—Dr. Hutchinson's Salary Remains as at Present.

The members of the board of health, at their regular session at the city hall on Tuesday afternoon, prepared their estimates for the coming year, and despite the fact that Mr. James Lutman was transferred from the jurisdiction of the council to the board at a salary of \$750 per annum, it is thought that \$4,705.50 will suffice for 1912. The total expenditure during the year of 1911 amounted to \$3,850.50.

The salary of the veterinary inspector, Dr. Tamblin, was increased from \$550 to \$600, on motion of Mr. Harry Clarke, as it is said that the inspector's duties call for a great deal of his time.

Three applications were received for the office of sanitary inspector, J. Aldis, E. J. Allen, and E. J. Tanton, being desirous of securing the position. These were not considered, however, as it was explained to the board that the council wished that Mr. James Lutman, who now acts as assistant to Inspector McCallum, be taken over into the office of Dr. Hutchinson, who is under the jurisdiction of the board of health.

Mr. Lutman Named.

The transfer was accordingly made, and Mr. Lutman will be continued at his present salary, \$750 per year. Mr. Clark moved that the sum be increased to \$800 in view of the fact that all-round increases had been made in the city hall offices by the council. This, however, was opposed by the other members of the board, R. A. Carrothers moving the amendment.

The matter of yard inspection was left over, and will probably be included under the duties of Inspector Lutman. The latter had spent a great deal of time at office work while with Inspector McCallum, so a recommendation was made and approved by the mayor, that the council appoint a stenographer, who will be employed in both offices assisting Mr. McCallum and Dr. Hutchinson.

Last year \$12,000 was placed in the estimates for operating expenses of the Cove Smallpox Hospital. Less than \$70 of this amount was required, but rather than take chances with an outbreak this year \$1,000 was appropriated for the purpose of meeting any trouble in that direction.

M. H. O.'s Salary.

The salary of Medical Health Officer Hutchinson remains unchanged at \$1,400 a year.

Several trips are anticipated by the members of the board in connection with the establishment of an incinerator here, so \$400 was set aside for the expenses of deputations. Other smaller items brought the total up to \$4,705.50.

The board instructed the health officer to enforce the city bylaw in reference to alleged nuisances on Central avenue.

LOBO SCHOOL.

The following is the report of S. S. No. 7, Lobo, giving the percentage of each pupil:

Fifth Class—Ruby Coverhill 76, Fourth Class—Florence Coverhill 85, Beattie Argo 79, Lorne Campbell 63, Third Class—Graham Calvin 80, John Argo 77, Violet Scott 76, John Calvin 74, Albert Coverhill 68, Flossie Dixon 61, Lila Simpson 52, Alice Ross 78, Gertrude Scott 78, Helen Ferguson 67, Annie Milloy 63, George Coverhill 58, George Scott 43, Frank Dixon 30, First Class—Colina Ferguson 87, Edmund Bolton 82, Stanley Robson 85, Pearl Dixon 83, M. H. Beckton, teacher.

RHEUMATISM CURED TO STAY CURED

LINIMENTS OF NO AVAIL—THE TROUBLE MUST BE TREATED THROUGH THE BLOOD.

This article is intended as a talk to the man or woman with rheumatism who wants to be cured. Not merely relieved, not half-cured, but actually cured. The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief. And all the while the trouble is becoming more firmly seated. Medical authorities now know that rheumatism is rooted in the blood and that while rubbing or liniments or hot formulations may give temporary relief, they cannot possibly cure—you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills cure rheumatism. They make new, rich blood, which expels the poisonous acid, and the rheumatism disappears. There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains and tortures of this dreaded trouble. Mr. Joseph Luddington, New Harbor, N. S., says: "Some three years ago my wife was stricken with rheumatism, and suffered so much that we despaired of her ever getting well again. At first she was able to go about, but in spite of all we did for her, she grew so bad that we had to lift her in and out of bed, and finally the pains grew so excruciating that we could only move her little by little, with the sheet under her. Finally we were induced to get Dr. Williams' Pink Pills for her. I do not remember just how many boxes she took, but I do know that they were the first medicine that reached the disease, and that she continued to improve until she was again as well as ever, and could do her household work. To us it is simply marvelous what Dr. Williams' Pink Pills did for her, and we are glad to give this testimonial in the hope that it will benefit some other poor sufferer."

Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail at 50 cents a box or six boxes for \$2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

MUSIC TAUGHT FREE HOME INSTRUCTION

Special Offer to Readers of The Advertiser.

In order to advertise and introduce their home study music lessons in every locality the International Institute of Music, of New York, will give free to our readers a complete course of instruction for either Piano, Organ, Violin, Mandolin, Guitar, Cornet, Banjo, Cello or Slight Singing. In return they simply ask that you recommend their Institute to your friends after you learn to play.

You may not know one note from another; yet, by their wonderfully simple and thorough method, you can soon learn to play. If you are an advanced player you will receive a special instruction.

The lessons are sent weekly. They are so simple and easy that they are recommended to any person or little child who can read English. Photographs and drawings make everything plain. Under the Institute's free tuition offer you will be asked to pay only a very small amount (averaging 14 cents a week) to cover postage and the necessary sheet music.

No one should overlook this wonderful offer. Tell your friends about it—show this article to them. The International Institute has successfully taught others and can successfully teach you, even if you know absolutely nothing whatever about music. The lessons make everything clear.

Write today for the free booklet, which explains everything. It will convince you and cost you nothing. Address your letter or postal card to International Institute of Music, 98 61th Avenue, Dept. 376M, New York, N. Y. Ad2,10,17,24

CITY ENGINEER WRIGHT CAN ABATE NUISANCE

Rearrangement of Connections Will Help Out Tannery Difficulty.

A comparatively easy and inexpensive way out of the difficulty with the sewerage system and Carling's Creek, near Hyman's tannery, which has given offence to the people of that neighborhood for some time, has been discovered by City Engineer George Wright.

The engineer, at the request of the members of the board of health, investigated the matter and on Tuesday afternoon's session submitted his scheme, whereby a rearrangement of the connections will give the desired satisfactory solution of the trouble. The matter has been in the hands of a special committee of the board for some time, and was left standing, on motion of the convener of the committee, Mr. R. A. Carrothers, who expressed the belief that the Hyman company should not be forced to great expenditure in winter-time. The members of the council have offered to act immediately upon being given instructions from the engineer.

Using the Sewers.

A communication from Dr. McCullough, chief provincial health inspector, expressed the pleasure of the official at the action of the Hyman company in disposing of much of the waste water through the sewers instead of having it pass to the river through Carling's Creek. The water from the gas producer engine, however, is still going into the creek, and as it contains sulphur and other chemicals, which give off offensive odors, this must also be put through the sewerage system.

The opinion of the city solicitor is that the board of health cannot compel the property-owners to tile the creek.

This, Mr. Carrothers declared, was because of the fact that one of the owners has rights on the stream, if he ever cares to take advantage of this privilege.

DIED SUDDENLY

George Goldsmith, For Many Years Resided in Bosaquet Township.

[Special to The Advertiser.] Forest, April 3.—The funeral of George Goldsmith was held today at the Beechwood Cemetery. Deceased was 44 years old, and died in Port Huron very suddenly. For many years he was a resident of Bosaquet.

A. Johnston, blacksmith, of Warwick, purchased J. S. Wilkie's residence, property and blacksmith shop, for \$2,600.

Miss E. Williams, of Monroe, visited Mr. and Mrs. A. Williams, Prince street, recently.

The Senior Scouts have organized a baseball club, with the following officers: Honorary president, Rev. D. J. O'Connell; president, G. E. Clark; patrons, R. J. McCormick, M. P. J. E. Armstrong, M. P. J. A. Edgar, J. F. Brusch; manager, Fred Douglas; trainer, T. Webster; secretary, Roy O'Brien; treasurer, Will Seaton; chaplain, Rev. A. J. Thomas; captain, Will McKenzie.

The Scouts will give a concert in the town hall on Friday, April 12. On Wednesday evening the junior Scouts will meet to organize a baseball team.

J. Davis, of Aylmer, has been awarded the contract for building the new cannery here.

Ho! For Griddle Cakes and Maple Syrup

Spring is here at last and the sap is flowing free. Now for light, digestible foods and a merrier life under warmer skies. Bring along the griddle cakes and plenty of them. Add plenty of the juice of the maple—the syrup that kings would approve. But, good housewife! If you want your griddle cakes to reflect great credit on you, see that you make them with

PURITY FLOUR

the flour that is far-famed simply because it "makes more and better bread." Purity is the name of Canada's extra special flour rolled in bright sun-lit mills from Canada's extra special wheat. No other flour can with it compare. It imparts a flavor and a richness to griddle cakes that makes them sur-

"More Bread and Better Bread"

gladly pay a good deal more rather than return to common flours. Now, bring on the griddle cakes made from Purity Flour and plenty of good Maple Syrup on the side!

N.B.—Put Purity on your grocery list—you'll keep it there.

THE SPARKING CASE

A Week May Be Taken Up in Selection of a Jury.

Bad Axe, Mich., April 3.—The trial of Dr. Robert A. MacGregor, formerly of London, Ont., charged with the murder of Cyril Spurling, of Uby, on Aug. 14 last, was begun in the Huron County circuit court yesterday, Judge Watson Beach presiding.

The entire day was spent in efforts to secure a jury, and scarcely a beginning was made. From 9 o'clock in the morning till 5 in the afternoon the prosecution examined twelve of the regular jury panel.

The prosecuting attorney, Mr. Boomhauer, states he will be well pleased if the jury is secured by Saturday night. The prosecutor is being assisted by Mr. E. A. Snow, a prominent young lawyer of Saginaw.

The defence is represented by Mr. G. McClark, and Mr. Joe Walsh, of Port Huron, one of the most noted criminal lawyers in Michigan.

In all over 100 witnesses will be called, and the trial is expected to last a month. Dr. MacGregor is accompanied by his wife, the latter occupying a seat among the many spectators at the trial.

The first important witnesses will be Dean Victor Vaughan and Professor Warthin, of Ann Arbor. They are expected to be put on the stand early next week, if a jury is secured by that time.

A DAY IN THE SPORTING WORLD

SIDE LIGHTS ON MANY SPORTS

MEETING AT ST. THOMAS TODAY TO PUT TEAM INTO PROPER SHAPE

Secretary Robinson, Together With Secretary Walsh, of Brantford, and George O'Neil, of London, Will Go Into Club Affairs With St. Thomas People.

[BY JINX.]

Although the opening day of the Canadian League is yet five weeks away, every club, with the exception of the St. Thomas club, is in such a condition that were the season to open tomorrow they could place a good team in the field.

The St. Thomas fans have become a bit anxious over the outlook there owing to Elliott's illness. Only three or four players have been signed up for the coming season, and with Chaucer laid up in New York, and the probability that he will not be able to get around again until the middle of May, the St. Thomas fans believe it is time something should be done.

However, this evening a meeting of the St. Thomas people will be held, to go over the club's affairs with Secretary Robinson and the others, and the situation should be put on a sound footing again.

A meeting of the London directors will be held today, and the matter of a manager definitely decided. The improvements at Tecumseh Park will soon be started, as the grounds are fast getting into shape for working on, and with a little more favorable weather should be all right in a few days.

PACIFIC COAST LEAGUE FIRST TO OPEN SEASON

Opening Ceremonies at San Francisco and Los Angeles.

San Francisco, April 2.—With many new faces in their ranks the six teams of the Pacific Coast Baseball League opened the organization's eleventh season today.

On the local grounds Mayor Rolph pitched the first ball when San Francisco and Oakland met for seven games. The champion Portland team played at Los Angeles, and Sacramento and Vernon met in Sacramento.

Shiloh's Cure quickly cures all the most and best cures for coughs, colds, croup, whooping cough, and all the ailments of the throat and lungs.

ASYLUM CRICKETERS ELECT THEIR OFFICERS

Enthusiastic Meeting held yesterday, and Outlook is Bright for a Good Season.

An enthusiastic meeting of the Asylum Cricketer Club was held last night and plans for the coming season were discussed. The outlook is very bright for a successful year and a strong board of officers were elected as follows: Honorary presidents—Messrs. Hale, J. Labatt, Col. Gartsshore, Dr. Hadley Williams and Hon. C. S. Hyman.

MARTIN ROAD RACE HAS LARGE ENTRY LIST

Twenty-Five Toronto Runners Have Entered for Race.

St. Catharines, April 2.—The classic runners of Ontario, Western Canada and New York State will compete in the ten-mile Martin road race on Good Friday, according to the entry list, which has closed with 49, of which number 25 are from Toronto or represent Toronto clubs.

HORSE TALK

The roan gelding, James W. 2:17 1/2, is apt to make a serviceable trotter for Walter Cox, who picked this one up in Indiana.

The Dan Patch Farm is going to race a pace in the Chamber of Commerce and other big stakes down the line.

Among the first entries received by the various associations are those of Sir Thomas Lipton and King Ree, named by the Pastime stable of Cleveland. This pair will be in the 2:10 trot at the Blue Ribbon meeting.

Esther W. 2:13 1/4, bought by Murphy for Mr. Pardoe last summer, has been sent from the Murphy stable to the Cox establishment by the owner. This mare is very fast and is rated as one of the best of the half-mile track graduates.

Cleveland expects to have a street car line to the North Randall track this year, which will be a great convenience.

BRANTFORD ELECTS OFFICERS AND WILL HAVE GOOD SUPPORT

Manager Kane's Aggregation Will Have Strong Support Following Behind This Season—Will Meet Berlin in Opening Game—Peterboro Signs Another Pitcher.

Brantford, April 2.—When the Brantford team of the Canadian League takes the field on May 14 next against Berlin, it will have behind it the support of a representative body of men who will act as officers of the club, along with the president and owner, Mr. T. J. Nelson. The officers are announced today as follows:

Patrons—W. F. Cocksbutt, M. P. Lloyd, Harris, J. H. Fisher, M. P. W. S. Brewster, Harry Cocksbutt, John George S. Matthews, Paul Kreisman, E. Gould, J. E. Hammond, William Blacker, Frank Leering, G. P. Buck, Joseph Ham, Mayor Hartman, Hon. president—Fred W. Frank, Hon. vice-president—W. T. Mair and R. E. Ryerson.

President—T. J. Nelson. Vice-president—J. R. Howie. Secretary—H. L. Walsh. Travelling secretary—Duff Siem. Managing editor—R. J. Eacrett, R. Lyle, Fred Westbrook.

President Nelson leaves on Saturday for Boston and announces that it is his intention to bring back the contracts of two well pitchers, and a first baseman who can do a little of both.

Harrington or two minor changes, the league schedule has been completed. Messrs. Robinson and Walsh, finishing their task on Saturday. The draft is being submitted to each club, and as soon as it is accepted it will be passed out to the press for publication.

The only cloud that darkens the league horizon is the weather. The big league possibly that the minor leagues will be fortunate enough to escape. Even with the first exhibition game scheduled for Britania Park on April 27, there is a great deal of doubt as to the advisability of calling the players together so early as this.

St. Thomas, Hamilton, Brantford and London are scheduled to open up in season with games on May 14. Ottawa will open up on the 15th. Peterboro's opening ceremonies will take place on May 2. Berlin will not open until June 6. Mainly a fact that the new park will not be ready until that time.

ORTH SIGNS WITH GUELPH.

Guelph, April 2.—Al Orth, of Liverpool, N. Y., the last of the hold-outs of the Guelph Maple Leafs, has come into the city. Manager Needham has informed President W. M. Maitney that he has received Orth's contract. He was the highest-paid man on the Guelph team last year, and when he asked for a further increase he was promptly turned down. He has signified his intention of joining the team for the coming season. The club has also signed up Jack Shea,

of Palmerston, for the Leafs. Shea is a stranger in Guelph, having been given a try-out by Manager Murray, of the International League of reprobated memory. He says that he is in fine shape this year, and he is given a chance to make good, though he will have plenty of opposition.

EMPLIN LANDS ANOTHER. Peterboro manager, Manager Templin has added another twirler to his list, and now has five box artists on his payroll. He says that he is in fine shape this year, and he is given a chance to make good, though he will have plenty of opposition.

OTTAWA DOINGS. Ottawa Journal Editor, Ed. Hutchley, who played with Pennsylvania State College last season, and also played pro ball with the Ottawa Athletic League, wants a tryout with the locals. He is a second baseman, and has had a lot of experience in the minor leagues. He will probably be forwarded a contract. This man is wanted to play under an assumed name, as his parents object to his playing pro ball.

Ottawa Free Press Editor, Cy Ferry, the famous Detroit pitcher of a couple of seasons ago, is the latest to apply for the managerial office of the Ottawa baseball club. Cy has been scouting the last two years for Detroit, and has turned up some clever youngsters among them being First Baseman Gainer of the Tigers. The veteran is anxious to secure a manager's berth in a fast minor league, as he claims he is still too young to get out of the active part of the game. He is a brother of Jack Ferry, the young Pittsburgh twirler.

WILL AMALGAMATE WITH WESTERN UNIVERSITY TO GET STRONG TEAM.

The annual meeting of the London Rugby Football Club was held last night at the Tecumseh House. The meeting which was an enthusiastic one, dealt first with some minor details of last season, and then discussed plans for the coming year.

A representative from the Western University was present, and on behalf of the Athletic Association, made an offer to the London club that will most likely be accepted. The university is prepared to donate \$100 at least for the purpose of buying suits and other necessities for the players, so that those who wish to turn out and have not a suit may practice and not keep in the background, as has been the

PRE-SEASON BALL GAMES

ATHLETICS TAKE THE THIRD. Philadelphia, April 2.—The spring series between the local major league baseball teams now at the height of their season in favor of the Nationals, the Americans winning their first game today, 7 to 6. The world's champions landed hard on Brennan in the sixth inning but the Phillies passed them in the sixth only to lose out in the eighth. Both teams played a steady fielding game. Score: R. H. E. Americans..... 9 1 Nationals..... 6 11 Batteries—Gipe, Danforth and Egan and Lapp, Brennan, Masters and Graham. Umpires—Tigler and Connolly.

TIGERS LOSE THIS ONE. Birmingham, Ala., April 2.—Birmingham fell on Dubuc in the third and fourth innings today with so much violence that the Southern Leaguers were able to land the Tigers a decisive wallop. After making a fine start Jennings' pitcher went to pieces in the two frames referred to and in each of them three runners crossed the plate. When the Barons started to hit Detroit was three runs to the good, but before quiet was restored the visitors were on the tall-end of the count. As the Tigers continue score after the third and as Birmingham added a run its six later in the day, the final count read Birmingham 7, Detroit 3. Dubuc wild.

Dubuc was wild in both his bad innings and was forced to aim the ball over the plate to prevent wading men. When the Frenchman did get them over, so Jean Barons lammed with much power, so Jean got away. Three hits, including a double, with the bases filled, were bunched with a mained batsman in the third, and yielded passes, together with a couple of hits, produced a second trio of runs.

Willet, who pitched the last four innings, was much more effective than his predecessor. He was found for four hits, one of them a triple, but was steady in the ninth, and yielded but a single run.

NEWS OF THE TIGERS. Birmingham, Ala., April 2.—The Tigers left at 5:05 o'clock this evening for Chattanooga, where two games will be played. Wiley Taylor, the pitcher, who has been sent back to Austin, left today for home, where he will spend a few days prior to joining the Texas League champions.

Bill Duxon strained his ankle in making a slide today, and retired from the game. The ankle is considerably puffed up, but does not appear to be seriously hurt.

We've Got a Suit at 8 That Will Surprise You

Of course we're not hollering about it, but if you want a good solid suit at a right price, this one will answer. Plenty of patterns to choose from, and remember that we are just as particular about this one as we are about that fourteen-fifty special. We'll buy them back if you'll sell.

Suits Tailored-to-Order Having That English Effect for Men Who Like Something Exclusive.

OF COURSE, we make your suit any way you wish it, but we want to call your attention to the fact that anyone desiring a suit made in this latest style, which is at present all the rage in the large Canadian and American cities, can be certain of each individual suit having that distinction which marks the man who wears merchant-tailored clothes. We feel quite safe in guaranteeing satisfaction to a customer, because with our large range of select material to choose from, backed up by capable workmanship, there is no possibility of incurring his displeasure, even to the smallest detail.

Andrews' Toggery, Ltd. MERCHAND TAILORS UNION LABEL Cor. Dundas and Clarence Streets

GRIPSACK SI MENDS A BASEBALL BAT AND ITS LUCKY HIS BELFRY IS BONE

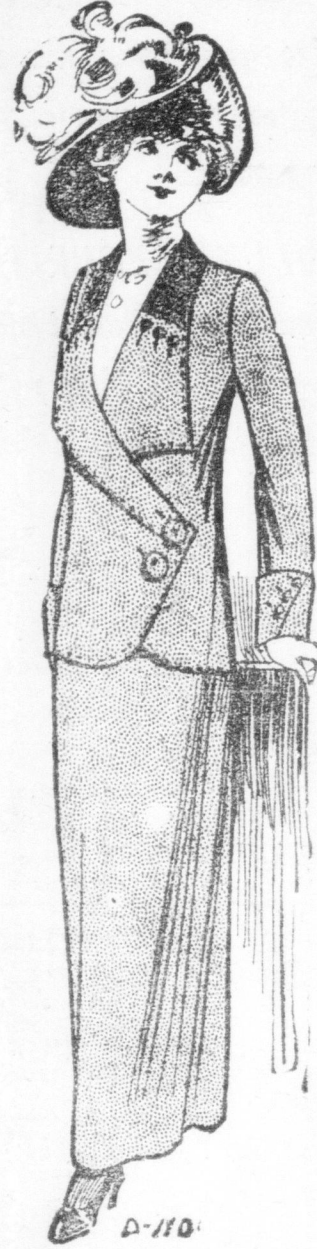

A series of comic panels showing a man with a baseball bat and a woman with glue. The man says 'YOU CAN CARRY MY NEW BAT OVER TO THE CLUB HOUSE FOR ME.' The woman replies 'DON'T DROP IT FOR IT'S MY BEST ONE I MADE IT MYSELF AND I'M GOING TO BAT 490 WITH IT.' The man says 'BEG YER PARDON, MISTER IT BUSTED!' The woman replies 'DON'T YOU WORRY MISTER I'LL FIX IT.' The man says 'THERE SHE IS MISTER, GOOD AS NEW!' The woman replies 'THAT'S GOOD GLUE!'

A MERCHANT in another town said that Semi-ready Tailoring was too good for his town. We don't believe it! We do know that nothing is too good for our customers, and that is why we always get the best the makers make. Trouble with these "too good" men lies with themselves; they don't understand the service and satisfaction in high quality clothes; they don't understand the uplift feeling in every man. We all want the "something better" that stands out from the crowd. Tom L. Haygarth 182 Dundas Street

The Metropolitan Skirt and Suit Mfg. Co.

You Will Be Well Dressed on Easter IF YOU WEAR A SUIT FROM THE METROPOLITAN SUIT CO.

JURY COULD NOT PLACE THE BLAME

But It Was Declared That Mrs. Dennis Died as Result of an Operation.

DEATH OF YOUNG WOMAN

Police Have Thus Far Been Baffled in Regard to Demise of Well-Known Character on Clarence Street

"That Mary Jane Dennis came to her death on March 20, 1912, at 99 Clarence street, in this city, from blood-poisoning, due to a criminal operation, not performed, in the opinion of the jury, by a medical practitioner, but by whom performed the jury is unable from the evidence to determine."

Such was the verdict returned last evening by the jury empanelled by Dr. Ferguson, coroner, to investigate the circumstances of the death of Mrs. V. F. Dennis, more commonly known as Miss Mammie Renchan. The evidence was taken at a two-hour session of the police station and while it appeared for a time that somewhat sensational developments might be expected, the evidence was considered insufficient to permit the jurors to place the responsibility on anyone.

The story of the girl's movements for eight or ten days previous to her death was not fully told, and while the evidence of Mrs. Frank Wisson, of 99 Clarence street, at which she resided, the girl died, and that of Charlie Wisson, her 13-year-old son, was somewhat conflicting, nothing definite as to the St. Thomas trip, said to have been made by Mrs. Dennis the week before her death, could be learned.

In Poor Health. The evidence given by the different witnesses was to the effect that Mrs. Dennis had been in somewhat poor health for a couple of weeks and appeared to be suffering from a sore cold about a week before her death she announced to her foster parents that she would go to St. Thomas to visit with a friend for a week. She did not say who that friend was, and no person appeared to know.

Mrs. Wisson's portion of the narrative then completed the testimony. She declared that she had done some sewing for the girl during the past two years, and that she had become rather intimately in this manner. She was, therefore, not surprised when Mrs. Dennis appeared at her home the Monday before her death, saying that she wanted a dress made for Easter. Mrs. Wisson closely as to this, and asked did it not appear remarkable to her that a girl should alight from a traction car and hustle off to have an Easter dress made before going to her own home only a short distance away.

Mother Was Sent For. Toward evening, said Mrs. Wisson, Mrs. Dennis continued to complain of headaches, and her mother was sent for. Mrs. Renchan procured some headache powders, and following the directions of Mrs. Wisson, asked also for a quantity of morphine. The drug was suggested by Mrs. Dennis herself, said Mrs. Wisson. However, the pains became more serious until Wednesday morning, when Mrs. Dennis suddenly expired on a couch in the parlor of the Wisson home.

Statement Conflicted. This statement conflicted with the testimony of Charlie Wisson, who had been kept with other witnesses in an adjoining room previous to his appearance. He stated that he did not know what day Mrs. Dennis came to his mother's house, but that he posted some letters and cards which she wrote at the kitchen table on Saturday afternoon.

He attended school regularly, he said, and he had gone to the mail box on a day when there was no school—Saturday. He stated that he had seen the Irish pictures on the postcards and identified one produced by the crown attorney. This had been mailed to Miss Dora Leonard, of Ingersoll, foster cousin of Mrs. Dennis, and was postmarked London, Saturday, March 16, Mrs. Dennis had been visiting his mother for about two days before writing the cards, said the boy.

Mrs. Wisson was recalled and deposed that she was mistaken, and that the girl only appeared at her home on Monday, March 18, after spending a week in St. Thomas.

The Mother Testifies. Mrs. Margaret Renchan, foster-mother of the girl, testified that she had been in poor health for some time, and was supposed to be suffering from a bad cold. She had been under the care of Dr. McNeill. The girl a week before her death stated that she was going to St. Thomas, and that she would visit with a friend there for a few days. Witness on returning to her home on Monday asked if Mrs. Dennis had come back from St. Thomas, and was told by Mrs. Renchan that she had.

Woman Appeared Ill. Henry Bourne, of Chelsea Green, an agent and collector for a local life insurance company, the next witness, swore that he had seen Mrs. Dennis at the home of Mrs. Wisson on Monday, March 18. He remarked to Mrs. Dennis that she did not look well, and she replied that she had a nasty headache.

Dr. Phipps testified that he was called to the Wisson home immediately after the death, and the same afternoon, assisted by Dr. Hogg, conducted an autopsy.

The post-mortem showed that death was due to septic poisoning, resulting from an operation performed at least eight days before. The operation could not possibly have been performed by the girl herself, and the body showed that the work was most probably that of a non-professional.

Dr. Hogg corroborated the testimony of Dr. Phipps, and expressed his concurrence with his colleague's conclusions.

Pen-Angle Union Suits Do Delight Those Who Wear Them

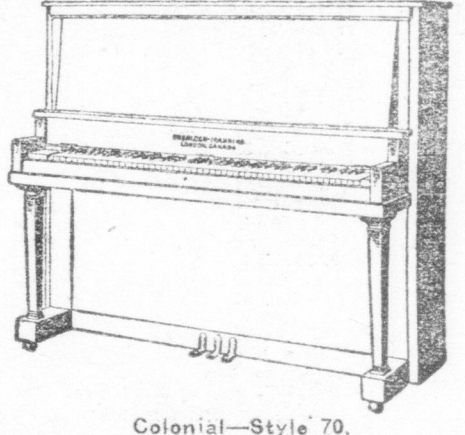

You will feel so comfortably clad in your first Pen-Angle Union Suit... the underwear that fits and does not lose its shape. Nor has the wash-tub any terrors for this knit-to-fit and warranted-not-to-shrink underwear. It represents the best investment in intimate garments your money can find. For it retains to the end the quality that makes it sell in the first place... and that is more than you can say of ordinary underwear that has been costing you the same price. You will be satisfied with

Sherlock-Manning Piano and Organ Co. LONDON, CANADA.

SECOND READING FOR POWER BILL

Two Much Power Has Been Given Commission, Says Mr. Rowell.

GAMEY MADE MAGISTRATE

Given Judicial Powers While Conducting Expedition Into the Wilds of Keewatin.

Toronto, April 3.—In moving the second reading of his bill to amend the power commission act last night in the Legislature, Hon. Adam Beck pointed out that the commission was now supplying power from Niagara Falls to nine cities, fourteen towns, and six villages. During the year contracts had been entered into with seven municipalities, and thirty other contracts were now pending.

One of the chief obstacles to the extension of the work of the commission was found in the existence of privately owned plants. In some cases, one of these would acquire the business of its rival, and exclude the municipality from enjoying the benefit of the commission's system. In other cases good water powers were available, controlled by the Government or the commission.

DEATH OF COL. WHITE

Former Deputy P. G. and Prominent in Military Affairs. Ottawa, April 3.—Lieut.-Col. William White, C.M.G., one of Ottawa's respected citizens, died yesterday. He entered the Dominion civil service as chief clerk in the money order branch of the Postoffice Department, and continued in that office until January, 1881, when his work earned him promotion to the head of the department. On Jan. 1, 1888, he succeeded Mr. Griffin, G.M.C., as deputy postmaster-general of Canada. The office he held until June, 1897, when he retired from the department. In 1880 he was included in the royal commission appointed to inquire into the organization of the civil service, and in 1897 he was appointed Canadian delegate to the postal union at Washington. He entered the Third Battalion of Toronto militia as a lieutenant, and in 1862 became a captain in the Civil Service Regiment, seeing active service this same year. He joined the Governor-General's Foot Guards on its organization in 1872, becoming senior major of that regiment. He organized the Forty-third D. C. O. R., then called the Ottawa and Carleton Rifles, and was the first colonel of that body. He retained that rank after his retirement in 1888. He commanded the Canadian rifle team which went to Wimbledon in 1884, and won the Kolapore Cup, and was also chairman of the executive committee of the Dominion Rifle Association from 1899 to 1896.

MR. ROGERS MADE MINISTER OF MINES

Several Administrative Changes Announced at the Dominion Capital.

THE STATISTICS BUREAU

Taken From Agriculture Department and Attached to Trades and Commerce.

Ottawa, April 3.—Important administrative changes were made by the cabinet at a brief council meeting held yesterday afternoon, the first since the reorganization. No less than three steps were taken towards the reorganization of departments. The department of mines, which since its establishment has been under the control of the Minister of Inland Revenue, has been placed under the control of Mr. Rogers, who adds to his present titles, minister of the interior and superintendent-general of Indian affairs, that of minister of mines. The census statistics and the registration of statistics long have been part of the department of agriculture. These services now go to trade and commerce. Dr. A. G. Doughty, the archivist, whose department has recently been placed under the Secretary of State, is given the rank and salary of a deputy minister.

Overfatness Condemned

Fat, or even fattish, is modern years who want to be in the mode this year must understand that the demand is for lines, not curves, and govern themselves accordingly. That means OFF with the fat. It has become a duty. Many are trying exercise or dieting, but it is certain they will find these methods too slow, and undesirable. The cheapest and safest way to get in form for the Director's means is by means of Marmola Prescription Tablets. Any druggist (or the Marmola Company, 1191 Farmer Building, Detroit, Mich.) will give you a large-sized case of these elegant little fat reducers, containing a good, generous supply, for seventy-five cents, and even this quantity should be enough to make a decided impression on your excess fat. Many have lost as much as a pound a day. These Marmola Prescription Tablets may be used with impunity and likewise perfect confidence, for, being made strictly in accordance with the famous Marmola Prescription, they are, of course, quite harmless. They are rather beneficial than otherwise, in fact, never disturbing the stomach or causing a wrinkling of the flesh.

that under a high-power microscope resemble minute animals. The excitement goes on developing, and after a layer of cells, until it more or less overpreads the potato as a dark, cancerous scab, and renders it unfit for food. The canker rubs or breaks off in handling, and leaves the infection in the soil. The potato is not fit enough for marketing, might be detected by a dark speck in the eye.

Ontario Liquor License Act

LICENSE DISTRICT OF LONDON. Notice is hereby given that the Board of License Commissioners for the License District of London will meet at 399 Richmond street, in the City of London, on Wednesday, the 11th day of April next, at 4 o'clock in the afternoon, to consider the application for licenses for the ensuing year. Any person desiring to apply for a license must be lodged with the inspector four days before the said meeting.

VERY GRAVE DANGERS

Continued From Page One. "If it really is a very serious thing," asked the reporter, "How does it compare with the potato diseases we have now, such as scab and rot?" "If the European reports are not exaggerated," declared Mr. Gussard, "it would say it is more serious than any of the four or five fungus diseases of the potato that are here now. Judging from its method of propagation, it probably cannot run through a field or spread like the rapidity of the soft rot—phythothora infestans—the disease that caused the famine in Ireland in 1848, but it is less subject to climatic conditions, and, under the act, hundreds of thousands of acres of potatoes, other, accessible to spraying, I have read that its sporangia are not destroyed by passing through the intestines of animals; that it remains in the soil for many years, and that young tubers have been inoculated with material kept dry for two or three years.

WORKING ON REPLY TO MERCHANT'S REPORT

Valumnous Statement To Be Issued by French-Canadian Association.

[Canadian Press.] Ottawa, April 3.—The French-Canadian Educational Association of Ontario is still working on its reply to Dr. Merchant's report on bilingual schools. Several meetings of the association, attended by members not only from Ontario but Quebec as well, have been held, and more will take place. President G. S. O. Boudreau stated today that the reply was "half ready."

Special services are being held in the Colborne Street Methodist Church all this week and are being well attended. At last night's service Rev. W. H. Harvey, of South London, spoke on "Being Crucified With Christ."

Lenten Services.
At last night's meeting of the series of Lenten services being held in St. James' Anglican Church, Rev. Principal Waller chose for his text, "And I am lifted up, will draw all men unto me."

PUBLICITY MEN PLAN EDUCATIVE CAMPAIGN

A Canadian Association Was Discussed at Port Arthur Meeting.

Port William, April 3.—The first step has been taken towards the formation of what will probably be called the Canadian Association of Publicity Executives. The association will be composed of the various publicity agents, industrial commissioners, secretaries of boards of trade and any others in like positions in Canada. Those who are deeply interested in the project met yesterday in Port Arthur to discuss the best means of organizing the body and conducting an educative campaign. H. W. Baker, of Ottawa, and formerly of Port William, was appointed secretary pro tem, and a provisional executive was elected, consisting of the following:

A. S. Barnstead, industrial commissioner of Halifax, N. S.; W. E. Anderson, secretary of the board of trade, St. John, N. B.; T. L. Brown, secretary of the board of trade of Hamilton, Ont.; J. Grant Henderson, industrial commissioner of London, Ont.; H. G. Gill and a number of western publicity commissioners.

The first campaign which it is expected that the association will take up will be the unbusinesslike and reckless granting of bonuses to commercial organizations. The various municipalities would not do away altogether with this system of attracting industries, but they would be quite content if the grants were limited to autos and excursions. They also desire to do away with the bidding which has been done so much to come to a better understanding with each other and to educate the people to the knowledge that no industry is fitted for any certain thing, and that to be a success every industry must have a market.

They will deal with town planning, city beautifying, the forms of civic government, the question of municipal taxation and other problems which are being met with in various ways by cities all over the continent.

It is hoped that before the end of the year a great convention will be called.

Stops a Cough IN ONE NIGHT

CATARH AND WEAK THROAT NOW CURED WITHOUT SWALLOWING DANGEROUS DRUGS.

By Breathing the Soothing, Healing Vapor of Catarrhazone All Throat and Catarrhal Trouble is Quickly Cured.

It's simply wonderful to think how quickly a bad throat or catarrh can be cured with Catarrhazone. Its rich balsamic vapor is carried along with the breath into the innermost recesses of the lungs, bronchial tubes, and chest, making it impossible for the germ of any disease to live. This soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old-standing coughs are removed.

"I suffered from an irritable, weak throat for three years. I had a severe cough, pain over the eyes, constant bad taste in my mouth, and noises in my ears. It was chronic catarrh. Nothing gave permanent relief till I used Catarrhazone. In one hour it relieved, and in a few weeks drove all trace of catarrh from my system."

"TIOUHEU'S SALMON."
"No. 6 Lopez street, Kingston, Ja."
REMEMBER THIS—You breathe Catarrhazone and it will cure any throat, chest or bronchial cold. Large size, guaranteed, costs \$1.00, and lasts two months; smaller sizes, 25c. and 50c. Beware of imitations and insist on "CATARRHAZONE" only. By mail from the Catarrhazone Co., Buffalo, N.Y., and Kingston, Ont.

Your Last Chance This Week for the Grocery Reductions.

This store will be closed Friday and Saturday, but will reopen on Monday.

Thursday will be a busy day so come early. The prices are so low it will pay you to buy your supply for over Sunday.

ENOUGH TO SAVE LIVES OF 40 STARVING PEOPLE

Mr. J. K. H. Pope Acknowledges Donations to the Chinese Famine Fund.

Mr. J. K. H. Pope acknowledges the following donations to the Chinese famine fund:

Amounts previously acknowledged	\$113 50
Miss D.	5 00
P. Cooper	2 00
Rev. H. A. Graham	3 00
Two Lambeth friends	2 00
James Dunlop	3 00
Total	\$128 50

Mr. Pope says: "It is the intention to cable over at once what money we have, which is sufficient to save the lives of more than 40 people. Further sums will be sent in the same way next week. We should have several hundreds by that time."

WHY THE BANK CLERK?
[Toronto Star.]
"Wanted—A lady experienced in confectionery. Any bank clerk can supply a few names."

THE BAR-ROOM.
[The Presbyterian.]
The bar-room is recognized as a nuisance in the communities where it exists. It is the training academy for the drinking habit, the busy workshop where drunkards are produced. The bar-room should be utterly abolished.

Taxi Cabs and Carriages for every occasion. Hueston Liveryes.

'Let's All Go to Idaho'

Thousands of people are hurrying there each month. The land is cheap, and the land is good. Money is easily made, and life is sweet. The struggle and strain of life elsewhere are things that they laugh about out there.

Parties are starting every day. Come and get acquainted with opportunity. Pluck up your courage and make the start. They raise as high as 100 bushels of wheat to the acre in Idaho, and 600 bushels of potatoes. They don't trust to rain—they have beaten Nature. They have ten thousand miles of ditches, and over two million acres of farms are irrigated.

On April 20 the State Land Board of Idaho will sell at public auction about 5,000 acres of State School Land, in 40-acre tracts. One purchaser, however, cannot buy more than 160 acres.

The land is south of Snake River, surrounding the town of Burley, in Goose Neck Valley, and the soil is reported to be the richest in the state. It is watered by the Middlefork Government Project.

A minimum price of \$10 per acre has been fixed. Land selling for \$25 per acre or less, one-tenth of a purchase price, plus first year's interest, balance in 18 annual installments at 6%. If the price is more than \$25 per acre, two tenths a purchase price, plus first year's interest, balance in 16 annual installments at 6%.

The Amalgamated Sugar Co. announced publicly, February 29, 1912, the construction of a sugar factory at Burley, for completion August 31, 1912. Purchasers of this property are thus participating in increased value.

Ho, for Idaho!

REQUEST WAS BOOSTED ALONG

Application of Male Principals for More Money Sent to the Finance Committee.

AN APPOINTMENT MADE

Miss Macpherson Named Supervisor of Domestic Science in the Public Schools.

At a meeting of the board of education and the finance committee of the city council yesterday it was arranged that the question of salaries of the officials holding office both with the board and the city will be dealt with at a meeting in the future of the finance committee of the council and the audit committee of the board.

After some discussion, Miss Macpherson, of the Collegiate staff, was appointed supervisor of the domestic science classes in the public schools.

The request of the male assistant principals of the public schools for a raise of \$100 to their maximum salary was sent to the finance committee.

John Clements, who is the general repair man for the city schools, had his salary raised from \$800 to \$1,000, and will be known in the future as superintendent of buildings.

Trustee Inkster wanted to know the reason that the manual training room in Chesley avenue school had been closed on account of being in the basement and the manual training rooms at Lorne avenue and Alexandra Schools, which are also in the basement of those schools, were closed.

Mr. Edwards stated that unless the basements were well adapted for the purpose they could not be used. There was a big difference in the basements of the schools mentioned.

Collegiate Report.

The Collegiate Institute attendance for the month was reported by Principal McCutcheon. It was:

On Roll. Average.		
First year, general course.	231	232
Second year, gen'l course.	146	128
Middle school	214	168
Upper school	64	60
First year, com'l course.	65	59
Second year, com'l course.	34	32
Total	754	699

PROTEST OF WOMEN TO THE LEGISLATORS

Toronto Suffrage Association Demanded Enfranchisement For Canadian Women.

Toronto, April 3.—The letter of protest which the Toronto Suffrage Association recently sent to each member of the Legislature is as follows:

Chinese women were recently granted the parliamentary franchise on the same terms as men.

Canadian women are not considered by their men worthy of any such regard.

Three measures dealing with the enfranchisement of women were brought before the Ontario House of Assembly, and disposed of negatively within a few hours. One of these measures proposed to remove the disqualification descending upon a woman on

marriage to exercise the municipal vote pertaining to property on which she is herself assessed; the second asked for the parliamentary franchise for those women who are already municipal voters, and the third for woman suffrage on the same terms as now apply to men.

Our legislators condemned the first on technical grounds, the second because it was not democratic enough, and the third because it was too democratic. What form of woman suffrage it may be asked, will appear acceptable or reasonable to them? It is, of course, quite compatible with the principles of fair-play and democracy to compel women to pay their share of the salaries of the lawmakers and of the expenses of government, but it is apparently impossible to discover any acceptable way in which they may be allowed to have a voice in the election of the former and in the working of the latter.

Let our lawmakers turn to China for a better elucidation of the true meaning of democracy and of fair play.

The Premier desires to see the question a "live issue" in the province before he is prepared to deal with it.

How are live issues brought about? There is no better way of creating one than by persistent indifference to or deliberate disregard of the just claims of a portion of the community.

It is surprising how long a subservient class will submit to such treatment with apparent resignation. But sooner or later comes the moment when a realization of the true nature of the situation turns resignation into revolt, and then we see those responsible for its cause raise up their hands in plous horror at the inevitable results of their own policy.

There is a rapidly-growing feeling among the women of Ontario that their interests are being trifled with in an intolerable manner, and that they have a better claim to a share in the government of their own province than the Italian, Ruthenian and other foreigners, to whom the Government so readily extend this privilege.

Motor Club Meeting.
The London and Western Motor Club is meeting this afternoon in the board of trade rooms, for the purpose of considering the advisability of securing club rooms. The matters of emblems, pennants, etc., will come up, as will, too, the appointment of a road committee.

Beyond Question

Some of the every-day beverages are harmful to heart, nerves and digestion.

Mothers refuse tea and coffee to their children, yet, by strange inconsistency, use these beverages themselves.

Sooner or later, according to the natural strength of the individual, ill results are sure to follow.

All the family can drink

POSTUM

with certainty of benefit.

The change from tea or coffee to Postum has brought health and comfort to thousands; and the delightful flavor of Postum (very like that of good Java), makes the change easy and pleasant.

LONDON'S HEALTH GOOD, SAYS DR. HUTCHINSON

Milk Supply Excellent—Dumps Are Not Considered a Menace.

That London is in excellent health, and that every citizen has his share of the report of Medical Health Officer Dr. Hutchinson, which was submitted to the board of health on Tuesday afternoon.

Samples of the city water obtained from the various sources of supply were analyzed and are all perfectly pure.

The Government regulations demand that milk sold by dealers must have a butterfat average of at least 300. Fifty samples have been tested here during the past couple of weeks, and show an average better than 371, some of the milk showing as high as 390.

Only four producers selling milk in the city failed to reach the standard, and these were cut off immediately. Laundries, butcher shops, bakeries and other places which might influence the health of the people, were visited, and the majority were found to be in excellent condition.

A Detailed Statement.
The board asked for a detailed statement of the results of the tests of the milk supply, and this will be published, together with the names of the dealers, for the benefit of the general public. The question of whether or not the city could be made liable should any of the dealers commence action for damages, was raised, but it was considered safe to proceed.

The dump at the corner of Fall Mall and Waterloo streets, which has caused some complaint among the residents of that section, was inspected by the M. H. O., and found to contain nothing offensive, with the exception of a quantity of wet paper. Dumps on Wellington street north, opposite An-thistle's pit; at the corner of Victoria and Colborne streets, at the foot of Rectory street, and at Wharnciffe road and the river in South London, were considered satisfactory.

QUESTIONS ANSWERED.
EKFRID.—Sunday school is held in the public school. The Sunday school wants to purchase an organ, and have asked the trustees of school section to help with same. Have the trustees the power to vote money to buy one jointly with the Sunday school? The understanding being that the teachers and pupils of public school may have use of same, and when Sunday school is closed or moved from school house, the organ will revert to school section.

Answer—No; but the trustees might purchase the organ for the school section, and allow the Sunday school to use it, with or without a grant to the section by the Sunday school.

RURAL SCHOOL.—If one of trustees

of a rural school section resigns from any cause, have the remainder of the board power to elect his successor to fill out the remainder of his term?

Answer—No. A meeting of the ratepayers must be called to elect the successor to hold office for the unexpired term of three years, for which the trustee who resigned was elected.

COULD NOT SWEEP FLOOR

Was So Terribly Afflicted With Lame Back.

It is hard to do housework with a weak and aching back, and no woman can be strong and healthy unless the kidneys are well.

The weak, lame and aching back comes from sick kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble. Mrs. Harvey W. Brownell, Northport, N.S., writes:—"I now take pleasure in writing you, stating the benefit I received by using Doan's Kidney Pills. About a year ago I was terribly afflicted with lame back, and was so bad at times I could not sweep my own floor. While looking through your B.B.B. Almanac I saw Doan's Kidney Pills were a great remedy, so thought I would try a box or two. After using five boxes I was completely cured, and I am very thankful to have found so speedy a cure."

Doan's Kidney Pills are 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont. In ordering direct specify "Doan's."
