To Assist the Needy-Campaign Our People Are Reading.

Long ago in the land of the Pharoas, when the King dreamed of the seven beautiful fat kine that came forth from the river and of the seven the first, it required a seer no less wise than Joseph to interpret the of the sleeper when he dreamed that blinds. be beheld seven full ears of corn plethoric with nutriment and seven up beside them, devoured the first delightful growth, leaving all the country about bare and desolate. Since that the world has grown wiser, history inevitably and infallibly repeats itself and we know that when the world goes well with us either individually or collectively, when the fat and beautiful kine wander about on all sides, when the full ears shake their glistening, golden tassels in our faces, that another and far different state is sure to ensue, that as surely as night follows day, so surely will the days of the black harvest and lean cattle unerringly follow. Despite the centuries of warning, we all too often neglect to avail ourselves of the harvest time by preparing for the thin days of distress, sickness and want, which must unfailingly come.

In Canada every summer may be

said to be a time in which it is

a duty to think of the winter as close at hand, this with particular regard to those whom circumstances or inability have so placed as to make it impossible for them to think or act for themselves. In this class there is always a certain number of the native population, and a by far greater number of others who come to us from distant shores. Of this latter class in the winter of last year, we had hundreds who, unable to help themselves, were forced to depend on others, and these others, by whom we mean the general Canadian public, met the demand made upon them heroically, yet the task of going to the assistance of their distressed brethren, was made much more burdensome than it might have been, if only warning had been heeded, if they had begun early to prepare for the amongst his parishioners by a cerexigencies of the winter season. Commencing his speech in very graceful English, Canada's representative suggested that the marvellous enthusiasm which the Congress had already evoked must remind the Papal Legate of Rome's most glorious days. He spoke for the Province of Quebec, perhaps the most Catholic land under the British Empire. He referred to the Prince of Wales' recent visit and the magnificent display in the Metropolitan Cathedral on the occasion of the Tercentenary celebrations which marked for them the coming of the faith, and then, asking permission to lapse into his mother tongue, went on to speak of the sentiments of jubilation, gratitude, anh hope which filled the soul of every unit of that vast gathering. JIMMIE'S PLAN.

When I grow up I'm going to kee A home for little boys, Where they can frolic all day long And no one mind the noise. The stairs shall have long banisters Where all of them can slide, And nothing that they want to do Shall ever be denied.

I'll have the pantry shelves just crammed

With things they like to eat-With licorice and gingerbread And cookjes, crisp and sweet; And mother, when she wishes to, May come and spend the day; But nursery maids like Jane, I think,

Will have to stay away. I've heard of homes for orphans And the deaf and dumb and blind, And homes for nice old ladies Are plenty, you will find;

But all of these are places where You mustn't make a noise-So when I grow to be a man I'll build a home for boys. -Grace Stone Field.

A BOY TO BE TRUSTED.

"I once visited," said a gentlemen, "a large school. At recess a little fellow came up and spoke to the master; and as he turned to go down the platform the master said: 'There is a boy I can trust; he never failed me.' I followed him with my eye and looked at him when he took his seat at recess. He had a fine, open, manly face. I thought a great deal about the master's remark. What a character had that little boy earned! He already had got what would be worth more to him than a fortune. Its would be a passport to the best offices in the city, and, what is better, the confidence of the whole community. I wonder if the boys know how soon an opinion of them is formed by older people. Every boy in the neighborhood is known, and opinions formed of him; he has a character joy it, too." either favorable or unfavorable. boy of whom his master can say, I ed into her mind—the kind of thought can trust him, he never failed me, that comes, not when one is thinking will never want employment. Such advertising as they receive is purely local and in ninety-nine cases out of a hundred, would never go to the Catholic paper. John Jones, the grocer, lives within the confine of the parish, and the calendar is an excellent medium as far as his particular line of business is concerned. It is so with the rest. The Catholic paper would never, in the ordinary course of affairs, receive any of this advertising patronage. Lastly, the calendar is constantly doing a certain amount of good. It is instilling a certain amount of Catholic truth into the hearts and minds of all who read it, and in many other ways contributes to the spiritual and temporal well-being of the parish taken as a whole.

This is a matter which is well worth looking into. If the same energy which is put into the parish calendar were put into the distribution of Catholic papers, there might be a different story to tell as far as their general circulation is concerned. Believing, as I do, in the sanctity and consecration of Pius X., I take great pleasure in presenting a tribute to the worth of the man who is the spiritual father of 300 millions of people, and withal one of the most humble of God's servants, who is known the world over for his simple habits of life. I did that for two years at college, and even after I left, and now here comes her birthday again, and I am going to mail that little frame to-night to New York, so that it will arrive on the

of 1812 to learn that Mother Antoinette's father, when a youth, ran away from college to fight at Chrysler's Farm; that her uncle, Capt. Brock, fell with his commanding officer at Queenston Heights and is buried there with him, and that her uncle, Simon Fraser, who took possession of British Columbia and saved it for the crown, was the discoverer of the Fraser river which bears his name. By family alliances she was connected with Col. John Macdonell of Scothouse, better known by his solviquet of "Spanish John," whose martial achievements are renowned in story, also with Capt. Mrs. Ryan Plans New Gift

Mrs. Thomas Fortune Ryan, who already is famous for her generosity to the Catholic Church in the United States, is contemplating another magnificant gift to Georgetown University. This college is the alma mater of Mrs. Ryan's sons, and she is devoted to its interests. She has built a fine hall, called Ryan Hall, which serves as the college refectory, and she has given magnificent china and silver with which to furnish it. Recently she expressed the wish to have the college entrance more in keeping with the dignity and standing of the institution. At present two streets filled with squalid brick tenements crowd to the very door of the campus. She will purchase these two centre squares, transform them into a park and place a handsome iron railing with a massive gate, a copy of some famous gates in Florence, to guard the entrance.

SOMETHING BETTER THAN MONEY.

You do not want your life to be a cipher. You want to help some one, and you do not know how. You have very little money to give, pervery little of anything.

But you have more than you think. You have the possibility of the most valuable equipment that any man ples and obedience of duty. If the was Frakiel Here was Frakiel Here was Frakiel Here was Frakiel ever heard. Here was Ezekiel. He was a youth just starting in the noblest of all callings, that of a preacher. Yet God held him back until he had cultivated what you may cultivate. He had made all intellectual excellent state of the soul; for it excellent state of the soul; for it excellent state of the soul; for it He had absorbed the message that he was to deliver to those poor captives down there by the waters of Babylon. In his Oriental manner of expressing it, he had "eaten" the roll on which that message was written. Still God held him Then, but not till then, he was prepared for his work.

And each one of these trouble-tossed men and women is silently pleading for some word of courage and hope." That is the "secret," if there is any secret. He sits where they sit.

And this same secret of influence runs all through life. Whether our pulpit is in the church or the work shop, the school house of the home, we can never really help others until, by the power of just such sympathy as the Master Himself, we have put ourselves in their place. Thus, one teacher in the school is more successful than the other. They may have the same equipment and often have. But the first has learned to become in spirit a little child, to
