

ALLIES ARE NOT BEGGING, BUT DICTATING TERMS OF WAR LOAN; REFUSAL TO MEET THESE TERMS WILL MEAN EXPORT LOSSES

Consternation Evident in Yankee Banking Circles Over This Unexpected Aspect on Matters; Commission Awakened to Fact That Allies Hold Trump Hand in This Case.

By Special Wire to the Courier.

New York, Sept. 14.—The report that the Anglo-French financial commission, contemplates borrowing a billion dollars here without collateral of any sort and solely on government notes of Great Britain and France overshadowed all other topics in the financial section to-day.

CURTAINMENT WILL RESULT.

In case the commission should fail in its plan, it was said, wholesale curtailment of American exports would ensue. There is nothing, it was said, that Great Britain and France buy here that they could not obtain elsewhere with the single exception of munitions of war. These they were prepared to pay for in gold if necessary. The whittling they will need for the next year, it was said, could be bought in Canada, Argentina, Aus-

tralia, India and Russia, should the Dardanelles be forced by next March. Irrespective of the Russian supply the visible export supplies of wheat in Canada, Australia and India were placed at \$25,000,000, or sufficient to last till March.

Cotton is already held in large quantities in Great Britain, it was said, and by stinting the supply could be made to last till the great fields of Egypt, now idle and untilled, could be made to produce sufficient to take the place of what otherwise would be bought from the southern states.

Meats would be bought to a large extent, it was said, from the Argentine and manufactured goods from the remaining neutral nations of Europe. American exports would dwindle to the leanest figures of the leanest years.

CANADA WILL NOW ADD THE INCREASE OF GUNS AND MUNITIONS

Heads of Canadian Industrial and Finance in Important Conference With Militia Council.

Ottawa, Sept. 14.—Steps were taken by the Government yesterday to organize an effective and energetic coalition of the representatives of industry and finance with the Militia Department towards the production in Canadian factories of war munitions in the largest possible quantities and with the greatest possible expedition. The captains and kings of finance and industry to the number of a hundred or more were summoned to the capital by Sir Robert Borden and Sir Sam Hughes for a conference as to how best to finance and produce the munitions of war.

Yesterday's conference was with a view to taking counsel together as to the possibilities of manufacture, the methods of financing, etc. The character, but the discussion emphasized the fact that through adequate co-operation and organization Canada can and will do much more towards meeting the most urgent needs of the allies at the present time

namely, the furnishing of the engines of war, including the manufacture of field guns.

SUB-COMMITTEE DELIBERATE

A sub-committee of those attending the conference yesterday was appointed, under the Chairmanship of Sir John Gibson, and this committee met for three hours in the afternoon and carefully considered the whole situation. As a result a report will be presented a little later to the Minister of Militia, embodying suggestions as to organization and methods of distributing and filling orders, and in regard to proposals for the manufacture of ordnance of various kinds. The sub-committee adjourned, to meet again at the call of the chairman, and it will constitute a permanent advisory body to the government.

The conference, which was held in the office of the Militia Council, was presided over by Sir Sam Hughes, who gave to those present a full and frank statement of the needs and opportunities of the situation. Sir Robert Borden also spoke at some length, giving the conclusions reached from his conferences with the War Office and Munitions Department in London.

THOSE PRESENT

The personnel of the conference included the following: Hon. Major-General Sir Sam Hughes, President; Sir Robert Borden; Brigadier Gen-

RUSSIAN ARMIES HOLDING WITH STEADY POWER

Nothing Like a Strategic Advantage to Accrue to the Invader.

By Special Wire to the Courier.

London, Sept. 14.—"Since General Pvoniloff, minister of war, reviewed the position of the Russian armies a fortnight ago," telegraphs the Petrograd correspondent of the Times, "no single event has occurred which can be construed as an advantage to the invaders. Nowhere have they inflicted either a tactical or strategic blow calculated to alter the military situation in their favor. General Polivanoff is satisfied the increase in supplies of rifles and ammunition is being well maintained, and that the Russian armies are in the position strong enough to view the future with confidence.

HUN SUBMARINE IS TORPEDOED

French Torpedo Boat Accounts for This One Near Tenedos.

By Special Wire to the Courier.

PARIS, Sept. 14, 4.55 a.m.—A German submarine has been torpedoed and sunk by a French torpedo boat patrol, between Mytilene and Tenedos, says an Athens despatch to the Journal.

Further Insurrection.

Paris, Sept. 14.—5 a.m.—A new insurrectionary movement has broken out not only in Lisbon, but in the principal provincial cities of Portugal, says a despatch to the Journal from Madrid. Despatches from the Portuguese frontier on September 12 reported an insurrectionary movement at Brada and Caxias. Martial law was proclaimed in northern Portugal on August 29 to suppress a monarchical movement.

ADMIRAL SCOTT'S APPOINTMENT IS VERY PLEASING

British Press Thinks Him the Right Man in the Right Place This Time.

By Special Wire to the Courier.

London, Sept. 14.—The appointment of Admiral Sir Percy M. Scott, to take charge of the gunnery defenses of London against attacks by enemy aircraft, is hailed with satisfaction by press and public. He is considered an expert on all questions connected with gunnery. Upon this point the naval correspondent of The Times says, his inventive genius and capacity for improvising gunnery material and appliances often have been shown to the great benefit of the state.

In an editorial on his appointment, The Chronicle says:

"We have been fortunate thus far in escaping any important damage from a military point of view in the recent Zeppelin raids, but the man in the street, without wishing to murmur unduly against those in authority is inclined to ask why Zeppelins have been equally fortunate. Of course only a very special gun has the requisite vertical range, but such a gun exists and there is no reason why we should not have enough of them."

AUTHORS OF PRO-GERMAN BOOK EXPELLED

Swedish Socialists Get Short Shift After Discovery.

By Special Wire to the Courier.

Stockholm, via London, Sept. 14.—Professor Gustave Steffen, Oloffe Jerre, and Engv. Larssen, three prominent members of the Socialist party were to-day expelled from the party by the unanimous vote of the Stockholm Socialist commune, on the ground that they were the authors of the so-called war book.

This war book, which was published two months ago, strongly advocated Sweden's participation in the war on the side of Germany and has been the most widely discussed publication in Sweden since the beginning of the war. It presented an elaborate argument showing that for historical reasons, Sweden's duty is to fight against Russia.

Although known that the book was written by five men, the names were not given and the anonymity caused endless speculation. The discovery that part of the next was the product of members of the Socialist party, which favors the entente powers, has caused a sensation.

It is expected that the resolution expelling the authors will be confirmed by the committee of the whole party at a meeting next week.

Reports to Pope.

By Special Wire to the Courier.

Rome, Sept. 14.—Pope Benedict, according to the Correspondence, has received Monsignor Kojunian, titular archbishop of Chalcoecia, and representative of the Armenian Catholics in Rome, and requested him to prepare a detailed report on the persecutions which it is asserted the Armenians have been subjected to by the Turkish authorities.

Critical Stage.

London, Sept. 14.—A despatch to The Times from Sofia says: "The relations of Roumania with the Central powers have reached a critical stage. The German Government in a recent note, demanded permission for the passage of Austro-German troops through Roumanian territory and the fulfillment by Roumania of an undertaking to supply benzene and other supplies to a value of forty million dollars. Over two thousand German wagons laden with war material are waiting on the Roumanian frontier."

Reported in Flames.

By Special Wire to the Courier.

London, Sept. 14.—6.55 p.m.—The town of Phocaea, Asia Minor, 25 miles northwest of Smyrna is reported to be in flames, according to a Reuter despatch from Athens, which says it is inferred that the Turks are destroying coast towns and retiring into the interior in expectation of the fall of the Dardanelles.

BRITISH LOSSES TREMENDOUS: AN APPALLING TOTAL

Official Notice in House of Commons That 381,983 Total of Casualties.

By Special Wire to the Courier.

London, Sept. 14.—Official announcement was made to-day in the House of Commons that the total of British casualties up to Aug. 21st was 381,983 officers and men killed, wounded or missing.

The losses of the British army during the summer were somewhat smaller than in April and May. The last previous statement of the total of British casualties was made by Premier Asquith on June 9. It gave a total of 238,069 up to May. The losses from that time up to August 21 are therefore shown to have been 123,914, a daily average of about 1,500. In the two months before the end of May, the losses were as in the preceding announcement, the losses averaged roughly about 2,000 a day.

GERARD AND JAGOW HAD LONG TALK

Relationships of Germany and America Are Very Touchy.

By Special Wire to the Courier.

Berlin, Sept. 13, via London, Sept. 14.—American Ambassador Gerard had a long conversation last evening with Herr von Jagow, the German minister of foreign affairs, which have heretofore clouded those relations, and to eliminate as far as possible the chances of torpedoing ships under conditions to which the United States objects.

It is pointed out, however, that they were working under difficulties, particularly in view of the keenness and ambition of the naval officers and public opinion, which is proud of the submarine achievements, and is quick to protest against any open indication of a backdown.

The reiteration of this attitude can be seen in the press, from which an acrimonious and abusive tone toward America of late has been conspicuously absent. This is shown particularly in the comment on the Dumba incident, almost all the papers which comment, admitting frankly and without bitterness that the United States is justified in the action it has taken, and pointing out that it need not affect Austro-American relations, although, at the same time, attempting to excuse Dr. Dumba through this patriotic interest in the Austro-Tungarian workers.

Furthermore, little is heard upon the munitions question, and some of the comment is in friendly tone.

SOONER OR LATER STAGE WILL ARRIVE

When Polite Notes to Berlin Will Appear Useless and of Little Moment.

London, Sept. 14 (In Montreal Gazette)—The Daily Chronicle in an editorial on the German-American situation says:

"No patriotic American and no reasonable Englishman or Frenchman will blame President Wilson for exhausting the possibilities of a peaceful solution before resorting to any other. Unless he took this course, the president would not have been behind him. At the same time to take it ad infinitum would be to concede to Germany in substance all that she wants. She will be physically content to go on exchanging enemy camps near Salt Lake. It also dispersed companies manoeuvring near Seddul-Bahr.

"An enemy cruiser and torpedo boat which tried to approach the coast were repelled by our fire. "On the remainder of the front there is nothing important to report."

KITCHENER HAS PRESENTED HIS ARMY ESTIMATE

Significant Fact About His Report is No Mention of Conscription.

By Special Wire to the Courier.

London, Sept. 14.—Lord Kitchener has just presented to the cabinet his estimate of the number of British troops it will be necessary to maintain on the continent next year, according to the parliamentary correspondent of The Daily Chronicle, who declares the estimate greatly exceeds the number already in the field, large as that is.

The correspondent adds that he has learned on indisputable authority that David Lloyd-George, minister of munitions, who formerly was a supporter of the voluntary system of enlistment now has become converted to compulsion, not so much for military purposes as for industrial. He is said to believe the munitions problem can be settled in no other way since acceleration is impossible without a relaxation of all restrictive labor regulations and without utilization to a far greater extent of unskilled labor.

RIGA LOOKING WELL PREPARED FOR DEFENSIVE

Times Correspondent, After Three Days' Visit, is of This Opinion.

By Special Wire to the Courier.

London, Sept. 14.—After a three days' visit to Riga, the Times correspondent has reached the conclusion that the city is in an excellent position for defense. The works in its neighborhood are strong and well prepared to resist attack, while the river is broad and flooded by recent rains.

The correspondent believes the Germans more likely to seek possession of the town by a frontal attack. The Russians have stripped the city bare of everything that might be useful to the Germans if its evacuation becomes necessary. From half to two thirds of the population left some time ago and there is no sign of panic among the people who remain.

Altogether, the correspondent declares, there is more optimism in Riga than in Petrograd, although the former city is only twenty miles from the fighting line.

Hun Offers to Pay.

By Special Wire to the Courier.

London, Sept. 14.—The German government has informed the Norwegian government, according to a Christiania despatch to Reuter's Telegram Co. that it could not recognize any responsibility for sinking the Norwegian steamer Evring Jarl on July 9, as the steamer was not provided with any sign showing that she was neutral. However, two of the crew had perished, and in order to show its friendly disposition towards Norway, German agrees to make amends for the damage done and asks Norway to nominate an expert, who will with a German expert will fix the amount of damages.

Quite Busy Day.

Constantinople, Sept. 13, via London, Sept. 14.—The following official statement was issued to-night at the Turkish War Office:

"Our artillery successfully shelled an enemy regiment near Anatarta in the neighborhood of Karakol and enemy camps near Salt Lake. It also dispersed companies manoeuvring near Seddul-Bahr.

"An enemy cruiser and torpedo boat which tried to approach the coast were repelled by our fire.

British Opinion is That the Costly Campaign of Men and Materials in Courland is Working Its Undoing and Will Fail Unless the Russian Offensive is Crushed Quickly.

By Special Wire to the Courier.

London, Sept. 14.—Field Marshal Von Hindenburg's offensive near Dvinsk, where the railroad leading from Vilna to Petrograd has been reached, again menaces the railway connections with the Russian capital. The comparative success in other sectors which the Russians have gained in the last fortnight, however, causes the capital to regard the latest threat against it with no great alarm. British opinion is that the Courland campaign of the Germans not only is proving costly in men and supplies, but is likely to fail unless the Russian offensive on the other extreme on the long front can be stopped soon.

By their latest attack in Eastern Galicia, the Russians are reported to have penetrated the Austro-German trenches in the face of an exceptionally heavy artillery fire. To the north, the Russians are withdrawing steadily from the dangerous Niemen salient, opposing the German advance merely by stubborn rearguard actions.

The tremendous duel of big guns still marks operations along the Franco-Belgian and Italian fronts. Except for occasional attempts to rush advanced trenches, there is little infantry activity on either side.

From the near east comes reports that the Turks are firing villages on the Asiatic shore of the Dardanelles, and it is suggested that they are preparing to abandon the Straits. It is also reported that the Turkish shore batteries on the Asiatic side of the Straits have been almost reduced to silence.

BILLION DOLLAR WAR LOAN PROPOSAL OF THE ALLIED POWERS

Britain and France Would Borrow the Huge Sum on Straight Govt. Bonds Without Any Security Whatever.

New York, Sept. 14.—The present plan of the joint Anglo-French Financial Commission, it was reported to-day, is to borrow \$1,000,000,000 in the United States on straight British and French government bonds without any collateral whatever.

If this vast sum is obtained it was said, it is to be spent, to the last penny, in the United States in payment of wheat, cotton, meat and other commodity shipments, including munitions of war. It will therefore, be classified as a commercial loan.

U. S. NEUTRALITY INVOLVED. Whether the United States' neutrality would be questioned should the bankers accept straight government bonds as their security has been given careful consideration. It was said that the financiers familiar with the plan had every reason to believe that the Washington Administration would not interfere.

The foregoing was the unanimous opinion to-day of many of the scores of prominent bankers from New York and the chief cities of the country who have visited the commission at its headquarters here during the three days of its stay in this city. As to its correctness, the members of the commission declined positively to comment. All that the commission cared to publish as authoritative was voiced by Lord Reading, its chairman, who received newspaper men last night for the first time.

A STARTLING PROPOSAL

The outstanding feature of the situation that overshadowed by its tremendous importance everything else that has influenced the foreign exchange rates since their recent slump began was the reported plan of the Financial Commission to establish its hoped for credit here without offering any collateral whatever. Some of the financiers who called on the Commission with vaguely pronounced ideas that Great Britain and France would not only give their notes for whatever sum they would borrow, but would put up a huge collateral, dollar for dollar of the loan, composed of approved American securities, were startled by the radical proposal that the money should be borrowed absolutely without collateral.

Still other financiers were prepared for the proposal and were not surprised. These bankers, reflecting the reported views of the Commission, pointed out that the credit of Great Britain and France would be back of the bonds given for the loan—a credit that for generations has been regarded as good as gold. With the Governments of both nations standing back of the bonds, why, it was asked, should there be required additional securities?

FINANCIAL WORLD SHOCKED.

Generally, the commission's reputed plan came as a distinct shock to the financial world. In all the talks that has preceded the commission's arrival here, and in all the gossip that has followed it, there has been only a whisper, now and then, that there would be an attempt to finance a loan of such mammoth proportions, or, in

ON GALLIOLI STEADY ADVANCES ARE CONTINUED

Report From Paris of Successful Bombardment and New Advances.

By Special Wire to the Courier.

Paris, Sept. 14.—The allied fleet has succeeded in locating Turkish batteries along the Asiatic shore of the Dardanelles, according to a Journal despatch from Athens. Observers in a captive balloon spied out the Ottoman artillery which was silenced by shells from British and French guns with the result that the camps of the allied troops are more tenable.

Advices from Mytilene received at Athens are to the effect that large bodies of Franco-British troops are disembarking on the Gallipoli peninsula. Steady progress by the allies is reported to be causing consternation in Constantinople.

FOUR BAND CONCERTS ARE TO BE HELD

City Council Agrees to Same in Lieu of Paying Sum for Departing Soldiers.

The city council held the shortest and most concise session of the year last evening. There was practically no business to transact, and the council members were not detained in the warm council chambers for more than a half hour.

COMMUNICATIONS

The time lists of City Engineer T. H. Jones and John Thresher were confirmed. The reports of the Brantford General Hospital, city cost inspection market inspector and relief officer were ordered to be filed.

A communication from Joseph Bond, secretary of the Ancient Order of Foresters, thanked the mayor and council for the permission extended to the A. O. F. to hold their High Court in this city in 1917.

A communication from C. Cook, secretary of the Children's Aid Society, asking for the usual annual grant. The letter was filed, and an order passed that \$500 be granted to the society.

Communications from Mrs. Lena Torey, Chas. F. Heyd and W. G. Meggit, asking for change in taxes were referred to the Court of Revision.

The communication from the boiler inspector and insurance company of Canada, was referred to the board of works.

ONE PETITION

There was only one petition submitted. This was from E. W. J. Hunt and four others, asking that the lighting system be extended on Northumberland street. This was referred to the fire and light committee.

ACCOUNTS

Several accounts were read by the city clerk, and Aid. Cuff moved that they be paid. Carried.

BOARD OF WORKS REPORT

This report was read by Aid. Freeborn as follows: That in accordance with the request of Secretary of the Water Commissioners of Sept. 8th, the sanitary sewer on West Mill street be extended to a local improvement basis about 450 feet westerly from Morrell street to afford connection with the waterworks pumping station.

That the request of Oscar Cunningham for sewer connection to his property at southwest corner of Aberdeen and Erie avenue, having a frontage of 37 feet on Erie avenue, be granted on the following conditions: Connection to manholes at the corner of Erie avenue and Emily St. to be made by and at expense of owner and consent of Township obtained. Work to be done under supervision of City Engineer. Frontage tax of \$37 to be paid to the city treasurer before beginning work.

That in accordance with attached letter of Sept. 10th, permission be given Poullos and Lettery (Brant Gate) for cellar drainage connection at 148 Colborne street, on their depositing \$50 with the city treasurer to cover cost and repair of pavement. It was moved by Aid. Freeborn that the report as read be adopted. Carried.

BAND CONCERTS.

Acting Mayor Ryerson introduced the question of band concerts. The people were under the impression that the military bands were paid, but it is not so. They, the Dufferin Rifles band, generously sacrificed their time to attend concerts, patriotic meetings, etc., without any compensation whatever. He proposed that four band concerts be held and that the city pay the band \$40 for each. The buildings and grounds committee could choose the parks for the concerts.

Ald. Dowling asked why recruiting sergeants could not be stationed with the bands at these meetings. Ald. Ryerson said that would be alright.

Ald. Pletcher said that it was not right that the city should expend so much money on these band concerts. About \$800 had been spent last year through them, and as everyone knew, at the first of this year, it had been decided to re-floor the Central Fire station with the money usually used for band concerts. However, if the concerts were to be held, the alderman said it would be for better to

PURSE OF GOLD PRESENTED TO MR. J. CONWAY

A happy meeting which took the form of a farewell social to Mr. John A. Conway, who leaves the city to take up work in Alliance, Ohio, was held in Alexandra Church school room last Friday evening.

A goodly company representative of the session, Sunday School Executive, Choir, members of Brotherhood and Young People's Society, in all of which Mr. Conway was an office bearer as well as a faithful and valued worker assembled to bid him and his wife good-bye and God-speed.

Mr. Andrew MacFarland acted as chairman, and a short but very pleasing program was submitted.

The program included vocal solos, tastefully rendered by Miss Roy of New York; Pianoforte solos by Miss Amy Lyle, who surprised the audience by the neat and finished way she executed her selections, and also recitations delivered by Miss Kathleen Moyer, which gave delight to an appreciative audience, who encored each artiste.

Dr. Wylie then read a short address to Mr. Conway, presenting him with a purse of gold as a tangible expression of appreciation for his untiring services rendered the various organizations.

Mr. Conway, taken quite by surprise succeeded in replying in a fitting manner. Rev. D. T. McClintock, Messrs. E. Cooper, A. L. Baird and C. Moyer thereafter spoke very highly of Mr. Conway's past work, all expressing keen regret at his departure.

After refreshments were daintily served by members of the S.S. Executive, a very enjoyable evening was fittingly brought to a close with the singing of the hymn "Blest be the tie that binds."

In the long, long years to come, they'll echo on Sunday morn, From the Temple of God they'll say, "Will you worship with us to-day?" For we'll sing and chant the way, The way to live day by day.

In the major or minor key, They'll cheer or sob or pray, For chance for the soul is passing, Or for bride in whitest array, But we know for cycles of time to come, The bells will ring out their magic song.

The soft tones of the chimes, How sweetly they ring their rhymes, Up in the belfry tower, They've already shown their power, To sing from their magic bower, The sacred songs of the hour.

WASHINGTON IS HOPEFUL THAT SINNER REPENTS

Ten More Days of Consideration Over the Arabic Issues.

Washington, Sept. 14.—The United States Government is not yet willing to discuss with Germany the question of arbitration in connection with the sinking of the Arabic. It was stated to-day by a high government official that the question of arbitration is not in issue.

It was explained authoritatively that what the American Government first wants is a disavowal of the attack on the Arabic. Afterwards it was indicated, the United States Government may be willing to arbitrate the question of indemnity.

Count von Bernstorff, the German ambassador, has communicated the view of the American government to Berlin and it is expected that he will receive a reply within the next week or ten days. The United States is disposed to give him full opportunity to impress on the Berlin Government the views of President Wilson as disclosed yesterday by Secretary Lansing. While officials realize that the situation is grave, they are hopeful that when Berlin learns of the facts in possession of the state department, the act will be disavowed.

The department has given Count von Bernstorff full opportunity to communicate with his government and Secretary Lansing has promised him to afford every facility for representing the American view. It was said to-day that the ambassador and the Secretary yesterday discussed entirely the question of a disavowal.

A typical American family is taken as a fair example of every day conditions that exist throughout the United States. The husband, a man immersed in business, the exacting business of Wall Street and the Stock Exchange.

Little by little he has fallen away from the faith of his fathers; that from the faith of his fathers. He has replaced it by an agnostic attitude all too prevalent in our day and time. The wife believes her confidence in an all wise all prevailing good has not been shaken; so when storm and stress comes the man with the anchor is swept away by the storm of agony; the woman remains steadfast, moored by her faith to outside the tempest.

Through all the heartbreak and tears, through all the agony and anguish, clear and serene, moves the wonderful figure of a modern Catholic Priest whose mind has been dedicated to God and the service of his fellowmen. It is his clear spiritual vision that sees through the web that has been woven about the two people whom he loves and it is his faith and God-given power that sets them free.

It is a wonderful preachment of faith's mighty power of the saving grace of the good that lies all about us.

The tremendous story, powerful in its simplicity, is interwoven with the higher threads of sane humor of the sort that one loves to take away from the theatre and muse over in idle moments.

THE ROSARY.

When Rowland and Clifford's next play "The Rosary," comes to the Grand next Wednesday, Sept. 15th, the discriminating public will be given an opportunity to see pictured before them a decided answer to the growing unrest and irreligion of our times. Not that "The Rosary" is a decision merely; it is more. It is a faithful picture of the misery and unhappiness that surely comes upon man who lacks faith in the supreme good and its inevitable triumph in our world.

A typical American family is taken as a fair example of every day conditions that exist throughout the United States. The husband, a man immersed in business, the exacting business of Wall Street and the Stock Exchange.

Little by little he has fallen away from the faith of his fathers; that from the faith of his fathers. He has replaced it by an agnostic attitude all too prevalent in our day and time. The wife believes her confidence in an all wise all prevailing good has not been shaken; so when storm and stress comes the man with the anchor is swept away by the storm of agony; the woman remains steadfast, moored by her faith to outside the tempest.

Through all the heartbreak and tears, through all the agony and anguish, clear and serene, moves the wonderful figure of a modern Catholic Priest whose mind has been dedicated to God and the service of his fellowmen. It is his clear spiritual vision that sees through the web that has been woven about the two people whom he loves and it is his faith and God-given power that sets them free.

It is a wonderful preachment of faith's mighty power of the saving grace of the good that lies all about us.

**New German Submarine.**  
By Special Wire to the Courier.  
London, Sept. 14.—A despatch to The Morning Post from a Telegram says: "A Turco-German submarine of the new German type has been sighted in the Black Sea by the Russian post on the Kerch peninsula in the Crimea. The submarine came up to reconnoiter and exchanged shots with the shore before retiring at full speed. In view of the size and type of the underwater boat it is evident that it made its way by sea to Turkish waters."

**Norwegian Ship Sunk.**  
Christiania, via London, Sept. 14.—The Norwegian Motor Schooner Bien, with pit props for England, was torpedoed Sunday by a German submarine. The crew was saved.

## GERMANS STRIPPING BELGIAN RAILROADS

By Special Wire to the Courier.  
Have, France, Sept. 14.—The Belgian government has protested to neutral states against the action of the German administration in tearing up and transporting to Poland the tracks of the Belgian railroads. The protest is based on an article of the fourth Hague convention, which stipulates that the occupation of invaded territory shall constitute only an occasion of fact. Removal of the railroads, the note contends, will make much more difficult the transaction of business by a large portion of the population of Belgium.

## NOT IMMEDIATELY MENACING NOW

By Special Wire to the Courier.  
Athens, Sept. 14.—The situation on the Roumanian frontier is not considered immediately menacing by persons in official circles here, especially in view of the fact that Roumania is not yet fully prepared for eventualities. The tenacity of the situation has prompted steps, however, for a closer understanding between Greece, Roumania and Serbia, with a view to their eventual action in the event of an Austro-German attack. Bulgaria has not been included in these negotiations, for it now is admitted that the Turco-Bulgarian agreement finally has been signed, and that Bulgaria will not accept Serbian suggestions.

The Situation.

The Germans, it is announced, after desperate fighting, with heavy losses, are astride of the Petrograd railway, and have made an appreciable advance on the way towards Vilna. This city is the principal point in Western Russia, and its evacuation will probably be considered the better course by the advisers of the Czar.

In the other sections of hostilities there is nothing of a definite nature to report.

The airship raids on the Old Land continue. There is a very strict censorship as to results, and only the most meagre information is allowed to come through. It is difficult to understand what the Huns hope to achieve by these assaults upon women, and babes and other non-combatants in unprotected places.

They are having frost and snow out West, and a cool wave is said to be among the possibilities this way. It won't stay that way long if it gets into this atmosphere.

It is eminently typical of Bernstorff and the rest of the German busybodies in the States that they cannot see that there is anything wrong with their methods or that of the other Huns.

The Census and Statistics Office at Ottawa estimates Canada's wheat crop this year at 308,839,800 bushels, or an average yield of 23.78 bushels per acre. This total is nearly 91 per cent. ahead of last year's yield; 33 per cent. ahead of the previous highest yield, and 58 per cent. in excess of the average. The phrase, "As good as the wheat," still stands.

Our neighbors have become somewhat staggered by the announcement that the Allies want to obtain a billion-dollar loan without any collateral, and with Great Britain and France assuming the obligation as the entire guarantee.

The Soldier Boys.

It has become a common sight these days in Brantford to see large detachments of men, some red coated and some otherwise uniformed, marching down the streets, or to have crowds assemble at the depot to bid good-bye to still another lot leaving for camp preparatory to the next step overseas, and to very old-timers the incident recalls scenes of some fifty years ago.

It was in 1866, after the Fenian raid, that word was received that a regiment of militia would be stationed at this point. The Town Council rented the Kerby House for barracks quarters and made an appropriation for the erection of a drill shed. On Sept. 26th, 1866, about sixty men of the Seventh Royal Fusiliers arrived here, and the main body of the regiment came in October. They were accompanied by their band of thirty-eight pieces, and many were the concerts they gave. The Fusiliers left here on Wednesday, March 24th, 1867, and on the same day the left wing of the Seventeenth Regiment, consisting of about five companies, of some three hundred men, took up their quarters in the town. They remained until Sept. 4th, when they were replaced by the Sixty-Seventh Regiment, from Ireland, who were here for an extended period.

Then, as now, uniforms on the street were a common sight, but how different the reason—then soldiers from the Old Land to help guarantee Dominion safety, now soldiers to the Old Land to help in the defence of the common Empire.

The Boer war, of course, provided an intervening incident, but only on a small scale. Then it was a case of two or three at a time, just as much to be honored for their brave intent, but not strong numerically.

Canada's Part.

This paper entirely agrees with the Ottawa Free Press when it says: "Canada helping the Motherland! The silly phrase keeps recurring in newspaper interviews and platform speeches.

Fattening ourselves on the back of our magnanimity! In this war, as has been urged so often in these columns, Canada isn't fighting for the Motherland any more than she is fighting for Canada—for her own existence. The Teutons win, perhaps the daintiest of all the morsels they would desire to extract from the spoils would be British North America. Germany wants a "place under the sun"—what place more suitable for world expansion and settlement than Canada; what territory more strategically valuable as a base for future expansion and domination than the country bounded for three thousand miles by the United States?

Montreux Doctrine! It would, as Colonel Denison says, become ancient history with the fall of the entente allies in this war. The Teutons would have become the world, and even the United States could not fight the world.

Victory for the Germans would assuredly mean Canada a German crown colony, German institutions, German autocracy, German barbarity—and we talk of sending troops to "help the motherland," to "fight England's battles," and we brag of the spontaneity of our response to the call for men.

Canadians! the man in khaki is going to fight for US, for OUR dear ones, for OUR homes, for OUR property, for OUR liberty."

Notes and Comments.

Still one more drop in the cup of joy of the Huns. They sunk a Belgian relief ship flying the colors of the Belgian Relief Committee.

They are having frost and snow out West, and a cool wave is said to be among the possibilities this way. It won't stay that way long if it gets into this atmosphere.

It is eminently typical of Bernstorff and the rest of the German busybodies in the States that they cannot see that there is anything wrong with their methods or that of the other Huns.

ASQUITH REFUSES TO BE DRAWN

And is Not Prepared to Make any Statement About Conscription.

By Special Wire to the Courier.

London, Sept. 14.—The unusual amount of interest in the opening of parliament was shown by the large attendance to-day, but the more important matters which are absorbing public attention were postponed until to-morrow. Premier Asquith will then move a new vote of credit, and will utilize the occasion to give the country a general review of the military and financial situation.

An attempt was made to-day to draw out the Premier on the subject of conscription, but he said he was not prepared to make any statement regarding the national service. As to the purpose of a deputation to call on him to take up this matter, Mr. Asquith said: "I don't think this is a matter which can be dealt with conveniently by way of a deputation."

The question of defense against airship raids, was brought up in the House of Commons to-day, an attempt being made to introduce Thomas J. MacNamara, financial secretary of the admiralty. Mr. MacNamara evaded discussion of this point by saying it would be improper to give any information in regard to what was being done. The member who questioned Mr. MacNamara was anxious to know whether the government at this late date was seriously considering for the first time the defense of London, and whether the admiralty had studied carefully the steps so successfully taken for the protection of Paris from air attacks.

Beyond saying that he could not accept the proposition that the government was not prepared to defend London, and announcing that Admiral Sir Percy M. Scott had already assumed his duties in charge of the gunnery defences of London against air craft, Mr. MacNamara declined to be drawn.

fact, any loan at all, without offering collateral.

It is to be a loan without collateral or no loan at all. Here is the reported attitude of the Commission, as gathered by bankers who have talked with the Commission during their stay here: The credit of Great Britain and France has never been questioned. They are able to pay for anything they promise to pay for. Their bonds are the standard of world investment.

These countries require only one thing from the United States—munitions of war. True they would like to have a great many other things—wheat, corn, cotton and other commodities. But for the one thing these countries need—war munitions—they are prepared to pay in gold if they have to. And they will pay in gold rather than submit to terms that they think are onerous in establishing a credit here.

STUDYING PROBLEM

"We are not in a position to make a statement at the present time," Lord Reading said, "because we are studying the conditions in New York and elsewhere in relation to American exchange on London and Paris. We have received a very considerable number of persons, prominent bankers and other gentlemen, who are interested in the stability of exchange.

"The one thing that is very striking about it is that everybody is agreed as one would expect, in the great importance to be attributed to regularizing the exchange so as to provide more stable conditions than has been the case recently.

"The sudden and considerable drop in the exchange naturally disturbs and must disturb commercial relations between the countries—the United States and Great Britain and France—inasmuch as it makes so difficult to see ahead what the rate of exchange will be, and, moreover, because naturally it makes such a material difference in the prices to be received by the American and the prices to be paid by the Englishman and Frenchman.

STABILIZE EXCHANGE

"There is a consensus of opinion that it is eminently desirable that some step be made by which stability of the exchange can be secured. You have here in the States very large supplies of foodstuffs and other material which you want to export. We on the other hand, want to import these goods, and to the commercial man nothing is more difficult than to arrange fixed prices when there is this instability such as we have had recently in exchange.

"We cannot say more than that at the present time, but that generally reflects our views on the situation."

Aside from the financial situation, Lord Reading announced that his mission to the United States had nothing to do with the adjustment of any legal questions between this country and Great Britain, as had been reported.

PRO-GERMANS BUSY.

New York, Sept. 14.—Germanic subterranean attacks have begun upon the proposed billion-dollar loan to the allies. A vicious attack upon Lord Reading, head of the Anglo-French Commission, has been sent to bankers in New York and other cities.

"It is too scurrilous to be read," said the head of one very important bank who had received a copy. "It is worthy only of being ignored. Doubtless it emanates from the same source which has sought to jeopardize American shipping, start fires and explosions in American factories and cause strikes in many American plants. Commissioners are amazed to find the extent and the elaborateness of the Germanic machinations against their mission.

They have already discovered activities of their enemies in only New York, but throughout the middle West and to some extent also in the South. Efforts have been exerted, it is said, to induce pro-German bank directors to give notice that they will resign if support is given the loan, while business men and concerns of Teutonic sympathies have also been brought into line in opposing the proposed financing.

BISHOPS HANGED, AND BURNED

Terrible Report of Armenian Massacres Delivered to Bulgarian Govt.

By Special Wire to the Courier.

Sofia, Bulgaria, Sept. 11, via London, Sept. 14, (delayed in transmission)—The correspondent of the Associated Press was given the privilege to-day to read an interesting document addressed by Armenians to the Bulgarian government, interceding with the government in behalf of the Armenians in Asia Minor, of whom it is asserted nearly 85,000 have been driven from their homes.

The government is requested to use its good offices to ameliorate the condition of the Armenians. Of those who have been driven away to other parts of Asia Minor, the document says that a number of them have been killed or are missing. It does not, however, state their number.

The petition states that many of the deported persons had adopted the Moslem faith. The bishops molested are said to include one burned alive, three hanged, three murdered, seven interned and two arrested. The fate of some of the other bishops is declared to be unknown.

The document says the figures given in it show accurately the number of Armenians forcibly transported from their homes to other parts of Anatolia and Mesopotamia. The petition asserts that massacres took place at certain points, and also that many of those who were forced to leave homes for other places died as the result of hardships on the roads.

LOCAL NEWS ITEMS

RETURN TO-NIGHT.

Members of the Provisional School for Officers for the past six weeks in training at Niagara return home to-night. Those from the 38th include Lieuts. Andrews and J. R. Corneilus. A successful time is vored by the participants in their letters home.

SNOW IN WEST.

It seems strange that while Brantford residents are suffering from the intense heat, their western brothers in Calgary and other western cities should be wearing overcoats and protecting themselves from the cold snow storms. Ontario will likely have its turn in a month or two, though.

PRESENTATION.

A number of the intimate friends of Mr. D. Spencer Large tendered him a dinner at the Brantford Club last evening and incidentally made him the presentation of a handsome wedding gift. A very enjoyable time was spent.

THIRD PAYMENT.

At a meeting of the Brant Patriotic and War Relief Association, it was decided to call for the third payment of subscriptions due on Oct. 1st. The amount will total some \$15,000 and 75 per cent will be devoted to Patriotic purposes and 25 per cent to Social Service.

LAST DAY.

Water Commissioner F. Frank stated to-day that if ratepayers wished to get their 20 per cent discount, they must pay their water accounts before to-morrow afternoon.

MASONS, ATTENTION!

Right Wor. Bros. Chas. Kilgour, G. R. Lloyd, A. M. Cunningham, W. M. Logan, Past District Deputy of the Eighth Masonic District, will visit Brant Lodge to-night.

BUILDING PERMIT.

Mr. Lewis Smale, 219 Terrace Hill street, has applied for a building permit at the City Engineer's office. He wishes to build a frame garage at a cost of \$25.

A PRESENTATION.

The employees of the T. J. Minnes Co., gathered in the Electrical Club rooms and presented a splendid wrist watch to their former comrade, Vern Cook, who enlisted for active service in the 3rd Battery.

SUITABLE LODGING AT LAST

That well-known disturber of the peace, Isabella McCummins, has been lodged in the county jail, and after a medical examination, will likely be sent to the Hamilton asylum.

TO-DAY'S MARKET

A fairly large display of market produce was made this morning. Tomatoes are still in abundance, as are plums and peaches, and all are selling very cheaply.

FOR THE FRONT

A cable was received in the city to-day announcing that Jack Hatley was crossing to France with others, including Maurice Wilkes, also of this city.

BAND CONCERT AT VICTORIA

The first band concert of the fall season will be held in Victoria Park on Friday evening. This was decided to-day by the buildings and grounds committee. Acting Mayor Ryerson introduced the question last night at the city council meeting, and as a result three more concerts will be held in this park during September. He thought that the Dufferin Rifles band should receive some payment for so generously turning out to parades, patriotic services, etc.

REQUESTS INFORMATION.

The solicitor to Woodstock City, P. McDonald, requests some information from City Clerk Leonard about the by-law passed under the Brewster Act prohibiting the sale or distribution of gas containing sulphuretted hydrogen in Brantford, and asked for a copy of it. The by-law, he understands, is being considered by the Lieutenant-Governor in Council and also asked if it is necessary to send a deputation to Toronto to interview the Honorable W. J. Hanna with respect to By-law.

ELECTRICAL CLUB OPENS

The Brantford Electrical club opened their new club rooms at 68 Colborne street last evening, when about twenty enthusiastic members gathered to listen to an address by Mr. Gough of Toronto. After listening to this, they adjourned to Dick Marr's, where a very acceptable supper awaited them. After listening to speeches by Hae McLean, the father of the club, along with some funny stories by Fat Kelley, the gathering sang "Home, sweet home" at an early morning hour.

SCHUBERT CHOIR.

A meeting of the executive of the Schubert Choir was held on Saturday afternoon, and they unanimously adopted the plan of the conductor, Mr. Clifford Higgin, to render a concert version of the grand opera, "Maritana." Three cable principals will be brought here to sing the solos, and to the choir members, the rendition of the brilliant choruses of this delightful piece will be an innovation from the usual part-songs, that should prove very enjoyable to them and to the large following of the Schubert choir in this city. Mr. Higgin has successfully conducted this opera in England, and is admirably qualified to undertake the work. He is satisfied that the former members, with some additions will make a success of this, their eighth season.

NOT A CASE.

Chief Slemin stated that there was not a prisoner in the jail, not even a drunk, and not a single case to be tried in the police court this morning. Magistrate Livingston was presented with a pair of white gloves.

NURSING CLASSES.

Classes in first aid and general nursing will be formed in connection with the Paris Maple Leaf Patriotic club about Oct. 1st. Any person wishing to avail themselves of this opportunity will kindly notify the Secretary, Miss May.

MACHINE GUN INSPECTOR.

Word was received in the city this morning that Lieut. Gordon Graham, nephew of Major Smith, was appointed to the position of Machine Gun Inspector at Barryfield Camp, Kingston.

BOARD MEETING.

The Y.M.C.A. directors will hold their first fall board meeting on Friday evening and will have a conference with the staff. The fall plans will be discussed, after which a fine dinner will be enjoyed.

FOR THE SOLDIERS.

The Ladies Institute of Cainsville will meet on Thursday evening at the home of Mrs. Richards of Blossom Avenue, Cainsville. This meeting is to be held in aid of the soldiers and a silver collection will be taken.

REMARKABLE RISE

Mr. Fred Frank, when asked about the rapid rise of the river yesterday, said that he had never seen or heard of such a rise in so short a period. Starting at about 9 o'clock in the morning, it rose for eight hours, and at the end of that time, the level had risen about eight feet.

AT THE BRANT.

The moving pictures of Thirty Leagues Under the Sea certainly prove one of the most striking and diverting sets of films ever seen at this popular resort. Other under water pictures have been produced by the use of tanks but this is a genuine series of views. The entire apparatus used for the work is shown together with the sinking of it in the water in full view of the audience and the absolutely genuine nature of the production is totally unquestioned. The scenes under the ocean are almost beyond belief with luxuriant growths of what look like fancy gardens, plain meadow surfaces, all sorts of fish sporting in their natural environment without the knowledge of any onlooker, divers in the water and so on. Altogether the display is one which every one in Brantford should see, intensely novel as well as deeply instructive. The vaudeville acts are exceptionally good. Lovell and Palmer have a splendid vocal offering and the Four Hussars give a very fine musical act.

DUFFS HELD FIRST PARADE OF SEASON

Good Parade, But Hundreds Equally Entitled to Serve Looked On.

The 38th Dufferin Rifles held their first fall parade last night at the Armories, when upwards of 340 stalwarts paraded in a workmanlike order and were exercised in the new platoon formations, and for the first time acted as double companies in platoons. On parade in command was Capt. M. E. B. Cutcliffe with Adj. Capt. H. MacLean, both of whom have of late qualified as field officers. The parade state was as follows: A 48; B 50; C 53; D 50; brass band 26; Bugle Band 22; stretcher bearers 13; signallers 11; total 383 with staff; on parade 338—a satisfactory showing.

PARIS DETACHMENT.

Much comment was made about the husky, well-set lads from Paris, under Lieut. Robinson, who although in civilian clothing, walked and wheeled with a soldierly aptitude, which speaks volumes for this reinforcement from the "Underwear Metropolis." Most of this half company are entirely new to the game and their bearing and steadiness, even under the trying circumstances of last night, was, therefore, highly commendable.

INTENSE HEAT.

The inside of the Armories was shrouded in steam; at least, one of the bandsmen told a Courier man "he couldn't see his music for the mist rising." Bandsmaster Johnson and his musical troop look like giving their usual good services this year.

The Bugle Band under Sergt. Mellor now 22 strong tooted like "young sirens," and marched like a "little fleet" as any western Ontario regimental possessors" was the comment of a visitor.

The visitors' galleries were decorated as usual, ladies being present on balconies where such accommodation is provided.

INTERESTED SPECTATORS.

338 on parade—willing. An easy battalion lolling on the sidewalks and watching the battalion march past on a free and easy hike. Conditions normal as before the war, aptly describe the short march out of the Duffs down Colborne St. and along George returning via Dalhousie St.

Employers of labor are being made culpable by young men refusing to join the Duffs. Could not something be done to rectify this. A notice on the office bulletin board would suffice.

ENLISTING RATE THREE PER DAY FOR THE DUFFS

Such is the Record of Recruiting to Date—A Modern Goliath.

The Dufferin Rifles are starting all over again. The armories this morning wore a deserted appearance, nobody being about but a couple of men in shirt sleeves sweeping up yesterday there were 140 men, to-day there are only eight. But recruiting continues as usual, and soon the men will come in again, because the 38th have recruited men for active service at the rate of 90 a month, or three per day.

Five men who had been signed up, but who for various reasons were unable to report until yesterday morning, remain behind to form the nucleus of contingent No. 7. To them yesterday was added three more, so the Duffs are starting with a total of 8. Of these eight men, four are Canadians, 2 are English, 1 Irish and 1 Swede. Four are married and four are single. It will be interesting to note how the proportions change from day to day.

The 3rd Battery recruited seven men last night, one American, one Englishman—Mr. Frank Cocksutt's chauffeur—and five Canadians. The American's home is now in Galt; his name is Robert Graham. He is a giant of a man, 6 ft. 3 in. in height, and has a chest measurement of 39 inches. He is so big, the recruiting officer had to stand on a chair to measure him. A few weeks of military training will make him a very powerful man indeed.

To-night the 25th Dragoons are holding a concert in their headquarters on George street. Every man is bringing a particular lady friend, and songs, piano selections, recitations, etc., will be the order for the first part of the evening. The last part of the night will be devoted to dancing, and a thoroughly enjoyable evening is looked forward to by every Dragoon.

The names of the men enlisted yesterday follow. The last five names in the Dufferin Rifles list are those who joined the last contingent but could not arrange to report in time, so are left over to form the nucleus of No. 7.

It was said, for all Europe that could import goods would support from whatever other markets it could find. The war is the dark picture held up by financiers who spoke of the possible failure of the commission to establish credit here, and it is more to the interest of the United States, they said, than to the interest of either Great Britain or France that the mammoth credit be forthcoming. The commission, if its views were properly reflected, holds this opinion too; and holding it, is not inclined to permit American bankers to dictate the terms of the loan.

Before the commission reached New York the news was prevalent in some quarters here that Europe was virtually on her knees to the United States, begging for money and that the American bankers were consequently in a position to dictate the terms. This view is held by some who are said to have awakened with somewhat of a shock to find that the commission entertained no such belief, but maintained that instead of being masters of the situation, the American bankers would be, to a great extent, suppliants themselves for favorable terms.

Individuality The Keynote of the New Trimmed Hats

The colorings alone are poems of richness and beauty, including blues, greens, browns and black of indescribably soft yet striking tones.

Shapes, too, are totally different! Melon effects with brims rolled at each side—hats that quaintly, slightly flare from the forehead like the bonnets of old—turbans with smart wings forming both the crown and the trimming.

The rich velvets utilized lend themselves admirably to soft draping and shirings.

And on nearly every hat there's a brightening touch of metal—either as a flower or a buckle.

Another distinct, charming novelty is the hat with split brim mounted by a tiny, saucy bird.

The entire collection is distinguished by a grace utilized to best advantage—a refinement and elegance unsurpassed by any previous season.

Anarchy in Persia.

By special wire to the Courier.

London, Sept. 14.—Anarchy prevails in Persia, according to the Teheran correspondent of the Reuters Telegram Company. The government military forces have been defeated in a series of engagements with tribesmen, and a number of Swedish forces who were in the service have been killed. The British and Russian colonies at Ispahan with French and British women missionaries have been forced to leave for Teheran, Ispahan is said to be controlled by a mob.

DOWAGER OF RUSSIA FEELS WAR SEVERELY

Account of Interview is Touching—Danish Lady Speaks Strongly.

By special wire to the Courier. Paris, Sept. 14 (In Montreal Gazette)—The Stampa, of Turin, gives an interesting account of a conversation which the lady president of the Polish Red Cross Society had with the Empress Dowager of Russia. The empress said:

"Oh, how I hate those Germans. I am a Dane from the day they took Schleswig-Holstein I have hated them and for fifty years I had to wear a mask at court. "Russia has been too confident in all those Prussian emigrants to whom the empire has accorded favors and high positions. A German even though every kindness be shown to him, remains always German. I often said so when Czar Alexander was alive, but he would not believe me. One man only foresaw this terrible German aggression. It was the late King VII, who was a great monarch."

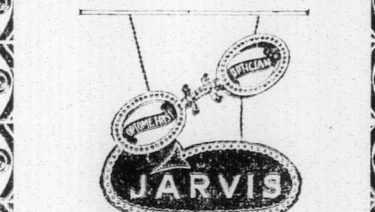

"Do you know that when I was taken by surprise by the outbreak of the war I was crossing Germany, the Berlin people made special hostile manifestations when my train passed by calling out: 'Russian pigs. They are British people.'" Here are the impressions of the lady about the czar's mother: "The Empress' look is far away, profound, sad and mystical. It is some time before she speaks. She expresses herself in French with a strong English accent. She says: "You come from Warsaw—Warsaw which is now German. Mon dieu. What war! What deluge of blood. "That is all; the audience is finished. The lady-in-waiting gives me a sign. As I leave I notice that the eyes of the Czarina are full of tears."

Ever Hear of Eye Sunburn?

Protection of the eyes from sun-glare is even more necessary than wearing a hat to prevent sun-stroke. We are indebted to the great scientist, Sir William Crookes, of his discovery of a wonderful new glass of spectacle lenses that makes it possible to filter the harmful heat and chemical rays from sunlight without perceptibly dimming the light or changing the colors.

I can duplicate your prescription in this glass which will adequately protect your eyes no matter how much they are exposed to strong sun or electric light.

Crookes Lenses, made from JARVIS measurements and by JARVIS methods, will give you the utmost in eye comfort.
