Big Meetings Addressed by the Prime Minister at Newcastle and Chatham

Opera House Crowded When the Premier and Other Speakers Visit Here on their Tour of the Provinces--Last Word is a Message of Thanks for a Courteous Hearing and an Unfailing Kindness During Present Campaign.

Newcastle, N. B., Oct. 14.—Right Hon. Arthur Meighen closed his Maritime Province campaign with two large meetings at Newcastle and Chatham Friday night. He spoke first at the latter place where approximately a thousand people heard him. Here he dealt briefly with the unemployed problem. Unemployment, said Mr. Meighen, was a world wide state, and Canada's situation was the best of any industrial country in the world. With half of Europe unable to purchase goods, in fact, grappling with starvation, industry in Canada was at a low ebb. It was the policy of the Government to do all in its power to see that men who wanted to work had an opportunity to do so, but it was impossible, even if the money could be dug out of the ground, for the Government to start large public works everywhere in order to combat it. It must receive its primary treatment locally and this local effort would be supplemented by the Government.

As far as disabled or partially disabled soldiers were concerned the Government assumed full responsibility for them and would see that they were carried through the period of hard times.

Says Farewell to
Maritime Provinces

Bidding farewell to the Maritime Provinces the Premier spoke as follows:

"This meeting closes a series of nearly fifty in the Maritime Provinces. The feeling with which I leave to begin similar work farther west are feelings of pride and satisfaction. Courtesy and dignity have characterized every audience. Everywhere I have received not only cordiality but an eager interest and an earnest desire to learn the facts. A public man cannot ask for more.

"It is my resolve to keep the level of discussion on a plane of decency and candour and not to be drawn into any contest of misrepresentation, no matter what may be the debased tactics that others adopt. I shall rely upon the electorate to examine this wild and loud platform declamation and to distinguish the truth from gilded fiction. The people of these provinces will sustain the reputation they now enjoy through Canada. The measure of their intelligence is infinitely higher than it is assumed to be by those who are relying upon reckless bluster and the bribery of impossible promises but who are destitute of either case or cause.

"My last word is a message of thanks for a warm and amiable welcome, a fair and courteous hearing, and an unfailing kindness that I cannot ever forget."

Hon. J. B. M. Baxter, Minister of Customs and Excise, said the lumbering business in which Newcastle, Chatham, and district were vitally interested would suffer seriously if the tariff bars were let down.

R. B. Hanson, K. C. of Fredericton, also spoke.

The chair at Newcastle, was taken by Mayor Fish, and C. P. Hickey, presided at the meeting in Chatham. The Premier left for Ottawa shortly after midnight.

The Premier said it was the function of Government to see, insofar as possible that those who were willing to work could get work. But was the government to blame for the situation? Unemployment was world-wide and here in Canada we had the least of any industrial country. Conditions were much worse, in Great Britain and the United States. The half of the civilized world could not buy at all. Poverty and starvation were stalking abroad in Europe and there must be something done for the rehabilitation of the countries before the commercial demand from them could be resumed.

Consequently the demand on Canadian industries was not sufficient to keep them working to capacity. It was impossible

for the Government to start work all over the country to relieve unemployment. The Government had asked railways to accelerate orders and had promised to stand behind them and assist with capital. But unemployment must be dealt with locally and the government could only assist. Insofar as unemployment affected the returned men who had been partially or wholly disabled the government took upon its own shoulders this responsibility and would provide such assistance as was necessary to relieve the men. Conditions were improving and this winter would be the worst we had to face.

Feeling Reference to Illness
of W. S. Loggie

The Premier referred feelingly to the illness of W. S. Loggie, the former member, who, he said, had honored the county of Northumberland by representing it.

He did not need to run away from defending the record of the Government, said Mr. Meighen. Hon. A. K. MacLean now running as Liberal candidate in Halifax, was a member of the Government and must be held responsible for its record. And yet the Liberals considered him eligible as one of their standard-bearers in the election.

The Government was being blamed by Liberal speakers for the railway situation which was a legacy from the Laurier Government. Mr. Meighen defended the action of the government in taking over the Canadian National Railways and Grand Trunk system. The Canadian National was now our own system with feeders in the east and west and with a hope of ultimately becoming a paying proposition. Every step in taking over these roads had been ratified by parliament, and the government could be said with no blame. It was true that the Government had loaned money in order to keep the Canadian Northern and Grand Trunk from crashing to the ground. Would it have been a good thing to let them fail and compel the people to do without railway service, Mr. Meighen asked.

Mr. Meighen characterized the Liberal criticism that he had seized the reins of power in much the same manner as Lenin and Trotsky as rubbish. When Sir Robert Borden retired he had succeeded him in office. He had done just what had always been done when a Prime Minister was forced to lay down the reins of leadership before serving out his term.

Where the King Liberals Failed

He went on to say that the man who was valuable to the country was he that in a great emergency did all in his power to help. The Liberals had failed in this regard.

Never in the history of the National Railway system was the service as good as it is today, insisted the Premier, reverting to the railways.

Last night in Moncton Mr. Veniot said that I was committed to high protection, said the Premier. He knew I wasn't. What I have always advised and what I stand for now is moderate protection. I intend to pursue a policy of moderate protection, said Mr. Meighen, and I will do so if returned to power.

REPAIRS EFFECTED

Repairs to the Electric Lighting System were effected last Wednesday afternoon and the difference in the light was a noticeable and a most appreciated one.

CHATHAM HEAD MAN DIES AS RESULT OF INJURY

John Gould, Sr., of Chatham Head died at the Miramichi hospital at 11 o'clock Sunday morning as a result of injuries received Thursday morning when at work in Fraser Lumber Company's mill at Chatham Head, while passing underneath a belt he was struck on the head, fracturing his skull. He was taken at once to the hospital and died, without regaining consciousness.

CELEBRATES HIS 70TH BIRTHDAY

Mr. Chas. Peterson, of Millerton was very pleasantly surprised on Saturday evening when upwards of fifty gathered at his home to tender him congratulations on his 70th birthday.

During the evening which was spent in games and music, Mr. Wm Campbell presented the gifts and Rev. Mr. Matthews read the following address.

Dear Mr. Peterson,

It is with great pleasure that we gather here tonight to congratulate you on the seventieth anniversary of your birth.

Time has dealt kindly with you and left so few traces of the passing of the years that you have attained the three score and ten years of the psalmist.

We wish not only to congratulate you on your birthday but we take this opportunity to hear testimony to your genuine worth, as a citizen of this community. We highly appreciate the fact that you are a staunch supporter of everything that is good in the life of this community. Your thoughtfulness and consideration for others, have also made an impression on our minds and call forth our emulation.

Your genial ways, added to the qualities aforementioned have bound us to you with cords of friendship.

We not only convey our good wishes to you at this time in words but we also bring tangible expressions to seal and confirm our words.

May you long continue to live amongst us and may the Father of us all bless you with health and happiness is the wish of your sincere friends.

Millerton, N. B.
Oct. 15, 1921

A bounteous luncheon was served after the presentation and the friends of Mr. Peterson returned to their homes well pleased with the enjoyable evening spent.

A STILL UNEARTHED IN BARRYVILLE

Frank Barry of Barryville has been arrested, on complaint of Inspector Stewart, charged with operating a still and having liquor in his possession, and has been released on \$600 bail. So much trouble has been caused in that locality as the result of cheap booze that the people should not fail to come forward willingly and give evidence in this case when it comes to trial. The still was located in the woods, in a lean to near Barry's house. It is said that the people down there are afraid to testify against poachers and other criminals for fear that their barns will be burned.—World

The National Crisis

"My appeal is to the whole people; to every man and woman who wants to do right by this country; to everyone who breathes the spirit of our fathers who founded this British Dominion."

—ARTHUR MEIGHEN

THE Election to be held December 6th will be the most momentous in Canadian history; for as men and women vote will depend the economic stability, the political stability and, indeed, the national stability of this country.

Today we find group striving against group, class against class, the industrial and financial structure of the country assailed by false and unsound doctrines and theories, while our great neighbour to the south has adopted a trade exclusion policy directed against Canada's vast agricultural interests.

The currencies of nearly every country in the world are depreciated. The Canadian dollar in the United States is subject to a heavy discount causing a loss of over one hundred million dollars in exchange annually.

Europe is overwhelmed with war debts—unemployment is acute—and the restoration to pre-war conditions is slow.

While Canada is in a much more favorable condition than many countries, yet there is evidence of stagnation, instability, unemployment and lack of confidence.

Taxes are heavy because of the country's efforts in the Great War, but have become burdensome on account of the misconceived policies and blunders of Governments that directed Canada's affairs prior to 1911.

These conditions are largely the direct aftermath of the war, but they must be dealt with fearlessly and constructively. This is no time to consider experimental changes, or the theories of visionaries.

This is no time for Crerar and his Free Trade policy. This is no time for King and his wobbling "charted" policies, varying with each provincial boundary.

It is the time to cling to orderly, stable Government in the interest of all the people; to be guided by the experience of the past, proceeding upon lines that have been proven sound.

It is the time to place the destinies of Canada again in the hands of a Government led by a sane, courageous Canadian who has safely brought the country through the trying years of reconstruction, and upon whom we can rely to retain and initiate policies in the interest, not of a group or class but of all the people.

It is the time to support Arthur Meighen and his Candidates.

Meighen will lead us through

UNTRUTHFUL KIND OF SMARTNESS

By a curious twist of mind the Hon. MacKenzie King in criticizing his political opponents is prone to find fault with them for what in Sir Wilfrid Laurier's government, of which he was a member, he firmly approved. Of Sir Wilfrid Laurier himself, indeed, he is particularly proud of having been politically his adopted son and his successor.

In a meeting at Minnedosa, Man., addressing his audience of farmers he is reported in this way: (Speaking of groups) "In 1917," he declared, "we elected a Union all right, but it was a union of lawyers. He cited the name of each cabinet minister as proof, naming Hon. T. A. Crerar as the sole exception.

"If we must have groups," he said, "I would rather have a union of farmers or working men for they would more nearly represent the mass of the people than have a union of lawyers."

To start with, tells may sound smart, but it is a very untruthful kind of smartness, and has, therefore, none of the redeeming features of good humor. Mr. King, of course, knew that in the Union Government, in addition to the Hon. T. A. Crerar there were:

- The Hon. Chas. Bailantyne,
 - The Hon. J. D. Reid,
 - The Hon. Sir G. H. Perley,
 - The Hon. G. D. Robertson,
 - The Hon. F. B. McCurdy,
 - The Hon. Frank Cochrane,
 - The Hon. Sir A. E. Kemp,
 - The Hon. Martin Burrell,
 - The Hon. S. F. Tolmie,
- (Not lawyers)

And talking of lawyers in this connection during the years 1896-1911 the following were members of the legal professions.

- The Right Hon. Sir Wilfrid Laurier,
- The Hon. Charles Murphy,
- The Hon. David Mills,
- The Hon. A. B. Aylesworth,
- The Hon. J. R. F. Prefontaine,
- The Hon. Rodolphe Lemieux,
- The Hon. Wm. Pugsley,
- The Hon. H. R. Emmerson,
- The Hon. M. E. Bernier,
- The Hon. Jacques Bureau,
- The Hon. R. W. Scott,
- The Hon. Sir O. Mowat,
- The Hon. C. Fitzpatrick,
- The Hon. L. P. Davies,
- The Hon. L. P. Brodeur,
- The Hon. Sir W. Mulick,
- The Hon. A. G. Blair,
- The Hon. Clifford Sifton,
- The Hon. G. A. Geoffrion,
- The Hon. W. L. MacKenzie King

(The last named, though not a practising lawyer, is a graduate in law, being academically a Bachelor of Laws, and presumably learned in the law).

An administration which had 21 lawyers in it during fifteen years, as against 13 laymen, has not many stones to throw against any other administration on the score of being a lawyer's union. Last of all should the Liberal leader be the one to throw the stones. Would he have preferred a farmer or a labor government instead of Sir Wilfrid's between 1896 and 1911?

THE TARIFF

Few people not in trade realize that the most money is made by manufacturers who take the smallest margin of profit as by doing so they get the largest output. Big output on small margin is a golden rule to big manufacturers. The main object of a protective tariff is to provide labor to the people. Numerically manufacturers are comparatively unimportant. Their usefulness to a community lies in the employment they give to labor. Therefore any tariff encouragement to industry is not primarily intended to put money in the pockets of the manufacturers. The primary consideration is to make full pay envelopes for Canadian workmen.

REV. W. D. WILSON IS WELL SATISFIED

Rev. W. D. Wilson expressed himself as highly gratified at the recent victory of the prohibition forces. Reports from different counties, he said, went to show that through a misunderstanding of the allot a considerable number of people in favor of the stopping of importation had inadvertently voted against it. However, the victory had been decisive and he thought that any of the present contending political parties would be pleased with such a favorable public verdict at the coming elections.

With the passing of the order-in-council, the liquor commission of the province alone would have the right to import liquor. Hitherto retailers were at liberty to import liquor from different places in the Dominion or from overseas. This fact made it difficult for inspectors to check up the stock purchased. Under the new law purchases would be made from the liquor commission alone, and this feature would mark a big advance in the enforcement of the law. Liquor in the future will be able to be bought only for medicinal, sacramental and commercial purposes.

Funds in the recent election were supplied wholly by voluntary subscription to the prohibition workers. Thirteen thousand letters had been mailed to citizens and advertising and other expenses were heavy, but would be less than the sum of \$12,000 spent in the last referendum.

Many of us would do well to remember the three following rules: Know how to give without hesitation, how to lose without regret, how to acquire without meanness.

Applied After Shaving

Keeps the Skin Soft and Smooth

MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly.

By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are avoided.

Foot Saved in 4 Days!

"Nothing but Zam-Buk could have done it," says Mrs. A. Berryman, 190, John Street, North, Hamilton,—in describing how her right foot, crushed by a wagon wheel, was healed. "The flesh was terribly bruised, blackened and inflamed, and I fainted away with pain. When it was quite impossible for me to move about, my husband's mother got me to try Zam-Buk. It was surprising! Within TWO DAYS all swelling and discoloration had disappeared and pain was banished. In FOUR DAYS, through this timely use of Zam-Buk, I could get about as usual; the injured foot was thoroughly healed."

Success in Retailing

An essential factor in achieving success in a retail business is ADVERTISING—telling the buyers of your community what you have for them.

One doesn't need to be exceptionally clever or a genius to be a success, but one must have an aim, and pursue it resolutely and intelligently.

The businesses that are prospering and expanding are those that purposefully seek out new customers and place before both old and new customers the news of their service, in the form of Newspaper Advertising.

GET ON THE VOTERS' LIST

An election announcement which has a far wider interest than the call of any party is the arrangement for electoral lists, revision, to enable all who are qualified to get their names registered. The County Court Judges in the various counties have been appointed registrars for their respective districts, and will hold revision courts from October 31 to November 5, both inclusive. On any of these dates the legally qualified who are not now enrolled as voters will be able to have their names added to the lists of the district in which they reside. This revision announcement will make it possible for all who have come of age since the 1919 revision was made to secure the franchise, and will also open the way for hundreds perhaps thousands of women who failed to realize the necessity of registering when the call went out some months ago. A Montreal Star writer, who has been studying the method to be pursued, declares that for each 4,000 of population in every constituency one registrar will be appointed. These will take as the nucleus of their lists the latest available municipal list of electors. Four days before commencing the revision notices will appear broadcast announcing the fact, and when registration commences but cautions will remain open from nine o'clock in the morning until one in the afternoon, and from two in the afternoon until six, and from seven each evening until nine. During the six-day period from October 31 to November 5 the lists will be on view at the bureaus and intending electors may check them over, find whether or not they are listed and if not may apply to the registrar for listing. It is anticipated that each political party will make preparations to secure full registration in its own interests, and as well to see that there is no "stuffing" of the lists by the other side. Regardless of any effort in a party way, the wise citizen, male and female, will give personal attention to the matter of his or her vote. The revision now announced will not, however, be the only chance for the law provides that twenty-one days prior to polling day a judge in charge of revisions will cause sittings of an adequate number of revising officers. Before then an elector may apply for and receive listing, complaints may also be advanced at these six-day courts against any on the lists who should not have a vote. While the way for many men not now registered to get on the list, the main interest of the revision probably will centre in the registration of women. The qualification, broadly speaking, for both men and women is British citizenship, the legal age of twenty-one years, a year's residence in Canada and at least two months' residence in the district for which registration is desired. British citizenship, of course, includes those born in Canada or elsewhere in the King's dominions or on a British ship, or who was born elsewhere of a father who was a British subject by birth or naturalization. Its also includes those granted naturalization. Among those who cannot vote are women who have become British subjects by birth or naturalization. It also includes those granted naturalization. Among those who cannot vote are women who have become British subjects by reason of having become the wives of British subjects and who were not born on the North American continent and who were not entitled to a vote at any time prior to June 4, 1921, and who have not obtained a certificate from a judge. This clause excepts from the disqualified, the wives, sisters and mothers of members of the Canadian and British military and naval forces given the vote under the 1917

COMPLETELY FREE OF CONSTIPATION

Tried for Years to Find Relief

"FRUIT-A-TIVES" GAVE IT

Chronic Constipation or insufficient action of the bowels, is one of the great causes of disease. Some authorities even claim that Constipation cannot be permanently corrected. This is a great mistake, because here is the proof that constipation can be cured and the bowels made to act regularly and naturally.

YARMOUTH, N.S.
"For years, I was troubled with Constipation, and had to take laxatives and purgatives all the time. If I neglected to take these, the bowels would refuse to do their work."

About two years ago, a friend advised me to try "Fruit-a-tives", which I did. The first box helped me so much that I obtained further supplies of the remedy and continued the treatment. After using about eight boxes, my bowels were able to perform their particular function without aid.

The relief in my case has been lasting, as up to date, I have never had any further trouble. I can recommend "Fruit-a-tives" to all suffering as I did and I am sure they will derive equal benefit!"

Election Act. It is right and proper that the way should be opened for everyone qualified to secure the voting privilege and the near approach of the election may be expected to develop a keen party interest in the revision courts.

BETTER SHOWING OF GOVERNMENT R.R.'S

OTTAWA, Oct. 12.—Commenting on the statement by D. B. Hanna, president of the C. N. R. that the lines would show a surplus for August, Hon. J. A. Stewart, minister of railways and canals, said: "The financial position of the C. N. R. as announced by Mr. Hanna, bears out the view held by the government that a decided improvement in revenue would be shown during the last four months of the year. It means that a deficit for August, 1920, amounting to four million dollars, is transformed into a surplus of \$47,291 for August, 1921. The gross earnings for August, 1921 were \$10,333,461 as compared with \$10,065,917 for August 1920, an increase of \$470,543. The working expenditures for August last were \$10,489,230, as compared with \$14,067,237 for August, 1920 indicating a reduction of about four million dollars in operating expenditures."

"Another fact that should be noted is that President Hanna's statement, while including the Grand Trunk Pacific, which is being operated by the C. N. R. management, does not include the Grand Trunk which, for the time being, is under separate control and operated in co-ordination with the government lines. I am informed that net revenue from railway operation of the Grand Trunk for the eight months ended August 31, last, was \$3,403,610 as compared with \$1,629,636 or the corresponding period last year, while the net revenue for August alone was \$1,910,994.

The fact that the government lines are making a much better showing than during the corresponding period last year should serve to dissipate some of the pessimism which surrounds the discussions of Canada's present railway situation."

Made in Canada

On Monday, October 3rd, our salesmen started out with a complete price list of all the "Made at Windsor, N. S." fertilizers for the spring of 1922. We cover the entire Provinces of Nova Scotia, New Brunswick, Prince Edward Island and the eastern counties of Quebec.

Our fertilizers are essentially a "Made in Canada" product, and at this time with an unusual amount of unemployment every industry giving employment at home must be supported.

There may be some things which must be imported because not made here. There are others which because of either the price or quality preference is given to imported goods, but none of these reasons apply to "Made at Windsor, N. S." fertilizers.

No imported fertilizers can be bought on a more favourable basis than ours as to quantity, price or quality. It is impossible to buy a better fertilizer than the "Made at Windsor, N. S." brands at any price. They are made from the best raw materials, properly mixed, well ground, rightly cured, and can be put on evenly, whether by hand or with a fertilizer sower.

We want agents either dealers or farmers in all territory where we are not now represented.

I SUFFERED FIVE YEARS
Finally Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Paris, Ont.—"For five years I suffered from pains caused by displacement of my organs and in my back. All of this time I was unfit for work and was taking different medicines that I thought were good. I saw the advertisement in the papers of Lydia E. Pinkham's Vegetable Compound and took it faithfully. I am now in perfect health and do all my own work. I recommend it to others, and give you permission to publish this letter in your little books and in the newspapers as a testimonial."
—Mrs. D. CASBARY, Box 461, Paris, Ont.
Why women will continue to suffer so long is more than we can understand, when they can find health in Lydia E. Pinkham's Vegetable Compound!
For forty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, irregularities, etc.
If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WHAT TO DO FOR STOMACH TROUBLE

Good Advice From One Who Had Suffered Much.
Nine-tenths of all forms of indigestion or so-called stomach trouble are not due to the condition of the stomach at all, but are caused by other influences. The great contributing cause of indigestion is thin blood. Good blood and plenty of it is required by the stomach to take care of the food. If the blood is thin the stomach functions sluggish, food lies undigested, gas forms and causes pains in various parts of the body. Instead of getting nourishment from the blood the system gets poison.
Relief from this condition can be obtained by the tonic treatment which Mr. D. Shaw, Mt. Stewart, P. E. I., tried and now warmly recommends to others. Mr. Shaw says: "I suffered from indigestion for over four years, and have tried many of the well-known remedies for such troubles, but never obtained more than temporary relief. The trouble was aggravated by constipation setting in owing to the stomach failing to do its work, and laxatives only gave relief to the bowels and left the stomach in worse condition. The result was my blood was growing more and more anaemic, I did not sleep well at night and was growing despondent. I was in this wretched condition when a friend advised me to try Dr. Williams' Pink Pills. I got three boxes and by the time they were finished there was some change for the better. This greatly encouraged me and I continued taking the pills for some three months, by which time my stomach was all right again, my blood good, nerves strong and life was again worth living. My advice to all who suffer from stomach trouble is to give Dr. Williams' Pink Pills a fair trial."
Dr. Williams' Pink Pills can be obtained through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

YANKS PITCHER UNDER ARREST

York, Pa., Oct. 16—A man giving his name as Carl Mays, and claiming to be the famous pitcher of the New York Yankees, was arrested at Hallem, near here Sunday afternoon, after a shot had been fired at an automobile in which he was riding with a woman said to be Mrs. Mays to force him to stop. Mays' machine was said to have gone through traffic signal in Hallem and the constable boarded a passing car, pursuing the fugitive for a mile and firing a shot to bring him to a halt. Mays is alleged to have struck a civilian who struck back, in an altercation following his arrest. He furnished bonds to appear for hearing Monday.

MARK DROPS, THE KAISER IS HIT

New York, Oct. 15—German marks made another low record today, preliminary quotations being 0.6775.
Doorn, Holland, Oct. 15—The slump in the German mark is beginning to affect the former German emperor, who is endeavoring to combat the prevailing unfavorable financial conditions by reducing his household and taking other radical measures to economize. Today ten members of his staff were dismissed, including the chief gardener, whose place has been taken by William himself.
Gardening has now become a hobby with the former emperor.

WHO IS THE FARMERS' FRIEND MEIGHEN OR KING?

(By Onlooker in Toronto Mail
and Empire)

Right Hon. Arthur Meighen has
this supreme advantage over the
leader of the Quebec Liberals—he
was brought up on a farm and under-
stands the wants of the farmer. He
passed from plough to the Premier-
ship. He has been the faithful, un-
assentant friend of the farmer
ever since he first entered Parliam-
ent. The solid sensible farmers
of the country (who farm with their
hands) are proud of him. They
know that at this critical hour in
their affairs he is their staunch
friend, and is actively looking after
their interests. They know, also,
that in Hon. Dr. Tolmie Canada
has one of the best Ministers of
Agriculture she has ever had. They
will not forget how swiftly the Pre-
mier moved to their rescue in ar-
ranging with the banks to extend
the credits, in order to help them
finance their live stock. Acts like
this, at once patriotic and business
like, are worth miles of super-
heated oratory and vague promises
of the Millennium.

The great majority of the East-
ern farmers are sound protectionists
and know which side their bread is
battered on. The great majority of
our farmers also know that Mor-
rison, Burnaby and Crerar are not
typical farmers—the country would
be in a woeful state if they were.
In trying to represent the yeoman
of Ontario as leaning to free trade,
these men are bearing false witness.
Nor will the sagacious and patri-
otic Liberals, who believe in con-
stitutional government and protec-
tion, lose sight of the fact that the
Premier had made no lying prom-
ises to farmers in order to "cadge"
their votes, has not wept crocodile
tears over their condition, has not
stooped to the base arts of the hy-
pocrite and flatterer. On the con-
trary, he has boldly told them that
he does not agree with the doctrines
of the United Farmers or with class-
government in any form, and that
if they want that sort of thing they
must get someone else to carry on
the Government of Canada. His de-
fiance of free trade, group govern-

90TH BATTERY SHOWS UP WELL

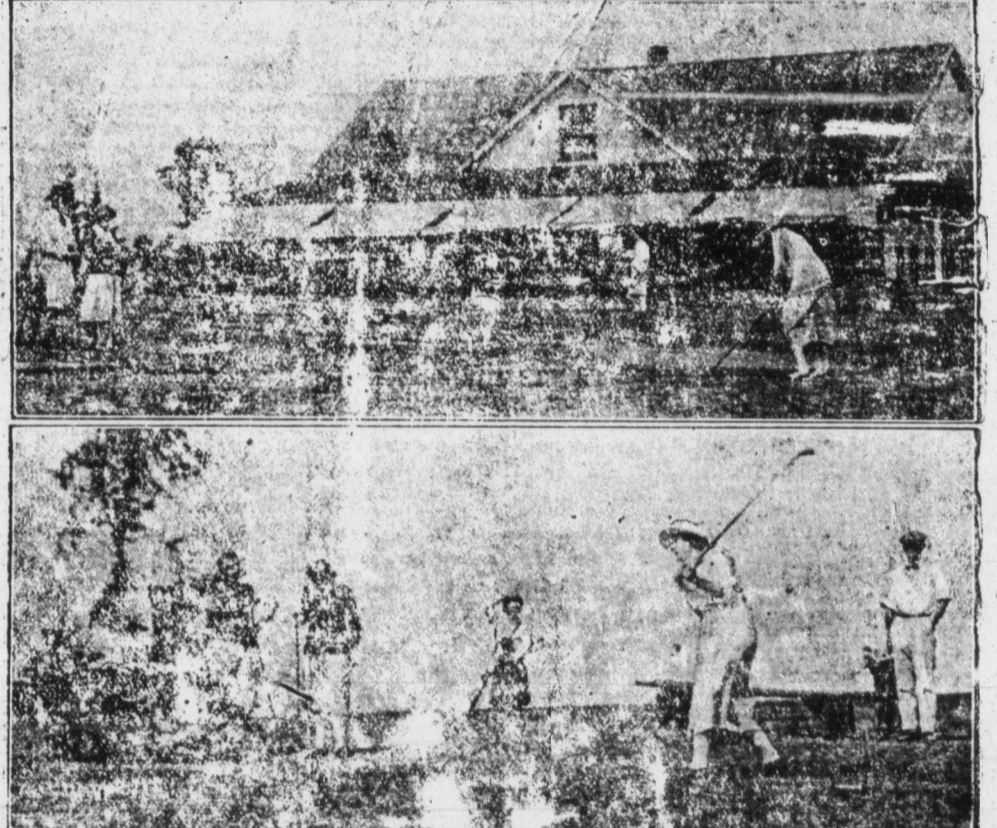

Word has been received that the
Governor-General's trophy for gen-
eral service, open for all Canada,
has been won by the 8th Battery,
Canadian Field Artillery, of Mon-
cton, commanded by Major A. E.
Barton.

While it has been known that this
Battery did exceptionally good
work at Petewawa last fall, the
news of the winning of the coveted
trophy is more than pleasing to
every one interested in military af-
fairs. This Battery sent to Petewa-
wa a detachment of 35 gunners and
their work in all branches was ex-
cellent.

Another record which comes to
New Brunswick was made by the
90th Newcastle Battery under Capt.
J. L. Lawlor. One of the targets
used in the firing competition was
a dummy tank drawn by horses on
a long rope and the only direct hit
of the whole competition was made
by this battery.

The referendum and recall,
has been bold and clear. He stands
at the hour for the principles of
government that every responsible
statesman of this country has stood
for.

The Pleasant Game of Golf

Upper picture shows the Golf Club house at St. Andrew's by the Sea.
Lower picture—On the Golf Links at St. Andrew's by the Sea. There are innumerable
picturesque scenes like this.

Golf is now universally recognized
as an ideal game for men who lead
sedentary lives. It encourages walk-
ing, the most health-giving of all
exercises; it provides a fascinating
recreation, it employs muscles that
would otherwise be rarely exercised,
and it is played under conditions
that conduce to the highest possible
enjoyment. The extraordinarily ho-
liday of this old Scottish pastime has taken
on this continent is phenomenal, and
it has happened within the present
century. Only half a century ago it
was mostly confined to Scotland,
and it had been played for cen-
turies. Then the unexpected hap-
pened. From being derided as an
amusement for elderly people, it
suddenly jumped into a commanding
place as its qualities and possibili-
ties became better and more widely
known and appreciated. Today links
are numbered by the thousand and
its devotees find in golf a peren-
nial source of interest and enthu-
siasm.
Golf is enjoyable anywhere, but
there is an added charm to the en-
joyment when the game is played
at St. Andrew's by the Sea, New
Brunswick. The golf links are beau-
tifully situated overlooking the sea
and partly enveloped by woods of
tall pine trees. But from any part
of the links the sea is always in
view. There are two courses, one
of 9 holes and one of 18 holes. Bot-
h are fit for the play of the greatest
experts of the game, and they are
kept in the best possible condition.
The links are adjacent to the mar-
tinettes, Argonaud Hotel. A
recent recommendation for links and
is to say that both are owned
and conducted by the Canadian Pa-
cific Railway. The St. Andrew's
course was selected this year for
the Annual Tournament of the Cana-
dian Senior Golf Association, and
including an international match be-
tween the United States Seniors and
the Canadian Seniors for the Duke
of Devonshire Trophy.
In addition to golf there are ex-
cellent facilities for bathing, fish-
ing, tennis and motoring at St. An-
drew's. There are many beautiful
summer homes also there. Several
of the most noted people in Canada
spend vacations in this spot.
The summer population of St. An-
drew's is happily free from the bores-
some element so common at sea-
side resorts near large and populous
cities. It is not, however, a purely
aristocratic gathering, though so-
ciety is well represented. Shining
lights in all professions are there,
though it is not exclusively an in-
tellectual throng. It is a selection
of people who have found in St. An-
drew's the spot where the highest
degree of daily pleasure may be had
with the least effort.

THE BOY SCOUT MOVEMENT IN N. B.

The Boy Scout Movement in New Brunswick has advanced with great strides during the past six months.

In the City of St. John there are now nineteen troops of Boy Scouts and ten packs of Wolf Cubs; in Moncton five Troops and two Packs; in Fredericton five Troops and three Packs; the Movement has taken hold in Sussex, Hillsboro, Rothesay, St. Stephen, St. Andrews, St. George, Stanley, Woodstock, Chatham, Perth Hartland, Durham Bridge, Devon, Welsford, Pte. de Bute, where boys are actively engaged in Scouting, and many other towns and villages where troops or packs are in the process of organization.

In the month of August, the most successful boys' camp in the history of the Province was held on Grand Lake where two hundred and fifty Scouts from the various parts of New Brunswick were under canvas for seventeen days. During this time the total number of tests passed was one thousand one hundred and seventeen, for which instruction for which instruction was given during Camp. Many boys were new to the Movement and took advantage of the opportunity to forge ahead with their Tenderfoot, Second Class and First Class Scout work. Besides this special courses were given under first class instructors in Forestry, Canoeing, Camping, Pioneering, Cooking, Swimming and Life-saving. Naturalist work, and Public Health.

The Boy Strength of the Movement in New Brunswick is now approximately fifteen hundred and it is expected that this figure will be more than doubled by next spring. This Province is far behind the other eight Provinces in Canada in Scouting. This is largely due to the fact that until six months ago very little organized effort towards extensive, outside the City of St. John, has been possible.

About ninety per cent of all troops and packs in New Brunswick are organized and operated under the auspices of churches of various denominations. More and more men, prominent in religious and educational circles are coming to realize the value of Scouting in Service; that is personal, community and national service. A Scout is taught always to consider the other fellow, his family, his church or his country before himself. "To play up and play the game" not for himself but for his side.

The Boy Scouts Association is a non-military, non-sectarian Movement for the development of character and good citizenship among boys.

It is not the aims or aspirations of Scouting that makes it a success, and that hold and transform the boy, it is its methods. To know and understand Scouting is to believe in it and to see in the Movement a great personal as well as national opportunity.

The one urgent need of the Movement at the present time is competent Scoutmasters with enthusiasms for life and unquenchable passion for the well-being and wholesome development of boys.

Lord Rosebury said of the Scout Movement. If I were to form the highest ideal for my country, it would be this; that it should be a nation of which the manhood was exclusively composed of men who had been or who were Boy Scouts, and who were trained in the Boy Scout theory. Such a nation would be the honour of mankind. It would be the greatest moral force that the world has ever known.

If you have a bad habit, break it or it will break you.

IT'S GOOD TO FEEL WELL!

Redmac, The Restorer of Health

If you are fagged out at night or have pains across the back and your face looks pale and drawn, REDMAC will put you on your feet.

When you find yourself nervous irritable and easily upset, when you can no longer do your day's work without being all in, do not wait till you go all to pieces and collapse in a state of nervous prostration, or until in a weakened condition, you contract some serious disease, but take REDMAC at once to help to enrich your blood and to strengthen your worn-out nerves.

If you are not strong or well, you owe it to yourself to make the following test: See how long you can work or how far you can walk without being tired—next take REDMAC for a few days. Then test your strength again, and see how much you have gained.

UPPER BLACKVILLE

Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

"BUY AT HOME"

N.B. APPLES TO BE ON EXHIBITION

FREDERICTON, Oct. 12—New Brunswick will have an exhibit in the Imperial Fruit Show which will be held in London, England, during the latter part of October and the first of November. A shipment of New Brunswick apples of the late fall and winter varieties is being made to-day by the Department of Agriculture, which will form part of the complete classes to be shown.

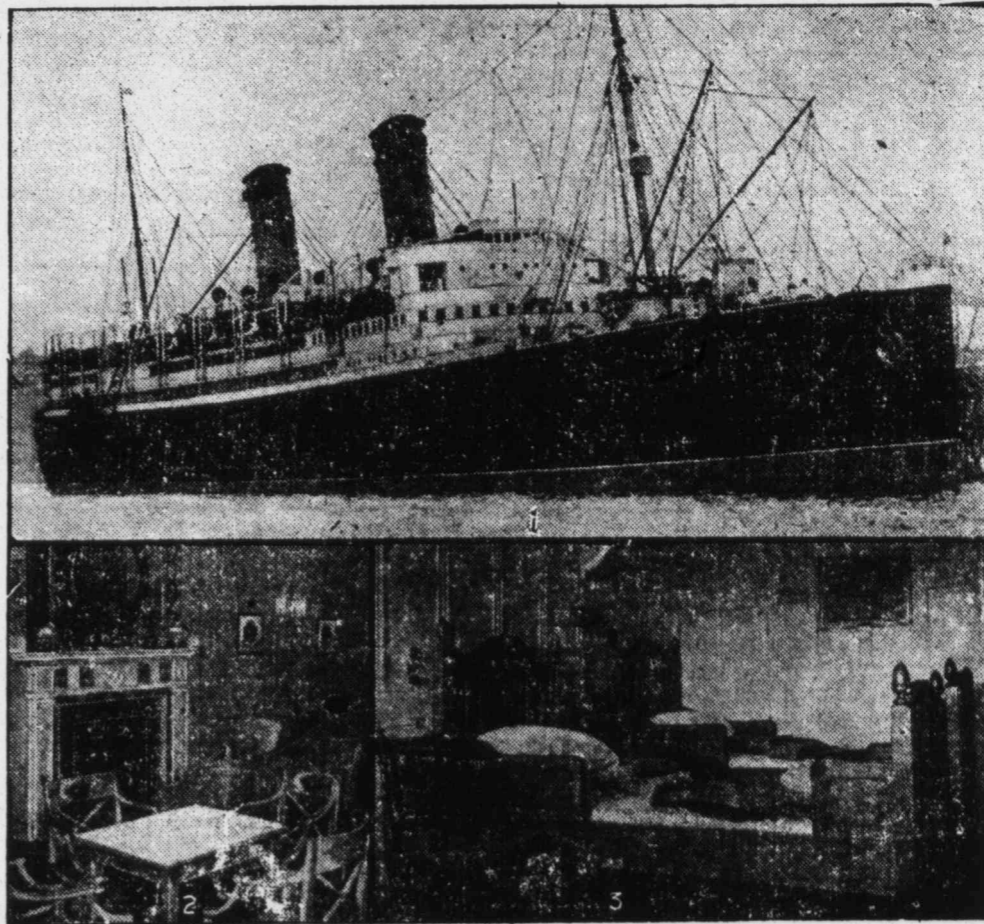

This fruit show will include exhibits from all the colonies of the British Empire, including an exhibit from the Dominion besides the provincial exhibits which will be made by the provinces of British Columbia, Ontario, Nova Scotia and New Brunswick.

Macintosh and Fameuse apples, together with other late varieties grown in the province will form the main part of the provincial exhibit.

This exhibit will be the same as made there at the Fredericton Exhibition by the department.

The fruit show will be in the Crystal Palace at London, and is attracting a good deal of comment from the national nature of the exhibit which will be offered to the English people and to tourists.

ARMED CRUISER RECONDITIONED

(1) C. P. O. S. Empress of France. (2) A Corner of the First-Class Card Room.

The latest addition to the great fleet of C.P.O.S. Steamships which ply between Canada and practically all the important ports of call in the world is the "Empress of France," before the war popularly known as the SS. "Alsatian" and one of the ocean grey hounds between Canada and Liverpool. The vessel has been reconditioned since the war ceased and recently completed her maiden trip to Quebec under her new name. The photographs here reproduced give an adequate description of her interior arrangements and fittings, and will compare favorably with the great Leviathans in this respect. The "Empress of France" has a length of 600 ft.; beam 72 ft.; depth (to D deck) 54 ft. 6 in.; and a tonnage of 18,000 gross. A striking peculiarity is the cruiser's stern, which imparts a warlike appearance to the vessel. Her war record is one to be proud of.

The "Empress of France" as the SS. "Alsatian" was requisitioned for war purposes under Royal Proclamation immediately on her arrival at the port of Liverpool, midnight on the 6th August, 1914. After completion of discharge, the entire removal of all passenger accommodation and other woodwork, she was armed with 8-6 in. guns, commissioned and manned by a naval crew under the command of Captain V. Philimore, D.S.O., and was attached to the 10th Cruiser Squadron on northern patrol duty, sailing from Liverpool on August 15th, at which port she has been based during the entire period of her commission.

From August to December, 1914, she remained as above stated, but in December she was made Flag Ship of the Squadron to which she was attached, and Vice-Admiral Sir Dudley R. S. De Chair, K.C.B., M.V.O., hoisted his flag, which flew up to March, 1915, when he was succeeded by Admiral Sir Reginald G. Tupper, K.C.B., C.V.O., who was succeeded in November, 1918, by Rear-Admiral C. W. Keighley Peach, under whose flag she terminated her commission as an Armed Cruiser. The Squadron to which she was attached, and later became Flagship of, consisted of 24 vessels, the majority of which were Armed Mercantile Cruisers. The duties of the Squadron consisted of the stopping of vessels, boarding them and examining their papers, and should on examination they prove to be at all of a suspicious nature, a Naval Officer was placed in charge and they were taken into a United Kingdom port for closer examination. This similarly applied to any members of the passengers or crew, as each and everyone had to give a satisfactory explanation as to their nationality and business. Available records show that in all the Squadron intercepted some 16,000 vessels, but it is impossible to state how many of these proved to be engaged in work hostile to the Allies' interests.

In the early part of 1918, circumstances permitted of the 10th Cruiser Squadron being considerably reduced in numbers, and vessels so engaged being allocated to Convoy Escort Duty. The "Alsatian" figuring amongst the number and being stationed on the North Atlantic route in

REMARKABLE CHANGE IN THIS MAN'S FAMILY

"I gained 12 pounds, my wife gained 26 pounds and my daughter is gaining day by day taking Tanlac." It's the biggest surprise of our lives and all our friends and neighbors are talking about it. This medicine has made a wonderful change in every one of us. Before I got Tanlac, I could hardly drag one foot after the other. I had indigestion perfectly awful. In fact we were all regular dyspeptics. We all swear by Tanlac now at our house. It ought to be in every home. It's the world's greatest family medicine.

The above statement was made by George L. Tessa, a well-known and highly respected Machinist, living at 83 Downing St. Buffalo, N. Y. Tanlac is sold by leading druggists everywhere.

PREMIER MEIGHEN

The youngest Prime Minister in the British Empire, Rt. Hon. Arthur Meighen is the first citizen of Canada by the Divine right of intellect. Described by Sir Wilfrid Laurier more than ten years ago as "the brightest mind that Canadian Conservatism has produced," his public record, since 1908, has been a procession of dazzling achievements. Solicitor-General in 1913, Minister of the Interior in 1917, Prime in 1920, and acclaimed by the united press of Britain as a great Imperial statesman in 1921—all this within the age of forty-seven—political history embraces few, if any, more remarkable careers.

Nor is it that he has been the spoonfed child of fortune. For Arthur Meighen, like his great British contemporary, Lloyd George, is sprung from the soil, a true son of the people. Born on a farm near St. Mary's, in Ontario, he has toiled with both hands and brain, has fought his way to the summit of eminence by sheer intellect and pluck. One wonders whence he derives the strength and endurance which he puts into his battles? For Mr. Meighen, again resembling Lloyd George, is small in stature. He looks frail and often seems to be weary. He has the face of an ascetic, the abstraction of a student. But as a master of platform and parliamentary eloquence, he stands without a peer. Macaulay once said that Parliament was government by speaking. Judged by that standard, as indeed, by any other, Mr. Meighen is unrivalled in his day. With a platform manner suggestive of passionless austerity he commands a logic that is merciless and wielded as well, though very sparingly, a satire that destroys. He is utterly fearless in debate, and will never be charged against him that he was willing to wound, but afraid to strike. But while a hard hitter, he is always courteous and mindful of his high position. He is not a rhetorician. Cautious, analytical, practical, he does not possess the oratory of exhortation; never descends to the role of a public entertainer; refuses to adjective minor issues into a Thermopylae and never puts imagery before truth. Yet despite his fidelity to logic and cold fact, he is a master of beauty in expression. The gift of style in his, acquired by ardent study of the masters of English literature. There is no pomp nor massive march in his passages, but there is imagination and fine diction and a compelling lucidity and simplicity. It is the best of the oratory of the newer school.

convictions and passions, the answer is not hard. A moderate Conservative, it has been said of him, and without truth, that he has the outlook of a Roosevelt with some-

INCIDENT OF GREAT MIRAMICHI FIRE RECALLED

The Wesleyan says: T. M. Tweedie of Calgary, recently appointed Judge of Supreme Court, is a son of the late Rev. James Tweedie of the Nova Scotia Conference who died at Lousburg, C. B. in 1897, after 43 years in the ministry, and is a cousin of Prof. W. M. Tweedie of Mount Allison University. He received part of his education at Sackville. The story is told of the father of Rev. James Tweedie, who resided in New Brunswick in the Miramichi district, that he would not leave his home when it was threatened by the flames of that great holocaust that was then raging through his neighborhood, but had faith to believe that his prayers for deliverance would be answered. The story tells that this godly home was one of but very, very few that did escape in that vicinity. Three sons of that home became ministers of the gospel.

thing of the temper of a Wilson. A democrat of democrats, he is progressive, but sanely progressive. He does not believe that economic and political laws are unchangeable, that vested interests and property are sacred things and all else is subsidiary. But he believes that progress, whether political or economic, must be orderly and evolutionary, achieved by sane and constitutional means. In this, as in other things, he is essentially British. He is as much the enemy of unteachable obscurantists as he is of intemperate radicals.

SEED GRAIN DISTRIBUTION
The annual free distribution of samples of seed grain will be conducted as usual at the Central Experimental Farm, Ottawa, by the Dominion Cerealist.

The following kinds of seed grain will be sent out this season:—
Spring wheat (in about 5-lb. samples); white oats (about 4-lb.); barley (about 5-lb.); field peas (about 5-lb.); field beans (about 2-lb.); flax (about 2-lb.).
Only one sample can be sent to each applicant.

Applications must be on printed forms which may be obtained by writing to the Dominion Cerealist, Experimental Farm, Ottawa.
As the stock of seed is limited, farmers are advised to apply early to avoid disappointment. Those who applied too late last season are particularly requested to send in their names at once so that application forms may be forwarded to them. No application forms will be furnished after Feb. 1st, 1922.

OFFICERS COUNCIL OF SALVATION ARMY

The meeting of the Salvation Army Congress for the Maritime Provinces was held Monday morning in the Charlotte street Citadel, St. John, and took the form of an officers' council. Commissioner Richards addressed the officers on evangelical lines, basing his remarks on scriptural texts. He impressed on them the necessity of making the utmost efforts to save souls and said that the need for activity was never greater than now. The address was listened to with close attention by over one hundred staff and field officers. Lt. Col. Rawlings, field secretary, also spoke, and Col. McMillan, chief secretary, read a special message of greeting to the officers in session from General Bramwell Booth.

Major Mary Booth will address this afternoon's meeting and this evening a young people's demonstration will be held.

The congress will be continued on Tuesday and officers' councils will be held in the morning, afternoon and evening. At the evening session the local officers and soldiers will be admitted.

Capt. and Mrs. J. A. Goodwin of the Newcastle Corps are in attendance at the Council.

Any person wishing to contribute Preserves or Pickles to the Hotel Dieu Hospital, can leave them at P. Hennessy's Store.

MR AND MRS R CROCKER WEDDED 60 YEARS
NORTH BELLINGHAM, Man., Oct 9—Mr. and Mrs. Rowland Crocker celebrated their 60th wedding anniversary to-day at their home in Hartford avenue.

Mr. and Mrs. Crocker are natives of Doaktown, N. B. where Mr. Crocker was engaged in school work for 47 years. They came to Boston 20 years ago, residing on Russell road, West Somerville, until three years ago, when they moved to their farm in North Bellingham.

Their immediate family, with the exception of Mrs. Samuel Gill of Bellingham, Wash., and Mrs. Palmer of St. John, N. B., daughters, were present and many other relatives and friends.

Mr. and Mrs. Crocker received many beautiful presents and cards from all over the country. Mrs. Crocker still retains her sweet soprano voice and enjoys singing her favorite hymns.

SETTLERS DOING WELL ON BOBTAIL RESERVE

Mention has been made in the Press of the splendid prospects of the returned soldiers who have been settled on the Poorman's and Piapot Reserves in Saskatchewan, which were formerly the property of the Indians.

The story of the conversion of these practically idle lands into busy and profitable farms is replete with incidents which show that war veterans have done well to avail themselves of the splendid opportunities presented by the soldier land settlement scheme. No less striking are the results which have attended the efforts of the 27 soldier farmers who

took up land under the Soldier Settlement Board on the Bobtan Indian Reserve near Jonoka, Alberta. The reserve comprises 6,619 acres, and when taken over from the Indians at a valuation, it was divided into farm units of an average size of 214 acres and sold by the ballot system to returned soldiers. The average price paid was \$12 per acre. The reserve is in one of the best farming districts in Alberta, open rolling country with small clumps of willow brush. The soil is deep black loam of from 14 to 24 inches in depth. There is a good market at Penoka. The majority of the settlers on the Reserve took up residence in the spring of 1920, and a recent survey of the settlement discloses that re-

markable progress has been made since that time. A conservative estimate of the present of the farms show at least 100 per cent appreciation over the price paid by the settler. In fact, one settler has been offered \$50 per acre for his farm and he refuses to sell. To date the 27 settlers have broken 1,246 acres, or nearly 20 per cent of their holdings. This year there is an area of 1,880 acres in crop, 482 acres of which were sown in wheat. The value of this year's crop is conservatively estimated at \$27,600. Prior to the establishment of this settlement there was no cultivated land on the reserve. The settlers have erected substantial buildings and fenced their farms.
