

GIRL COULD NOT WORK

How She Was Relieved from Pain by Lydia E. Pinkham's Vegetable Compound.

Taunton, Mass.—"I had pains in both sides and when my periods came I had to stay at home from work and suffer a long time. One day a woman came to our house and asked my mother why I was suffering. Mother told her that I suffered every month and she said, 'Why don't you buy a bottle of Lydia E. Pinkham's Vegetable Compound?' My mother bought it and the next month I was so well that I worked all the month without staying at home a day. I am in good health now and have told lots of girls about it."—Miss CLARICE MORIN, 22 Russell Street, Taunton, Mass.

Thousands of girls suffer in silence every month rather than consult a physician. If girls who are troubled with painful or irregular periods, headache, dragging-down sensations, fainting spells or indigestion would take Lydia E. Pinkham's Vegetable Compound, a safe and pure remedy made from roots and herbs, much suffering might be avoided.

Write to Lydia E. Pinkham Medicine Co., Lynn, Mass. (confidential), for free advice which will prove helpful.

NOTE AND COMMENT

Canada's prison population has contributed some of the heroes who gave their lives at Langemarek, "saving the situation," according to Hon. C. J. Doherty, minister of justice, who states that over one hundred men have been released to serve their country. Between sixty and seventy of these going with the first overseas contingent, had fallen in the defence of the civilization at which they themselves had warred.

The number of widows of British soldiers who have been reported to the army council is 41,500 according to William Hayes Fisher, parliamentary secretary of the local government board, in a speech to the house of commons committee on the war pensions bill, Friday. There are about 8,000 widows of sailors, Mr. Fisher added.

Five hundred thousand acres of free land are being provided in South Africa to ex-soldiers after the war. Canada has free land for homesteading, but we have learned that making grants of land as an inducement to get non-agriculturists upon it is not very satisfactory. No man will make a successful farmer unless he is im-

FEEBLE, AGED WOMAN

Says Vinol Made Her Strong
Grand Saline, Texas.—"I am an aged woman and for a long time was weak and feeble but Vinol restored my health and strength so that I feel almost young again and am doing all my housework. Old people who are weak and feeble should try Vinol and know its merits as I do. It is the best medicine to create strength and for chronic colds I have ever taken."—Mrs. FANNIE E. RODGERS.
Vinol, our delicious cod liver and iron tonic, is sold on our guarantee to benefit or your money will be returned.
Taylor & Son, Druggists, Watford.

elled by a desire to go on the land.

The kaiser is said to have found out now that Zeppelins are of little use. Perhaps the storm of indignation that has been directed against Germany from the whole world at the slaughter of innocent women and children by means of this device, has something to do with the decision of the German government to cut down its manufacture and possibly eliminate it altogether.

With the object of securing thorough organization of provincial resources for the prosecution of the war and the maintenance of agricultural and industrial production and to inquire into and report upon methods of assisting in the work of recruiting in Ontario, a legislative committee of 14 members has been appointed by the House. This action was taken following the adoption of a resolution moved by Leader Rowell and concurred in by the Government.

This Summer's Holidays Should be on the Farm

(St. Marys Journal)

Conscription is winning many friends these days. Certainly it is the fairest, and most economical method of securing an army. This expensive and unsatisfactory method of wheeling more or less unwilling men into attaching their names to a paper has little to commend it. In the meantime, however, it is the plan in vogue and we must make the best of it. Men are wanted and men must be got. The fear of difficulty in securing a bountiful crop, has probably been overworked. Even agriculture will have to be in a measure subordinated to the needs of the army, and the men secured regardless of the effect on agriculture. However, if the matter is met in a patriotic manner by the people we see no reason why agriculture should seriously suffer. The Educational Department are going to allow the students of the High Schools and Collegiates an early vacation, and they might even delay the opening a little in the autumn. This will help, particularly if town and city people are sufficiently patriotic to send their boys out onto the farms instead of loafing around town, or going into camp at some lakeside resort. They can be utilized on the farms, to the benefit of both farmer and boy and the greater benefit will go to the boy.

That the retired farmer should, wherever his physical condition at all warrants it, go back to help this summer, goes almost without saying. Even if money is no object patriotism demands that all sources of labor be utilized at this time.

Another source of farm help we have not seen mentioned and that is the stores and shops in town. Years ago it was the regular custom of merchants to either go themselves or send their clerks out into the harvest fields for longer or shorter periods during the duller summer months. This custom could, with advantage, be revived and instead of kicking their heels in idleness all week clerks could have a month or two in the country to help in this crisis, returning perhaps to town for Saturday's business.

Nor are clerks in stores and shops the only available supply. Would not a month or two, or three on the farms in the country be as health-giving to our school teachers and preachers as a cottage at Port Stanley, or in Muskoka. We believe it would, and they would, to that extent, be "doing their bit" for their country at the same time. There are probably other sources that could be called upon if the care of this season's crop prove too great a tax on these labor resources. Soldiers are needed and needed now, and the rural parts must furnish their quota.

Warts are disfigurements that disappear when treated with Holloway's Corn Cure.

One hour for lunch each day must be allowed all woman workers in New York state.

A Vienna physician has obtained good results and effected some cures by treating insane persons with hypodermic injections of pure oxygen.
Mrs. Thos. Jennings has settled her claim of \$200 against the Town of Petrolia for injuries sustained through falling over a fallen electric light pole. By the terms of settlement made on Monday Mrs. Jennings accepted \$75, the Town to pay her doctor's bill of \$10. As the Town is insured against damages of this nature it will be reimbursed for the full amount.

Flax a Valuable Crop from an Agricultural and Industrial Standpoint

The flax crop of Canada has come into prominence more than ever this year on account of the losses of the flax fields in Europe. Forty-four per cent of the world's supply of this valuable fibre plant was produced in countries now engaged at war. As a result there has been an enormous shrinkage in the world's supply of flax during the year 1915. Prices of fibre have more than doubled during the past year and spinning mills are greatly concerned for their future supply of raw material.

From the days of the earliest settlement flax has been grown along the St. Lawrence and in Western Ontario and spun into home-made linen. Of late years, however, this crop has not been popular with farmers, it being claimed that it is particularly hard on the land. Scientific investigation does not bear out this theory. Flax is a quick-growing, surface feeding crop and, as such, draws heavily from the available plant food of the upper six inches of the soil. An average crop of flax, however, does not take as much total plant food from the soil as an average crop of the deeper rooted cereals, such as wheat, oats or barley. This fact has been established beyond a doubt by investigational work carried on at the Central Experimental Farm, Ottawa.

Farmers would be well advised to pay more attention to this crop from now on. Prices now being offered by flax mills for fibre straw make it a valuable cash crop. In most cases the mill operator agrees to take the responsibility of harvesting the crop, a feature which will tend to relieve the serious labor situation confronted by many farmers. Even where no mills are operating, flax may be grown with an assurance of a ready market. Linen mills in the United States are offering as high as \$15.00 per ton for good No. 1 Canadian flax, delivered at station.

Aside from its agricultural value, flax has a very important economic value at the present time. Flax fibre is the raw material of the spinning mills and this yarn is the raw material of the linen mills used in the manufacture of linens. Flax developed to the limit of its possibilities will produce a greater amount of increased wealth than any other plant grown and for this reason more attention should be given to its cultivation in Canada. At present prices the export value of an acre of flax runs between \$125.00 and \$150.00, more than four times the export value of ordinary cereal crops. If flax mill owners and farmers will cooperate in placing the flax industry on a permanently profitable basis, a valuable addition will have been made to Canada's growing export trade.

G. G. Bramhill, Flax and Fibre Specialist, C. E. F., Ottawa, Ontario.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ROLL CALL

By May L. Armitage (Mrs. Reginald Smith) written by request.

There's a little word describes him, and it fits him to a "T".
It may sound harsh and nasty, but he's earned it—don't you see?
A Slacker! Ah, the pity! As his brothers face the fray!
His place is vacant, his the gap that helps to lose the day!
For who will hold the old Flag up with dangers raging round?
NOT the slacker!
You will find him in the tea-room, and he dances "awfully well";
You will find him on the golf links, and the game he plays is "swell";
You will find him chasing business, but the business is his own,
And his country—could you call it his?—can fight it out alone—
For will he hold the old Flag up when battle must be done?
He, the slacker!

In the days of peace and plenty with the flag of Liberty
Swinging to the breeze of freedom o'er the tranquil land and sea,
You could hear him—yes, the slacker, as he stood with careless grace,
Decclaim about "our Empire" and the greatness of "our race";
But does he hear the Empire's call as war clouds thicken round?
The dear slacker!

He can read the evening paper, see its pages brimming o'er
With tragedy and valor, and the nation steeped in gore;
The angels weep in pity at the awful sights of war,
But he, the slacker, lights his pipe and says, "Well, here's a go";
Can't some one keep the old Flag up until the battle's won?
Bah! the slacker!

When women's hands are ready to relieve him of his task,
When soldiers, back from battle, a more easy job would ask,
When mothers, sisters, sweethearts, steel their hearts to let him go,
When traitors' plottings through the land a gasty harvest sow
Will he not hold the old Flag up for very shame?
Even, then, the slacker!

The bands are gladly playing, and the men march proudly by,
In hundreds and in thousands they have heard their country's cry,
Shall they leave us—ah! the sorrow—to our trifling, meagre tasks,
Shall our nation hate to own us as she confidently asks
That we shall hold the old Flag up no matter what the cost,
And not be slackers!

'Tis ours—this blessed country, she has given us her best,
She has nurtured and has kept us on her broad and ample breast.
Now she asks us—shall we shame her—that we be her sons, indeed,
That honor, truth and freedom mark the pathway where we lead!
Then let us hold the old Flag up for all that's true,
For we're not slackers!

Handy Helps for
Spic and Span Homes

Of course, you are going to "Paint Up" this spring. There's the bedroom, parlor or dining room wall to be re-finished.

There are Floors to be painted, stained, varnished or waxed. There's the Oil Cloth or Linoleum to be made Spic and Span.

There's the Furniture and Woodwork to be brightened.

Here are six "SPIC AND SPAN" FINISHES that we can freely recommend for this work:

- "NEU-TONE" Flat Tints for the walls
- "WOOD LAC" Varnish Stains
- "MARBLE-ITE" Floor Varnish
- "LIQUID WAX", for hardwood floors
- "SENOUR'S FLOOR PAINT", the old reliable
- "VARNOLEUM", to beautify and preserve Oil Cloth and Linoleum.

We know that these Finishes are the best of their kind. They are "Made in Canada"—and we guarantee that you will be perfectly satisfied with the results you get when you use any, or all, of them.

You'll soon be putting up Pickles and Preserves. You'll need labels for the jars. Come in and get a set of Fruit Jar Labels—printed and gummed. We give them free to our friends.

Fighting Apple Scab.

The fungus which causes this disease lives over winter in the infected areas of dead and decaying apple leaves. In the spring it produces tiny spores. These spores may be carried by wind or by birds to the young and tender foliage, where they germinate readily and produce infections which endanger both fruit and leaves. The first step in the control of apple scab is to destroy the sources of infection. The methods by which this may be done vary somewhat with conditions. If the orchard is small and cannot be cultivated the dead leaves should be raked and burned at some time during the late fall or early spring. For larger orchards early spring plowing is recommended, as it covers the leaves to such a depth that they are no longer sources of danger. The second step in the control of this disease is to protect the foliage by the use of lime-sulphur testing 28 degrees Baume at the rate of one and a half gallons to fifty gallons of water. The first application should be given when the blossom buds are beginning to separate in the cluster and show a pink color. The second should be applied just after the petals fall, and a third ten days or two weeks later. Where rainfall is plentiful a fourth spraying may prove beneficial.

Harrow Attachment for Plows.

Harrowing scientifically close behind the plow when the work is rushing and hands are scarce is a problem, says the Farming Business. Here is shown a harrow attachment for walking plows, and one that requires little extra effort and yet is capable of doing a great deal of work at a time when the work is most needed. It can be drawn by one team or by the addition of a single extra horse. It will save the use of a man and team or, at least, half a team, according to its inventor.

Your Asthma, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It never fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed cure that every one afflicted with this disease owes it to himself to try it.

Ralph Connor on the British Navy

After being privileged to inspect the British navy, Ralph Connor writes: "The Grand Fleet! Oh, Canada! Would that you could stand here and look upon this that a century and a half ago determined for you your destiny, and through those 150 years has allowed you in security to hew your homes from the primeval forest, build your highways, plant your cities by far inland lakes and rivers as upon the Atlantic and Pacific coasts, establish your institutions of a free people, gather into safe storehouses your hard won treasures of an industrious and sturdy race, and lift up to Heaven those symbols of your holy religion, none daring to disturb you or make you afraid. Oh, Canada! You have had your faint imaginings of this mighty thing at times, but more often you have forgotten all about it, your very forgetting the finest tribute you could pay to its protecting power. But were you here to see with your eyes this thing today, how you would rejoice, and how you would understand that woe of this great war, that from the other side of the world your sons, eager to stand with their brothers of the Empire in the great world conflict for world liberty, have been able to make their way without single loss of a gun or man across the open seas in the very face of a foe that hates you with a vindictive hatred given to none else."

WATFORD PEOPLE

GET INSTANT ACTION

Those who have used it in Watford are astonished at the INSTANT action of simple buckthorn bark, glycerine, etc. as mixed in Adler-ika. Because it acts on BOTH lower and upper bowel, ONE SPOONFUL Adler-ika relieves almost ANY CASE constipation, sour stomach or prevent appendicitis. A short treatment helps chronic stomach trouble. Taylor & Son, druggists.

Wheat 4,000 Years Old

When the late John Cardwell of Austin, Tex., was United States Consul at Cairo, Egypt, he sent to his old friend, Col. F. P. Holland, of Dallas, a small quantity of wheat that he had taken from the tomb of one of the ancient kings in newly explored ruins upon the banks of the Nile.

This wheat was known to be more than 4,000 years old. The glass container which holds the grain is hermetically sealed. To all outward appearances the wheat is just as sound as the day it was flayed from the head in the long ago, when the earth was inhabited by a civilization that is now forgotten. The grains are plump and large. "I have been told that the grains would probably germinate if planted, but I have never tried any of them," Col. Holland said.

Children Cry
FOR FLETCHER'S
CASTORIA

There are over 2,500 woman stock-herders and raisers in the United States. Marriage is so costly in Peru that it has become only a luxury for the rich. The Japanese woman is looked upon as a creature of and for the home only. That the human brain can withstand the strain of persistent work better than the muscles of the body has been proved by recent experiments. To remove the water of the Pacific ocean it would require the filling of a tank a mile wide, a mile deep and a mile long every day for 440 years. A French woman living in New York and an athletic director have patented exercising apparatus that resembles and is operated much like a buck saw.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests are macerated in the stomach and pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

Not to be Expected

For nearly an hour the salesman had been dilating on the marvels of the motorcar he was trying to sell. "And the price of the car is \$150," the customer murmured thoughtfully. "Does that include everything?" "Yes—oh, no, of course, the lamps are extra." "Lamps extra!" said the customer sharply. "But they are shown in the illustration." "My dear sir, so is a very beautiful woman," said the salesman smoothly. "But we do not give a lady with every car!"

LIGGETT'S CHOCOLATES are recommended for their purity as well as for their flavour. Sold and recommended by all Rexall Drug Stores. J. W. McLAREN.

The Wisbeach Patriotic League will hold a sewing meeting and ten cent tea at the home of Mrs. G. Conkey Wisbeach, on Thursday afternoon April 20th. Meeting to commence at 2 o'clock.—Esther Seymour, Pres.

A very enjoyable time was spent at the home of Mr. and Mrs. W. W. Edwards, 2nd line, on Tuesday evening April 11th, when the children and grandchildren of Mrs. Wm. Smith (who is Mrs. Edward's mother) met there, the occasion being Mrs. Smith's 73rd birthday. After tea was served a very enjoyable time was spent in music and games.

On Monday evening last a number of neighbors and friends met at the home of Mr. and Mrs. George Smith and gave them a farewell party on the eve of their departure to their new home in the Bethel neighborhood. During the evening they were presented with a box containing silver knives, forks and spoons and an address. A suitable reply was made by Mr. Smith.

A very pleasant event took place at the Methodist Parsonage, Warwick Village, on Wed. April 5th, when Miss Bella Watson daughter of David Watson, 6th line, Plympton, was united in marriage to Mr. Finlay Wilkinson, of Aberarder. The ceremony was performed by Rev. H. F. Kennedy. The bridal party returned to the bride's home for their wedding supper, after which they took the evening train at Forest en route to Michigan, where they intend spending their honeymoon with their American friends. On their return they will take up their residence on the 10th line Plympton. Their many friends join in extending their best wishes for many years of happiness and prosperity.

CHOP STUFF

Edwin Francis Goodison, of Sarnia, and Miss Helen Irene Wanless, of Port Huron were united in marriage last week.

Ann Jane Wilson, widow of the late Charles Moore, died at her home, 10th concession, Bosanquet, on Wednesday, in her 73rd year.

Isabella, daughter of Mr. and Mrs. Geo. Milner, of Forest, died last week. Before her illness she was a telegraph operator at Midland.

Strathroy recruiting league will ask the Dominion Government to adopt registration for military purposes throughout Canada.

Nine men in the Leamington Platoon have failed to pass the required medical examination owing to poor eyesight or some other defect.

Fred J. Gunne, manager of the Bank of Toronto of Wyoming has been transferred to Toronto and will hold the position of Inspector.

Pte. Harvey McAllister, an invalided soldier, has returned to Alvinston. He was a member of the first contingent and lost the use of his arm while fighting in France.

Capt. C. Brown, who has been stationed at Alvinston since the Lambton Regt. commenced organizing, has been transferred to Theford, Lieut. E. Showler going to Alvinston.

Mrs. Fred Raper, of Bridgen, has received word that her brother Ernest was killed in action in France. He had enlisted at the outbreak of the war and had been at the front ever since.

About 75 friends and neighbors gathered at the home of Mr. Jas. McKeown, Plympton, to bid farewell to Mr. and Mrs. Elliott and their daughter Pearl prior to their departure for California.

Eli Griffith, a former well-known resident of Glencoe, died at his home in Westminster township a few days ago, in his 72nd year. He established the woollen mills at Glencoe upwards of thirty years ago.

Dr. F. R. Page, who has been the Wyoming Veterinary Surgeon for the past 2 1/2 years, has recently prior to his leaving for the war, sold his practise, instrument and accoutrements to Stanley J. Brent, who is now writing his final examination in Toronto.

We were shown a remarkable lemon on Monday, grown on a three-foot tree at the home of Mr. Geo. Easterbrook. It measured 12 inches around the long way and 10 1/2 inches around the other way. It was a wonderful specimen for "grown in Canada."—Exeter Advocate.

A letter received from France states that Pte. Neal Beware of Courtright, has been recommended for a D. C. M. Pte. Beware was a member of the 27th Battalion of Sarnia and enlisted in the 1st Battalion at outbreak of war. He is now in the 58th Trench Mortar Battery, but was formerly a bomb-thrower.

Toronto

Toronto, April 11.—Receipts at the Union stockyards to-day were 905 cattle, 169 calves, 915 hogs and 98 sheep and lambs.

There was a lighter run of cattle offering to-day and business was not as active as yesterday. It was a good, fair market, with prices strong. Good choice butchers firm. Fat cows were a shade easier. Choice heavy bulls firm. Straight loads of prime heavy cattle sold around \$8.80. Stockers and feeders are firm. Calves firm for choice veal. Sheep and lambs steady.

To-day's quotations:

Choice heavy steers.....	8 50 to 8 80
Butcher steers, choice.....	8 00 to 8 25
do., good.....	7 90 to 8 15
do., medium.....	7 35 to 7 50
do., common.....	6 50 to 7 00
Heifers, good to choice.....	7 75 to 8 25
do., medium.....	7 25 to 7 50
Butcher cows, choice.....	6 50 to 7 25
do., good.....	5 75 to 6 50
Butcher bulls, choice.....	6 50 to 7 00
do., good.....	5 50 to 6 00
do., medium.....	5 00 to 5 50
Feeders.....	7 00 to 7 50
do., bulls.....	5 50 to 6 00
Stockers.....	7 00 to 7 40
do., medium.....	6 75 to 7 00
do., light.....	5 00 to 5 50

East Buffalo.

East Buffalo, April 11.—Cattle—Receipts, 250; active. Veals—Receipts, 250; active and steady; \$4.00 to \$11.25. Hogs—Receipts, 6,500 head; fairly active and steady; heavy, \$9.55 to \$10.05; mixed, \$9.90 to \$10.00; yorkers, \$9.90 to \$9.95; pigs, \$8.75 to \$9.00; roughs, \$8.90 to \$9.00, stags \$6.50 to \$7.75. Sheep and lambs—Receipts, 1,000 head; active and steady; lambs, \$9.00 to \$12.15; yearlings, \$6.50 to \$10.75; wethers, \$9.00 to \$9.50; ewes, \$4.00 to \$9.00; sheep, mixed \$8.75 to \$9.25.

Address and Presentation

A number of the young men gathered at the home of Mr. and Mrs. Wm. J. Skillen, 2nd line, on Saturday evening and presented their son, Chester, who has enlisted in Lambton 149, with a wrist watch and the following address:

Watford, April 8th, 1916
To Mr. Chester Skillen:

We, your friends and neighbors, desire to express to you before you leave us for the front the feelings of gratitude and pride that your enlistment gives us. We regret that this war has been forced upon us and that so many of our young men have been called on to defend our homes and country. We feel however, that our cause is a righteous cause, and are satisfied that you, as one of our representatives from this community will never fail to uphold and maintain the cause of liberty, justice and freedom. We would ask you to accept this wrist watch as a slight token of our respect and esteem.

We trust that it will ever remind you that our best wishes and our prayers go with you. May God guard and protect you from all danger and soon bring you safely back to home and friends.

Signed on behalf of your friends and neighbors,
S. C. Rycraft Frank Moffatt
John A. Spalding J. W. Gault

Pte. C. M. Skillen, although taken by surprise, wished to thank the friends and neighbors for this very useful gift, and no matter where he shall be until his return, his old friends on the 2nd line shall never be forgotten.

BROOKE

The regular meeting of the Ladies' Aid Society of the Walnut Methodist church will be held at the home of Mrs. John Hawes on Thursday April 20th, at 2.30 p. m.

K. Cook and J. M. Brunt made a business trip to Sombra.

Miss Hope Taylor spent the week end at Mr. Geo. Freer's.

Ed. Manicum, of London, came home Sunday.

Major and Mrs. Chesham, of Stratford, were home Sunday.

Miss Margaret Rogers, of New York is home for her holidays.

Mr. and Mrs. Robert Galbraith are the proud possessors of a baby boy.

Mrs. Leacock visited the Misses Harrison in Brooke.

David Correstine, of Walnut, spent the week end at Geo. Freer's.

Rev. Ball attended the funeral of his nephew in Exeter last Thursday.

The Misses Freer entertained the Kerwood High School girls to hot maple

sugar.

Mr. and Mrs. Will Rogers and little daughter, of Brantford, spent Sunday with Mr. Rogers parents here.

The Woman's Institute will hold their next meeting at Mrs. J. M. Brunt's, April 19th. A good attendance is requested.

Two young men formerly members of the Methodist Sunday School and now with the 135th battalion sent \$5.00 towards paying for the new organ in the school.

On Wednesday evening, March 22nd, friends and neighbors of Mr. John Campbell and family, Curry road, gathered in great numbers and surprised them by taking possession of their spacious home for the purpose of spending an evening with them and saying good-bye, prior to leaving for their new home near London.

Each member of the family were then called forward, and Mrs. Wm. Johnson read in her usual capable manner, the following address:

Dear friends,—We, your neighbors and friends, feeling that we could not allow your departure from the neighborhood to remain unnoticed, a number of us have gathered this evening for a few social hours together. The years you have been with us, we have enjoyed the benefit of your kindness, sympathy and social manners, in your associations and dealings with us. Though we are very sorry to have you leave us, yet we trust our loss will be others gain, as you have always been willing to help in the various undertakings in our midst.

After which a beautiful Westminster chimes clock and a dozen silver knives and forks were presented, with the wish that the name Westminster be changed to Kerwood chimes.

Mr. Campbell and eldest daughter made a fitting reply, each speaking with the deepest feelings, and expressed their most sincere appreciation for the gifts presented, also at being very sorry indeed

to leave this locality. It was their sincere desire that one of us should visit them in their new home. The bountiful lunch was then partaken of, and thoroughly enjoyed by all present. After singing "God Save the King, all departed feeling that the old maxim "Make new friends but keep the old," is quite right.

ISSUER OF MARRIAGE LICENSES

Various Items of General Interest
Donald, the 11-year-old son of Marshall Enderly, Malden, while adjusting the power mill one day recently became entangled in the gearing and was badly bruised. He had several ribs broken.
Constable Blakely, of Blenheim, picked up a young robin Monday and after keeping it for a day he liberated it again. Where the young bird came from is a mystery, as it does not seem possible that it could have been hatched here, yet it did not seem able to fly any such distance as would have been required in migration.
John Leatherdale, of Harwich, was leading a colt, which became frightened and dragged him about the barnyard. His clothes were torn off and his underclothes in shreds when he managed to release his hand from the halter strap. A physician found it necessary to remove part of the thumb. If the ground had been frozen he could not have escaped death.
Owing to poor health, Mr. H. G. Taylor of Wyoming has resigned the position of treasurer of the P. & W. Agr'l Society, which he has held for the past forty years. A resolution was unanimously passed by the Society at a recent meeting regretting the loss of so able an officer. Geo. A. Dewar was elected to the office.
At many recruiting meetings now being held the addresses are more particularly directed to the female members of the audience. Young women should consider whether the young men, with whom they are keeping company, has a legitimate excuse for not being in khaki. Mothers should consider whether they had any right to keep back their sons who wanted to play a man's part in the greatest chance that had ever come to men to do so. Your mother needs you, remember your country needs you more than she does. The following is authentic: A young German, who was in America, wrote home to his fiancée that he was coming home to fight for his country. The young woman, who had already lost several near relatives in the war, wrote back attempting to dissuade him from doing so and offered to go to America to meet him. The young man received the letter but the censor added the postscript: "This woman had been shot for high treason in attempting to dissuade her soldier-lover from returning to his duty." That is a real tragedy. That is how the Hun would rule this land.

Production and Thrift
"CANADA from her abundance can help supply the Empire's needs, and this must be a comforting thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—HON. MARTIN BURRELL, Minister of Agriculture.
"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. "Work and Save" is a good motto for War-time."—SIR THOMAS WHITE, Minister of Finance.
THE CALL OF EMPIRE COMES AGAIN IN 1916
TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS
WHAT IS NEEDED? THESE IN PARTICULAR—
WHEAT, OATS, HAY, BEEF, PORK, BACON, CHEESE, EGGS, BUTTER, POULTRY, CANNED FRUITS, FRUIT JAMS, SUGAR, HONEY, WOOL, FLAX FIBRE, BEANS, PEAS, DRIED VEGETABLES
We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.
"THE AGRICULTURAL WAR BOOK FOR 1916" is now in the press. To be had from The Publications Branch, Department of Agriculture, Ottawa.

SHARP ATTACK REPULSED

Dangerous Condition Relieved Just In Time By "Fruit-a-tives"

MR. F. J. CAVEEN
682 Gerrard St. East, Toronto.

For two years, I was a victim of *Acute Indigestion and Gas in The Stomach*. It afterwards attacked my Heart, and I had pains all over the body, so I could hardly move around. I tried all kinds of medicines but none of them did me any good. At last, acting on the advice of a friend, I decided to try 'Fruit-a-tives'. I bought the first box last June, and now I am well, after using only three boxes. I recommend 'Fruit-a-tives' to anyone suffering from Indigestion, no matter how acute". **FRED J. CAVEEN.**

Simple Indigestion often leads to *Heart Attacks, Catarrh of the Stomach and constant distress of mind and body*. If you are bothered with any Stomach Trouble, and especially if Constipation troubles you, take 'Fruit-a-tives'.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

A SCHOOL FROCK.

All Modish Goes This Maiden Back to Classroom.

A SATISFACTORY DESIGN.

This simple frock is made of navy blue and red plaid gaberdine and trimmed with white pearl buttons. A red patent leather belt matches the smart little four-in-hand of red velvet ribbon. The collar and cuffs are of white pique.

KITCHEN CUES.

Simple Ways of Doing Simple Things Intelligently and Well.

To prevent potatoes becoming black when cooked put them into cold water and when brought to the boil squeeze a little lemon juice in. They will then keep a good color and be of good flavor.

Before using tinware of any kind rub it well over with fresh lard. It treated in this way it will never rust.

Slip a thimble on the curtain rod when running it through the hem of the curtain.

The tops of pale covered evening gloves make very dainty shoes for babies.

For a homemade coal box procure a wooden lard bucket from the grocer. Remove the wire handle and clean thoroughly inside and outside with strong soda water, one pound to a gallon of boiling water. Purchase a three penny bottle of oak varnish and when the bucket is dry apply over evenly and quickly. Leave for several hours. Get two penny bronze handles and screw one on each side, and the article is complete. The outside cost of this is a quarter, and it looks as well as one costing several times that amount.

White satin shoes should always be kept in blue paper to prevent them from becoming discolored.

After fowl of any kind is cleaned the inside should be rubbed thoroughly with a piece of lemon before the dressing is put in.

When ivory handled knives look yellow rub them with fine sandpaper or emery. It will take off the spots and restore the whiteness.

If clothespins are dipped in white enamel paint and dried in the sun they can be kept perfectly clean and will not split or mark the clothes.

Tin that has become rusty of stained may be cleaned by dipping the cut surface of a raw potato in fine brick and rubbing well with this.

Unbleached Muslin Spread.

Every woman likes to own a hand-made spread, but the majority of spreads call for such expensive materials that few women can afford to indulge in the luxury. However, here is a spread which is within almost every woman's reach. It can be duplicated for about \$5. The spread is made of unbleached muslin. All over its surface conventional scrolls are outlined by means of huge French knots. On the spread in question white knots are used, but there is no reason why one could not use colored cotton to carry

WHEN BUYING YEAST INSIST ON HAVING THIS PACKAGE

DECLINE SUBSTITUTES

out the color scheme employed in one's bedroom. The edge of the spread is finished with cotton fringe.

In place of a quilting party why not have a spread party? The work will then be quickly and pleasantly done.

A Kitchen Hint.

Keep a piece of pumice stone in the kitchen to clean the irons with. It will instantly remove those particles of starch that adhere to the iron and will also remove rust or dirt. A careful rubbing with pumice before you put the irons on to heat will prevent any possibility of dirty marks on the delicate linens and laces.

Farm and Garden

NEEDLESS LOSS BY SMUT.

The Formation Treatment at Slight Cost a Preventive.

A western farm writer tells of a visit to an elevator last fall when a farmer brought in a sample of wheat. It was promptly rejected by the buyer.

We examined the wheat, says the writer, and found the worst case of stinking smut we had ever seen. Fully 10 per cent. of the sample was smut balls, and the whole was dirty looking and foul smelling. At best the sample of wheat was worth no more than feed prices, and it is doubtful whether any kind of stock would have cared to eat the stuff.

Here was a case where a farmer who had done all the work necessary

SMUT IN WHEAT.

to produce a crop of wheat and had harvested and threshed it probably secured fifteen bushels of wheat per acre worth no more than 60 cents a bushel, whereas if he had sown good seed he might have harvested twenty bushels of wheat worth 90 cents a bushel. In other words, he could have got \$18 per acre for his crop in place of \$9.

The entire loss could have been prevented by the formalin treatment at a cost not to exceed a very few cents per acre. A pint bottle of formaldehyde costing from 35 to 50 cents and a few hours' labor would have treated enough seed grain to sow fifty acres. There is no excuse for such a loss except carelessness. Any drug store, general implement dealer, experiment station, or farm paper will cheerfully furnish information concerning the treatment of grain for smut. No farmer is wealthy enough to afford to sow grain affected with smut.

KEEPING YOUNG.

Old Age is Not by Any Means Merely a Matter of Years.

There is no scientific evidence to show that late youth and middle age are the periods of commencing decrepitude and "old age." Man grows old because he is injured; because his body cells are poisoned, and not because he has lived just so many years. There is no relentless law determining when a man shall grow old. The tradition "three score years and ten" is conditioned mainly on the manner of living and not by any natural law. But man has it in his power to modify these conditions either for better or worse.

Probably a greater luxury of living which is not balanced by proper physical exercises is a primary condition to be reckoned with. But temperance all along the line—in eating, drinking, working, playing and even in resting—has been suggested as a wiser principle to hold to. This avoids the possibility of rusting out on the one hand or of wearing out on the other.

Yet there is another way and a more worthy reason for retaining youth and deferring old age—cultivate health for the love and pleasure of it. The monthly letter of the Life Extension Institute says in this suggestion: "It is not a fear of illness or of death that we should encourage, but a love of health, a sense of responsibility for the care of our bodies, a desire for bodily endurance and efficiency and full achievement. If the mind is fixed on these ideals and the already known means of approaching them are utilized, heart disease, kidney trouble and the needless miseries that embitter the lives of so many may be left to take care of themselves. It is not so much necessary to fight disease as to cultivate health for the happiness, contentment and moral gain that it brings."

AGE OF THE EARTH.

Different Systems of Computing It and Their Varying Figures.

As long ago as 1860 John Phillips, the geologist, estimated that the time required for the deposition of the stratified rocks lay between 38,000,000 and 96,000,000 years. This was probably the only estimate prior to Kelvin's epoch making paper of 1862. Since that time many estimates have been made, varying all the way from 17,000,000 years to 400,000,000 years.

Kelvin was the first to discuss the age of the earth considered as a cooling body. In 1863 Clarence King introduced the important criterion of tidal stability and reached the conclusion that 24,000,000 represented the conditions. This result was adopted by Kelvin in 1867, and then he placed the limits as 20,000,000 and 40,000,000 years.

Only Sir George Darwin has discussed the age of the earth from a purely astronomical point of view. From his theory of the earth moon system he derived an estimate of more than 56,000,000 years, which for a long time stood between groups of higher and lower figures. J. Joly was the first to base estimates of the age of the earth in 1899 on the sodium contained in the ocean. Adopting the hypothesis that the sodium content of the ocean is derived at a constant rate from that of the rocks, he arrived at an age of 80,000,000 or 90,000,000 years and increased this by 10,000,000 in 1900. In 1909 Mr. Sollas made a searching inquiry into this subject and placed the age of the ocean at between 80,000,000 and 150,000,000 years.

Regulate Kidneys AND Relieve Constipation

Gin Pills are acknowledged to have the largest sale of any proprietary medicine in Canada—an achievement solely due to their remarkable virtue as a Kidney and Bladder remedy.

But users of Gin Pills have discovered that this invaluable remedy also acts as a mild cathartic. The evidence of hundreds of letters we have received establishes the very logical fact that in compounding a medicine to heal and tone up the Kidneys and Bladder certain of the ingredients have a stimulating effect upon the other organs, especially the bowels.

It is important to know, in the case of constipated patients, that Gin Pills do not act harshly on the bowels; there is no gripping, but a gradual and gentle restoration of the function. Try Gin Pills for constipation. In thus relieving the bowels, you safeguard yourself against possible Kidney trouble.

Gin Pills are 50c. a box, or 6 boxes for \$2.50 at your dealer's. A trial treatment will be sent upon request, to

National Drug & Chemical Co.

Have the best decorated home in your neighborhood

The character of the neighborhood in which we live and the appearance of the houses in which we dwell have a vital influence upon our own personality, our social and business character and in moulding the character of our children.

For the Exterior

Exterior decoration calls for paint made of the choicest materials and durable colors so combined as to insure the greatest covering and protecting power.

is the paint that has been proved by years of exposure to give best results. "High Standard" Liquid Paint comes ready for use in every desirable color.

For the Interior

In selecting the finish for interior walls and ceilings remember that

gives the most beautiful effects in soft, flat colors that are permanent, washable and sanitary—the most satisfactory of all interior finishes. "Mellotone" gives a pure white finish or choice of many delicate hues, as "soft as the rainbow tints." "Mellotone" will lighten and brighten your whole home.

For every paint purpose—inside and out—there is a Lowe Brothers "High Standard" Finish

Linduro—an enduring enamel. Non-Fading Oil Stains—for staining woods in any desired finish. "Little Blue Flag" Varnishes—remarkable for their uniform quality, depth of lustre and general efficiency. We are exclusive agents for Lowe Brothers "High Standard" Paints, Varnishes, Enamels and Stains. Come in and see color cards and sample finishes.

BOARD OF EDUCATION

Minutes of a regular meeting of the Board of Education held in the Library Board room on Monday, April 3rd, 1916, at 7.30 p. m.

Present—J. W. McLaren, Chairman; Wm. Harper, Dr. Hicks, Dr. Howden, R. C. McLeay, W. E. Fitzgerald, John White, C. W. Vail, W. L. Millar and Principal Steer.

The minutes of the last meeting were read and confirmed.

The principal's report of the Public School for March was read.

Hicks—Miller, and carried, that the report of public school be accepted and filed.

Fitzgerald—Harper, and carried, that the following accounts be paid.

PUBLIC SCHOOL
 John Cooper, gravel, \$16 20
 J. W. McLaren, supplies, 26 00
 High School, John Cooper gravel, 40 50
 A. B. Steer, supplies, 3 50
 J. W. McLaren, balance of account for 1915, 20 00
 T. B. Taylor & Son, supplies, 62 45
 Harper—Howden, and carried, that Walter Cook's account be carried over.

McLeay—Howden, and carried, that we request the municipal council for \$300.00 for public school requirements.

Fitzgerald—Vail, and carried, that we approve of the purchase of the steel flag staff made by the repair and supply committee from the Ontario Wind Engine & Pump Co., Toronto.

Principal Steer addressed the Board on some matters pertaining to the school. The Secretary was authorized to procure some order forms for the high and public schools.

White—Hicks, and carried, that we adjourn.—D. WATT, Secretary.

A Newspaper's Position

(Collingwood Bulletin)
 A newspaper is in no sense a child of charity. It earns twice over every dollar it receives, and it is second to no enterprise in contributing to the up-building of a community. Its patrons reap far more benefits from its pages than its publishers, and in calling for the support of the community in which it is published, it asks for no more than its fair share belongs to it, though generally it receives less.

Thousands of mothers can testify to the virtue of Mother Graves' Worm exterminator, because they know from experience how useful it is.

CASTORIA For Infants and Children In Use For Over 30 Years

Always bears the Signature of *Chas. H. Hitchcock*

Drummer's Death Was Accidental

Petrolia, March 30.—At the inquest tonight into the death of Drummer Edward Kerr, a verdict was reached that death was accidental, due to a fall while in a friendly wrestle with Pte. Wm. Edwards. It had been suspected meningitis had caused the youth's death.

The story told by Pte. Edwards was that several of the young soldiers of the local Lambton unit were engaged in friendly scuffling on the sidewalk; that someone had shoved young Kerr against him, and he had clinched. Upon Drummer Kerr asking to be released, Edwards had let go. At the same time Kerr gave a quick jerk, and the suddenness of the release dropped him to the walk upon his head. Edwards helped him to rise, and on being asked if he were hurt, Kerr replied that he had just hurt his head, and continued tussling with the boys for half an hour or more. Later in the evening he had entertained some of the boys with drum selections. The fall occurred at 7.30.

Dr. Mulligan, who performed the autopsy, said there was a bruise on the skull and a blood clot over the whole brain, also a small tear of the left hemisphere of the cerebellum. Death was due to hemorrhage. The delay in the result was natural, as the blood had to clot before the injury would take effect.

Always Serviceable.—Most pills lose their properties with age. Not so with Parmelee's Vegetable Pills. The pills can be carried anywhere without fear of losing their potency. This is a quality that few pills possess. Some pills lose their power, but not so with Parmelee's. They will maintain their freshness and potency for a long time.

OVERWORKED MOTHER Finds Health In Our Vinol

Collinsville, Ill.—"I suffered from a nervous break-down and terrible headaches, and was tired all over, totally worn out and discouraged but as I had a large family I had to work despite my suffering. I saw Vinol advertised and decided to try it, and within two weeks I noticed a decided improvement, and now I am a well woman."—Mrs. ANA BECKER.
 We guarantee Vinol, our delicious cod liver and iron tonic, to strengthen and build up weak, run-down, overworked mothers.

Taylor & Son druggists, Watford

For Hang-on Coughs, Colds

For the coughs that run into consumption, a remedy is needed that will work on the blood, make it pure, rich and wholesome, build up the wasting tissues and put the body into condition for a fight against this dread disease.

Dr. Pierce's Golden Medical Discovery fights in the right way. Its first action is to put the stomach, bowels, liver and kidneys in good working order; that makes digestion good and assimilation quick and thorough; it makes sound, healthy flesh. That's half the battle.

TAKE THIS CASE FOR INSTANCE.

St. Catharines, Ont.—"I owe forever a great debt of gratitude to an army officer and a particular friend of mine for recommending Dr. Pierce's medicine, as well as to Dr. Pierce for discovering such wonderful medicines. I had been a great sufferer for twelve years with bronchitis, which I contracted while doing service in India. I have been engaged in nearly every country in the world and from having to sleep out in all kinds of weather the bronchitis became chronic and I was afraid of consumption at times. The doctors gave me no hope but that it would eventually mean consumption, I was so bad. I had tried every known remedy and physicians in foreign countries but got no relief. After returning home a friend advised me strongly to try 'Golden Medical Discovery.' I did so and took eight bottles in all and to-day am entirely free from bronchitis. I honestly believe I would not be in the land of the living to-day were it not for this wonderful medicine."—CAPT. A. W. STRACHAN, R. E.

J. F. ELLIOT, Auctioneer

Address and Presentation

A very pleasant evening was spent at the home of Mr. and Mrs. John Stanger on Monday evening, April 3rd, when over fifty friends and neighbors of Pte. John Lamb met to spend a social time with him. Mr. R. Brock was chairman and gave an appropriate address. Addresses were also given by Rev. S. P. Irwin and Rev. J. C. Forster and were much appreciated.

About the middle of the program Pte. Lamb was called upon. The following address was read by Miss Stella Williamson and presentation made by Miss Mary Stanger:

Watford, April 3rd, 1916.

Mr. John Lamb: Dear friend,—We have gathered together to-night for the purpose of expressing our appreciation of the noble step you have taken in answering the call of King and country. Patriotism is a true virtue. It is an untold blessing to have a country one can call his own, and under whose protecting care one can feel that life and property and honor are safe. In this time of peril you feel you cannot look on and see your country threatened by cruel and ruthless foes without coming forward to do your part. You cannot be content to see another do his bit and yours also. We are here tonight to do you honor. We feel the more constrained to do this, because you are the third son of your father to don the khaki. This is a noble offering for one family to lay on the altar of patriotism. As a slight token of our esteem, please accept this wrist watch which will be a constant reminder to you, of the interest and prayers of the folks at home. It is your lot to go to the front may you do your part nobly and may the Heavenly Father be pleased to bring you home again in safety. Signed on behalf of your friends,
Mrs. John Stanger
Miss Kate Ross.

Pte. Lamb, although taken completely by surprise, made a very suitable reply, thanking his friends for their kindness to

him and said that if he was called upon to do his duty, the many pleasant remembrances of Watford and its associations would always present themselves.

The singing of "For He's a Jolly Good Fellow" brought the program to a close. Games were then indulged in, after which a very dainty lunch was served and all returned to their homes much satisfied with the evening's enjoyment.

COMMUNICATIONS.

About Pool Rooms

Watford, April 11th, 1916.

To the Editor Guide-Advocate.

Kind Sir—Allow me through the columns of your valuable paper to give a few facts to the public which I think they should know. On Feb. 7th the question of billiards came up in the Council. It was said by members of Council that billiards could be stopped. I questioned if they would stop them. I got no answer. On motion being put to grant licenses I voted for it, thinking it was better to have one hundred and forty dollars in the town treasury than to go on the same as it has for the last year wrangling and spending the public's money in useless law costs. With the firm belief that the hours for closing was seven o'clock on Saturday night and 10 o'clock each other night in the week, on March 8th at meeting of Council, I seconded a motion instructing the Reeve to inform Mr. McKay to comply with the by-laws regulating pool rooms. He did so. Pool room closed at 7 o'clock. On April 3rd the regulating of pool room hours came up. No by-law form appeared to fill in. I wrote out a motion that the hours for regulating pool rooms be ten o'clock on each night and seven on Saturday night. I could not get a seconder. I passed it to the chairman. He said it was in order and the Council had full power to regulate the hours. A motion was made and seconded to extend Saturday night to ten o'clock the same as other nights. On motion being put I asked for the yeas and nays. The motion was declared carried, contrary was not asked for to my knowledge and is not in the minutes. One councillor would not vote, another says he did not vote. I voted against it. I could not do otherwise and stand by my former vote. 87 hours a week is enough. No billiards in February, more billiards in April, one man's business restricted to seven, another's extended to ten o'clock across the street.

Decency and order demands a quiet Saturday night to be a man on Sunday, and a Sunday well spent brings a week of content. I don't wish to appear in the lime light but I think billiard men are taking a long chance. One thousand dollars of Watford's money has been wasted if we go back a few years by not doing the proper thing at the proper time, still we go merrily on—not the good old way but the same old way.

What I have said is the truth and I defy contradiction. Thanking you Mr. Editor, for the space used,
Respectfully yours,
JOSHUA SAUNDERS,
Councillor.

Hotels After Prohibition Comes in Force

Toronto, April 13—Dr. J. B. Martyn, member in the Legislature for East Lambton, will likely have the honor of leading the House in promoting legislation to improve conditions in the province after prohibition comes into operation. With the consent of the Premier Dr. Martyn will introduce a bill following the Saskatchewan act to enable municipalities to exempt from taxation hotels in local option districts, and to further encourage the maintenance of good houses to grant exclusive licenses to sell ordinary local option or light refreshments. Other provisions of the bill will enable municipalities to make grants and otherwise assist in the reorganization that will be necessary after the sale of liquor is abolished. It is not yet known whether this legislation will receive government support, but there is likely to be a full discussion on the proposal, and it is favored by a majority of the members the Government may take it up.

Dr. Martyn has also succeeded in getting a grant from the Department of Agriculture for the newly organized fruit and vegetable growers association in Lambton County. The Department is not anxious to make these grants, but in view of the success achieved by the Corn Growers association, a grant of \$200 will be given, while the grant heretofore given to the Corn men will also be continued.

Townline West

Quite a number of the farmers in this section are buzzing wood.

George Armstrong moved to Sarnia on Tuesday.

John McAustin made a trip to London on Thursday.

Miss Agnes Armstrong, of the sixth line, is the guest of Miss Essie Nesbitt.

Reginald Leach returned to his school in Courtright on Tuesday.

On Monday evening friends and neighbors met at the home of Mr. and Mrs. George Armstrong to express regret that the latter were so soon to remove from the neighbourhood, and to wish them happiness and prosperity in their new home. At the end of a short program an address was read and Mrs. Armstrong was presented with a handsome tray of silver spoons.

When little ones are peevish, give Rexall Orderlies; constipation is often the cause. Sold only by Rexall Drug Stores, 15c and 25c boxes. J. W. McLAREN.

SPRING REMINDERS

OF RHEUMATISM

Raw, Damp Weather Starts the Pains, But the Trouble Lies in the Blood

Spring weather is bad for rheumatic sufferers. The changes from mild to cold, the raw, damp winds start the aches and twinges, or in the more extreme cases, the tortures of the trouble going. But it must be borne in mind that it is not the weather that causes rheumatism. The trouble is rooted in the blood—the changeable weather merely starts the pains. The only way to reach the trouble and to cure it is through the blood. The poisonous rheumatic acids must be driven out. Liniments and rubbing may give temporary relief, but cannot possibly cure the trouble. The sufferer is only wasting time and money with this kind of treatment and all the time the trouble is becoming more deeply rooted—harder to cure. There is just one speedy cure for rheumatism—Dr. Williams' Pink Pills. They act directly on the impure, acid-tainted blood. They purify and strengthen it and thus root out the cause of the rheumatism. Here is strong proof of the above statements, Mr. Michael Personage, Feulon, Man., says:—"My mother suffered several years with rheumatism. We tried a number of remedies but they all failed to cure. Then we got Dr. Williams' Pink Pills, and after using them for some time she was completely cured and has had no sign of the trouble since."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Church and Cemetery Being Washed into the Lake

Amherstburg, April 9.—Rollers from Lake Erie are causing erosion along the Canadian shore to such an extent that part of the cemetery of Christ Church, Colchester township, near Amherstburg, has been washed into the lake.

Several graves are now under water, and the farmers are fighting desperately to save the historic graveyard, where are buried their forefathers and soldiers who fought in the war of 1812. Trees, brush and stone are being hauled into position, in an effort to prevent further damage.

The church is also in danger, being only a few feet from the brink, which is rapidly disappearing. The situation is so serious that the Government has been asked to lend assistance.

Windsor now pays seven cents for a 1½ lb. loaf of bread.

Wall Papers

There's an easy chair waiting for you in our Wall Paper Department and we'll be glad to show you through our samples.

Why send out of town when you can come here and make your selection at leisure.

You have the advantage of seeing how the goods look before you buy.

You won't have to keep one or two rolls which may be left over and there is no delay in getting an extra roll should you require it.

You don't need to send your money before you get the goods.

Our prices are reasonable too.
