

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

Coloured covers/
Couverture de couleur

Covers damaged/
Couverture endommagée

Covers restored and/or laminated/
Couverture restaurée et/ou pelliculée

Cover title missing/
Le titre de couverture manque

Coloured maps/
Cartes géographiques en couleur

Coloured ink (i.e. other than blue or black)/
Encre de couleur (i.e. autre que bleue ou noire)

Coloured plates and/or illustrations/
Planches et/ou illustrations en couleur

Bound with other material/
Relié avec d'autres documents

Tight binding may cause shadows or distortion along interior margin/
La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure

Published under direction of the Board of Agriculture of Nova Scotia.

Omnium rerum, ex quibus aliquid acquiritur, nihil est agriculturâ melius, nihil uberius, nihil homine libero dignius.—Cicero: de Officiis, lib. I, cap. 42.

VOL. III.

HALIFAX, N. S., SEPTEMBER, 1879.

No. 30.

CATALOGUE OF REGISTERED NOVA SCOTIA CATTLE,
 SEPTEMBER, 1879.

This List is issued for the convenience of Exhibitors at the approaching Provincial Exhibition. The New Register, now in course of preparation, will contain only animals that have been re-registered, any errors of description will be corrected, and erroneous entries eliminated.

In the lists of Jersey cattle we have included not only the animals registered by their owners, but also all Jersey Stock known to have been brought into the Province and believed to be pure. It seemed to be necessary to do this, not only for the purpose of obtaining a starting point for a Register, but in order to obtain, by publicity, a shifting of facts that may become important in the future. In cases where the pedigrees are fragmentary or imperfect, the probable degree of purity of the animal must be estimated from the information accessible. The animals that are entered without pedigrees are known to have been imported from Jersey as pure, or to have descended from imported parents, but the present owners should lose no time in supplying the information necessary to place them above suspicion. We shall feel obliged to anyone who will take the trouble to correct any errors in any of the lists of thorough-bred stock, or supply information necessary to complete the records.

The editor of the *Colchester Sun* has sent us a bottle containing the mortal remains of the "Forest Worm," a caterpillar which he describes as making great ravages in parts of Colchester and Pictou counties. West New Annan has especially suffered, the forest trees for many square miles, with the exception of the poplar, being completely destroyed. The great danger feared is that it may attack the orchards and the standing grain. Unfortunately the specimens were not in a condition to be identified. [Since the above was in type we have received better specimens, and will describe the insect next month.]

EXHIBITIONS.

Provincial Agricultural and Industrial Exhibition,
Halifax, Sept. 29 to Oct. 3.

Barrington Head Ag. Soc'y, Barrington, Oct. 7.

Queen's County Ag. Soc'y, Liverpool, " 8 & 9.

Yarmouth County Ag. Soc'y, Yarmouth, " 9.

Lunenburg and Mahone Bay, " 15.

SECRETARY'S OFFICE, EXHIBITION BUILDING, TOWER ROAD,
Halifax, September 22nd, 1879.

THE Eighth Provincial Agricultural and Industrial Exhibition of Nova Scotia is already in active progress. A magnificent Exhibition Building has been erected, an ample field has been enclosed for showing cattle and horses, and the buildings necessary for their shelter have been put up. Entries of exhibits from nearly all parts of the Province have been made, and some of the heaviest exhibits of machinery are already in place. The Railways and Steamboats have granted greatly reduced rates for passengers and exhibits; two new Railways have been completed to bring to the Central City the inhabitants of the far East and the far West; the householders of Halifax are preparing accommodation for a large influx of visitors; farmers and mechanics, merchants and professional men, all over the Province, are looking forward to Exhibition Week, and all that is apparently required now to complete the happiness of the people of Nova Scotia is a week of fine weather, to enable them to witness, participate in, enjoy, and profit by, the best Exhibition that has ever been held in the Province. We do not like to anticipate, but we know that our readers will be gratified to hear that the entries now completed assure the success of the Exhibition as a display of the industry of the country, and as a means of testing the merits of our productions. The whole Province may look with justifiable pride upon the Halifax Exhibition of '79. We may reasonably hope that the benefits to be derived from it will be of an abiding character, that it will give an impetus to our Industrial Production; that it will suggest some of the results that flow from the application of training, knowledge and intelligence, to daily toil; and that it will arouse in the minds of our people a sense of the great work that they may accomplish. There is no country on the face of the earth gifted with greater richness or variety of resources than Nova Scotia, and her sons will fail in their duty to themselves, their families, their country, the world at large, if they grow only one blade of grass where two can be grown, if they feed a starved beast instead of a stalled ox, if they raise only one ton of coal or one ounce of gold, where a thousand tons or a thousand ounces can be raised.

Seeing that natural resources so abundant are given to us, it behoves us to bring our highest intelligence to bear upon them, so as to realize the benefits to man of which they are capable; possessed of the potential wealth, we require only the application of intelligence and industry, the economical and judicious use of our home labour and home capital, and the introduction of foreign labour and foreign capital as they may be required, to build up our country to the highest state of christian civilization and thus realize the greatest possible amount of human happiness.

A circular to the following effect has been issued to the Station Agents of the Intercolonial Railway:—

All freight, live stock, implements, &c., intended for Exhibition at Halifax, will be conveyed on the Intercolonial to Halifax and returned to the Stations from whence they came, at SINGLE RATES, provided they remain the property of the original owners. The freight charges, when shipped to Halifax, must be pre-paid and receipts given for the same, such receipts to be produced on the return journey to entitle the original owner to have the

property returned FREE OF CHARGE. These arrangements will only remain in force ten days after the close of the Exhibition. Traffic shipped in the same car by different owners, must be way-billed separately and charged tariff rates. To accommodate parties shipping stock, &c., from Cape Breton and Eastern Nova Scotia, a Special Freight and Passenger Train will be run from Pictou Landing to Halifax on the 29th inst., of which due notice will be given. All shipments of articles and stock for the Exhibition, will be way-billed to North Street Depot, Halifax. Arrangements have been made to unload there.

The general arrangements on the Western Counties and Windsor & Annapolis Railways are similar to those above. No circular has yet been issued, but exhibitors may obtain information on enquiry at the stations. Exhibitors of live stock should intimate to their Station Agent, some days at least before hand, the accommodation they will require, so that the necessary cars may be in readiness.

A LARGE plant of *Lilium auratum*, the Gilded Lily of Japan, flowered magnificently at Bella hill this season, bearing on one stem 17 blooms, on another 20, and on two small stems 3 and 1, — in all 41 blooms. This is the finest specimen we have seen, but we hear of one at Glace Bay, in the garden of Mr McKeen, which bore 80 blooms last year, and 100 this year; number of stems not stated.

AYRSHIRE BULL FOR SALE.

I HAVE a very nice Ayrshire Bull, "WALLACE," seven years old, girth, seven feet; weight, 1800 lbs. He is perfectly kind, and a sure stock getter. I would either sell or exchange. If you know any party wishing to buy or exchange, please communicate with me, or advertise him in JOURNAL.

FOR SALE.

THOROUGH-BRED Ellsworth Pigs from pure stock, four weeks old, by the Subscriber,

D. MCG. JOHNSON.

Brookland Farm, Stowincke, Aug. 23rd, 1879. sep

GROUND BONES! GROUND BONES!

A LENGTHENED experience in Europe and the United States has shown this to be the most valuable fertilizer for every crop.

During the past season THE PROPRIETOR OF THE WELLINGTON TANNERY has totally altered his machinery for preparing this valuable manure, and is now prepared to supply Agricultural Societies and the public generally with

FINE GROUND BONES

of a quality far superior to any that can be imported.

PRICE—Delivered at Wellington Station—
Fine Ground Bones . . . \$35.00 per ton.
Fine Ground Bones . . . \$2.00 per cwt.

The machinery being now in thorough working order, orders will receive prompt attention and despatch.

As the supply of BONES in this Province obtainable for grinding is yet very limited, customers are requested to send forward their orders as early as possible, in order to ensure obtaining a supply for this year's crop.

Address:

MANAGER, WELLINGTON TANNERY,
Oakfield, Halifax County.

HALIFAX, August 12th, 1879.

THE Subscriber begs leave to call the attention of the Agriculturists and Stock-breeders of Nova Scotia to the Palm-Nut Meal and Cake and Cocoa-Nut Cake manufactured by Messrs. Alexander M. Smith & Co., of Kent St. Oil Mills, Liverpool, G. B. They are now used in large quantities by the leading farmers of the United States and the Upper Provinces, and, as valuable and economical foods for sheep and cattle, have no equals.

PALM-NUT MEAL

Is the produce of the Palm Oil manufacture, and from the very large percentage of oil, possesses very high feeding properties. This will be best seen from the following analysis of it by Dr. Voelcker, Consulting Chemist to the Royal Agricultural Society of England:—

| | | |
|---------------------------------------------------|-------|---------|
| Moisture | 5.93 | |
| Oil and Fatty Matter..... | 20.01 | |
| *Albuminous Compound, (Flesh-forming Matter)..... | 13.87 | } 72.12 |
| Mucilage, Sugar & digestible fibre | 38.24 | |
| Woody Fibre, (Cellulose)..... | 18.55 | |
| Mineral Matter, (Ash)..... | 3.40 | |
| | | 100.00 |

* Containing Nitrogen..... 2.22.

As a milk producer it is without a rival; by its use the milk is greatly enriched, and the yield of butter material increased. For fattening Cattle its value is much superior to that of the best Linseed Cake. For Pigs, Palm-Nut Meal seems to have a special value, they thriving remarkably under its great feeding properties. For Sheep, it answers excellently, either alone or mixed with their ordinary food.

Dr. Voelcker, in a letter dated 9th August, 1878, and addressed to the manufacturers, writes:

"DEAR SIR,—In compliance with your request to give you an unbiased opinion with reference to my present and past experience of your Palm-Nut Meal, I have much pleasure in expressing unabated confidence in the merits of an article of food which your firm brought under the notice of British farmers about eighteen years ago. I have had ample opportunities of becoming acquainted with the practical experience of our most advanced agriculturists, who at first gave your Palm-Nut Meal a cautious trial, and now, for years past, have constantly used it, and in large quantities, as a regular article of food. I am glad to find that the theoretical opinion which I formed of the value of your Palm-Nut Meal, on the strength of its composition, has been fully confirmed by comparative trials with other feeding stuffs, and the actual and extended experience of dairymen and fatteners of stock, throughout the length and breadth of the land."

COCOA-NUT CAKE

Is made from the kernel of the ordinary cocoa-nut. It is very similar in composition to Linseed Cake, excepting that its fatty material, which exists in rather larger proportions, is not of a purgative nature. The percentage of flesh-formers is large, and the cake is sweet and readily eaten by all kinds of stock.

We give Dr. Voelcker's analysis:—

| | |
|----------------------------------------------------|--------|
| Moisture | 5.37 |
| Oil..... | 13.43 |
| * Albuminous Compound, (flesh-forming matter)..... | 21.04 |
| Mucilage, Sugar and digestible fibre... | 35.53 |
| Woody fibre, (Cellulose)..... | 17.86 |
| Mineral matter, (Ash)..... | 6.57 |
| | 100.00 |

* Containing Nitrogen..... 3.31

The above food can be applied in sample bags of 2 cwt. each, to all who may be desirous of trying it. The Palm-Nut Meal and Cake at the rate of \$35 per ton of 2,240 lbs., and the Cocoa-Nut Cake at \$40 per do.

Circulars and samples can be had of

ALFRED SHORTT,

Agent for Nova Scotia.

Office:—156 Hollis Street.

ETIWAN III

MR. A. M. JACK requests us to state, in answer to enquiries, that the same

ROOTS and GRAINS
