The copy filmed here has been reproduced thanks to the generosity of:

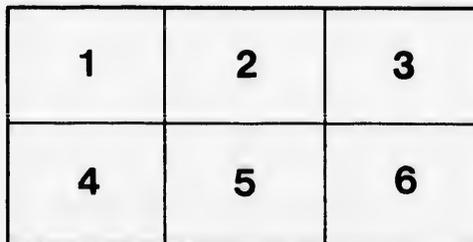

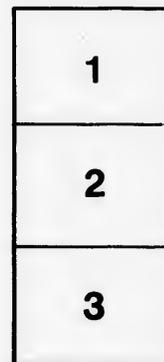

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

LIST OF
SELECT FARMING LANDS
FOR SALE IN MANITOBA.

In the following list we offer for sale about 60,000 acres of the choicest lands in the Province of Manitoba. They have been selected with great care for the express purpose of being offered to *actual* settlers, and are either in the vicinity of Winnipeg or in the various prosperous settlements scattered throughout the Province. We can therefore recommend them to those proposing to settle at once upon a farm in this Province, as they offer inducements by making speedy returns for any labour expended upon them.

A large quantity of these lands are, even at the present time, within marketable distance from Winnipeg or the Pembina Branch, C. P. R., so that those settling upon them can readily sell their produce at fair prices.

It is impossible to obtain desirable homesteads from the Government lands, without going over 100 miles from Winnipeg or the C. P. R.

By going so far from market, farmers will find it almost impossible to dispose of their surplus produce till a railway passes their doors which will likely be from four to ten years hence.

Alexander Begg, Esq., in his "Guide to Manitoba," has the following :

"It is our opinion that an immigrant would be unwise to go far beyond the line of settlement, or to undertake to go to the Saskatchewan in advance of civilization, for the following reasons :

1. The heavy cost of getting to his claim.
2. His isolation until settlements reach him.
3. The high cost for procuring the necessaries of life.
4. The distance from a market ; even with the chance of selling his produce to traders and others, his profits would be

eaten up by the cost of procuring necessaries which he is unable to raise on his farm.

5. His isolation from churches and schools.

6. The nearer he keeps to the line of settlement the quicker will he obtain all the benefits of civilization, especially as the march of development is rapid in this country.

It is for this reason that we condemn the idea of inducing immigrants to go to the North-West in advance of settlements and before proper means of communication are opened up to that vast country.

It must not be understood, however, that we have any desire to belittle the Saskatchewan country, on the contrary we are of opinion that in the near future that great territory will afford homes for thousands of hardy and industrious farmers; and we are also aware that as far as climate, soil, and other advantages are concerned, the Saskatchewan is equal to Manitoba. But our desire is not to mislead people for the mere purpose of advancing immigration, and the development of the country will be sufficiently promoted by allowing the progress of settlements to be gradual rather than scattered in its character."

Farmers coming to Manitoba should not take very much goods and merchandise with them for they can purchase all they require at reasonable rates in Winnipeg, as can be seen from the following :

The prices in Manitoba of agricultural implements can be seen by the following list :—

- Breaking ploughs, \$25 to \$29.
- Common ploughs, \$16 to \$22.
- Reapers, \$140 to \$160.
- Mowers, \$80 to \$120.
- Reapers and mowers combined, \$180 to \$200.
- Horse hay rakes, \$35 to \$45.
- Waggon, American manufacture, as good as made in Canada, \$80 to \$95.
- Fanning mills, \$30 to \$45.
- Spades, \$1 each.
- Shovels, \$1.25 each.
- Hay forks, 75 cents.
- Manure Forks, \$1 each.
- Harrows, \$15 to \$35.

The prices of the following staple articles will give some idea of the cost of living in Manitoba :—

- Tea per lb., 50 to 75 cents.

Sugar per lb., 10 to 12 cents.
 Coffee per lb., 22 to 23 cents.
 Tobacco, black, 50 cents.
 Tobacco, smoking, 50 to 55.
 Coal oil, per gallon, 50 cents.
 Syrup, per gallon, 75 to 80 cents.
 Pails, each, 3 hoops, 30 cents; 2 hoops, 25 cents.
 Tubs, 16-inch, 90 cents each.
 A good stout suit of clothing for a man, from \$8 to \$15.
 Blankets, grey, per pair, \$1.50 to \$3.
 Canadian blankets, white, per lb., 55 to 75 cents.
 Cotton, per yard, white, 8 to 12 cents; grey, 8 to 12 cents.
 Prints, 8 to 12 cents; Winceys, 8 to 25 cents.
 Woollen stockings, per pair, 15 to 30 cents.
 Flannel shirts, each, 75 cents to \$1.25.
 Men's boots, \$2 to \$3.
 Women's boots, \$1.25 to \$1.75.
 Felt hats, 75 cents to \$1.

In household fittings the following prices are quoted for good plain articles:—

Table, \$3.50 to \$6.
 Chair, 50 cents to \$1.
 Bedstead, \$4 to \$5.
 Bureau, \$8 to \$12.
 Kitchen stove, No. 8, good, with complete furniture, \$22.
 Cup and saucer, 8 to 15 cents.
 Plate, 8 to 20 cents.
 Coal oil lamp, 60 cents to \$1, complete.
 Axes, \$1.25 to \$1.50.

In building material:—

Good plain lumber, \$20 to \$40 per M.
 Good dressed lumber, \$30 to \$60 per M.
 Shingles, \$4 to \$6 per M.
 Laths, \$5.
 Nails, 6 cents per lb., or \$5 per keg.
 Lime, 25 cents per bushel at the kiln.
 Doors, \$1.50 to \$2.50 each.
 Sash, 8 x 10, \$1 per pair.
 A good single harness, \$12 to \$20.
 A good double harness, \$30 to \$35.

In the above we have only given quotations for a few of the principal articles required by a settler, so as to give you an idea of the general cost of goods in Manitoba, and we are of opinion

that parties can purchase to better advantage in this Province, than to bring their old worn-out effects with them, and pay freight on them.

If the settler takes any of his effects through with him from the other Provinces, he should make out an invoice—in triplicate—of his goods or animals, go before the Collector of Customs at or near his place of departure, and make a declaration that the goods or animals are the manufacture or production of the Dominion of Canada, or that duty has been paid upon them, and the said Collector will then attach his seal to the invoice. With this invoice he can bond his goods at the first United States port he enters, leaving two copies of the invoice with the Collector of this port, and retaining the other for the arrival of his goods in Manitoba.

The productions of the farm, including stock, bring the following prices at the present time in Winnipeg:

Horses, span, \$200 to \$300.

Oxen, yoke, \$140 to \$175.

Cows, each, \$25 to \$45.

Wheat, per bushel, 70 cents to 80 cents.

Oats, per bushel, 35 cents to 70 cents.

Barley, per bushel, 55 cents to 75 cents.

Potatoes, per bushel, 45 cents to 85 cents.

Butter, per lb., 20 cents to 35 cents.

Eggs, per dozen, 15 cents to 35 cents.

Hay, per ton, \$7 to \$12.

Wood, per cord, \$4 to \$7.

We give the following quotations from a pamphlet issued by C. J. Brydges, Esq., of the Hudson's Bay Company:—

"The valley of the Red River is the richest alluvial soil on the continent of North America, and its strength and depth increases, as it nears its mouth.

"The Assiniboine River, several hundred miles in length, and which falls into the Red River at Winnipeg, runs through another valley, having a wonderful depth of splendid soil.

"The productiveness of the soil along the Red River, Assiniboine and Little Saskatchewan Valleys, is greater than in Minnesota or Dakotah, and the yield of wheat per acre is considerably larger. This is also the fact throughout the whole Province of Manitoba. The exhibit of the growth of cereals and vegetables from Manitoba at the agricultural shows this year at Ottawa, Toronto, Hamilton and London, is the strongest

testimony of the wonderful fertility and productiveness of the prairie soil of that Province."

"If further evidence is needed, it may be found in the speech lately made by the Consul-General of the United States for Manitoba, who, as lately as the 3rd October, 1879, made the following statement, in regard to the flow of emigration westward. He said that one of the great tides of emigration now was to the Northern Zone, specially adapted to wheat growing and cattle raising. That included Canada, Wisconsin, Michigan partially, and Minnesota, but three-fourths of the great wheat producing belt of the continent lay north of the boundary. There the future bread supply of America, and of the old world, too, would be raised.' He went on to say that he wished to allude to that which was also of very great moment, the meat supply. In his opinion the beef raised in the northern district to which he had referred, would be found to be superior in quality and superior in quantity to any that could be raised even on the plains of Texas and the adjoining states.

Such testimony is certainly unimpeachable.

The weight of wheat per bushel grown in Manitoba is considerably heavier than in any portion of the United States, and the yield per acre is also very much more. The average yield in the whole of the United States is less than thirteen bushels to the acre, whilst in Manitoba the average is more than double that yield per acre.

The country is well adapted for raising cattle, the prairie grass being peculiarly nourishing and in unlimited quantities.

It also makes excellent hay, the only expense being the cost of cutting and drawing to the farm-yard. So excellent is the prairie grass that cattle driven for hundreds of miles across the plains, towards a market, improve steadily in weight and condition as they proceed on their journey. The abundance of grass and hay, and the excellent root crops which are grown, render the raising of large herds of cattle extremely profitable.

The climate of Manitoba and the North-West is extremely healthy. Fever and ague, which exist in so many parts of the Western States, are here entirely unknown. In summer the heat is by no means oppressive, the nights being always cool and bracing. The heat, whilst amply sufficient for the thorough maturity of the crops, is no greater than in Ontario, or throughout the north-western portion of the continent. In winter the cold is steady and no greater, as a rule, than is met with in

all parts of the western part of the continent north of Chicago. The fall of snow is much lighter than in most parts of Canada, seldom reaching two feet in depth. On the whole, the climate is an excellent one, both as regards the health of the inhabitants and the maturity of the crops.

The City of Winnipeg, which nine years ago had about 500 inhabitants, has now a population of nearly 10,000 people. It has several large and well built churches, colleges and schools, where excellent education is to be secured, many stores equal in size and attractiveness to those in the eastern cities, large and good hotels, several banks, and many excellent private residences.

At Portage la Prairie, seventy miles to the westward, a rapidly growing town is rising up. At Emerson, West Lynne, Morris, Palestine, Westbourne, Selkirk, and a good many other places, towns are also rapidly growing.

FUEL.

The line of the C. P. R. from Winnipeg to Thunder Bay passes through most extensive timber districts near Rat Portage, where large saw mills are now in course of erection, and which will supply at moderate prices all the lumber required for buildings and fences in the western part of the country.

Considerable quantities of timber for building purposes and for fuel also, exist on the banks of all the rivers and creeks, and there are in addition groves of poplar all over the country. No difficulty will be found to exist as regards timber both for building and fuel.

COAL.

Large deposits of coal have been discovered on the Saskatchewan river and also on the Assiniboine and Souris rivers.—The former has already been worked to some extent, and the quality is pronounced by all who have used it as excellent.—They are commencing operations on the Souris coal beds this coming season.

There will be ample fuel of both coal and wood to be distributed by the lines of railway now constructing, in addition to the timber which is found on the banks of all the rivers.

Farmers in Manitoba now state that the cost of raising wheat does not exceed, if it reaches, forty cents a bushel. So that wheat will therefore be grown in Manitoba and delivered in Liverpool at a cost to the producer, including all charges for transport, of 85 cents a bushel or 28s. 4d. a quarter.

With wheat selling in England at 40s. a quarter, there is

thus an enormous profit to be made by the wheat grower in Manitoba and the North-West.

The average price of wheat in England for the thirty years from 1849 to 1878 was 53s. a quarter—the highest price being 73s. 11d. in 1855, and the lowest 39s. 7d. in 1851.

At the rate at which settlers are now pouring into the country all the wheat grown in Manitoba for the next two or three years, until the railways now being constructed are completed, will be required for food and seed.

Up to the end of 1878 (the last official returns), upwards of two millions of acres of land had been taken up by actual settlers in Manitoba and the North-West. That quantity is now undoubtedly increased to nearly three millions.

GOVERNMENT GRANTS OF LAND.

The Government grants homesteads on alternate sections on each side of the railway, of 160 acres free, and allows settlers to take up an additional 160 acres on the alternate sections on "pre-emption," at prices ranging from \$2.50 to \$1 an acre. They also sell lands at prices ranging from \$5 an acre on the other sections on each side of the railway.

HOW TO REACH THE COUNTRY.

"The cost of conveyance from any part of Canada to Manitoba is exceedingly moderate, and the steamers from Great Britain are now so numerous, that the transport of a family from any part of the United Kingdom or from Canada to the great wheat growing and cattle raising districts in the North-West, is hardly appreciable when the advantages offered are considered.

A continuous line of railway now exists from Quebec, Montreal, Toronto, and indeed every town and village throughout the Dominion, to Winnipeg. An alternative route is offered by railway to Sarnia or Collingwood, and then by first class steamers to Duluth at the head of Lake Superior, where direct railway communication exists with Winnipeg.

This lake route will be greatly improved as soon as the railway now under construction from Thunder Bay, on Lake Superior, to Winnipeg is completed, and the cost and time of conveyance will also be materially lessened.

At present the cost of carriage for each person is as follows :
By rail all the way, from Montreal through Chicago—first class, \$59.25 ; emigrant, \$29.

From Montreal to Sarnia or Collingwood, and thence by the Lakes via Duluth—first class, \$52; emigrant, \$24.

Cattle, goods and agricultural implements are taken at reasonable charges by either route.

The lines of steamers from Liverpool, Glasgow, London, Bristol and Irish ports, carry cabin passengers at from £10 to £18 to Quebec, according to accommodation, and emigrants at from £3 10s. to £6 6s. per head.

The time occupied by these steamers is from 9 to 12 days, and from Quebec to Winnipeg the time is four days by railway throughout, and by way of the Lakes six days.

Settlers from Europe can therefore reach Manitoba in fourteen days from Liverpool, and from any part of Canada, in four days or less, at a small outlay.

A settler should not think of coming to Manitoba to take up land unless he has a capital, at the very least of \$500.

We give extracts from the Surveyors' Reports of Township Surveys in Manitoba and the North-West Territories, published by the Surveyor-General on the 31st Dec., 1877. We offer the following lands at from \$2 upwards:

RANGE I. EAST.

TOWNSHIP 7

Is a beautiful plain, with a rich and productive soil, but totally devoid of timber and running water.

1. Sec. 4, soil first class, high dry prairie, 640 acres.

TOWNSHIP 9

Is all prairie, with the exception of a few small bluffs of poplar and willow.

The land is high and of good quality.

2. The S.E. qr. of sec. 33, and the E. half of the N.E. qr. of sec. 28, twelve miles from Winnipeg, part dry prairie and part hay land; soil good; 240 acres.

3. S.E. qr. and S. half of N.E. qr. of sec. 1, and the S.W. qr. and S. half of N.W. qr. of sec. 1; 480 acres, high dry prairie, well drained by the American ravine; choice farm; 480 acres.

4. S.W. qr. and S. half of N.W. qr. sec. 4; high dry prairie; 240 acres; soil first class.

5. The S.W. qr. of sec. 12 and S. half of N.W. qr. of sec. 12; high prairie with some hay land; 240 acres.

6. N.W. qr. of sec. 10, and the S. half of S.W. qr. of sec. 15; 240 acres.

7. The S.E. qr. of and S. half of N.E. qr. of sec. 17; part high prairie and part hay land; 240 acres.

8. The S.E. qr. of sec. 23, and the N. half of N.E. qr. of sec. 14, and the N.W. qr. of W. half of N.E. qr. of sec. 23; part rolling prairie and part hay land, soil very good; 480 acres.

TOWNSHIP 10.

9. The S.W. qr. of sec. 3 and S. half of legal sub-divisions 9, 10, 11, 12 of sec. 3; 240 acres.

TOWNSHIP 11.

"Is a level prairie with a few willow bushes. The Sturgeon Creek running through it from west to east, and about the middle from north to south, gives to this township a great advantage.

"The soil is in general first-class, and well adapted for agricultural purposes."

10. The N.W. qr. of sec. 32 and the N. half of the S.W. qr. of sec. 32 and the N.E. qr. of and the N. half of S.E. qr. of sec. 31, situate on Sturgeon Creek; part high prairie and part hay land; 15 miles from Winnipeg; soil very good; 480 acres.

TOWNSHIP 12.

"Is a rolling prairie with a good many depressions thereon, forming meadows, part of which have been cut. Some of these meadows are covered with a most luxuriant growth of grass reaching upwards of five feet.

"In places where these meadows had been cut the second crop was found to be eighteen inches high. Two crops of hay may be procured in one season with ease.

"A prominent ridge runs from the north-west to the south-east, containing lime, marl and gravel. There is no running stream or natural spring of water in this township, but wells have been dug by the hay-makers, of which one contained some water in a depth of eight feet; at dry season, leading to the conclusion that a supply of water will never fail when properly looked for.

"At the places where the wells have been dug the section of the ground was two to four feet of black mould, and under it blue or yellow clays."

11. The S.W. qr. of sec. 2 and the E. half of the S.E. qr. of

sec. 3, two-thirds dry prairie, balance, good hay land ; 12 miles from Winnipeg ; 240 acres.

12. The N.W. qr. of sec. 18 and the S. half of the S.W. qr. of sec. 19 ; 180 acres dry prairie, 60 acres hay land, soil good ; 18 miles from city ; 240 acres.

13. The S.E. qr. of sec. 15 and the N. half of the N.E. qr. of sec. 10 ; soil, first-class ; 15 miles from Winnipeg ; 240 acres.

14. The N.W. qr. of and the W. half of the N.E. qr. of sec. 34 ; a very desirable farm ; 18 miles from Winnipeg ; 240 acres.

TOWNSHIP 14—BRANT.

"This township is partially covered with poplar bluffs. The north sections have the largest quantity. The fire having run over the greater part of them, young poplar is growing rapidly among the burnt timber. Taken altogether, this township is well adapted for agricultural purposes."

15*. S.W. qr. of sec. 23 and N. half of N.W. qr. of sec. 14.

RANGE II. EAST.

TOWNSHIP 6

"Is all good land, being partly high dry prairie, and level low marsh or hay land."

16. The S.W. qr. of sec. 20 ; part good hay land and part dry prairie soil ; first-class ; within two and a half miles of Red River ; 160 acres.

17*. And the N.W. qr. of sec. 1 and E. half of N.E. qr. of sec. 2.

TOWNSHIP 7

"Has a considerable part of its surface wet and marshy. The greater part is, however, dry and fit for agricultural purposes. It contains no timber of any kind."

18. The N.W. qr. of sec. 24, situated 2 miles from the Red River and 20 miles from Winnipeg ; 160 acres.

19. Sec. 32, high dry prairie, drained by two ravines ; 640 acres.

TOWNSHIP 11.

"The entire township will make valuable agricultural land. A rocky or stony ridge traverses this township from north to south.

"Stone is quarried in the 34 section and brought to Winnipeg for building—it is a soft, greyish limestone."

20*. S.E. qr. of sec. 33 and N. half of N.E. qr. of sec. 28 and the S.W. qr. of sec. 33 and the N. half of N.E. qr. of sec. 28; high prairie, with some splendid meadow land on a branch of Colony Creek, which drains it; 54 acres are broken and ready for crop, and considerable ditching done; 6 miles from Winnipeg; 480 acres.

TOWNSHIP 12

"Is, for the most part, an open prairie, there being but three or four groves of poplar, a few oak, and some swamp willow found on it.

"With the exception of some small areas of salty land, where a very scanty herbage grows, the entire township may be classed as superior agricultural land.

21. Sec. 8, a choice farm; 8 miles from Winnipeg; 640 acres.

TOWNSHIP 14—VICTORIA

"Is for the most part level prairie. An extensive marsh lies to the easterly part of the township, through which flows Jack Fish Creek.

"On the south-west there is a good deal of poplar, a large portion of which is fit for building purposes. There are some small islands of poplar on some of the prairie land. The soil is generally loam mixed with clay."

22. N.W. qr. of sec. 23 and W. half of N.E. qr. of sec. 23, very good.

23. S.W. qr. of sec. 23 and N. half qr. of N.W. qr. sec. 14.

24*. And the N.W. qr. and W. half of N.E. qr. of sec. 23.

25. The S.W. qr. sec. 36 and the N. half of the N.W. qr. sec. 25; 180 acres; first class high prairie land; Jack Fish Creek runs through this place; 240 acres.

RANGE III. EAST.

TOWNSHIP 5.

26. The S.W. qr. of 24 and the E. half of the S.E. qr. of 25, one-half mile from Pembina Branch, C.P.R.; part dry prairie and part hay land; 240 acres.

27*. S.E. qr. of sec. 19 and S. half of S.W. qr. of sec. 20.

28*. S.W. qr. of sec. 21 and E. half of S.E. qr. of sec. 20.

TOWNSHIP 6.

29. The E. half of sec. 1 and the S. half of S.E. qr. of sec.

12, situate on the Pembina Branch of the C.P.R., 3 miles from Otterburne Station; 400 acres.

TOWNSHIP 7—NIVERVILLE

Is well suited for agricultural purposes. It is wooded in the south and along the bank of Rat River."

30. The N.E. qr. of sec. 13 and the S. half of S.E. qr. of sec. 24; 240 acres.

31. The N.W. qr. of and the N. half of the S.W. qr. of sec. 25; 240 acres.

32. The N.E. qr. of sec. 36 and N. half of N.W. qr. of sec. 36; 240 acres; situate within one-half mile of Niverville Station.

33. The N.E. qr. and N. half of S.E. qr. of sec. 15; excellent farm; 240 acres.

34. The S.W. qr. of sec. 14 and S. half of S.E. qr. of sec. 15; adjoins above piece; 240 acres.

35. S.E. qr. of 36 and N. half of N.E. qr. of sec. 25.

122. S.E. qr. of sec. 3 and E. half of S.W. qr. of sec. 3.

TOWNSHIP 11—ROSSMERE.

"The soil is a rich clay loam on the westerly two-thirds; the easterly third has a gravelly loam on the top of the ridges, in some places stony, and a rich loam at their foot. Over one-sixth of the area is taken up by marshy meadow, most of which would be unfit for cultivation; it is valuable for the hay it produces. The largest portion of this marshy land lies on the western side, and appears to be a good deal higher than the bottom of 'Cook's Creek,' into which it drains; most of it could be drained at very little cost. Several sections are all poplar.

"Water can be found by digging, at no great depth."

In this township we have sold over 5000 acres to actual settlers. The property offered for sale is convenient to wood and hay, and within twenty miles of Winnipeg.
