NOTHING BUT STRIFE

For Four Years Over the School Question

AND FOR ANOTHER FOUR YEARS

If We Listen to Quebec's Demand for the Degradation of Manitoba.

Some More Startling Facts That Must be Fanned by the Conservative and Liberal Vets Alike—Is the Industrial Development of the Country to be Further Delayed by Race and Creed Questions?—Bar the Door Against Them All.

The World of yesterday contained a preliminary article discussing the Manitoba school question. It was very direct and pointed. There was no "trimming" in it in the way that politicians are "trimming" these days. A number of gentlemen did not like the article. Some of them are in the employ of the Government. The World is not run to please these gentlemen. The World is a newspaper, a business concern, representing over \$200,000 of invested capital, and it is run primarily to earn a dividend on the money invested. Those who conduct it think it can best earn that dividend by being honest in its discussion of public affairs and paying due respect to public opinion. There is no money for a "trimming" newspaper any more than there is any honor or advantage for a "trimmer" politician. The "trimmer" falls to the ground, as many know these days. The Manitoba school question is an issue on which newspapers which discuss it and public men who seek public confidence must take a stand and have views thereon, and not be afraid to express such views.

For which and other reasons The World proposes to discuss the question and to try and place it intelligently before the people, who must vote on it seven weeks from to-day. The main point in our argument of yesterday was that this school question was a momentous one; that Quebec as a Province was endeavoring to saddle Separate schools upon Manitoba and ultimately on the entire country west of that Province, in spite of the objections of the western people there; and that the only way to prevent this was to return a majority of the members of the forthcoming Parliament pledged against any Remedial Bill. We showed that the only way to get this majority in the face of a solid Quebec was to pledge the members from Ontario, from the Maritime Provinces and from the Northwest, irrespective of party, against the bill.

Let us set out some further facts: The Province of Lower Canada, by reason of its solid vote and a divided Upper Canada, imposed a Separate school system on this Province, much against its will. Ontario never desired the dual system. But by reason of a division of this Province into two political camps the Lower Canadians succeeded. In the same way the same Province hopes to impose Separate schools on Manitoba. If the other Provinces can only be divided into two camps the thing can be done. But if the two camps are both pledged against it, it cannot be done. The Quebecers will have to drop it.

If the people will listen to The World's advice they will take the only available means to keep this question out of politics for ever; and that is by taking pledges of candidates in the coming conventions and in their meetings to oppose any and every bill establishing Separate schools in the Northwest.

If they do not do so we will see a Remedial Bill introduced next session, another Parliamentary struggle of months, a refusal of Manitoba to obey, litigation and public turmoil. What have we seen in the past four years? Parliament crippled for four years by this question!

Sir John Thompson in incessant hot water over it and his wonderful energy misdirected to a race and creed question when it might have been much better employed!

Sir Mackenzie Bowell's deplorable experience!

A defection of ten Ministers from the Cabinet!

Clarke Wallace's resignation from the Government!

A split in the Conservative ranks!

A split in the Liberal ranks!

Thirty-eight Conservatives declaring last July that they could not go a Remedial Bill. And after much pressure half of them accepting it this session, but accepting it in many cases

THE ARCHBISHOP SPEAKS.

CATHOLICS TO VOTE FOR THOSE WHO ARE PLEDGED

To Give Separate Schools to the Minority in Manitoba—Archbishop Langevin's Sermon at Hull—The Welland Canal to Open To-day—New Use for the Census—Ottawa Topics.

Ottawa, April 27.—(Special)—Prof. Robertson stated to your correspondent to-day that in view of the fact that Parliament had not voted any money for opening up the dead meat trade the plan would not be proceeded with. Enquiries, however, would be made this year and additional information secured regarding the details. If the new Parliament votes an appropriation a trial shipment of beef from ranch cattle will be sent to England in the fall. The experience thus gained will be useful for paving the way for more efficient work both here and in England next season.

Archbishop Langevin preached at Hull yesterday. In the course of his remarks he said it was the duty of every Catholic elector, before voting, to exact from every candidate a pledge that he would give Roman Catholics Separate schools to the minority of Manitoba, and not accept a promise for any mixed system or a compromise of any kind. The Catholic minority in Manitoba knew what they wanted. They wanted Separate Catholic schools, and nothing else will be acceptable to them. Long speeches from candidates to the Catholics are unnecessary—a pledge was what was wanted. Those who refused to the minority what they wanted were not his friends. He counselled them to look carefully at the declarations of the leaders of the two parties.

The reception given to Mr. Martin on his return to Winnipeg. The influence that has come to D'Alton McCarthy at last, after several years of wandering in the political desert.

All these things mean something. They mean that if the Dominion Parliament is to take up race and creed questions from the different provinces just as any province sees fit to raise one, the whole time of Parliament will be occupied therewith and progressive legislation prevented.

The real mission of the Dominion Parliament is to advance the general interest of the entire country. Race and creed squabbles will never do that. But legislation looking to the development of our resources, to the settlement of our new country, to the promotion of immigration, to the transfer of new industries to our country from other lands, to promoting interprovincial and imperial trade, to fostering ocean steamship lines, to improving our postal facilities, regulating railway traffic, and in a thousand ways increasing the national prosperity—these are the things the country stands in need of.

Passing remedial laws will never do it. Entertaining demands for such will never do it. Litigation with the provinces and appeals to the Privy Council will never do it. And yet we have been doing little else for four years back, and will be kept busy for four years more in the same business if Parliament when it meets in July is confronted with a Remedial bill.

We must bar the door on all these creed and race questions. We can only do it by pledging our members not to entertain them—Conservatives and Reformers alike.

Who is the Conservative that thinks peace and prosperity will reign in the Northwest if we force Separate schools on it, or that the new provinces will ever be contented with a yoke fashioned for them in Quebec.

The safety of the Conservative party lies in this and in this alone: of each Conservative candidate outside of Quebec being allowed to pledge himself against any remedial legislation that may be proposed. And who are the Conservatives who are going to stand up in open meeting and propose that such legislation be given? Let us have the names of those who will go to the coming conventions in Toronto, for instance. The question has to be faced in the elections as well as in Parliament. It cannot be avoided. And men must stand on one side or the other. There is no room for the "trimmer."

Is Manitoba to be free to make her own school laws or is she to be coerced by Quebec? That is another nut for you to crack.

The National Policy coupled with Remedial legislation is in danger.

The National Policy without Remedial legislation can sweep the country. Does it not strike you that way, too?

WHEELED INTO THE CANAL.

The Sad Drowning of Young Shaver of Peterboro.

Thorold, April 27.—A young man named C. Shaver from Peterboro, a student attending the St. Catharines Collegiate Institute, while out bicycling on the new Welland Canal, near here, this evening, accidentally ran into the canal and was drowned. The body was recovered about half an hour after the accident.

A Luckless Accident.

Yesterday one of our citizens, who always shaves himself, was trying to hurry through the operation to keep an appointment. He kept the appointment, but experienced considerable difficulty in convincing his friends that neither domestic infidelity nor political unpopularity had caused the mutilation of his face. He had never seen the Star Safety Razor. Have you? Nicholson's Cutlery Store, 73 Yonge-street, one door north of King.

PREMIER GREENWAY TALKS

SAYS HE HAS HAD NO OFFER FROM HON. MR. LAURIE

To Enter the Dominion Campaign as His Last Night and Will Remain in Toronto Two or Three Days—The Western Statesman Rather Reluctant on Political Topics.

The bold and much befouled signature of the Hon. Thomas Greenway ornamented the register at the Queen's Hotel last night. The Premier of the Prairie Province has just returned from New York, whether he went some days ago after his flying visit to Toronto, Ottawa and Montreal.

A World representative found Mr. Greenway ten minutes after his arrival in one of the hotel corridors despatching a telegram by night wire to Winnipeg. After getting the message of he invited the interviewer to his room on the ground floor, where a big batch of accumulated correspondence awaited his attention.

Manitoba's Prime Minister appeared to be a little rusty on the political happenings of the past few days and asked the reporter several questions.

"Do you intend to take any active part in the campaign in Ontario?" "I don't think I shall. I've made no appointment with him."

"Will you resign the Premiership of Manitoba and enter the Dominion campaign as Mr. Laurier's lieutenant?" "I have not heard anything of it."

"Have you had any offer to do so from Mr. Laurier?" "No, I have not."

"Who do you think will win in Winnipeg, Mr. Macdonald or Mr. Martin?" "I don't know."

Has Been Withdrawn by the Imperial Government—It is to be a British South African Empire

London, April 22.—In the House of Commons to-day the Rt. Hon. Joseph Chamberlain, Secretary of State for the Colonies, in reply to questions on the subject, stated that the Government had received by telegraph the substance of President Kruger's reply to the Government's invitation to visit London to discuss Transvaal affairs.

Under the circumstances, Mr. Chamberlain added, the Government reluctantly withdrew their invitation to President Kruger and had cabled to Sir Hercules Robinson, Governor of Cape Colony, instructing him to inform the Imperial Secretary at Cape Town, Mr. Chamberlain, that the Government should arrive there on his return to England, he being now on the way.

Mr. Labouchere asked what amount of cash belonged to the Chartered Bank, and would the Government remain available to the Chartered Bank, and would the Government be prepared to repay the expense involved in suppressing the Matabele revolt.

Mr. Curzon, Under Foreign Secretary, said the Russian Ambassador had informed the Government that the statement made in the press that a secret treaty had been concluded between Russia and China, whereby they had ceded large tracts of territory to Russia, was devoid of the slightest foundation.

Mr. Balfour moved that the Government control the whole of the time of the House for the remainder of the session. A long debate took place on the motion of Mr. Balfour, after which a vote was taken and the motion was adopted—266 to 124.

London, April 22.—The Daily Telegraph says in an editorial: "It will not make any difference whether President Kruger comes or not. It is the Boers' loss, not the Government's gain."

The Times, commenting in an editorial upon President Kruger's reply to Secretary Chamberlain's invitation to come to England, suggests that England should make matters as they are, including the indemnity, which must be claimed, if at all, from the Chartered South Africa Company.
