GRAVESTONES OF ALL WAR DEAD

British Graves Commission Decides That Absolute

Uniformity From Field Marshal to Camp

London, April 27.—The war graves commission has decided unanimously

on absolute uniformity of headstones for the graves of every man and woman

who was killed or who died in the war. A plain design in Portland stone has

been selected, recording the name, regiment and rank, symbol of religious

faith and the inscription which Kipling chose: "Their name liveth for

evermore," with room at the foot of the stone for an inscription limited to

66 words, to be personally chosen by those nearest to the dead. This principle of equality, whether for field marshal or camp follower, has the approval

This was equal in importance, in the re-estab-lishment of the army, he claimed, to settlement on land. Many ex-soldiers unfitted for agriculture could be permanently settled by assistance in home establishment.

Hon. Arthur Meighen claimed that Hon, Arthur Meighen claimed that the scope of re-establishment was as wide as financial conditions would warrant, but promised further discussion on this question on the estimates of this department. Other members urged that soldiers who served only in Canada should be placed on the same footing in land settlement as overseas men. The minister refused to widen the scope of the bill to include these, but did promise that consideration would be given to the claims of soldier fishermen for assistance in embarking

their previous occupation.

District Council Names Representatives to the Industrial Body of Adjustment.

Hamilton, Ont., April 27,-The meeting of the District Building Trades Council's official report was received of the conference held on Saturday between the council's representatives and the representatives of the local branch of the Canadian Construction Contractors' Asociation, and the proposals of the association. As a very long discussion took piace, there is now every likelimood of the two parties coming to terms and of the avoidance of a May Day strike of the 2000 union men employed in the building traces. The council voted to meet the wisnes of the association by eliminating some of the objection clauses in the blanket agreement and permit each union to negotiate its own agreement as to the wages and conditions for its own members.

The following were appointed to represent the council on the industrial council, which was suggested by the unions and approved by the contractors, for the purpose of adjusting or endeavoring to settle minor disputes on jobs. ing to settle minor disputes on jobs, and to put a stop to minor strikes; Sam Lawrence of the stonecutters; William Baker, pricklayers; H. ELECTRICIANS' UNION UPHOLD BUILDING PACT

Hamilton, April 27.—The electricians' union last night initiated fifteen new members, seven telephone linemen and eight inside wiremen. On a separate vote of electrical workers employed in the building trades, it was unani-mously decided to stand by the build-ing trades agreement and to insist upon a strict union shop. It was re-ported that the representative appointed by the electrical workers and the representative appointed by the Dominion Power and Transmission Company, had failed to agree upon the third man to constitute the concilla-tion board which is to arbitrate the wage demands of the electric ans emwage demands of the electric as employed by the D. P. and T. The federal minister of labor has been notified accordingly, and he will appoint the third man. The Hydro dispute has been tabled pending the present negotiations with the D. P. and T.

Bonus After Ten Years.

A novelty is the provision that the employer has to pay to the servant who has been in his house for more than ten years a quarter of his or her Yearly wages when leaving the service. This amount rises by five per cent. for every successive year. Those servants, however, have no claim to such extra payment who are themselves responsible for the severance of the relations.

The character the employer must give to his domestic assistant when leaving the post must not contain anything but a statement regarding the length of time and kind of service.

Domestic assistants, performing services of superior kind, as, for instance, sovernesses, are entitled to a three hours' rest during the day, an annual leave of between two and four weeks, and to six weeks as period for giving notice.

Quarrels between employers and domestic assistants are no longer settled by the police, but by ordinary courts of justice of the lowest category. Moreover, in Vienna, special arbitration of fices will be established for settling disputes between employers and servants.

William J. Bell of the Spanish River Lumber Company was examined yesterday by Crown Attorney R. T. Harding before Commissioners Riddell and Latchford, in connection with alleged discrepancies in the company's and the government report as to the quantity of lumber within the crown limits of Ontario. The result of the investigation so far shows that the company underestimated the number of feet of timber by 50 per cent. in proportion to the government estimate. Technical evidence was taken con-cerping the methods of measurement employed and the quantity usually deducted to cover wastage. The honesty and accuracy with which the company's employes make their re-port was also called into question, whereupon Justice Latchford remark-ed that "If scaler, foreman and lum-bermen are dishonest, the public have

Ottawa. April 27. - (Canadian

Press).—Discussion of the industrial disputes act was proceeded with when the royal commission on unification of labor laws met today. Addresses on the subject were made by Hon. G. D. Robertson, minister of labor; Tom Moore, president of the Trades and Labor Congress; J. G. Merrick, representing the Canadian Manufacturers' and Employers' Association, and F. A. Acland, deputy minister of dabor. Hon. Mr. Robertson took occasion to say that he and the department of labor were honest

the 68th Dragoon Guards (Carabiniers) Imperial Army, and served for a considerable number of years in Great Britain, India and elsewhere. He served in the South African war, and was awarded the Queen's and King's medal, mentioned in despatches, and the Royal Humane Society's medal for saving life. On the outbreak of the great war he volunteered for services overseas, but was assigned to duty as general staff officer, Military District No. 2. Subsequently he did proceed to France for a short period, but was called back to Canada for duty.

Trained Many Troops.

In 1915 he was appointed to the permanent staff, Military District No. 2, with headquarters in Toronto, which furnished nearly one-quarter of the entire Canadian expeditionary force, and in 1916 had some 48,000 troops under training at one time at Camps Borden and Niagara. For the training of these troops Col. Bickford was principally responsible, and he carried out his duties with marked success. In

F. A. Acland, deputy minister of labor, referred to the difficulties created by disputes in connection with municipal operations, such as street railways, water works, gas, etc. Other employes, such as policemen and firemen, who do not come under the class of public utilities had asked for boards, but the department of justice has distinctly ruled that policemen could not be classed as a public utility. Hence, the department could not establish a board. There was much to be said for having firemen and policemen brought within the scope of some statute which would enable men to have an enquiry into their grievances.

of industrial councils to deal with disputes between the employes of government departments and the government. He felt that, as the industrial disputes act had been accepted by the provinces for such a long period, that the right of the Dominion government to deal with disputes had been acknowledged. There was growing a tendency among the workers to prefer arbitration rather than strikes as a method of settlement.

J. G. Merrick expressed the opinion that the present act was ideal. He would like to see it extended to the municipal and provincial public utilities, civil servants, policemen, firemen and other individuals who are under the direct jurisdiction of municipalities or towns.

Land For Army Nurses.

In answer to Jacques Bureau, of Three Rivers, Hon. Arthur Meighen, minister of the interior, said that one purpose was to define the responsibility of the soldiers' settlement board, as respecting women. Women, who had served with the British army as nurses, were not included among those who could come under the act. Women who had served in the Canadian army, were entitled to the privileges under the act.

Another of the amendments was to the formula of the amendments was to the canadian army. The bill was reported and stands for third reading.

Mr. Meighen said that the exception from the land settlement act of soldiers who did not go overseas was not in the nature of a penalty. The government was compelled to fix a limit to expenditure under this head, and the line had been drawn for the time being, at men who served overseas. The country's commitments on this account last year amounted to \$58,000,000.

Loans for Soldiers.

W. F. Maclean (York) asked if the act could not be made to provide for loans to returned soldiers, not on the lands, who were building their own homes. Mr. Meighen replied the committee on civil re-establishment had considered this point and had decided that the federal government would not

Industrial Councils.

Tom Moore argued that policemen were a public necessity, if not a public utility. Every effort should be made to avoid withdrawing the labor of policemen from a city or municipality, but at present there was no method to decide matters in dispute between policemen and their employers. There was a necessity for some impartial arrangement by which their case could be judged by an unprejudiced tribunal.

Mr. Moore suggested the establishment of industrial councils to deal with disputes between the employees of government. He felt that, as the industrial disputes act had been accepted by the provinces for such a long period, that the right of

The persistent reduction of parliament to the proportions of a pettifogging inquisition is one of the worst evils that can befall responsible government, and one of the most pitiful negations of modern democracy. Regarding the necessity of an increase of rates, it strikes me that even if the government railways are running at a loss it would be better to keep that loss it loss it would be better to keep that loss at a minimum and not raise the rates. The reason being that our good friends the .C.P.R. would not be able to raise theirs. Some people might say, well the C.P.R. are handling freight and traffic at a loss at the present time, and as the costs of operation have advanced so much it is but fair they should be allowed to raise their rates. My answer would be the C.P.R. has made millions already, and seeing that they can well already, and seeing that they can well afford it, it is but fair to the public that they should operate at a toss, or just break even for a few years. And apparently the only way to do this is for the railway commission not to grant

trunk and Grand Trunk Pacific, than to hand the C.P.R. about the same number of millions extra. They certainly would be a long way ahead in the game. The writer would very much like to hear an expression of opinion from your valuable paper, also from other correspondents.

FORD MOTOR COMPANY TO BE REORGANIZED

Bansing, Mich., April 27 .- Formal notice of the proposed reorganization of the Ford Motor Company and other interests of its stockholders was filed today with the secretary of state. The papers indicated that the automobile and tractor business will be consoli-dated and reincorporated as a \$100,-000.000 Delaware corporation.

The corporate powers of the new company will permit it to manufacture ircraft, internal combustion locomo tives and railroad cars, and continue the automobile, truck and tractor business, now conducted separately.

The capital stock, it is understood, will be held by Henry Ford, Edsel B. Ford and Mrs. Henry Ford. Incorporation is to be under the Delaware laws, because the Michigan statutes do not permit organization of a company with capital stock of more than \$50,000,000.

ANOTHER IDLE DAY

Not a Game Played in International League—Only Two in Majors.

WHITE SOX BEATEN

The Leafs spent their second idle day in Baltimore yesterday. Rain fell nearly all day, and it was impossible to stage the second meeting of the Duffyites and Jack Dunn's left-nanded hitters. Today is the last stand of the series in Baltimore, and Dunn would be just as pleased to see the weatherman dish up another day of wetness. Dunn knows he is up against the real thing in the Toronto Club, and against left-hand pitching the touted Oriole clouters are nil. The outfield is a thorn in Dunn's side, and he has signed Bill, Holden, the former Leaf, to hold down the spot made vacant when the league head ruled that Thompson is the property of the Toronto Club. Holden should be a help to the Birds.

Club. Holden should be a help to the Birds.

A mail vote of the league clubs is being taken to see if they are favorable to spitball pitching for this year. It will be remembered that President Fultz ruled that the spitters are barred, but only on the eve of the opening of the season, and without any warning. It was the Toronto Club that asked that the vote be taken. Bobby Heck is the only real moist-ball artist with the local club, and it would seem a hardship if he was deprived of his livelihood without notice. The result of the vote will be known within a week.

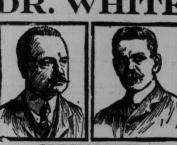

The Leafs pull out of Baltimore tonight for Jersey City for a three-day stay, and will then move to Syracuse, and leave there on Tuesday night for home and the opening. It is to be hoped that the weather man relents and brings along a little summer weather before the Leafs blow in. Otherwise it is liable to wither the batting strength and make it uncomfortable for the faithful, who have been patiently waiting to give Duffy and his clubbers the once-over. Yesterday's postponed games were:

far they haven't won a game, and if they don't soon pick up in their swatting they'll hang up a record for consecutive defeats. Cobb, Veach and Flagstead, the usually heavy-hitting outfielders, aren't getting respectable fouls, and the infielders are just as slow to get started. By the time the Bengals hit their stride they'll have a great lead to overcome. Opinion in Detroit right now is that the Chicago White Sox will wim the American League pennant again if "Red" Faber comes thru. Eddie Cicotte, Williams and young Kerr are pitching great ball, and if the red-thatched gentleman can do his share the Windy City crew are conceded the rag. Cicotte, in spite of the barring of the freak "shine" ball, is going as well as ever.

Sporting Editor World. Why should you make the baseball fans believe that the Leafs have a great team? The showing against Reading amounts to nothing. Any team in the league can, of course, beat them, and the brain-work of the Leafs is shown in the seven runs Reading got in one inning in the second game. The Toronto team, as usual, is a fake where the backbone of baseball—pitching—is concerned, and I assure you that the Leafs never will be near a pennant with such illustrious persons as

that the Leafs never will be near a pennant with such illustrious persons as Peterson, Sanberg, Heck.

All this blowing about a few games against an insignificant outfit like Reading is superfluous. Wait till the series at Baltimore is over. Peterson may be knocked out of the box in the first inning. Heck, since his spitball is illegal, has nothing left, and could not possibly do it, and Shea seems all right, but he could not work two games out of three, consequently Toronto will drop at the very least two games—you watch! Now, you think I am a grouch and favor Baltimore. It is the truth I am telling you. Now, the good ones of the Leafs! Here they are: Onslow, O'Rourke, Spencer, both fielding and hitting; Whiteman, fielder, too old; Blackburne, not, bad, but too old; Riley is Spencer's class; Gonzales, good in the infield, no good with the bat; Sandberg, awkward, poor hitter

cneed. young and fast catcher. Hitting alone never you a pennant. Remember, Baltimore outhit the Leafs; so will Buffalo by the looks of it, and both teams have pitchers, H. Rumsdik,

of trainers indulged their charges in fast work, which is an absolute necessity at every opportunity from now until the opening of the meet.

Trainer John Noxon enacted the star role with his promising plater, Bugle March, by Nealon—Mrs. Frank Foster, This colt, now four years old carried the Davies colors in the event last year, but was unplaced. His subsequent training, however, was so favorable as to result in his sale to the present owner. Bugle March worked five-eighths of a mile yesterday as follows: Quarter in .25, half in .504-5, Hive-eighths in 1.062-5. This, is the best move by a plate candidate this spring.

Bob Newell's plater, Satinmore, also raade a creditable showing, and may soon command the respect of the regulars. He ran the same distance, five-eighths of a mile, in 1.072-5.

Trainer Joe Doane worked Betsy Binmore and Ladder of Light each three-quarters. The former was caught in 1.221-5, and the latter in 1.22 flat, showing both as well advanced as any at the track.

Other moves were: Vanguard, three-quarters in 1.243-5; Gallopin, half in .514-5.

Trainer Joen Doane worked Betsy Binmore and Ladder of Light each three-quarters in 1.243-5; Gallopin, half in .514-5.

POTATOES STILL LEAVE TORONTO

Thirty-Seven Cars Loaded for U. S.—Bakers Deny Profiteering.

INGREDIENTS UP

There was little new yesterday in the H. C. L. so far as potatoes and bread are concerned

On the esplanade railway siding 37 carloads of potatoes, with an average of 350 bags to a car, were discovered. They were not designed, however, to relieve the Toronto situation-they were sold to go to the United States, but owing to the raflway tie-up in Chicago it is difficult to transport sold as low as \$5.25 per bag, whilst Toronto dealers are asked by the merchants to pay \$6.25 for the same made up in the present rate of ex-change and that no labor is employed when the buyers purchase the pota-toes as they stand in the railway cars.

In this connection A. A. McKinnon, one of the oldest potato dealers in the city, said vesterday that the hig buythe whole complexion of the local mar-Ret. "They are offering us \$5.50 a bag in carload lots," said he, "and as there is no labor attached, we are reaping

Mark Bredin, chairman Canada Bread Company, declared yesterday that the bakers are in no way profiteers in putting another cent a loaf rising price of flour is the main cause for the bread price jump, tho there are other contributory causes. Flour in December was \$11 a barrel. Now it is \$13.40 a barrel. Yet the bakers waited until February 17 before they raised the bread price, and they waited until the board of commerce justified an increase of 11/2 cents a loaf. "We were then going along on the ragged

an increase of 1½ cents a loaf. "We were then going along on the ragged edge, so to speak," saids Mr. Bredin. "But we waited, whereas we would have been justified in raising the price in December, for \$2.25 a barrel is equal to 1½ cents a loaf.

Many Other Causes. "There are many other causes—the price of sugar, which before the war we bought at 3½ and 4 cents a pound; the price of oats, which we used to buy at 45 or 50 cents a bushel, and are now \$1.15; and a long list of rising costs like that."

"What about wages? Do you blame them," "Nb, we do not lay the blame for the bread increase on wages. That is not contended at all, altho we have had to raise wages by a big margin."

Central Technical to Suggest New Department to Education Minister.

Matters in connection with the Central Technical School were discussed trial committee, held yesterday afternoon, Trustee Mrs. W. E. Groves in the chair. On a strong recommendation from Principal McKay, the appointment of Miss Agnes Puddington, B.A. B.S., to the position of director of domestic art in the Technical School, was approved and will be recommended to the board. In connection with the position and the difficulty in securing those in Canada trained in such work, Mrs. Groves introduced the idea of the need for a school which would train in order to supply the demand. After discussion it was resolved to interview the minister of education with the view of suggesting such a department in connection with the Technical School. A room for lectures and opportunity given the students for observation in the schools would be all needed to make a beginning, was explained by Dr. McKay.

It was also decided to recommend that a minimum fee of \$10 for the use

When Wages Go Up---Bread Prices Go Up

WE could not increase our bakers' and drivers' wages without raising the cost of bread, especially as flour has advanced in price a few months ago. An increase of 20% has been made to our men and we had to raise the price to make ends meet. In other cities bread prices have been higher than in Toronto for years. Toronto is one of last places to get 13c bread. Even at the new price, bread is the cheapest food you can buy.

STORES NOT HOUSES.

The contract price will be \$10,30 a yard, and the department will purchase 1500 yards.

The G.A.C. were granted a tag day on Sept. 2, and the board also decided to erect street signs regarding traffic regulations at a cost of \$2 each.

News of a permit for one pair of houses on East Gerrard street, near Normandy boulevard is erroneous, and should read one pair of "semi-detached stores and dwellings." These are in trust to P. H. Finney, by whom the correction is made.

Oats finished 1/2c to 11/2c down, and provisions off 7c to 30c.

Altho at the outset grain markets displayed fresh strength which carried corn and oats to the nighest figures yet this season, it was not long hore selfers of corn were in a majority. The prevailing cold damp weather, adverse to farm work, appeared to be chiefly responsible for the initial upturns in values. On the other hand, much notice was taken of gossip that French and British withdrawal of blds for breadstuffs from the United States was due to continued weakness of sterling exchange. Pessimistic views attributed to the German minister of the treasury counted likewise as a bearish factor, and so, too, did late deckines in the New York stock market. Toward the end of the session, indeed, May delivery of corn was the only place where strength of grain still lingered.

Oats were depressed by advices that exporters were reselling.

RUNS WERE LIGHT, BUT

Trading at the Union Stock Yards was on a very limited scale yesterday, total receipts up to the noon nour running From that ton. Trading at the Union Stock Yards was on a very limited scale yesterday, total receipts up to the noon nour running around 70 head. At that, business was not very brick, the market easing off slightly, due, of course, to the unsettled condition of the labor question at all the big local plants, and the difficulty in forecasting what the future might have in store. At the yards, conflicting views of the outlook were in evidence, but practically all the commission houses were advising their shippers to go very carefully, while others were leaving the question an open one, allowing them to form their own conclusions.

The sheep and lambs held fairly steady, but the calf trade was weak and lower, the local plants buying few of the offerings.

The hog trade is unsettled, local butchers paying last week's prices, but the packer buyers are standing aloof, and it looks as the the run would be very light until after the final decision regarding the strike.

The calf trade was in a demoralized condition yesterday, due to the buyers for the packing houses refusing to stock up, and Dave Rountree, for H. P. Kennedy, Limited, stepped into the breach, corroling about 300 of them, which he bought at from 12c to 15½c per lb. The action of the regular buyers, was due, of course, to the uncertainty about the strike.

Essex and Middlesex report the planting of early potatoes, and Norfolk declares that some farmers already have two or three acres in. Prices of potatoes to the producer run all the way from \$4 to \$5.25 a bag, according to locality and quality, and sometimes despite poor quality. The demand for good seed potatoes was never stronger.

quality. The demand for good seed potatoes was never stronger.

Oxford reports that three carloads of live stock were shipped last week from Woodstock by the U.F.O. at prices above those paid by local drovers.

The high cost of feeding live stock is affecting breeders. Brant states that at a recent sale of purebred Shorthorns, good cows with plain pedigrees sold very cheaply, some really good ones going as low as \$120 to \$130. Bulls and very yorns stock scarcely brought beef prices. Frontenac quotes calves as selling for veal at from 12 to 18 cents a pound, Good milch cows are still highly regarded. Both Welland and Huron report sales of dairy cows at prices ranging from \$125 to \$200. The milk flow has largely increased with so many herds freshening.

Hogs are growing strong at from \$19 to \$20 a cwt. Small pigs are selling at from \$10 to \$15 a pair, chiefly around \$12.

Heavy horses are holding their own. PRICES WERE EASIER

MONTREAL PRODUCE MARKET. Montreal, April 27.—There was no change in the local cash oats market today, prices being maintained. The local flour market was unchanged, and nothing new developed in the feed tharket. Demand for baled hay is quieter, and the volume of business small. A very firm feeling continues to prevail in the potato market. Prices were irregular in a somewhat unsettled butter market. The cheese trade was slow.

NEW COBALT WOULD

WEDNESDAY MORNING APRIL 28 1920

Large Number of Claims Staked Out in Pense Township, and Some Are Optional.

BLOOM FOUND YEARS AGO

In the winter of 1905-6, when the Cobalt boom was in full swing, the excitement was increased by reported finds of "bloom" and native silver in the townships of Ingram. Pense, Mulligan and Bayly. This field lies east of Englehart, from 10 to 20 miles. Some prospecting took place, mainly in Ingram, and several small veins carrying arsenides of cobalt were found. Work was not pushed to any extent. Lately, and probably on account of the high price of silver, there has been a recrudescence of activity and prospecting has proceeded on a more extensive scale and over much wider ranges. One syndicate has staked 107 claims and has already optioned three of them for \$200,000. It is, perhaps, too early to make predictions as to the future of the camp, but it is claimed by some of those interested that good values in silver have been found on several properties. The fact, however, that the district has been neglected for the past 12 years or more rather negatives the notion that the ore deposits are exceptionally rich. Further prospecting will, no doubt, throw much light on the future of this district. The discovery of a new cobalt would now be very opportune.

Regular dividends of 1% per cent. on the preferred and 1½ per cent. on the common were in keeping with general expectations, no advance in the common stock of distribution having been regarded as probable after the recent statement of Chairman Elbert H. Gary.

Analysis of the quarterly report discloses some irregularity of business. January returns were well above \$14,-600,000, while those of February, a shorter month, fell slightly under \$13,-600,000, with a rebound to \$16,412,898 for March.

March.
On the basis of today's figures the common stock earned \$3.88 for the quarter, against the previous return of only \$2.27 and \$3.43 in the third quarter of 1919.
Altogether, this year's first quarter made a better showing than any period since the third quarter of 1918, when total earnings amounted to \$42,961,589.
Record figures for the war period were established in the second quarter of 1918, when earnings amounted to \$96,-557,391.

NEW YORK CURB.

New York, April 27.—During the closing hour the market on the curb became heavy, and gains registered up to noon hour were wiped out. The sciling, however, was not of a good character, and affected the speculative issues only. Trading in the oils was comparatively restricted through the session. The mining shares were quiet.

Asobalt, after reaching 79½, reacted to 76½. The selling in Asphalt closely followed the action of the big board. Stutz closed at 465 bid. Steamships showed practically no change. Retail Candy was steady at 14½. Candy's expansion plans will be carried out, beginning May 1, with the opening of large stores in New York and other eastern cities.

Among—the oils, considerable activity was evident in Allen Oil, which advanced fractionally to 2½, Ryan Petroleum was somewhat stronger at 3%. Simms was steady around 18½. White Oil moved around 26%. Wayagamack also made a new high record price at 91¾, after which there was a reaction to 90¾, which represented a net gain of 2¾ points.

Among the remaining papers, Spanish River sold as high as 93, then reacted to 91, unchanged from the preceding day's close.

Among the utilities, Brazilian lost 1¼ points, at 43¼, in relatively active trading.

A feature in the bend department was a decline of 1½ per cent, in the 1937 old war loan, which sold at 95½.

NEWS IS CONFLICTING

New York, April 27 .- The decision of the supreme court in the Reading case, acute weakness of foreign exchange, the proposed retroactive eighty per cent. ings comprised the conflicting developments of today's active and irregular session of the stock market.

Early and midday trading was characterized by further susstantial gains in Reading issues. The advances also embraced affiliated coalers, such as Central of New Jersey, Delaware and Huuson and Delaware, Lackawanna and Western, heightening the impression of an early segregation of assets.

Other rails, notably transcontinentals and trunk lines, had their periods of activity and strength, Union Pacific presenting an excellent report for 1919. Among industrials recent strength of American Woolen was explained by the issuance of the 1919 statement, disclosing earnings of almost \$40 on the common stock.

United States Steel was less prominent than usual on its quarterly meeting day and offered no clue to any change of dividend policy. Earnings for the first three months of the year, made public after the close of the market, exceeded popular estimates, showing \$3.85 gained for the common stock.

Motors, oifs, steels, equipments, shippings and numerous miscellaneous specialities furnished their customary proportions to the day's enlarged operations at extreme gains of 2 to 10 points, but in every noteworthy case these were canceled later.

Heavy selling of the last hour coincided with a ten per cent. money rate and Washington advices indicating progress of the war tax measure, but exchange rallied slightly. Total sales amounted to 1,250,000 shares.

Railroad bonds were strong for a time, but eased with the stock list at the end. Liberty issues with one or two exceptions closed at nominal gains. Total sales (par value), aggregated \$13,275,000.
