CLEVELAND BEATS BROOKLYN 3 TO 1 IN OPENING GAME

Twenty-Four Thousand Spectators See World's Series Contest, Which is Featured By Brilliant Playing of Speaker, Sewell and Griffith — Winners Appear Much the Better Team.

New York, Oct. 5.—The Cleveland American League Club decisively defeated the Brooklyn Nationals by the score of 3 to 1 in the initial game of the 1920 world's series, here this afternoon.

The victory, which was far more impressive than the score would appear to indicate, was won by perfect team play, sparkling with brilliant individual work on the part of the Indians, which made the efforts of the Dodgers dull by comparison.

The opening contest was witnessed by a throng of baseball fans, which tested, but did not overflow the normal precincts of the Ebbets Field. According to the official figures of the national commission, 23,894 persons paid admission to the Brooklyn park, while at least another thousand can be added when the newspaper men and other semi-official representatives are included.

The gate receipts were announced as \$73,470. In both attendance and gate receipts these figures surpass the best individual game record made at Brooklyn in the series of 1916.

In Ruggly Weather. The game was played under conditions far from being ideal for baseball. A stiff north wind blew out of a cold gray sky, and the temperature was reminiscent of football rather than of a summer sport. So cold did it grow as the contest developed that the frigid atmosphere appeared to chill the enthusiasm of the spectators, and as Cleveland checked each effort of the Brooklyn players to become a major factor in the battle, the cheering and rooting faded away until only occasional bursts of applause rewarded outstanding plays.

The high wind also played havoc with the fielding of fly balls, of which there were an unusual number. The balls carried the falling sphere in weird spirals, which caused the outfielders to circle under the ball like a retriever locating a wounded bird. It was this inability to judge the distance of the ball that prevented the Cleveland first score.

Regardless of wind or weather, however, there remained no question in the minds of the fans as to which was the better team at the opening of the contest for the premier honors of the diamond.

Better Team Wins. Both the team and individual play of the winners was superior to that of Brooklyn. Clevelander pitched a perfect game and held the opposing batters in check through the contest. He was backed by perfect fielding of both infield and outfield. Sewell played a remarkable game at short, showing no signs of nervousness such as might have been expected of a youngster thrown into a world's series under the conditions which marked his debut.

FARMERS OF MANITOBA PLAN NEW BIG DRIVE

Winnipeg, Oct. 5.—The United Farmers of Manitoba today planned a big drive to secure the repeal of the tariff on farm implements, according to James Weir, M.L.A., who is in charge of the drive.

A. Crear urged the repeal of the tariff on farm implements, and the province towards complete organization of the farmers. He said that the tariff on farm implements is a burden on the farmer, and that efforts are to be made to link up the French and Russian districts in the province.

TRINIDAD DELEGATE DIES IN MONTREAL

Adam Smith, C.M.G., Mayor of Port of Spain, Caught Cold in Toronto.

Montreal, Oct. 5.—The funeral took place today of the late Adam Smith, C.M.G., a well-known merchant of Port of Spain, Trinidad, British West Indies.

Mr. Smith was in Toronto attending the Congress of Chambers of Commerce of the Empire, and, while there, contracted a cold. Coming to Montreal, pneumonia supervened, and he died last Sunday. At the time of his death, Mr. Smith was mayor of Port of Spain, and last fall he retired from the legislative council of Trinidad. He was 68 years of age, and was accompanied here by his wife and daughter.

The Evening Standard, wholeheartedly a coalition organ, endorses what it alleges is being said generally in political circles today, that it would be the most absolute surrender to violence on record.

"What would happen," asks the Evening Standard, "if New Zealand or Australia were violently anti-British? They could so shape their fiscal policy as to destroy all trade between themselves and the mother country, and in such circumstances estrangement would inevitably proceed to the point of complete political separation."

The Evening Standard concludes with a half suggestion that the Liberals may possibly repudiate Mr. Asquith's leadership, or there may be a change of government.

MAYOR MACBRIDE TO CROSS BENCHES

Announces He Sends Word to Speaker—Can Then Speak His Mind.

Brantford, Ont., Oct. 5.—(Special)—Mayor MacBride has called no meeting of the labor group in connection with the Chippawa troubles, nor does he intend to do so, leaving that to the leaders of the Independent Labor group. But he has asked the Speaker to place group after the cross-benches so that he can speak his mind without being accused of betraying government confidence, a confidence which, however, has never been extended to him. He issued the following statement this evening:

"I have not called any meeting of the labor group, after the experience of last year when I was grossly misrepresented for my action in calling a meeting at the Walker House. I made up my mind in the future if there is any meeting to be called, it will be up to the Hon. Walter Rolfe to do the calling. The men on the Chippawa group, however, perhaps felt that I should have called the meeting, and the government failed to act on the recommendation of our majority report, but there is no more reason to expect me to call a meeting than to expect any other private member of the group."

Raney and Radial. "When Hon. Mr. Raney a few months ago wrote me a letter in which he took exception to my expressed opinion of the question of Hydro radials, and as a minister of the crown undertook to tell me that as a supporter of the government I was not to have the freedom of speech, I have consequently asked the Speaker to place me in a position on the floor of the house where I may be permitted to express my opinions on public questions freely without having the inference drawn that I am in any way betraying government confidence."

BRITAIN SKEPTICAL OF ASQUITH'S PLAN OF FULL HOME RULE

Paper Says It Would Be Most Absolute Surrender to Violence on Record.

LLOYD GEORGE SPEAKS

Canadian Associated Press Despatch. London, Oct. 5.—Premier Lloyd George will speak at Llanelli on Friday, and is expected to deal at length with the Irish situation.

He will probably analyze Lord Grey's proposals of a settlement, and also ex-Premier Asquith's, which appeared in a letter to The Times this morning.

The latter's suggestion, of granting Ireland the status of an autonomous dominion in the fullest and widest sense, is received with general scepticism.

CHINAMAN ARRESTED ON BIGAMY CHARGE

Woman, From Whom He Had Sought Police Protection, Also is Held.

To be arrested on a charge of bigamy an hour after he had sought police protection from the woman he is alleged to have bigamously married, was the unique experience of Cheu Fai, a Chinese laundry proprietor at 189 East King street. Ethel, the woman in the case, was also arrested on the same charge.

The double arrest revealed a sordid story of immorality and matrimonial infidelity.

Fai made his appearance at Court street station at 7:30 last night and requested that an officer be sent to his laundry to remove a white woman who he claimed had become objectionable. Detective Waterhouse accompanied him and returned to the house where he had placed under arrest after hearing the latter's story.

In 1911, the police say, the woman married Frank Everingham, who went overseas in 1914. Soon after he was met and married Fai, knowing at the time that her husband was living. Everingham returned wounded to Canada, and learning of his wife's actions during his absence, left her. His whereabouts is not known by the police.

Fai has a wife and family in China.

HAVE THE BANDITS STARTED IN AGAIN?

While on his way home along Bernard ave., at 11:30 last night, Walter Watson, aged 50, Boston ave., was held up by three armed men and received \$4. In a fight with the bandits Watson was struck over the head with the butt of a revolver by one of the men, and in a semi-conscious condition staggered to the home of Chester J. Harris, 54 Bernard ave.

All three of his assailants, Watson said, were young men, who were dressed in dark clothes and unmasked. He stated that he could identify them again as he had a clear view of their faces.

Detectives Halliwell and Shuttleworth are investigating the case.

DO "SAFETY WEEK" CAMPAIGNS PAY?

The question of whether intensified campaigns against accidents is a paying proposition is answered simply by the statement issued in connection with the "week" conducted in the Lehigh Valley in June of this year.

The following are some of the results: (1) A reduction of 25 per cent. in mining accidents; (2) a reduction of 30 per cent. in electric accidents; (3) a reduction of 38 per cent. in all public accidents; and (4) a reduction of 90 per cent. in accidents at the Lehigh Valley, where the Bethlehem Steel Company's plant, where 15,000 men are employed, lost-time accidents were reduced 77 per cent. for that week.

Next week is "Safety Week."

VERDICT OF MURDER SEQUEL TO TRAGEDY AT STURGEON FALLS

Find Hector Dumont Struck Raymond With Bottle, Then Hanged Him.

STORY A SORDID ONE

North Bay, Oct. 5.—Hector Dumont was late this evening, found guilty of the murder of Cyril Raymond at Sturgeon Falls in April of last year, who were out two hours and forty minutes, recommended mercy to the accused because of the lack of certain evidence," according to the foreman. Dumont was not arrested until a year after Raymond met his death following a row in the latter's home. Mr. Justice Latchford will pass sentence tomorrow.

When the accused admitted it was in the court that Dumont was charged with being an accessory after the fact.

Address to Jury. Mr. Justice Latchford rejected the suggestion put forward by the defence, that the dead man might have committed suicide by hanging, and he told the jury they must decide whether Mrs. Marie Raymond is telling the truth today or on previous occasions. Her various stories having been conflicting, the coroner's inquest and in the early stages of the preliminary hearing in Dumont's case, she had kept silence in regard to Dumont's part in the affair, but today she declared she saw him strike her husband with a bottle.

Story of Tragedy. The story of the tragedy as revealed by the testimony given in court here today indicated domestic relations at the Raymond home were of an unfortunate order. Cyril Raymond, the dead man, was declared by his nineteen-year-old widow to have been jealous of her conduct, and Mrs. Marie Raymond confessed to infidelity and to immoral conduct with both Dumont and Cyril Raymond, who is charged with being an accessory after the fact.

Dr. Aubin and Calonne both scouted the theory of suicide and told of the wounds found on Raymond's body after they both said, any after was strangled. A piece of rope being found tied round his neck.

Both the team and individual play of the winners was superior to that of Brooklyn. Clevelander pitched a perfect game and held the opposing batters in check through the contest. He was backed by perfect fielding of both infield and outfield. Sewell played a remarkable game at short, showing no signs of nervousness such as might have been expected of a youngster thrown into a world's series under the conditions which marked his debut.

REFORESTATION OF WASTE LANDS URGED

**Agricultural Department In-
structs Agents to Start
Campaign.**

Hon. Manning Doherty, minister of
education, has addressed the follow-
ing letter to the agricultural repre-
sentatives in each county:

"It is the desire of the government
that the reforestation of waste lands
be encouraged as generally and as
rapidly as possible. In every town-
ship there are areas of land which are
used for absolutely no purpose, but
which would, with attention, produce
a crop of timber in a comparatively
few years and fully repay the effort
and expenditure devoted to the mat-
ter. This department is co-operating
with the forestry branch of the de-
partment of lands and forests in this
matter.

"To bring this subject prominently
to the attention of the people the gov-
ernment would like to see a demon-
stration plot established in each town-
ship, and to this end desires the co-
operation of the township councils. If
the township council will purchase an
area suitable for this purpose on a
well travelled road and have it prop-
erly fenced, the government will un-
dertake to supply and plant trees to
reforest such area and look after it
in the early years of growth. Such
an area of land should not be less
than five acres or more than ten
acres.

SERVICES ARE FREE.
"It is my desire that you should
bring this proposition to the attention
of the township councils in your
county. I would suggest that you
write a letter to the reeve of each
township outlining the proposition and
that you endeavor to see the reeve
of each township personally and dis-
cuss the matter with him or as far
as possible attend the meeting of the
township council at which the propo-
sition is discussed. Please assure the
councils that your services are at
their disposal in the selection of land
for this purpose, as it will of course
be expected that you will give the
matter your supervision in any town-
ships in which such demonstration
wood lots are established.
"It should be possible to have a

This will often bring quick relief from
the distressing head noises. Clogged

easy and the mucus stop dropping into
the throat. It is easy to prepare, coats
little and is pleasant to take. Anyone
who has Catarrhal Deafness or head

PROTEST AGAINST BUILDING STABLE

**Board of Control Decides to
Let Courts Settle Issue
in Hilton's Request.**

A deputation that almost filled
the private members' room appeared again
before the Board of control yesterday
to protest against permitting Hilton
Bros. to build a stable for forty horses
on First avenue, which is in the resi-
dential area. Mr. A. C. McMaster,
K.C., who appeared for the protestors,
said they wanted the city to abide by
the residential bylaw and cancel the
stable permit. The residents, as well
as three church bodies, object to the
stables being there.

The board finally agreed to recom-
mend that about a dozen houses on
Atlas avenue be given connection
sewer should be constructed in this
district, to serve the whole water-
shed both in the city and the town-
ship.

WRIT AGAINST FACTORY.
A writ has been issued by the city
against James Cridland to prevent
him from erecting a factory at 308
Coxwell avenue, while Mr. Cridland
has brought suit against the city to
force the issue of a building permit,
claiming that the residential bylaw
does not prevent the erection of a
factory on the site he has chosen.

WOODEN SHINGLES BIG FIRE MENACE

**Members of Fire Prevention
League Would Have Use
Restricted.**

That the wooden shingle roof was
a distinct fire menace and should not
be allowed on buildings within 50
feet of another, was the opinion of
the meeting yesterday in the parlour
buildings of the Ontario Fire
Prevention League. J. B. Laidlaw, a
Toronto insurance man, spoke thor-
oughly on the subject, and said there
was hardly a day in Canada when
some one's home was "not destroyed
or the roof burned off by the ignition
of its wooden shingles." He offered
a resolution that none be allowed to
be laid within 50 feet of an existing
building, and the meeting endorsed
it. One of the advantages of such
a step would be the protection from
"shack towns," Mr. Laidlaw said.

NO SURPLUS OF LABOR SERVICE BUREAU SAYS

More employers are looking for
men and women than there are for
or women applying for jobs, accord-
ing to the report of the employment
service of the department of labor
for the week ending September 11.
For the week ending September 11,
the number of vacancies notified by
employers to the service totalled
15,126, an increase of 1,812 over the
previous week.

During this week only 9,579 applica-
tions for work were received. Of these
8,778 were from men and 906 from
women. Of the 8,412 references that
were made by the department in that
week, 8,528 were placed with employ-
ers. The total number of workmen
and women placed is a big decrease of
1,076 from the previous week, but an
increase of 368 is shown over the cor-
responding week in the previous year.

NOT ASKED TO ACT
Attorney-General Raney, asked yester-

said: "I have no application placed

Mr. Raney declined to talk.

MEMBER'S TRIBUTE TO BRITISH MINERS

Ben Spoor Will Be Surprised if Threatened Coal Strike Takes Place.

Ben Spoor, who has the distinction of being a capitalist-Labor member of the British House of Commons, made a decided impression on the members of the Canadian Club yesterday by his striking personality, his clear logic, the simplicity with which he laid the labor situation before his audience, and the telling effect with which he drew his points home.

Mr. Spoor, who has the distinction of being a capitalist-Labor member of the British House of Commons, made a decided impression on the members of the Canadian Club yesterday by his striking personality, his clear logic, the simplicity with which he laid the labor situation before his audience, and the telling effect with which he drew his points home.

It was directly implied, continued the speaker, that the recommendations made by Mr. Justice Sankey, who had been appointed to the coal commission, would form a part of the policy of the government.

Behind the demand for increased wages, Mr. Spoor pointed out, there was a driving force, a desire for an improved standard of living, a desire for a greater intensity than ever before.

In all organizations, Mr. Spoor said, lay the promise that civilization would stand the strain of the present situation.

Both the board of trade and the C.M.A. of Toronto have sent out a large number of questionnaires to members relative to the application of the Bell Telephone Co. for increased tolls.

WANTS LABOR GROUP CALLED TOGETHER

Mayor MacBride, Brantford, Thinks It Time They Should Take Stock.

A letter from Mayor MacBride, M.P.A. of Brantford, has been sent to all the members of the labor group in the city, suggesting a meeting, and the minister of labor, Hon. W. R. Rollo, had intended doing the same thing.

Time is Opportune. "As the labor group has not been convened for the discussion of general matters of policy since some time previous to the last session of the legislature, and as there is a definite understanding that we should convene from time to time as a separate group, it appears to me that the time is now opportune and the group should be called together for a general discussion.

Eddie Edenvour, manager of the Michigan Pike Association tours, was in the city for a short while yesterday, and announced that it has been decided to make next year's tour an international event, as was done this season.

Last year's tour, which came thru Toronto, was the first of the international tour undertaken by the organization. It is expected that at least as many Canadians will next season join the party, as was the case.

ASK UNIFORMITY IN COMPENSATION ACT

Dominion Association Also Urges Extending Benefits of the Measure.

The Association of Workmen's Compensation Boards of Canada at the resumed sessions held in the Normal School yesterday considered the adopting of a uniform permanent partial disability rating schedule. A resolution was passed interpreting the statute of 1913, which provides for compensation to employees of the Dominion government as covering all such employes in every branch of the federal service and asking that the act be amended so as to give effect to such interpretation.

Another resolution passed was that accident prevention work be placed under the jurisdiction of the provincial compensation boards.

Discussion took place on the question of merit rating assessment so that the rating of employes who have no accidents, or a small number will be reflected in their assessment.

DISCREDIT VIEWS ON NATIONAL UNION

Disposition on Part of Local Leaders— Cannot See Strength of Cause.

A disposition upon the part of local leaders to discredit the views upon a national labor movement expressed by a correspondent in yesterday's World was noticeable around the Labor Temple.

Representative labor officials in discussing the matter expressed themselves as unable to appreciate the strength of the case which malcontents are endeavoring to prepare against the American Federation of Labor.

The audit of the books left by the preceding electrical workers is approaching completion and it is expected that a report will be presented tomorrow evening to the section of the local which remains with the A.F.L.

The international convention of the Iron Molders and Structural Steel Workers' Union, which has been concluded in Cleveland, has left the matter of raising of the per capita tax from 50 cents to one dollar per member to a referendum vote of the affiliated locals.

The international convention of the Brotherhood of Teamsters, Chauffeurs, Steamfitters and Helpers is in session during the present week at Cleveland, Ohio.

Dan Brophy, Canadian vice-president of the Iron Molders and Structural Steel Workers' Union, was in town recently and visited the Toronto local of the union.

Reports received from local delegates to the International Machinists' Union convention in Rochester, N.Y., state that the body has declared itself as definitely favoring the American Federation of Labor and has expelled one delegate who was found to have One Big Union affiliations.

Yesterday's development in the strike of local roofers was the attendance at a meeting of the joint industrial council of representatives from the Builders' Exchange, who submitted a proposition for the acceptance of the men.

Hamilton, Oct. 5.—While working at the Dominion Steel Foundries last night, Edward Beecher, 32 Robert street, sustained injuries which necessitated the amputation of a finger on his right hand.

Sault Ste. Marie, Ont., Oct. 5.—The most severe sentence yet given here under the O.T.A. was that passed in police court against Andrew Cheterbrook on a charge of keeping liquor in a public place. He was sentenced to spend three months in jail and to pay a fine of \$1,600. Cheterbrook has previous convictions against him.

LOSS OF CONROY MUCH REGRETTED

Former District Secretary of G.W.V.A. Well Qualified for Duties

On behalf of his association, J. F. Marsh, general organizer for the G.A.U.V. in Ontario, expressed to The World the deep sense of loss which all returned men's associations would feel at the recent resignation of the district secretary of the G.W.V.A., J. V. Conroy. "The ex-service men have lost in the resignation of this friend a man whose slogan was always that of unity and comradeship," said Mr. Marsh, "and we believe it will be difficult for his association to replace him."

Sergeant-Major J. V. Conroy, who is a profound linguist, is the descendant of a soldier who served under Wellington in the Peninsular wars, and is the son of a veteran of the Crimean war. His family is well known in Orange and Masonic circles. He initiated the idea of enrolling the V.C. veterans in Toronto during the "E" year. Also he was the first ex-service man to organize large demonstrations of ex-service men in the city. He has himself seen considerable service since he joined the navy in 1881 with H.M.S. Temeraire. He has been wounded twice, and wears Khedive and other medals. He was also the first man to make representations on behalf of the unemployed ex-service men which finally resulted in the formation of the repatriation league, composed of representative business organizations in the city. Not only has the sergeant-major been a naval man, but he has also traveled with the merchant marine of Britain, and has visited practically every well known port in the world.

Neither Fish, Fowl, Nor Good Red Herring.

We are assured on high authority that Hon. Mackenzie King and the Liberal party are not in favor of free trade. On the same authority, we are assured neither is the Farmers' party in favor of free trade, and The Grain Growers' Guide is called as a witness. Are we mistaken. Leader King and Leader Crerar are all for protection, and that we have reached an era of good feeling on the fiscal question? When we come to examine the defence for Mr. King and Mr. Crerar alike, by a journal which is trying to support both at the same time, we learn that: No responsible political leader in Canada proposes to abolish customs taxes. Mr. Crerar says he would eliminate the protective principle from the tariff altogether. Mr. King says he is neither a protectionist nor a free trader. The Journalist effort on their behalf says that no matter how the next election may go, the custom house will not be abolished. Tariff duties will be levied, but for the primary purpose of raising revenue. Now, if a man tomorrow were given the task of making the tariff yield the greatest possible revenue without any regard to other consequences, what would he do? He would, of course, impose a considerable duty upon commodities which cannot be produced in Canada, and which must therefore be imported, like coffee, tea, oranges, bananas and silk. He would impose a heavy tariff tax upon coal, wines and tobacco. He would impose upon manufactured products a tax so light as not to check their importation. He could, and probably would, raise more money by this revenue tariff than he would by a tariff whose guiding aim was the principle of protection. But he would establish free trade in Canada.

Great Britain, for sixty years before the war, was a free trade country, as that term is universally understood, but Great Britain during all that time collected an enormous revenue from tariff taxation. The tariff duty of ten cents a pound on tea, which we grudgingly submitted to in Canada as a desperate war measure which had to be put up with during our life and death struggle for existence, flourished in England as a matter of course long before the war was dreamed of. Heavy tariff taxes were levied on wines, silk, tobacco, and the tariff tax per head on the inhabitants of the British Isles in 1913 was not much below the tariff tax per head levied at the same time upon the inhabitants of Germany or the United States. In common parlance, and for all practical purposes, it is fair to say that the man who wants to eliminate the protective principle from the tariff, or would frame the tariff primarily and mainly for the raising of revenue, is a free trader. He wants the fiscal system which prevailed in England in 1913 as distinguished from the fiscal system which at the same time prevailed in Canada, Germany and the United States. That system was known as free trade and extolled as free trade, and only a pestiferous would then have attempted to say that England was not a free trade country, because she levied a tariff tax upon silk, wine and tobacco.

In the coming election there will be no place for the fiscal maverick. He will have to be branded either free trader or protectionist. The man who favors protection believes that as a matter of national policy we should stimulate and maintain Canadian industries. We cannot be a purely pastoral people, raising grain and live stock for the world to consume, and getting back in exchange from foreign countries all the comforts and luxuries of daily life. We would be as helpless in case of war as so many sheep. We would have to send all our sons and daughters, who had mechanical genius or a taste for anything except farming, into exile. What industries sprang up in the country would be crushed by the American manufacturers, who could for a time afford to sell at slaughter prices.

Whether or not England was wise seventy years ago to adopt free trade, we need not determine. She possessed at the time a unique position with her vast deposits of coal, her extended shipping, and with her colonies in every corner of the world. But no one apparently wants free trade in Canada, or, if they do, they are ashamed to stand up and say so. Yet the free trader, the visionary, is entitled to some respect, compared with the so-called tariff reductionist or the tariff-revenue adept. It is the cheapest kind of cheap humbug to say that no

The British Coal Strike.

The recent strike threatened by the coal miners in England was in many respects unique. The miners, it will be remembered, demanded not only more pay for themselves but lower prices for the consumers. The mine owners were apparently indifferent, and according to The Labor Herald, would have welcomed a strike that might have led to the mines being fully restored to their control. While the Lloyd George government has been flat-footed against government ownership of the mines and has not attempted government operation, it has put for a government control which just at present is yielding a handsome return to the national exchequer. Coal is supposed to be delivered to the domestic consumer at a fair valuation free from profiteering, and the miners are supposed to get a living wage, but after a certain percentage is paid the mine owners the enormous profits on the coal sold for export go to the government. If the demand of the miners for higher wages for themselves and lower prices for the consumer had been complied with, the mine owners would have been out of pocket not a penny, but the government would have been out of pocket.

Hence we gather there was some gross-firing between the consumers of coal and the payers of taxes. Generally speaking they are identical, for the taxpayer must burn some coal, and few people able to buy coal at current prices could evade the tax collector. Still the cry was made, perhaps hypocritically, that reducing the rate of taxation benefited the rich, while reducing the cost of domestic coal helped the poor. We never on this continent heard of a strike when anybody thought of the consumer except in his inevitable role of the goat. The strikers, when they get more pay, quite naturally expect their employer to get that amount and a great deal more from the public. The public knows this well enough, but generally sides with the striker. Most of the English papers of high standing denounce the strikers as attempting political blackmail, and there was a general cry that the miners were Bolsheviks. We, at this distance, of course, are unable to form any opinion on the ultimate merits of the case. The miners would certainly have been in an indefensible position had they rejected the proposal of the prime minister which finally averted the strike. On the other hand, much can be said in favor of government ownership and operation of coal mines. For the present, however, the fancy price for export coal makes it impossible to hope that the mines could be acquired by the government at a reasonable price.

OTHER PEOPLE'S OPINIONS

The World will gladly print under this head letters written by our readers, dealing with current topics. As space is limited they must not be longer than 200 words and written on one side of the paper only.

CHIEF CAUSE OF BLOCKADES.
Editor World.—An effectively promoting cause of blockades on leading streets is the absurd practice of motorists who use them as thoroughfares. A large proportion of the motor car drivers might better make thru trips on Richmond and Adelaide than on Queen; they would proceed more progress and lessen the tendency to cause blockades. No motor cars should ever be on King, Queen or Yonge except those on business errands to places on these streets.

Straight From the Shoulder.

Premier Meighen is to speak in East Elgin on the 12th inst., and he will, no doubt, return to that constituency before the polling on November 22. The farmers of Elgin will have the opportunity to see and size up the new prime minister. They will not find in him the conventional politician who is all things to all men, but a straightforward man with definite views on the great public questions of the day which he expresses fearlessly and plainly wherever he goes.

Mr. Meighen goes from East Elgin to the prairie west, where there is a strong sentiment in favor of free trade, but he will not pussyfoot around the tariff issue. He will uphold the national policy in Saskatchewan as he upholds it in Ontario. The western farmers may not vote for him, but if they do, he will not get their votes under false pretenses.

CLEVELAND DEFEATS BROOKLYN BY 3 TO 1

(Continued From Page 1).
Manager Speaker, in centre field, proved a barrier beyond which it was almost impossible to drive the ball and made sensational catches far to the right and left of his normal position with an abandon which brought cheers even from the most rabid of the home team followers. Catcher O'Neill, with his two timely run-scoring doubles, was the star batsman for the victors.
Griffith's Circus Catch.
For Brooklyn the feature individual play of the game was Griffith's wonderful catch of Speaker's terrific drive to the right field wall in the fifth inning. The ball shot off the bat of the Cleveland manager with a report like the crack of a whip and sailed to the extreme limits of right field. It appeared to be a certain extra base hit, but Griffith started back with the crash of the bat and when he reached the retaining wall, sprang high up against the concrete and caught the ball in one hand, fully ten feet above ground while it was bouncing up and off the wall.
Tries Three Pitchers.
Cleveland batters found Marquard easier to hit than either Mannaux or Cadore. The Indians failed to get a runner on first after the close of the fourth inning. The Westminister Gazette, which usually gives its benediction to Mr. Asquith's sentiments, treats his latest proposal tonight with merely distant respect. Harking back to its own earlier pronouncements, that the Irish people have suffered a total loss of faith in the seriousness and honesty of the British government, The Westminister Gazette supports Lord Grey's proposal "to leave to Irishmen the responsibility of finding the right solution of the Irish question. We share work on it in a responsible manner, many of the difficulties which now loom largest will disappear."
Sop to Sinn Fein Violence.
Among the downright opponents of concessions to Ireland, Mr. Asquith's letter is denounced as a "mere sop to Sinn Fein violence," and his advocacy of Ireland possessing its own army and a vote in treaty-making is seized upon as material to which it would be impossible for the British public to consent.
The newspapers, commenting on the Asquith declaration, take up what they consider the weak spot, in that it fails to suggest any method of dealing with the Ulster question and show how the North and the South can be brought together.
Premier Lloyd George is credited with holding the belief that British opinion could not expect him to go as far as Mr. Asquith suggests, but, according to the Standard's Dublin correspondent, he is expected to make another peace offer to the Sinn Fein.

THE BATHURST STREET CARS.

Editor World.—Your little rap at the way in which the Bathurst street cars are run was well merited. Particular annoyance is caused residents of the district north of Bloor about 7.30 to 8 o'clock every evening. The cars going down are exceedingly irregular. Tonight thirty-six people had gathered in one lengthy interval between cars at the corner of Olive street, and the first cars to come down did not pass without stopping. This is a nightly occurrence.

ROCK-A-BY, BABY.

There are few people in this country who have not heard the nursery rhyme sung by mothers: "Rock-a-bye, baby on the tree top. When the wind blows the cradle will rock. When the bough breaks the cradle will fall, And down will come cradle, baby and all."
But how many know the origin of these lines? Shortly after the Pilgrim Fathers landed at Plymouth, Mass., a party were out in the field, where the Indian women were picking strawberries. Several of these women, or squaws, as they are called, had "papposes"—that is, babies—and, having no cradles, they had them tied up in Indian fashion hung from the limbs of surrounding trees. When the wind blew these cradles rocked. A young man of the party, observing this, peeled off a piece of bark and wrote the above lines, which, it is believed, was the first poetry written in America.

Division of the receipts for the game follows:
Ten per cent of gross to National Commission, \$704.90, leaving a balance of \$14,141.60. Sixty per cent of this balance for players' fund, \$42,858.48. The players' fund, \$42,858.48, 25 per cent to the members of the two teams, \$10,714.62, and the remainder, \$32,143.86, divided among the players of the teams National and American.
The Cleveland players have voted a full share of the receipts to the widow of Ray Chapman, the shortstop, who was killed by a pitched ball in a game between Cleveland and New York in this city.
Take Lead Early.
Cleveland got the jump on Brooklyn by scoring two runs in the second inning. Burns, the first man up, hit a high fly, which came down where Konechky was standing. The wind caught the ball and Konechky jogged a step forward, then backward, then sidewise and in the end the ball dropped safely to the ground. It went as a single. Konechky picked up the ball and threw to second to head off Burns, but no one was at the midway station to receive the throw and Burns went to left field, Burns meantime completing the circuit for the first run. After Gardner had been disposed of at first, Wood drew a pass and went to third on Sewell's single to right, center and Wood scored on O'Neill's double down the left field line.
In the fourth inning with one out, Joe Wood doubled to left centre and remained at the midway when Sewell filed to Myers. Wood scored on O'Neill's double to right.
Brooklyn's only run came in the seventh, when Wood led off with a double to right. He took third while Myers was being retired at first, and scored when Konechky was put out at first. Burns to Cleveland.
Less Enthusiasm.
The spectators were slow in filing into the stands and there were many vacant seats when Evans opened the game with an infield hit. Later these seats filled, but there was an apparent lack of enthusiasm compared with preceding years' series. Much of the typical noise and rooting was missing, and there was little evidence of concerted effort to cheer on either team. Spectators who preferred both grand stand and bleacher seats at

CHAPTER VII. (Continued)

When Armathwaite laid aside the second newspaper, no one spoke for a minute or more. Percy Whittaker was seemingly interested in the effort of a fly to extract nutriment from a lump of sugar; Marguerite Ogilvie was staring at vacancy with wide-open, terror-laden eyes; Armathwaite himself appeared to be turning over the baffling problem in his mind.
At last, Whittaker stirred uneasily. "What time does the post leave here, Meg?" he inquired. "I want to send Edie a line. She'll have a bad fit of the jumps if she hears from neither of us tomorrow."

CHAPTER VIII. WHEREIN PERCY WHITTAKER PROVES HIMSELF A MAN OF ACTION.

The rather bizarre question started the girl out of her melancholy thoughts. She looked at Whittaker as she had completely forgotten his presence.
"The post," she repeated. "There is no post out of Elmdale this evening. Miggles passed thru the village hours ago."
"Miggles?"
"He's the postman. We either see him ourselves or leave letters at Thompson's, the grocer's, before four o'clock."
"Then neither letter nor telegram can be despatched tonight?"
"Yes. If you care to pay mileage to Bellerby, and the message is handed in before eight, Thompson will send a boy with the telegram."
Whittaker glanced at his watch. The hour was half-past six.
"How far is Bellerby?" he said.
"Tell me in terms of the clock, not in miles, which, as a method of reckoning in Yorkshire, conveys a sense of infinity."
"A boy can bicycle there in half an hour."
"Then, footsore as I am, I shall like me to Thompson's."
"Why not write your telegram here, and Betty will take it?"
"No, thanks. I'll see to it myself. Then, if it doesn't reach Edie tonight, I can place a hand on my heart and vow I did all man could do, and failed."
"You are not forgetting that I have written to her?"
"No. Don't you see? A letter from you complicates matters even more, if she hears from Meg, and not a word is said about Percy, she'll wonder what has become of little me. I suppose Thompson's shop is not a nice bit removed from the village?"
"It is opposite the Fox and Hounds Inn. You can walk there in two minutes."
Armathwaite, who had risen, and was starting thru the window during this brief colloquy, was struck by the quietly pertinacious note in Whittaker's voice. Moreover, he was listening carefully, since there was some faint trace of an accent which had a familiar sound in his ears. He waited until the younger man had gone out and was walking gingerly down the garden path; progress down the path had been a torture to sore toes, yet Whittaker was strangely determined to send that unnecessary telegram in person—unnecessary, that is, in view of the fact that a message despatched next morning would have served the same purpose. Why Armathwaite found that life bristled with interrogatives just then.

Catcher O'Neill, with his two timely run-scoring doubles, was the star batsman for the victors.
Griffith's Circus Catch.
For Brooklyn the feature individual play of the game was Griffith's wonderful catch of Speaker's terrific drive to the right field wall in the fifth inning. The ball shot off the bat of the Cleveland manager with a report like the crack of a whip and sailed to the extreme limits of right field. It appeared to be a certain extra base hit, but Griffith started back with the crash of the bat and when he reached the retaining wall, sprang high up against the concrete and caught the ball in one hand, fully ten feet above ground while it was bouncing up and off the wall.
Tries Three Pitchers.
Cleveland batters found Marquard easier to hit than either Mannaux or Cadore. The Indians failed to get a runner on first after the close of the fourth inning. The Westminister Gazette, which usually gives its benediction to Mr. Asquith's sentiments, treats his latest proposal tonight with merely distant respect. Harking back to its own earlier pronouncements, that the Irish people have suffered a total loss of faith in the seriousness and honesty of the British government, The Westminister Gazette supports Lord Grey's proposal "to leave to Irishmen the responsibility of finding the right solution of the Irish question. We share work on it in a responsible manner, many of the difficulties which now loom largest will disappear."
Sop to Sinn Fein Violence.
Among the downright opponents of concessions to Ireland, Mr. Asquith's letter is denounced as a "mere sop to Sinn Fein violence," and his advocacy of Ireland possessing its own army and a vote in treaty-making is seized upon as material to which it would be impossible for the British public to consent.
The newspapers, commenting on the Asquith declaration, take up what they consider the weak spot, in that it fails to suggest any method of dealing with the Ulster question and show how the North and the South can be brought together.
Premier Lloyd George is credited with holding the belief that British opinion could not expect him to go as far as Mr. Asquith suggests, but, according to the Standard's Dublin correspondent, he is expected to make another peace offer to the Sinn Fein.

BRITAIN SKEPTICAL OF ASQUITH PLAN

THE BATHURST STREET CARS.

Editor World.—Your little rap at the way in which the Bathurst street cars are run was well merited. Particular annoyance is caused residents of the district north of Bloor about 7.30 to 8 o'clock every evening. The cars going down are exceedingly irregular. Tonight thirty-six people had gathered in one lengthy interval between cars at the corner of Olive street, and the first cars to come down did not pass without stopping. This is a nightly occurrence.

ROCK-A-BY, BABY.

There are few people in this country who have not heard the nursery rhyme sung by mothers: "Rock-a-bye, baby on the tree top. When the wind blows the cradle will rock. When the bough breaks the cradle will fall, And down will come cradle, baby and all."
But how many know the origin of these lines? Shortly after the Pilgrim Fathers landed at Plymouth, Mass., a party were out in the field, where the Indian women were picking strawberries. Several of these women, or squaws, as they are called, had "papposes"—that is, babies—and, having no cradles, they had them tied up in Indian fashion hung from the limbs of surrounding trees. When the wind blew these cradles rocked. A young man of the party, observing this, peeled off a piece of bark and wrote the above lines, which, it is believed, was the first poetry written in America.

Division of the receipts for the game follows:
Ten per cent of gross to National Commission, \$704.90, leaving a balance of \$14,141.60. Sixty per cent of this balance for players' fund, \$42,858.48. The players' fund, \$42,858.48, 25 per cent to the members of the two teams, \$10,714.62, and the remainder, \$32,143.86, divided among the players of the teams National and American.
The Cleveland players have voted a full share of the receipts to the widow of Ray Chapman, the shortstop, who was killed by a pitched ball in a game between Cleveland and New York in this city.
Take Lead Early.
Cleveland got the jump on Brooklyn by scoring two runs in the second inning. Burns, the first man up, hit a high fly, which came down where Konechky was standing. The wind caught the ball and Konechky jogged a step forward, then backward, then sidewise and in the end the ball dropped safely to the ground. It went as a single. Konechky picked up the ball and threw to second to head off Burns, but no one was at the midway station to receive the throw and Burns went to left field, Burns meantime completing the circuit for the first run. After Gardner had been disposed of at first, Wood drew a pass and went to third on Sewell's single to right, center and Wood scored on O'Neill's double down the left field line.
In the fourth inning with one out, Joe Wood doubled to left centre and remained at the midway when Sewell filed to Myers. Wood scored on O'Neill's double to right.
Brooklyn's only run came in the seventh, when Wood led off with a double to right. He took third while Myers was being retired at first, and scored when Konechky was put out at first. Burns to Cleveland.
Less Enthusiasm.
The spectators were slow in filing into the stands and there were many vacant seats when Evans opened the game with an infield hit. Later these seats filled, but there was an apparent lack of enthusiasm compared with preceding years' series. Much of the typical noise and rooting was missing, and there was little evidence of concerted effort to cheer on either team. Spectators who preferred both grand stand and bleacher seats at

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package which contains complete directions. Then you are getting real Aspirin—the genuine Aspirin prescribed by physicians for over nine-tenths of the world's ailments.

There is only one Aspirin—Bayer's. You must say "Bayer" when you buy Aspirin. Handy tin boxes containing 12 tablets cost but a few cents. Druggists sell "Bayer" Aspirin in an unbroken "Bayer" package.

Aspirin is the trade mark (registered in Canada) of Bayer, Manufacturers of Monoacetic Acid Salicylic Acid. While it is well known that Aspirin means Bayer, the fact that Aspirin is a trade mark is not generally known. Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

Oakal Common Advances to \$10 Per Share

This is the public's last opportunity to purchase OAKAL Common stock at \$5.00 per share (the original price), as these shares will be advanced to \$10.00 on the 20th inst.

Why This Advance?

Because production starts this month. Our output capacity, and the profit on the output—which is already booked, justifies the increase. Why should a buyer secure this stock at the price of a year ago?

Represents Nearly Half Million Dollars

These screenings and the refuse which enters into the mixture that makes OAKAL superior to any other fuel, ensure a return to the Company of some \$40,000...

Further Advances Are Certain

If you live outside the City, wire or write at once for such reservations as you can afford. If in the City call and secure as many shares as you can, remembering that the price of the Common stock advances to \$10.00 per share on October 20th.

CLEVELAND WINS FIRST GAME FROM THE DODGERS, 3 TO 1

GREAT DEFENSIVE WORK BY INDIANS

Cleveland Backed Up Cooley's Spitball Pitching in Very Smooth Fashion.

SPEAKER BRILLIANT Provides the Fielding Sensations in First World Series Game.

Brooklyn, N.Y., Oct. 5.—The detailed story of the first world series game follows: First Inning. Cleveland—Wood pitched to Olson. Olson flied out to Cooney. Speaker got a hand which was a little flapped, and the crowd gave Marquard a big cheer. No runs. No hits. No errors.

COVELESKIE'S SPITBALL BEAT DODGERS IN FIRST CONTEST

Ebbets Field, Brooklyn, Oct. 5.—The Cleveland Indians, champions of the American League, topped over the Brooklyn Dodgers by a score of three to one in the first game of the world's series today. The National League champions were helpless before the mystifying slants of the high spitball pitcher, Coveleskie. He was given sterling support by his team-mates, especially Speaker, who ranged far and near, robbing the hapless Brooklyn of apparent hits. O'Neill starred at the bat with two doubles. The official attendance was 23,894. The following official box score tells how Cleveland snared the game:

Box score table for Cleveland vs Brooklyn game, showing runs, hits, errors, and player statistics for both teams.

CLEVELAND Score by innings—0 2 0 1 0 0 0 0—3. Summary: Two-base hits—O'Neill (2), Wood, Wheat, Sacrifices—Wambagans, Johnson. Double play—Konetchy to Krueger to Johnson. Left on bases—Cleveland 3, Brooklyn 5. Bases on balls—Off Marquard 2, off Coveleskie 1. Hits—Off Marquard 5 in 6 innings, off Mameaux none in 3 innings, off Cadore none in 1 inning. Struck out—By Marquard 4, by Mameaux 3, by Coveleskie 3. Losing pitcher—Marquard. Time of game—1:41. Umpires—Klem (National League) behind the plate; Connelly (American League) at first base; O'Day (National League) at second base; Dineen (American League) at third base.

SLUGGER BENTLEY TRIMMED ST. PAUL

Two Home Runs Put Skids Under the Association Champions.

Baltimore, Md., Oct. 5.—Single-handed, Jack Bentley, star pitcher and first baseman of the Baltimore, international League champions, sent St. Paul, winners in the American Association, down to defeat this afternoon in the first game of their first-season series by a score of 5 to 3. While his twisting was a bit loose toward the close, his hitting was of the Babe Ruth type, and his two home run drives were responsible for four of the five runs chalked up to his team's credit. Krueger, center fielder, was the hero of the day, hitting a home run and a double, and pitching a good inning of ball through the Saints' lineup. Bentley, the regular pitcher, pitched a good game, allowing only one run and striking out five. The game was a close one, with Bentley leading in the opening round, when a single by Jacobson and a double by Holden turned the tide. Bentley's team won 5-3. FIVE RECORDS FALL AT U.T.S. FIELD DAY

Sparrow Wins Senior Honors and Rogerson is the Best Junior.

University of Toronto Schools staged their tenth annual field day at Varsity Stadium yesterday. G. R. Sparrow won the senior's championship by scoring 25 points, and J. W. McMaster was second, with a mark of 18. J. Rogerson was the best junior, with 26 points, and M. Aylward was second, 12 points down. Five new records were set up and two old marks tied. Sparrow, senior champion, was responsible for two of the new marks. Sparrow added on 2 1/2 inches to the standing broad jump, 15 and under, when he did 8 feet 7 1/2 inches. He also added half an inch to the high jump, 12 and under. In the 100 yards event, for 12 and under, M. Aylward clipped two-fifths off the old mark. The other new record was when J. Keith stopped the quarter, 12 and under, in 1:12. This was two seconds better than the old mark. Standing broad jump, open—1, G. R. Sparrow, 25 1/2; 2, D. D. McKinnon, 18; 3, M. McGill, 17. High jump, open—1, J. W. McMaster, 5 1/2; 2, J. W. McMaster, 5 1/2; 3, M. McGill, 5 1/2. Running broad jump, 13 years and under—1, R. A. Harris, 14' 7"; 2, K. E. Deacon, 11' 10 1/2"; 3, R. D. Jennings, 11' 5 1/2". Running broad jump, open—1, D. Goulding, 19' 3 1/2"; 2, J. W. McMaster, 18' 6 1/2"; 3, F. F. Hutchison, 17' 4". Hop, step and jump, open—1, D. Goulding, 27' 11 1/2"; 2, F. F. Hutchison, 25' 5 1/2"; 3, G. Green, 25'. High jump, 15 years and under—1, G. R. Sparrow, 6' 8 1/2"; 2, D. McKinnon, 6' 7"; 3, M. McGill, 6' 4 1/2". Previous record, 6' 8". Running broad jump, open—1, R. Van Valkenburg, 23' 11 1/2"; 2, F. F. Hutchison, 23' 11 1/2"; 3, D. Goulding, 22' 7 1/2". Shot-put, open—1, W. L. Woods, 28' 8"; 2, D. Goulding, 27' 1 1/2"; 3, A. Ogden, 26' 11 1/2". Pole vault, open—1, J. W. McMaster, 15' 11 1/2"; 2, F. F. Hutchison, 15' 11 1/2"; 3, M. McGill, 15' 11 1/2". Obstacle race—1, Burns, 2; Keith, 3; Hutchison.

INDIANS BACK UP COVELESKIE WITH BRILLIANT FIELDING

Several Will Be Kicked at a Later Date—Kauff Was Honest.

Chicago, Oct. 5.—Evidence which officials in the state's attorney's office said would result in the indictment of several National League baseball players was given at the Cook County grand jury today by players and club officials who testified in the inquiry into the baseball scandal. There will be no indictments for ten days or more, however, for the jury adjourned after today's session subject to call and is not expected to reconvene until after the world's series. Adjudgment was taken because it was found that several witnesses scheduled to testify are attending the series games. John McGraw, manager of the New York Giants; Charles Stoneham, president of the New York Club; Benji Hunter, outfielder; Larry Doyle, second baseman; Fred Toney, pitcher; and Frank Mackall, Hughie Jennings, Detroit manager; Jean Dubuc, Toledo pitcher; and "Kid" Gleason, Chicago White Sox manager, were all witnesses. The New York testimony centered about activities of Helms Zimmerman and Hal Chase in connection with alleged game "throwing" and tending, McGraw said, to clear Kauff and Toney of participation in any crooked games. Kauff and Toney told the jury of offers made them by Zimmerman to "throw" games. Each said he refused the offer and reported it to McGraw and Stoneham. The latter two confirmed the testimony of the players. McGraw denied for the second time that gambling had anything to do with the release of Kauff to Toronto this summer, saying it was due to the fact that Kauff's playing slumped when he began worrying over charges made against him that he had received a stolen automobile. "Chase and Zimmerman are the only men who ever played on my team who are guilty of any wrong doing in my opinion," McGraw said. Zimmerman's offer to Kauff was \$125 a game with an increase if the outfielder proved an adopt at losing, Kauff testified. Jennings was questioned concerning bets alleged to have been placed in Detroit on the Chicago-Philadelphia National League game, Aug. 31, but told McGraw that he had no recollection of the matter. Mackall denied that he had seen anything to indicate crooked work among the Giants' players. Gleason told the jury he had no definite information concerning the details of games this season by his men, but said there were some things in connection with the team's season trip, when the team slumped badly, which looked suspicious to him. Dubuc gave the jury a telegram he said he received from Bill Burns, former major league pitcher, telling him to bet on Cincinnati in the world's series. He said he had been informed prior to the series that it was "fixed" for Cincinnati to win. His testimony corroborated that given previously by "Rube" Benton, New York National pitcher.

J. O'CONNOR TO PLAY ON THE HALF LINE

Munro at Flying Wing When Scullers Play in Montreal Saturday.

Coaches Rodden, Knight and Murray have had their heads together during the last two days, and as a result the Aronaults will be much stronger when they take the field at Montreal on Saturday against the Big Four champions. Jack O'Connor, star back of former seasons, was going great guns last night at practice at right half and picking spots to wear thru that nobody else would think of looking for. O'Connor is billed for the right half job at Montreal, and this will release Dunc Munro for the flying wing job. James and Frank Knight will get back into harness to hold down the other outside spots. WOMEN'S GOLF FIELD Reduced to Sixteen

Cleveland, Ohio, Oct. 5.—Mrs. J. V. Hurl, Pittsburgh, former English champion, and Miss Sarah Fowles, Pittsburgh, furnished the feature match of today's final of the twenty-fifth annual women's golf championship, Mrs. Hurl winning one up in twenty holes. Miss Fowles, who was the defending champion, came thru her first round with a score of 116. Mrs. Hurl, who is a member of the title-holding club, the Allegheny, was paired with Miss Miriam Burns, the 16-year-old Kansas City girl. Tomorrow Mrs. Hurl is paired with Miss Elaine Rosenthal, Chicago, and Mrs. Fowles with Miss Mildred Overy, Philadelphia. The field is now reduced to 16.

C. H. A. IS ALSO AFTER THE HOCKEY TOURIST

Winnipeg, Oct. 5.—The Canadian Amateur Hockey Association does not propose to tolerate the actions of players moving from one place to another to play hockey, and the it may be difficult to enforce discipline, it is the intention of the association to suspend any players or clubs violating the rules, declared M. J. Sterling, president of the association, who arrived in the city today. "We are going to ask for the names of players changing their addresses, both in the east and the west, and the case is going to be thoroughly investigated," said Mr. Sterling. "If we are going to continue the association, it must be done on a basis of honesty, and everything in my power will be done to make it so."

WEST END ATHLETICS. There is a meeting of all interested athletes at the West End Y.M.C.A. tonight for the purpose of discussing the winter athletic program. Indoor athletics are going forward this winter and interested should be out without fail. The presentation of the official merit marks won by the West End athletes during the past summer will be made at this meeting.

INTERSCHOLASTIC KIDS TO PERFORM FRIDAY

The interscholastic track and field meet, open to the high schools of Ontario, will take place at Varsity stadium, Friday, at 2:30 o'clock. On the first day of entries, over seventy individuals declared their intention of competing, and many entries have since been received. The University of Toronto track and field team are in charge of the meet, which promises to be the latest high school meet ever held in Ontario. As this is the first time since the war that the meet has been held in Ontario, it is expected that the meet will be a success. Mr. R. L. Carruthers, of the U. of T., who is the Canadian intercollegiate hurdle champion, will give an exhibition of the new style hurdle which won for Canada the world's championship and record at the recent Olympic games in Antwerp. Mr. Carruthers and Mr. Thompson cleared the last hurdle together, but the latter was faster on the last ten yards sprint. Competitors will dress at Hart House, and Mr. Duchen will give out numbers at the secretary's office at 1:30 p.m. Parkdale Rangers F.C. will hold their regular monthly meeting tonight at Hagerman's, 1024 West Front street. All signed players of both teams and members are requested to be present. Important business to be discussed.

TORONTO OLYMPIC ATHLETES RETURN

James G. Merrick, chairman of the Canadian Olympic committee, and manager of Canada's Olympic team, Walter Knox, the coach; Mac Phillips, the 400 and 1,000-meter runner; J. S. Hay, R. Hay, N. Harcourt, the Canadian rowing club four, which represented Canada in the event for fours with coxswain, arrived Monday, and with them were Thompson, who won the 100-metre hurdle race; George Hodgson, Eugene Rankin, the Calgary boxer; George Town, Lawrence, the Montreal marathoner; and Archie McDiarmid and John Cameron, the Vancouver weight men.

JOY IN CLEVELAND.

Cleveland, Ohio, Oct. 5.—Baseball fans of Cleveland were in a frenzy of excitement tonight over the victory of the Indians in the first game of the world's series. Satisfaction was expressed in the fact that Rube Marquard was disposed of, and that with Mameaux having pitched part of today's game he would hardly be available tomorrow. The fans, as a rule, do not fear much trouble in disposing of any one else whom Manager Robinson might send to the mound. Confidence was expressed that James Bagby and Walter Mills would be just as effective as Coveleskie.

WOODSTOCK HANDICAP FEATURE OF OPENING CARD AT KENILWORTH

COMMANDER ROSS' THORBREDS DOMINATE RACING IN AMERICA

Canadian Turfman's Horses Have Earned Over Half Million in Purses Last Three Years, With Sir Barton Leading This Year.

Windsor, Ont., Oct. 5.—Commander J. K. L. Ross of Montreal, one of the high contracting parties to the great thorbred match that will bring the 3-year-old champion of 1919, Sir Barton, and the 3-year-old champion of 1920, Man o' War, together at Kenilworth Park on October 12 in a gallop of one mile and a quarter for a record purse of \$75,000 and a \$5,000 gold cup, was not fortunate in the first great match to which he was a party.

Nevertheless, for two seasons Commander Ross' thorbred establishment has dominated the Canadian racing scene to the brilliant consistency of Manly Kelly, a son of Dick Welles for whom he paid \$25,000 at the end of August, and the splendid achievements of the distance-running Broomstick stallion, Cudgel, the Canadian flag led all American rivals in 1918 with a total of \$97,175 to their credit.

In 1919 Sir Barton, who in 1918 had been a stable parasite, stepped out as the great winner. His total of earnings was \$83,850. Not only was he the biggest contributor to the exchequer of the Ross stables; he was the biggest money-winner of any age in American racing. Kelly was Commander Ross' second best bet. Then followed Constancy and Milkmaid. The aging Cudgel, always up against it in the handicaps, in few of which he could get under less than 130 pounds, earned no more than \$17,000.

The Canadian turfman had horses for all sorts of racing last season. Boniface, Damrosch, Milkmaid, Foregoing, as well as Cudgel and Sir Barton, bore his silks brilliantly and successfully in races over distances of ground, while Motor Cop, War Marvel and Billy Kelly upheld the reputation of the stables in sprints.

That the gross-winnings of the Ross thorbreds this season will exceed \$225,000 is a certainty. Sir Barton is fortunate enough to beat Man o' War at a million-and-a-half, over a quarter of a million more than the other great race of the season, the Kentucky great fall race of one mile and three-quarters for 3-year-olds exclusively.

Sir Barton, because of a hurried spring preparation, which knocked him out, has not been a considerable contributor to the Ross table earnings this season. But he is due to accomplish something worth while this fall, whether he is successful at Windsor or not, "Boniface" which improved over winter until he was hardly recognizable; Milkmaid, Lion O' King, Thrush, Star Voter, Intrigante, Eldur and a bunch of Canadian bred horses have been the best Ross' breadwinners.

No more central location for the staging of the Sir Barton and Man o' War match than Kenilworth Park could have been found. Detroit and Windsor, the centers of a veritable maze of trunk railway lines, are readily accessible to the most populous parts of the Middle West from Canada. They are only a few hours' ride from Boston, New York, Philadelphia, Baltimore and Washington on the coast, and Milwaukee, Chicago, St. Paul, Minneapolis, St. Louis, Cincinnati and Louisville on the west and south. They are a great deal more accessible to persons living in the far south and the far west than New York or any other racing centre of the east. There are plenty of good hotels in Detroit.

The Capacity of Kenilworth. The capacity for entertainment of Kenilworth Park is as great as that of any race course of Canada or anywhere else in the world. The work of preparing for a bumper racing on October 12 is already under way. Only sickness or death of one or both of the horses engaged to race for this \$75,000 purse can prevent the meeting of October 12, provided, of course, both keep their feet. Neither can race if he breaks down. But there does not appear to be any cause for apprehension that either will break down. Man o' War is in splendid condition at Belmont Park. Sir Barton is galloping as famously at Havre de Grace.

ARION GUY WINS THE FUTURITY

Lowers His Record in Rich Event at Lexington on Tuesday.

Lexington, Ky., Oct. 5.—C. C. Lloyd's Arion Guy, driven by Harry Stokes, won the \$14,000 Kentucky Futurity, one of the richest events ever staged, before a capacity crowd here this afternoon, and lower his season's record for 3-year-old trotters to 2:04 1/2.

The principal contender was A. B. Coke's Sister Bertha, altho Natalie the undefeated Voltage, who made a usual break in the second heat and had to run in the fast to save the flag.

All the races were won in straight heats, and several miles were featured by close finishes. Driver Harry Stokes had a field day in addition to scoring with Arion Guy as he drove him through to win in the 2:06 trot and landed Trampaste first in the 2:14 pace. In the first two rounds of the unfinished \$14 race, Arion Guy was an easy winner in the 2:12 trot and by a wide margin in the 2:08 pace. A GOOD TIME TO BUY STOCKERS AND FEEDERS

Farmers Now Have Chance to Stock Up.

At the Union Yards yesterday, with a light run of fresh cattle and with a good deal of unsoft lying around, the market for nearly all classes was very dull, with the exception of the good to choice butcher-cattle and the heavy stockers and feeders. Right here and now, it may be well to say that if there was a chance for the good feeders of Ontario to take advantage of a substantial cut in prices in the feeders and stockers, it is right now. Advice from Winnipeg yesterday show that the best feeders are selling there weak at 8c to 8 1/2c, while the medium to good kinds are selling from 6 1/2c to 7 1/2c. Locally, owing in a measure to sensational reports from Winnipeg and the general impression that the bottom was dropping out of everything, the farmers have shown some hesitancy in buying. The best informed men in the cattle trade at the Union Yards, getting in right now on the good stockers and feeders, is plentiful and comparatively cheap, and an experience has shown that around this time of the year the good times to buy, with a strong market for calves.
