CAPT. JOHN McMULKIN DIED LAST EVENING

A Prominent North End Citizen, Held in High Respect by Entire Community—Former Provincial Factory Inspector

The death of Captain John McMullin, which occurred last evening at his home in Bridge street, removed from the city one who has been active in many movements for the general good, and for the advancement of the North End particularly. He was a former alderman for Lorne ward, and the fact that he was ten years in the common council attests to the esteem in which he was held by his fellow citizens. He was also formerly factory inspector for the province.

During the closing hours of the council meeting last evening Mayor Douglas took occasion to review the labor conditions prevailing in Amherst and said that there was no immediate prospect of improvement. He suggested that the council appoint a delegation to confer with the provincial government with the view of securing employment for the unemployed. It might be possible to have a provincial bureau of labor established so that the unemployed might be provided with work.

Mayor Douglas intimated that for his own part he did not expect to see any new orders placed with the Canadian Car & Foundry Company, building operations for the summer were not promising, and it might be possible that with the approach of spring the provincial government could find labor for a large number of men on road work, especially in those counties where there was so much unemployment.

Councillor Shippy and other members of the council endorsed the suggestion of the mayor and Councillor Moffatt and Mayor Douglas were appointed to go to Halifax to discuss conditions with the provincial government. (News Editorial)

It is quite possible that some scheme can be worked out by which the labor congested at centres like Amherst can be scattered over the province. These are not hours and days when men can pick their jobs and fix their own wages. The question is to get a job

Primecrest Farm South Bay St. John
Phone West 287-43 and Special Representative will call.

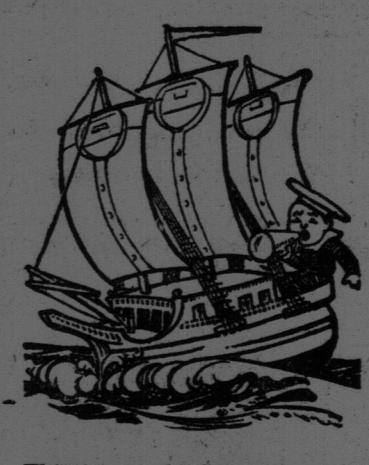

Come out some day and pay us a visit; see for yourself what it means to have Milk from Primecrest Farm (the only one of its kind east of Montreal), where the COWS ARE GUARANTEED FREE FROM DISEASE, for they are put regularly to the Tuberculin Test, to prove, beyond doubt, whether or not they have tuberculosis, the awful disease that, in many cases, has been traced to milk which has also caused epidemics of typhoid, diphtheria, scarlet fever and other contagious diseases.

A visit to Primecrest Farm will prove to you that the farms are scrupulously clean, that the Milk is drawn through sterilized gauze by a healthy, clean, white-clad barn staff, is scientifically cooled to prevent disease, and is handled in sterilized pails and cans.

ALL PRIMECREST FARM MILK IS DELIVERED IN STERILIZED, SEALED GLASS JARS.

We use and sell only Milk produced on Primecrest Farm, and every drop is GUARANTEED FREE FROM DISEASE.

Both barn staff and herd undergo frequent health inspection.

RECENT DEATHS

Many will be grieved to learn of the death of Mary, wife of Michael Corr, which occurred yesterday at her residence, 121 Brussels street, after a lingering illness. She had been compelled to remain indoors for some time, but the end came unexpectedly and as a great shock to the family.

She leaves besides her husband, who is in the water and sewerage department, three sons—John, Daniel J. and Frank; one daughter, Mary, all of this city. Three sisters—Mrs. Joseph Nagle, of Portland (Me.); Mrs. John Rooney, of this city, and Miss Josephine, also survive.

The death of Benjamin Moore, who was at one time a civic employe, occurred last night at his home, 125 Marsh Road. He leaves to mourn besides his wife, one son, Benjamin in Massachusetts, one daughter, Elizabeth at home, one brother, David, and two sisters, Elizabeth Moore and Mrs. James Ingraham, the latter three of Peabody (Mass.).

It is estimated that during the last 100 years the wealth of the United States has increased from \$1,750,000,000 to something like \$150,000,000,000 or about 8500 per cent; and the income has risen 6900 per cent, while population has grown from 8,000,000 to 98,000,000, an expansion of 1200 percent.

WHEN ENGLAND STOOD AT SIDE OF UNITED STATES

Letter to Times Readers Recalls Instances of Recent Years, Well Worth Remembering Now

St. John, Feb. 25.

Editor Times and Star—
Sir—For the benefit of the comparatively few Americans who seem inclined to think their government is unduly favoring England and her allies, may we remind them of three instances in recent times where the British government has been of very material assistance to the United States.

Twenty-five years ago, when America was at loggerheads with Germany over the Samoan question and possessed practically no navy, the inspired organs of German opinion gave utterance to the statement that, unless the United States gave in, a German squadron would, within two weeks, lay the city of New York in ashes; to which the inspired British organs replied that before one American gun could be trained on one American city, the whole of England's navy would have to be at the bottom of the sea.

Again when Admiral Dewey faced the Spanish fleet in Manila harbor and the German admiral was getting ready to call a halt on Dewey, old Admiral Seymour brought up four of his fastest war vessels and stood by Dewey to help him if needed.

In this same Spanish war, when a coalition of four great European nations was formed to assist Spain, and England was invited to join this coalition, she not only refused, but threatened to ally herself with the United States to face such a coalition if formed. President McKinley at that time said "England has rendered us a service which we shall not soon forget." Have some Americans forgotten?

ROTARIANS HOME; ALL DELIGHTED WITH WARMTH OF HALIFAX RECEPTION

Practically all the members of the St. John Rotary Club who went to Halifax on Monday have returned to the city, delighted with the trip, and speaking in the highest terms of the warmth of welcome accorded them, and the fine spirit of fraternity prevailing between the members of the local club and those of the Halifax Rotary Club, who entertained them most enjoyably. A banquet in the Halifax Hotel was a feature of the programme, with drives about the city during the day, and a general good time on all sides.

The St. John men in the party were: H. L. Gantner, F. A. Dykeman, Dr. W. E. Rowley, A. E. Everett, Horace C. Brown, H. G. Marr, H. C. Creighton, E. Clinton Brown, John Bond, F. H. Quirt, J. M. Most of us strain our eyes too much. We can't stop to rest as time is too precious. But a pair of OUR CLASSES will rest your eyes and allow them to catch up to normal again.

S. R. Tarr on Outlook in The West

"No one can doubt Canada's ultimate material prosperity," writes S. R. Tarr, editor Canadian Finance of Winnipeg, in reply to an enquiry from The Montreal Financial Times for an opinion on the western outlook. "Development of agricultural resources in itself assures it. Of an arable area estimated at over 440,000,000 acres, less than 10 per cent is under cultivation. What, however, of the immediate outlook? Never was answer more difficult to make. Even the most explicit factors in the situation cannot be gauged as to their relative strength—consequently their 'resultant of forces' is non-calculable.

"Conditions generally are giving an impetus to agricultural production. The middle west produces something under half the agricultural wealth of the domain—which for 1914 reached about \$800,000,000. But the increase of around twenty million dollars in returns to western farmers last year over the preceding year (owing to higher prices), in itself means relatively much more to the commercial community on this side of the Great Lakes than any similar, or even greater increase does to the east, because in the west agriculture is the chief industry, while, taking the domain as a whole, agriculture contributes one-quarter, or less of the country's total production from forests, fisheries, mines, fields and factories. It is therefore axiomatic that the agricultural prosperity in sight for 1915 will contribute relatively more to the general provinces than it will to the rest of Canada. In this connection, however, it is not to be overlooked that Eastern manufacturers as well as Pacific coast lumbermen and fruit growers—and ultimately business interests through Canada—are vitally concerned in anything that adds to the western farmers' buying power. It means more to them than government war orders—welcome as the latter are in days of industrial quietness.

tallies is not yet completed, and the hard economic law of the survival of the fittest is likely still to be in evidence during the next few months in not a few western towns and cities. The country dealer, speaking generally, is in much better shape, even in districts hit by the drought last year, government aid to homesteaders (in the form largely of supplies from local dealers) together with the forbearance being generally shown by wholesale houses and financial institutions, will enable the great majority of country merchants to stand the strain until next year's crop returns are available.

Betterment in Business

"In most rural districts in the middle west, recent business betterment is already apparent and it is to be remembered that about one-tenth of the cultivated area of the prairie provinces had a crop failure from drought. The smaller towns which are the local business centres for farming districts are also picking up. The larger distributing centres must be affected somewhat in their turn. The war will bring increased returns to farmers and will stimulate agriculture, trade growing out of the raising, distributing and manufacturing of foodstuffs will be stimulated, and the buying power of those directly affected thereby will be well sustained. But even from this class the demand for luxuries has lessened—the impulse to economize being general.

Indebtedness Largely Liquidated

"If the car of business moves slowly, and even seems almost to stop now and again, recent months have materially steadied the track and road-bed along which the west's development is to proceed. The indebtedness of the farming and mercantile communities alike has been largely liquidated. Buying of additional land by farmers for speculative holding rather than for actual cultivation has been curbed and retailers have been buying cautiously and more generally asking for spot cash from their customers. Still it is not possible to say that readjustment has altogether run its course—and that, in certain urban centres at least, there will be a further falling off in trade before an increase again sets in. GERMANY'S CLAIMS

Maine Professor Says Nation Never Was a Peaceful One

Few Early Intellectual and Religious Movements, He Says, Have Developed in Kaiser's Land

(Bangor Commercial)

Prof. J. B. Segall of the University of Maine was the speaker at the meeting of the Men's Club of the Universalist church, held Sunday noon in the main auditorium of the church, in which he discussed in detail the German claims of culture, enlightenment and general civilization. Dr. Segall asserted that Germany had never been a peaceful nation and that the Germans have been simply a conquered people.

Dr. Segall's opening said that only a few moments had been allotted for a very big subject. He would start on one point, namely, the claim of a peaceful civilization. If it were merely a claim of excellence, he would not discuss it here, but it is a claim of superiority. He would not be able to go through the history of Europe, he said, but would touch on a few points. In the early days of German history it is found that the Germans were the destroyers of civilization, the Romans falling before the invasion of the Teutons. Christianity was certainly not the contribution of the Germans. They were civilized and Christianized by the Gauls and other races.

The great civilization of the medieval period was not German; the great industrial developments not German. They were found in Italy and France. The great revolutions and epochs in history were not of German origin. The Renaissance period was an example; it was Italian.

The various Reformation movements were discussed from the 12th century to later days, from which it was learned that Germany is half Catholic, today and Austria wholly Catholic.

The period of the colonization of foreign lands was mentioned. When other nations were colonizing the Germans stayed at home. They did not participate in the great world work of establishing new nations.

The German literature from the 18th century down was contrasted with the French and English literature, the German to the 18th century being of little consequence. The French language today is the language of all the cultured classes in Europe, as has been the case for centuries, succeeding Latin. German literature and philosophy have been only lately developed. The great modern inventions of steam, electricity, railways, steam navigation, telegraph, wireless, telephone, dreadnoughts, submarines, cables, radium, etc. are not of German origin.

There is culture, it is true, in Germany and great industrial development. The Germans claim to have introduced freedom into Europe, but that freedom was that of the feudal barons. The great struggles for freedom in Europe were not due to the Germans and the German political freedom of today is due to the movements in other nations. The importance to other countries of the great French revolution was mentioned. The political system of Germany is such much that of other countries.

Germany claims that Russia menaced that country by a plan to consolidate all the Slavs under one rule. It is not a case of the Slavs threatening the Teutons, but quite the contrary. Russian development has been slow and has not been appreciated to its full extent. The speaker believed, however, that a democratic revolution for political liberation would come in Russia before it would be seen in Germany.

The comparative sea power of Germany and England was discussed and it was shown that at no time when peace reigned did the great English sea power interfere with the enormous industrial growth of Germany or any other nation. In time of war the English sea power could sweep German commerce off the seas. The iron ring, encompassing Germany is a figure of speech used by the Germans in describing the Triple Entente. France was isolated after the war of 1871 from the rest of Europe and was in fear of another Teu-

tonic invasion. The alliance with Russia came later and events took such a turn that England joined also.

Never a Peaceful Nation

Dr. Segall then discussed Germany as a peaceful nation. He contended that Germany was not a peaceful but a conquering nation. It is maintained that in forty-three years Germany has not had a great war, but if we look back forty-nine years we find that Germany had three great wars, and during forty-three years past she has had lots of trouble with her colonies, and the terrible massacre of a negro nation in Africa was cited, a matter which the Germans don't mention. A nation that goes around constantly with a gun on its shoulder is not to be considered as a peaceful nation. In England there is no conscription. Men do not have to serve in the army if they do not so desire. In Germany military service is compulsory, and the Germans are full of a warlike spirit.

In regard to population, it is claimed by Germany that she needs more elbow room. The fact is that Germany today is a country of immigration instead of emigration; but the Germans wish to dominate the Balkans, Belgium and Holland, and reduce France and England to third rate powers. Germany is a great world power and the question is as to whether it will be the greatest world power. She claims that other countries are tired nations, yet France built up a colonial empire after being crushed by Germany. If there is any danger to the smaller nations of Europe it will not come from the Triple Entente but from Germany, the speaker claimed.

Jackson, Miss. Minister Tells How He Suffered After the Grippe and How He Was Restored to Health by Vinol.

Jackson, Miss.—"I am a minister of the gospel and I had the grippe so badly that I ached all over, flesh was sore, I had pains in my chest and back, no appetite, was nervous and had a stubborn cough."

"I tried different medicines without benefit; finally a friend recommended Vinol. I tried it and soon noticed an improvement and continuing its use I am entirely relieved of my troubles. I have also used Vinol in my family for chronic coughs and cold with the best results."—O. W. CHILLES, Jackson, Miss.

Grippe leaves the blood in a thin, devitalized condition. It takes away the appetite and leaves one weak, without energy and often in a dangerous condition.

In order to restore the blood to a healthy condition, iron must be supplied in an easily assimilated form. We guarantee this may be done by Vinol, our delicious cod liver and iron tonic, which contains no oil. If you try it and it does not help you we will return your money.

FAIRVILLE METHODIST TRUSTEE BOARD MEETS
Very Satisfactory Reports—The Board of Trade—“Budd” Tippet Sends Home Personal Effects on Leaving For Front

The annual meeting of the Trustee Board of the Fairville Methodist church was held last evening in the parsonage with a good attendance. A full report of the work was read by Perry Kelly, retiring chapel steward, whose conscientious service was recognized by the meeting by placing on record a vote of thanks to him. Stephen H. Shaw was elected chapel steward to succeed Mr. Kelly.
Reports showed that more than \$800 had been expended on church property during the year and W. J. Linton was appointed to see after further repairs both to the church and parsonage. It was decided to increase the insurance on Christmas by an extra \$2000. A vote of thanks was tendered W. E. Garte who at Christmas time installed electric lights in the parsonage.
The board elected W. J. Linton secretary for the coming year. Both reports and information brought out in discussion showed the affairs of the trustee board to be in first class order and the church property, which is under their special charge was never in such good condition.
The annual meeting of the Board of Trade scheduled for next week is being brought to the attention of the delinquent membership by several energetic townsmen who are anxious to see the body revived. It is said that a few whose names are down on the roll, say they have been too much criticised of officials and government parties in the past.
The Lancaster Board of Trade has asked questions and some of the members will continue to do so whether a recognized organization exists or not to push further their inquiries. Public transactions they feel, should stand up before public questioning and the Board of Trade is open to every man in the parish who is interested enough to join. Word received yesterday from Charles, better known as “Budd” Tippet, who, with the first Canadian contingent was that on the next day after he wrote they were to embark for France and very glad they were in anticipation of leaving for the front he sent home some personal effects which would be of no use and only an encumbrance when on the fighting line. He wrote to be remembered to his friends and wrote that he was enjoying the best of health.
Several teams arrived back last night from the lumber woods.
Merchants of Fairville are asked to display flags and dress their windows along patriotic lines for Saturday, when the campaign is to be conducted by the Daughters of the Empire.
The Young People's Society of St. Columba's church last night conducted an interesting debate on “Country vs. City Life.” The decision was given in favor of J. H. Donaldson for the country. Albert Cox handled the argument for the city. Rev. W. F. Townsend was judge, and the audience the jury.

HALIFAX INTERESTED IN VISIT OF MR. FERNS TO ST. JOHN NEXT WEEK

Board of Trade Secretary Brings Home Word Also That Towns Planning Matter Crips Them
The secretary of the Board of Trade, who returned from Halifax this morning, says that a good deal of interest is being manifested among the Halifax aldermen and controllers in the visit of J. Hamilton Ferns, chairman of the Montreal Board of Assessors, to St. John. Mr. Ferns, who is making a special study of assessment systems, intends to come to St. John and hear what Mr. Ferns has to say. Mr. Ferns' address will be given in the board of trade rooms at eight o'clock on Monday evening.

Halifax people are also showing much interest in the town-planning projects of Thomas Adams, English town-planning expert, who is adviser to the Canadian Conservation Commission. Mr. Adams delivered an address in the legislative chamber, Halifax, on Wednesday night before a very large and attentive audience. He is arranging to come to St. John next week and give an address. He discussed his St. John visit with Commissioner Wigmore and the board of trade secretary. Not only in Mr. Adams a thorough master of his subject, but he is an enthusiast, and an excellent speaker. He will undoubtedly be well received here.
A copy of a letter from the chairman of the Canadian Freight Association has been forwarded to the board of trade by the secretary of the Board of Railway Commissioners, in which it is stated that in connection with the association's application for an increase in freight rates, it is not intended to include therein rates from Montreal and ports east thereof to maritime province points. The proposed revision of rates in the territory mentioned is being under consideration by the interested lines at the present time, and an application will be submitted at a later date.

LOCAL MEN GET CARDS FROM THE EAST SURREYS

Very interesting postal cards have been received by several young men residing in the city from the men in the trenches in northern France. EMBARGO ON FOOD EXPORTS BY STATES?
New York, Feb. 25—A despatch to the International News from Washington says it is reported that a suggestion has been made in some quarters that the United States put an embargo on food exports should her war zone proposals be rejected, but this has not been confirmed in any way.

WHEAT UP AGAIN.
Chicago, Feb. 25—Decided strength developed in wheat prices today after a temporary sag at the start. Attempts made by leading firms to buy on the decline disclosed the fact that the pit was almost bare of offerings. A rapid advance ensued. The action of the market was in a measure explained by the suspension of United States government war risk, vessel insurance and by later announcements that the writing of such insurance would be resumed but at a double rate. Opening prices here, which varied from 1-4 to 8-7 and 1c lower, were followed by further setback and then a rise to 11-2 above last night's level.

We have a very efficient tailoring organization, and you can be assured that a suit or overcoat ordered here will be entirely satisfactory in every detail—if not, we won't ask you to take it.

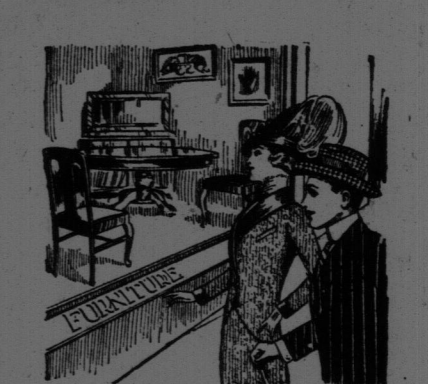

Special attention is directed to the \$25.00 line of suitings, not only because of the wide range of fabrics and colors from which to choose at the price, but because our \$25.00 made-to-measure suits are at least \$5.00 less than clothing of equal merit can be purchased from other good tailors.

There Are Several Reasons

why you should see our stock before you purchase new furnishings for your home. The range of high-class furniture we are showing is the largest in the Maritime Provinces—selected personally at the factories and showrooms of Canada's leading manufacturers—while at the same time we have an immense variety of the more moderate-priced articles.

Just now, when many dealers have allowed their stocks to run lower than usual, the discriminating buyer will appreciate the fact that there is at our store a larger variety to choose from than ever before. Our prices will be found to compare favorably with those obtained elsewhere. In fact, if you will drop in and let us show you our stock, no further argument will be required to make you one of our customers.
