Federal Forces Start Major Assault on Sao Paulo Rebels

PROVINCE WISE EXPORT TAX CASE

ATTACK FOLLOWS BOMBARDMENT OF FORTY-EIGHT HOURS

Sao Paulo City is Approached by State Troops from Three Sides. TANKS ARE USED Government Confident Present Operation Will End Rebel Control.

BY BRYANT POWERS (United Press Staff Cor.) Buenos Aires, July 23.—Brazilian Federal troops have begun their long expected major attack on the rebel forces in Sao Paulo City, according to messages here today.

Strong infantry units, supported by tanks and airplanes, advanced on the rebel entrenchments on three sides of the coffee capital yesterday afternoon following an artillery bombardment of 48 hours.

Sao Paulo City has been badly damaged, the messages said. Many of the fine buildings in the centre of the city were partly destroyed by shell fire.

Americans Leave Americans left Sao Paulo by north-bound ships yesterday. The continuing roar of artillery was heard in Santos more than 20 miles away, radio messages said.

MEANWHILE OTHER DISPATCHES SAID DEFLECTIONS HAD BROKEN OUT AMONG FEDERAL REINFORCEMENTS SENT FROM GRAND DO SOIL TO AID IN THE FINAL ATTACK ON SAO PAULO.

FEDERALS CONFIDENT Radio messages from Santos indicated the Federal government still is confident of success and claims that its forces surround Sao Paulo city on three sides.

At an adjourned sitting of the Circuit Court, Mr. Justice J. H. Barry presiding, the case of C. Ernest Hill vs. William McHenry was resumed this morning.

The defendant's motion to dismiss the complaint was denied. The plaintiff's motion to set aside the verdict was also denied.

The loading was completed on June 16, 1923, and the vessel filled with water and sank at her berth.

The vessel was damaged and the cargo was lost. The plaintiff is seeking compensation for the loss of the cargo.

The court found in favor of the plaintiff and awarded damages for the loss of the cargo.

JAMES T. MORSE STRIKES ISLAND OFF MAINE COAST

Passengers Landed After Vessel Hits During Dense Fog. BOSTON IS BEACHED

Four Dead Passengers are Identified—Others Continue Journey.

(By Canadian Press.) Rockland, Me., July 23.—The passenger steamer J. T. Morse, of the Eastern Steamship Lines, Inc., which left here early today for Bar Harbor, struck on Crotch Island, near the entrance to Stonington harbor, shortly after 8 o'clock, in a thick fog.

Newport, R. I., July 23.—The steamer Boston was beached here today, showing a gaping wound where the bow of the tanker Swift Arrow smashed into her port side, crushing three passengers to death.

Herman Redfield, of Roxbury, Mass., told of an incident similar to many heretofore recounted in the case of disaster, when the coalheadmaster of the light house named was not learned, served as an antidote to possible panic.

He said that soon after the crash passengers who ran on deck were surprised to see three girls dancing to the music of a phonograph.

Two of the men were killed in their staterooms, as also was Mrs. Green, when the bow of the tanker burst through the steel plates of the liner.

Port Captain C. T. Snow, of the Eastern Steamship Lines, in a statement said that at the time of the collision the Boston was going very slowly.

When the tanker was sighted the Boston blew one whistle to go to starboard. The Swift Arrow blew two blasts to go to port.

"The rule of the road," he added, "called for us to go starboard."

BRITISH FLIER IS AGAIN ON THE WAY

Illness of Crew Member Had Delayed Resumption of Flight.

Tokio, July 23.—(By United Press.)—Major A. Stuart MacLaren, British world flier, resumed his dangerous journey over the Kuriles just before 8 a.m. today, according to wireless advices.

St. John's, Nfld., July 23.—On the ground that the removal, by the War Government three months ago, of duties on certain necessities for those engaged in the fishing industry of Newfoundland was illegal, the Finance Minister announced in the legislature last night that they would be reimposed.

Picture on Dresser Is Burglar's Undoing

New York, July 23.—How Mrs. Henry L. Stengel, victim of a \$35,000 daylight burglary, recognized on her picture on the dresser the man who had robbed her was told in the Harlem court, where the trial of Louis Provinka, wife of Louis Hernandez Campos, the "red wig burglar," was held in \$10,000 bail as an accessory to the theft.

CHICAGO YOUTHS ON COURT'S MERCY

81 Witnesses Will Be Called by Prosecution if Judge Asks. Chicago, July 23.—The sons of two of Chicago's oldest and wealthiest families, Nathan Leopold, Jr., and Richard Loeb, went "on the mercy of the court" today in a case scarcely paralleled in any jurisprudence.

The big question was whether all their cards had been laid on the table, or whether their attorney Clarence Darrow, led something back when on Friday he stumped over the prosecution by having his clients plead guilty to kidnapping and murdering 14-year-old Robert Frank. Darrow had told the court that the families of the youths were linked in this case with the question of "moral turpitude," it will be the first such instance in the history of Illinois courts.

Clarence S. Darrow and Benjamin Bachrach, attorneys for the defence, were cryptic in their discussion of this phase of the case.

The defence asked permission to present evidence in mitigation of punishment by having his clients plead guilty to kidnapping and murdering 14-year-old Robert Frank.

Clarence S. Darrow and Benjamin Bachrach, attorneys for the defence, were cryptic in their discussion of this phase of the case.

DUTIES RE-IMPOSED

Action by Old Newfoundland Government is Declared Illegal.

St. John's, Nfld., July 23.—On the ground that the removal, by the War Government three months ago, of duties on certain necessities for those engaged in the fishing industry of Newfoundland was illegal, the Finance Minister announced in the legislature last night that they would be reimposed.

Premier Veniot to Unveil Memorial

(Special to The Times-Star.) Fredericton, July 23.—Premier Veniot is to be the chief orator at the unveiling of the memorial to the soldiers of the British Expeditionary Force, which will take place on Saturday at Shediac town. The Premier will leave Fredericton Thursday evening. Dr. J. C. Webster is in charge.

Harvey Mitchell, Deputy Minister of Agriculture, has returned after an official tour of the North Shore section of Restigouche and Gloucester Counties. North of Jacques River crops are excellent, but in the south lack of rain has affected them.

BELGIUM HAS SOLUTION FOR ALLIED DEADLOCK

New Plan is Presented to Principal Delegates This Morning. FRANCE HESITATES

Herriot is Reluctant to Grant Concessions to Germany—Bankers Firm.

(United Press Staff Correspondent.) London, July 23.—An adroit compromise of Belgian origin substituted at a late night session for that proposed by American Ambassador Kellogg, may prove today to have ended the reparations conference deadlock over guarantees and to have made possible a plenary session.

Ambassador Kellogg took a prominent part in deliberations of the deadlock committee No. 1 last night, and for a time played the role of mediator.

Herriot is afraid to go too far in making concessions for fear of the attacks of former Premier Poincare at home.

There has been no clash of personalities, but a hopeful sign, although the allied chiefs are beginning to show signs of strain.

"Big Five" in Session. The "Big Five" of the conference—Prime Minister MacDonald, Premier Herriot, Minister De Stefanis of Italy, and Ambassador Kellough of the United States, met with Chancellor of the Exchequer Snowden, and Minister of Colonies Thomas, at 120 p. m. to prepare final details before the plenary session at 8 o'clock.

Meanwhile the bankers and representatives of the committees of experts, considered compromises to safeguard the proposed \$200,000,000 loan to Germany against a new action similar to Franco-Belgian occupation of the Ruhr.

THREE CHILDREN DIE WHEN TENT BURNS

Flap Blows Against Lighted Oil Stove While Parents Are at Well.

Kalamazoo, Mich., July 23.—Fire which reduced the tent home of Mr. and Mrs. Lloyd Sheldon of South Bend, Ind., to ashes in two minutes, wiped out the lives of three children on the shore of Lake Cora, early yesterday.

The dead are: Genevieve Sheldon, six, Donald Sheldon, three and Lorne Sheldon, one.

Early yesterday morning the parents arose and started preparing breakfast. An oil stove just outside the tent was lighted and left burning while the parents went to a well. It is believed the wind blew a corner of the tent canvas close enough to the stove to be ignited.

Before the parents could get back the flames swept up the little tent and their three children were burned to death.

N. B. APPEAL IS ALLOWED BY PRIVY COUNCIL

Had to Do With Tax on a Large Quantity of Liquor. WAS STORED HERE

After Three Adverse Decisions Atty. Gen. Carried Point to England.

A Canadian Press cable from London today says: "The appeal to the Privy Council in the case of Hetherington vs. the Security Export Company Limited, was allowed today by the judiciary committee of the Privy Council. The appeal is from a judgment of the Supreme Court of Canada. The decision of the Privy Council was sought with regard to the validity of the Liquor Exporters Taxation Act."

This is the case acted by the Government of New Brunswick, through the Attorney General, after three adverse decisions: the first by the judge who heard the case; the second by the Supreme Court of New Brunswick; and still later by the Supreme Court of Canada.

Attorney-General J. P. Byrne, in spite of considerable opposition to a further appeal to the Privy Council in England, felt so sure that the act which was passed by the Legislature of New Brunswick was intra vires that he had the case carried to the court last resort.

Dr. T. Carleton Allen, Deputy Attorney-General, went to the Legislature adjourned and retained Sir John Simon to argue the case for the Province before the court, with the result as above related.

The Security Export Company, Ltd. was an upper province corporation which brought and stored many thousands of cases of liquor in the Province. Under the act passed by the Province it was held by the Provincial Attorney-General that this liquor was subject to the export tax of \$125 a gallon.

INQUEST IS BEGUN Responsibility for Fatal Train Collision Said to Rest on Passenger Crew.

Sudbury, Ont., July 23.—The inquest into the deaths of Conductor Dick and Section Foreman Noble, killed in Monday's head-on collision on the Algoma Eastern railway, was commenced at Little Current yesterday. Adjournment was taken until July 29.

Authentic information now tends to fix responsibility for the collision, which in many respects is unique in the history of railroading, upon the crew of the passenger train which overran its "meet" order. Up to the point of executing this order, all railroad rules had been complied with.

Of the crew at whom the finger of responsibility is pointed, the conductor was a serious condition, the fireman will be discharged from hospital tomorrow, while the brakeman and the baggage-man escaped with minor injuries.

Patriotic Outburst Follows Music Feast

Bayreuth, Bavaria, July 23.—The opening performance of the Wagnerian festival developed into a Nationalistic demonstration yesterday. During the finale of "Die Meistersinger" Hans Sachs' words exploiting the words of Nuremberg—"If the Holy German Empire should crumble to dust, our sacred German art would still remain"—aroused an outbreak of patriotism on the part of the entire audience which rose and vociferously joined in three stanzas of "Deutschland über Alles."

GAS RATE REDUCTION CANNOT GO INTO EFFECT IN CITY AT ONCE

Question Comes Before Public Utilities—Taken Up Next Month.

A difference of opinion between the chairman of the New Brunswick Board of Public Utilities and the solicitor for the New Brunswick Power Company as to the interpretation of the act under which the company proposed to issue \$70,000 of bonds developed at the meeting of the board this morning but no action was taken by the board, as the city still had an opportunity to object if it is wished to do so.

It was stated by the Board that, under the existing legislation, the Board had no power to act on its own motion in this matter, although the expert of the Board, S. H. Milgram, had expressed the opinion that this proposed rate was discrimination, but they could not if the City Council made an objection, hold an investigation and revise the rate.

J. McMillan Trueman, chairman of the board, president and T. C. Burgess and F. X. LeBlanc, other members of the board, were present. The New Brunswick Power Company was represented by M. A. Pooler and T. L. McGloan.

In connection with the notice that the company proposed to issue \$70,000 of bonds, this being 75 per cent of the amount spent in renewals and repairs to April 30, 1924, Mr. McGloan said they were not asking the approval of the board for this issue as it was not intended to issue within 30 days from the time the Board of Directors authorized the sale of these bonds and under the Act of 1920, when an issue was not made within 30 days the approval of the board was not necessary.

Mr. McGloan said he thought it was a business for the company to get these facts before the public, but they surely could not expect the commission to act contrary to the law, as under the existing legislation they had no control over the municipal corporation.

In answer to a question as to the amount paid by the New Brunswick Power Company toward the cost of the commission, the secretary stated their assessment was \$3,471.98.

Several other matters of routine business were dealt with and the commission adjourned.

Mayor Is Asked. His Worship Mayor Potts when asked by a Times-Star reporter what action would be in relation to a notice of the Board of Public Utilities against the proposed reduction of 15 cents per 1,000 cubic feet of gas, said that he had not given the matter consideration as yet but he was opposed to discrimination of any kind. He said when the matter was brought to his attention in an official way he was prepared to take it up and give due consideration to the course to be taken.

FINE OF \$50. A local brokerage concern was fined \$50 in the police court this morning on a charge made out by S. J. Moore, district seed inspector of the Department of Agriculture, that between May 6 and May 17 it sold 80 bags of seed, without the bags being branded or marked with the grade number. J. C. Belyea appeared for the defendant and E. J. Hennbery on behalf of the department. The former contended that the seed belonged to a lot which they had been convicted of selling some time ago and that an agreement had been made with the purchaser to have the seeds graded. Magistrate Henderson adjudged the defendants guilty of a violation and it was the second offense he struck a fine of \$50.

ACCIDENTAL DEATH. Montreal, July 22.—"Accidental death," was the verdict rendered in the coroner's court today in the case of Fred D. Lonergan, commercial traveler of Halifax, who died in a hospital here yesterday, as the result of injuries he received in a motor accident on Sunday afternoon.

A LIQUOR SUIT. Halifax, July 22.—Joseph Spurling, of Rhoads Island, was arrested here today on a capias for \$2,392 at the instance of Joseph Pettipas, local sea captain, who claims this amount for 104 cases of whiskey delivered to Spurling on the high seas.

There are now 540 buffalo on the national bison range in Montana.

Fire Prevention Instruction in Schools Important, Says Dr. Carter.

Dr. W. S. Carter, chief superintendent of education for the province, arrived in the city last evening from Sussex where he addressed the summer school of agriculture yesterday. Dr. Carter reports there are about 35 attending, some taking first courses and others second courses. The school members are under canvas on the military grounds and seem to be enjoying themselves. A. C. Gorham is in charge and is assisted by several outstanding educationists of the province.

The present period, Dr. Carter said, was a particularly busy one for his office with matriculation papers, teachers' salaries and preparations for the coming term taking considerable time.

Concerning proposals by the New Brunswick Fire Prevention Board to introduce a comprehensive manual of fire prevention instruction in the schools of the province, the chief superintendent said this matter would come before the board of education at its meeting early in August. He said this was important and would receive careful consideration.

ARREST PROBABLE. Woodstock Press.—In the month of June the Glastigue bridge in the Parish of Wicklow was set on fire and the Minister of Public Works offered a reward of \$100 to any one giving information that would lead to the arrest and conviction of the guilty parties. The matter was placed in Sheriff A. R. Foster's hands for investigation. It is pretty well known that an arrest will be made, as the guilty party is known.

Fire Prevention Instruction in Schools Important, Says Dr. Carter.

Dr. W. S. Carter, chief superintendent of education for the province, arrived in the city last evening from Sussex where he addressed the summer school of agriculture yesterday. Dr. Carter reports there are about 35 attending, some taking first courses and others second courses. The school members are under canvas on the military grounds and seem to be enjoying themselves. A. C. Gorham is in charge and is assisted by several outstanding educationists of the province.

CHAUNTAUQUA ORATOR SAYS C. N. R. TERMINAL SHOULD NOT BE IN U. S.

Hon. Quin O'Brien Declares That Canada Should be Better Advertised.

"If I were a citizen of the Maritime Provinces of Canada, I would say to the Government at Ottawa that it was poor business for a Canadian railway carrying Canadian trade to have its terminal in Portland, Me." This was the declaration of Hon. Quin O'Brien, of Chicago, who took the very large Chautauqua audience by storm with his eloquence, and his knowledge of the world affairs, last evening. His praise of Canada was given with the sincerity of conviction.

Previous to his lecture, the Smith-Spring-Holmes orchestra quintette gave a programme of varied selections, grave and gay, on violin, cello, saxophone, trombone, cornet and flute.

Mr. O'Brien, who is a judge in a Chicago court and a former member of the Illinois Legislature, opened his address with a note of optimism that ran through his remarks, except when he referred to the Japanese situation, brought about, he said, by unwise management on the part of those who were excluding them.

Canada, he said, would be advertised by him on his return to Chicago where he is attorney for the Continental Bank of that city with assets amounting to five hundred millions of dollars. He would direct investors to Canada with his boundless resources and wonderful possibilities.

The United States and Canada had many common interests, which he outlined, and there should be cooperation between them, he declared. "If I were a Canadian, I should never think of annexation," he said. He had noticed that in spite of all the assets of Canada which had appealed to him, that there was some lack, especially in the Maritime Provinces. It should not be so, with the port of St. John so close to Europe than many other ports of the Atlantic seaboard. The Maritime Provinces, he said, should be to Canada what the New England States were to the United States. The maritimes should be the great manufacturing, industrial dynamo for this vast country. They should send out the best products in materials and in men. From them should flow the culture and the ability that would give to all Canada its populace of forceful citizens.

He had been visiting the St. John River, which was the "Hine of Canada," he insisted. The Maritime Provinces were the choicest section of the Canadian Dominion. "If I were a citizen of the Maritime Provinces, I would say to the Government at Ottawa that it was poor business for a Canadian railway carrying Canadian trade to have its terminal in Portland, Me." Storms of applause greeted this declaration.

Bombarded with questions. Mr. O'Brien then opened the forum of questions, which came thick and fast. "Who will be the next President of the United States?" "What do you think of the 18th amendment?" "How about Irish politics in Ireland?" "Is Commission form of City government the best form?" "What are the possible changes in the Soviet Government in Russia, and will they come soon?" "When will the trouble be settled in Europe?" "Would there not be peace if the English-speaking people throughout the world would unite?" "Do not labor unions take away individual rights without increasing the privileges of the masses?" Have they not failed in their purpose? "What will be the fate of the people of the world if more and more automobiles are used and they speed faster and faster?"

The questions in relation to the immigration problem and several other subjects were discussed in one of the most interesting assemblies ever held in St. John.

In the course of his replies Mr. O'Brien said that if the decision were to come now, Mr. Coolidge would stand the best chance of being the next President. He described the ability of all three candidates and showed how the Progressives were gaining power because of dissatisfaction with conditions for the farmer and laborer.

The eighteenth amendment has come to stay," he avowed. It had brought about more improvement in the situation in four years than its advocates had expected in 20 years. It had done more for the United States than similar laws in Canada had done. Although 500 millions of dollars had gone to the bootlegging industry in this country, yet the actual consumption of intoxicants had been far less, because that amount of money represented largely the bootlegging industry. It was bought and consumed, he said.

The Smith-Spring-Holmes orchestra group excelled in the concert given at the Chautauqua tent last evening. Clay Smith is well known as a composer of heart-stirring songs, such as "Sister Miss You," "Until the Dawn" and many others. Little encores, which are in the repertoire of the company, Mr. Smith played the saxophone, trombone and basset horn with equal skill. His wife, whose stage name is Miss Coyle May Spring, read very cleverly many humorous selections and was most successful in pathetic parts. She also played the violin with equal skill. Both the latter ladies are expert accompanists. The whole company received an ovation both afternoon and evening yesterday at the end of their delightful programme.

THOUSAND SCOTS GO HOME ON TOUR

Are Ambassadors of Goodwill, Says U.S. President Coolidge.

On Saturday a thousand Scotmen and descendants of Scotmen will sail from New York on the California for a tour of the homeland. President Coolidge describes them as ambassadors of goodwill. They will be given a civic reception by Lowell Provost and Corporation of Glasgow.

Approximately half the number who are going on the California were born in the land of the heather and are moving chiefly by the thought of reuniting again their old friends, hills and vales, lochs and burns, as well as people. The others, many of whom are descendants of the pioneer settlers of the Republic of the West, are bound for a land of dreams made familiar through countless ballads and stories.

An outstanding feature of this excursion is the demonstration of the good fortune of newcomers from the Order of Scottish Clans in the land of their forefathers and their desire to promote in all possible ways the good fortune of newcomers from Auld Scotia. This is an objective, to the Daughters of Scotia, who will be well represented among the travellers.

Most of the voyagers will go on board ship at 11 o'clock Saturday morning at the dock on 14th street. The hour of sailing will be 12 o'clock. The Cameron Highlanders Pipe and Drum Band will escort clan officials on board and play during the last hour before sailing time.

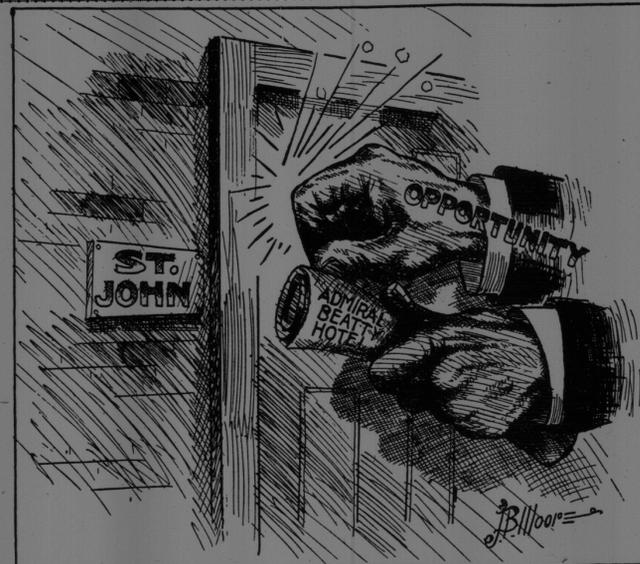

A cablegram from Glasgow says the ship will be timed to reach Seattle at noon, August 3, where reporters and photographers from the Scottish press will go on board. The California as an escort to the port. The officials welcome will be in the City Chambers from 2 to 4:30 o'clock on the following afternoon.

In a letter addressed in care of the Scottish Clans Excursion Committee, President Coolidge, wishing the voyagers a delightful trip, speaks of them as "ambassadors of goodwill." Recognition is given in his message to the aim of Scottish societies in America to promote understanding between the English-speaking countries. The message follows: "Your note which tells me of the 'home coming' voyage of the S. S. California, was more than one thousand Americans of Scottish birth or descent who are to visit Scotland, has been received with much interest. You are quite correct in regarding these visitors to the old homeland as 'ambassadors of goodwill.' Nothing is more calculated to improve international relations than better acquaintance and more intimate understanding between the peoples of different countries. My best wishes to the voyagers on board the California for a delightful trip and a useful service to both countries."

CANADIAN PIANOS FOR JAPAN

Specially Built by Heintzman to Withstand Climate Conditions. The piano that is to be used in Japan, and other foreign countries, must necessarily be built to withstand the peculiar climate conditions that prevail in these lands. At the present time there is under construction in the factory of Ye Olde Firme of Heintzman & Co., Limited, two upright pianos, miniature upright grand models—for Formosa, Japan, going to well-known citizens of professional standing—one of these to Kirin, Formosa, and another to Nagano, Japan, a point 133 miles northwest from Tokio. The humidity of climate in these parts is such that these two pianos must be specially built to meet the native conditions, so that none of the beauty of tone of the Heintzman & Co. piano, as known here, is lost. This firm is doing a large export business, having made a particular study of the needs of other countries. Recent heavy shipments to Australia and New Zealand, as with those now going to Japan, have followed the sales effected in Shanghai, Fuy Kuei, Chungking, at different times the situation given resulting in the building up of a large and permanent trade in China, Japan and New Zealand and South Africa. These instruments are sold in New Brunswick by The C. H. Townshend Piano Co., Ltd.

St. John Must Open Up

To get the remaining \$120,000 stock subscriptions necessary to ensure the construction in St. John of the proposed Admiral Beatty Hotel, 66 business men of the city began a canvass yesterday that will last until Saturday. Approximately \$90,000 had been subscribed before the local effort was launched. If by Saturday St. John takes the \$120,000 in stock this city will have the big up-to-date United Hotel; if not this generation may not live to see such a structure. St. John must rise to the occasion.

ROMANTIC CAPTAIN LAWSON CLIMBED "MT. HERCULES" IN PAPIA IN ONE DAY

Claimed It Was Several Thousand Feet Higher Than Mt. Everest.

Mount Hercules—but the map lacked a scale. He told his tale with a good deal of verisimilitude, however, except for the too rapid climb of the mountain. Here, for instance, is a glimpse of Hercules: "The enormous height of Mount Hercules is beginning to show out finely; we cannot be more than twelve miles from its base."

And again: "Our noonday halt is at the base of Hercules, whose snowy summit seems to frown down upon us; but that is evidently only my fancy, for when I remarked to my companions, 'How sternly grand he looks, staring over the plain from his mighty height,' Aboo gave a contemptuous grunt, and Billy inquired with a broad grin, 'Think a man, den?' I felt abashed and annoyed that my followers should take so little notice of this, the largest and most wonderful mountain in the world."

That went strong with the public till the Alpine mountaineers spoke up. They took his diary and showed that he had broken not only records but probability in his ascent—3,000 feet an hour. By the tale he climbed to 25,214 feet, overtopping what was then the Himalayan record by 4,600 feet. Without gear, much less oxygen and such things, he ambled higher than the altitude which had recently asphyxiated two Frenchmen in a balloon.

Those who have read of the Everest attempt breathe a sigh of relief. Lawson emerged unharmed upon a world which had learned from the African Stanley to believe the incredible, and he made much of the circumstance. If, in New Guinea or Papiia, larks did not fall readily roasted into his mouth, or if he did not have Munchausen's tale in shooting his ducks with one bullet, en brochette, nevertheless fortune favored him, by his own account. As he pushed his way into the interior, with hunger for hours with a terrific noise, and some fell at his feet exhausted, he missed the tender and palatable, exceedingly tender and palatable. He saw herds of 10,000 buffalo, flies that hummed like steam engines, deer with horns like pitchforks, horned snakes, and lilies as big as men. Though he missed the tender and palatable, he encountered known creatures, like the trapper spider, never thin an ocean's distance of that island north of Australia.

A Wonderful Mountain. It was chiefly his mountain, however, that enthralled him. He piled petrol on Ossa, making two mountains grow where one had grown before, and he painted the picture of it in vermilion and purple with a whitish brush and put a gold crown on its head. But he climbed it much too fast; in one day with a blanket and a staff for equipment.

Lawson wrote a book and found a reputable and innocent publisher. He sold of setting out from Sydney on the Nautilus, Captain Dobbs, in 1872, and of landing at Houtree, a village in Torres Strait. Lloyds knew nothing of the charts showed reefs and water where Lawson said he landed; but in the controversy waved such objections aside, saying, in effect, "But I was there." In proof he pointed also to his map; it showed a cataract 900 feet broad and 119 deep, a volcano with a crater three miles around, and also

RUSSIAN HARVEST HAS BEEN SAVED

Report Says Danger of Famine Has Been Averted—Crop Forecast. New York, July 23.—Russian advisers state that while all forecasts of the country's foreign trade and progress in international lines are based upon the harvest of agricultural products, certain districts have suffered severely from drought during the current season and some of the Volga districts will need State assistance and aid to contribute to the crop, but despite this situation, it is claimed that there is now no danger of a famine.

NEWS NOTES OF BAPTIST INTEREST

The following notes are from the Maritime Baptist: Miss Mabel H. Parsons was in attendance at the World's Sunday School Association in Glasgow, and has returned with a fine report of the great gathering. We were delighted to have a call from Prof. Shirley J. Case, Ph.D., D.D., of the Divinity School of the University of Chicago, a few days since. Dr. Case is a native of New Brunswick and is spending a while in his native province. Rev. O. C. Wallace, D.D., LL.D., accompanied by his wife and daughter, is spending his vacation in Canada, watching his time between Quebec and Ontario. Rev. James Rennie, senior minister of the St. Vincent Street United Free Church, is in his 90th year. He is at present confined to bed by illness, and has not preached from his pulpit for eighteen months, but his congregation are all looking forward to his coming back to the pulpit in the fall of the year. Among the officers elected at the recent convention of the World's Sunday School Association, in Glasgow, Scotland, we find Rev. W. C. Poole, Ph.D., London, President; Rev. Frank K. Saunders, Ph.D., New York, Recording Secretary; Paul Sturtevant, New York City, treasurer. L. W. Simms of St. John, N. B., was elected one of the eight members at large of the executive committee. Miss Rosamond M. deWolfe Archibald is conducting classes in "Better English" in Wolfville during these summer weeks.

ISN'T HE DARLING?

The ladies just went wild over this little critter. He carried off first honors at the Pekinese Show at Ranelagh, England. His name is "Hadley Orange Blossom." Pretty, isn't it? "Hadley" is supposed to be the smallest Pekinese in the world. Anyway, he is small enough to comfortably fit in the champion-ship cup.

GOOD AND EASY TO ASK FOR. First of all people use RED ROSE TEA because it "is good tea," and because folks are so familiar with the name, it comes natural to say "RED ROSE TEA, please." You like one of these? "When Captain Moresby does see he will be deeply mortified to think he is numbered among those who have tried to throw discredit upon my narrative."

What if some folk said Lawson had never been near Papiia? "My ascent of Mount Hercules," he retorts, "has also provoked something more than mere astonishment in the minds of the delicate city gentlemen and podgy professors who are in the habit of ascending Mont Blanc with the aid of sherry and sandwiches and half a dozen greasy, garlic-fused and then devoting a quarto volume to an account of their exploits."

MINNKEEPER SLAIN; BOOTLEG FEUD SEEN

Victim Shot in Car Home After Pistol Battle.

Rutherford, N. J., July 23.—Joseph Azza, wealthy hotel keeper, owner of the Riverview Inn on the banks of the Passaic River, near Arlington, was fatally shot in the grounds of his home by a bootlegger's feud. The police believe he was the victim of a bootlegger's feud.

There were no witnesses to the shooting. The noise of the shots awakened Mrs. Azza, who ran out and found her husband in his sedan with a bullet wound in his head. The presence of his own revolver, with one chamber discharged, in his hand, showed that Azza had managed to defend himself. A valuable watch and more than \$300 in cash in his pockets were unharmed. This led the police to eliminate the theory that robbery was the motive.

Within a short time after the shooting County Prosecutor A. C. Hart of Bergen County and County Detective John Garrett Dawson, began an investigation. Azza was unconscious when found by his wife. She had been asleep with her five children in the house for four months old. When she heard the shots she ran out and was joined by her brother who lives in the adjoining house.

There saw Azza's car half way up the driveway of his home. Azza was behind the steering wheel. Powder stains on his face and clothing indicated that the shot had been fired at close range as if some one had thrust a revolver through the window of the automobile and fired point blank.

Azza was taken to a larger car with five occupants come along the road and turned into Morse avenue.

The police believe that Azza had been followed from his inn by the five men. The engine of Azza's car had stalled and the police think that the larger car then caught up with Azza in the driveway, that one man jumped out and fired shots and then returned to the machine which drove rapidly away.

Azza accumulated a fortune during the war while dealing in junk. Several months ago he purchased the Riverview Inn, which had previously been visited on numerous occasions by prohibition officers.

BIG MUSICAL EVENT NEXT WEEK. L'Assomption Choirists, 66 voices, at St. Vincent's Auditorium, Cliff street, Thursday evening, July 29. One of the biggest Maritime musical offerings of the year. Also N. B. boy violinist making a return visit to St. John after an absence of 40 years. Since he was last in St. John Mr. Buzza has traveled extensively and has made his home in various centres in the west and in the United States. He came from Boston yesterday.

While he derived some pleasure from parts of St. John which had remained unchanged in the last 40 years he spoke optimistically of the city's future. He believed from what he had read of St. John recently that the tide of its fortunes was now turning towards a period of great prosperity. He felt St. John was destined to be the greatest seaport in Canada and was the logical shipping centre for the grain of the Dominion.

His views with regard to St. John's future as a port he had arrived at after some study of conditions in other ports. He had noticed that Boston was losing her shipping and in a recent visit to Portland, Me., he had remarked the scarcity of shipping there in the summer season.

ST. JOHN, N. B., JULY 23, 1924

HERBERT A SUGGESTION.

What may St. John do to improve its industrial position? We have heard of late of one or two small industries starting and of others that might be induced to look this way.

A suggestion has been made to The Times-Star by a former citizen who is still interested in the welfare of St. John. It is to the effect that an industrial engineer be engaged to make a survey of the situation, in order to find out what industries would have the best chance of succeeding in St. John.

Would it not be worth while for the Board of Trade, the local branch of the Manufacturers' Association, the Retail Merchants' Association and other organizations to take this matter into consideration, and ask themselves if it is not worth while to raise a sufficient fund to pay the cost of such a survey?

THE HOTEL PROJECT.

No citizen of St. John will deny that such a hotel as the proposed Admiral Beatty would be a great benefit to the city. Not only would that class of tourists who spend the most money remain longer in the city; but, as has been pointed out, many people going overseas in winter by way of St. John would come here a day or two in advance of the sailing of their steamer.

BRAZILIAN AFFAIRS

The rebellion that has broken out in Brazil lends an interest to the report of the British Economic Mission which visited that country last December. This Commission was composed of the Rt. Hon. E. S. Montagu, Sir Charles Addis, Lord Lovat, Sir William McClintock and Mr. Harley Withers.

The first requirement is the balancing of the Budget, and the British Mission declared that upon this, and upon the development of export trade, encouragement of the inflow of foreign capital and construction of an adequate all transport system depends the future of Brazil.

GOLFER'S HEALTH.

I wish that people, at any rate some people, would be more honest about the subject of games, writes Arnold Bennett in the Royal Magazine. Consider the case of the middle-aged man who has taken to golf.

He enters a large building specially erected so that he may eat and drink in it and have baths in it on the days when he plays golf. The building and its numerous staff exist merely in order to sustain him and cleanse him in his hours of golf.

He reaches home full of virtue and pride, and meets his middle-aged wife, whom he tells of his golfing exploits. He enters a large building specially erected so that he may eat and drink in it and have baths in it on the days when he plays golf.

It is noted that the present government of Brazil has made many improvements in tax collection, and introduced new taxes, including the income tax. The Mission recommends an increase in direct taxation, shifting a portion of the burden from the poorer to the wealthier sections of the community.

Cork Leg Spoils A Suicide Plan

New York, July 22.—(By Canadian Press.) Russell Hayward, 39, is alive today because he has a cork leg. Homeless and despondent, he attempted to drown himself in New York Bay at Battery Park recently, but his cork leg kept him afloat long enough to interfere with his plan.

MANY VISITORS AT FERNHILL CEMETERY

Yesterday was the first of the visitation days at Fernhill Cemetery, which have been inaugurated by the directors to give citizens a chance to view the grounds and visit their lots.

Several of the directors were present to assist in giving information, and advise those who wished to purchase lots. While the street cars were the favorite means of getting to Fernhill, a great many went by automobile and several taxis were noticed on the grounds.

SAYS WAR WIDENED VIEWS OF WORKERS

English Economist Says They Came Back With New Consciousness.

(New York Times.) "The war made a vast difference in the viewpoint of the English worker," said B. Seebohm Rowntree, English economist and author and director of the firm of Rowntree & Co., Ltd., of York, England.

"The Englishmen, the workers in British industries, thrust hurriedly out of the seclusion and confinement of their particular environment, came in contact with men of other countries, other viewpoints, other experiences—it is hard to explain to you Americans just what happened—but they came back from the war with a new racial consciousness.

"When I say it is hard to explain, I mean just this: In England a man does not step from class to class with the ease and frequency that he may here. But the broadening effect of the contacts the workingman of England made with the workingman of other countries during the war made a change in his viewpoint. He came back demanding more of a voice in the control of conditions under which he lived.

"On the other hand, the progressive employer of England has been very ready to grant his employes a share in determining working conditions, wages and hours of labor. He has been willing to bargain collectively through the labor organizations. He has found it more expedient and better to deal with an organization through its head, than to try to straighten out disagreements with hundreds of unorganized men.

"A good many of the large employers in England have openly stated their preference for dealing directly with the trade unions and would rather have their men organize than not.

"I advocate as a solution to labor difficulties, a fair voice for the worker in determining the condition under which he will labor, and a fair distribution between employer and employe of the profits arising from the industry.

"As to the present state of labor unrest in England, you will notice that transportation has been the industry most seriously affected by strikes. That is because, owing to conditions in importing and exporting due to the results of the war, the bottom dropped out of the scale of wages in those lines. It got so that the 'navies' as unskilled laborers in England are called, were getting higher wages than skilled men in the transportation industry.

"But as business becomes more stabilized and foreign trade increases we look for these things to become adjusted."

MANY EMPLOYED
IN LANCASTER

More Than 250 Men at
Streets and Other
Activities.

These are busy days in Fairville among construction men and the people at large. Out of the upheaval of the streets and the tearing up of the old sidewalks in back streets, is springing up a most up-to-date community. The street railway is being lifted and paving is being laid as quickly as possible. The railway is also being extended. The road work is employing about 125 men, who are under the direction of the Mainline Construction Co. In the quarries are 80 men and 20 horses and two stone crushers.

The sidewalks are also receiving attention and are being carried into the side streets of this enterprising suburb. Prospect street, which is wholly residential, is to have concrete sidewalks on both sides. Near the entrance to the street where the new fire station stands provision is being made for a grassy lawn, not very large but full of promise. The concrete has been taken up to the door of the station and is an asset in appearance and convenience. Ready street is also to have new concrete walks.

Councillors J. O'Brien, William Golding, Murray Campbell together with Arthur Carten and George Weaver, who constitute the Highway Board, are extending the construction of a hemlock walk from the Wilson Box Co., Ltd. premises along Dever street to Church avenue. Dever street will be more readily known by the Gypsy Settlement or pipe line road. The latter name was given it because of the laying of the water pipes on this highway. The people of this area are financing the sidewalk. Ten or 12 men are employed here.

West St. John is also having a development in its sidewalks and a new one of concrete is now being constructed on Woodville Road, leading to Chapel street, as well as on Sea street. This work is under the direction of James E. Kane, who is employing 15 or 20 men. The new concrete walk in Beaufield Avenue is being constructed by W. I. Fenton, who is employing 10 or 12 men.

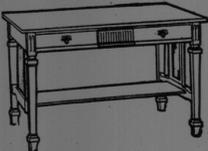

For the whole length of Main street, Fairville, along Lancaster avenue and from the Provincial Hospital corner down almost to the bridge the work is going on. On the south side of Main street, from the hospital corner to Ready's Brewery, the roadway is completed. The foundation layers are laid to Church Avenue on the south side and between the rails. The street railway track, which formerly ended at Church Avenue, has been extended outwards and there is a possibility that it may be taken as far as the proposed Protestant Orphanage.

Along Lancaster Avenue road-making materials have been laid out and the work on the sidewalks is being carried on extensively.

Again down Sand Cove Road where the stone is being quarried, there is a lot of activity. A big stone crusher is at work grinding up the rock being hewn out of the solid trap rock. There

are 50 men and 20 horses at work in the quarry besides two stone crushers. The small stones for paving are obtained at a quarry near the Provincial Hospital Annex on the Sand Cove Road and the quarry for the large rock (Duck Cove Road) on Sand Cove Road. Steam drills are busily dislodging the trap rock, which is solid. Dynamite is used and then the rocks are put in the stone crushers and reduced for the road work. The aggregate of men employed was easily 250, Councillor J. O'Brien said last evening.

COLLECTING FOR
HERZL MEMORIAL

Children of the Hebrew community in St. John have been organized to make a canvass in support of a project to plant trees in the "Forest of Dr. Herzl" in Palestine, to commemorate Dr. Theodore Herzl, the founder of the Zionist movement. Observances of those who died were completed yesterday. All classes of the local Hebrew school assembled in the school building at 11 o'clock yesterday morning and listened to addresses. I. Ellman, member of the Hebrew Board of Education, spoke on the life of Dr. Herzl and the need for Jewish children to learn the Hebrew language. A. Babb, the teacher of the school, spoke on Zionism. Eight girls were appointed to undertake the canvass for funds. Those named for the various districts were as follows: Central section of the city, Ethel Fine and Esther Newfield; North End, Leah Babb and Ruby Jacobson; Valley district, Mary Selig and Helen Selig; Pandemon and Fair Vale, Naomi Eilman and Rose Davis.

CITY IS WARNED OF
COUNTERFEIT BILLS

Local merchants and others are given warning by Sergeant Detective Power to be on the lookout for raised money. Yesterday, about noon, some person successfully passed in a store a one dollar United States bill that had been raised to five dollars by pasting the figure "5" over the figure "1," the "5" having apparently been taken from a tobacco package. The work of raising the bill was rather crude, but where a clerk is in a hurry attending to customers it would be accepted as it was yesterday. The detectives are working on this case, but it is understood that the person who accepted the raised bill could not remember who passed it and the worthlessness of the money was not discovered until later in the afternoon. This is the first time that the raised money game has been discovered in St.

DEFICIENCY FOUND
IN QUEENS FUNDS

Secretary Resigns; Will
Make Good Shortage
Due to Confusion.

Gagetown, N. B., July 22—Some discrepancies in the accounts of the Queen's County Council were shown in the report of the chartered accountant presented at the special meeting of the council held this afternoon and evening. There was a deficiency of \$1,789, which was ascribed to inefficiency on the part of the secretary rather than to any culpable action. The secretary, D. A. Adamson, tendered his resignation and undertook to make good the deficiency in the funds. His resignation was accepted and E. S. Brodie, of Gagetown, was appointed his successor, but the council unanimously voted to cut the indebtedness to the sum of \$800. Warden Akerley announced after the meeting that the deficiency was attributed solely to the inefficient book-keeping methods of Mr. Adamson, and that there was no thought of proceeding against him. The council immediately proceeded to consider the report of the accountant, F. Landow, Belyea, of Belyea and McNeice, St. John. The warden had been appointed at the January meeting to see that a thorough audit of the books of the municipality should be made this summer. It was not expected that any thing would be found to be wrong with the accounts, but it was thought desirable to have a chartered accountant's audit. Scope of Report. Mr. Belyea's report occupied the entire meeting until adjournment was made at 6 o'clock. It covered a period from January, 1917, to July 16, 1924. Mr. Belyea said H. H. Gilbert, the former secretary, and D. A. Adamson, the present secretary, had done everything possible to assist him. He found between 1918 and 1919 there had been a few minor changes, but in 1920 the books were transferred from Mr. Gilbert to Mr. Adamson. He found the transfer correct, but after 1920 he found considerable confusion in the accounts. Among other things, he said that road tax money had been confused with county money, and there were inaccuracies in the poor account owing, he said to careless returns of poor officials. School funds were not always kept separate accounts. Entries were not always made of road money sent to Fredericton. He thought the cash was not deposited in the bank frequently enough. He had gone into the matter of the patriotic fund made obligatory by the Act of 1916 and had found that \$23,479.96 was the amount assessed, and all except \$2,400 had been collected. He spoke of the large expenditures for the administration of justice. He found some jury fees were in arrears, but he pointed out that the secretary had not been able to obtain the jury list for some time from the former clerk of the peace, F. M. O'Neill. In Mr. Belyea's opinion the accounts were no worse than those of other county officers but had been kept by

After enjoying a honeymoon trip through the Annapolis Valley, the happy pair anticipate taking up their residence in Passanville, at which place the bridegroom is employed as cheese-maker.

Pearson-Wilson.

A pretty wedding was solemnized at Ludlow street Baptist parsonage, West St. John at 5 o'clock Wednesday, July 16, by Rev. A. Robbins, when Miss Cassie Jane, eldest daughter of Mr. and Mrs. A. M. Wilson, Cole's Island, became the bride of Walter Herbert Pearson, son of Mr. and Mrs. W. W. Pearson, Highfield, N. B.

ON MOONLIGHT EXCURSION.

There was not a very large crowd on the moonlight excursion on the motorship D. J. Purdy last night but what the party lacked in numbers it made up in enjoyment. The boat left in daylight shortly after 8 o'clock and returned about 11 o'clock, having gone as far as Brown's Flat. There was an orchestra on board to furnish music and dancing proved very popular.

WORN BLANKETS.

When the bindings of blankets have become frayed and worn, replace with a ribbon or crochet on an edge in pink or blue wool.

DEATHS

Capt. C. Johnson.
Yarmouth, July 22—At the age of 82 years, Capt. Cerezo Johnson, Yarmouth's oldest master mariner, passed away at his home at Yarmouth South today after an illness of an affection of the heart. He was a son of the late Mr. and Mrs. Ebenezer Johnson, of Plymouth, Yarmouth county, and commenced a sea faring life at a very early age. His first command was the Yarmouth owned barque Northern Queen and after several years commanded the ships Winfred, Hectanooga and Freeman Dennis. These vessels were owned by Dennis and Doane. He then made a voyage in the ship Lydia, owned by William Law and Co., and in 1875 sailed the ship Cyprus, also owned in Yarmouth. His last command

No Corns
this new way

UNTIL modern science found a safe way, dangerous paring was the only way to end corns. Then a noted scientist discovered Blue-jay and a world-famed laboratory made it. It stops all pain instantly. Then the corn loosens and comes out. Millions use it—different from any other corn remedy. Try it tonight, walk in new comfort tomorrow.

ADVENTURES OF THE TWINS

HOW THE TWINS HELPED PA BUNNY

"It must be yours," said Mr. Bunny firmly. "Why, I could have bought a grand lamp at the store for \$2. And now I haven't any lamp and I haven't any \$2, and I haven't enough money to stay at the park. I'll have to take the family home again."

at the breast without fatigue or strain. The recent great increase in the deaths of infants was mainly due to impure milk, and the remedy lies in breast-feeding. Breast milk is the purest milk, and the most safe food for baby, so mother should always try to breast-feed baby with the help of Lactagol before experimenting with artificial foods.

Lactagol

may with great advantage be taken some months prior to the birth. It strengthens mother, enables her better to withstand the strain of confinement, and also improves the tooth and bone formation of baby.

Royal Ascot.

This week I experimented on a cheap trip to Royal Ascot. My expenses included a taxi to and from Waterloo, a modest buthohole to keep oneself in fashionable countenance, a return ticket by one of the first-class-only racing specials, the fee for admission to an enclosure, a programme, and a lunch as quiet as the nation's.

Wonderful Dresses.

It was worth twice as much to view the costumes. Never has even Royal Ascot been more resplendent, not because it is more fashionable than ever, but for the simple reason that present-day fashion is more brilliant.

THE EVENING TIMES-STAR, ST. JOHN, N. B., WEDNESDAY, JULY 23, 1924

Social Notes of Interest

Dr. and Mrs. Philip Nase were host and hostess very informally for Mrs. C. T. Myers and Mrs. Bradley, of Montreal, at the Riverside Golf and Country Club at dinner on Monday evening. Mrs. Myers and Mrs. Bradley are guests of their brother, Rev. Francis J. Walker, of East St. John.

Miss E. Burnett, of New York City, who had been spending a few days with Mrs. George F. Calkin, Wentworth street, has returned to Albany.

Mr. and Mrs. James O'Brien, with their daughter, Miss Nina O'Brien, of Manawagonish road, have returned after visiting their son, Rev. Alfred O'Brien, pastor of the Methodist church in Grantville, and Mrs. O'Brien.

Mrs. E. S. Scott and daughter, Laura, of Moncton, are visiting friends in the city.

Miss Helen Armstrong, of Ottawa, is the guest of her sister, Mrs. R. W. Hawker, Summer street.

Mr. and Mrs. J. D. Ward and family, of Chatham, are visiting Mr. Ward's father, Mr. Joshua Ward, Dorchester street. Miss Josephine Flanagan, sister of Mrs. J. D. Ward, who lives in New York, is also a guest at Mr. Ward's home.

Mr. Aubrey L. Clarke, formerly of The Evening Times writing staff, is in the city on his holidays. Mr. Clarke is now a member of the writing staff of the Sentinel, Fitchburg, Mass. He is visiting his parents, Mr. and Mrs. William C. Clarke, 208 Duke street.

Dr. J. M. Magee left last evening for Vancouver, B. C., to attend the Dominion dental convention there. He went via the Prince Rupert route. Dr. C. F. Gorham will leave on Friday for the convention.

Mrs. Arthur Albin and daughter, Miss Marjorie, of Minnesota, L. I., are visiting relatives in the city.

Mrs. Hazel McAvour, formerly of St. John, and her daughter, Constance, have spent the last month in St. John visiting relatives and friends. They left this morning for their home in New York and are accompanied by Mrs. McAvour's sister, Mrs. Ursula Hunter, and children, Hazen and Thelma, who will be away for an extended vacation.

Mrs. Charles M. I. Magee, of Detroit, is visiting her parents, Mr. and Mrs. J. Boyd McMann, at Renfrew.

Rev. Ernest Le Clair, of Nicolette, Que., is visiting Mr. and Mrs. John Daley, 182 Waterloo street.

Miss Gertrude Wales, who had been spending a two weeks' holiday with her brother, Mr. Charles Wales, in Amherst, has returned home. Mr. James Wales has arrived from the Marine Department, Ottawa, to visit his brother.

Mrs. Carl Fraser, who has been visiting in Parrishora, N. S., will arrive home today.

Mrs. Victor Beckett and little son, Larry, who had been visiting for the last week in this city, guests of Mr. and Mrs. A. L. Beckett, have returned to their home in Sackville.

The Misses Eleanor and Rachel Meynell, pupil nurses at Long Island College Hospital, arrived on the Boston boat on Monday and will spend a month vacation visiting their parents, Mr. and Mrs. W. B. Meynell, Lancaster Avenue.

Miss Ethel Belyea, of Brown's Flat, is a guest in the city, visiting her brother, Mr. E. H. Belyea, and Mrs. Belyea, High street.

Mrs. Harry Somerville, of Hatfield's Point, was hostess last Saturday in honor of Miss Stella Kane, who will be married July 29 to Powell Stackhouse. A novelty shower was given Miss Kane.

Inventions Multiply Wealth.

It is almost impossible to estimate how much one inventive brain-backed by a genius for organization can add to the wealth of the human race. A Morse, a Franklin, or a Bell add to human riches. Edison's inventions are estimated to have added \$18,000,000,000 to the world's industrial wealth. The value of efficiency and comforts he has added to the human race is like the total issue of German marks—human intelligence cannot grasp the total expressed in figures.

FAMILY OF MURDERED BOY

Here are the parents, younger brother and baby sister of Francis McDonnell, 8-year-old boy, murdered in the woods at Port Richmond, Staten Island, N. Y. This picture was taken immediately after the finding of the body. In the group are the mother, the father, Albert McDonnell, a New York City policeman, and Catherine, and Albert Jr. A maniac, now held at Kearney, N. J., has confessed, according to detectives, he attacked the boy, but denies he killed him.

SUPPORTS USE OF STOOL PIGEONS

British Columbia Judge's Decision and Reasons for It.

Following discussion and criticism of the employment by police of "stool pigeons," Mr. Justice Martin of the British Columbia Court of Appeal, has embodied in a judgment reasons for supporting the practice.

The case is that of Rex vs. John Berdino, whose conviction and sentence for selling a bottle of whisky to plain clothes officers of the Liquor Control Board were affirmed on appeal.

His lordship states: "It appears that this conviction was brought about because the law was being violated in the house in question, and so laid the trap outlined in the case stated to stop such violations and to secure the conviction of those concerned therein."

"As something was said during the argument about the employment of 'stool pigeons,' so-called, this is an opportune time to make some observations thereon in the public interest, because the law and practice in that behalf continue to be persistently and harmfully misrepresented in various quarters, which misrepresentation has tended to hamper and impede police officers, magistrates and others in the discharge of their duty to see that the law is enforced according to long-established legal precedent and usage."

"By the loose term of 'stool-pigeon,' I believe is popularly meant a person known in the law as a police spy or agent provocateur, either specially or regularly employed by the police to assist them in the detection of crime in a variety of ways as decoys or ostensible confederates by laying traps to apprehend criminals, though such traps are also constantly laid by the regular members of the police force in general or those attached to particular branches thereof for special service."

Old Custom.

"To anyone at all familiar with the history of our criminal jurisprudence the suggestion that such special agents have not been employed from legal time immemorial will come as a surprise, for the contrary is notorious, and unless special means were employed to secure convictions in special classes of cases the law could not be enforced and would become a mischievous laughing stock or dead letter."

"Without attempting to enumerate even the ordinary classes of cases in which such means are necessarily resorted to, I shall mention, by way of illustration merely, those connected with offenses against the safety of the state, the noxious drugs traffic, the liquor traffic, 'knocking down' fares on railways, stealing in the mails and sexual offenses against young persons and others. One has only to pick up at hazard almost any volume of the English or Canadian criminal reports to find illustrations of such traps being laid and convictions obtained thereon as a matter of course."

"Among said offenses those connected with the unlawful sale of liquor and drugs are particularly hard to suppress because of the facilities the

traffic offers for making large and speedy profits find the extent to which they are notoriously carried on reaches even to quarters which ought to be above suspicion, yet from which the law-breakers receive active support or sympathy, hence special means must necessarily be invoked to combat an evil of such wide and sinister ramifications.

KILLED HUSBAND

Mrs. Annora Yeoman, 40, of Cardington, O., is held in the county jail at Mt. Gilead, O., charged with poisoning her sixth husband, Lewis Yeoman. He died June 23, Prosecutor T. B. Mather declares she has confessed. Four of Mrs. Yeoman's former husbands are still living.

Whisking or Tubbing?

What man would substitute a whisk for the freshening effect of soap and water?

Yet a lot do something like it. They take a nice new suit and wear it into a poor old suit by leaving the whole cleaning job to a surface whisking.

Order your suit to have a bath this way and you other clothes won't recognize it. Ever-filtered Dry Cleaning keeps clothes fresh, clean, sanitary and longer lasting. You'd never whisk your linen!

MANY PRESENT AT ST. ROSE'S PICNIC

Annual Outing in Fairville is Great Success—The Prize Winners.

More than 1,000 people enjoyed the successful annual picnic held on St. Rose's church grounds yesterday. Supper was partaken of by 400. Members of the clergy attending included: Rev. F. Cronin, of Holy Trinity; Rev. Francis J. Hill, C. S. R., of St. Peter's; Rev. Francis Walker, of East St. John; Rev. Harold Coulgan, of Loch Lomond; and Rev. J. J. Ryan and Rev. H. Bannage, of West St. John.

The prizes were awarded as follows: Bowling alley, first prize, Councillor J. T. O'Brien, electrical fixture, second, J. Higgins & Co., 182 Union St.; Peter's; Rev. Francis Walker, of East St. John; Rev. Harold Coulgan, of Loch Lomond; and Rev. J. J. Ryan and Rev. H. Bannage, of West St. John. The City Cornet Band rendered a programme of music. The day was all that could be desired. Nature was assisted by artistic decorations of flags and streamers. The dining hall was very pretty with greenery and red and white ornamentation, with flowers and banners.

The West St. John Progressive Association has been chosen as the name for the body of West St. John residents which has been organized from the former West St. John Board of Trade and will act in matters affecting the advancement and welfare of West St. John and Beauséjour. The new title was chosen at a meeting held last night in the rooms of the organization in Union street, West St. John. R. I. Lee presided in the absence of J. F. Brant, and Mr. Lee presided in the absence of J. F. Brant, and Mr. Lee presided in the absence of J. F. Brant.

REPUBLICANS WORRY OVER MAINE

Division in Party There Calls for Action—Klan an Issue.

Augusta, Me., July 23.—Republican leaders are apparently much concerned over the fortunes of the party within the State of Maine, and plans now being made to call an extraordinary array of national speakers, headed by Charles G. Dawes, Coolidge's running mate. No less active in the Democratic ranks in this respect and some of the best spellbinders of their ranks will match Republican arguments.

Maine, with its biennial state election in September, looms as the earliest and accordingly one of the most important barometer states in next November's presidential election. Great concern has been caused in Maine Republican circles by the uncertainty over who will be the party's candidate for governor.

An unusual situation has been brought about by a demand for a state-wide recount of the vote in the June primary by State Senator Ralph C. Brewster of Portland, who in the official returns was defeated for the nomination for governor by Frank G. Farrington of Augusta by 320 votes. Senator Brewster also charges many irregularities in the election.

Pearful for party harmony, State leaders are reported to have approached Farrington and Brewster urging them both to withdraw. Their hope is to unite the rank and file now divided into the Brewster and Farrington factions.

Some propose that Governor Baxter be named as the candidate. Others suggest Judge John Percy Deering, former State Senator. Judge Deering, who was President Coolidge's roommate at Amherst College, has announced that he would accept if drafted by the state committee. The Democratic candidate would comprise a vast army, yet that is the number who have replied to a questionnaire recently sent out by the Lydia E. Pinkham Medicine Co. of Lynn, Mass. Ninety-eight out of every 100 letters from these women contained positive assurance that they had been benefited or restored to health by taking this old-fashioned root and herb medicine. This is the most remarkable evidence of its power over the ills of women. Therefore, with 98 chances out of one hundred that Lydia E. Pinkham's Vegetable Compound will overcome such ailments for you, why should you continue to go through life in pain and suffering?

West End Forms New Association Will Co-operate With Board of Trade—Harbor Bridge Discussed.

The West St. John Progressive Association has been chosen as the name for the body of West St. John residents which has been organized from the former West St. John Board of Trade and will act in matters affecting the advancement and welfare of West St. John and Beauséjour.

The new name was selected in order to prevent confusion with the St. John Board of Trade, but it was clearly stated that the organization was to co-operate with the St. John Board of Trade in all matters affecting the whole community, while acting similarly to the Board of Trade in furthering the interests of West St. John and Beauséjour.

The various committees submitted reports and C. O. Morris was appointed chairman of a committee on by-laws, which committee was requested to report at the next meeting to be held on August 5. The election of officers was also deferred until the next meeting.

There was a good attendance last night and the pressing needs of the community were discussed. Two outstanding needs spoken of were a bridge across the harbor, which had been promised in the Union Act of 1880 for the uniting of St. John and Portland, and sewerage for the mill pond which sanitary measure, it was felt, was essential.

Commissioner W. L. Harding was present at the meeting.

SPORT NEWS GLEANED FROM WORLD'S CENTRES

ROYALS BATTLE TO THE WITH GUNNERS

Freddie Diggs' Retort to Fan Arouses Considerable Merriment.

In addition to hurling a mean kind of a ball game, "Freddie" Diggs, of no-hit fame, pulled about the most effective reply heard in many a day on the South End grounds last night when the Royals and Machine Gunners played a tie. The colored star with the scoring standing 2 to 1 in his favor in the final inning was pushed into a hole by errors and uncorked a wide one with the tying run on third. One of the fans started "riding" Diggs. Apparently, it got under his skin and he strode up to the netting and invited the fan to come down on the grounds. As a final squelcher, "Freddie's" parting shot was "What do you want for fifteen cents?" The fans laughed loud and long over this retort and it was several minutes before the game got underway again.

On merits, Diggs deserved to win last night. He held the Gunners to four hits, struck out 6 men and knocked in one of his team's runs with a timely single. Entering the final inning, he faced Lenihan, who singled and went to second on McAleer's high throw. Carpenter grounded out and Lenihan managed to reach third. Cummings fanned. Johnny Noel grounded to Harper who juggled the ball and Lenihan came over with the count that saved the Gunners' bacon. The next man was an easy out.

The fielding of young McAleer at third for the Royals was outstanding. Although a mere youngster, this boy handled six hot ones last night with an error. He is proving a big help to the Royals. Harper got three hits in three times up and stole three bases while Roy Nelson as usual made himself solid by his all-round good playing. Carpenter was on the mound for the Gunners and was little behind Diggs in effectiveness. Johnny Corrigan, star third baseman for the Portlands, was in the Gunners' lineup last night. He failed to hit but had three assists and two putouts with one error. Barry caught a good game for the Gunners with Sparks on first.

Box Score and Summary.

Summary—Two-base hit, Cummings. Sacrifice hit, Cummings. Stolen bases, Harper 3, Diggs 1, off Carpenter 3. Struck out, by Diggs 6, by Carpenter 3. Passed balls, Austin 2. Umpires, Brittain and Sproule. Time of game, 1 hour 35 minutes.

WESTFIELD LADIES WIN GOLF MATCH

Defeat Members of Fredericton Club by Score of 30 to 14.

The ladies of the Fredericton Golf Club were entertained by the ladies of the Westfield Golf and Country Club at Westfield yesterday. A match was played and the Westfield team won, 30 to 14. Luncheon and afternoon tea were served at the clubhouse, which was very attractively decorated with garden flowers in a color scheme of blue and rose with ferns. The weather was ideal and the visit of the Fredericton players was a greatly enjoyed social occasion.

How Will Epinard, Great French Horse, Make Out When Pitted Against America's Best?

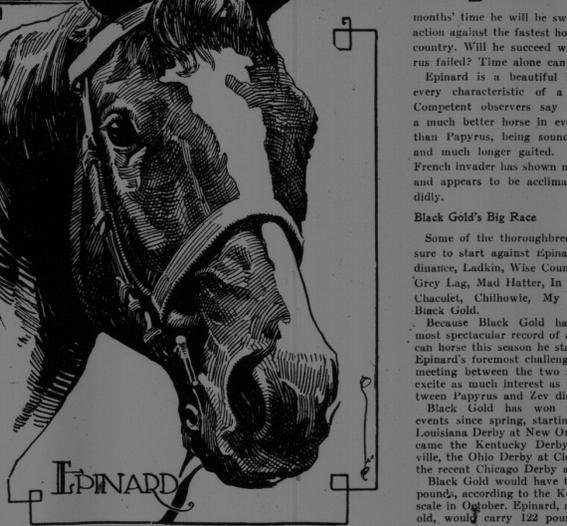

FOUR LENGTHS PYPYRUS ZEV

New York, July 23.—What will be Epinard's fate in the international horse duels this season? The great French horse is now in this country training for a series of races against the cream of the American turf. Epinard's first start will be made at Belmont, the second at Aqueduct, the third at Latonia. The Latonia event is likely to overshadow the other two in point of national interest because Black Gold, champion three-year-old of the current season, will be listed among the starters. This recalls the visit of Papyrus to this country last fall. Papyrus was greeted as the super-horse of the European turf, just as Epinard is now. Papyrus was sent against Zev, the then champion three-year-old of the States, and was roundly beaten. Zev won in a canter by four lengths. Papyrus was never in the running.

Climate Beat Papyrus?

After the race veteran horsemen expressed the opinion that Papyrus was a much better horse than the result indicated. "No horse can come from one country to another and get perfectly acclimated in less than six months' time," they contended. How will this theory hold in Epinard's case? The French horse has only recently arrived. In less than two

EPINARD

Olympic Heroes

IL. H. M. ABRAHAMS. By FRANK GETTY (United Press Staff Correspondent).

New York, July 23.—It was back in 1919 that the United Press correspondent first saw in H. M. Abrahams the coming sprint champion of the generation. Out at the Queen's Club, London, one hot Saturday afternoon—one of those rare hot days in England—Abrahams, an undergraduate at Cambridge University, was competing against Oxford in the inter-varsity games. If ever there was a perfect piece of running machinery, it was this young Jew. Powerfully, yet lithely built, he ran like an automaton. In those days, he was not as fast as now, but he could run it in this consistently, winning his heats in 10 flat and the finals in better than seven. So consistent a performer was the Cambridge youngster that it seemed inevitable that when he should get his full strength and the benefit of years of experience he would be unbeatable. The nearest approach to Abrahams that we have in this country is Frank Hussey. The Brooklyn school boy's perfect form reminds one of the Englishman's. Jack Scholz is faster than Hussey, with that sailing drive at the tape; Paddock is faster, but Paddock "climbs" badly; seeing the erstwhile "fastest human" in action this year it is hard to figure out how he made his records. There is waste motion galore. Hussey, like Abrahams, is a product of perfect coaching, which leads to no waste whatever. Once in perfect form, it is just a question of developing more strength to devote to it. Abrahams never seems to be trying hard; he is always balanced, never wobbles, never loses an inch in the dash down his lane. The United States had counted on first place in the 100 metres at Paris. Jackson V. Scholz, N. Y. A. C. star, was looked to win this event. Abrahams had run in this country and had been beaten, during the year of his development, and was not given full credit for being the runner he is. In the final heat, he upset all predictions and American hopes, and it was the flag of England that went up as the flying heels of her Jewish subject showed the way to the fastest from the U. S. A. What had been overlooked was that Abrahams had run the 100 metres in 9.8—world's record time—less than a month before the Olympic Games were held. It is the opinion of many critics that it will be someone like Abrahams who will definitely lower the world's record for the 100 yards and 100 metres. A for the 100 yards and 100 metres. A for the 100 yards and 100 metres.

ARMY AND NAVY IN SOCCER TIE

The Garrison and R. C. N. V. Soccer teams played a 2-2 tie game last night on the Barrack Green, when the fans witnessed some good football. Both teams were in fine form. The game started promptly at 7.30 and a few seconds afterwards McNiven, of the Garrison team, missed an open goal. After the Navy players cleared the ball from their own goal they carried it to the Garrison's goal and Dunn scored for the Navy. No other score was made before half time. Fifteen minutes after resumption of play, the score was equalized once more when Chastell of the Navy team passed the ball to his own goal-keeper who fumbled it and it went through the net. Shortly afterwards the Navy had three corner

STAR CATCHER OF CUBS INJURED

Chicago, July 23.—The Chicago Cubs lost the services of one of their star catchers for about a month when Bob O'Farrell's skull was fractured in the first game of yesterday's double header with the Boston Braves. He was hit by a foul tip of McInnis' bat in the first inning. The ball struck his mask, driving the tip of it into his forehead. At the hospital where the catcher was taken it was said that he had suffered a fracture over his right eye.

WILL HOLD MATCH RACE

A match race between Billy Miller and Honest Jerry is slated to be held at Monmouth on Saturday afternoon. Best two out of three half-mile heats will decide the contest. Considerable interest is being taken by the racing fans in this event.

CUSTOMS TEAM DEFEATS LEADERS

Vanquish Water Dept. Nine and Prevent Them Clinching Series.

The Water Department team was frustrated in its effort to clinch the first series in the Civic and Civil Service League on the East End grounds last evening when the customs emerged from the contest with a two-run margin, the score being 11 to 9. The Water Department now has one more game to play in the first series, and to capture the series without the possibility of a tie, the team must win this remaining contest, which is with the Post Office team.

HONORS EVEN

Fredericton and the Cleveland Giants split even in a double-header at the capital yesterday, the colored boys taking the evening game by a 1 to 0 score and losing the afternoon game, 3 to 0. Shields and Fallon were the Fredericton pitchers in the evening and afternoon games respectively and were opposed by Richardson and Lovett.

INTERMEDIATE MEETING

An important meeting of the City Intermediate Baseball League has been called for Thursday night at 9 o'clock in the St. Luke's church rooms by president, C. M. Ellsworth. Each club is requested to have a representative present.

Circumstantial Evidence

"I have a new baby brother." "Is he going to stay?" "I think so. He has all his things."

Ball Problems By Billy Evans

QUESTIONS. 1. There is a runner on first base. With the batter in his box the pitcher stepped on the rubber with the ball in his possession. The pitcher made a motion as if to deliver the ball to the batsman, but instead swung around on his right foot until he faced first base, stepped directly toward that base and threw the ball there. There was not the slightest pause or hesitation in the entire motion. The first baseman threw the ball to the second baseman who retired the runner from first at that bag. The team at bat contended that the pitcher had committed a balk and the runner was entitled to advance to second. The umpire, however, ruled otherwise and allowed the out, making the claim that the pitcher had not started his motion but made a direct throw to first. What about this play?—H. O. 2. Is it possible for a ball and a balk to be declared on the same pitch to the batsman?—K. M.

ANSWERS.

1. The calling of a balk is entirely up to the judgment of the umpire. In the case cited he ruled no balk and the side at bat must abide by the decision. From the way the play is stated, I would say the umpire erred. A pitcher to properly throw to first to catch a runner must first step in the direction of the base, then throw. It seems the pitcher, after making a preliminary pitching motion, wheeled and threw to first, which is a balk.

2. There cannot be two decisions on the same pitch. The moment the umpire rules balk, play is suspended, and no further action on the pitch possible.

MODEL YACHTSMEN GOING BACK TO LAKE

Members of the St. John Model Yacht Club tried a course on Courtenay Bay last evening in conducting races for model yachts, but have decided to hold future races on Lily Lake owing to the inconvenience experienced. There was a good strong breeze blowing but the tide was on the ebb and the lack of enough suitable row boats to follow the yachts caused no little trouble. The yachtsmen and a large number of spectators were disappointed. The first race was for the 40-inch class. It was a boat to windward, to a buoy and then a run home. The "Maid of the Mist" owned by R. Bevela, finished first, the "Louisa" owned by H. Silliphant, second, and the "Phyllis" owned by S. Silliphant, third.

NATIONALS WON

Last night's game on the Improvement League grounds went to the Nationals by default, as the St. Luke's were two players short, after Umpire McLeod had officially pronounced the game forfeited to the Nationals, an exhibition game was played, the Nationals winning, 9-4.

Weather permitting, the Martello and Nationals' race on the Queen Square diamond tonight.

CARPENTIER READY FOR TUNNEY BATTLE

Expect to be Heavier Than When He Fought Dempsey.

New York, July 23.—Georges Carpentier will step into the ring with Gene Tunney at the Polo Grounds Thursday evening in excellent physical condition, he asserted yesterday. Having trained as hard for this as he did for the international battle with the heavyweight titlist, Carpentier believes he has a splendid chance of winning.

In proof of what he says, Georges went through some light work at his quarters in Great Neck yesterday, showing speed and, after an hour's labor, surprising stamina. He stepped on the scales after his workout and tipped the beam at 174 pounds.

"I will be heavier than when I stepped into the ring with the champion," said Georges. "I will just stay at that weight until after we weigh in Thursday afternoon; then I will relax completely, and by the time the first going sounds I will weigh above 178 pounds, and may reach 180. At that weight I will be strong and will be able to force the fighting with Tunney."

Tunney and Carpentier both wound up their heavy workout yesterday. From Red Bank Tunney sent word that he was in fine trim and was anxious to have the battle get under way. He says he never was in better condition and he indicated that he does not underestimate Carpentier, who is a dangerous opponent, even though he is in his seventeenth year in fistie harness. Tunney believes that the fifteen-round distance will prove too much for Carpentier and that if he does, not counting a knockout before the tenth he will have little trouble in doing so after that session.

However, in the Carpentier camp no fear is held on this score, for it is maintained that Georges has trained himself in such a way that he will be able to stand fifteen rounds at whatever pace Tunney desires to set, not counting the possibility that Carpentier may land his famous right and end the bout within ten rounds.

Paul Berlenbach and Angie Ratner, who met the semi-final, are reported in excellent shape for their twelve-round engagement. This also holds true for Harry Mason and Fay Fritsch. Mason, the lightweight titlist of England, is held a favorite to win over Fritsch, but the latter has a host of optimistic friends.

Save Your Money With Fundy Gas

Get along on half the oil—half and less than half the repair expense—one-tenth the carbon—and less gasoline from more mileage—by sticking to Fundy Gas.

Fundy Gasoline has such higher power and smoothness that motorists boost it in a word for its "pep."

But the quality of purity that produces its "pep" creates economies in oil, in repairs, in carbon, in mileage.

Its greater purity and full freedom from kerosene or adulteration means a cleaner explosion—no lagging kerosene to cut into your oil and wear down your car. Save money on oil and repairs, avoid carbon, and drive stronger with the one pure gasoline.

BISLEY VETERANS
AMAZED AT WORK
OF PRIVATE BURKE

Prince of Wales Personally
Congratulates Winner of
King's Prize.

Private Desmond Burke, G.G.F.G., Ottawa, won the King's Prize Bisley event Saturday. His aggregate score was 230 out of a possible 250.

King George telegraphed to Lord Chylesmore, chairman of the Bisley committee, asking him to convey to Private Burke his hearty congratulations on winning His Majesty's prize on Saturday.

Private Burke's achievement in winning the blue ribbon Bisley prize in competition with 988 other marksmen from all parts of the Empire has made him the hero of the hour and he has received many congratulatory messages. He is only 19 years of age and has been shooting less than three years.

Burke's score for the two final stages of the King's Prize competition was 230 in a possible 250. He was also the winner of the bronze medal awarded for the top score in the first stage. The Prince of Wales was among the first to congratulate the winner on the ranges yesterday.

Did Sensational Shooting
In the King's Prize each competitor fires 71 shots. The first 24 are in an elimination and do not count in the aggregate. Pte. Burke won this elimination with the sensational score of 109 out of 108, and thus captured the bronze medal and entered the second stage. The second stage on Friday was at 300 and 400 yards, 10 shots at each range. Out of a possible 100 points young Burke secured 91—49 at 300 yards and 42 at 400.

On Saturday came the supreme test at the long ranges, 15 shots at 800 yards and 15 at 1,000. Pte. Burke put on a varied performance at 800 yards for a total of 66 out of 75, but his shooting at this time stamped him as a real contender. On the 1,000 yards range, with 75 points possible, he put in a score that has probably never been equaled, reaching the bull's eye 18 times, and his other two shots were ringers. The inners were on the second and eighth shots.

Scores of 320 and 325 for the three days' shooting in the event are regarded as exceptional. The prize was usually won by a score around these. Pte. Burke's aggregate for the three days was 333, just 22 points below the possible, and probably a record. Ottawa Rejoices.

Ottawa, July 23.—"He certainly deserves one, and I for one feel he should be given a hearty civic welcome of some kind," said Mayor Nap Chagnon, when asked how the city intended to suitably acknowledge the splendid shooting made by Private Desmond Burke, in winning the King's Prize at Bisley. Mayor Chagnon said that as far as he was concerned the honor which Private Burke had brought to his native city and to the Governor-General's Foot Guards would be fittingly recognized by the city, and that the city's appreciation would be a matter to be taken up today some time, said His Worship.

It would be difficult adequately to describe the wave of enthusiasm and pride which has swept through the city as a result of the remarkable achievement of Private Desmond Burke, 18-year-old son of Mr. and Mrs. William Burke, 297 Centre street, Ottawa, in capturing the King's Prize in competition with 1,000 picked shots from the British Empire, at Bisley, on Saturday. Although intimation as to the young marksman's astounding victory arrived too late for publication in Saturday papers, the word passed quickly throughout the city, and in less than half an hour from the time the press despatch was first received hundreds of congratulatory messages poured by telephone and telegraph to the family residence on Centre street. They came not only from Ottawa, but from all parts of Canada, and from people of every calling. The news developed rapidly into a sensation.

Congratulations.
One of the first persons in Ottawa to extend congratulations to Pte. Desmond Burke, winner of the King's Prize at Bisley Camp on Saturday, was Governor-General Baron Byng.

When word was conveyed to His Excellency that the 18-year-old marksman had gained the highest honors obtainable on the ranges of the British Empire, Lord Byng immediately sent the following cablegram to Pte. Burke: "Congratulations on your achievement."

Lord Byng is honorary colonel of the Governor-General's Foot Guards, Ottawa, of which Pte. Burke is a member.

Hearty congratulations "on the honor you have won for yourself and Canada" were cabled last night by Rt. Hon. W. L. Mackenzie King, Prime Minister, to Private Burke. "Canadians everywhere are proud of your achievements in winning the King's Prize," the Premier's message says.

"Congratulations on your splendid success" cabled Hon. E. M. Macdonald, Minister of National Defence, to Private Burke Saturday afternoon.

When Pte. Burke was declared winner of the King's Prize Saturday afternoon, Lt. Col. F. Parkinson, D. S. O., commanding The Governor-General's Foot Guards, on behalf of the officers, non-commissioned officers and men of the regiment, despatched the following cablegram: "Your magnificent achievement will prove greatest incentive to Canada's younger citizen soldiers. All ranks send sincerest congratulations."

The achievement of the young man in carrying off the National Rifle Association bronze medal and badge in the first stage, and the King's Prize in the last stage is regarded as almost phenomenal. As winner of the King's grant of 250 pounds, which with the money which he won in the earlier stages up to a tidy figure. According to his parents, the young man will likely use his winnings in helping to pay his way through college.

Private Burke is youngest marksman that ever shot for Canada at a Bisley meeting. He is the fifth Canadian to carry off the Chief Bisley event since its inception in 1860, the other Canadian winners being Private Hayhurst, 1885; Private S. J. Perry, 1904; Private Clifford, 1911; and Private Hawkins, 1913.

Babe's Muff After Hard
Run Starts Yankees
to Defeat.

New York, N. Y., July 23.—Detroit's end of the American League season again is in the ascendancy today as a result of the Tigers' second straight victory over the Yankees 8 to 1. A half game margin separates the two teams and Washington, by virtue of an even break in a double header with Chicago, losing the opener 4 to 0 and winning the second 4-1, still holds third place at a distance of one game.

Babe Ruth's muff of Woodall's long drive after a hard run furnished the break which turned the tide of victory in Detroit's favor yesterday.

Danforth had to come to Lyons' rescue in the ninth to enable St. Louis to maintain a 5 to 3 advantage over Philadelphia.

Boston managed to win its first game in 12 starts by 4 to 3 after an 11 inning tussle with Cleveland.

After dropping the first two games of the series to Cincinnati, the Giants found themselves with a vengeance and registered 27 hits for a 9 to 4 triumph.

Tim McNamara pulled Boston out of the slough of despondency by holding Chicago to three safeties and one hit, while his team mates accumulated three tallies in the initial encounter.

The Cubs took the second game 8 to 1. Brooklyn overcame Pittsburgh by a margin of 5 to 2 started St. Louis on a losing streak which bids fair to parallel its recent winning streak.

The ability of a team to win when victories count most is an essential to a pennant, says a writer in the New York Times. Twice this season the White Sox have been in losing slumps that for a time threatened to erase them from the American League race.

But the Yankees managed to rally in time, check their losing streak and thereby remain in the running for the championship. The race is far from over, and as fast as the Yankees overcome one dangerous opponent another appears to menace their progress.

The champions got away to a poor start when the season opened, but the team found itself, and it was not long until the club was back in the lead. When Washington was on its sensational spurt the Yankees felt the force of the Senators' rush and were foundered during the drive. Later the champions atoned for this setback by taking the series from the Senators in Washington when Manager Harris led the Yankees to a runaway of the race.

Now the Yankees are entertaining the western clubs, and with two series completed the Yankees are found on the winning end of each. St. Louis and Cleveland were the victims. The latest sensations of the league, the Detroit Tigers, open a series here, which may prove to be the decisive one of the year. The Tigers have won ten out of the thirteen games played on the Eastern trip. The club is going on high speed, with Ruth playing brilliantly and leading a winning attack. Manager Huggins has his pitchers working in tempo, and the Detroiters are confident that they will be able to check the progress of the Giants. When McGraw lost Southworth it was the belief that his team would suffer a slight slump, but that injury gave Hack Wilson, a substitute outfielder, his chance to become one of the season's sensations of the National League. During the last few weeks of the season the western trip which he suffered a twisted ankle, but Southworth returned to the game and the Giants continued to show their progress.

Interest in baseball continues to hold and whenever a series of any importance is played the crowds rush to the stadiums. During the last week, with Pittsburgh far from being in the race, there were large crowds daily at Forbes Field, and last Saturday, the first day of the series, a record crowd attended. The fact that the Giants and the Yankees continue to lead their respective leagues has not taken all the interest out of baseball. The sport is having another of its good years, especially in the American League, where the race has been close all season. Despite the large lead the Giants have gained, the National League clubs also are drawing good crowds.

Records Show That Famous
Clubs Falter as Pitchers
Fade.

When the pitching staff collapses, a ball club loses its best defensive weapon, says Billy Evans.

Few clubs have ever won a pennant without the aid of great pitching. It is most necessary over a long campaign of 154 games.

John McGraw is one of the very few managers who has jockeyed a team to a pennant and world series with just ordinary pitching.

Several times McGraw has upset the odds of the critics who insisted his pitching would fall him in a pinch.

Go back over the records of the pennant winners and world champions and the fact stands out when the pitching fails the team invariably breaks.

St. Louis won a pennant in 1907-08-09. An all-star pitching staff that was backed by much battling strength and a fair defense.

The late Bill Donovan, George Mullin, Eddie Summers, Edgar Willett and Ed Killian began to slip, the club did likewise.

The Chicago Cubs, the big noise of the National League from 1905 to 1911, fell back the moment Overall, Brinn, Lundgren, Pfeister and the rest of the staff began to wilt.

Pitching means much to a pennant winner. When the Boston Braves copped in 1914, superb pitching by Rudolph, Tyler and James made possible the club's unexpected success.

For three years the "live-star" pitching staff of the New York Yankees has dominated the American League.

Once upon a time it consisted of Carl Mays, Bob Shawkey, Joe Bush, Sam Jones and Walter Hoyt. When Mays passed out Southpaw Herb Penock was added to the select circle.

The sport is having another of its good years, especially in the American League, where the race has been close all season. Despite the large lead the Giants have gained, the National League clubs also are drawing good crowds.

YANKEES RALLY;
ARE HARD PRESSED

The ability of a team to win when victories count most is an essential to a pennant, says a writer in the New York Times. Twice this season the White Sox have been in losing slumps that for a time threatened to erase them from the American League race.

But the Yankees managed to rally in time, check their losing streak and thereby remain in the running for the championship. The race is far from over, and as fast as the Yankees overcome one dangerous opponent another appears to menace their progress.

The champions got away to a poor start when the season opened, but the team found itself, and it was not long until the club was back in the lead. When Washington was on its sensational spurt the Yankees felt the force of the Senators' rush and were foundered during the drive. Later the champions atoned for this setback by taking the series from the Senators in Washington when Manager Harris led the Yankees to a runaway of the race.

Now the Yankees are entertaining the western clubs, and with two series completed the Yankees are found on the winning end of each. St. Louis and Cleveland were the victims. The latest sensations of the league, the Detroit Tigers, open a series here, which may prove to be the decisive one of the year. The Tigers have won ten out of the thirteen games played on the Eastern trip. The club is going on high speed, with Ruth playing brilliantly and leading a winning attack. Manager Huggins has his pitchers working in tempo, and the Detroiters are confident that they will be able to check the progress of the Giants. When McGraw lost Southworth it was the belief that his team would suffer a slight slump, but that injury gave Hack Wilson, a substitute outfielder, his chance to become one of the season's sensations of the National League. During the last few weeks of the season the western trip which he suffered a twisted ankle, but Southworth returned to the game and the Giants continued to show their progress.

Interest in baseball continues to hold and whenever a series of any importance is played the crowds rush to the stadiums. During the last week, with Pittsburgh far from being in the race, there were large crowds daily at Forbes Field, and last Saturday, the first day of the series, a record crowd attended. The fact that the Giants and the Yankees continue to lead their respective leagues has not taken all the interest out of baseball. The sport is having another of its good years, especially in the American League, where the race has been close all season. Despite the large lead the Giants have gained, the National League clubs also are drawing good crowds.

SHOWS NEED OF THE BIG HOTEL

Tourist Rush Emphasizes Point in Campaign to Raise Funds.

If any further argument were needed, the fact that many tourists in the city were reported to have had difficulty in securing hotel accommodation yesterday, should bring home to the people of the city the urgent necessity of having the work on the Admiral Beatty start next month.

F. M. Ross, president of the board of directors of the hotel company, in referring to the matter at the luncheon given last week in the United Club, assured the Citizens' Committee that, if the \$120,000 needed were raised by Saturday, the contract for the erection of the new structure would be signed three days later. This was taken to indicate that, if all things were satisfactory, the actual work of construction would commence almost immediately.

There is another aspect of the proposition which is of vital interest to the community other than the prospect of making the proposition a reality. There is the stimulus which the work provided in the building of the structure will give to general conditions in St. John. With the foundation work on the new wing for the St. John Infirmary and work on a new school begun, the employment offered by the erection of the new hotel would go a long way to alleviate unemployment, would put a great deal of new money into immediate circulation, resulting in a general improvement of conditions for the whole community, and at the same time offer an inducement for the undertaking of other enterprises in the city.

The question has many angles, all of which should be of benefit to the city and its people. The Citizens' Committee is not endeavoring to raise the amount necessary to make the erection of the hotel a reality. Saturday the people will know how well their work has been received.

BRIGHTEN UP TO WELCOME CRUISER

Mayor Asks for Flag Display in Honor of Visiting War Vessel.

Mayor Potts said this morning that he would like all citizens to fly flags and trim up their premises during the time the British cruiser Constance is in port, to show appreciation of the visit to St. John. The ship is expected some time tomorrow morning and will be docked at the McLeod wharf. She will be met at the Island by the harbor master. After the docking Mayor Potts, Collector of Customs Lockhart, Common Clerk Wardroper and Sheriff Wilson will call on the captain and extend an official welcome to the crew. On Friday the officers of the ship will be the guests of the city council at a luncheon at the Union Club and His Worship said he understood arrangements had been made to have the local theatres open to the men of the ship while they were on shore and the Seaman's Institute will be open to them while in port. He said that he had also been given to understand that the New Brunswick Power Company would carry sailors in uniform free of charge on the street cars.

F. J. DOODY DEAD

Former St. John Man Passes Away in Los Angeles.

Friends of Fred J. Doody will regret to learn of his death which occurred at the Sierra Madre sanitarium, Los Angeles, on Sunday according to word received here from his mother, Mrs. J. H. Doody, who went to the west on receiving news of her son's illness. His death was due to the effects of an attack of pneumonia which he had some time ago.

Mr. Doody was the eldest son of the late J. H. Doody of this city and he was located in St. John for several years with the Dunlop-Cook Co., Ltd., King street, and later opened one of the first automobile accessories branches in this city, the Diamond Tire Co., Prince William street.

During the last few years he had held an important position in the automobile industry at San Francisco, his duties being largely connected with the export trade and this compelled him to make journeys to the Orient.

The funeral will be today with requiem mass at Los Angeles. Interment will be in that city.

Mr. Doody is survived by his wife and one child; also his mother, two brothers, J. Harry and Edmund J., both of this city, and one sister, Miss Nora of St. John. His mother and sister, who were with him at the time of his death, are expected home in the course of a few weeks.

They made the trip by automobile and report the roads in the way in first class condition. Today they will motor to Belleisle to spend a few days before returning home.

PRESENTATION MADE.

About fifty friends called at the home of Mr. and Mrs. George Fillmore, Glen Falls, on Monday evening and tendered a surprise party to their son, Stewart, who has recently returned after a period of service in the Canadian navy. During the evening Miss Katie Sommerville, on behalf of the company, presented a fountain pen to the guest of honor. Games and music were enjoyed until a late hour.

THE COURT HOUSE.

That no time may be lost in proceeding with the work of restoration of the old court house, a meeting of the finance committee of the municipal council has been called for Friday afternoon, August 8, to make the necessary financial arrangements for proceeding with the work. The tenders are to close at noon on Thursday, August 7, and the buildings committee will meet at 2:30 that afternoon to open the tenders and award the contract.

STEEL RAILWAY WORK.

That the directors of the New Brunswick Power Company have approved of the construction of new cars in this city and that the material for them is now being purchased was announced this morning by M. A. Pooler, general manager. He said that as soon as the necessary material has been assembled the work of actual construction will go on. He expects that this will be only a matter of a few days. Street railway employees have completed laying tracks in Main street, Fairville, and have raised them to permanent grade. Crushed stone is being placed underneath and between the ties.

CLAIMS \$75,000 FROM GERMANS

Miss Fielding's Case Being Heard—Col. Guthrie in City.

Colonel Percy A. Guthrie, formerly of Fredericton and now practising law in Boston, arrived at noon today from Boston to appear before Hon. Dr. William Pugsley, Dominion Government war claims commissioner, to testify here this afternoon relative to Miss Anna Fielding's claim against the Germans. Col. Guthrie also is acting as Miss Fielding's solicitor. Her claim, according to Col. Guthrie, amounts to \$75,000 in all. Miss Fielding's brother, Irving Fielding will also attend the hearing.

Colonel Guthrie, who is accompanied by Mrs. Guthrie and two children, is undecided about plans for a stay here but expects to attend the horse races in Fredericton tomorrow before returning to Boston. It will be recalled that Colonel Guthrie served overseas as lieutenant in the 10th Batt. C. E. F. at the outbreak of the war and rose rapidly. While returning to Canada, he was on the liner Hesperian that was torpedoed. Later on, he commanded the 23rd Kiltie Battalion.

WILL BE BIG DAYS FOR K. P. MEMBERS

Grand Lodge, Maritime Domain, to Meet Here in August.

Big preparations are being made by the St. John Pythians to welcome the Grand Lodge of the Maritime Domain, which is to hold its sessions in this city next month. A committee has been busy for some time arranging the social activities which will be given for the benefit of the visitors and included among these is a trip on the river on the new motor ship D. J. Purdy.

Castle Hall, Union street, is being renovated and redecorated under the direction of Past Chancellor W. E. Demings of New Brunswick Lodge. It is expected that this will be one of the best attended sessions of many years and that three days will be required to deal with all the business to come before the delegates.

H. PRICE WEBBER VISITING CITY

Cheery as Ever, Actor-Manager Comes Here from Maine.

H. Price Webber is in the city today. He has lost none of his cheerfulness of manner and his fund of good stories has not diminished. Mr. Webber remembers the St. John of the days before Confederation, and has vivid memories of every quaint character of the period when he was a citizen of St. John. He worked here as a printer, was one of the old-time amateur actors, and after he had gone on the professional stage brought his own company year after year to tour these provinces. He lives now in Augusta, has several amateur theatrical companies thereabouts on his list and does some newspaper work. It is a tonic to meet Mr. Webber and laugh with him over his delightful stories of the odd happenings and quaint characters of former years.

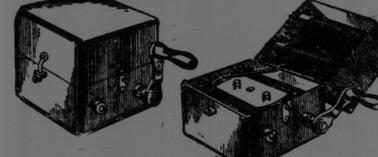

Among those he told a Times-Star man this morning was of two bibulous citizens who met in King Square one evening. They had lost all reckoning of time. One looked up and asked what was the matter with the sun. The other looked up and asserted it was not the sun at all, but the moon. After a heated argument they appealed to a third citizen, and asked him to tell them whether the orb in sight was that of the day or the night. This citizen had also been honoring the custom of that day, even more than the disputants. Straightening himself with an effort and going upward, he brought his eyes down again, stared at the two enquirers and gravely replied:—"Gen'l'men—I'm a stranger in these parts—I don't know which it is." And way across King Square.

As Hiram Sees It

"Well," said Mr. Hiram Hornbeam to "The Times" reporter, "us folks out to 'The Settlement' is much obliged to you two for your enquirers and gravely replied:—"Gen'l'men—I'm a stranger in these parts—I don't know which it is." And way across King Square.

"What there hotels?" said Hiram. "As long as you don't hev no big hotel folks comes right on out to 'The Settlement.' They don't expect no great shakes out there—but when they hit a town like St. John an' don't find a hotel like they're used to—they jist step on the gas—yes, sir. So if you folks 'll keep on sayin' you won't hev no hotel well be awful thankful we're gonto fit up a fine camp-site an' put up big signs an' make everybody welcome. They'll be so tickled after 'em' 'round out down here that they'll hang round an' spend a lot o' money. You're good scouts down here—you're doin' us a good turn every day—By Hen!"
