KEEN INTEREST IN LIGHTWEIGHTS

Leonard and Tendler in a Championship Bout.

Expect 75,000 About Ring in Jersey City Tonight—Offer to Match Dempsey and Willard for September—Two Knockouts at Once.

(Canadian Press)

New York, July 27.—At Boyle's Thirty Acres in Jersey City, with the lightweight championship at stake, Benny Leonard will defend his title tonight against Lew Tendler, Philadelphia challenger, in a twelve round contest. It is a match perhaps unparalleled in interest in the lightweight history and rivaling as a fist attraction the encounter of Dempsey and Carpenter. Old times recalled the Joe Gans-Battling Nelson battle at Goldfield some years ago and contrasted it with tonight's bout.

Leonard finished his training with the flat declaration that he would win by a knockout, within seven rounds. Tendler was no less confident of his ability to land a decisive blow.

Both men must weigh in at or under 135 pounds. Leonard will fight at 2 o'clock this afternoon and have posted forfeits of \$15,000 as guarantee.

Under the New Jersey boxing laws, no decision can be given if the bout goes the limit. Thus Tendler's only chance to displace Leonard as champion is by scoring a knockout or by a foul.

Tex Rickard estimated the attendance at 75,000 and the gate receipts at between \$400,000 and \$500,000. Weather predictions were promising but should conditions be unfavorable, the contest will be held tomorrow night or the first available night.

This will be the first time Leonard and Tendler have met in the ring. The assertion that in tonight's bout there is more than a desire for pugilistic honors and the money is based on the fact that Tendler's manager claimed Leonard's postponed \$50,000 for the Philadelphia match several months ago, in spite of the latter's vigorous protest.

Leonard, a crafty fighter, with a formidable record, as champion in the last five years and ranked by many football division since the days of Gene Tunney, will face a hard hitting, dangerous southpaw in the Quaker City challenger. Both have battled the class in their ranks and Leonard is considered the faster and more resourceful boxer and has a more impressive record.

Los Angeles, July 27.—A definite offer of a match with Jack Dempsey on September 22 or 23 has been received by Ray Archer, Jess Willard's manager, according to Gene Doyle, the challenger's local representative. The offer will change Willard's determination to hold out for an October or November date, however.

Denver, Colo., July 27.—The referee of a boxing contest between Grand Jett, Cole and a contender, collapsed on the mat at the same time and the referee counted both men out.

Jack Downes, who was trading punches with Whitney Hutton in a match at 140 pounds, got behind in trading and received a blow on the point of the chin. As he started his knees collapsed on the mat at the same time and the referee counted both men out.

KRAMER SHATTERS RECORD AND RETIRES Newark, N. J., July 27.—Frank Kramer, veteran professional bike riding champion of America, retired today after a career of twenty-seven years on the tracks during which he captured the national championship eighteen times. Kramer's record-breaking career last night with a record breaking performance at the Newark Velodrome. He was awarded an ovation when he shattered his own record by a sixth of a mile by two fifths of a second and equalled the world's record of 19:2-3 seconds, established by Albert Freba.

FOREIGN PAPER CORRESPONDENTS TO TOUR CANADA Ottawa, July 27.—Percy S. Bullen, representing the Daily Telegraph of London, visited Ottawa yesterday on his way from Winnipeg to Montreal. He came from New York where he is stationed, to make preliminary arrangements for a Canadian tour of the association of foreign press representatives in the U. S. of which body he was organizer in 1917.

The association has sixty-five members representing the principal papers of Europe, South America, Japan and British dominions overseas, all of whom are stationed either in New York or Washington.

Mr. Bullock, representing the Times of London and the Daily Mail, is the president of the association this year and the proposed Canadian tour will probably take place during his term of office.

FRERERICION MARKET. Gleason, Wednesday.—Today's prevailing prices were as follows: Chickens, per pound, 40 cents; fowl, 25 to 30 cents; lamb, 18 to 25 cents; veal, 10 to 12 cents; salmon, 20 to 22 cents; eggs, 35 cents; butter, 28 to 30 cents; black currants, per box, 15 cents; white currants, 20 cents; red currants, 20 cents; cherries, 25 cents; raspberries, per quart, 20 cents; blueberries, 15 cents; gooseberries, 20 cents; green peas, 30 cents; green beans, per peck, 40 cents; new potatoes, 40 to 50 cents; beets, onions, carrots, per bunch, 10 cents.

Distribution Cost Just Under \$600,000

Kribs Report on Hydro at City Commissioners' Meeting Today—Proposed System to Meet All Requirements for Three or Four Years.

At a committee meeting of the common council this morning Mayor H. R. McMillan read a report of Engineer Kribs, which was submitted to the New Brunswick Electric Power Commission and forwarded to him on the cost of a hydro distribution system in St. John. He announced that the report of Messrs. Kribs and Phillips would be submitted on Monday accompanied by his own recommendations. He said it was being presented to the council for the purpose of deciding what was best to do in the matter and he placed before the public for their decision. He said the seeming delay was occasioned as a result of trying to make the report, which has considerable technical details, intelligible to the public. He also informed the meeting that the New Brunswick Electric Power Commission addressed a letter to him saying that they are now ready to deliver energy. This communication the mayor said he submitted to the city solicitor.

One of the commissioners said that the report of Engineer Kribs did not deal with East St. John or Robtsey avenue.

In answer to Commissioner Bullock Mayor McMillan said that the commission had no right to function until after the contract had been entered into. The substance of the report is that a complete distribution system can be installed in the city for \$599,606. There is a separate estimate for Fairville and Lancaster. The system for Fairville would serve not only all the load now being served by the New Brunswick Power Co. but all it might reasonably be expected to secure in addition in the next three or four years. "In fact," says the report, "the immediate expenditure necessary would be considerably less than \$599,606."

The report says the material prices are based on actual quotations from manufacturers and dealers, and labor prices on actual results on other systems of like nature, modified where necessary to meet local conditions.

The sub-station would be a three story brick structure of the same design as that at Windsor, Ont. The switchboard would be of the latest design. Because of the nature of the work the report allows \$15 a hole for poles, but believes it can be done at \$10. Prices of poles are based on western cedar. If some could be got locally they would cost less. The report also includes estimates for ornamental as well as regular lights, and a great improvement over present conditions. The summary of the report is as follows:—

	For Fairville	For Lancaster City and Only
1. Substation and equipment	\$80,000	
Distribution system:		
2. Poles, set but not including fittings	91,638	\$11,879
3. Cross arms, including hardware but not including insulators	4,097	453
4. Racks, including insulator spools	5,805	640
5. Insulators, 50 x 1 cross arms only	1,620	180
6. Guy, head and rock	8,188	1,999
7. Transformers, installed complete	74,890	10,670
8. Service, domestic and power	131,880	18,640
9. Street lighting, ornamental	25,000	
10. Street lighting regular	26,010	2,873
11. Conductors		1,036
12. Copper wire	80,610	8,140
13. Stringing	8,085	1,036
14. Lighting Arrears	1,462	162
15. Grounds	1,013	112
16. Oil circuit breakers	633	73
17. Poles, stepped	421	47
18. Anderson Times Switches	824	168
19. Relay switches	3,200	640
Total	\$545,095.00	\$67,916.00
Ten per cent. for Eng. and contingencies	54,510.00	5,792.00
Grand total	\$599,606.00	\$73,708.00

PREDICTS EARLY STRIKE ON RY. LINES IN CANADA

Toronto, July 27.—Before leaving for Montreal last night to attend a conference of the executive of division No. 4 of the Railway Employees, department of the American Federation of Labor, a member of the executive expressed the view that a strike would be called before Sunday night.

The railways affected, he said, would be the C. P. R., Grand Trunk and Canadian National, while the six shop trades that would be called out, would be the boiler-makers, machinists, carmen, electricians, blacksmiths and sheet metal workers. The number of men concerned would total about 52,000 at Montreal, St. Malo, Que., Montreal, Toronto, Leaside, Stratford, North Bay and Winnipeg. About 11,000 men in Toronto and Leaside would be affected.

Portugal and Germany. Lisbon, July 27.—The Portuguese government is preparing to negotiate a special agreement with Germany for the payment of war reparations in kind amounting to 990,000,000 gold marks.

As Hiram Sees It

Revived Hope of Railroad Peace

"Well, sir," said Mr. Hiram Hornbeam to the Times reporter, "I went to that Canadian Club luncheon on Tuesday to hear that feller Humphrey from New York talk on British-American friendship. I bet he's some relation you back a few hundred years to the Humphreys' party out to the Settlement. It done me good to hear him tell about George Washington's old manor house in England, an' that bust of Washington in Liverpool—an' Lincoln's statue in Trafalgar Square an' Manchester an' them English statues comin' to the States—an' them Englishmen comin' over this year to the States to preach good-will—an' Yankees goin' over the pond to preach it—an' swappin' scholars in the schools—an' all the things that's been done to bring us all together for the peace of the world. That man Humphrey is the kind of man we want to think about. I wish we were talkin' about the States an' teachin' the kids in the schools about our cousins to the south. We held the old grudge long enough—a lot longer than Old John Bull did—now we did it all together in peace like we did in the war—an' the gates of hell won't prevail again us—as somebody said one time—yes, sir."

Chicago, July 27.—Just as the railway strike seemed to have settled to a long drawn out and determined battle, hopes for peace, which have waxed and waned, were revived by a gathering of strike leaders and railway executives in Washington.

Restoration of seniority rights to men on strike removed the chief obstacle to peace. The stand of the railway heads on this question was stated by President Byram of the Chicago, Milwaukee and St. Paul as being that the railroads were not seeking to destroy seniority rights of men on strike, but to make their seniority subordinate to that of men now working as well.

In view of President Harding's statement that the rights of men at work and the rights of strikers must alike be protected, made yesterday in a message to the chairman of the railway employees' public association, it was believed that any agreement must include respect for the rights of men now working as well as the rights of strikers.

Government and local officials in various cities are preparing today to respond to the interstate commerce commission's orders concerning transportation of fuel and foodstuffs. Minor developments included some disorders at widely scattered points, a walkout of 800 shopmen on the Philadelphia and Reading Railway not hitherto affected by the strike, several arrests of varying charges, issuance of an injunction of two, and service of eviction notices on former employees occupying railway company dwellings at Casper, Wyo.

JEW IN WEST TO KEEP AUG. 7 AS A NATIONAL HOLIDAY

Winnipeg, July 27.—Jews throughout western Canada will observe Monday August 7 as a national holiday in celebration of the ratification of the British mandate over Palestine by the council of the League of Nations. This was decided at a meeting last night in Zionist church.

DRURY WILL HOLD TO OFFICE UNTIL TERM RUNS OUT Toronto, July 27.—Ontario will not have a provincial election until one from this fall, said Premier Drury, speaking at a U. F. O. picnic at Oro, yesterday. His government would cling to office until the legal expiration of its term. He expressed the belief that his group had grown in prestige during its term of office.

EVIDENCE IN SUIT AGAINST AN EVANGELIST Grand Rapids, Mich., July 27.—Mrs. Lottie Trotter, suing her husband, Melvin Trotter, a prominent evangelist, for separation maintenance, once referred to him as "the Anti-Christ," according to testimony of Mrs. Daisy Spence, a defence witness.

Mrs. Spence also quoted Mrs. Trotter as having said Trotter threatened to kill her if she told anything about his alleged confession that he was the father of a child born to Miss Clarence Moody's private secretary, in the Grand Rapids city rescue mission. "Mrs. Trotter told me," the witness testified, "that he was telling it only to a few Christian persons."

FIVE HITS IN FIVE TIMES UP Maccan, N. S., July 27.—The Boston Travellers won from Maccan yesterday in a one-sided exhibition, 13 to 2. A feature was Sullivan's batting, he getting three doubles and two singles in five times coming to the plate. The batsmen Canning and McDonald for Maccan and MacNiven, Gorman and O'Brien for the Travellers.

SUZANNE, HE SAYS, IS HARD TO MANAGE Ottawa, July 27.—(Canadian Press) Questioned about Suzanne Lengien, who practiced with him before her defeat by Mrs. Mallory last year, Sam Hardy, captain of the U. S. Davis Cup tennis team, which defeated Australia in 1920, and who is visiting here, said: "She would have won that match if she hadn't allowed her temperament to get the best of her. Only her father can manage her," he said, "and he wasn't with her."

PHILIX and Ferdinand WEATHER REPORT Issued by authority of the Department of Marine and Fisheries. R. F. Stupart, director of meteorological service.

Synopsis.—Pressure remains high over the western and maritime provinces, while over the Great Lakes and St. Lawrence Valley it is decreasing slowly in advance of a disturbance moving south-east from Hudson's Bay. The weather is fine and moderately warm throughout Canada.

Shower on Friday. Forecasts.—Maritime.—Moderate southwest winds, fine and warm. Friday, fresh southwest winds, becoming showery. Gulf and North Shore.—Southwest winds, mostly fair and moderately warm, showers in many localities tomorrow, becoming showery. New England.—Unsettled tonight and tomorrow. Probably showers; not much change in temperature; moderate to fresh south, shifting to west winds.

THIS LADY VERY EXCLUSIVE

Rockefeller's Daughter to Build Sixteen Foot Wall Around Her Lake Forest Home.

Chicago, July 27.—Mrs. Edith Rockefeller McCormick, daughter of John D. Rockefeller and divorced wife of Harold F. McCormick, does not propose to be started at by a lot of bungalow dwellers in Lake Forest. An enterprising real estate agent has plotted off a sub-division adjoining Mrs. McCormick's estate, and bungalows are going up on all sides of her. The result was that Mrs. McCormick summoned her architects and instructed them to erect a sixteen-foot wall around the entire estate. Contractors are preparing bids on the work.

Not only that, but Mrs. McCormick has purchased twenty additional acres adjoining her grounds to prevent further encroachment by bungalow dwellers.

Restoration of seniority rights to men on strike removed the chief obstacle to peace. The stand of the railway heads on this question was stated by President Byram of the Chicago, Milwaukee and St. Paul as being that the railroads were not seeking to destroy seniority rights of men on strike, but to make their seniority subordinate to that of men now working as well.

In view of President Harding's statement that the rights of men at work and the rights of strikers must alike be protected, made yesterday in a message to the chairman of the railway employees' public association, it was believed that any agreement must include respect for the rights of men now working as well as the rights of strikers.

Government and local officials in various cities are preparing today to respond to the interstate commerce commission's orders concerning transportation of fuel and foodstuffs. Minor developments included some disorders at widely scattered points, a walkout of 800 shopmen on the Philadelphia and Reading Railway not hitherto affected by the strike, several arrests of varying charges, issuance of an injunction of two, and service of eviction notices on former employees occupying railway company dwellings at Casper, Wyo.

SETTLEMENT OF VERY DEAR COAL New York Retailers Predicting \$25 a Ton. Longshoremen There Discussing Question of Handling Coal Imported from Britain—Rush on in Coal-fields of Old Country.

New York, July 27.—With retail coal dealers here predicting that coal will cost \$25 a ton this winter, and substitutes likely unless the strike is settled, the government steps in and regulates prices of a new angle developed after a meeting of officers of the Longshoremen's Union where the question of handling coal shipments from Great Britain was discussed.

A. J. Chopek, president of the union, declined to indicate whether a plan of action had been decided upon. Coal dealers said that public utilities were supplied for a short period, but with no supplies coming in, anxiety for the future is developing. Larger sizes of anthracite coal are reported exhausted with very little of the other grades in stock. Dealers refuse to quote prices except at the time of delivery.

Washington, July 27.—With the machinery for emergency control of coal distribution completed by President Harding's appointment of a central committee of departmental heads, the government today looks to the states for the necessary co-operation to put the scheme into effective operation. Secretary Hoover is chairman of the government committee.

British Miners. London, July 27.—British coal exporters are scarcely able to conceal their satisfaction at the situation created by the miners' strike in the United States. One north country coal exporter refers to the time when American exporters poured coal into foreign ports during the British stoppage of coal exports, and reflects upon the present reversed position of affairs. A suggestion has been made that the British miners, who, last week, passed a resolution of sympathy with the American miners, might attempt to restrict exportation. Such however, is deemed imprudent especially as no such practical support was forthcoming to the British miners when they had a dispute with the mine-owners.

It seems doubtful that prospective American buyers in the United States and Durham coal fields will meet with much response, because it is said the available supplies already are booked to the middle of summer and that the time when American exporters poured coal into foreign ports during the British stoppage of coal exports, and reflects upon the present reversed position of affairs.

London, July 27.—The draft problem, the recent Boston-New York deal, and plans for selecting and rewarding the most valuable individual player in the organization were among important matters for discussion at a special meeting of American League club owners here today.

Fixing July 1 as the final date for closing mid-season player deals will be discussed, it was indicated, by B. Johnson, league president, favoring that date as opposed to August 1, the present final date.

What K. M. Landis, commissioner, termed the "un-American" attitude of the Western Three-eye, International and Pacific Coast Leagues in refusing to permit drafting of players also was one of the chief topics for discussion. No definite plan of action has been formulated, but some procedure probably will be mapped out.

LORDS' ACTION ON CATTLE EMBARGO Vote Down Unconditional Removal, but Show Marked Change of Sentiment. London, July 27.—(Canadian Press)—The debate in the House of Lords yesterday indicated that the peers are inclined to regard the retention of the embargo against Canadian store cattle as only a matter of time and some strong advocates of the embargo manifested a disposition to accept this situation.

Yesterday's proceedings were a continuation of the debate started on July 12, when Lord Chaplin presented a resolution urging the maintenance of the embargo, and Lord Lincolnshire moved a resolution demanding the fulfillment of the pledge of 1917 that the embargo would be removed. The weight of speeches of July 12 was decidedly against any change of policy, but sentiment, it was shown yesterday, has undergone a remarkable change.

The Lord Lincolnshire amendment favoring unconditional removal was voted down 91 to 53, but the House adopted the Lord Long amendment as a substantive resolution, accepting the conclusion of the Findlay Royal Commission that Canadian herds were free from the plague of pleuro-pneumonia and foot and mouth disease, and expressing the opinion that steers from the dominions might be admitted as store cattle subject to quarantine precautions.

FREAK SHARK CAUGHT AT CAPE D'OR, ADVOCATE Amherst, N. S., July 27.—A shark of unknown variety was caught by E. J. James in a salmon trap at Cape D'Or, Advocate, on Wednesday. It measured 14 feet 9 inches from tip to tip, with a remarkable upper tail fluke six inches long. Old mariners remarked that they never saw the like in the seven seas.

BABE GETS TWO IN ONE GAME

His Home Runs Now Total Seventeen

Chicago, July 27.—Babe Ruth and the Yankees recovered their batting form simultaneously in the second game of the American League's crucial series, coming from behind in the last three innings to bat out ten runs and trounce the leading St. Louis Browns 11 to 6, Ruth poked out his sixteenth and seventeenth homers during the attack on four of the Browns' pitchers. Urban Shocker, who blanked them on Tuesday, failed in an attempt to stop the New York slugger, and was given the defeat although he pitched only one inning, the eighth.

The Giants strengthened their grip on the top by taking their second straight game from St. Louis, running amok in the sixth and seventh, tallying seven runs and sewing up the game, ten to five.

Rettig, Connie Mack's sand-lot sensation, who made his major league debut a week ago by beating the Browns, lost to the Indians 2 to 0, although hitting the Indians to four hits while the Athletics gathered seven off Uble.

Dutch Reuther, Brooklyn ace, returned to form after losing three straight games, and blanked Pittsburgh 7 to 0, besides driving in two of his team's runs. Seven home runs punctuated Philadelphia's double-header over the Reds, 12 to 7 and 5 to 4. Lehouveau, a pinch hitter, tied the last game in the ninth by hitting a homer with one on, and Fletcher won the contest in the thirteenth with another circuit ball.

Three former Yankees, Jack Quinn, Johnny Mitchell and Elmer Miller, helped Boston to defeat the Chicago White Sox 3 to 1. Miller drove out two homers and Mitchell scored the other tally after tripling. Garrity's homer in the ninth gave Washington a 3 to 4 win over the Tigers.

Ty Cobb increased his lead in the individual batting race to ten points by registering three safe blows while Slater went hitless.

Alexander lost a pitchers' battle to McQuillan 2 to 1, in the first game of a double-header, but Chicago took the second game from the Braves 5 to 1.

American League Meeting. Chicago, July 27.—The draft problem, the recent Boston-New York deal, and plans for selecting and rewarding the most valuable individual player in the organization were among important matters for discussion at a special meeting of American League club owners here today.

Fixing July 1 as the final date for closing mid-season player deals will be discussed, it was indicated, by B. Johnson, league president, favoring that date as opposed to August 1, the present final date.

What K. M. Landis, commissioner, termed the "un-American" attitude of the Western Three-eye, International and Pacific Coast Leagues in refusing to permit drafting of players also was one of the chief topics for discussion. No definite plan of action has been formulated, but some procedure probably will be mapped out.

LONDON'S ACTION ON CATTLE EMBARGO Vote Down Unconditional Removal, but Show Marked Change of Sentiment. London, July 27.—(Canadian Press)—The debate in the House of Lords yesterday indicated that the peers are inclined to regard the retention of the embargo against Canadian store cattle as only a matter of time and some strong advocates of the embargo manifested a disposition to accept this situation.

Yesterday's proceedings were a continuation of the debate started on July 12, when Lord Chaplin presented a resolution urging the maintenance of the embargo, and Lord Lincolnshire moved a resolution demanding the fulfillment of the pledge of 1917 that the embargo would be removed. The weight of speeches of July 12 was decidedly against any change of policy, but sentiment, it was shown yesterday, has undergone a remarkable change.

The Lord Lincolnshire amendment favoring unconditional removal was voted down 91 to 53, but the House adopted the Lord Long amendment as a substantive resolution, accepting the conclusion of the Findlay Royal Commission that Canadian herds were free from the plague of pleuro-pneumonia and foot and mouth disease, and expressing the opinion that steers from the dominions might be admitted as store cattle subject to quarantine precautions.

FREAK SHARK CAUGHT AT CAPE D'OR, ADVOCATE Amherst, N. S., July 27.—A shark of unknown variety was caught by E. J. James in a salmon trap at Cape D'Or, Advocate, on Wednesday. It measured 14 feet 9 inches from tip to tip, with a remarkable upper tail fluke six inches long. Old mariners remarked that they never saw the like in the seven seas.

SEALING PARCELS OF MERCHANDISE THROUGH MAILS Ottawa Notice to Postmasters Setting Out Regulations for Transmission. Ottawa, July 27.—The post office department informs postmasters that sealed parcels of merchandise may be accepted for transmission throughout Canada at parcel post rates of postage. Such merchandise may be accepted, provided the sender has placed thereon a printed label, stating in general way the nature of the contents.

A label is recommended by the post office department which contains the name and address of the sender and also the name and address of the one to whom the parcel is sent.

In one corner is a description of the merchandise and a note authorizing a postmaster to open the parcel for postal inspection if necessary.

OTTAWA NOTICE TO POSTMASTERS Setting Out Regulations for Transmission. Ottawa, July 27.—The post office department informs postmasters that sealed parcels of merchandise may be accepted for transmission throughout Canada at parcel post rates of postage. Such merchandise may be accepted, provided the sender has placed thereon a printed label, stating in general way the nature of the contents.

WERE DELIGHTED WITH MARITANA

Imperial Patrons Get Rich Treat in Opera

Boston Company Brings Favorites of Other Years and New Artists Who Quickly Win Favor—Fra Diavolo to be Sung Tonight.

Those who elected last evening to forego the outdoor pleasures of a fine summer night to attend the opening engagement of the Boston Opera Co. in the Imperial Theatre were most generously rewarded, for they witnessed a most satisfying rendition of Wallace's tuneful and romantic opera, Maritana by a company of singers who did full and complete justice to every note and situation.

St. John could stand a lot more of stage productions of a musical nature, and the calibre of the artists and the choice of last night's bill certainly deserved a better patronage. It would be untrue to say that the people of the city are not musical, yet it must be concluded that, because the production of stage features in which music predominates is rather the exception than the rule here, there has undoubtedly been a falling off in the patronage of this sort of entertainment in the city from what it was twenty-five or even fifty years ago.

However, the members of the Boston Opera Co. were given a hearty reception last night when they presented Maritana to a highly appreciative audience. A familiar hand of welcome was given to old acquaintances, while some newcomers were shown that their work was well received. The piece itself is rich in melody and has as outstanding features half a dozen solos and several rich choruses. The members of the chorus, while not numerous, possess fine voices and their work contributed greatly to the success of the piece.

Miss Helena Morrill, who played the name role, shared with Miss Marguerite Porter, as the boy Lazavillo, the honors of the evening. Miss Morrill is not unknown to St. John audiences, but last night she seemed to eclipse all previous performances, and the applause which was generously and frequently given her endeavours was clear evidence that she had added to her already large host of St. John friends. Notable among her solos were "The Harry in the Air" and "Scenes That Are Brightest," each of which evoked such hearty commendation that Miss Morrill was compelled to respond with an encore.

Miss Porter immediately caught the favor of the audience in her first solo, "Alas, Those Chimes So Softly Pealing," in her sympathetic portrayal and excellent stage presence. She has a most delightful stage presence, a charming appearance, and a sweet, rich voice, while her enunciation was excellent. She was called upon to repeat this number, and from the reception accorded her it was evident that she made a distinct and lasting impression. Again in the last act, when with Miss Morrill she sang a most delightful and appealing prayer duet, the full sweetness and modulation of her voice was heard to perfection. Further success is expected for Miss Porter, and St. John music lovers will hope to hear more of her before she leaves the city.

Another familiar figure last night was that of Norman Arnold, who handled the tenor part of Don Caesar de Bazan, an impetuous and spendthrift noble of the Spanish court, but a good fellow withal. He possesses a mellow tenor voice of excellent range and fine quality, and his dramatic work was of the best. His big hit last night was the solo, "Let Me Like a Soldier Fall," which received well-merited applause.

Don Jose, plotter and general bad man of the opera, was sung by Edward I. who carried out the role excellently in fine voice and stage action, which fell to his lot. He received a just share of the applause. Henry Ralf, in the role of the King of Spain, Charles II., was another favorite. The only regret of the audience was that his part did not call for more individual work. Particularly in his scene with Maritana was his pleasing voice heard to good advantage.

Martin Albright doubled in the parts of the Captain of the Guard and of Alcide, and in both he displayed fine dramatic talent and a pleasing and well-trained voice. The part of the Marquis de Montefiori, perhaps the only humorous role in the piece—and a difficult one at that—was well placed in the hands of John Pritchard. Facial expression and eccentric action played a large part in this role, and Mr. Pritchard was equal to the occasion and his lines evoked hearty laughter. Miss Lillian Chapdelaine, as his wife, handled a small part in excellent manner.

Howard Cook, who conducted the opera; Joseph Montan, the stage director, and John Pritchard, the stage manager, are to be congratulated on the success of Maritana. The company is to appear in three more operas at this engagement and the public is looking forward with much pleasure to the coming treat. This afternoon there will be a performance of "The Mascot" and this evening "Fra Diavolo" will be presented. Tomorrow evening the company will present its final offering "Girolo-Girolo."

The cast of characters last night was as follows: Maritana, a Gypsy Girl... Helena Morrill; Charles II., King of Spain... Henry Ralf; Don Jose de Santarem, Edward Orchard; Don Caesar de Bazan... Norman Arnold; Marquis de Montefiori... John Pritchard; Captain of the Guard... Martin Albright; Alcide... Marguerite Porter; Marchioness de Montefiori... Lillian Chapdelaine.

Those who have visited the big Oak Hall store during the past week, fully realize the significance of this big mammoth sale which will come to a close Saturday at 1 p. m. To those who have not yet visited the store since the opening of this great selling event, there is still time to get the full benefits of the big savings that is effected in their purchases of all kinds of high class wearing apparel. It has been a big feature of this sale that each day a big special is offered—also new merchandise of all kinds has been brought forward daily. An enormous business has been done, but Oak Hall has prepared for a big volume, and the big values will continue until the very end.

The buying public fully realize that this is not an ordinary sale. They realize that it is an enormous effort put forth by Oak Hall to strengthen their growing clientele, and to continue to widen their circle of customers to a greater sphere. To accomplish this, Oak Hall has set these ten days for the buying public's benefit, offering everything in their great store of substantially reduced prices, bargains in large quantities, at less than market quotations, and marked at a very minimum of profit; so that this sale is really unique in character, and has placed it in the place of St. John's greatest mercantile event.

57

Aside from the good taste Heinz Baked Beans are wholesome, full of food value, convenient, ready to serve instantly—and economical.

HEINZ OVEN BAKED BEANS with Tomato Sauce

manance of "The Mascot" and this evening "Fra Diavolo" will be presented. Tomorrow evening the company will present its final offering "Girolo-Girolo."

An enormous business has been done, but Oak Hall has prepared for a big volume, and the big values will continue until the very end.

The buying public fully realize that this is not an ordinary sale. They realize that it is an enormous effort put forth by Oak Hall to strengthen their growing clientele, and to continue to widen their circle of customers to a greater sphere. To accomplish this, Oak Hall has set these ten days for the buying public's benefit, offering everything in their great store of substantially reduced prices, bargains in large quantities, at less than market quotations, and marked at a very minimum of profit; so that this sale is really unique in character, and has placed it in the place of St. John's greatest mercantile event.

Another familiar figure last night was that of Norman Arnold, who handled the tenor part of Don Caesar de Bazan, an impetuous and spendthrift noble of the Spanish court, but a good fellow withal. He possesses a mellow tenor voice of excellent range and fine quality, and his dramatic work was of the best. His big hit last night was the solo, "Let Me Like a Soldier Fall," which received well-merited applause.

Don Jose, plotter and general bad man of the opera, was sung by Edward I. who carried out the role excellently in fine voice and stage action, which fell to his lot. He received a just share of the applause. Henry Ralf, in the role of the King of Spain, Charles II., was another favorite. The only regret of the audience was that his part did not call for more individual work. Particularly in his scene with Maritana was his pleasing voice heard to good advantage.

Martin Albright doubled in the parts of the Captain of the Guard and of Alcide, and in both he displayed fine dramatic talent and a pleasing and well-trained voice. The part of the Marquis de Montefiori, perhaps the only humorous role in the piece—and a difficult one at that—was well placed in the hands of John Pritchard. Facial expression and eccentric action played a large part in this role, and Mr. Pritchard was equal to the occasion and his lines evoked hearty laughter. Miss Lillian Chapdelaine, as his wife, handled a small part in excellent manner.

Howard Cook, who conducted the opera; Joseph Montan, the stage director, and John Pritchard, the stage manager, are to be congratulated on the success of Maritana. The company is to appear in three more operas at this engagement and the public is looking forward with much pleasure to the coming treat. This afternoon there will be a performance of "The Mascot" and this evening "Fra Diavolo" will be presented. Tomorrow evening the company will present its final offering "Girolo-Girolo."

The cast of characters last night was as follows: Maritana, a Gypsy Girl... Helena Morrill; Charles II., King of Spain... Henry Ralf; Don Jose de Santarem, Edward Orchard; Don Caesar de Bazan... Norman Arnold; Marquis de Montefiori... John Pritchard; Captain of the Guard... Martin Albright; Alcide... Marguerite Porter; Marchioness de Montefiori... Lillian Chapdelaine.

Those who have visited the big Oak Hall store during the past week, fully realize the significance of this big mammoth sale which will come to a close Saturday at 1 p. m. To those who have not yet visited the store since the opening of this great selling event, there is still time to get the full benefits of the big savings that is effected in their purchases of all kinds of high class wearing apparel. It has been a big feature of this sale that each day a big special is offered—also new merchandise of all kinds has been brought forward daily. An enormous business has been done, but Oak Hall has prepared for a big volume, and the big values will continue until the very end.

The buying public fully realize that this is not an ordinary sale. They realize that it is an enormous effort put forth by Oak Hall to strengthen their growing clientele, and to continue to widen their circle of customers to a greater sphere. To accomplish this, Oak Hall has set these ten days for the buying public's benefit, offering everything in their great store of substantially reduced prices, bargains in large quantities, at less than market quotations, and marked at a very minimum of profit; so that this sale is really unique in character, and has placed it in the place of St. John's greatest mercantile event.

He possesses a mellow tenor voice of excellent range and fine quality, and his dramatic work was of the best. His big hit last night was the solo, "Let Me Like a Soldier Fall," which received well-merited applause.

PATROLMAN WINS SCUFFLE ON ROOF

Captures Alleged Burglar on a New York Apartment House.

(New York Post.) A sharp scuffle on the roof of an apartment house at 535 West 160th street early today that several times nearly resulted in a patrolman and an alleged burglar losing their balance and falling to the street, ended in the capture of a man who was charged with attempted burglary. Two patrolmen were required to quell the man in a desperate hand-to-hand encounter.

The prisoner, who gave the name of Frederick Wendell, forty-two years old, a waiter, with no home, was arraigned later today before Magistrate Francis McQuade in the West 160th street court and held in \$3,000 bail for examination Wednesday.

At three o'clock this morning a telephone call was sent in to the West 132nd street station informing the police that a man had been seen trying to climb the fire-escape at the West 160th street house. Patrolmen Antonio Caravetta and Charles Dunigan were sent to the house to investigate. When they arrived they saw a shadowy form just getting on the lower round of the fire-escape ladder. Caravetta hurried through the house and out to the roof by way of a trap door.

Wendell reached the roof at the same time as Caravetta, and evidently thinking he could overcome the one patrolman before the other arrived, closed in on Caravetta, trying to throw him. The two men fought back and forth in the darkness, the sound of the struggle arousing the tenants in the house. Dunigan was afraid to take part in the struggle through fear of sending the two rolling off the roof.

Caravetta made a dash for the door and a pistol was drawn and fired three shots. The bullets went wild, but the flash of the revolver disconcerted Wendell long enough for the patrolman to land a right patrol under the chin and a stunned Wendell and he was quickly made prisoner.

Dunigan was afraid to take part in the struggle through fear of sending the two rolling off the roof. Caravetta made a dash for the door and a pistol was drawn and fired three shots. The bullets went wild, but the flash of the revolver disconcerted Wendell long enough for the patrolman to land a right patrol under the chin and a stunned Wendell and he was quickly made prisoner.

The graves' decoration committee of the Knights of Pythias met last night at the Pythian Casino to make preliminary plans for Decoration Day, August 24. The procedure which will be followed this year will be similar to that followed last year. B. L. Sheppard, the chairman, presided last night and reports were given by the printing committee and the committee in charge of the graves. Both reports were approved.

Provincial Fire Marshal Hugh McLellan has ordered the old three-story wooden building in St. Andrew's street, near the corner of Carmarthen, razed to the ground. Notice has been served on the U. N. B. Professor Ganong, that the work must be done in forty days. It is said that the building was erected in seven days. It is understood that the fire marshal is contemplating the destruction or remodeling of other fire traps about the city.

Professor W. F. Ganong, of Northampton, (Mass.), a noted author and scientist, is spending the summer months with his sister, Miss Susan Ganong, Rothsay. Professor Ganong is a native of New Brunswick, his home being formerly in St. Stephen. He attended the U. N. B. where he obtained the degree of bachelor of arts in 1884 and two years later the degree of master of arts. From the U. N. B. he went to Munich, being created a Ph. D. at the latter institution.

A party of tourists met with a mishap last evening while coming in the Lepreux road towards the city. The automobile skidded off the road into the ditch and partly overturned. A woman of the party was the only one injured. She was badly shaken up and her head was slightly cut. She was brought to the city hospital in an automobile which happened to be passing at the time and cared for. It was reported at the hospital that she was feeling quite comfortably. The automobile was towed out of the ditch and was able to proceed on its way unaided.

On his part he conveys to the governor the assurance of the prompt and full support of the federal government whenever and wherever they find their own agencies of law and order inadequate to meet the situation. There has been, president says, no government assumption of a part in the dispute between organized employers. He reminds the state executives, however, that the state governments and the federal government are jointly responsible for the maintenance of conditions "under which free men, willing to work, may work in safety, and for the transportation of a fuel supply ample for the necessities of the American people and the public utilities which serve them, particularly the railroads engaged in interstate commerce.

Out present duty, he continues, is to guarantee security in the exercise of these rights and in all lawful operation and to afford a safe opportunity for that production and distribution demanded by the necessities of the American people. "No cause," he concludes, "is so important as that of common welfare, and there must be the suppression of every unlawful hindrance to the service of that cause. To the task of lawful protection and the maintenance of law and order the federal government pledges to you every assistance at its command." It is well that the president has stressed, as he has done, the necessity for maintaining conditions under which "free men, willing to work, may work in safety." Without the freedom of labor against the interference of any individuals or combinations thereof, there is, and there can be, no liberty.

WOMAN, 27, FASTS 45 DAYS. Resident of Kentucky Hill Village Gives No Reason for Refusal to Eat. Louisville, Ky., July 27.—According to a despatch to the Courier-Journal from Mount Vernon, Ky., Mrs. Betty Coffey, eighty-seven, a resident of Humble, a little village in the hills of Rock Castle county, undergoing a voluntary fast, has passed the forty-fifth day during which she has refused to partake of food. During her fast Mrs. Coffey has taken only a little buttermilk, but has drunk large quantities of water. Mrs. Coffey's fast began after she learned of the hunger strike of the Rev. William Rice in the Powell County mountains, who died last week after going without food sixty-nine days.

Mr. Rice fasted, he said, so that he might convert his neighbors to Christianity by his sacrifice, but Mrs. Coffey never has given any definite reason for her refusal to eat. Despite her advanced age and long fast, Mrs. Coffey apparently is in good health. Airplane and Battleship. London, July 27.—Replying to a question in the House of Commons, Lt.-Col.

BOYS SAVED FROM FALLS. Firemen Waded Into Swift Current and Stop Boatload of Youth.

Rochester, N. Y., July 27.—Firemen wading out waist deep in the swift current of the Genesee River, saved five boys, the oldest seven years, from being carried to their deaths over the upper falls here.

The firemen, hearing cries for assistance, saw the boat as it was edging down stream, the lads clinging to one another.

ENGINE RUNNING IN GARAGE, EXHAUSTS OXYGEN, KILLING MAN

New York, July 27.—With the engine of his automobile running, Arthur Welsh, twenty-eight years old, was found dead on the floor of the garage at Jersey City.

Welsh had taken several friends, including his brother-in-law, Harry A. Dennison, for a ride Saturday night, returning early Sunday morning.

When Welsh failed to return home, Dennison went to the garage, where he found Welsh dead.

DOCTOR TOLD HER TO USE BICHLORIDE, BUT HAD NOT STATED THE QUANTITY, NOR IN WHAT MANNER. SHE THOUGHT IF SHE SWALLOWED ENOUGH AT ONE TIME IT WOULD EFFECT SPEEDIER CURE.

Woman Swallows 75 Grains of Bichloride—May Be Saved. New York, July 27.—Mistaking her doctor's orders, Mrs. Bridget Romie, forty-four years old, of 401 East Fourteenth street, swallowed eighteen bichloride of mercury tablets containing seventy-five grains of the poison at her home.

The usual dose, the largest ever known by physicians of Bellevue Hospital to have been taken by one person, together with the prompt action of the ambulance surgeon in administering antidotes, led the doctors to believe they might be able to save the woman's life.

Neighbors, who heard Mrs. Romie groaning, telephoned for an ambulance. After Dr. McCaslan of Bellevue Hospital had given Mrs. Romie emetics and applied a stomach pump, she told him a

THE NATIONAL WAY ACROSS CANADA. Canadian National Rail Services are the Acme of Travel Comfort.

From the Atlantic Provinces to the West and to the Pacific, the ideal rail route is via Canadian National—"The National Way."

Whether on business or on pleasure bound the traveler has the advantages of a through rail service that is unequalled for excellence. The finest equipment of all steel trains is furnished and the most modern of standard sleepers, compartment cars, and modern diners.

The "National Way" is also the finest scenic route, and by reason of its construction furnishes the smoothest and most comfortable journey.

From the Maritime Province points there is the best service to Montreal via the "Ocean Limited" and "Maritime Express."

From Bonaventure Station, Montreal, the famous "Continental Limited" leaves daily at 9:00 p. m., for Ottawa, North Bay, Cochrane and Vancouver. This is the finest through Transcontinental Service, the equipment of these Canadian National trains being of the most modern standard.

Ticket Agents of the Canadian National Railways will afford enquirers all the detailed information regarding these services. Enquiries addressed to the General Passenger Department, Montreal, will be promptly replied to, and booklets describing the territory will be mailed.

IN DELVILLE WOOD. South African War Memorial Will Be Erected.

London, July 27.—(By Mail)—A year ago a meeting was held in London at which the Prince of Wales presided. General Smuts and other cabinet ministers of the Union of South Africa attended, and a committee was formed to arrange for a suitable memorial in Delville Wood, the place which, of the battlefields of France and Flanders, is the one most associated with the troops from South Africa.

Delville Wood was bought by the government of the Union of South Africa, but the cost of restoring the surroundings and of erecting a memorial is being met by voluntary contributions, and about £25,000 will be required for that purpose.

TAKES RECORD POISON DOSE. Woman Swallows 75 Grains of Bichloride—May Be Saved.

New York, July 27.—Mistaking her doctor's orders, Mrs. Bridget Romie, forty-four years old, of 401 East Fourteenth street, swallowed eighteen bichloride of mercury tablets containing seventy-five grains of the poison at her home.

The usual dose, the largest ever known by physicians of Bellevue Hospital to have been taken by one person, together with the prompt action of the ambulance surgeon in administering antidotes, led the doctors to believe they might be able to save the woman's life.

DARWINIAN THEORY AND CHRISTIANITY

Bishop Welldon, Dean of Durham, Gives Address on Missing Link.

London, July 26.—(By Mail)—Bishop Welldon, the Dean of Durham, discussing "Modernism" in an address to the Victorian Institute at the Central Buildings, Westminster, yesterday, said the survival of the fittest as an article of the Darwinian faith was the antithesis to the Christian benediction to the poor, the humble, the suffering, and the afflicted.

It was not a moral doctrine at all, for it seemed the triumph of the strong, the suppression of the weak, the worship of the super-man or the super-nation—that worship which had made Germany the curse of the world.

Nietzsche in his wildest hours sinned only by applying the Darwinian theory to international life. Today the civilized nations of the world exhibited a reaction towards Christian morals.

The Washington Conference and the League of Nations were a rebuke to the theory of the mailed fist. By a strong paradox the triumph of Christ's moral law in international life was beginning when it seemed the triumph of the strong, the suppression of the weak, the worship of the super-man or the super-nation—that worship which had made Germany the curse of the world.

But what was to be said now, when the world of science had been lately called to reconstruct its doctrine of man's origin and history on the strength of one decayed tooth which had come to light in the wilds of the North American Continent? Critics of the Bible were disposed to acquiesce in comparatively slight evidence for a science theory but demand unreasonably strong evidence for the story of the Gospel.

THE NATIONAL WAY ACROSS CANADA. Canadian National Rail Services are the Acme of Travel Comfort.

From the Atlantic Provinces to the West and to the Pacific, the ideal rail route is via Canadian National—"The National Way."

Whether on business or on pleasure bound the traveler has the advantages of a through rail service that is unequalled for excellence. The finest equipment of all steel trains is furnished and the most modern of standard sleepers, compartment cars, and modern diners.

The "National Way" is also the finest scenic route, and by reason of its construction furnishes the smoothest and most comfortable journey.

From the Maritime Province points there is the best service to Montreal via the "Ocean Limited" and "Maritime Express."

From Bonaventure Station, Montreal, the famous "Continental Limited" leaves daily at 9:00 p. m., for Ottawa, North Bay, Cochrane and Vancouver. This is the finest through Transcontinental Service, the equipment of these Canadian National trains being of the most modern standard.

Ticket Agents of the Canadian National Railways will afford enquirers all the detailed information regarding these services. Enquiries addressed to the General Passenger Department, Montreal, will be promptly replied to, and booklets describing the territory will be mailed.

IN DELVILLE WOOD. South African War Memorial Will Be Erected.

London, July 27.—(By Mail)—A year ago a meeting was held in London at which the Prince of Wales presided. General Smuts and other cabinet ministers of the Union of South Africa attended, and a committee was formed to arrange for a suitable memorial in Delville Wood, the place which, of the battlefields of France and Flanders, is the one most associated with the troops from South Africa.

Delville Wood was bought by the government of the Union of South Africa, but the cost of restoring the surroundings and of erecting a memorial is being met by voluntary contributions, and about £25,000 will be required for that purpose.

TAKES RECORD POISON DOSE. Woman Swallows 75 Grains of Bichloride—May Be Saved.

New York, July 27.—Mistaking her doctor's orders, Mrs. Bridget Romie, forty-four years old, of 401 East Fourteenth street, swallowed eighteen bichloride of mercury tablets containing seventy-five grains of the poison at her home.

The usual dose, the largest ever known by physicians of Bellevue Hospital to have been taken by one person, together with the prompt action of the ambulance surgeon in administering antidotes, led the doctors to believe they might be able to save the woman's life.

Neighbors, who heard Mrs. Romie groaning, telephoned for an ambulance. After Dr. McCaslan of Bellevue Hospital had given Mrs. Romie emetics and applied a stomach pump, she told him a

BRITISH RAILWAYS GET £2,000,000 OFF THEIR TAX BILLS. London, July 26.—The railway companies in Great Britain have secured a remarkable bargain from the rating authorities. Pleading serious losses of revenue, they persuaded the national county assessment committees to make large reductions in the sums demanded from them for taxes.

Each parish through which a railroad passes levies tax rates upon the company on the basis of the assessment, which is broadly determined by the revenue of the company.

The reductions granted possibly average twenty-five per cent, representing an aggregate saving to the railway companies of more than £2,000,000 a year.

HISTORY AND DIPLOMACY. Foundation of Knowledge Necessary in Governing.

London, July 27.—(By Mail)—The annual dinner of the Royal Historical Society was held last evening at the Holborn Restaurant, Hon. J. W. Fortescue,

president of the society, occupying the chair. Baron E. Palmstierna, the Swedish minister, was the guest of the evening in connection with the publication by the society of the first volume, edited by Mr. Chance and devoted to Sweden, of a diplomatic series of instructions to ambassadors and ministers abroad, the period dealt with being the early part of the eighteenth century.

The president said that there was one matter in which the government was not discharging its duties, and that was the teaching of its diplomatic officers in the history and traditions of their profession. The society had taken upon itself to make good this deficiency.

The Swedish minister said that intimate relations between historians and diplomatists were most necessary. Without a solid foundation of knowledge it was impossible to govern or advise.

Sir Charles Oman, M.P., in responding to the toast of the society, said that the membership, which was seven hundred in 1900, had now increased to 978.

"DRY GERMANY" CAMPAIGN; VOLSTEAD LAW AS MODEL. Darmstadt, July 27.—(Associated Press).—The opening gun of a campaign for a "dry Germany" has been fired here by the "Committee for the Introduction of Prohibition in Germany."

This committee is headed by Dr. Strecker, former minister of education for Hesse. It comprises numerous academic, political and labor leaders and professional men and women from all sections of Germany.

The organization proposes to pursue a campaign for the purpose of enlightening the German people on the nature of the Volstead act, urging the adoption of a similar law in Germany. It will range "straw votes" in various cities with the object of sounding public sentiment.

Donald, two-year-old son of Mrs. Edward Simon, 96 Rockland road, drank iodine last night about 8:30 and had to be taken to the hospital for treatment. Examination divulged that his condition was not serious.

The Evening Times and Star

ST. JOHN, N. B., JULY 27, 1922. The St. John Evening Times is published at 27 and 29 Canterbury Street, every evening (Sunday excepted) by The St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act...

THE VOCATIONAL SCHOOL.

The plea that St. John should go slowly in the matter of vocational training has been heard from one or two individuals ever since the matter came up here, following the adoption by the legislature of the measure providing for vocational classes and schools. When traced back the objection is found to be confined to the inspiration of one or two individuals. It would be very unfortunate for St. John if their views should prevail over those of the vocational committee, Supt. Bridges, and the long list of those whose views are quoted in the Rutherford report. The city has gone slowly a long time. It should develop a little speed in this particular direction. And since some opposition may develop it would be well for public bodies which are already on record in support of vocational training to make their voices heard. The issue is very clear. Within a year or two St. John must have another large school building. Should it assume the whole cost itself and erect one that would be of no benefit to the great number of pupils who need vocational training; or should it erect a vocational high school, and have the government pay 25 per cent of the cost of the building, 30 per cent of the cost of equipment and 60 per cent of the salaries of instructors? Such a school would serve two purposes. It would be partly cultural, like the present schools, and it would also provide for vocational training. It would also provide for evening classes. It would be a recognition of the rights of the great majority of children, who are going out into industry and not on into the professions. To hesitate or delay now would be an act of folly the citizens should not for one moment consider, but if they want action they should say so and heartily support the vocational committee.

COAL AND HYDRO.

The relation of hydro to the fuel problem is a frequent subject of reference in the Toronto Globe, which would like to see the electrification of railways in Ontario on a large scale, power to be secured by hydro development. The present situation in the United States prompts the Globe to say: "Whenever the people of this Province feel a little doubtful about their investment in plants for the generation of electricity by water power, and wonder whether they have not overplayed the demand, they can find consolation and renewed faith in the public power projects in the press of the United States. The coal strike has brought home to our neighbors as nothing else could have done that they are guilty of an economic crime in failing to utilize sources of power that are perpetual, while using for power generation coal measures that are not only capable of depletion, but that cost more to operate as fuel is lifted from the lower depths after the exhaustion of those nearer the surface." The more hydro is developed in Canada, New Brunswick included, the less drain there will be on coal resources, and the less dependent the people will be upon good relations between mine owners and miners. Turning to the United States again, the Buffalo News says: "The output of the electrical industry in 1921 totaled 45,100,000,000 k. w. h., of which 26,000,000,000 k. w. h. of energy was derived from fuel powers. These are the figures of the National Electric Association. Here is a record of criminal wastefulness. With water powers of inexhaustible energy all about us, we continue to draw largely on our limited fuel resources for electrical power. In this connection, the announcement of the Pennsylvania Railroad that it intends to extend the electrification of its system is highly interesting. However, it will not help matters unless the railroad uses hydro-electric power for its operations. The roads of Switzerland, France, Sweden and Italy are in process of electrification, and that is the power they will employ. To draw on the coal mines for power is simply to enlarge the present spendthrift policy—to make greater inroads than ever on the diminishing coal deposits." As to the situation in Ontario and Quebec, the Toronto Globe says: "In our waterfalls we Canadians possess a great national asset that will become increasingly valuable as the population increases, and that will eventually make the region within easy power transmission range of the Niagara and St. Lawrence systems of North America." We in New Brunswick have great reason to rejoice in the hydro development policy of the Foster government. We have at least made a beginning. With cheap power and our seaboard position we, too, may hope for great industrial expansion.

MORE BRITISH LOANS TO THE DOMINIONS; MORE TO FOREIGN LANDS

London, July 27.—(Canadian Press)—Replying to a question in the House of Commons yesterday, Sir P. L. Lloyd-Greame, assistant under secretary of state for foreign affairs, said it had been computed that during the first six months of 1922 foreign governments had borrowed from Great Britain only thirteen million pounds, compared with forty-one million pounds by the governments within the empire.

NEW YORK'S EXAMPLE.

The Moncton Transcript observes that the report of the New York Health Department for 1921 affords abundant evidence of the importance of public health work, and might be studied with profit by the critics of Hon. Dr. Roberts' policies. To sustain its views the Transcript says: "In 1896 New York city had a death rate of 20 in every 1,000 of the population. As a consequence of public health work the rate has been steadily reduced, and in 1921 it was only 11 in every 1,000. Fewer people died in New York in 1921, with a population of nearly 6,000,000, than died in the New York of 1896, with a population of 3,272,000. Even more impressive are the statistics of infant mortality. At the beginning of the century New York's infant death rate was 241 to the 1,000. In 1921 it had been reduced to 71 to the 1,000 said to be the lowest infant death rate for any large city. What it means is that New York City is now saving more than 20,000 babies each year."

THE PROPAGANDISTS.

Mr. J. M. Wainwright, assistant secretary of war in the United States, speaking at Columbus University recently, made some observations which indicate some of the difficulties the government of that country has to contend with at the present time. We quote: "Organized enemies, often led and financed by aliens, who counsel affiliation with the forces which have made a hell of Russia, are trying to destroy the American Republic. These sinister forces aim to wipe out the army and navy and turn America into a warring nation. The country's most respected seats of learning harbor the active agents and unwitting tools of this propaganda. These agencies are most effective when they operate among the unthinking people, and they are undoubtedly responsible for much of the trouble between capital and labor, which is today the most serious menace to peace and prosperity. The forces of discord produce a situation which Mr. Wainwright thus describes: "Where there should be mutual confidence, respect and reciprocity, there is continual agitation and fomentation of distrust, which is like a smoldering fire springing up when least expected into flames." The worst feature of this situation is its effect upon the interests of steady-going people who after all are the great majority. They find themselves compelled to suffer because of disagreements which ought not to occur, and yet have no redress. Nor has anyone yet discovered a working remedy. Co-operation has proved effective where it has been tried, but all concerned are not prepared to try it, and the gentry to whom Mr. Wainwright refers have no use for it, since they represent an autocracy more oppressive than that of the czar. In the United States the great unmet need is a mass of allens is a factor we do not have in Canada, and conditions in this country are far more satisfactory in every standpoint."

ANOTHER WITNESS HEARD.

Word came from the west recently which seemed to class Hon. Howard Ferguson, provincial leader of the Ontario Conservative party as an advocate of the British Columbia or Quebec liquor system. On his return to Toronto, Mr. Ferguson lost no time in stating his real position. He said: "Neither in the West nor in the East anyone have I spoken against the Ontario Temperance Act. The people have expressed the sentiment for which they stand and we are prepared to stand by that sentiment and give it effect in legislation. But I have criticized the method of enforcing the law." Mr. Ferguson, the report from Toronto says, made it clear that he had not objected to the provisions of the O. T. A., that he had not authorized or given the interview in Victoria, B. C., credited to him, and that at no time had he suggested a new law to replace the O. T. A. Any people who want a change in the Ontario law will get no comfort from Hon. Mr. Ferguson.

FRUITS OF PROHIBITION.

(Spokane, Wash., Chronicle). Spokane's experience in eight years of prohibition shows that wife beating has practically ceased. A father arrested for neglect of children would be a curiosity now. There is neither a slum district nor a red light district. An unusually cold winter which blocked public work and swelled unemployment has seen little suffering from either cold or hunger. Ragged women or children are a rarity. Bank deposits, which were reported under \$22,000,000 in 1913 now exceed \$46,000,000. More than 11,000 automobiles are in use in this city, most of them owned by working men. Sheriff Clarence Long, speaking as common at the present time as it was under the open saloon and the free liquor traffic, said: "No! Not! There's no comparison at all."

Burglars Opened Eighty Vaults.

Spokane, Wash., July 27.—Burglars broke open eighty vaults on six floors of the Paulsen building here on Saturday night and stole in excess of \$100,000, so it was learned this week. English boys between the ages of fifteen and eighteen are wanted in South Australia for farmer apprentices. They are to be paid four shillings a week pocket money, the remainder of their earnings to be placed to each lad's credit in the state treasury at four and one-half per cent interest, the entire sum being turned over to him at twenty-one.

"TWENTY YEARS AGO."

(William Willing in the Toronto Globe). I've wandered in the village, Tom; I've sat beneath the tree. Upon the school-house playing-ground which sheltered you and me. But none were there to greet me, Tom, and few to thank me for to know. That played with you upon the green some twenty years ago. The grass is just as green, dear Tom; barefooted boys at play were sporting just as we did then with spirits just as gay. But the master sleeps upon the hill, which, coated o'er with snow, afforded us a sliding place just twenty years ago. The river's running just as still, the willows on its side are larger than they were, dear Tom; the stream appears less wide. The grape-vine swing is ruined now where once we played the beau, and swung our sweethearts "pretty girls," just twenty years ago. The spring that bubbled 'neath the hill close by the spreading beech is very low, 'twas once so high that we could almost reach. And kneeling down to get a drink, dear Tom, I started so To see how much that I was changed since twenty years ago. Nearby the spring, upon the elm, you know I cut your name. Your initials were cut beneath it, Tom, and you did mine the same. Some heartless wretch had peeled the bark, 'twas dying sure, but slow. Just as the one whose name was cut died twenty years ago. My eyelids had been dry, Tom, but tears came to my eyes to see. I thought of her I loved so well, those early broken ties. I visited the old churchyard and took some flowers to strew Upon the graves of those we loved some twenty years ago.

Some now are in the churchyard laid.

Some now are in the churchyard laid, Some sleep beneath the sea, But few are left of our old class, excepting you and me. And when our time shall come, dear Tom, and we are called to go, I hope they'll lay us where we played just twenty years ago.

LIGHTER VEIN.

Describing it. When they speak of the soft coal situation they're describing the coal situation.—Washington Post. Precocious. Burrows—That for the \$5, old chap but what's this pamphlet you're handed me? Wye—I always give that with a loan it tells how to get them the memory.—Boston Transcript. Why He Wished to Go Back. An Austrian who had gone suddenly insane in 1918 and had been confined in an asylum near Vienna, blissfully ignorant of the war and the conditions, was recently discharged as cured. To celebrate he hired a cab and had himself driven to the Prater. Upon arrival the cabman demanded eighteen thousand marks in cash. The driver, who was recently discharged as cured, said tremblingly, "I've only a twenty kronen piece with me." The driver stared at the man, but answered honestly enough, "That is all right. You get 18,000 kronen in change." The cured man was terrified. "Here, take the money," said he, "and drive me back to the asylum."

WHY A VACATION?

(New York Times). Vacation being what it is, few vacationists trouble their heads to ask about the reasons for it. A fortnight, a week, sometimes a single night, in the new atmosphere brings forth a new man as if by magic. Thoughts and cares that have become habitual slip away and are submerged. Of course there is no new creation, only a re-creation of something too long smothered under the subconscious. And since the ways of civilization are only a veneer upon the primal man, the readiest re-creation is that which comes from the hills and the sea. Of many varied possibilities to which each of us is heir, the intense specialisation of urban life has submerged all but one, and that the most recently acquired. Life in the country quite literally vacates it, replacing it by more primitive and stronger currents of being. If such benefits come to those who are well housed, well fed and profitably employed in the city, what must be the effect of the temperate, the crisp and alluring victims of the cruelties and imperfections of civilization? An appeal from the Children's Aid Society presents the case graphically. In various instances, evolved through fifty years of intelligent and fruitful experiment, the society cares not only for the boys and girls whose homes are in suffocating cities, but for the convalescent poor, for invalid wives, especially for ailing mothers with little children. What for the prosperous worker is merely a vacation of the urban habit psychology becomes for them, quite literally, a physical re-creation as well.

A CALL TO BATTLE.

(Quebec Chronicle). The Farmer has possession now of Manitoba, Alberta and Ontario; Saskatchewan is his whenever he chooses to stretch forth his hand, and his influence is making headway in the maritime provinces and even in Quebec. Provided no effective opposition develops, the day is assuredly not far distant when he will control every legislature in the Dominion whether federal or provincial. The fight for national unity and national rather than group government must be organized promptly. The hour calls for patriotic and enlightened leadership, for a definite re-orientation of political affiliations; but whether the old parties can break away from a petty game of "ins and outs," or whether public men recognize the gravity of the situation with sufficient clearness is unfortunately doubtful. The message of Manitoba cannot be mistaken, and those who will not read it may rue their mistake hereafter.

WOLFVILLE GOLF CLUB.

The new club-house of the Ken-Wo Golf Club in Wolfville was opened for the first time Friday afternoon, when tea was served to the members and guests of the club. A large number were present from Kenville and Wolfville and the advantages of the club house were appreciated by all. The club house is well designed for the present hill top in a grove of spruce trees. From the verandah can be seen the wide sweep of mountains and valley in a panorama which the eye can never tire. A handsome silver cup has been presented to the club by the Hon. R. L. Borden, which will be competed for each year, the winner to have it in his possession for the year. PORTUMNA CASTLE. (Montreal Gazette). Portumna Castle in Ireland, which has been "in the wars," is the Irish home of Viscount Lascelles, the king's son-in-

A CANADIAN SCULPTOR.

(Halifax Herald). The Canadian press has had little or nothing to say in regard to a young man of this country who is winning worldwide eminence as a sculptor. His name is R. Tait Mackenzie, and he is a native of the province of Ontario. He is a graduate in medicine of McGill University. Taking on the duty of athletic instructor to McGill students he also applied himself to development of his talents as a sculptor, making a specialty of modelling young men in athletic pursuits. His first venture was "The Sprinter," representing a young man getting ready to run. Later he transferred his activities to the United States, becoming physical instructor at the University of Pennsylvania; and contemporaneously continuing with marked success his work in art. He has been producing works of great merit, among these being a statue placed in the Pennsylvania campus or quadrangle at Philadelphia, "The Boy Scouts," a statue of Captain Gay Drummond, of Montreal, which is being placed in the National Museum at Ottawa, and "The Onslaught," which is shown in the Museum of Fine Arts at Montreal. Last year he presented a one-man exhibition of his works in London, England, with the result that he received flattering and deserved commendation from the press of that great city; and in addition was entrusted with a £28,000 commission to design and execute a war memorial for the University of Cambridge, the town of Cambridge and Cambridgehire. The figure he has modelled for this purpose represents the heroism of a young soldier, and is described as an achievement of high merit by British and United States newspapers and magazines. His fame is fittingly praised abroad than in his native land. Canada has reason to be proud of such an exponent of art. The New York Independent publishes a picture of "The Homecoming," accompanied by the following touching lines of Charles Wharton Stork: Fresh from the hawthorn-scented countryside That Rupert Brooke painted and loved so well, You plunged into the lurid surge of hell, Smiling grim, with the ancestral pride Of the pure Anglican stock. You steamed Of swirling rout, pressed on where thousands fell, Clove through the bayonet wave and quelled the shell. In its red crater, till the mad war died. Thus you come back; your step is no less light. Your glance is frank and good to look upon, Though graver. Buoyant in your clean hide You wear the honors of a maiden knight Like rose-leaves. May your tested soul fare on To nobler victories in a world of peace.

THE RUSSIAN FAMINE.

(Toronto Globe). Dr. Nansen, the famous Arctic explorer, tells the Council of the League of Nations that a recurrence of the Russian famine in 1922 is inevitable, unless outside powers provide enough horses, agricultural machinery and seed grain to ensure a large increase of the 1923 harvest over that of the year. He says that more than two million people died in the famine region of starvation alone, and millions more by the joint action of starvation and disease. At least twelve millions, who have so far survived, are reduced in strength and in productive capacity. Dr. Nansen believes that Russian recovery is necessary for European reconstruction. Some persons have taken the view that there can be no revival until Bolshevism is destroyed, and that Russia can be started into getting rid of the Bolshevists. It is a heartless view, because it involves the punishment of innocent millions, including children, on the basis of the guilt of a few. It is also bad policy, because it is in the highest degree improbable that Bolshevism can be abolished in that way. It is far more likely that Bolshevism would be undermined by the outside world going to the assistance of the peasantry, and thus cultivating their friendship. Statements dealing with the affairs of Europe ought to take a lesson from nature and Providence. The sun shines and the rain falls upon the battlefield and the ravaged land, and the normal conditions of growth are resumed. It is only by a similar process, by giving free play to the constructive and benevolent impulses of humanity, that Europe can be restored.

KEEP YOUR LAWN ATTRACTIVE

People admire a well-kept lawn and it's all in the trimming—it is not a difficult job to keep your lawn well trimmed if you have the proper tools. One of our Federal or Forest Glen Mowers will prove a wonderful help because they run so easily and the well tempered blades cut the grass so evenly. A good lawn rake, turf edger and garden barrow completes the outfit. We can supply these needs at moderate prices. Phone Main 2540 McAVITY'S 11-17 King Street

How Do You Get Along Without a Wheel?

How much time and money does it cost you to get around? The better, the quicker, the cheaper way is to own a wheel. Most fellows prefer the CLEVELAND which has the graceful lines; strong, light construction, rides easily, has the Hercules Conster Brake, and gives the long, faithful service which means Best Value. Come in and see the Cleveland, anyway. EMERSON & FISHER, Ltd. Since 1859 St. John, N. B.

THE EVENING TIMES AND STAR, ST. JOHN, N. B., THURSDAY, JULY 27, 1922

TWO DROWNED IN CARLETON COUNTY

Woodstock, July 26.—A sad drowning accident occurred this afternoon near Hayden's sawmill. Michael Hannigan, a lad about fourteen years of age, while swimming with two other boys, was diving from a boom and it is supposed was seized with heart failure, and after diving did not come to the surface. His young companions ran to Hayden's mill and gave the alarm. Men were soon at the scene. Ralph Hayden plunged into the water and found the body, but was unable to bring it to the surface. His brother, Willard Hayden, immediately went into the water and succeeded in bringing the body to the shore.

Doctor Rankine, Rev. F. M. Lockary, Chief Kelly and others worked some time in an effort to start respiration, but all to no avail.

The body of Cecil Craig, who was drowned near Simons on Saturday, has not yet been recovered. Groping has been carried on almost continuously by a large number of men. The young man was swimming in a pair of horses across the river and in some way was thrown into the water in view of several persons who were on the shore, but who were unable to render assistance.

RECENT WEDDINGS

Murray-Lewis
Woodstock, July 26.—At the home of Mr. and Mrs. Frederick Cowan this afternoon, Sarah Isabel Lewis and Roland James Murray, Murray Road, Westmorland county, were married by the Rev. H. F. Rigby. The bride wore her traveling suit of navy point twill with Gage hat to match, and carried a bouquet of American Beauty roses. Miss Doris Cowan, the bride's niece, in a white organdy dress and hat to match, carrying a basket of sweet peas and carnations, acted as flower girl. The bride was for a few years a teacher on the staff of the Fisher Memorial school, but recently has been on the staff of the Comptroller General's department of the provincial government. The groom went overseas in 1916, serving in the medical corps and is on the staff of the Fredericton schools. The happy couple left on a trip to Prince Edward Island, after which they will reside in Fredericton.

Mitchell-Chittick

A quiet wedding took place yesterday afternoon in St. George's church, west side, when Miss Ethel May Chittick, daughter of Mr. and Mrs. Thomas Chittick, of the west side, and Parker D. Mitchell, son of Mr. and Mrs. J. D. Mitchell, were united in marriage by the Rev. W. H. Sampson. The bride, who was unattended, was given away by

her father. She wore a navy blue traveling suit, with a hat to match and carried a bouquet of roses. After the ceremony the bridal party returned to the home of the bride's parents to a wedding reception. Later they left on a honeymoon for an automobile tour of Maine and New Brunswick, and on their return will make their home at West St. John.

The bride received many beautiful and useful presents from her large circle of friends, including a grey squirrel scarf from the groom.

Northrup-Sorensen

A pretty wedding was solemnized by Rev. Dr. David Hutchinson in Queen street last evening when he united in marriage Miss Sodie Sorensen and Lee Northrup. Only immediate relatives and a few invited friends witnessed the ceremony, which was followed by a wedding supper. Mr. and Mrs. Northrup will reside in the city.

Belyea-Gregory

A quiet wedding was solemnized on Wednesday at the Methodist parsonage, Fairville, by the Rev. J. M. Wright, when Miss Nettie Gregory, daughter of Andrew Gregory, Lancaster Heights, became the bride of William H. Belyea, West St. John. The couple were attended by Mr. and Mrs. Harry C. Coughle, Fairville. The best wishes of Mr. and Mrs. Belyea's many friends will be extended to the happy couple.

RECENT DEATHS

H. H. Schaefer

Word was received last night of the sudden death of Harry H. Schaefer, for many years one of the best known officials on the old Intercolonial railway system, and for a long time a resident of St. John. Mr. Schaefer died suddenly at his summer home at Brule, a popular resort, four miles east of Shediac. The cause of death was heart failure.

Mr. Schaefer was born in the city of Cologne, on the German Rhine, about seventy years ago. He came to New Brunswick when a young man and became a telegrapher on the Intercolonial several years after that system absorbed the original European and North American railway, which was built from St. John to Shediac, with a western extension later to Bangor. About forty years ago he was appointed station master at Point du Chene and held that post for many years.

About twenty years ago he was promoted to the position of district freight agent for the Intercolonial, with headquarters in St. John. He made many friends here and was generally popular with railroad men and the public. Ten years ago he retired from the government railroad service on the pension, and made his home in Shediac. Not content with being a man of leisure, he again entered the railroad service—this time with the Dominion Atlantic. For the past seven years he had been stationed at Kentville during the apple shipping season, being in charge of the fruit transportation in the Annapolis Valley. He was also very popular in Kentville.

When the world war started, Mr. Schaefer, although of German birth was given charge of important transportation supervision, and did his work thoroughly. He became a British subject many years ago and there was no more loyal Canadian than he. One of his sons, Fritz, served in a Canadian contingent during the war.

Mr. Schaefer is survived by his wife and three sons. The funeral will take place at St. Andrew's church, Shediac, on Friday afternoon, the Rev. W. Tom-

William Clarkin

The death occurred suddenly at McAdam Junction on Tuesday of William Clarkin, an employee of the C. P. R. He is survived by his wife and one daughter, Margaret, of McAdam; two brothers, Phillip and James, of this city; and two sisters, Mrs. Mary Hogan and Miss Catherine Clarkin of this city.

James McHale

The death occurred at the Halifax Infirmary on Tuesday of James McHale, aged sixty-five, following an operation. He was a native of St. John, for years in the employ of the International Steamship Company, and went to Halifax in the employ of the Tramways Co. several years ago. Mr. McHale, who was a charter member of the C. M. B. A., leaves his wife and two sons, one of whom, Gerald, lives in Moncton.

FAIRVILLE CHURCH PICNIC ENJOYED

One of the most successful picnics ever held by the Sunday school of the Church of the Good Shepherd, Fairville, was the unanimous verdict last evening after this year's annual outing at Grand Bay. All expenses were cleared and everyone enjoyed the affair. Two trains were used to reach the grounds and in all about five hundred people were present during the day. A pleasing feature was the presence of the Fairville orchestra, which played several selections in the afternoon and evening. This aggregation of young men drawn from the various churches has practiced throughout the winter in the church hall and in return for this favor, they volunteered their services yesterday. The usual competitions at picnics were held and provided considerable amusement. A prettily decorated cake was won by Miss Addy Galey for guessing its weight correctly within an ounce. All the prizes for the races were generously donated by leading business firms in the city. The crowd returned to Fairville about nine o'clock well satisfied with the day's events.

Hats of BaronetteSatin

\$3.50 and \$5.00

Here's something just a little bit out of the ordinary and extremely smart and practical for early fall and late summer wear.

Mostly small sport shapes of plain or embossed baronette satin; in white or striking combinations of black and white. A few sand shades are showing, too.

Crowns are soft and brims are fashioned to turn up all the way round or just abruptly in front.

Wide fringe is used to trim many of these attractive hats. It is arranged to fall gracefully over the side and is unusual and effective.

Prices as you see are very moderate indeed and a hat of this kind will add a refreshing touch to your present wardrobe.

Showing now in Millinery Salon.

**POISON GENERATED IN LUNGS
MAY HAVE KILLED JACKSONS**

Toxicologist So Testifies in Trial of Brooklyn Man Accused of Causing Old Couple's Death.

New York, July 27—Whether cyanogen traces found in the lungs of Mr. and Mrs. Fremont M. Jackson, an aged couple whose dead bodies were found in their apartments in the Hotel Marguerite annex in Brooklyn last April, could have

been generated as the result of the decomposition of the lung tissues was the point at issue in the trial of Albert J. Bradicich before Judge Haskell and a jury in County Court, Brooklyn.

Bradich, a vermin exterminator of Brooklyn, flogged with cyanogen gas the rooms directly underneath those occupied by the Jacksons on the day when they are believed to have died. He is being tried for manslaughter in the second degree.

Alexander O. Gettler, city toxicologist, cross-examined by counsel for the defence, testified that lung tissues decomposing in the presence of sodium and potassium in the blood might possibly generate cyanogen.

FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to try a remedy for freckles with the guarantee of a reliable concern that it will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Barely is more than one ounce needed for the worst case.

Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles.

Use the Want Ad. Way

**STOMACH TORTURED? No Cause for Worry
TRY YEAST**

But Be Sure It's Ironized Yeast

You can't give your job the best that's in you, if you suffer with indigestion, dyspepsia or other distressing stomach ailments. The thing to do, if you want to feel in tip-top condition, with never a thought of stomach trouble, is to try Ironized Yeast. Simply take two tablets with each meal. In all probability you will notice highly beneficial results within the first 24 hours.

Yeast, as everyone knows, contains certain elements which have a wonderful effect on the functioning of our stomachs, and in toning up the system. But Ironized Yeast embodies the new scientific process of ironization which makes yeast just doubly effective. Forgets stomach troubles and keep yourself 100 per cent. efficient. Get Ironized Yeast today. To try it free simply mail postcard for famous 8-Day Test. Address Harold F. Ritchie & Co., Ltd., Dept. 88, Toronto. Ironized Yeast is recommended and guaranteed by all good dealers.

There is not a summer passes but that thousands of men, women and children are attacked by summer complaints such as diarrhoea, dysentery, colic, cramps and plans in the stomach, cholera, cholera morbus, cholera infantum, etc.

In looking for relief you should not delay in getting a bottle of Dr. Fowler's Extract of Wild Strawberry, a remedy that has been on the market for the past 77 years, and has stood the test of time.

Mrs. Geo. Chapman, Sudbury, Ont., writes:—"I am the mother of five children and I must say they are seldom sick or in need of medicine. They are, however, sometimes troubled with summer complaint, diarrhoea, and such like, but I always find there is no cause for worry as I just give them two or three doses, no more, of Dr. Fowler's Extract of Wild Strawberry, and the trouble soon disappears. It's a remedy that all mothers should keep in the home for the children."

"Dr. Fowler's" is 50c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

**LABOR CANDIDATE
REVERSES MAJORITY
AND WINS SEAT**

(Canadian Press Cable.)
London, July 26—Mardy Jones, a Labor candidate, was returned to parliament as the result of the election in Pontypridd, it was announced today. Majority was 4,080 over the present Coalition incumbent, T. A. Lewis, who in 1918 defeated the Labor candidate by a majority of 3,170.

CONVICT FOUR OF PIRACY.

French Court Sentences Georgians to Ten Years in Prison.

Aix-en-Provence, France, July 27—Four of the eight citizens of the Georgian Republic who have been on trial here for piracy on the high seas were found guilty and sentenced to ten years in prison. Three of the men were acquitted, while the case against the other was dismissed, as he is under age.

The act of piracy for which the men were on trial occurred on board the French steamer Soufrah, bound from Batum for Trebizond, on May 6, 1920. After overpowering the captain and crew of the vessel, the band, according to the captain, searched the passengers and the cabins, placing jewels and other valuables in sacks. The captain later is said to have been forced to lower boats to take the pirates and their booty ashore.

**The Case for
Daily Newspaper Advertising**

The question has been asked: What are the Advantages of Daily Newspaper Advertising by contrast with all other forms of advertising?

In setting out these advantages, Daily Newspaper Publishers do not discount supplementary forms of publicity. But the area of Canada and its distribution of population are such, that Daily Newspaper Advertising has been and must be the basis of all the pointedly successful Canadian advertising campaigns.

1. UNIVERSAL APPEAL.

- (a) Enters the home intimately.
The newspaper enters the home and has a more intimate appeal to all members of the family than any other reading matter.
- (b) Reaches all classes.
The newspaper appeals to all literate members of the community, without distinction of race, class, creed, sex, income or occupation.
- (c) Thorough distribution.
The newspaper finds its readers, whether they are at home or not; if they are not at home, it reaches them when travelling, on trains and cars, in hotels, clubs and libraries.
- (d) Reaches the business man.
The newspaper is to the business executive the most necessary medium of information.
- (e) Minimum duplication.
Because of the completeness of the service of each newspaper, there is a minimum of duplication between newspapers.

2. IMMEDIATE APPEARANCE.

- (a) Impulse to immediate action.
Because the newspaper deals with the immediate fact and the opinion of the day, its columns give an impulse to immediate action; results are often felt even before the presses are silent.
- (b) Quick insertion.
Through the newspaper the reader may be reached within a few hours after copy is prepared.
- (c) Quick change.
Advertisements in a newspaper may be changed or even cancelled up to a few hours before going to press.
- (d) Quick repetition.
A newspaper advertisement which proves successful can be repeated promptly before the conditions favoring success have altered.
- (e) Timely copy.
Newspaper copy can be adapted to the day on which it appears, or to current events, and can avoid untimely references.

3. FREQUENCY OF APPEARANCE.

- (a) The choice of the day.
The newspaper advertiser has his choice of the precise day of the week most suitable to his advertising.

- (b) Intensive campaigns.
Newspaper advertising permits any intensity desired, up to daily insertions.
- (c) Serial campaigns.
In the newspaper it is possible to use serial copy with any desired interval between insertions.
- (d) Cumulative effect.
A newspaper campaign may be planned to obtain a maximum cumulative effect, through the flexibility of space and intervals.

4. LOCALIZED CIRCULATION.

- (a) Close to place of purchase.
The reader of a newspaper advertisement can go directly to the place where the article advertised is on sale.
- (b) Spotty distribution.
The advertiser with spotty distribution can, by using newspapers, advertise exclusively where his goods are on sale.
- (c) Concentrated territory.
The newspaper offers the maximum concentration of circulation in any community.
- (d) Strengthening weak territory.
The newspaper may be used to strengthen weak spots in the distribution with the exact degree of force desired.
- (e) Progressive zone advertising.
Newspaper advertising may be extended progressively by zones, hand-in-hand with and aiding the extension of distribution.
- (f) Seasonable by territory.
Seasonable variations in the demand in different territories may be taken into account in newspaper advertising.
- (g) Price variations.
When necessary, different prices may be quoted in different territories through newspaper advertising.
- (h) Localized copy.
Newspaper copy and illustrations may be made to meet precisely, and take advantage of, local conditions.
- (i) Traceability.
The effect of newspaper advertising may be traced by observing the course of sales in each community.
- (j) Try-out and test campaigns.
At low cost, tests may be made of the medium, the product, the selling plan or the copy approach at typical points before embarking on a costly general campaign.

The Daily Newspaper is the medium of the moment—the axis of opportunity; flexible, powerful and instantaneous in its ability to create Sales.

Advice as to the best ways and means of using it will be given to those who inquire of us; or, consult any recognized advertising agency—a list supplied on request.

Genuine

ASPIRIN

WARNING! Say "Bayer" when you buy Aspirin.

Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds	Headache	Rheumatism
Toothache	Neuralgia	Neuritis
Earache	Lumbago	Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacturers of Monoaceticester Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

**Miss M. Bayington
Tells How Cuticura
Healed Her Scalp**

"I was troubled with a scalp trouble for several weeks. It broke out in pimples and my hair fell out. My head itched and burned a great deal. I tried different remedies without success. I saw Cuticura Soap and Ointment advertised and sent for a free sample which helped me. I purchased more, and after using one cake of Cuticura Soap and one box of Cuticura Ointment I was completely healed." (Signed) Miss Marian Bayington, Prentiss, Maine, Feb. 27, 1921.

Keep your skin clear by using Cuticura Soap and Ointment for every-day toilet purposes and Cuticura Talcum to powder and perfume. Bathe with Cuticura Soap and hot water. Before bathing, touch pimples and itching, if any, with Cuticura Ointment. Dry and dust lightly with Cuticura Talcum, a powder of fascinating fragrance.

Sample Free by Mail. Address: "Cuticura, Dept. 144, 28 Post St., W. Montreal." Sold everywhere. See the Ointment and the Talcum. **DO NOT** Cuticura Soap shaves without soap.

The Secret of Good Health

Assist Nature back to normal action

When Nature requires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well, headache, biliousness, constipation, a general sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

FEELING FINE

—A few days ago though, I felt pretty miserable—kind of tired and drowsy. I must have been very much run down, until someone recommended

Dr. Wilson's Herbine Bitters

An old-fashioned, natural preparation made from Dandelion, Mandrake, Burdock and other purifying herbs, which tend to relieve Dyspepsia, Jaundice, Liver Complaints and Constipation. It purifies, enriches the Blood and builds up the whole system.

Try a bottle and get back that peppy feeling you used to have. 50c. a bottle. Family size four times as large, \$1.00. Try a bottle.

THE BRAYLEY DRUG CO., LIMITED
ST. JOHN, N. B.

GOVERNMENT OF NEW ZEALAND AIDS THE NEWLY-WEDS

Charles H. Poole, M. P., a forcible speaker on Chautauqua's Programme, Tells of His Country's Paternal System—Fifth Season of Entertainment Opens Auspiciously Here.

Chautauqua's fifth season in St. John opened yesterday with two excellent programmes and attendances which made a record for a first day's performances. The weather favored the patrons and performers and everything augured well for a successful season.

Rev. A. L. Tedford, as chairman of the guarantors, introduced the superintendent, and Mr. Schunaker having greeted the audience, spoke of Chautauqua as a great movement which was coming to be one of the finest educational forces in the two countries at the present time.

Following the address of the superintendent which had called forth warm applause, the Dunbar quartette appeared and was given an enthusiastic reception.

Tuneful numbers of bell-ringing, some delightful brass instrumental selections and remarkably good vocal items were admirably interspersed in the programme. The company was composed of Arthur Bowers, first tenor; Lawrence Mallion, second tenor; Cleo Fox, baritone, and Arthur Musch, bass.

Following the fine performance of the bell ringers, Charles H. Poole, M. P., of New Zealand, gave his address on "Social Redemption."

He said that he had spent the greater part of his time away from his native land and he had met many people who had very peculiar ideas. There were still many who thought that there were cannibals roaming over the hills of New Zealand, but he assured his hearers that it was a safe place and that they need

Put one on-- the pain is gone!

not have any fear of being eaten alive if they should take the notion to go down there. With regard to legislation he said his country was called the world's laboratory for the purpose of trying out experimental legislation.

The government of New Zealand looked after the newly-weds in a manner which no other country did. By the payment of a small sum they were given a home and by payment of a yearly amount for twenty-five years the property became their own.

In order that people in the advancing years of their lives need not have to worry for their keep in their latter days of their life, they had the old age pensions, to complete a state of domestic legislation which few countries could duplicate.

TORONTO PRISONERS BREAK FROM GUELPH

All Are Recaptured and Sentenced to Two Years in Penitentiary.

Guelph, July, 27.—Pleading guilty before Magistrate Watt to charges of breaking custody at the Ontario Reformatory, three young men—Cecil Fairbanks, George Twidale and George Moore—were all sentenced to two years' imprisonment at Portsmouth Penitentiary, Kingston, and at the expiration of their sojourn in the "pen" to return to the "Farm" to complete their present terms.

Fairbanks had been sentenced to the reformatory for a term of two years less one day, for shopbreaking; Twidale was serving twelve months' certain, and indeterminate term of twelve months, for forgery and false pretences, and Moore was under sentence for one year for motor car theft.

- And clean! A few more strokes— Your beard is gone— Vanished— Utterly— All— it

The New Improved Gillette Safety Razor

PATENTED CANADA, AUGUST 31, 1920

Use the same fine Gillette blades that you have always known, but in this razor they will give you even a better shave and last longer.

MORE CHARTERS FOR CARGOES OF LUMBER

The Wm. A. Naugler, Mary G. Duff and Eveline Will Load Again for U. S. Ports.

The shipment of lumber and laths from Nova Scotia ports to Boston, Bridgeport Conn., New York and vicinity, continues, and according to recent chartering will hold for the balance of the summer months.

Among the vessels which this firm recently secured, were the Wm. A. Naugler, Eveline Wilkie and Mary G. Duff. The last two, which are now discharging cargoes at New York, will return to Halifax to load while the William A. Naugler, which is also discharging at New York, will load her next cargo of lumber at Sheet Harbor, near Bridgeport.

EVANGELINE'S FOLKS

When Evangeline and her lover were pathetically abandoned by Longfellow, somewhere down the Atlantic Coast of the present United States, the old Acadian exile colony was lost forever for most people.

"In direct contrast to the Redbone is Evangeline's folk, about the purest follow-up of one race to be found, unless it be the inhabitants of the Kentucky and Tennessee mountains, who are as distinctly English as their great-grandparents, who are in Kent or Surry.

For Cajuns (Acadians) did not mix. But rarely, until recent years, did a Cajun girl go outside her immediate neighborhood for a mate. At about the age of 13 she was selected by some cousin, and the strain proceeded without interruption.

"Modern conditions and force of circumstances are breaking up this order of things to a certain extent, principally through industrial lines. In days of old—so very old—Cajuns lived just as did their forebears ten years after the English shipped them out of Canada and dumped them at the gates of their un-

sympathetic countrymen at New Orleans. The coast cities were founded by the fighting and city class of French; the Cajuns, dating even back of their Canadian life, were farmers, fishermen, and hunters in France. They were rural and peaceful in their taste and remained but a short time in New Orleans before moving into the wilderness. Up to 10 years ago they were just as George Cable found them 87 years ago, when he got the local color for his 'Bonaventure'."

It preserves the softness and bloom of the most delicate complexions and makes beauty more beautiful."

LEPROSY MAY BE DRIVEN FROM THE PHILIPPINES 3,900 Victims Now Under Treatment Compared With 300 When Gen. Wood Arrived. Manila, P. I., July 27.—More than 3,900 lepers out of the 5,000 in the colony on Cullion Island are now receiving treatment, 3,900 of this number taking the ethyl-ester treatment and about 300 the Mercado treatment, according to Prof. Shirley E. Roberts, vice-president of the Philippine Anti-Leprosy Society, who has just returned to Manila from Cullion, where he spent a month working among the patients.

HERO OF GREAT WAR IS VICTIM OF DRUGS

Plea Made for Man Who Was Recommended for V. C.

Windsor, July 27.—Once recommended for the Victoria Cross for bravery in battle, Valentine Kehoe, 27 years old, of Ingersoll, pleaded guilty to attempting to enter an Ouellette avenue home.

The request of his counsel, Major James Clark, under whom Kehoe served in France, that he be remanded for one week while arrangements would be made to have him placed in an institution, was granted by Magistrate Gundy.

Major Clark said Kehoe was known as "the Hun-killer" of the 13th Canadian Scottish Battalion. He was wounded severely on two occasions, and wears the Distinguished Conduct Medal. He was a sniper in the battalion, the major said, and during his three years in France had killed 70 Germans.

SOMETHING NEW IN PARIS CASE

(Continued from page 1) being lost, in evidence of that date, he said. The harvest train left St. John on the evening of August 4. He told of Humphrey coming to him saying that he had been attacked by a razor. He saw the marks on Humphrey's face but did not believe that they had been made with a razor.

Mr. Vernon here brought up again the matter of the crown refusing to pay the witness for the defence and said that he wished to show that one witness for the crown had been paid an exorbitant amount. The attorney-general had said that some of the crown witnesses had not been paid.

Mr. Vernon refused to allow the matter to be gone into at all. In answer to the attorney-general Detective Power said that Humphrey had apparently been attacked and his face had been cut.

Defence. Mr. Vernon, at this point, called the attention of the court to the fact that Phyllis Wilson and Marion Logan, whose names appeared on the indictment, had not been called. The judge ordered that they be produced for cross-examination.

Mr. Vernon expressed the opinion that documents put in evidence at the previous trials were a part of the record. "Of those trials," replied the judge, "but not of this trial so far."

Cross-Examination. Cross-examined by the attorney-general, Paris said he was not sure whether it was on August 1 or 2 he bought some sardines from Leslie Jordan. He thought that his memory had not improved since the second trial.

The attorney-general presented a check with a signature on the back, which Paris identified as his. The check was handed to the prisoner and he was asked to read it. He did so in a hesitating manner, spelling each letter out in some of the words separately. It was on the Bank of Montreal and read: "Pay to the order of John Paris five dollars, balance of wages on Westfield fire, August."

Asked if he did not say to Mrs. King's daughter that the fellow made a big mistake when he covered the body by putting the small stones on top of the big ones because they slipped off and left the side of her head and hair showing, Paris said he had no knowledge.

The court adjourned for lunch.

NEARING END OF EVIDENCE FOR THE PROSECUTION

It was intimated yesterday by the attorney-general that this, the fourth trial of John Paris, would be shorter than the preceding ones by his statement that Sergeant Detective Power would be the last witness for the prosecution. Evidence was given yesterday afternoon by John Best, Dr. H. L. Abramson, Hattie Lavigne, Detective Power and Biddiscombe and several others.

At the opening of the afternoon session a request was made by the jury that they be provided with facilities for shaving, and several members said they needed certain wearing apparel which would have to be brought from their country homes. His honor ordered Armstrong Clifford, the deputy sheriff, to bring a barber to the jury and to make arrangements to bring any clothing the jury needed from their homes.

John Best, caretaker of No. 7 shed on the west side, resumed, said he remembered the British fire on August 3, as he was one of the first to notice it. He had known the accused for two years, and saw Walter Humphrey rowing him across the river that morning. Then Paris made his way along the Strait Shore road. When he saw Humphrey and Paris together he remarked, "I wonder what chicken coop is going to get it tonight."

Dr. Abramson.
Dr. H. L. Abramson told of the post-mortem examination which he performed upon the body of Sadie McAuley on August 9. As the result of the examination he came to the conclusion that the child had been attacked and then strangled to death.

Mr. Vernon asked the witness if it were not so that such offences were committed more often by degenerates than by normal persons. Dr. Abramson said that such was the case, but that a man might commit a deed of this kind many times and still not show any signs of degeneracy on his face.

Stanley Humphrey, a west side fisherman, said he remembered the date of the fire in the British fish shed, August

8, as he had some fishing apparel destroyed in the fire. He said he saw Paris on that day.

Alexander Day, a teamster, testified that while he was working for the New Brunswick Power Company in Douglas avenue on August 2, he saw a man who looked like John Paris 200 or 300 feet from Murray & Gregory's road. He also saw two little girls there. The witness believed that the man he saw was the prisoner.

To Mr. Vernon he said Paris looked like the man he saw in Douglas avenue on the morning of August 2 shortly before noon.

Hattie Lavigne.
Hattie Lavigne, aged twelve years, was sworn and said she knew the meaning of an oath. On August 2 she took her father's dinner out to him in Douglas avenue. Sadie McAuley went with her and together they went picking raspberries. They met two other little girls and then met a man. He picked some berries for them and then he told them he knew where they could get bigger berries. Sadie followed the man through a wire fence. Later the witness called to Sadie, who answered after the second call. But after she called Sadie a third time there was no response. Soon after the witness started to go home, and

told several people that Sadie had gone through the fence.

She said that the man who was with them in the park wore khaki trousers, a brown coat and a cap and looked like the prisoner. The attorney general asked the prisoner to stand up and told the witness not to be afraid, and say whether she thought the prisoner was the same man who was with them. Mr. Vernon objected to Hon. Mr. Byrne's "lecturing the witness," but His Honor allowed her to answer, subject to the objection. She said she thought Paris was the same man.

Mr. Vernon cross-examined the witness with regard to happenings on August 2 and as to identification of the man who was picking berries with them in the park. She told him that the prisoner looked like the same man. The witness said that she had been spoken to by the attorney general with regard to her evidence at this trial.

Rowed Paris Over.

William Sweet, of the west side, testified that he rowed Paris over from the city to the Carlston side of the river between 5 and 6 o'clock on August 3, and after he landed him Paris went up on the grass.

To Mr. Vernon the witness said Paris

wore a blue suit and light shirt on this occasion. In reply to a question by His Honor the witness said he had known the prisoner ever since Paris had lived in the same street.

Robert Elliott testified that he saw Hattie Lavigne and Sadie McAuley go out Douglas avenue on the morning of August 2. Later he saw Hattie after she had been picking berries. He was working on that day in the avenue setting the curb with Joseph Lavigne.

The witness told Mr. Vernon on cross-examination that he could not tell what kind of trousers Joseph Lavigne was wearing that day as he did not remember.

Mr. Joseph Lavigne testified that his little daughter, Hattie, brought him his dinner on August 2 and that after he had eaten his dinner he went over to the station with a colored man, Herman Bell, and remained there all the afternoon.

On cross-examination the witness said he went over to the bank to see where the girls had gone, but he did not see them. Elliott and Bell were with him at that time.

Detective Biddiscombe.

Patrick F. Biddiscombe, city detective, told of the arrest of John Paris on August 19, while the prisoner was returning from the fire at Westfield, on a charge of theft which had been laid against him at Truro. He brought Paris back from Truro on September 16 and placed him in the jail.

The plan of Riverview Park and vicinity showing the place where the body of Sadie McAuley was found, which had been drawn by Detective Biddiscombe, was placed in evidence. Mr. Vernon asked the witness several questions with regard to the work of B. L. Scott, of Boston, a member of the Pinkerton detective agency. The witness said he had not seen the report which Detective Scott sent to Commissioner Thornton. Mr. Vernon asked him, "Did not Detective Scott tell you that Paris was not the man, or words to that effect?"

The attorney-general objected to the question and was ruled out by the court. The counsel for the defence questioned the witness as to what steps were taken to follow up certain suspects in this case.

Sergeant-Detective Power.

Sergeant-Detective John T. Power was the last witness called before adjournment. He told of the activities of the men of his department after they received notice that the little McAuley girl was missing and of the finding of the body of the child on August 9.

The attorney-general had not completed the examination of Sergeant-Detective Power when adjournment was made at 6:05 p.m.

Hon. Mr. Byrne announced that Sergeant-Detective Power was the last witness whom the crown would call in this case.

The court adjourned until this morning at 10 o'clock.

A. FINE 233 UNION ST. 233 UNION ST.

that the workers of the world would never permit war. We know now that this hope did not materialize. But will labor be powerless now that public opinion against war has been so much strengthened? The political internationalists at present are weakened by dissensions introduced into the ranks of labor by Bolshevism, but the Labor Union Internationale in Amsterdam, representing 20,000,000 workers of all countries stands stronger than ever before. Its huge membership is a power to be reckoned with, and the propaganda against war is being incessantly carried on among these masses.

The situation may soon be such that when the question is asked: "Who has done most for the cause of peace in the spirit of Alfred Nobel, the reply will be: "The Amsterdam International."

Mr. Branting closed his address with this quotation from James Bryce: "If the peoples do not try to annihilate war, then the war will annihilate them."

TROUBLES IN GETTING OUT THE NEWSPAPERS

London, July 27.—(Canadian Press)—The printers' strike is responsible for

some curiosities in newspaper production. One Yorkshire daily presents a striking mixture of linotype and typewritten copy, both being done by the editorial staff. The advertisements are squeezed into any odd space. The editor confesses that it took him three hours to set a column of matter.

The situation is that there have been no defections on either side.

ALBERT WILL PAY THE HEALTH BILLS

Hopewell Hill, July 26.—In reference to the recent action of the government in serving notice on the Albert municipal council to pay the bills of the local board of health, which the council has declined to assess, the secretary-treasurer, C. L. Peck, says that the bill in question, amounting to \$3,900, will be paid by municipal check, probably next week. It is not expected a special assessment will be made, though it is possible a session of the council may be called to consider this action. The amount comprises the expenses of the health board for two years, 1920 and 1921. The bill for 1919 were assessed for, and the estimates for 1922 are yet

to be considered above \$1,400. The council was evenly divided on the question of paying, all motions to square the bills being lost on tie votes. The objections of those opposed to passing the vote were that the expenses were excessive for the services given.

GREAT LAKES MEN STRONG FOR STRIKE IN WAGE DISPUTE

(Canadian Press Despatch.)
Detroit, July 26.—Virtually a 100 per cent vote in favor of a strike has been cast by members of the Marine Firemen, Oilers, Water Tenders and Coal Passers' Union of the Great Lakes, and the Sailors' Union of the Great Lakes, who have deposited their ballots at the district office of the organizations here, it was announced late today. Tabulation of 830 votes from both unions has been made and of these 830 favored the walk-out, as the result of a wage controversy, it was said.

Use the Want Ad. Way

"Cold Pack" Process One Size Only

Home Preserving and Canning Outfit

Comprising one 18-quart Enameled Cook Pot with Wire Rack to hold six 1 quart jars, which lifts out bodily without fear of breakage.

SPECIAL FEATURES
Size of cook pot (in Enameled Ware—the Clean Ware)
Top 13 inches. Depth 9 1/2 inches.
Fitted with Enamel Cover.

- The jars are kept above the floor of the boiler, allowing free circulation of the hot water and preventing the bottles from cracking.
- Each single jar can be removed separately without interfering with the others.
- Six one-quart jars of either fruit, vegetables or meat can be handled and operated at one time.
- When not in use as a canner, the large enameled round kettle can be used for other cooking requirements.
- It represents a plain, strongly-made, efficient kitchen tool which increases the efficiency of the cook, and tends to improve the flavors and food values of the varied products which can be prepared in the canning way.

This simple equipment makes canning a joy instead of a task

Fruit juices, Marmalades, Jellies and all Preserves, Vegetable or Fruit, are greatly improved if canned in the Cold Pack way. The fresh, garden taste has not been destroyed, the natural color of the fruit is preserved, and none of the food value is lost. Everything is evenly and perfectly cooked. The use of this outfit makes home canning certain of success. An attractive, bright colored tag is attached to each rack, giving full instructions as to how it is to be used and operated.

These outfits are supplied in two colors—**COLONIAL GREY and PREMIER BLUE** with white lining.

Complete Enameled Outfits make housework easy at Preserving time. They represent a real help—are sanitary and easy to clean. On sale at all the better hardware stores.

BRANTING TALKS ON WORLD PEACE

Universal League of Nations and Labor Could Abolish War.

Stockholm, July 4.—(By Mail)—The strongest hope for the abolition of war is to be found in a universal League of Nations and the Labor Internationale of Amsterdam, is the opinion of Hjalmar Branting, Sweden's Social Democratic Premier. He expressed this idea recently in his Nobel Peace Prize address before the University of Christiania. Mr. Branting divided last year's peace prize with Christian L. Lange, of Norway. According to the terms of the Nobel Foundation, the winner must deliver an address before the University of Christiania on the subject of peace.

For years Premier Branting has been closely identified with the labor movement as represented by the international unions, and of late years he has proved an implacable foe of Bolshevism in the ranks of labor. In his speech he stressed the importance of the role that enlightened labor could play as peacemaker. He declared that the League of Nations was now weak because of "the absence of President Wilson's own country as well as those of the great defeated powers, Germany and Russia," adding that the limitations and shortcomings of the League must be eliminated if our civilization is to endure.

"Nevertheless," declared Mr. Branting, the League opens for the first time, after a huge military catastrophe, perspectives of peace, understanding and justice between the free and self-governing people of the world.

"Although recent years have seen many illusions shattered as regards human progress," continued Mr. Branting, "it is not certain that the future will seem the years we have now lived through only as a period of destruction and retrogression. The spires of new hope are too many, too numerous and too promising for that. We must not altogether forget that out of this hard travail a new Europe has emerged. The League of Nations must become universal. No people is too great to keep outside the League."

"Before the world war many hoped

CONFLICT OR CO-OPERATION?
(Ottawa Journal)

The world would seem to be halting at the parting of the ways, the critical juncture of civilization. The issue is clearly defined. Viewed from every angle, it takes the form of a question: Shall there be conflict or co-operation?

It is high time that reason prevailed. It would stop all strikes. It would bring further action. Co-operation drive them about democracy, as though it has reached a state of perfection; but when we look behind the scenes, we find that a few men are pulling the strings and working the levers which throw great groups at each other's throats. Democracy suffers in this tragedy. It is not the selfish interests dominating, it is absurd to lay the immediate blame on the masses. They are simply misled.

When the people, whether in small or large groups, have learned to assert their democratic independence, and do their own thinking, conflict will yield to co-operation. At the bottom of the trouble lies the discouraging fact that scarcely any real thinking is done at all those who are at once the chief actors and the chief sufferers in this tragedy. They live off the deluded side who acknowledge them as leaders. On the other side there is much that is wrong and selfish, but they are much more likely to be aggravated than adjusted by conflict. Conflict is the eternal law of life, and reasonable give and take comes only when men get together, to frankly see each other's point of view.

The waste of conflict is appalling. The savings which would be effected by co-operation is unreckonable. Pride, arrogance, and cupidity are the principal obstacles to men getting around a table and dealing fairly with each other. Thousands of men make a fat living by fomenting strife. Peace with justice would take away their jobs. They live off the deluded side who acknowledge them as leaders. On the other side there is much that is wrong and selfish, but they are much more likely to be aggravated than adjusted by conflict. Conflict is the eternal law of life, and reasonable give and take comes only when men get together, to frankly see each other's point of view.

Re-Organization Sale

Opens Friday Morning, July 28th, at 9.30 o'clock, Sharp to Celebrate Great Occasion. Sale Continues for 10 Days Only

The Quality Shoe Store, hereafter, to be Managed by
MARGOLIAN FLATTO CO., LTD.

We are pleased to announce to the public of St. John and vicinity that Mr. Flatto formerly of the Flatto Shoe Co., Boston, Mass., has joined forces with us. Mr. Flatto has been engaged in the retail shoe business for eighteen years, during which period he has acquired, through service in the metropolitan centres, a most complete knowledge of the buying and fitting of shoes.

The Quality Store will have a most noteworthy asset in his wide experience which will be personally given to the patrons of the Quality Store and the Quality operations.

UNDER THE NEW MANAGEMENT The splendid record of the past will be enhanced, and a new higher standard of good values to the public established.

THE OBJECT of the union with Mr. Flatto is to expand and increase our business. We have decided to achieve that expansion by depending on great volume of business rather than on high prices. To this end we shall devote all the energy and equipment of the Quality Store's augmented staff. We solicit public approval of our new policy.

A Re-organization was ordered by the new management. After an inspection of the stock by Mr. Flatto, and his pronouncement which is subtended.

THE PRESENT STOCK MUST BE SPEEDILY DISPOSED OF TO MAKE WAY FOR AN ABSOLUTE-FRESH SUPPLY. We must commence re-organization from the bottom up, and every shoe must go, regardless of cost or profit.

1 Lot
Ladies' or Growing Girls' Oxfords or Two Strap Slippers, made of brown calf leather, mostly all sizes. Solid leather throughout—
