Unionists' Own Papers Are Admitting Complete Collapse

Marconi "Scandal" Has Ended In Fizzle

LEADERS FEAR THAT OWN WILL VOTE AGAINST THEM

Bottom Has Fallen Out of The Whole Vote of Censure and Daily Mail is Surprised That Unionist Motion Was Not Withdrawn

(Times Special Cable) London, June 18.—It is already clear that the opposition can expect no more lullards from the Marconi affair. The liberals are exultant at the change in the situation. The speeches of the accused ministers, who had necessarily been silent while every idle tongue was wagging, proved more effective as a reminder that there is another side to the case than even their friends had hoped.

The changed tone of the conservative press this morning makes this evident even more than that of the liberal organs. The less responsible sheets make much play with the apology and omit to point out the probably unnecessary moral that an apology is not the usual penalty for ministers who are "found with their hands in the till." The more solid newspapers somewhat belatedly give great prominence to the complete collapse of the gross charges, and admit that the bottom has fallen out of the vote of censure. The Daily Mail, Conservative, goes so far as to express surprise that the Unionist motion was not withdrawn last night. Some journals use considerable emphasis to make it clear that the scandalous charges were always confined to one or two obscure organs.

SAY ANOTHER TERM IN PRISON WOULD KILL MRS. PANKHURST

Suffragette Leader Has Valvular Heart Trouble; Needs Food But Cannot Take It

London, June 16.—The doctors who are tending Mrs. Pankhurst say she has valvular heart disease, caused by forcible feeding, and that she now needs food more than anything else, but is able to take only water. They say another term of imprisonment would kill her. Mrs. Pankhurst, an intimate friend, says: "She is weaker and more prostrate than in former occasions, her vitality is less and she recuperates more slowly. But her will has not weakened. I am confident that she will keep her iron attitude with her last breath, if she feels it necessary to make such a heroic sacrifice."

PRINCE TO SETTLE CASE

Heir to Throne Had Action Against a Tenant

London, June 19.—The Prince of Wales will not experience the joys of a legal fight in the higher courts. He had been sued as plaintiff in an action against one of his tenants under the Duchy of Cornwall from which Britain's heir to the throne draws the main portion of income. Since the action was entered for trial negotiations have been in progress, with the result that the lawyers have advised the prince to abandon his action on terms. This being agreed to, the case yesterday was withdrawn.

WEATHER BULLETIN

Issued by authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service.

Synopsis.—The barometer is now high over the Atlantic coast and a slight depression is approaching the Great Lakes from the west. The weather is comparatively cool throughout the domain. Local rains are occurring in Ontario this morning.

Waters.—Maritime—Moderate westerly winds, and a little warmer today and on Monday.

AUSTRALIA'S OWN FLEET IS TO BE AT HOME BY AUGUST

Commonwealth Cuts Away From Contribution Policy and Will Defend Her Own Shores With Her Own Squadron—Admiral Appointed

(Canadian Press) London, June 19.—The king will pay a strictly private visit to the new battleship cruiser Australia at Portsmouth on June 20, prior to her departure for the Antipodes. The government of Australia has appointed Rear Admiral George Patry, as rear admiral in the royal Australian navy, to command His Majesty's Australian fleet. This appointment may be regarded as marking the birth of the Australian fleet as a fighting force. By the end of August all the ships, except one, the cruiser ordered under the agreement of 1909, will be in Australian waters, including the battle cruiser Australia, two light cruisers, the Melbourne and the Sydney, and a small torpedo flotilla.

More Local June Weddings

Martin-Guyner A very pretty wedding took place last evening in the Cathedral of the Immaculate Conception when Rev. D. S. O'Keefe united in marriage Anastasia Guyner, daughter of Mr. and Mrs. William Guyner, and Arthur Martin, formerly of Fredericton. The bride, who was given away by her father, was attired in a very pretty costume, and carried a white picture hat with a willow plume and crystal trimmings and carried a bouquet of bridal roses. The bridesmaid wore a fawn colored suit with black satin trimmings and a black hat trimmed with white plumes. The groom's present to the bride was a substantial check, to the bridesmaid a gold bracelet and to the groomsmen a set of gold cuff links. After the ceremony, the bride and groom were seated at a table at No. 5 Fredericton street, where supper was served. Mr. and Mrs. Martin will reside at No. 96 Forest street. Their popularity was attested by the many beautiful presents received.

Kirkpatrick-Kirkpatrick The wedding of Roy A. Kirkpatrick of Fairville to Miss Clara J. daughter of Frederick Kirkpatrick, took place last evening at the home of the bride in City road. Rev. George A. Ross officiated. The groom is employed with the C. P. R. at Fairville. The bride is a native of Fairville where they will reside.

Clarke-Bright A very pretty wedding took place last evening in a majority of Methodist churches when Rev. William Lawson, assisted by Rev. C. Redick, united in marriage Mrs. Selma Bright, of Carbonar, N.B., to Eugene Clarke, also of Carbonar. The bride looked charming in a gown of white silk with lace trimmings, and wearing a crown of orange blossoms and carrying a bouquet of cream roses and lilies.

Brastow-Murray Chatham, N. B., June 19.—A very pretty wedding was solemnized at the home of Mr. and Mrs. Robert Murray at eight o'clock last evening, when their daughter, Nina Helen, became the bride of Royce Wilton Brastow of South Brewer, Maine. The ceremony was performed by Rev. D. Henderson. The bride was given away by her father, who was unattended. Only immediate friends and relatives were present. The bride was most becomingly gowned in white satin trimmed with orange, carried a shower bouquet of bridal roses and lilies, and wore a crown of orange blossoms and a train of white tulle. After the ceremony a dainty wedding supper was served and the guests were waited upon by four girl friends of the bride, Miss Nan McKnight, Miss Irene Loggie, Miss Ethel Stothard and Miss Grace Huson. Among the guests were E. H. Brastow, father of the groom and the latter's sister Mrs. Gene Burr who had come from El Paso, Texas, to attend the wedding. After a honeymoon trip, Mr. and Mrs. Brastow will reside in South Brewer.

Beattie-Vanwart At the home of the bride's uncle, Wilfred Scribner, 58 Albert street, last evening Miss Dora Myrtle, daughter of Wesley Vanwart, became the bride of Ernest Beattie. Both bride and groom belong to Kings county, and will make their home at that place on their return after a short trip. The wedding took place at 7:30 o'clock and was solemnized by Rev. J. D. Wetmore, pastor of Tabernacle Baptist church.

Beattie-Vanwart At the home of the bride's uncle, Wilfred Scribner, 58 Albert street, last evening Miss Dora Myrtle, daughter of Wesley Vanwart, became the bride of Ernest Beattie. ELEVEN HOURS IN AN OPEN BOAT

Crew of Abandoned Schooner Reach Basin Head, P. E. I.

THEIR VESSEL SINKS

Schooner Francois Robert Bound From Glace Bay to Carlyle, N. B.—The Clara M., Making For Rustico, Goes Ashore

(Special To Times) Charlottetown, P. E. I., June 19.—Eleven hours in an open boat without food, and insufficiently clad, was the experience of Captain Walter Dalles and his crew, Frank Black, Benjamin Cox and Joseph Spencer of North Sydney—after they left their schooner, the Francois Robert, twenty miles off East Point just as she was about to sink on Tuesday. They landed at Basin Head early yesterday morning almost exhausted.

They sailed from Glace Bay, C. B., on June 6, bound for Carlyle, N. B., with a cargo of coal. On the 17th about seven o'clock a. m., when fifty miles north-north-east of East Point, P. E. I., the vessel sprung a leak. All hands were ordered to the pumps. They tried to reach Souris, the nearest port, but on Tuesday about 2:30 p. m., when within twenty miles of East Point were compelled to take to their dory not having time to take food, clothing or water.

Twenty-five minutes after they left the schooner went down. It was blowing a gale and they had a rough and perilous time before landing. The schooner belonged to St. John's, Newfoundland, and was of seventy tons.

The schooner Clara M., Captain Lawrence, bound from Port Aux Basques, N. B., to Rustico, with coal, was driven ashore at the entrance to Rustico Harbour. She may be floated. The crew are all safe.

London, June 19.—Canada today won the first singles match from South Africa in the elimination round for the selection of a challenger for the Dwight F. Davis lawn tennis trophy. R. B. Powell retained the dominion, and R. F. LeSueur, South Africa.

CONGRATULATIONS FROM DUKE OF CONNAUGHT

The sounding of steam whistles around the harbor and the booming of a cannon at four o'clock yesterday afternoon marked the hour of the wedding of Hugh Mackay and Miss Katie Hazen. Fully two thousand people gathered around the church to catch a glimpse of the ceremony and the booby staff of telegrams and congratulatory messages was received from His Royal Highness the Duke of Connaught reading as follows:
To Miss Kate Hazen:
We send our good wishes.

CARDS OF THANKS

Mrs. Wm. Edgar and family wish to thank their friends for kindness in their late bereavement.

The family of the late Mrs. Alice Lenahan wish to thank their friends for the many kindnesses shown them in their double bereavement.

RECENT DEATHS

Word has been received here of the death of Sister Alice of the Church 'Harity Foundation, Brooklyn, N. Y., formerly Miss Chapman of this city. She was a granddaughter of Thomas Sawitt and was well known here.

After a lingering illness, Mrs. Havessck Wilson of Norton, died on June 2, at the age of fifty-four years. She leaves her husband, four sons and two daughters. The body was interred in River Bank Cemetery at Lower Mill-tram.

A telegram to Patrick Tole, of Fairfield yesterday brought the sad news of a death of his grandson, Harry Tole, eight years, son of Mr. and Mrs. Tole. He died at his parents' home in Fairfield, Connecticut, after an operation for appendicitis. Mrs. Patrick Tole, who has been in the south, arrived at Fairfield yesterday on her way home and will remain there for a few days.

Much regret will be expressed for the death of Miss Mary B. Macfarland, who died last night at her father's home, 106

EXCEPTIONAL VALUES IN SUMMER MILLINERY

At Model Millinery Company's Showrooms, 29 Canterbury Street

The spirit of summer pervades the salons of the Model Millinery Company, whose mid-June specials bid fair to attract more than ordinary attention.

Among the new arrivals are some chic designs in large untrimmed dress hats and another lot of black and white ostrich plumes at exceptionally low prices.

There is also a special week-end clearance line of trimmed hats at \$1.50 and \$1.75 each, which is considerably less than half price.

The Model Millinery Co's showroom will be open till 10 o'clock Friday night.

MUST PAY THEM IF WE WANT THEM

(Continued from page 1) November 1 until the last of April in each year, provided not less than twenty pupils made application for instruction of this kind.

The board's action received the approval of the board of education for the province and seems to have met with the approbation of those citizens in St. John, who have given any thought at all to the important matter of industrial education.

The resolution of the board to open evening technical schools is good as far as it goes, but it does not go far enough, as what is really needed at the present time to make our system of education more effective is the establishment here of a good trades school.

There are many pupils, who leaving our present schools before they are well equipped for any kind of industrial work drift about from one unskilled occupation to another without gaining much efficiency in anything. If there existed in St. John a school to which pupils of the age of fourteen or fifteen could be sent for instruction, a school in which the larger part of the work would be industrial, it seems to me that a fresh interest in school would be awakened in the minds of such pupils, an interest, which would help to keep them at school for a longer time, and thus contribute powerfully to their development at a critical period of their lives.

Such schools have been opened in nearly all the larger cities of the United States, and wherever established have produced most gratifying results.

Although the cost of establishing, equipping, and maintaining such a school would be large, yet there can be no doubt that the establishment of such a school in St. John at the present time is a thing greatly to be desired, and will become an absolute necessity in the near future, as the city increases in population, and becomes to a greater extent than formerly a manufacturing and industrial centre.

The establishment of a board to provide evening technical classes both for men and women, in which they could receive adequate instruction in those subjects which bear directly upon their respective employments. As our present buildings are not at all adapted for the instruction of classes in industrial subjects, it is greatly to be desired that the board should earnestly consider ways and means for providing a trades' school here somewhat similar to the one outlined above.

Discipline The superintendent speaks very highly of the discipline in the city schools. He says: "The discipline of the great majority of the schools of St. John has been excellent for many years and has been effected without recourse to physical force or any of the harsher methods of control. It has been largely the outcome of that mutual respect and confidence which should always characterize the relations between those who teach and those who are taught. Your teachers of a body feel that self-restraint on the part of the pupils is the great end of school discipline and that this is effected by moral rather than by physical force. It has long seemed to me that a school government which is at the same time just and kind as well as strong, exerts a very powerful influence in forming the character of the young and in training them to be good citizens, for it develops surely but gradually that proper respect for duty which is the only which lies at the basis of all good citizenship."

On the other hand, a school in which the discipline is lax, where disobedience, insolence, or defiance on the part of any pupil is tolerated is leaving unfulfilled a very important part of its duty, for the discipline of such a school is sure to get an utter contempt for all government and authority. The boy, who openly defies the authority of the teacher and deliberately violates the rules of the school is clearly beyond the reach of moral suasion and is in need of a whipping, for it is the only thing that he can fully appreciate, and that will make him amenable to reason. Much has been written in recent years both in favor of and against corporal punishment in the public schools, but I am quite sure that to forbid its use - a course adopted in some places - will largely increase the worst class of offences, and even allow an unruly boy to become a menace to the community. How is it possible, we may ask, for any person to become a law-abiding citizen in his manhood, who, in his youth, has constantly defied and disregarded the authority of his teacher in school?"

Physical Instruction Regarding physical instruction in the school, Dr. Bridges again emphasizes his previous statements as to the necessity of introducing a systematic course of exercises adapted to the different grades and calculated to promote and maintain the health of the pupils. It would be time well spent, he says, in the report. The pupils enjoy the relief from the nervous tension incident to the school room, the relaxation of the muscles in the movements and marches and the exhilaration experienced in breathing in the fresh air through the opened windows. Teachers are making a splendid effort with this object in view, and their efforts, the superintendent says, are meeting with much success.

The St. John schools enrollment for 1912-13 was 4,857 for first term, and 7,294 for the second. For 1911-12, the figures were 7,508 for the first term, and 8,817 for the second.

CANADIAN MUNICIPALITIES NEXT MONTH IN SASKATOON

Saskatoon, June 18-A notable convention to be held here on the 18th and 17th of next month will be that of the Union of Canadian Municipalities. This will bring more than 800 mayors, aldermen, and commissioners, controllers and other city officials to Saskatoon, to confer upon matters of moment. Arrangement is being made for the entertainment of the visitors, who will be given opportunity to see the modern lines of Saskatoon's civic administration, and who will be able to look over the city's public utilities, including the new Roberts filtration plant which makes the water of the Saskatchewan River ninety per cent. pure before it is pumped into the mains, and also the 1912 power plant, which ranks among the most economical and produces the cheapest steam-generated power in the prairie provinces. The following subjects will be discussed at the convention: Watering the stock of public utility corporations. Inter-provincial highways. Treatment of garbage versus incineration. Wants of rural municipalities. Improved systems of water filtration and purification. Under-representation of cities. Town planning. Experiences of a general city manager. Improvement and preservation of the great inland waterways.

AN OBJECT LESSON

Tomorrow King George is to visit the battleship cruiser Australia at Portsmouth. This monster ship of war is soon to leave for Australia, flying the flag of the Commonwealth.

The chance of reaching a complete understanding with Germany improves daily. And that is bad for the Borden naval policy. It thrives on war "scars."

Australia has its own navy; why not Canada? There is no "emergency" talk, no cry for \$85,000,000 in the Commonwealth. What they can do in Australia we can do in Canada, for we have more people and more money.

Superintendent Bridges, in his annual report, says a good word and a necessary one about paying the efficient school teachers enough to keep them in St. John. If we are to have good schools we must face the cost. This sort of thing is worth doing well.

Boston Globe.—Mr. Asquith, answering questions in the House of Commons, said the postmaster's salary is \$850 a year, with an allowance of \$183 in lieu of "a butt of sack," and also that he did not know the exact duties of the office. Is there any duty connected with it? Writing poetry ought to be a pleasure.

THE COUNTRY VACATION New Brunswick is the finest summer holiday country in the world. Under genial blue skies and a bright, jovial sun, with playful breezes, with thousands of feathered throats in full chorus, nature has now donned her finest raiment and appears in every variety of graceful form and gorgeous color to take her place as mistress of ceremonies at the somewhat belated but brilliant debut of her fair daughter, Summer.

With every recurring summer more people leave their city homes and through the cottage and bungalow colonies that have sprung up rapidly within a few miles of town. For them the summer passes all too quickly, but the return to the city with richer blood coursing through the veins is made in triumph.

To those who are privileged to spend only two or three weeks in wandering afield, the woodland paths, the landlocked lakes, the fishing streams and the salt sea air are an even greater delight, and every step instills new strength and vigor into blood and sinew. The vacationist in the country seeks pleasure and unconsciously reaps health through a keen appetite, good digestion, sound sleep and the pure air which he inhales.

THE CRUELTY OF PRIDE AND VANITY Scientific records prove it to be an incontrovertible fact that no species of bird or mammal can long withstand exploitation for commercial purposes. Yet it is estimated that fully one hundred species of the most beautiful and curious birds of the world are now being exterminated to meet the demands for plumes, feathers and skins for use on women's hats.

MR. FOSTER'S MISSION THAT HAS NOT YET SUCCEEDED

Disappointed in Australia Over The Suspension of Reciprocity Negotiations

Great disappointment is expressed in Sydney, N. S. W., by shippers of frozen meat and butter over the suspension of the negotiations for the reciprocal trade between Canada and Australia. The fact that New Zealand and Australia arranged a treaty some little time ago and that it was quite likely to be ratified in both countries despite governmental changes, makes it all the more a matter for regret that Canada was not able to enter into an agreement.

A. Kidman, Australian cattle king, says Australian shippers have been working hard for a reciprocal agreement. The loss of the agreement means a great difference in trade to the commonwealth, especially as the numerous steamers have been calling at New Zealand and giving that country an opportunity of building up a fine trade with Canada, with which country a reciprocity agreement is actually in existence at the present time.

New Zealand's Trade
"While we do not," says Mr. Kidman, "grudge New Zealand any of the advantages that she obtains under this arrangement," in short, New Zealand has Australia that the bulk of New Zealand's trade with Canada should have been obtained at the expense of Australia.

"New Zealand practically captured the whole butter trade which has been developed in the first instance by Australian shippers. Furthermore, New Zealand has gone in for shipping large quantities of frozen meat to Vancouver. Consignments have increased with every steamer. In short, New Zealand has picked up a ready-made trade which originally belonged to us and which we should now share if we enjoyed the tariff advantages we are now denied."

OPTIMISTIC REPORT BY PRESIDENT OF STEEL CORPORATION

Montreal, June 18.—That the Dominion Steel Corporation has reached the most important stage of its development and was now in the position for which the management had driven for years, was the keynote of the annual address of J. H. Plummer, the president of the big industrial at this morning's annual meeting of shareholders.

Optimism marked almost every sentence of the steel president, who reviewed the history of the corporation for the past three years and pointed out to the shareholders present that the long-waited period of delays and disappointment following the installation of the new plant at Sydney was over, and that the company was now carrying splendidly on the increased manufacturing facilities on which so much money has been spent.

"I have been asked often," said Mr. Plummer, "to estimate what we should do this year, and I have little hesitation in saying that with our enlarged and improved plant our net earnings in 1913 should be at least \$800,000 in excess of those of the year 1912."

The financial stringency, he stated, might possibly affect business, but the directors of the corporation had little fear on this score, as any slackening up of business in the Dominion would probably have little effect upon the demand for steel products, owing to the conditions of Canada at the present phase of its development.

Only in speaking of the tariff did Mr. Plummer express any disappointment over the developments of the year, and even in this regard he expressed the hope that the present unsatisfactory and analogous state of this would be remedied by the government in 1914.

CABINET MEMBERS EXPLAIN POSITION

London, June 18.—For the first time in many years British cabinet ministers were compelled today to defend their personal honor before parliament. The attorney general, Sir Rufus Isaacs, and the chancellor of the exchequer, David Lloyd-George, defended their dealings in American Marconi shares on the floor of the house, and the final scene in the Marconi affair, which their political enemies had attempted to magnify into a scandal, was tense and dramatic.

The galleries were filled with peers and diplomats. All the seats and standing room on the floor were occupied. The two ministers admitted that they had acted dishonestly and miserably, although without dishonest intentions and regretted their failure to divulge all the facts when they had made their denials to the house last October of buying English Marconi shares.

MORNING NEWS OVER THE WIRES

The University of Bishop's College at Lennoxville, P. Q., from which many St. John men have graduated, celebrated yesterday the sixtieth anniversary of the granting of the Royal charter. A large number of former students gathered for the occasion and addresses were given by prominent men. The convocation exercises take place today.

At a meeting of the police committee of the Fredericton common council yesterday the superannuation of Police Magistrate Marsh was discussed. It is understood that he is willing to retire but wants full salary.

Brooklands Hospital, owned by the Dominion Steel Co., Sydney, C. B., was destroyed by fire yesterday. The damage amounted to about \$12,000. Thirty-three patients in the hospital at the time were safely removed.

Amherst, N. S., June 18.—Charles Watt was by a jury of his countrymen, found guilty today of the murder of a three-week-old illegitimate baby, of which his young sister was the mother.

Montreal, June 18.—Matches in the hands of six and three-year-old Joseph and Lucien Larue, of St. Paul street, caused their deaths and the destruction by fire of their home today.

John Kelly, of Somerset street, is in the hospital with a broken ankle and Frank and Charles Boylen, of the United States, are in jail, charged with assault and battery, as result of a scuffle last evening. The two strangers stopped to talk to Kelly while he was doctoring his horse and an argument resulted, during which it is alleged, the prisoners struck Kelly several times.

Rev. Canon Hoyt has retired from the position of rector of Simonds and his retirement was marked by the presentation of addresses from the four churches of the parish accompanied by purses as follows: All Saints, Loch Lomond, \$25; St. Thomas, Black River, \$31; St. Andrew's, Golden Grove, \$61 and Church of the Ascension, Red Head, \$78.

Dr. Melvin, public health officer, advocated the installation of sanitary drinking fountains in the public schools. Cases in which infection has been carried by the common drinking cups have come to his notice.

At the St. John district convention of the W. M. S. of the Methodist church which met at Apohaqui on Tuesday reports were presented showing that there are twenty auxiliaries, 545 life members, seven circles, 395 members; fifteen bands, 309 members; total, 565. The total amount raised, during the year was \$2,765.48 an increase of \$206.58.

St. John Benefits by Ruling
The ruling of the Interstate Commerce Commission that the import rate from Boston cannot be lower than from New York is expected to have a serious effect upon the growth of Boston as a seaport. They believe it will prove beneficial to Montreal, St. John, Portland and New York. If a Canadian railway should come to Boston it could make its

own rates, they argue, and this would relieve the situation.

Simple Treatment For Removing Hairs
(Modes of Today)
A quick, harmless, painless way to remove unwanted hairs is to make a paste with a little delatone and water. This should be applied to the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed. This simple treatment banishes every trace of hair or blenish. No harm can result from using the delatone treatment, but care should be exercised to see that you get real delatone.

Frequent applications of pyroxin at last-roots with thumb and forefinger will make them grow long, silken and curly, greatly adding to woman's physical charms. Rubbing pyroxin on eyebrows makes them come in thick and glossy. Use care and don't get any pyroxin where no hair is wanted.

There has been nothing in the week's developments to promote a bullish feeling in the local market, but restoration of the view that the New York market is over the worst of its troubles has had an encouraging effect and sentiment is more optimistic. The uncertainties of the financial situation in Europe, particularly in Berlin, and the certainty of the money position at home act in restraint of any bullish demonstration. Under the feeling that the outlook as a whole is brighter, sellers are no longer pressing stock on the market and purchases this week have had to be made at a fairly steady advance in prices. At the annual meeting of the Tuckett's Tobacco Co., Ltd., in Hamilton on Tuesday, it was reported that, notwithstanding reports of a slowing up in trade due to tightness of money, the company's business for the first two months of its new year showed substantial gains over the corresponding period a year ago. The meeting was entirely routine, and the retiring board of directors re-elected. No mention was made of a dividend on the accounts.

SUPREME COURT

Judgments Tomorrow - Today's Game at Fredericton

Fredericton, N. B., June 19.—At an adjourned sitting of the supreme court this morning in the case of Myers, appellant, and Dugay, respondent, J. B. M. Baker, J.C., moved to set aside a verdict for the plaintiff and enter a verdict for the defendant—A. T. LeBlanc contra. This case was heard before Judge Landry and a jury in Dalhousie in April and a verdict for \$101 entered for the plaintiffs on count of malicious prosecution. Mr. Baxter made his motion on the ground that evidence was improperly admitted and of misdirection by the judge. The court will deliver judgments and hear common motions. Tomorrow the court will play the first base for Fredericton, Albert will pitch, and Duggan will play outfield. The St. Croix and Fredericton teams will play here this afternoon. Flynn will play first base for Fredericton, Albert will pitch, and Duggan will play outfield. Hon. H. F. McLeod and a party of friends returned today after a successful fishing trip to Calm's River. The Congregational Union of Nova Scotia and New Brunswick will meet at Keswick ridge on Wednesday, June 26.

WANT JOINT ACTION FOR REDUCED CABLE TOLLS

Suggestion That Britain, Canada, New Zealand and Australia Act Together. London, June 19.—The Sydney, N. S. W., correspondent of the Daily Telegraph, says that the Associated Chambers of Commerce, representing the whole of Australia, met in conference yesterday and passed a resolution requesting the commonwealth government to open negotiations with the British, Canadian and New Zealand governments with a view to jointly acquiring the control of the Atlantic cable and effecting a reduction in the present exorbitant rates charged for commercial cables.

POWELL S. OUGLER'S DEATH AN ACCIDENT; DIGBY INQUEST TODAY

Digby, N. S., June 19.—The crew and all who were aboard the Prince Rupert yesterday afternoon when Powell S. Ougler of West St. John fell overboard in the heavy sea were held blameless at an inquest held here today. The jury brought in a verdict of death by accidental drowning. The jury gave the crew credit for doing everything in their power to save the man.

MAY TAKE DRIVERS. When the 8th regiment Canadian Artillery leave for camp Peterborough on July 26, it is possible that local drivers for the various batteries will form part of their complement. In other years the drivers have been supplied by the permanent corps, but this year the regular artillery is so greatly reduced in numbers that sufficient drivers may not be available.

DEATH OF JAMES RILEY. The death of James Riley occurred yesterday at his home 79 Somerset street after a short illness from pneumonia. He was about sixty-five years of age and had for some time been employed in the Portland Rolling Mills. His wife, one son, Edward, and one brother, Edward, all of this city, survive. The funeral will be held on Saturday at 2:30 p. m.

SERIOUS CHARGE. A sixteen-year-old boy named Roy Thompson was arrested yesterday afternoon by Detachment 101 on a charge laid by the father of a six-year-old named Hattie Lacey in a serious case of child abuse. The offence is alleged to have taken place near the eastern end of the city. The lad belongs to Pitt street.

REAL ESTATE. While the real estate market in St. John has not been at its best this year it was last, a healthy condition with no reduction in values has been maintained and a number of transfers have been made. The conditions are nothing like in the west, where the scarcity of money has had a great effect on real estate operations. During the month of May telephones were removed from the offices of 600 real estate agents throughout Manitoba, and in Vancouver alone 800 instruments were taken out.

ISAACS TO COME TO ST. JOHN FOR TRIAL

John A. Barry returned to the city this morning from Boston where he had gone in connection with the case of R. D. Isaacs for whom he has been engaged to act. He said today that although arrangements had not been fully completed, he expects to have matters settled so that Isaacs would be brought here for trial, waiving extradition, and so that the case against him across the border would be dropped. It would be at least eight or ten days before this would be definitely known.

THE PICTURE MAN STORMED THEM. Movies in the Parliament and the Change When it Became Known. Paris, June 19.—Reasoning that moving pictures of the chambers of deputies during their debates would stimulate pride and patriotism throughout France, the clerk, on his own responsibility, and privately, gave permission to a company to work their cameras in the legislative hall. While the three years' military service bill was under consideration, a machine was installed and ran for several hours before the deputies knew anything about it. Only fifteen members were in their seats, and some of them were yawning, yawning, no stretching, but much pretty strutting, the gesticulating and a universal effort to look solemn and wise.

NEW GROUNDS FOR BREAKING A WILL. F. G. Spencer said today that the matter of a successor to Mr. McDonald as manager had not yet been decided upon. This matter is referred to on page 10.

THE VALUE OF HAPPINESS

There is no duty so much undervalued as that of being happy. By being happy we sow anonymous benefits upon the world which remain unknown, even to ourselves; or when they are disclosed, surprise nobody so much as the benefactor. A happy man or woman is a better thing to find than a five-pound note. He or she is a radiating focus of good will, and their entrance into a room is as though another candle had been lit.

To-day's Impressions To-morrow's Sales

Many a September purchase is really decided in July. Many a woman is gathering information to-day that will influence her selection of a stove two months hence. Many a man is thinking right now about the store he will patronize for his Fall suit and overcoat. Many an October piano purchase is really determined on the porch of a summer hotel or home in August. How unwise, then, to put off the Advertising of these and similar articles until the actual time of their use arrives. One advertisement seldom makes a sale. It is the repeated impressions created by Advertising that develops purchases by a discriminating public—and these impressions are seldom built up in a day, a week or a month. Yet some manufacturers and merchants still procrastinate until the first nip of frost is felt—and then besiege the public with belated announcements of Fall clothes, kitchen ranges, home furnishings, winter underwear, and other articles usually purchased in the Fall. Purchased in the Fall—oh, yes—but decided upon in the Summer. Decided in favor of the goods that are continuously advertised. It's the Advertising read in July that bears fruit in September and October. For to-day's impressions inevitably lead to to-morrow's sales.

Advice regarding your advertising problems is available through any recognized Canadian advertising agency, or the Secretary of the Canadian Press Association, Room 505 Lumden Building, Toronto. Enquiry involves no obligation on your part—no write, if interested.

CLOSING OF ROTHSAY COLLEGIATE SCHOOL

(Continued from page 1) The fact that we usually have a number taking the McGill examination does not mean that all, if successful, will go up to McGill. Last year, for instance, we had seven boys who passed this examination; of these, three went to McGill, three to King's College, while one returned to us for another year before going to college.

Here I should like to repeat what I said in my report in a former year, viz., that the standard not only for entrance to the universities, but in the courses themselves is continually being raised. Most of the universities nowadays do not want freshmen to be under eighteen years of age, certainly not under seventeen, so it is not fair to ask us to prepare boys of sixteen, or even younger, for entrance at that age; nor is it fair to the boys themselves, who, even though they pass their matriculation, so often come to grief during their college course simply because they were not old enough when they went up.

The general work of the school has been satisfactory. Again I have to thank the Rev. A. W. Daniel for acting as examiner in the divinity subjects. In the other subjects the examinations were conducted by the masters of the school.

Recreation In athletics we had about an average year. In football we started the season with a weak team, but one which improved greatly as the season progressed. Our hockey team was attracted and captivated by the mild winter; there was only about a fortnight in all when we could use our open air rink. In the interscholastic meet, this event was held for the second time in succession on our grounds, and though the events were not nearly so good as last year, yet we had a very successful and pleasant meet.

This year we inaugurated what will, I hope, become an annual event, a contest in athletic sports with the Collegiate School, Windsor. For the first meet we went to Windsor, next year they will come here. We won the first contest by the narrow margin of four points. The pleasure of winning was more than equalled by that afforded us by our entertainment in Windsor and by all the circumstances, except the weather, which attended the meet. We came home impressed by the fact that the boys of the Collegiate School, Windsor, are good sportsmen, whom it would be a pleasure to meet in any branch of athletics.

Our Cadet Corps was inspected on June 10 by Major Outhill, who commended its work very highly and congratulated the officers on the efficiency displayed by the corps in marching and drill. In this connection I ought to mention that a great deal of the success we attained was, of course, due to the taking work of our instructor, Col. Sgt. Doce, and also of Cadet Leader Hunter.

Jan. P. Robertson very kindly presented us this year with instruments for a life and drum band and we at once started in to produce band music. If at times the noise of the piping was a trifle weak and faltering, yet this was hidden by the vigor with which the drummers wielded their sticks at the critical moments. Certainly the drums greatly improved the marching of the corps. Owing to unfavorable weather we were able to send only two shooting teams to practice on the St. John ranges. We expect, nevertheless, to send a team to Sussex in August to compete for the cadet trophy.

Changes in the Staff During the year we incurred the loss of one member of our teaching staff, F. S. Morrison, who resigned in order to take the position of director of manual training in the St. John schools. We felt Mr. Morrison's loss very keenly, and this not only in his special department of manual training, but also in the general life and activities of the school as well. We were, however, able to secure the services of B. B. Barnes, who came to us with the experience of several years of teaching and who has already won the confidence of all.

H. L. E. Adams, who has been a member of the staff for the past two years, has resigned his position. The vacancy caused by Mr. Adams' departure has been filled by the appointment of H. R. Harley, B. A., who recently graduated from King's college with first class honors.

Mrs. A. B. Pipes, better known to us all as Mrs. Foster, who during the three years that she was matron, won the esteem and affection of all the boys, left us just after Christmas. The one thing that could be said in her favor is that she had no successor. The appointment of Miss P. St. J. Beard as her successor, Miss Beard was no stranger to us when she came; we knew her and felt sure that under her administration we should all be well and happy. We have not been disappointed.

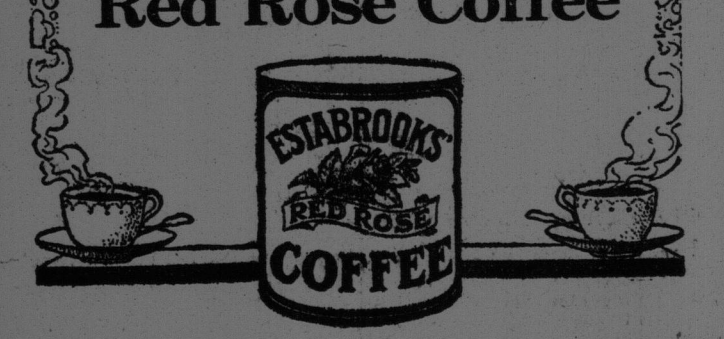

Plans for Future I will close with a few words about our plans for the future. This year we are launching out again in the building line and by the opening of next term we expect to have completed new and greatly improved kitchen and offices together with considerable space as the new addition will be half a story higher than the old one which it replaces; also early in January we expect to have finished a large extension replacing the old wing of the North House, giving us space for twenty-two more boys. The whole North House will be considerably remodelled and we shall have a much larger reading room, library, while the domestic arrangements will be brought thoroughly up to date. All this, with the painting of all the buildings, will cost in the neighborhood of \$15,000. Can the expenditure of all this money be justified? I believe it can, for the growth of the school has been steady. For the past two years we have had all the boys we can take; and the time has come when we must either expand or stand still. That we should not be content to stand still at the present time is what I firmly believe, and this for several reasons, one of which at least is a very practical one.

We have at present school-room and dining-room accommodation for over twenty more boys than we have lodging accommodation for, consequently it seems a wise thing to do to bring up our lodging accommodation to a level with these; moreover we expect every thing here to be in every respect first class and up to date and these additions will enable us to make the desired alterations.

Ever since I came to Rothsay, now about five years ago, I have been planning these additions and alterations, which, now I am happy to be able to say, are likely shortly to be accomplished, so, as far as I am concerned, this is no hastily conceived plan; moreover a recent visit to certain of the best of American schools, where I carefully observed their arrangement and equipment, convinced me that we have planned for our alterations on the right lines. I don't believe much in boom tactics for anything, least of all for a school, but I confess I should like to see among the friends of the school, particularly among the old boys a good deal more active work on behalf of their school. The Anglican church is not making any money out of this institution, in fact a great deal of money into this school from which there is practically no prospect of getting any monetary return; she is doing it because she believes in the kind of training which can be given in a school of this sort and she is doing it for the benefit of the community, because there is equal opportunity for the members of all denominations to benefit by the money which she is putting into this place. It seems to me therefore, that we might rightly expect a little more active support from the immediate community. Outside, our clientele is rapidly growing and I have no doubt that, with the advantages which we have here to offer, we could eventually fill the vacancies

Fragrance

WHEN you open a tin of Red Rose Coffee, you will surely be pleased with its unusual fragrance, and you will note particularly the small, even grains, free of the yellow flake or chaff which you have always been accustomed to see in the ground coffee you have used. This is the result of our new crushing process. The small grains settle quickly, so the coffee is never muddy, but always bright and clear. You will be convinced before you taste it, that it is a coffee of unusual quality.

Joe Jeannette, Who Claims the Title, Not Full Blooded Negro

By TOM ANDREWS Who will succeed to the heavy-weight crown now that Luther McCarty has passed away and Jack Johnson has been barred in more ways than one? Dan McKetrick, manager of Joe Jeannette, undertakes to answer the question, and of course places his man—Jeannette—at the head of the list. There is no doubt about the legitimate claim of McKetrick for his man, but Sam Langford, too, has a legitimate claim, but of the two there are many who agree that Jeannette stands ahead of Samuel.

Then there is Gunboat Smith, who, after his defeat of Bombardier Wells, the British champion, was closed on the track of the late Luther McCarty, and would have been matched with him, had Luther lived, for the title—that is, the white title. Jess Willard will have to wipe out his defeat by Smith before he can get into the running again.

Talking about Jeannette recalls to my mind a story I heard in New York last fall when I attended the Wells-Kennedy fight. It was regarding Joe's parentage. Joe has the features of a Spaniard more than a negro and investigation brought to light the fact that he is really not a full-blooded negro at all. His mother is a white woman of German origin and his father, according to a physician who knew him well, said he was partly Arab. In fact, he is more Arab than negro. Dan McKetrick says it is probably this mixture that makes Joe such a fine fellow and such a heavy body.

The feeling against colored boxers caused by Jack Johnson's actions will not be eliminated in the case of Jeannette. There is no doubt at all about Jeannette's claim to recognition among the top-notch heavy weights. He was offered a match with Johnson in Paris, the latter to receive \$50,000 for the bout, but he declined, and again when offered a match in Australia with Jeannette he preferred to have others. In New York city Joe Jeannette is always sure of a hearty welcome from the fans when he steps into the ring, whether for a contest, or simply to show himself. The chances are that Joe will be given a show among the heavy-weights for a try at the crown, and if actions count for anything he is certainly deserving of recognition.

which will be created by our addition event around the supervision of this community, but at the same time that is not altogether what we want to do, because we want to make this school more benefit to New Brunswick.

I wish the lukewarm friends of the school would do something to help, some charge far higher fees than we do here, and then come back and look at this school a little closer, and I venture to say they would not be lukewarm any longer. It seems as though if we can only take full advantage of what nature has endowed them with we can make this school one of the largest and best in the whole dominion.

Beware of Ointments for Catarrh that Contain Mercury. As mercury will surely destroy the sense of smell and completely damage the whole system, such articles should never be used except on prescription from reputable physicians. As the damage they will do is tenfold to the good you can possibly derive therefrom. Dr. Chase's Ointment, manufactured by F. J. Chase & Co., Toledo, O., contains no mercury and is taken internally, acting directly on the mucous surface of the system. In buying Dr. Chase's Ointment be sure you get the genuine. It takes internally, acting directly on the mucous surface of the system. Sold by Druggists. Price 25c per bottle. Take Dr. Chase's Family Pills for Constipation.

B. & A. Ry. to Change Hands It is reported that the Bangor & Aroostook Railway will change hands on July 1, becoming the property of the New Haven road. The striking engineers are to be taken back within a few weeks at the regular United States schedule, which is much in advance of the old Bangor & Aroostook schedule.

VARICOSE VEINS AND ITCHING PILES Usually Arie From Same Cause—Relief and Cure Effected by Dr. Chase's Ointment. Nearly everybody knows of Dr. Chase's Ointment as the most effective treatment for piles or hemorrhoids that medical science has been able to compound. So much suffering and misery arises from this ailment that one is not long in telling his friends when he has found an actual cure. This accounts for the enormous sales of Dr. Chase's Ointment. This letter tells of relief from the suffering of varicose veins by the use of Dr. Chase's Ointment. Many suffer from this trouble not knowing the comfort to be obtained by the use of this great soothing ointment. Mrs. R. J. Evans, 1871 Munro street, Toronto, writes: "We have used Dr. Chase's Ointment for years. I have been troubled with varicose veins, and find it the only thing that gives relief. For every purpose when a soothing, healing ointment is needed there is nothing so good as Dr. Chase's Ointment." 60 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

NOTED WAR CORRESPONDENT A SUICIDE IN NEW YORK

Angus Hamilton Was on Lecturing Tour and it proved a Failure

Angus Hamilton, war correspondent and lecturer, committed suicide in New York on Saturday past, his room in the Hotel St. Louis, West Thirty-second street, by cutting his throat with a razor. His lecture tour had not been a financial success.

Mr. Hamilton arrived in New York from London on February 18 to lecture on the Balkan war, in which he had been correspondent for the Central News. He was at the Hotel Astor until two weeks ago, when he moved to the St. Louis. It was said at the hotel that he had not yet paid anything on his account, and that this was called to his attention by the management. When a maid went to the room on Saturday morning the door was locked. There was no answer to repeated rapping and a key finally got into the room by a window ledge and a fire escape. The body was found on the floor of the bathroom in front of a mirror. He was a son of the late Captain John Angus Lushington Hamilton. His mother is now the wife of Sir Arthur Wing Pinero, playwright. He was educated at Cheltenham College and in England and France, and after doing newspaper work in England went to New York and for a time was a reporter on The Evening Sun. He returned to London, and in 1900-1902, the Balkan war, the Russo-Japanese war, the Boxer uprising in 1900-1902, the Balkan war in 1903, the Russo-Japanese war, the Balkan war in 1911-1912 and the recent Balkan war. His work as special correspondent included trips to America, Australia, the Far East and Central Asia. In 1910-1911 he was editor of the South China Morning Post.

LITTLE GIRL IN NORTH END IS BADLY BURNED

Daughter of Captain Perry Was Playing With Matches and Dress Caught Fire

The eight year old daughter of Captain and Mrs. George Perry of Harvey street, while playing about a field in the rear of her home this morning, met with injuries, caused by the burning of matches and her clothes catching fire, which may result fatally. Her recovery was this morning regarded as doubtful.

With some other children she was enjoying herself at play in the field, which in reality makes a sort of play-yard for the little ones, and they were left unguarded because there was no reason to expect danger where they were. She managed to get some matches and took pleasure in lighting them and watching the tiny but dangerous flame. But it seems that one which was lighted dropped to her dress and the latter caught fire, and she and her clothing was in flames.

The screams of the little girl and of her companions, who were about the same age as herself, attracted the attention of neighbors and though they hastened at once to her rescue there could be little done. Dr. Frank Hogan was summoned and eased the pain somewhat, but grave fears are entertained for the recovery of the child. She was seriously burned about the body, and her hair was almost all burned off. Her friends are tendering sincere sympathy to the saddened parents.

OPERA HOUSE MANAGER TO GO TO SYDNEY

D. H. McDonald Joins L. R. Acker of Halifax in Theatrical Enterprise There

There will be interest and regret, as well as surprise, in the announcement that Daniel H. McDonald, manager of the St. John Opera House, has resigned his position as a member of F. G. Spencer's managerial staff, after about five years, and will leave in a few days for Sydney, C. B., there to embark in the theatrical business for himself.

Mr. McDonald has joined with L. R. Acker, of Halifax, a well-known theatrical man, in the proprietorship of Acker's Theatre, a house only recently opened in Sydney and promising well. He saw there was a good opportunity and, being desirous to engage in business for himself, took advantage of it. Mr. and Mrs. McDonald will leave for their new home at the first of the week and will follow them.

Mr. McDonald is a St. John man, but had been away for some years, and during the latter portion of the time was manager of Mr. Spencer's theatrical interests in Yarmouth. He was promoted to the management of the St. John Opera House about a year and a half ago, and has renewed old friendships and made many new ones since coming home. Also he has become very popular with the theatre-goers of the city for his uniform courtesy and his good business style. There will be many to wish him continued and increased success.

The Sydney theatre will be vaudeville with one reel of motion pictures.

LOCAL NEWS

BANK CLEARINGS
The St. John bank clearings for the week ending today were \$1,608,888, corresponding week last year, \$1,498,722.

THE BATTLE LINE
S. S. "Eretria," Captain Crossley, bound for Londonderry, sailed from Dalhousie yesterday.

GAME TONIGHT
In the City League on the Marathon grounds this evening, the St. Peter's and Rocklands will meet. Dever and Dever will be between the points for the Saints, and Hansen and Cunningham will form the battery for the Rocklands.

BAND CONCERT
A concert given in Tilley Square, Carleton last night by the Carleton Cornet Band proved very enjoyable to a large gathering assembled. A nicely varied programme was rendered and each selection was well received.

CONFERENCE TOMORROW
A conference between the city commissioners and the Minister of Marine and Fisheries for the purpose of discussing aid to the proposed steel and ship-building plants and matters relating to harbor improvements will be held on Friday morning at 10:30 o'clock.

WESTMORLAND ROAD
A complaint has been received in regard to the condition of the Westmorland road near the corner of Egbert street. There is hydrant there which many of the residents use and the drain pipe, which is supposed to take away the overflow, is declared not in proper order, and the roadway is muddy. This on one side and a raised street car track on the other make it rather unpleasant driving at this point.

BONFIRE SEASON
In conjunction with the season of bonfires, and also the season of bonfires, the police were kept busy last evening extinguishing them. They are reported from all parts of the city. Policeman Totten was compelled to "wash the buckets" in Simonds street, while about the same time Policeman Gosline was in Frederick street putting out a bonfire and dispersing a crowd of youngsters. Fires were also put out by Sergeant Smith and Policeman Rankine and Crawford in Barker street, Drury Lane and St. Patrick street.

ELEVEN ON BENCH IN THE POLICE COURT

Eleven prisoners faced Magistrate Ritchie in the police court this morning on a variety of charges. As usual, drunkenness was the chief source of trouble. There were four prisoners arrested for partaking too freely and they all were remanded.

Richard Tapp and Michael Walsh, charged with lighting on Rodney wharf, were remanded. Sergeant Finlay told of the scrap.

There were three charges against John Peterson. He was arrested last evening on charges of being drunk, interfering with ladies in Waterloo street, and there also is a charge of resistance. He said he did not remember any of the offences. He was remanded to jail.

Two brothers, Frank and Charles Boylan, were arrested last night by Policeman Briggs on charges of drunkenness and were remanded. They are also held on a charge laid by Mrs. John Kelly for assault on her husband. Mr. Kelly is now in the hospital with a broken ankle. Policeman Briggs told of arresting the two and the evidence in the matter of the assault will be taken later.

William Sletch, arrested about two o'clock this morning on charge of wandering about in Charlotte street and not being able to give a satisfactory account of himself, pleaded not guilty. When asked by the magistrate what he was doing out at that hour, he said he was waiting to meet a friend. Policeman Crawford told of ejecting the prisoner from the lunch cart, in Market street and later ordered him home. The defendant refused to go and was arrested.

George Anderson appeared in answer to a charge of assault made by Andrew P. Sheppard, who displayed a badly blackened eye. Both men are employed with the Metcalf Construction company on the new C. P. R. elevator. The prisoner was remanded.

TRUCKMEN MUST MOVE FROM KING SQUARE STAND

Will be Given Head of Brussels Street and Market Square—Matter in Dispute With Street Railway

Improvements on the northern side of King Square formed the principal topic of discussion at the meeting of the city commissioners at noon today. The suggestion has been made that the sidewalk bordering on the square should be done away with to widen the roadway, but the road engineer reported that the change would upset the work now in progress, and it was not deemed necessary the proposal was rejected.

The street railway trucks on this section do not conform to the grades given by the road engineer for the new pavement, and the company has refused to make the necessary change. The commissioners decided to instruct the recorder to take the legal course to force the company to do so.

Another change which will be made will be to round off the northwestern corner of the square to give a circular turning from Charlotte street to the north side of the square.

A ROBIN'S LONG TRIP

Three Thousand Mile Journey From St. John to Edmonton With Her Young

Edmonton Journal.—From St. John, N. B., to Edmonton, a distance of 3,000 miles, was the trip of a red-breasted robin and four young ones recently made. The mother bird had built her nest underneath one end of a C. P. R. box car, No. 107708, and the same car was soon afterwards billed for Edmonton. The nest was discovered at one of the prairie towns by the train crew, and the birds attracted much attention on the way to Edmonton.

THE MUNICIPAL HOME

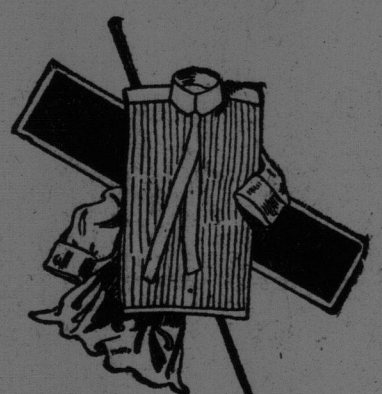

The effect upon the value of the Municipal Home property of the location of a ship-repair plant on the adjoining property will be discussed at a meeting of a committee of the municipal council, which will be held this afternoon in the county secretary's office. It is understood that arrangements will be made to secure expert opinions on the matter.

FOOT RACE

As a result of a private challenge made by Fred Gowd, of Scotland, to run Frank O'Neill, of Chesley street, 100 yards, the event was pulled off about noon today and O'Neill came out victorious by about twenty feet.

Any Man Who Needs Clothing

can come here today and get exactly the kind he wants at a saving of one-quarter to one-third of the price he would have to pay anywhere else. This is because he will buy directly of the makers when he buys at Oak Hall and he will pay but one profit over the cost of production. At all other stores he must pay two profits, the manufacturer's and the retailer's. This is why there is such a big difference in favor of Oak Hall prices when compared with those of other stores. Investigation will prove these facts to any man's satisfaction.

- SUITS, at \$6.00 to \$30.00
