## ASKS THE IMPOSSIBLE.

Our Customs Department Cannot Appoint Experts For Australia—  
—Cable H. Pines.

OTTAWA, Aug. 11.—The Canadian Customs Department can offer no recommendations. But it had been asked to do so, according to the request of the Australian Government that our customs officers should be employed to furnish the Commonwealth with the latest methods of examining cases of merchandise while in transit between Canada and Australia. The only way to which this information could be accurately obtained would be by an examination of the manufacturers' lists, and this our officers have no authority to make for the use of Australia or any other part of the world.

Parliament has given the Canadian customs officers no authority to act as appraisers of goods, and the Canadian and our own revenue officers having only the power to seize the William Lewis in the harbor, they had no right to do so. If Australia wants accurate data on this line, it is necessary to go to the manufacturers themselves, and this our officers have no authority to make for the use of Australia or any other part of the world.

## Influence of Oshawa.

London, Aug. 11.—The Post Mail Gazette says a surprising amount of press agents have been engaged for the commercial steamer between Australia and Canada, and the agents may have begun to affect the views of the Canadian government on their respective governments. A Mid-Savoyard describes a confusion because of the indifference exhibited. Australia is preparing a new tariff, and the Canadian government is to decide by the autumn, but no agreement as to the Canadian government's intention was reached. Both countries are anxious to avoid giving offense to each other. The Canadian government, however, has decided to make no contract with the agent of either country which influences only the government.

The Gazette said it had worked with the particular agents of applying pressure to win contracts for some mutual program, and that the cost of the new tariff will be about \$5 million on both sides. Mr. Borden said that his stomach trouble from which he has been suffering for several years is greatly improved. He anticipates the improvement will continue, calling in his doctor's services.

## TOWN AND DISTRICT.

To Harper's for best photos.

Mr. R. C. Harris of Toronto, chief stock of the early printing department, has placed his resignation in the hands of the Board of Control.

By order of Mr. Justice Major Robert and W. O. Hitchins of the Hitchins, Hoare Company, Limited, of Brampton, have been restored from suspension by removing the fixtures and furniture owned by that company at its factory on Queen street, Brampton.

A freight car left the track at Brantford yesterday afternoon. How it came off is not known, but no damage was done. The London auxiliary went to the scene of the accident and soon had everything cleared up. No delay to the passenger trains was occasioned.

The big excursion to Niagara Falls on August 14th is to be a success, according to the Canadian Amusement Manufacturers Association. The return fare is \$1.00, children 50c good for 2 days. The furniture men run the best excursion out of Woodstock. Train leaves Ingersoll at 7:00 a.m., G. T. R.

**HIS STORAGE BATTERY READY**

Edison Says He Has Solved Electric Propulsion.

ORANGE, N. J., Aug. 18.—In announcing that he had solved the problem of the electric propulsion of an automobile, Thomas A. Edison took occasion to discredit recent extravagant assertions attributed to him concerning his electric storage battery, which he says he has perfected. Mr. Edison says that within a few weeks now work would be started on an immense factory building on Lakeside Avenue. Mr. Edison and the recent statement that his battery would drive an automobile at the rate of 100 miles an hour from New York to Philadelphia, and back again, is a mere figment of his imagination. When he did say that was a mistake. What he did say was that a passenger omnibus, under the most favorable conditions, such as would hardly be met with in everyday travel, could run the distance in the rate of 90 miles an hour a distance of 100 miles. The best he would guarantee on a single charge was 50 miles.

"The trouble with the battery I have been trying for two years to remedy has been purely mechanical," said Mr. Edison. "They have been due chiefly to the working of the nickel element. I have succeeded in shorting forty pounds per hour of power. It has taken time to find out what was needed for this battery because we can't look ahead and see just what such a thing is going to do after we get it checked on paper.

"I do pretend to have solved the problem for electric vehicles. There can be only possible when more engineers are appointed about the subject. One of the difficulties is the short life of the battery. It has helped solve that problem with his necessary evolution which takes the place of the old transformer and makes it possible to connect the alternating current to the direct current. It is to make this available for charging batteries. With proper motor and wagon equipment we can take one mile and increase our ordinary delivery range. We are not limited by the weight of the load or the cost of maintaining it."

The engineer said he had worked with the particular stages of applying power to auto trucks for some months past, and that the car can be driven at 100 miles an hour. Mr. Edison said that his stomach trouble from which he has been suffering for several years is greatly improved. He anticipates the improvement will continue, calling in his doctor's services.

NEW YORK.—We often hear Borden's name mentioned. His health seems to be failing, but he is not ill enough to require hospitalization. He is a man who has always been a good example to every one who observes him.

Waddington, Ontario, Aug. 11.—The Post Mail Gazette says a surprising amount of press agents have been engaged for the commercial steamer between Australia and Canada, and the agents may have begun to affect the views of the Canadian government on their respective governments.

Both countries are anxious to avoid giving offense to each other. The Canadian government, however, has decided to make no contract with the agent of either country which influences only the government.

Japanese Method in Making Their Demands Holds Out Hope for Final Treaty, As They Did Not Make Them As An Ultimatum—The Points Contested — The Cost of War.

Portsmouth, N. H., Aug. 11.—Replies to the expenses sustained in the prosecution of the war, and the cessation of the demand of indemnity, were the main features of the peace conditions handed by Baron Komura to M. Witte at the conclusion of yesterday morning's session of the plenipotentiaries here. The word "indemnity" is being "reimbursement" for expenses of war.

The Cost of War.

To-day—the 550th day of the Russo-Japanese war and the third day of the peace conference—the cost of war to Japan is officially estimated to this date to \$650,000,000.

Cost Known at First.

St. Petersburg, Aug. 11.—Russia is probably now in possession of Japan's terms for ending the war. Long elaborate despatches were received late at night by the Foreign Office and the Russian Government, a copy of which was transmitted to the Foreign Office and discussing the Japanese Emperor's terms.

Whether M. Witte has cabled the terms direct to Emperor Nicholas is not known.

The cipher telegrams arrived at the Foreign Office after the departure of the translating secretaries.

Immigration increased.

London, Aug. 11.—(Special to The Board of Trade return, issued yesterday, shows that between Dec. 31, 1904, and July 31, 1905, 57,249 persons of British origin emigrated to Canada, an increase of 10,000 over the number of British emigrants to Canada during the corresponding period of last year.

The rescue was most timely. By order, the America wintered in the Arctic, where it became crushed in the ice early in the winter of 1904-5, and lost with a large part of her coal and provisions.

The 21 members of the expedition, who returned to safety are all in good health, despite their privations and trying experiences, and their prolonged imprisonment in the Arctic, the expedition having been severed from the outside world since July 1, 1904.

Anthony Fials of Brooklyn, N. Y., the leader of the expedition, in a brief statement, says:

"The rescue was most timely. By order, the America wintered in the Arctic, where it became crushed in the ice early in the winter of 1904-5, and lost with a large part of her coal and provisions.

"Supplies of stores left at Franz Josef and by various relief parties saved us very serious privations.

"Our attempt to reach high latitudes failed. The scientific work, however, as planned, was successfully carried out by William J. Peters of the United States Geological Survey.

"Our rescue was due to the splendid efforts of William S. Cushing (secretary of the late William Ziegler), commanding the relief expedition, who, owing to the terrible weather, failed to reach us last year, and to the untiring zeal of Capt. Kjeldsen and his Norwegian officers and crew, who, for six weeks, personally forced their way through solid floes of ice, and finally reached us."

"An abundance of stores had been left in the Franz Josef Archipelago by the expedition commanded by the Duke of Alva and the Andre relief expedition, so that we had no winter serious difficulties on that score."

**JAPS MUST MODIFY****Russia Will Not Accept Peace Terms As Presented.****ABSOLUTE NON POSSUMUS**

**What M. Witte Is Likely to Do When He Hands Japanese Envoy His Reply to Their Terms—Pessimism Reigns at Portsmouth, N. H., in Both Camps, Although Japanese Give No Clue to Their Thoughts.**

**Portsmouth, N. H., Aug. 12.—Russia's reply to the Japanese terms of peace will be delivered by M. Witte to Baron Komura, at 9:30 o'clock this morning. The reply is written, there being two text ones in French and the other in English.**

Upon the two crucial points indemnity and the cession of the Island of Sakhalin, the reply is an absolute non possumus.

Other points are accepted as basis for discussion, while still others are accepted conditionally.

The reply is rather long, because it summarizes the conditions upon which discussion is admitted, and those upon which consideration is declined. Reasons and arguments are given.

The Japanese plenipotentiaries are expected to ask for an immediate adjournment of the conference, the result of which would be to postpone the reply. M. Witte will probably insist that the Russian plenipotentiaries expect the Japanese to display as much expediency as they (the Russians) have shown in accepting the substance of their response.

Monday, therefore, is expected to be the day on which the real discussion will begin. Neither side wants to indulge in diplomatic sparing. The discussions will, however, and less than a week must decide whether a basis of peace is at hand.

**Inscrutable Japs.**  
The tactics of the Japanese are inscrutable, and we have shown throughout the war their military and naval secrecy—military, naval and diplomatic—and now not the remotest clue comes from behind the closed doors as to what they are preparing to make substantial concessions. Secrecy and secrecy are their watchwords.

But if the conditions of peace are to be reduced, end in some cases being done with success by combining forces, there is no room for subtleties. General working experts have been reduced, and in some cases the price of produce has been increased.

It also enables members to buy in wholesale quantities from one central point instead of drilling about and ordering to a large number of producers. Farmers can buy their supplies and implements at wholesale prices, and importers are enabled to buy in bulk.

Proprietary goods are to be sold by leading druggists. Send 10 cents in stamps for sample to The Hague Co., Toledo, Mich.

**Politeness of Irish Peasantry.**  
It is well known that the Irish peasant (not the doubt from a sense of politeness) will seldom disagree with a tourist, but likes to give an answer which he thinks will satisfy the questioner.

Let me assure a gentleman from Liverpool, white out for a sail on Carlisle Lough, was caught in a gale.

Knowing the danger, Pat made for the shore. "Why are you going in?" said the old man. "I am not," said the boy.

"No," replied the boatman; "but, sure, what there is av it is mighty power."

An angler tells how, when in quest of fish, he asked a small boy:

"Are you a fisherman?"

"There is, yer honor."

"What sort of fish?"

"There do b' trouble and eels, yer honor."

"Any eels?"

"They do be an odd one—Any eels?"

"They do be there, yer honor, but they comes up with er in the season."

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and nine out of ten will give their customers this preparation for the cure of dysentery.

For Mr. O. H. Witmer, a prominent druggist of Jeppie, Mo., is a circular to his customers, says: "There are no patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We sell and recommend this preparation." For sale by all druggists.

**SIR WILLIAM AT GLASGOW.**

Canada's Postmaster General Congratulates Scotch City of Glasgow.

London, Aug. 12.—C. F.—Sir William Murray, with the Queen, on Thursday of the Glasgow Centenary.

The meeting was presided over by Lord Provost Sir John Sir Provost. It is a short speech. Sir William congratulated the Scotch on their centenary.

The question of municipal autonomy is of great interest to Canada, and in regard to it he would take away important information from Glasgow.

He concluded with the statement:

A discussion on corporal punishment and the standard rate of wages.

During its progress he handed the lord provost a memorandum relating thereto.

Providing for Government contractors

the prevailing rate to compensated

workmen or a fair wage, officers being provided for the purpose of inspecting this.

**THEY BARELY ESCAPE.****Employees in Big Fire in a Sawmill At Fredericton.**

St. John, N. B., Aug. 12.—The Aberdeen Mills, owned by the firm of Donald Fraser & Sons, was destroyed by fire last evening, together with six to ten million feet of lumber, entailing a loss of \$200,000. The wood was the worst ever seen in the history of Fredericton.

The fire started in the basement of the sawmill, and spread rapidly over the entire building, the flames spreading through the dry, old lumber.

When the fire was discovered the lumber employees had little time to escape.

Mr. George Clegg, who had been

asked what, according to Japanese ideas, are considered most moderate terms.

A strong party in Japan favors making not only Sakhalin, the Liao-Tung Peninsula, and the Liaotung, but also the cession to Japan of the Indochina and the cession of the Amur.

Kamura Reports to Japan.

Tokio, Aug. 12.—A cabinet minister from Japan, Kamura, reporting that the credentials of the Russian plenipotentiaries were satisfied by every party, said that he believed the Japanese had submitted a basis of negotiations to the Russians in writing to which the Russians will make a reply, has been received with general satisfaction.

Statements credited to M. Witte that the Japanese had been forced to accept the Russian demands were denied.

The Japanese people are following the progress of the French-Spanish conflict with interest. They are hopeful of peace, but are uncertain as to the outcome.

On the main points of the Japanese

Government's Manifesto.

Portsmouth, N. H., Aug. 12.—While before leaving St. Petersburg, the Japanese plenipotentiaries were informed that the Japanese had submitted a basis of negotiations to the Russians in writing to which the Russians will make a reply, and that this did not prevent the making good his charge. He has not been able to do so.

**Escape From Comptoir.****China, Aug. 12.—This was much**

anticipated in Shanghai. The Chinese Harry Gee, who was captured after a shooting chase on Wednesday, escaped from the hands of the Chinese authorities in the presence of a large crowd of spectators.

He was captured by the Chinese on the 2d of August, but was released on the 10th, and was then sent to the prison of the Chinese authorities.

He was held incommunicado for three days, but this did not prevent his making good his escape. He has not been able to do so.

**Sir Gilbert in Canada.**

Quebec, Aug. 12.—Sir Gilbert, President of the Royal Bank of Commerce and well-known金融家, arrived in Quebec yesterday after an absence of 10 months. He was welcomed by a large delegation of business men, and was received at the Hotel Murray Bay. He will remain a week and bring a few legal friends to Montreal.

Angie Leaves Book.

Washington, Aug. 12.—The actress Angie left the Government Auditorium last night. She returned yesterday. The dramatic pieces she has been giving have been very successful, and the audience has been unanimous in its judgment.

She is to appear again on Saturday night.

### DEATH BY DROWNING

Four Fatal Accidents in the Water Reported.

### FATHER'S TERRIBLE TRIAL

Eddie Eller, a Pittsburg boy, slipped on wet stones when fishing. But his Father could not rescue him. Although he plunged into the water and made the attempt.

Part I.—Eddie Eller, 12 years of age, son of Ed Eller of Pittsburg, Pa. was drowned in Silver Lake, about half a mile from home, at noon yesterday. Mr. Eller himself had a narrow escape. He and his two brothers were fishing on the shore of the lake and the middle child, in casting his line, slipped off the wet stones and fell in. The father at the risk of his own life, for he could not swim and the water was deep, plucked out his son but could not save him and had difficulty in getting him out. The body was recovered in a short time and medical aid was promptly on hand, but though there were hopeful signs all efforts failed to restore breathing. Eddie Eller, his father, who, with their three children, was married at the Stratton House, left last night for Pittsburgh.

Part II.—Edward Holt, Charlotte Methodist.

In the junior teachers' examination all but three of those who wrote passed. Candidates who failed can get their marks from Mr. McDonald, now or from Mr. Driscoll after school opens.

### THOSE WHO PASSED.

THE DEPARTMENTAL AND MATRICULATION EXAMS.

The following is the result of the departmental and matriculation examinations held in July last, in the Ingersoll College, Ingersoll, Ontario. Junior Matriculation—Douglas Tait, Will Forman, Lewis Beattie, Willie Waters.

Junior Teachers' Examination—First Class—Pat L.—Edward Holt, J. Ruth, Claude Snelson, Ellen Thompson.

Senior Teachers' Examination—First Class—Pat L.—Edward Holt, J. Ruth, Claude Snelson, Ellen Thompson.

Part III.—Edward Holt, Charlotte Methodist.

In the junior teachers' examination all but three of those who wrote passed. Candidates who failed can get their marks from Mr. McDonald, now or from Mr. Driscoll after school opens.

### VALET IN DAYTIME.

MAN WHO WORKED IN RICH HOMES HAD KIT OF BURG LAWS TOOLS

Pittsburgh, Aug. 14.—John William George, who was formerly an employee of Alfred G. Vanderbilt and E. C. Swift, and who has been serving as a waiter at the Hotel Roosevelt, New York, was drowned while he was so employed by day, he worked for himself at night as a modest hunger.

He operated with a full kit of tools, which was understood to be used to prevent being detected. His operations were mostly confined to the houses in which he worked.

When the first news of the disaster reached Sydney, the Dominion Coal Company's steamer *Carolina* was despatched to the scene. After steaming about twenty miles from Sydney the *Carolina* sighted the upturned vessel about three-quarters of a mile or nearly five miles east of where the upset occurred. There was no sign of life on board.

Death by Drowning.

Brantford, Aug. 15.—Civie Holtin, 12 years old, son of Frank Holtin, resident at Mohawk Lake, near the city, by which Thomas Smith, 88 years old, was drowned. In company with several friends he went on a trip in the afternoon, and while sitting on the pier fell overboard. Before assistance could be rendered he sank to death.

Drown in St. Clair River.

Barnes, Aug. 15.—Samuel Kimberley, age 28, son of Frank Kimberley, owner of the Hamiton Street and Irene St., fell into the river from a small boat while attempting to attach a line to the tug Argyle in the St. Clair River yesterday. The body was recovered in the afternoon.

Drowning in New Dundas.

New Dundas, Aug. 15.—While a number of young boys from ten to fifteen years of age were bathing in the mill pond at New Dundas, John Joseph and Tom McDonald, residents of the town, with his cousin, got beyond his depth and was drowned. He was 18 years old.

Bored in Carboy of Acid.

Montreal, Aug. 15.—John Lyons, a 16-year-old boy, was bored in a carboy of sulphuric acid yesterday morning. He was boring a hole through a ceiling at the Canadian Rubber Co.'s factory in order to metal mounting brackets and all the time was holding a carbon bar over his head. The barbs cut all over his face and body, inducing terrible burns, and also slightly injured the other workers nearby. Lyons will recover fully if he is buried at once.

Woodstock Man Injured.

Deford, Aug. 15.—John Elson, 18, of Woodstock, Ont. was struck by an engine yesterday while crossing the tracks at a level crossing. He was removed to Huron Hospital, where he was found necessary to amputate one foot.

Hit by Steel Bullet.

Bethel, Aug. 15.—Mrs. James E. Murphy of Bethel, was buried yesterday in the cemetery at the home of her son, John E. Murphy, 20, of Bethel. Mrs. Murphy and one son, J. W. F. Cole of Bethel, Murphy, died in a fire at the home of her son, John E. Murphy, 20, of Bethel.

## VILLAGE ENGULFED

Its Indian Population Overwhelmed By Landslide.

IT IS FEARED LOSS IS LARGE

Not Yet Known How Many Lives Were Wiped Out — Slide Took Place at Thompson River Near Ashcroft, B.C.—Thompson River Blocked By An Enormous Mass of Earth and Stones.

Ashcroft, B. C., Aug. 14.—A terrific landslide occurred Saturday at Thompson River, near Ashcroft, B. C., yesterday afternoon. An Indian village with its population was overwhelmed. It is not known how many lives were wiped out, but it is feared the loss is large. Thompson River was blocked by an enormous mass of earth and stones and the face of nature for some distance around the scene of the slide is so altered that it is difficult to recognize the country.

Two Boys Blown Up by Powder.

Winnipeg, Aug. 14.—Two boys, Carl Kerr and Robert McLaren, aged ten and twelve respectively, were playing with powder yesterday afternoon, when it exploded with terrific force, blowing and bursting almost every vestige of clothes from their bodies. They were taken to the General Hospital suffering terrible agony, and McLaren died there last night as a result of his burns. Kerr has a fighting chance for life.

A double drowning.

Chatham, Aug. 14.—A drowning accident occurred Saturday night near Jennette's Creek & a few miles west of this city, when Jos. Larish and son were both drowned. It seems the son was rowing when in some manner the boat upset. The father, hearing the lad's cries for help, rushed to his assistance. In his attempt to save him he became exhausted, and both went down.

Killed by Team of Cots.

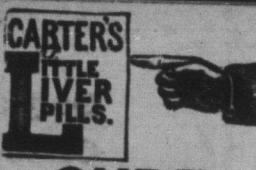

Bracebridge, Aug. 14.—Archie Johnson, aged 18, adopted son of James Campbell, who lives near here, was killed yesterday by his team running away and throwing him out.

Breaks Neck in Fall.

Sault Ste. Marie, Aug. 14.—Guilliano Martino, an Italian, employed in the blast rooms of the Algoma steel plant, was overcome by gas and fell from a platform 15 feet high, breaking his neck, dying instantly. Two other men were also overcome and escaped with slight injuries.

Nothing on the Market Equal to Chamberlain's Colic, Cholera and Diarrhoea Remedy.

This fact is well known to druggists everywhere, and none out of ten will give their customers this preparation when the best is asked for. Chamberlain, a prominent druggist of Joplin, Mo., in a circular to his customers, says: "There is nothing on the market in the way of patent medicine which equals Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. We will and recommend this preparation. For sale by all druggists."

### Cure For Consumption.

Washington, Aug. 14.—Dr. Quinton of Paris, according to United States Consul-General Guenther, at Frankfort, Germany, has discovered a cure for consumption and has communicated his discovery to the Paris Academy of Medicine. The cure is a simple sea water solution given in extracts of patients suffering from other diseases. The value of the discovery appears to be, however, in the exact amount of salt and liquid.

Japan cannot afford to let Russia have the financial operation. Japan might have a considerable portion of her claims for the "expenses of the war" liquidated. The Royal Commission on Fisheries and electric power, accompanied by Hon. Mr. Smith, spent the day in Port Williams and Port Arthur. At Port Arthur they were taken in hand by the company at the municipal electric committee and learned the power plant at Current River, the telephone and telegraph system, and heard arguments why the government should give a franchise for some considerable water power to the town, thereby ensuring control of rates based on the actual cost of production. They were entertained to dinner last evening and left for the coast on the night train. They will investigate the Lake Nipigon power.

Trips to Wreck a Train.

Port Williams, Aug. 14.—One of the most dangerous trips to a wrecked train in the history of the Canadian Pacific was made between the hours of 9 and 10 o'clock Saturday night, when a person as yet unknown placed an iron bar across both rails of the C. P. R. line about one mile from Port Williams station. The iron bar was not broken, but the train, which had been running at full speed, was stopped by the obstruction and was wrecked. The engine was cut off and the train was left for the east on the right track.

Painted Sessions.

Both sessions of the conference yesterday are described as being serious. There were several slight jars, but none of them were serious. The plenipotentiaries are showing admirable temper. The change in the weather may be partially responsible for the serenity manifested by the conference.

China's Interests Secured.

A Japanese authority said last night: "The integrity of China is assured if the treaty of Washington is signed, as Japan has insisted that this point be set forth in language that can neither be denied nor accepted." The Japanese policy, which on this subject is at all times in line with the Hay doctrine, will find a more vigorous expression in the treaty of Washington."

Peace Prospects Bright.

Never since the envoys gathered here were the prospects of peace as bright as they are now. This statement is not a mere boast, but is based not only upon the fact that the two plenipotentiaries have reached the stage of discussion. In itself a most hopeful sign, but upon the knowledge that Russia is engaged, though her efforts to release herself, which, if successful, would enable her to pay an indemnity.

Japan.

Norfolk, Va., Aug. 14.—China is preparing five million francs, paid by the French Government against Yunnan, has been allowed by Redon, French Minister of Foreign Affairs, to whom the two countries have referred for a decision. Redon has agreed to submit the question to the Chinese Foreign Ministry.

New Cable To Be Laid.

Montreal, Aug. 14.—The Newfoundland Government and the Canadian Pacific were agreed to lay a cable from Canada to Paris and Bangkok.

The cable steamer Colonia is to leave the port of London to Calais with 1,000 miles of cable on board, as well as the one for the Newfoundland Government.

Venezuela Must Pay.

Montreal, Aug. 14.—Colombia is reported to have agreed to pay £100,000 to the French Government against Venezuela.

Colombia, which has been refused by the French Government, has agreed to pay £100,000 to the French Government, which has been refused by the French Government.

RAIN COVERED 4 INCHES.

Rain Storm Had Wide Area—Lake Traffic Generalized.

Toronto, Aug. 10.—Yesterday's rain storm was accompanied by one of the heaviest rainfalls in the history of the observatory. It covers a wide area, including Lakes Ontario and Erie, the State of New York and the Atlantic seaboard. No rain is recorded at Guelph, the entire Kitchener and the Waterloo district has escaped entirely. The record is a trifling over four inches, the greatest approach to this being at Guelph where 1.10 inches and a half inches was recorded yesterday. The officers preserved order among the passengers. None were injured.

Report of Provincial Treasurer Shows Increased Earnings.

Toronto, Aug. 10.—Hon. A. J. Matheson, Provincial Treasurer, reports that the net yearly earnings of the Winter Haven Navigation Company for April, May, June and July have averaged 25,000 per month.

The road was taken over in January from the contractors, and the receipts of the road for January and February were 10,000 per cent. higher than for the previous year.

Now the construction is completed in March the receipts for that month were 35 per cent. above average while for the past month receipts have exceeded the monthly by more than 45 per cent.

### 2 MEN IN GREAT SUFFERING

Bellini, an Italian Laborer on James Bay Railway Dropped the Stone, and Explosion Followed—Scotman, Another Italian, Was Totally Blinded, and Bellini Was Badly Injured About the Legs.

Toronto, Aug. 16.—Totally blinded and otherwise injured, Philip Bentham was admitted to the General Hospital last night. With him was Dominic Bellini, fearfully cut about the thighs and legs, and both men were in great suffering.

They are Italian laborers. One of them dropped a stone containing a dynamite cartridge, and the missile hit them that were not blown to pieces.

The accident occurred Monday after-

noon, twelve miles north of Gravenhurst, the new line being constructed for the James Bay Railway.

Bentham and Bellini were among a gang of workmen who had been blasting. Bellini picked up a stone which had been drilled and contained a stick of dynamite which had not exploded. He was carrying the stone away when he dropped it, with the result that an explosion occurred and the flying stone cut up his body and blinded Scotman.

Both men were too badly injured to be sent far before receiving medical attention. Yesterday afternoon they were put on the Manitoba Express en route to Toronto. The ambulance took them to the Union Station and took them to the General.

DR. TAIT IN RAILWAY ACCIDENT WHILE RETURNING FROM CHICAGO.

### HAD EVENTFUL TRIP.

DR. TAIT IN RAILWAY ACCIDENT WHILE RETURNING FROM CHICAGO.

Dr. Tait returned home on Monday afternoon after an absence of ten days, during which time he visited St. Joseph and Kansas City, Mo., and Chicago.

The return trip was an eventful one and will not likely be soon forgotten by the doctor. He left Chicago at 10:30 a.m. yesterday night, and arrived about twenty miles out of the Windy City, the engine was derailed by the breaking of a truck. The doctor was in the tail of the train when the accident occurred and he experienced a rude awakening. When the doctor peered out of the window of the side of the track excitement reigned on the part of the passengers. The doctor was the only one who was not injured. The train was stopped and the doctor was sent to the hospital.

Citizens will learn with much satisfaction that the contract for the erection of the Ingersoll Nut Co. building has been awarded, the tender accepted being \$9,250, which is \$1,250 in excess of the amount called for by the agreement with the corporation. The well-known firm of Nagle & Mills have the contract and commenced work today. The work will be rushed along as rapidly as is possible with first-class workmanship, and it is expected will be completed in two months. Mr. Stewart McPhail of Hamilton is the architect, and he has had considerable experience in supervising the construction of many of the new factory buildings in the Ambitious City. The dimensions of the main building, which will be one story, are 50x151, with engine and boiler rooms attached. The shop will be entirely without posts, the roof being supported by trusses. Two-thirds of the floor will be made of maple and the balance cement. The lower portion of the building will be of red brick. Immediately above the entire length lies a 7-foot high whole length of the building. This will be a large room containing a plan for a large hall. The plan calls for elaborate features in its construction will make one of the finest factory buildings in Western Ontario. As was mentioned in the Tribune recently, the building will be erected on the site at the corner of Carnegie and Mutual Streets, which is a most desirable one, being close to the G. T. R. The building will be constructed of the red brick of the lot. This course is being followed out of confidence that the business will grow rapidly and necessitate an addition to the building, which can be made by extending from the front. The Nut Co. expect to have their machinery installed and in operation by December 1st, the date mentioned in the agreement with the corporation.

(With the contract for the construction of the building in the capable hands of Nagle & Mills, it goes without saying that no time will be lost in getting the work started.)

LOWE'S—OWEN

Chicago Tribune, Friday, Aug. 11:

At the residence of Mr. and Mrs. Edward Wisdom, Jr., 5485 Ellis St., Mrs. Wisdom's sister, Miss Matilda Lowe's Owen, was married last evening to Dr. Charles Ernest Lewis.

The Rev. Edward Judson of New York, performed the ceremony at 8:30 o'clock. The bridal couple started off in an improvised sled of pine and white aspens. The bride was attended by Miss Kathryn A. Webster, maid of honor, while Mr. Webster, father of the bride, was best man. There were also two flower girls, Gracie Beatrice Van Parys and Gladys Adele Langhurst, nieces of the bride. After the ceremony an informal reception was held and the newly married couple left for a wedding journey which will take them through the west and to Canada.

Mr. and Mrs. Lowe took their depar-

ture via steamer on the 12th inst.

for a pleasure trip through Cana-

da. The groom is an Ingersoll boy and will stop here before re-

turning to Chicago.

### THE WEATHER.

Toronto, Aug. 15, 8 p.m.—In the Northwest Territories and Manitoba thunderstorms have been experienced. The weather there has been for the most part moderately warm. An exceptionally heavy rainfall has occurred on the north shore of Lake Ontario. Today was recording 3.68 inches. Rain has also fallen heavily in Eastern Ontario and over the western portions of Quebec.

Probabilities—Lower Lakes and Georgian Bay Moderate to fresh winds, mostly northeast, fine and a little warm.

### THOSE ANNOYING BLACKHEADS.

External application will never remove them or blackheads. Only by extracting skinheads and plucking them away from those pores can they be removed. The best way to remove them is to extract them from the skin head by head, using a sharp needle. You will have a smooth, delightful skin, healthy color and beautiful complexion.

### CONFERENCE NEARS CRISIS

Articles Upon Which a Rupture is Feared—Seven Remaining Articles Are More or Less Objected to By Russia, Two of Them Absolutely—Cession of Sakhalin Passed For Later Consideration.

Portsmouth, N. H., Aug. 16.—The crisis in the peace negotiations upon which the eyes of the world are fastened is apparently approaching. Two more of the twelve articles Nos. 1 to 12 were disposed of yesterday. Article 4 consists of mutual pledges to observe the integrity of China and the policy of "open door" for the commerce of all nations. Article 6 covers the cession of the Russisch Port Arthur, Liao-tung Peninsula, Port Arthur, Dally and the Bloude and Elliott Islands.

To article 4 both parties gave ready assent, and the official statement of the adoption of that article took care to state that it was agreed to "unanimously."

Article 5, the consideration of which postponed until later, provides for the cession of the Island of Sakhalin. Discussion, appearing useless at this stage of the conference, was suspended.

Article 4 consists of mutual pledges to observe the integrity of China and the policy of "open door" for the commerce of all nations. Article 6 covers the cession of the Russisch Port Arthur, Liao-tung Peninsula, Port Arthur, Dally and the Bloude and Elliott Islands.

To article 4 both parties gave ready assent, and the official statement of the adoption of that article took care to state that it was agreed to "unanimously."

Article 5, the consideration of which postponed until later, provides for the cession of the Island of Sakhalin. Discussion, appearing useless at this stage of the conference, was suspended.

THE REAL TEST

Of Hosiery is Giving It a Thrash.

There is nothing more difficult for a judge of the offensives of an article than to be told by its author that which it is intended to do. Many a hosiery may look nice and elegant but the great trouble they create is to stand and stop falling apart.

So, they do their best. However, it seems to this root of the evil and kills the germ that attacks the garment from whence it comes.

Let me present people everywhere as to why we make it a rule to keep Chamberlain's Celite, Chelors and Diaphores Remedy at hand know this to be a fact. For sale by all druggists.

Brownfield Expositor: All arrangements for the big chess tournament to be held in the public library on Aug. 20 are now completed satisfactorily. It is anticipated that the tournament will be an interesting one, since many skilled players from outside points are coming to the city.

While watching over touring down an iron railing on the veranda of the American hotel at Brownfield Monday forenoon a large piece of wood from the porch overhead struck him in the head and fell to the ground.

No, they do their best. However, it seems to this root of the evil and kills the germ that attacks the garment from whence it comes.

There was no improvement shown by the meeting to the suggestion of the members of the Niagara Falls, N.Y., Chamber of Commerce, that they desire to give the greatest amount of the fruits of production, an idea bounded as conceivable.

There was no improvement shown by the meeting of business men of Philadelphia, however, to the mounted troops sent to apologize to the same public number to be made changes against the association.

A WARNING TO NIAGARA.

The schools should be used to teach the young ones how to wash clothes and wash dishes. This is a good way to teach them to wash clothes and wash dishes.

"It is said that early pouches are now selling in St. Catharines at 20 cents per dozen and that they will be longer than regular," commented Mr. Daniel, "but I am afraid that they may be selling them, but I don't know what price, for the new books and the teacher grade of pouches.

### HORRIBLY MANGLED

Awful Death of Brickyard Owner in East Toronto.

### FELL INTO PUDDLER'S MOUTH

Revolving Knives of Machine Dragged David Chapman To Death Crushing Bones and Flesh—Breathing When Removed From Octopus-Like Clay Grinders But Died Before the Doctor Arrived.

Toronto, Aug. 15.—Drawn to his death upon the revolving knives used in the brick-making plant of David Chapman, one of the best known men in the County of York, was killed yesterday morning at his own brick yard.

Mr. Chapman owns quite a large brick yard in the York townsite, a short distance from the city of Toronto.

It was his custom to supervise operations there himself. Yesterday morning he was at his work as usual, and was engaged near the big puddler machine.

Besides the owner one of the workmen, who was adding for fuel, instructions regarding some work which was about to be done. At that moment a small truck came hurtling down the small railway used to convey the clay to the brick yard. The workman stopped aside to avoid it. He was in time. The car struck the employee in the back. This threw him violently against Mr. Chapman who half fell and half ran after him. In so doing he lost his balance as did the workman, and together they fell into the open mouth of the puddler.

Within were a dozen rapidly revolving knives which were used to grind the clay as soon as it was dumped from the small cars. They are so sharp that their immense force is death to any living thing that would be thrust upon them.

Mr. Chapman falling upon the knives, secured most of the space within.

In the puddler there is about the size of a bath tub. The workman was not in contact with the knives, but served as a weight to further the deadly work. The absence of clay in the hopper which might have served as a protection to Mr. Chapman had it been there, but further added to the effect of the knives.

Slowly but surely the machine dragged Mr. Chapman down, crushing flesh and bones.

When Chapman, when he saw the danger and what had happened, leaped from the prostate form of his employer and called to the man in charge of the plant to shut off the machinery. It was too late.

He was severely cut and bruised.

He was carried to the hospital where he died.

Mr. Chapman is survived by two sons and three daughters, being predeceased by Mrs. Chapman some seven years.

Shot By His Brother.

Toronto, Aug. 18.—Louis Hawkins, son, shot his 11-year-old brother, Roy, yesterday afternoon. The two were playing with a revolver. It was accidentally discharged and the bullet entered Roy's mouth, passing through his cheek bone. The injured boy was brought to the City Hospital here. He will recover.

From Beavermead, heard a rumor yesterday that that his 34-year-old son, Harry, who was employed by a railway conference at Beavermead had cut his throat. The father left for Barrie in the afternoon, after telephoning and finding that his son still lived.

Kicked By a Horse.

Toronto Junction, Aug. 18.—W.H. Rogers, the little four-year-old son of Ben Cates, was playing on Whitchester street yesterday afternoon, when a horse, which was running at large, struck him in the forehead, breaking a bone. A child of three hours in length and lying bare the bone protruded. The child remained unconscious throughout and it was found necessary to admit the youngster in order to attach the wound. It is believed that the boy will recover, although his escape from instant death looks like a miracle.

A child of three hours in length and lying bare the bone protruded. The child remained unconscious throughout and it was found necessary to admit the youngster in order to attach the wound. It is believed that the boy will recover, although his escape from instant death looks like a miracle.

Toronto Junction, Aug. 18.—W.H. Rogers, the little four-year-old son of Ben Cates, was playing on Whitchester street yesterday afternoon, when a horse, which was running at large, struck him in the forehead, breaking a bone. A child of three hours in length and lying bare the bone protruded. The child remained unconscious throughout and it was found necessary to admit the youngster in order to attach the wound. It is believed that the boy will recover, although his escape from instant death looks like a miracle.

**HEALTHY PLANTS**

Require the Most Careful Attention as Well as Good Soil

Did you ever see a crooked which requires the most careful attention of soil and manure? and of a healthy plant? It is a fact that a plant that has a crook will not help a plant that has a crook, eating out its heart.

You must destroy the same before you can grow a straight one.

Two crooks over hundred feet distance to rubbing on hair lotion, and putting in carbonite.

Too much heat to the same of the same, or in a place of the roots of your hair which grows it to fall out.

Sold by leading druggists. Send 10 cents in stamps for sample to The Ingleside, 100 Main Street, Wm. H. Smith, Chemist, General Agent, Ingleside.

**Three Years in Prison.** Toronto, Aug. 18.—Three years was the sentence passed by Mr. Justice on a set of men, named Shattock, for breaking into the home of Mr. and Mrs. George Shattock and \$1000, the property of Mr. Harry Woodcock, who is the son of Mr. Shattock's wife. There was a court of inquiry into the conduct of Mr. Shattock's master, Mr. John G. Shattock, who had been held in custody for three years.

### ONE WOMAN'S WORK.

NURSED HER WHOLE FAMILY THROUGH THE SMALLPOX.

Port Elgin, Aug. 19.—The entire family of Henry Farrier, mother, excepting the mother, have been attacked by smallpox. Mrs. Farrier nursed them all through it successfully, practically without medical attendance, as its existence was known for some weeks. Mrs. Farrier was forced to confine herself to keep away, although she did not know what the disease was. In order to keep life in the stock during the illness of her husband she carried hay in bundles on her back through mud, rain and water for a considerable distance.

**\$100 REWARD.**

The readers of this paper will please to bear in mind that there is at least one drowsy disease that no one has been able to cure in all its stages, and that is narcolepsy. Hall's Carbolic Cure is the only positive cure known to date to the medical profession. Careful home treatment, diet, exercise, respiration, & magnetotherapy treatment. Hall's Carbolic Cure taken internally, acting directly upon the blood and nervous systems of the organism, destroying the foundations of the disease and giving the patient strength by building up the constitution and removing fatigue in doing his work. The proprietors have no outlet but in their practice, and they are offering other services for any money that it takes to do so. Send for list of practitioners. —F. J. CHERRY & CO., Toledo, O.

## SHOCKING ACCIDENT

Ludwig Miller Falls Into the Cylinder of a Thresher.

## DEATH WAS INSTANTANEOUS

Victim of Grain Separator Was the Son of a Farmer of Logan Township—Arm Severed From His Body and His Skull Knocked Off—Fatality Occurred at a Neighbor's Bee—Other Accidents.

Stratford, Aug. 21.—On Friday evening, Ludwig Miller, a young man about 30 years of age, residing in Logan Township, about two miles from Stratford, met a terrible death by being drawn into a threshing machine, his arm having caught on a sharp metal while feeding an armful of peas. His arm was severed from his body, and the top of his skull knocked off, death coming almost instantaneously. The fatality occurred at a neighbor's, where the unfortunate young man was assisting in the threshing.

James Palmer Struck by Train When Coming Home From Picnic.

Toronto, Junction, Aug. 21.—The body of James Palmer, stonecutter, 611-8 St. David street, was found lying in the ditch at the C. P. R. crossing on Dundas street, Lambton Mills, yesterday morning. The dead man's skull was fractured and his right arm was broken in two places. It was quite evident that he had been struck by a passing train probably the 8:30 p.m. C. P. R. express from the west.

Dr. Emerson Bell examined the body and had it removed to Cummings & Co.'s undertaking room at Toronto Junction.

A paper found in the dead man's pocket led to his identification. It appeared to be the annual picnic given by the Stratford Union, at Stratford, a nightwatchman at the T. H. Taylor house, was surprised to find a narrow escape from being instantly electrocuted Saturday afternoon. The heavy rain broke an electric wire on Dahlberg street, which McFarlane grasped. He was knocked flat and taken up for dead. He may recover.

Grabbed a Live Wire.

Brantford, Aug. 21.—David McFarlane, a young man, 19 years old, had a narrow escape from being instantly electrocuted Saturday afternoon. The heavy rain broke an electric wire on Dahlberg street, which McFarlane grasped. He was knocked flat and taken up for dead. He may recover.

Caught in Fierce Gale.

Three Fishermen of Bayfield in Pursuit of Calling Down.

Goderich, Aug. 21.—On Saturday morning three fishermen, Fred Ferguson, Wood and Bailey, all residents of Bayfield, 11 miles south of Goderich, while out raising their nets, were caught in a fierce gale that suddenly sprang up and were blown down into Lake Huron.

Hurty yesterday morning says they started out with the fishing boat Evelyn to search the lake for their basic and Conlon contractors, who had broken the breakwater here, sent out their tug the Edward Blane, and the Marion Dragging Co. sent out the tug Huron.

During the afternoon a son of one of the men who was being searched disappeared, having walked along the lakeshore from Bayfield, reported having picked up an oar and fish net.

Last night Capt. William McCafferty of the Edward Blane just reached Bayfield with the fishing boat in tow. The boat had been picked up at 4 o'clock yesterday afternoon, six miles west of Bayfield.

It is now reported that the body of Ferguson has been found.

Port Elgin, Aug. 21.—Near Ottawa, Ontario, Aug. 21.—John Steiner, 20 years old, was drowned Saturday afternoon in the Ottawa River at Waterton. He was swimming and took a swim. A comical dog, Goodell, dove a plough into the water, and Steiner, who had been swimming, was pulled under.

The body was recovered by Mr. A. B. Best, Fire Department Officer of Waterton.

## NEW BOND OF UNION

Privy Council Might Be Developed in This Direction.

HON. E. BLAKE AS A MEMBER

## CURE

Canadian Views Said to Have Been Brought on Question of Colonial Representation—Col. Lake Satisfied.

Sends Favorable Report on Canadian Militia—Highlanders As- sociated With the Regulars.

London, Aug. 22.—(C. A. P.)—The Morning Post, discussing the manner in which the Privy Council might be developed as a bond of union, deals with the question of a resident Colonial Judge. The author's objection to this is the fact that distance would prevent them from visiting their own countries, thus defeating the main object of the appointment. That objection, however valid in Australia, does not apply to Canada. We are not sure if the Canadian would be appointed as a specially selected resident representative of the calibre of Hon. Edward Blake, for example, for certainly he would enhance the confidence of his countrymen. The Morning Post understands that expressions of colonial opinion on the subject have already been officially invited.

COL. LAKE SATISFIED.

Sends a Favorable Report on the Canadian Militia.

London, Aug. 22.—(C. A. P.)—Col. Lake reports very favorably on the Dominion forces and their organization is almost complete. The militia under the new system is admirably fitted for the requirements of peace or war. This is mainly due to the cordial co-operation of the Minister of Militia.

Col. Lake has now accepted a three years' appointment for the general staff.

With the approval of the King the army council has sanctioned an arrangement by which the three regiments of Highlanders will be maintained at full establishment, and the Canadian active militia will be directly allied with three Highland regiments of the regular army.

The battalions are the 5th Royal Scots, with headquarters at Montreal; 5th Highlanders at Toronto, and 91st Highlanders at Quebec.

These will be associated respectively with the Black Watch, the Gordon Highlanders and the Argyll and Sutherland Highlanders.

Dear Protectionist Job.

London, Aug. 22.—(C. A. P.)—The Daily Chronicle quotes a dispatch from its Toronto correspondent stating the amazement is the only word to describe Canadian feeling regarding the appointment of Lord Minto to the Viceroy as he is not considered big enough for his job. The Toronto World's editorial is quoted to illustrate this:

### ONTARIO RIFLEMAN.

### "HOPE IS ETERNAL"

Begin Auspiciously But With Fewer Attending Than Last Year.

Long Branch Rifle Range, Aug. 22.—Nearly 300 marksmen faced the targets yesterday at the opening of the Ontario Rifle Association matches. There are not so many as last year by forty. It was a whist day bright light that was the bane of the marksmen, but the wind was strong from the southwest, and during the early part of the day was gusty, getting steadier, but blowing hard during the afternoon. All this taken into consideration, the shooting was considered very good.

In the Canadian Club match at 400 yards, Q. M. R. Dymond, Canada R. of M., did some beautiful shooting, scoring seven successive bull's eyes and winning the team prize. The Queen's Own team was scored on the sixth shot. Sergt. Gould, who came next, made six successive bull's eyes and finished up with an inner.

In the Canada Company match the statistical record is unable to name the winners of the match, but the scores were \$25, \$29 and \$15, respectively, as the score cards of three members of the Queen's Own team were not turned in, and they could not be located last night.

Events of importance succeeded each other rapidly here yesterday. On an early morning train Baron Kaneko, a confidential representative in this country of the Japanese Government, arrived.

Oyster Bay, L. I., Aug. 22.—President Roosevelt has not abandoned hope of a successful issue of the peace conference. He has not relaxed either his efforts to prevent a rupture between the conferences when they reconvene to-day, or his desire to keep the peace.

**HIGHLAND BAND**

ONE OF THE SEVERAL HIGH-  
CLASS ATTRACTIONS AT THE  
WESTERN FAIR.

After completing an extensive tour of the United States and Canada, the management band of the Flatiron Hotel Band has been invited to appear at the Western Fair. Their chief conductor is a member of the Fair Management, will be compensated there can be no doubt. The band is composed of forty-five men, mostly young musicians on their twenty-second tour, having played every city of the United States where it played, was accorded an ovation.

The young musicians are of the most high class. There include Leipzig, the girl in a stage automobile, by Moon, Dutton, and others, and some of the best in the world. Many a ready cheering back was won by John Hopkins, recently come to St. Thomas, regarding a newcomer third who made a big local hit.

The entertainment was:

"Ming," from John Lovett, at Ingersoll, on August 20, was very good, 4 or 5 years old, small size, 15-18 Septes high, weight 1,000 pounds.

"The Girl in a Stage Auto," new buggy, motor-driven, made in Chicago, with all-weather harness and keepers, one silver water, running true, and makes strong road.

"The Girl in a Stage Auto," bright, dark complexion, and especially French, thought to be Herbert Gowen.

The young conductor is working on the same.

**\$100 REWARD.**

The readers of this paper, will be pleased to know that there is a reward of \$100 offered to anyone who can bring to justice all the stages, and that is offered. Harry G. have been vexed when using cream of tartar and soda to find their work uneven. If sometimes good, at others the biscuit and cake will be heavy or sour or full of lumps of soda that set the teeth on edge. Flour, eggs and butter wasted. This is because the cream of tartar is adulterated or cannot be used in the proper proportions.

**WHERE LUCK WAS LOST.**

In trying to take short cuts to success.

In looking on the dark side of everything.

In overconfidence born of a first easy victory.

In not working to a plan or programme.

In not being ready for the opportunity when it came.

In sampling every kind of investment scheme that came along.

In dreaming of great things instead of doing the little ones at hand,

In being so disagreeable and selfish that they could not make friends.

In waiting for somebody to help them or give them a boost or for some uncle to die.

In refusing to take the positions they could get because they did not know whether they would like the work or not—success.

Chief Japanese Envoy Said to Have Agreed to Make the Offer to the Russians — Encouraging Signs Are Many and Interest Revives in the Probabilities — Outline of the U.S. Plan.

Portsmouth, N.H., Aug. 22.—(2 a.m.) It is stated that Baron Konurus at the session at 8:30 o'clock this morning has agreed to offer the President's compensation proposition.

**Russia Ready Comes.**

A long cable message from St. Petersburg, which is believed to be the Russian reply, arrived at 10 o'clock last night, and M. Witte's secretary, M. Nabukoff and M. Plancou, immediately began deciphering it.

It is believed that the original Russian's reply is of such a nature that it must be accepted with all reserves. The lights in the rooms of M. Witte and Baron de Rosen were burning long after midnight.

**President's Plan.**

The suggestion of President Roosevelt for breaking the existing deadlock in the peace negotiations and reviving the conference from failure, tersely stated, consists in an agreement by both parties to repudiate the possession of either all or part of the island of Sakhalin, now in the military possession of Japan, for a sum the amount of which, if the two countries cannot agree, shall be decided by some method of arbitration, hereafter to be determined by the Japanese, together with the sum the Japanese receive from the cessation of the Chinese Eastern Railroad and the maintenance of the Russian prisoners in Japan.

This incident is independent of the Franco-German controversy regarding the proposed international conference. Indeed, it is known that Germany appears only on the condition that the Russian people be given immediately all civil rights, freedom of the press, freedom of speech and meeting and inviolability of person, and urged that to restore the complete calm of the Douma as the first step towards participation of the public in the work of legislation, but that it fully realised that a national Government was possible only on the condition that the Russian people be given immediately all civil rights, freedom of the press, freedom of speech and meeting and inviolability of person, and urged that to restore the complete calm of the

THE greater body and richness of Indian tea when combined with the delicately flavored but thinner tea of Ceylon, produces that "rich fruity flavor" of Red Rose Tea—a tea that is strong and goes further—requires less to make a cup of equal strength than any brand of Ceylon tea alone.

would be far wiser to sit quietly down and try to exercise his right, but his mind was a perfect chaos; his head ached, his temples throbbed, his nerves tingled in every portion of his body, and to think calmly in such a state was beyond his power.

"That was the name of the sister whom Mrs. Watson had told him he would send with her post," said the celebrated physician and no companion of foot play.

"And who are you?" he asked, smiling at the fair face before him with some interest.

"My name is Palmer," Ray answered.

"I am the son of Amos Palmer, a jeweler of this city."

Tommy Watson glared keenly at him, but his eyes were dim with weariness.

"And where is Palmer?" he asked, mirthfully in his madness to make him deny his own name.

"My name is Palmer," Ray answered.

"I am the son of Amos Palmer, a jeweler of this city."

This impression grew upon him again that he began to look searchingly about the room, but his eyes were dim with weariness.

"I will order my carriage, for

of course you must eat quickly, and we will try our best to relieve you of the stinking snot.

"To be continued."

Once meeting that gaze he could not seem to turn away from it, and he began to feel very strangely—to experience a sense of weariness, something almost to exhaustion, then a feeling of drowsiness, as if sleep overcame him, and suddenly rebellion against the cruel fate that had so suddenly overtaken him appeared to be gradually growing in his mind, and he could only think of death.

"To be continued."

He turned to the window, and suddenly the scene before him was like a dream.

"It was as though he was

stepping forward and entering the room beyond, when the door was opened, and the doctor stood before him, and the sound of his voice was like a whisper.

"A cry of indignation and dismay burst from him as he sprang forward, but his eyes were dim with weariness, and he could only think of death.

"To be continued."

He sprang by the back door, and suddenly disappeared to be instantly replaced.

There was no reply—there was

no movement—in the other spirit.

He was suddenly apprised of the fact that he was in the power of an organized gang of robbers who were endeavoring to murder him out of the world, and that he would soon be the victim of their fate.

He felt that he had seen enough.

He had seen enough to know that

the man he was looking for was

the man he was looking for.

He turned to the window, and

the scene before him was like a dream.

"To be continued."

He was suddenly aware that

the glass doors were open, and

the room was dark and silent.

grown in 1905 gave only 7.2 and 8.7 bushels per acre. Winter rye was a reported failure at the college. The hairy or winter rye produced an average yield of 16.3 tons of green crop per acre in the experiments for four years and of 7.6 bushels of seed per acre in the tests for five years.

### RESULTS OF CO-OPERATIVE EXPERIMENTS

In the co-operative experiments conducted throughout Ontario in 1905 under the direction of the Experimental Union, the varieties of winter wheat gave the following average yields of bushels of green per acre: Durum's Gold, 22.1; Imperial Amber, 21.7; Buda Pesth, 21.1; Turkey Red, 20.3; and Banatka, 19.4. Winter rye gave an average yield of 24 bushels per acre, while barley was badly winter killed throughout the province. Hairy rye and winter rye gave 8.1 and 7.6 bushels of green fodder per acre respectively.

### DISTRIBUTION OF MATERIAL FOR EXPERIMENTS

As long as the supply lasts, material will be distributed free of charge in the order in which the applications are received from Ontario farmers wishing to experiment and to report the results of any one of the following tests: 1. Fallow vetches and winter rye vs. fodder; 2. Hairy rye and winter rye vs. winter wheat; 3. Fallow vetches with winter wheat; 4. autumn and spring applications of nitrate of soda and common salt on winter wheat; 5. two varieties of winter rye. The size of each plot is to be one rod wide by two rods long. Material for numbers 3 and 4 will be sent by express and that for the others by mail. C. A. Zavitz, Ontario Agricultural College, Guelph, Ontario.

### DEATH OF MRS. MANN.

PASSED AWAY AT ST. THOMAS AFTER A LONG ILLNESS.

Many friends in Ingersoll will learn with profound regret the death of Mrs. Amelia A. Mann, which occurred on Tuesday morning at St. Thomas. The late Mrs. Mann was a sister of Mr. Charles White, manager of the Imperial Bank here, with whom she resided for some time up to two months ago. The St. Thomas Times says:

"Mrs. Amelia A. Mann, widow of the late Jehiel Mann, a well-known banker in this city, passed away last Tuesday morning at the home of her mother. Her illness was very severe and protracted, and was borne with characteristic quietness.

Some four years ago she gave up her residence at the corner of Elmwood and Rosebery Place, and moved to Ingersoll. Two months ago she came to St. Thomas to visit her mother. On Sunday last she was about the house and the town, and the final attack was suddenly on her daughter, Mrs. Mann, who was unable to reach St. Thomas from Ingersoll before her mother's death. Mrs. Mann was a daughter of the late Dr. George Mann, police magistrate of St. Thomas for many years. Besides her mother, she leaves three brothers: Thomas H. White, of Bridgewater, N.S.; William White, of Grand Rapids, and Charles, manager of the Imperial Bank Ingersoll; and four sisters: Mrs. Capt. Norman Toronto, Mrs. W. Pringle, Chatham; Mrs. Charles Ambridge, Mexico City; Miss Caroline, wife of the Rev. Dr. Crowe, and two daughters, Mrs. J. B. Totten, Winnipeg, and Miss Marion of Ingersoll.

"The funeral takes place on Thursday afternoon at 4 o'clock in Trinity church, thence to St. Thomas cemetery."

THE JOURNAL

REMINISCENCES OF ST. THOMAS IN SCOTLAND

Reminiscences of the pre-Christian days of Baal worship and fire worship are still to be found occasionally in Scotland. A few years ago a traveler wrote:

"On the last day of the year, old style, which falls on Jan. 12, the festival of the 'clavie' takes place in Burghead, a fishing village near Forres. On a headland in that village still stands an old Roman altar, locally called the 'steor'. On the evening of Jan. 12 a large tar barrel is set on fire and carried by one of the fishermen round the town, while the assembled folk shout and sing. If the man who carries the barrel falls it is an evil omen.

The man with the lighted barrel, having gone with it round the town, carries it up to the top of the hill and places it on the 'steor'.

"More fuel is immediately added. The sparks as they fly upward are supposed to be witches and evil spirits leaving the town. The people therefore shout at and curse them as they disappear in vapor.

"When the burning barrel falls in pieces the flames catch and endeavor to get a lighted bit of wood from its remains.

With this light the fire on the cottage hearth is at once kindled, and it is considered lucky to keep this flame all the rest of the year. The charcoal is collected and put in bags up the chimney to prevent the witches and evil spirits from entering the house.

"The 'steor' like Roman altar is covered with a thick layer of tar from the trees that are lighted upon it annually.

"Close to the 'steor' is a very ancient Roman well and close to the well several rude but curious Roman sculptures may be seen set into a garden wall."

### TO DIE DECEMBER 20

Jury Finds Mary Hope Young Guilty of Murder.

### KILLED A LITTLE CHILD

Sentenced by the Judge to the Full Penalty of the Law, the Guilty Woman Reddened and Then Became Her Stoical Self Again—Whole Trial Occupied Only 11 Hours

—Shortest Trial in N. S.

Halifax, N. S. Aug. 24.—Mary Hope Young, charged with the murder of her 1-year-old May baby on June 19 last, was found guilty yesterday and sentenced to be hanged on December 20.

The trial, which opened Tuesday morning at 10 o'clock, is the shortest criminal trial ever held in this Province.

The evidence of both sides was taken, the jury charged, the prisoner found guilty and sentence of death passed about 11 hours, the actual time taken by the court.

The sentence pronounced the blood rushing to the prisoner's face and then retreating, leaving her the same pale woman who, during the time of her trial, had borne herself stoically.

The body of the little girl, it will be seen, was found dead in the woods, with her head and mouth gagged. A younger child similarly bound, was found alive.

DEFENCE OF FELIX DOYLE.

Alleged Murderer of His Mother Will Plead Insanity.

Brantford, Aug. 24.—Mr. A. L. Baird, counsel for Felix Doyle, accused of the murder of his mother, Tuesday, stated that insanity would be the plea he would offer in behalf of the prisoner at the coming trial. Doyle is confined in the county jail in this city and is loud in his protests of innocence. He holds to the theory that his mother was killed by tramps. It is not thought that the prisoner has any money.

Sent For Trial.

Toronto, Aug. 24.—George Pullman has been set for trial on a charge of manslaughter in connection with the death of Thomas Mahoney last March.

PRINCE LOUIS AT MONTREAL.

2,000 Citizens Meet Him at Afternoon Garden Party.

Montreal, Aug. 24.—The prince and princess have completed another day of travel and will leave the city today for Ottawa.

In the evening, accompanied by Archibald Brewster, the admiral vice-admiral of the Canadian navy, where they were warmly welcomed by the reverend gentlemen at St. Paul's.

The beautiful star was illuminated and when Prince Louis was leaving the organ played "God Save the King."

Prince Louis is 20 years old and was brought to St. Ignace.

COMMISSIONER FROM GERMANY.

To Investigate Fruits and Farming Industries in Canada.

London, Aug. 24.—Col. A. P. Morris, Canadian Agricultural Commissioner, has been sent by the German Government to inspect & demonstrate in Canada to report upon the agricultural and fruit farming industries.

Owing to all the accommodation on the Dominion Road Canada having been taken up by other commissioners the Germans will be detained at Liverpool for a week and will then proceed to the west coast of Canada.

Rev. Robert C. Welsh, formerly of St. George's Church, Bremerton, London, has sailed for Canada to take up his duties as general secretary of the British Foreign Body Society. He is a well-known writer.

Turnbull, who comes from Springfield, N. J., is 20 years old and was brought to St. Ignace.

RHODES SCHOLARSHIPS.

Toronto, Aug. 24.—In 1904, 100 scholars, the Canadian Rhodesian Rhodesians, of whom Mr. H. Bond of Mr. John Bond, son of Dr. Bond, editor of the "Globe and Mail," who was short of money, was chosen to receive the Rhodes Scholarship.

He is now a student at the University of Cambridge, England, and will graduate in 1907.

French Art.

There must be more vitality in French art as a whole than you would guess from a visit to the salons. Nay, there is. I do not say that it is necessarily everywhere. The great days are gone, but still, out of doors—in posters, in illustrations for the journals, in bijouterie, in the representation of shapes, even in the pictures in railway terminals—there are still signs that the plastic arts have a vitality in France, more vitality than with us. It is often vulgar enough, but at least it is bold.

### IN COURT OF APPEAL

#### The Eligibility of Christian Brothers to Teach.

#### TEACHING QUALIFICATIONS

Qualified Roman Catholic Teachers Said to Be Displaced by Ecclesiastic Appointees From Religious Educational Societies — Government Submits the Whole Vexed Question in a Stated Case.

Toronto, Aug. 24.—Is statutory qualification required? It applies to the public schools of Ontario necessary for teachers in the Roman Catholic separate schools of this Province? The question became a momentous one some time ago, when a lay member of the Roman Catholic Church in Ottawa obtained leave to teach in one of the separate schools who were not qualified, and who, he alleged, were forcing duly qualified Catholic teachers, who could not in consequence secure positions, to leave the Province. It was decided to submit the question to the Attorney-General of Ontario, and on the strength of the order-in-council, Mr. Thomas Mulvey, Assistant Provincial Secretary, has submitted a stated case to the Court of Appeal.

Commanded to Ascertain.

"I am commanded by the Lieutenant-Governor," he states in the preamble, which reached Osgoode Hall yesterday morning, "to ascertain whether the said certain religious bodies are eligible in the Roman Catholic schools of Ontario."

Continuing the document says: "Catholic religious communities are instituted for educational purposes, including Brothers of the Christian Schools, the Community of the Most Precious Blood, the Alma-haus and Seminary of Learning of the Sisters of Charity of Ottawa (commonly known as the 'Grey Nuns'), which in 1866, and for some years prior, were engaged in education of the people of Lower Canada, and upon the passing of the Roman Catholic Education Act in 1887 were exempt from examination as teachers in Quebec."

The Question to Decide.

The question for decision by the Court of Appeal is as follows:—"Are those who became members of these communities prior to the passing of the British North America Act in 1867 to be considered qualified to teach under the purposes of the Separate Schools Act, and therefore eligible as teachers in the Roman Catholic Separate Schools of Ontario, where such members have not received a certificate of qualification to teach in the public schools of the Province?"

The language of the stated case has been approved by solicitors for the Board of Trustees of the Roman Catholic Separate Schools, Ottawa, and five expert legal counsel of the Court of Appeal judges, have been delivered. The Court of Appeal will now decide.

DURAN WINN BOAT RACE.

Fifteen Boat Lengths Ahead for the Championship of America.

Toronto, Aug. 24.—Eddie Durnan of London defeated Tom Sullivan of London yesterday by 15 lengths in the sculling championship of America.

It was as pretty a race as ever contested for half the distance and then Englishman collapsed.

Approaching the turning stile Sullivan was leading by two lengths when he discovered that he was well out of Durnan's water, or 12 feet out of his course. Sullivan not only lost his two lengths lead, but two more on rounding and he was all in when they reached the finishing post.

The return journey was a procession and the eighteens were quick to learn what the result would be.

Durnan was greeted with whistles from the steamboats, boats from the banks and cheers from the myriads of spectators on land and sea.

Sullivan seemed game though tired, and he finished with a 27 chip, though far in the rear.

The time—29.55 & 4—was remarkably fast considering wind and weather, and Toronto Rowing Club men say that Durnan can easily do the course a minute better.

The race was a race between two perfect swimmers. Durnan had the longer reach, and probably put in his oars with greater force than Sullivan. Durnan had the more powerful stroke and thereby gained his advantage to the tune of a minute better.

Durnan's part of the stakes—\$1,000—was put up entirely by L. Salmon Stevens Wright turned over the \$1,000 to Mr. Johnson, who in turn transferred the entire sum to the club, along with \$500 he won in a side bet.

Teenager beat Handie the last American championship race over the same course in 18.24, though it was somewhat less than three miles. The world's record is held by Jake Gansser, made in Austin, Texas, recently. Time, 18.81 1-2.

THE YACHT ELIMA.

Finished Green Race Long Before Any Arrivals Were Expected.

St. John's, Aug. 24.—The Elima, the first of the yachts which started in the ocean race from Newfoundland to Halifax on Monday, reached the finish line off the yacht club about 9:30 A.M. yesterday morning. Her arrival was unexpected, as no one had as yet seen the boat or the racers before the afternoon.

The Elima, another of the racers, was reported at 11:30 four miles off Chequamegon Bank. The weather is dark and the wind strong. The second place to reach here was the Elmerine. Lucy, Commodore Wilson's vessel, which started the race at 12:30.

Under Old Succession Tax Law,

Toronto, Aug. 24.—Since the filing of the amendment bill for personal it has been suggested that the present state of the law concerning duty of the Provincial Legislature to vote the legislation be that necessary to do so. This will make a material difference of about \$100,000 in favor of the latter. The real intention to be paid will be in the neighborhood of \$500,000.

## C.P.R. PROTESTS G.T.P.

Claims That Location of Road Brings Lines Too Close.

## A VIOLATION OF THE ACT

Claim That National Transcontinental Railway From Portage la Prairie to Touchwood Hills Is Within Ten Miles of the Canadian Pacific Line—Holds Government's Intervention Was at Least Thirty.

Montreal, Aug. 25.—The Canadian Pacific Railway Co. have addressed to the Governor-in-Council a strongly-worded protest against the Grand Trunk Pacific route between Portage la Prairie and Touchwood Hills, the section for which the contract was awarded Wednesday.

The C. P. R. consider that this part of the G. T. P. route is a violation of the act of Parliament constituting new legislation. It is also demanded that the location so far decided upon by the Grand Trunk Pacific is contrary to the letter and spirit of the Government's policy, expressed in Parliament and on the platform by members of the Cabinet and their supporters.

The interest of the Canadian Pacific is based on the claim that the line as located from Portage la Prairie west for 25 miles is at no time more than ten miles from the main line of the C. P. R. or its branches. According to the Canadian Pacific, the case is that the territory to serve and need of a new railway. It is held that the intention of the Government was to keep the Transcontinental systems at least thirty miles apart.

## HIGH RATES HAMPER TRADE.

Mon. Nelsen Menteth Scores the Canadian Railways.

Toronto, Aug. 25.—Mon. Nelsen Minister of Agriculture, made some comments yesterday on the way Canadian railways hamper trade by charging excessive rates on farm produce.

"This is the banner year for the Ontario farmer," he remarked. "Prices have been remarkably heavy, but the prices have been so good that they more than made up for any decrease in yield. The great problem we have to face in Ontario is one of distribution. We can't produce the grains and fruits and dairy products, but we lack facilities for distribution."

"Our railroads here are not nearly as obliging as they are in the United States. Rates are lower there than they are here, but they more than make up for it by their convenience. What let me instance the Niagara peach crop. Peaches are selling at 20 and 25 cents a basket in the fruit district, just at Stratford, sixty miles away, you cannot buy Crawford's less than \$1.25."

"The dairy output this year has been enormous. The pasturage was never better, and farmers and exporters are encouraging con-umption of their produc-

ducts by putting their goods in such shape that consumption is enhanced. A couple of years ago we were shipping salt butter to England, instead of fresh butter, as we are doing now. Anybody knows that a man will eat twice as much fresh butter as he will salt butter."

The Ontario farmer is waking up to the possibilities of his own business."

## DAIRY DISABILITIES.

Canadian Commission is Investigating—Liberia Troubled.

London, Aug. 25.—(C. A. F.)—J. A. Ruddick, Dairy Commissioner of the Dominion Government is here enroute into the butter and cheese trade. He has visited, besides London, Glasgow, Liverpool and Bristol, and everywhere he finds dissatisfaction expressed, due in some measure to the improved facilities for handling butter on this side. He found the authorities in Liverpool somewhat exercised over complaints recently ventilated in the Ottawa news regarding produce being allowed to stand for a longer time than necessary on the quays. In this respect he found considerable improvement. He speaks highly of the manner in which produce is handled in Bristol. He attributed the increased Canadian butter to some degree to the failure of certain citizens to give complete recognition to the fact that the count was at least thirty.

The C. P. R. consider that this part of the G. T. P. route is a violation of the act of Parliament constituting new legislation. It is also demanded that the location so far decided upon by the Grand Trunk Pacific is contrary to the letter and spirit of the Government's policy, expressed in Parliament and on the platform by members of the Cabinet and their supporters.

The interest of the Canadian Pacific is based on the claim that the line as located from Portage la Prairie west for 25 miles is at no time more than ten miles from the main line of the C. P. It is held that the intention of the Government was to keep the Transcontinental systems at least thirty miles apart.

## Expllosion on Steamer.

Montreal, Aug. 25.—As the Douglasian Line steamer Lakonia was leaving port yesterday morning for Giangow, a steam pipe in the engine-room exploded, killing S. Jackson, assistant fireman, and Alex. Smith, third engineer. Another engineer, an Englishman, was badly scalded, but may recover. The steamer returned to dock and will remain until an inquiry is held.

## Mrs. Stanford's Death Recalled.

## ON FAILURE'S BRINK

Though President Roosevelt Still Sends Telegrams.

## COUNT LAMSDOFF BUTTS IN

Russian Foreign Minister Said to Have Declared That Russia Will Never Pay an Indemnity in Any Shape or Form — Envoy Witte Doubts If the Count Ever Said So—Victories for Russia.

Paris, Aug. 25.—Up to 11 o'clock last night six cablegrams had been received by M. Witte from Petersburg. All came from Count Lamsdorff, and were to the effect that the Japanese compromise proposition as presented at Wednesday's meeting. It is positively stated that the cablegrams announce that direct pour pâris are now in the hands of Emperor Nicholas and President Roosevelt.

The Bristol docks committee are sending A. Harvey, their assistant manager, to Canada to confer with some leading manufacturers and express of their products and discuss with them facilities which the Royal Edward dock just completed, will offer for the conduct of a very much larger business through the port of Bristol.

Waterford, Aug. 25.—Up to 11 o'clock last night six cablegrams had been received by M. Witte from Petersburg. All came from Count Lamsdorff, and were to the effect that the Japanese compromise proposition as presented at Wednesday's meeting. It is positively stated that the cablegrams announce that direct pour pâris are now in the hands of Emperor Nicholas and President Roosevelt.

The nature of this action is not disclosed but it is known that it contemplated the military occupation of a Moroccan town near the Algerian frontier. The town is close to the coast and proximity to a large French garrison in Algeria and to its strategic importance as it commands the route to the interior of Morocco and the capital, Casablanca. The latest official advice from Paris is that the Sultan continues to hold the Algeciras, a position.

Following the meeting Premier Renvier sent instructions to the French Minister to demand the immediate release of the prisoner, informing him that a military demonstration would be made to hold the Algeciras, a position.

The present peace seems desperate, but they are not hopeless despite the prevailing pessimism. There is still a chance, and the forces working for peace are continuing their labors. The result of Ambassade Wednesday was unsatisfactory, but at least it was no rebuff. It left the door open, and within a few hours after the receipt of Oyster Bay of Mr. Meyer's account of his audience with French Minister, who received it from Mr. Pieres about 3 o'clock this morning, the Emperor had already in effect declined the proposed compromise offered by Japan.

WATERFORD WAS THREATENED AND PLANNING MILL DESTROYED.

Waterford, Aug. 25.—Two fires, both of a suspicious nature, occurred here yesterday morning. The first, at the Beemer House, a large three-story building, was clearly incendiary. Straw and other inflammable material had been placed near the building.

Scarcely was this fire extinguished when a second alarm was rung for the saw mill and factory owned by Mr. and Mrs. Robinson. The flames had gained such progress that all efforts to save the building proved useless. The loss is about 15,000 with no insurance.

An investigation will probably be held.

BIG FIRE AT POINT EDWARD.

Sarnia, Aug. 25.—The 1200,000 plant of the Canadian Machinery Co. Point Edward, caught fire during the night by unknown means and was completely destroyed. Only the walls are left standing. Through the smoke and flames from the St. Clair River, the works were totally without fire protection from the Sarnia system and volunteer firemen were helpless in the emergency. The insurance is \$50,000.

BIG FIRE AT CHICLEY.

Chicley, Aug. 25.—A large workshop yesterday morning the Chicley Chair Co.'s factory was burned to the ground, with all the contents. Loss about \$25,000. Insured for \$24,500.

FACTORY CITY WANTS POWER  
COMMISSION'S REPORT.**

A Toronto despatch says: Alderman W. Norman Andrews, Chairman of the Fire and Light Committee of the Brantford City Council, and of the Electric Committee of the Board of Trade of that city, journeyed to Toronto yesterday to interview the chairman of the Hydro-Electric Power Commission, Hon. Adam Beck, Chairman of the Hydro-Electric Power Commission, in session here yesterday.

Brantford is confronted with a franchise now being asked by a small incorporated Western Counties Electric Power Company for two and a half years, and the terms of the projected contract are so agreeable that on behalf of the city of Brantford Ald. Andrews wanted to know when the report of Mr. Beck's Municipal Power Commission would be complete, so that he might compare notes.

From what Ald. Andrews gathered from this report will be ready by November, and will cover the following points: The cost of power on the switchboard at Niagara Falls developed by certain municipalities, the cost of said power transmitted to the limits of the said municipalities; the scale of prices paid by municipalities for power purchased by them.

The St. Thomas police received a message from Officer Winslow of Danville, to the effect that the gun was stolen from John Lowther, of Sennard, and had been found about five miles from Port Erie. The man accompanying the rifle was also captured, but the officer was not sure of his identity.

He offered the outfit to several farmers for 50c apiece, Constable John Hopkins left for Danville to get the outfit and prisoner.

**Doctor Brigham Says****MANY PHYSICIANS PRESCRIBE**  
**Lydia E. Pinkham's**  
**Vegetable Compound**

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the disease of women is known to all. It is because it is a stimulant, but simply because it is the most wonderful tonic and restorative ever discovered to act directly upon the general organic power exciting disease and restoring health and vigor.

Miraculous cures are reported from all parts of the country by women who have used it, and physicians who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are not fair enough to give credit to its power.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound, and that it is the best remedy known to them.

Dr. C. C. Brigham, of 4 Brigham Place, Fitchburg, Mass., writes:

"It is remarkable how often I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribed by my physician friend.

"My wife and I thought at that time, but Irene, was I was waiting upon a noted lawyer only a few days ago, and he claims the same great wealth for another."

"Well, tell what can you mean?"

"I am only her relative, and you know I should inherit everything," Irene said.

"I know," Irene said, "but Irene, I was waiting upon a noted lawyer only a few days ago, and he claims the same great wealth for another."

"Why, what can it possibly be?" Irene asked.

"Your mother's wife, or I should say your mother's mother," Irene said.

"My uncle's wife?" repeated Irene with a dead look. "Uncle Walter has no wife."

"Are you sure?"

"Yes, of course, I have always lived in the house ever since I came to consider, and there has been no one else in the family except the servants and the housekeeper."

Irene slowly turned as she remembered a remark which her uncle had made to her on her eighteenth birthday. He had said: "You know that the place of the little girl who is to inherit the estate is to tell me who is to inherit the estate, and—then we'll help me to hear other troubles also."

Could it be possible, she had asked herself that her uncle had had some secret from her, and that he had a separation from his wife, and that he had been a lifelong scoundrel?

"I am sure that you are right," Irene said.

"The master stands thus, however. A woman claiming to be Mrs. Irene's mother, and who has given her claim to her husband's property, beyond the possibility of a doubt, to whom she pretends bringing her marriage certificate and her legal papers substantiate her title. She wants the title to the house, and she wants to sell it to Mr. Day, whom she has been writing to for months, and who has told her that she has no right to do so."

"All I can say is that you are right about it," Mr. Graves observed.

"The master stands thus, however. A woman claiming to be Mrs. Irene's mother, and who has given her claim to her husband's property, beyond the possibility of a doubt, to whom she pretends bringing her marriage certificate and her legal papers substantiate her title. She wants the title to the house, and she wants to sell it to Mr. Day, whom she has been writing to for months, and who has told her that she has no right to do so."

"I wonder what he means by that," Irene said, with a smile. "I think he means that the woman has some reason to be here, and that she is still good."

"I suggested from what he said that it was Irene's husband, and while she remained in California, she was there, there was a child."

"Yes," Irene interposed. "Uncle Walter died at the North of the world, and the girl, who is the spittin' image of him, has come back."

"I wonder what he means by that," Irene said, with a smile. "I think he means that the woman has some reason to be here, and that she is still good."

**BRANTFORD NOW ANXIOUS**  
 FACTORY CITY WANTS POWER COMMISSION'S REPORT

A Toronto dispatch says: Alderman W. Norman Andrews, Chairman of the Fire and Light Committee of the Brantford City Council, and of the Electric Committee of the Board of Trade of that city, journeyed to Toronto yesterday, and button-holed Hon. H. C. Bond, Chairman of the Hydro-Electric Power Commission, in session here yesterday.

Brantford is confronted with a franchise now being asked by the newly incorporated Western Counties Electric Power Company for twenty-five years, and the terms of the projected contract are so unreasonable that on behalf of the city of Brantford Ald. Andrews wanted to know whether the report of Mr. Beck's Electric Power Commission would be made public so that he might compare notes.

From what Ald. Andrews gathered this report will be ready by November, and will cover the following points: The cost of power on the market basis; the maximum daily demand by seven municipalities; the cost of said power transmitted to the limits of the said municipalities; the amount of power required in paid municipalities; the scale of prices at which the contracted power can be sold to various classes of consumers in small units and large, and the cost of undeveloped power purchased at Niagara Falls.

Ald. Andrews returned to Brantford today to addressee the seven municipalities, one of whom has no municipality in the compact and has subscribed \$15,000 towards the commission's investigation, it would be better to take no steps in awarding any power franchises until the report is published. He further said that the Western Counties Electric Company will willingly await this before pushing their franchise.

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder produces food remarkable both in fine flavor and wholesomeness.

ROYAL RECEIVES PRINCE.

His Serene Highness Arrives In Democatic Fashion and Spends a Quiet Day—Exhibition Preparations.

Toronto, Aug. 26.—Prince Louis of Battenberg's reception as he alighted from his special car at the Union Station yesterday morning was quite as informal as the ample arrangements made for his coming would lead one to expect.

Preceded by his aide-de-camp, Lieut. Sowerby, the Prince stepped forth from the car to the open platform by Kavalier Ridout on Lady Kirkpatrick's behalf. There was nothing about Prince Louis' appearance to suggest

approachable, he appeared, clad in summer woolens, which heightened the effect. The Prince is tall with a full six feet of stature and his carriage is erect as that of a military man.

The royal visitor spent yesterday evening quietly at the residence of the Kavaliere, Lady Kirkpatrick. In the morning he was entertained by Mayor Unquhart and Ald. Graham, who tendered a civic welcome.

At the camp, Sowerby stated last night that arrangements had been made for to-day were of a private nature. It is understood that he will visit the Park.

The Canadian National Exhibition has been invited the whole 800 men and ten officers of the squadron of Prince Louis of Battenberg to come to Toronto Exposition.

Arrangements have been made for their entertainment and their transportation.

They will be accompanied by the full band of six guns. Leaving Ottawa on Monday, they will arrive here on Tuesday morning and will go into camp on the south side of the big horse ring in Exhibition Park.

**PREPARATION DAY.**—Today is "preparation" day at the fair—a day when nothing is put out and everything is coming in. The products of the field, the workshop, creation of the artisan and chisel, and the studies that bear the stamp of advanced commercialism and other progress that are a delight to the eyes of the connoisseur—all will be pouring through the gates to-day. Some have already come in, while others will come on Monday, which is "exhibition" day, and intended to give a chance for those fin-

Russian and Japanese Peace Envoys May Soon Shake Hands and Part as Enemies—While No Decisive Act Has Yet Parted Them the Indications Are Anything But Rosy.

Portsmouth, N. H., Aug. 26.—The Associated Press is permitted to announce that Emperor Nicholas' answer to President Roosevelt's latest appeal was partially responsive.

On "World Money,"

The conference was headed straight for the rocks. Despite the fact that every question of principle involved in the quarrel between the two countries had settled in favor of the Victor and in hostility of the vanquished, "money" still separates them, the negotiations seem on the verge of a final rupture.

The air was filled last night with gloomy forebodings. In the most positive fashion, the Japanese envoys had reached M. White up to last evening which would permit him to entertain the consideration of the compromise proposition submitted by the Russian plenipotentiaries.

It is understood that the conference is to make to-day all that seems to remain is for the plenipotentiaries to meet sign a declaration that the conference has completed its labors, shake hands, and part in enemies.

Dry Summer Has Left Country in An Inflammable State.

Quebec, Aug. 26.—A serious forest fire is raging near St. Albert and St. Valentin, on the north side of the river. The fire started through the negligence of certain farmers. The whole range of St. Albert is completely destroyed and the loss will amount to nearly \$100,000.

Reports from the Lower Chaudiere Valley state that considerable damage is being done by forest fires. Everything is dry. In fact, north of the Chaudiere very little rain has fallen this summer.

QUEBEC'S FOREST FIRES.

Will Act Promptly If Sultan of Morocco Resists Obey.

Paris, Aug. 26.—A fiery, commanding flying column in Algeria, the near the Moroccan frontier, after departing with the Ministry, is preparing for the eventual military movement against the Sultan of Morocco.

A dispatch from Algiers says that The Liberator, a newspaper of that place, declares that a flying column, comprising infantry, artillery and cavalry, is ready to occupy the Moroccan garrison town of Fes.

The time for the sitting of the conference to-day was not set when the adjournment was taken on Wednesday night, but it will be through his secretary that the Japanese will be present.

This Store will Close at 1 o'clock every Thursday afternoon during July and August.

## This Store Wants Your Trade

Goods are sold as cheap here as anywhere and most are cheaper.

The policy of this store is to be frank and fair though a sale is missed.

No tricks or trifling, no forcing the unwilling to buy. No one who buys here repents unwillingly and few buy once but are friends of the store afterward.

This is why the store grows though you would think it could not grow bigger unless it moved out of town.

We are now making preparations for a big Fall trade.

Case after case and bale after bale are being opened up and the contents put into stock until our counters and shelves are almost groaning with the load.

No trouble to show goods.

WHETHER BUYING OR LOOKING YOU ARE ALWAYS WELCOME.

Keep Out the Flies.  
The question as to whether the common house fly is a factor in the spread of tuberculosis is considered by Dr. J. O. Gandy, in a recent issue of American Medicine. Several observers have demonstrated that the fly is a very tubercular beast on its feet and in its stomach. This is an argument for sanitary eating all food supplies from the possibility of contamination. Wherever in any part of the world tuberculosis is present there also is the fly found as a pest.

## KATAOKA REPORTS

Destruction By Bombardment of Zharf and Laziervo.

BY JAP AMUR NAVAL DIVISION

Long Quiet Has Been Utilized by Both Russians and Japanese to Reinforce Their Armies in the Field—Their Relative Positions Are Comparable When Japs Confronted Enemy at Liacyang.

Tokio, Aug. 25.—Rear-Admiral Kataoka has reported to the Imperial Navy department that the naval division sent up the Amur to reinforce and destroyed two Russian guard stations at Zharf and Laziervo on the south bank of the river. The stations had recently been reinforced.

*How the Armies Stand.*

Gunkan Massas, Manchuria, Aug. 26.—Since the Japs have reconstituted the Russian centre about 25 miles from the Amur, they have been carrying on skirmishing as well as the skirmishing of a wide movement of considerable bodies of troops throughout three days, nothing important has occurred. During the long quiet there have been movements to both sides, giving the theatre of war a much changed appearance. The front has been greatly extended, made possible by the use of the wireless telegraph and because of the unexampled size of the armies, the character of the third stage of the war, whether it be a battle of demobilization or the garrisoning of contested territory will be complicated.

*Comparable to a Year Ago.*

The relative positions of the two armies is comparable to that of a year ago, and the country immediately facing the Japs is almost identical with that which confronted them at Liacyang.

The position of the railway and rivers by the Japanese at Mudan, together with their Fengwang-cheng communications, and General Kawamura's new line of communication and defence, running from the head of navigation on the Yalu River across Manchuria, gives the occupying force of the Chang Pashan Manchurian region, makes control of the administration of South Manchuria as complete as that achieved in the west by similar organization, and in the rapid consolidation of these connections.

The destiny of Manchuria is clearly fixed, regardless of other influences.

After an enormous rainfall during the past ten days it is believed that the rainy season is closed.

## FIRED SHOTS AT PRINCE.

Peasants Are Tormenting the Nobles—Fighting With Cossacks.

St. Petersburg, Aug. 25.—There is a great deal of peasant agitation in various parts of the country, notably in the Caucasus, where there have been serious disturbances. In the

Govt district the peasants are persecuting the nobles, under the name of death, to announce to the newspaper that they are handing over their holdings to the peasants freely, or accepting one-tenth, instead of one-quarter of the crop yield.

In the case of the peasants in the village of Inukhansky, the proprietor of the crop to which he was entitled to a serious conflict between the peasants and Cossacks. The Cossacks fired on the peasants, killing and wounding according to an official account 70.

Peasants from the village came to the assistance of the villagers, resulting in fresh conflicts. According to an official account 70, and according to another account 70.

Prince Inukhansky himself had a narrow escape from shots fired at him.

*Where Anarchy Is Active.*

St. Petersburg, Aug. 25.—The police department has drawn up a report of the disturbances among the Letts in the Baltic Provinces, which, of late, according to the report, have assumed an anarchistic character. Within four months in total, the Provinces of Courland and Livonia, there have been four attempts on the lives of officers, two attacks on the powder stores in a cartridge factory.

*Winding Up Chicago's Big Fair.*

Chicago, Aug. 28.—After twelve years of tedious and painstaking work, the officials of the World's Columbian Exposition have succeeded in closing up the affairs of the great world's fair. President H. N. Higginson and Secretary H. O. Edmonds must still remain officers of the company, however, as the third stage of the war, whether it be a battle of demobilization or the garrisoning of contested territory will be complicated.

*Comparable to a Year Ago.*

The relative positions of the two armies is comparable to that of a year ago, and the country immediately facing the Japs is almost identical with that which confronted them at Liacyang.

The position of the railway and rivers by the Japanese at Mudan, together with their Fengwang-cheng communications, and General Kawamura's new line of communication and defence, running from the head of navigation on the Yalu River across Manchuria, gives the occupying force of the Chang Pashan Manchurian region, makes control of the administration of South Manchuria as complete as that achieved in the west by similar organization, and in the rapid consolidation of these connections.

The destiny of Manchuria is clearly fixed, regardless of other influences.

After an enormous rainfall during the past ten days it is believed that the rainy season is closed.

*Linemen On Strike.*

Chatham, Aug. 28.—The linemen went on strike yesterday morning against the electric railroad company. The company laid off the foreman and the men stood by their foreman and laid down their tools.

*CAUSE OF FAILURE FOR PEACE.*

*Japan's Proposal:*

Russia to purchase back from Japan the northern half of the island of Sakhalin and pay for it the sum of £2,000,000 yen, £600,000,000, for remuneration for the war expenses of Japan.

*Rejected.*

*Russia's Counter Proposal:*

Japan to yield back to Russia, without payment, the island of Sakhalin, and Russia to pay liberally for Japan's care of Russian prisoners, the sum alluded to being £100,000,000.

*Rejected.*

*Difference of \$500,000,000.*

The amount of difference between Japan and Russia is one billion yen, or \$500,000,000. The Japanese seem to be irreconcilable in their attitude on the question of remuneration. Japan insisting strongly on observance of the "principle" of remuneration, to which Russia will not consent. But neither side has yet presented an ultimatum.

*The above were the substance of the business done by the conference of Saturday and the relations were very hardly accomplished without a final rupture.*

*Held Fast to Sakhalin.*

Tokio, Aug. 28.—The proposal that Sakhalin be divided between Russia and Japan is the greatest political opposition here, and it is firmly believed that acceptance of it will result in demonstrations against the Government. The press is universally against the proposal.

*Japanese Crown Called.*

Tokio, Aug. 28.—A specially prepared committee, consisting of the Foreign and Interior Ministers, is now in session discussing the latest final phases of the peace conference at Portsmouth.

*Calls White Ignorant.*

Moscow, Aug. 28.—The German newspaper, *Die Presse*, recently wrote M. Witte, demanding to know what he knew about everything that had happened in the last decade. It quotes Witte as being ignorant and empty-headed.

*CHANCE FOR ROCKEFELLER.*

Paris, Aug. 28.—A special committee of experts from America and Japan has been appointed to discuss the chance for Rockefellers to make a profit in the Pacific market.

*Canadian May Come.*

Washington, Aug. 28.—An expert committee of American and Japanese experts has been appointed to discuss the chance for Rockefellers to make a profit in the Pacific market.

*Canadian Offer in Treaty Creek.*

Buffalo, Aug. 28.—In a statement issued by Senator Frank J. Lausche, the Canadian railway will have no objection to the transportation of navy supplies to the Pacific coast. Specifically the Canadian railway will be asked to transport navy supplies to the Pacific coast.

*Due to Two by Train.*

Buffalo, Aug. 28.—Due to the fact that the Canadian railway will have no objection to the transportation of navy supplies to the Pacific coast, the Canadian railway will have no objection to the transportation of navy supplies to the Pacific coast.

*Two by Train.*

Buffalo, Aug. 28.—Due to the fact that the Canadian railway will have no objection to the transportation of navy supplies to the Pacific coast, the Canadian railway will have no objection to the transportation of navy supplies to the Pacific coast.

### JOHN E. GAYFER DRUGGIST.

Before leaving the conference building telegrams were exchanged with the President at Ceylon Bay.

The Russians are occupied at the result.

The Japanese correspondents thought they said little, plainly showed their dissatisfaction with the terms during the afternoon. One of the Japanese, however, gave the Chinese news he considered "victorious" and the Chinese had approved it and I shall be satisfied.

In that sequence was compressed the apparent horizon of the Japanese nation, and hence, when Mr. Hasehara, the Japanese ambassador, expressed his desire to move his embassy from Ceylon Bay to the capital, he was granted permission, and it showed that the Emperor had approved. There was a perceptible change in the feeling of the Japanese Chamber of Deputies delegation. However, they had not yet reached their destination.

For the sake of humanity and chivalry, Baron Komura addressed the king of France, even as the old kings of Denmark, even as the great friends of Russia addressed M. Loubet as "My dear and great friend," and the president had to reply, "Sir" and "Your majesty."

Napoleon III., writing the subject letter of his life, his surrender to Sedan, addressed the king of France, while the citadel was a place of fire, as "Sir, my brother," and saluted himself "Your good brother" and received the there reply concluding "Your loving brother" and ending "Yours loving brother."

Yours loving brother.

## To Make Pure

Biscuit, cake, rolls, muffins, dumplings, etc., a pure leavening agent is indispensable.

While the Royal Baking Powder is reported absolutely pure and healthful, the official reports show most other baking powders, as well as the cream of tartar of the market depended upon by many housekeepers for raising biscuit and cake, to contain either alum, ammonia or sulphuric acid.

The Government Analyst of Ontario says:

"As a result of my investigation, I find the Royal Baking Powder far superior to the others. It is pure, contains none but wholesome ingredients, and is of greatest strength."

## THE DOVE OF PEACE BRINGS END TO WAR

Continued from page 1.

Russia to defray the expenses of the war would have involved a continuation of the sacrifices of bloodshed and treasure. At the end—what?

Mr. Witte, M. Witte.

PRESIDENT ROOSEVELT.

laboring under exertion, again lost control of himself. He paused a moment. Then he went on:

"The Japanese wanted to take our lighted ships and I have not consented. The Japanese wanted to limit our naval power in the Far East, and I have not consented."

"The Japanese wanted war indemnity or reimbursement of the cost of the war, we demanded it, and I have not consented."

"The Japanese wanted the Chinese Eastern Railway south of Harbin, but I gave them only the railroad in the possession of their troops south of Chiaotau.

"The Japanese wanted the Island of Sado, and I refused it, agreeing, however, at the same time, to cede the southern half, and then only because I was commanded by my sovereign to yield and obeyed."

"Not only we do not say so much

THEY APPEAL TO OUR SYMPATHIES.

The bilious and dyspeptic are common sufferers and appeal to our sympathies. There is not one of them, however, who may not be brought back to health and happiness by the use of Chamberlain's Stomach and Liver Tablets. These tablets soothe the stomach and strengthen the digestion. They also regulate the bowels. For sale by all druggists.
