Chicago, July 15.—Organization of a railway employees' department of the American Federation of Labor was completed to-day by the merger of 25 unions of American, Canadian and Mexican railway men or unions affiliated with railway employees.

PLANNING FUTURE FOR ASSOCIATION

Dominion Teachers Association Gets Down to Actual Business This Morning--Steps Suggested to Improve Usefulness.

(From Tuesday's Daily.)

The Dominion Educational Association got down to actual business this morning at Assembly hall. The place is an ideal one for meeting in, and has been well prepared by the committee in charge. About the walls are the displays of drawing, etc. done in the schools of Victoria and Vancouver, while on tables are examples of clay modelling, etc.

The platform at the head of the room is prettily adorned with flowers, while the walls are draped in white and blue with British and Canadian flags displayed at different points.

The rooms near the entrance are used as the secretary's office and as a ladies' waiting room.

Dr. Alex. Robinson, superintendent of education for the province of British Columbia, presided. With him on the platform were: Dr. A. H. McKay, superintendent of education for Nova Scotia, and Prof. Dale, professor of education in the McGill university.

Dr. Robinson, in his introductory remarks, advised all delegates to attend the meeting sharp on time. He was glad to have so many distinguished visitors present. In opening the proceedings the president said that the subject which was to be dealt with at the initial meeting was the future of the Dominion Educational Association.

Future of Association.

T. A. Brough, principal of the High School, Vancouver, introduced the subject. His address was directed to the following suggestions for making the D. E. A. a more influential factor in Canadian education:

1. Appointment of permanent secretary at fixed salary, devoting, if possible, his whole time to the work.
2. Systematic effort to enrol every teacher in the Dominion, and every other person vitally interested in education, as permanent members of the D. E. A.
3. The holding of a convention at least once in two years.

A special committee to be appointed to prepare convention programme for every department of the D. E. A. The chairman of the committee and a majority of the members to be within easy reach of the place where the convention is to meet. The president of the association, the general secretary and the chairman of each section to ex-officio members of such committee.

5. Each provincial government to send at least one special representative to every convention, and to pay the expenses of the same.

6. Effort to keep members fully informed re educational affairs at home and abroad.

(a) Publication in book form of full report of proceedings and addresses at conventions of D. E. A.

(b) Publication of annual report summarizing condition and progress of educational affairs in each province.

(c) Publication of high-class educational monthly or quarterly discussing national problems of education from a national point of view.

(d) The secretary of the association to be editor-in-chief of publications.

7. Increased revenue to be derived as follows:

(a) Annual fees from increased membership.

(b) Increased provincial grants to be paid annually.

8. Strong and united effort to induce the Dominion government to establish a bureau of education at Ottawa, similar to the bureau of education at Washington, U. S. A.

9. Changes in the constitution of the D. E. A. in harmony with the foregoing proposals.

10. Appointment of representative committees at the Victoria meeting to assist in carrying out the suggestions approved, and to report progress at next meeting of the association.

Mr. Brough explained that W. Scott, principal of the Normal school of Toronto, would not be present. Up to a late date Mr. Scott had expected to be present. He was obliged to prepare a report in connection with the educational work of Ontario. W. A. McIntyre, principal of the Normal school, Winnipeg, had found it impossible to attend also, but had sent his views on the resolutions to be introduced.

T. A. Brough's Views.

Taking up the subject Mr. Brough said that it was a time of importance in Canada. She had just come of age and was about to take her share in the duties of Empire. It was a time of rapid development. Thousands were coming from all nations to become citizens here. The United States had passed through a similar era. That country had done the work well, assimilating these diverse peoples into good citizens of the United States. It had been done largely through the agency of the public school. The same would have to be done in Canada.

The founders of the Dominion Educational Association were men of vision. They had done their work well. The speaker paid a tribute to the early workers associated with it. Good work had been begun but there had been a lack of continuity. He believed that the solution of the difficulties would be found in the selection of a permanent secretary. The secretary this year had done a great work in coming in touch with transport men with public men and with educationists in other lands. It was important that a permanent secretary should be kept to act as managing director.

It was lamentable that there was not a larger membership. This was due, he felt, to the fact that there was no provision for a permanent membership. If every teacher in the Dominion of Canada could not be enrolled, a very large proportion of them could be so

enrolled. The National Educational Association of the United States kept in touch with its members through a permanent secretary. This was one of the advantages of a permanent secretary.

Annual Meetings.

He suggested as another wise move in the interest of the association that it meet annually instead of every second year, as at present.

A central committee to arrange the programme would facilitate the work of the association. It would be wise to aim at having the minister of education and the superintendent of education of each province present at the meeting (Applause). If these could not attend they could be represented by proxy and thus the government of each province would be kept in touch with the proceedings.

The National Educational Association of the United States published a volume of the proceedings of the annual meeting. This kept the teachers were members of it in touch with the body.

An educational review of a high-class, such as the one published in the United States was a necessity in Canada. There were valuable papers issued in the country, but what was needed was a magazine that would deal with the question of education in Canada from a national standpoint. Queen's University had maintained a valuable publication. He did not see why a magazine covering the whole of the educational work of the Dominion should not be made to pay.

The question of revenue was then dealt with. The speaker said that the membership fees of the National Educational Association of the United States were maintained from that source. He said that \$75,000 was raised in that way from these fees. But in the early stages of the association the speaker felt that the governments of the provinces would make a valuable contribution. A national educational bureau existed at Washington. This was something he felt should be in existence in Canada. It would not interfere with the provincial government control of education. The time had come for a bureau at Ottawa. Much could be done by an officer so appointed to bring about a more uniform control of education. The time had come for a bureau at Ottawa. Much could be done by an officer so appointed to bring about a more uniform control of education.

He moved that the meeting go into committee of the whole to discuss the suggestion put forth.

Prof. Lang.

alluded to the importance of the subject. He thought the time had come for a decisive move by the association. He felt the association had a great future. It was unfortunate that the east and the west were so far separated. There was a great work to be done in nationalizing the education of the Dominion. There was a great tendency to become provincial. Canadians pride themselves upon taking a wider view than many others. He was sorry, however, to find that there was provincialism in the Dominion. More of educational unity was needed in Canada. He did not altogether agree with some of the suggestions made. He suggested that the secretary should be well paid, but should confine himself to the duties of that office. A small board, he felt, could be found to do the work of editing the magazine gratuitously. Contributors should then be paid what could be afforded. He did not think that a bureau of education at Ottawa was practicable. The provinces differed in race and creed and he thought this question of a bureau would give trouble. He thought a bureau could be better administered under the Dominion Educational Association itself. A grant could then be asked for from the Dominion government. He paid a compliment to the D. E. A. for the work it was doing for the government to the association, which was greeted with applause.

Mr. Brough read a paper prepared by W. A. McIntyre, principal of the Normal school, Winnipeg, on the resolutions. Mr. McIntyre alluded to the problems of education to be dealt with in Canada, and suggested that these might well have consideration from the association.

The resolution to go into committee to consider the question was carried.

Visitors From United States.

Superintendent Robinson then called upon J. M. Greenwood, superintendent of city schools, Kansas City, to address them. He said he had been a member of the American National Association since 1884, and had attended every year since. The American association was formed for the purpose of knitting together the different states in the Union. For twenty or thirty years it had a struggling existence. At the end of that time a monster association was organized at Milwaukee, and since that time the delegates at every meeting had been numbered by the thousands.

Mr. Greenwood said that he was one of the features of that association, and he was paid a liberal salary.

They had formed an endowment fund, which had accumulated to \$15,000, the interest from which was used in the work of the associations. Besides paying the running expenses of the association, it published the minutes of the proceedings. The property was managed by a board of trustees. The fund, however, could not be touched. The income only derived from it was used.

Mr. Greenwood said that he did not understand local conditions, but he could see that Canada would soon have from one to two million people in the country, and they were mostly people of the Anglo-Saxon race. They were all assimilating citizens. It was very different from the people of the United States. The problems of both countries were the same, however. Their work was to make the children men and women that they were, and the Dominion Educational Association could do a good deal towards this end.

Dr. A. H. McKay, superintendent of

education in Nova Scotia, on being called upon, said he advocated the regular meeting of the leaders in education. While the general teaching staff could not meet together every year, the leaders could. The provincial governments, he thought, should aid in this work. Nova Scotia had already taken steps in this direction.

The speaker said the next meeting of educators in London would be in 1911. The last was in 1907. Information was being gathered from every part of the empire. Public lands might also be appropriated for the purpose of aiding technical education.

The chief work of the association, he thought, should be the collecting of statistics through a bureau. He suggested that the next meeting should be in the province of Quebec, in order that they might see the work of the Macdonald Institute.

Alberta Representative.

Mr. McKenzie, deputy minister of education for Alberta, said he was in full accord with the suggestions which had been made. What he considered of most vital importance was the extension of the membership and the influence of the association should also be the forming of a bureau of education. He recognized that there must be some person who would be responsible for the San Mateo county coast to attempt their rescue. The tides changed the course of the unmanageable boat, and it was swept on the sands at Granada about daylight.

Mr. McKenzie suggested that the matter should be suggested in the provincial associations before anything definite should be done. He moved that the matter be referred to the provincial associations before the next general meeting.

Mr. Van Munster suggested that the matter should be suggested in the provincial associations before anything definite should be done. He moved that the matter be referred to the provincial associations before the next general meeting.

SPEND DAY AND NIGHT IN OPEN BOAT

Three Men Found in Exhausted Condition When Craft Is Washed Ashore.

San Francisco, Cal., July 14.—After drifting on the open sea in a small boat, without oars or sails, for a day and a night, Captain R. H. Lawton, of this city; G. Preston and J. Conwell, of Santa Cruz, were found early to-day on the beach at Granada, on Half Moon Bay, where their battered craft had been washed by the tides.

The men put off from the steam yacht J. C. Elliott when she encountered a stiff flurry of wind early Tuesday morning. Their cars were washed away, and throughout the day they drifted in the choppy sea.

Late yesterday they were sighted off the coast of the San Mateo county coast to attempt their rescue. The tides changed the course of the unmanageable boat, and it was swept on the sands at Granada about daylight.

Totally exhausted by their fearful struggle and exposure, the men were unable to find help. They were discovered and brought to this city about noon to-day.

The J. C. Elliott was washed ashore near the spot where the three yachtmen landed. She was badly battered by the waves.

PERUVIANS ARE LEAVING BOLIVIA

Fear of War Responsible for Exodus—Ministers Unable to Agree.

La Paz, Bolivia, July 14.—Fearing a war with Peru, many citizens of that country are leaving. The Peruvian government paying their expenses. Residents of this city are purchasing provisions to provide against the shortage that will inevitably prevail in case of hostilities.

The cabinet ministers are said to be divided on the question of the acceptance or rejection of the arbitration award of the disputed territory which is the cause of the strained relations between Bolivia and Peru. Argentina is said to deeply resent Bolivia's attitude. The case of Mrs. Pike and the Hale girl is expected to join issues with Peru.

The position of the Bolivian cabinet is a difficult one, the rejection of the arbitration award being tantamount to a declaration of war against its neighboring governments, while the acceptance of the document is certain to provoke the populace to a renewal of rioting.

There is no disorder to-day, but the people are in an excited state of mind.

MASTER OF STEAMER MINNESOTA DEAD

Captain Roberts Passes Away While Vessel Is in Japanese Waters.

Tacoma, Wash., July 14.—Captain E. V. Roberts, master of the steamship Minnesota, died aboard his vessel, according to a cablegram received by his family here to-day.

Chain Roberts, who has been master of several big vessels on the Pacific, was one of the best known navigators on the coast. He intended to retire shortly and was not in good health when he left here recently to become master of the Minnesota. This was his first trip on that vessel. Roberts was about 60 years of age.

FIRE EXTINGUISHED

Larkspur, Cal., July 14.—After fighting fire all night, the people of this town succeeded in extinguishing the flames, which Monday threatened to destroy valuable timber on Mount Tamalpais.

The property damage was not heavy, the fire being confined to the young timber.

SEEKING SETTLEMENT IN BRIDGE DISPUTE

Temporary Way Out of the Difficulty Is Being Sought.

As a result of conferences held between Mayor Hall and E. Marpole, general executive of the C. P. R., it is expected that some tentative arrangement may be reached with regard to the whole question to the railway commission.

The commission will meet on the coast next month, it is expected, when the subject may be taken up and finally disposed of.

Mayor Hall pointed out to Mr. Marpole that in the meantime it was essential that something should be done. The C. P. R. representative said he was considering the question in view of the letter sent by the council. He pointed out the difficulties that were met with in the disposition of the subject. The company was met by difficulties in allowing any privileges, however.

By Monday an answer is promised from Mr. Marpole as to what his company can do in the matter.

EXPLOSION ON CRUISER

United States Ensign Killed on the North Carolina—Disaster Narrowly Averted.

Naples, July 14.—The officers and men of the United States warships in this port united on Monday in paying military honors to the late Ensign Hugh Kerr Aiken, of the armored cruiser North Carolina, who died as the result of injuries sustained in an explosion on board the cruiser.

From an investigation it was learned that Ensign Aiken attempted an investigation as to whether gas was generated in the coal hold. While doing this he was instructed the sailors to keep behind him. When he entered he was not able to detect any odor of gas, and one of the men who was carrying a lighted candle, came forward. Unfortunately he slipped and his arm dropped, which brought the light in contact with the gas lying in the hold. Ensign Aiken received the full force of the explosion which followed. He was dragged out by the men, but died some hours later.

Later developments indicate that the accident was of a graver nature than was at first supposed. The Ensign was admitted. Corporal Maloney also was badly injured in the explosion, it being stated that he was completely unconscious. Several other men who accompanied Ensign Aiken also were wounded, but less seriously.

An enormous quantity of gas had been generated by the 300 tons of coal in the hold, and naval officers are at a loss to know why Aiken permitted a lighted candle to be taken to such a dangerous place.

An alarm was immediately given and a force of men stamped out the fire, which otherwise might have communicated to the powder magazine.

WELL MERITED PUNISHMENT.

Vancouver, B. C., July 14.—"I will never marry him now after what he has made me do; I despise him." This was the last remark made in a witness box at the police court yesterday by Agnes Aloha Hale, a 13-year-old Seattle girl. She had testified that she had come here to meet Alva Merrill, to whom she was engaged to be married. He was not doing anything here and induced her to go out and live a dishonest life in order to supply him with money. As it could not be clearly shown that he had actually got money from her the case against Merrill was withdrawn, and he was given till 4 o'clock this afternoon to get out of town. She pleaded guilty Monday on her own behalf to a charge of street walking, Merrill's companion, Walter Pike, a Seattle bartender, and a bird of the game feather, was sentenced to six months imprisonment, and was told by the magistrate that he was one of the most despicable creatures on the face of the earth. The case of Mrs. Pike and the Hale girl is expected to join issues with Peru.

SUFFRAGE

WINDOWS IN CELLS

Magistrate Threatens to Give Them Long Terms in Jail.

London, July 14.—Seventeen suffragettes, jailed for participation in the recent riots at the House of Commons, today went on a rampage and smashed every pane of window glass in their prison. They were finally quieted when the magistrates threatened them with long terms in jail, unless they behaved themselves in a more orderly manner.

So far the wardens have not succeeded in compelling the women to don the regulation prison garb.

NEW DRYDOCK OPENED AT SHANGHAI

Can Be Emptied by Pumps in Three and a Half Hours.

Word has been received by Captain Gaudin, agent of marine and fisheries, of the opening of the new Yangtszepoo dock, at Shanghai, China. A number of new docks have been constructed at different points along the Chinese and Japanese coasts, all of which have a tendency to induce shipping and to benefit the ports at which they are constructed.

The Yangtszepoo dock at Shanghai, is a new dry dock just completed by New Engineering & Shipbuilding Works, Ltd. It is situated on the Shanghai side of the river, 15 minutes by train from the city. Length of blocks, 455 feet; length over all, 469 feet; with entrance, 74 feet; width, 61 feet; depth in sill H.W.O.S. tides, 21 feet; depth of water on 3-foot blocks H.W.O.S. tides, 19 feet. Pumps can empty dock in 3 1/2 hours. Work shop at head of dock suitable for any repairs. Forgings of iron and brass castings made up to any size.

STRIKING MINERS LEAVING GLACE BAY

Halifax, N. S., July 14.—President Daniel McDougall, of the Nova Scotia branch of the United Mine Workers of America, has arrived here in connection with the meeting of the conciliation board. He says last week the union paid out \$2,000 for strikers' benefits. Fourteen hundred strikers left the district for other employments and three hundred more are to follow, while the union has sent a large number to their homes in Newfoundland. He adds that local members of the union would treat with the company without interference by Americans if the operators were in any way disposed to settle the difficulty.

THE GINGLES CASE

Chicago, July 14.—Miss Minnie B. Hill, a manicurist of St. Francisco and New York, was the star witness for the prosecution in yesterday's hearing of the case of Ella Gingles, the Irish lace-maker accused of theft.

Miss Hill testified that on the night of February 16th she attended the theatre with Miss Agnes Barrette, Ella Gingles' former employer, and spent the night with her. She said they went to Miss Barrette's room alone and at 1:45 o'clock, the hour on which the Gingles girl alleges she was taken to a bathroom and bound by Miss Barrette, she was in the room. She said neither she nor Miss Barrette left the room during the night.

WOMAN'S VIEWS ON IMMIGRATION

Says Stricter Supervision Is Necessary in United States.

Seattle, Wash., July 14.—"The exclusion of the Japanese and the Chinese from the United States will do but little toward improving the labor situation of the Pacific coast," said Mrs. May Wright Sewall, of Indianapolis, honorary president of the National Council of Women and chairman of the International Peace and Arbitration Committee, in discussion of the work before the national council.

"Stricter supervision under immigration laws is what we need, and what the government must give us, but never exclusion of any nation or people.

"I believe we have the right to demand the exclusion of the pauper, the criminal, the illiterate or the diseased of any nation. But we should never have the right to discriminate against any nation as a whole."

Mrs. Sewall is one of the best known authorities on matters of women in this country, and she has held many responsible positions in the different national organizations dealing with the betterment of the human family.

"I have made a study of the labor situation in this country, and it is my belief that the labor unions are wrong in their attitude toward capital. Strikes and walkouts are wrong. Force will never win for the worker in the end. Their greatest strength should be arbitration."

OFFICER TELLS OF ANNAPOLIS TRAGEDY

Relates Circumstances Surrounding Death of Lieutenant Sutton.

Annapolis, Md., July 14.—D. J. Dyer, a lieutenant in the United States marine corps, who died from a pistol bullet after a quarrel with his brother officers two years ago, Col. Charles A. Doyen, commanding of the barracks here, recounted the circumstances as he recalled them, Doyen was one of the first of the superior officers of the barracks to reach Sutton's side. He said that the shooting occurred in a quarrel, and that other officers who were with Sutton explained the circumstances to him as follows:

"As Lieut. Osterman turned away, Lieut. Sutton struck him on the side of the head with his fist. As a blow had now passed, Lieut. Utley, who had stopped them before, said they must fight. Lieut. Osterman's tent, and stripped to their shirt sleeves, and after a few blows Lieut. Sutton was knocked down. He lay still, refusing to get up. The others started away when Sutton jumped on the ground and attacked Lieut. Adams. Adams knocked him down. Lieut. Sutton, infuriated again, got up, and with rough language rushed to his tent."

"I'll never see any of you before morning," he said. Meanwhile Lieut. Roelker, who had come in before and whose tent adjoined Sutton's, heard a disturbance in the adjacent tent, and came to the entrance to investigate.

Then, according to the officer's story, Sutton rushed out of his tent with a revolver in each hand. Roelker followed him, Sutton on the road with several others and fired.

"One of the shots struck Lieut. Roelker, who dropped to the ground," continued the officer. Adams thereupon rushed toward Lieut. Sutton who was still firing. Lieut. Adams grappled with Sutton and threw him. Almost at the same time some one said: "My God, men, he's killed Lieut. Roelker."

"Thereupon Lieut. Sutton pulled his right hand from under his body and fired a shot which entered his head about on a line with the right eye and an inch and a half from the ear, which bullet was found to have passed downward and came out slightly below the left ear, on the left side of his neck.

"The officer of the day, Lieut. Willing, who was standing in front of Lieut. Sutton, and about three feet from his head, reached over and took the revolver from Lieut. Sutton's hand. Lieut. Roelker was picked up unconscious and assisted to the barracks. This is the substance of what Lieut. Utley told me and what I have learned from other sources."

BRYAN'S PROPOSAL

Suggests That Taft Submit Amendment Providing for Direct Election of Senators by People.

Lincoln, Neb., July 14.—Suggesting that a constitutional amendment providing for the direct election of United States senators by the people be submitted to the states for ratification at the same time that there are to pass upon the income tax, W. J. Bryan had addressed a letter to President Taft.

Bryan referred to Taft's speech of acceptance of the Republican nomination for president, in which he said that he was personally inclined to favor such a change, and asks if this is not an opportune time to present the subject to congress.

STEPS FROM OFFICE TENDERS TO KAISER

Services—Empoints Bethann Chancellor.

ON BUELOW.

your majesty that Prussian traditions Emperor and that I my country during November. I had I helped to excite...

larges are false. I in my loyalty to hough.

Prussian minister med to-day to succretary of state, nes minister of fin, governor of the denburg, becomes of education and ow becomes Prusmer.

TEACHERS IN CONVENTION WELCOMED TO CITY AND TO PROVINCE

Public Reception This Evening—Actual Business Begins To-Morrow.

(From Tuesday's Daily.) The seventh convention of the Dominion Educational Association opened this afternoon in the Assembly hall in the rink, Fort street.

This morning the board of directors met in Dr. Robinson's office and transacted a great deal of business. The financial position is quite satisfactory.

OBJECTIONS RAISED BY SCHIVELY SET ASIDE

Washington Legislature Replies to the Insurance Commissioner.

(Times Leased Wire.) Olympia, Wash., July 13.—To the 60-page answer of State Insurance Commissioner Schively to the impeachment charges against him, the legislative board of managers to-day made a reply covering less than four pages, but putting in issue the entire proceedings.

Repeating to Schively's affirmative defence further, particularly to the assertion in his answer that he is responsible for the improved insurance laws, that under his administration as an elected officer the department has been conducted properly, and that the department has the highest reputation, the board of managers says these are no defence to the impeachment, and are designed to cloud the true issues.

BARON O. ROTHSCHILD COMMITS SUICIDE

Love Affair Believed to Have Caused Youth to Take His Life.

(Times Leased Wire.) London, July 13.—Advices received to-day from Vienna say that Baron Oscar Rothschild, aged 21 years, the youngest child of Albert Rothschild, committed suicide by shooting himself in the love affair is supposed to have caused the youth to end his life.

San Francisco, Cal., July 13.—Baron Oscar Rothschild, reported to-day to have committed suicide in Vienna, San Francisco recently by attempting to ignore reporters of the local newspapers.

EARNINGS OF RAILWAYS. Montreal, July 13.—C.P.R. earnings for the first week of July show an increase of \$22,000. The Grand Trunk for the same week increased \$29,578, compared with last year.

REPUDIATION NOT IN FAVOR

ATTITUDE OF COUNCIL REGARDING RACE MEET

Will Take Legal Advice Before Considering Mayor Hall's Resolution.

(From Tuesday's Daily.) A majority of the city council is not in favor of repudiating the agreement made between the B. C. Agricultural Association and the Country Club, with the endorsement of the council, whereby a sixty-day race meet is being held in the city.

"Whereas the British Columbia Agricultural Association, being the tenants on surffance of the agricultural fair grounds, have permitted the use of the grounds for continuous daily racing for 90 days, of which 30 days have expired, this exceeds the originally contemplated programme.

"And, whereas the continuation of the daily racing in the present mode with the greatest reprehensible and growing practice of extensive betting is inimical to the welfare of the city.

BEGIN FIGHT ON UNIVERSITY

PROF. MEYER DENOUNCES CHICAGO INSTITUTION

Declares It Advocates Free-Thinking and Has Violated Promises.

Chicago, July 13.—Prepared to denounce the University of Chicago for accepting money from Baptists under the guise of being a Baptist institution and then advocating free-thinking, Prof. Johnston Myers, of the divinity school of the university, made ready to appear before the Baptist Theological Union to-day to oppose his ousting by that body.

"I will inaugurate a fight against the University of Chicago," declared Myers, "that will be nationwide in its proportions. I will see that the institution is so generally denounced that the people of the United States will look with horror upon it.

FIREMAN KILLED IN TRAIN WRECK

Flames Break Out Among the Cars but Are Extinguished by Crew.

Columbia Falls, Mont., July 13.—The Great Northern Oriental Limited east-bound, jumped the track five miles west of Rexford, Mont. yesterday. Traffic was delayed for ten hours.

San Francisco, Cal., July 13.—Because his parents would not permit him to build a bonfire in the back yard of his home, the 3-year-old son of H. C. Taylor crept beneath the house and started a fire with a pile of leaves and kindling.

CHILD BURNS DOWN HOME.

Santo Rosa, Cal., July 13.—Because his parents would not permit him to build a bonfire in the back yard of his home, the 3-year-old son of H. C. Taylor crept beneath the house and started a fire with a pile of leaves and kindling.

MADE LIVING BY DUPING WOMEN

BIGAMIST TELLS STORY OF HIS LIFE

Says Cupidity of Victims Was Responsible for Success in Securing Money.

San Jose, Cal., July 13.—Doomed to die in a prison cell, Christian C. Johnson, sentenced to seven years at San Quentin for bigamy, gave out a statement, made public to-day, recounting the history of his life.

"I was born in Flensburg, Schleswig-Holstein, March 11th, 1845. My father was a horse dealer and that was my business for years after I came to the United States in 1871.

SURPLUS EXCEEDS ONE MILLION

REVENUE \$500,000 MORE THAN ESTIMATE

Income for Current Year Will Probably Total Over \$90,000,000.

Ottawa, July 13.—The books of the finance department for the last fiscal year were closed on Saturday last. The total expenditure on consolidated fund account was in round numbers \$84,000,000, or about \$1,000,000 more than the estimate.

CITIZENS HONOR MEMORY OF CUSHMAN

Three Thousand Attend the Funeral of Congressman at Tacoma.

Tacoma, Wash., July 13.—After lying in state from 10 o'clock to 1:30 in the armory here to-day, the body of Congressman Francis W. Cushman was buried with honors in the Tacoma cemetery.

JAPANESE WILL PARTICIPATE

Battleship Izumo to Sail for San Francisco in September.

Tokio, July 13.—It was announced to-day that the Japanese battleship Izumo will sail for American waters in September to take part in the Portola celebration in San Francisco, October 19th.

HANGS HIMSELF.

Ottawa, Ont., July 13.—Robert McCorkill, a street railway conductor, hanged himself in a freight car in the C.P.R. yards Sunday night. He was 34 years old and married, but had no children. He had been drinking lately.

TEHERAN FALLS INTO HANDS OF THE REBELS

Loyal Troops Powerless to Check Advance--Streets of Persian Capital Strewn With Dead and Wounded Men.

(Times Leased Wire.) Teheran, Persia, July 13.—Strewn the streets of Teheran with dead and wounded men, the Persian rebels to-day entered the city and, storming barricade after barricade, made their way toward the palace of the Shah.

SHAH PREPARES TO TAKE REFUGE IN RUSSIAN LEGATION

(Times Leased Wire.) Teheran, Persia, July 13.—Strewn the streets of Teheran with dead and wounded men, the Persian rebels to-day entered the city and, storming barricade after barricade, made their way toward the palace of the Shah.

Officers will be elected this afternoon and committee reports will be heard. To-night there will be a reception, buffet luncheon and dance at the Washington state building at the exposition.

POST OFFICE LOOTED.

One Man Wounded by Bandits Who Make Their Escape.

Ordan, Utah, July 13.—The post office at Utah Hot Springs was robbed early to-day by bandits who wounded one man and made their escape, according to advices received here.

RECLAMATION WORK IN WESTERN STATES

United States Government Has Already Expended Fifty Million Dollars.

(Times Leased Wire.) Seattle, Wash., July 1.—On an official tour for the purpose of investigating matters connected with the interior department, Secretary Richard A. Ballinger is in the city to-day.

DR. OSLER IS SIXTY AND STILL LIVES

Professor Does Not Intend to Carrv His Teaching Into Practice.

(Times Leased Wire.) Baltimore, July 13.—The joke is on Dr. Wm. Osler, an eminent professor of medicine at Oxford, for at the age of 60, he is hale and hearty, and evidently does not intend to be true to his teachings, by committing suicide.

MUTINY ON GERMAN SHIP AT HONOLULU

Armed Sailors Drive Officers to Upper Decks—Vessel Detained.

(Times Leased Wire.) Honolulu, July 13.—Members of the crew of the German ship Flensburg are held in detention here as the result of a mutiny aboard the vessel late yesterday.

GLIDDEN AUTO TOUR.

South Bend, Ind., July 13.—The Glidden automobile tourists stopped here a few minutes to-day en route to Kalamazoo, Mich., from Chicago.

Twice-a-Week Times

Published every Tuesday and Friday by THE TIMES PRINTING & PUBLISHING CO. LIMITED. JOHN NELSON, Managing Director.

PROF. SHORTT, RECRUITING SERGEANT.

As if British Columbia had not enough trouble in keeping the ranks of her army of teachers up to the standard without Professor Shortt butting in and encouraging desertion by engaging in his own peculiarly eloquent way upon the attractions of the Dominion civil service.

EDUCATIONAL CONVENTIONS.

(From Tuesday's Daily.) The presence in the city of wise, witty, aggressive and progressive representatives of the International Council of Women and of the Dominion Educational Association (some of the last-named delegates are mere men) moves a gentleman of the old school of thought to ask the Times what good these institutions are doing for the world.

We fear our friend has fallen out of line in the march of the great army of progress. He is a relic of several decades back. He has failed to keep himself informed of what is going on in the world-of the active part women are taking in the formation of public opinion and of directing that opinion after it is formed into practical channels leading to the accomplishment of real social and political reforms.

TORONTO FLAG INCIDENT.

American opinion, that is American opinion which is of any value, on the subject of that "flag incident" in Toronto, is exactly what might be expected considering the circumstances of the case. As expressed in the better class of American journals, it is substantially in harmony with Canadian opinion as given expression in such newspapers as the Toronto Star, which we quoted yesterday.

Were it not for the multiplicity of details, not easy to invent, which were given in the dispatches telling about the maltreatment of a British flag up in Toronto on Wednesday by what is described as "a party of American tourists" the yarn could be dismissed as either wholly false or a wild exaggeration of a trivial accident.

"They may have come from the United States, but they belonged to the great international brotherhood of vicious imbeciles which is distributed impartially through all countries and belongs to none any more than does the primordial slime of every sea to any one of them.

hope of starting a row. There is a type, known the world over, of the college boy, unlicked cubs with no sense and little hope of ever developing any, that might think it funny to annoy and disgust people in such a way.

"Why the Torontonians refrained from an immediate and proper, because effective, action in the case is more than we can understand. They might have been sure that real Americans—the kind with an honest claim to the name and represented by President Tarr and Governor Hughes when talking to and about Canadians at the Champlain celebrations—would not have objected to anything Toronto did, so long as it did not involve the sending of flag-defiling reptiles back into United States territory.

A WAR CLOUD.

It is now the turn of Greece and Turkey to square up to each other. Those states which are maintained chiefly for the convenience of the great powers of Europe are perennial sources of trouble and irritation. The Turks would probably have been driven back, figuratively speaking, to their original home in Asia long ago but for the jealousies and ambitions of their neighbors to the north and northwest.

There is little doubt that if the Greeks are determined to make war against Turkey, they are not entering the campaign of their own volition or upon their own account. Whatever the administrative limitations of the Mussulman may be, he is now, as of old, a warrior. He is courageous to the point of fanaticism, and the Greek would have just as feeble a chance against him as was the case in the last war between the two nations.

The inland Sentinel of Kamloops has commenced the issue of a daily edition, the first number of which appeared on Monday last. It is a very bright and newsy issue, too, and should receive the generous support of the people of British Columbia's inland empire.

As for the ladies and gentlemen of the Dominion Educational Association, who are assembled here to discuss questions of professional interest and public significance, is there a class of people in the whole of the Dominion engaged in a more sacred calling than this? Considering the services they are performing for the state, is there a single class of the community more deserving of public recognition and encouragement? What is the degree of recognition and encouragement the teaching profession receives in this country? Ask the teachers in the rural schools of British Columbia, and you will get an answer. And we do not know that it is imperative to go to the ill-paid pedagogues of the rural districts for the answer. Yet, to the credit of this province be it said, if there be any credit in it, that the remuneration of teachers here is probably higher on the average than in any other Province of the Dominion.

As if British Columbia had not enough trouble in keeping the ranks of her army of teachers up to the standard without Professor Shortt butting in and encouraging desertion by engaging in his own peculiarly eloquent way upon the attractions of the Dominion civil service.

There was a large party of the recently appointed Dominion government commissioners who were in the city for the purpose of examining the work of the various departments of the government.

ably discharging the duties of citizenship—is it any wonder that so many teachers the profession is merely a stepping-stone to some other avocation holding promise of more substantial rewards and higher honors? Notwithstanding these things, which are incontestable, the discussions of the convention will be confined principally, if not entirely, to matters having to do with higher professional standards, increased efficiency in the work of the schools and of the teachers.

VILLAGE SPRINGS WITHIN A MONTH

The township of Hutton, where not five weeks ago the gophers were the undisturbed inhabitants of the fertile prairie is now the home of no fewer than fifty-eight hustling American families, busy cultivating the land and making homes for themselves, says the Calgary News.

The promoters of the scheme to settle this particular township are typical hustlers from the other side who, foreseeing the immense possibilities of the country, and having a pretty good idea as to what its future will be, are doing all in their power to induce American emigrants to come and take advantage of the opportunity to make homes for themselves, and give their children a start in life better than they could anywhere south of the border.

Another deal is that just completed by the Dickson Land Company with the same parties, which involves the transfer of the Bow Park ranch of 21,600 acres. This ranch, until recently, was devoted to the raising of horses, but its value for fruit-raising purposes was so great that it surprised no one when it was learned that it had been bought and would be subdivided.

The splendid art exhibit of the public and high schools of Vancouver was hung Tuesday afternoon in Assembly hall. In the smaller outer hall some very fine samples of original designs from the high schools of Vancouver are shown, while directly opposite is the work of the primary classes of Victoria.

San Francisco, Cal., July 15.—Officers from the Presidio, aided by the police, are searching to-day for Chas. Z. Pettit and Warren A. Covey, military prisoners, who engineered a sensational midnight escape from the Presidio guard house. The men were being held in the guard house pending their transfer to the military prison on Alcatraz island.

San Francisco, Cal., July 14.—Wolga's great fight against Nelson last night undoubtedly will earn him a match in San Francisco, either this month or August. Charles Lecari, who has the permit for this month, offered last night's opponents a return match, but Nelson replied that he had to go to New York to attend to a number of business matters.

The fire brigade responded to a false alarm Tuesday about 12 o'clock to box 45, Spring Ridge. During the past few months a number of false alarms have been sent in from that box, and if the offender of the law is caught he will be punished.

The old bridge at the end of Head street is being done away with. The bridge has been used for a number of years, and crosses a small stream. This place is now being filled in with earth. The main thoroughfare to the barracks is now closed on account of the improvements being made.

VILLAGE SPRINGS WITHIN A MONTH

American Settlers Busy Cultivating Land in New Alberta Township.

The township of Hutton, where not five weeks ago the gophers were the undisturbed inhabitants of the fertile prairie is now the home of no fewer than fifty-eight hustling American families, busy cultivating the land and making homes for themselves, says the Calgary News.

ENGINEER'S BODY

Victim of Railway Accident at New Westminster Bridge.

New Westminster, July 12.—On the twenty-second day after the date on which the locomotive and tender of the Seattle, express fell into the Fraser river through an open switch the body of one of the victims, Engineer George A. Ziedewitz, was discovered yesterday.

Mr. Rushton and Billy Saunders put out in a boat, and had no difficulty in recovering the body. The body had floated down opposite the steamer Transfer lying off the market wharf.

Mr. Carter has a few men at work opening up the twelve-foot ledge on the Blue Bird which has a capping of iron. He expects to find carbonates when the work has been done.

Travel Larger Than Ever Before Average of 700 Passengers Per Boat on Princesses.

Brother of Mrs. Ruiz, Who Committed Suicide, Begins Inquiry in London.

London, July 15.—With the announcement that Frank O'Brien, brother of Mrs. Ruiz, was carrying away with him the name of a well-known American millionaire was linked, is here to-day seeking her estate, it was learned that Mrs. Ruiz left money, clothing and jewelry of great value than was at first supposed.

From investigation it appears that money and possessions all vanished simultaneously, and it is rumored that a friend of the American took them to Paris.

FRUIT CULTURE IN OKANAGAN VALLEY

New Tracts of Land Being Brought Within Irrigated Area.

Vernon, July 12.—A couple of deals involving the purchase of a very large acreage of real property have been put through within the last couple of weeks. The purchasers are Messrs. J. S. Reay & a large real estate dealer of Vancouver, and Dr. McKechnie.

Another deal is that just completed by the Dickson Land Company with the same parties, which involves the transfer of the Bow Park ranch of 21,600 acres. This ranch, until recently, was devoted to the raising of horses, but its value for fruit-raising purposes was so great that it surprised no one when it was learned that it had been bought and would be subdivided.

COUNCIL ORDERS NUISANCES ABATED

Stagnant Pond to Be Filled in and Stables Cleaned Up.

Two inquiries into nuisances were held by the city council Monday and in both cases orders were made by council for their abatement.

Inspector Lancaster said he was frequently called upon to take up dead dogs and other animals. The smell was very bad. There was at present twelve inches of water in the excavation in the winter more, making it dangerous to children.

Mr. H. M. Robertson said the thing was certainly a menace to health, inasmuch as it bred insects, which would carry disease.

We Do Not Require to Get Out a New Design For The MAGNET Every Year

Because, from the start there has been no essential change in the mechanism of the MAGNET; because the inventors, profiting by the experiments of other makers, during the previous twenty years, designed the MAGNET on perfect mechanical lines, so that no changes, have been required.

Any additions that have been made to the MAGNET, such as the BRAKE, IMPROVED BALL RACE, etc., can be, and are put on any MAGNET now in use.

CIVIL SERVICE COMPETITIONS

PROF. SHORTT GIVES INTERESTING ADDRESS

Features of New System at Ottawa—Address by J. L. Hughes.

There was a large gathering at Assembly hall last night to hear two of the great men of Canada, Professor Shortt and James L. Hughes, give addresses. The members of the Dominion Educational Association were all there, and a large number of citizens availed themselves of the opportunity to attend. Men and women who had heard of the same of the speakers helped to fill the spacious hall and none were disappointed.

Professor Shortt is a student of economics and his writings are well known. He is one of the members of the recently appointed civil service commission which is charged with the duty of doing away with the old patronage system and has been in vogue for so many years under the Dominion government and replacing it by a system of competitive examinations. It was for the purpose of unfolding his scheme of reforms for the re-organization of the teachers in providing men fitted for the positions which were to be filled that he appeared last night. His talk was business like and to the point. He showed that a full grasp of the situation and that the Dominion government could not have made a better choice of a commissioner. The meeting was presided over by Dr. Alex. Robinson, superintendent of education for the province.

Dr. Robinson, in introducing Prof. Shortt, said he needed no introduction to the people in any part of the province. Professor Shortt said the subject on which he was to address them was practically new and was worrying many people. He had become very sorry to those present to help to bear it.

The problem was to appoint the junior officers in the civil service by means of competitive exams. The question resolved itself into how were they to set a series of questions and so examine the papers as to do justice to candidates, and so that they might be distributed throughout the country. The commission was appointed by the government, but not removable by the government. They were to pass upon every promotion and to issue a certificate for every increase in salary. They were also to report upon every department and to undertake any other duties assigned to them. The automatic duties were found to be more than enough. They were to commence with the inside service but the work would be extended to the outside service, such as to post office, which might be brought in by order-in-council. In the inside service the civil servants were to be graded in three grades, and each of these subdivided. Further, there was a lower grade composed of messengers, sorters, etc. and lower still the laborers.

The third division was separate from the two higher and somewhat overlapped them. Those not expecting to rise higher than the third division could begin at \$500 and rise as high as \$1,200. In the second division salaries commenced at \$800 and rose to \$1,600. First class salaries ran all the way from \$1,600 to \$4,000, according to the grade and length of service.

There were three separate examinations on which candidates must qualify. The grade for third class was about the same as for half way through the High school. The second division took the work about the same as was done in the second year university course. No graduate of a university would be allowed to qualify unless he took the examination as the examination is

of a competitive character. The number of positions to be filled will be advertised and filled from those who qualify. The ones taking the highest rank are the ones appointed. For this reason it was found impossible to allow a college degree to stand. The plan adopted was that used in England.

In that way the confusion was got rid of and the candidates were equal. Every candidate would have to be between the ages of 18 and 35 years. At Ottawa they found between two and three thousand candidates on the waiting list, and one thousand among the appointees were not qualified by examination.

When a position is now vacant the necessary qualification is stated. A candidate suitable for the position is taken and given two months' probation. The deputy minister then may report against the candidate. The case is looked into and if it is found that the person is not suitable he is either transferred or allowed to leave the service. As to the vexed question of sex the initial salaries he thought were not good enough to attract the best young men. The candidates from the big cities were so far nearly all females. The men came from the country districts and the Maritime Provinces. (Laughter.) The result was they got the leftovers from the business houses.

Young women not having taken all the opportunities of life and not having obtained the suffrage were necessarily at disadvantage. Plenty of women qualified.

In Europe they had no trouble in getting men. In a country like this a salary of only \$300 with nothing of a special relative character ahead, did not appeal to the young man. In the service the prospects were too definite. The man would be too much tied up. A certain monthly income with a sure future looked well in bad times, but not in times like these.

The reason they could not find more positions for women in the higher branches was because the work was not suitable for the ordinary woman. Then the higher positions were filled by promotion and could not be filled by women. Men would not work under them if they were appointed. If the women were not promoted the men would have to be promoted over their heads, and they would not have received the necessary training. There were good offices going a begging and there were not enough men willing to start at as low as \$800 a year. He wished to clear up some misconceptions. The chances for promotion were great because of the prospect of growth of the country. The governmental control of positions in Canada were proportionally to population twice as many as in the United States, so that the expansion of the service would be very rapid. This was due to the fact that there were more diversified powers assigned under the constitution to the federal government in Canada than in the United States. Reorganization meant the making of new positions. The opportunities were very great for the young man entering now. In commercial life there was every opportunity a man could want and the same for the civil service. The qualified man would get into the position calling for the qualifications.

There would be also special service for which special experts were required. There were two methods of getting an outsider. One was for the department to nominate and the commission to investigate. Another method was for the department to ask the commission for a man with certain technical qualifications. Such a man would be advertised for and from the candidates the successful one would be selected on probation like the others. The examination would be any adequate test which would indicate their qualifications. A man should have a general education as well as a training in the particular branch of work.

(Concluded on page 4.)

NEW DECKS FOR SHIP HAZLEWOOD

Vessel Expecting Grain Charter in the Near Future.

(From Thursday's Daily.)

A few days ago there was a rumor that the ship Hazlewood, which is keeping company with the Senator in Esquimaux harbor, was likely to be chartered to carry grain to the United Kingdom. Nothing definite has so far been heard, however. No vessels are being chartered this year at less than union rates and the Hazlewood will lie where she is rather than under-

Captain Brew has not been idle since the vessel arrived in port last November. She has been shipped all over, and several tons of paint has made her look very gay. The latest work to be done on her is the laying of a new deck. The work is nearly complete, and when she is finished the Hazlewood will be as smart a ship as may be found in the seven seas.

General Secretary Brace, of the Y. M. C. A., returned on Monday from Vancouver where he has been attending the western Canada convention. He was with W. G. Findlay, physical instructor, R. C. Horn, vice-president of the Y. M. C. A., and P. D. Hills, chairman of the boys' department, were the delegates from the local Y. M. C. A. The convention closed on Sunday and was the first of its kind to be held in the west. It was a very interesting and instructive convention as a number of splendid speakers were heard. Reports were received from all the way along the line in western Canada and were very inspiring. It was noticed that a greater number of Y. M. C. A. buildings were being built in the west than in the east. There are from 35 to 40 other places that are ready for association buildings, but owing to the fact that there is not enough secretaries to cover the ground they have to wait for some time.

Dr. Chase's Ointment is a certain and guaranteed cure for every form of itching, bleeding and protruding piles. See testimonials in the press and ask for your money back if not satisfied. 50c. at all dealers or EDWARDS, BAYNE & CO., VICTORIA, B.C. DR. CHASE'S OINTMENT.

PROFESSOR MACOUN TO MEET LOCAL SOCIETY

Natural History Students Have Interesting Gathering Last Night.

A large number of local flowers which were taken to the regular meeting of the Natural History Society Monday by the members were named, and their peculiarities described by the secretary, J. E. Anderson. Mr. Anderson also showed one or two moths, the larvae of which have been destroying the foliage of the Douglas fir at Saanich. Acres of the fir woods have been denuded of foliage by these pests. Some oak galls, generally known as oak apples, were shown and dissected. An oyster, which had been sent to Mr. Anderson from Saanich, proved to be one of the common native oysters which are numerous on some parts of the coast.

Professor Macoun, who is working on the west coast of Vancouver Island, and who had been invited to address the society, sent a letter expressing regret at being unable to do so, but offered to meet the society informally. A special meeting for this purpose was arranged for September 21st.

The president, F. Napier Denison, reported that the recent rain was the heaviest downfall in Victoria in the month of July during the past twenty years.

There was a good attendance of members, and the work was concluded by 8:40.

VISIT MADE TO PUMPS AND TANKS

Reservoir and Other Works Satisfactory to Mayor and Expert.

(From Thursday's Daily.) An inspection party, consisting of the Mayor, Arthur L. Adams, Messrs. Raymur, Kempke, and Aldermen Henderson, Turner, Stewart, Mable, Bishop and Raymond, made a tour of the new works recently installed or constructed in connection with the waterworks department, and found everything in a perfectly satisfactory condition. Mr. Adams declared that everything was in good working order and to-day he left for home.

Speaking of the trip, Mayor Hall said that they first went to the pumping station on Yates street. There the work was found to be perfectly satisfactory. At the high level tank at the top of the hill everything was perfectly dry outside in spite of the fact that the tank was three-quarters full of water. It had been quite full and yet there was no sign of a leakage.

The new pumps at the North Dairy station were found to be working splendidly, but course the point of most interest was at Reservoir Hill, where so many complaints have been heard of the seepage which is flowing from the reservoir having a bottom area of over two acres, and that the whole inside surface of cement was over three acres, the leakage was almost nothing. The water had been drained off in order that Mr. Adams might have an opportunity to inspect the bottom. In order to clear the water from the reservoir the city had been using that supply for two or three days, and then some of it was allowed to drain away and some people imagined this was a leakage.

Discussing the matter further, the Mayor said that the whole work had been very satisfactory and had been kept within the original estimate in spite of the fact that the reservoir had been built of concrete instead of steel, as was at first intended.

The reservoir was empty at 10 the night before last, and when the visit was made there was thirteen inches of water, two five inches yesterday from 5 a. m. to 5 p. m.

SAIL BOAT LOST FROM OAK BAY

Strangers Hire Craft and Have Not Yet Returned.

(From Tuesday's Daily.) There is a sail boat which left the Oak Bay boathouse recently and never returned. It left under rather suspicious circumstances.

It was about Thursday of last week that two men ordered a sail boat to be in readiness to meet them on the following morning at Oak Bay. When the men arrived they brought their bicycles with them, and on being asked why they were taking them, they replied that they were going to see some friends at Cadoro bay and wanted to ride up to the house where they lived. That was the last that was seen of the party, and now the police are making diligent search for them. It is quite possible that some accident may have happened to the occupants of the boat but the theory of most people interested is that they have crossed to the American side and will not return. The boat was one of the best the club owned, an eighteen foot sail boat with centre board.

A quiet wedding took place on Tuesday at the parsonage of the Metropolitan Methodist church, when Mr. James Sharp, of Ladysmith, and Mrs. Hannah Johnson, of Victoria West, were united in marriage by Rev. E. E. Holling.

A big demand is being made for the new guide issued by the Vancouver Island Development League, and another order has been given to the printers for 20,000 copies more. This guide is being forwarded to numerous places, and is being placed in all hotels and frequented places in town.

PARKS BOARD IS DISBANDING

ALD. FULLERTON HAS RESIGNED FROM BODY

New Member Follows Example Set by Former Ones.

(From Thursday's Daily.) Last night the parks board convened after forty-five minutes wait for the mayor to arrive to make a quorum. The press was requested to leave the room when the matter of the park superintendent's salary came up for discussion.

Ald. Fullerton handed in his resignation rather than continue transacting business as suggested. The reasons for the resignation are set forth by Ald. Fullerton. He said that he had been asked to resign the board could spend its own money and that if the superintendent took charge of the boulevard and local improvement work, the city would remit to the board to pay for it. "Last night when the press had been sent out the mayor said he and Ald. Henderson could get the council to give \$125 for the salary and if the board would agree, the mayor said, they could get it through the council. I wanted this to go on record as a motion by the mayor and Ald. Henderson and Mr. Lewis supported me. There was trouble and they would not put themselves on record, so I resigned. It looks to me that the council does not intend to give the parks board any consideration at all."

Before the superintendent's salary came up the board took action on Sunday games and ruled that the city parks would not be open for regular matches between teams on Sunday. There was, however, no restriction imposed against the members of various teams practicing during Sunday.

Superintendent England said complaints had reached him from people residing near the park that the boys played games Sunday and they wanted it stopped. He did not feel like taking action without the sanction of the board.

The board requested that whatever share the city could spend for music in the parks during the summer season should be spent. The council had formerly given \$500. The matter, however, stood over as a question of propriety was raised by Mr. Lewis as to the employment of bands on Sunday. If the money is forthcoming from the council the matter will be decided later.

Ald. Turner's proposal that the hour of meeting should be changed from 8 p. m. to 4 p. m. stood over. There were present Mayor Hall, Ald. Henderson, H. M. Fullerton and A. E. Lewis.

NEW PACK SALMON ARRIVES FROM NORTH

Fishing Still Continues Poor at Rivers Inlet.

(From Thursday's Daily.) Three thousand cases of the new pack salmon were brought down from Northern points by the steamer Vado and discharged at Vancouver prior to the steamer leaving for Ladysmith to coal on her way to this port. She is arriving here this afternoon and will land a good deal of cargo before leaving late to-night for Northern British Columbia. The salmon was picked up as follows: 1,200 cases from the Skeena, 1,200 cases from the Naas and the remainder from Namu.

The Vado also brought south eleven fishing boats from the Skeena and Fraser a large pack is looked for, and the boats will be needed more there than in the North. The Vado brought word that the fishing is still poor at Rivers Inlet, although on the Skeena and Naas rivers there is a good average run.

At the last meeting of the Sisters of Scotland, which is the women's auxiliary of the St. Andrew Society, held in the Sir William Wallace hall, there was a large attendance of members and a very pleasant evening was spent. Four new members were admitted and several more proposed for membership. A hearty vote of thanks was accorded Sister Mrs. Murray for the use of her beautiful grounds (Maplehurst) for the recent garden party, and the women of the auxiliary of the above order, and which proved such a success. The Sisters of Scotland hold their meetings the second Thursday of every month, and a cordial invitation is extended to all Scotch ladies to join.

Perfection Bottle Stopper

This new device, a rubber expansion handsome nickel plate mounted cork, is the only satisfactory stopper for all sizes of bottles containing aerated waters and all bottled liquors.

NO MORE FLAT BEVERAGES

For mineral waters, ginger ale, champagne and malt liquors this stopper is invaluable. A necessity for the physician, drug and soda mountaineer, and for all families. Unrivaled in the sick room where mineral water and wines are prescribed by the physician. Made in two sizes. Call here and see it.

NORTHERN INDIANS TELL OF GRIEVANCES

Commission Has Completed Its Investigations at Hazelton.

Hazelton, B. C., July 15.—Indian Commissioner Stewart, of Ottawa, who came here accompanied by Superintendent Vowell, of Victoria, and Chief Constable O'Connell, of the Dominion force, to inquire into the grievances of the local Indians arising out of the settlement by white settlers of crown lands outside of the Indian reserves, which the Indians had been using for themselves for generations, completed the hearing of the trouble last night after a two-days' session. The proceedings were confined to a hearing of the Indian grievances and their demands for redress. Each tribe was represented by a spokesman, who presented each tribe's troubles and demands in turn, each spokesman practically repeating what the first one set forth.

Basing their contention on the assumption that all the land belonged to them to be hereditarily and that whites had taken it without conquest or remuneration, they practically asked that the whole country be surrendered to them. This would involve dispensing with the present system of reserves, the establishment of their ancient tribal laws and customs for the government of the territory and the forfeiture of all rights, claims and interests of the whites, etc., practically the establishment of the conditions existing before the white man came among them.

While the claims were made separately for the surrender of each tribal chief's "lands" his forefathers collectively it would involve the entire country. In support of their contentions that they have not been justly dealt with in the land question, they cited promises made to them of large land concessions involving hundreds of thousands of acres lying along the main valley of the Skeena and Bulkley rivers, by former commissioners who had been sent to them in connection with the affairs in early days. They asked the commissioner for his decision in the matter, and on being assured that nothing could be done till he had submitted his report to the government at Ottawa, they wanted him to issue an order forbidding any further location of land by the whites until such time as their claims were settled.

Some of them, on being told this was beyond the power of the commissioner, grew somewhat hostile and declared that they would have to prevent further location themselves if the government would not. This sentiment was disapproved, however, by the cooler heads, and the matter dropped.

A few days will be put in visiting the villages of the tribes along the Skeena, and the party will then return to Victoria and Ottawa and submit their report for the government's action.

FISHERMEN BUSY AT NAAS AND SKEENA

Little Doing at Rivers Inlet Local Traps.

There are plenty of fish running in the Skeena river and in the Naas but not many at Rivers Inlet. That is the news brought by each of the steamers arriving from the north this morning and Monday. The run generally arrives at the north and gradually the fish arrive at the more southerly points.

At Naas the cannerymen say the fish are coming splendidly and all are very busy. The canneries are running full blast and there is prospect of at least an average catch. At the Skeena the fishermen are getting nearly one hundred fish to the boat regularly and doubtless they will be doing even better in a day or two.

Locally the sockeyes are not coming very fast, but the cannerymen say they expect them towards Thursday or Friday.

CHARGED WITH FORGERY.

Bruce Eggo Is Alleged to Have Raised Money Illegally.

(From Tuesday's Daily.) Bruce Eggo, well known in Winnipeg and formerly a member of the Boston Opera Company, appeared in the police court this morning on remand, charged with uttering a forged cheque. He elected to be tried before the higher court and reserved his defence. He was not represented by counsel.

The particulars of the charge are that on Thursday last Eggo handed to C. P. R. telegraph office, about 2 a. m. a cheque stopped in the name of L. Finch of Finch & Finch, tailors, Government street, payable to Bruce Eggo, value \$670. Mr. Jackson paid the cheque, which was afterwards dishonored at the bank. Lewis Finch gave evidence that the signature on the cheque was not his and he had not authorized accused to sign it.

Lewis & Son, wholesale fruit and provision merchants, have moved from their old premises, 545 Yates street, on account of building operations, to the store lately occupied by Rafter & Janton, adjoining M. R. Smith & Co. where they will be pleased to meet their customers. The new address is 515 Yates street.

Free Brothers, Toronto, will send you a lever of their famous Plantol toilet soap, if you mention this paper.

PRINCESS MAY OVERTAKES AMERICANS AT COAL HARBOR

C. P. R. Skagway Liner Passes Jefferson and Spokane.

The speed one of the local steamers was clearly shown within the last day or two when the Princess May on her way south overtook both the Jefferson and the Spokane. The Spokane was first seen by the Princess May at Skagway as she was leaving for Sitka. Then on the way south the Princess May came over on the Princess Charlotte and was sent to the hospital. Another passenger was J. C. S. Bennett, official photographer for the C. P. R., who had been visiting the points of interest along the coast. Rev. Hawley and family from Atlin also came south as far as Vancouver on his way to England for a holiday.

The Pacific Coast mines, of which J. Arbutnot and J. M. Savage, of this city are so deeply interested, is becoming one of the important coal producers on the island. Bunkers with a capacity of 5,000 tons have been erected at Boat Harbor, the shipping port of the company. In connection with these the very latest equipment has been installed for a quick discharge of vessels. A capacity of 750 tons an hour can be handled from the bunkers to the holds of vessels, so that the equipment is well up-to-date.

The company is already doing a good business in bunkering vessels and in general trade, but expect to radically increase their output in the near future. The company has its own line of railway to Boat Harbor and expects to develop a large trade.

MINING DEVELOPMENT AT QUEEN CHARLOTTE'S

Arrivals on Amur Tell of Considerable Activity at Collision Bay.

Every steamer that arrives from the Queen Charlotte Islands brings news of mining development at those islands and of more or less rich strikes of ore or black sand. The Amur which arrived from the North on Monday is no exception to the rule, for she had a number of mining men aboard, all of whom, speak very highly of the prospects there.

Mr. Findlay, who has been up looking at the Ikeda mine with the idea of purchasing it, came down in company with Messrs. Ikeda and Atsumi, of the Japanese company. Nothing definite has not yet been done, but it is not at all improbable that the sale may be completed in the near future. A good strike has been made at the Collision Bay mine, according to Manager Collision, who came south on the steamer, and the first shipment of ore from the Oceanic mine was taken to Ladysmith. This shipment consisted of 16 tons of low grade ore. The result of the smelting will be awaited with a great deal of interest, as so much depends on the richness of the mineral. The Oceanic mine is the property of Smith Bros., Collision Bay.

There are all sorts of tales of finds and strikes coming from the islands, some of which have some foundation in fact, but many of them are probably of the hot air variety.

The streets department proposes to recommend to council the construction of boulevards on both sides of Yates street, between Quadra street and Fort street.

TEACHERS HEARTILY WELCOMED TO THE CITY

Minister of Education and Mayor Speak for Citizens --Dr. Young Announces Commission on Universities and Teachers' Pensions.

(From Tuesday's Daily.) Addresses of welcome and replies from teachers from many parts of the country were the feature at the opening meeting of the Dominion Educational Association yesterday afternoon in the Assembly hall, Fort Street.

No one who knew the brick building would recognize it in the beautiful hall in which the teachers are meeting. The walls have been hung with bunting, white and a most restful shade of green. About the platform and tables are plants and vases full of the lovely flowers for which the city is famous.

Down the sides of the hall and at the back is the exhibit of the work of the children to which reference was made in the Times on Monday.

The principal speech in welcoming the delegates was made by the provincial minister of education, Hon. Dr. Young. There were two announcements in his speech which were of most interest, not only to the teaching profession, but to the people of the province generally.

Dr. Alexander Robinson, superintendent of education, president of the association, took the chair for a few minutes after two o'clock. On his right was Hon. Dr. Young and on his left Mayor Hall. The proceedings opened with prayer by T. A. Brough, of Vancouver High school.

President Robinson introduced Hon. Dr. Young as one who had the best interests of education at heart and who had not spared a moment since he came to the convention a success as far as he could help. The minister of education was received with cheers and said:

Mr. President and Ladies and Gentlemen: I am sure, Sir, that it affords me a great deal of pleasure on behalf of the government of this province and the education department to welcome you to the capital city of the province.

While no doubt in the west there is a tendency towards materialism, and while, perhaps, the accusation is well-founded that it is so because of the remarkable development of our natural resources, yet we feel that underlying that materialism we can find, with a great deal of pride, the education system in British Columbia, and to the record which our pupils have made in comparison with the other provinces.

When I look into your faces to-day I cannot but be impressed with the paramount importance of the education which you have devoted your powers, and I speak no word of flattery or specious adulation when I say (though I have not the pleasure of knowing all of you personally) that judging from the experience I have had as chairman or member of the board of school trustees in Victoria for eight years and general knowledge of the members of the teaching profession, that I doubt if so great a work could be committed to able or better hands, or to those who are better fitted to discharge the responsibilities of so high and sacred a calling, as the one you have chosen to pursue.

Next to the men who minister in the pulpits and by the altars of our churches, and in fact shoulder to shoulder with them, and with the fathers and mothers whose sons and daughters are committed to your care, stand the educators and trainers of the rising generation of our country.

Those who are subject, five days out of the week during the most important period of their lives, to the impact of your personality, in the process of assimilating the knowledge essential to fit them to take their part in the work of life, cannot fail to exhibit in after days in their character the features of the mould in which that character was fashioned. They are now in embryo, but some day they will be the poets and statesmen of this country, the journalists, the scientists, the inventors, the physicians, the advocates, the engineers, the craftsmen, the mechanics whose names will be household words in Canada, and perhaps throughout the world.

And when they have become famous, I know of no higher satisfaction of which our human nature is capable than to be able to say "They were once my pupils. To their education and advancement I gave my best thought and effort. I marked their rising genius and I lent it wings."

It is the intention of the government to bring about such increase in salaries as will act as an inducement to them to continue in their work. Further than that, I had the pleasure last year of putting through the legislature a civil service act. Next year it is the intention to round this out by the introduction of a superannuation bill, upon the details of which I have been working with an actuary, and we intend to evolve a scheme whereby the teachers will participate in the advantages of that as well as the other branches of the public service.

I wish again, in the name of the government, to express our most cordial welcome to the association. I trust your deliberations will be of great benefit to me and I feel quite confident they will be. (Cheers.)

Mayor Hall in welcoming them said: Mr. President, Officers and Members of the Dominion Educational Association. Ladies and Gentlemen: Assembled as you are, for the first time, in this city, in your association, on behalf of the citizens of Victoria, I have the honor, as well as the very great pleasure of extending to the convention as a whole, and to each individual member thereof, a cordial welcome to this city.

You have come, many of you, a long way, and I doubt not, in some instances upon the personal sacrifice, to attend this convention.

Some of you have come from the older provinces of this Dominion, where the waves of the Atlantic beat on the shores of Quebec, or New Brunswick, from the land of Evangeline, and of the U. E. Loyalists, from the territory replete with the memories of Champlain, the explorer, statesman and missionary, whose great work in the early history of the eastern States and Canada has been recently commemorated by leading representatives of England, Canada, France and the United States.

Some of you hail from the splendid province of Ontario, where the foundations of the superstructure of our free public school system which you represent, were so well and truly laid.

Others come from the great provinces of Manitoba, Saskatchewan and Alberta, the present source of supply and the future granary of the Empire's daily bread, and others from the interior of this vast province of British Columbia, which is only now beginning to feel the impulse of a new life and vigor, from the increasing tide of immigration and capital which are commencing to flow into this country, and great resources and golden opportunities.

Some of our visitors, I am glad to note, come from the "Glorious" land to the south of us, like our own, and our own breaths upon two great oceans, and holds within its territory the strenuous activities and cosmopolitan races of all lands, representing with ourselves and the great Empire of which we form a part, those institutions, those forms of responsible government, and that enlightened progress which are the distinguishing features of the most advanced civilization the world has ever seen.

To our brothers and sisters from the other side I would offer a special greeting and welcome at this time. To them we say "Hail Columbia," not in a colloquial sense, but with a warmth and sincerity which cannot be questioned. To you who are met to deliberate upon, and to discuss questions relating to the education of the young mind of this country, it will no doubt be interesting to compare notes with those whose training and experience in the public school systems of the United States, qualify them to speak with authority and with weight upon the subjects of their special work or investigation.

When I look into your faces to-day I cannot but be impressed with the paramount importance of the education which you have devoted your powers, and I speak no word of flattery or specious adulation when I say (though I have not the pleasure of knowing all of you personally) that judging from the experience I have had as chairman or member of the board of school trustees in Victoria for eight years and general knowledge of the members of the teaching profession, that I doubt if so great a work could be committed to able or better hands, or to those who are better fitted to discharge the responsibilities of so high and sacred a calling, as the one you have chosen to pursue.

Next to the men who minister in the pulpits and by the altars of our churches, and in fact shoulder to shoulder with them, and with the fathers and mothers whose sons and daughters are committed to your care, stand the educators and trainers of the rising generation of our country.

Those who are subject, five days out of the week during the most important period of their lives, to the impact of your personality, in the process of assimilating the knowledge essential to fit them to take their part in the work of life, cannot fail to exhibit in after days in their character the features of the mould in which that character was fashioned. They are now in embryo, but some day they will be the poets and statesmen of this country, the journalists, the scientists, the inventors, the physicians, the advocates, the engineers, the craftsmen, the mechanics whose names will be household words in Canada, and perhaps throughout the world.

And when they have become famous, I know of no higher satisfaction of which our human nature is capable than to be able to say "They were once my pupils. To their education and advancement I gave my best thought and effort. I marked their rising genius and I lent it wings."

men, I feel I must not trespass further upon your valuable time. A large programme has, I see, been mapped out for you, and I am certain, judging from the number, variety and importance of the subjects, and from the array of talent, and the list of distinguished names I notice there, that the outcome of this convention will be historic in the educational annals of this country, and that it will benefit to every individual member.

Those who have charge of the entertainment end of it, I am pleased to note, have in their solicitude for your comfort, made provision for diversion as well as labor. "All work and no play," as you are aware, "makes Jack a dull boy" so it is said, and this aphorism applies with equal force, I fancy, to each and every one of us. Therefore, I trust that during your stay in the city you will enjoy yourselves thoroughly. If I may speak metaphorically, I would say that our gates are wide open and our doors ajar, while you are here, of your hinges, I sincerely hope that you may be able to say that you never had a better time in your lives, when the respective teachers say "good-bye" I trust that you may carry away with you the pleasant recollections of your visit, and that when you return to your homes you will have a good word to say for your friends, and that you will take further pleasure in describing to them the charms and beauties of our fair city of Victoria by the sea.

Owing to the fact that we have here were no delegates from the Maritime Provinces or from Quebec. W. S. Miller, Toronto, replied for Ontario, expressing the feelings of a Canadian who saw this portion of the convention for the first time. Regarding the choice of a university site he applauded the decision to have the selection made by an independent commission and entirely removed from political influence.

Principal J. R. Wallis, Winnipeg, acknowledged the welcome on behalf of the Manitoba members.

D. P. McCall, deputy commissioner of education for Saskatchewan, was also present for the province, spoke of the value of such gatherings for the interchange of ideas.

A. Melville Scott, city superintendent of schools in Calgary, spoke for Alberta, and as a former New Brunswicker, said a word on behalf of the provinces by the sea. He paid a devoted tribute to the work done by the local committee in the preparation of the convention. A feature of his speech was an appeal to the members to realize that there were educational problems common to all the Dominion and that these must be taken up by the association.

The president in his annual address, which was bright and helpful in suggestions for thought and discussion, spoke strongly on the advantages of having all the school text-books uniform, instead of every province almost having different sets of books. Just as strongly he addressed the members on the advantages of the rural school, especially the rural school, assisting in the campaign against tuberculosis.

It was announced that on Friday morning there was a fire on the premises of the Princess Charlotte to witness the raising of the fish traps at the south end of San Juan Island. It was impossible to get to see any Canadian in the vicinity of the traps, and the regulations were issued and 71 notices were granted.

Chief Davis states that hotel proprietors show a willingness to comply with regulations as to fire escapes and those buildings without theretofore, have not been properly equipped are now being so. As a result of his recommendations overcrowding in theatres and places of public amusement is being called to the better lighting of exits. J. Baxter and A. Engley have been appointed to the force on probation in the place of R. Amerson and W. Henry, both of whom resigned on July 1st. E. Federer has been given the position of captain in place of Capt. Stewart, promoted to the position of assistant chief.

The men are daily improving in their drills on the ladder, hose and life saving, and in their examinations on the location of fire alarm boxes and fire hydrants throughout the city. He recommends the appointment of 114 for the supply of six new uniforms, out of the \$400 appropriation made for painting of apparatus, and also that the men be supplied with peak caps.

The chief also reports on the test of the Waterous engine, which has been retubed. The test was quite satisfactory, particularly considering the fact that the boiler inspector will only allow a pressure of 160 pounds, whereas 150 pounds pressure is generally carried. The engine will immediately be placed in service and the Merryweather engine will be repaired by the putting in of new valves.

Chief Davis recommends that hydrants be placed in the following locations in Victoria West: Andrew street, corner of Robert street; Wilson street, half way between Walker street and the E. N. railway crossing; Dominion street, north of the E. & N. crossing; Craigflower road, corner of Dominion street; Fullerton street, half way between Langford street and the Silver Spring brewery, and also at the corner of Topaz and Hillside avenues; corner of Graham and Hillside avenues; opposite the Orphan's Home, and corner of Vancouver and Sutley streets.

WOMAN BURNED TO DEATH IN HOME Uses Kerosene in Stove and Flames Set Fire to Her Clothing. Ely, Nev., July 14.—Mrs. Margaret Sollick was burned to death in her home late last night. She was trying to start a fire with kerosene when the clothing was caught by the leaping flame. She died three hours later.

BLAZE AT CARMEN. Carman, Man., July 14.—A fire which started in John Garnet's livery stable yesterday destroyed the building together with the Honeywell block and the old Methodist parsonage. The loss is \$15,000 and the cause of the fire is unknown.

PHOENIX MUST CLOSE EIGHT HOTELS AT

COMMISSIONERS DECIDE TO GRANT ONLY SEVEN LICENSES.

Seattle, Wash., July 14.—Edward Payson Weston, the aged pedestrian who is walking from New York to San Francisco, left Benicia at 10 o'clock this morning. He will arrive at Oakland at 5 o'clock this evening and remain there over night. Early to-morrow morning he will cross the bay and proceed to the San Francisco post office, where he will deliver a letter entrusted to him by the postmaster at New York. Weston is making the last leg of his long journey by easy stages as the heat has had a telling effect upon him and he is afraid to make too much haste.

Benicia, Cal., July 14.—Edward Payson Weston, the aged pedestrian who is walking from New York to San Francisco, left Benicia at 10 o'clock this morning. He will arrive at Oakland at 5 o'clock this evening and remain there over night. Early to-morrow morning he will cross the bay and proceed to the San Francisco post office, where he will deliver a letter entrusted to him by the postmaster at New York. Weston is making the last leg of his long journey by easy stages as the heat has had a telling effect upon him and he is afraid to make too much haste.

Seattle, Wash., July 14.—Broodins over a quarrel with her sweetheart, Amelia Miller, a domestic, committed suicide today by drinking carbolic acid in her room. Nothing is known of the woman here. When she did not get up this morning, her employer went to the girl's room and found her dead with an empty bottle labeled carbolic acid, beside her. Miss Miller was about 30 years old.

Phoenix, B. C., July 14.—The moral wave, which has been sweeping over Phoenix since the election of the 1909 city council last January, reached a climax last night when the police and city commissioners met and granted renewals for the current half year to only seven of the fifteen licenses held by hotels in the city at present. The discontinuing of the licenses goes into effect on the 1st inst. with no provision for the disposing of present stock of liquors on hand or compensation for loss to retail.

The only hotels doing business on the 1st will be the Brooklyn, King, Dominion, Central, Alexander, Knoxhill and Butte, while Summit, Bellevue, Cottage, Mint, Nordon, Maple Leaf, Golden and Stenwinder pass out of existence. The action of the commissioners is a lively topic in this city. Gambling and open bars on Sunday were eliminated in this city some months ago.

Shibuzawa, whose career of public service in Japan was spotless and honorable, was not charged with complicity in the recently hanged sugar scandals that resulted in the imprisonment of several members of parliament, but the moral responsibility he is said to have felt for the conditions revealed by the investigation, weighed heavily upon him and caused him to end his life. Sakawa spent several years in Europe and America studying agricultural methods and conditions. Upon his return to Japan he was made imperial secretary of agriculture, which position he filled with distinguished ability. His business reputation was impeccable. Early in 1907, Shibuzawa and Yoshio Sakata, then minister of finance, are said to have forced upon Sakawa the presidency of the sugar company.

Salonica, Turkey, July 14.—A declaration of war against Turkey by Greece is momentarily expected and troops are being mobilized by both nations in anticipation of the clash. To-day it appears but a matter of hours before the fighting will begin.

The immediate cause of the quarrel between the two countries is the result of a recent order issued at Constantinople for the troops to drive all Greeks out of the Turkish frontier. Several days ago the third army corps mobilized in this section and commenced driving the Greek banners away. The Constantinople government justified this action by claiming that the Greeks were acting as spies.

Indignant at their treatment at the hands of the Turks, the Greeks made formal complaint to their King, and the result was that secret orders were issued to mobilize the Greek army. This was discovered by the Turkish government and similar precautions were taken here. To-day troops are pouring into Salonica from every part of Greece, and it appears that war cannot be avoided.

Greece and Turkey are ancient enemies. They have fought guerilla wars and pitched battles ever since the Turks swept across from Asia Minor centuries ago and established themselves in Europe. Greece has been dominated by Turkish influence as the result of continued Moslem victories. In 1827 Greece was decisively whipped. The real cause of the present trouble is the island of Crete, known as the danger spot of Europe. Crete lies close to Greece. It was the birthplace of the Grecian race and still holds to ancient traditions of power and independence.

Edmonton, Alberta, July 14.—Protecting his innocence to the last and that he had killed Deputy Warden Steadman, of Alberta penitentiary in self defence, Gary R. Barrett was hanged this morning in the corridor of the prison, the Grop being sprung at 6:44. Fifteen minutes before the doctors pronounced the man dead, the noose slipped, death being due to strangulation and not to a broken neck. The prisoner's son, who was not permitted to be present at the execution, was given the body which he will take to Butte, Mont., for burial. The coroner, Mrs. F. Wadsworth, is at the utmost concern, save that he objected to the oration which he wished to deliver being cut short.

HUNDREDS SLAIN IN STREETS OF TEHRAN

Battle Rages in Persian Capital Where Nationalist Army Is Making Desperate Efforts to Reach The Royal Palace.

REINFORCEMENTS FIGHTING THEIR WAY TO DEFENDERS

Teheran, Persia, July 14.—(11:30 a. m.)—Cannonading to-day resulted in the heaviest losses in both Royalist and Nationalist armies that have been suffered since the rebels stormed the city early yesterday morning. Hundreds of soldiers were killed and the fighting is still in progress. It is impossible to estimate the losses in either army since the fighting began because of the wide area over which the battle has ranged.

The rebels, who are determined to overthrow the Shah and re-establish the constitution, are making a hard fight to reach the palace and early this morning stormed the barricades which are the last hope of the Royalists. Capture Entrenchments. Three attacks were made upon the entrenchments surrounding Central Square during the night. Twice were the rebels repulsed, but at last succeeded in overpowering the defenders and gaining a foothold in the garden of the home of Colonel Liakhoff, commander of the loyal Persian Cossacks. This garden adjoins the barricade and is a position of great advantage to the attacking forces.

The Cossacks are now shelling the position of the rebels in the hope of dislodging them. When the rebels succeeded in reaching the central square the Shah hastily summoned reinforcements from Kasvin and they are now trying to fight their way through the ranks of the Nationalists to relieve Col. Liakhoff's sorely beset men. The colonel's wife refused to leave her home when warned that it might be captured by the rebels and now her escape is cut off.

Shelling Nationalists. It is doubtful whether Liakhoff's men can check the advance of the Nationalists until the reinforcements from Kasvin can fight their way to them, although these troops are shelling the parliament buildings in the Baharistan quarter in an attempt to dislodge the rebels and reach the centre of the city. The engagement at Central Square was precipitated by the Bakhti tribesmen, the best fighters in Persia, who are leading the rebel army. Thinking the defenders were unprepared for a night attack, the tribesmen rushed the entrenchments and a fierce fight followed. The rebels were repulsed but soon renewed their attack, bringing cannon from the gates of the city to aid them in storming the Royalist position. They were again repulsed, but a third attack was successful, and they swept into the Liakhoff garden.

Guarding Foreigners. Despite the heavy fighting and bloody scenes throughout the city, the leaders of the Nationalist army have sent assurances to the foreign legations that they are in no danger. Heavy guards have been thrown about the legations and the best protection afforded all foreign residents. The occupation of the city and the threatened overthrow of the Shah is the result of the withdrawal of the constitution granted by the ruler when he was in an attempt to take control of the government, granted January 1, 1907, which was never allowed to operate to its fullest intent by the Shah, but when he withdrew it entirely the people arose in rebellion. The Nationalist army, led by the leaders of their armies, and marching slowly towards the capital. Yesterday morning they occupied the city, and are now fighting their way to the palace in an attempt to take control of the government. The condition is similar to that recently in Turkey which resulted in the overthrow of Sultan Abdul Hamid and the ascension of his brother, Mehmed V., the present Sultan.

Demand Explanations. Teheran, Persia, July 14.—(Later.)—Foreign residents here are in danger to-night, despite the assurances of protection given from the leaders of the rebellious Nationalists, who have invested the city. The rebels are incensed because the Russian flag was flown above the barricades. The Shah's palace, and have demanded explanations from the British and Russian legations. The Russians have been asked why the flag was flown from the barracks of the English why they permitted it to be flown. Charging that their followers were killed by Loyalists sheltered behind the Russian flag, the rebel leaders declared this afternoon that they believed the foreign legations were trying to cause international complications which would prove beneficial to the Shah.

The sovereignty of the island has been recently lost to the hands of Turkey. In reality it has been governed by France, Italy, Russia and England, who have kept troops there. Crete recently declared itself independent of Turkey and subject to Greece. Greece naturally supports the Cretan desire for annexation. Recent developments in Turkey which have shown that government of its power outside of Turkey proper, have set fire to the popular desire for Greek independence from the domination of a power that has been hated with passionate intensity.

The government at Athens has been placed in a peculiar predicament and the popular desire for Greek independence has been decided upon as the only means of solving the problem. When the Cretons declared their independence of Turkey, during the recent troubles, times in that country, they announced that they would join Greece whether that country liked it or not. They announced they will elect members to the Greek parliament and demand that they be seated. Public sentiment in Greece favored the annexation of Crete and the government was between two fires. If it refused to annex the island it would mean international disorder. If it did annex Crete the government must answer to Turkey.

To-day's situation indicates that the latter course has been decided upon. The west coast of Crete is a fertile field of thousands to one subjects who might be stirred to revolt. The west coast of Crete is a fertile field of thousands to one subjects who might be stirred to revolt. The west coast of Crete is a fertile field of thousands to one subjects who might be stirred to revolt.

SECTIONAL MEETINGS OF THE TEACHERS

Educational Matters Were Discussed Under Various Departments of Work at Sessions Held Yesterday Afternoon.

(From Thursday's Daily.) The Dominion Educational Association, at its yesterday afternoon session, divided into sections and held four meetings in different parts of the city. The elementary department assembled in Assembly hall; the higher education department held its meeting in the Pemberton gymnasium; the industrial and training departments held their meetings at the Central school. All sections were able to conduct their meetings throughout the afternoon, with the exception of that devoted to inspection and training. Neither of the gentlemen who were to give papers in that division were present, so the meeting was adjourned.

HIGHER EDUCATION SECTION CONVENES

Yesterday afternoon, the higher education department of the convention met in the High school with the president of that section, A. E. Lang, in the chair. Prof. Alex. University introductory address. He was followed by Prof. Milner of Toronto, who spoke on the subject "What is Specialization?" The address was a good one, and deep interest was taken in it. Dr. Milner said that there was always some doubt as to whether the young people who attend the college had the right kind of preparation. He spoke highly of the work done by the high schools, and at small colleges, which, he said, often compared favorably with the larger institutions.

ELEMENTARY WORK IN PUBLIC SCHOOLS

The elementary school section met in the Assembly hall in the afternoon, under the chairmanship of Principal J. B. Walls, MacLachar school, Winnipeg, who acted for Miss Jessie Ptolemy, Winnipeg, president of the section. The attendance both of delegates and the public. During the first paper and discussion the chairman was relieved by Mr. King, of Kitacoano school, Vancouver, who read a paper on "Physical Training and the Child." The speaker advised arranging the work of knowledge and training students to one of the courses. Subsequent subjects were taken up only as they might be necessary. The great workers, he said, had succumbed to a great immediate interest which had led them on to greater things.

the writing of words, and in grades three and four proceeds to more difficult work. The crux of a great deal of the poor work in this and other studies in higher grades, he said, was to be found in the acceptance of slovenly work in the lower grades. In grade five composition would be introduced and, in view of many children leaving off school there, the writing of simple business letters, although personally he thought that a grade too soon. Throughout the pupils must be taught to be careful, to use good language and put their ideas in proper form and order.

INDUSTRIAL PART IN EDUCATION

The manual training section opened this afternoon with President Dunell in the chair, and a goodly number of people interested in this branch of education present. The president, after welcoming the delegates from other cities, spoke of the prejudice that existed among some teachers to manual training work, and pointed out means of rectifying matters. He also stated that in this province manual training was being taken more and more in rural districts, and long general courses were likely to be opened.

The main central idea of this paper was that the profession itself to assume initiative rather than any of our own-it is a gradual one. The work of the profession should be animated with lofty ideals of service and self-sacrifice, but the martyr attitude is scarcely an elevating one. The profession itself to assume initiative rather than any of our own-it is a gradual one. The work of the profession should be animated with lofty ideals of service and self-sacrifice, but the martyr attitude is scarcely an elevating one.

TRAINING SECTION OF TEACHERS' WORK

Yesterday the section of the convention having the inspection and training of the curriculum, under the chairmanship of Mr. W. H. Blinn of Victoria, followed with a paper entitled "The Development of Constructive Imagination in the Child." The main idea of this paper was that in all our centres too much of a stereotyped set of models was given. Mr. Blinn's paper was a most interesting one, and was well received by the audience.

High School Teacher

This is an age in which special preparation for life work is demanded of every one. In the professions of law and medicine this has long been recognized and now the rapid extension of trade and technical schools point to the increased demand for skilled mechanics and heads in all departments of commerce and industry. The old apprenticeship system has passed away and the school and college must take up the work of preparation which was formerly carried on in the workshop.

Prof. De Witt, of Toronto, said he had lived in the United States for ten years, and that in that country they were getting the best kind of education. There were many students, however, who were children of uneducated parents, and this influence was too strong. He defined education as the ability to have reactions in the brain. He defined a liberal education as one that prepared a man to intelligently use his spare time. "A man may work all day and then study music or go to a saloon; all depends upon his education."

Liberal Education

A group of men studying together on subjects were getting a real university training. The American system was to study a number of unrelated subjects. Still there were trained men coming from the small colleges, and a big product from the greater schools. Any company of workers, if they were enthusiastic, were bound to be benefited. The speaker pointed out that the education of the future should be developed in this way in all lines, but the life of the nation would not be broadened.

the Winnipeg schools; Miss Mills, Vancouver, and Inspector J. L. Hughes, Toronto. The manual training section opened this afternoon with President Dunell in the chair, and a goodly number of people interested in this branch of education present.

Chicago, July 14.—Testimony regarding the moral character of Ella Gingles was introduced to-day at her trial on a charge of stealing lace.

WOMEN'S COUNCILS MEET AT SEATTLE

Delegates Welcomed by Governor, Mayor and President of Exposition.

Seattle, Wash., July 14.—With a closed session in the auditorium at the exposition grounds in the morning, the proceedings of the National Council of Women began to-day.

The following have passed their final examination as dental surgeons to practice in British Columbia: H. J. Henderson, C. M. McNaughton and J. Thompson, of Victoria, and W. M. Gallagher, Vancouver.

PHOTOGRAPHING PARTY VISITED VICTORIA

California Camera Association Members Left Wednesday on City of Puebla.

An interesting and distinguished party of visitors were in the city on Tuesday, the effect of whose visit from an advertising point of view will rival many other bodies. This was a society known as the California Camera Association, some twenty-five or thirty of whom left this morning on the steamer City of Puebla for their home state.

PLEASANT TRIP BY STEAMER IROQUOIS

On Sunday She Will Give Enjoyable Outing for Passengers.

The steamer Iroquois, running from Sidney among the islands of the Gulf of Georgia, is having a good patronage this season. On the trip among the islands next Sunday the Iroquois will go by Canoe Pass and make a stop of one hour at Mayne Islands and then in the afternoon will return through the picturesque Iroquois channel and Pender Island Canal.

PLEASANT TRIP BY STEAMER IROQUOIS

On Sunday She Will Give Enjoyable Outing for Passengers.

BARS SAILORS FROM DANCING ACADEMY

Proprietor Refuses to Admit Them Because of Their Uniform.

Seattle, Wash., July 14.—Mayor Miller is to-day making an investigation of charges that the management of Redding's dancing academy refused to admit sailors in the uniform of the navy to public dances.

OFFER CANNOT BE HELD OPEN

B. C. ELECTRIC WANT REPLY BY JULY 20

Agreement for Reduction of Lighting Rates Has Been Long Pending.

The city council will have to hurry up if the citizens are not to lose the opportunity of securing a reduction of lighting and power rates from the B. C. Electric Railway Company.

On Monday a letter from A. T. Goward, local manager of the company, was read, agreeing to all the amendments but one.

It was decided that the draft be sent on to the city engineer for his opinion, and that it be dealt with on Thursday evening at a special meeting.

A quantity of lumber and other material left after the completion of Smith's Hill reservoir was suggested by the water commissioner to be sold.

Ald. Turner and Ald. Bishop insisted on getting a report on the present condition of the reservoir and its leakage before acting on this suggestion.

Ald. Henderson stated that the waterworks engineer intended taking the aldermen round to see the works.

New tenders for paving Wharf street were received from H. W. E. Carnavan and from N. Sabine and D. S. Stevens.

The department of marine and fisheries wrote in reference to the application of Thomas R. Horne for permission to build a wharf.

H. W. Hodgson, live stock commissioner, informed the council that Major James Sheppard, an authority on road making, would be in the province for some months and be prepared to give lectures.

The secretary of the Inner Harbor Association drew the council's attention to the neglect of the E. & N. Railway Company in regard to the opening of the bridge for traffic.

Ald. Raymond spoke of the frequent complaints made by shipping men for some years' past in this matter, and thought it time council did something.

The letter was referred to the engineer for report.

FAIR ATTENDANCE PASSES MILLION MARK

The Daily Average Has Been 24,197 Since Opening of Exposition.

Seattle, Wash., July 13.—The attendance at the Alaska-Yukon-Pacific exposition has passed the million mark.

ACCIDENTALLY SHOT.

Helena, Mont., July 13.—During a scuffle for the possession of a revolver a coroner's jury exonerated the young woman from all blame.

The fatal accident occurred at Salmon, Idaho, where Schegelmich was giving a party. It is stated he became jealous because of the attention of the young woman was paying to other men.

REDUCES PROPOSED TAX ON CORPORATIONS

Placed at One Per Cent. as Result of Conference in Tariff Bill.

Washington, D. C., July 13.—At a conference at the White House yesterday, it was definitely decided that the rate to be levied under the new corporation tax shall be reduced from two to one per cent.

President Taft is in daily consultation with the tariff conferees. He told several of his callers yesterday that he is finding the conferees conciliatory, and he is hopeful that a satisfactory measure will be presented to him for his signature.

As to the mutual insurance companies, it is stated that the redrafted bill will provide that portion of the income which may be deducted before the tax on moneys available for dividend is ascertained.

The more important of the subjects passed over the metal schedule are iron, lead, bullion and zinc ore and bullion.

The general impression is that the senate will make a concession to the house, and that as a compromise the rate may be fixed at 40 or 45 cents a ton.

The resolution submitting to the states a constitutional amendment providing for an income tax was adopted by the house by a vote of 317 to 14.

C. P. R. IMPROVING LINES IN BOUNDARY

Number of Wooden Bridges Are Being Replaced by Steel Structures.

Nelson, July 12.—The new steel viaduct at mile 86.4 on the C. P. R. Boundary line, will be completed in about a month.

This information was given out by the C. P. R. resident engineer, C. S. Moss, who mentioned that each of these bridges would be approximately 600 feet in length.

The final stage of the by-law providing for the paving of Cormorant street with granite was taken and the work can now be undertaken.

MURDER AND SUICIDE BY REJECTED LOVER

Man Shoots Sixteen-Year-Old Girl and Then Ends Own Life.

Livingston, Mont., July 13.—Crazed because of a rejected lover, a 16-year-old daughter of a rancher residing near Friday, would not return his love, John Roach, aged 40, shot the girl to death yesterday.

There are close upon one hundred and thirty holders of titles of long-standing nobility who are not members of the House of Lords.

ADVERTISE RESOURCES.

Cherries and Soil From Whatcom County, Wash., Distributed at Fair.

Seattle, Wash., July 13.—Clover is the official emblem at the Alaska-Yukon-Pacific Exposition to-day.

The reception held at Government House on Monday in honor of the visiting delegates from the Women's International Council was a very brilliant function.

The exercises began at 1:30 and were held in the Washington building. Henry M. Waite, of Bellingham, presided.

WOMAN TOOK POISON.

Verdict of Coroner's Jury Which Investigated Seattle Tragedy.

Seattle, Wash., July 13.—Dragged from a First Avenue cafe, where she had been drinking, Bessie Fire was beaten and kicked into partial insensibility by her husband, James F. Foster, of wife, as he is sometimes called, and after the beating, the unfortunate woman sought to end all her troubles by drinking bicarbonate of mercury dissolved in water.

The members of the Vancouver Women's Council, who accompanied them here were: Mrs. J. M. Brown, Mrs. J. H. Morrison, Mrs. E. C. Gordon, Mrs. Griffin, Miss Davis, Mrs. Gilley, Mrs. McLagan, Miss Eastwood, Mrs. Hodgson, Mrs. Green and Miss Duncan.

SUSPECTED MURDERER TAKEN AFTER FIGHT

Prisoner Protests His Innocence but Refuses to Tell of Movements.

Everett, Wash., July 13.—Fighting desperately for his freedom, John Kovick, suspected of being the man who murdered Mrs. Brons, near Wilkeson, last week, has been captured near Lowell.

The resolution submitting to the states a constitutional amendment providing for an income tax was adopted by the house by a vote of 317 to 14.

REPRESENTATIVE WOMEN WELCOMED

RECEPTION GIVEN AT GOVERNMENT HOUSE

Citizens Given Opportunity to Meet Delegates to Toronto Congress.

The reception held at Government House on Monday in honor of the visiting delegates from the Women's International Council was a very brilliant function.

The members of the Vancouver Women's Council, who accompanied them here were: Mrs. J. M. Brown, Mrs. J. H. Morrison, Mrs. E. C. Gordon, Mrs. Griffin, Miss Davis, Mrs. Gilley, Mrs. McLagan, Miss Eastwood, Mrs. Hodgson, Mrs. Green and Miss Duncan.

There are close upon one hundred and thirty holders of titles of long-standing nobility who are not members of the House of Lords.

KAMLOOPS WATER SERVICE.

By-law Providing for Extension of Service—\$10,000 for Isolation Hospital.

Kamloops, July 12.—Both the water extension and isolation by-laws carried by substantial majorities.

The water by-law provides for the extension of the present service along river street and other thoroughfares, as well as the carrying of the pipes across Peterson creek.

EVELYN THAW APPEARS AS WITNESS FOR STATE

Testifies at the Hearing Into the Sanity of Her Husband.

White Plains, N. Y., July 13.—Contrary to expectations, Evelyn Thaw was summoned by the state this afternoon to appear as a witness against her husband Harry, who is on trial to determine his sanity.

The defence objected to this question, claiming the privilege that a wife does not have to testify against her husband.

In reply, Fraulien Dr. Solomon expressed the pleasure of the visitors at the cordial welcome given them, and regretted that Victoria was the last Canadian city which they would have the pleasure of visiting.

Freddie Welch, the English lightweight, who won a number of fights in the United States in the early part of the year, defeated young Joseph, also of England, last night in the eleventh round of what was scheduled to be a twenty-round bout.

LOGGERS TO FORM PERMANENT CONGRESS

Forestry Officials Will Speak at Gathering at A.-Y.-P. Exposition.

Seattle, Wash., July 13.—A loggers' congress, at which men from all over the United States, but particularly from the coast states, will participate, will open next Monday in Seattle and continue for three days.

WILL BUY LAND.

(Special to the Times.)

London, July 13.—The North Coast Land Company will shortly issue \$50,000 six per cent. preference shares at par.

ROCKLAND PARK SUBDIVISION. As Part Owner I Am Prepared to Offer LOTS AT THE LOWEST POSSIBLE PRICE And Arrange Terms to Suit Purchaser.

UNDERGROUND PASSAGE TO EXPOSITION FOUND Many Men Used Tunnel in Order to Gain Free Admission.

Seattle, Wash., July 15.—Beating the Asaka-Yukon-Pacific exposition out of several hundred admissions daily, a crowd of employees on the north trunk sewer, just completed through the fair grounds, with their friends, relatives, acquaintances and some strangers, have been making their entrance to the fair grounds through the capacious tunnel of the new sewer and up through a manhole to the fair grounds.

The scheme of free admission was discovered by Chief Wappenstein's guards, after they had been working a week on the case, trying all manner of schemes to discover whence came the groups of men who appeared each evening walking up the paths from the northeast section of the grounds brushing dirt from one another's shoulders.

The mystery was solved by the discovery that foot prints had beaten down the soft earth around the manhole leading for the new sewer, where it passes through the woods back of the natural amphitheatre. The other entrance to the tunnel is outside the fair grounds, on the university campus and the subterranean passage is said to have been freely used by members of several fraternity houses to gain free admission to the exposition. The dirt of the shoulders was explained by the small size of the manhole, where the men brushed against the sides as they came out.

Chief Wappenstein has clamped on the lid and hereafter the underground wayfarer will be barred.

TARIFF BILL. Conferees Unable to Agree on Number of Sections Which Are Laid Over.

Washington, D. C., July 15.—Strenuous objections were raised by the house members of the tariff conference to the senate provision in the maximum and minimum feature of the tariff bill, which gives to the president authority to employ such persons as he may see fit in enforcing the tariff law, and which will be useful to congress in tariff legislation in the future.

The drawback provision is still the subject of dispute. Agreement that the provision of the Dingley law should be re-enacted in the place of the house provision had been almost reached when the house conferees insisted that a provision should be added requiring export entries to be made within three years in order to gain the benefit of the drawback. This feature was a part of the provision adopted by the house, which had also eliminated the necessity for identifying the raw material in the manufactured product offered for export. The senate conferees insisted that the removal of the identification clause opened the door to fraud, and that the three-year provision narrowed the drawback privilege in such a manner that it would work a hardship to manufacturers, who availed themselves of the drawback privilege. The conferees representing the two branches of congress split up on this, and it was laid up for consideration later.

UPHEAVAL MAKES ANOTHER NEW ISLAND. The Bagoslof Group Near Unalaska Undergoes Change.

A dispatch to the Seattle Post-Intelligencer from Seward, Alaska, says: Mother Nature does not seem satisfied with Bagoslof, the newest island she has given Alaska. During the past winter she changed it again.

About 125 or 150 years ago there arose in Behring sea a new island, about twenty-five or thirty miles from any other land and sixty miles from the village of Unalaska. This island was named by the Russians Bagoslof. In the 30's another one appeared near the first. The first was then named Castle island, the second Fire island. During the winter of 1905 and 1906 still another island appeared from the depths of the sea, making a triangular group. This was named Perry island, in honor of the revenue cutter Perry, which was among the first steam vessels to visit it.

This island has been described by those who saw it during its short existence as being composed of rock and cinders in a jumbled mass, from every fissure and crack of which issued steam, gases, fire and smoke. It was variously estimated as being from 500 to 700 feet in height and a quarter of a mile in diameter. Robert Dunn, the writer who was probably the first man to set foot on the island, had the hair singed from his hands, eyebrows and head, and the shoes burned from his feet. He swam in the deliciously warm water at its base, while the surrounding waters were a little above freezing.

When visited the following spring of 1907, it was discovered that Perry island had blown off his head, and was then no more than 100 feet high at its highest point; also that a sand spit connected it with Fire island. Running over to visit the new group early in the spring of 1908, Capt. Applegate, of Unalaska, discovered that Perry island had entirely disappeared from the face of the sea, and that in the very spot where it had stood there was now excellent anchorage for his schooner.

But this was not all. A short distance away there was another brand new island, this one being connected with each of the older ones by a low neck of land, thus making but one island of the whole group. And now this year, 1909, all is again changed. The island of 1908 has disappeared, and two low semi-circular pieces of land have arisen, each one terminating in each of the old substantial islands, all forming one large circular island, including a lake of hot water. The temperature of this lake ranges from 200 degrees Fahrenheit in its hottest part to about 60 in the cooler places. The waters of Behring sea surrounding it are about 40 degrees.

In the lake are several small islands. A small boat from the cutter was launched into this lake and considerable data gathered. On one of the islands of the lake was a miniature geyser, spouting boiling water. Over the face of the lake clouds of steam hovered, and were driven hither and thither by the wind.

In this connection it is interesting to note that during the month of June Unalaska experienced a severe earthquake, which was felt over an area extending for hundreds of miles. There is nothing especially noteworthy about this, except that the volcano of Akutan, within the zone of the earthquake, became suddenly silent after months of severe action. At the same time two hitherto comparatively quiet volcanoes suddenly became vigorously active. Pavloff mountain, on the Alaskan peninsula, west of Sand Point, and an unnamed mountain near Sand Point, were seen to belch forth not only great volumes of black smoke, but flames were seen, from the deck of the steamer Santa Ana, to shoot high into the sky from each of them.

Mount Pavloff especially presented a magnificent spectacle as the Santa Ana passed it on the night of the 23rd of June. Black smoke like that from the funnel of a huge steamer poured rapidly and steadily thousands of feet straight into the heavens. There it flattened out into a huge cap, which slowly drifted to the eastward. Contrasted with this inky cap was the bright sky of the sub-Arctic midnight. Suddenly faint pink shades began to appear along the borders of the great folds of smoke, high above the mountain. This rapidly grew deeper and deeper until the whole cloud of smoke was one mass of glorious crimson and black. Then, as if to add a grand finale to this awe-inspiring display, flames of the deepest deep leaped

hundreds of feet above the crater's mouth, where it remained for some minutes as it blown from a blast furnace. Gradually this would die away, receding through all of its beautiful phases until nothing but the black column and cap of smoke remained. Time after time was this spectacle repeated.

CUTTING TRAIL TO NEW COAL FIELDS. Diamond-Drill Will Be Taken to Property on Queen Charlotte Islands.

(Special Correspondence.) Skidegate, July 7.—A. Gowning came in from Tassu last week to hire more men for the property owned by Elliot & Corlett.

The Japanese are preparing to leave Queen Charlotte City in a body. A new buoy has arrived to replace the one at the entrance to the harbor, which has been out of order for some time.

The Princess Beatrice has been in to Queen Charlotte City twice during the past week under special charter for the supplies for the coal fields. P. A. Kelly, P. L. S., arrived on the last boat. He has a number of timber limits to survey near the Skidegate inlet, and also expects to survey the railroad line into the Yakon coal fields. A crew of men has started to cut a trail into the coal fields to take in the diamond drill which will arrive by next boat.

The steamer Claxton has just left the harbor with about thirty Haida Indians for the summer fishing on the Skeena.

Leigh urban council has decided to purchase a new dress for a lady whose costume was damaged by catching in a projecting fence. The cost, however, is to be deducted from the contractor's bill.

W. C. Bond. R. W. Clark. BOND & CLARK 'Phone 1092. 614 TROUNCE AVENUE.

DEVELOPMENT OF WOMEN'S WORK

SPEECHES DELIVERED BY NOTED VISITORS

Victoria Charmed Ladies Who Expressed Opinion at Luncheon.

The festivities in connection with the entertainment of the visiting delegates from the Women's International Congress, were brought to a happy close Tuesday by the luncheon at the Empress, where covers were laid for 250 guests, and an excellent menu served from tables, carrying out most effective decorative scheme of yellow and white.

At the close of the luncheon a comprehensive toast list which had been prepared by Mrs. A. T. Watt and Mrs. Fitzgibbon, was admirably carried through. An interesting point was that the quotations used were all taken from Canadian poets.

Mr. Broxley proposed the toast to the King, which was responded to by the singing of the National Anthem.

In rising to propose the toast to Rulers of Foreign States, Hon. Richard McBride first extended to the visiting delegates on behalf of the government of British Columbia a hearty welcome to the province and also to the city of Victoria, and regretted that their stay here was so short. The premier went on to say that he had read the reports of the work done by the International Council at Toronto, with gratification and surprise. He was glad to know that in their trip from the Atlantic to the Pacific the journey of the visitors had not been a disappointment, and he hoped they would leave Victoria with a good impression of Canada as a whole.

As a member of the government, the premier said he was deeply indebted to that useful and commendable body, the Local Council of Women. They were always unselfish, and essentially fair. As a representative of the government he had tried to be fair in return.

In the matter of health, education and moral welfare of the province, the Women's Local Council had always been in the firing line. They had also been instrumental in keeping in check the white plague.

As a Western Canadian, the premier said he was proud of the young country he had the honor to represent. As a country, British Columbia had not really existed since the advent of the C. P. R., twenty years ago.

The much sought after peace of the world was possessed by the unity and sisterhood which prevailed in the International Council.

In proposing his toast Premier McBride made a fitting reference to the late Queen Victoria, and included in his reference to Rulers of Foreign States.

In responding, La Marchesa Bourbon Del Monte, of Italy, and Mlle Popelin, of Belgium, broke at times into their native tongues, when English speech failed them to express their appreciation of Canada and Canadian people, and of their love for their native lands, many of the habits and customs of which they contrasted with Canadian.

Mrs. Jenkins, in proposing the toast to the president of the International Council of Women, Lady Aberdeen, spoke of the latter's visit to Victoria seven years ago, where the latter at first encountered considerable prejudice as she addressed a meeting on the aims and objects of the Women's Council. That prejudice had been completely overcome and the Victoria Local Council was the largest in the Dominion.

In conclusion Mrs. Jenkins said it gave her great pleasure to propose a toast to "a perfect woman, nobly planned," Lady Aberdeen.

Mrs. R. S. Day included the officers of the International Council, introducing her toast in a pleasant way.

Mrs. Willoughby Cummings of Toronto, and Frau Dr. Alice Salomon of Germany, responded. Mrs. Cummings, a charming speaker, referred in amusing terms to the inception of the Women's Council at a meeting in New York, out of which in spite of subsequent discouragement, such great things had sprung until out of twenty-three national councils there were eleven represented in Victoria.

Dr. Salomon, who is the corresponding secretary of the International Council, said she had supposed her work lay in writing, not speaking. In trying to express her appreciation of Canada's scenic beauty and more especially of the beauty of British Columbia, Dr. Salomon's strong, clever face lit up, and she, too, at times lapsed into her native tongue. The best part of the international convention was, she said, the getting to know each other. It was a beautiful thing for women of different nations to meet in friendly conference, and it must tend towards international peace. Words were poor, thanks were poor. Instead of thanks for the kindness the women of Canada had shown the delegates, she would make a promise that so much feeling and admiration should not spoil them, but that they should go home filled with inspiration, and ready for better work than they had ever done before.

Frau Stitt of Germany, in responding to the toast to the National and Local Councils, said in her humorous way, that the women of the Canadian councils had evidently learned the art of managing men, and getting what they wanted without bullying them into it. Men often said, in blaming women, that the social questions they introduced the personal element. Frau Stitt thought the personal touch very important. The woman's movement was simply organized motherhood, and what was motherhood, lacking the personal element.

While thanking the programme convenor for hearing the toast list with the exception of "Our Guests," proposed by Mrs. C. E. Cooper, spoke most feelingly and eloquently, of the kindness she had received since first landing in Canada. In Hammarfest, the most northerly town of her native land, Women's Local Council had recently been organized. For many months there the sun never set. In Canada she hoped it never would set at all. The "thank you," were too poor to express the gratitude she felt; it was deep, deep in her heart, she could not express it. Her visit to Canada would always be remembered as the happiest event of her life. Every city and province visited had been a revelation to her, and she was sorry that the last day of her stay had come. She would never forget Canada—none of the delegates would ever forget it. They would talk of it to their home friends and teach them to love Canada too. As spoken Krog resumed her seat, saying she was completely overcome and tears, of which she was not ashamed, streamed down her cheeks.

Broken Buch of Denmark, said it was a good thing that the last day of their stay in Canada had come. Their progress through it had been a series of wonders upon wonders, of which Victoria's flowers and mountains and sunshine were a fitting climax. "What could Canada show more?"

Mrs. Grannus, of the U. S. Council, who also responded to the toast to "Our Guests," was a most amusing speaker. She said the time had come when the man of business no longer hastened home to list to the "innocent prattle of his wife," but to take wise counsel of his wife. When the International Council met in Rome five years hence, they would be the dwellers in the Vatican a few things.

Mrs. Dobson, the Australian delegate, spoke for a moment to thank the Victoria Council for their hospitality, and to invite them to a convention in Australia which will be held three years hence.

There was considerable interest directed towards the speaker when Miss Christal MacMillan rose to propose the last toast, "Canada." Every one was anxious to see and hear the lady who so ably pleaded at the Bar of the House of Lords, in a suit to obtain registration on the parliamentary lists for the graduates of the Scottish universities, and whose fight was really one in the interests of woman's suffrage.

Miss MacMillan is tall and strong, but not in the very least masculine in appearance. She has a bright, pleasant Scotch face, with fluffly brown hair, clear, frank eyes, not afraid to look every one in the face, and a responsive smile. In the face, and she speaks in a modest manner with a decided Scotch accent. It was a very great pleasure, she said, to propose the toast to Canada, and to invite them to a convention in the Mother Country, it had seemed to her rather out of order, for the Mother Country to praise her daughter, lest she should seem to be too proud. However, almost all countries were mother to Canada, and she was a daughter worthy of all the admiration she received. One thing she had noticed particularly during her visit to Canada, was that Canadians had implicit confidence in themselves. If a thing seemed good to them they did it, without asking whether other countries had done it before or not. In this

Lost Energy Restored by Psychine.

Mr. Geo. Pratt, of Clarkson, Ont., says that for years he was unable to work, and he was so run down, thin and emaciated, that he thought he was going into a decline and feared he would never pull through the severe cold of the winter months. The boy had no appetite and seemed to have lost all energy and interest in life. He was altogether in a terribly bad shape. His condition caused us the greatest anxiety.

"Fortunately I procured PSYCHINE for him and this soon gave him a new lease of life. It is really remarkable how rapidly this splendid medicine brought about a change. After taking one or two bottles he was hardly recognizable as the same youth. PSYCHINE effected a speedy cure and he was soon able to work about on the farm again. To-day he is a robust young fellow, and is a stronger man than he has been for many years. He has not only regained his strength, but he is able to do his work as hard as any of the boys. I cannot speak too highly of PSYCHINE. It certainly saved our boy and made a man of him."

Prevents the children taking cold, wards off that terrible malady La Grippe and completely fortifies them against disease. It should always be used for colds, a gripe, weariness, loss of appetite, etc. Send to Dr. T. A. SLOCUM, Limited, Spadina Ave., Toronto. Sold at all drug-gists and dealers. 50c and \$1.00.

THE GREATEST OF TONICS FOR HEALTH AND ENERGY

One thing she had noticed particularly during her visit to Canada, was that Canadians had implicit confidence in themselves. If a thing seemed good to them they did it, without asking whether other countries had done it before or not. In this

respect they differed greatly from the people of the Old Land, Canada, the speaker laughingly said, reminded her of a shop sign she had seen in Vancouver, which read: "We are brand new, watch us grow." Canadians did well to believe in themselves, self-trust was the essence of heroism. They have done wonderful things in transforming the prairies into wheat lands and building great elevators. They were even going to build a greater bridge than that which spans the river. Four, five years ago Canada had been a strange country to her; now it was a part of the old land, and she was sorry to say good-bye to it.

Miss Caruchel, of Ottawa, representing the Canadian National Council, made a fitting reply, saying that Ottawa was Our Lady of the Snows, Victoria Our Lady of the Roses.

MANY CHANGES IN TACOMA BALL TEAM

Nearly Half of Old Players Released and New Men Engaged.

(Times-Leased Wire.) Tacoma, July 14.—In an effort to get a ball team that will finish near the top, President Shreeder, of the Tacoma club, has released almost half of the old players and signed new ones in their places. The announcement of the change was made over a long distance telephone from Portland last night, where Shreeder is with the team.

The men who were released were: Kellackey, catcher; Frank Suss, outfielder; Schaefer, outfielder; Hensling, pitcher; Chaffin, pitcher.

The new players are as follows: Fred Annis, pitcher; Johnny Case, third baseman; Dashwood, catcher; Ike Butler, pitcher; Mackin and Irby have joined the Tacoma team within the past few days.

Annis and Case came from the Salt Lake team in the old intermountain league. Annis is a southpaw who pitched forty-five consecutive innings, allowing but one run. Case led the third baseman in hitting and fielding.

Butler, who jumped his Tacoma contract early in the season to play with Santa Cruz in the outlaw league, has pitched up his differences and is now on his way north to join the team at Portland. Dashwood, the old Oakland catcher, is coming with him. Negotiations are also pending with several other players. The players who have been retained will be switched to new positions. Coleman will be taken from third and put on short, while Cartwright will play first base. Hurley will be shifted to second. The shift strands Bresino, but Shreeder has not yet announced the little shortstop's release.

WOLGAST WHIPS BATTLING NELSON

Nearly Every Round in Favor of Milwaukee Man Who Escapes Unmarked.

Los Angeles, Cal., July 14.—Wolgast, of Milwaukee, despite the fact that he weighed five pounds less than Battling Nelson, of Chicago, gave the terrible Dane a thorough whipping in a 10-round bout before the Pacific Athletic Club last night.

After an even first round Wolgast waded in and had the advantage in six of the remaining rounds. The champion did not have a single round in his favor, seven breaks being the best he could get. Nelson's face was swollen, and blood streamed from his nose and mouth at the close of the fight. Wolgast was unmarked. It was a terrific fight from the start, and it was not until the tenth round that Wolgast succeeded in stopping Nelson's body rushes.

The law does not permit a decision, but Wolgast apparently had Nelson thoroughly whipped at the end of the tenth round.

The funeral of the late Joseph J. Rogers took place on Wednesday at 10 o'clock from the B. C. Funeral Furnishing Company's parlors. The funeral was under the auspices of the Fraternal Order of Elks.

The committee appointed by the council to make arrangements for the securing of a supply of crushed rock for the construction of public works has not yet reached a decision. A number of suitable localities have been mentioned to the city, which have been under consideration, but the site has not yet been decided upon.

The funeral of the late Charles Montague Barnett took place Tuesday afternoon at 2:30 o'clock from his residence, Bryon street, where services were conducted by Rev. John Grundy. There was a large number of friends present and many beautiful floral offerings were sent. The following acted as pallbearers: J. H. Tomlinson, L. R. Forbes, G. E. Burdick and J. Gray.

The death occurred Tuesday at the isolation hospital of Rexford Hurst. Deceased was 5 years of age, the only son of Mr. and Mrs. Robert Hurst, of Blanchard street. His death comes as a severe shock to his parents. The funeral took place Wednesday at 2:30 o'clock from the isolation hospital and proceeded to Ros Bay, where interment took place.

LANCASTER, ONT. CARRIED BY "FRUIT-A-TIVES"

These Wonderful Fruit Juice Tablets are Winning Friends on Every Side.

Lancaster, Ont., Sept. 16, 1903. I was a martyr for many years to that distressing complaint, chronic Constipation. I tried many kinds of pills and medicines without benefit and consulted physicians, but nothing did me any real good. Then I began to take "Fruit-a-tives," and these wonderful little fruit tablets entirely cured me.

At first I took five tablets a day, but now I take only one tablet every two days. I am now entirely well, and thanks to "Fruit-a-tives," I give you permission to publish this testimonial.

(Madame Zenophile Bonnevillie.) This is only one more link in the chain of proof that "Fruit-a-tives" is a scientific habit, thinking of the action of the bowels. 50c a box, or for \$2.50, or trial box 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

TESTS APPLIED TO EDUCATION

(Continued from page 1.)

If education induced this analysis so far it was successful. The memory should be well trained. An educated man was to be judged, however, not by what he remembered, but by what he could handle. Education lay in choice. The choosing of what was beyond that of a scientific habit, thinking of the action of the bowels. 50c a box, or for \$2.50, or trial box 25c. At dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

NEW RECORDS IN TWO RACES

MILE AND EIGHTH AND SIX FURLONGS LOWERED

(From Wednesday's Daily.) New records were set at the Willows yesterday for the mile and an eighth and for the six furlongs. The former record over six furlongs, made by Millitas, was 1:15-1/5, and was lowered by Phillistina yesterday to 1:15-4/5.

The one and an eighth mile time was 1:56, and was lowered yesterday by Miss Mazzoni to 1:55-1/5. Archibald rode Miss Mazzoni and Vosper rode Phillistina.

Ben Stone won in the last race from Father Stafford, and Bold was the longest shot of the afternoon, going at post time to 12 to 1.

Regina Arvi won her first race here yesterday, beating Third Chance and Alarmed for the first money over six furlongs. In the third race Jessupburn again lost the race by running out at the south turn. On his first appearance he did the same thing, but took the field with him, and was able to get second. Yesterday he ran last.

Phillistina and Traffic made a pretty run of it for the finish, coming home and nose to the wire. Phillistina, however, led the stride, and forged a shoulder ahead in the last length.

Yesterday's results are as follows:

First race—Five furlongs. Purse, Maiden two-year-old fillies. Value to first \$150.

Horse and Jockey	Op. Cl.
Regina Arvi, Vosper (105)	2 5-2
Third Chance, D. Riley (106)	2 3
Alarmed, Quay (103)	5 6
De Erlis, Quay (99)	5 6
Black Cloud, McEwen (107)	7-2
Triola, Coburn (105)	8 8
Lady Rucker, Anderson (105)	15 8
Knub, Callahan (105)	15 50

Time, 1:55-1/5.

Second race—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Horse and Jockey	Op. Cl.
Herives, Kederis (100)	9-2
Zick Abrams, W. Powers (109)	8 6
De Erlis, Quay (99)	9-2
Black Cloud, McEwen (107)	6 3
Mr. Bishop, Anderson (99)	10 15
Semproule, Vosper (100)	6 6
Henry Rogers, Coburn (100)	8 9
Aftermath, Keogh (109)	8 8
Toby, Yeager (102)	15 15

Time, 1:16-1/5.

Third race—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Horse and Jockey	Op. Cl.
La Taranta, D. Riley (106)	2 3
Queen Alamo, Archibald (107)	4 16-5
Banellen, Golden (107)	10 15
Bazil, Keogh (109)	4 8-2
Dave Weber, Vosper (107)	5 10
Ella, J. King (107)	8 6
Margaret Randolph, Quay (105)	6 10
Jessupburn, Coburn (104)	4 3

Time, 1:16.

Fourth race—Six furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Horse and Jockey	Op. Cl.
Phillistina, Vosper (101)	5-1
Traffic, J. King (106)	4 5
Novgorod, Quay (103)	5 7
Merrill, Keogh (113)	5 7
Belle of Iroquois, Kederis (106)	4 8
Kelowna, W. Powers (116)	20 60

Time, 1:14-1/5.

Fifth race—One and an eighth miles. Selling. Three-year-olds and upward. Value to first \$150.

Horse and Jockey	Op. Cl.
Miss Mazzoni, Archibald (110)	3 5-2
Joe Coyne, J. King (114)	5-1
Mechant, Leeds (111)	4 7-2
Dave Weber, Vosper (107)	5 10
Santee, T. Sullivan (117)	5 10
Rama, Coburn (106)	10 10

Sixth race—Five furlongs. Selling. Three-year-olds and upward. Value to first \$150.

Horse and Jockey	Op. Cl.
Ben Stone, Callahan (111)	5 10
Father Stafford, Archibald (106)	2 13-10
Bold, Anderson (101)	6 10
Nelle Racine, D. Riley (109)	10 12
May Pink, Vosper (109)	4 4
Hattie Dodson, Whitesides (109)	12 20
Medora, Coburn (101)	6 6
All Alone, Keogh (111)	5-2 6

Time, 1:02-1/5.

A \$20,000 building is to be erected at the corner of Johnson and Broad streets for Banerman & Horne. It will be three stories in height and of solid brick. It will be occupied for a flour and feed store, the business of the firm being moved from across the street. The two upper floors will be occupied by offices, etc. The building is being erected by T. H. Horne. Building permits have been issued to W. S. Newman for a house on Skinner street to cost \$2,000; to R. E. Blakeway for two houses, one on King's road to cost \$1,700, and one on Chamberlain street to cost \$2,750.

LECTURER SPEAKS ON RAISING OF POULTRY

Thinks B. C. Should Have Great Success With the Industry.

W. Brown, of England, addressed a few poultry enthusiasts in the city hall on Tuesday, advocating utility poultry raising as against fancy-breeding. He held the business may be made to pay and confine his remarks to farms of from fifty to one hundred and fifty birds. Poultry raising, he said, a useful industry while orchards were growing, and England always imported poultry produce and would always remain a market. At present it imports from Siberia eggs for manufacturing purposes. About \$100,000,000 worth of poultry produce is imported into England every year. Eggs are needed for photography's films and plates and for high grade tanning, outside of domestic uses. Denmark exports millions of dollars worth of poultry from small farms, and he thought British Columbia could do the same. While not being familiar with local conditions, he said, he thought the climate here suitable for extensive poultry raising, and advised the co-operative plan of marketing.

England, however, has practically no government assistance as is given in Canada. He said the English educational bodies did not take sufficient interest in fostering the industry, but in British Columbia, with assistance and constantly growing population, and this room will be in charge of Miss Fullerton of this city, a daughter of Alderman Fullerton.

Drs. KENNEDY & KENNEDY

NERVOUS DEBILITY

Thousands of young and middle aged men are annually swept to a premature grave through EARLY INTUCTIONS, EXCESSIVE AND BLOOD DISEASES. If you have any of the following symptoms consult us before it is too late. Are you nervous and weak, despondent and gloomy, eyes before the eyes, with dark circles under them, weak back, kidneys irritable, palpitation of the heart, headache, dizziness, loss of mental energy, pimples on the face, eyes sunken, hollow cheeks, nervous depression, poor memory, lifeless, distrustful, lack energy and strength, tired mornings, restless nights, changeable moods, weak manhood, premature decay, bone pains, hair loose, sore throat, etc.

BLOOD POISONS Blood Poisons are the most prevalent and most serious diseases. They sap the very life blood of the victim, and unless entirely eradicated, they will system may affect the future generation. Beware of Mercury. It only suppresses the symptoms—OUR NEW METHOD cures them.

OUR NEW METHOD TREATMENT alone can cure you, and make a man of you. Under its influence the brain becomes active, the blood purified so that all pimples, blotches, and ulcers disappear, the nerves become strong as steel, so that nervousness, despondency and despondency vanish, the eye becomes bright, the face full and clear, energy returns to the body, and the moral, physical, and vital systems are invigorated; all drains cease—no more vital waste from the system. Don't let quacks and fakirs rob you of your hard earned dollars. We will sure you or we die.

READER No matter who has treated you, write for an honest, opinion Free of Charge. BOOKS FREE—"The Golden Monitor" (Illustrated)
