12 and 13 South Wharf. DR. JULIUS H. ARNOLD, London and Aberdeen. A strange breach of promise case is that of Miss Chamberlaine vs. a Mr. Holmes, now being tried in New York. The plaintiff claims \$50,000. When she was only thirteen years old the defendant put a ring on her finger and wanted her to be his wife, and at a later age repeated his request, but declined to have a clergyman perform the ceremony. She would not marry him before witnesses as desired, and he would hot marry her unless she consented to the form he had composed, without a clergyman. So it ended in there being no marriage and hence the suit.

The character of the country, the agricultural avocations of the patriots before they sprang to arms, the variety of ages in the combatants—all are shown with rare skill. "The Path of Duty" is a capital drawing; three views in Southern Utah, the "Nar rows," "Valley of the Babbling Waters," and "Temple of the Virgin" convey the scenery of that wild region with great force and rare beauty; "Joan of Arc at the Siege of Paris," and "The Parisian Men of September," illustrate two very different yet equally striking scenes in French history; and a noble group of "Gnanled Gray Trunks," three fine views of Wells Cathedral, and a pair of splendid "Stag-Hounds," make up the pictorial treasures of this remarkable number. The literary contents are of great excellence, and include the first instalment of a new romance of the Revolution.

Ayer's Hair Vigor, For restoring to Gray Hair its natural Vitality and Color. which is at healthy, and effectual for preserving the hair. It soon restores faded hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the forma-tion of dandruff, which is often so uncleanly and offensive. Free from those rious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, ng else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume. Prepared by Dr. J. C. of the Bill giving the Premier power to enter into contracts for the construction of branches of that railway without submitting those contracts to Parliament for approval or disapproval. Under the circumstances of the country, he doubted the wisdom or agreeing to expend \$2,000,000 annually in British Columbia, and agreeing to a time limit for building the main line of the Pacific Railway, when the Georgian Bay branch and Vancouver's Island branch were to be put under construction. It was a question whether the Parliament was not running a risk, in assenting to those terms and breaking up a policy which was laid down last session that the burden of this country should not be further increased in constructing this railroad. He said he claimed the repeal of the act on grounds of justice, equal rights, and fair play. Persons who pay the tax are, generally, non-residents, and instead of the money being expended for roads and bridges near lands where raised it is misappropriated. Besides this, non-residents are taxed on three times as much as residents Lumber operations, and the effect of storms, have denuded the lands and

Mr. Murchie said the land was not held for speculative purposes, as he would be willing to give large tracts away to any person who would take it.

After a lengthy debate progress was reported with leave to sit again and the bill was referred to a select committee consisting of Messrs. Murchie, Cottrell, Davidson, Rogers, and Humphrey.

The assessment bill was made the order of the day for to-morrow.

Mr. Davidson, from the select committee, reported in favor of the Albert Railway bill with amendments. He also presented nine petitions, in favor of said bill.

Mr. Dow committed the Fredericton Water Supply Bill and it was amended so as to leave the Commissioners free in their choice of a Secretary. Agreed to. Mr. Keans introduced the St. John Slaughter House Bill, Davidson in the chair. The mover explained and referred to the amendments agreed upon by the Select Committee protecting the rights of those who have already erected, and are now maintaing, slaughter houses with due regard to sanitary laws. Mr. Smith also explained that these amendments removed objections he had raised.
