UNITED CHURCH  
ARCHIVES

PROCEEDINGS

OF

The Annual Meeting of the Society.

The TWENTY-FOURTH ANNUAL MEETING of the MISSIONARY SOCIETY of the W. M. CHURCH IN CANADA, was held in the Wesleyan Church, Hamilton, on Monday Evening the 11th day of June, 1849, REV. MATTHEW RICHEY, D. D. in the Chair. The Meeting having been opened with singing and prayer, and an abstract of the Report having been read by the Rev. ENOCH WOOD, Superintendent of Missions, the following resolutions were unanimously adopted :—

- I. Moved by REV. J. CARROLL, seconded by Rev. J. MUSGROVE,—

*That the Report of the Operations of the Society, an abstract of which has now been read, be printed and circulated.*

- II. Moved by REV. JOHN JENKINS, of Montreal, seconded by Rev. DR. RYERSON, supported by REV. WILLIAM CASE,

*That this Meeting expresses its sympathies with all Protestant Missionary Societies, and rejoices in the success which the great Head of the Church has vouchsafed to their holy enterprise.*

- III. Moved by REV. MR. WHITTED of Buffalo, and seconded by REV. JOHN RYERSON.

*That this Meeting recommends the continuance of earnest prayer to God for the more copious visitation of the Holy Spirit, that the purposes of Christ's manifestation to our fallen race may be speedily accomplished in the universal diffusion of the Gospel.*

- IV. Moved by the REV. THOS. BEVITT, seconded by REV. WILLIAM RYERSON,

*That this Meeting expresses its gratitude to God for the very liberal support given to the Wesleyan Missionary Society during the past year ; yet such is the debt still remaining undischarged, and the extent of the Society's operations, continued and even increased exertions are necessary to discharge the obligations under which the Wesleyan Church rests.*

- V. Moved by REV. HENRY WILKINSON, seconded by REV. MR. JONES,

*That the very cordial thanks of this Meeting are presented to the Officers and Collectors of the different Branch Societies, and to the Subscribers and Donors, for the liberal assistance they have afforded during the past year.*

## R E P O R T .

The religious aspect of our Missionary work is one of importance, difficulty, and encouragement. Gospel blessings are no sooner received, than the desire is felt to impart to others a knowledge of the truth which hath made us free. If it were possible for this desire not to be found coeval in its existence with the blessings of adoption and peace, we should be constrained to recognize the duty of diffusing the truths of Salvation from the very descriptions which are given by the Founder and Revealer of our Faith, who spake of His followers as Lights to illumine a dark world, and leaven to penetrate and pervade the corrupted masses of mankind. We owe our own existence as a Church to the active, aggressive character of the spirit of the blessed Gospel, and whilst in the Cities and Towns, and larger Villages of our country, our organization and pastoral habits may exhibit but little to make a distinction from other Churches, yet, as a connexion we avow our obligation to send to others the bread of life, as in former circumstances of religious destitution, we have shared in the sympathies and zeal of Christian labourers, many of whom have entered into their rest,—but who cared for our souls, as those who must give account. To those who have studied the Philosophy of Christianity the life of the Church appears inseparably connected with the Missions of the Church. Christian Life and Christian Missions are so united that no man can put them asunder. In addition to our conscientious adoption of these sentiments, our Missions derive importance from

the necessities of our fellow-men, who annually seek a home in our highly-favoured country, whose soil, minerals, lakes, rivers, and climate, present unsurpassed allurements to all who seek a refuge, where industry and sobriety are sure to be crowned with plenty and independence. Both the politician and the merchant have duties and interests involved in the additions and changes which are making even the wilderness to bud and blossom as the rose;—but, to us, in common with other Christian communities, belongs the duty of following the sound of the axe with the joyful sound of the Gospel; and at least to keep equal pace with the transformations affected by human skill and power; that as the grandeur and magnificence of our natural scenery yield to the more profitable productions of art; the Sabbath—the Bible, and the Christian Minister, with those appendages and minor institutions which invariably accompany them, may shed their light, and bestow their comfort in rich abundance upon those who voluntarily unite their destinies with ours. Accustomed to these ordinances in the land they have left, it will render their adopted home more happy, when it resounds with harmonious praise, and they listen to the same doctrines with which they have been familiar in former times and places. Whether, therefore, we contemplate our own profession and duty—the wants of settlers in the newly-formed Districts of Canada, or the delightful enterprize of forming infant Churches, that in their turn will increase the connexional power to do good on a scale of increasing magnitude,—our work appears pre-eminently important.

Our *difficulties* have been principally of a financial nature; for however undesirable and painful these are, they would scarcely be recollected if placed by the side of unfaithfulness and desertion in the Christian Church. It is the privilege of the Committee to bear testimony to the zeal and diligence of its Ministers; and to the steadfastness and fidelity of the members

committed to their care. The absence of any peculiar case needing the discipline of the Church, has tended greatly to sustain them while bearing the secular burden inseparably connected with the management of Missionary work.

In this brief Report it may not be unacceptable to the friends of this good cause to have a statistical statement of our domestic Missions. These are

- 37 in number—supplied by
- 49 Ministers. Assisted by
- 67 Local Preachers;—there are belonging to the Missions,
- 60 Chapels: and
- 409 Preaching places.

In connection with these are 5048 members of the Wesleyan Church. As powerful auxiliaries of promoting Christian truth, we have 56 Sabbath Schools; 2,268 Scholars, taught by 301 Teachers. The various congregations within the range of your Missionaries' labours amount to 21,569 hearers.

Wide as such a field is, it might still be extended had we the means to answer every call for Christian instruction. To the Indian work, committed especially to the care of the Wesleyan Church in Canada, the Committee direct the attention of their friends with devout interest. But little has yet been done towards the concentration of the scattered tribes and bands of our red brethren. The Committee are deeply impressed with the desirableness and utility of gathering them together in larger communities, as being promotive both of their secular and spiritual welfare. Some few families have moved from uncongenial residences to Rice Lake and its vicinity; should these be followed by a more general movement to this place, Alderville, or Munsey, the plans now in progress for the elevation of their character by Industrial Schools will be more promptly completed. As an evidence of a movement

favourable to light and knowledge working upon the Indian mind, the Committee have pleasure in stating that considerable sums have been voluntarily devoted to the maintenance of Schools among themselves, from funds of their own, with the consent and approbation of His Excellency Lord Elgin, who has manifested deep interest in the improvement of the Indians from the commencement of his Government in Canada. The Society has 11 Indian Stations; 13 Missionaries; 12 Interpreters; 12 Day Schools, and 12 Day-School Teachers; and 30 Local Preachers. Under the Pastoral care of the Missionaries are 1081 members in Church fellowship, and 2492 attendants upon Public Worship. Uniting the two Branches of our Missionary work, the Society has

46 Stations, or Circuits.  
 62 Missionaries.  
 97 Local Preachers.  
 50 Chapels.  
 440 Preaching Places.  
 6129 Church members, and  
 24061 Hearers.

In the maintenance of this work the Committee expended in the year 1847-48, £5,000, which left them at the commencement of the present year £771 in debt, a debt not contracted by the withdrawal of the ordinary resources of the Church, but arising from the peculiar position in which the Missionary work of the Church was placed by the ecclesiastical changes of the body, through the happy union which was that year effected with the English Conference. At the commencement of the present year the stations were reviewed with great care, and the appropriations made with the most rigid economy, consistent with the claims of the brethren and the wants of the work. It would have added greatly to the pleasure of the Committee had they possessed the ability to announce that these stringent measures, and the income of the Society for

the present year, had even reduced the debt, so as to have given a greater buoyancy to the feelings of the officers and labourers of the Society, and justified their entrance upon new fields of usefulness. Although this is not at present accomplished, such is their confidence in their call as a Church to put forth their efforts to meet the deep, mysterious spiritual wants of the thousands of immortal souls who are either depending upon them for the instrumentality of supplying the bread of life, or calling for their assistance to establish additional ordinances, and occupy new fields for cultivation; and such their reliance upon the piety and benevolence of the members of the Wesleyan community in Canada who have interwoven the Missionary cause with their very existence,—that they assume the onerous duties belonging to the history of another year, with the hope that means may so increase as to enable them to maintain their work with efficiency, under God's blessing, and guided by His special grace; and to announce when the gatherings and offerings of another year are completed, that the Society is either free from the whole of its embarrassment; or, the debt greatly diminished.

The Committee now proceed to the pleasing duty of giving to the patrons of the Society an outline of the work on the Indian and Domestic Missions.

---

## INDIAN MISSIONS:

---

### MUNCEY.

So many particulars are embraced in the interesting Report of this Station, forwarded by the Rev. PETER JONES at the conclusion of the Conference year, any lengthened introduction to a document embracing so full an account of the work is unnecessary:—

B

"As the Lord has been pleased in his tender mercy to bring us to the close of another Conference year, I respectfully present to you the state of this Mission :—

Although we cannot give a very flattering account of the work of God amongst us, still we have cause to thank the Great Spirit and take courage.

On account of many removals, deaths, and expulsions, our number of members falls short. At present there are 203 ; last year there were 212, showing a decrease of 9. It is with feelings of thankfulness to God that I am able to state, all our members who departed this life have died in the faith, and there is no doubt but they are now praising God in glory.

During the past year a few conversions have taken place from the Pagan ranks, and several backsliders have been reclaimed. We have established five Prayer Meetings amongst the Ojebways, during each week, which are well attended. These meetings are held at different Indian houses, at which the exhorters and leaders labour with great zeal, and they have been the means of doing much good in keeping up the spirit of faith and prayer. The Munceys and Oneidas have each two weekly prayer meetings. You will also be glad to learn that our members find class-meetings very profitable, and attend them regularly when at home. These meetings are admirably suited to our Indian converts. Our Sabbath appointments have on the whole been well attended, except when our Indian brethren have been absent with their families on their hunting excursions and sugar making.

I am more and more convinced of the evil arising from the practice of the Indians leaving their houses for a month or more, and spreading themselves through the surrounding country, either to hunt or make baskets and brooms to sell to the white people. During these excursions many of them fall into their old habits of drinking the fire-water, and others who may not give way to actual sin, nevertheless return to the mission with very cold hearts, and it requires a great deal of prayer and faith again to quicken and imbue them with the spirit and love of the Blessed Saviour. Unless these poor Indians can be prevailed upon to stay at home, and attend regularly the means of grace and their farming duties, I fear they will continue to make little if any progress in religion or civilization. There is another great evil attending this practice, and that is the change from comparative comfortable log houses to the wigwam, and after sleeping in the open air, which in many instances, brings on severe colds, terminating too often in consumption and death. I have talked to them again and again on this subject and urged upon them the importance of extending their farming operations, and I am happy to say that several of them are acting upon my advice, and are now busily engaged in sowing and planting ; and I trust that during the present year they will raise enough and have some to spare.

The Ojebway Day School was in active operation half a-year, with an average attendance of about 35 scholars. The Oneida School taught by Brother Sickles has averaged about 33 children, instructed principally in the Oneida tongue. I would here state that our Oneida brethren are very

anxious to

anxious to obtain an English Master, that their children may be taught in that language.

Two Sunday Schools have been in practical operation, one of about 35 children amongst the Ojebways, and the other of about 12 scholars amongst the Munceys, several of whom have committed portions of the word of God to memory. All Missionaries on Indian Missions know the difficulties attending this department of our work, arising from the want of competent Teachers, the irregularity of the attendance of the children, and their not understanding the English Language sufficiently to comprehend the important truths of the Bible.

Brother Sickles has spent much time and pains in translating a number of the Wesleyan Hymns into the Oneida language, and in revising the Mohawk edition. When these additional hymns are printed and circulated they will greatly aid them in their devotional exercises. Brother Charles Halfmoon has also translated a portion of the Wesleyan Catechism into the Muncey language, and we have done the same in the Ojebway. Our Muncey brethren are very anxious to have a little aid to enable them to finish their chapel. About six pounds in cash with their own labour would complete lathing and plastering of it. In its present state it is very cold and uncomfortable during the winter.

The Industrial School Buildings are progressing rapidly, and will, no doubt, be finished by September next.

We have sown about 25 acres of the School land with Spring wheat, peas and oats. The produce of which will help to feed the children who may be taken into the school during the coming winter.

In conclusion, I am thankful to state that our prospects on this mission, at the close of the year, are much more encouraging than they were at the commencement. The people are much more united, and there are evident signs of brighter and better days. May the Great Spirit carry on his own work until this and every other tribe shall be blessed by the Glorious Gospel of our Lord Jesus Christ. Amen."

## SARNIA.

The variableness and wanderings of Indian life are causes of sorrow and disheartedness to many of the Missionaries who toil and labour for their spiritual and temporal improvement. These tendencies and habits have been checked on some stations; nor are we without hope that this advancement will be maintained until they are thoroughly subverted. Sarnia abounds with allurements for the indulgence of the exciting enterprise of the spear and the rifle; far more congenial to the bold and wandering genius of the Indian than the

plough and the harrow. Education and early training of the young can alone remodel and re-organize a people, who but as yesterday merged from the darkness of heathenism, to the light of Christianity and civilization; and a portion of whom only are still reclaimed: whilst efforts for their improvement are checked, and allurements to Pagan life, with its obscenities, and absurd, and degrading rites, are presented by those who are often found of the same family, speaking the same language, and having a common interest in national destiny. No wonder the religious progress and social improvement should be slow which characterize the condition of many of these tribes. This important Mission has its full share of such trials, and yet by the following report from the Rev. T. FAWCETT, there are encouragement and hope blended with darker shades:—

“In taking a survey of the work of the Lord on this Mission, we have cause for humility on account of the limited success which has attended the efforts made to bring poor perishing souls from darkness to light, and from the power of Satan unto God; yet in the meantime we have reason to be thankful to the Giver of all Good, a few precious souls have been plucked as ‘brands from the burning,’ and are now happy in the love of God. We have had to expel and drop several. Seven have removed, and two have died in peace; but after all we have an increase on the Mission. Our congregations are very good, and our Indians are generally regular in their attendance at the means of Grace, and their profiting appears in their increasing stability in truth and love. They are making gradual improvements in their agricultural pursuits. Our Day School is efficiently taught by D. Wawanosh. The number of scholars 31, some of them rather irregular in attendance.

Our Societies are enjoying great peace and unity, and the work of Grace is evidently deepening. In the surrounding country an increasing thirst is manifested by the settlers for the preaching of the Word of Life; and an additional labourer is required in this part of the vineyard of our blessed Lord, ‘who will have all men to be saved and to come unto the knowledge of the truth.’”

### S A U G E E N G .

The difference between a true and false religion is manifest in their fruits. To many of our Indian brethren the Kingdom of God has indeed come with power.

Testimony and illustration are combined in the following letter to the "new creation" of many who are now 'in Christ Jesus.' Divine influences attend the ordinances of religion; Divine grace crowns the dying hours of a Christian believer amongst the Ojebway race in this distant wilderness; and fervid and generous sympathies are developed by these Christian converts for the extension of the Divine Glory. The Rev. J. K. Wiliston writes:—

"I am happy to be able to say, now the third year of my stay in this far distant field of labour is just closing, that your Missionary has not altogether laboured in vain, and although we cannot report a very large increase to our number, yet the God of Missions has been with us in a very special manner to support and strengthen us, and save myself and family from sickness and danger; and to render the Gospel a blessing to this people. Some five or six have been converted during the year, and others greatly quickened and strengthened in the work of the Lord. It may be thought by some that the good done among this people is not commensurate with the expense of the Missionary Society in supporting the Mission; but could they see the benefit that this people have derived from the Gospel, they would think so no more; and I am sure, could the Missionary subscribers witness the change for the better among and in them, they would not regret having assisted to send them the Word of God. I think they are progressing in their spiritual enjoyment. Our Camp-Meeting last fall, our Quarterly Meetings through the year, and our Missionary Meeting in March, were seasons of great spiritual good and enjoyment. At the last Love Feast I administered the Lord's Supper to about 100 souls. We have had two public festivals during the year, which I think were also seasons of profit in as much as they afforded us an opportunity to impress upon their minds, and tended to fit them to receive the impression, that they ought and might attain to a position far beyond what they now occupy. Our Missionary Meeting was attended to with great zeal. Our people decorated the Chapel with trees of evergreen, and erected a gallery for the time which was filled with an excellent choir, who performed some pieces most admirably.

One of our oldest members and a Class-leader, James Kahwetahgosh died in April last. He was a faithful man, and God was truly with him in his sufferings, so that he had peace of mind and an assurance that Jesus would take him to himself in Heaven. His complaint was pulmonary, brought on, doubtless, by frequent exposure to wet and cold. Consumption is very common amongst them; a greater number die of this than any other complaint.

Though this is an isolated place at the present, and many inconveniences are connected with the work here, yet, even here, the Missionary can rejoice, seeing the fruit of his labour, and soon we expect to have connected with this Mission an appointment where there is a small settlement

about being formed of white people, within 8 miles of the Mission. Another settlement of about 200 families some 30 miles from us in the direction of Goderich, have desired me to visit them. As this wilderness south of us becomes settled, it will connect us a little with the rest of the world."

### S C H O O G O G .

This Mission is in a very unhealthy locality, and withal affords no accommodation for a family. An appointment was made at the last Conference to meet the wants of the Indian church settled there; but the health of the Missionary failing, it was the greater part of the year without regular pastoral oversight. The Superintendent of Missions made arrangements with the Missionaries on the Rice Lake Circuit, to visit it during the fall and winter; but these were unfulfilled thro' the domestic and personal afflictions of the Brother who was selected to spend a few weeks on the Island. A native agent from the Rama Mission is engaged for the ensuing year; by this means, with the advantage of visitation by a suitable ordained Minister, we soon expect to see the station in a more hopeful and prosperous condition.

### S N A K E I S L A N D .

Fragments of tribes, or bands of the Ojebway race are often found occupying isolated places, not easy of access at some seasons; this forms one of our difficulties. Those occupying this small island in Lake Simcoe have received regular visits from our esteemed Brother Young, and his colleague; and their efforts are cordially sustained by our respected Brother Law, the excellent resident teacher on the Mission. Their number does not warrant the employment of a Missionary's whole time, and until they can be persuaded to join some other station, we cannot expect much alteration in their circumstances of a secular character; we grate-

fully record the stability which marks their religious state :—

“I have nothing special to communicate concerning this Mission. The great majority of the Indians continue faithful in the discharge of their religious duties. There are several valuable official brethren. The means of grace are regularly kept up among them, and were it not for the doubts still resting upon their minds as to their ultimate place of residence, I think they would much more rapidly advance both temporally and spiritually. There are 50 members in society. Great fidelity is exercised by the official meeting in the administration of discipline.”

### R I C E L A K E .

From this section of our Missionary field Br. Brook-  
ing writes :—

“In presenting our report for another year, we have to record our gratitude to Almighty God, for the many tokens of his favour and love.

“Although we cannot report any increase in the number of our members, yet we have every reason to be grateful for what has been done, and what is still doing. Our means of grace continue to be well attended, and prove to be seasons of great spiritual good. Many of our members are evidently making progress in the Divine life, and are still pressing onward in the road to Heaven. Two of our members have, during the past year, removed from this place to the New Credit.

“One of the young men who was admitted on trial last year, has passed from time into the eternal world ; but his end was eminently peaceful and happy. His death was occasioned by the falling of a log while engaged in erecting a house, which caused a fatal injury. He was taken to the next house in a state of insensibility, in which state he remained for some time. Subsequently, however, his reason was restored, when, perceiving the dangerous state he was in, he became an earnest seeker of Salvation. Both Mrs. Brooking and myself frequently visited him, and endeavoured to direct him to the ‘Lamb of God which taketh away the sins of the world.’ His cries for mercy were pitifully distressing at these times, and left no doubt on our minds that he would ultimately receive the blessing. On the morning of the day on which he died, I visited him, and found him very happy in a clear sense of his acceptance, and rejoicing in hope of the glory of God. After having conversed with him for some time, and prayed with him, I left him, I left him. In about an hour after, I was sent for ; it was supposed he was dying. I found him in a high state of delirium ; inflammation of the brain having taken place, and death was evidently approaching. Towards the evening his pain seemed to abate, and reason returned, when he called for his mother, sisters, and the Indians who were in the house at the time, to his bed side, deliberately shook hands with them all,

told them that he was going to Heaven to be with Jesus, and then began to sing that hymn in the Indian Hymn Book beginning

"Jesus ishpening kaw e zhod,  
Mee suh owh a pa ne mo you."  
"Jesus my all to Heaven is gone,  
He whom I fix my hopes upon."

And while in the act of singing, his happy spirit took its flight to where that blessed Jesus, upon whom his hopes were placed, reigns enthroned on High. I make no comment on the above narrative; the facts will speak for themselves.

"As to the state of their temporal affairs, I am happy to say that there is a progressive and marked improvement. I have never seen them as industrious as during the past year. They have got in nearly 200 acres of spring and fall wheat, besides potatoes, peas, and other crops. The chapel has been repaired and painted, and a tower erected; they have also got lumber for clap-boarding their houses, so that in the course of another year, this will be one of the prettiest Indian villages to be seen. I need scarcely say that this is principally the effect of *example*, as during the year the Mission house has been repaired and made comfortable. There is also a general desire among them to become better acquainted with the best modes of Agriculture. To meet this effectually a small 'Model Farm' would be necessary.

"The School at this place is progressing satisfactorily. Six scholars have removed to the Alderville Industrial School, and two more have moved elsewhere. Notwithstanding these removals, we only record *one less* this year than last. Nine have advanced from the Alphabet to the New Testament, in which they are tolerable readers. The same number write with ease. Nine others have made considerable progress in Arithmetic. Several others have advanced in a knowledge of Grammar, and in writing and speaking the English Language."

## MUD LAKE.

"In this place the Lord has been with us. During the past year, we have added five to our society, and there are three on trial, several more are under serious impressions, and the society, generally, is in a good state. In this village also, there has been an exceedingly happy death. Brother Naugan was ill for some time, of a pulmonary complaint. During his illness the virtue, patience, or Christian resignation was delightfully manifested; his conduct under his affliction was exemplary and instructive, and his death was triumphant.

"Our last Quarterly Meeting, held on the 20th inst., was one in which we enjoyed a large measure of the presence of God. While we were administering the sacrament of the Lord's Supper, scarcely a dry eye was to be seen, and at times we could scarcely proceed in the regular service, such was the overwhelming sense of the goodness and love of our Heavenly Father. Old warriors whose feet were evidently tottering on the brink of

another world thought it would have done; we I have said

Their tears the same reason these difficulties suitable nature they will be

another world, and who, during the days of heathen darkness, would have thought it absolutely degrading to their manhood to have shed tears, and would have suffered any amount of torture, rather than yield to this degradation; were among those who were melted down on the present occasion. I have seldom witnessed, in all my experience, such a delightful season.

Their temporal prosperity is not so evident as that of Rice Lake; and the same reasons might be given as last year. Now, however, some of these difficulties are removed, and they have only to contend with the unsuitable nature of the place for agriculture; but this, I fear, is greater than they will be able to overcome for many years.

I ought to say that several of the most respectable families are removing from this place to Rice Lake, so that at the commencement of another year there will be an alteration in the arrangement of the societies, so as to make them appear different to what they now do in the Schedule which accompanies this report. I might also mention the fact, that one of our brethren, with his excellent wife, who were in very comfortable circumstances, have left this place to go up into the far West, to preach the Gospel to the people of his own nation who dwell in these parts.

## R A M A .

### The Rev. H. DEAN Reports :—

“It affords your Missionary sincere pleasure to report increasing piety and consistency of deportment in the members connected with the Mission under his charge; this is the more gratifying on account of the frequent and peculiar temptations to which they have been exposed during the past year. For the Indians, with laudable industry, sowed some 50 or 60 bushels of wheat last spring, hoping to realize sufficient to supply their families with bread during the winter, but, notwithstanding all their efforts it proved a total failure. By consequence they were obliged to resort to the white settlements to work for the necessaries of life. There temptations to intemperance were presented to them by persons who take a malicious pleasure in the degradation of the Indian, or whose cupidity led them to resort to such means in order to traffic with them more successfully. But despite their proverbial fondness for ardent spirits they—with very few exceptions—have triumphantly ‘stood fast in the liberty wherewith Christ hath made them free.’ After such exhibitions of Christian principle and firmness, amid the discouragements incident to Missionary life, we are ready with the Apostle to ‘thank God and take courage.’

“The Indian members in their ‘daily walk and conversation,’ in their observance of domestic religious duties, and in their attendance on the means of grace, would not compare unfavourably with our white Societies. The Rama band have appropriated from their annuities as last year £12 10s. to aid your Society in its generous and arduous efforts to impart instruction to their youth.

“Three deaths have occurred during the year, in all of which the power of

‘Jesus to make a dying bed  
Soft as downy pillows are,’

was glorious exemplified. Providence has graciously exempted the tribe from severe sickness.

“The prospects on the white part of the Mission are favourable, the congregations are increasing in their attendance, and the Society in numbers and piety.

“The same blight that befel the Indian crops, destroyed the support of the whites also, nevertheless they have succeeded in raising £3 7s. 8d.

“In consequence of the frequent absence of the Indians, the school has been somewhat irregular, but those who have attended the most punctually have succeeded very creditably.”

### BEAUSOLIEL AND FRENCH RIVER.

No great variation has marked the history of these Missions during the past year. The usual complaint of the labourers on most of the Indian Missions, that their efforts are weakened by the frequent absence of the people on their hunting and fishing excursions, is heard from these localities. Brother Herkemer continues to occupy these remote posts of the Society's field of labour with fidelity and success. Out of one hundred and fifteen hearers we have sixty-five Church members; with a prospect of usefulness amongst some heathen families. In the Schools are thirty scholars, who make some progress in Christian knowledge, tho' not with so much satisfaction as if their attendance was more constant and regular.

### OWEN'S SOUND.

NEWASH, COLPOY'S BAY, and SUTTON'S.—The infirm health of the Br. appointed to these Missions has prevented the work being prosecuted with that diligence which otherwise would have marked the history of the year; yet, with the valuable assistance of Br. Sawyers, the ordinances of grace have been maintained at the first station, and occasional visits paid to the smaller communities.

## NEW CREDIT.

To this portion of the Ojebway race, the Society must ever look with lively interest. They were among the first to lay aside their pagan rites, and embrace the Gospel. Gracious were the seasons, when their hearts were first touched with the story of the cross; and fraught with transforming power were the labours and ministry of the honoured men who first turned them from darkness to light. Much has been expended and unceasing have been the toils, to raise them to the scale of Christian manhood and civilization which they have happily reached. True, within this time, many discouragements have been combatted; but, amidst all, the pervading power of godliness,—“The omnipotence of love,” have triumphed. Circumstances having rendered it necessary for the people to move to Tuscarora, in the immediate vicinity of the Six Nations, their love to God was manifested by the erection of a Sanctuary wherein to worship, before a house had been put up for a single family on the new territory. Nor did they forget the bell whose notes had so often called them to prayer. The same tones which invited them to worship at the Old Credit, may be heard at New Credit. An inferior accommodation at their new home may have largely contributed to the affliction and death mentioned in the following report from the Rev. Wm. Ryerson, under whose pastoral oversight they are placed by the Conference:—

“I am happy to be able to say that the Mission appears to be in a state of peace an progressive prosperity. The membership are, with few if any exceptions, exemplary and devout in their lives and deportment before the word and increasingly punctual and attentive to all the means of grace, and as a natural consequence, fervent in their devotion. So much so that at our Quarterly Meeting, in a majority of the classes there had not been one member marked absent for several weeks.

“Our congregation contains most of the adult population, nearly all of whom are serious and devout in their deportment in the house of God.”

“We have been favoured with a few conversions, and several have joined society during the year: six of whom remain on trial.

“We have been much afflicted with sickness during the year; a few of our number have been removed by death, all of whom died in a most com-

fortable state of mind—in the full assurance of faith ; presenting most gratifying specimens of the power of Divine Grace, and witnessing in their last moments the faithfulness and the power of the Divine Saviour in whom they trusted.

“We have lost a number by removal, so that in making up our accounts there is a small decrease in members although our loss in this respect will be the gain of other stations.

“Our School has been and still is in a very flourishing state, sometimes there has been as many as 35 scholars, at other times not more than 4 or 5 ; the latter part of the year the number has been quite small. This has been occasioned by many of the families being absent in their sugar bushes for several weeks, and also an unusual number have been away the most of the season fishing and hunting.

“Our last Quarterly Meeting closed yesterday ; we had 135 present at our Love Feast, 21 spoke during the exercises, and between 70 and 80 partook of the Holy Sacrament. We had a most delightful and refreshing season.

“In conclusion I sincerely thank our gracious Heavenly Father that I humbly hope that we have not altogether laboured in vain, and although our success has been much less than we could desire, yet we humbly praise him for the little good that has been done.”

### ALDERVILLE.

Lively interest has been awakened in the Indian mind upon the subject of education ; as illustrative of this, the Committee have pleasure in stating that from Saugeeng, Owen's Sound, Beausoliel, Rama, Snake Island, Rice and Mud Lakes, youth of both sexes have been sent to this Industrial School. Enlarged plans of usefulness are contemplated, to meet this movement on the part of the Aborigines for the improvement of their offspring. From this important field of Missionary enterprize, the Rev. Wm. Case writes :—

“The state of the Alderville Mission during the past year is prosperous in the several departments of the work. There is an *increase in the Congregations,—in the numbers of the Society,—in its religious influence,* as also in the *amount of its funds.*

“The Sabbath and Day Schools have been continued, and their progress and improvement are highly commendable.

“The Industrial School, so important in elevating the character of our Indian population, is increasing in efficiency and interest. The whole establishment is calculated to make a favourable impression on the Indian mind, and to exercise a beneficial influence on the Indian character.”

From GRAND RIVER no report has been received.

## DOMESTIC MISSIONS.

A statement of the places occupied and Missionaries employed by the Society during the year 1848-9, will give the supporters of this good cause some idea of the extensive work in which we are engaged. In asking for their continued countenance this of itself is a powerful plea, that we may maintain the ground enclosed within the Missionary pale of the Church, and as an appeal for augmented subscriptions, the Society only waits for an increase of resources to take up other positions where their labours are earnestly invited.

From some of the Reports of the brethren engaged

on the above Missions we present to our readers the following extracts :—

### MONO.

"The religious state of this Mission is moderately good. Our members generally are endeavouring to serve the Lord, and are walking worthy of the high vocation wherewith they are called. During the past year I found it necessary to drop several members, or rather names which were on the Class-books, but who neither would attend the means of grace nor support the cause of God. Some cases of immorality also called for excision. In addition to the above we have had several removals during the last few months. But though we have had to prune, we have also planted a little in the vineyard of the Lord. The addition of members will both cover the names that have been effaced and the removals which have occurred."

### BARRIE.

"Through a kind Providence we are permitted to see the close of another Conference year; and, although we cannot, like many others, report a large increase of membership, yet we can say, 'The Lord has been us, the God of Jacob has been our refuge.' At times we have received intimations of good, and the people of God have been greatly quickened and built up in their Holy Faith.

"Our Quarterly Meetings, also, have been of an interesting character, particularly the last, which was held on the 19th and 20th instant. The congregations were unusually large, and the tone of religious feeling deep and solemn. The experience of those who spoke on that occasion was indeed sound and Scriptural. Judging, therefore, from the tone of religious feeling manifested by the members of Society there assembled, from all parts of the Mission, I am led to the conviction, that the Church of God in this section of His moral heritage is upon the very eve of glorious revival of religion.

"At the close of the present year, I find the state of Society as follows: Admitted on trial during the year, 18; fully admitted, 9; admitted from other Circuits, 1; expelled or dropped during the year, 49; converted during the year, 14; number professing Justification, 163; number remaining on trial, 6; number in full membership, 157. Total, 163.

"We have at present 15 appointments, embracing in whole or in part, six or seven Townships, with an attendance of about 600 regular hearers. We have three Sabbath Schools connected with our Church in this Mission, all of which are in a very prosperous state, and promise great usefulness to the youth of our congregation where they are established. There are 19 Teachers, 110 Scholars, and 400 volumes in the Libraries."

## BROCK.

"Another ecclesiastical year has closed. God has graciously sustained his servants on this Mission during the year. Our last Quarterly Meeting was one of especial interest—it was truly a season of refreshing coming down from the presence of the Lord. Our people on this Mission are at peace among themselves, and most of them, I trust, are walking in the fear of God, and enjoying the comforting and saving influences of the Holy Ghost. On the whole I think that the cause of God is advancing in this section of the work.

"Since coming to this Mission I have administered the Ordinance of Baptism to 90 infants and children. Last year I returned 1 Sabbath School and about 30 Scholars—this year I have 7 Schools to report and 200 Scholars, besides we have 1 Union Sabbath School, which is superintended by a member of our Church, and is doing well.

"Our financial returns this year will be small compared with those of other years, owing to the almost entire failure of the wheat crop. This circumstance has greatly embarrassed the people in these back Townships, many of whom are very poor, and with payments to make on their lands.

"The roads on this Mission are of the worst description; I never saw any thing before to equal them. There are cedar swamps in every direction. In travelling 10 or 12 miles, you will have perhaps 6 or 7 of them to go through, and some of them from a quarter to nearly a mile in length. The roads through them are made of round logs without any covering. Some of them are quite worn out, so that in crossing them you are in danger of getting your horse's legs broken. It will certainly be a relief to get once more where the roads are good. I love the cause of my Divine Master as dearly as ever, and have cheerfully taken my turn on this Mission. My colleague, I believe, has done the same. I have found many kind friends to whom I shall ever feel grateful."

## BLANCHARD.

"This Mission, as you are perhaps aware, was heretofore connected with the London Circuit; last year it was set off and a distinct position given to it; the names of 117 members were returned to me, but owing to the imperfectness of those returns, or the instability of the people, (I suspect the former) I could only find 108, on renewing the tickets for the first quarter, and there was a further decrease to 98 during the second quarter, by a secession to the "New Connection," and though we have had other losses, by deaths, removals and "dropped," we are enabled, by taking 27 on trial and receiving 11 from other Circuits during the year, to report at its close 119 members, an increase of two.

"The Circuit is also in a good religious state. We have progressed in that organization which it is necessary should be cultivated, in order to the proper working of our system. The contributions of many of the brethren have been remarkably liberal; and when we consider that many of them

had every thing to learn in reference to an organized Wesleyan effort, their co-operation has been very satisfactory to the Missionary.

"The Circuit embraces the whole township of Blanchard, parts of Fullarton, Downie and Nissouri. In the centre of the work stands the new, but very flourishing village, of St. Mary, in which, and its vicinity, we have a Society of between forty and fifty members, a growing influence, good congregations and a prosperous Sabbath School; here also we have four village lots, conveniently situated, granted to us for the sites of a Church, Parsonage and Burying-ground, and they are now being secured to the Church by a deed.

"This country is very new, perhaps the newest Mission in our work; seven years ago it was all an unsettled and unbroken forest; but the soil being of the richest quality, the climate delightfully healthy; watered by immense springs, streams of clearest water, diversified with hill, dale and level plain; it is an attractive place of settlement for the immigrant, and having no waste land it is becoming densely populated.

"There is a large and fast settling country around us, quite unconnected with any other Circuit or Mission, in which I could at any time cut out work for another labourer, but I cannot do it till encouraged by the authorities that they shall be supplied, having already nine regular appointments in two weeks, and several monthly ones.

"This mission is important, not only because it is a fine country, and many here who would be otherwise destitute of the "*Word of Life*," but because many of our people are moving in here from the Eastern Circuits and the old country, making valuable accession to our society, year by year, and the prospect is that there will be a still greater immigration of them amongst us."

## G O D E R I C H .

"It is with pleasure we furnish a brief report of the Goderich Mission. During the latter part of the past year we have been greatly favoured with "times of refreshing coming from the Lord." In the last four months about 70 have been added to the Church, besides believers have been quickened, and several who had been living without an evidence of their acceptance with God, obtained the blessing to the satisfaction and comfort of the soul. With the Psalmist we can say "the Lord has done great things for us wherof we are glad."

"Our work on this Mission extends into seven Townships. We have nine appointments in the Township of Goderich; three in Stanley; four in Wawanosh; two in Colborne; two in Tuckersmith; one in McKillop, and one in Hay. Most of these Townships are but newly settled, and the scattered population have to encounter many painful difficulties, and we do rejoice that the new settlers are not forgotten by the friends of Missions. The people of Canada have long given proof of their deep interest in the great cause of Missions, hence they have sent Missionaries into the interior parts of the country. These Missionaries sustained by their noble

hearted friends. Thus it is seen that preachers; and particularly claimed, the attractive and shining in the Christ. Goderich Mission. Goderich Mission.

"I will call the members about 250 in

"When goodly numbers go. When the knife. However, they have got the us."

"Notwithstanding the past, we are intended, and the knowledge, times. In experienced, died in the to be with

"The interesting they have they would evident to they are much disturbed in Indians, will down, while admittance few except

hearted friends have gone forth as pioneers in search of immortal souls. Thus it is the preachers feel for the people, and the people feel for their preachers; their feelings become mutual; they share in each others trials and participate in each others comfort. Christ Crucified has been proclaimed, the Standard of the Cross has been planted, and thank God, its attractive and winning influence has been felt by many who before were perishing in their sins have been convicted and won over to the cause of Christ. Glory to God in the Highest, they have felt the Gospel to be the power of God to the salvation of their souls. Such has been the case on the Goderich Mission. May God grant them a continual revival of his work.

"I will only remark in conclusion that our congregations are large, and the members according to their abilities, are increasingly liberal. We have about 250 in connexion with our Church."

---

### A D E L A I D E.

"When I came to this Mission, I found it in a very confused state; a goodly number had gone before my arrival, and a few others fully prepared to go. We have been under the disagreeable necessity of using the pruning knife. I found some, yea many things, very anomalous in Methodism. However, through Divine grace, with the aid of our official brethren, we have got things in a healthy state: And the Lord has added a few souls to us."

---

### S Y D E N H A M.

"Notwithstanding the discouragements, difficulties, and privations of the past, we have reason to thank God and take courage. Our congregations are large and more attentive. The Class-Meetings are better attended, and the members of Society are not only growing in grace and in the knowledge of the love of God, but are encouraged to hope for better times. In some places awakenings are already manifested, and a few have experienced a change of heart. During the year 4 of our members have died in the faith, and left a satisfactory testimony behind that they are gone to be with Christ, which is far better.

"The Indians of Moravian-Town who attend our meetings are a truly interesting people. They highly appreciate their privileges, and although they have to encounter severe trials, they are firmly attached to our cause: they would rather make great sacrifices than give up their religion. It is evident to all impartial observers, that when compared with other Indians they are much improved by our services. Not unfrequently have we been disturbed in the night by the horrid shrieks and yells of unchristian, drunken Indians, who have knocked at our door, as though they would tear the house down, while the most awful oaths would escape their lips for not obtaining admittance. Those who are regular in attending our meetings (with very few exceptions) are of a sober, religious character.

"Sabbath Schools have been formed during the year in connexion with our Society, which are in a flourishing state of progress, encouraging to the parents and the Church. Sabbath School libraries have been obtained for them, and a few copies of our Catechism."

### GOSFIELD AND AMHERSTBURGH.

"We have had conversions, 10; removals, 24; deaths, 2; expulsions, 24."

### CAYUGA.

"This field of labour comprises a part of what formerly belonged to the Grand River Mission, but is now separated from the Indian department. I have no doubt but this change is decidedly for the benefit of the place, inasmuch as it places them upon their own resources, and excites in them a greater interest in their local Church affairs. We have 7 regular Sabbath appointments, two of which we attend alternately once a month on Sabbath, and one week day appointment. There are a few true lovers of our Zion in this place who are happy in devoting their energies to the welfare of the Church."

### STRATFORD AND PEEL.

STRATFORD—"Two years ago I found this field without organization or houses of Worship. Since then Chapels have been erected and new classes organized, and the surplus population of Peterboro', Smith, Cartwright, Manvers, Darlington, Whitby, and Barstead have found a resting place; most of whom must be lost to the Wesleyan Church, only that the more wealthy are graciously disposed to sustain a Mission in these destitute parts. I never thought to have seen such a large tract of country, containing so many Protestant inhabitants, left so long to the teachings of a Wesleyan Missionary. We do thank God for peace, and when a kind Providence smiles, we will for plenty too. Great satisfaction has arisen from the use of our new houses for the purpose of Sabbath Schools. There the parents and the children are made familiar with the Scriptures of truth, and induced to wait for the after services of the Sabbath Day.

"A survey over this immense wilderness, and then a glance at its numerous inhabitants, would lead any one to see the moral destitution of the Queen's Bush; and also to see how necessary and righteous the expenditure of a few dollars to furnish this people with a portion of the bread that came down from Heaven.

"Though our increase was comparatively small last year, yet the congregations are fourfold in some places, and I yet hope to hear and see that this new country will rise with the growth of the Colony, and be able and willing to contribute their quota to regions beyond."

**PEEL.**—"The Peel Mission embraces the township of Peel, Maryborough and a part of Woolwich. Last year there were sixty-eight members returned on this part of Stratford and Peel Mission; this year I return ninety-four members in all. There have been a few conversions in the course of the year. We have had peace and quiet in the several classes, and all of the members appear to be striving for heaven. The roads are bad, in some places they are impassable; spring and fall I have had to ride through the bush, without a road, guided by a line; in one place for four miles, in another for three miles, and another, two, and in another place one and a half miles. We have had ten appointments, and there are four or five places more where the people are wanting us to take up appointments. My feebleness has been such as to render me unable to take up the new appointments, nor could I have supplied the other appointments had it not been for the aid afforded me by our local brethren, and even with their assistance I have had to make many disappointments, in consequence of my infirmities."

---

### GUELPH.

"While the prosperity with which it has pleased God to visit this Mission, during the past year, has not been so large as we desired and hoped for, yet it has been such as to justify, in some humble measure, the conclusion that we "have not run in vain, neither laboured in vain."

"With unaffected thankfulness we are enabled to state that our people, generally, are growing "in grace, and in the knowledge of our Lord and Saviour Jesus Christ." The deepened tone of their piety, which we regard as a prominent evidence of their religious prosperity, has been exemplified in the increasing liberality with which they have contributed to our congregational funds and in their zealous care, in thoroughly repairing, at considerable expense, our large Chapel in the town of Guelph.

"We have a net increase, over past year's returns, of twenty-three members."

---

### CHIPPEWA.

"This important field of labour has not depreciated in interest during the last year. The brethren, to whose liberality and exertions we were so much indebted for the erection of the comfortable brick parsonage on this Circuit, have liberally contributed towards liquidating the debt of £20, for which we found the parsonage in arrears. The debt is now mostly cancelled.

"A neat and commodious Wesleyan Church has been erected during the past year at Point Abino, in Bertie. We are very much indebted to the Building Committee, Messrs. Wm. Baxter, H. Dickhout and J. Moore, for their exertions, liberality, good economy and prudence in carrying on this work.

"We have extended our circuit work during the year, our congregations are increasingly large and our prospects are encouraging. We believe there are many persons in our congregations who are deeply convinced of sin, and we are labouring and praying for their conversion."

### MARMORA.

"The truly orthodox principles of Christianity, as taught by our Church, and the polity of Wesleyan Methodism, are gaining ground and becoming more established. The appointments, generally, are well attended, and the tone of moral and religious feeling is visibly on the increase. But, it is here, as in some other parts of Canada west, there are those among us who broke off from, but who are not of, us; especially those who, in England, were called *Bryanites*, but in this country assume the imposing name of *Bible Christians*. They not only set forth their economy as being far superior to that established by the immortal Wesley, but even boast of dividing our classes in some parts of the province. This, I am inclined to think, is one cause why I am not able, this year, to report an increase of members. Last year the number returned was one hundred and twenty-eight. This year the annual schedule is as follows: withdrawn, four; dropped, five; removed, four; died, one; in full membership, one hundred and twenty-one."

### SHANNONVILLE.

"In preparing the third Annual Report of this Mission, *in its present form*, we feel grateful to Almighty God for the measure of prosperity with which He has so graciously accompanied the labours of His servants in this part of the Mission work. Several, during the year, were brought to a saving knowledge of the truth, and our classes are at present eight in number, with a membership of one hundred and twenty-two; so that those added, are just equal to the reduction by death, removals and withdrawals or otherwise.

"Some of our classes are doing well, others not so well, for want of efficient leaders: this lack is, however, not so severely felt as it would be were it not for the assistance of one local preacher, of superior ability, and some useful exhorters, by whose co-operation we are enabled to supply from six to ten places severally, on each Sabbath.

"Within a few of the past months upwards of one hundred have enrolled their names as members of the total abstinence society.

"In closing, we are happy to be able to state, that more regard is paid to the sanctity of the Sabbath than formerly. Our places of worship are becoming too strait for us, and we hope that next year's Report will furnish something gratifying to those interested in this particular of improvement."

## SHEFFIELD.

"This Mission comprehends a part of three townships, namely, Sheffield, Camden and Richmond, in which we have eleven regular appointments and societies. We have a respectable attendance on our religious services, and the labours of the Ministers are the more important, because we have no local preachers. In the commencement of the year we found a heavy debt on the church, but by the spirited efforts of our people it has been partially liquidated. On making out the yearly schedule, we have the following account: admitted an trial, eleven; from other circuits, four; removed to other circuits, five; total number of members, one hundred and fifty-two. The prospects of our church, on this mission, are encouraging; the members appear to be making advancement in religious experience, and we have frequently experienced that the services in which we have engaged have been seasons of refreshing from the presence of the Lord. May God bless this people and preserve them unto everlasting life."

## GANANOQUE.

"In closing the labours of this year, we find a small increase in our ranks of eleven members. And though we have not been favoured with any special revival, yet the work of the Lord has been gradually progressing among us. Our prayer meetings are well attended, and the tone of piety is evidently deepening in the hearts of the believers in Christ. Also, the people in general are becoming more and more concerned about their spiritual interests, which is evidently manifested by the large increase of attentive hearers that attend the public means of grace."

## AMHERST ISLE.

"This Mission is at present connected with the Bath Circuit. Separated from the main land on the north, by the Bay of Quinte, over which myself and Reverend J. Armstrong cross alternately every two weeks, except in the spring and fall, at which times we are prevented by the making and passing away of the ice. The few members that are left are still anxious for the continuance of the means of grace by the Wesleyan Ministers, who are received with all that warmth of affection which arises from hearts glowing with gratitude to God and his servants, which is only manifested by those who are emancipated from the vassalage of *satan*."

## CORNWALL.

"We have been favoured by the Head of the Church with some gracious influences of the Spirit; the fruits of which have been the hopeful conversion of between fifty and sixty persons. Between forty and fifty have united with us in Church fellowship."

## BONCHERE.

"Some souls have been brought out of the bondage of corruption into the glorious liberty of the children of God. Our congregations are good. The Mission should be divided. There is too much ground for one man to cultivate, the Mission being seventy miles in length."

## TORBOLTON.

"Our prospects have been growing brighter for some months;—nine appointments; preach three times on the Sabbath, and on week nights when practicable; have paid more than 500 pastoral visits since last Conference. Congregations generally large and attentive."

## GATTINEAU.

"This Mission is situated on the North side of the Ottawa River, in Canada East, and on the North and South sides of the Gattineau River, from which the Mission takes its name. This is a bold and rapid River, coming from the far North West, and after flowing for several hundreds of miles, at last falls into the Grand Ottawa, near Bytown.

"The Mission extends nearly forty miles up the River, from Bytown, embracing part of five Townships. The country is very mountainous and romantic, the roads exceedingly rough, making the travelling laborious, and in some places difficult. The people are very kind and benignant. The past year has been one of trial and difficulty."

## BUCKINGHAM.

"All is not gloom and darkness. There are some within our bounds who have been brought to a knowledge of salvation by the remission of sins, who were once the slaves of vicious indulgence, and others were subject to the delusive and destructive errors of Popery."

## OSGOODE.

"On this Mission we have 13 regular appointments. To fill these appointments once, the Missionary has to travel no less than 160 miles; not in the carriage, nor all the time on horse. He finds it expedient frequently to leave his horse with a friend and perform a part of his tour on foot thro' swamps and bush."

## CLARENDON.

"Seventeen appointments; ten Sunday Schools; and out of five hundred hearers, scattered over a vast country, the Minister residing "fifty miles from any market," we have one hundred and eighty Church Members."

## CONCLUSION.

In the foregoing there is much to encourage the friends and supporters of the Missionary cause. The triumphs already achieved may be regarded as presages of still greater conquests. Steady perseverance and constant devotion, sustained by an increasing liberality, will effect more than has yet been accomplished. Relying on the Lord of Hosts, success cannot be otherwise than sure. "The little one shall become a thousand and the small one a great nation."

As each successive field is entered upon and cultivated, additional ones appear inviting the labour of the Christian Missionary. In Canada, and in almost every part of the world, this is the case; and no bounds need be set to the operations of the Christian Missionary, save the boundaries of the globe. "The world," said the venerable Wesley, "is my parish;" and the true Christian Missionary, wherever his lot is cast, says, with his Divine Master, "The field is the world." While a door for further usefulness stands invitingly open, Christians cannot relax their efforts for the conversion of man.

An eloquent writer says:

"Universal man is gasping for regeneration. Nothing upon earth that is ancient shows tokens of enduring, true Christianity alone excepted.—The walls of China, the infallibility of Rome, the changeless mould of caste, the iron girdles of Mohammedanism, are all shivered. Those portions of the race, which for ages they held constrained, are breaking forth, and starting over unknown ground, on chase for some palladium. Those whom civilization had bespangled with all fictitious decoration, are, in the midst of grandeur, as hungry for progress, as vociferous for regeneration, as if wigs had been their dwelling, and scalping-feuds their pride. In England and America alone do we see rest. On us the eye of man will more and more settle. Our peace, amid universal trouble, will bring new inquirers to our door. Our moral ascendancy will much grow amid the paroxysms of other nations and the repose of our own."

The Committee cannot conclude in more appropriate language than in that adopted by the Parent Society in the last Annual Report:

"There is nothing calculated to produce discouragement. It is characteristic of Christian wisdom to look difficulties, and even danger where it exists, calmly in the face, and prepare to meet the emergency. The friends of Christian Missions are privileged, in times of trial, to fall back upon great first principles, which, like their Divine Author, remain unchangeably the same amidst all the mutations of human affairs. They know that the cause of the world's conversion is pre-eminently the cause of God; that, however deeply they are interested in its welfare, it is infinitely dearer to the heart of God than it is to them,—for He it was who planned it in the councils of eternity before all worlds, and gave His only-begotten Son in the ages of time to secure its accomplishment. They rejoice to think that the "God of all grace" is also the God of Providence; that He has all influences in both natural and moral worlds at His command, and is able to render events the most unlikely—the most unpropitious to the eye of human reason—subserve His own merciful purpose of saving lost mankind. And they have learned at the fountain of inspired truth, that their divine Master does not hold them responsible for consequences; that in the darkest and most trying periods, it only remains for them faithfully to perform their allotted tasks, zealously to use the appointed means for the advancement of the glory of God,—and then confidently leave it to Him to make what use He may see fit of the toils which they have undergone, and the sacrifices they have made for His name's sake.

"Reposing upon these imperishable principles, the devoted followers of Christ will feel that the present "signs of the times," instead of warranting despondency, only invite to loftier exercises of faith. It is theirs to rest confidently assured that, whatever may be the apparent confusion immediately attendant upon the overthrow of human institutions, and the shattering of the frame-work of European Society,—the ultimate result will be found in the removal of obstacles which have for ages opposed the free progress of the truth. In the present juncture, it is alike the bounden duty and the high privilege of all the zealous friends of Christian Missions, although placed, as some of them may be, in more straitened circumstances—with somewhat fewer means at their command, to throw themselves more fully than ever into the spirit of their Master's work, and think no sacrifice of time, or labour, or property, too great, if, by anything they can do or suffer, existing opportunities may only be improved for the advancement of the cause of "pure and undefiled religion." And, while earthly kingdoms are seen to totter to their fall, it is especially incumbent upon all who know and love the Lord Jesus Christ to send forth to heaven with greater fervour, and more earnest importunity, the inspired cry—"Thy kingdom come:"—and to plead, with greater intensity of hallowed desire, for the accelerated advance of the Gospel of their Divine Redeemer throughout all lands, so that prophecy may speedily receive that more glorious consummation for which eternal truth is pledged, and a regenerated and happy world unite to "crown Him Lord of all."
