A. O. H. Division No. 1

Honor Their Chief

W. J. S. WELSH,

County President

Campbellton, N. B., Nov. 5th, 1911.

President Regan thanked the audience and members of the order for the kindness and good wishes extended to him on this occasion.

Twenty-eight years ago, he continued, I left my old Irish home and set sail for North America and the first place I set my foot on Canadian soil was Point L. via the shore of that noble river, the St. Lawrence. From there to Montreal where I made my home for 8 or 9 years and then moved to St. Paul, Minn., where I have been living ever since. He always had a strong feeling for Canada, and spoke at some length on the kindness shown him by the Canadian people on every occasion he had of coming to this beautiful Dominion of ours.

Brother Regan praised the spirit that animated the people of Campbellton after that dreadful calamity of a little over a year ago, and stated that the National Board of the A. O. H. had responded readily to the urgent appeal of Provincial Secretary McCloskey for assistance to the Division of the stricken town, and unanimously voted the sum of \$1,500 in aid of the members.

J. J. REGAN.

He explained that the Ancient order of Hibernians was founded some 350 years ago in Ireland during the Penal Laws. Under these laws it was a crime for the Irish people to send their children to church, or engage in the manufacture of goods, but loving that religion and that church as they did their native land, these laws could not crush the National spirit, for which all true Irishmen are noted.

Three pictures decorated the walls of our humble homes and were found in almost every home, the first was that of Ireland's Patron Saint, the glorious St. Patrick, the second was that of James O'Connor, one of the greatest men Ireland ever produced, the third was a little print that represented Mass and the mountain during the Penal laws. It represented a cave in the mountain where there was an Altar and a priest (and that was their church) with men kneeling around so protect the priest from the representation of the penal laws which had it in mind to capture and imprison this priest.

On behalf of the Division of Restigouche County, we give you

men who organized the Ancient Order of Hibernians, and you will find many Irishmen of that stamp in this great order today, men who are ready to lay down their lives if need be to protect their religion.

The Ancient Order of Hibernians in America was organized in New York seventy-five years ago this year and the president stated that he wanted every division to observe the Diamond Jubilee in a manner that would be most fitting and suggested that they set aside one day before December 31st and have a large number of new members initiated on that day.

Some two or three months ago the Division of Pittsburgh set aside one day and they initiated nine hundred and fifty-three new members. What had been done in Pittsburgh, New York, Detroit and Baltimore could be done in proportion in every locality where there was a division. Any practical Catholic who has a strain of Irish blood in him is eligible to become a member of this great order.

The A. O. H. is the recognized public representatives of the Irish race in America. The A. O. H. is first and foremost for the Catholic race and religion on this continent.

At the annual convention which was held in Portland, Oregon, a little more than a year ago, when the condition of the church was brought up, the convention without a dissenting voice appropriated the sum of \$50,000.00 for the Catholic church extension fund for the churches throughout America.

It was with pardonable pride that he referred to the great sacrifice made by the Irish people. No people ever made greater sacrifice than did the Irish father and mother in order that they might give their children a good education and one based upon religious principles.

When the hint was dropped that the Catholic University in Washington might not be self-sustaining the Ancient order of Hibernians were the first to respond with another grant of \$50,000. Right here in your own province you have an example of the furtherance of education by the A. O. H. where they are educating eight young Hibernians so that they may be prepared to occupy positions of honor and responsibility in the future. The Irish race have been noted for their spirit of toleration, and the A. O. H. is sincere in its wish and always anxious to push any movement for the furtherance of the Catholic church.

The A. O. H. is first to respond in the cases of disaster and the only regrettable thing about responding is that these occasions are inevitable occurrences. They have the most supreme love for this or any other country where they are finding homes.

The A. O. H. asks its members and its friends to judge its future on the history of the past twenty-five years; and if they read the reports of generous donations that appear in the press from time to time they would find that it was not on promises or lip-service but on deeds that have actually been performed that this order asked judgment.

The president then portrayed heartrending scenes of young Catholic men who had drifted away from their church and religion because they did not have

the anchoring influence of this or some of the other great societies, at the time of leaving home to begin the battle of life.

The speaker then stated that we should be very careful and only pick the very best men in the Irish race (not using the expression as it is so often misused) when people think that we want only the wealthiest men of the Irish race. What I mean by the very best is that the A. O. H. pick their members from men who are loyal to their duty and to God. The Irishmen fought for centuries for Catholicity, Nationality and Fatherland. It was fidelity to these principles that made the Irish race suffer for years. This was the stamp of men that the Ancient order of Hibernians wanted as members.

When the National Board met in Baltimore February they had an audience with his Eminence Cardinal Gibbons who in the course of his remarks said that the Ancient Order of Hibernians was the best friend the church ever had. Well do I remember the words of the late Archbishop Feehan of Chicago when he said "I would rather my right arm be burned to the shoulder, than that that arm should be raised against the Ancient Order of Hibernians."

Some few years ago Catholics could not step into an Opera House without being greeted with gross and vile caricatures of the Irish race or pass a stationary shop without seeing disgraceful St. Patrick's Day post cards leading the public to believe that they were caricatures of typical Irishmen. Then the A. O. H. took the matter up and he was pleased to state that in justice to the publisher they were always willing to meet our committee half way, and that in the course of a year or two at the most you would not see a caricature nor be able to buy a disgraceful post card in any stationery store in America.

When St. Patrick landed in Ireland he found the people in sympathy with the truths he taught and his command to them to accept Catholic teaching found almost immediate response, and Irish people always honored him and still continue to honor him as their patron Saint.

Bro. Regan said that it made no difference whether a man was a Frenchman or German, Scandinavian or Irishman; if he loved his own country and lived up to his religion he would make a good citizen of this great Dominion or of any other Country.

Let us make this children feel that they have nothing to be ashamed of, if they are Irish or Catholics. Columbus planted Catholicity on this Continent over four centuries ago and it has grown and prospered ever since.

Again thanking the members and their friends for the honor conferred upon him by being present at this great reception, he retired amid great applause.

Chairman Welsh then introduced the Provincial Chaplain Rev. E. P. Wallace.

Father Wallace thanked the National President and Provincial Secretary for the magnificent gift of the A. O. H. to the Catholic Church in Campbellton.

This evening the A. O. H. was assembled to do honor to the National President and he hoped that the A. O. H. would always continue their good work and that the society should pray and that

THE SERVANT QUESTION

After nearly a quarter of a century of housekeeping, and dealing with the servant question, I have come to the conclusion that the rock of offence that prevents many excellent girls, who love housework above all else, from entering is not the lack of the bond of sympathy that many people believe should exist between mistress and maid, nor the absence of creature comforts, but because of the social ostracism. A girl may be pretty, neat, competent, educated, but because she is Mrs. So-and-So's maid, she is debarred from association with her equals. As if there is any degradation in one good woman working for another, whether she trims her hat, makes her gowns, or dusts her parlor! The secret lies here—the social status—and girls turn to other occupations, to office work, to clerking, anything, so long as they are admitted within the circle of society, and homes are deprived of smart, clever housekeepers just because women refuse to allow a good, pure girl to enter the ranks and mingle with her 'set,' because she has not specified hours to work in some public office, but prefers the privacy and protection of a home, and is willing to bear with the diversity of labor a household represents.

The remedy lies largely in the hands of the servants themselves and the Domestic Science Teaching Schools hold the key of the solution. Of course every girl cannot come in touch with that, but it is within the reach of all to raise the standard of their profession. Housekeeping is an art, and it requires an artistic eye and an expert brain to make it a success. When a girl can produce a certificate of efficiency, and can enter a home with the self-assurance that she knows her business, and elevates her calling by bringing to bear upon it scientific knowledge, dons a uniform that will distinguish her as a graduate of a certain institute, she will meet with the same respect that our graduate nurses exact from the people who employ them. Her deportment will coincide with her ability, carrying with it the dignity that will remove all barriers of social standing, her 'wages' will be called a salary, she can have her own apartments and appointed hours, and command the best patronage from regular customers, whose homes will open welcome doors, and accord the same courtesy as that which the seamstress and music teacher receive—Jennie Allen Moore in November Canadian Home Journal

THE ITALIANS HARD PRESSED

Turks and Arabs Reported Driving Them Back to the Sea.

London, Nov. 4.—The correspondent of Reuters' Telegraph Co., wiring from Malta today, says of the Turko-Italian war:

"To sum up the results of the campaign, the Italians hold, with nearly twice as many men, half the ground that they held three weeks ago. They have lost killed, and wounded, not counting the sick, well over 1,000 men. Many Arabs have been killed and vast numbers were shot in cold blood. Now 25,000 soldiers find themselves with their backs to the sea, cramped and confined, with an active enemy within a few yards of them and with cholera raging among them, for despite official efforts to conceal the truth there have been many cases among the troops and the civil population is suffering so much that whole streets in Tripoli have been closed by armed sentries."

Berlin, Nov. 4.—The Lokal Anzeiger Tripoli correspondent says Italy's losses in Tripoli since Oct. 23, amount to 1500 men, of which 280 were killed. "The Italians," continues the correspondent, "have executed 4,000 Arabs, including 400 women and children."

WOMEN MAY AVOID OPERATIONS

By taking Lydia E. Pinkham's Vegetable Compound

The following letter from Mrs. Orville Rock will prove how untrue it is for women to submit to the dangers of a surgical operation when it may be avoided by taking Lydia E. Pinkham's Vegetable Compound. She was four weeks in the hospital and came home suffering worse than before.

Here is her own statement.

Paw Paw, Mich.—"Two years ago I suffered very severely with a displacement. I could not be on my feet for a long time. My physician treated me for seven months without much relief and at last sent me to Ann Arbor for an operation. I was there four weeks and came home suffering worse than before. My mother advised me to try Lydia E. Pinkham's Vegetable Compound, and I did. Today I am well and strong and do all my own housework. I owe my health to Lydia E. Pinkham's Vegetable Compound and advise my friends who are afflicted with any female complaint to try it."—Mrs. Orville Rock, R. R. No. 4, Paw Paw, Michigan.

If you are ill do not drag along until an operation is necessary, but at once take Lydia E. Pinkham's Vegetable Compound. For fairly years it has been the standard remedy for women's ills, and has positively restored the health of thousands of women. Why don't you try it?

NO FEDERAL ISSUES

IN N. B. POLITICS

Provincial Premier J. K. Fleming was on the third instant the principal guest of the most successful banquet ever held in Woodstock. Among the guests of honor were many distinguished Federal and Provincial leaders from other points in the province.

In reply to the toast of the guest of the evening, Premier Fleming said he intended to run the government entirely independent of Federal issues. He would continue to do all he could towards furthering the completion of the St. John Valley Railway. Special attention would be directed toward the working of the crown land department and all the other departments of the government, and special efforts would be made to prevent any further reduction of New Brunswick's representation at Ottawa.

Learn why PURITY FLOUR is unlike any other brand

PURITY FLOUR is unlike any other brand of flour. No two milling companies follow exactly the same process of milling. In fact, no two different brands of flour in the world are exactly alike in quality.

And here is another fact worth knowing: Every wheat berry contains both high-grade and low-grade portions.

The process of milling PURITY flour costs more than to mill ordinary flour. The low-grade portions are separated and excluded. PURITY is an ALL-HIGH-GRADE, hard wheat flour. It has greater strength, greater absorption and greater expansion. It is a thirstier, more elastic flour. It drinks more water and expands into more loaves.

Use PURITY FLOUR for your next batch of bread. Count the loaves. You'll find you have made "MORE BREAD AND BETTER BREAD" from PURITY than when you've used an equal weight of weaker and cheaper flour.

PURITY FLOUR

"More bread and better bread"

IMAGINE, if you can, how much whiter, and more toothsome, and more nutritious, the bread made from such a HIGH-GRADE flour must be.

And can you imagine yourself enjoying the flaky pie-crust and the light, delicate cake?—your reward for using PURITY flour.

When making pastry, please remember to add more shortening than required with ordinary flour—for on account of its extra strength, PURITY FLOUR requires more shortening for best pastry-results.

Yes, PURITY FLOUR costs slightly more than ordinary flour. But use it once and you'll say it's worth more—much more—than the difference.

Add PURITY FLOUR to your grocery list right now.

FOR HOUSEHOLD

ACCIDENTS

Zam-Buk is so Very Useful.

Read how beneficial it proved in
this Case.

Mrs. H. Sawyer, of Keene, Ont.,
writes:—"My husband is engaged on a
farm, and one day, while chopping
wood, the top of the axe broke and
fell upon his foot, putting a nasty
gash. The wound was so bad that we
first thought he would have to get a
doctor, but we finally decided to dress
the cut with Zam-Buk.

"Well, the Zam-Buk treatment proved
a great success. It not only eased
the pain, but it prevented any inflam-
mation and right from first applying
Zam-Buk, the cut began to heal. It
is now completely healed, and my husband
says he will never be without a box of
Zam-Buk in the house. For we are
sure it saved us a great deal of
expense."

Over and over again Zam-Buk has
been proved to be the worker's best
remedy. As soon as applied to a cut,
a burn, a scald, or any skin injury,
it relieves the pain and it sets up
healing. It also prevents blood-poison-
ing or inflammation. It is a sure
cure, too, for eczema, piles, ulcers, old
wounds, bad leg, ringworm, scalp
sores, festering, running sores, eruptions,
cold sores, chapped hands, etc.
Its absolute purity, also, makes it the
ideal balm for babies.

Zam-Buk Soap should be used along
with the balm for washing all sore
places. This soap will be found excel-
lent for baby's bath, even where the
balm is not being used.
All druggists and stores sell Zam-
Buk at 50c. box, and Zam-Buk Soap at
25c. tablet, or post free from Zam-
Buk Co., Toronto, upon receipt of
price. Refuse harmful substitutes.

DYAL

ONE DYE=ALL KINDS

OUR SCHOOLS

A good move was made by Kent
County Teachers' Institute at its
meeting in Buctouche on the 27th
ultimo, when it was resolved:
"To place on record its opinion
of the desirability of introducing
a text book for teachers on Cana-
dian Civics."

Every child in our schools
should be thoroughly taught how
Canada and each part thereof is
governed. The chief aim of Edu-
cation is to make, not merely
well-informed people, polished
gentlemen and elegant ladies, or
highly efficient workmen, but good
citizens in every sense of the word.
We trust that this suggestion of
the Teachers of Kent County will
be endorsed upon by the Education-
al authorities.

Very important resolutions,
substantially the same as those
presented last year but which have
not yet been acted upon, were un-
animously adopted by the North-
umberland County Institute at its
annual meeting in Chatham on
September fifteenth last. They
are as follows:

"1 That in the opinion of this
Institute the teaching of Latin
and Algebra should be eliminated
from grades VII and VIII and the
time saved thereby devoted to
English and Arithmetic, the latter
study to be finished in Grade VIII.

"2 That in the opinion of this
Institute the Compulsory Education
Act should be amended so as to
render it obligatory and com-
pletely effective in all districts, and
that any clauses of the Factory
Act in any way conflicting there-
with should be repealed.

"3 That in the opinion of this
Institute Consolidation of Schools
in rural districts should be made
obligatory in all cases where
practicable.

"4 That in the opinion of this
Institute Manual Training, School
Gardening and Household Science
should be made obligatory in all
schools of the Province."

The advisability of these resolu-
tions will readily be seen by any-
one who studies them closely.

As most of our children leave
school at or before the completion
of the work of Grade VIII, it
would be better to postpone Latin
and Algebra to Grade IX, enabling
the common school pupils to finish
Arithmetic and do more work in
English than is possible according
to the present curriculum.

The Compulsory Education Act
is largely rendered a force through
its enforcement being optional
with each district, and through
the loopholes in the Factory Act
which allow children under age
to leave school and go to work.

About two hundred of the smaller
and poorer schools in this
province are closed, and the educa-
tional facilities in hundreds of
others is of the most meagre kind.
This state of affairs can only be re-
medied by compulsory consolidation
of districts. Consolidated
central schools would give the
country child as good a chance
educationally as the children of
the town possess.

If Canada is to keep up in the
front of civilization her child-
ren must have the best training
possible, hence Manual training,
School Gardening and Household
Science are necessary and should be
free and compulsory for all schools.

We hope that the Provincial
Government, on the second presen-
tation of these resolutions, will
give them a more careful considera-
tion than they did last year.—H.
H. STUART, in Newcastle Union
Advocate, Nov. 8, 1911.

POOR COPY

THE CAMPELLTON GRAPHIC

The Campbellton Graphic

J. G. MCCOLL, EDITOR H. R. ANSLOW, MANAGER,

CAMPBELLTON, N. B., NOVEMBER 10, 1911.

"TRAGEDY OF RECIPROCITY"

M. M. O. Hammond, a Canadian journalist, who was very closely in touch with the reciprocity negotiations at Washington and the subsequent campaign in Canada, sums up as follows an article, entitled "The Tragedy of Reciprocity" which appears in the October Canadian Magazine:

The appeal to "higher national considerations" made everywhere by Mr. Borden was direct, and in Ontario it fell on fertile soil, watered by tears and years of silent apprehension of the United States borne of past affronts. It came when Canada was prosperous and people were averse to entering on experiments. "Let well enough alone" was an insidious if an unambitious cry. In a time of financial distress reciprocity as now offered would have appealed almost irresistibly to the Province of Ontario, which has overwhelmed it. Conservatives were stampeded by the fear of annexation; Liberals by the feeling that fiscal experiments were unwise and unnecessary. New arrivals from Great Britain, with as yet no party affiliations, thought Imperial relationships were threatened.

The Laurier Government that serenely dissolved the House on July 29th with a majority of forty-three behind them came back on September 21st with eight Ministers defeated, the country swept by Mr. R. L. Borden with a following that could scarcely believe their own good fortune, and a Conservative majority of almost fifty.

There are many reasons for saying the people of Canada acted hastily and ill-advisedly in refusing to facilitate an inevitably expanding trade now reaching over a million dollars a day, and that they made an economic error in defeating reciprocity, but no one can say they did not act in a manner peculiar to human nature.

The Men's Missionary Congress to be held in St. John, Nov. 20th, to 22nd, serves to direct the attention anew to what someone has termed "the biggest thing in the world" certainly the greatest factor in recent years in the spiritual awakening of the manhood of our churches—the Laymen's Missionary Movement.

Whatever attitude one may profess towards missions in general, the position of the Men's Missionary Movement is so far as to challenge the most kindly consideration of every right-thinking man. The purposes of the movement, to investigate the missionary needs of the church at home and abroad and then to inspire the manhood of the church adequately to support the great enterprise, are broadening and uplifting.

WEDDING BELLS

CRAWFORD—MUNRO

There took place at noon on Nov. 1st, at 3 Jubilee road, a wedding, which interested a wide circle, not, indeed, restricted to the city of Halifax, or the province of Nova Scotia,—that of Dr. Blanche Munro, daughter of the Rev. J. R. Munro, now of Vancouver, but formerly minister in charge of the Presbyterian church at Antigonish, and the Rev. J. A. Crawford, of Finlay, Scotland, but a graduate of the Presbyterian College, Pine Hill, and at one time in charge of the Presbyterian church at River John, in the hearts of whose people he yet holds a large place.

Dr. Munro is a graduate of Dalhousie University, and a most valued member of its Alumnae Society, five years residence in India, where she was engaged in work as a medical missionary, not having in the least degree affected her interest in university life. Her address bearing upon missionary work in India at the last annual meeting of the Alumnae, will be recalled by all who were present as a most interesting detail of the program. If she is loyal to Dalhousie, it may be on the other hand, she said that Dalhousie is both proud and fond of her.

The marriage ceremony was performed by the grandfather of the bride, Rev. H. B. MacKay, who was assisted by her uncle, Rev. Christopher Munro.

The drawing room bore effective decorative touches in honor of the ceremony—simple and for that reason beautiful.

Miss Munro, looking very lovely in a gown of white satin, and carrying a bouquet of white roses, was attended by her sister, Miss Alberta Munro, who wore a gown of cream crepe de chene and carried a bouquet of pink roses.

Rev. J. M. McLeod, (cousin of the groom) of New Mills, N. B., attended as best man.

Mr. and Mrs. Crawford left by the Maritime Express, proposing to visit Montreal and Toronto before sailing for Scotland. The best wishes of a host of friends will follow them across the Atlantic to the Scottish manse.

The bride's going-away gown was of dark green cloth.

The collection of wedding gifts was large, beautiful and valuable. It included a silver tea service from the congregation of St. George's Presbyterian church, River John, the groom's old charge, and a cabinet of silver from the congregation of Chalmers church, Coburg road.

The groom's gift to the bride was a pearl and peridot brooch, and to the bridesmaid, a pearl pendant.

ALEXANDRA HENDERSON

There passed away suddenly and peacefully, on the morning of the 2nd inst a young woman, well known to many travellers and tourists, Miss Alexandra Henderson only daughter of Mrs. Henderson of Bay Shore House, Charlottetown, N. B.

Her bright and cheerful spirit, her pleasing manner and winsome kindness endeared her to all her acquaintances. She was a member of the Presbyterian Church, Charlottetown, and a general favorite in the community. Her death at the early age of thirty is mourned by a large circle of friends. Much sympathy is felt for her mother her brother and sister-in-law in their sad bereavement.

Are Farm Lands Too Cheap?

Land worth \$10 an acre in Nova Scotia twenty years ago, is now selling at \$1000. The story of this and also of apple successes in Ontario is told in the November issue of Farmer's Magazine. It is also well illustrated and is sure to interest every member of the farm home. Fourteen pages are devoted to half-tone cuts of women's styles and dresses. Send for a sample copy to the MacLean Publishing Co., 143-149 University Ave., Toronto, Ont.

A. O. H. DIVISION NO. 1
HONOR THEIR CHIEF
(Continued from page 1)
Irish race remain true to their traditions and that they would still have brave hearts to shed their blood if necessary to prevent the downfall of the Catholic religion in this country.

He thanked the National President for coming here and addressing such a comparatively small audience, when he was used to addressing thousands, but that he put the same vim and energy into his address to-night just the same as he would if he were addressing thousands.

The chairman then introduced Provincial Secretary John R. McCloskey, of St. John.

On rising to speak Bro. McCloskey thanked the audience and members for the honor conferred upon him by having him here at this great reception tendered as it was to the highest officer in our order, the National President. Bro. McCloskey spoke feelingly on the great calamity of a year ago, and said that he was more than surprised at the rapid strides Campbellton had made. Campbellton was a town very long but was destined to become one of the greatest cities in New Brunswick.

The secretary during the course of his remarks paid high tribute to the National President and said that the word of James J. Ryan was a good as his bond. You had had the honor of hearing him in this room on the 11th of the month.

Chairman Welsh then adjourned the meeting to the next room, where a delicious turkey supper awaited them. About sixty guests sat down to partake of the sumptuous repast.

Supper over the following toasts were given:

The toast to the Church was responded to by Fathers Bouchie and Melans n.

Canada—Mr. A. T. LeBlanc. Prov. Sec. A. O. H.—Brother J. R. McCloskey.

Our Sister Societies—Messrs F. A. Theberge and Alex. F. Arseneau. A. O. H. Officers, Brothers P. M. Shannon and John O'Keefe.

Old Ireland—Brother Patrick O'Leary.

Nations President—Our Guest Jas. J. Ryan.

The Press—Brother W. J. McNeil, of the Campbellton Graphic.

A vote of thanks was tendered to President J. J. Regan and Brother J. R. McCloskey.

A vote of thanks was also tendered the Sisters of Charity for their trouble in preparing the supper.

God Save Ireland.
During the evening songs were sung by Messrs. B. B. Currie and R. J. Lavoie.

TERRIBLE HEADACHES

Trenton Merchant Driven To Despair By The Pain.

"FRUIT-A-TIVES" CURED HIM

TRENTON, Ont. Jan. 25th, 1909.
"I was a dreadful sufferer for many years from Stomach and Liver Trouble—but my greatest suffering was from violent headaches. They were so distressing that I almost had to give up my business. I went to Toronto, consulted specialists and wore glasses, but nothing did me any good and the headaches became intolerable. I was then induced to try "Fruit-a-tives" and from the beginning, I was better, and in a short time I was quite well again—no more headaches—and I threw my glasses away.
"Fruit-a-tives" not only cured my headaches, but completely cured me of all indigestion, and restored me to perfect health again." W. J. McCOMB.
"Fruit-a-tives" is the greatest cure for headaches in the world and is the only medicine made of fruit juices.
"Fruit-a-tives" will always cure Headaches, Indigestion and all Stomach and Bowel Troubles. 50c. a box, 6 for \$2.50, or trial size, 25c. At all dealers or from Fruit-a-tives Limited, Ottawa.

WOMAN'S RIGHTS

Woman, who long ago was forced by the requirements of the capitalist system to leave her home in large numbers and enter into competition with man on the economic field, driving him altogether out of certain lines of industry and seriously cutting his wages and crippling his enterprise in many others, has lately taken another step. Having to earn her living under the same conditions as man and having to obey the same laws as man, she has lately demanded political equality with man. In Wyoming, Colorado, Idaho, and Utah, Finland, Norway, Washington and California, she has obtained the full recognition of her political rights and is, in all those states and countries, not only a voter but eligible to a seat in all legislative bodies from the municipal council to the state or national parliament. In New Zealand and Australia woman has the municipal, state and national franchise, but has not yet entered the national legislature of New Zealand or the state or national legislatures of Australia. In the British Islands woman has for several years had equal voting and representative rights with man in city, town and county councils, and now, in Ireland, she is demanding that in the constitution of the autonomous government proposed for the Green Isle females shall have the same rights as males in regard to voting for members of, and sitting in, that Irish legislature.

A Dublin despatch of the third instant says that the executive of the Irish Women's Franchise League—a non-partisan organization composed of women of all shades of political belief—and whose opinions and desires as to franchise are said to be shared by the Women's Social and Political Union, have issued the following manifesto, the demands of which are quite reasonable and ought to be granted:

"The Irish Women's Franchise League, believing that, in the interests of the country as a whole, women ought to be admitted to a share in the government of Ireland, demands that the proposed home rule bill shall provide for the election of the members of an Irish parliament upon the local government register, which includes women as well as men, and bases this demand upon the following among other considerations:

"1. That should self-government be granted to the Irish people, the imperial government are not entitled to discriminate between the men and women of Ireland to the disadvantage of the women by leaving them politically helpless.

"2. That since the claim for home rule is supported by the argument that the mass of the Irish people have shown, through the systems of local government, their ability, efficiency and economic ability to manage their own affairs, it is unjust and inexpedient to deprive the women of the people of that share in national government which they are admitted to have taken so well in local government.

"3. That any postponement of the enfranchisement of Irish women until after an Irish parliament is constituted, besides being insulting to the women and a denial that their claim is as urgent as that of their countrymen, involves a needless and inevitable re-opening in the future of a constitutional issue which can most conveniently and most honorably be dealt with as part of a home rule bill.

"For these and other reasons, the Irish Women's Franchise League declares its determination to seek by every means in its power to secure the election of the first Irish parliament upon the local government register, and calls upon the members of the Irish party and the Liberal government to include a provision to this effect in the promised home rule bill.

We wish complete success to the Irish women in their struggle for equal rights. Paying the same rates of taxes on property and income as men, women should have their say as to the imposition and spending of such taxes; having to obey the same laws as men they should have their say in the making and enforcement of those laws; having to reside in the same country as men they should have a voice in all matters relating to the acquisition of land or the cession or sale of the same; and even in matters of peace and war the opinion of the sex that bears the children is certainly entitled to as much consideration as that of the sex that bears the arms.

Let there be equal rights for all and special privileges for none. Let no person be compelled to accept an inferior position, socially or politically, because of sex, race, color, religion, language or lack of property. The only qualifications necessary to distinguish between those who are fit to vote and hold office and those who are not, are moral and educational ones. Let the criminal, the ignorant and mentally incapable—and those only—be denied the full exercise of all rights pertaining to citizenship. And to keep down the number of the unfit to the minimum let our laws and customs be changed so as to stop the production of criminals and the encouragement of crime, and let our school system be such as to freely and compulsorily provide to all children capable of instruction the minimum education necessary for good citizenship.—H. H. STUART Newcastle Union Advocate, Nov. 8, 1911.

HOUSE BURNED

The residence of Mr. Peter O'Shea of Seaville, was completely destroyed by fire a short time ago. Several of his effects were burned and the total loss will exceed \$1000. Mr. O'Shea carried no insurance. He has been building a new home.

THE FINANCE MINISTER'S VIEWS

In his speech in Massey Hall, Toronto, on the second instant, Hon. W. T. White, Canada's new minister of Finance, frankly declared himself on several very important questions, as follows:

"With regard to the great principle of public ownership, I am not only not opposed to it, but its earnest supporter, and I look forward to a development on its part commensurate with the growth and progress of Canada."

"I have always believed in a policy of reasonable protection for Canada, including protection for the farmer. Especially is such protection desirable for him during the constructive stage of a nation's development. Now we are in the midst of these prosperous conditions, and I need not counsel how careful we should be of taking any step or doing any act that might tend to change these conditions. Trade questions are exceedingly intricate and complex. They require the most careful study. Changes in the tariff in times such as these should not be lightly considered. Assurance of stability is required to give confidence to our manufacturers, our commercial men and our farmers. I think I am safe in saying that there is no contemplation of any immediate change in the tariff."

"As to labor, the first essential is employment, and plenty of it, with good wages. The policy of protection for our industries is the best policy for labor, as far as capital during the critical stage of the development of our country's resources and the building up of its industries."

THE REVOLUTION IN CHINA

The Republican Forces Are Rapidly Gaining Ground.—Capture Shanghai and Now Control all Central China.

Shanghai, November 3.—The arsenal and the native city of Shanghai were taken over by the revolutionists late this afternoon. No resistance was offered by the authorities or such of the public as remained loyal.

Peking, Nov. 3.—The British Constitution, with the strictest limitation of the powers of the Sovereign, has been adopted by the National Assembly as the model for China, instead of the Japanese plan, which the Government's commission favored.

Shanghai, Nov. 5.—There is reason to believe that the revolutionary sentiment throughout the south strongly favors the unconditional abdication of the emperor and the establishment of an entirely new regime. Yuan Shi Kai will be repudiated if he adheres to the Manchus. He might become the head of the government and receive universal support if he separated himself from his former allegiance. There is, however, a growing suspicion and distrust of Yuan Shi Kai.

IMMORAL POSTCARDS SEIZED

Montreal, Que., Nov. 3.—Between fifteen and twenty thousand alleged immoral post cards were this morning seized by the local customs authorities as their entry into the country was considered to be strictly in opposition to the customs regulations which forbid the importation of such pictures.

CONSERVATIVES GAIN 3 SEATS

Edmonton, Oct. 31.—The Liberals concede the election of four Conservatives in the by-elections in Calgary, Lethbridge, Pincher Creek and Glenora. The result means the loss of three seats to the Sifton Liberal Government, as Calgary was the only one previously held by Conservatives at the general election of 1909.

According to Government Estimates

\$100,000,000.00

was made in Western Town Property during the year 1909

Did you participate in these huge profits or did you "pigeon hole" the propositions submitted to you by your western friends for future consideration? In short, are you the man who made a profit or the unfortunate one who had the chance but did not possess sufficient judgment to recognize the opportunity or sufficient courage to close a deal? The man or woman entitled to sympathy is the one who says: "Five or ten years ago I had the chance to buy this or that property at \$100 or \$200, and now it is worth \$10,000." The average person sneers at the person who makes such a statement and says: "I would have bought and made that money." Are you going to say five years from now that you had a chance to buy a lot at Poe, Alta., at from \$50 to \$100 each, or are you going to be the man who will have from \$1,000 to \$10,000 in cash as a result of having bought property in this town in this year of grace, 1912?

POE A COMING COMMERCIAL CENTRE

Poe is located on the main line of the Grand Trunk Pacific Railway between Edmonton and Saskatoon. It is located in one of the finest farming districts in Western Canada. The surrounding country is settled by a progressive type of farmers and consequently will become the market centre for Northern Alberta. Poe district possesses rich coal mines, is close to rivers and lakes and large forests are easily accessible from this point. These natural resources insure for the residents of the town, first, low cost of living, and second, great commercial activity, two essentials in the upbuilding of a large town, thus creating valuable real estate.

POE AS A MANUFACTURING CENTRE

This townsite and contiguous territory has the requirements outlined by large manufacturing concerns for the location of large factories or large enterprises of any kind employing large numbers of people. The rivers and lakes furnish water, the coal fields and forests furnish fuel and cheap building material, the fine farming lands furnish farm products, enabling the residents to live at a low cost. The town is located on the main line of a transcontinental railway, assuring the necessary transportation facilities. These combined conditions will furnish cheap labor, one of the most important features of a manufacturing centre.

Poe townsite was recently placed on the market and already over 200 lots have been sold, and many of these lots have already changed hands at a substantial increase in price. Most of these lots were purchased by representative business men throughout Canada, who are now profiting by their foresight.
The townsite is high and dry and very suitable for building purposes.
OPPORTUNITY
Is useless unless you possess the courage to act. You might possess great wisdom, you might read a good deal or travel much and thus see all kinds of opportunities to make money, but unless you have the courage to act on your judgment and freedom all of these desirable qualities are entirely useless.
Lots in Poe are a good investment at present prices. The town is bound to grow rapidly. Owing to the easy terms of payment you have the ability to buy and if you do not buy now it is because you are lacking in courage, and the chances are you will never be like the man you now admire most, rich, courageous and wise.
TORRENS TITLE
Poe townsite is held by us under the Torrens system of title. Under this system the title is guaranteed by the Government, therefore absolutely safe.
PRICES AND TERMS
Prices of lots range from \$50 to \$100 each, and they can be purchased on terms of one-tenth cash, balance in eighteen equal monthly payments; or quarter cash, balance in six, twelve and eighteen months.

VERDICT IN SACKVILLE ACCIDENT

I. C. R. Management Scored for Authorizing Signal System Resulting in Accident Which Killed Melanson.

Moncton, Oct. 31.—At the inquest held at Sackville to-day, on the body of Fireman Frank C. Melanson, who was killed and cremated in the rear end collision on the 30th, the jury found:

"That the immediate cause of such collision, and the resulting death of said Frank Melanson, was the rate of speed at which said special in charge of Conductor Melanson and Driver Price was following behind said special in charge of Conductor Trueman from Evan's siding to Sackville.

"We recommend that the railway authorities institute strict enquiry into the matter.

PROPORTIONAL REPRESENTATION ESTATE SALE

The recent general elections in Sweden have tested the Swedish system of Proportional Representation that system by which in an election each political party, no matter how many parties are in the contest; is enabled to elect about the same proportion of the total number of members of the legislature as the number of votes all its candidates received bears to the total number of votes cast.

The Swedish second chamber consists of 230 members, about the same number as our House of Commons. In 1908 the total vote cast at the Swedish general elections was 306,455 of which the Conservatives polled 130,037 electing 93 members, the Liberals 121,308 securing 104 members, and the Socialists 55,110 votes electing 33 members. In September, 1911, with Proportional Representation and a greatly increased electorate—manhood suffrage with, however, the necessity of having all taxes paid in order to have the right to vote—the total vote cast was 603,154, of which the Liberals polled 242,127 electing 101 members, a loss of three; the Conservatives, 188,247 votes, electing 65 members, a loss of 28; Socialists 172,780 votes, electing 64 members, a gain of 31.

From the above it will be seen that in 1911 the Conservatives elected a member for about every 2900 votes, the Socialists one for every 2700, and the Liberals one for every 2400. While the plan did not work perfectly, the results were much more just than when in 1908, the Liberals with a smaller vote elected 8 more members than the Conservatives. In Canada, in 1908, the Liberals WITH LESS THAN HALF THE TOTAL VOTE POLLED elected about two-thirds of the members and the disparity between the proportion of votes polled and the proportion of members elected at the election of 1911, while not so great as three years ago, the new government polling a clear majority of the total vote, is still far too great.

The system of Proportional Representation, which has been championed by Hon. F. D. Monk, and which we trust, he will continue to agitate for until he sees, in the law of the land, is the only fair system of apportioning parliamentary representation among the different political groups. Let every political party have exactly the same influence in parliament as is warranted by its fraction of the popular vote.—H. H. STUART, in Newcastle Union Advocate, Nov. 8, 1911.

GUY FAWKES DAY

Guy Fawkes day was celebrated in Chatham by a fine turnout of Orangemen. They attended St. Luke's church, when Past Grand Master Rev. L. G. Fulton delivered an eloquent and forceful sermon. About 200 members of the order were in line of march, and the church was crowded to the doors. The lodge taking part were: Chatham, No. 90; Tabernacle Lodge, Loggieville, No. 143; No. 47, Newcastle; Royal Society Knights, of Newcastle; and Royal Black Preceptory, of Loggieville. The Newcastle Orange band headed the line of march and played suitable selections.

We Make Them Differently

You see no hackneyed styles—or last year's patterns—in "Progress Brand" Clothing.

The little niceties of fashion—the exclusive effects—that make "Progress Brand" conspicuous—were never seen in a garment before.

Some styles are so absolutely unique that we have been able to patent them.

You can always tell these "different" clothes by this trademark—

Boy Scouts

The necessity of providing the Boy Scouts with some representative music has been exercising the minds of the authorities for some considerable time. Although a large number of march movements have been submitted the difficulty in finding a work that was characteristic of youth that would appeal to the spirit of youth and that would be thoroughly distinctive of the movement in general seemed destined to remain unrequered.

However the case has now been met by Mr. Alfred Cammeyer who has composed a liting march that soon overcome the hesitation of the Officials by its simplicity and effectiveness and has been adopted as the Official March of the Boy Scouts Organization.

The Boy Scouts march is being gradually established as a favorite throughout the Empire Military Bands as well as Orchestras having responded most enthusiastically in soliding it to their repertoire.

FATAL ACCIDENT AT SHIVES ATHOL

Young Bathurst Man Loses His Life

A distressing accident occurred on Wednesday afternoon at the Messrs Shives Lumber Co. Athol Mill where by Alphonse Picot aged 26 of Bathurst lost his life.

Deceased was working at an edging saw and a piece of scantling flying of the log struck him on the right breast killing him almost instantly.

Dr. Martin the Coroner held an inquest on Wednesday evening when the jury returned a verdict of accidental death attaching the blame to the Company.

Deceased's brother who is also an employee of Messrs Shives took the body to Bathurst on Thursday for interment.

We are delighted to hear that our good friend Mr. J. I. McDonald has so far recovered from his illness as to be able to leave the hospital and that at present he is with his home in the city of Toronto.

Doctor's Prescription To Eczema.

The most advanced physicians of this country and Europe are now prescribing a wash of Wintergreen, Thymol, and other soothing and healing ingredients for the cure of Eczema, Psoriasis and all other forms of skin trouble. This compound is known as the D. D. D. Prescription.

Dr. Holmes, the well known skin specialist, writes: "I am convinced that the D. D. D. Prescription is as much a specific for Eczema as is quinine for malaria. I have been prescribing the D. D. D. remedy for years."

We ourselves vouch for the D. D. D. Prescription for Eczema and absolutely know that it will take away the itch the instant you apply it.

Drop into our store and get posted on this wonderful remedy for Eczema and all other skin troubles. Or write the D. D. D. Laboratories, Dept. C. D. 49 Colborne St., Toronto, for their free sample bottle. They will be glad to send it immediately. A. McDonald Druggist Campbellton N. B.

The boy's appetite is often the source of amazement. If you would have such an appetite take Chamberlain's Tablets. They not only create a healthy appetite, but strengthen the stomach and enable it to do its work naturally. For sale by all dealers.
