VOL. 5 SOCIALIST CAMPAIGN

Leader Hawthornthwaite **Starts Ball Rolling** in Nelson

Two Hour Talk on Principles of Socialism, **Provincial Politics and Other Topics**

Good Meeting at the Opera House A fair sized audience greeted J. H.

Hawthornthwaite, M. L. A. for Nan-aimo city, and leader of the socialist party in this province, at the opera house last evening, when he spoke for nearly two hours on "The coming campaign. George Fleming occupied the chair

and on the platform there were in ad-dition, John Matheson, G. M. Holt and Martin Anderson. There were a number of lades in the audience and the speak-er of the evening and the chairman were each presented with fine boquets of roses by a young lady just before the proceedings commenced. The audience was mainly composed of enthusiastic socialists, but there were

a few here and there who were probab-ly strongly opposed to the speaker and his principles. The socialist leader apparently ex-pected strong opposition to his views,

udging from his opening remarks, but he was listened to quietly from start to finish without even a hint of interruption. The audience joined in with the speaker in laughing and applauding some of the points made, but the serious applause given was reserved for some of the many jibes hurled at the "master class" and at the capitalistic

"master class' and at the capitalistic sytem generally. The speaker accused the press gen-erally of not fairly reporting his soc-ialistic utterances because those who owned the papers were afraid to let the working man learn of his true position. Mr. Hawthornthwaite divided his ad-dress of nearly two hours very fairly to several topics. The principles of socdress of nearly two hours very fairly to several topics. The principles of soc-ialism, the wickedness of capitalism, the speakers' acts in the legislature, the coming "bloody" revolution, and the sins of omission and commission of the liberal and the conservative party in special relation to labor being the chief points buched on. The speaker referred to The Dally News and its attitude towards himself at some length and while he hit out at the libsins of omission and commission eral party continuously, declared that the only use he had for the Tories was to lead them on, as a continuance of Tory administration would accomplish more than anything he knew of towards bringing in the glad reign of socialism. Mr. Hawthornthwaite, notwithstand-ing, the fact that he was suffering from a severe cold, spoke clearly and at con-

a severe coid, spoke clearly and at con-siderable length, turning aside every little while to bitterly denounce the ex-isting state of affairs and always pro-nouncing socialism as the one possible.

agreed with Mr. Dooley. Socialism was not understood by the average capitalwho could not define it, and who knew nothing about it. Capitalism was a modern form of production about 500 years old only, and it had been preceded by other systems. It had reached its height and was bound to decline and disappear, in fact it was commenc-ing to disappear now and a new system, socialism, was taking its place. People would not believe that socialism could come into being, because it was not come into being, because it was not taken up by the educated classes. This was a common error and people would wake up some fine morning and find how greatly they had underrated the

real situation. The capitalistic, the master class, today possessed all the means of production. The laborer must

be no room for further trade and pro-duction expansion. Then would come the end of capitalism. The private cap-italist was the most selfish animal in the world today and was working his own destruction. The introduction of labor saving machinery was merely instening the coming revolution. The laborer would turn on the capitalistic class and rend it and the greatest and bloodlest revolution would come that the model had own seen bloodiest revolution would come the world had ever seen.

He had warned the members of the legislature that this bloody revolution was coming, but they laughed at him. In England and in other countries to-day the giant "labor" was already stir-ring and commercing to delve into the economic situation. Labor was awaken-ing at last. In Europe, where no other means were available, was heard today the bomb and the pistol, and who could blame these men seeking their liberty through the only means open to them? Under the British flag, the means used Under the British flag, the means use in other countries were not necessar as the ballot could be resorted to and was by the ballot that capital was to be broken down and done away with.

be broken down and done away with. The chances of the worker getting out of his, and into the capitalist class today were practically nil. Even the small capitalist was rapidly disappear-ing and when he reached the ranks of the employed there would be a howi that would go round the world. Nelson's booster club, if it succeed in getting 20,000 people here, would only increase misery, and the workers would be in a worse, and not a better condition. That was the experience of all great centres of bonulation the world over. The meeting was called for \$ o'clock, but it was nearly 8.35 before Mr. Hav-thornthwaite appeared on the platform. He was applauded on appearing and after a brief introduction by the chair-man, who described the speaker of the soliest at experience of all great morning newspaper you have the socialist leader at once began his address.
He said he had been warned that on the world over. Some Nelson people did not want to be ar about socialism at inter socialism would come on the platform later and show up the destribed have to hear.
Houston, Nelson's absent member, ne hoped he would never from the field of socialistic principles into that of practical point.
Houston, Nelson's absent member, ne hoped he mould come on the platform later and viser man.
Conservatives, said the speaker, were from the field of socialistic principles into that of practical point.
Houston, Nelson's absent member, ne hoped he mould come on the platform later and viser man.
Conservatives, said the speaker, were from the field of socialistic principles into that of practical point is told not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords not want to be caught napping and was determined by Dooley as made up of all bords.
As a class they dort pay taxes. Nor to be caught napping and was determin-ed that the mistake made at the last elections should not happen again. At the last election the socialists had conthe last election the socialists had con-tested nine seats and won three; in the next election the socialists would con-test every constituency in the province. If nine socialists got into the house "no business shall be done until our business, the business of the working man, is first attended to, or we will force the two old parties to tear the mask of hypocrisy from their faces, and join hand in hand to defeat the true repre-sentations of the laboring class." Referring to his own position in the legislature at the last session, the

legislature at the last session, the speaker said that the socialists held master class, today possessed all the means of production. The laborer must sell his labor, a commodity like any other, and must sell it for wnatever he could get for it. The capitalist pur-chased this labor and took it into the mill, the mine and elsewhere and made production. The price of labor's pay is determined by the cost of production. The speaker paused for a moment here and declared that whenever he spoke of socialism the reporters' pencils al-ways stopped. "When I get to politics watch how the balance of power. It was a very ways stopped. "When I get to politics watch how busy their pencils will be, and I'll tell you why this is always so. Those who employ these reporters do not want the employ these reporters do not want the employ these reporters do not want the the tory party is the real capitalistic party. They openly and avowedly stand for capitalistic development, not for reform in any shape and that is the the tory party is the real capitalistic party. They openly and avowedly stand for capitalistic development, not for reform in any shape and that is the the tory party is the real capitalistic party. They openly and avowedly stand for capitalistic development, not for reform in any shape and that is the

voting paper for fear some one would find out how he voted and tell his em-ployer. This coward's hallot was typi-cal of the worker's real situation right here in British Columbia at the present moment. The British Columbia at the present story of the bill to amend the steam bolter inspection act introduced last ession by Mr. Manson, a conservative. The Engineers' association of Vancou-ver appealed to the speaker to oppose the bill. It had been reserved till the last day of the session. The ileutenant-governor of the province was there to close the house for the session. When the bill came up at 5 o'clock in the al-ternoon the speaker counselled obstruc-tion. He declared his intention of re-viewing the history of steam and holl-ers in a speach which would occupy six or seven hours. The bill was with drawn for the time. According to pro-cedure when it came up in the evening one vote was sufficient to throw it east. The promoter of the bill offered a com-promise, and the speaker agreed to al-low the bill to pass, provided the three amendments he had offered were ad-copted. "That showed what three deter-mind men could do, even if they have thirty-nine opposed to them." After attending to various measures in the interest of the toiler, which he said he had put through the legisla-ture, the speaker reserved to The Daily News. "That great morning newspaper you

As a class they don't pay taxes. Nor has a land grant question any interest for the laboring class, they don't as a class own land. They are not concerned about railroads either, for they don't own railroads. All they have to do is to live and keep on producing for the capitalistic class. They pay no taxes, own no lands or rallroads, nor ever will under capitalistic production. These things concern only the capitalistic class and such questions, when they are raised by politicians, are only raised to fool the laboring class at election times. Socialists sometimes believe that it was best to vote for subsidies and like measures for the express purpose of hastening the inevitable crisis, but I have never yet voted for a subsidy bill. As a matter of fact the Columbia & Western bill, that The Dally News makes so much fuss about, was not a subsidy bill at all. The real subsidy was granted years before and re-enactwas granted years before and re-enact-ed twice later on. And who do you think, you people that read The Daily News, passed this subsidy bill origin-ally? The liberal party can throw no stones at me over this subsidy matter, because, just fancy, the Semlin governbecause, just rancy, the semin govern-ment, which re-enacted the original sub-sidy, had a good liberal for president of the council, Dr. McKechnie, and such a fighting liberal as Joe Martin for attorsou way this is always so. Those who employ these reporters do not want the laboring man to know and understand the real economic situation today. The press is not honest and it is arraid of socialism and so the reporters, who understand their business, keep back stand and where we stand with the m. The liberal party claim to be the

"If it can be shown to me, and I hav "If it can be shown to me, and I have heard some things since I came down here, that Green has done wrong. I will do all that I can to put him out of business anyway, in good time, but cont mistalee me, I will not put him out of business out of business for the good of the lib-eral party; I am not such a fool as all that."

eral party; I am not such a fool as all that." The speaker closed with a peroration addressed to his own particular follow-ing relative to the approximing elec-tions, urging them to prepare for vic-tory at the polls. Then the chairman asked for ques-tions, and a gallery god shouted out, "How about the Sunday closing bill?" Mr. Hawthornthwalte laughed, as did the crowd, but the question got a squares reply. It was at present a dominion matter, said the socialist leader, but personally it did not have his support. "I want to be made good by act of parlia-ment. Its a first step. The next one will go further and finally we will have to go to the dominant church whatever

will go further and maily we will have to go to the dominant church whatever that may be." Another questioner was told that there was no such thing as identity of interest between labor and capital. They clashed at every point of meet-ing and there must be way to the end.

Mr. Hawthorntnwaite received an at-tentive hearing, and some hearty ap-plause during his address of nearly two hours, but it would be difficult to say how far, if at all, he moved his audience along the socialistic road.

Counsel Asks Leave to Withdraw Plea-Defense Will Likely be "Emotional Insanity"--Prisoner's Rapid Career

New York, June 29-"Not guilty," wa the plea personally made by Harry Kendall Thaw when arraigned today on th

held, is said to be an old friend of Thaw, and will testify that he talked on Mon-day night on the roof garden with Thaw, who appeared to be normal in his de-meanor and entirely at his case. Sud-denly, according to this informant, Thaw turned pale, his eyes glared, and turning suddenly away, he walked towards the place where White was seated and the shooting followed. Thaw's counsel considers, that this tes-timony indicates that Thaw did not go to the roof garden in quest of White and that it was only when his eyes lighted sud-denly on the man whom he believed had wronged him that his passion for ven-geance suddenly blazed out. Toung Thaw is of Quaker origin and his family is one of the oldest in Penn-sylvania. His father's millions came from the manufacturing business and realty in-vestment, hundreds of acres in and around Pittsburg belonging to the estate. How-ever Harry K. Thaw is the family black sheep, led into tide ways by parental in-

sheep, led into idle ways by parental in-dulgence. The escapades of the youth did not appeal to his father and when the latnot appear to mis father and when the int-ter died he left the young man only \$2000 a year. But his mother softened and gave him a share equal to that of the other children. With an annual income of \$80,000 young

charge of murder before justice Cowling charge of murder before justice Cowling in the supreme court. So prompt was the prisoner's response to the usual question by the clerk of what he had to say to the indictment, that justice Cowling and his counsel, who expected to reply for him, were for a moment startied. The proceedings lasted but a few mo-ments, during which the prisoner ap-peared to be cool and collected. While waiting his turn for arraignment, several prisoners preceding him, he stood chatting with a policeman. After Thaw had been remanded assistant district attorney Knott in response to the

After Thaw had been remanded assistant district attorney Knott in response to the question, "What is there in this case?" said, "It is simply a question of whether New York has gone down to the level of a mining camp, or whether a man has some chance for his life here." Thaw's counsel's request for leave to amend the plea of not guilty has been taken to means that the dual likes of do.

taken to mean that the final lines of de-fense have not been determined upon, al-though it is possible that emotional in-sanity will be the g rounds offered. Every

though it is possible that emotional in-sanity will be the g rounds offered. Every effort will be made to secure evidence of the former life of White and his pursuit of Mrs. Thaw after her marriage. There is hardly any possibility that the trial can take place before October. One of the most interesting developments today was the statement published in an afternoon paper that White, instead of being, as was generally supposed, a man of great wealth, was in lact a tai krupt, owing \$300,000 to one young member of a prominent family and as much . Cre to other persons, and having so greatly over-drawn his personal account with the firm of which he was a member, c. . to was notified that he could draw no more and must be content with a certain fixed weekly allowance. Mrs. Thaw had a long conference with her husbdid's alorneys today, during which he is said to have related at length her whole life history, especially that por-tion pertaining to her acquaintance with White prior to her mariage. As a result of this conference it was decided that

of this conference it was decided that former governor Frank S. Black will take a leading part in the defence. Mrs. Thaw did not visit her husband in the Tombs

today. The investigation of Thaw's counsel into The investigation of Thaw's counsel into the career of S. White and the John Doe proceedings, instituted by the district at-torney's office and designated to probe every possible avenue that may throw any light upon the motive for the tra-gedy, promises to result in some startling disclosures of the so called Bohemian under world of the metropolis. Scores of detectives are now delving into this sub-ject in behalf of the prosecution and de-

of everything he had observed during the dinner, and afterwards on the roof gar-den where White was shot. A witness was found today by counsel for Thaw, whose testimony, it is said, will be of the utmost importance to the defence. This man, whose name is with-held, is said to be an eld friend of Thaw, and will testify that he talked on Mon-ders clutte on the roof surface with Thaw

With an annual income of \$80,000 Young Thaw whettad his scythe for a wide swath and he cut it too. New York, Washington, London, Paris and Tokio were visited by him and his round of profligacy set peo-ple aghast. Money ran through his fingers as water through a sleve. As an index of his vagrant character the following inci-dents in New York are submitted.

He raced a cab down Broadway in the He raced a cab down Broadway in the middle of the day, when Broadway was crowded from curb to curb. He threw a theatrical performance into a panic by throwing bottles at a sou-brette, who didn't sing to please him. He caused the proprietor to close a fa-mous night restaurant an hour earlier because he stood on the table and threw 5 bills to all the walfars because he scool on the table and the \$5 bills to all the waiters. He went to the Waldort one night, so by himself at a magnificent table and of dered a \$30 dfnner. When it was finished h sent for the chef and gave him \$25. sent for the chef and gave him \$20. One night after the theatre, when he found his cabman asleep, he got astride of the horse and drove the cab and the sleeping cabman through the most bril-liantly lighted thoroughtares of New York. When a woman's eyes suited him, he would send a pair of rubies to match them or emergids or samphres as the case might or emeralds or sapphires as the case migh

He made a point never to tip a waite The man \$5, no matter what was served Thaw could not spend his money fast enough in New York and so sought a more sive field for speci gance in Paris. He successed to hight h

the gay capital that in a single many sprang into fame. He gave a dinner in midsummer to about 25 women. It cost \$50,000. It made Paris sit up and gasp. It was such a dinner as the fayorife of the Caesars gave, and like the favorite of the Cassars gave, and the ones in the time of Catherine of Russia when a great prince distinguished himself and the most famous beauty in Russia by giving her a dinner after his greatest victory.

This prince served, liquor glasses o Jewels to every, woman after the dinner Harry Thaw hung his jewels on a mid summer Christmas tree in the center o summer Christmas tree. In, the center of the table. On the tree he hung a minature of every woman present. The guests chose their own pictures and found the minature to be the lid of a small box, which con-tained a set jewel. He had found out the favorite jewel of each woman.

favorite jewel of each woman. He gave the dinner in the famous res-taurant Cabat, which is in the palace of the countess de Pava, built for her by Napoleon III on the Champ Elysees. The roses that were used were flawless. Hundreds had ben discarded because of some imperfection. One of the small items of exponse was the 15 600 he gave Souss some imperfection. One of the small items of expense was the \$15,000 he gave Sousa for his-band during the evening. He made Lian de Pougy the most envied woman of her world by giving her the seat of honor. She at once became famous as the most beautiful woman in Paris. One of her poses is not to wear jewels. This evening she wore white with natural vio-lete.

evening she wore white with natural vio-lets. Otero, the dancer, wore the most sen-sational costume, which also became fa-mous throughout Europe in 24 hours. She wore a cloth of gold gown, without a wrinkle, and the sharply pointed tight-fitting bodice was made of diamonds and rubies on sold wire. She wore her double ropes of pearls around her waist and knot-ted over her hips, and her double ropes of emeralds around her neck. This 50,000 beauty dinner made Harry Thaw famous in Parls. He had already became famous in London where and Arthur Paget was his sponsor and be spent money as freely as he poured champagne on all that money loving set. Trom the continent Harry Thaw drifted to Washington where his mother was en-tertaining on an elaborate scale. Here he met the first rebuff of his career. The ex-clusive Metropolitan club requested his

met the first rebuff of his career. The ex-clusive Metropolitan club requested his sponsors to withdraw his name for mem-hership. But this didn't keep Harry Thaw from giving round after round of mosi costly dinners, chiefest among them a fun-citon for the British ambassador and wite lady Herbert. New York was next in this remarkable

every possible avenue that may throw any dight upon the motive for the transport of the transport of the motive for the transport of the transport of the social de bohemian under world of the metropolis. Scores of detectives are now delving into this subject in behalf of the prosecution and defence, and fresh developments are of almost hourity occurrence.
Among the many withessee examined at the district attorney's office were 'thos MoCaleb, a Californian, who was with the Thaws at dinner in the cafe Martin on the vening of the tragedy, and Truxton Beal, who was with Mr. White and his party in the restaurant at the same time.
Assistant district attorney Garvan said that McCaleb had accompanied Mrs. Thay from the Madison Square Garden after the shooting, and had escorted her to the bone of one of her friends. He also said that McCaleb had accompanied Mrs. Thay from the Madison Square Garden after the shooting, and had escorted her to the bone of one of her friends. He also said that McCaleb had nobserved during the shooting and afterwards on the roof gar.
Maccaleb had scorted her to for the transport of the tr

the cable told of his marriage to Everyn Neshit. Then Evelyn Neshit appeared on the 'scene. Her career had already been made before she met Thaw. Beginning to work for her living when 'she was 14 in the photograph studies of Philadelphia she sat one day for a photo. It was sent to the photographic exhibi-tion and made a hit. "Who is this beauty," people asked. A New York painter hunted her up and soon she became noted as a model in the studies of such men as Christy, Church, Ervin, Wiles, and Wells Champney, all because one picture had made her famous. Theatrical managers persuaded her to lend her much heraided beauty to comic opera. She left the studio and went into the chorus. Here the world had a chance to see how beautiful she was. Harry Thaw, the Pittsburg multi-millionaire, an eccentric spender of money saw this faseccentric spender of money saw this fas cinating chorus girl in his native city and fell in love with her.

MAPLE LEAF COPPER ORE

MAPLE LEAF COPPER ORE. (Special to The Daily News) Grand Forks, June 29.-Word has reached here today from Franklin camp that four open cuts, each about 15 feet long and six feet wide, have been run on the Maple Leaf property, and each of these cuts is in ore assaying from 5 to 20 per cent in copper. A. E. Smith, M.E., of this place, who has had a long experience in mining in Australia and South Africa, says that the Maple Leaf far exceeds any other ores yet seen by far exceeds any other ores yet seen by him in copper values.

Grand Forks, June 29.—There were more passengers for Franklin camp yes-terday than could be conveyed by two big three seated stage coaches, and the remaining passengers were compelled to take private rigs. The increase in travel up the North Fork is weekly grow-ing and it is expected that it will be in a most congested state in another month's time... The hotels scattered between Grand Forks and Franklin Camp are all taxed to their utmost capacity iodate the travelling throngs.

THE WEEKLY NEWS, NELSON, B. C. SATURDAY, JUNE 30, 1906

WEEK'S ORE SHIPMEN

Improved Conditions **Mining Throughout** Kootenavs

Past Week Saw Several Important Consummated That Will Make For creased Ore Output in Future

The pleasing announcement that Last Chance mine near Sandon, again be operated extensively, th cellent report of progress at the mine, combined with continuous creasing activity in the Boundar trict, piofit making in Rossland, unusually heavy ore shipment fr St. Eugene mine, make up the features of the past week in Ko mining circles. The fear that reorganization

chance mine, has been dispelled by the Chance mine, has been dispended by the com-menced during the first week of next month. The liquidator will obtain the court's permission this week to proceed with the development of the property forthwith, ample funds are in the treas-menced the directors state that a cam-22 forthwith, ample funds are in the treas-ury and the directors state that a cam-paign of systematic development will be continuously carried on after work starts up. Shipments will be made from time to time but the development of the mine is the chief matter to be taken up at fact. Some 95 mean will be angaged as first. Some 25 men will be engaged as Ymir fast as places can be secured for them. The mine was closed down in December last pending liquidation and reorganiza-tion, and the immediate restarting up of work means much for Sandon.

Manager Hand of the Ymir mine has of the given a very favorable report outlook at this famous property. Since June 6 thirty stamps have been drop-ping at the mill with good results, and 40 stamps could be used if men could be obtained. At present the daily output of the mill is 90 tons, or 630 tons a week, and this will be increased next month if labor can be got. The manager, while reticent, is evidently well pleased with the way the mine is showing up in the new work, and generally the indications from the property all point one way. The Boundary district continues to be the scene of ever increasing activity. the scene of ever increasing activity, properties of known great value con-tinue to pass into the hands of people with plenty of capital, who at once set about making arrangements to develop their new holdings, and at the Granby mines and smelter extension and en-largement remain the order of the day. All through the district progress, in mining and in smelting facilities, con-tinues at a rate that is astonishing. The B. C. Copper company has taken up its option on the well known Denora Mines, Ltd., holdings, anticipating the time when the bond given fell due. Preparations are being made to still further develop the newly acquired property. The purchase by the Consolidated M. Co., of Trail, Rossland and Moyle, of the Snowshoe mine, just announced will be read with interest by all mining

indicative of the good progress being made at this East Kootenay property. Rossland mines are all doing well and the profits made at the Le Roi, Centre Star and Le Roi No. 2 are stated to run from \$30,000 to \$50,000 for last month, and promise even better for June. The week's output from the mines,

The week's output from the mines, and the receipts at the several smelters are appended in detail. They call for no special mention this week, but allow-ing for the temporary close down of the B. C. Copper company's smelter at Greenwood, they are well up to the good

MARYSVILLE SMELTER MARYSVILLE, B. C. Sullivan 500 12,420 The total receipts reported from the

It is the intention of the management to close down the works for two days for erations recommence, No. 2 furnace will be enlarged to the same capacity as No. 1 The work will probably be accomplished in 15 days. This will be followed by the enlargement of the other small furnaces as rapidly as possible. The increased fur-nace capacity necessitates more blast, and two new Jumbo blowers of the No. 10 type will be installed. They will be placed in a blower room which will be built on to the converter blower building, the founda-tions being almost ready now. Four new placed in commission. To meet the addi-tional appetite of the furnaces three new electric motors have been ordered for the charge cars, also a new duplex pump with repairs, probably July 2 and 3. When op-erations recommence, No. 2 furnace will

values in precious metals, and some recent finds have exceeded the most sanguine One of the finest specimens of silver ore

ever exhibited in Greenwood was brought n from the Duncan mine, West Fork. It In from the Duncan mine, west Fork. If is about the size of a cup, with one side thickly covered with silver resembling silver wire. The specimen is very rich and would run hundreds of dollars to the ton. ican is one of the high grade silver-The Duncan is one of the hig lead mines of Wallace mon tain, and i owned almost exclusively by local parties. Among others interested are Hon, W. S. Fielding, Kenneth Mackenzie, S. E. Belt,

B. Snyder, L. E. Rolley, Alf. Lind, Dun-can Currie and Thomas Henderson. The specimen was secured from the winze in the drift some 70 feet from the ledge from which it was taksurface. The en is some 23 inches wide and has run \$263.64 per ton. The drift is in some 75 feet along the line between the Duncan and the along the line between the Dintan and Bounty fraction, now under bond to the owners of the Duncan. The winze is being sunk at a point some 50 feet from the uth of the drift, and another drift will soon be started lower down the hill to give greater depth.

The ore is a mixture of quartz, galena, inc blend, iron pyrites, with native sliver. A staff of five men has been engaged continuously on development for over a year, and the lead has been tapped at various points by open cuts and shafts for over 1500 feet and shows good values throughout. The assays were all taken from the ordinary samples of ore and th vest ran \$75 per ton, and the average much higher, while the ore now being pro-duced will run over \$263 per ton. Considerable ore has been mined and a shipment will be made early in July. It is the intention of the owners to fully develop the property, and with the advent of the railway up the North Fork the value of the mine will be greatly enhanced.

AT THE MOTHER LODE

Greenwood, June 23-At the Mother Lode the work of development is going ahead with remarkable vigor. The four compartnent shaft has been sunk to the 460 foot level, and work on the 400 foot level and station and pocket will be commenced

10,118 55,805 n the bunk house for 60 men will soon be under construction as well as seven new cottages for married men. The houses are being designed and located with a view to providing the workmen with comfortable and omelike residences.

ROSSLAND PROFITS Le Roi, Centre Star and Le Roi No. 2 All Making Good Money.

Rossland, June 23.-The profits of the Le Roi for the month of May reached the very respectable sum of \$50,000. This mine has made a profit of from

536 \$30,000 to \$50,000 for every month of the present year and a good sized sum must now lie in the treasury, awaiting the time when the directors will declare dividend The Centre Star, although it does not publish monthly statements, is making similar profits, and these will be made

manifest to the stockholders of the Con-solidated Mining & Smelting company, in the quarterly dividends which that company is distributing among its shareholders.

The Le Roi No. 2 is making larger profits than ever before in its history which will also appear shortly in divi dends.

minutes play scored through Banns. Af-ter this Frank played better and had the play in Coal Creek territory for a time but failed to score. Coal Creek came on again and forced Frank back on their own goal lines, Murray scoring the second goal. The game was slow all over, and in favor of Coal Creek, who scored a third goal thus leading by 3 goals after 20 minute play. Frank had a breakaway after thi and Morris succeeded in scoring their first goal. Play continued until half time with neither side scoring again. The second half, like the first, opene quietly and play was very tame. Coal Creek was inclined to take things easy, but Frank was unable to take advantage of any slackness on their part. Play fairly even for a time but towards the end Coal Creek asserted themselves and D. Linton scored the fourth goal. This was all the scoring and the game ended with a win for Coal Creek by 4-1.

GREAT FLOCK OF EAGLES (Special to The Daily News)

Fernie, June 26.-Fernie will be ed with Eagles next week. The great celebration on Tuesday and Wednes-day, July 3rd and 4th, under the auspices of the local Aerie is attracting widespread interest and the attendance from all parts of the interior promises to be very large. A special feature of the celebration will be the election of a queen, to whom will be presented a valuable diamond ring and a purse of gold. A beautifully mounted eagle is to be presented to the outside aerie having the largest number of members present. The Eagles know how to enter-tain and the Fernie brethren mean to show the visitors that they have been well trained.

Latest Important Mining Deal Reported in the **Boundary District** Formerly One of Big Shipping Properties of Phoenix Camp Has Been Closed Down for Past Three Years (Special to The Daily News) Phoenix, June 23.-Another important deal for a group of prominent Phoenix camp mines is reported here as being about to be completed, the details having already been arranged. The group is juestion is the Snowshoe, owned by the snowshoe Gold and Copper Mines, Ltd.,

SNOWSHOE

Snowshoe Gold and Copper Mines, Ltd., a London corporation, and the apparent-ly authentic report is that the group has been sold to the C. P. R. This pro-bably means that it will be taken over by the C. P. R.'s mining company, the Consolidated Mining & Smelting Co., of Canada, Ltd., owning and operating the Centre Star, War Eagle and St. Eugene mines and the Trail smelter, and that in due course the Snowshoe ores will be Sandon, June 25.—A fire started in rchie McDonald's house on Cody av-if the long haul of some 125 miles is

a 29.697 tons and for the year to date, 802. 212 tons. AT THE GRANBY SMELTER Grand Forks, June 23-Negotiations have been quietly going on during the past few weeks between the Granby company and the men in connection with the request of hour day. Definite arrangements were

adjoin the Granby and Dominion Cop-per Co. mines, now being extensively operated in that locality.

OF INTEREST TO MINERS

Tin is the subject of the article in the more prominent metals group which we publish today. It is a subject that is of great interest to a number of people in British Columbia, if we take into ac-count the number of requests we have had for an article upon the subject, and will be read with interest by all mining men who have watched closely the turn of events in connection with the pro-perty. It is stated that shipments will shortly be commenced from the Snow-bie to the Trail smelter. Extensive development is being done on the Mother Lode property and the enlargement of the company's smeltak at Greenwood is being pushed rapidit along meanwhile. From Greenwood, also, comes the reported finding of very rich mineral specimens. During the week the St. Eugene ship ped 1,264 tons to the Trail smelter, During the week the St. Eugene ship med tat this East Kootemay property. The Daily News is unable to state. Should any of our readers have any mineral that they have reason to be lieve answers the description given this article, send it in and it will i carefully examined, and results publishe in the correspondence column.

TIN

Though widely distributed geographi cally, commercial supplies of tin are ob-tained from restricted areas. From the remotest of times tin has been produced in Cornwall, England. H. H. Harris, an authority upon tin ores in a recent article in one of the London papers, states "that the tin used in the days of Moses (for which there is a Hebrew word) came without doubt from Corn wall.

From this it will be gathered that be fore Great Britain was known of in the world's history tin was certainly duced there. We have data for the that prior to Julius Ceasar the Phoenicians traded with the natives of Corn wall exchanging "brilliant Tyrian dyed "stuffs" for their tin. In the days we mention tin was one of the most ex pensive luxuries being rarely seen any-where excepting in king's houses. In Cornwall, especially amongst the miners, superstition is prevalent. The old time miners, as well as many of those of the present day, say that they have heard the "nuggies"—supernatural be-ings who are supposed to form the crystals in the bowels of the earth-wor ing in their parlors. Whatever value may be attached to this superstition tinkling sounds are most welcome to th miners working in the Cornish mines as they usually indicate that rich depos-

has strengthened—things are beginning to boom again, and "Cousin Jack" as the Cornish miner is called all over the Whitewater and Whitewater Deep at Whitewater, "All these are looking well. Some have world, is beginning to smile again The price of tin on the London market

replied:

its of tin ore are to be found in a nearby cavity or "parlor." During the last half century mining operations in Cornwall have deteriorate greatly, but within the last year or so things have brightened up, the market

is somewhere in the neighborhood of £170, or a little over two cents an ounce, and it is continually raising owing to the constant and increasing demand for it. Practically speaking all the world's supply of the comes from the Cornish mines, Australia, the Malay peninsula, and the Island of Banca. The Cornish mines already mentioned. In Australia it is found in New South Wales, the deposite sectending over an area of \$500 the constant and increasing demand for it. Practically speaking all the world's supply of tin comes from the Cornish mines, Australia, the Malay peninsula, and the Island of Banca. The Cornish mines already mentioned. In Australia it is found in New South Wales, the deposits extending over an area of 8500 square miles; it is also found in Queens-land and Victoria. The greatest produc-ing mines at the present time are in the Malay states, though the quality of tin produced there is not equal to the Cornish. The obtained from this district is known on the market as "Straits th.". This metal has been found in several places in America but not in sufficient quantities to make it pay working ex-penses. The chief finds in the states being in California at the Cajolco mine, where some 6000 tons of ore were taken out a few years ago running about 2 per cent in tin. At the Harney Peak mines in South Dakota tin was stated to be found in great quantities, but after expending great quantities, but after expending great quantities of money on the mines they were closed down after

Cassiterite usually occurs in veins traversing granite gneiss, mica schists or porphyry; also in finely reticulated veins forming the ore deposits, or simply impregnating the enclosing rocks. The commonly associated minerals are quarts, wolframite, scheelite, pyrite, stc. STANNNITE, the sulphide of tin, is a steel gray colored mineral containing about 27.5 per cent tin, and about 30 per cent copper. It is a mineral that per cent copper. It is a mineral that is rarely found, and has no part in the production of the tin of commerce. CORRESPONDENCE.

T. McD., Greenwood, B. C .- The black mineral you submit for examination is obsidium or volcanic glass. It is very common in countries or districts which owe their origin to volcanic action. Great quantities are found in the south-ern states and in Italy. It has no com-mercial value

G. B.—No. 1 is graphitic schist, no value. No. 2 is apparently celestite or suphate of strontium. We would advise your having this analyzed if you have

any quantity of it. E. R., Grand Forks.—To make your lo-cation valid, you must discover ore in place. You will then put a "discovery" or legal post as near as possible to the point of discovery. Besides this you are obliged by law to place two other posts, No. 1 and No. 2. These you will place along the outcrop of the vein as near as you can indge. They must not be more any quantity of it. you can judge. They must not be more than 1500 feet part. Your No. 1 post must have written or cut on it "Initial Post," then state the direction of your No. 2 post, and the distance on each side of the discovery post. You will then blaze the trees in a line to your No. 2 post so that the direction can be plain-ly seen. Your No. 1 post is the most investment as it is from there that the important as it is from there that the surveyor commences and if necessary he will move you No. 2 post in, that is if you have gone over the 1500 feet allow-

BETTER THAN MINING STOCKS

cheme for Working Slocan Silver-Lead Properties on Leasing System George Huston, editor of the Sandon Min-ing Standard, and an earnest advocate of the leasing system, was in town yesterday. Asked as to the mining outlook in his locality, and as to whether or not there were signs of improvement, Mr. Huston

replied: 'On the whole, yes, and especially so In this particular. The old, early day pro-ducers which were big paying propositions and were guited and closed down for years, are being taken in hand by prac-tical lessees and are showing convincingly that the ore shoots of the Slocan are per-manent. For instance, the Standard, the Vancouver, the Wakefield at Silverton; the Bosun at New Denver; the Idaho at Alamo; the R. E. Lee at Sandon; the Whitewater and Whitewater Deep at

a large tonnage in sight. The present de-

be found in great quantities, but after expending great quantities of money on the mines they were closed down after producing about 10 tons of pig tin; the ore from which this was obtained aver-aging about 1.3 per cent tin. It has also been found in Montang and Idabo. As far as British Columbia is concern-ed it has several times been reported to have been found but upon examination of the properties it was proved to be producing about 10 tons of pig tin; the ore now a certain amount of develop- the average lessee has fallen down. Most also been found in Montana and Idaho. As far as British Columbia is concerned it has several times been reported to have been found but upon examination of the properties it was proved to be incorrect.
 There are practically only two known ores of tin the oxide from which all the metal of commerce is obtained, and a sulphide which is very rare. Tin has also been found to exist in combination with some of the rarer metals, but we do not propose to go into those in this article.
 CASSITERITE is the oxide of tin and occurs in three different forms; the or dinary or "tin stone" is found either in crystals or massive; this is the ore that are the utmost effort to development. This point the work and a certain amount of development of the severage lessee has fallen down. Most of the severage lessee has fallen down. Most of the average lessee has fallen down. Most of the severage lessee has fallen down. Most of the average lessee has fallen down. Most of the most be done. This point is where the average lessee has fallen down. Most of the most be done, arb his little capital is expended. There is nothing for ontinuous work. Right here is the small investor's chance. Several of such could go together, putting lessee. Such a pool would back the efforts of west Kootenay District. Where loss of the capital is specificate no. B 2238, his free different forms; the or that are the sum of the above obtaining Crown Grants of the above obtained in this article.
 CASSITERITE is the oxide of tin and cord usually in 'lode' mining; 'wood tin' is another form of this mineral

Sandon, June 25.— A free started to the Trail succession of the succession

Later on Tram Will be Repaired and in Stamp Mill Started

Stamp Mill Started Stamp Mill Started Judge Curits, secretary of the Camborne Mining company, was here in the early part of the week completing arrangements for the resumption of work on the Gold-finch, says the Camborne Miner. Mr. Cur-tils states that his company has ample funds at its disposal for operating the property and that work will be confined strictly to mining until the ore producing capacity of the property has been thor-oughly demonstrated. When that stage is reached the tram will be repaired and the stamp mill once again started on its profitable occupation. The contract for the erection of the buildings at the Goldmach which were destroyed by fire two years ago, has been awarded to J. Marshall. M. Murphy, W. Johnson and W. Duffy, who hare, started reconstruction. The cobins, etc., will be built of logs and will be large enough to accommodate a big force of men. Mr. Leigh, the superinten-dent of the company, is examining the surface of the property before making his plans for future operations.

MINING RECORDS.

MINING RECORDS. At the mining recorder's office on the 26th June 15 certificates of work were issued and four locations and three transfers were recorded. Certificates of work were issued to Joseph Chipman on the Last Quarter, to H. R. Cody on the St. Anthony, to S. A. Hunter on the Mayflower and Hillside, to the Active Gold Mining Co. on Magly, to John Mc-Bvoy on the Second Chance, and June, to Steve Hawkins on the Goodenough, and to H. M. Billings on the Mother Lode, Independence, Golden West, Do-minion, Comstock, Virginia, and Eldo-trado. rado.

M. C. Monaghan recorded the location M. C. Monaghan recorded the location of the Tagham three miles west of Nel-son, about one and a half miles north of Kootenay river. John McGarvey re-corded the Moose, nine miles west of Nelson and about two miles north of Kootenay river. CITY COUNCIL MEEEING for a junior counsel fee to go to the eity. The senior counsel had not been definitely POWER COMPANY'S APPEAL TO THE

PRIVY COUNCIL

SCHOOL ACCOMMODATION FOR BU BURBAN RESIDENTS

(From Tuesday's Daily) The 12th meeting of the city council this year was held last evening, the mayor presiding and all the aldermen being pres-

ent. A large amount of business was done and the council adjourned after an hour and a quarter's work, until July 9. The minutes of the last meeting were

read and approved. The mayor announced that the chief of the fire brigade had been notified that the new collars for the fire team which had been found too small, had been taken back by the Toronto firm who manufactured them and another pair had been supplie The mayor also explained the payme to special policemen who were put on at the time holdups were so prevalent some weeks ago and while the regular members of the force were doing special work. The finance committee's report, asking for the payment of sundry accounts to-

talling \$4159.51, was adopted and cheques were ordered to be issued. The streets and electric light payrolis, amounting to \$185.05 were ordered to

Ald. Irving thought the matter might be considered by the finance committee, and Ald. Annable seconded the motion. Ald. Selous-As a member of the finance committee, I object seriously to the proposition. It is quite unnecessary, the council should settle the matter. It is very well known that the finances of the city this year will not admit of our making a grant. If we give the army a grant all other bodies will be making requests. On a division Aid. Selous, Hume and Kirkpatrick voted against referring the unsuccessful. There was a beautiful

matter to the finance committee and Aid. Rose, Annable and Irving in favor. The Rose, Annable and from in poor declared it vote standing a tie, the mayor declared it carried. The council had to be polled before a decision was arrived at. The mayor said that E. Crow Baker evi the mayor said that h. closing the deal for the property on the water front, wanted for a park. His worship thought something should be done. The vendors insist

ed that a clause should be inserted in the deed providing if the land was ever diverted from park purposes by the city, ould be deeded back to the vendors at the price paid. The council thought the condition imposed was not a reasonable one, considering

the price asked, but it was generally agreed that the land was badly wanted for park purposes and probably would never be re-quired by the city for any other purpose. Ald. Selous-It is a one sided arrange-ment. They won't agree to take it back at the price we pay for it; they want the right to do so though if we don't use the land for park purposes. The mayor-The price asked is \$2800 flat.

It was finally decided to clean up to old tramway park for this summer, bid trainway para in the same and to let the other proposition stand. A letter was read from the city solicitor

stating that the W. K. P. & L. company had perfected its appeal to the privy coun-cil in the action against the city and that an amount he would be willing to accept for attending in London at the hearing, the amount to cover all his expenses and in the event of the city being successful be-fore the privy council, the amount successful beamount to cover all his expenses and in the event of the city being successful be-fore the privy council, the amount allowed more in the end than brilliancy which

tractor. From the evidence it appears that in the early part of September last Greer gave Manners an undated card or memclosed with yet, but would be shortly. The council agreed to the solicitor's proposiorandum, which set out, fairly, what amount of lumber had been received question of tearing down the ruins of the old Grandview hotel on Vernon street, was left with the mayor and fire chief. from him (Manners), to that date. The same document directed J. A. Harvey, Greer's solicitor, to pay Manners \$37.80

The question of school accor as "balance due for hauling." Under examination Greer swore pos-titively that the figures given on the card covered the 29,359 feet of lumber, the subject matter of the action, and The question of school accommodation for children whose parents lived outside the city limits, was then considered. Either a school will have to be built or permis-sion given to the children to attend the city schools. A petition to the government was put in asking for a school building or a grant to allow the children attending the card covered the 29,309 feet of funder the subject matter of the action, and adhered to that statement though asked to be cautious by the plaintiff's counsel. Greer also swore that the card was given by him to Manners in a grant to allow the children attending the public school. A. J. Hinde addressed the council briefly

on behalf of the petitioners to the government. The petitioners were very anxious that their children should be allowed to attend the city school. It would be quite mpossible for his children, for instan Aid. Selous favored a motion asking the government to make a grant to allow the children in question to attend the city school. If the government would not do this they would be forced to build a school house. Ald, Irving seconded the motion which carried.

Ald. Rose, seconded by Ald. Selous, got a motion passed instructing the city clerk to write the government asking what had become of the arrangement voted on and carried some years ago enlarging the city

AWARDED MEDALS.

DECISION IN COUNTY COURT CASE GREER VS. MANNERS.

(Special to The Daily News)

Cranbrook, June 25.-The closing exercises of the Cranbrook public schools held at the Wentworth hall proved quite a brilliant function. The hall was pack ed with the parents, cousins, sisters unsuccessful. There was a beautiful and touching unanimity amongst the parents of the children who had not distinguished themselves that each of their own bright, particular Clarences or Mamies were far and away smarter than those who got the prizes; while the proud parents, etc., of those who had proved their ability had medals of the good, red gold or of silver or some other visible token of their darlings supremacy. It was, in a word, entirely satisfactory all round.

There were no less than five gold nedals distributed. These were the W. H. Wilson medal for general proficiency H. Wilson medal for general productory awarded to Lewis Stewart; the silver medal going to Alex. McCallum. The J. A. Harvey gold medal for history followed the Wilson medal, being awarded also to Lewrs Stewart, who must be a very clever lad indeed. The W. T. Reid gold medal for regular attendance was won by Louise Rollins. The gold medal for an essay on "Can-ada's Place in the Empire." was won n a very close competition by Alex. McCallum; Ruth Harvey taking second place and the silver 'medal only a few marks behind. A special gold medal was awarded for the highest aggregate for the year's examinations. This prize went to Olga Wigen of Creston, the silver medal going to Della Drummond of Cranbrook.

COURT OF REVISION. wenty-Three Appeals Disposed of-Very Few assessments Reduced.

The municipal court of revision held its first session this year at the city hall yesterday morning. His worship mayor Gi lett presided and in addition there wer present aldermen Hume, Irving and An-nable. Out of the 23 appeals heard the great majority were confirmed, reductions being made in very few cases. All the appeals were based on the plea of over

valuation. The following appeals were dismissed and the assessment confirmed: P. Lund, G. O. Buchanan, James Robertson, W. J. Willison, S. S. Taylor, A. W. Stevenson, J. H. Forin, J. T. Pierre, L. E. Shields, Willison, S. S. Taylor, A. W. Stevenson, J. H. Forin, J. T. Pierre, L. E. Shields, Willison, S. S. Taylor, A. W. Stevenson, J. H. Forin, J. T. Pierre, L. E. Shields, Willison, S. S. Taylor, A. W. Stevenson, J. H. Forin, J. T. Pierre, L. E. Shields, W. H. Jones, Bruce White, Mary McCourt, F. P. Gutellus, John Elliot, H. Bird, Barn-de Mara, H. Colbeck. The following reductions were made: John South all seasons of the year and the fishing cannot be surpassed. The lake is for by guite a number of mountain streams to across the lake. be for Bird got a reduction of \$200 on two lots. The court has disposed of all matters brought before it, and adjourned sine die.

DIED OF BLOOD POISONING Phoenix Miner Had His Ankle Shattered

By Piece of Rock.

Sy Field of Rock. (Special to The Dally News) Phoenix, June 27.—A miner named Cole Garrabrant is dead at the Phoenix general hospitah. He was employed at the Granby mines. Thursday of last week he was at work in the No. 2 tun-nel, when a blast was set of in the rock of nel, when a blast was set off in one of which are still producing thousands of dollars every month. There are three cottage hotels in Silver-ton, the Victoria, the Thorborn and the Selkirk. These hotels have every contan-ience and the rates are view reasonable. The C.P.R. has a round trip rate of \$4.20 from Nelson to Silverton, and the trip up the lake on the steamer Slocan is well worth the price.

The streets and electric light payrons, amounting to \$185.68 were ordered to be paid.
A letter was read from H. & M. Bird, enclosing one from C.P.R. land commission the south of the city, in which the eiky wanted right of way for its water pipe line down Cotton wood creek had been sold, and arrangement was filed.
An application from the Salvation army for a special grant, particularly in relation failed women, was read.
It was uggested that the matter be referred to the finance committee but Add Selous suid the question should be settled at once. He did not think the army was entitled to any special recognition over and bits bould are settled at once. He did not think the army was entitled to any special recognition over and above any other religious body.
Aldermen Rose and Trving did not think the army was entitled to the try was financially in z position over manke.

SALE OF THE KIMBERLY

SLOCAN PROPERTY PURCHASEL BY NEW YORK SYNDICATE

MACHINERY AND PIPES FOR OTTAWA COMPRESSOR ARRIVE

(Special to The Daily News)

Slocan, June 29 .- The deal on the Kimberley, which has been pending for some time, has been consummated. The property was purchased by M. C. Demp-ster, for a New York syndicate. During the negotiations work on the claim has been suspended, but will, no doubt, be

resumed at once. Work is being done on the Mabou, a promising property adjoining the Spec-Tug of War, 3.30 p.m. promising property adjoining the Spec-ulator, and owned by R. I. Kirkwood. Gething and Henderson, are down from the Red Fox, which they have been working all winter, having shipped three carloads of fine ore. Messrs. Gething & Henderson will now devote their atten-tion to the Metson in which they are it. tion to the Meteor, in which they are in-

Jack Kinman, who also spent the winter at the Red Fox, is back in Slocan. Machinery and pipes for the Ottawa compressor have arrived and are being aken up to the mine.

anarmon A GOSSIP OF GRAND FORKS

Frake Bros. Branching out-Machine Dri at the Rawhide

At the Rawhide (Special to The Daffy News) Grand Forks, June 27-A. Blakeway and John Gimore, contractors, have received a contract for the immediate building of some extensive greenhouses at the Prake Bros', nursery, two miles west of Grand Forks. The contract includes two green-houses 32x140 feet, and one 16x140 feet, besides an addition to the old greenhouse direct feet. A carload of glass will be used on these works, which when completed will aggregate fully \$3000 in cost. Superintendent A. D. MoPhee of the McKinley mine, accompanied by A. B. Mackenzie of Rossland, secretary of the

company, left for the mine this morning There are now 15 men working on the Mc Kinlcy and good work is being done of

the machine drills. The management of the Rawhide pro-perty in Summit camp can now boast of having more machine drills in operation having more machine truth in the Boundary of equal development. There are now live modern machine drills all running concur-rently. The Rawhide is owned by the Dominion Copper company.

can win medals. In the first division Jean Bridgee of Crothers won first place, her sister Kathleen taking first place in the second division, David Reid, son of W. T. (Special to The Daily News) Phoenix, June 26.—Another important deal has just been concluded in this section, which this time means the operation of one of the most promising nines in the high grade belt of the Boundary on an extensive scale, opera-tions having already been started. Col-onel T. L. Dickason, of Chicago, pur-chased the half interest owned by Harry chased the half interest owned by Harry H. Shallenberger in the company owning the Crescent mine, located about half way between Phoenix and Greenwood. Colonel Dickason arrived in Phoenix last week, with his wife, two children and maid, initending to spend a month or two in British Columbia, and in the meantime looking after his mining inter-ests in this section. He has rented a house boat on Kootenay lake, and will house boat on Kootenay lake, and will spend part of the time on that craft. The Crescent was first worked by the The Crescent was first worked by the Greenwood Crescent Mining Company, in which Mr. Shallenberger had a num-ber of Spokane people associated with him. About a year ago he purchased the entire holdings of the Spokane peo-ple, who had done nothing towards de-veloping the property for several years, and sold a half interest to Colonel Dickason. Then development was taken Dickason. Then development was taken Dickason. Then development was taken up and vigorously prosecuted for sev-eral months, the mine steadily improv-ing as work proceeded. Good build-ings were erected and an electric hoist installed, some shipments of high-grade silver ore being made before the prop-erty was closed last winter. A corporation was formed called the Crescent Mines, Ltd., Mr. Shallenberger and Colonel Dickason being practically

and Colonel Dickason being practical the only swners of shares. The colone who is wealthy, has now purcha Shallenberger's half interest, at a price not made public, and given orders to proceed as fast as possible with devel-opment. W. H. Jeffrey, M. E., has been placed in charge of the property, and sent a crew of men to the Crescent tosent a crew of men to the Crescent to-day to pump out the shaft. As many men as may be needed will be employed and the force increased as fast as possi-blble, new machinery being installed as it is required. The Crescent has always been looked upon most favorably by mining men in this section, and it is now in a position where it will, in all probability give a good record for itbability give a good record for it
