Technical and Bibliographic Notes / Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Beer Drinking and Business.

Let us carefully summarize what has been said elsewhere in reference to the financial results to the country of moderate beer-drinking.

A workingman who drinks daily two glasses of beer at five cents each, will this way spend annually **THIRTY-SIX DOLLARS AND FIFTY CENTS.**

This represents about 45 gallons of beer.

This represents about 3½ bushels of barley.

For this barley the farmer gets less than **ONE DOLLAR AND FIFTY CENTS.**

The balance of the workingman's \$36.50 stays in the hands of the brewer and liquor seller. The workingman has swallowed his beer and has nothing of value to show for his money. He may have weaker nerves, a less clear brain and a dangerous appetite, but we leave these out of our calculations now, and say he has literally **NOTHING.**

Suppose that Prohibition became law, and the workingman did not spend this \$36.50 for beer, it would be available, and would be spent in **NEEDFUL** articles for his home. The bread, the butter, the cheese, the meat, the vegetables, the woollen clothes that it would purchase, are all directly or indirectly the produce of the farm. If we allow the manufacturers and dealers, in the articles 40 per cent of the selling price for profit, the farmer will still get \$21.90, and the traders have \$14.60. But it must be noticed that now the workingman has had something to show for his money. Food in his cupboard, clothing for his family to the full value of \$36.50. And it must not be imagined that the farmer has failed to sell his barley. He has **EXPORTED** it either in grain or changed to beef, or pork, and has received the \$1.50 for it all the same, but with this difference, that now the money to pay him has come into Canada from abroad, and the country has in it \$1.50 more than it would have if its workingman had drunk that barley in the shape of beer.

Let us put these calculations in the form of a comparative table showing what is the result of the spending of the workingman's \$36.50 in these different cases.

BEER DRINKING AND BUSINESS.

UNDER LICENSE.

The farmer gets for his barley.....	\$1 50
The farmer gets for other produce.....	0 00
The merchant and manufacturer get.....	0 00
The workingman has left.....	0 00
Total for farmer, trader and workingman.....	\$ 1 50
Balance for brewer and liquor seller.....	35 00
Total of money and value held by all.....	\$36 50

UNDER PROHIBITION.

The farmer gets for his barley.....	\$ 1 50
The farmer gets for other produce.....	21 90
The merchant and manufacturer get.....	14 60
The workingman has goods value for.....	36 50
Total for farmer, trader and workingman.....	\$74 50
Balance for brewer and liquor seller.....	0 00
Total of money and value held by all.....	74 50

Some one will be ready to ask, "Do not the brewer and liquor-dealers in the first case use this money in employing men and patronizing production?" The reply is, "Yes, but not nearly to the same extent and as do the farmer and the trader in the second case."

The great brewing and distilling interests of Canada are not only preventing the accumulation of wealth by the people, they are absorbing and locking up in their own possession the wealth that already exists.

The second case may be made even stronger.—The brewer and liquor seller will be driven under prohibition to engage in some better business, that will bless the country instead of cursing it. The wealth they produce and hold will not be represented by \$0.00, and the aggregate \$74.50 will be still further increased; but, in the first case, under the beer system, there can be no change in any of the items of \$0.00, as the outcome of the workingman's expenditure of \$36.50.

Which will you vote for, Business or Beer?
