

THE HERALD

Published every Wednesday. Subscription—\$1.00 a year, James McIsaac, Editor & Proprietor. Wednesday, November 23, 1898.

Wanted—200 subscribers to send to this office, one dollar each, by this day week. The first of the 200 to respond to this call will receive a prize.

Canada's exports fell off \$2,707,974 during the past four months, although the imports increased a million and a half of dollars. The customs tax alone increased a million and three quarters.

Advices from Cape Town say the Government opposition have practically settled upon the terms of a compromise and a bill for the redistribution of seats in the Assembly will be introduced which will be satisfactory to the progressives. The early resumption of the Premier's trip to Rhodes is generally regarded as probable.

The increase in the number of students at St. Dunstan's College has so overcrowded the institution as to necessitate more room. Hence it has been determined to add a new wing to the building. This wing will be eighty feet by forty, and it is intended to have it finished for the opening of the scholastic year 1899. Tenders will be called for in a short time. Success to old St. Dunstan's.

In consequence of the disagreeable weather and bad roads, the attendance at the market yesterday was not very large. The price of oats ranged from 31¢ to 32¢ a bushel, with a limited supply. Potatoes sold for 25 cents a bushel, the demand not being very great. Pork sold for 4 cents and 3/4 a pound, while some choice lots brought as high as five cents. The price of live pigs at the factory, was \$3.75 to \$4.00 a hundred.

Washington intelligence intimates that the Anglo-American commissioners expressed the hope on the 19th, that the commission would complete its labors before the Christmas holidays; but they are not yet willing to state that a treaty will be framed covering the many subjects of difference between the United States and Canada. Reciprocity and the Atlantic fisheries continue to be the most stubborn questions before the Commission.

At Cayuga, Ont., on Friday last the protest against the return of Holmes, Liberal member of the Legislature, came up for hearing before Justice MacMahon and Oler. In consequence of an agreement between the opposing parties, no evidence was given and the case was dismissed. The order declaring the political saw-off a disgrace and said he intended reporting the matter to the Speaker of the House.

Ottawa advices of yesterday announce that the writ for election in West Lambton, and North Simcoe, Ont., and East Prince in this Province have been issued. Nominations will be held on December 7th; polling on the 14th. So far as East Prince is concerned, it cannot be said that very much time has been allowed to elapse between the vacating of the constituency and the bringing on of the election. Our Conservative friends in that riding, if they intend to contest the district, should be up and doing. No time should be lost.

The October report of the chartered banks of the Dominion shows that, on the 31st day of October, the amount due by Provincial Government to the Merchants' Bank of Prince Edward Island was \$55,941. On the same date the amount due the Merchants' Bank of Halifax by Provincial Government was 109,680, and the amount due the Bank of Nova Scotia by the same debtors was \$57,950. As both these last named banks have branches in this city, it is quite possible no considerable portion of these respective amounts was due by the Government of P. E. Island. It will thus be seen that the work of keeping up the debt against our Province appears to be going gloriously on under the Grit Government.

Thousands of people witnessed the launch of the battleship Formidable at Portsmouth England, on Thursday last. She is said to be the largest warship in the world. She is of 15,000 tons displacement; 400 feet long, has 75 feet beam and draws 26 feet 9 inches of water. She cost over \$1,000,000 and is estimated to steam 18 knots. The champion of the exchequer, Sir Michael Hicks-Beach; the first lord of the admiralty, George J. Goschen, and Admiral Sir Michael Culme Seydmour, were among those present.

The armament of the Formidable consists of four 12-inch guns, twelve 6-inch quick firing guns, eighteen 12-pounders, twelve 8-pounders, and eight Maxim guns. She carries 900 tons of coal in her bunkers and will have a complement of 750 men. Her 12-inch guns are in hooded barbettes, and she is driven by two propellers. The Formidable is to have 15,000 indicated horsepower.

EVERY reference to the celebrated Dreyfus case seems to create a storm among the members of the French Chamber of Deputies in Paris. This was exemplified on Friday last, we are told, when M. Lasiere interpellated the recent ministerial Government measures to maintain the inviolability of the contents of the package of secret documents in the Dreyfus case, which are understood to affect the national defence. The premier, M. Dupuy, recalled the recent ministerial statement on the subject, adding that the chamber could depend upon the vigilance of the government in the matter under debate, which he moved be adjourned for a month amid loud applause and protests from the extreme left. M. Lasiere vehemently attacked the government and the magistracy, which called forth indignant protests from the majority of the house. He accused the government of failure to enforce respect for national honor, but amid a great tumult M. Dupuy's motion was adopted.

REFERRING to the building projected from the Sultan, by the German Emperor, the Gasket in its last issue says:—The building in Jerusalem which the Emperor William procured from the Sultan and presented to his Catholic subjects, and which the despatches spoke of as "the abode of the Blessed Virgin," is rather the place in which the Blessed Virgin died. It immediately adjoins the "cenochoe" or "upper chamber," the scene of the Last Supper, and forms one building with the latter. In the "Life of the Virgin" by Gsini we are told that Mary quitted Jerusalem with St. John on the breaking out of a terrible pestilence there 44 A. D. They abode in Ephesus for some years, but the Blessed Mother, apprised that her end was near, besought the Beloved Disciple to bring her back to die in Jerusalem, which he did. The place of her passing, which has now come once more into the hands of Christians, is known in French as La Dormition, which signifies the falling asleep, of the Virgin.

MONTREAL intelligence of the 18th, intimates that the revolt of the old time Liberals of that city against the Tarte wing of the party now in power at Ottawa had reached a very acute stage. In the mid Geoffrey, Mr. Beauchamp, M. P. made an attack on the administration, and wound up by moving the following resolution, which was passed by the club: "The club Geoffrey, in regular meeting assembled, regrets the attitude of the Minister of Finance, as being a traitor to the liberal party, and the members of this club bind themselves together to fight him for the greatest good of the liberal party." It must be admitted that this is a strong protest against Mr. Tarte and the "Master of the Administration" evidently appreciated the force of the indictment against him; for he lost no time in silencing Mr. Beauchamp. A despatch dated the 19th, brought the intelligence that Mr. Beauchamp had been appointed Police Magistrate of Montreal in place of Dugas, recently appointed Judge in the Yukon district. Mr. Tarte perfectly understands the manner of argument that will silence this class of speakers. Office and emolument never fails in such cases, and these "old Liberals" seem to understand how to bring down the coon every time.

A PARIS despatch of Monday says that the Spanish peace commissioners had been notified that the United States commissioners would be ready to treat with them in joint session Monday afternoon. The American commissioners were to make a clear declaration that the United States will possess the Philippines, and will lay before the Spaniards two alternatives: First, to accept \$40,000,000 and to cede and evacuate the Philippines. Second, lose the Philippines to the United States by conquest with the possibility of other territorial losses to indemnify the United States for the added expense of conquest. A despatch of yesterday says the Spanish and American peace commissioners met in joint session on Monday afternoon. The American declaration that the United States must have the entire Philippine Archipelago and for a treaty session of the Islands the American tender to Spain \$20,000,000. They further declared that it is the purpose of the United States to maintain the Philippine Islands as an open door to the world's commerce. On these terms the United States propose mutual relinquishment of all claims for indemnity national or personal, subject to the outbreak of the late Cuban insurrection. November 23rd, fixed as the date on which the United States commission desires a definite response to Monday's proposition and all other subjects in issue. It is also reported that the United States makes certain demands relative to the Caroline Islands.

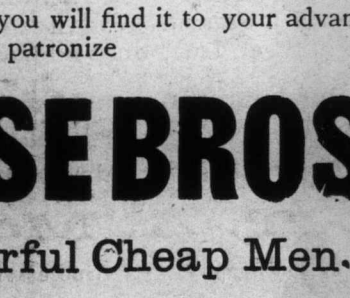

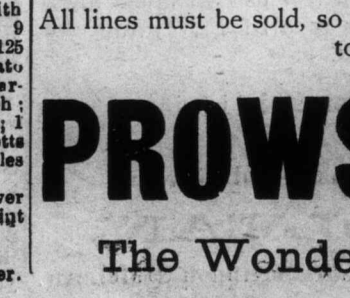

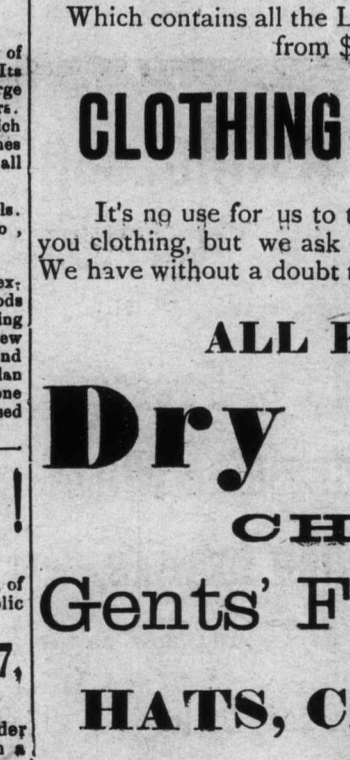

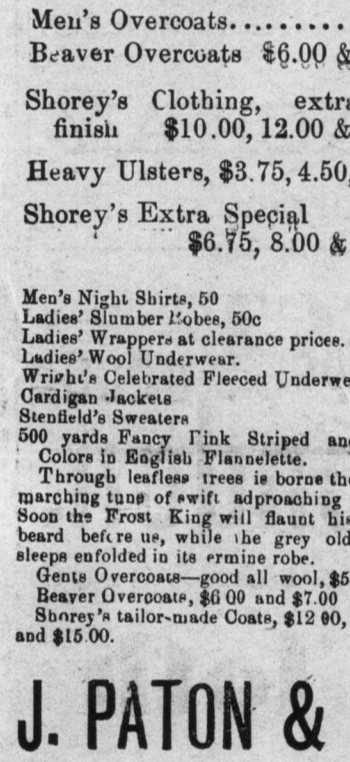

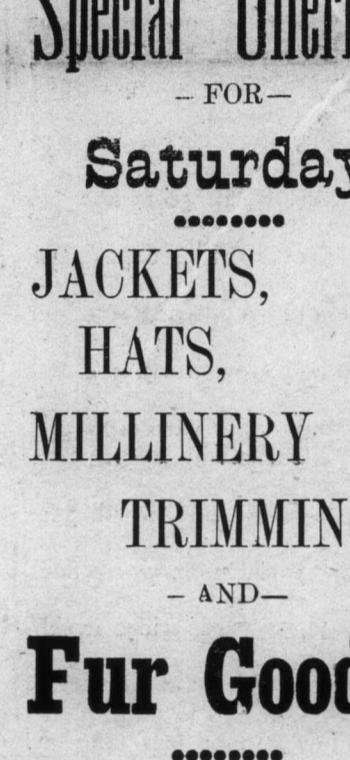

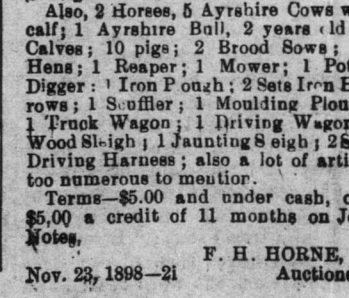

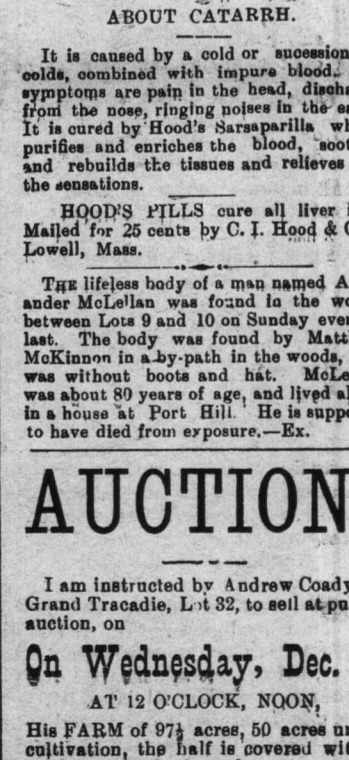

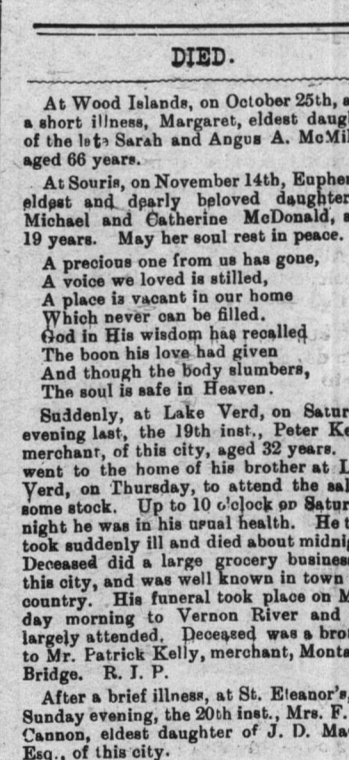

INTELLIGENCE of yesterday's date stated that the weather in parts of Kansas and Nebraska, was terrifically cold, the thermometer falling to 8 below zero. From five to ten inches of snow had fallen and blinding storms were raging.

THREE men engaged in the sewer excavations on Water street, near the Hotel Devon had a painful escape yesterday. They were about 15 feet below the surface when a large mass of earth caved in on them. Two of them escaped; but the third, Lepore, from Boston, was caught under a great weight of stones and earth. He was buried alive but his fellow workers shovelled the debris off the poor fellow and he was rescued more dead than alive. He was badly bruised but not fatally.

The London Chronicle referring to Great Britain's action during the late war between the United States and Spain, says it is rather a disquieting fact that so soon as the American authority established in Porto Rico than a medicinal navigation law is passed, killing at a single stroke an important Canadian shipping trade with that island.

GOOD GOODS, WELL ADVERTISED. Going the rounds of the press is an item stating that the Royal Baking Powder Company is the largest advertiser in America. Of course, the business itself must be an enormous one to justify so great an expenditure in publicity. There is no salley more dangerous than that which is gained by advertising an article of indifferent merit. But, given an article of the highest quality like Royal Baking Powder, which the housekeeper has once used she finds it she desires the best both the quality and price. Then the great measure of success is attained by keeping it continually before the public. Great merit and good advertising are both essential to make a product a great success. The Royal Baking Powder possessing the first, its proprietors have wisely used the second, and the result is apparent throughout the land. The Royal company leaves their advertisements in newspapers, since in these enlightening days everybody reads them.

NEWS OF THE WEEK. The cost of Ottawa's new Central station is estimated at about one hundred and thirty thousand dollars. Ottawa reports say that Mulock will be knighted on Christmas day, when the new imperial title goes into effect. The first shipment of Canadian cotton to America is being made by the Montmorency cotton mills on steamship Ashantee. A new Anglo-German Treaty of Commerce is about to be negotiated for Germany hopes Canada may abandon her preferential tariff in favor of Britain. Commander Wakeham, who spent most of the summer on the coast of Labrador, reports a very good fishing season, but little real poverty amongst the settlers. The steamer Guildhall, consigned to Toronto & Co., Montreal, is overdue. She has not been heard of since October 21st, when she sailed from Antwerp, Belgium, for Montreal. The lawsuit of Professor Hesse, who is suing the St. John Street Car Company for the loss of his foot comes up in the Circuit court this week. Mr. A. N. McNeil, a Prince Edward Islander, assistant Secretary of the Indian Department, Ottawa, died on Wednesday last. He had formerly served in the Royal Navy. Robert Spinner, aged about 30, whilst jumping from a C. P. R. freight train from Toronto, on which he was stealing a ride, slipped and had his right foot run over resulting amputation. A London despatch says there is no confirmation of the report that the steamer Ville de Collyer of the North German Lloyd's line foundered at sea with all on board. No anxiety is felt by her owners. The enrollment of a battalion of Chinese soldiers to the British colors at Wei-Hai-Wei has been ordered by the Marquis of Lansdowne. This recently acquired British naval station is on the north coast of the Shan Lung promontory. A Washington despatch of the 18th, says at least ten regiments of the regular army have been ordered to hold themselves in readiness for immediate transportation and service in tropical climates. Most of these regulars are at Northern and Western posts recuperating after the Cuban campaign. An explosion occurred on Sunday last in the Cafe du Chapepey, Paris, by which one woman was killed and a number of others received injuries. There are rumors of an anarchist plot in connection with the accident but public opinion is that the explosion was caused by ignited gas. In a speech on general politics at Plymouth, Lord Lansdowne, Secretary of State for War, expressed great pleasure concerning the Anglo-American friendship. He referred to the proposed substitution of a new type of guns to be used in the home defense to which he thinks the people will have no objection. The Steamship Caspasia will sail from Liverpool on December 3rd, and from Milford Haven on the 7th, carrying passengers and cargo for Liverpool, Quebec, Sheik and St. John's, and also to the Galicia, Her tonnage is 2,408. She was built in 1873 for the Pacific Steam Navigation Company. About a month ago fifty thousand dollars were reported missing at the Boston National Bank Commerce At the same time one of the employees, Fred Moore, of that city, had also disappeared. The American detectives have since been working up the case, and thinking he is hidden in Montreal, have set the detectives of that place on the trail. Two fatal railway accidents occurred in the United States during the week. The Missouri Pacific train from Denver, six miles north, was wrecked, and between eight and eleven persons lost their lives. Also on the Pennsylvania railroad, between Jersey City and Harrison, a delayed suburban train fell into a group of workmen belonging to Jersey City, killing eleven and injuring four. The latter accident was caused by the prevalence of smoke, steam and fog. The Ottawa department of Marine and Fisheries has been informed that Captain Cox, the sealers representative and Captain Taylor, of Wolfville, Nova Scotia, are coming east. These men had been sent to the Pacific coast to value the sealing which the United States wish to purchase. The sealers were dissatisfied with Captain Taylor, of San Francisco, U. S. valuator. Captain Cox is being sent to Washington to watch developments that may arise before the international commission. On Friday last Paul Kingley, aged sixty-nine, hired with George Fitzpatrick, was burned to death at the latter's house, near the Hotel Devon road, five miles from St. John, N.B. Fire had broken out in the house, which was occupied by Fitzpatrick, his grandchild, two old ladies and the deceased. Fitzpatrick jumped out a window, re-entered the house and took out one of the old women. The other one and child had made their escape. He then returned for Kingley, but failed to find him as he had left his own room and gone to another.

Talk is Cheap, But Quality and Low Price Tell the Tale.

100 cents worth of good honest value for every dollar's worth you buy from us.

Mark Wright & Co., Ltd. THE HOME MAKERS.

DIED.

At Wood Islands, on October 25th, after a short illness, Margaret, eldest daughter of the late Sarah and Angus A. McMillan, aged 66 years.

Suddenly, at Lake View, on Saturday evening last, the 19th inst., Peter Kelly, merchant of this city, aged 32 years. He was the son of his father at Lake View, on Thursday, to attend the sale of some stock. Up to 10 o'clock on Saturday night he was in his great health. He then suddenly fell ill and died about midnight. Deceased did a large grocery business in this city, and was well known in town and country. His funeral took place on Monday last attended. Deceased was a brother to Mr. Patrick Kelly, merchant, Montague Street, St. J. P.

After a brief illness, at St. Eleanors, on Sunday evening, the 20th inst., Mrs. F. W. Cannon, eldest daughter of J. D. McCann, Esq., of this city.

ABOUT CATARRH. It is caused by a cold or succession of colds, combined with impure blood. Its symptoms are pain in the head, discharge from the nose, ringing noises in the ears. It is cured by Dr. Williams' Pink Pills which purifies and enriches the blood, soothes and rebuilds the tissues and relieves all the symptoms.

ROOFS' PILLS cure all liver ills. Mailed for 25 cents by C. I. Hoop & Co., Lowell, Mass.

CALL and see those nice Dinner and Tea Sets that are now offered so cheap at the new blue store.—W. P. Colwill. 41

An L. C. R. foreman, Paul B. White, fell dead while getting an engine on the track at Point du Chêne on Thursday last.

It has been announced by the Temps that more lenient prison treatment is to be accorded Captain Albert Dreyfus.

ANOTHER new lot of Crochery, China, and Glassware just received at the Cheap Crochery Store.—W. P. Colwill. 41

ALTHOUGH the date of the bye-elections has not yet been decided, Hon. Mr. Scott stated they will take place before Christmas.

On Monday morning N. Balmington received a cable despatch announcing the safe arrival at Liverpool of the steamship Lake Winnipeg.

We want every person in want of nice crochery to give us a call. We are now, quarters for Cheap Crochery and Glassware.—W. P. Colwill.—Nov 23 41

The water pipes in Boston are swarmed with eels. When small they pass through the strainers and completely clog up the pipes when full grown.

The order-in-council lately passed which increased the size of lobsters to be taken from 8 1/2 to 10 1/2 inches until the year 1900 has been suspended. They may still be taken nine and a-half inches in length.

STAR POINTERS, the famous paper, holding the world's record of 1,094 was sold on Monday in New York, to W. J. White of Cleveland for \$15,000 or \$600 less than he was sold for in 1897.

It has been decided by the Department of Trade and Commerce, Ottawa, not to accept any of the tenders for the steamship service for plying the British mail for two years from next May. New tenders will probably be called for.

STANLEY'S FIRST JUNGLE FIGHT.—Henry M. Stanley, the African explorer, has written out the story of "My First Fight in the Jungle," and has given the manuscript to the Ladies' Home Journal which will publish it in the next number.

The writer of Gladstone's biography, Mr. John Morley, is to receive two thousand dollars a year from the Macmillan's for the work. There are over one hundred thousand letters alone on file at Hawarden which will give some idea of the magnitude of the task.

A SAN FRANCISCO despatch of the 19th says the ship Atlanta, McBride, master, from Tacoma for Cape Town, with Alton Bay, Oregon, and that the vessel and cargo were a total loss. Twenty-eight of the crew were drowned.

The death of Sir George Baden Powell took place on Sunday last. He had represented the "Kirkdale division of Liverpool" in parliament in the Conservative interest since 1885 and was an eminent political economist and authority on colonial affairs. He was in the fifty-first year of his age.

The Halifax Herald says: The heavy shipments of potatoes made to Havana this fall have proved very profitable. Returns have been received showing the gross price to have been \$6.50 per barrel. This gives a splendid margin for the shippers.

An interesting feature of the celebration of the jubilee of the Emperor of Austria will be the reading in the pulpits of the empire on the 27th inst., of a pastoral letter signed by the whole Austrian episcopate. In it the fifty years reign of the Emperor is reviewed and the hope expressed that the Austrian peoples may be reconciled on that day.

A GAME of football between the teams of St. Dunstan's College and Prince of Wales College, took place on the G. A. grounds on Saturday afternoon last. In consequence of the rain, the grounds were slippery; but this did not deter the players from entering with vim into the game. The result was 29 for St. Dunstan's, to 1 for Prince of Wales.

THE new piece of railway constructed at North Wilshire, to straighten the loop, was formally opened on Monday forenoon. A Special train with Superintendent Shears and several officials of the road and some others left the city at 9 o'clock. The engine conveying the train with the Superintendent private car attached passed over the new track, to the discharge of torpedoes and the blowing of the whistle. The new work cost about \$25,000. It is a mile long and saves about three-fifths of a mile.

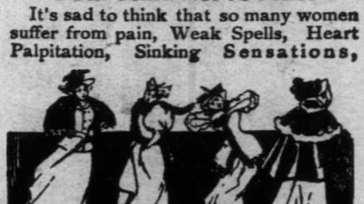

WHEN a party of the British royal artillery was engaged in moving the mountings of a ten-inch angle gun, which is to be erected in what is known as the Devil's Spy Glass battery, Gibraltar, on Monday, the huge mechanism overbalanced and bowed down the side of the rock, gaining speed at each bound. I crossed the tracks of the railroad, which were fortunately clear at the time, and finally imbedded itself in some soft ground beyond. Had it travelled a few yards to the left the lunatic asylum and other less important buildings would have been considerably damaged.

EARLY on Sunday morning the alarm was sounded, when a fire was discovered in the store of J. B. Macdonald & Co., Queen Street. It is evident the fire had been smouldering for some time; as the shop was filled with smoke when the firemen arrived on the scene. After some time the fire was located in a large pile of clothing in the centre of the store, under an arc light, a spark from which is supposed to have been the cause. A great quantity of water was applied and by the time the fire was completely quenched, nearly all the goods in the store were ruined. Mr. Macdonald estimates the loss at \$10,000, partially covered by insurance. Mr. Macdonald has been singularly unfortunate in the matter of fires: It will be remembered that only a few years ago his premises on Queen Street were completely burned.

Biliousness

is caused by torpid liver, which prevents digestion and permits food to ferment and putrefy in the stomach. Then follow dizziness, headache, nausea, nervousness, and, if not relieved, bilious fever or blood poisoning. Hood's Pills stimulate the stomach, remove the liver, cure headache, dizziness, constipation, etc. Sold by all druggists. Complete cure with Hood's Sarsaparilla.

Hood's Pills

HEALTHY, HAPPY WOMEN.

Pain and Weakness Banished through the use of Hood's Heart and Nerve Pills.
It is sad to think that so many women suffer from pain, Weak Spells, Heart Palpitation, Sinking Sensations, Nervousness, Sleeplessness—who could be restored to the full enjoyment of life's health by a few boxes of Milburn's Heart and Nerve Pills. This is the testimony of Mrs. Gillen, Wesley Street, Moncton, N.B. "Before taking Milburn's Heart and Nerve Pills I used to suffer untold agony from violent headaches, irregular action of the bowels, together with pain or spasms in various parts of my body. Sometimes I felt so weak that I was unable to look after my domestic duties. However, I had to endure this worry and trouble, because all the remedies I tried failed to give me relief, until I happily heard of Milburn's Heart and Nerve Pills. When I felt greatly benefited. This encouraged me to continue their use until a complete cure was effected. "I have not been troubled with a headache since taking these pills. They increased my appetite, invigorated my entire system, and gave me back my old time strength and vigor."

"Take a Laxative Pill before retiring. It will relieve your bowels, and make you feel better in the morning." Price 25c. Sold by all druggists.

KERS.

After coughs and colds the germs of consumption often gain a foothold.

Scott's Emulsion of Cod-liver Oil with Hypophosphites will not cure every case; but, if taken in time, it will cure many.

Even when the disease is farther advanced, some remarkable cures are effected. In the most advanced stages it prolongs life, and makes the days far more comfortable. Everyone suffering from consumption needs this food tonic.

See, also, all druggists.
SCOTT & BOWNE, Chemists, Toronto.

Catarh Can be Cured

By eradicating from the blood the scrofulous toxins which cause it. Hood's Sarsaparilla cures catarh promptly and permanently, because it strikes at the root of the trouble.

The rich, pure blood which it makes, circulating through the delicate passages of the mucous membrane, soothes and builds the tissues, giving them a tendency to health instead of disease, and ultimately curing the affection.

As the same Hood's Sarsaparilla, strengths, invigorates and energizes the whole system and makes the debilitated victims of catarh feel that new life has been imported.

Do not daily with snuff, inhalants or other local applications, but take Hood's Sarsaparilla and cure catarh absolutely and surely by removing the causes which produce it.

(Continued from first page.)

These remains of which time has scarcely left a vestige, reverently we deposit them to-day in the vaults of this church, because our faith assures us that they shall one day be revived and clothed with immortality. At the moment of creation man came forth from the hands of his Maker perfect being. His body, like the soul, was destined to live forever, for the whole man was immortal. Sin came, and as a consequence of sin, death was entailed upon both soul and body, for death is the penalty of sin. The effects of this called original, as well as the effects of actual sin, are so far as the soul is concerned, blotted out by the application of the merits of Jesus Christ through the sacraments. The chief effect entailed by original sin on the body, is its subjection to death and corruption, the common debt of fallen nature—is repaired by its resurrection at the last day. We then honor to-day by anticipation that reunion that will be effected between soul and body at the sound of the archangel's trumpet, and the resurrection is but the reintegration of man's nature, its restoration to its original condition after he has paid the penalty of the fall, with the same rights and privileges that he enjoyed in a state of primitive innocence.

There is nothing then abnormal or even accidental in the union of soul and body. It is not abnormal for it entered into the original design of the Creator and formed part of his plan. Neither is it accidental, for the integrity and perfection of the human species presupposes such a union as an essential condition of man's existence, since it is by his soul that he is differentiated from the inferior animals and by his bodily nature from the angel.

It is rather death or the separation of soul and body which is the abnormal state since it is the penalty incurred by man for the forfeiture of his primitive innocence and the consequent degradation of his nature. In other words, this separation did not enter into the original plan of God's creation for the Wise Man tells us that "God created man incorruptible and to the image of His own likeness made him; but by the envy of the devil death came into the world." And St. Paul, Rom. v. says, "Wherefore as by one man sin entered into the world, and by sin death, so death passed upon all men in whom all have sinned."

Since then the union of body and soul is essential to the integrity of man's nature and since death or the rupture of that union is but a necessary consequence of the fall—it is appointed unto all men once to die—it follows that nothing can be more consonant to reason and more in harmony with the Creator's plan than that the body should again be united with the soul, and that the surviving part should continue to live until the resurrection of the immortal soul. We deduce the necessity of the Resurrection of the body, whilst conversely the former truth is clearly implied in the latter, and we can readily infer that since the body alone is restored to life, the soul needs no resurrection being immortal. This is the line of argument suggested by Our Blessed Lord when confounding the Sadducees who had come to tempt him by proposing doubts concerning the resurrections of the dead. Let us, then, on the occasion of this imposing solemnity renew our profession of faith on this important point of the Christian's teaching, let us, in the beautiful language of the holy man Job, reaffirm our belief in the Resurrection of our bodies at the last day. "For I know that my Redeemer liveth and in the last day I shall rise out of the earth and shall be clothed again with my skin and in my flesh I shall see my God. Whom I myself shall see and my eyes shall behold and not another. This my hope is laid up in my bosom." Oh! blessed hope, Oh! happy consummation of man's existence. May our resurrection be a glorious one and may it usher us into the abode of bliss where absorbed in the contemplation of the beautiful vision we may drink in, to satisfy, this unquenchable thirst, for which we were created, which the eye of man hath not seen nor the ear of man heard, nor the mind of man conceived. There is another thought suggested by the ceremony of to-day, which, I think should not be overlooked. It is that it should be, for you, an occasion of thankfulness to Almighty God for the past and of hopefulness for the future.

on occasion as this our thoughts naturally revert to the past and we may find therein abundant reason for bask in the glory of God. If we set about comparing the state of religion in the diocese of Charlottetown today with what it was for example, when Bishop McEachern and Father Bernard McDonald divided between them the spiritual charge of the whole island, what motives for thankfulness shall we not find in the wonderful progress that has taken place. Should we care to go back further still, the words of God's tender love and providential care for the people of this diocese become still more manifest: in his diocese, as in our own diocese, Antigonish, in the three most important elements that comprise the reputation we find the descendants of confessors of the faith. We are Scotch, Irish and French. The two first are here on account of persecution, the last for spite of it. Oh! what a trying ordeal our forefathers went through and how our hearts could expand in gratitude to Almighty God for the great grace given us which we owe that priceless gift of Catholic faith, which is our greatest glory and our proudest boast. Let us cry out then in the words of St. Paul: "Thanks be to God who has given us the victory through Our Lord Jesus Christ." Cor. The victory which, according to the beloved Apostle, "overcometh the world, the flesh, and the devil." And our Lord's Holy Name that we are the descendants of men who have kept the faith, who refused to barter away so precious a birthright, who spurned the tempter even when he came with a bribe in his hand, who feared neither persecution nor exile and gladly went to death itself rather than forsake the Faith delivered to the saints. It is unnecessary, even were it advisable, to recapitulate here the story of the sufferings endured by our Scotch and Irish ancestors for the preservation of their faith, or the steadfast fidelity to their religion of that little band of ex-patriated Acadians who, through the visible protection of Heaven have survived their misfortunes and have come back to take possession of the land from which their forefathers were driven. But all three we can raise our hearts in thanksgiving to Almighty God, who has given us the victory through Our Lord Jesus Christ, that victory which overcometh the world, our flesh, and the devil.

You especially, Catholics of Scotch origin, who form so large a proportion of the population of this diocese, I say that you have special reasons for gratitude to God. Your fathers came to this country, I provided, most of them at least, with the goods of this world, but rich in faith. They came seeking the right denied them at home, of worshipping God, according to the dictates of their conscience. They came accompanied by their faithful priests with little else than stout hearts and brimful arms and an unbounded confidence in Divine Providence. "In the hour of death," our fathers hoped, they have hoped and thus had delivered them. And their trust was not misplaced, God has blessed their fidelity, and in the presence of their children and their descendants which dot this Island, in the steady advance which our holy religion has made in the number of vocations to the priestly office, in your ranks, in the lively faith of the people, and the devoted zeal of the clergy, we have abundant evidence of the efficacy of the Divine blessing. Give thanks then to Almighty God, and whilst praising God the author of all good, bear also in grateful remembrance the zealous laborers in His vineyard, to whom after God, so much of this is due, and pray especially for the clergy, who of those whose memory we honor to-day, "May their memory be blessed and may their name endure for ever."

But if a glance at the past should excite within us feelings of thankfulness towards God, a glance forward should inspire us with hopefulness for the future. In view of what has been done, what may we not expect and hope to accomplish? If the grain of mustard has grown into a large tree, so that the birds of the air come and seek shelter in the branches thereof, what further development may we not expect of that seed now that it is being cultivated under conditions so much more favorable to its expansion? If such things have been done in the green wood, what may not be done in the dry? Hopefulness then for the future and renewed confidence in God. You have but to prove true to yourselves, and the past will guarantee the future. We are at best, it is true, but poor instruments in God's hands; but what may we not hope to accomplish with His blessing and by faithful correspondence, on our part, to His grace. Initiate then the deeds of your fathers in the faith, prove yourselves worthy of your sires. Remember those who have been placed over you to preach the word of God, and considering well what the end of their lives has been, imitate their faith. High is that all that can be expected of you and that alone will suffice. There may not be object of your highest ambition. That and that alone will be for the pure pilgrimage of a happy death. That and that alone will be the true passport to a glorious resurrection.

Short Exposition of Christian Doctrine

THE SOUL.

Every man who reflects at all upon his being and its constitution, cannot but see that he is composed of two parts. The material portion or outward visible part of man is called the body, and the part which directs and governs it, and forms it as it is, we call the soul. The soul is superior to the body, a tenet which no one can deny, and it is different from the body also because it is not a material substance. Since we see that we cannot feel the soul as we feel cold or heat. We cannot see it; we cannot hear it, nor does it come under the cognizance of the five senses, as material things do. Yet every sense bears testimony that the soul is an existing substance, that it resides in the body and is necessary to its life.

When we say "I am," we predicate of ourselves something living. We do not mean our body nor any particular part of it, for we

of it as "our body." Who and what is this one who called the owner of the body, and all its wonderful faculties? It is the soul. The soul is the ruling and governing autocrat of the body and directs it in all its movements. Without the soul the body is but a corrupting mass of flesh fit to be hidden away in the earth. The water of the sea is ever in motion, because the wind and other unseen forces ever act upon it. Take them away, still and dead. It is the same with the soul and the body in a far higher plane. The soul is made to live forever. It is immortal, so we are told by God in His Revelation, and through our bodies die, our souls cannot die. St. Paul in his Epistle to the Corinthians tells us what God has revealed on this subject. "If there is a natural body, there is also a spiritual body, as it is written, the first man Adam was made a living being of the earth, earthy; the second man is from heaven, heavenly. As is the earthly such are they who are earthly, and as the heavenly, such also are they that are heavenly. And so we have been the image of the earthly, so also we shall part on like likeness who is from Heaven."

There is also the testimony of the human race to this fact which leads us to believe it to be part of the primitive Revelation made to Adam. The soul then being an immortal spirit, requires attention from itself. Our duty as men is to look after this most important part of our being, and to see that it does the work and keeps the laws of its Creator, so far as it knows them. The life of the soul is only temporary in this world; its real life is elsewhere. It must be in accordance with the laws of God. It is not this life the place to learn what those laws are? Surely it is; and not anything better than these laws can be the object of the soul's learning. For in the knowing of them, and keeping of them, is true life both here and in the world to come. If we keep our souls in order, we shall have little need to fret about the material things. Our Lord Himself said: "seek ye first the Kingdom of God and His Justice, and all these things shall be added unto you."

PROOF FROM
Port Hope, Ont.

Mr. W. A. Russell, the Popular District Agent for the Singer Sewing Machine Company, Proves that Doan's Kidney Pills Cure Kidney Ills.

This is his statement: "I suffered for five or six years with pains across my back, headaches, dizziness, and kindred kidney troubles. I got very bad, and when driving would often have to stop the horse, as the pains were so severe that I could not stand them. I tried a great many medicines, but they did me no good. I then got Doan's Kidney Pills at Watson's drug store, took them for one month, and am completely cured. I regard the cure as a remarkable testimony to the virtues of Doan's Pills, and am daily too glad to recommend them to all sufferers from kidney trouble in any form."

Doan's Kidney Pills are a never-failing remedy for Bright's Disease, Diabetes, Dropsy, Backache and Weak Back, Gravel, Sediment in the Urine, and all Urinary troubles of children or adults. Price one a box, 4 for \$5, all druggists. The Doan Kidney Pills. Remember the name—Doan's—and refuse all others.

MISCELLANEOUS.

Dawson City was partly destroyed by fire a few weeks ago, it was caused by a fire in a bar-room in which a woman threw a lighted lamp another woman. A miner from the spot that was talking to the woman, said she had thrown it and everybody was feeling about it. "Yes," he remarked, "everybody felt and about the city being burned with the exception of just one person."

"Who was that?" asked the friend.

"The woman that the lamp was thrown at," was the answer.

"What made her so glad about it," he was asked.

"Oh," answered the miner, "I can't say that she felt very glad about it, all I know is that when the other woman threw the lamp at her she was struck with no light."
