

The Huronian

DEVOTED TO COUNTY NEWS AND GENERAL INTELLIGENCE

GODERICH, ONT., FRIDAY, JUNE 8, 1888. (D. MCGILLICUPPY, PUBLISHER. \$1.50 A YEAR IN ADVANCE.)

WHAT'S UP?

Things That Are Happening Around Us.

Public Questions Must be Ventilated—What Must be Done on the Railway Scheme—How the Citizens' Railway was Fought out of Shape—A Do-nothing Council.

Owing to the spring gardening season being upon us, and other things too numerous to mention, I have not been giving the time and attention to public matters that I should have given, and as a result, things have got in a tangle, and have had knots tied in them so far as the town is concerned, notwithstanding the praiseworthy efforts of the talented quill-driver of THE SIGNAL, who presides on the editorial tripod, to lick things into shape. There's the trouble in the camp, wolves in the fold, sheep in the clover, and a "nigger in the fence," all along the concession line, up the side line, down the blind line, around the court house square, and away to the south boundary. What's the matter, eh? Why, where have you been that you didn't hear of the railway agitation which threatened us with three rival routes, and which has failed to materialize because some of our able councillors don't know what to do or say on this great public question. They are afraid to take a decided stand for fear that, although they believe it to be right, it would not suit us fellows on the back streets who have votes; but I want to tell them here and now, that we—and we're numerous too—would rather see a councillor come out flatfooted against us than sit on the municipal fence and count noses before casting his influence. The great, broad, enlightened, intelligent, educated, observant, progressive, onward-acting public don't like councillors as their representatives, and much prefer men with nerve, power, vigor, gall—if you will have it so—than miserable, mealy-mouthed, whimpering, no-account, spiritless, fear-to-do-evil, and never-do-well alleged public servants, and we've a healthy griet of the same pusillanimous gang misrepresenting us at the council board for the year A. D. 1888.

We understand an effort will be made at an early date to call a public meeting to discuss the route question in all its bearings, and I and the neighbors hope that when the meeting is held the opponents of the northern scheme will come belily out of their shells, and advance their arguments against the route in a clear and logical manner, and in the face of day. So far as our town council is concerned, every man should act at the earliest date be placed on record as to the matter of route, and the question—which is the most important, so far as Goderich is concerned of all that have come up in many years—should, if not definitely settled before, be made the question at the municipal polls. I regret to have to say it, although it is a true bill, but some of the members of the present council have outlived their usefulness as public men. There are those among them who have fallen behind in the march of progress, and although credited with years of municipal experience, have only succeeded in obtaining the failings, frailties and weaknesses that long service brings, with out the compensating benefits of wisdom and knowledge in things that pertain to the welfare of the community. The public should relegate them to the infamy for played out municipal hacks at the earliest possible season. There be others, young at the business—municipal colts, so to speak—who were carried on to the wave of popularity because, being without a record, it was thought that, after being broken, they would be able to keep up with the Age of Progress that was apparently about to dawn for our town. But the colts instead of going gracefully to the lead, soon tumbled with some of the old staggers and learned their gait, with the result that instead of egging on their mates, they tailed the course with them. There is no use on a road track for a spotted colt. Trot them back to the stable next January.

But while I'm on this subject I might as well ask a question. Why are so many members of the town council also members of the citizens' railway committee, and who had the impudence to pitchfork the town clerk upon the board? It's a well-known fact that the citizens' railway committee was started

FROM THE CAPITAL.

Latest Political and General News from Ottawa.

The New Minister of Marine—The Fisheries Treaty—Immigration—The New Viceroy—Cabinet Changes—Interesting Notes.

From our own Correspondent.
Ottawa, June 5.—Mr. Charles Tupper, the senior member for Pictou N. S. who has been appointed Minister of Marine as I predicted last week he would be, is the youngest man who has entered the cabinet since Confederation. He is in his 33rd year. Sir John Macdonald was just of this age when he was sworn in. Mr. Laurier was 35 when he took office in 1877 under Mr. Mackenzie. Mr. Tupper has been ten years at the bar and was first returned to Parliament in 1882.

GENERAL SIR JOHN ROSS.

Mr. Tupper was sworn in as a Privy Councillor at Halifax by General Sir John Ross, commander-in-chief of the British forces in Canada, who is now administering the government of the Dominion. He has just come out from England. Gen. Ross is 59 years old, and entered the army in 1846 and distinguished himself in the Crimea, in India and in Afghanistan in 1880, when Sir Frederick Roberts captured Candahar and for his services received the thanks of both Houses of Parliament.

THE FISHERIES TREATY.

The *modus vivendi* being now in force American fishermen can purchase bait and supplies and transport cargo by taking out a license at \$1.50 a ton annually. The rejection of the Treaty by the United States Senate is now quite certain, as it requires two-thirds majority to ratify it and it can only get at the best a small majority.

IMMIGRATION OF CHILDREN.

The department of agriculture has made regulations governing the landing of juvenile immigrants in Canada. The children before being sent from Great Britain must be furnished with a medical certificate that they are free from disease and recently vaccinated. If they reach Canada without these recommendations they will be sent back. Ninety Scotch Crofters passed Ottawa last week for the Northwest and 90 more will be here in a few days more. They get free land in the Northwest and are sent out under the scheme aided by the British government.

A NEW SENATOR.

There are three names prominently mentioned for the seat in the Senate made vacant by the death of Hon. Mr. Ferris, Richard White, Hon. Henry Starnes and Mr. Desaulniers, inspector of penitentiaries. It would be rather difficult to appoint Mr. Starnes, who is 72 years of age. If Richard White will take it he is the most likely man. He is 53, managing director of the Montreal *Gazette*, brother of the late Hon. Thos. White and prominent in municipal and business circles.

THE WIMBLEDON TEAM.

When the Sarantian, now bringing out the Governor General, returns on the 21st, it will carry the Wimbledon rifle team of 1888 which is now complete and stands as follows:—Commandant, Lt. Col. Chas. J. Macdonald 66th Battalion; Adjutant, Capt. Wright 52nd; Lieut. Smith, St. John Rifle Co., Serjeant, S. Case, Halifax, Gar Art., Lieut. Chamberlain 43rd; Staff Serjeant, Ashall, Queen's Own; Lieut. Fluke, 63rd; Lieut. Dover, 78th; Pte. Duncan, Queen's Own; Pte. Mitchell 13th; Lieut. Mitchell 32nd; Lieut. Gray, Gov. Gen. foot guards; Staff Serjeant, Wilson, 33rd; Serjeant, Adams, 62nd; Serjeant, Short, G. G. F. G.; Serjeant, Marks, 6th Fusiliers; Gunner Campbell, Halifax Gar. Art.; Pte. McAfee 1st P. W. Rifles; Capt. McKicking, 44th; Serjeant, Miner 71st; Pte. Morris, 45th; Gunner Wilson, Halifax Gar. Art.

Why no Progress is Made.

"Nothing extensive nor ought set down in malice."—Shakespeare.

TO THE EDITOR OF THE SIGNAL.
DEAR SIR.—Do not for one moment think that I quote the above lines as a sham, for it is my purpose in what follows to stick literally to the spirit of the precept. The council may possibly be unpleasant to some parties, but I sincerely feel that our circumstances at the present time require some plain speaking, and while I adhere strictly to the truth, I shall hold myself blameless in the matter, as I think it may ultimately be beneficial to the town. For a long time it has appeared to me, as well as to others, that such an amount of partyism, insincerity, double-dealing and a species of "sharp practice" has crept into the management of our Citizens' Railway Committee, as to destroy all confidence among the members, and render it almost utterly useless for the purpose for which it was originally intended, and I shall now proceed to lay before your readers a few of my reasons for saying so. You are aware, sir, that Mayor Seager, on every available occasion, makes the statement that the committee has done "good work," and the council have done "good work" in railroad matters, thus insinuating from the civic chair to all outsiders that the two parties deserve equal credit for what has been accomplished within the last four years; whilst all he has ever shown that the council have yet done in the matter is some eight or ten letters written to and received from sundry parties on the subject; and to explain the reach of their several delegations to different places. The labored report however, of their last trip to Ottawa published in the *Star* really reminds one of the shearing of the *Pig* resulting in "much cry and little wool."

Now, sir, I pledge myself to prove to any one who will spend a very few minutes with me, by documentary evidence now in my possession that Ebenezer Woodcock alone did more by intelligent labor in four months to secure competitive railroad accommodation for the commercial interests of the town, than the town council have done within the last twenty years! And, if the people of Goderich do not award that gentleman some slight acknowledgment of his services to cheer him a little under the afflicted circumstances of his family, they do eternal discredit to themselves and raise a barrier to prevent any one of energy and ability ever again volunteering his services in their favor. When Mr. Jennings the C. P. R. engineer was expected, an arrangement was made between the mayor and Mr. Woodcock that he should be introduced to him, as he would be able to give information or explanation upon such points concerning the railway as might have passed between the General Manager and himself, as secretary of the committee; but no one outside the council was introduced to Mr. Jennings, and councillors Bingham and Jordan were selected to accompany him during his stay; while Mr. Woodcock sat in his room in the Huron hotel about midway between the residences of these gentlemen, and the exact time of his presence was that it was so late—9 o'clock—that his worship could find no other than the two above named! When—at the meeting of 23rd April—I was expressing my disapprobation of the indignity put upon Doctor Holmes—and through him upon the committee—by the council in excluding him from the delegation to Listowel, a muttered dissenting commentary on my statements, was kept up behind me ending with "the poor old man." And when the Mayor in reply threw a doubt on my veracity on some points, my back-biting critic clapped his hands in applause of what his worship had said, and jumping on his feet assured the meeting that though not a councillor now, he knew that they had always entertained the most friendly feeling toward the citizens committee &c. &c.!!—There has been no such display of partyism and forwardness—it was his first appearance amongst us—shown at any of its meetings in the four years of the committee's existence! But, I submit, sir, that the man who has been so graciously permitted to pass the eighty-fifth mile-stone on his homeward journey, in good health, strength and with, I think, an unimpaired intellect, is no fit subject for the pity of any one, and much less so for the mock commiseration of even a druggist—There was another incident occurred that evening, which I cannot yet account for, i.e. that Mr. Mitchell, one of our oldest members, after proposing that we should send three delegates to Listowel to be equal with the council, and after I had seconded his motion, suddenly withdrew it, and proposed that we should only send two delegates, and without a word of explanation walked out of the room.

THE EDITOR'S TABLE.

A Word or two About New Publications That Have Come to Hand.

THE CANADIAN METHODIST MAGAZINE.

This number completes the 27th volume of this increasingly popular Magazine. The first article is one by the late Anthony Trollope, on the Falls of Niagara. The illustrations are of singular beauty, showing the Falls both in summer and in winter. Warring Kennedy, Esq., contributes a copiously illustrated article on Ocean Grove—the most popular summer resort on the Atlantic coast, an institution which Methodism has laid its strong hand and consecrated it to the glory of God. The Editor's sketches of "Our Own Country" describe the historic Old Fort at Annapolis, and the picturesque city of St. John. An article which will be read with especial interest is a memorial study of the life of Dr. Nelles, by Prof. Royner, with a beautiful personal tribute by Dr. Douglas. A noble sermon by Dr. Nelles is also given. Dr. Carman contributes an admirable paper on "The Church's Working Doctrines"; and Mrs. A. E. Barr's story is continued. A fine announcement is made for the 23rd inst. beginning with the July number. Now is the time to subscribe. Price \$2 a year 20 cents per number. Toronto, Wm Briggs.

AT THE HARBOR.

Items of Interest to the Boys who Plow the Great Eastland.

ARRIVED.

Saturday, June 2nd.—H. N. Todman, from Providence Bay with lumber for Secord.

Monday, June 4th.—Ariel, from Blind River, with lumber for J. Williams.

Monday, June 4th.—Pinafore, from Port Frank, with lumber for J. Williams.

Wednesday, June 6th.—Steamer Sovereign, from Sarnia, bound up the lakes.

Wednesday, June 6th.—Steam barge Belle Wilson, from Sandusky, Ohio, with 400 tons coal for the mill.

Saturday, June 2nd.—Steamer United Empire, from Sarnia, bound up.

DEPART.

Saturday, June 2nd.—H. N. Todman, for Providence Bay for lumber.

Monday, June 4th.—Mary S. Gordon, for Kincardine.

Monday, June 4th.—Ariel, for Pary Sound, for lumber.

Wednesday, June 6th.—Steamer Sovereign for Lake Superior.

Thursday, June 7th.—Steam barge Belle Wilson, for Blind River for lumber.

Saturday, June 2nd.—Steamer United Empire, from Sarnia, for Lake Superior ports.

Repairing has been commenced on the schooners Ontario and Koffage, which have been drawn up on the island in the harbor.

The dredges has been doing good work on the bar in front of the harbor during the past couple of weeks.

FROM THE CAPITAL.

Trade and Commerce, Lacoste, Q.C., Montreal, Solicitor General, Hon. J. A. Chapleau, Postmaster General, Hon. G. A. Kirkpatrick, Secretary of State. Mr. Cartigan retires to an office, and the department of Inland Revenue and Customs will be placed in charge of two Comptrollers who will have seats in Parliament but not in the cabinet and be subordinate to the Minister of Trade. It is no secret that Mr. Chapleau wants a pony who will more patronage attached to it, like Sir John Macdonald, he likes to reward his friends.

INTERESTING NOTES.

Twenty-two fresh vacancies occur in the Mounted Police this month.

Earncliffe, Sir John Macdonald's residence and office is being remodelled.

The Newfoundland delegates are not now expected here till September or October.

Lieut. Col. Diejardens, M.P.P., for Lewia will, it is said, replace Col Panet as Deputy Minister of Militia.

Those civil servants who have not taken the oath of allegiance will not receive their June cheques.

Hon Mr Tupper will seek re-election in Pictou, N. S., before coming to Ottawa.

It is believed Major General Oliver will be re-appointed commandant of the Royal Military College for another term.

Mr Durais the unseated M.P.P. for Nicolet will, it is thought, oppose Mr. Frechette who will be the Liberal candidate for the Commons.

All assistants on geological surveys must in future be volunteers. Formerly they were paid and students went out for the sake of the experience.

The hydrographic survey of the St Lawrence has been resumed.

Mr McFarlane, Departmental Analyst, having finished his analysis of water is procuring samples of cheese.

ONE AT SIGNAL

Cleveland is the Democratic candidate.

THE NEW PASTOR.—Rev. J. A. Anderson, of Knox church, Goderich, and the charge here, preached his first sermon here on Sunday to a good congregation. In his prayer he asked that the blessing of the Higher Power be with him as his pastor to give strength and will to preach them the glad tidings of the Gospel, and work together in a unity on all things to advance the Gospel teachings in our midst. It is the wish of the people here that he perform the same duties as his predecessor Rev. Mr. Turnbull did when connected with this parish.

HELEN LAFONE: OR THE FOES OF A HOUSEHOLD.

A TALE OF ENGLISH LIFE.

CHAPTER XXIX.

AN UNEXPECTED CALLER.

It was a few minutes before the dinner hour when Sir Cuthbert came in to the drawing room at Brantwood, and the whole party had already assembled.

They were a great deal together. Percival was just then very busy, and he left his wife and his guest very much to their own devices.

It was on a chill damp morning that Alice, Percival and Sir Cuthbert sat over the breakfast table.

Percival meditated on the note in silence. His wife and guest were still reading their letters, and in addition to that, Alice took so little interest in his private concerns that he seldom mentioned them to her.

Later in the morning thought of it again. Alice could not be happy, and he rather feared that he had been wanting in attention lately.

could not find any plausible reason for going alone. However he had thought it out, it always came back to the same thing; he could not go without Alice.

But the idea would not leave him, and at last, feeling that it was impossible to wait even till the next day for the mystery to be cleared up, he came to a sudden resolution, and going into the house he sought his wife.

"Will you order me some early lunch, Alice. I am going away, but I expect I shall be back tonight."

"Where are you going?"

"To Miller's Gate."

whose expression was set and taciturn, and who had a sturdy independent way of holding themselves. As he strolled down the hill from the station he met a man who was different from those he had already seen.

"I never saw any one work so fast. How do you do it?"

"Your sentiments are most original; pray may I ask if you ever gave Mrs. Longworthy any presents?"

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

"I wish he would come here as usual, she said with a quick, rather impatient sigh."

yourself; you don't like to think that anything you do is suggested by some one else.

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

It is the only excuse I have, and I fear it is a very lame one.

"I am exceedingly glad to see you, replied the clergyman cordially.

"I know; you only want to keep your character to yourself, so to speak. You have not a yielding disposition; you are very stiff-necked."

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

"I have no very clear idea, I must look up the trains. I fancy you go by Dewhurst."

Want of Sleep

In sending thousands annually to the insane asylum; and the doctors say this trouble is alarmingly on the increase.

CAIRO.

Interesting Letter from the Land of the Pharaohs.

Description of the City—The Citadel—The Serapeum—About Egyptian—The Tomb of Joseph's Well—The Tombs of the Pharaohs.

Special correspondence of THE SIGNAL.

Shepherd's hotel, situated in the heart of the city of Cairo, is a rambling, roomy, old building, effectively ornamented around the high veranda entrance by a drove of donkeys all standing tail-on towards the steps, with their motley crowd of drivers expectantly awaiting some one to employ them.

NARROW STREETS AND BAZARS. Each on a miserable rat of a donkey requiring two boys to keep it running, curlews now and again bumping against the rough pavement or our heads striking some low arched passage-way in the labyrinth of foul alleys and streets.

THE MODERN PART OF THE CITY is very French. The houses are high and showy and somewhat Parisian in architecture; the city abounds in cafes, where in the night music and dancing resounds till morning.

PHARAOH'S NEEDLE. I wandered about the plain in quest of something that might strengthen our belief that here at one time was the great seat of learning, the only place in the then known world for the study of philosophy and astronomy, but the only evidence of its existence were the few pieces of colored glass and pottery ware, the size of a penny, and the one landmark seen from all parts of the plain, the tapering obelisk, composed of one solid mass of granite.

WHERE THE HOLY FAMILY RESIDED in their flight from Palestine down into Egypt. There is the self-same spycorner of course it is a little garret, and aged and not so green and gleaming to the eye as a bright-leaved budding blooming young ten-year-old, but we must remember it has stood there for at least 1888 years and of necessity a few years longer in order to give rest and shade to the weary-worn fugitives.

THE CITADEL. built nearly 800 years ago from stone brought from the outer casing of one of the pyramids. The citadel is in itself a small town and is overshadowed by one of the largest and finest mosques in Egypt.

THE BOOKS MUSEUM where is to be found the largest, most valuable and most instructive collection of Egyptian antiquities in the world. Colossal sphinxes, lions, obelisks, sacred bulls, jackals, ibis-headed men, ram-headed men and a thousand and one statues and statuettes emblematic of ancient Egyptian divinities, are all worthy of notice for the fineness of workmanship, the value of the material of which they are composed as well as their peculiar symbolic meaning.

THE SERAPEUM. where is to be found the largest, most valuable and most instructive collection of Egyptian antiquities in the world. Colossal sphinxes, lions, obelisks, sacred bulls, jackals, ibis-headed men, ram-headed men and a thousand and one statues and statuettes emblematic of ancient Egyptian divinities, are all worthy of notice for the fineness of workmanship, the value of the material of which they are composed as well as their peculiar symbolic meaning.

THE TOMB OF JOSEPH'S WELL. In the valley, the city and surrounding country. The city looks a perfect wilderness of flat roofs, palm trees, minarets, moving donkeys and camels, and away to the west the glittering sands of a Libyan Desert stretch as far as the eye could reach. Close to the citadel is what is claimed to be Joseph's Well, hewn in the rock to a depth of 300 feet, and on a level with the waters of the Nile.

THE TOMBS OF THE PHARAOHS. where is to be found the largest, most valuable and most instructive collection of Egyptian antiquities in the world. Colossal sphinxes, lions, obelisks, sacred bulls, jackals, ibis-headed men, ram-headed men and a thousand and one statues and statuettes emblematic of ancient Egyptian divinities, are all worthy of notice for the fineness of workmanship, the value of the material of which they are composed as well as their peculiar symbolic meaning.

lifetime to understand. In the mummy hall I counted seventy four mummies, the cases of which are in a perfect state of preservation and which have depicted in flaming colors the heroic history of the occupants.

HOUSEHOLD HINTS. Apple sauce is much improved by the addition of a tablespoonful of butter, and requires less sugar.

FARM AND GARDEN. Helps in Farming. One of the most successful helps in farming or, in fact, in any business is an exact knowledge, as near as can be obtained, of the business as laid out in one's own mind, before operations actually commence with the hands.

PERFECT HEALTH. Can only be attained by carefully attending to the laws of nature as expressed in the system. To do this successfully requires the use of Burdock Blood Bitters, occasionally, to secure the regulating and strengthening effect of this splendid medicine.

THE ANCIENT CITY OF HELIOPOLIS, known in Scripture as the City of On. It is supposed that Moses here studied the wisdom of the Egyptians, and in later times Plato and Solon received a part of their education, and here it was that Joseph was given Amenhotep, the priest's daughter, as a wife (Gen. xli, 45).

PHARAOH'S NEEDLE. Balky Horses.

The Farmer's Irish Gazette gives the following different ways of treating balky horses, which are recommended for trial: First, pat the horse on the neck, examine him carefully, first one side, then the other, if you can get him a handful of grass, give it to him, and speak encouragingly to him.

The best regulators for the stomach and bowels, the best cure for biliousness, sick headache, indigestion, and all affections arising from a disordered liver, are without exception Johnson's Tonic Liver Pills. Small in size, sugar coated, mild, yet effective. 25 cts. per bottle sole by Goodie, druggist, Alton, Brock. Gode rich, sole agent.

The Sirius and the Great Western are generally considered the first steamships to cross the Atlantic. According to a correspondent of the New York Times, the honor really belongs to the Savannah, which left Savannah, Ga., May 25, 1819, reaching Liverpool June 20. Her commander, Capt. Moses Rogers of New London, Ct., also commander of the first steamship on the Hudson, the Delaware, the Chesapeake, and from Charleston to Savannah. The Savannah's log is preserved in the Smithsonian Institute.

No "hardly ever" about it. He had an attack of what is called "biliousness," and to smile was impossible. Yet a man may smile and smile, and be a villain still, still he was no villain, but a plain, blunt, honest man, that needed a remedy such as Dr. Pierce's "Pleasant Purgative Pills," which never fail to cure biliousness and indigestion or torpid liver, dyspepsia and chronic constipation. Of druggists.

Paine's Celery Compound. Cures Nervous Prostration, Nervous Headache, Neuritis, Nervous Weakness, Stomach and Liver Diseases, Rheumatism, Dyspepsia, and all affections of the Kidneys.

WELL'S, RICHARDSON & CO, Prop's Montreal, P. Q.

BREADMAKER'S YEAST. BREAD made of this Yeast took 1st Prize at Ontario Fair. Shows in 1887. Over 100,000 letters have written to say that it surpasses any yeast ever used in baking.

MAY APPLE BLOOD SYRUP. Acts upon the Stomach, Liver, Spleen and Blood. AND WILL CURE Biliousness, Indigestion, Liver Complaint, Sick Headaches, Debility.

DEEP Sea Waters exist in their thousands of forms, but are surpassed by the marvel of invention. Those who are in need of profits of what can be done while living at the same time, and their address to HALLET & CO., Portland, Maine, and receive free full information how either sex, of all ages, can earn from \$5 to \$25 per day and upwards wherever they live. Day are started free. Capital not required. Some have made over \$30 in a single day at this work. All succeed.

Children Cry for Picher's Castoria. When Baby was sick, we gave her Castoria. When she was a Child, she cried for Castoria. When she became Miss, she clung to Castoria. When she had Children, she gave them Castoria.

Sleep. annually to the doctors say on the increase. while they may be likely to do what is needed a Blood-purifier. It is incombustible, does not cause sleeplessness, and returns to a healthful agent of the Mass.

Local notices in nonpartisan type 5c per line. Local notices in ordinary reading type 1c per word. Business cards of six lines and under \$5 per year.

JOBbing DEPARTMENT. A fully equipped Jobbing Office is carried on in connection with the ordinary newspaper business.

HURON SIGNAL

FRIDAY, JUNE 8TH, 1888.

THE NORTHERN ROUTE.

Up to the time of writing not a solitary argument has been advanced by any one in town against the northern route—the line by Listowel, Brussels and Blyth—of the proposed Guelph Junction and Goderich Railway.

In previous issues THE SIGNAL pointed out some of the advantages that would accrue to all parties—to Guelph, to the C. P. R., to the intervening points, and to Goderich—were the line mentioned adopted.

Mr and Mrs Best, of Seaford, were in town last Friday.

Mr E. L. Dickson, barrister of Wingham, was in town last week.

Mr James F. Luby, of Chicago, spent a few days in town last week.

Mr Hastings of Winnipeg was in town last week on a visit to his sister, Mrs F. Jordan.

Rev. Mr Anderson will officiate at the evening service, at Knox church on Sunday next.

Next Tuesday is the regular meeting night of Maitland lodge No. 43, A.E.F. and A.M.

Mrs H. Tyler, of Buffalo, is visiting her friends, Mrs Geo. Stewart and Mrs Alex. Reid.

The 33rd Battalion will go into camp at Stratford this year, instead of London as heretofore.

Mr and Mrs G. H. Old spent a few days in Wingham, last week, with Mr and Mrs W. T. Yates.

Rev. Mr Walwin, of Goderich, occupied the pulpit of the Methodist church Seaford, last Sunday.

Mrs Dr. Cowan, of Exeter, is in town, the guest of her mother, Mrs Gavin Struthers, Huron road.

A. Morton, of the Dominion Carriage Works, is clearing off the balance of his stock of top buggies at reduced prices.

CROWDED OUT.—Correspondence from Guelph, Ontario, says that the Bill arranged to be for insertion this week.

Remember the sale of the Goodall property on South-st., by John Knox, auctioneer, on Saturday, June 16th, at 12 o'clock noon.

Misses Aikenhead and Sallows and Mr. Sallows, of Goderich, spent a couple of days last week at James McDougles, Gaey township.

PREZ AND BILL NYE.—The best 5c cigars in town, also some party green, bubble and insect powder at Wilson's prescription drug store.

Rev. Mr Dyke, of Henfryn, was in town during the week, accompanied by his wife, and was the guest of his father-in-law, Mr Stephen Ball.

Mr McDonagh will be in Goderich for consultation on Saturday, the 2nd of June, and afterwards on the first Saturday of every month.

Dr. M. Nicholson, the West street dentist, makes the preservation of the natural teeth a specialty.

Mr W. W. Buchanan, editor of the Royal Templar, visited THE SIGNAL on Tuesday afternoon, and talked news paper business and other matters.

The Mission Band of Knox church will give a literary and musical entertainment in the lecture room this Friday evening at 7.30 o'clock.

PROHIBITION LEAGUE.—The regular meeting of the Goderich League will be held in temperance hall on Tuesday evening next.

A man giving his experience in the Salvation Army in Rockwood the other night, said: The Lord had blessed him abundantly, that had had four wives, and the Lord had blessed with twenty children.

Mr John Reid, court house janitor, is suffering from a badly sprained ankle. He received the injury while wrestling with a refractory cow on Tuesday. He hopes to be in good marching order by the Twelfth of July.

The eternal fitness of things was recently illustrated at Lecknow. A few weeks back Mr D. R. Cameron received a golden egg from the Local Government in the shape of an appointment to the position of Deputy to the Provincial Treasurer.

TOWN TOPICS.

"A child's among ye, taking notes, An' faith he'll print it."

For the best value in new tea, spices, sugars etc. See McGillivray, Crab's Block.

A GOOD PRESENT.—The most useful gift you can make is to give a Writ Pen. Apply to D. McGillivray, Crab's Block.

Geo Stewart wanted to take in the whole county council last night—in his camera. He believes his big machine can stand any thing.

Master Economy remarks that for the best value in new groceries, provisions, fruits, etc. See McGillivray, Crab's Block.

FINE TAILORING.—R. MacCormac has the finest assortment of goods for spring and summer suits. Orders sent and you will be pleased with fit and price.

New Novelty.—A lot of the latest novels by MacCormac are on hand. The best of the best authors.

The recent chilly days have proved that it is not wise to go around without a light overcoat. You can get the best in the line at F. & A. Pridham's fashionable tailoring establishment.

The propeller Sovereign, of the Beatty line, arrived in port on the 29th ult, with fifteen thousand bushels of wheat for the big mill. The Sovereign left for Sarnia on Wednesday evening, taking a quantity of salt shipped by W. Campbell.

We understand that the lessee of that portion of the dock where the river meets the river is to be made, has received instruction to clear it at once. This betokens an early commencement of the harbor contract, and is a bad thing for the town.

Mayor Seager and deputy reeve Cameron, of Goderich, left for Guelph Thursday morning to have an interview with the directors of the Guelph Junction and Goderich R. R. Co., in reference to the proposed route by which the line will come thither.

In the afternoon Goderich teamplayed three of the Lucknows, three of Kincardine, and six of a make-up, beating them every game they played. The Lucknows are a splendid team, made up of good players, and thorough gentlemen in every way.—Kincardine Review.

GOOD PHILOSOPHY.—The men who condemn their fellow citizens for going abroad to purchase their dry goods and groceries seem entirely oblivious to the fact that they are committing the same offence when ordering their commercial printing from some distant city.

GOOD MANILA.—50c per lb; white business, 1.00 per lb. Matter do, \$1.25 and \$1.30 per lb., up as high as \$1.80 for the best business envelopes ever imported into Goderich. Largest stock in town. Only a small advance for printing. All other lines full at THE SIGNAL.

DANCE WITH THE VANDERBARS.—Mr. Dickinson while in town last week sold awnings to Messrs Jordan and Horton for their stores from North to Colborne streets, and the old vandarbans will come down next week to make way for them. Keep it up gentlemen until all the old woodsheds go.

UNIVERSITY EXAM.—We are pleased to learn that our townsmen, Mr John D. Swanson, was successful in taking honors in classics. Mr E. S. Hogarth, a former Goderich high school student, also passed in moderns, and D. M. Buchanan, another former student of Goderich, was successful in metaphysics.

CITIZENS' RAILWAY MEETING.—A meeting of the citizens' railway committee was held in the Clerk's office on Monday evening. Dr Holmes in the chair. After a length discussion, it was resolved that no action be taken in the matter of the selection of route, until the return of the town council representatives from the Guelph meeting, which was then pending.

DISMISSED WITH COSTS.—In the Superior Court at Toronto the appeal case of The Queen vs. Row, of Wingham, came up for hearing last week. It was objected by appellant that Police Magistrate Williams had no power to take an information in Clinton for a violation of the Scott Act in Wingham, although the case was heard in Wingham. The appeal was dismissed with costs.

A VERY GOOD SEND OFF FOR SAM.—The Kincardine Review correspondent says: Lucknow Seeps play Wingham on the 8th. We hope Mr Reid, the umpire who was here on the 24th, will be made the league umpire. He is good and fair, and a gentleman withal. On the first game when Kincardine took it some little kicking was made, but I thought Mr Reid was good enough.

THEY KNOW HIM.—The Brussels Post says—Dr Holmes and A. M. Kay of Goderich, were here last week for a day or two. The Dr. is red hot on the C. P. R. extension and booms the northern route. One of the Clinton papers speaks of "the coddling of Dr. Holmes" on railway matters. Why, bless your heart my dear friend, the Dr. is worth any three of your best citizens on railway business.

BEAVER REWARDED.—We learn by telegraph from Ottawa that our gallant townsmen, Captain James A. Green is about to receive a tangible recognition of his bravery in taking off the crew of the wrecked American vessel Norris, in the middle of a gale, last October, the U.S. Government having forwarded to the Dominion Government a handsome gold watch and chain for presentation to him. It could not be given to a braver sailor or a better man.

A PLAIN HINT.—Say, friend, if you owe anything for this paper, remit it at once, for these reasons, we dish up all the news, and we need the money. You owe it, then pay it. If you don't want the paper, pay up and stop it. If you take it pay for it. We want you to take it, and if you do in this, then pay us, or you are only a dog in tie wheel. We cannot afford, and do not want, to furnish you with our journal unless you pay for it. Now then let us hear from you with a remittance of what you owe us.

THE NORTHERN ROUTE.—Chairman Holmes of the citizens' railway committee, Goderich, and Mr D. McGillivray represented our town at the meeting of delegates held at Brussels on Friday last. The chair was occupied by Mr J. C. Hay, of Listowel, and addresses were given by Messrs D. D. Campbell and Scott of Listowel, P. Kelly, Blyth, A. Ratz of Elmira, J. R. Grant, Brussels and the Goderich delegates. It was decided to form a delegation from all points between Goderich and Guelph, and present the merits of the northern route to the directors of the G. J. & G. R. R. at the earliest possible date.

GUELPH CONFERENCE.—The Guelph conference opened at Seaford on Thursday. Friday, 8 p.m., reception of candidates, to be addressed by Rev J. McAllister, J. W. Holmes and A. Carman, D. D., General Superintendent; Saturday, 3 p.m., Theological Union Lectures, Rev John Scott, M.A., subject, "Supernatural Religion and Modern Thought," 8 p.m., consecration service, conducted by Rev Geo. Richardson; Monday, 8 p.m., Missionary anniversary, Revs T. M. Campbell, Hiraiwa Yoshiyasu, and John George, Esq.; Tuesday, 8 p.m.; Sabbath school anniversary, Revs J. W. German, F. E. Nugent, and S. Northcott, Esq.; Wednesday, 8 p.m., Temperance meeting, Revs Jas Broley, J. W. Gilpin and Thos Hilliard, Esq.

ECLIPSE.—The next eclipse of the moon will occur on the night of July 23rd, and will be more interesting than the one on Jan. 28. The diameter of the earth's shadow will be much larger at the time in proportion to the diameter of the moon darkening its surface more during totality. It will take place about midnight when the moon will be higher in the heavens and will be visible in this neighborhood.

H. S. NOMINATIONS.—At the semi-annual meeting of the High School Literary Society last Friday evening the following nominations were made for the next term:—President, Messrs. McCrae and Erwin; vice-president, Messrs. Knechtel and Tiffin; 2nd vice-president, Miss Marion Parsons; secretary, Miss Striding; treasurer, Mr Sallows and Flo. Ball; councilors, Misses A. Johnston, N. Stratton, and N. Strang. The following programs were then presented:—Musical selections, Miss McCabe; reading, Mr Bellis; reading, Miss Dickson; song, Miss Stratton; question drawing, Mr H. I. Strang, B.A.; criticism, Mr Blair.

THE TOWN COUNCIL.—A regular meeting of the town council was held on Thursday evening last week. The principal business outside of routine, was the reading of the northern route, was adopted. When it came to selecting the delegates no member of the council would accept the position of delegate with his hands tied and his mouth stopped, and no representative attended the meeting on behalf of the council.

THE CALLEDONIEN GAMES.—The Callodonian Society met in the town hall on Monday last for the celebration of Dominion Day. The election of officers for the current year resulted as follows:—Chief, M. C. Cameron; 1st Chief, D. C. Strachan; 2nd Chief, A. Dickson; 3rd Chief, M. G. Cameron; 4th Chief, D. McDonald; Secretary, S. Malcolmson; Treasurer, W. Proudfoot. The treasurer's report, showing a balance on hand of \$79, was read and adopted. Mr H. Hutchinson, the Chief for the past year, occupied the chair and Mr R. C. Henderson acted as secretary. The newly elected Chief having taken the chair, Mr D. C. Strachan moved, seconded by A. Dickson, a vote of thanks to the retiring officers. At an adjourned meeting of the society held on Tuesday evening the following secretaries were appointed:—Management—D. McGillivray, W. L. Horton and the Chief; Finance—M. Hutchinson, D. C. Strachan, D. McDonald and treasurer. Arrangements were made for obtaining the new program of the society for the day, and the committees were instructed to proceed with their work at once.

BASE BALL.—The game between Goderich and Hensall on Tuesday, June 6th on the old lacrosse grounds, was an interesting one, until the eight inning. Up to that time the score stood 9 to 9, with the chances in favor of the home team, but in the ninth inning the Hensall team took a slugging freak which had the effect of rattling the Goderich boys and 6 runs were made. When the Goderich team went to bat, they pounded air for a goose egg, and got it, thus giving their opponents the big lead. One of the features of the game was the pitching of Dad Holmes, who struck out ten men. The Goderich club did weak batting, McDonald's pitching, not to mention his batting, was not up to the mark. R. C. Henderson, N. S. Burwash, Wm Birks and R. Crowie (Aberfoyle); Elmira, Jabez Wase; New Hamburg, J. W. Brandon; Linwood, Thomas J. Smith; Hawkesville, H. C. Newcomb.

SEAFORTH, JUNE 7.—The annual meeting of the conference began in this town today. The Stationing committee commenced its work here on Monday evening last, and presented the following as the preliminary draft of stations:—Guelph District—Guelph (Norfolk st.), N. R. Willoughby, B.A.; Guelph (Doubly st.), J. E. Howell, M.A.; Guelph (Paisley street), A. R. Mustard; Pansony, Thos Grundy; Elmira, Jas Broley; Seaford, E. A. Brown, B.D.; Marsville, T. C. Sanderson; Seaford, Geo. Smith; Eramosa, Francis Swann; Rockwood, Jas Walker; Acton, J. Livingston; Georgetown, R. W. Day and J. Churchill; Erin, Joseph Markham.

GALT DISTRICT.—Galt, A. Cunningham; Berlin, J. W. German; Waterloo, G. F. Prouton; W. H. Hucks; Niagara, R. C. Henderson; Nassagaweya, Wm Birks and R. Crowie (Aberfoyle); Elmira, Jabez Wase; New Hamburg, J. W. Brandon; Linwood, Thomas J. Smith; Hawkesville, H. C. Newcomb.

STRAFORD DISTRICT.—Stratford (Central), W. S. Griffin, D.D., and W. E. Troun; Stratford (Waterloo street), W. Smyth; Mitchell (Trafalgar street), C. E. Stafford; Moncton, J. R. Isaac; Staffa, Wm Baugh; Fullerton, Jas Caswell; Embro, J. S. Cook; Harmony, Wm Wilmet.

ST. MARYS DISTRICT.—St. Marys, T. M. Campbell; Grandon, C. Hamilton; Luan, S. Selley; Ailsa Craig, J. Hough; Kirkton, Jas Charlton; Woodham, D. A. Moir; Niasouri, J. W. Pring; Kintore, R. J. Husband; Thamesford, A. R. Birks.

GODERICH DISTRICT.—Goderich (North street), G. Richardson; (Victoria street), A. Foster; Clinton (Ratonsburg street), Jos Galloway; Clinton (Ontario street), Jos Edge; Seaford, one to be sent (G. R. Turk); Holmesville, J. S. Fisher; Bayfield, H. E. Hill; Varna, Jno Hart; Hensall, N. S. Burwash; Hensall North, E. A. Brown and H. Cousins; Dangannon, W. F. Campbell; Nile, H. Irvine; Benmillar, Jas Keble.

KINCARDINE DISTRICT.—Kincardine, Jas Hannon; Tiverton, Wm M. Biely; Bervie, T. Amy, E. A. Henderson; Bethel, J. Webster; Ripley, J. A. Gifford, M. A.; Lucknow, J. Greene; Ashfield, W. Carson; Salem, G. H. Cobblehead, B.A.

WINGHAM DISTRICT.—Wingham, John Scott, M.A.; Teeswater, W. W. Sparling; Wroxeter, A. E. Smith; Brussels, M. Swann; Walton, W. Torrance; London, D. Rogers; Blyth, A. W. Yonge; Auburn, Thos. Geo. E. Beigrave, R. Godfrey; Bluevale, E. A. Shaw.

LISTOWEL DISTRICT.—Listowel, W. Carson; Milverton, S. O. Edmonds; Trowbridge, C. V. Lake; Gerrie, W. A. Ayers; Fordwich, A. M. McCollough; Wallace, J. W. Gilpin; Atwood, Jas Ferguson; Leintury, J. H. Dyke; Ethel, T. Legeur.

PALMERSTON DISTRICT.—Palmerston, Jas McAllister; Drayton, G. H. Cornish, L. D.; Arthur, J. W. Robinson; Alma, W. W. Leach and R. H. Barnby; Peel, James Harris; Moorefield, J. McLachlan; Stratton, T. J. Snowden; Maitland, J. R. Gibson; Teviotdale, W. Shannon.

MOUNT FOREST DISTRICT.—Mount Forest, R. H. Waddell, B. D.; Harriston, John Mills; Durham, B. L. Hutton; Johnston, S. H. Edwards; Clifford, R. Walker; Glen Eden, A. Glazier; Kerriworth, E. M. Smith; Grand Valley, F. J. Sabine; Varna, J. Fenland; Cedarville, John Pepper, B.A.

WALKERTON DISTRICT.—Walkerton, F. E. Nugent; Midway, H. Berry; Hanover, J. C. Stevenson; Elmwood, J. Segatt; Chesley, R. Phillips; Dobinton, A.

from amongst us, without conveying to you some expression of the esteem and high regard which we entertain towards you. Whilst extremely sorry that you are soon to depart from amongst us, yet we sincerely trust, that the ties of true friendship and brotherly regard that have endeared you to all many long connections, and that in the future it may always be a pleasure for us to dwell upon the memories of your sojourn here.

As a member of our Court you have, by your uniform courtesy, urbanity and diligent attention to the interests of the Court, greatly assisted in increasing its efficiency and success. As a citizen and clergyman you have won the respect and love of all, and we can safely assure you, that you leave behind all friends and acquaintances, who will prize you as a most esteemed wife—to whom also we are under deep obligations, we tender you a heartfelt and sincere farewell. As a token of our feelings please accept this Forester's pin, as a small souvenir of your connection with our Court. In conclusion we trust that in your new sphere of action, success and happiness may follow you and yours, and when you have finished your work, the Angel of Time may dip his pen in the inkstand, and write in letters of gold: "Well done, good and faithful servant." Signed on behalf of the Court, W. D. HENDERSON, C. R.

DR WASHINGTON'S VISIT. A Few Facts to be Remembered. 1st. Dr Washington is the only Throat and Lung Surgeon in the Dominion devoting his whole time to diseases of the "Air Passages."

2nd. He has devoted seven years to his specialty. 3rd. He makes monthly visits. 4th. He consults, examines, treats all cases personally and is solely responsible. 5th. He represents his own business. 6th. He denounces doing business by proxy.

7th. He resides in Toronto. 8th. He gives testimonials of the most reliable and prominent character of residents of Ontario of the most wonderful cures ever recorded, with whom a large number of the citizens of Goderich and vicinity are acquainted.

9th. He gives the name in full and P. O. address, (not the mere initials which might refer to any Tom, Dick or Harry,) and invites any person interested to write for particulars. 10th. His next visit to Goderich will be June 14th till noon, at the Albion hotel.

11th. This is the best season to treat catarrh which leads to consumption, and all diseases of the head, throat and lungs. 12th. Dr Washington graduated in 1872 in Toronto with honors, in 1880 visited New York and Boston on a special Polyclinic course on diseases of the Throat and Lungs. Remember the date of present visit. "Consultation free."

A SUCCESSFUL CAREER. A Short History of a Flourishing Financial Institution. The Huron and Bruce Loan Company is now entering upon the fourth year of its incorporation, and its general success since its incorporation has been such as to warrant its perfect safety to all with surplus monies who have no ready facilities for investing their means otherwise, and who require their interest promptly at regular periods. To all such the following recital of Loan Companies now doing business in Ontario, may prove interesting:

Loan Companies have now been in existence for 35 years, and their usefulness and success proven beyond all question. There has been no failure of any Loan Company formed under the General Loan Company Act.

There are now 65 loan companies in Ontario having a subscribed capital of \$71,178,607, of which \$30,175,470, is paid up.

The total amount of the subscribed capital of the Banks of Ontario is \$17,756,300, being less than one-quarter of that of the loan companies. The paid up capital of the Ontario Banks is \$17,580,875, being about one-half that of loan companies. The loan companies of Ontario have on deposit on call or short notice, \$15,640,100; on debentures in England, \$41,525,294. Total, \$63,420,332. The Banks of Ontario have deposits on call, \$19,619,897. Deposits on notice, \$22,736,174. Total, \$42,356,071. Showing Loans Companies over Banks, \$21,064,261.

The Huron and Bruce Loan and Investment Company receives deposits from trustees, parents or children in sums of from one dollar to three thousand dollars, and allows compound interest added every six months, at rates as agreed upon. The highest current rates are allowed on deposits, according to the amount and time left. For further particulars call at the Company's office, corner of Courthouse Square and North St., Goderich.

HORACE HORTON, Manager. Goderich, 24th Feb. 1888.

If George Westinghouse would invent an air-brake that would stop a grocer's bill in half its length, he would earn the gratitude of thousands of estimable people.—Pack.

RETIRING FROM BUSINESS. ONE HUNDRED THOUSAND DOLLAR STOCK OF CHOICE STAPLE & FANCY DRY GOODS

AT VERY LOW PRICES. In consequence of Mr. H. W. Brethour retiring from the Dry Goods Department of the business on the 10th of August...

BLACK AND COLORED DRESS GOODS. BLACK AND COLORED SILKS AND SATINS. TABLE LINENS, NAPKINS, &c.

5 PER CENT. OFF! In addition to the very low prices which the goods are marked at, we will allow on all cash purchases of \$2 00 a discount of five (5) per cent.

H. W. BRETHOUR & CO. BRANTFORD.

BRANTFORD, APRIL, 1888. DEAR SIR, I take this medium for announcing that on the 10th of August, it is my intention to retire from the Dry Goods Department of the business...

Having had now a long and very close application to business of over Thirty Years, I feel entitled to at least partial rest and release from the cares of a large business.

In making this announcement, I extend to the thousands of customers and correspondents sincere thanks for their liberal patronage, and the universal confidence bestowed on me.

While retiring from the Dry Goods Department I will, however, continue the Clothing and Carpet establishment on a larger scale than heretofore, and more directly under my own supervision.

Special attention will be paid to the Ordered Clothing Department; also to the Carpet and House Furnishing, so as to make them complete in every particular.

Soliciting a continuance of your patronage, I am, yours respectfully, H. W. BRETHOUR.

THE STANDARD-BRED TROTTER STALLION, GODERICH CHIEF,

(the fastest stallion in the four counties) will be at Whately's Hotel, Goderich, from Tuesday noon, until Thursday morning of every week during the season.

THE PRINCIPAL

COLD MEDICATED. HEAD OFFICE, 215 YONGE ST., TORONTO. N. WASHINGTON, M.D. L.E.P.S.O., Eminent Throat and Lung Surgeon.

WILL VISIT GODERICH, ALBION HOTEL, JUNE 14TH, 1888.

AND ONCE A MONTH THEREAFTER. DISEASES TREATED.—Catarrh of the Head and Throat, Catarrh of the Larynx, Chronic Bronchitis, Asthma and Consumption.

These are a few of the many who have been permanently cured by Dr. N. Washington's Method.

Mr Stevenson (boiler foundry), Petrolia, Ont., catarrh of the throat.

Miss M. Cornish, Wallaceburg, Ont., asthma and consumption.

John E. Kersey, Baginoo, P.O., Ont., catarrh of the head.

A. D. Ullin's son, Wallaceburg, Ont., catarrh of the throat.

Robt. Menzies, Waresham, Ont., enlarged tonsils.

Mrs F. Scott, Strathroy, Ont., enlarged tonsils.

Edith Pierce, Strathroy, Ont., enlarged tonsils.

W. Lindsay, Petrolia, Ont., catarrh.

Mrs John Tait, Vyneer, Ont., catarrh head and throat.

R. Noble, Jeweller and watchmaker, Petrolia, Ont., catarrh.

H. McCall, P. M., Strathroy, Ont., broncho consumption.

W. H. Storey, Esq., of Storey & Son, Acton, Glove Manufacturers, cured of catarrh. Write and ask him for particulars. 2139

There is no Mistake About it.

The public verdict is that ALEX. MUNRO has the right Goods, right prices and in the right time.

I want to emphasize the fact that I study the requirements of my customers, and have made a special effort this season to procure everything New, Useful and Fashionable that is worth having.

I make no specialty of low lines of Goods, I aim at keeping good articles, and at prices commensurate with quality.

If brevity is the soul of wit, I will not exhaust patience by particularizing particulars, but will merely say that in all departments there will be found a choice assortment.

ALL GOODS MARKED IN PLAIN FIGURES: AND STRICTLY ONE PRICE. ALEX. MUNRO,

2004- Draper and Haberdasher.

GREAT CASH SALE

FOR THIRTY DAYS. Ten per cent. allowed on all purchases over one dollar.

J. C. DETLOR & CO.

REMOVED!

Rees Price & Son

have removed to the mammoth store formerly occupied by Wm. Kay, next to Bank of Commerce, where they will be happy to meet their old customers, and as many new ones.

REES PRICE & SON.

THE "WIRT" FOUNTAIN PEN.

EVERY PEN GUARANTEED. CAN USE ANY WRITING INK. Writes Thin and Thick Letters, as with a dipping nib.

No paper spoiled by blotting. No time wasted dipping into an ink bottle.

We have no hesitation in saying the "Wirt" is the most reliable Fountain Pen in the world. This may be confirmed by the fact that it is the most easily freed from any sediment or clogging substance that may be contained in the ink.

The large number of these Pens which have been sold in Goderich and vicinity, some of which have been in constant use for years, fully testify to their durability and efficiency.

Each Pen is enclosed in a neat case, and is accompanied by full directions for filling, cleaning and using, also a glass and rubber bulb injector for filling the Pen.

Price, \$3.00 and upwards.

D. MCGILLICUDDY, Sole Agent, Goderich, Ont.

ALEX. MORTON, GODERICH; MANUFACTURER OF FIRST-CLASS CARRIAGES.

I HAVE THE LARGEST AND BEST STOCK OF FIELD AND GARDEN SEEDS in the section. Call and examine my stock before making any other calls. I am bound to satisfy you.

AS TO WEST POINT.

SOMETHING HISTORICAL REGARDING THE MILITARY ACADEMY.

Commencement Time Causes the Minds of Americans to Turn Toward This Beautiful Spot on the Hudson—Some Interesting Old Belles Illustrated.

NOTHER year has rolled round, and West Point is about to send out a new crop of embryo heroes. There are the usual examinations, the artillery, infantry and cavalry drills, bridge building, signalling, exercises theoretic, with a slight sprinkling of the practical thrown in, by which soldiers are made. Once a year some half a hundred of these young men are turned loose, some to go at once into civil life, some to spend a few years in sleepy forts and garrisons, and then make a break for activity, while others, after passing a lifetime in the military service, at 64 are retired with the rank of major or lieutenant colonel. If they are very fortunate they may reach to the command of a regiment, a position attained in war time by many a youngster of 23 or 24 years of age.

Much interest attaches to West Point beyond that felt in the Military Academy. Every schoolboy lingers over the story of Arnold and Andre, "Gustavus" and "John Anderson," and the three Continentals who captured Andre, and their noble self sacrifice in not selling their country for the yellow metal. Perhaps not one in twenty who have read the story of Arnold's treason, of the capture and execution of an accomplished young British officer, really understands the strategic importance of West Point to both the British and the Americans during the revolutionary war.

At the time of this struggle the Hudson's river, as it was then called, was the main artery of communication linking the southern, the middle and New England

MAP OF WEST POINT. (From an old drawing.)

colonies, forming, with Lakes St. George and Champlain and the St. Lawrence, an almost continuous waterway to the great lakes. From the first both sides appreciated the importance of this line of communication. The British were very desirous of getting possession of it; for once having it they could not only prevent communication along its course, but their ships, patrolling the river, could prevent communication between New England and the west and south. In short, they could cut the colonies in two in the middle, and their subjection would be inevitable. It became at once an object with the Americans to blockade the river to the enemy's ships. Engineer officers reported that for this purpose the highlands about West Point furnished admirable ground. The hills on either side are very high, the river much narrower than at any other point, and taking a sudden bend between Constitution Island and West Point. This bend would force a deflection in the course of a ship, and was thus extremely favorable to the colonists' plan for obstruction, which was by means of a boom and a chain stretched across the river for its turning much of the heaviest of a ship brought to bear on the obstructions would be lost.

The first place, however, fortified by the Americans was at Fort Montross, several miles below; but one morning the British walked up to the fort from their ships lying in the river below, overpowered the garrison and destroyed works that had cost the Americans \$300,000. After this disaster Washington urged forward the work at West Point. Fort Constitution had been built on Constitution Island opposite, and Fort Arnold—afterward Fort Clinton—was built on West Point. Higher up beyond the plain other works were constructed, the principal of which was Fort Putnam. A chain was laid and a boom placed just below it. Sections of the boom have been preserved, and a portion of the chain, a cut of which is here given, is now preserved as a relic at West Point. The links average 114 pounds each in weight, and considering the size of the wooden ships of that period would doubtless have formed an effective

OLD CHAIN.

(With diagram showing position of chain and boom.)

These obstructions held the river for

the Americans, and West Point was during the whole period the key and the passage way between the northern and the southern states. There was always a considerable force kept there—at least for that time—and Washington was frequently there himself.

A meeting of the Executive Committee of the Irish National League in America has been called for June 12 at Cleveland, Ohio. The object is undoubtedly in regard to the action necessary to be taken on the Pope's rescript.

Don't allow a cold in the head to slowly and surely run into Catarrh, when you can be cured for 25c. by using Dr. Chase's Catarrh Cure. A few applications cure incipient catarrh; 1 to 2 boxes cures ordinary catarrh; 2 to 5 boxes is guaranteed to cure chronic catarrh. Try it. Only 25c and sure cure. Sold by all druggists.

More Remarkable Still. Found a cat, what the true public has been looking for these many years and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters, which in conjunction with Johnson's Tonic Liver Pills has performed some of the most wonderful cures in pure or impoverished blood soon becomes purified and enriched. Biliousness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. Sold by Geo. G. Druggist, Algonquin block, Goderich, Ont. agent.

For many years during the month of June there has been a gathering of strangers at West Point. It began by a congregation on the relation of the cadets, who were passing through their graduating exercises. Then West Point became a summer resort, and for thirty years her hotels have been filled with young girls and their mammae who send their daughters to this paradise for women under 20. Those who are attracted by the Military Academy go to the West Point hotel, built very near the spot where George Fort Clinton. There on the piazza the young girls dream away the summer afternoons with some youngster who, with a shaggy head and a swag waist, has been given short leave of absence for the purpose. There they listen to such sounds as float over the plain—the handling of muskets, the rolling over the ground of artillery, or the tramp of horses in drill, the strains of martial music. They may dream of the old chain and boom of Fort Constitution, the site of which is in view directly across the river, and fancy they can see the sentinels looking out from their sentry boxes, pacing back and forth; or Fort Putnam up on the hill, with its magazines once full of pork and powder, now a ruin.

All these things they may dream of, but they don't. Not one in a hundred is thinking about Fort Constitution or Fort Clinton, or Washington or Kosciusko, who engineered it all, or of the chain or the boom, or Benedict Arnold. What they do dream of is no one knows, but a shrewd guesser would be very likely to state a picture of army life in wedded bliss in some fort; not a fort about which there are half breeds and Indians, cowboys and cutthroats, but a fort where all the guns shine and martial music always sounds as delightfully as the strains coming from the West Point band across the "plain," a fort around which there are beautiful walks like "dustation" where one will stroll and pick wild flowers. Here they fancy a life with all the pleasures of peace and all the fascinating accessories of war. But at last the season is over, the cadet goes back to barracks or alone to his post on the frontier. And the girl! Alas, it is a practical age. Most often she goes back to her home, marries a broker or pork packer, and settles in a "stone front," though sometimes she realizes enough of the dream to go with the cadet to his fort.

FORT PUTNAM.

The Homes of the Hindoos. The Hindoos are not without taste in their dwellings. They build their houses very light and airy, and with some ornamentation, and this part is for the husband; the wife has her apartments in the rear of the house, and the windows are only holes placed high up near the ceiling, just like many of the little ventilators we see in this country. There the wife has to remain in semi-darkness. Some may speak of the modern improvements made in the houses, the introduction of gas and water, but these improvements are only a cause of more trouble for the women prisoners. Formerly the wife could go to the well to draw water and have, for a half hour, a little gossip with her friends, but she is deprived of all this now, also when she wanted a light she could go to the well for a red coal, but has now these little gleams of happiness in her life. She is not allowed to read, because if seen with a book or paper or anything of the kind she will be punished. The Hindoos are very well what they are called, being a widow—Home

The HARRIS STEEL BINDER.

Having had about fifteen years' experience in repairing mowers and reapers, there are a few important items that I have discovered in regard to the Harris Steel Binder, which to my mind gives its superiority over all others.

1. Repairs can be finished over 50% faster than by any other company.

2. Orders left with me at 8 a.m. can be filled by 3 p.m. from the manufactory. This is the most important point to be considered in the best harvest time.

3. The machines, though they are commonly built almost exclusively of steel, and therefore better able to stand wear and tear than any other, are not so easily repaired, and the parts required are not so readily available as in my shop. I have the largest stock of repairs for various machines of any agent in the section.

D. K. STRACHAN, Practical Machinist, Engine Builder and General Repairer of all kinds of Machine Work, as well as Millwrighting, etc. etc. Samples of the best binding wire made are kept on hand, and farmers requiring any quantity can be supplied. Works—Victoria St., Goderich, Ont.

AT FAIR COLUMBIA.

AN ARSENAL WILL SHORTLY BE ESTABLISHED THERE.

Here Lived Two Men Who Were Afterward Presidents—James K. Polk's Law Office—Andrew Johnson's Tailor Shop—Tennessee's Intellectual Center.

Columbia, Tenn., the home of many great men in times past, has recently been thrust into prominence by the president's signature to a bill for the construction of an arsenal for the storage, manufacture, repairs and, in time, the distribution of arms.

POPK'S RESIDENCE.

Columbia is a city of 6,000 inhabitants, located in the center of the famous Blue Grass region, from which emanate the fastest horses, the sleekest mules and the fattest cattle.

POPK'S LAW OFFICE AS IT APPEARED WHEN TOWN BORN.

office all covered with signs and occupied by a cobbler. In other years it had served as a law office for President James K. Polk. Upon the hill, a few squares away, still stands the modest home in which he and out six miles to the west is the grand old farm where the Polks surpassed the world in hospitality.

JOHNSON'S SHOP AS IT NOW APPEARS.

The trip had no such effect, and he was made governor of Louisiana with headquarters at St. Louis. One day he went down the Mississippi to Memphis, or where it now stands, and started for Washington on the Natchez trail.

The new arsenal will doubtless be located on Dr. Johnson's site. It was located at Columbia on account of the city being the center of an immense productive area and natural supply center during the war.

BOSTON'S PUBLIC LIBRARY.

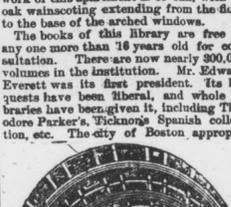

A Magnificent Building Erected for a Worthwhile Cause.

The Boston Public Library is one of the finest libraries in the United States. It is the pride of Boston. A new building is about to be erected for this institution which will rank as a structure as high as the collection of books does as a library.

BOSTON'S PUBLIC LIBRARY—EXTERIOR.

In the center there is to be an open court with an area of 100 by 135 feet, in which there are to be seats for readers in summer. The arrangements for ample light, an absence of which is the greatest defect in most public buildings.

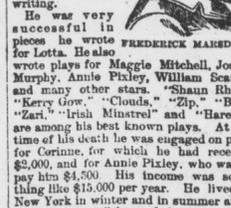

BOSTON'S PUBLIC LIBRARY—AN INTERIOR VIEW.

The books of this library are free to any one more than 16 years old for consultation. There are now nearly 300,000 volumes in the institution. Mr. Edward Everett was its first president. Its bequests have been liberal, and whole libraries have been given it, including those of Frederick Parker, Pickens, Spanish collection, etc.

"FREDERICK MARSDEN."

The Well Known Playwright Who Recently Committed Suicide.

Frederick Marsden, the playwright, who committed suicide recently in New York, was born in Baltimore forty-five years ago. His family name was Silver, but he subsequently changed it. He received a good education and studied law. Having been admitted to the bar he practiced for several years in Philadelphia. He finally drifted over to the stage. His line was comedy. He played many years ago in Wood's museum and the old Globe theatre.

FREDERICK MARSDEN.

Local tradition states that he was the protégé and intimate friend of Thomas Jefferson, and on account of his great melancholy the president sent him on his two years' exploration tour, hoping to cure him.

Named for Governor of Missouri.

Mr. E. E. Kimball, nominated for governor of Missouri by the Republicans, was born in Steuben county, O., forty-five years ago. His father removed to Missouri when he was a boy, and when the war broke out young Kimball was attending school. He enlisted in a Gen. Holland's company of college boys and was at Wilson's Creek. Later he joined a New York regiment and served three years. He graduated as a lawyer from Ann Arbor college, and in 1868 formed a partnership with Judge Charles G. Burton in Vernon county, where he is still practicing law. His residence is at Nevada. He has been frequently nominated by Republicans of Vernon for county attorney, and in 1886 was the Republican candidate for congress in the Twelfth district.

Consumption Among Cattle.

A medical opinion is that if consumption were eradicated from cattle, it would soon disappear from the human race.

Five per cent. of English cattle have tuberculosis, and 20 per cent. of some Jersey herds of the United States are said to be affected.—Boston Budget.

Health Notes.

SICK CHILDREN.

When lithe ones are suffering pain we find the application of hot liniment wrap in old bits of cotton flannel (or even the stove plates) to their feet, and the spots they complain of, will often relieve them as quickly as they are found to be aching.

We often make poultices for pain in the side or dysentery pains. To a teaspoonful of castor oil add a half a small hen's egg, make it with hot water into a smooth mush, spread a 'hick as a book back.' We prepare a bag the size needed, one side thick with lin, the other very thin, or even doubled, if needed, put the mush in, sew, about the end and then spread with a broad-bladed knife: here a strip of flannel (to pin around a baby or young child) to which we baste the corners of our poultice to insure its keeping smooth and close to the skin.

If a child suffers from cold feet get two pieces of warm, one cold, the other very warm, and put its feet first into the cold and then the hot, every minute changing them, and soon it can keep them in the hot water with comfort; then rub them briskly with a soft towel; a little liniment or alcohol will be good.

Children should be taught to tell of aches and pains or slight sore throats, that one can supply simple remedies in time, and advise them as to diet. We often say to our boys, 'Perhaps you had better not eat any supper, or only a very little bread and milk,' and they don't mind a good prescription. Salt water gargle in the first stage of sore throat, with a little turpentine or liniment on the outside, may save serious sickness.

I have told before of fat pork for ear ache, but it will bear repeating. Cut a good piece to stop up the opening, with a pointed bit to get inside, and it will relieve ordinary ear ache very soon.

Always keep a child warm and keep out any breaking out; give remedies to bring out whatever eruption is suspected.

We have had trouble with coughs that lemon juice and sugar seemed to relieve better than anything else.

For slight burns on baby's fingers a bit of court plaster will give speedy relief; so always use it. Cuts should be simply tied up tightly to hold the edges together and covered with court plaster when done bleeding. Young mothers want to put on something to cure, but they err and retard the healing, as any physician will tell them.

A sick child is much more comfortable on a large rocking chair or its bed than on any person's lap, and can be attended so much more easily. Give tones of encouragement and steady hands go far with any sick person, and a child is especially sensitive to outside influences. The mother who cannot control herself seldom is fit to attend upon her sick child. If she is ill, her child in health will reap her reward when they obey her in sickness.

Sprains are among the most severe accidents to which we are liable. When a joint is sprained swelling comes on gradually. In dislocation the swelling and loss of motion of the joint happens immediately after the accident. A sprained limb should be kept perfectly quiet. To prevent inflammation, use poultices of worm-wood, hops or tansy.

Fever and restlessness in children is frequently caused by indigestion. If you find the skin of the little one hot and dry, remove it by castor oil, and give for supper. Give the child a warm bath, then give it a cup half full of warm water to drink. In a few minutes the undigested food will be thrown off the stomach and the child will soon be sleeping soundly. A dose of magnesia, about half a teaspoon, and should be given before breakfast will probably restore to the child its usual health, but should fever and nausea continue during the day following the attack, send for a physician, who will undoubtedly approve of what he has just done, and should the symptoms develop into scarlet fever, measles, chicken pox or any of the diseases to which children are liable, the attack will probably be of a mild nature.

A cup of tea as served at tea tables contains usually but a trace of the alkaloidal principle, but infusional quantities are capable of exerting powerful effects upon some tea drinkers. The tannin found in tea does not differ from the agent found in oak and other barks which the tanners use to convert the raw hides of animals into leather. It is a powerful astringent, and consequently, taken internally, is apt to produce constipation and its attendant evils. Confirmed tea drinkers are usually troubled with constipated bowels, and hence with dyspepsia, the king of evils. Not all tea drinkers are thus afflicted, but the number is by no means small.

Mild infusions of tea are undoubtedly serviceable to many, when not used to excess; and it may be further stated that a cup or two of tea taken during the day, at meals, rarely influences unfavorably vital processes in anyone, unless they are continued in excess. It is rather the abuse of tea, than its use, that causes serious physical evils. Four or six cups of tea taken during each twenty-four hours will in time produce tea poisoning and greater or less evil results.

A healthy stomach in the morning contains a considerable quantity of thick, tenacious mucus that is spread over and adherent to its wall. If food enters at this time, it will become covered with a coating of the tenacious mucus, interfering with the direct contact between the food and the stomach necessary to provoke the secretion of gastric juice. The mechanical stimulus of the food, however, causes an increased flow of mucus, which renders that already present less tenacious, and eventually permits the food to touch the mucus membrane and a flow of gastric juice, hitherto delayed, is the result; thus, digestion begins.

A Free Gift.

Around each bottle of Dr. Chase's Liver Cure is a medical guide and receipt book containing useful information, over 200 recipes, and pronounced by doctors and druggists as worth ten times the cost of the medicine. Medicine and book \$1. Sold by all druggists.
